others. The two buildings where the explosion occurred were separated from the works proper. The dead are:—Pierre Menard (foreman); J. B. Robillard; J. Lauzon; Chas. Lauzon; J. Crepain; Archie Legault; A. Duberry, sr.; N. Rousseau; O. Trepanier. The company are unable to say what caused the explosion which was heard for several miles. The effects of the explosion were terrific. The two buildings were torn to fragments and the bodies of the victims had been hurled with the debris through the air with such force as to mangle them terribly.

T. M. BURNS, M. P.
The conservative of the Conservative Party in the House of Commons, headed by the popular T. M. Burns, is hard at work throughout Gloucester county and is meeting with good success wherever they appear. While it is not possible at this stage of the proceedings to make an accurate prediction as to who will win, it is conceded by all that three government supporters will be elected whether they are from the conservative or liberal ticket it would be hard to state at the present time. But tickets are in the fight to win, and if the opposition save their deposits they will be fortunate.

MANY SAILORS INJURED.
Boiler Explosion on French Cruiser 'L'annette' off Tangier.

PARIS, Monday. — Admiral Philbert commanding the French naval forces in Moroccan waters, telegraphs that fourteen sailors were wounded, five of whom seriously, as a result of an accident to the boiler of the cruiser 'L'annette' off Tangier yesterday. The vessel proceeded to Tangier, where the injured men will be placed in hospitals.

RAN OVER AND KILLED.
PRINCE ALBERT, Sask., Monday. Fred Wright, a local terryman, was run over by a C. N. R. yard engine yesterday and horribly mangled. Both his legs and his right hand were cut off.

NEW CARLISLE, P. Q., Monday. — A meeting of the municipal council was held Monday evening, the 3rd inst. As it was the general monthly meeting all the members were present and a general routine of business was gone through. Mr. W. L. Caldwell, the present mayor, wishing to retire, Mr. James W. Hall was appointed by the council as mayor for the coming term. A vote of thanks was tendered to Mr. W. L. Caldwell, the retiring mayor for his services during the past two years. The Ladies' Guild of St. Peter's church, Paspébec held a concert in their parish hall on Tuesday evening the 4th inst. As it was a very cold night and the roads had the people of ex Carlisle were unable to attend and consequently the parish hall was not crowded as it might have been. A heavy snowstorm set in on Friday evening continuing all day Friday, accompanied by a high wind. Our roads are now in a bad condition.

SUSSEX, Tuesday. — Dr. Pearson has made an affidavit in which he sets forth in detail the attempt of the opposition to compel him to pay \$1000 as a condition to become a candidate. The publication of the affidavit is a sensational blow to the opposition as Dr. Pearson is a leading man in their party and this shows their party pretensions to be the greatest humbug.

KNOXFORD, N. B., Tuesday. — In company with four young sons of which Gray and had a dozen other residents of this district Sheriff Foster of Woodstock yesterday tramped through the woods in the neighborhood of Gray's home searching for the body of the murdered baby. The son of the prisoner was able to direct the sheriff to the road taken by their father after he left the house and could tell him the probable road followed for a further distance. Yet in spite of this help and even though the directions given by Gray were closely followed by the sheriff's party the search was fruitless. So much snow has fallen since Gray left home on Jan. 24th that all tracks have been deeply covered and the finding of such a small body as that of the baby is a matter of much difficulty. As evening approached the search was abandoned for the night and the sheriff returned to Bath. At an early hour this morning the party was again organized, Gray's sons accompanying it as before but up till noon no trace of the infant's body had been found. Sheriff Foster will continue his efforts today and all day tomorrow if necessary returning to Woodstock for the preliminary examination which commences on Thursday morning. He is not inclined to bring Gray to the scene of the tragedy to search for the body unless it is impossible to find the body without his aid. But unless the efforts of the searchers meet with success before Thursday Gray will be taken out by the sheriff to lead the way to where he left the little one to die from exposure.

THE BOUNTY PAYMENTS WERE \$2,758,346.

OTTAWA, Tuesday. — The total of the bounty payments for the calendar year was \$2,758,346. The iron and steel bounties were \$2,305,295, and the payment on petroleum totalled \$44,151.

SURE SIGN OF AN EARLY SPRING

WINNIPEG, Tuesday. — Spring like weather prevails throughout the Northwest and rain is general today. The mercury at Winnipeg is above a year ago it was 46 below. Wild geese have been moving north several days.

REGRETS THE PASSING OF NATAL ACT.

LONDON, Tuesday. — The Morning Post's Japanese correspondent regrets the passing of the Natal act by British Columbia as possibly a new element of misunderstanding, a revivification of the question, to say the least, is a trifle disconcerting.

UNKNOWN FISHING SCHOONER GOES DOWN.

NEW YORK, Monday. — A fishing schooner sank today on the east side of the main ship channel about one mile to the north of Southwest Shoal. Her cabin was carried away by drift ice and was swept up the bay. Her identity and the whereabouts of her crew are unknown.

ENTERS SUIT FOR \$45,000.

MONTREAL, Tuesday. — An action has been taken against Recorder Dupuis for \$45,000 on the ground that while a member of the legislature he bought islands and timber lands from them. The claim is for \$1000 a day so per law for the forty-three days he sat a member.

JOCKEY CLUB OFFERS LARGE CASH PRIZES.

Endeavoring to Improve Stock Throughout Ontario.

TORONTO, Tuesday. — The directors of the Ontario Jockey Club have decided to offer annually \$1000 in premiums for thoroughbred stallions with the hope of improving the half-bred horses in the province of Ontario. There are to be seven prizes ranging from \$250 to \$500.

BATHURST, Monday. — The liberal ticket, which rumor had retired from the field, owing to one of the candidates being in poor health, is now complete and is recognized as stronger than at first chosen.

The ticket is J. P. Byrne, barrister and County Councillor, of Bathurst; S. R. Leger, merchant and County Councillor, of Carleton Place; and Dr. A. S. S. of this county. In order to insure success of this enterprise Mr. O. Turgeon, M. P., will be called upon to obtain large grants of money for the construction of what is known as the 'liberal ticket' in the iron industry of this country. THREE Trying Times in A WOMAN'S LIFE WHEN MILBURN'S HEART AND NERVE PILLS

are almost an absolute necessity towards her future health.

The first when she is just budding from girlhood into the full bloom of womanhood.

The second period that constitutes a special strain on the system is during pregnancy.

The third and the one most liable to leave heart and nerve troubles is during 'change of life'.

In all three periods Milburn's Heart and Nerve Pills will prove of wonderful value to tide over the time. Mrs. James King, Cornwall, Ont., writes: "I was troubled very much with heart trouble—the cause being to a great extent due to 'change of life.' I have been taking your Heart and Nerve Pills for some time, and mean to continue doing so, as I can truthfully say they are the best remedy I have ever used for building up the system. You are at liberty to use this statement for the benefit of other sufferers."

Price 50 cents per box or three boxes for \$1.25, all dealers or The T. Milburn Co., Limited, Toronto, Ont.

GLORIOUS MEETING IN THE BAPTIST CHURCH

(From Wednesday's Graphic.)
Rev. H. F. Waring preached a powerful sermon in the Baptist church last evening on the 'Power of Choice.' In graphic language he showed how a man's life was determined by a few great choices. He applied it especially to the religious life. Mr. Waring has a fine faculty of telling stories well and his sermons are embellished by many striking illustrations. His sermon made a deep impression last night upon all who heard it. The series of meetings which have been so fruitful of good will close on Friday night. It is expected that a large number will unite with the churches as a result of the services. Mr. Waring will speak tomorrow night on 'Christ's greatest invitation.'

GAME SLAIN BY KAISER.

Emperor William an Exhibitor at the Sportsmen's Berlin Exposition.

BERLIN, Monday. — The sportsmen's exhibition, now opened here, includes many exhibits of the Kaiser, who is an enthusiastic sportsman and a dead shot. His record for 1905 is about 400 deer, 800 roes, 150 boars, 300 pheasants, 300 quail, 500 ducks and 300 hares. This game is sold to the market, where it is sold at high prices.

Constipation

Baked sweet apples, with some people, bring prompt relief to constipation. With others, however, all that bread will have the same effect. Nature undoubtedly has a vegetable remedy for every ailment known to man, if physicians can but find the way to health. And this is the way to health.

The bark of a certain tree in California—Carya sagrana—gives a most effective and safe remedy. But combined with Egyptian Senna, Slippery Elm Bark, and other natural ingredients, it gives the greatest possible power to correct constipation. A toothsome Candy Tablet, called Lax-ets, is now made as the most effective prescription. Its effect on Constipation, Biliousness, Sour Stomach, Bad Breath, Salivary Glands, etc., is indeed prompt and effective. No griping, no unpleasant after effects are experienced. Lax-ets are put up in beautiful, illustrated metal boxes at 4 cents and 25 cents per box.

More Terrible Than War!

More terrible than war, famine or pestilence is that awful destroyer, that hydra-headed monster, Consumption, that annually sweeps away more of earth's inhabitants than any other single disease known to the human race.

"It is only a cold, a trifling cough," say the careless, as the irritation upon the delicate mucous membrane causes them to hack away with an irritating tickling of the throat. When the irritation settles on the mucous surface of the throat, a cough is the result. To prevent Bronchitis or Consumption of the Lungs, do not neglect a cough however slight as the irritation spreading throughout the delicate lining of the sensitive air passages soon leads to fatal results. If on the first appearance of a cough or cold you would take a few doses of

Dr. Wood's Norway Pine Syrup

you would save yourself a great deal of unnecessary suffering. Dr. Wood's Norway Pine Syrup contains all the life-giving properties of the pine trees of Norway, and for Asthma, Croup, Whooping Cough and all Throat and Lung affections it is a specific. Be sure when you ask for Dr. Wood's Norway Pine Syrup to get it. Don't be humbugged into taking something else. Price 25 cts.

Miss Lena Johnston, Toledo, Ont., writes: "I have used Dr. Wood's Norway Pine Syrup for throat troubles after taking numerous other remedies, and I must say that nothing can take the place of it. I would not be without a bottle of it in the house."

Halifax, N.S.—

Dear Chum:

I am enjoying my visit with grandpa and grandma hugely. Yesterday grandma took me down to the docks to see the ocean liners. Gee! they're whoppers! I bought me my third box of Moir's Chocolates. They are the sweetest candies ever. The chocolate outside are awfully smooth and rich, and in the inside are cream, jellies and nuts. Those called Moir's Chocolate Chips taste like honey dipped in chocolate. Another kind called Moir's Nougatines are so good that I teased grandma into promising me another box tomorrow. I'm not a bit homesick.

Your old chum,
Tommy.

How about Northumberland now, eh?

The opposition is on the brink of despair.

When a bachelor meets a widow a little love-making is dangerous.

If the Tories are going to hold their two seats in Northumberland they've got to hustle some.

Olga Netherlands may have played 'Carmen' in a wheel chair, but can she play 'Sapho' on a fence picket?

It is indeed fortunate that the days are growing longer, for it certainly takes some men sixteen hours to do a day's work.

Leap year only comes once in four years, but it would seem that there is quite enough to keep the men humble and submissive.

We should like to see a little common sense used occasionally, but there are too many people who will not stand for an innovation of that sort.

If any man has an idea that a large and attractive portion of his women acquaintances are simply dying for him about now is when he gets the jolt of his life.

Being brimful of good intentions is all right if you possess sufficient executive ability and persuasive power to induce your innocent fellow mortal to carry them out.

What is the trouble with these stories we hear of starvation and distress in Canada? If there should be any great distress among the recent immigrants it should come from those who have gone to the West. Yet, Win, who reports that there is less poverty than usual. Can it be that the stories of dying children and starving wives which we see in the Toronto papers are manufactured for political purposes? We hope not; yet such things have been known in this country of recent years.

The cause of Irish Home Rule marches on, despite the declaration of Mr. Asquith that the British Government will not this year introduce a bill for the extension of the powers of self government of Ireland, the conversion of the Earl of Dudley to the cause of conciliation rather than of coercion is a notable game for the Irish cause. In fact, it looks as if Parnell's prophecy was coming true that when the day arrived for the granting of Home Rule to Ireland it would be a Conservative government which would give it. Stranger things have happened.

The Conservatives assert that the beneficiaries of their benevolence in 1882 had no title in their timber limits because they did not take advantage of the party's generosity and avail themselves of the opportunity of holding the limits. That argument may be good in some cases, but it will certainly not hold in that of Mr. G. H. Perley, M. P., for Argenteuil, for what gentleman held his limit for six years and then turned it back upon the Crown because it was not worth working. Yet, this is the very same limit which the Opposition now asserts is worth half a million dollars!

PREVENTIVE MEDICINE.

The banishment of disease is an attractive theme. For generations people were trained to think that a certain percentage of deaths must be expected from diphtheria, smallpox, consumption, and other important factors in making up mortality tables. Now they are being taught that there is a chance of the entire elimination of these diseases. The development of this idea that medicine is to prevent disease rather than to treat it when it comes is one of the most encouraging things in modern life. The challenge to consumption has been issued with no uncertain sound. Smallpox is being so well handled that its terrors have almost entirely disappeared. The destructive elements of other diseases are being limited more and more with each passing year as the causal conditions are discovered and then removed. The statement recently made by one of America's leading health authorities about diphtheria is right in line with this general advance. It seems too good to be believed that there is any chance of doing away entirely with a disease which has hitherto sorrowed to so many homes. And yet, when that which has been accomplished in her directions is recalled, the prophecy that diphtheria within ten years will become as rare a malady as leprosy, does not seem to hold after all. The signs of a healthier race are many. In hospitals and laboratories earnest investigators are attacking the problems of medical science with renewed determination. Large endowments have enabled these workers to devote their time to the search for causes of disease without having to stop to think of how to get their bread and butter. One discovery after another has been announced until both the physicians and people have felt the new inspiration of hope. The earnestness is being placed upon the carelessness of the individual. Disease and death do not come because they must in accordance with the decrees of fate. They are largely due to inattention to simple rules which any

one may follow. That seems to be the judgment of preventive medicine. Its remarkable development during recent years has attracted the attention of the whole world. To help it along in its victorious career should be the ambition of every one who loves his fellow men.

DALHOUSIE UNDER LIBERAL RULE.

The ratepayers of Dalhousie should have their gratitude to the liberal party for the great benefits bestowed upon their petty town by the liberal government of Ottawa and Fredericton by voting the ticket, LaBrosse and Currie, the standard bearers of the liberal party in the present election. Among the many benefits derived are the following, viz., dredging of the harbor, erection of a new wharf at the west end of the town, 35 x 300, addition to I. C. R. wharf, 30 x 150 and the building of a new ferry wharf at a cost of \$10,000. The local government also originated the idea of a steam ferry service between Dalhousie and the Quebec side, built a ferry wharf 500 feet long and kept it in repairs during twenty years, built crib wharfing to protect Water street which has been of considerable advantage to the residents living upon the flat, made a good road on Shelton Hill, and opened up several new streets before the town was incorporated, reduced the grade of the McGregor and Cottage hills at considerable expense to assist trade to come from the country district to the town and secured an annual subsidy to encourage the maintenance of steam service between Dalhousie and Campbellton.

Well, here's to LaBrosse and Currie.

Premier Robinson is our best bet.

Chalk up Restigouche's pair for the government.

What's the matter with LaBrosse and Currie? They're all right.

Last night's meeting showed pretty plainly that tourism is at a premium in Restigouche.

Tories talk about deserting a sinking ship. Trouble is with the Tories they don't know what a sound ship is. They have never had one.

The future of Campbellton is allied with the future of the international railway. A vote for the Tories means a vote to strangle the international project.

There were no exaggerations or distortions about Mr. Robinson's remarks, nothing but plain facts eloquently presented. What a contrast to the balderdash of the Tory leaders.

'The money a man amasses,' remarked the philosopher, 'is not the measure of his value to the community.' 'No,' answered Mr. Dustin Stax, 'it's the measure of the community's value to him.'

We are grieved to the heart to note that little Kate Vanderbilt, being but a child of four, could not give Count and Countess Szechenyi anything more elaborate than a beggarly outfit of solid gold dinner plates.

A suit at New York develops the fact that Mrs. Josephine Schmidt, widow of a brewer who died in 1889, leaving interests worth \$2,000,000, has so managed the business that it is now worth \$20,000,000, and she receives \$500,000 per annum as her compensation.

Far off Uganda and Nigeria are to see the very newest thing in currency reform, the royal mint of Great Britain having turned out 32,000,000 coins of aluminum for circulation in that country, the claim for the metal being its lightness and its freedom from the contaminating germ.

John B. Martin, proprietor of the Cafe Martin in New York, who offered money to his employees who would marry and who agreed to give premiums for children, has been compelled to pay out in a year \$5,150. There were twenty-six marriages, forty-nine babies and one pair of twins.

In charging the jury in the Thaw trial District Attorney Jerome, reviewing the evidence brought to prove Thaw insane in early youth said, "We have all had trunks in our childhood, when we were slighted, but were we insane?" No, we received the best of medical treatment, a good sound spanking.

LUMBERING

REACHED HIS LIMIT.

A Seattle lumber firm is responsible for giving circulation to the following story:

A small man one day started walking down the hill past the Seattle Public Library; behind him, and going at a much more rapid gait, intent on being on time at a bargain sale down town, puffed a large fat lady. As she passed him on the steep incline, she slipped, gallantly he attempted to aid her, with the result that both fell, the man small man underneath, and for nearly a block, until the Third Avenue car tracks were reached, they tobogganed down. Cursing to a stop the small man (still underneath), panted out, "Madam, if you wish to go farther you must get a transfer; this is a stiff as I go."

TREES AND TRADE.

One of the best assets that can be possessed by a lumber dealer and turned to account in his efforts to secure trade is a practical knowledge of the variety, characteristics and products of the trees of the forest. Having this idea in mind, and feeling that the annual crop of cuttimbers has become so large that this method of advertising is no longer novel or effective, the sales department of Mitchell Brothers Company of Cadillac, Michigan, is sending its friends something practical and unique, in the form of a handsome booklet, entitled "Michigan Trees and Mitchell Products". In so doing, the company has certainly left the well-worn paths, and its novel New Year offering will be welcomed by every lumber dealer.

The booklet is of sufficient size to display very graphically the extreme height of several of the trees depicted in a picturesque manner, those including the white pine on which the fame of the Cadillac region was founded, black ash, basswood, beech, birch, gray elm, hemlock, soft maple, cherry, and hard maple. The company manufactures products from all these trees and each is fully described in the booklet. The character and uses of the wood are given in detail in each case. Every dealer in these products will be better equipped to secure and handle trade if he familiarizes himself with the contents of this interesting pamphlet.

FOREST WORK AT ARMY POSTS.

(Forest Service.)

That Uncle Sam believes thoroughly in the conservative management of timber lands is shown by the fact that he is practicing forestry on lands other

than those contained in the National Forests in the west.

Beddes co-operating with private owners of wood land in assisting them to apply conservative management, and with various states in a study of their forest conditions; the United States Forest Service co-operates also with the other branches of the Federal Government. Chief among these branches is the War Department. The military reservations, which so far have been examined and reported upon, are those at West Point, N. Y.; Fort Wingate, N. M.; the Rock Island Arsenal, Ill., and the Picatinny Arsenal, in New Jersey. At West Point the forest consists of second-growth hardwoods, and for some time has, in part, supplied the post with cordwood, lumber, hurdle poles, tan bark and other forest products. The Forest Service made a working plan for this forest in 1903, and since then cutting has been along conservative lines, with a view of perpetuating the forest, and at the same time supplying the post with a definite amount of wood each year. Similar plans are in preparation for the forests of Rock Island and Picatinny Arsenals.

By far the largest piece of co-operative work in which the Service is now engaged, is that at Fort Wingate, New Mexico, where, under the supervision of forest officers, the War Department is selling 25 million feet of western yellow pine. This timber lies in the southeast corner of a reservation of 139 square miles, is inaccessible to the post, and was consequently offered for sale. The top market price is being obtained for it, and it is being cut under a rigid contract, according to forest principles. Under this contract no trees under 16 inches in diameter can be cut, except those which are dead or defective, and those whose removal will benefit the forest, and no tree can be cut unless marked by a forest officer. Two trees, 16 inches or over in diameter, are left per acre when needed for seed; stumps must not exceed 15 inches in height; and all merchantable timber, both standing and down, as indicated by the forest officer, must be removed. Failure to remove any timber so indicated and the intentional cutting of unmarked trees are penalized by a stumpage charge of double the contract price.

All brush is being piled and burned, and thus the danger of fire is considerably lessened. The sale was started during the past summer, and it is expected to continue through a period of five years, with a cut of five million feet a year. Already about seven million feet has been marked for cutting by a forest officer. The sale is progressing without friction between buyer and seller, and, from the start, a forest officer has been continuously on hand to look out for Uncle Sam.

LAWS LABOR MEN OWE TO THE PRESENT GOVERNMENT.

One of the highest and most important duties which a government owes to the people is the protection of the interests of the wage earners in different occupations.

The present government, moved by its desire to do justice to this most important section of the population, has, during its tenure of office, initiated and carried through legislation of such a nature as to fully protect the wage earners of New Brunswick, and which entitles it to their earnest and cordial support.

Below is given a summary of the different acts passed by the present administration, to which the careful and earnest attention of every working man throughout the province is invited.

THE MECHANIC'S LIEN ACT.

The effect of this act is that every mechanic, machinist, builder, laborer, contractor or other person doing work upon, or furnishing materials to be used in the construction, alteration, or repair of any building, or erecting or furnishing or placing machinery in, upon, or in connection with any such building, erection or mine, shall have a lien for the price of the work, machinery, or materials upon the building, erection, or mine, and upon the lands occupied thereby.

By this act of the present government it is impossible that people who do work in the erection of a building as carpenters, masons, bricklayers, or in any other way, shall be cheated out of their pay. Those who furnish the materials going into the building have the same protection. The government has made it impossible that they should be cheated out of their wages, or out of the cost of materials going into the construction of such building.

AN ACT RESPECTING THE SECURING OF WAGES TO WAGE EARNERS

By this act the government had in view that clerks and other employees have an equal right to protection for services which they give to their employer. It frequently happens that for some reason the wages of the employee of the firm remain unpaid for months. By the act above referred to, it is provided, that, whenever an assignment is made for the benefit of the creditors, the wages and salaries of all persons in the employment of the person making such assignment, shall, for at least three months, be a preference and priority over all other debts.

THE WOODMEN'S LIEN ACT.

No labor is of a nature more difficult, or exhausting than working in the woods, and it was too often the case, that after months of labor spent in the depths of the forest, the failure or dishonesty of a contractor, left the men in his service without recompense for the months of arduous toil in getting out lumber and preparing it for market. To remedy this evil, the Government passed the Woodmen's Lien Act, by which it was provided that any person who performs any labor, in connection with any logs, or timber, intended to be driven or hauled from the woods, shall have a lien thereon for the amount due for such labor, and such lien shall be a first charge on such logs or timber.

By this act much hardship has been avoided, and whereas formerly the likelihood of obtaining pay for his services was often a matter of anxiety and doubt to the woodman, now, by the beneficent effects of this legislation, his pay is amply secured by being made a lien upon products of his toil.

THE WORKMEN'S COMPENSATION FOR INJURIES.

By the common law, compensation was not allowed for injuries to workmen, where such injuries resulted from the negligence of a fellow employee, or for many other reasons, but this Act respecting compensation by employers for injuries to workmen, damages for injuries caused to workmen are recoverable to him, or in case of his death, by his representatives.

By this legislation, New Brunswick has followed the example set by Ontario and Great Britain, and the procedure is simply by a petition to a Judge of the Supreme Court, setting forth the particulars of the claim, thus avoiding the length and expense of a lawsuit in the ordinary way. The principle of the legislation is, that where an employee suffers injury in the service of his employer, there is a moral obligation that the loss should not fall wholly upon the workman. By this Act the government exhibits an interest in the welfare of the working people, which speaks far louder than the empty professions of would-be labor advocates.

THE NEW BRUNSWICK FACTORIES ACT, 1905.

By this legislation the Government has extended its care over those employed in factories, by making provisions for the prohibition of the employment of boys and girls in dangerous work, and making it unlawful to employ children under certain age, and under certain circumstances. It restricts the hour for labor for women and young girls, making it unlawful to attempt to clean machinery while same is in motion, and provides stringent regulations for the ventilation and sanitary conditions of every factory. It further provides for one or more inspectors, whose duty it is to see that the provisions are carried out, and who must have access to the factories at all times.

By the provisions of this legislation, a long step in advance has been taken in the matter of the protection of the laboring people, and especially of women and young girls. By the passage of this Act alone the Government is deserving of commendation from every home in the province, from which women and young girls go out day by day to assist in the maintenance, and to earn their own livelihood by working in the different factories in this province.

To no reasonable request that has ever been made by the laboring people of this province for protection, or for advancement of their interests, has this Government turned a deaf ear. These Acts above enumerated have not been passed under the crack of the whip, or by the threats or menace of labor unions, but in every instance, the Government has felt a sincere desire to accede to the reasonable requests of the laboring people, and the Government comes before the working people of this country bringing with it evidence of its good will in the passage of these Acts and asks that its conduct be approved. When contrasted with the criticism and fault finding exhibited by some people, whose interests in labor are wholly confined to attempting to ride on the shoulders of the working man to political advancement, the record of this Administration shows who are the true friends of labor. What has the Opposition to answer to all of this? It cannot deny the passage of these Acts, and those who seek to pose as controllers of the laboring vote would do well to pause, and to assure themselves that they are right, in thinking that words are more influential than deeds, or that fault finding and criticism are more to the taste of the working people than Acts of Legislature by which their position is rendered secure, and their wages protected in every possible emergency.

MANHOOD SUFFRAGE.

In addition to the many acts for the material welfare of those interested it must not be forgotten that it was this present Government which conferred the inestimable boon of Manhood Suffrage upon every citizen of this province, thereby opening the gates of equality and common citizenship to all, and furnishing an incentive to every man, no matter in what position of life he may be, to engage in the public affairs of the country. By this legislation every man in New Brunswick is given an equal chance, and a square deal with every other man in the activities of life.

Against these accomplishments of the present administration what has the Opposition to offer? Further, we would ask those most interested in the above legislation, to say whether or not they ever heard an Opposition speaker say one word in commendation of the Government for the above mentioned legislation?

No word of praise of the present Government has ever passed the lips of the Opposition candidates for St. John, for any of the above enactments. What does this mean? It simply means that the Opposition are more interested in their Party, and in their Politics, than they are in the advancement of the working class of this country.

What the Government has done in regard to the above matters, it has done freely, and of its own motion, and because every member of the Government was confident that the people thereby afforded protection, were entitled to what has been given, and it feels assured that in the course it has taken, it has earned, and will receive, the earnest and cordial support of those interested in the above legislation.

A FEW GOVERNMENT ACHIEVEMENTS IN A NUT-SHELL

The organization of a Colonization and Industrial Bureau designed to increase our population and promote our prosperity.

Increased grants to Teachers and the adoption of a Teachers' Pension Scheme.

The encouragement of the International Railway, a project which will result in Campbellton becoming a great railway centre.

The erection of high grade bridges in all sections of the province.

Promotion of the Iron Industry in Gloucester the result of which will make that county one of the great industrial centres of Canada.

Promotion of the idea of government ownership of the branch railways.

The flotation of a loan of \$1,250,000 on terms lower than the prevailing rate of interest.

THE SCHOOL BOOK SLANDER.

During the past few years the Opposition party has been seeking to create a prejudice against the Government by falsely charging that the prices paid for authorized School Books within this province are excessive, and far above what is charged in other provinces.

One Opposition speaker after another has repeated this charge, each growing bolder and more reckless in statement in every succeeding misrepresentation, culminating in the reported statement of the leader of the Opposition at Moncton a few days ago, to the effect that the prices of these Books are twice as high as necessary, and charging that they are exorbitant and beyond the prices charged in other provinces.

Seldom has this reckless leader been so completely entrapped. This deliriousness puts his reputation for exaggeration and misstatement beyond that of any other public man in New Brunswick.

But it was hardly expected that he would attempt a comparison between the price paid in New Brunswick and that paid for bankrupt stock in another Province.

The only specific comparison of prices paid here and elsewhere, is in the case of the Reader in New Brunswick costing 40 cents, which is compared by the Opposition with a reader in Ontario costing 15 cents. The unfairness of this is apparent, when it is known that in Ontario the present Readers are to be discontinued, and in a few months these books will be a dead stock, and the dealers have made the cut in prices to save what they can, but before the cut in prices the Ontario Readers were higher than the New Brunswick ones.

The official figures made public at the Government convention in St. John last week have caused the friends of the Opposition to wonder whether a cause supported by such baseless fabrications ought to receive countenance from any fair minded citizen.

The complete figures for British Columbia are not available by the Educational Department, but for the other provinces the following tables have been prepared, showing, in the first schedule, the prices of all books common to the different provinces, except Readers. In the second Schedule, the prices of Readers in the different provinces where such information could be obtained, are shown:—

Books.	N.B.	N.S.	P.E.I.	Que.	Man.	Alb.	Sas.	Ont.
Arithmetic.								
Primary	\$ 45	\$ 40	\$ 30	\$ 20	\$ 40	\$ 35	\$ 35	\$ 25
Dr. High School	60	40	60	60	60	60	60	60
English Grammar	35	30	35	50	40	40	35	35
History	20	50	50	60	50	50	50	40
Geography	30	45	60	75	65	65	65	65
Algebra	80	1 25	80	1 25	1 00	90	90	1 00
Geometry	75	75	1 12	1 00	1 00	1 00	1 00	75
	50	80	80	1 00	75	1 50	1 40	75

SCHEDULE II—Showing price of Primers and Readers in six provinces:

	Quebec.	Manitoba.	P. E. Island.	British Columbia.	Nova Scotia.	New Brunswick.
Primers and Readers	\$ 2 88	2 50	2 35	2 29	2 15	2 15

SCHEDULE III—Showing price of all school books mentioned:

	Manitoba, full cost.	Quebec, full cost.	P. E. Island, full cost.	Nova Scotia full cost.	New Brunswick, full cost.
	\$ 8 25	8 12	7 52	7 65	6 20

Surely no party which is guilty of such flagrant misrepresentation can hope to succeed!

The above official statement shows how completely the Opposition has thrown truthfulness and fairness to the winds!

Can the electors approve of such misrepresentation? Will they not rather continue their confidences in an administration by whose careful business foresight, the School Books of New Brunswick are cheaper than in any other province of the Dominion—The Opposition will be overwhelmed by

DURHAM CENTRE.
To the editor of the Graphic:
Sir:—Never was more enthusiasm displayed in Durham than on last evening, the 10th, when the electors assembled in a large number to listen to the pleasing, and welcome voices of Messrs. LaBillette, Currie and McKenzie. When the honorable gentleman pointed out an: explained the truth of the present government. The parish hall was packed to the doors there not being standing room. Mr. McKenzie certainly is a very fine speaker and all hope to see him here again before the 3rd of March, and on that day all will vote the straight ticket, LaBillette and Currie. Well done LaBillette and Currie.

(From Tuesday's Graphic.)
A crowded meeting was held in the parish hall, Jacques River, last evening in the interests of the local government.

The large hall was filled to the doors, and much enthusiasm was manifested.

Mr. Patrick Ullian was elected chairman, and introduced the speakers.

Addresses were delivered by Hon. C. H. LaBillette, Wm. Currie, M. P. P. and A. E. G. McKenzie, which were patiently listened to by the electors present.

Messrs. LaBillette and Currie spent the day visiting the electors and were highly pleased with the outlook in that section of the county, and Durham promises to roll up a majority in favor of the government despite the fact that one of prospective candidates came from this parish.

A meeting will be held at New Mills this evening.

RESTIGOUCHE THE GREAT STRONGHOLD OF LIBERALISM

PREMIER ROBINSON IN ELOQUENT ADDRESS INSPIRES HUNDREDS OF PEOPLE HERE

Opera House Filled Here Last Evening to Hear New Brunswick's Premier and Others

OPPOSITION FLAYED

Restigouche will stand by liberalism and that means the men who espouse its principles. Never was more enthusiasm displayed at a public gathering in the County of Restigouche than that displayed at the convention of the government party yesterday afternoon and the same may be said of the public meeting held in the evening. That Restigouche is heart and soul in favor of the provincial government was clearly indicated at both meetings. At the latter were many independent and Tories and they were forced through the course of the arguments of the speakers to applaud on every occasion.

At the afternoon meeting the addresses were short and to the point. In the evening they were more extended but as fully to the point. Premier Robinson, the able and eloquent leader of the New Brunswick Liberal government, was the principal speaker at the evening meeting in the opera house. He tore the Hazen opposition arguments to threads and won scores of new friends in Restigouche. The opera house last evening was filled to overflowing and the addresses were listened to with rapt attention.

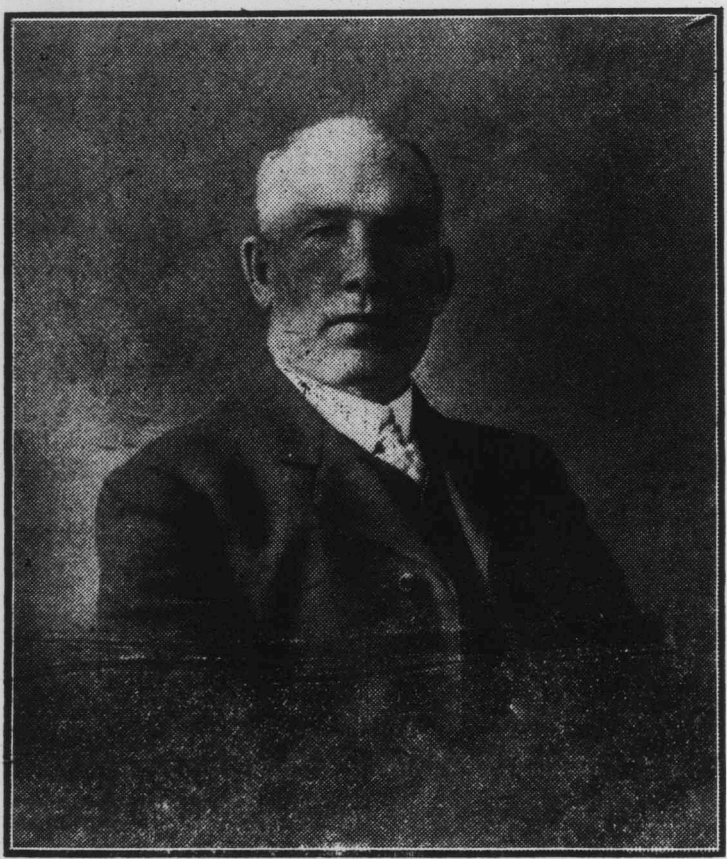

Delegates Assemble. The convention which was scheduled to open at 2:30 did not do so until shortly after three owing to the late arrival of some of the delegates. Mr. LaBilloy who with Mr. Currie called the convention, announced that the convention was called to order and asked that the delegates appoint a chairman.

Mr. Bassett Chairman. It was carried unanimously that John S. Bassett of the parish of Colborne be appointed chairman. Mr. Bassett on assuming the duties of the office thanked the delegates for the honor conferred upon him. He told in a few words of the object of the convention. He said that the calling of the convention was probably unnecessary as the party was so well represented by the delegates. He said that the convention was called to order and asked that the delegates appoint a chairman.

Tribute to LaBilloy. The commissioner of public works, he said, had been elected by the County of Restigouche for the past twenty six years during which time he had gained steadily in the estimation not only of his own constituents, but of the people of the province as a whole. Mr. LaBilloy had administered the affairs of his office in a highly creditable manner and even the opposition would admit that he has been the most efficient and most energetic commissioner of public works the province has ever had. Mr. Bassett for sure that Mr. LaBilloy's colleagues, Mr. Currie, had shown himself to be a most capable representative.

On Two Grounds. Mr. Hazen supported him on two grounds, viz. personal and political. He admitted him as a man as well as the political principles he espoused. At the election which he contested his opponent was the strongest possible man the opposition could have brought out. Now that Mr. Currie is on the ticket with the chief commissioner of public works there is no chance to defeat him.

Delegates Present. The following were the delegates from the different parishes:—

WM. CURRIE, M.P.P.

ADDINGTON—W. G. Cooling, M. Mercier, M. G. Mann, H. C. Gillis, John McIntyre, S. M. Moore, S. C. Martin, A. J. McIntyre, Geo. Vermette, S. S. Harrison, D. Richards, Wm. Storey, A. T. LeBlanc, A. B. Curtis, C. A. LeBlanc, M. P. Moore, Anthony Boudreau, A. G. LeBlanc, Alex. Roy, J. Baxter, Thos. Malcolm, Peter LeBlanc, Celeste LeBlanc, C. Purves, Thos. Dickie, Wm. Duncan, G. F. Forlotte, F. Bellanger, J. H. Taylor, Alex. McLennan, Wm. J. Dunan, Wm. P. Gray, Albert Andrew, J. C. Ferguson, Henry Saville, J. E. Kelly, John Duncan, Frank S. Blair, Ernest E. Blair, Richard Sutton, W. L. McRae, Capt. Peterson, Dr. A. Martin.

BALMORAL—Jos. LaPage, H. Turcotte, John Dittie, John J. LaPointe, Fidele Allain, John J. McIntyre, John J. Arsenau, R. Libertie, Thos. Caron, Arville Dugas, Arvey DeRose, Muril Bernatchez, John Eplode, Nelson Bernard, John N. Dittie, Alex. Malais.

DALHOUSIE—Angus Nadeau, Jos. Russell, Alex. LeCoffre, F. Leault, Alex. C. Levesque, Fred Malcolm, Robt. Thompson, Jas. Wright, E. J. Evans, Arnall Johnston.

COLBORNE J. Landry, Alfred Poirier, Frank Nadeau, Joseph McIntyre, Joseph W. McIntyre, Wm. Craig, T. Craig, J. S. Bassett, Wm. McIntyre, Geo. W. McIntyre, J. C. McLean.

DURHAM Herman Ullman, Alex. Ward, Thos. N. Dickie, John Wm. Dempsey, D. Hickey, John McGregor, I. Dempsey, D. Robertson, E. McMillan, M. Pernet, Nat McDonald, Alex. Dickie, Thos. Hayes, R. Ullman, John Groux, Wm. Craig, Thos. Craig, W. Lutz, W. Lutz.

After the enrollment of the delegates met and appoint a nominating committee of three from each parish. Thomas Hayes of Durham, suggested that the nominations be made in open convention as the other plan was a waste of time.

Mr. Hayes' amendment was carried. **Name Two Candidates.** Harvey Gillis moved that Mr. LaBilloy be one of the candidates of the government party in Restigouche and Thomas Hayes moved that Mr. Currie be the other candidate.

Both motions were carried unanimously. Mr. LaBilloy was then called upon. He thanked the delegates for the honor conferred upon him and afterwards spoke of resolutions which the convention would have to deal with. He said that it was very gratifying to him to find that after twenty-five years as the representative of Restigouche he was still the unanimous choice of his party. During his public career and particularly that as commissioner of public works he had met with many disappointments and discouragements.

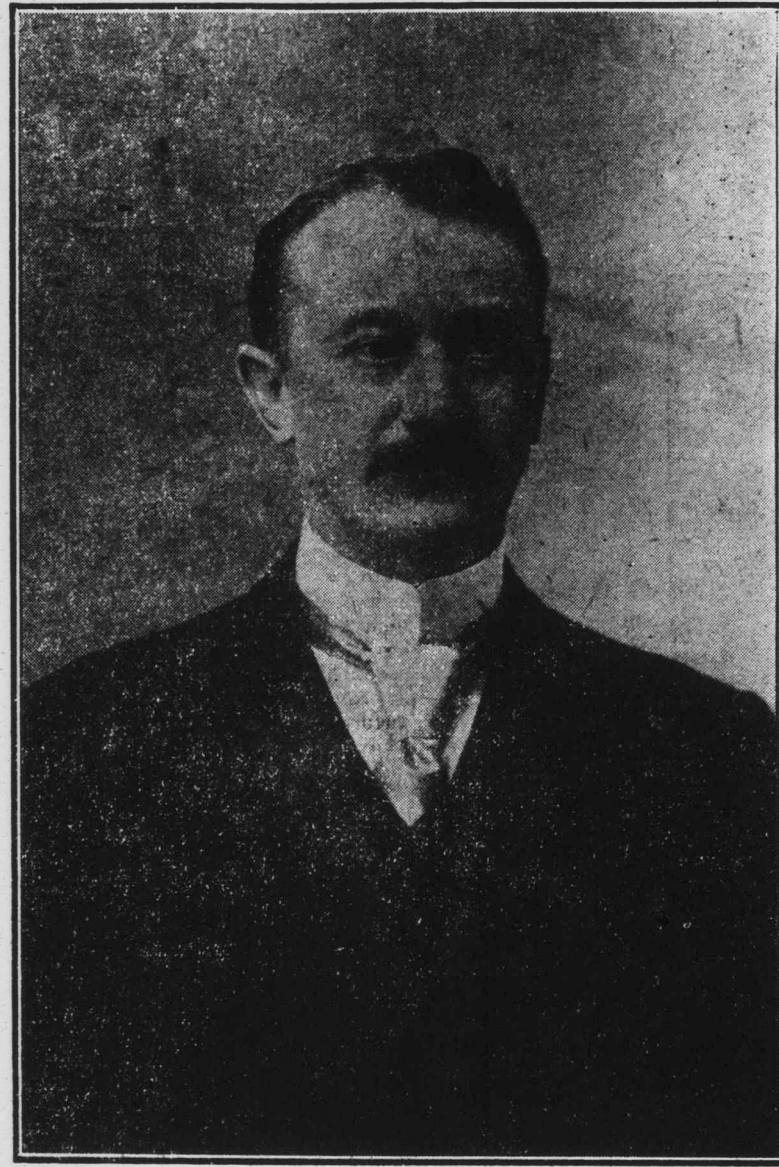

Showered Right and Left. He had been showered and abused right and left by the opposition and his friends. He had been criticized most adversely and charged with all sorts of crimes, but when he found himself the unanimous choice of his party after twenty-five years of public service he forgot all that had been said against him and thought only of the allegiance and friendship of his party toward him in his own County of Restigouche. The confidence re-

posed in him by his constituents gave him new life, new energy for the battles of the future. In the evening he hoped it would be his pleasure to place before his constituents his record as a public servant so that they would see that they had not been wrong in nominating him as their representative. He declared that no better policy had ever been presented to the people of this county than that which would be outlined at the meeting in the evening. Mr. LaBilloy stated that he had been associated with some able men during his public career, but he had never met any more able to represent a constituency than his present colleague, Mr. Currie. Few men had gone to Fredericton who he believed would be quicker to grasp the parliamentary routine than Mr. Currie. Mr. Currie's speech in reply to the speech from the throne at the last session demonstrated the confidence which the government reposed in him and proved him to be a man of more than ordinary ability.

Always Busy. Mr. Currie was constantly looking into the work with which the house had to deal and particularly with that which concerned his own county. The commissioner said that his greatest wish was that every ballot cast for him would carry the name of Mr. Currie.

Mr. Currie on rising to speak thanked the delegates for the honor conferred upon him. He stated that as he listened to the hardships and difficulties which the government party of public works had to contend with he wished that he had had some of them. He went on to say that they gave a man experience, a breadth of ideas and something to talk to his constituents about. He referred to his experience in the House and added that it took a man more than a year to get used to the ways of the House. But during the year that he had sat in the House he had endeavored to do his duty and he thought that he guarded and advanced the interests of Restigouche County during that time. He had discovered that it was not necessary for a man to be an eloquent speaker in order to represent his constituency. He referred to the important legislation that had been enacted during the past session. It was perhaps the most important in the history of the province. He referred to the increased grant to the University of New Brunswick, the bill to preserve our forests, and the bill to increase the salaries of teachers. He felt that no class or people were more deserving of an increase in salary than the public school teachers. They were fast leaving their positions to take up more remunerative occupations. The county was losing its best teachers owing to the small salaries offered and deemed it advisable to make an increase.

The International. Mr. Currie thought, however, that the best piece of legislation which the government had enacted was that which enabled Mr. Thomas McLean to put through the international railway. The grant of \$3,000 a mile as a guarantee of the bond was very small compared with that granted by other governments to railways. In the western provinces guarantees are given by the government up to \$25,000 a mile. Mr. Currie said he wanted

HON. CLIFFORD W. ROBINSON.

to keep the international railway project close to the hearts of the people of the province. The southern part of the province, he said, had reaped a rich harvest from railway bonuses etc., especially during the opposition regime previous to 1882.

Very Small Guarantee. The guarantee of bonds for \$3,000 a mile was a very small amount. He called attention to the attitude of the opposition toward the international project throughout. Mr. Currie went on to say that the county of Restigouche paid twenty-five per cent. of the total amount of the revenue of the province and he thought that this county had a right to expect something.

However, he didn't want to be sectional and hoped to see the province prosper as a whole. At the same time Mr. Hazen favored the grant of \$15,000 a mile to the St. John Valley route. Mr. Currie felt that the guarantee of the bond would have cost \$30,000 a mile if necessary to this road, simply because it passed through his own counties.

Mr. Currie thought that the people of Campbellton should stand together for the completion of the international and never rest until a bridge spans the Restigouche. Regardless of party politics the people should strive their utmost for a bridge. It would mean that Campbellton would become a great market centre.

Mr. Currie referred to the improvements which had been made in Restigouche County by the government during the past year. He particularly spoke of the completion of the Jacquet River bridge. He also spoke of the work already in preparation for the interprovincial bridge at Matapedia.

Mr. Currie thought that the government's colonization scheme was an excellent one. He thought the proper thing to do was to run roads and lay off farms in sections which were not given over to lumbering.

He spoke of our mineral wealth and expressed the opinion that there was much wealth of this kind beneath our hills. He referred to the present development in Gloucester and said that it was the government's intention to advance the mining industry in this province as much as possible.

Mr. Currie spoke of his colleague, Mr. LaBilloy and the pleasant relationship which existed between them. The speaker asked his friends to stand by the ticket. If there was a name to be left off, he said, leave off mine. We do not want to lose the portfolio. Mr. LaBilloy can do more for the county than any other man and he has done more for it in the past.

In conclusion Mr. Currie asked all his friends to work hard and fight a clean, honorable election.

The member was followed by Arthur T. LeBlanc and A. E. G. McKenzie who made interesting and eloquent addresses at the conclusion of which the following resolutions were passed:—

Moved by J. C. Ferguson, seconded by John C. McLean: Whereas the Government of N. B. is co-operating with the governments of the Dominion of Canada and the province of Quebec

in reference to the construction of an interprovincial bridge at Matapedia, and whereas this bridge, when constructed will prove of vast importance to the citizens of this county in promoting communication an trade between the two provinces.

Therefore resolved that this Restigouche county heartily endorses the work of the Honorable Commissioner of Public Works in his efforts to further the construction of this interprovincial bridge. Moved by John Groux, seconded by Thos. Craig:

That whereas the present local administration so ably led by the Hon. Clifford W. Robinson, has by its progressive policy in promoting the international railway

which aims at rapidly developing the vast unoccupied areas of the public domain, by its honest administration of the public expenditure, which has restored confidence both at home and abroad, confidence in the credit of the province until today it stands second to none of any of the provinces in the Dominion.

And whereas the government policy and administrative record gives assurance of the annual increasing continuance of the present industrial and commercial expansion.

Therefore resolved that Restigouche County Convention renews its expression of confidence in the present administration and pledges itself to spare no legitimate means to secure the election of the candidates nominated this afternoon.

Moved by John C. McLean, seconded by Murdoch Mann:

That whereas the present local administration has by its policy and actions promoted the welfare and industrial progress of the County of Restigouche by the guaranteeing of the bonds of the international railway, thus opening up a large section of desirable timber and agricultural lands to development and settlement, also forming a link between Campbellton and the American markets, which cannot fail but be of special benefit to the county of Restigouche as well of general benefit to the whole northern section of New Brunswick.

Therefore resolved that this Restigouche convention approves of the Government's policy in this matter.

The Evening Meeting. It was a large and enthusiastic gathering that assembled in the opera house at eight o'clock, the spacious building taxed to the utmost. A number of ladies were in the audience. Among those on the platform were A. H. Hilyard and Thos. Malcolm.

Mayor Murray presided and after making a few general remarks and announced that the candidates selected by the convention in the afternoon, he called upon Mr. Currie to address the meeting.

Mr. Currie, on rising said he considered it a very high honor to be the first gun in the fight. This was one of the pleasantest places in the campaign—a large and intelligent audience before him and the premier

and chief commissioner of public works behind him. During the year he had been a representative of Restigouche he had tried to serve the county to the best of his ability. He referred to the gross misrepresentation of the opposition press and thought they didn't believe what they said themselves. He had discovered during his term at Fredericton the best representative was the worker and not the talker, and he came before the people at this time with confidence.

Mr. Currie then referred to some of the important bills that had gone through the House at last session. One was the increased grant to the University of New Brunswick, where by a chair of engineering and forestry would be established. The bill providing increase of salary to teachers was another bill which all would favor. As a result there were already more pupils at Normal School.

Grant to Improve Stock. The grant of \$25,000 to improve the stock had met with general satisfaction by the farmers and would be of great benefit.

Mr. Currie then dealt with the international railway project, speaking along the lines as in the afternoon.

Taking up the question of the debt of the province and the speeches of Mr. Flemming on the matter, Mr. Currie said they were made on the sliding scale. The debt, according to Mr. Flemming, was now down to \$3,300,000. It would probably be a good deal less if he made any more speeches. He (Currie) didn't care if the debt did increase if there was development to warrant it, and the province was surely developing and the result would justify the expenditure.

He made a few comparisons showing that New Brunswick's debt was a good deal less than some of the other provinces and a half a million less than the city of St. John.

In closing Mr. Currie said that Restigouche had been fairly well treated by the Government. The people were satisfied and will show it on the 3rd of March. He referred to his colleague, the Chief Commissioner, as pleasant, broad-minded and fair, with the one desire to attend to the wants of the people.

Mr. Currie was warmly applauded and his address was attentively listened to throughout.

Hon. Charles H. LaBilloy. Mayor Murray in introducing the speakers referred to Mr. LaBilloy, twenty-five years' undisturbed service for the County of Restigouche, services which in that time were invaluable to this county.

Mr. LaBilloy thanked the chairman for his kind words and said that if he listened to his own wishes his speech would be short, but in fairness to the recorder in fairness to the electors and in fairness to himself he would be obliged to go into matters more fully as he felt it was due the electors that he give some report of his stewardship.

He would ask those present to go back with him to the beginning. In 1882, when Mr. Kenny, who by re-

moving from Restigouche and settling on the St. John river created a vacancy, a number of his friends, feeling that the French population, which had increased in numbers, was entitled to one representative, had induced him to allow himself to be placed in nomination and had been finally persuaded to enter the contest. With the large number of staunch friends, many of which were due to the influence of his father before him, he had little difficulty in securing his election, and since that day he had been successful, he had ever worked in the best interests of the county. It gave him great pleasure that afternoon to be again unanimously chosen, along with Mr. Currie, to contest the grand old county of Restigouche in the interests of the Liberal party. His colleague, Mr. Currie, was a very able man, a man who had the grasp of the business of the province, a man who could attend to the county business in the legislature in a manner equal to any this county had ever sent to Fredericton.

The Road Act. One of the great canvasses used against the present government, and one that is used at every opportunity, is the Road Act. Before the road law was enacted it was a notorious fact that forty-five per cent. of the statute labor was never done, that the roads were not attended to as the government would wish. With this in view the present road law was enacted. It had been in some respects a disappointment to the government, and now the conclusion had been arrived at that this law would be repealed, and another enacted, making it optional to do statute labor, and allowing the municipalities to elect the officers and say what amount of money was to be expended. Now that this law will be repealed it should not be used as a canvass.

Go Back Twenty-Five Years. The premier would deal with the financial and other phases of the government's policy, so he would not dwell upon them. If the older electors will go back twenty-five years and view the schools of that day what would they find, what was the state of the schools of those days? They were poor in number, poor in character and almost useless as factors in the education of our young people. Contrast this with the state of affairs of today, when every parish has its school houses of modern type, when nearly every child can read. Twenty-five years ago one or two newspapers were received in each settlement. Today every house has its newspaper. Take the parish of Dalhousie as an example. The people of that parish are a working people, a sober people, and a quiet people, but what was the state of their schools? They were not fit for school purposes, and there were not enough of them. The clergy and business men endeavored to have this remedied, but every resident wanted the school built at his own door, so nothing was done. At last he had called a meeting of the electors, had talked

An effort is being made to hold the annual gathering of the South African veterans in the northern part of New Brunswick this year in Campbellton. There are some ten or twelve veterans residing now in Campbellton.

LIABLE TO BE TAXED.
A Fredericton despatch says:—The King vs. the City of St. John ex parte Abbott—This is the St. John assessment case and the court unanimously discharged the rule. The judgment was delivered by Judge Barker and was based on a recent decision of the privy council in Australian cases. His honor held that under this decision the salaries of dominion officials were liable for taxation regardless of what New Brunswick courts had previously decided.

CAMPBELLTON PEOPLE WITH WEAK LUNGS NEED VINOL.
Many people inherit weak lungs which are likely to be attacked by consumption. So also are lungs weakened by disease or by a stubborn hacking cough.

No matter what the cause, Vinol strengthens weak lungs and gives one the power to throw off wasting diseases.

The reason that Vinol has such power to heat and strengthen is because it contains in a highly concentrated form all the curative, medicinal and strength-giving elements of cod liver oil, actually taken from fresh codfish, with the useless, nauseating oil eliminated and tonic iron added.

So sure are we of what Vinol will do that we ask every person in Campbellton suffering from weak lungs, stubborn, hacking coughs or any wasting disease to try Vinol on our offer to return money if it fails. G. McDonald, Druggist, Campbellton, N. B.

THE WELCH MURDER.
Percy Bowns, of Woodville, Ont., Confesses to the Crime.

DETROIT, Mich., Saturday.—Percy Bowns has been arraigned in the police court, repeats his confession in the R. C. court and will be placed on trial for the murder of Mrs. Cornelia Welch, very soon, possibly tomorrow. His parents live a few miles from Woodville, Ont., and were overwhelmed by the terrible crime committed by their boy. He was a member of the Presbyterian church at his home, attending all the services, and was a Bible student. Only a week ago tonight he attended the church prayer meeting with his mother at his home. He said that he was impelled to confess the crime because of the haunting dream his mother had, and of which she told him after he reached home three weeks ago, in which she saw her son commit a murder and buy his clothing covered with blood, but was unable to see in the dream whether the victim was a man or a woman. Bowns is evidently not a bad boy at heart. His associations here, and his infatuation for a woman who had left town and whom he wished to join, led him to do the murder, to possess his victim's money, a paltry forty dollars.

WOODVILLE, Ont., Saturday.—Attention to the murder of Mrs. Cornelia Welch at Detroit early this month was attracted by the people of this section when it became known that Percy Bowns, who was born and raised around here, was charged with the crime, but this was increased today by the report that the youth had confessed to the killing of the woman. Not much is known in the village of the boy, he having been of a roving disposition since his family moved here two or three years ago from Lorneville Junction. He is a son of William Bowns, a G. T. R. section foreman, and he has been away from home for three years. Recently he worked as a street railway conductor at Oshawa.

ST. FLAVIE

ST. FLAVIE STATION, Thursday.—At regular meeting of the Municipal Council of Mont. LeLievre, presided over by the Mayor, P. H. A. Caron, a bonus of \$5000 was voted unanimously as an aid to the Matane & Gaspé Railway Co., on condition that the terminus would be at St. Flavie Station.

At the same meeting a resolution of the Hon. Justice, Sir John A. Macdonald, was adopted by the council, making a move towards the anti-slavery league of the province of Quebec. The mayor, P. H. A. Caron, will enforce this by laws of the council, and license act in the village, which is already well renowned as a quiet peaceful village.

The municipality would vote a bonus to a company who would establish a medicine shop and foundry in the village, which would be a paying affair.

YOU MAY NOT NEED IT NOW.

Here is a simple, home-made mixture as given by an eminent authority on Kidney diseases, who makes the statement in a New York daily newspaper, that it will relieve almost any case of Kidney trouble if taken before the stage of Bright's disease. He states that such symptoms as lame back, pain in the side, frequent desire to urinate, especially at night; painful and discolored urination, are really evidence. Here is the receipt; try it:

Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Take a teaspoonful after each meal and at bedtime.

A well-known druggist here in town is authority that these ingredients are all harmless and easily mixed at home by shaking well in a bottle. This mixture has a peculiar healing and soothing effect upon the entire Kidney and Urinary structures, and often overcomes the worst forms of Rheumatism in just a little while. This mixture is said to remove all blood disorders, the Rheumatism, by forcing the Kidneys to filter and strain from the blood and system all uric acid and foul, decomposed waste matter, which cause these afflictions. Try it if you aren't well. Save the prescription.

JUDGE TRUEMAN DEAD

ST. JOHN, N. B., Thursday.—Hon. A. I. Trueman, Judge of probate, died here early this morning. He has been ill for several days, and during the last two months seemed to be gaining rapidly and a turn for the worse came as a great shock to the family.

CURLERS LOSE AGAIN

ST. JOHN, N. B., Thursday.—The Campbellton curlers met their second defeat in the McCaffrey cup series at the hands of the St. Andrews club yesterday 64 to 56. F. L. Harrison defeated A. D. MacKenzie 22 to 12; G. A. Kimble defeated T. Wran 17 to 11, while F. P. Wetmore won from J. U. Thomas 14 to 12 and F. M. Murray won from W. A. Stewart 19 to 13.

EAT CATS FOR FOOD.

HEIDELBERG, Thursday.—Serious famine conditions are prevalent in the iron mining district of Northern Ireland. According to a despatch to the Dagens Nyheter from Kilmara, the inhabitants in the parish of Veltina have gone to the extent of slaughtering dogs and cats for food to prevent starving to death.

PRETTY HOME WEDDING.

One of the prettiest home weddings of the season took place last evening at 9 o'clock at the residence of Mrs. Malcolm Patterson. The principals were Miss Ethel May Harris of Belleville, Ont., niece Mrs. Patterson, and Thomas W. Matheson of Campbellton. The ceremony was performed by Rev. A. F. Carr, D. D. in the presence of relatives and friends of the contracting parties. The bride was prettily attired in a travelling suit of navy blue broadcloth with hat to match. There were no bridesmaids. The bride carried a lovely bouquet of roses and myrtle. The rooms were handsomely and tastefully decorated for the occasion with plants from the excellent collection of Mrs. Patterson. A dainty luncheon was served after the ceremony, and a social evening spent. The happy couple left on the Maritime for a honeymoon trip to Montreal, Belleville, Toronto and other Canadian cities carrying with them the best wishes of hosts of friends. The groom is one of the best known and most highly esteemed citizens of Campbellton. The bride has resided in Campbellton about a year, during which time she has made many friends. The presents were exceptionally numerous and costly.

MARRIED.
On Jan. 29th, by Rev. Dr. Chapman, Elus G. Collins to Eva L. Dempsey, both of Stouffville.

On Feb. 4th by Rev. W. A. Thompson, Thomas Day to Minnie L. Colombe, both of Campbellton.

AUDIENCE WITH POPE.

ROME, Thursday.—The Pope today received in private audience the Most Reverend Louis Naudin, Bishop of Quebec.

RESTIGOUCHE THE GREAT STRONGHOLD OF LIBERALISM

(Continued from page 1)

plainly to them, and the result was that today the settlement had in its nine miles of road seven fine schools which were a credit to the county of Restigouche. The same can be said of the Tobique, of Lorne, of Robinsonville, of Stellerville, of Glenora, and other parts of the county.

Something of What Has Been Done.

He had always in mind the advancement of the best interests of his constituency. You will find that the first bridge to be built across the Upsal river had been obtained by his efforts, the roads between Bathurst and Campbellton had been opened up and put in its condition. Now whatever had been built where there were none needed and at the present time preparations were being made to build a fifty or sixty foot addition to the river island wharf. Also look at the numerous fine steel bridges which have been built, and at the present time tenders are being asked for the new steel bridge at Bel River bar.

Let us look into the future. There is not a town in the province which has before it such bright prospects as Campbellton. If the citizens of this town but formulate a progressive policy, in twenty years, even less, Campbellton will have a population of twenty thousand. You want harbor improvements, you want the river dredged, that larger vessels can come up the river, you want shops to give employment to men, and steps should be taken to bring those works which have been started and are now being done here and he was pleased to announce that the firm of Duncan & McLennan were about tendering for the steel work on the Bel River bar bridge. This would mean something to the town of Campbellton.

Interprovincial Bridge.
The interprovincial bridge at Matapedia was another matter which he was glad to be able to state was almost an accomplished fact. At a meeting of the government to be held shortly in order in council would be passed a bill to authorize the construction of the bridge. The Quebec government would also vote a like amount and the Dominion, through the Hon. Wm. Pugsley, has pledged to vote \$20,000 towards the work, which together with the steel work of the former I. C. R. bridge valued at \$30,000 will make the structure cost \$50,000.

Then there was the other interprovincial bridge at Campbellton. He had been informed by Mr. Macell, that this bridge would be made free to the people of the province. The only stipulation was that the province of Quebec was to maintain one half of the passenger section and New Brunswick would maintain the other half. Thus with out one cent of taxation on the people of New Brunswick this bridge costing between four and five hundred thousand dollars will be built.

Vote the Ticket.
When the premier had reconstructed his government, he (Mr. LaBrosse) had been offered the provincial secretaryship, which was a promotion and carried a larger salary, but he had declined feeling that he could serve his country to better advantage in his present position. He asked all his friends to vote the straight ticket on March 3rd.

Although the French blood flows in my veins yet I believe that it was a mistake for me to run when the British were victorious on the Plains of Abraham, when the British flag was raised over Quebec. It was true that we sometimes had our little differences in local politics, but when the larger issues came up these were all forgotten, and we were a united people. In conclusion, he promised the electors that he would carry a larger salary, but he had declined feeling that he could serve his country to better advantage in his present position.

all the money I needed at five per cent. I ask you which is the best authority for the financial standing of the country, a burnt-storm lecturer or a great financial institution. Mr. Hazen said at Bathurst that the public debt was nearly nine million dollars. It has been shown that the statement there was an error of over two millions. The same considerable sum was in three times, and several other items were in twice, which Mr. Hazen himself was forced to admit, and yet that statement was published broadcast throughout the province of New Brunswick in pamphlets and tory newspapers. Mr. Fleming in an address given at the St. John Telegraph stated that we had a permanent debt in the province of New Brunswick in 1907 of \$1,511,902.50. In such important matters as these I owe to the people of New Brunswick to place the facts before them in a proper way. I offered to Mr. Fleming to leave the matter to an accountant of the Bank of Montreal, and they want public works or any reputable institution, and to stake my political life on the issue.

Challenge Accepted.

As there is no immediate prospect that our conservative friends will ever get into power to do the examining themselves, I have engaged experts who have been recommended to me by the Bank of Montreal who are going to work out upon the books and accounts of the province, and whatever their report, it will be placed fairly and squarely before the people. If it contains the government I cannot help it. We are going to give you facts. Premier Robinson quoted figures extensively to show the excellent financial standing of the province. He said money had been expended, but wisely spent. The people of New Brunswick are as progressive as those of any other part of the Dominion of Canada, and they want public works so long as their monies are prudently and wisely expended.

Branch Railways.

The absorption of the I. C. R. of the branch lines of this province has been one of the favored ideas of Hon. H. R. Emmerson. It was the duty of the provincial government to back it up. We have the sympathy and support and influence of Hon. Wm. Pugsley, Minister of Public Works in this important undertaking, and I believe the time has come when these branch lines will become feeders and part of the system of the great I. C. R.

School Books.
In regard to the school books, it is very desirable that the price of these be reduced. We have decided that we will appoint an independent committee of men who understand the publishing of school books and the requirements of the schools, who will be able to go into this question regardless of politics entirely, go into the matter and see if there is any possible way by which the price of school books can be reduced.

The readers which we use in the province of New Brunswick are splendid readers and of high class that they have been adopted in the whole or in part of every province of the Dominion except Ontario and Nova Scotia. But there is any possible way of reducing the price of readers, and we are going to do it. We want to see our children well educated. When Mr. Hazen says he has reduced the price of school books from two-thirds to one-half he is saying what is impossible.

A Policy For All.

Mr. Robinson stated that his policy was one which would appeal to all sections of the country. He referred to the International railway project. It was all very well for Mr. Hazen to go on the platform in Westmorland, and say that he was present honey-combed with railroads, and say that we should not guarantee the bonds of the International railway. We, however, look at the matter in a broader light. Restigouche, as Mr. Curdie says, contributes about twenty-five per cent to the total revenue of the province and we feel that there is something to be gained by it. It is only that we do all we can to assist this country. We are doing all we can to aid the International railway of which my esteemed friend, Mr. Thos. Macdonald, is the head and we intend to do so, believing that it will in time be the means of adding greatly to the revenue of the province.

Mr. Robinson referred to his controversy with Mr. Fleming. He told of his offer to appoint unbiased experts to examine the accounts and report upon the same. He declared that it was the purpose of his government to develop the resources of the province in every way. He referred to the development of the coal fields at Chatham and the iron ore properties in Gloucester. He said that Mr. Drummond had told him that there was 20,000,000 tons of ore in sight in Gloucester and that it would be developed for all it was worth. A smelting plant and iron works would be erected at Bathurst similar to those at Sydney. The premier felt that there was unbounded mineral wealth in the province and it would be the purpose of his government to encourage it in every way possible.

Tribute to Mr. LaBrosse.
Mr. Robinson paid a high tribute to Mr. LaBrosse. He said that the commissioner of public works stood high all over the province. He was the head of the government, so to speak, being the oldest member. The premier considered it an honor to have the benefit of his advice and experience. He felt that Mr. LaBrosse should feel honored in having so able and energetic a representative as Mr. Curdie. He was a good man and his country should be proud of him.

In conclusion Mr. Robinson expressed the belief that there was a great future in store for both Campbellton and Moncton as railway centres.

He added finally that the government was meeting with great success in all parts of the province and by

BATHURST.

BATHURST, Thursday.—Fishermen report a fair catch of smelts. Tommy Cod are very plentiful.

Should the weather remain favorable the carnival, which has been postponed twice, will be held Friday evening. The ice is in good condition and a good evening is expected.

R. M. Wynan, A. W. Charbon, Yarmouth; Jas. LeGall, St. John; Sidney Desbriay, Petite Rocher; C. E. Taylor, F. W. Gaudin, Moncton; are at the Robertson House.

The Boston Comedy Company played at a crowded house last evening. Leading parts were held by Edwin Grey, Mrs. Harcourt, Messrs. Collins, Mettury, and Webber, and all were decidedly favorably impressed with their appearances. Price, as usual, greeted his hearers with some of his original jokes on local politicians and hotel keepers. Tonight they will present the Gold King, and close their engagement with the popular Kathleen Mavourneen.

George Gidbert is confined to the house.

BATHURST, Friday.—O. Turgeon, M. P., arrived home yesterday and has been the guest in the interests of his party.

F. Roy Sumner, Moncton, is in town. The Boston Comedy Company played the Gold King last evening. Hal Collins as Jack Goodman, the Gold King, was strongly favorable. Frank McHardy appeared as Squire Ludlow which he filled excellently. Price Webber as Dr. McKim, the Irishman, and kept the audience in laughter. Edwin Grey as his daughter Pug, and sweetheart of the Gold King was very interesting. The company close their engagement tonight with the old favorite, Kathleen Mavourneen.

George and Miss Buttner returned last night from St. John and Moncton, with G. Blunt, J. Reel, Toronto; Geo. H. Turton, Montreal; J. A. L. Murray, P. L. Cosman, J. A. Kelly, A. R. McLean, J. A. Marvin, St. John; B. N. Barnes, Halifax; E. W. Seely, Moncton; Gilmore Brown, Fredericton; are registered at the Robertson House. About six inches of snow fell during last night.

In spite of unfavorable weather condition the open air rink has been cleaned and the carnival will be held this evening.

F. T. B. Young of Carleton Place is in town.

Geo. Windsor returned last evening from Miscou.

Rev. and Mrs. A. D. McCall, who maintained the members of the Methodist choir last evening.

Stop that talking! caught Dr. Shoop's Cough Cure will surely stop it, and with perfect safety. It is so thoroughly harmless that Dr. Shoop tells mothers to use nothing else even for very young babies. The whole course of green leaves and tender stems of a lung healing mountainous shrub furnish the curative properties to Dr. Shoop's Cough Cure. It calms the cough, soothes the sensitive bronchial membranes. No opium, no chloroform, nothing harsh used to injure or suppress. Demand Dr. Shoop's Cough Cure.

FREDERICTON, Wednesday.—The Liberals of York in convention here in reference to an issue which appeared in the Telegraph this morning, your correspondent interviewed Mr. C. N. Vroom and was assured by that gentleman that he has no intention whatever of being an independent candidate for the Legislature. In 1903, Mr. Vroom announced himself as an independent temperance candidate but subsequently accepted a government nomination. Previous to the recent convention he stated that his only idea was to aid in the formation of the strongest ticket possible. The ticket is being favorably received at St. George as elsewhere and Mr. Magee, the candidate of that section, has been active work. The other candidates are also getting down to business and determined effort. Still the rumor persists that Mr. Taylor of St. George will not be an opposition candidate but if he runs Mr. Magee will be at him in his own section. The joint committee for eliminating corruption is expected to meet at St. Andrews on the forenoon of nomination day.

Foster on Friday last is spoken of as a masterly one and has drawn all eyes in his direction as one of the coming men.

WANTED.—A capable housekeeper. Must have good references. Best wages. Apply at once to MRS. K. SHIVES, Campbellton.

WANTED.—A French and English teacher, either male or female, with a class license for District No. 91, Miscou Centre, Parish of St. Ignace, County of Gloucester, N. B. JOHN CHESSON, Secretary of Trustees.

BLACK CAPE

BLACK CAPE, Wednesday.—The heaviest snow storm of the season set in on Saturday evening, accompanied by a high wind, which continued all through the night, and our roads are now in a bad condition.

Mrs. Leroy Bagley, of Melrose, Mass., accompanied by her sister, Miss Edith, arrived here on Saturday evening, being called home by the illness of her mother and little brother.

The many friends of Mrs. James S. Campbell, will regret to learn that she is confined to her bed with la grippe.

Sydney McCallan arrived from Perry Sound, Ont., on Saturday, where he has been for the past summer on railway construction.

Mrs. William Johnston is the guest of Mrs. William Caldwell of Caplin.

J. H. West is still confined to the house.

The annual meeting of the Presbyterian congregation was held in the church at New Richmond on Tuesday the 23rd inst.

The W. P. M. S. held their annual meeting at the manse, New Richmond, on Saturday last.

Bridge Notice.

Scaled tenders, marked "Tenders for Eel River Bridge," Substructure and Approaches, will be received at the Department of Public Works, Fredericton, until

MONDAY, 5th DAY OF MARCH, 1908, AT NOON.

For building the concrete substructure and approaches, for the three 11th ft. steel riveted truss spans of Eel River Bridge, Parish of Dalhousie, Restigouche County, N. B.

This new structure is located on a new site, allowing traffic to be carried on uninterfered over the existing structure.

The substructure consists of two concrete piers, foundationed directly on the ledge rock by means of concrete filled, close faced, dove tail connected birch timber cribs, up to elevation where submerged by each tide, and by two extensive wing walled concrete abutments, foundationed on piles bearing directly on the under ledge rock formation. The approaches consist of solid embankments at each end, protected on the outer exposed sea side by concrete retaining or breakwater walls. These embankments rise on uniform continuous grades, until the road surface over the waterway will be fully 4 ft. above the highest point on the existing structure.

The approximate total length of work over all is 600 ft.

Plans and specifications for this work can be seen at the Public Works Department, Fredericton, N. B., at the store of Mr. Wm. Currie, 31, P. E. Campbellton, at the Dalhousie Mercantile Co., Dalhousie, at the Post Office, Caraquet Station, and at the Post Office, Jacques River.

Each tender must be accompanied by a certified Bank Cheque or Cash, for an amount equal to five per cent. of the tender, which will be forfeited if the party tendering declines to enter into contract when called upon. Should the tender be not accepted the deposit will be returned. Two good sureties must be named in each tender. Not obliged to accept lowest or any tender.

EAT ORANGES

IF YOU WANT TO KEEP WELL

Careful tests have proved beyond question that orange juice has clearly defined medicinal virtues. Those who suffer with indigestion—are compelled "to diet"—find that after eating oranges regularly for breakfast there is no distress, no palpitation. Where there was a tendency towards constipation, the eating of oranges regulated the bowels. In skin troubles, those who began the morning meal with an orange were noticeably improved. There is, however, a quicker way to get better results. This is to take one or two "Fruit-a-lives" tablets at bedtime in addition to the juice of an orange before breakfast the next morning. "Fruit-a-lives" are the juices of oranges, apples, figs and prunes, in which the medicinal action is many times intensified by the special way of combining them. Valuable tonics are then added.

Take the juice of an orange before breakfast—take "Fruit-a-lives" at night—and you will quickly be rid of Indigestion, Stomach Troubles, Constipation and Biliousness. "Fruit-a-lives" are sold by all dealers at 50¢ a box—6 for \$2.50. Sent on receipt of price by "Fruit-a-lives" Limited, Ottawa.

JOSEPH MARTIN DEAD.
We regret to record the death of Joseph Martin who died of Sunday at the age of 86. The deceased was a resident of the Tobique and the funeral will take place today at 3 o'clock.

HOTEL IMPROVEMENTS.
The many improvements being made at the Royal Hotel, since Mr. Thos. Gorman took charge are being favorably commented on by the travelling public, and all wish the new manager every success.

BRANCH TRAIN HELD.
Passengers on yesterday morning's Dalhousie branch train complain that they were kept waiting nearly a half hour while the snow train unloaded and returned to the yard. This should not be allowed.

LORD'S DAY ALLIANCE.
A meeting of the Lord's Day Alliance was held last evening. A committee was appointed to take up the question of running trains on the I. C. R. on Sunday. Sunday traffic recently has been very heavy and it is thought it is unnecessary.

BAD WEATHER FOR RAILWAYS.
The recent cold and stormy weather has seriously handicapped railroads. The northern division of the I. C. R. was blocked and little freight was moving and passenger trains were all late. Matters are being straightened out.

ADVERTISING PAYS.
The enterprising men's furnishing firm, Messrs. Cyr & Nelson, recently advertised in the Morning Graphic a special sale of shirts. The result was startling. In a few days they had disposed of nearly all their stock of shirts, as well as a large amount of other goods. This firm has demonstrated that the right kind of advertising backed up by the right kind of goods, advertised in the right medium pays.

BOUGHT DRIVER.
Mr. Jos. Russell has purchased from Mr. Wm. Millican his fine driving horse.

LOCKED UP.
A man was locked up yesterday afternoon for causing a disturbance in Gray's restaurant.
