

## Hear J. G. Turriff, M.P. for Assinaboia, in Hyman Hall Tonight

### LLOYD GEORGE HAS A SURPLUS OF NEARLY 33 MILLION DOLLARS

British Budget for Financial Year 1912-1913, the Largest on Record—John Bull This Year Will Spend Nearly One Billion Dollars in Various Ways.

[Canadian Press.] London, April 2.—The British budget for the financial year 1912-1913 was introduced by David Lloyd George, chancellor of the exchequer, in the House of Commons today, before the thinnest attendance on such an occasion for fifteen years. The chancellor was in the comfortable position of having a nest-egg of \$32,725,000 remaining from the year just closed. This, he said, was the largest realized surplus on record.

### BILL REGARDING WIRES LAID OVER UNTIL THURSDAY NEXT

Mr. T. G. Meredith, of This City, Caused Committee to Change Its Intentions.

[Special to The Advertiser.] Toronto, April 2.—At this morning's meeting of the municipal committee of the Legislature, Mr. T. G. Meredith, K.C., appearing for the city of London, caused the committee to experience a change of heart on Mr. W. D. McPherson's bill to permit cities to cause electric light and power wires to be placed underground by the local improvement plan.

Mayor Geary, of Toronto, failed to impress the committee that the bill was reasonable, as Hon. W. J. Hanna

### METHODISTS FOR CHURCH UNION BY VOTE OF EIGHT TO ONE

Favor Organic Union on the Present Proposed Basis.

[Canadian Press.] Toronto, April 2.—Official figures of the Methodist vote on the proposed union between the Methodist, Presbyterian and Congregational Churches of Canada, were compiled today, and show a proportionate vote of almost

### OIL WAGON FROM LONDON FELL THROUGH BRIDGE AT BELMONT

Driver Escaped Serious Injury and Horses Also Were Unhurt.

One of the big tank wagons belonging to the Queen City Oil Company crashed through a bridge over a creek near Belmont yesterday afternoon, and the driver, a man named Cooper, had a narrow escape from serious injury. The tank wagon contained between

### ALLEGED ARVA SAFE BLOWER FREED AND AGAIN ARRESTED

John Murray, Alias Murphy, Appeared in Two Courts This Morning.

John Murray, alias John Murphy, who is believed by the police to be the man who cracked the safe at the Arva Roller Mills, and Peter Fairbairn and John Swift, who were arrested on the day after the burglary on suspicion, were dismissed by Police Magistrate Judd this morning, but the first two named were promptly re-

### MAYOR GRAHAM IS WILLING TO GO IN FOR THE SUBWAYS

His Worship Says the McGuigan Plan Is Now Obsolete.

"The people need not become alarmed over any street closing propositions," said Mayor Graham this morning, in discussing the attitude of those citizens who are threatening lawsuits if certain parts of the railroad commissioners' recommendation in connection with grade separation are carried out. "There will be no Wellington street deal worked on the citizens of this city. When the matter of grade separation comes up it will be given careful attention, and there will be due regard for the rights of property owners."

"I am thoroughly convinced, however," he said, "that the separation will be accomplished by subways rather than track elevations. I don't think the Grand Trunk will ever spend the money to elevate all their tracks, and the commission in its recommendation seems to favor the subway plan."

"But isn't the Grand Trunk morally obligated to stand by the terms of the agreement previously submitted to the city?" the mayor was asked.

"That was Mr. McGuigan's idea," he replied, "and McGuigan is no longer with the Grand Trunk. Besides, they only agreed to elevate the through line tracks. I don't think there is any advantage in elevating a part of the tracks and leaving the rest as they are. If any elevation is done the railroad would have to elevate their whole yard, which would mean a tremendous undertaking."

It is pointed out that in Brantford the main lines of the G. T. R. are elevated, while shippers along the tracks are served by spurs running from the elevated tracks.

### CURTAIN DOWN ON ACTOR EDWARD TERRY

Noted English Thespian Dead in His Sixty-Eighth Year.

[Canadian Press.] London, April 2.—Edward Terry, the actor, who had been suffering for some time with neuritis, died this morning at Barnes, Surrey, at the age of 68 years. Edward O'Connor Terry was one of the most popular actors on the British stage, on which he had appeared almost continuously for nearly half a century. He was a writer of distinction and had travelled extensively in India, Australia, South Africa and America.

### WOODSTOCK CASE TO BE SUBJECT TO PROBE

Alleged Cruel Treatment of a Student Will Be Investigated by P. M.

[Special to The Advertiser.] Woodstock, April 2.—The alleged cruel treatment of Hopwood, Woodstock College student, by three professors, will be the subject of an inquiry tonight before a magistrate. Principal MacNeil, who was said to have known nothing of the matter for some days, says he knew of it the morning after it happened. He says "statements made have been greatly exaggerated, and there is another side to the case." Principal MacNeil will give evidence tonight under oath, it is understood, but it is not yet known if actual summonses have been issued or who laid the information, more than that citizens pressed for it.

### WOMAN AEROPLANES ACROSS CHANNEL

First of Her Sex To Make the Trip From England to France.

[Canadian Press.] London, April 2.—A woman crossed the channel from England to France today as a passenger in an aeroplane for the first time. She accompanied Gustave Hamel, the well-known aviator, who left Hendon at 9:30, passed over Dover at an altitude of 2,000 feet at 10:30, and landed at Saint Inglevert, to the southeast of Cape Grisnez, at noon without incident.

### SIR JAMES PEEVED AT SENATE'S ACTION

And Says the Terrible Laurier Has at Last Been Unmasked.

[Special to The Advertiser.] Toronto, April 2.—Sir James Whitney is not pleased with the action of the Dominion Senate in throwing out the highway improvement bill and the T. and N. O. subsidy bill. In discussing it, however, he goes beyond the Senate to Sir Wilfrid Laurier.

"I have not had time at present," said Sir James, "to consider the matter, but it is simply a case of the dislike and hatred which Sir Wilfrid Laurier feels for the Province of Ontario. For years he has kept his real attitude more or less under cover, but he is not attempting to disguise it now. He pretends to be an admirer of British institutions, but in this matter he defied the expressed wish of the people of the province."

"If he has no doubts, however, that it will come out right in the end," he said.

### HEAVILY FINED FOR HAVING BEAVER PELTS

Pembroke Men Mulcted at Rate of \$20 Per Skin.

[Canadian Press.] North Bay, April 2.—A sequel to the seizure of a trunk containing 56 beaver skins on the T. and N. O. Railway last week, was a fine imposed upon its owner, Thomas Murray, of Pembroke, of \$20 a skin on the first five charges, of a fine of \$50 in all, and the skins confiscated. Sentence was suspended on 31 charges, as each skin constitutes a separate charge, with minimum fine of \$20. The case was tried at Mattawa before Magistrate Tarnotte, Game Warden Perkins and Crown Attorney McKee for the prosecution. J. E. Mulligan, Sudbury, represented Mr. Murray.

### THE WEATHER.

TOMORROW—MILDER.

Forecasts.

Today—Northerly winds and cold air.

Wednesday—Fine, with a little heavier temperature.

Temperatures.

The following were the highest and lowest temperatures during the 24 hours previous to 8 a.m. today:

Stations.	High.	Low.	Weather.
LONDON	55	25.5	Clear
Quebec	58	34	Fair
Winnipeg	49	18	Cloudy
Port Arthur	48	18	Clear
Perry Sound	48	16	Fair
Toronto	51	26	Fair
Ottawa	51	26	Fair
Montreal	54	18	Cloudy
Quebec	54	15	Fair
Father Point	26	13	Fair

Weather Notes.

The area of low pressure which was centred in the southwestern States yesterday is now passing eastward across the Middle States.

A light snowfall has occurred over a large portion of Ontario, and snow is now falling in the Maritime Provinces.

### Hear John G. Turriff, M. P.

Mr. John G. Turriff, who has represented Assinaboia for some years in the Dominion Parliament, will address the Liberals of London in Hyman Hall tonight. Mr. Turriff in the last election had a majority of 2,000, is known from coast to coast, and is well qualified to speak on the subject he has chosen, namely, "The Position of Eastern Canada to the West, as Western Liberals See It." Everybody is invited.

### COUNTY AROUND CHATHAM INUNDATED BY THE THAMES

The River Is Now Fifteen Feet Above the Normal Level.

[Special to The Advertiser.] Chatham, April 2.—The Thames is still rising and now stands fifteen feet above normal level. The country is inundated both above and below Chatham, and in many down-the-river localities the farmers go about their farms in boats and on rafts. Last night an ice jam formed

opposite Tecumseh Park. When it broke the force of the current was so great it broke a gas main and a water main crossing the river at that point. On account of the torrent workmen cannot get near the broken mains to fix them, and the escaping natural gas is boiling up through the water as fast as it may escape below from the broken four-inch main. Between the lack of fodder and the high water farm stock is suffering in many parts of Kent. The surplus water stands three feet deep all over the Jeanette's Creek district.

### 20 FT. OF WATER AT ADELAIDE ST. THREATENS BRIDGE OVER THAMES

Deputation Asks City Council To Dynamite the Ice Jam Which Blocks the Thames—Five Miles of Ice on the North Branch.

Undecided whether to dynamite the head of the jam and clear the course of the river, or to allow nature to decide the question, West Londoners and others with City Engineer Wright and a staff of men who patrolled the breakwater, watched the north branch of the Thames during the night with the greatest anxiety.

The five-mile jam, extending from Sutherland's dam back east of the Adelaide street bridge, continues to block the outlet of the water, and while only 15 inches is passing from it, the water level is rising at a rapid rate. It is estimated that the water and ice is 10 feet above normal at Adelaide street.

### People Are Anxious.

A deputation of West Londoners waited on the city council last evening and asked that immediate action be taken to protect the district from the flood which now menaces it. It is feared that if the ice breaks away and comes down with a rush over the old Saunby dam, the water may give way with the incessant pounding of thousands upon thousands of tons, and accompanied by the sudden liberation of such vast quantities of water stored up in the river, and over the fields back beyond the fourth concession of London Township, result in a general inundation of the lower end of the Kensington district.

"If the ice comes down in moderate amounts there is now sufficient water below the jam to carry it away safely, but if there should be a great rush trouble will be almost certain to follow," an old riverman informed The Advertiser today.

### Threatening the Bridges.

The water under ordinary conditions is eighteen or twenty feet below the floor of Adelaide street bridge but the ice is now scraping the timbers and threatening to carry the structure away should the jam rise

higher and commence to move out. Last night the water rose rapidly after the comparatively heavy rains of the afternoon. Many barns were again cut off, and several houses are surrounded, which had hitherto been located on high and dry ground.

Four feet of water, rushing in a strong current, is passing over the fourth concession, a couple of city blocks from the river, and at least one house which is perched upon a knoll, is surrounded by water, cutting the occupants off from the outside.

That the water is rising at a rapid rate is shown by the fact that last night an Adelaide street man crossed to talk with his neighbor for an hour or so. Upon returning he found it necessary to get over ground which a short time before had been dry, by means of planks in the water.

### Dynamite Is Ordered.

"We have ordered the dynamite, but as yet uncertain what will be done," said City Engineer Wright. "If the jam is maintained as at present we will not blow it up, but should it form near West London and allow that bank of water that is now in London Township to get near the city we will resort to the use of the explosives."

While no person has been in serious difficulty in the water as yet, a couple of gentlemen have had rather interesting experiences on the fourth concession of London Township. Yesterday afternoon a driver for D. Wade was proceeding across a point in the road which is covered by about four feet of water, got off the track into the deep water in the ditch. The horses were extricated with much difficulty. In the evening two young fellows driving in a light buggy, got into the stream, when one of them was possessed of the notion that he would rather walk it. Jumping out, he landed in water to his waist, but had no trouble reaching a place of safety.

### BRIDE, IN BOX CAR, GARBED AS MAN, WALKS FIFTEEN MILES RATHER THAN KISS BRAKEMAN

St. Thomas Man Tells of How His Wife, in Male Attire, "Beat It" With Him in a Box Car to This City—A Suit for Divorce in the City of the Straits.

Detroit, April 2.—A trip in a box-car, which met a sudden termination when the wife, attired in a suit of her husband's clothing, refused to kiss a brakeman, who thereupon forced the couple to walk fifteen miles to their destination, closed in a suit for divorce started in circuit court by Chas. M. Duncombe, and a cross-bill filed by his wife, Doris, through her attorney, John H. McIntyre.

Duncombe met his bride in St. Thomas, Ont., two years ago while he was a clerk in one of his father's drug stores. He was 19 and the girl 17. Both fell in love at first sight and three weeks afterward they were married.

Soon after the wedding the young couple came to Detroit to live with Duncombe's parents, who had moved to this city in the meantime. The elder frowned on the match, however, and after the young people had indulged in a few spats the wife says he

### INSTANTLY KILLED

Andrew Harvey Was Struck by a Freight Train Near Shedden.

[Special to The Advertiser.] Shedden, April 2.—Andrew Harvey, aged 40, was instantly killed by a Michigan Central freight, eastbound, while he was walking on the tracks near here today. Harvey had only recently moved to a farm near the village, and started in to help unload some ties. They were delayed in transmission and he decided not to

wait, and was walking home when the freight struck him and broke his neck. Deceased is survived by a wife and family of small children. An inquest will be held.

### DEATH IN DUGOUT.

Meade, Kan., April 2.—The explosion of a gasoline tank in their shed house near here today brought instant death to Mr. and Mrs. J. R. Miller. The roof was blown off, and the interior of the dugout demolished by fire. The Millers came here from Atkinson, Ills., 18 months ago, and filed a claim.

### INDUSTRIAL AND LAND ACTIVITY MARKS OPENING OF YEAR IN CITY

Factories Running to Capacity—Real Estate More Active Than For Years Past—Railways Will Spend Much Money Here.

An industrial and land boom, such as has not been experienced here since 1905 and 1906, when the southeastern section of the city grew up out of pasture lands in a few weeks, has moved upon London, according to local manufacturers and real estate men, and before the end of the present building season it is declared that the predictions of the most optimistic will be fulfilled.

The factories of London are now running to their fullest capacity, those in charge of the different plants stated today. Men are in demand in all classes of work, and additions now planned by different concerns forecast a prosperous time.

The railway companies are making big expenditures here and while sections are being affected beneficially the district in the northeast has an especial boom since the works of the Canadian Pacific have been undertaken there.

The steady growth of the city during the past few months is reflected, according to real estate agents, in the scarcity of vacant houses. Inquiries are constantly being received from persons in outside points desirous of locating in London, and the natural and gradual increase in the population from this source alone is remarkable.

The extreme north end of the city has been given an impetus through the announcement of increased street railway accommodation by the construction of a new line in those parts. A great many handsome residences are springing up, and the land values are proportionately increased.

West London has something big in store for it this summer, according to an authoritative statement, and within a couple of weeks an announcement of the greatest importance to London as a whole and to West London in particular is to be made.

South London, which has always been looked upon as a most desirable residential community, is vastly improved in valuation, and property owners are vying with those of the north in the construction of most magnificent homes.

The Publicity Man. Confidence is expressed that the work of the new publicity commissioner, Mr. J. Grant Henderson, who is now doing a little missionary work about the city preparatory to an extensive campaign for American industries, will have a most

desirable effect within a short time. Mr. Henderson is anxious to obtain the descriptions and prices of possible factory sites, and when this work is completed will be able to compare factory sites in London. The manufacturers already located in London are enjoying a very prosperous time, and many are planning additions for this summer. The McClary Manufacturing Company, which annually makes additions equal to the size of very desirable factories, is again at work.

Increasing Plants. Permits have been taken out during the past month for the construction of two buildings which will be worth about \$15,000. One is for increased capacity in the enamelling plant in the city department, while the larger building is an addition to the great foundry in the south end.

The molding plant has just been enlarged, and within the past couple of weeks, 25 extra men have been added to the force. "Plans are now being prepared for a material increase to our staff and plant on the eastern section south of the city," says Mr. C. H. Gartsch, of McClary's, stated today. "This work will be undertaken this summer, and will mean quite an addition to the staff employed. Our staff is now only limited by space afforded in the present buildings, and these are being added to as speedily as possible. Business is exceptionally good."

Rolling Mills Busy. "Since the first of the year we have been extremely busy," declared Manager C. H. White, of the London rolling mills. "We are now operating to our fullest capacity."

Four hundred and fifty men are on the staff at the Grand Trunk shops in East London, and work is very plentiful there. The amount of business done on the line is always reflected in the extent of repairs made to the rolling stock, and the fact that the shops are working full time with such a great staff speaks for itself.

The managers of a number of other concerns voiced the same opinions. "Business has been better in the real estate business in London during the past three or four months than ever before," Mr. Thomas C. Knott told The Advertiser. "We are receiving a great number of inquiries from outside points, and have prospective tenants for any number of first-class houses."

### TRUE BILL FOR MURDER IN WALPOLE ISLAND TRAGEDY

Sensational Evidence Is Expected From Mrs. Annie Williams, a Neighbor, Who Saw the Prisoner Often on the Night of the Killing.

[Special to The Advertiser.] St. Catharines, April 2.—A true bill has been brought in against Stephen Kiyosk, the Indian held for murder in connection with the double shooting on Walpole Island on New Year's night, which cost the lives of Adam Johns and Charles Nahdee, two other Indians. Kiyosk's trial is expected to commence this afternoon before Judge MacWatt.

The crown authorities claim to have the strongest kind of a case. From evidence which has been secured they allege that Kiyosk, believing Nahdee and Johns to have been unduly intimate with his wife, went to their cabin on Squirrel Island, shot Johns through a window with a shotgun, entered the house, pursued Nahdee to an upper story, and blew out his brains.

Both bodies were found, but as Nahdee's remains were being taken out they slipped away under the ice into the swift current, and have never been recovered.

One of the strongest links in the crown's case is the story which has been told by Mrs. Annie Williams, an Indian woman who lives close by the little cabin where the tragedy occurred. Mrs. Williams' story of the row on the night of the tragedy and her narration of the condition in which Kiyosk was, and what he said, produced a great sensation at the preliminary hearing, at which Kiyosk was committed.

Flossie Williams, the young Indian woman who Kiyosk claims as his wife, is expected to give very important evidence. The trial has aroused tremendous interest all through this district, and the courtroom was jammed when the hearing was expected to start.

### CITY MADE THINGS MUCH EASIER FOR THE BUILDING INSPECTOR

How the Abolishing of City Architect's Office Works Out.

There is yet a chance that the difficulties arising out of the abolition of the office of city architect may be harmoniously adjusted.

Mr. A. E. Nutter, while shorn of his official title of "architect," is still retained as building inspector at the same salary which he previously received for filling both titles, and as there is a strong sentiment against trusting the duties of building inspection to a man without technical education, it is probable that he may be retained.

Of course it is highly improbable in view of Mr. Nutter's application to have his salary increased to \$2,000 per year, that he would be willing to remain as building inspector at \$1,200. It is proposed to get around this difficulty by allowing the school board to employ him as architect, while the city will retain his services as building inspector. The question will be considered at a joint meeting of the school board and the council committee of joint officials to be held this afternoon.

As Building Inspector. "Mr. Nutter is without doubt an efficient man as building inspector," said Mayor Graham in discussing the situation this morning. The city, however, has practically no use for an architect's services, while the school

board has a great deal of use for one. It is possible that Mr. Nutter, if employed as a joint official, although the matter is by no means settled. "That's a leading question," was the only reply which Mr. Nutter would make when asked whether he would be willing to remain in the city's employ as building inspector.

The former architect had little to say concerning his dismissal. "It might be interesting to note," he told The Advertiser, "that the city was formerly receiving the value of several thousand dollars in architects' fees, in addition to my services as building inspector for the same salary which I am now receiving as building inspector alone."

### WOMEN OF SWEDEN TO GET FRANCHISE

Can Vote And Be Candidates on Same Conditions as Men.

Stockholm, Sweden, April 2.—The Swedish Government introduced a bill into Parliament today extending to women the parliamentary franchise, and the right to stand for election to Parliament on the same conditions as men. Women whose husbands have not paid taxes for three years are excluded from the vote.

## Jack Binns Tells How to Make a Transmitter

LESSON NO. 6.

[By Jack Binns.]

The first thing to do is to make the spark gap. Remove the brass nuts which you find on the top of the coil and replace them with the double binding posts.

### WHAT IS NEEDED FOR THE TRANSMITTER.

One so-called spark coil, which will cost about \$4.50.  
One so-called "strap-key" which electric houses sell for not more than 25 cents.  
Six old dry cells, which are thrown away in garages or electrical houses.  
Two ordinary drinking glasses.  
Two one-eighth inch round brass rods, four inches long.  
Two so-called "double binding posts."  
One piece of tin, four by six inches.  
Two small brass key chains, five inches long.  
Two small binding posts.  
One board, eight by eight inches.  
Some tinfoil.

which will screw on the bolts from which you have removed the nuts. The spark coil must be handled very carefully because the wires within are very fine and are easily broken.

Fasten the brass rods in the binding posts as (a) and (b) in figure 15, so that a spark can jump between their ends. This is the spark gap and it is

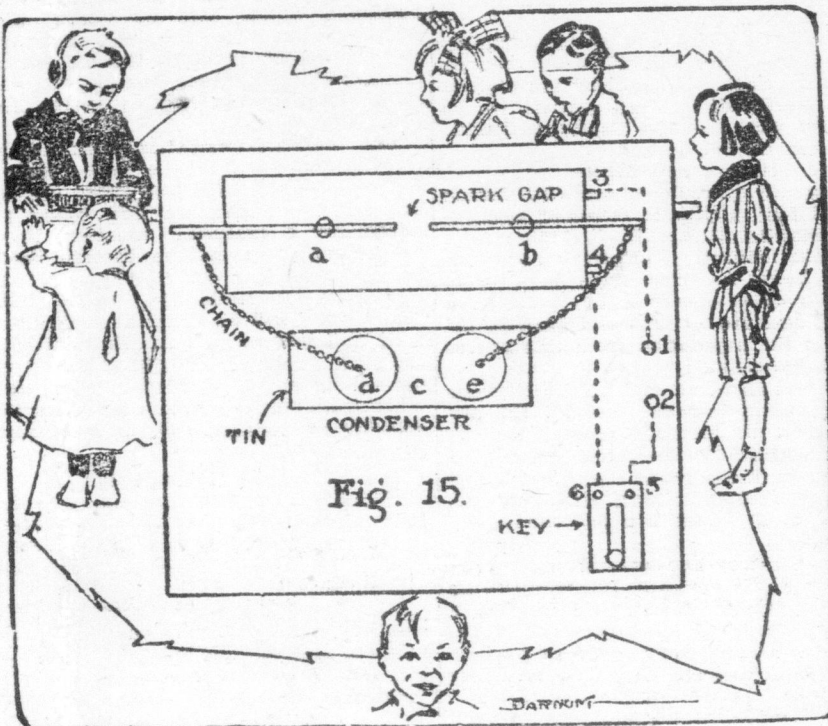

in the rear, in about the same position as the tuning coil was placed in the receiving set.

About two inches in front of the spark coil, spread the piece of tin, lengthwise, as shown by (c), fastening it to the board with small tacks. On this tin, place the two in tinfoil covered glasses, as shown by d and e. At the front of the board, and to the right, place the strap-key. Figure 15 shows the arrangement of these instruments.

On the right edge of the board, opposite the glasses, place the two small binding posts, marked 1 and 2.

Now we are about to wire our instruments together. In the glass marked d, place the end of one of the chains, so that the chain touches the bottom of the glass. Fasten the other end of the chain—it can be hooked on by a link—to the end of the brass rod of the spark gap. The glass marked e is connected in the same manner with rod b. Connect binding post 1 with binding post 3 on spark coil. No. 2 is connected with No. 5 on strap key and No. 6 on strap key is connected with No. 4 on coil. Connect the six dry cells in series, with insulated wire, and place the batteries on the floor under the table. Connect the two wires from the cells to binding posts 1 and 2. Connect aerial with binding post d on spark coil and connect a ground wire, attached to gas or water pipes to b on spark coil.

Now, when you press your key you should get a short, white spark in the spark gap. If you do not, then move the brass rods to and from each other, until the best spark is obtained. If, still you do not get a spark, look at your battery connections and see if they are connected properly, and the wires fastened tight in the binding posts.

the spark which jumps from one of these rods to the other that will send out your message to the world.

Now we must make a condenser. Take the two glasses and coat them inside and out with shellac and before the shellac is entirely dry, cover the top of the glasses, both inside and outside of the glasses. Be very careful to lay the tinfoil on smoothly—avoiding air bubbles. Allow them to dry thoroughly; overnight will be enough. These two glasses form the condenser.

Now we are ready to mount our spark coil and our condenser on the eight by eight board. This board ought to be nicely shakedown.

### NO ATTEMPT MADE TO MINE THE COAL

All the Collieries in the United States Are Now Closed.

### CONFERENCE NEXT

Anthracite Miners Expect to Receive Flat Increase of Ten Per Cent.

Wilkesbarre, Pa., April 1.—Mine workers' leaders tonight reported that the suspension order has been generally obeyed, that only engineers and pump runners were at work to-day and that none of the collieries made any effort to mine any coal. Officials of the big coal companies confirmed this report, and said they were not making any attempt to induce men to work, and that only enough steam to run the pumps and the fans was maintained at the mines. Whether this condition will prevail until the conference between the mine workers and the operators opens on April 10 is not known. It is believed here, however, that the larger coal companies will make no effort to mine any coal, that they will merely guard their property and await the result of the conference. These companies have sold all their coal, and report their customers have stocks for several weeks in their bins.

John M. Mack, secretary-treasurer of the Wilkesbarre-Scranton district, returned here today from Cleveland, Ohio, to direct the interests of the miners during the absence of President Dempsey. He predicts that the operators will offer a flat increase of 10 per cent. when the Philadelphia conference is held.

"This offer," he declares, "may not be the first to be made, but it will eventually come, and will not doubt be the limit of the concessions offered by the operators."

The rank and file of the miners will determine after the conference whether the offer is to be accepted or rejected. From the viewpoint of the union leaders a wage increase will not be sufficient to restore peace. More than a mere money consideration will be sought by the men. The union will waive all demands if recognition is granted. Officials of the union believe that the struggle will settle itself down to a question of recognition, the men strongly advocating it on the one side and the companies bitterly opposing it on the other.

If the representatives of the miners receive an offer from the operators on April 10 the proposition will be submitted to the men.

### MAPLE SYRUP WILL BE VERY PLENTIFUL

Expected That Price Will Drop Shortly to One Dollar Per Gallon.

[Special to The Advertiser.]

Ingersoll, April 1.—Gathering the maple sap is now the principal occupation of the farmer who is so fortunate as to possess a "sugar bush." Although the weather yesterday was disagreeable, there was a copious flow of sap, and, according to reports, the syrup will be offered in plentiful quantities during the week if favorable weather continues.

Sunday was an ideal day, and maple trees that stand on the south side of a farm never gave forth a more plentiful supply. Some of the enterprising syrup-makers have already interviewed prospective customers and completed arrangements for the sale of practically their entire production. This, they claim, is a very satisfactory plan to follow.

In many cases they make conservative estimates of their supply, and should the amount be larger than anticipated, they have no trouble in disposing of it. They, however, find that being able to sell their syrup without standing for hours on the market is a big advantage, and naturally gives them more time for other work. It is expected that the ruling price this week will be \$1.25 a gallon, with a drop to \$1 very shortly if the supply is up to expectations.

### INGERSOLL FUNERAL

Many Places of Business Closed Out of Respect to Mr. O'Neill

[Special to The Advertiser.] Ingersoll, April 2.—Amid many manifestations of sorrow, the remains of the late Charles A. O'Neill, whose death occurred suddenly in his grocery store Friday night, were consigned to the tomb in the Catholic Cemetery yesterday. Hundreds of citizens gathered to pay their last tributes to the deceased.

### LOST VITALITY

Caused by Kidney, Stomach and Bowel Disorders

St. John, N. B., Sept. 13, 1911.—My brother was a great sufferer from kidney, stomach and bowel troubles and was given up by two doctors. He was advised to try your Fig Pills, which he did, and after taking five boxes was completely restored to health and is better today than he has been for years. You can't recommend Fig Pills too highly. J. W. MANVIER.

# Big Sale in Basement Tomorrow

## Table Cloth Seconds, Sheetings, Cottons, Pillow Cottons, Towels, Towelling, Prints, French Cambrics, Cotton Sheetting, Cotton Voiles, Crepes, Cotton Foulards, Etc.

Tomorrow we will begin a basement sale, for which preparations have been going on for some months past, which will include many lines taken right from our regular stocks as well as numerous jobs or clearing lots for which our buyer searched the European markets, and to begin with, we would say that each and every item in this sale will be priced considerably under regular value, and many lines listed for tomorrow are almost at the half price mark.

**Basement Sales**—The object of removing all sale or underpriced goods from the department where regular goods are selling, is to make it easy for

customers who attend such sales to make selections and distinguish from regular lines. Long stretches of counters will be arranged in well-lighted basement on which all special sale merchandise will be sorted and grouped each by itself and everything found on these counters you will know are, as the tickets will indicate, at greatly reduced prices.

As this will be our first basement sale, we are determined it shall be the biggest event since the opening of the new building and will mark another epoch in the history of this business, and so the prices have been made, that the mere announcement of a basement sale at Smallman & Ingram's will crowd the counters at the opening hour. Be on hand at eight in the morning tomorrow and have first choice.

### Towels in Basement Sale

Specially purchased in Ireland for this sale. Get your summer supply while these stocks last.

Bath Towels—Special 25c quality, large size. Sale price, each ..... **19c**  
Special Turkish Bath Towels, brown and white stripe, large size, ..... **25c each, \$2.75 dozen**  
Large size, 20x38 inch real Irish Linen Hemstitched Huckaback Towels. Special at ..... **25c each, or \$2.75 dozen**

### Battenburg Squares 39c and 59c

4 dozen 30-inch Battenburg Squares, lace-edge, with linen centre, extra good value at 75c; sale price, each ..... **59c**

3 dozen 30-inch Battenburg or Lace Edge Centres or Shams. These are regular 59c Shams. Sale price, each ..... **39c**  
New stock "Horrickses" Bleached Sheetings, 72 and 81-inch widths. Specially priced, yard, ..... **35c, 40c**

### Hemmed Sheets, \$1.25 Pair

Two sizes, 72x90, and 68x90 inch, good quality, all ready for use. Special, pair ..... **\$1.25**  
368 yards Roller Towelling, brown linen, 18-inch width, red borders, all pure linen. Basement Sale, a yard ..... **9c**

### 100 Dozen Dish Cloths, 3c and 4c Each

These are specially priced for this sale, two sizes ..... **3c each, 35c dozen, and 4c each, 45c dozen**

## Wash Goods Mostly Under Half Price---Basement

Here is the greatest opportunity we ever offered at the beginning of the season. Prices such as are quoted here might be expected when clearing odds and ends at the end of the season. But our plan is to give you a bargain, if possible, when you need the goods, and not to hoard up goods that for some reason or another need to be lowered in price until the end of the season when you are supplied. Tomorrow in the basement you will find Muslins, Cotton Voiles, Cotton Suitings, Cotton Foulards, Prints, etc., some nearly half, some half and some at a third the regular price. Hundreds of yards to be cleared quickly. Come early and get your summer supply of wash goods and save at least the half.

### Dress Muslins 5c, Worth Up to 18c

About 400 yards Fancy Dress Muslins, in white grounds with spots, stripes and small figures; worth up to 18c yard. Sale price, yard ..... **5c**

"SUZETTE" WHITE WASHABLE KID  
GLOVES, \$1.50 PAIR.

respect, while along Thames street blinds in many places of business were drawn as a mark of esteem.

The general delivery from the stores which starts at 9 a.m., was postponed until after the funeral, and in various way citizens showed their appreciation of the sterling qualities of the deceased. The cortege was large, and the services most impressive. Re-

quiem high mass was sung by the Rev. Father Guam, of the Church of the Sacred Heart, who in closing spoke in eulogistic terms of the life of Mr. O'Neill, which he characterized as an open book, read and known to all.

The pall-bearers were Messrs. John E. Boles, John Lenthian, M. Shannon, Peter Sherry, S. King and Chas. White. Scores of floral tributes bore testimony

to the popularity of the deceased, among them being handsome designs from the Ingersoll curling club, the town council, who attended in a body, and the Ingersoll Amateur Athletic Association.

The funeral of John Gaynor, formerly of this town, whose death occurred at Woodstock on Sunday, took place here yesterday afternoon from

the undertaking rooms of Bonesteel & Mitchell to the Ingersoll rural cemetery. Rev. H. B. Christie conducted the service.

A union meeting of the Young People's Societies of the Baptist and Presbyterian Churches was held last evening. The attendance was large, and the Baptist young people, being the visitors, were most cordially wel-

comed. A splendid programme was furnished, which, together with refreshments, made the evening most enjoyable.

**Shiloh's Cure**  
quickly stops coughs, cures colds, heals the throat and lungs. 25 cents.

LONDON, TUESDAY, APRIL 2.

## MR. ARMSTRONG'S LATEST ROLE.

Mr. Joseph E. Armstrong, M. P. of East Lambton, has in his time played many parts. He has appeared in the contrasting roles of an advocate of reciprocity with the United States when talking to the crangers of his own riding; an opponent of reciprocity when his leader said "thumbs up"; a shipper and seller of dairy products to the United States on a large scale while crying "treason!" at a proposal to give farmers the American markets for all their products; a high protectionist, and an opponent of the German tariff, now removed.

Mr. Armstrong's latest exhibition of versatility is his advocacy of a commercial treaty with Germany. "There is a wonderful market for our agricultural products in Germany," he says. So there is; but not nearly so wonderful as in the United States. The first is across the ocean; the other is just across the road. "Germany today exports to Canada ten millions to our two." But the United States sells Canada nearly three dollars' worth for every dollar's worth she takes from Canada, and yet the Armstrongs objected to a measure to enable Canada to even things up.

But this is not the worst. By the Armstrongs of Parliament and the platform the Canadian people were told that a trade agreement with the United States was inimical to Great Britain — to imperial preferential trade — and would undermine our nationality and draw us out of the orbit of the British Empire into that of the republic. By the same reasoning there would be more danger in a trade pact with Germany, the power that is challenging British naval supremacy. The Advertiser would welcome better trade relations with Germany or any other country, but the opponents of the agreement with the United States cannot consistently advocate a commercial alliance with any foreign country, least of all with Germany, the enemy, and rival of Great Britain. However, no one expects that politicians of the Armstrong type will be troubled by logic or consistency. The sort of campaign that was waged by them in September last threw both to the winds.

## THE WOMAN OF 50.

In an interview recently Lady Warwick said that she saw no reason why a woman at 50 should not be at the height of her attractiveness. It is a popular notion, that with advancing years after 25 or 30 a woman's beauty declines, while a man's improves. Probably it is true that the average woman of 50 looks older than the average man, and under the varying standards of beauty for men and women the wrinkle usually counts more against the female face. Women have more continuous and caring cares than men, mothers commonly enjoying seldom a solid night's rest for years at a time. Lady Warwick, however, firmly asserts her theory; she is herself, of course, a semi-centenarian, and owns up to it. She must, for her acts and days not written in Who's Who?

In classic story there was a beauty contest in which three ladies, all of uncertain age, contended. Juno must have been 50 at least, and what a vision of potent charm! Minerva was a woman of wit and wisdom, very like a lovely suffragette, somewhere in the uneasy thirties, one would judge. Venus was your woman in her twenties, the goddess of beauty and love, a June wedded to December Vulcan, a dazzling blonde. Notice that the type of the young thing in her teens was unrepresented on that great occasion. A decision was handed down that might be supposed to be valid for all subsequent time in this vexed question of female charms. But who was the judge? Paris, a young shepherd-prince, bought by Venus' promises, a hare-brained youth as giddy as herself or as the city that bears his name in modern days. What a judge! His verdict must be taken like dreams, in a contrary sense. Clearly Juno or Minerva was the winner to any right judgment, and if Minerva in her thirties surpassed Venus in her twenties, it may reasonably be inferred that the virgin must herself yield the palm to the august loveliness of the matron at 50.

Shakespeare called for "a gray eye or two" in a beauty. Why haggle over a gray hair or two? Kipling, a thoroughly respectable authority, by all accounts, gives praise to the lady of 49, to be exact. There is a poem of his in which a timid little girl of 17 catches the 49-year-old's sweeping triumphantly through the social throng, and her only consolation is in the thought that "when I am 49, she will be 81."

Lady Warwick has nothing to say of 81 or even of 60, it seems. She stops shyly at 50 in her Beauty's Progress. But who will not think of Queen Alexandra, of Ellen Terry, of the divine Sara, all beauties at 60 and beyond? Many a young man will think of his mother, many an older man of his wife still lovely after 25 years of matrimony. What is the secret of this magic

growth? What ambrosia not only maintains but improves the beauty of 20, whether on Olympus or upon earth? Intellectual activity is the thing. It improves man and should improve women. If a woman does nothing but potter about and play bridge whist, if she is unprogressive and fails to keep her mind fresh, if her whole time is given up alternately to humdrum routine and a round of frivolous pleasures, there will be nothing in her face at 50 to make up for the passing of youth's smoothness and sheen. If years bring to woman as to man the philosophic mind, she need not look so old as she often does long before the age of 50. Intellectual cultivation carries with it almost as a matter of course, in the case of women, an attention to the simple laws of health and a rational effort to preserve a youthful appearance. At the same time it ennobles the countenance and converts even wrinkles into elements of impressiveness and order.

Keep the heart gentle and the mind bright, and who need fear 50 or even 60? The nectar of love and wisdom will preserve youth like an evergreen. There can be no one so beautiful as a matron, who is both wise and good. If to her lot some human wrinkles fall, look on her benignity and you'll forget 'em all. The widow of 50 in Sheridan's toast will still be pledged.

## THE RISE OF PRICES.

The department of labor has just issued a continuation of its series of reports on prices in Canada in the form of a special report on the course of wholesale prices throughout the calendar year 1911. The report is by R. H. Coats, B. A., editor of the Labor Gazette, and is based on weekly observations of the price fluctuations of some 261 articles, selected as representative of the entire field of Canadian production and consumption. This list is subdivided into groups, including grains and fodder, animals and meats, dairy products, fish, fruits and vegetables, miscellaneous groceries, textiles, hides and leather, metals and implements, fuel and lighting, lumber, miscellaneous building material, paints, house furnishings, drugs and chemicals, furs, etc.

The general conclusion arrived at is that wholesale prices in Canada during 1911 reached a higher level probably than in any previous year within the present generation; certainly the highest since 1884, and possibly since 1873. The upward trend did not develop with strength during the first six months of the year; from the middle of June, however, it became pronounced and continuous, closing with November and December prices at the highest level of the twelvemonth. Between Jan. 1 and Dec. 1 the average rise is set down as approximately 3 per cent.

Compared with the decade 1890-1899 which is the period selected by the department as the standard of comparison throughout its investigations, wholesale prices were approximately 24 per cent higher in 1910 than in the decade named, and rose during 1911 to a point over 27 per cent higher. Compared with 1897, the lowest year in the past generation, a rise is shown of about 40 per cent.

Of the articles covered by the report, 124 advanced during 1911, while 57 remained stationary, and only 82 showed declines. An appendix of the report contains an analysis of retail prices and rentals in some 48 Canadian cities throughout 1910 and 1911, based on monthly records obtained by the department. A rise of about 5 per cent is shown to have taken place in the past year.

The report, which is a monument to Mr. Coats' painstaking industry, says that the general trade prosperity, activity in railway construction and heavy immigration united in causing a keen demand, with resulting enhancement in prices. No doubt these are conditions which explain why the cost of living is higher in Canada than in most countries, but why has it increased in every country? The problem is international and the London Nation suggests an international commission to investigate it. Such a question as the effect of gold production on prices the world over ought to receive the consideration of all countries. The proposal of an international inquiry has much to commend it.

Life in the coal mines of the world is just one strike after another.

Capt. Scott will have as much honor as the explorer of the South Pole as Amundsen will have as its discoverer.

The Ottawa Government refuses the Senate the courtesy of a conference on three important bills, and then accuses the Senate of killing them.

Mackenzie and Mann have their eyes on Western Ontario, and on London as the centre. Here is one field they have not yet invaded, and the richest of all. The attention of these two gentlemen is highly desirable.

Mr. Borden says there are no negotiations for better trade relations with Germany. Perhaps he fears that a trade pact with Germany would find in Canadians crying "Hoed der Kaiser," eating sauerkraut, smoking long pipes, and singing "Die Wacht am Rhein."

UP TO THE MINUTE.  
[New York Sun.]  
Knicker is their car up to date? Bocker—Well, it is paid for with next year's money.

HOW IT GOES.  
[Woman's Home Companion.]  
"Well, George," said the president of the company to old George, "how goes it?"  
"Fair to middlin', sir," George answered. And he continued to cur-

comb a bay horse. "Me an' this here loss," George said, suddenly, "has worked for your firm sixteen years."

MODERN COMPETITION.  
[Pileggiende Blatter.]  
"With the good position you had in view why did you break your engagement?"  
"My fiancée took the position."

FATHER'S WISDOM.  
[Detroit Free Press.]  
"Father, Alfred has something to say to you tonight."  
"Well, and what have you and your mother decided I must tell him?"

THE VERY THING.  
[Yonkers Statesman.]  
"Have you any rubber articles?" asked the man entering the store.  
"Surely," replied the salesman. "We have a fine line of 'opera-glasses.'"

UNKIND CUT.  
[Judge.]  
"See, I am familiar with your music," remarked the amateur at the musicale the other evening.  
"It seems so," replied the popular composer. "You are taking liberties with it."

WHERE IT WENT.  
[Toronto Globe.]  
A contemporary has learned from a local cigar dealer that Dr. Beattie Nesbitt was one of the little band of Toronto men who indulged in cigars worth a dollar each. So it seems that the Farmers' Bank went up in smoke.

TOO THOROUGHLY.  
[Harper's Weekly.]  
"How does it happen that you are five minutes late at school this morning?" the teacher asked severely.  
"Please ma'am," said William, "I must have overhauled myself."

THE DIFFERENCE.  
[Chicago Record-Herald.]  
A wise man acknowledges his mistake; a foolish one tries to convince himself that he is right.

THE MAPLE SAP FOREVER.  
[The Khan, in Toronto Star.]  
There is a medicine for spring. To praise it is my endeavor. Its many virtues now I sing. The Maple Sap Forever!  
The Maple Sap our physic dear; Oh, take it now or never; 'Twill clear your blood though thick as mud— The Maple Sap forever!

The dose of sap will soon from thee The springtime fever sever. 'Twill keep you from eternal ice. Almost for—forever! The Maple Sap, our physic dear; Oh, take it now or never; 'Twill clear the blood though thick as mud— The Maple Sap forever!

Some people splendid fortunes strike With patent lotions clever. But none of them has virtues like The Maple Sap forever!  
The Maple Sap our physic dear; Oh, take it now or never; 'Twill clear the blood though thick as mud— The Maple Sap forever!

It will pry loose the ills of spring. A sapling for a lever: Then you with me will gladly sing. The Maple Sap forever!  
The Maple Sap, our physic dear; Oh, take it now or never; God save the King, and heaven bless The Maple Sap forever!

## AN IMPORTANT DISADVANTAGE.

[Chicago Record-Herald.]  
"In one way," she said, "an automobile race is better than a baseball game."  
"How do you mean?" he asked.  
"One may understand a good deal of it without having to learn the language."

## THE INFALLIBLE SIGN.

[Emporia Gazette.]  
A man is never old until he begins telling how young he feels.

## CHRISTIAN GUARDIAN INDORSES ROWELL.

[St. Thomas Journal.]  
The Christian Guardian predicts that Mr. Rowell's straightforward policy on the liquor question will be the cause of "reform forces of this Province." "We are no politician in many years has done."

## IN HIGH LIFE.

[Judge.]  
"Don't these parvenus make you sick?" asked Chapley of his vis-a-vis at the Spildorf.  
"I don't know," she replied innocently. "I never ate any."

## VICTORIA LODGE CONCERT

C. B. A. Carried Out a Splendid Programme.  
Victoria Lodge, No. 2, Ladies' C. B. A., held a concert at the Knights of Pythias Hall Monday night. The following took part: Mr. C. Thompson, Miss Dorothy Pearson, Mrs. M. C. M. Pearson, Miss Myrtle White, Miss Mary and Little Covey, Miss Emma Pearson, Mr. R. Howe, Messrs. Robinson and McLaughlin, Mr. Joseph Flavin, Miss Blaney and Miss Kathleen White. An address was also delivered by Mr. Martin, Chatham.

BROCKVILLE AND HYDRO.  
Brockville, April 1.—At last night's council meeting it was unanimously decided to submit a bylaw to the ratepayers on the 25th inst. as to what they are in favor of the municipality entering into a contract with the Ontario Hydro-Electric Commission for a supply of power.

## Eat Raisins.

On April 30, the people of California will celebrate the fourth annual California Raisin Day. The slogan is, "eat raisin bread, eat raisin pie, eat raisins cooked or raw, but eat them anyhow." The idea of the celebration is to assist one of the greatest industries of the state by bringing the native product before the public as prominently as possible and after four years the institution has become quite popular. It is not by any means confined, however, within the borders of California for many of the Easter railways feature the daisy fruit by placing special raisin dishes on the menus of their dining cars for that day. The Grand Trunk has fallen into line on previous anniversaries, and will again give prominence to raisin dishes throughout their system on April 30, this year.

## CONTRACTED HEAVY COLD

Was In Bed Two Months.

DOCTORS DID NOT SEEM TO DO HER ANY GOOD.

A cold, however slight, should never be neglected, for if it is not treated in time it will, in all possibility, lead to bronchitis, pneumonia, asthma, or some other serious throat or lung trouble.

Dr. Wood's Norway Pine Syrup contains the lung healing virtues of the Norway Pine tree, which, combined with other absorbent, expectorant and soothing medicines, makes it without a doubt the best remedy for all coughs and colds.

Miss N. McCumber, St. Martin's N.B., writes:—"In January last I contracted a heavy cold which kept me in bed nearly two months, and the doctors didn't seem to be able to do me any good. I tried several proprietary medicines, but all in vain. One day a friend advised me to try Dr. Wood's Norway Pine Syrup, and when I had taken three bottles I was completely cured, and I feel as well to-day as I ever did, and I am sure my lungs are once more sound, thanks to that wonderful remedy."

Dr. Wood's Norway Pine Syrup is put up in a yellow wrapper, three pine trees the trade mark; price 25 cents.

Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

## ELLIS BREAD BILL

KNOCKED ON HEAD

Proposal To License Bakers and Appoint Inspectors Killed In Committee.

[Special to The Advertiser.]

Toronto, April 2.—Mr. J. A. Ellis' bread bill was further emasculated in the municipal committee of the Legislature today. His proposal of a 12-ounce loaf was knocked in the head by the committee of the whole the other day, and his idea of licensing bread vendors and appointing inspectors was killed this morning.

Mr. W. D. McPherson, Toronto, said there could be no harm in permitting a local licensing system in Ottawa or anywhere else, and it might be a good thing to have the inspectors see conditions in all bakeries and report them. Almost for—forever! Mr. McPherson feared, however, that the bakers in Ottawa might combine against outside bakers, and by having a "pull" with the municipal council could prevent the outsiders getting licenses.

## Too New, Says Hanna.

Hon. W. J. Hanna said the proposition was rather too new to be countenanced, and it might be equally advisable to license butchers.

## A NEW BRANCH OF

C. M. B. A. FORMED

St. Michael's, No. 498, Launched in the North End.

One more branch of the C. M. B. A. has been added to the list of branches in the city of London, namely, that of St. Michael's, No. 498, in the north end. At St. Nicholas' School, the institution of this new court took place. Dr. E. J. Knielt, Joseph Pevler, James H. Knielt, Michael Cox, James Donnelly, Geo. Galarneau, and others.

Bro. George Galarneau, who was instrumental in establishing the new branch, was complimented by the members and the speaker for the good work done, and was given a flattering testimonial for his work.

Resolutions of condolence were unanimously passed to Mrs. C. A. McNeill on the death of her husband, and to Town Clerk Smith, whose mother died recently.

The question of a sewerage system was advanced another step, when the council decided to get information from Mr. Chipman, of Toronto, who will visit Ingersoll for the purpose of going over the ground.

The mayor suggested that it probably would be advisable to ascertain the condition of the mill dams in the corporation, and a resolution carried that an inspection be made also of the archway on King street east.

## BRIDE IN BOX CAR

Continued From Page One.

car journey. The pair decided to change their luck and make their home with Mrs. Duncombe's parents, in Lynedoch, Duncombe, his wife, said, told her that he would obtain the necessary funds for the journey from a wealthy uncle in Windsor. She agreed, but she says she later discovered that the wealthy uncle was a myth. Her husband finally persuaded her to don a suit of his clothes and make the trip home on the "bumpers."

Though the trip was fraught with much excitement, everything went well until they reached Courtwright, where they were put off and where, Mrs. Duncombe says, the adventure with the brakeman occurred. They continued the journey home on foot through a driving rain and muddy roads. The distance they walked

For a time they lived happily on her

father's farm. Then they separated again. Soon after Duncombe inherited \$1,000 from a relative. He invested in a \$16 silver cigarette case and an outfit of clothes designed to delight the eye of the most fastidious.

He then proceeded to institute his suit for divorce, making accusations against his wife. She decided to fight the suit.

With a "Dream," When last seen Chapman was walking in Woodward avenue accompanied by a ferocious bulldog with a "dream" under a large, black hat hanging on his arm. The silver cigarette case was presumably in his pocket. His wife alleges in her cross-bill that he intends to marry the "dream," provided he gets the divorce.

Charles comes back with an answer in which he denies each and all of his wife's charges, except that of the box car ride in men's clothes. This, he said, was a freak of hers. He also mentions a couple of interesting incidents in his wife's career.

It is said here that the Duncombes at one time ran a nickel theatre in St. Thomas, but not in London.

## SHIPMENT OF NEW DRESS EMBROIDERIES

A Greater Variety of Embroideries, Prettier and More Exclusive Patterns and Better Values than can be found anywhere in this vicinity—that is our reputation for Embroideries.

This week we announce the arrival of a shipment of Dress Embroideries that many of our customers have been waiting for.

## Beautiful Irish Crochet and Guipure Lace Embroidery Skirtings

These Skirtings and Flouncings are fine Swiss Embroideries with touches of Irish Crochet and Guipure Lace. The artistic beauty of these cannot be realized without being seen. They will be much in vogue for making pretty lingerie dresses. Let us show them to you while display is complete.

45-INCH SKIRTINGS (Irish Crochet and Guipure Lace Embroideries), at a yard..... \$1.25, \$1.35, \$1.50, \$2.00 and \$2.50

27-INCH FLOUNCINGS (Irish Crochet and Guipure Lace Embroideries), at a yard..... 75c, \$1.00 and \$1.10

GALLOONS to match the above skirtings and flouncings, at a yard..... 40c, 45c, 65c, 75c and \$1.00

27-INCH FLOUNCINGS (Irish Crochet and Guipure Lace Embroideries), at a yard..... 75c, \$1.00 and \$1.10

GALLOONS to match the above skirtings and flouncings, at a yard..... 40c, 45c, 65c, 75c and \$1.00

## It's Easy to Peel Off All Your Freckles

[From American Home.]

The contrast between the freckles and the clear skin usually is so great that no bleaching can be more than partially successful in eliminating the disfigurements. Ordinary mercurized wax is far better; it literally peels off the freckles. Get an ounce of it at the nearest drug store, and tonight spread on enough to completely cover your face; remove in the morning with warm water. Repeat daily until every freckle has disappeared.

Rough, blotchy, pimply skin, also common at this season, may be entirely gotten rid of by this same method, without discomfort or inconvenience. The effort is decidedly worth while, the new complexion obtained being so clear, smooth and youthful. If bothered with wrinkles, after washing off the mercurized wax, bathe the face in a lotion made by dissolving an ounce of powdered sassafras in a half pint of witch hazel.

the San Francisco turfman and entered suit against the executor in 1910. Last Saturday the supreme court of California unanimously decided in favor of Baldwin's acknowledged heirs and dismissed her petition.

## MAYOR WILL INSPECT DETROIT GARBAGE PLANTS

He and Ald. Robinson Will Go to the Michigan City Tomorrow.

Mayor Graham and Ald. Robinson will journey to Detroit tomorrow to visit the garbage-burning plants of that city, and if possible get some ideas which may help in solving London's incinerator problem. It is likely that the board of health will send a representative to accompany them.

## INCREASE IN CUSTOMS

Receipts at Port of London for March Were \$99,066 20.

The customs returns for the port of London for March, 1912, which amount to \$99,066 20, show an increase over the returns for March, 1911, when the totals were \$96,1

# Cynthia Grey and EVERY WOMAN'S Page

## SPRING WALKING HAT OF BLUE

Severe is the style of the walking hat that many a maid will wear when the first spring days appear. This model comes from England where girls and women still affect the straight in line and simple in decoration when out on a promenade or shopping.

The crown of the walking hat is semi-high and the brim rolls up at the sides. Back and front the rim dips toward the face and nap of the neck respectively. This hat is worn a bit back on the head.

An English walking hat that is a smart model is of the Dunstable straw in a dark blue shade. The only trimming upon it is a velvet bow of blue from which extends an osprey. This has many colors in it. Orange, red, green, brown and blue touch the delicate feathers.

## THE LAST VOYAGE OF THE DONNA ISABEL

[BY RANDALL PARRISH.]

The man's manner and tone remained early and insolent, but I gripped my indignation and held back the hot words burning my tongue. It was necessary that I make the best of it now, but after we were only safely at sea I intended very shortly to take the measure of this Yankee whaler. I watched him a moment silently as he leaned back in his chair, with long, thin legs sprawled out, his chin jacking crumpling at the tobacco in his cheek. My eyes wandered toward the olive-tinted face of De Nova, barely visible through the enveloping smoke of his cigarette. The latter nodded cheerfully as though he interpreted my thought.

"Oh, ze men was all right, monsieur," he put in smiling. "Maybe a bit rough, but, sacre, w'at would you?" His shoulders rising to the question, "Mr. Tuttle, he crumpled, but I know him. I know him, an' I razer have him so zan can hear him talk to ze spirits; w'en he do zat, it make me sick, by gaw!"

"You blaspheeming monkered infidel," the whaler's nasal voice rising shrill with anger. "I don't have to count beads in order to fit my soul to the other world."

"There is liable to be fighting enough before morning," Tuttle said sharply, fearing a quarrel, "without comrades falling out before their belief. Leave that for lubbers ashore to argue over. Now tell me what arrangements have been made for boarding the Esmeralda?"

"Tuttle spat into the sawdust, his gaze still on De Nova. "Two boats concealed beneath the pilings of the Mercantile Company's coal wharf, a whaleboat and a cutter."

"Any arms?"

"A dozen rifles, six to each boat."

"I am to my feet, standing at my watch in the dim light. He had not given me the customary 'sir' in any of his replies, yet I ignored the omission, willing for the time being to sink formality for the sake of action.

"Very well, Mr. Tuttle. Have your men there in an hour from now. They had better travel in parties of two, and see that they start out sober. You understand these orders clearly, I hope, sir; have them there in an hour, sober. De Nova, you must know how to bring such men to their senses; get busy with that gang. Now work rapidly and quietly, both of you, for if we get caught, this is likely to be a hanging matter for all of us."

I stared at the two of them for just an instant. I saw that Tuttle was leaning forward in his chair and stepped forth into the outer room, closing the door behind him. A drunken yell greeted my re-entrance into the boisterous crowd, but ignoring everything, glancing neither to left or right, I picked my way through the motley gathering out into the welcome blackness of the night.

CHIEF OF THE VESSEL.

In which we gain the look, sense shadows to reflect more carefully upon the details of our night's work. For the first time I clearly realized the desperate nature of this adventure upon which I was about to embark. Success or failure, liberty or death, depended on the first hour—the slightest mistake, an alarm, an unforeseen accident would utterly ruin everything. I once obtained the yacht's deckchairs, served and made out attack compasses, and would utterly ruin everything. I once obtained the yacht's deckchairs, served and made out attack compasses, and would utterly ruin everything. I once obtained the yacht's deckchairs, served and made out attack compasses, and would utterly ruin everything.

## THE NECESSARY VEIL

[By Cynthia Grey.]

Early spring is the time when veils are more necessary than at any other season of the year. The winds of March penetrate the cuticle and cause freckles and roughness, which are hard to overcome.

A little precaution at the present time will prevent the later troubles of sunburn and tan. Every woman who walks or rides in an open motor or carriage should wear a veil. The sheer dotted veil is of little use just at this time of the year. A chiffon or grenadine veil will protect the skin from the elements and will keep the face warm.

Strange as it may seem from the delicate lightness of the material, chiffon is quite warm enough for a throat covering in all but the chilliest weather, and as a face covering is quite sufficient to protect the face from even the intense cold of winter.

In the months of March and April colors of veillings are important. I always prefer the light brown shades. The color seems to protect the face from the strong light and is also becoming to the complexion.

All shades of green are a protection to the eyes, but to be becoming they must be of a certain shade.

Blue veils are becoming to sallow skins or pale complexions, but over a fair or rosy complexion, no matter how perfect the skin or natural the color, a blue veil gives the effect of covering much makeup. And even a baby's complexion would have the appearance of being painted if seen through a blue veil.

Thick black veils are too dismal and mournful, and no woman should wear one unless obliged to by mourning.

White veils are most becoming, either plain chiffon or the new lovely finely woven patterns, if the pattern is not so large that it gives the effect of an old-fashioned antimacassar or dilly.

A regular small pattern in the shape of a Maltese cross or fleur de lys, or even a far-sized dot, is most becoming to any woman or girl.

Women may wear veils pinned closely against the face without harm to their skin unless the cuticle is extremely delicate. But young girls, who do wear the veils to protect their youthful skins, should never draw the veiling tightly against the face for the reason that veiling collects dust, and when too close to the face the dust will irritate the skin that needs no powder.

Veils are not becoming to young girls and should be worn only as a protection in these early months of sudden changes of weather. Therefore, they should hang loosely from the rims of the hats and be wide enough to cover the neck from the elements.

In Russia, where girls and women always carry a veil, they chochet them at home of the finest silk, with a fairly large mesh, and they are generally white or ecru in color. But in that cold country veils are part of their costume.

In Norway and Sweden the veil is as much a part of the outdoor dress as a hat and is crocheted off the softest wool, such as tabbies wear here in winter. There are few cold countries where veils are not worn. Naturally the Eskimo women do not wear them, but then their skins are like parchment, and veils would be quite as ludicrous as they would look with their fur gowns and hood.

The Eskimo woman uses her hair as a protection to her face if she ever uses any protection at all.

We who have fine skins to meet the rough weather should always carry a chiffon veil and wear it as a protection. It is generally conceded that the early spring wind is full of germs let loose from the earth and traces by the thawing weather, and when it comes warm enough to burn them up they fly about looking for places to land and feed.

Remember: Veils have two uses—screens to defy microbes, or cowboys to attract them.

## Cynthia Grey's Correspondence

### Help For Susan.

Dear Miss Grey—Will you kindly answer the following questions? 1. How is sage tea made, and in what form should I buy the sage? My hair is dark brown. Would the sage tea be all right to darken some gray hairs?

2. Give me recipes for two cakes, and how to ice and decorate them suitable for a church social. And oblige, A. S. S. A. N.

A.—1. Make a strong tea from sage leaves, strain and bottle it. Drop in a little perfume if you desire. Sage tea is perfectly harmless, and is said to be one of the best color restorers for dark hair.

2. This date cake is delicious: One-half cup butter, one cup sugar, round half full; one cup sweet milk, two eggs, two and a half cups flour, two teaspoons cream tartar, one teaspoon soda, half teaspoon lemon extract, a dash of nutmeg, one heaping cup of dates finely chopped. Stir the dates in, and out in squares to serve. Ice with a white icing, made by stirring confectioner's sugar into the unbeaten white of one egg until a paste is formed. Spread over the cake and ornament with sections of date.

Orange cake: One cup butter; two cups sugar, half cup water, five yolks of eggs, three whites of eggs, two cups flour, two teaspoons cream tartar, one orange, juice and rind grated. Bake in layers, and use an orange filling made by stirring powdered sugar into the juice, and grated rind of one orange.

### Mourning Attire.

Dear Miss Grey: I am in deep mourning. 1. Would a silk yoke and collar be in good taste in an all-black dress, or should collar and yoke be of dress, or some material as the dress? 2. I have a one-piece summer dress of black broadcloth. Could I use it for street wear while in deep mourning? Thanking you for past and future help, Miss H. K.

The silk yoke and collar would be quite suitable. 2. Yes.

### Prone Plates.

Dear Miss Grey—Will you kindly tell me if it is considered correct to use bread and butter plates when serving dinner? Please answer at your earliest opportunity and oblige, A. S. S. A. N.

A.—It is customary to use them.

A.—Your only course is to tell your parents at once. Perhaps, if they were to meet your friend, and he proves worthy of your friendship, they may object as strongly as you fear. By all means tell them immediately.

### He Flirted With Her.

Dear Miss Grey: I have been reading your columns every night. We have taken The Advertiser for about 22 years. Now, I would like you to answer these questions I have to ask you:

1. I am a girl, 20 years of age, very fair, with brown eyes, and very tall and stout. Would a cream serge suit with black hairline be nice for Easter?

Now, just about four weeks ago I went to church, and while there I saw a swell-looking fellow. He was stopping with friends of ours, of whom I had heard, and I was very much interested in him. He flattered me, and asked his little cousin who I was, so she told him, and he went home and told his aunt about me. So his aunt said they would bring him over to our house. A few weeks after I met his aunt and uncle at a church, and they told me to be sure and come over, but I didn't go. So the reason for it, I didn't go. Now, as his little cousin told me his address without my asking anything concerning him, do you think it would be proper for me to send him a postal and Easter card, or if this summer when I visit my relatives in the same city, would it be proper for me to call him up? BROWN EYES.

1. Yes, very nice indeed.

2. It would seem to me a silly thing to do. Don't encourage the fellow's vanity. If he d asked you to write him, or if you were better acquainted, there might be some reason for it. If he really wishes to become your friend he will soon let you know. But probably by this time he has forgotten you entirely.

## For the Summertime

In buying dresses for warm weather an mistake can be made in selecting one of these comfortable blouse frocks. The material of the one in the illustration is white linen with bands of blue. The closing is made with cords and buttons, and a new effect is seen in the buttoning of the sleeve band.

have a cause at heart results are sure to come.

The Convention.

About two hundred delegates are expected at the May convention, which is the nineteenth annual meeting of the Canadian council, and they are coming from all parts of the Dominion. The sessions will be held in the Normal School. Among the officers of the local council are: Mrs. Boomer, president; Mrs. J. C. Yarker, corresponding secretary; Miss M. A. Moore, recording secretary; Mrs. R. M. Graham, treasurer.

On the evening of the 24th of May a public reception will be held in the Normal School, to which the delegates and their entertainers and all members in connection with the National Council are invited.

## The Daily Menu . . .

Breakfast.

Fruit. Oatmeal.

Ham. Omelet.

Rice Muffins. Coffee.

Luncheon or Supper.

Scrambled Eggs.

White and Graham Bread.

Preserves. Cake. Tea.

Dinner.

Cream of Pea Soup.

Roast Mutton. Quilled Potatoes.

Lettuce Salad.

Custard Pie. Coffee.

Quilled Potatoes: Peel, boil, season and mash potatoes; put them through a colander into the dish in which you wish to serve them; set in a hot oven and brown.

Rice Muffins: Use on cup of cold boiled rice, two cups flour, two eggs, one teaspoon salt, one tablespoon butter, enough milk to make a thin batter. Bake quickly.

Lettuce Salad: Take one bunch of head lettuce, two large oranges, one small pineapple, a half-cupful of salad dressing or a half-cupful of mayonnaise. Crisp the lettuce and arrange on individual salad plates. Peel the oranges and slice in half-inch slices crosswise. Cut four half-inch slices of pineapple crosswise. Arrange one slice of pineapple between two of orange slices on the lettuce and pour French dressing over all.

For Little Folks

The children of this day are very generously treated by fashion, for they share with their elders the fabrics, colors and designs of the hour. No one restricts them to white, with the sole relief of baby blue and pink, for it has been discovered that the little people are quite as likely to look lovely in the rich tints, such as purple, brown and green.

As a matter of fact such colors are more becoming to many tiny girls and boys than the so-called infantile and primitive dyes.

Awaiting the very little boys who are to be exalted to tunic suits when warm weather comes there are tussore and linen models of the prettiest colors and shapes. The average mother dresses her small sons in the simplest of raiment, and leaving for his small sister's linen frocks, floral embroidered blouses, and the like, the homely French knot, fagoting and feather stitching, and not very much of that.

Where the tulle folds over at one side there is a constellation of the knots set across the lowest corner and finished by feather stitching.

THE PROGRESSIVE DRUGGISTS.

woman's face: "It is a shame the way women use paint and powder," said the judge, when asked by a mother to prohibit her 19-year-old daughter from using cosmetics. "If I had the power I would make them all stop it. A woman should have more pride than to make a signboard of her face. Any woman could have a pretty complexion by leading the proper life. I mean plenty of exercise, sleep, and proper food. This enamel is just like a false face."

A practical bathroom rug can be made from discarded underwear by cutting the best parts into narrow strips and joining them as for carpet rags and then crocheting them with a large wooden hook, using the single crochet stitch.

If most of the rags are white the few colored ones can be used for stripes at each end of the rug. Fringes made of coarse darning cotton the color of the stripes will add to the beauty of the rug. When soiled it can be washed without losing its original shape.

Never sit on the edge of a sick person's bed, and never place your chair so that he must strain his eyes or turn his head to see you. Get directly in range of his vision, so that he may see you comfortably. Never whisper in a sickroom.

Helpful Hints for Thrifty Housewives

Apply kerosene liberally to any copper vessel which has become discolored; then wash with hot water and soap.

If you get ink on your fingers, wet the head of a match and rub it on the ink spots. It is much quicker than to let it wear off.

If something you are cooking happens to scorch, set the kettle in cold water immediately, and there will be absolutely no scorched taste. This is worth trying.

Use equal parts of alcohol and kerosene for removing oil paint from the hands. Shake well before using. Rub

Once tasted, always liked!

THAT IS NEWS

## A DAY IN THE SPORTING WORLD

SIDE LIGHTS ON  
MANY SPORTSTIGERS DEFEAT  
BIRMINGHAM  
BY 4 TO 0

Chaput, Formerly of Berlin, Pitched Game For Losers.

DETROIT PITCHERS  
ALLOW TWO HITS

Perry Gets a Double and a Homer and Should Have Had Triple.

Birmingham, Ala., April 1.—Three Detroit twirlers collaborated in an exhibition of mound work today that had the Birmingham Barons so completely baffled that there never was a chance for them to avert a shut-out. The Southern Leaguers got two hits, one of which was registered as a safety solely because Oscar Vitt had the misfortune to slip and fall flat in the mud after fielding the ball cleanly. This scratch single was counted against Mullin, who pitched the first three innings. Tex Covington, who was on duty in the middle third of the contest, was not hit at all, while McCorry, who finished the task allowed only one safety, a good lucky wallow.

As the Tigers' pitchers were accurate as well as otherwise effective, it can be seen that Birmingham didn't get very many men to first base. Neither of the first two curvers hit or passed a man. Cory let a couple get away on passes, but neither walked until he was out, so there was nothing particularly alarming about the presentations. Two errors by Cobb in the same inning, gave the home club its best chance to do something, but the "Peach" acted as pivot in a double play after he had committed his fielding sins so the storm blew over.

**Perry Muffs One.**  
Perry made a rank miff of a fly to start the fourth inning, but the man who profited was caught stealing after one of his fellows had fouled. So much for the Detroit defence.

The Tigers hit both Chaput and Green much harder than the score shows, though their recorded total of seven singles, a double and a homer is not one to be ashamed of. The Tigers would have had at least half a dozen more extra base swats but for the fact that the Birmingham park is nearly a mile deep and the outfielders have been instructed where to play for Crawford, Delehan, Cobb, Gainer and other sluggers of repute.

**Gainer Loses Three.**  
Gainer lost three hits because the left-fielder speared them a couple of blocks from the plate, and Perry was shorn of what would have been at least a triple through the same man's mania for playing deep. The right gardener backed up against the wall, which is over 300 feet from the rubber, and stole one from Sam, the catch being made so far out that Cobb took occasion to give the fans a treat by scoring from second on the sacrifice fly.

Both Chaput and Green are well known in and around Detroit. Chaput was with the Champion Berlin club of the Canadian League last season, and was the leading pitcher of that circuit. Green is a graduate of the South Michigan League and has been rated as one of that league's most effective slappers for several seasons.

## GRIPSACK SI TRIES TO EASE HIMSELF INTO A BASEBALL JOB AND GETS THE RAZZY-MA-DAZ

LONDON CLUB WANTS A MANAGER  
WHO WILL BE BEST IN THE LEAGUE

Lots of Men Who Are as Good as Managers of Other Teams, But Local Club Is Looking for a Man Who Will Top Them All—Selection Will Be Made This Evening.

[BY JINX.]  
The selection of a manager for the London ball team for 1912 will be made this evening or some time tomorrow. The local management have a host of applications to pick from, but they are after a man who can be depended upon to put London at the top of the pile, and they are going slow over the matter. However, the time is getting short, and as the players will be beginning to report in a couple of weeks, it has been decided to land a man this week, and a meeting will be held this evening to make the choice. All men this week, and a meeting will be held this evening to make the choice. Out of the forty or fifty applications received for the position, about five have been given any consideration by the local directors. It is an easy matter to get a manager like "Knotty" Lee or "Rube" Deneau, but this will not do for the locals. The local officials realize that they have got to get an Al man this season, as half the battle depends upon the man who is leading the team. There is not much doubt but that the local club has landed a first-class bunch of players for this year, but good players have to have a good manager, and nothing will kill a good team like a poor manager.

**WANT A BETTER MAN.**  
What the local directors want is a man who has just a shade on any of the other managers on the circuit, and that is what they are going to get. Several men have been recommended to the local club by well-known ball-players and managers of other teams. Frank Shaughnessy recommended a player by the name of Tipman, but it is not likely that he will land the job. If Shaughnessy had been able to stay with the Ottawa team this year, the London club would, in all probability, have been managed by Louis Cook, who will handle the Senators during Shaughnessy's absence. Cook is a university man, and knows the game like a book. He should land the Ottawa team near the top this season.

However, the local club is negotiating with a former New York Giant player, a man who has a thorough knowledge of the game and who gained his knowledge in the big leagues. If the terms can be satisfactorily arranged, he will be asked to report here at the end of this week.

**TWO NEW CATCHERS COMING.**  
The locals will try out a couple of catchers this evening, and one of them will have all they can do to catch a place on the team. Resie wrote another letter to the club a day or so ago, and mentioned the fact that as far as he could see by his contract, his salary looked about the same size as last season. He thought that he was entitled to a raise, and will sign as soon as it is given him.

Then, according to the local management, Resie did not show anything last season that would entitle him to a raise this year, and until he begins to make a noise like a real ball-player this season, he will work for the same old amount.

"Bobby" McWhirter is also holding out for more money. He wrote a letter the other day and accepted the contract sent him, but as yet it has not been returned with his signature attached. McWhirter is suffering from an attack of enlarged self-estimation, and when he begins to realize that he is not a big-leaguer, he will be a little more approachable. He is in him in order to hold a paying job.

**BARRETT'S BLUFF.**  
The local management have also heard from Barrett. He claims that he is a free agent, and if the London team wants him they will have to hurry up and agree to his terms. Mr. Barrett will receive a rude shock about the first of May when he discovers that the London club has a hold on him, and will trade him off to any of the other clubs in the league for a good catching mitt and a mask thrown in. That is about what will happen if he continues to spring this kind of a bluff on the local officials. He belongs to the London team, and cannot get away until the local club chooses to release him. However, they believe that Barrett can be worked off in a good trade with some of the other clubs, and some kind of a deal will be put through.

Jo Jo Keenan has not yet landed a berth. Jo had an offer from the Calgary club in the Western Canada League, but he has not yet accepted. He is hoping to land a job with a Canadian League team, probably Hamilton.

old is a good looking and has shown a lot of speed on the road, although he never has been trained.

Will Durfee has picked six from his string at Los Angeles, and will bring them across the great divide.

Herman Tyson's stable at Newark, which will be at the blue ribbon meeting, has a recent addition in Henry S. 2:18 1/4.

Fred S. Upton will start the horses at the Buffalo and Syracuse grand circuit meetings. He is a clever man at the business.

Edward E. 2:15 1/4, is one of the sale at Washington Court House, O., next week. They say this one has the R. T. C. look.

Grace D., that lowered the three-year-old race record on a half-mile track to 2:10 1/4, will spend the season on Long Island, and be raced next year.

Hoosier horsemen have talked a lot about Mansfield, 2:11 1/4, that was picked up at the Lackey sale by Cox. They think he will do in any pacing society.

## TRAINING CAMP TIDINGS

**VITT WILL TAKE BUSH'S PLACE.**  
BIRMINGHAM, Alabama, April 1.—Oscar Vitt will be seen at short when the Tigers open at Cleveland next week, and there is a strong likelihood of his being there regularly throughout the season. Such was the announcement made this afternoon by Hughie Jennings. The diminutive newcomer is showing great stuff in the spring games, and is assured of being in the line-up for the first game, whether or not the trouble between Donie Bush and the management is straightened out by that time.

If Bush does decide to come in before the 11th, he will not displace Vitt immediately, and if the latter continues the sort of work he has been doing lately, perhaps not at all. Bush, whose training has been neglected thus far, cannot be in shape for the first game, while Vitt is in prime condition. Of course, if Donie cuts out the hang-back stunt and gets down to serious work, it will take a mighty good and persistent pitcher to beat him out of his job. So far Vitt has been showing himself to be just that, and has the bulge on the veteran.

Nothing new has developed regarding Bush since the last positive assertion from Indianapolis that there was nothing doing until that little matter of \$200 was satisfactorily adjusted. There does not seem to be much hope of that, and Jennings has given up hope of his reporting.

## LAFITTE, BAUMANN AND CASEY TO GO.

Birmingham, Ala., April 1.—Although Manager Jennings declines to say so in as many words, it is practically certain that Pitcher Ed Lafitte, Infielder Paddy Baumann and Catcher Joe Casey will be turned loose by the Tigers before the opening of the American League season or very soon thereafter.

Hughie practically admitted today that these players were on their last legs as members of the Detroit baseball club. No waivers have been last season that would entitle him to a raise this year, and until he begins to make a noise like a real ball-player this season, he will work for the same old amount.

Stirrings will be attached to a couple of these men so that they may be recalled if their future work warrants.

## O. H. A. PLAYERS WIN A COMEDY GAME

About the Funniest Thing Seen on Local Ice This Season.

## A SMALL-SIZED CROWD

The Players Tried to Rough, But Their Efforts Caused a Lot of Fun for Spectators.

If the Byron Sanatorium depended upon donations derived from benefit hockey games between the local intermediates and the city league all-stars to keep the institution in working order, they would receive about enough money to buy postage stamps to send out the first week's mail. Perhaps there might be enough left over to buy a ticket for a return trip on a Springfield car, but it is doubtful. Last night's game between the above-mentioned teams was about the funniest thing in local hockey matches since that memorable game in which The Advertiser defeated the Free Press.

The score was but 1 in favor of the O. H. A. players, but nobody cared about the score. It was necessary to play ten minutes overtime, and although the game was about as interesting as a ride on a local street car from a hockey standpoint, the crowd stayed it out.

## WHERE THE FUN CAME IN.

The fun came in at the moment when the players were trying to mix it. It was about the friendliest sort of rough play one could imagine, and Referee "Goldie" Proder merely overruled so as to give one an idea how they play it in the N. H. A. The first two periods were dull, the score being tied at the end of the second period. However, in the third period, the fun started when the players began to make frequent trips to the penalty box. This was what kept the crowd from going to sleep, and the rougher the game became, the more the crowd laughed. Then the players started to laugh, and all thought of scoring a goal vanished. Finally, after the game had gone into overtime, Lecky and Munroe decided to bring things to a close in order to get home in time for breakfast, and they each scored a goal within a minute.

The feature of the game was the funny goal-keeping of Bill Callahan. Bill is either the best goalkeeper in the city or the luckiest one. The way he was stopping them last evening was the funniest thing imaginable. The teams were:

Intermediates — Wardrobe, goal;

Everybody else having had a try at a line of language all his own, he him. Sterling McKinney has been may be able to get the ear of this shipped to Walter Cox. As Cox has gold brick.

# SHAUGHNESSY LEAVES OTTAWA TO REPORT TO FORT WAYNE CLUB

General Feeling of Regret All Over Circuit That Popular Ottawa Owner Will Not Be Seen in League This Year—  
Berlin Team Rounding Into Shape.

Hamilton Spectator: There is sincere regret going the rounds of the Canadian League circuit over the inability of Frank Shaughnessy to remain with the Ottawa club as manager this year. Shaughnessy has got to report to Fort Wayne in the Central League, and is expected to join the western club this week. This means that he will be lost to the Canadian League for this year at least, and it is with much sorrow that the Canadian leaguers see him go, for "Shag" has proven himself an exceedingly likable chap, while his records prove that he is a cracking good ballplayer. He made many friends at the Canadian League meeting here some weeks ago, and has added many to the list in his dealings with the various clubs since then. That the Fort Wayne owner, Varrell, insisted upon the Ottawa man reporting is not to be wondered at. The Ottawa man's success with the Central League will be watched with interest by the local fans.

"Shag" Does Them Out. Shaughnessy is expected to Hamilton today on his way through to Fort Wayne. Before leaving Ottawa he was induced to give his opinion of the Canadian League possibilities, judging as well as he could from the various club rosters as published in the papers recently. He says:

"I look for Rube Deneau to bring a cracking good team out of Berlin. Deneau is a good ballplayer himself, and he will gather around him a fast team. He has the majority of his last year's pennant winners and has been able to fill up the weak spots caused by the drafting process. Deneau's team will be in the race all the year, mark my word. Knotty Lee, I believe, will be a fighter for the pennant. He also is an old ballplayer, and what's more, Hamilton will demand a fast team this season. I see Secretary Robinson has been in Detroit for some time getting some good men for the club."

"Templin is using a tooth-comb on the Tri-State for the club, he will place in Peterboro, and he has some good boys on his list to my personal knowledge. I like the way they are booming the game in Peterboro. The home crowd can always with a few tight games for its team, and when it is pulling hard the players are crabbing for all they can get. That's what wins ball games."

"Guelph should be there. They have good backing and an enthusiastic owner. Same with Brantford. I don't know much about St. Thomas, but hope Elliott pulls through in time to take charge of his club. If the Canadian League playing fields are as good as I am led to believe they are, you will see some of the fastest baseball put on by the minor clubs on this circuit. All the clubs are looking for the young stuff, and they are the boys who have the 'pep,' and that is what makes baseball the great game it is."

Shaughnessy says Louie Cook will catch on in Ottawa right away. Louie is an intelligent fellow of good address and a capable ballplayer. He has

officialled in the capacity of manager before and has coached two or three college teams. He is a good handler of men and a disciplinarian of the intelligent type. Cook is a civil engineer, and has gone through the University of Illinois. In his brief career in professional ball he has acquired a snug little bank account and is rated one of the best fixed minor league players in the game. At last accounts Louis was unmarried, though Shaughnessy says he has winning ways and a marvellous eye, and this being leap year.

Twenty-five For Berlin. Berlin Telegraph: Twenty-five players will report to Manager Deneau at the Windsor training camp on April 27, when the wedding process will be commenced in earnest. That there will be some difficulty in picking out a club is evident from the fact that each player who will be given a tryout is an exceptionally good ball player, and will make a fight with the older and confident players for their berths on the club this year. The roster includes a batch of eight pitchers, three of whom are known to local fans, Bramble, Gibson and Deneau himself, who will take his regular fling at the batter this summer. Joe Jerge, a student attending St. Bonaventure College, wrote the management today that he would report in June when school closes, and will endeavor to catch a place on the team. Jerge is not a mixed up with the Jerger who heaved for the Brantford nine last summer, for the Berliner is but a youngster, and will be his first plunge into the salaried pool.

Classy Uniforms. The uniforms of the Green Sox this summer will be among the prettiest to be found around the circuit. While the team will be dubbed the Green Sox right along, the breast of the uniform will be ornamented with a black and white bee, and the boy will be commonly known as the "Bees."

Deneau has arranged to play several games with Kingston's Saginaw Michigan Leaguers during his stay at Windsor, while an offer has been received from A. J. Rosenik, the well-known baseball man of Detroit, who was endeavoring to procure the franchise of the proposed United States Baseball League to play a series of games with an all-star caste of Detroit ball players.

President Williams of the Green Sox arrived in town today and signed up his last year's secretary, W. H. Rhodes, to take charge of the team's finances for another year.

"Rube" Says He Is Ticked. Manager Deneau writes that he is "ticked" over the success of Delone Chaput in the south with the Birmingham Club in their training quarters, and it is conceded that he will find a regular job on the pay roll of the club. Further than this, Rube says that Old Folks Templin is going to have some team this year, the players signed by him having justified the former Berliner a lookin' for the rag.

Take a slant at the following list of players who will report three weeks hence, and dope out the probable lineup when the club tackles the Senators in Ottawa on May 15:

Pitchers—West, Deneau, Bramble, Gibson, Brown, Webb, Brandier, Jerge, Hendershot.

Catchers—Schroeder, Fulton, Miller, Teed, Ackerman, Hendershot.

Infielders—McLaughlin, Richardson, Williams, Sharpe, Roth, Bullock, Hesserberger.

Outfielders—Cambria, King, Dinsmore, Burns.

Richardson, who played several games at first for the Leafs last summer, is going to be given a tryout by Manager Stallings at the initial station at the Buffalo training camp this spring. Richardson showed that he could whale the ball some while with Guelph, but his temper will have to be curbed before he makes any kind of an impression.

Killilea Signs. Hamilton Herald: Marty Killilea forwarded his signed contract to the local club this morning and announced that his knee was in the best of shape again. It will be remembered that Killilea was out of the game during the latter part of last season owing to an injury he received to his knee while turning quickly at second base in a game here with London. Marty has been spending the winter at school at his home near Boston, and there is joy in every line of his letter, as he incloses a letter from John Ward, of the Boston Nationals, to his brother, saying that Ward will watch the little fellow this season, and if he shows real form he will see that he climbs higher next season. Marty will likely be played at short, although he will not get in position without a hard fight, as Red McGuire will be back again, and Red made good during his short stay here last season. Last season was Marty's first in professional baseball, and the experience gained should make him a much better player this season.

Hannifan Wants Four Months. Ottawa Free Press: Pitcher Hannifan is balking at the three and a half months' season of the Canadian League, and asks the Ottawa club for a four months' contract to stay when he goes into training camp at Chatham. The local management has not just decided whether it will make the extra outlay or not. Hannifan is a fine pitcher of considerable experience and particularly good as a relief man. Shaughnessy says he can hit the ball a mile and is a good pinch clouter. He is a big fellow and not particularly fast, so is rarely used in the outfield.

The Ottawa team will hardly be able to carry more than thirteen or fourteen men and keep inside the salary limit. About twenty-two will report at Chatham on the 29th of this month for training, and eight of this squad will be turned loose shortly after the start of the season. Each club has till June 1st to get inside the salary limit.

Circuit Notes. Harry Draper, the young Virginian and the only southpaw pitcher Ottawa has at the present time, is touted in the south as a youngster who will go up higher in baseball at the end of the season 1912. He is a clean-cut fellow, game as a bantam, and when not worked out of turn or too often, can

produce a spitter that compares with the best of the saliva artists. There was some talk of Berlin and Ottawa meeting at Chatham or Windsor in a series of exhibition games before the season opened, but this has been stopped before it got started. The league officials will not allow exhibition games between any of the league teams before the season opens.

Jack Miller, the Berlin utility player of last year, is the centre of an athletic storm in Detroit, where he played with the Oakland basketball team against the Delmas, in a championship fixture. The amateur union has taken the matter up and promise to make it warm for somebody.

## OBJECTIONABLE.

[Chicago Tribune.] "I don't like the looks of that juror with the big ears and the long pointed chin," the defendant in the case whispered to his lawyer. "He has an ugly mug," said the lawyer; "that's a fact." "It isn't altogether his looks, though," confided the client; "he's paying too blamed close attention to the testimony."

## Your Summer Vacation.

"The Seashore," a 48-page booklet with a striking cover and more than 100 illustrations, has just appeared, describing the New London District of Connecticut on the line of the Central Vermont Railway, which promises to be an even more popular resort for Canadians in general and Montaguers in particular, than was Old Orchard in its palmiest days. Anyone who is worried over the annual "summer vacation problem" will find interest in no inspiration in the contents.

Just how varied are the resources of this new territory can be realized from the statement that they include deep sea fishing and bathing at New London; river boating on the Thames; salt water bathing and sand for the youngsters at Ocean Beach. Watch from the statement that they include deep sea fishing and bathing at New London; river boating on the Thames; salt water bathing and sand for the youngsters at Ocean Beach. Watch from the statement that they include deep sea fishing and bathing at New London; river boating on the Thames; salt water bathing and sand for the youngsters at Ocean Beach.

Copies of this publication may be obtained for the asking from any agent of the Grand Trunk Railway System or Central Vermont Railway.

## SUGGESTION TO HELP STREET CAR SERVICE

P. M. Judd Gives His Opinion  
as to What Should  
Be Done

In view of the fact that the city and county may yet come together for joint municipal buildings, ex-Mayor J. C. Judd has a suggestion to overcome the difficulties that would result in providing street railway accommodation with the service offered at present.

The scheme which the magistrate points out has been adopted in other American cities, notably Buffalo, could be very easily taken advantage of here, and would result in a materially improved service to all parts of the city, even without consideration of the service to the municipal buildings.

The proposal is to have the cars of every line terminate their runs in the heart of the city, and loop around past the court house, as is done with the Dundas and Elgin at present. The Wellington line today demonstrates what good would result from this, it is deduced.

The loop at the northern end of the line at Bragg's bridge is under three or four feet of ice and water as a result of the big jam, and cars are compelled to back up to Wellington and Regent streets to turn before coming back to the city. Much time is lost, and yesterday afternoon our cars were on the north end, running within a few blocks of each other, while the southern portion of the line was without accommodation.

That it is seen that two remote portions of the city are dependent upon one another, if the cars from the north came to the corner of Dundas and Richmond street, made the loop and went back north again, the south would only have to account for troubles on its own end. The Victoria, West London, possibly belts and others, could be benefited in the same manner.

It is understood that the scheme is to be brought to the attention of the street railway officials in a short time.

"Our baby cries for Chamberlain's Cough Remedy," writes Mrs. T. B. Kendrick, Rasaca, Ga. "It is the best cough remedy on the market for coughs, colds and croup. For sale by all dealers."

HOW CY YOUNG PREPARES FOR A BIG LEAGUE SEASON—BASEBALL'S VET IS 45 YEARS OLD, AND IS IN HIS 3RD YEAR OF SPRING TRAINING; HE KNOWS JUST HOW TO TRAIN, AND HE ALWAYS STARTS AT HOT SPRINGS.

CY YOUNG WINDING UP IN PRACTICE.  
Photograph Taken at Hot Springs.

## Cy Young—

He is 45 years old.

He has been a big league pitcher for 22 years.

He always prepares himself for the season.

He spends a month at Hot Springs before going to the training camp.

He drinks one glass of whiskey a day while training.

He works slowly and deliberately each spring until his weight is reduced and he can pitch his fast ball without wrenching his muscles.

## Cy Young's Programme.

### FIRST WEEK:

The regular daily baths at Hot Springs.

### SECOND WEEK:

Baths and road work.

He dresses in flannels and sweater and does 10 to 15 miles on the road.

He tramps, sprints and climbs hills.

He does not touch a baseball.

### THIRD WEEK:

He continues baths and road work.

He fields and tosses the ball.

He handles bunts to reduce his stomach.

At the end of his third week he pitches his first ball.

# Stylish Easter Clothes

WITH Easter less than a week from now, it is time to get your Suit or Coat, if you have not already done so. Our styles are perfect; the assortment is as large as any in the city; materials are of the best, and the prices are right. What more could any person ask? Read these descriptions carefully.

## SUIT

Beautiful Suit of striped fancy worsted, in gray or tan. Coat cutaway and trimmed with fine bone buttons. Has silk serge lining. Collar of Bengaline silk. Skirt of medium width in Princess style, with high waist-line. Slashed effect, with simulated underskirt of self material. \$22.50

## SUIT

Suit of best Botany worsted serge, in navy or black. Coat cutaway and fastens with one button. Collar and long revers of fine Bedford cord. Beautiful shot silk lining. Skirt of Princess style with high waist-line. Trimmed at back with side effect. \$26.50

## COAT

Full length Coat of fine quality whipcord, in tan or gray. Has large revers and round sailor collar. Revers are trimmed with button hole effect. Cuffs trimmed with fancy buttons. Has semi-tunic effect in front and side effect, with buttons at back. \$20.00

## BRANCH LINE OBJECTED TO

Ald. Bennett Says L. & P. S. R. Should Get C. P. R. Business in the South End.

## HEAT BYLAW LAID OVER

Ald. Wright Objected to the Franchises of Greene-Swift and Helena Costume Company.

Ald. Bennett took occasion to freely criticize the London and Port Stanley Board at the city council meeting last night. Ald. Bennett's ire was roused by the fact that the special committee on C. P. R. track extensions had not seen fit to confer with the board before going to Superintendent King, of the C. P. R., to discuss the building of the proposed branch line to the south side of the city. He objected to the idea of a branch line built by the C. P. R., and said that if the L. & P. S. Board were really working in the interests of the city they would endeavor to secure the business which would be monopolized by the new branch.

"It seems," said Ald. Bennett, "that the only qualification necessary to become a member of that board is to own a cottage at Port Stanley, or an outfit of fishing tackle."

"We are not discussing cottages or fishing tackle," said Mayor Graham.

A Question. "How many men are there on the

board," continued Ald. Bennett, "who know whether or not the trains are running on time, or what condition the roadbed is in? In the past, through the neglect of the board, the morning train was ordered by the railway commission to run an hour earlier than formerly, with the result that what was one of the most profitable trains on the road now produces scarcely enough revenue to pay for its operation. Tillsonburg and neighboring towns have absolutely no connection with London."

"Why didn't you, as an alderman, bring this matter before the board?" asked Mayor Graham.

"I don't own a cottage, and I don't care for fishing," replied Ald. Bennett.

Bylaws Objected To. Ald. Wright objected to the bylaws to allow Greene-Swift and the Helena Costume Company to lay pipes under the streets, on the ground that there was little use in passing any such agreements until the result of legislation now pending at Ottawa becomes known. He also protested on general principles, with the result that what was one of the most profitable trains on the road now produces scarcely enough revenue to pay for its operation. Tillsonburg and neighboring towns have absolutely no connection with London."

The traffic bylaw in its amended form was laid over to allow the council to become more thoroughly familiar with its provisions, the report of the local improvement committee, as outlined at the recent special meeting, was passed and a number of bylaws for coloring and watering streets were authorized.

A cement curb and gutter will be constructed on Ottawa Avenue opposite Victoria Hospital.

When a medicine must be given to young children it should be pleasant to take. Chamberlain's Cough Remedy is made from loaf sugar, and the roots used in its preparation give it a flavor similar to maple syrup, making it pleasant to take. It has no superior for colds, croup and whooping cough. For sale by all dealers.

## BRANCH ON MARKET SQUARE

Our branch on Market Square is particularly convenient for farmers and others coming to town for the purpose of attending to business matters, as it enables them to transact their banking affairs when selling their produce or making purchases.

The facilities of the Huron and Erie Loan and Savings Company at its Market Square Branch are the same as those at its main office.

Debentures bearing 4 per cent interest are issued for sums of \$100.00 or over, and Savings Accounts subject to check are invited, savings drawing 3 per cent per annum.

## Four Offices

442 Richmond Street, London. Market Square, London. 366 Talbot Street, St. Thomas. Regina, Sask.

**Huron & Erie  
Loan & Savings Company**

## Eddy's Silent Matches

Are made of thoroughly dried pine blocks. The tips, when struck on any surface whatever, will light silently and burn steadily and smoothly without throwing off sparks.

Eddy's Matches are always full MM count—ask for them at all good dealers.

**The E. B. Eddy Company, Limited,**

Asthma, Bronchitis, all Lung & Throat Troubles.

# TARIEF, HIGHWAYS, T. AND N. O. BILLS DROPPED BY GOVERNMENT

Senate Amendments Made in Interests of Public and Provinces Not Acceptable to Borden Government—Finance Minister Receives Dressing Down From Sir Wilfrid Laurier.

Ottawa, April 1.—The final act before the curtain fell on Parliament today was a fitting climax to a vigorous "fighting session." It found Sir Wilfrid Laurier and the Liberal majority in the Senate standing guard over the attempted raids on the treasury, the constitutional rights of the provinces, and the claims of the consumers to be properly represented on all matters relating to tariff increases. These three issues, which, in essence, have been the vital issues of the session, were sharply emphasized in the tense situation which held the two Houses in dramatic deadlock all day, delayed the departure of His Royal Highness from Rideau Hall by half an hour, and compelled the final hasty revision of the original draft of the speech from the throne.

**The Senate Amendments.**  
The Liberal majority in the Senate, standing on what it believed to be sound constitutional and public grounds, amended the bills providing for the administration of the million dollars voted for good roads improvements to be distributed at the whim of the Minister of Railways; providing for the appointment of a tariff commission unless instructed to report on the dividends paid to shareholders, the name of such shareholders, the wages of employees and the total production for a period of ten years past in all cases where applications for tariff increases were made, and providing for a subsidy of \$2,000,000 to the Temiskaming and Northern Ontario Railway, which has been in operation for six years, and on which the province has reaped large annual dividends on the cost of construction. The Commons refused to accept the amendments of the Upper House to either the highways bill or the tariff commission bill, and allowed these two pet measures of the session, if shown of their political value when manipulated by the party in power, to go by the boards. The Senate did not kill the bill, but submitted amendments precisely in accord with the decision of the Government. By not accepting them the Government demonstrated its lack of bona fides, and the Government, not the Senate, is responsible for the killing of the bills.

**Borden's Position.**  
The Government, in a final debate in the Commons, vigorously attacked the Senate, which, fifteen years ago, had changed the guardians of the people's rights, when a Conservative majority in the Upper House turned down a Liberal Government's bill to subsidize the Yukon Railway. The Government, in a final compelling summary of the situation, gladly assumed his share of the responsibility for the Senate's action, and left the people of Canada to judge as to the merits of the case. The net results are that the Senate has saved at least three million dollars to the federal treasury this year, has prevented the exploitation of the good roads plan for political purposes, though not objecting to the vote in principle, and has left the Government to struggle with the tariff question unsheltered by a tariff commission, as the guardians of the people's rights, when a Conservative majority in the Upper House turned down a Liberal Government's bill to subsidize the Yukon Railway. In the final hour in the Commons each side tried to turn it on the other. The public will judge from the speeches of Sir Wilfrid Laurier and Hon. Messrs. White and Foster as to whom the joke was on.

All day the corridors buzzed with rumors and counter-rumors of the deadlock. Both Houses sat well on into the afternoon, and prorogation time was twice delayed. The Senate, however, finally adjourned shortly after 3 o'clock, and formally sent their

## Health for Every Woman No More Headaches

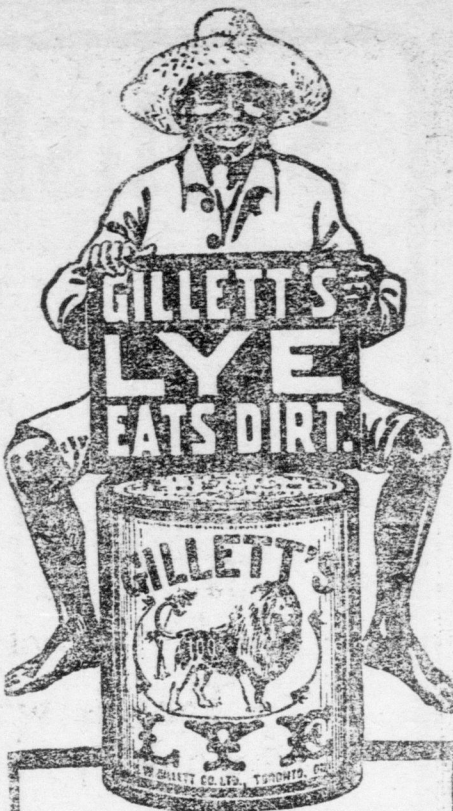

From Weakness and Despair Thousands Have Been Restored to Robust Good Health by Dr. Hamilton's Pills.

That sick women are made well by Dr. Hamilton's Pills is proved in the following letter:

"For years I was thin and delicate. I lost color and was easily tired; a yellow pallor, pimples and blotches on my face were not only mortifying to my feelings, but because I thought my skin would never look nice again I grew despondent. Then my appetite failed. I grew very weak. Various remedies, pills, tonics and tablets I tried without permanent benefit. A visit to my sister put into my hands a box of Dr. Hamilton's Pills. She placed reliance upon them, and now that they have made me a well woman I would not be without them, whatever they might cost. I found Dr. Hamilton's Pills, by their mild, yet searching action, very suitable to the delicate character of a woman's nature. They never once gripped me, yet they established regularly. My appetite grew, my blood red and pure—my heavy rings under my eyes disappeared, and today my skin is as clear and untroubled as when I was a girl. Dr. Hamilton's Pills did it all."

The above straightforward letter from Mrs. J. Y. Todd, wife of a well-known citizen in Rogersville, is proof sufficient that Dr. Hamilton's Pills are a wonderful woman's medicine. Use no other pill but Dr. Hamilton's, 25c per box. All dealers or the Catarrh-zone Company, Kingston, Ont.

WINNIPEG MONTREAL

He should be accorded every protection possible by way of information. With a commission of such a partisan character as had been promised by Mr. Ames it was a question in the mind of the Liberal leader whether its operation would be conducive to the good expected of it. The Senate had, in his judgment, submitted amendments in the public welfare, and if rather than confer upon them the Government preferred to kill the bill itself, he would not say that it would not be an unmixing misfortune, and in essence an unmixing blessing.

**Foster Indignant.**  
Hon. Mr. Foster, who followed, was very indignant. The present Government had pledged itself to the appointment of a tariff commission, and Sir Wilfrid Laurier had met his death upon that issue. But while he was in power the Liberal leader had "been busy storing" the upper House, and he had placed there "his own heeled in authority to do his bidding after he had died." The responsibility was that of Sir Wilfrid Laurier, declared Mr. Foster. He created it, and he moves them to do his bidding and bidding. After he died he saved himself through the men he plants in the Senate. He may be successful in this hour," concluded Mr. Foster, warmly, "but the hour will come when he will rue this ill-considered action of the Government. Something rather unusual occurred when the revised insurance act was taken up in committee. Mr. W. J. Vale, assistant inspector of insurance for the province, occupied the seat reserved for Hon. A. J. Matheson, provincial treasurer, and explained the minor changes in the act, which constitutes 243 full clauses with numerous sub-clauses. It required an hour of the afternoon and two and a half hours in the evening to get through 139 of these clauses.

## FIVE THOUSAND OUT ON C. N. R. CONSTRUCTION

Industrial Workers of the World Cause of Strike and Rioting.

Vancouver, B. C., April 1.—Today construction of the line of the Canadian Northern Railway between Hope and Kamloops is tied up tight, and on Saturday night this latest demonstration of the industrial workers of the World organization broke out in violence in the vicinity of Spence's Bridge. Incipient outburst at various points between here and Spence's Bridge has culminated in the measures on the part of the provincial police, and Inspector Thomas Smith left yesterday for the scene to direct augmented forces which have been placed at his disposal.

This morning about 300 men, mostly foreigners, and all of them adherents of the Industrial Workers of the World reached Vancouver over the Canadian Pacific Railway, and they set out on their way to the north, travelling on the brake beams and others walking.

Today's arrivals had sufficient funds to pay their fare by passenger train. Fully five thousand men have quit work on the Canadian Northern grade, and contractors operating to the north of Kamloops declare that they expect that by tonight every bit of work will be stopped as far east as the city of Kamloops, the most easterly point at which the work is being carried on.

For a time he may keep going on stimulants, but if health is to be restored and old-time vigor brought back the nerve cells must be revitalized by such treatment as Dr. Chase's Nerve Food.

A few weeks' use of this great food cure will do wonders for any business man or woman whose nervous system has failed to stand the strain. Gradually and naturally the blood is enriched and vigor and energy are restored to mind and body. Appetite is sharpened, digestion improves, you sleep well and regain the strength which makes you master of yourself and of your business.

**ROUND TRIP.**  
11.00 ATLANTIC CITY,  
WASHINGTON, D. C.  
From Suspension Bridge Via Lehigh Valley Railroad, Friday, April 6. Tickets good 15 days returning. Arrive at King street car, Toronto.

## THE BAN PLACED ON CHILD LABOR

And Intoxicated Men Must Now Stay Away From Vicinity of Mines.

## MINING LAW CHANGES

Nurse Graduates of Hospitals To Be Distinguished from "Correspondence School."

Toronto, April 2.—The Legislature spent a tedious day yesterday considering various Government and public bills of bulky character. Few amendments were made.

At the outset of the day's proceedings, Mr. Rowell asked the Prime Minister if it was the intention of the Government to introduce any legislation regarding working-men's compensation.

"No," replied Sir James. "After a perusal of the commissioner's report it is not deemed advisable."

Hon. L. B. LaSalle asked an amendment to his bill respecting telephone systems, which provides that any association owning a private telephone line may become incorporated in three-quarters of the members vote for incorporation, providing they purchase the shares of their associates who do not desire to "come into the company." Where a member of the association provides poles, wires, etc., but doesn't want to come into the company, he may be reimbursed for his material. Disputes in settling such dealings may be settled by arbitration.

Hon. W. H. Hearst explained his amendments to the mining act.

It will be an indictable offence for a man under the influence of liquor to enter or near a mine. Persons under 14 years are not to be allowed under a mine, no females are to be employed in a mine, no male under 17 years may be employed underground, no person under 20 years may run a hoist or elevator carrying passengers, while he is running in any other capacity is prohibited, and no person under 18 years may be employed in a mine.

**Hospitals and Charities.**  
A clause was added to the act respecting hospitals and charities by Hon. W. J. Hanna, whereby trained nurses are to be registered. The clause states that graduates of the act conducted at hospitals receiving Government aid, and when such regulations as the Lieutenant-governor-in-council may provide have been observed, graduates of such training schools may be entitled to register in a register kept for that purpose under the direction of the Provincial Secretary, and a person so registered may be designated a "registered nurse."

To a query by Mr. Rowell, Hon. Mr. Hanna stated that it was a provision to distinguish practical nurses from "correspondence school nurses."

By another amendment to the game and fisheries act, the Government may make a refund in cases of unused hunting and fishing licenses.

Something rather unusual occurred when the revised insurance act was taken up in committee. Mr. W. J. Vale, assistant inspector of insurance for the province, occupied the seat reserved for Hon. A. J. Matheson, provincial treasurer, and explained the minor changes in the act, which constitutes 243 full clauses with numerous sub-clauses. It required an hour of the afternoon and two and a half hours in the evening to get through 139 of these clauses.

## ESTIMATES SHOW BIG INCREASE

Those of Ontario For 1913 Total Nearly Nine Millions.

ADVANCE OF \$753,585

The Miscellaneous Expenditure Has Grown to Over Half a Million.

Toronto, April 2.—In the main estimates for 1913 presented to the Legislature yesterday, there is an increase of \$753,585 over the main estimates as presented to the House for 1912. The total amount of the estimates is \$8,444,956, as compared with \$8,090,911 for the previous year. In the expense of civil government there is an increase of \$21,960, and in the administration of justice an increase of \$18,000. The maintenance of public institutions goes up \$110,450.

Charges on crown lands have grown from \$610,550 to \$662,050, while the miscellaneous expenditure that was \$510,270 is now \$562,070. In the colonial and immigration department there is an increase of \$60,000. The agricultural expenditures are estimated \$719,636, showing an increase over last year of \$71,365.

The vote for education is \$2,043,670, which represents an increase of \$209,212 over the main estimates of last year. The expenditure for public buildings on capital account is put at \$647,800, as against \$555,300 for last year. The House has approved a \$150,000 for a new Government House, which is a partial revote, and \$200,000 for the new provincial asylum at Whitby.

The expenditure on current revenue account will be \$7,993,496, as against \$7,322,411, which shows an increase of \$661,000. Capital account will be involved to the extent of \$721,000, while the \$200,000 is the contingent appropriation for colonization and mining roads.

For the most part the service amounts are parallel with those of the current year. Of course, following the usual practice, supplementary estimates will be presented for contingent sums at the next session of the Legislature.

The Ontario Veterinary College is to get a new building at a cost of \$50,000. For an industrial home at Port William there is a revote of \$20,000, and \$40,000 for the culture of \$210,000. A conditional revote of \$5,000 is for a court house at Port Arthur.

To enforce the provisions of the station enrollment act a grant of \$10,000 is made. The total appropriation for agriculture is \$719,636. In the department of pomology a grant of \$6,575 is provided, and there is a vote of \$5,755 for landscape gardening.

The Hydro-Electric Power Commission gets \$200,000. The last of five annual grants of \$20,000 each to the School of Mines at Kingston is included. The Provincial Museum gets the third of four annual payments of \$50,000. A conditional revote of \$5,000 is voted for the expenses of an exploration party into the newly-acquired territory.

In addition to the sums already appropriated, a vote of \$60,000 for the Parliament buildings is made. Part of this is a revote, and covers the new wing, library fittings and furnishings.

There is an item for \$1,000 for the

# My Funniest Story

WHEN REUBEN SOUGHT KNOWLEDGE

JANE GREY.

My best story isn't a story at all, it's an actual occurrence. I was getting a manicure the other day, when the door of the establishment opened very slowly, and in came a real comic supplement type of "Rube." He watched the proceedings for a few minutes, and the manicurist, who is a very dignified woman, after greeting him, waited for him to announce his errand.

When he realized it was "up to him" he began:

"I beant from Chicago," he announced.

That was news to us. We waited for him to continue. He did.

"I seen yer sign on the door," he drawled, "and thought I'd come in and see how yew was fixin'."

"I'm afraid I don't understand," said the manicurist. "Do you mean you want a treatment?"

The fellow looked scared and backed toward the door. "Gee darn, no," he shouted, "there ain't nothin' the matter with me! You folks in Chicago has such new-fangled names for everything, I jest made up my mind I'd find out fer myself what kind of a place yew was running in here."

## FOUR INDICTED IN EVERGLADES ROW

Discharged Officials Say Opposition to Promoters Caused Prosecution.

Washington, April 1. — Indictments growing out of the Florida Everglades investigation were returned by the federal grand jury here today against C. G. Elliott, Allison D. Morehouse, Ray P. Teale and Frank E. Singleton. The defendants are charged individually with having approved or presented false vouchers against the Government.

Elliott and Morehouse have asserted that the charges of technical violation of the law against them and their dismissal from the department were brought about by their opposition to Everglades land promoters. The charges were made to Secretary Wilson by J. C. Wright, formerly an assistant to Elliott in the department, but now chief drainage engineer of the state of Florida. Wright, according to testimony at the recent congressional investigation, made a very favorable report on the Florida Everglades. Elliott did not approve it. Wright resigned and went to Florida, and the report, amended by Elliott, eventually was suppressed by order of Secretary Wilson.

The secretary also suppressed a circular letter prepared by Elliott in which some facts relating to the Everglades lands were presented in answer to letters of inquiry from thousands of investors. Elliott testified that two land agents threatened him if he insisted on taking an unfavorable view of the Everglades.

George Carter, clerk to the joint committee on printing, on the witness stand at the Everglades hearing today enlivened the proceedings by referring to previous testimony as "absolutely false and untrue." At the conclusion of his statement he referred to the testimony of C. G. Elliott in one particular as a "lying statement."

"If you had made that remark about me," interrupted Chairman Moses, "there would have been a fight in about three minutes."

"I withdraw the remark and apologize to the committee," said Mr. Carter. "If any other gentleman cares to

## NOW I CAN SAY I AM CURED AFTER TAKING GIN PILLS

Bridgeville, N. S.

For twenty years I have been troubled with Kidney and Bladder Trouble, and have been treated by many doctors, but found little relief. I had given up all hope of getting cured, when I tried Gin Pills. Now I can say with a happy heart that I am cured after using four boxes of GIN PILLS.

DANIEL F. FRASER.

Just think of it: Four boxes of Gin Pills cured Mr. Fraser—and he had suffered for twenty years and he had been treated by doctors, too. It is just such cases as his, which prove the power of Gin Pills to cure Kidney and Bladder Trouble, Burning Urine, Suppression or Incontinence of the Urine, Backache, Rheumatism, Sciatica and Lumbago. Try Gin Pills on your positive guarantee of a cure for your money back. Fifty cents a box, six for \$2.50. Sample free if you write National Drug and Chemical Company of Canada, Limited, Dept. G, Toronto.

## 15 YEARS A DYSPEPTIC

Forced to Live on Stale Bread and Porridge

### "Fruit-a-tives" Cured Him

Avondale, N. B., Oct. 15.

"I have been a great sufferer from indigestion for fifteen years. I was forced to deny myself all such hearty food as beans, meats, potatoes, and could not drink tea or coffee. For the past two years I lived on porridge, stale bread, etc. I had treatment from two doctors and tried nearly every kind of medicine, but got worse.

"Finally I saw a testimonial of 'Fruit-a-tives' and concluded to give them a trial. I took nearly four boxes of 'Fruit-a-tives,' and they have made me feel like a new man. I can eat all kinds of hearty foods without suffering, and am no longer constipated."

LEMUEL A. W. BROWN.

Many people look on "Fruit-a-tives" as a miraculous medicine. It has indeed performed what have seemed like miraculous cures in hundreds of cases of chronic indigestion, Dyspepsia, Constipation, and Biliousness.

"Fruit-a-tives" is the only medicine in the world made of fresh fruit juices and valuable tonics. Fifty cents a box, six for \$2.50, or trial size 25 cents. At all dealers, or from Fruit-a-tives, Limited, Ottawa.

## CAVALRY PATROLLING THE STREETS OF MEXICO

Americans in Mexican Capital Are Organizing For Defence.

City of Mexico, April 1.—The Government today suppressed the *Heraldo Mexicano*, which has been issued from the same office as the Mexican Herald. Paul Hudson, the president of the company, has been threatened with expulsion if he persists in attempting to print the paper.

The suppression of the newspaper aroused the opposition of the publishers, who rallied to the support of the publishers. This called out the police, who in turn called on the fire department for help. The latter threw streams of water on the boys while the police surrounded the building and prevented any one from entering. Later 300 newsmen paraded the streets shouting their protests and demanding a free press.

Every effort is being made by the Government to suppress all news. The leased wire of a press association has been seized and so far as possible no news is allowed to enter or leave the republic.

The American ambassador, it is said, has written to President Madero demanding the expulsion of a number of correspondents.

Today 150 Americans met in the rooms of the Y. M. C. A. and elected officers for a military company. They are in fear that their arms will be taken from them by the Government.

The police force on duty has been doubled and cavalry is patrolling the streets.

Word has reached here that Gen. Zapata is preparing to attack the city of Puebla. A battle is expected there, but nothing is known of late developments because of the military censorship, which is very strict. No news has been received here today from Torreon.

## Music and Drama

The Holiday Attraction For Friday.

Burt and Nicolai will present, Miss Beulah Poynter, in "A Kentucky Romance," at the Grand Good Friday, matinee and night, at special holiday prices. Miss Beulah Poynter, as Cynthia Hargreaves, is said to have the best role of her career. John Bowyer is seen as Lee Jameson, Sam J. Burton as Uncle Mose, the southern negro; Ted A. Armond, as Joshua Tubbs; Sadie Steelsmith, as Samantha Tubbs; Edwin Dale, as Hargreaves, and others are seen to excellent advantage. This attraction played Toronto last week to capacity houses. Seats now on sale.

## "Uncle Tom's Cabin."

At the Grand Saturday, matinee and night, the beautiful and realistic picture, which has made Al. W. Martin's production of "Uncle Tom's Cabin" world-famous, are the little cabin of Uncle Tom, an old southern road, Skinner's tavern, the ice-gorged Ohio River by moonlight, the old home of Phineas Friend, the wild rocky pass in Southern Ohio, St. Claire's home, the home of Eve; corridor at St. Claire's, the great New Orleans levee and slave mart, a most-circled road near Legree's plantation, and the transformation entitled "The Celestial City." Reserved seats and box seats may be secured at 9 a.m. tomorrow. See the street parade at noon.

## TO OVER-AWE REBELS

Strong Cantonese Force on the Way to Swatow.

[Canadian Press.]

Hong Kong, April 3. — Three thousand Cantonese soldiers are proceeding to Swatow to overawe the forces of the victorious rebels. The steamers on which the troops are being transported are escorted by a fleet of ready to bombard if necessary. Many Europeans have arrived at Hong Kong.

## HOTEL BARS AND CLUBS.

(Toronto Globe.)

There are over 1,800 hotel barrooms in Ontario and only 53 licensed clubs, mostly three or four cities. And yet opponents of the policy of banning the bar are already asserting that the clubs are more dangerous than the open bar.

## Try Cuticura Soap and Ointment Free

Although Cuticura Soap and Cuticura Ointment are sold by druggists and dealers everywhere, a liberal sample of each, with 32-page booklet on the care and treatment of skin and hair, will be sent, post-free, on application to Potter Drug & Chem. Corp., Boston, U. S. A.

## RAIN BAFFLES DOGS ON OUTLAWS' TRAIL

Downpour Deceives Bloodhounds Used to Trace the Allen Gang.

Hillsville, Va., April 1.—Two bloodhounds today were set upon the trail of Sidna Allen and his nephew, Wesley Edwards, the two remaining fugitives of the Allen clan. Though given what the detectives considered was the best trail they had found thus far, a heavy rain is thought to have washed away the scent, and at nightfall the posse had met with no success. The trail given to the dogs began at the natural cave, where on Saturday a supply of rations and blankets were abandoned by the outlaws in a sudden night caused by the close approach of the posse.

The detectives have secured information which tomorrow will set the dogs on a new track.

Selpho Gray, who lives in the Fancy Gap section, reported that the two outlaws had appeared near his home yesterday. Gray knows the Allens very well and his clue is considered reliable. It is believed from Gray's information that the two men are moving back and forth between two bases of food supply about ten miles apart.

The report brought by Gray was corroborated by Alexander McGraw, who lives nearby and also declared he saw the fleeing men. Both Gray and McGraw are agreed that the outlaws were headed toward the home of Hubbard Easter, which is about a mile and a half from Floyd Allen's house. Hubbard Easter is a close relative of the Allens and he as well as all other members of the Easter family, have been under close surveillance by the detectives, to find if they were furnishing food to the outlaws.

The bloodhounds being used by the posse are the same as used in the Beattie case at Richmond.

## ADMITS GEM THEFT

Chicago Man Writes He Stole \$4,000,000 From Polish Monastery.

Warsaw, Russian Poland, April 1.—The mystery surrounding the theft from the Pauline Monastery at Czestochowa of jewels and votive offerings valued at \$4,000,000 which since 1909 has puzzled the brothers, seems at length to be solved by the receipt of a letter from Chicago.

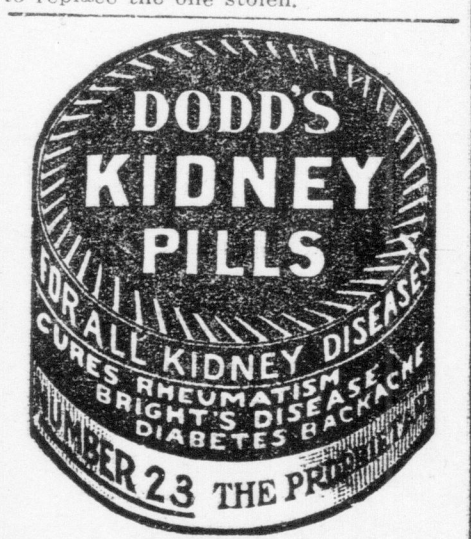

The writer of this communication to the monastery confesses that he, Stanislaus Zalag, was the thief; that he was then a lay brother and that Father Damatus, who is now serving a sentence in the Siberian mines for the murder of his cousin, was not implicated, as has always been supposed.

The letter seems genuine and the Russian police are taking steps to have Zalag arrested, but the former brother denies the police to trace him. It appears that Zalag remained at the monastery more than a year after the theft and not until Damatus was arrested did he escape to America.

The robbery of the jewels, which decked the ikon of the Virgin and Child in the Pauline Monastery, created a great stir three years ago. When, in October, 1910, Father Damatus was arrested in Austria for the murder of his cousin, Vaclav Macoch—a crime he confessed—it was believed that the motive for the deed was to be found in a desire to shut the mouth of a man who could testify against him in the matter of the robbery.

Damatus admitted the murder, but denied the theft of the jewels. He admitted also that he had taken money from the treasury and had squandered it with Helena Ostrowska, wife of the man he murdered. He told how his servant, Stanislaus, evidently the man now confessing the thefts, had assisted him in disposing of the body in a large Ottoman, which together they threw into the River Varta. Stanislaus Zalag disappeared and has never been heard of until now.

The most valuable thing stolen was the jeweled crown from the head of the Virgin, which was said to be worth \$3,000,000. Two years ago the Pope presented the monastery with a crown to replace the one stolen.

## DR. DE VAN'S PILLS

A reliable regulator. Never known to fail. Dr. De Van's Pills are very powerful in regulating the generative portion of the system. Refuse all cheap imitations. Dr. De Van's Pills are sold at \$5 a box, mailed direct on receipt of price, from the Scobell Drug Company, St. Catharines, Ont. Sold by all druggists in London. ywt

## You Are on the Bench

YOU—the Public—are the judge. On your good opinion and your good word depends the success of the advertised article. For no amount of advertising will induce you to buy a second time what you do not like. No advertising will offset the bad effect of a dissatisfied buyer.

That is why advertisers must and do maintain the quality of their goods.

Advertisers realize that to turn their outlay for advertising into profit they must give good value.

They are not looking for one-time sales. First sales, in most cases, would not pay for the advertising.

To be successful, they must make steady customers. So, quality is being put in to hold the trade that advertising produces.

Thus, to be sure of quality, one naturally turns to goods that are advertised. And isn't it only reasonable?

No manufacturer can afford to advertise for long an inferior article. From the moment the advertising begins, the quality must either be kept uniform or improved—to go back means ruin.

The day is passing when you ask for a pint of pickles. You name the brand.

You don't ask for Rolled Oats. You name the brand you prefer.

The unknown article may be good, but you are not so sure of it as you are of the advertised article, which bears the seal of quality, —a well known maker's trade name.

## TO MANUFACTURERS

You who make good goods and do not advertise—show your confidence in your product. Advertise it.

Let the public know that you stand back of your goods to maintain their high quality.

Make your trade name the recognized standard in your line.

Advice regarding your advertising problems is available through any good advertising agency, or the Secretary of the Canadian Press Association, Room 503 Lumsden Building. Enquiry involves no obligation on your part—so write, if interested.

## SHOES THAT LOOK GOOD AND ARE GOOD

MANY persons have bought their first pair of "Ames Holden" Shoes because they liked the appearance of them.

But in addition to being good looking, shoes must be easy and comfortable, and must wear so long that they are economical.

Briefly, this is the way "AMES HOLDEN" SHOES are built.

Uppers are cut one at a time by hand from selected and graded leather. No "faulty" leather gets past the cutter. The best leather known in the soles—No. 1 Oak. No cotton stitching in the uppers, but silk only. A layer of cement and cork between the soles makes them lie flat without squeaking or shifting.

It's absolute thoroughness like this that makes it worth your while to ask your dealer for

**AMES HOLDEN SHOES**

AND TO SEE THAT YOU GET THEM.

# 1836 The Bank of British North America

1/4-pint size	20c	1-pint size	50c
1-quart size			90c

All full imperial measure and every package warranted. Also we will show you gladly how to do your own graining with the Jap-a-lac graining tool, which anyone can use after a few minutes' trial as good as a professional.

Jap-a-lac is reliable. It lasts and always looks well. It is not like some other preparations on the market that look well for a week or two and then gradually fade away.

Jap-a-lac can be used on any article in the home from a bath to a baby carriage.

## COWAN'S HARDWARE

125 AND 127 DUNDAS STREET. PHONES 3461, 3462.

# SPIRAEA

Are Particularly Fine This Season

A showy plant well covered with white bloom. It is especially appropriate for Easter. Several different sizes very moderately priced.

We Will Put Any Plant Away Till Easter for You

## CONNAUGHT HONORS BRAVE BOY SCOUTS

## Wingham Lad Recognized for Rescuing Another From Drowning.

[Canadian Press.]

Ottawa, April 2.—H. R. H. the Duke of Connaught, chief Scout of the Canadian Boy Scouts, has approved of the recognition of six Boy Scouts in Ontario for gallantry displayed in lifesaving.

The awards are: Scott Harold Whitcomb, Smith's Falls, and Scout Gordon Scott, Niagara Falls, silver medals for saving human life; Scout Victor Garnham, Tillsonburg, gilt medal for merit; Scout G. Bowman, Wingham; Scout Charles Heintzman, Toronto, and Scout Alvin Gray, Millbrook, scrolls of honors, signed by his royal highness in recognition of gallant conduct in rescuing three boys from drowning.

Whitcomb on Aug. 6 last, rescued Miss Mary Hunter from drowning in Rideau Lake.

Scott leaped into the Welland River at Chippewa and brought safely ashore an 8-year-old boy, Fred Baxter, who had fallen into twenty feet of water.

Garnham dived into twenty feet of water in the waterworks' pond at Tillsonburg, and brought up the body of a visitor who had sunk while bathing. Unfortunately it was impossible to resuscitate the man.

Bowman braved the dangers of the Maitland River to save a lad named Fred Walsh, who had fallen through a hole in the ice. He was pulled out safely with the aid of a hockey stick.

Heintzman, a member of Toronto troop, No. 29, rescued Willie Jackson, in the Don River on Aug. 23rd last.

## FOX TERRIER DOG KNEW WAY HOME

## Lost in Ridgetown, He Arrived in London Three Days Later.

[Canadian Press.]

Gyp, a fox terrier dog, of this city, established another long distance record in the canine class on Saturday, when he finished a trip of 59 miles from Ridgetown to London.

Gyp is, or rather was, owned by a north end resident. A few weeks ago he was brought here. He did not appear to be suffering from fatigue, although he showed signs of having travelled quite a distance. How the dog found his way to London, if he walked, is a mystery. He had never been outside the city previous to his trip to Windsor, and had never before been in Ridgetown. He will likely be sent back to Windsor.

# BRITISH AND THE GERMAN DISCUSS LIMITING NAVIES

## First Lord of the Admiralty, Winston Churchill, Announces in the Commons That Negotiations Are On to End the Race for Sea Power.

London, April 1.—Winston Churchill first lord of the admiralty, announced in the House of Commons today that negotiations with Germany for a naval programme that would curtail the battleship building plans of both nations.

This was the first intimation that any great powers have made of common grounds to end the race for superior naval armaments. An indication that this action was possible was given in Parliament a fortnight ago by Mr. Churchill when he said that if Germany would consent to a curtailment of battleship building England would follow suit.

The announcement caused a sensation as only those on the inside of Government circles knew that England had opened such negotiations. The Government believes that the plan, if carried out, will have a tremendous effect on European politics.

While Mr. Churchill did not go into details, he indicated that the Government was satisfied with the progress which was being made. Announcements on the course of the negotiations will be made, as they progress, it was stated.

These "conversations" in the phrase of naval ministers, relate to the "exchange" of naval information, but their direct import is to fix a government policy, satisfactory to both parties which shall be followed in battleship construction.

For years there has been fierce rivalry in warship construction between the two governments.

## THE POLAR EXPERTS BELIEVE SCOTT HAS REACHED POLE

## British Press Congratulates Explorer on Antarctic Work.

London, April 1.—Though the latest word from the British Antarctic expedition under command of Captain Robert F. Scott, left the explorers still 150 miles from the South Pole on Jan. 3, polar experts here are strongly of the opinion that Captain Scott will achieve the great object for which he set out.

September. This drop took place in a brief interval after the opening, and was accompanied by an amount of pit activity not often equalled, except in a selling panic. Aside from a remarkable reduction in the Liverpool stock of wheat to a total of 655,000 bushels, compared with 2,240,000 bushels a year ago, there was nothing in sight to give any strength to current quotations.

CHICAGO, April 1.—Hog products dealer by 12½c to 17½c. Hogs selling at 8c, a figure not reached for a long time. The decline of over 10c in the price of provisions. The advance for the day was nearly uniform, 12½c to 17½c. Receipts, 2,240,000 bushels a year ago, there was nothing in sight to give any strength to current quotations.

# THE MISSISSIPPI BREAKS BOUNDS

## Streets of Hickman, Kentucky, Eight Feet Deep Under Water.

## TWO THOUSAND HOMELESS

Property Loss Estimated at Quarter-Million, Railways Being the Heaviest Losers.

[Canadian Press.] Hickman, April 2.—Dawn this morning revealed the awesome colors in the scene of deluge that obliterated the landscape here last night, when the flood waters of the Mississippi River breached the West Hickman levee and poured a muddy current, eight feet deep, through the business streets, to the city and the tenement district of the town.

From hill to hill the river flows this morning, covering farms and flooding stores and factories. The railroad tracks are on the bed of the broad stream.

Two thousand persons are homeless. With the coming of daylight the work of systematically caring for the refugees was taken up. They were temporarily sheltered by residents of the highlands last night, and the tents shipped by the state military will arrive today. Organization of the commissary is giving concern. Much of the food supply was destroyed in the rush of water, and there are not enough provisions on hand to last the refugees through the week.

The west end of the levee went out about 9:30 o'clock last night at a point where it was supposed to be the strongest. Men, who had been working in relays for four days to reinforce the levee, had by their posts, one day in a driving rain. They had built the levee up with sandbags fully a foot above the surface of the river. Some of them had gone home to rest, and most of the inhabitants were in bed when the crash came.

The patrol instantly sounded the warning whistle agreed upon, then sprang into the boats, which had been prepared for this emergency since the fight against the Mississippi began, and rowed across the lowlands on the crest of the flood. All the workers and those whose homes were endangered fled the hills in safety, but there was much distress among the women and children before they were housed for the night.

At midnight residents on the Missouri shore, opposite Hickman, were warned to flee, as the levee there was in imminent danger of going out. The water is two feet higher here than ever before and is expected to rise two more.

Property loss is estimated at not less than \$250,000, the burden of which will fall on the railroads. All the stores are flooded, and the factories have sustained great damage.

## HIGH PRAISE FOR CAPTAIN SCOTT

## His South Polar Adventure a Great Feat, Says Shackleton.

## STORY OF DASH SOUTH

The British Explorer's Expedition to Prove of Immense Scientific Value.

[Canadian Press.] London, April 2.—Sir Ernest Shackleton, in an article contributed to the Chronicle, says that the dogged determination and incessant toil against disaster and difficulties which the members of the Scott party displayed must forever place this expedition amongst the great efforts of mankind.

"For this I am convinced," writes Sir Ernest, "the first man to acknowledge and appreciate the success of Captain Amundsen in arriving at the coveted spot will be Captain Scott, who has by now reached the Pole and is preparing at this moment for another long Antarctic winter night and the ribbed ice in order finally to finish his carry out programme he laid down when he first initiated the expedition.

"That it must be remembered, was not only to achieve the geographical feat, but to make a scientific geographical survey of the quarter of the Antarctic regions within his sphere of action."

Referring to the eastern party, who were landed in Victoria Land and who have not been picked up, Sir Ernest says: "There are seals and penguins in plenty at Crysalis glacier, so there is no fear of this party will not have ample food."

Regarding Captain Scott's statement that fossils have been found for the first time in the Antarctic, Sir Ernest writes: "This is hardly correct. Fossils may have been discovered for the first time 'in situ,' but during our own expedition we detected fossils among erratic boulders."

The Advance On Pole. In conclusion, Sir Ernest says: "Now comes the advance on the Pole. On Nov. 2, a day earlier than our expedition left Hut Point for the south, Scott started. Sixty miles south he found the motors abandoned by the advance party. This shows that though great hopes were entertained for the motors, the day has not yet come when one can count with certainty on their continuous performance in polar regions.

"Then, on Dec. 4, another blizzard overtakes the little, struggling party, and worse than low temperatures, high temperatures occurred. The whole equipment is soaked with water, and one must have had that experience personally to realize what this discomfort means."

How different seem to have been conditions to those experienced by Amundsen, only some hundred miles away at the same time.

"On Jan. 3 of this year," Sir Ernest adds, "Scott was 9,500 feet above the sea in latitude 73° 20' south. On Jan. 3, 1909, we were 8,750 feet above the sea, and it is interesting, remarkable, too, to note how the two sets of observations coincide."

Have Reached the Pole. "Now Scott and his last party of three under Evans and goes forward with five men—himself, Wilson, Oates, Bowers and Evans. They are now within 150 miles of the pole, and this is the last of their journey. They have a month's provisions, and success seems certain, for if all went well they ought to have reached the Pole about Jan. 18, 1912."

Oil. Landed oil, 25, 45, 65, 85, 105, 125, 145, 165, 185, 205, 225, 245, 265, 285, 305, 325, 345, 365, 385, 405, 425, 445, 465, 485, 505, 525, 545, 565, 585, 605, 625, 645, 665, 685, 705, 725, 745, 765, 785, 805, 825, 845, 865, 885, 905, 925, 945, 965, 985, 1005, 1025, 1045, 1065, 1085, 1105, 1125, 1145, 1165, 1185, 1205, 1225, 1245, 1265, 1285, 1305, 1325, 1345, 1365, 1385, 1405, 1425, 1445, 1465, 1485, 1505, 1525, 1545, 1565, 1585, 1605, 1625, 1645, 1665, 1685, 1705, 1725, 1745, 1765, 1785, 1805, 1825, 1845, 1865, 1885, 1905, 1925, 1945, 1965, 1985, 2005, 2025, 2045, 2065, 2085, 2105, 2125, 2145, 2165, 2185, 2205, 2225, 2245, 2265, 2285, 2305, 2325, 2345, 2365, 2385, 2405, 2425, 2445, 2465, 2485, 2505, 2525, 2545, 2565, 2585, 2605, 2625, 2645, 2665, 2685, 2705, 2725, 2745, 2765, 2785, 2805, 2825, 2845, 2865, 2885, 2905, 2925, 2945, 2965, 2985, 3005, 3025, 3045, 3065, 3085, 3105, 3125, 3145, 3165, 3185, 3205, 3225, 3245, 3265, 3285, 3305, 3325, 3345, 3365, 3385, 3405, 3425, 3445, 3465, 3485, 3505, 3525, 3545, 3565, 3585, 3605, 3625, 3645, 3665, 3685, 3705, 3725, 3745, 3765, 3785, 3805, 3825, 3845, 3865, 3885, 3905, 3925, 3945, 3965, 3985, 4005, 4025, 4045, 4065, 4085, 4105, 4125, 4145, 4165, 4185, 4205, 4225, 4245, 4265, 4285, 4305, 4325, 4345, 4365, 4385, 4405, 4425, 4445, 4465, 4485, 4505, 4525, 4545, 4565, 4585, 4605, 4625, 4645, 4665, 4685, 4705, 4725, 4745, 4765, 4785, 4805, 4825, 4845, 4865, 4885, 4905, 4925, 4945, 4965, 4985, 5005, 5025, 5045, 5065, 5085, 5105, 5125, 5145, 5165, 5185, 5205, 5225, 5245, 5265, 5285, 5305, 5325, 5345, 5365, 5385, 5405, 5425, 5445, 5465, 5485, 5505, 5525, 5545, 5565, 5585, 5605, 5625, 5645, 5665, 5685, 5705, 5725, 5745, 5765, 5785, 5805, 5825, 5845, 5865, 5885, 5905, 5925, 5945, 5965, 5985, 6005, 6025, 6045, 6065, 6085, 6105, 6125, 6145, 6165, 6185, 6205, 6225, 6245, 6265, 6285, 6305, 6325, 6345, 6365, 6385, 6405, 6425, 6445, 6465, 6485, 6505, 6525, 6545, 6565, 6585, 6605, 6625, 6645, 6665, 6685, 6705, 6725, 6745, 6765, 6785, 6805, 6825, 6845, 6865, 6885, 6905, 6925, 6945, 6965, 6985, 7005, 7025, 7045, 7065, 7085, 7105, 7125, 7145, 7165, 7185, 7205, 7225, 7245, 7265, 7285, 7305, 7325, 7345, 7365, 7385, 7405, 7425, 7445, 7465, 7485, 7505, 7525, 7545, 7565, 7585, 7605, 7625, 7645, 7665, 7685, 7705, 7725, 7745, 7765, 7785, 7805, 7825, 7845, 7865, 7885, 7905, 7925, 7945, 7965, 7985, 8005, 8025, 8045, 8065, 8085, 8105, 8125, 8145, 8165, 8185, 8205, 8225, 8245, 8265, 8285, 8305, 8325, 8345, 8365, 8385, 8405, 8425, 8445, 8465, 8485, 8505, 8525, 8545, 8565, 8585, 8605, 8625, 8645, 8665, 8685, 8705, 8725, 8745, 8765, 8785, 8805, 8825, 8845, 8865, 8885, 8905, 8925, 8945, 8965, 8985, 9005, 9025, 9045, 9065, 9085, 9105, 9125, 9145, 9165, 9185, 9205, 9225, 9245, 9265, 9285, 9305, 9325, 9345, 9365, 9385, 9405, 9425, 9445, 9465, 9485, 9505, 9525, 9545, 9565, 9585, 9605, 9625, 9645, 9665, 9685, 9705, 9725, 9745, 9765, 9785, 9805, 9825, 9845, 9865, 9885, 9905, 9925, 9945, 9965, 9985, 10005, 10025, 10045, 10065, 10085, 10105, 10125, 10145, 10165, 10185, 10205, 10225, 10245, 10265, 10285, 10305, 10325, 10345, 10365, 10385, 10405, 10425, 10445, 10465, 10485, 10505, 10525, 10545, 10565, 10585, 10605, 10625, 10645, 10665, 10685, 10705, 10725, 10745, 10765, 10785, 10805, 10825, 10845, 10865, 10885, 10905, 10925, 10945, 10965, 10985, 11005, 11025, 11045, 11065, 11085, 11105, 11125, 11145, 11165, 11185, 11205, 11225, 11245, 11265, 11285, 11305, 11325, 11345, 11365, 11385, 11405, 11425, 11445, 11465, 11485, 11505, 11525, 11545, 11565, 11585, 11605, 11625, 11645, 11665, 11685, 11705, 11725, 11745, 11765, 11785, 11805, 11825, 11845, 11865, 11885, 11905, 11925, 11945, 11965, 11985, 12005, 12025, 12045, 12065, 12085, 12105, 12125, 12145, 12165, 12185, 12205, 12225, 12245, 12265, 12285, 12305, 12325, 12345, 12365, 12385, 12405, 12425, 12445, 12465, 12485, 12505, 12525, 12545, 12565, 12585, 12605, 12625, 12645, 12665, 12685, 12705, 12725, 12745, 12765, 12785, 12805, 12825, 12845, 12865, 12885, 12905, 12925, 12945, 12965, 12985, 13005, 13025, 13045, 13065, 13085, 13105, 13125, 13145, 13165, 13185, 13205, 13225, 13245, 13265, 13285, 13305, 13325, 13345, 13365, 13385, 13405, 13425, 13445, 13465, 13485, 13505, 13525, 13545, 13565, 13585, 13605, 13625, 13645, 13665, 13685, 13705, 13725, 13745, 13765, 13785, 13805, 13825, 13845, 13865, 13885, 13905, 13925, 13945, 13965, 13985, 14005, 14

**OFFICE ABOLISHED BY THE COUNCIL**

City Fathers Have Decided That There Is No Need for a City Architect.

**MR. NUTTER'S POSITION**

Is Simply Building Inspector, With a Salary of \$1,200 Per Annum—Engineer Willisie Resigns.

By a vote of nine to three the city council last night sustained the recommendation of the finance committee that the services of City Architect Nutter be dispensed with. Mr. Nutter is still retained as building inspector at a salary of \$1,200 per year. The office of city architect will cease to exist on May 1.

The action of the committee was the subject of considerable discussion. Ald. Bennett, Ald. Richter and Mayor Graham defending the committee on the ground that the corporation should be free to secure the advice of any architect in Canada concerning the new city hall. Ald. Rose and Coles wanted to confer with the school board before taking action, but the majority of the council thought otherwise.

Assistant City Engineer I. F. Willisie, sent in his resignation, to take effect April 13. It was referred to the board of works without discussion.

**INLAND REVENUE SHOWS INCREASE**

A Jump of \$7,043 11 Compared With March of a Year Ago.

The inland revenue returns for March, 1912, amount to \$40,503 20, which when compared with the total for March, 1911, \$33,460 09, shows an increase of \$7,043 11.
