### GERMANY WILL NOT YIELD TO ALLIED DEMAND; WILL TEAR UP LIST OF OFFICIALLY PRESENTED

Berlin Government Declares It Is Backed by Overwhelming Majority of German People in Its Refusal to Surrender For Trial Those Demanded by the Entente Powers.

CONSIDERATION POSTPONED.

Paris, Feb. 6.—Final consideration of the new note to be sent to Germany as a result of the failure of her representative here to transmit the list of accused Germans demanded for extradition by the allies, the letter prepared to accompany it was deferred by the council of ambassadors at its session this morning. The postponement was caused by the non-arrival in Paris of Lord Birkenhead, the British high commissioner, and Sir Gordon Hewart, the attorney-general, who were delayed in their journey from London by fog in the English Channel. The extradition question will be taken up this evening after the British representatives reach Paris.

Berlin, Feb. 6.—Pending the receipt of the allied note, the Government has only been able to discuss the extradition situation in a perfunctory manner, but in order to bring home to the German people a full realization of the crisis it ordered the publication of the unofficial list of names of persons desired for trial, however, containing with errors.

The pan-German organs laud Baron Lersner's action in declining to transmit the list of accused Germans demanded for extradition by the allies, but they also condemn him as a member of the peace delegation by a hostile newspaper. The newspaper reminds him that the fate of his country is at stake and declares that the role played by a single individual is quite immaterial.

What actually occurred between Lersner and the allied plenipotentiaries, Baron von Lersner is still a mystery. Only conflicting accounts of their conversation have been published here.

Government Statement.  
A statement issued by the Government concerning the demand for the extradition of the war criminals, says: "The Imperial Government, at yesterday's session dealt with the situation created by the extradition note and list, and the refusal of Baron von Lersner to accept the document. The deliberations which took place on that basis of the list, which has been officially become known, resulted in a full and unanimous agreement that the attitude expressed by the Government in the note delivered at Paris January 25, and since published, is in all circumstances, to be maintained."

"At the signing of the peace treaty, the Imperial Government left no doubt that compliance with the demand for extradition was impossible. This conviction, which it shares with an overwhelming majority of the German people, is without distinction as to party, will guide it in any further measures and negotiations which may become necessary."

Dr. Meyer, rector of Berlin University.

### ALLIES ADVISED TO CONSIDER WELL BEFORE TAKING ACTION

London, Feb. 6.—The action of Baron Kurt von Lersner in refusing to transmit the list of Germans demanded by the allies for trial to his Government, if supported by his Government, has placed the allies in somewhat of a predicament. The allied press has been full of reports of the crisis, and has created such a sensation of interest that it is difficult to see how the crisis will be maintained.

The number and the character of the names included in the list of persons demanded proved a surprise, and the demand for extradition of the war criminals is the strongest measure to enforce the

### DEMAND FOR LABOR THIS YEAR BETTER FAR THAN IN 1919

Employment Officer Placing Thirty Men Each Week.

FEW ASKING ASSISTANCE  
Some of Them Given Money Because of Low Wage Paid.

Although it was the general prediction of the pessimist that a great deal of unemployment and hard time would prevail this winter because the labor market would be glutted by the large number of returned soldiers, there is a far greater demand for labor this year than there was last winter at this time, according to a report made by W. M. Ruddick, the district employment officer of the D. S. C. S. An average of 30 men are being placed each week now, while an average for each week last winter employment was found for only nine.

Lots of Work.  
This winter there is a greater demand for all kinds of labor, especially for the building lines and manual work. Mr. Ruddick has on his lists a great number of vacancies that can be filled only with a great deal of difficulty, although the wages offered have been in the neighborhood of four dollars a day.

About 50 applications for employment aid are being made by returned men each week, and 60 are being referred to positions. Practically the only men in this district who are receiving aid from the appropriation made by the Government, are men who are in possession of a doctor's certificate stating that they are either unfit to work or do heavy work, and they number only about four each week.

Under-Paid.  
Twenty-three men last week received aid on a class B certificate, which is given when a man does not receive his living wage.

This situation is not confined to this city alone, for W. M. Ruddick has paid visits to both Montreal and Ingersoll only five men applied for assistance, and when they were referred to the District Social Service Bureau for four of them, the remaining one being too sick to work. Four applied for work in Ingersoll and three of them were placed.

F. E. HARRISON, who has been chosen as Postmaster of Vancouver, Mr. Harrison, who is a native of Stratford, Ont., has been assistant postmaster for several years.

### GOVERNMENT VESSEL IS IN DANGER DUE TO HEAVY ICE FIELD

Steamer Montclair Now in a Perilous Position.

Chicago, Feb. 6.—War and wholesale killings are imminent in this city, the police say, before the murderer of "Mossy" Enright, chief of feudists and leader of gunmen, who was killed Tuesday night as he sat in his automobile in front of his home, is captured. The contents of a double-barrelled, sawed-off shotgun. Police say his fate was decided many weeks ago, and gunmen shadowed him since, hanging the noose. He must have known his doom was sealed.

Now, say the police, the Enright clan has sent out the call for revenge, and at least ten more killings are probable before the police make an arrest. The after effect is being followed by the authorities, and many suspects have been questioned, and several have been taken their release unwillingly, knowing that they were marked by their opposition feudists.

### THOUSANDS OF FLU CASES IN TORONTO

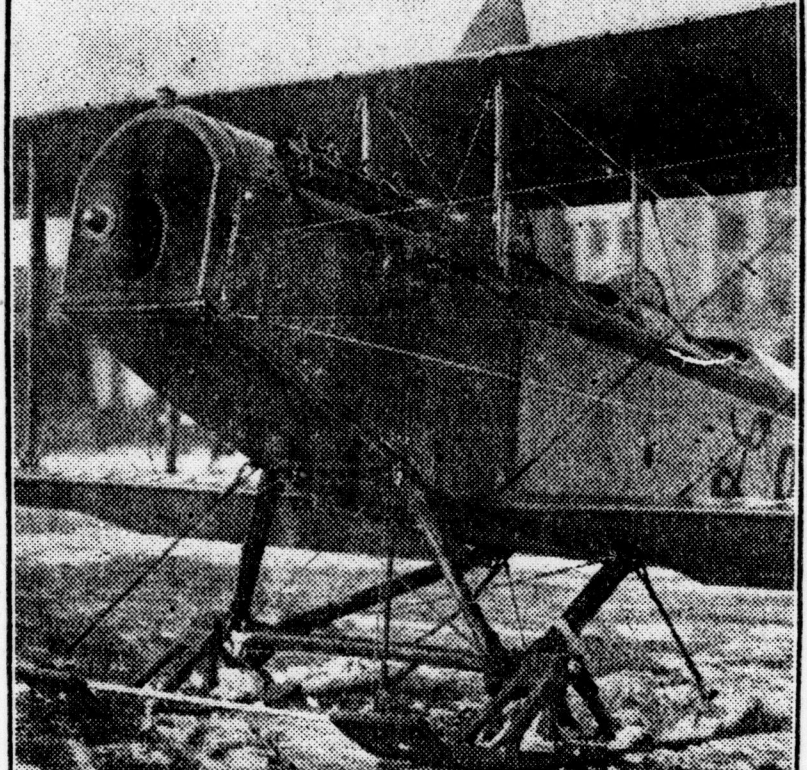

Number of Deaths Reported As Result of Epidemic.

Toronto, Feb. 6.—The deaths from influenza in the city reported early this morning by the medical health department for the previous 24 hours, amounted to 15, and from pneumonia, 3. The number of new cases of influenza for the previous 24 hours was 12. The total smallpox cases in the city being 272. Dr. Hastings estimated that there are between 15,000 and 20,000 influenza cases in the city.

### WOMAN TAKES Acid in Mistake; Dies Quickly

Montreal, Feb. 6.—Mrs. Helen Bird, 32 years old, of St. Anne de Belleville, died yesterday of a dose of carbolic acid in mistake for medicine, and died four minutes later. Immediately after the mistake was discovered she sent someone for the doctor, but though he was but a hundred yards away, the woman was dying when he reached her.

### AEROPLANE ON SKIDS TRIED ON ICE OF TORONTO BAY

Trial flights were made with this machine at Toronto by F. G. Ericson and Capt. S. H. McCudden, strong skids, having been put on in place of wheels. The Government was interested in this idea, and but for the end of the war it would have been tried out on the broken ground of the French battle front. F. G. Ericson is the inventor.

### URGES ELIMINATION OF ALCOHOL IN PHYSICIANS' PRESCRIPTIONS

Macon, Ga., Feb. 6.—Elimination of alcohol from all physicians' prescriptions was set forth as one of the new objects of the Woman's Christian Temperance Union in an address at the South Atlantic regional conference of that body by Mrs. J. R. Sheppard of Virginia.

"One of the next important steps to be taken by temperance workers," Mrs. Sheppard told the conference, "is the eradication of the ancient superstition that alcohol has any value as medicine."

Mrs. Sheppard claimed she had information that the surgeon generals of the army and navy were only waiting for enough physicians to lend their co-operation to remove alcohol from the supplies of naval and military hospitals.

### THOUSANDS OF HOMES FREIGHT AND COAL BEING BUILT UNDER GOVT. HOUSING ACTS

Entire Federal Appropriation of \$25,000,000 Likely To Be Utilized.

5,000 IN ONTARIO  
Legislation in Provinces Followed by Building Activity.

Toronto, Feb. 6.—Increased railway rates soon, the speedy completion of the union station, no electrification of the Canadian Pacific Railway System as a whole, a great immigration program, with an increased fleet of steamships, and the outstanding statements of President Beatty of the Canadian Pacific Railway, in an interview today, all point to a very bright future for the road, he arrived in the city yesterday after his western tour.

The new Vice-President of the Canadian Pacific Railway system, who will probably be opened to the public in the early fall of this year, will be a good deal of the interior work has yet to be done, and also tracks re-arrangement. The station proper, which is to be completed by July 1, he said, "All these point to a tremendous immigration from Europe to Canada, as the opinion of President Beatty."

It will not be two months, however, but late in the spring or summer, that the tide will come, and with the start from England and Scandinavia, he said. The company has prepared for this great increase in immigration, and the volume of trade and travel to China and Japan and the Far East. "We have four ships under construction for the Pacific, and one for the Pacific. The Pacific ship is to be the Empress of Canada, of 25,000 tons. She will be the largest of our whole fleet, and also the fastest, with a speed of 23 knots."

Mr. Beatty emphatically said that no plan of electrification was being considered. "You can say that there is absolutely no foundation in the report that we are considering the electrification of the whole system. The possibility of electrification is always before us, and it seems to be both feasible and practicable to do it when traffic conditions warrant. At the moment, however, no work of this kind is contemplated."

Rates, he thought, would soon have to advance. "The costs are rapidly advancing still, and they will make a further increase in rates necessary."

"Conditions are very healthy," he said, speaking of his recent trip. "There is a very optimistic prevailing, and every serious consideration is being given to all economic four commercial interests of the community."

### FAILS TO GET DAMAGES FOR DEATH OF HUSBAND

Montreal, Feb. 6.—The defence of the city of Montreal was made in an action brought by Catherine Murphy for \$5,000 damages for the death of her husband, who was killed by a street car after fracturing his skull in a fall to the sidewalk, and was looked up as a common drunk. After being in a cell all night, it was found that Murphy was not drunk and he was removed to a hospital, where he died. The city established that Murphy fell down while under the influence of drink, and also that the corporation was not responsible for the actions of the members of the police.

### THOUSANDS FROM OVERSEAS WILL SEEK HOMES IN LAND OF MAPLE

President Beatty of C. P. R. Looks For Tremendous Immigration.

PREPARES FOR INRUSH  
Head of Canada's Greatest Railway Announces Many Improvements.

Ottawa, Feb. 6.—(By Canadian Press).—Housing acts, adopting the federal project for which \$25,000,000 was set aside on February 20, 1919, have either been passed or are being prepared in each of the nine provinces, according to Thomas Adams, town planning adviser to the commission of conservation, who has the federal scheme in hand. There has been delay in two of the provinces, but it is expected that legislation will also be adopted in these.

According to information reaching Ottawa, British Columbia and Ontario have made most progress in housing development. About 1,000 houses have been erected or are in course of construction in Ontario, and some ninety municipal schemes have been passed, or are under consideration. It is estimated that between 4,000 and 5,000 houses will be erected this year in Ontario if money is available. The amount actually borrowed by the provinces and the estimates now available, indicate that the whole of the federal appropriation of \$25,000,000 will be taken up during the present year. In addition to this amount for housing, the Ontario Government provided \$2,000,000, and there are prospects of further sums from other provinces.

In British Columbia, records show 90 houses built and occupied, and under construction and 249 expected to be built this year.

### THE THRESHOLD OF LIFE

Montreal, Feb. 6.—Speaking before the St. James' Literary Society here last night on "The Threshold of Life," Canon Scott of Quebec uttered a strong indictment of the Ross rifle, which he described as "the worst of evils."

The men at Ypres, said the canon, were sent forward with a weapon they dreaded and which dropped as soon as they were ordered to fire. The Ross rifle, he said, was a terrible thing that our men were

### JOHN BRIDGE RE-ELECTED AS PRESIDENT OF BOARD OF TRADE AT SESSION TODAY

Immigration Laws Discussed, Several Speakers Favoring Less Rigorous Laws Respecting Young Women From Britain—Committee To Investigate Conditions.

At this morning's session of the Board of Trade, John Bridge was re-elected as president, while Chatham was elected as vice-president. The following executive was elected for the various counties: Perth, E. C. McLeod; Stratford, Harry C. L. Moore; Godfrich, Waterloo, G. D. Bus, Kitchener; Kent, Arthur J. Dunn, Chatham; Grey, E. Lennox, Owen Sound; Lambton, J. McRobbie, Petrolia; Elgin, J. L. Thair, Tilmer; Wellington, T. J. Hannigan; Windsor, W. A. Smith; Woodstock, Middlesex, John Bridge; London, Bruce, C. M. Bell, Southampton; Norfolk, M. Lee, Simcoe, Grant, George; Mathews, Brantford; Essex, J. A. MacLure, Sarnia.

Re-Elected.  
The executive meeting later re-elected John Bridge as president, while A. J. Dunn was elected as second vice-president. George Mathews and T. J. Hannigan as third and fourth vice-presidents. Gordon Philip was prevailed upon to act again as secretary-treasurer.

Probably the most important resolution passed at the session was the request that will be made of the various boards of agriculture in Western Ontario that they affiliate with the United Boards of Trade, and send representatives to the meetings. This motion was passed unanimously and in a most enthusiastic manner, and was moved by H. Laughton of London, and seconded by M. M. Maxwell of Chatham.

Change Immigration Laws.  
A communication from the Guelph C. of C., asking the support of the United Boards of Trade in having the immigration laws revised, was read and discussed. It was decided to have a round-table discussion on the subject, and a committee of a committee to get all the data on the subject, and to report to the various boards of trade. The members appointed were H. Sneyd, Preston, M. M. Maxwell, Chatham, J.

Would Remove Head Tax.  
"We would like to see the head tax removed," said a speaker, "and have a reasonable health and medical examination of the British subjects coming to the United States. The head tax is a barrier to the United States, and the head tax will stand."

## RARE MANUSCRIPTS CLEAR UP DOUBTS ABOUT THE BIBLE

Form Basis of Interesting  
Lecture Thursday.

## FOUND IN DESERT Bought From Egyptian Sheikh by Famous American Collector.

Photographs of original manuscripts of parts of the New Testament were among the intensely interesting illustrations which accompanied a lecture given in St. Andrew's Hall last evening by Professor Sanders, professor of Greek in the University of Michigan. He explained that the manuscripts were the property of the late Mr. F. H. Taylor, who was a famous collector, and whose collection was probably the most complete in the world.

The manuscripts came into the possession of Mr. Taylor, the lecturer explained, while traveling in Egypt. They were bought from a sheik at a price which at that time was thought exorbitant. They have, however, proved their value in the solving of a number of doubtful things concerning the Bible.

The manuscripts were originally found in the desert by three men, who could not be named. One of them, a sheik of Cairo, from whom Mr. Taylor bought them after a two-day struggle over the price.

Part of the parchment were in rather a bad state of preservation, while other parts were well-preserved. Professor Sanders, who translated the text, said that in spite of the decay of parts it had been possible to decipher most of the writing. One of the most damaged was the manuscript of St. Matthew's Gospel, which was a quarter covered by a translator. Enough, however, had been deciphered to verify a great deal of the Bible.

The missing verses, which were discovered were the missing twelve verses of the Gospel of St. Mark. These verses did not appear in any of the manuscripts, but they were found on which these were written in a number of centuries later, although it was very conclusive that they were copies of the original text.

One of the things discovered was the raising of a number of passages in different parts of the Testament. Some of them were brought out by the use of chemicals, and showed that they had been copied wrongly from the original manuscripts. This Professor Sanders said, was probably caused by the original scribes having been careless.

Professor Sanders, who is an international authority on the subject of the Bible, translated passages of the different books and spoke of the great trouble he had in getting them. The book of Psalms was one of the badly pumpled ones. This book was made up of hundreds of pages, which had to be worked apart with judicious use of water. The leaves from it which were legible, at the rate of two per day.

The manuscript was found during Mr. Taylor's trip, as the owner was a very sensitive man, and would not allow them to be taken from the public, while he was alive.

## SAYS COMMISSION MANAGER FORM OF GOVERNMENT BEST

United Trade Boards Told of  
Its Workings.

## QUESTS PARTY POLITICS Speaker Recommends System As One Tried and Not Found Wanting.

Commission manager form of civic government and its successful adoption in scores of cities of the United States was vividly described by William P. Lovett, secretary of the Detroit Citizens' League at the dinner tendered the delegates to the annual convention of the Western Ontario Boards of Trade by the London Chamber of Commerce in the Trenchard House on Thursday evening.

Mr. Lovett considered the commission manager form the best method of administering the affairs of a city.

The speaker dealt at length upon the successful form of government in operation in Detroit at the present time. He also went into the early history of the commission manager from the time of its inception at Staunton, Va.

Under the commission manager form of government, the council, which is usually small, consisting of from three to nine members, appointed a city manager. This man had absolute control over the city.

Under this system there were no party politics, and the city was run for the benefit of the people. The city manager was responsible to the council, and the council was responsible to the people.

The speaker said that every citizen had the right to be heard, and that the city manager was responsible to the people.

## Talk Started It, But Action Was Finishing Touch

In This Instance Man Provided  
Former, Woman the Latter.

The fact was demonstrated this morning that the town possesses a female who would have made a good show against the German army. In fact, if the Hun had a few men with the fighting power shown by her they might have won the war, considering they had a little luck.

The battle opened with a light skirmish, but ended in a heavy action, a male visitor making a remark that was not appreciated. The heavy guns opened up with a good barrage of lefts and rights with the face and body. The infantry, though, instead of taking the usual course of "over the top," moved in the counter and put in a flank attack.

The enemy started to evacuate, but was caught near the door. Action was again on the program and the man was seen to fall heavily. Evidently the confusion of a fifteen-inch took him off his feet as he arose and again made for the rear and safety. After delivering the coup de grace, the man was seen keeping up the lines of communication with the one of the products of Henry Ford.

## SINGLE TAX ORGANIZER IS BUSY IN LONDON DISTRICT

Claims Local Option in Taxation Proposed  
by Drury Government.

In preparation for a vigorous campaign throughout Ontario, Eastern Canada and parts of the West, which are not covered by affiliated societies, the Single Tax Association of Ontario, which has been in existence for 25 years, with headquarters in Toronto, is sending out representatives to organize all parts of the country.

While in this city he called upon many friends and members of the association, and visited the public library to see if it was well supplied with the works of Henry George. The works of this authority practically have been adopted as the text books of the association.

Well Equipped Here. Although the library in this city is well equipped with these books, Mr. Thompson claims that he finds a dearth of them in the libraries of some of the smaller centres. In these cases, if the library is not rich enough to supply its own, the association provided the books as part of its campaign.

During the war the work of the association was curtailed greatly, but now that peace has come, great strides are being made. The people throughout the country are found to be giving more attention to tax reform, and are turning a receptive ear to the arguments in favor of the single tax, says the organizer.

He asserted that the association has been given a definite promise by the Drury government to the effect that an amendment is to be made to the present assessment act, so that the municipality will be given local option in the matter of taxation. Should the council or governing body refuse to pass the required bylaw, a petition signed by about 8 per cent of the voters will be presented to the council or governing body, and if they refuse to carry on an active propaganda by the distribution of literature and the sending of speakers to all parts of the country.

SHIPMENTS OF COTTON**

Liverpool, Feb. 6.—T. W. Cooke, former president of the cotton exchange, said today that although cotton of a certain grade was to be sent back to the United States, it was not expected that a great volume of the stocks on hand would be returned. There would

## FREIGHT RATES HOLDING DOWN HORSE EXPORT

Clydesdale Breeders' Association Also Blames Scarcity of Bottoms.

FAVOR CHATHAM FAIR

Indorse Winter Exhibition—  
Would Regulate Entry of  
Stallions Into Canada.

TORONTO, Feb. 5.—High ocean freights and scarcity of bottoms had militated against expansion in the exporting of horses to Europe, according to a report presented at the annual meeting here today of the Dominion Clydesdale Breeders' Association. This applied particularly to the cheaper classes of horses, which were wanted in Europe. The horse market in Canada was stated to be in a healthy condition, especially in the western provinces, where very high prices were ruling. The breeding of draft horses of weight and quality offered the greatest opportunity to Canadian farmers at the present time, the report stated.

Horse breeding had fallen off considerably in the last year and regrets were expressed in the reports that this was the case, as in time the results would be startling. At present there was a shortage of heavy draft horses and a serious state of affairs would result in a few years if the breeding operation were not increased.

Washington Order. President William Graham, in his address, referred to a recent order from Washington regarding the entry into the United States of duty-free Canadian-bred Clydesdales. "If that order means that our graded-up stallions and mares can enter the U.S. duty-free, it will mean an enlarged market for Clydesdales."

George Hoadley, M. P., Okotoko, Alberta, introduced a resolution which was carried, asking that Alberta be given more freedom in the distribution of the money "allotted to us by the association, giving us the power to have such prices and under such conditions as we see best, always providing that we act in the best interest of only in the interest of the Clydesdale breed."

Alberta Competition. In supporting his resolution, Mr. Hoadley showed that Clydesdale men in Alberta had to meet extremely severe competition from other heavy breeds, more so than the breeders in any other province in the Dominion.

The proposed Western Ontario winter fair at Chatham was endorsed by the convention.

"Settlers' Effects." A resolution, which was strongly supported by western delegates and was carried, was to the effect that laws should be framed to prevent the entry into Canada of any stallion not entered in breed records accepted as such in this country. The idea was to put a stop to the entry of undesirable grade stallions entering Canada from the United States as "settlers' effects."

The results of elections were as follows: President, Jas. Torrance, Markham, Ont.; Vice-president for provinces, Ontario, Peter Christie, Manchester; Maritime, H. S. Logan, Amherst, N. S.; Quebec, H. Ness, Howick, Montserrat; John Graham, Carberry, Alberta; E. D. Adams, Calgary; Saskatchewan, Thomas S. Henderson, Turlock; British Columbia, William Montgomery, Ladner.

Directors—William Graham, Claremont, Ont.; John Boag, Queensville, Ont.; Walter Scott, Sutton, Western Ontario; W. McCurdy, Napinka, Manitoba; W. E. Jewell, Bowmanville, Ont.; J. M. McCallum, Shakespeare, Ont.; T. H. Hassard, Markham, Ont.

Life membership was conferred upon William Graham, the retiring president, and Past Presidents John Boag of Queensville, Ont., and T. D. Elliott of Bolton, Ont.

## GRAND TRUNK TRAIN IS DERAILED NEAR PRESTON; TWO HURT

Fireman Is Pinned Under Tender for Four Hours.

[Special to The Advertiser.]  
PRESTON, Feb. 5.—Two men, the engineer and fireman, of G. T. R. train No. 187, were badly injured when this train was derailed between Preston and Hespeler, about two miles east of Preston, at 5:10 o'clock tonight.

Heroldson on Engineer. Thomas Arkell, of Palmerston, in sticking to his engine and applying the brakes immediately he felt the shock of the derailment, is said to have prevented a heavy loss of life and damage of property.

Buried Under Tender. When the engine left the rails, Fireman George Fink of Palmerston, was thrown under the tender and pinned by it to the ground when the trucks were torn away by the shock of derailment. He had not been released at 9 p.m., despite all efforts made to reach him. Engineer Arkell was badly scalded when his engine turned over on its side. He was rushed to the hospital at Preston. The tender did not turn over. The baggage and two passengers suffered minor injuries. A special train with doctors and wrecking equipment was sent to the scene from Guelph immediately on receipt of news of the wreck.

## HYDRO COMMISSION MAY BUY DOMINION POWER CO. HOLDINGS

Hamilton Alderman Says An Offer Is To Be Made.

HAMILTON, Feb. 5.—That the provincial hydro commission may take over the holdings of the Dominion Power and Transmission Company, lock, stock and barrel, within the next month or six weeks, was the information handed out at the city hall today. Ald. Tope is authority for this statement. He says that Chief Engineer Gaby of the commission informed him that just as soon as Sir Adam Beck landed in Canada next month a fair price would be offered the company for its property.

Sir John Gibson, president of the company, when spoken to said: "We are prepared to sell at a fair price." The Dominion holdings include the Hamilton, Brantford-Hamilton road; Hamilton, Brantford and Oakville; Hamilton, Beamsville; Hamilton Street Railway; generating plant at DeCew Falls; the big Hamilton terminal station; the big and the steam auxiliaries in Hamilton.

POLICE GET "CROCK"  
RUNNERS AT HAMILTON

HAMILTON, Feb. 5.—Hamilton "crock" runners are having a lively time with the police. Provincial sleuths sent here to round up bootleggers have arrested a dozen alleged offenders in the past two days. Warrants are said to be out for several more. The cases will be heard in police court tomorrow.

## Socialist-Atheists

ALBANY, N.Y., Feb. 5.—Peter W. Collins of Boston, a Knights of Columbus worker, who was qualified before the committee trying the five suspended Socialist assemblymen here on charges of disloyalty, as a "labor expert," told the committee today that 70 per cent of the members of the Socialist party in this country are atheists.

Collins quoted Morris Hillquit, chief counsel for the defence, as having said that 99 per cent of all Socialists are agnostics or atheists.

## OLDEST COLLEGE IN CANADA ENTIRELY DESTROYED BY FIRE

WINDSOR, N. S., Feb. 5.—(Canadian Press.)—Fire this afternoon laid in ruins the historic building of King's College, the oldest in the Dominion. The blaze had gained headway when discovered, in an upper room in the steward's bar, and gradually spread upwards and westward, but giving the students ample time to remove furnishings from the adjoining halls, the chapel and the president's house. The university was built in 1791, and given royal charter by King George III. in 1802.

There was \$45,000 insurance on the building destroyed, but it will not cover half the loss.

## HORTICULTURAL ASSN. MEETING AT TORONTO

TORONTO, Feb. 5.—The Ontario Horticultural Association, which is holding its fourteenth annual convention in this city, has 100 societies in its organization and a total membership of over 2,000, according to the annual report of the superintendent, J. Lockie Wilson of Toronto. Mr. Wilson expresses confidence that the new Ontario Government will do everything in its power to help the association. President William Hartley of Seaford, presided today. The convention will continue in session tomorrow.

## MAY LIMIT MANITOBA LIQUOR PRESCRIPTIONS

WINNIPEG, Feb. 5.—Private members of the Government spoke strongly in favor of establishing government dispensaries at the continuation of the debate tonight on the liquor problem, but leaders of the party are opposed to this. It was practically decided by causing a bringing down amendments limiting the amount of prescriptions to eight ounces and putting a limit on the number of prescriptions to be issued by each doctor.

## SAYS CANADA'S CLAIM TO NATIONHOOD AS GOOD AS NICARAGUA'S

LONDON, Feb. 5.—(By Canadian Press.)—The Manchester Guardian, discussing what it describes as Hon. Newton Wesley Rowell's frank dealing recently with one of the main causes of the United States Senate's dislike to the league of nations covenant, says "Canada, Australia and South Africa

have at least as good a claim to recognition of their nationhood in this matter as have, say, Nicaragua and Tahiti, and their influence is not more likely than that of the others to the east in favor of settlements of which America would disapprove. All, indeed, who know their political tendencies and ideals will agree that in an assembly of the league they are more likely even than Britain herself to forward some of those international ends of which the world looks upon the United States as the champion."

## Ideal Wrinkle Remover Easily Made At Home

If weather, worry or poor health has marred your face with wrinkles or furrows, here's good news for you. Every line, even the deepest, can be quickly removed by using a simple and harmless face lotion prepared by dissolving one ounce of pure powdered sassafras in a half pint of witch hazel. This is not only a valuable astringent, but has a beneficial tonic effect also. The former smoothes the skin, the more youthful appearance, even after the very first application, will astonish and delight you. If you will obtain some witch hazel and sassafras from your druggist and make your own wrinkle remover as directed, you will find this far more effective than massage creams, pastes and other made preparations.—Advt.

## Tells Dyspeptics What To Eat

Avoid Indigestion, Sour Acid Stomach, Heartburn, Gas on Stomach, Etc. Indigestion and practically all forms of stomach trouble, say medical authorities, are due nine times out of ten to an excess of hydrochloric acid in the stomach. Chronic "acid stomach" is exceedingly dangerous, and sufferers should do either one of two things. Either they can go on a limited and often disagreeable diet, avoiding foods that disagree with them, that irritate the stomach and lead to excess acid secretion, or they can eat as they please in reason, and make it a practice to counteract the effect of the harmful acid and prevent the formation of gas, sourness or premature fermentation by the use of a little Bismarck Magnesia at their meals.

There is probably no better, safer or more reliable stomach antacid than Bismarck Magnesia, and it is widely used for this purpose. It has no direct action on the stomach, and is not a digestant. But a teaspoonful of the powder or a couple of five-grain tablets taken in a little water with the food will neutralize the excess acidity which may be present, and prevent its further formation. This removes the whole cause of the trouble, and the meal digests naturally and healthfully without need of massage pills or artificial digestants.

Get a few ounces of Bismarck Magnesia from any reliable druggist. Ask for either powder or tablets. It never comes as a liquid, milk or citrate, and in the liquid form is not as active. Try this plan, and eat what you want at your next meal, and see if this isn't the best advice you ever had on "what to eat."—Advt.

### THIN, NERVOUS PEOPLE NEED BITRO-PHOSPHATE

Weak, thin people—men or women—  
are nearly always nervous wrecks; thus  
conclusively showing that thinness,  
weakness, debility and neuroticism are  
almost invariably due to nerve starva-  
tion. Feed your nerves with this  
symptoms due to nerve starvation will  
disappear.

Eminent specialists state that one of  
the best things for the nerves is an  
organic phosphate known among physi-  
cians as Bitro-Phosphate. It is a five-grain  
tablet of which should be taken with  
each meal. Being a genuine nerve  
builder and not a stimulant, it does not  
formally drug. Bitro-Phosphate can be  
safely taken by the weakest and most  
delicate sufferer. The results follow  
most lovingly its use are often simply astor-  
nishing.

By strengthening the nerves, weak,  
thin people regain energy, vigor,  
thinness and anguished give way to  
plumpness and curves; sleep returns to  
the sleepless; confidence and cheerfulness  
replace debility and gloom; dull  
cheeks regain their natural glow of health.  
CAUTION—Bitro-Phosphate, the use  
of which is inexpensive, also wonder-  
fully promotes the assimilation of food, so  
much so, that many people report  
marked gains of weight in a few weeks.  
Those taking it who do not desire to put  
on flesh, should use extra care in avoid-  
ing fat-producing foods.—Advt.

## UNITED STATES IS FIRST TO MAKE PROHIBITION PART OF ITS BASIC LAW

### Manufacture, Sale and Trans- portation, Importation or Exportation of Liquor For Beverage Purposes Is Banned by Constitution.

WASHINGTON, Feb. 5.—Constitutional prohibition now effective, provides that from 12:01 a.m. January 17, "manufacture, sale or transportation of intoxicating liquors within the United States and all territory subject to the jurisdiction thereof for beverage purposes" is prohibited by the eighteenth amendment to the constitution, and the United States becomes the first nation of the world to make such a provision part of its basic law. Congress has defined an intoxicating liquor as any beverage containing one-half of one per cent, or more, of alcohol. Actually, the advent of constitutional prohibition will make little difference in the daily life of the people of the United States, for the nation-wide ban on the manufacture, sale and transportation of liquor has been in effect since the thirteenth century, when the prohibition holding large quantities of whiskey was considered a crime. The prohibition will be lifted before today, in accordance with the recom-  
mendation of President Wilson to Congress, but Congress refused to do so, and the prohibition will remain in effect until the next session of Congress, when the amendment will be repealed. The prohibition will be lifted before today, in accordance with the recom-  
mendation of President Wilson to Congress, but Congress refused to do so, and the prohibition will remain in effect until the next session of Congress, when the amendment will be repealed.

Thousands of gallons of whiskey re-  
main in bonded warehouses with no  
chance to be sold at prevailing mar-  
kets. The liquor can be taken out  
of the warehouses and sold at a profit,  
with the bureau of internal revenue  
extending exorbitant prices to see  
that the prohibition is not violated.  
The law during the last two months  
many owners of alcoholic liquors, for-  
eign and domestic, have endeavored  
to ship liquor to other countries. Lack  
of shipping space prevented more than  
a fraction of the liquor from being  
shipped. The liquor was received most  
of 70,000,000 gallons of wine when war  
time prohibition was in effect. The  
amount exported is now about 20,000,000  
gallons. The prohibition is now in effect.

Attacks on constitutional prohibition,  
began in several states, apparently are  
not viewed with alarm by the reform  
forces. After the supreme court held  
the constitutionality of war-time  
prohibition and the prohibition to en-  
force it, Wayne B. Wheeler, general  
counsel of the Anti-Saloon League of  
America, said that the only ques-  
tion left on which the reformers could  
make a fight was whether prohibition was  
a constitutional amendment. He con-  
tended that the amendment was not  
adopted legally. He contended that  
the amendment was not adopted by  
three-fourths of the states, as required  
by the constitution. He contended that  
the amendment was not adopted by  
three-fourths of the states, as required  
by the constitution.

Separate Division.  
Commissioner Roper has established  
an entirely separate division in the  
bureau of internal revenue for the  
enforcement of prohibition, headed by  
John F. Kramer of Mansfield, Ohio, as  
prohibition commissioner for the United  
States. He will have under him nine  
district supervisors in charge of as  
many districts. The director will be  
shifted from place to place as con-  
ditions demand.  
Mr. Roper has made plain, however,  
that enforcement of prohibition de-  
pends largely on local sentiment, and  
has appealed to citizens of the United  
States to give their co-operation to  
upholding the law of the country. Fed-  
eral forces, he said, would be used  
to reinforce local efforts, and where  
any officer failed in his duty, his  
constituents would be informed.  
Approximately \$500,000,000 in taxes  
has been collected annually on alco-

holic beverages, which now will have  
to be obtained by the Government in  
some other way.

Growing Since 1808.

Prohibition sentiment, culminating in  
the epoch-making amendment to the  
constitution, has been growing steadily  
in this country since 1808, according to  
records compiled by the board of tem-  
perance of the Methodist Episcopal  
church. In that time, a demand for  
moderation in the use of ardent spirits  
arose, followed ten years later by an  
even broader movement for abstinence  
in the use of malt liquors. This in  
turn gave way, in 1840, to sentiment  
for abstinence from all alcoholic bever-  
ages.

Acitation for abolition of the practice  
of licensing the sale of liquors did not  
come until 1847, resulting four years  
later in the enactment of prohibition  
laws in Maine, the first state to put  
second in 1850, and North Dakota third  
in 1889. Meanwhile, the movement had  
grown to such proportions that a Na-  
tional Prohibition Party was formed at  
a convention in Chicago, September 1,  
1890.

Women in Forefront.  
Women, always in the forefront of  
the activity to stop the sale of al-  
coholic drinks, organized for a concerted  
effort, the famous Women's Crusade,  
1873-74. Their association was later  
to become known throughout the  
Christian Temperance Union, with a  
white ribbon.

The modern wave of prohibition  
legislation began with Georgia in 1907,  
when the state adopted a prohibition  
law. It was followed by the adoption  
of the amendment by the national con-  
stitution in 1919. The amendment was  
ratified by the states in 1919. The  
amendment was ratified by the states  
in 1919. The amendment was ratified  
by the states in 1919.

Strongest Measures.  
In addition to state laws, there have  
been in effect stringent measures  
adopted by Congress to aid toward  
winning the war, which have  
imposed upon the prohibition  
movement. Studying the examples of  
foreign countries, a law was passed,  
making it unlawful to provide any man  
with liquor. The law was passed in  
uniform with alcohol prohibition.  
Making of beer and whiskey was stop-  
ped. The sale of drinks was terminated  
at midnight, last June 30. Shipment  
of liquor into any states was prohibited  
by the bone-dry law.

The constitutional amendment was  
passed by Congress on December  
18, 1917, with restrictive clauses  
which were not included in the  
amendment. It would be inoperative  
unless ratified within seven years.  
It required only 13 months. The vote in  
the House was 281 to 128, and in the  
Senate 65 to 26.

Effective in One Year.  
Acting Secretary of State Frank L.  
Polk proclaimed the amendment as  
January 23, 1919, but it goes into ef-  
fect one year from the date of ratifi-  
cation. The amendment was ratified  
by the states on January 16, 1919, the  
amendment is now operative.  
To enforce constitutional prohibition,  
Congress enacted a bill so drastic that  
a man can be fined or put in jail for  
even displaying a picture of a brewery  
or a keg. Right to store liquor in one's  
home for personal use stood up,  
however, against vigorous attacks in  
both Senate and House.  
Alcoholic beverages still may be  
produced for medicinal and sacra-  
mental uses, and alcohol will continue  
to be used for scientific and indus-  
trial purposes, but many safeguards  
are provided that the law shall not be  
violated. The home manufacture and  
consumption of non-intoxicating  
fruit liquors is permitted by law.  
In the manufacture of cereal drinks,  
commonly referred to as "near beer,"  
it was provided that other names shall  
be used than beer, ale or porter.

Places where intoxicating liquors are  
sold can be declared a nuisance and  
abated as such, and the persons guilty  
of maintaining them are punishable  
under the criminal sections of the en-  
forcement law. Penalties for viola-  
tions of the law vary, according to  
the nature of the violation and whether  
it is a first or subsequent offense. Pen-  
alties running as high as \$5,000  
and two years' imprisonment. The  
violation of liquor laws by any means or  
method is prohibited.

Search for contraband liquor is per-  
mitted under warrants except for un-  
used dwellings may not be searched  
unless used for illegal sale or in part  
for business purposes. Seizure of liquors  
and property used in illegal sale or  
transportation are to be destroyed, the  
owner having no property rights in it.

### MEXICAN BANDIT IS KILLED IN ATTACK

Mexico City, Feb. 5.—Dispatches from  
Uruguay tell of the death, while at-  
tacking the Tepic ranch of Jesus  
Cintora, regarded as one of the most  
ruthless bandits in the Michoacan-  
Jalisco region. Most of Cintora's fol-  
lowers, together with another rebel  
leader, Gerardo Gonzalez, are said to  
have surrendered.

An optimistic note has been sound-  
ed in the oil regions, who says that for  
more than two months, owing to the  
Pelez rebels have attacked neither oil  
camps nor oil company paymasters. He  
reports that the rebel chief, Pedro Mora,  
has surrendered, together with 60 fol-  
lowers. He operated along the banks of  
the Panuco.

### AUSTRALIA TO BUILD BIG IRRIGATION DAM

Sydney, Australia, Feb. 5.—One of the  
largest irrigation dams in the world  
is to be built across the Murray River,  
in the state of Victoria. It is to be named  
the Hume dam and erected at Murrumbidgee  
on the island between Victoria  
and New South Wales. The irrigation  
scheme will benefit three states.

### MEXICO TO MAKE ITS OWN ARTILLERY

Mexico City, Feb. 5.—Mexico which  
has been forced to import its artillery  
for years expects soon to manufacture  
its own field pieces. Two Mexican army  
engineers have perfected a formula for  
tempering steel for cannon, and when  
placed in the national arsenal is com-  
pleted, the first guns will be turned out.  
THREE THOUSAND PROTESTS.  
Berlin, Feb. 5.—Three thousand na-  
per protests, notes, in other words—  
have been sent by the German Govern-  
ment to the Entente charging breach of  
the armistice.

## MIDDLE CLASSES OF ENGLAND ON ROAD TO RUIN, SAYS HAGGARD

Birthrate Decreasing Owing  
To H. C. of L.

### EDUCATING CHILDREN

Difficult Under Present Pro-  
fiting System, Says  
Noted Author.

(Associated Press.)

LONDON, Feb. 5.—Sir H. Rider  
Haggard, the author, believes the  
middle classes of England are on the  
"road to ruin." This opinion he ex-  
pressed in a letter to the general secre-  
tary of the Muddy Glasses Union, re-  
gretting that other work prevented him  
from assuming the presidency of a  
branch of the union.

"I sympathize fully with your move-  
ment," he wrote. "The middle classes,  
by which I take to mean all beneath  
the rank of peers, who do not actually  
earn their livelihood by the work of their  
hands, are, without doubt on the road  
to ruin. Owing principally, or at any  
rate very largely to an incredible ex-  
penditure of rearing and educating their  
children, their birthrate is decreasing in a most  
alarming fashion, and possibly is now  
exceeded by their death rate."

He declared that against these classes  
the profiters are given a free hand, and  
that "under pretence of a nebulous  
nationality bill, they are now threat-  
ening to take away the means of  
free trade, which alone enables many  
of them to live at all."

"If the middle classes remain dis-  
united and in consequence are bullied  
and plundered to death, as happened  
to the Curiaes before the fall of the  
Empire, I am sure that with them  
will disappear the wealth and the  
ancient greatness of our country,"  
he concluded.

## BRITISH MINERS TO EDUCATE PUBLIC ON NATIONALIZATION

Begin Nation-Wide Campaign  
of Propaganda.

WANT DEFINITE ANSWER  
Will Try To Force Government  
To Say "Yes" or "No"  
To Question.

LONDON, Feb. 5.—British coal min-  
ers are entering upon a nation-wide cam-  
paign to "educate" the public in the  
school and the trade union movement.  
An attempt will be made to show  
that state ownership and co-operative  
management of mines would benefit the  
miner, the consumer and the public  
treasury.

This propaganda is to be developed  
with much intensity as to force the  
Government to give a definite "yes" or  
"no" answer to the question. Then it  
will depend upon the result of the  
which the two sides stand by their  
guns as to whether a general election  
will be fought out with nationalization  
as the issue.

Aside from the dispute between rail-  
way men and the Government over  
wages, prospects of industrial peace in  
Great Britain are regarded by the Gov-  
ernment and the trade unionists as  
brighter than at any time since the con-  
clusion of the war.

Government and labor leaders forecast  
a period of severity and increased pro-  
duction for which they have long de-  
clared as the first essential in re-establish-  
ing the country on a firm economic  
basis.

Several thousand miners have been  
on strike for 13 weeks, but it is declared  
a large number of them have entered  
other employment.

## PENNSYLVANIA LED NATION IN MILEAGE OF ROAD BUILDING

During 1919 Contracts Let  
For 679 Miles.

(The Associated Press.)

Harrisburg, Pa., Feb. 5.—Pennsyl-  
vania led the nation in 1919 in mileage  
of contracts let for road construction,  
according to the state highway depart-  
ment. Up to January 1 the state  
awarded contracts for the building of  
679 miles of roads, valued at \$10,700,000.  
Pennsylvania's 1920 program calls for  
the construction of approximately 800  
miles of roads. The department says  
that Pennsylvania is far ahead of other  
states in the organization it has per-  
fected to build durable highways.

## TELL THE WORLD THIS WOMAN SAYS

That Lydia E. Pinkham's  
Vegetable Compound made  
Me a Well Woman.

Los Angeles, Cal.—"I suffered with  
female troubles for years, was sick  
most of the time, and was not able to  
do my own housework, and I could not  
get help from doctors. I saw Lydia E. Pinkham's  
Vegetable Compound advertised in the news-  
papers, and took six  
bottles, and am a  
different woman now. I can use my name to  
tell the world the  
good your medicine has done me as I  
shall praise it always."—Mrs. A. L.

Angeles, Calif.

Women who suffer from any form of  
weakness, as indicated by displace-  
ments, inflammation, ulceration, irreg-  
ularities, backache, headaches, nervous-  
ness or "the blues," should do as Mrs.  
DeVine did, and give Lydia E. Pinkham's  
Vegetable Compound a thorough trial.  
For over forty years this famous  
remedy, which contains the curative,  
strengthening properties of good oil  
fashioned roots and herbs, has been  
correcting just such ailments. If you

## AN EXPLANATION--

Let us explain to you the reason for us adopting the plan of not delivering an order  
under \$2.00 for less than 10 cents. Our delivery system was taxed to the utmost. Fre-  
quently we have even been forced to deliver all day Sunday to get the orders out. We  
had to choose between two things—more cars and more expense, or cut down the delivery  
to where we could handle it with our present equipment.

We know that with everything going up the way it is our customers did not want  
to pay higher prices, which we would have been forced to ask if we had to put on more cars.  
So we put on the \$2.00 limit, knowing it to be no hardship for a customer to buy \$2.00  
worth of merchandise with the big range of goods we handle.

## FORMALLY OPEN PARLIAMENT IN NEW BUILDINGS

Ceremony Set For February  
26—Details Arranged  
At Ottawa.

OFFICIALS MOVING IN  
Some Parts Completed—Sen-  
ate Chamber Not Finished  
This Year.

OTTAWA, Feb. 5.—(By Canadian Press.)—The ceremony of the formal opening of parliament in the new buildings will take place on February 26 in the commons chamber. This has been decided upon by the cabinet and arrangement of the details has been carried out. The commons chamber will be ready for occupation by that time, it is stated, but the senate chamber will not be ready this year. Therefore, the commons will first meet in the Commons chamber, while the Commons will meet in the railway committee room, which is later to be used by the Senate while the upper chamber is waiting for the completion of its permanent quarters.

On receiving the summons from the gentleman usher of the black rod, the members of the House of Commons will go from the railway committee room to the Commons chamber, where the senators will be in waiting, and there the formal ceremony will take place, and the speech from the throne will be delivered. Afterwards the senators will vacate the chamber and the members of the lower house take their places. Following the formal opening, their excellencies the Governor-General and Duchess of Devonshire will hold a reception between the hours of 4:30 o'clock and 5 o'clock.

Only Certain Parts.  
Although only certain parts of the building will be completed in time for the formal opening, it was thought by the cabinet that there should be some formality attached to the opening of the first session in the new building. Workmen are now busy completing the commons chamber and the paneling is being placed in position. While there appears much work to be carried out in the commons chamber, the architects have pointed out that most of the woodwork is already cut to fit when it reaches the buildings, so that it is only a matter of putting it in place. With a large force of expert workmen rapid changes are being made.

Members' Rooms Completed.  
Most of the members' and senators' rooms are already completed, and some of the officials of the House are already having their effects moved into the new quarters.  
Sir George Foster, acting premier, stated tonight that there was no doubt that the building will be sufficiently completed to allow of the opening taking place as planned without further delay. In the meantime all efforts are being turned to completing the essential portions of the building, and while parliament will meet almost amid the din of saws and hammers the business of parliament will be carried on while the rest of the building is being finished up.

Justice Middleton Tells Stu-

TORONTO, Feb. 5.—An admonition that they should always remember to wield the sword of the knight and not the dagger of the assassin was offered by Mr. Justice Middleton today to twelve students at law whom he was calling to the bar.  
They should not, he said, regard their profession as merely a means for livelihood, and be quoted an eloquent message from Gratton, the eminent Irish judge, delivered during the trial of Daniel O'Connell. The court were the temple of justice. Justice was reached only through ascertaining the truth.

## DETECTIVE SAYS HE SAW RIFLES STORED BY STRIKERS' PARTY

Lied To Keep Up Camouflage,  
Tells Strikers' Counsel.

WINNIPEG, Feb. 5.—(By Canadian Press.)—If the crown fails to connect any of the accused with seditious conspiracy, the crown counsel will be the last to ask the jury to convict them.

This was the assurance given by Isaac Pitblado, K.C., at the trial of the seven strike leaders this afternoon when Alderman Queen objected to his being associated with propaganda in the form of literature which was being submitted to the jury.

While assuring the alderman in this manner, Mr. Pitblado seized the opportunity to say that Queen had presided at a meeting in the Walker Theatre held under the joint auspices of the Socialist Party of Canada and the Trades and Labor Council, and that at this meeting considerable literature had been distributed.

Cross-Examination of Corporal Zaneth of the Royal Northwest Mounted Police secret service, who played the part of a socialist at Calgary, was continued at the morning session. He stated that the "ordinance department" on Tenth avenue, which he had been told by Joe Knight to keep an eye on, as the guns there "might be needed some day," was the paint and glass building. After his conversation with Knight he had been about thirty rifles in the building hanging on racks.

Admitted Being Spy.  
Zaneth admitted that he was a spy; that he lied just as often as was necessary for him to keep up his "camouflage," or as often as the "truth" would not fit.

Under re-examination by Mr. Andrews witness said he could not get the information without lying.

Mr. Bonnar objected, and his lordship pointed out to Mr. Bonnar that a spy had to lie. How about the men who entered the German lines?

"The Germans, my lord?"

"The position is the same," continued his lordship, "whether the enemy is external or internal."

## FLOUR PRICES DROP

MINNEAPOLIS, Feb. 5.—Flour dropped 50c a barrel at the local market today, the collapse in foreign exchange and the slump in the wheat market being given as the cause. Today's quotation, \$13.75 a barrel in 50-pound cotton sacks, is the lowest price standard flour has been selling at this year.

## ICE CREAM MAKERS WANT REHEARING BY RAILWAY COMMISSION

OTTAWA, Feb. 5.—(By Canadian Press.)—Ice cream manufacturers are to make formal application to the Board of Railway Commissioners for rehearing of their application in regard to express rates on ice cream. Ice cream was classified in the first class, and ice cream manufacturers applied to the Board of Railway Commissioners for classification at a lower second class rate, with other foods.

The board refused the application, and this morning the National Dairy Council appealed to the cabinet. After a hearing by the cabinet, it was decided that the manufacturers should make formal application to the board.

## HAD TO GO TO BED HEADACHES SO BAD

Milburn's Laxa-Liver Pills  
Made Her Well.

When your liver gets sluggish and inactive, your whole health suffers. Your bowels become constipated, your head aches, your tongue is coated, breath bad, specks float before the eyes, you are bilious, have heartburn, water-brash, pain under the right shoulder, muddy and brown spotted complexion, etc.

Help the liver to resume its proper function by removing the bile that is circulating in the blood and poisoning the system.

Mrs. E. Bainbridge, 30 Maple avenue, Amherst, N. S., writes: "I take pleasure in writing you of the good I received by using Milburn's Laxa-Liver Pills for headaches. I was so bad I had to go to bed, and could not sit up. A friend told me about your wonderful medicine, and two vials have made me as well as I can be."

Milburn's Laxa-Liver Pills are small and easy to take, do not gripe, weaken or sicken, do not leave any bad after-effects. Price 25c a vial at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

## LADIES! DARKEN YOUR GREY HAIR

Use Grandma's Sage Tea and  
Sulphur Recipe and No-  
body Will Know.

The use of Sage and Sulphur for restoring faded, grey hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," you get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally, and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the grey hair disappears, and after another application or two, it becomes beautifully dark and glossy.

## ALLIES MAY DECIDE TO TRY BY DEFAULT ALL THOSE CHARGED WITH WAR CRIMES

Entente Powers Send New  
Note to Germany.

### ONE WOMAN DEMANDED

Von Bernstorff, Former U. S.  
Ambassador, Among Those  
in List.

PARIS, Feb. 5.—What amounted to virtually a new note was sent to Berlin by the Allies to be presented to the German Government with the list of persons accused of war crimes, besides the original covering letter drawn up to accompany the list.

The suggestion has been made in official circles here that if the Germans resist surrender of the accused, the latter may be tried by default. It is pointed out that while most of them would never undergo the penalties imposed by the court, it would be impossible for them to leave Germany except for neutral countries.

BERLIN, Feb. 4.—At the conclusion of tonight's cabinet session, a member of the government informed the correspondent of the Associated Press that the ministers were unanimous in declaring that surrender of the accused demanded by the Allies on an unofficial or any other extrajudicial list was an utter physical impossibility.

The cabinet meeting, which lasted several hours, was attended by Matthias Erzberger, the vice-premier, and minister of finance, whose appearance was his first at a meeting of the ministry since he was shot in the shoulder in the recent attempt of a former cadet officer to assassinate him.

Rumors that a crisis was impending in the government are declared by the Lokal Anzeiger to be groundless. The cabinet members are in complete agreement on Germany's policy, the newspaper avers. It is understood here that the direction of the German delegation in Paris has been taken over by the senior ranking official there in the emergency created by the sudden resignation of Baron von Leraner upon his refusal to transmit the extradition list to the Berlin Government.

Turk War Minister.  
It is learned that in addition to the names previously given, the list includes the names of Friedrich von Ingenhoff, Djemal Pasha, former Turkish minister of war, Rupert von Griesner and Admiral von Schroeder, former commander of the naval corps. These men were demanded unanimously.

The deliberations of the cabinet tonight were wholly informal, as neither an official list nor the covering note were at its disposal. The list received in Berlin contains the names of 30 names. Fully eighty per cent of the men are unknown even to the general public of Germany. Full transmission resulted in gross misapprehensions and the omission of initials and other marks of identification to indicate the respective persons meant, while names like Schmidt and Muller recur several times.

One Woman on List.  
France and Belgium demand the surrender of 334 men, England 37, Poland 57, Rumania 41, Serbia 4 and Italy 29. There is one woman on the list, Frau Elise Schelmer, who is wanted for alleged mistreatment of French women at a German concentration camp. The appearance of the name of Count von Bernstorff, former German ambassador to the United States, is accounted for here by his connection with Holo Pasha, executed in France in 1918 as a traitor. Unless the covering note is accompanied by additional documentary evidence or specific indictments, the work of tabulating the list for the purpose of identifying the men will consume several days.

Von Mackensen Wanted.  
Field Marshal von Mackensen is wanted by Serbia and Rumania. Gen. Count Sixt von Armin by England. The U-boat commander, Dr. Plapertiere, is demanded by Italy, as are also Capt. Valentiner and Robert Morait, who operated in the Mediterranean.

Both France and Belgium demand Field Marshal von Hindenburg, but only the former wants Gen. Ludendorff, the former first quartermaster-general of the German army, and Dr. von Bethmann-Hollweg, former imperial chancellor. Admiral Tirpitz is on both the Belgian and English lists.

The mangled spelling of numerous names indicates that a number of men well-known in finance and industry also are on the list. These names could not be verified tonight, although the erroneous translation permits of the conclusion that Dr. Karl Heffterich, former minister of finance, and Max Warburg, the banker, are among those wanted. In addition to other prominent civilians.

The name of Frederick von Ingenhoff has not been previously reported in connection with any of the extradition demands. It is possible that Admiral Oscar von Ingenhoff, former commander of the German high seas fleet, is meant. Admiral von Schroeder has been charged with cruelty to children at Bruges, Belgium, during a period when he was in charge at that city.

LEAVE FOR PARIS.  
LONDON, Feb. 5.—Lord Birkenhead, the lord high chancellor, and Sir Gordon Hewart, the attorney-general, left London for Paris this afternoon. Their departure followed a cabinet council at which the German attitude on the extradition issue was discussed, and into which the lord high chancellor and the attorney-general were called for consultation.

Flight Across  
Africa Arouses  
Great Interest

Cairo To Capetown Trip To Be  
Over Wildest Kind of  
Country.

LONDON, Feb. 5.—First attempt to fly from Cairo to Capetown will be watched in England with an interest equal to that taken in the flight of Capt. Ross Smith from England to Australia. This is largely due to the fact that much of the country to be traversed is of the wildest character and is very remote from civilization.

The Daily Times already has a big headline at Cairo, to which city it has flown from England. It will start on Friday on the first lap on the southward journey, which will take it to Aden, 870 miles up the Nile. It will carry a crew of five and a scientific observer.

Peter Chalmers Mitchell, astronomer and secretary to the Zoological society of London 1903, was a passenger in a plane which left yesterday morning for Capetown, rising from an aviation field near this city. There is no suggestion of a race between these machines, the Times particularly disavowing any idea of competition.

PENNSYLVANIA WRECK  
DERAILS FOUR SLEEPERS

PHILADELPHIA, Feb. 5.—A Pennsylvania Railroad train en route from the south to New York ran into a light engine at Frankford, a suburb, today. The engine and four Chesapeake and Ohio sleepers were derailed. Two of the sleepers were overturned. The fire department was called out to suppress a fire which started in one of the derailed cars.

### Housewives Chuckle

NEW YORK, Feb. 4.—Because an expected European demand for eggs failed to develop, New York produce men are stuck. York produce men are stuck. Chuckle gleefully. Today eggs which were put in cold storage at 50 cents a dozen were on the market at prices ranging from 45 cents to 11 cents. The slump brought the price of fresh eggs down about 8 cents per dozen.

## LABOR LEAVES LLOYD GEORGE; ROBERTS QUILTS

Food Minister, Last Labor  
Member in Cabinet,  
Resigns.

LONDON, Feb. 5.—According to the Daily Sketch, G. H. Roberts, the British food minister, has resigned. The newspaper adds that the resignation of the minister does not imply disavowal of the cabinet, but declares it was prompted by the example set by Mr. Roberts' labor colleague, George Nicoll Barnes, minister without portfolio, with whom he joined the cabinet and who resigned last month.

## Build Museum For Dominion War Memorial

Canada's Official Building To  
House Trophies of Fight-  
ing Officers.

OTTAWA, Feb. 5.—(Canadian Press.)—Canada's official war memorial will take the form of a museum, which presumably will be erected in Ottawa, in which will be housed the war trophies belonging to the Canadian forces. At a meeting held here today resolutions were adopted unanimously recommending that there be built for this purpose a monumental museum containing such other elements as may be necessary to give full expression to national feelings, and as an expression of the sacrifice of the dead and the greatness of our national efforts.

The architect for the memorial will be chosen in a competition open to Canadian architects, and the working out of the project is placed in the hands of a commission composed of three delegates from each of the following bodies: The Great War Veterans' Association, the Royal Society of Canada, the Canadian Institute of Architects, the Canadian Royal Academy, and the Town Planning Institute of Canada, and the chairmen of the Advisory Arts Council.

The name of the commission will be "The National Memorial Commission."

CROOKS GET LARGE  
SUM OF SECURITIES  
IN NEW YORK BANK

Robbery in Financial District  
by Expert Cracksmen.

NEW YORK, Feb. 5.—The vault of the Pittsburgh Steel Company in the Equitable Building was looted last night by burglars. It was learned today. A large sum in securities was stolen. The Equitable Building, which is in the heart of the financial district, houses the New York branch of the Federal Reserve Bank.

The stolen securities, which are not negotiable, were valued at thousands of dollars. So far as employees could determine after discovery of the robbery the only cash taken was a \$20 gold piece.

The robbery, which was below the "dead line" of the point in New York's financial district beyond which crooks are not supposed to pass even for innocent purposes, bore indications of being the work of expert cracksmen. Entrance apparently was gained to the company's quarters by use of a master key. The combination of the safe was cleverly worked out and the steel doors to inner compartments were broken.

LIBERALS SUBSCRIBE  
FOR MEMORIAL TO  
SIR WILFRID LAURIER

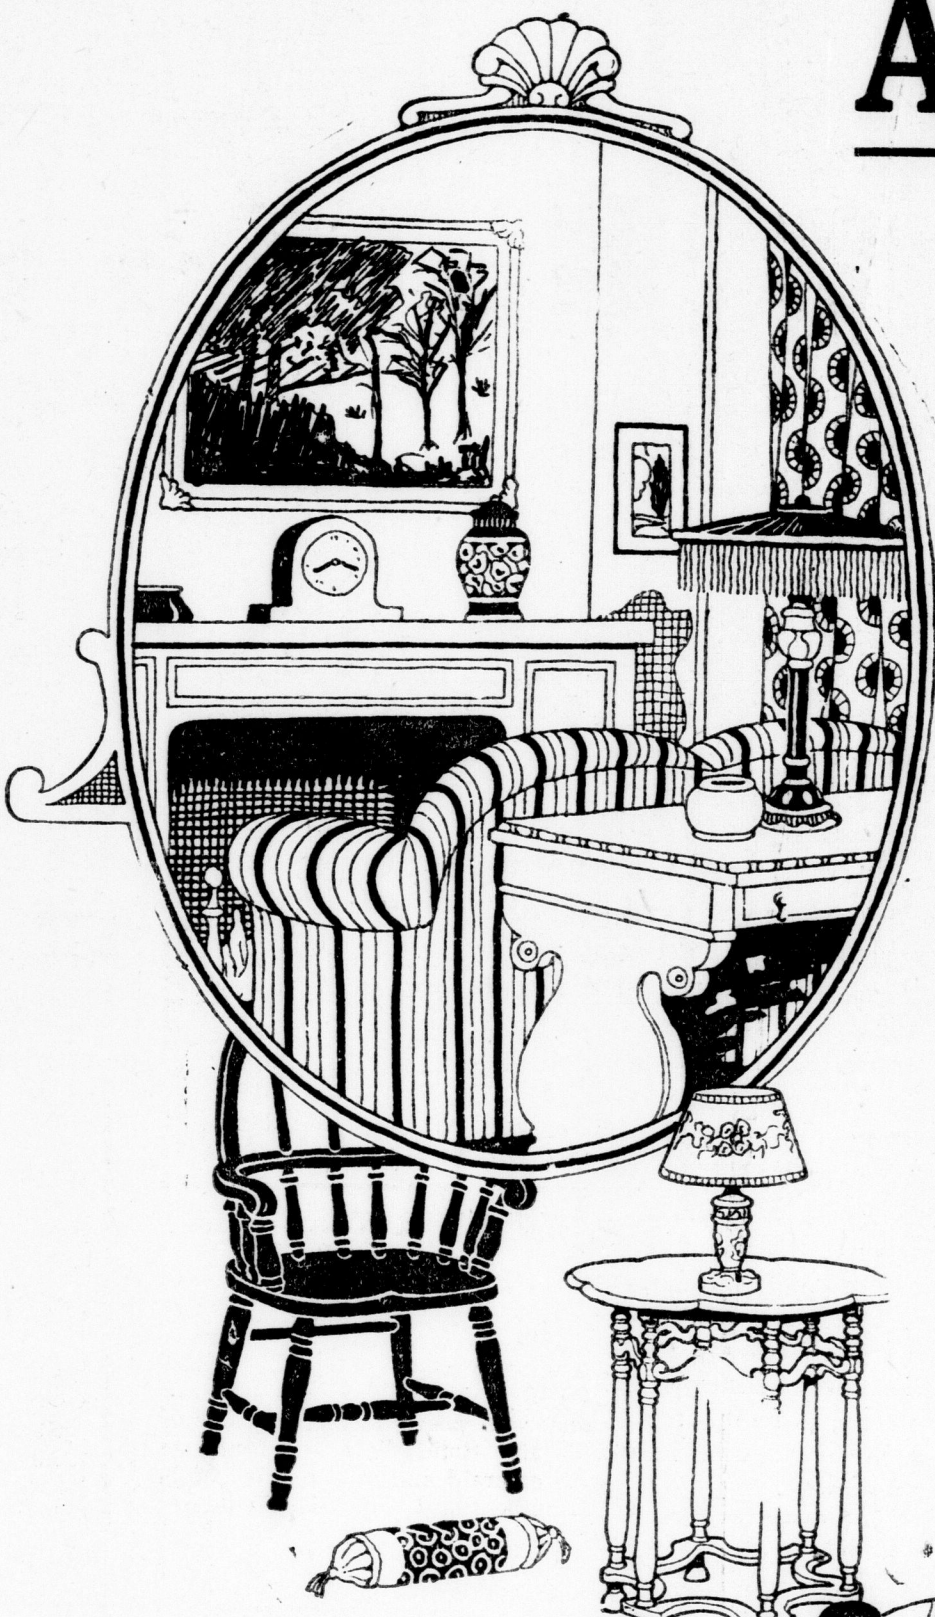

Quebec, Nova Scotia and  
Manitoba Leading Others.

OTTAWA, Feb. 5.—(Canadian Press.)—Liberals of Quebec, Nova Scotia and Manitoba are subscribing very liberally to the fund for the erection of a memorial to the late Sir Wilfrid Laurier.

While the organization work has been well carried out in most districts there are some where arrangements for a memorial have been somewhat lax with the result that few of the people have been approached.

Officials here express confidence that when the people have been given a chance of subscribing, the total realized will be in excess of the \$100,000 objective, which was set.

# Furniture of Enduring Fineness At February Savings

All of us like to have cozy homes—a place of our own, invitingly attractive, outfitted with good-looking, substantial furniture. We want to be proud of our home—have in it such pieces as make for charm, beauty and comfort—a haven for our family and friends.

If your home isn't such—the kind you can be proud of—now surely is a most opportune time to make it so.

Very likely it needs but a piece or two, possibly a new suite, to give it that completeness. Down here in our big store you can find during this sale hundreds of exceptional values, especially in view of the increasing cost of good furniture, just the pieces your home needs—offered at

## 10 to 40% Off

For the living-room, where the family spends most of its time at home, you want pieces that give comfort primarily and then add charm and attraction—so we offer suites of mahogany and cane richly upholstered in tapestries and velour; overstuffed tapestry sets; three-piece duofold combinations; rockers of a score different patterns, upholstered and plain; easy chairs; floor lamps and other articles. For the bedroom we offer your choice of suites or single pieces of the latest designs in the distinctive period styles. Your dining-room, where guests gather you would prefer to have look artistic and yet radiate cordiality as well as comfort—so we have for you such suites—in all desired woods and period patterns. Kitchen utilities—articles to conserve the housewife's energy—such as kitchen cabinets, ranges of various kinds and other pieces—are also here in wide variety. No matter what your home may require, here you will find it at a sale saving.

## Buy Now!

### Choose Your Store With the Same Careful Discrimination You Use in Selecting Your Furniture

Never has there been a time when the store where you buy your furniture is of such importance as now. Manufacturers everywhere are flooded with orders. Furniture is being rushed through production as rapidly as possible, and as a consequence some of it is not up to the high standard this store has established. But in spite of present conditions we have maintained our high standard of excellence, for we will never allow any merchandise to get into our stocks that is not quality-built through and through. By careful, painstaking buying, by rigidly insisting on fine workmanship, excellent finish and selected materials we can still offer our patrons furniture that is fit to grace any home at a moderate price.

## Come Tomorrow --- Get the Best

Heavy buying has characterized this sale thus far—people have realized its big opportunities for savings in furniture. Our stock, though, still is very complete because of the fact that we were well prepared for it. But no sale with the response this one has received can continue to offer a complete stock any great length of time. So we urge that you come in at your very first opportunity while you can find high-grade, fully-guaranteed furniture of distinctive design and substantial construction in wide variety. Thus you will avoid the disappointment of not getting just what you want.

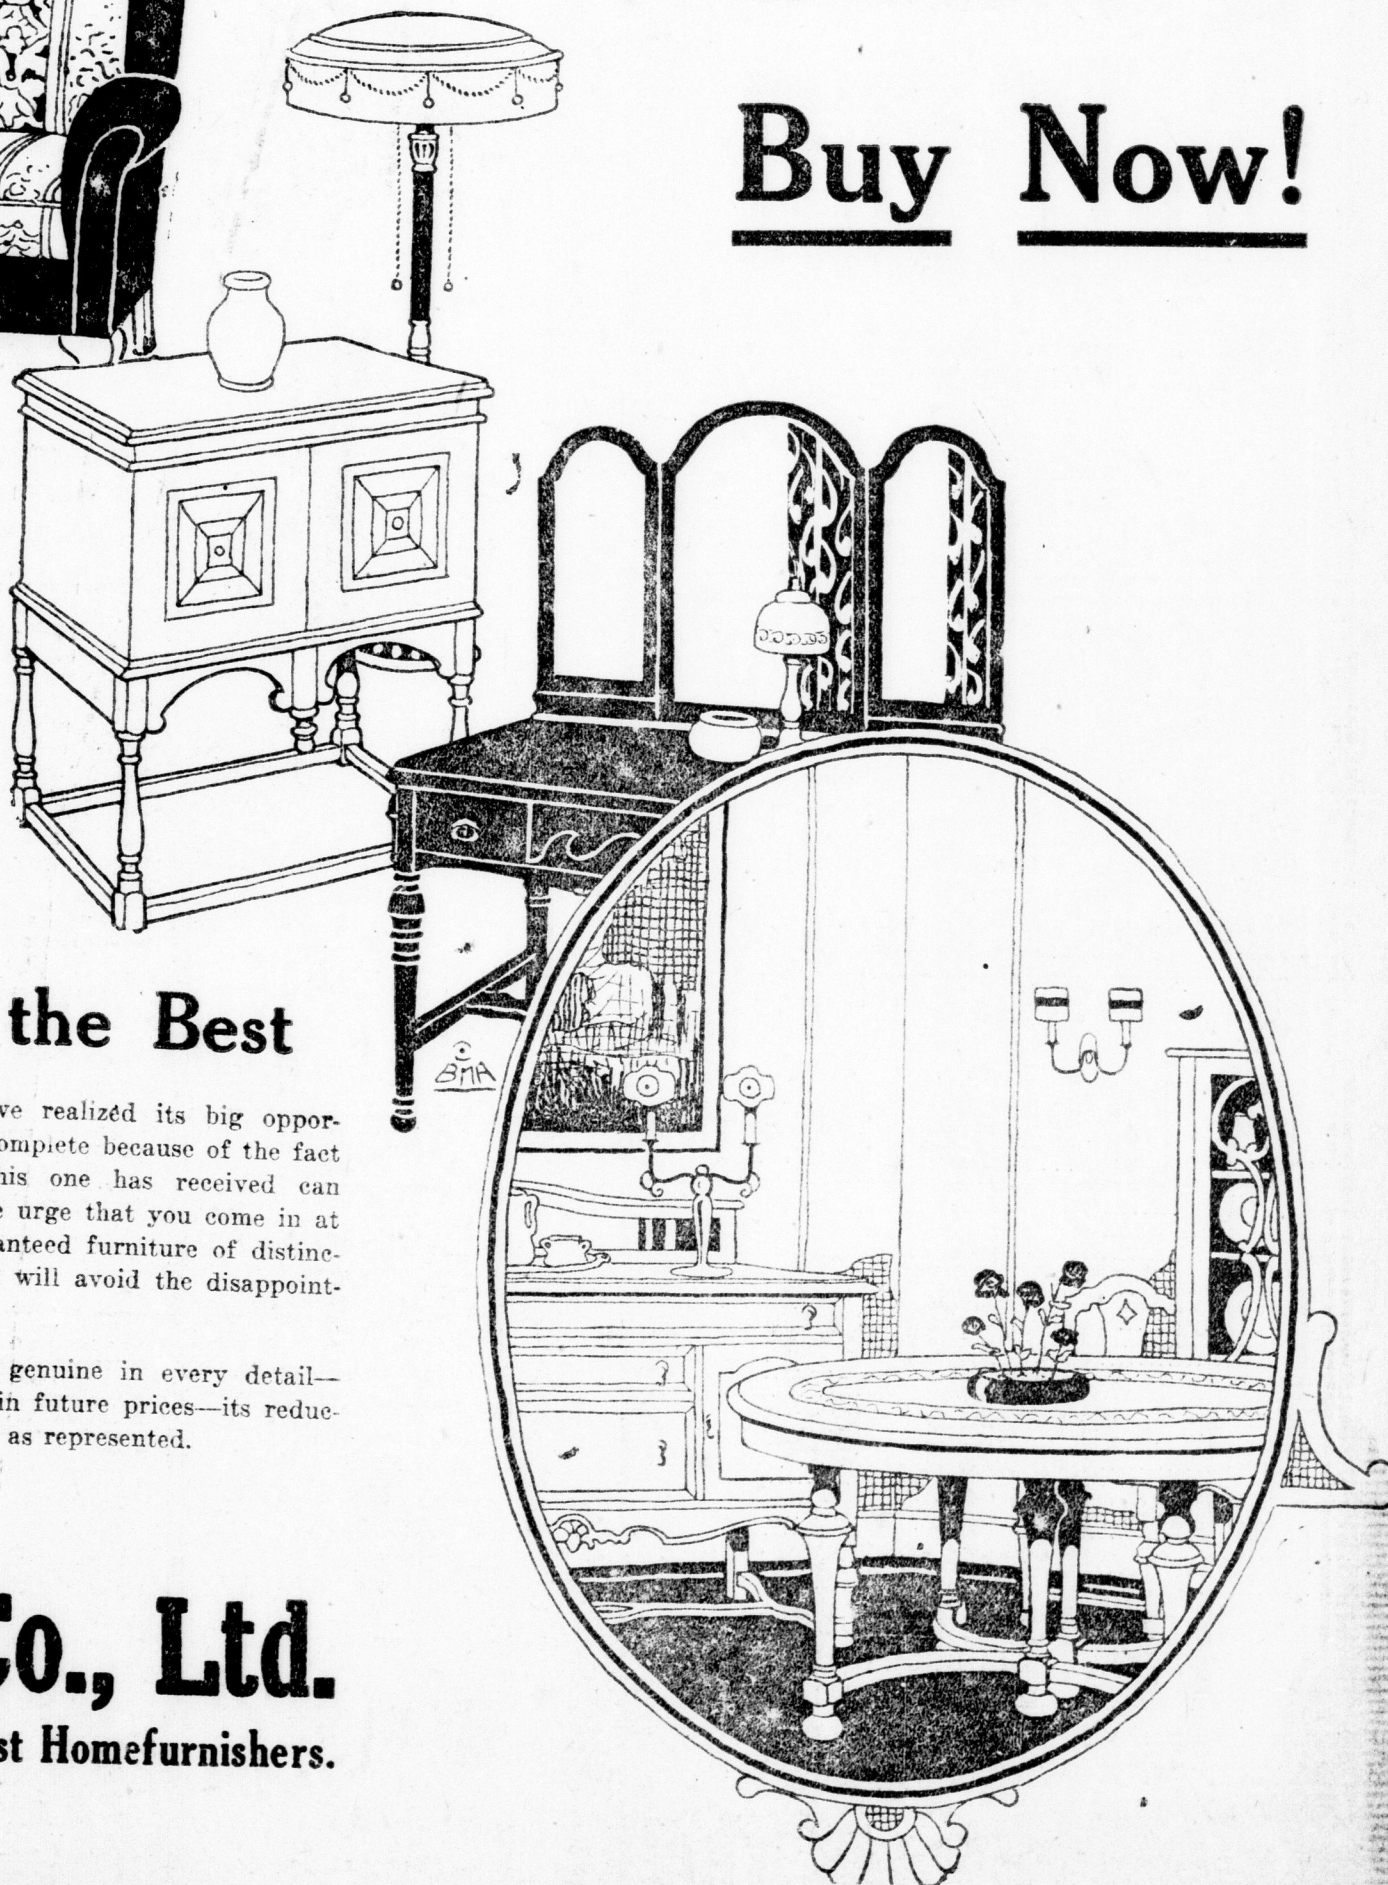

Remember, every piece of furniture is reduced. This sale is genuine in every detail—its values truly big, considering present costs and certain increases in future prices—its reductions absolutely true, from 10 to 40 per cent on every piece exactly as represented.

## BURIED AT FOREST

FOREST, Feb. 5.—The funeral of the late Daniel W. Harmer took place Tuesday afternoon, interment being in Beechwood Cemetery after a service in the Methodist Church. The remains were brought here from St. Catharines where Mr. Harmer died. Deceased resided in Forest till 1918, when he went to Winnipeg. A year ago he went to St. Catharines and bought the W. H. Merriman Wholesale Grocery Company, which he operated until his death.

Annie Atchison, wife of J. Rupp of this town, was buried yesterday in Beechwood Cemetery. Her death took place Sunday after a paralytic stroke. Deceased was born in Port Elgin in 1851, was married at Goderich in 1871, and resided there and at Kincardine till coming to Forest in 1888. Mr. Rupp, one son, William, of Sarnia, and two daughters, Mary of Toronto and Ada of Guelph, survive. The funeral services were conducted by Rev. H. D. Cameron.

## HERE'S THE SECRET OF FACIAL BEAUTY

No Matter How Disfigured With Pimples, Blisters, Blackheads or Mouldiness the Use of Stuart's Calcium Waters Works Wonders.

You will be astonished to see the wonderful change that so often takes place in just a few days after using Stuart's Calcium Waters. Pimples, blotches, liver spots, blackheads, muddy complexion and skin eruptions affect the skin because it will not get rid of the natural outlets of the body to rid itself of impurities. If you supply it with the proper material it will convert these skin poisons into a harmless substance to pass off instead of forming ugly accumulations in the skin. Stuart's Calcium Waters contain the best skin purifier known to science—Calcium Sulphide. Get a 50-cent box today of Stuart's Calcium Waters at any drug store.

## W. ELGIN LIBERALS TO MEET AT DUTTON ON TUESDAY NEXT

Judge O. C. Ermatinger Celebrated His 69th Birthday Yesterday.

ST. THOMAS, Feb. 5.—The West Elgin Liberal Association has decided to hold its annual meeting at Dutton, the centre of the constituency, on Tuesday, February 10. The meeting is being held for the election of officers and other important business, and a large attendance is anticipated. The president, J. H. Ferguson, of West Lorne, with the executive, is preparing for this important gathering, and will have a number of prominent speakers on hand, including J. C. Tolmie, M. P. P., of Windsor.

**JUDGE CELEBRATES BIRTHDAY.**  
Judge O. C. Ermatinger, junior judge of Elgin County, is today celebrating the 69th anniversary of his birth. The judge was born in St. Thomas on February 5, 1851, and before his elevation to the bench represented East Elgin in the Ontario Legislature from 1883 to 1886. Judge Ermatinger is an author of considerable note, some of his works being "The Life of Col. Talbot," "The Canadian Franchise and Election Laws," "The Talbot Regime," and others. He is also a prominent lawyer in the Anglican Church and a devotee of golf and curling.

**PURCHASES BUSINESS.**  
A. E. Smith, manager of the fish department of Jody & Clarke's store in this city, has purchased the butcher business of W. E. Lumley, Rosa street.

**PAYS DIVIDEND.**  
The first dividend since the building was erected in 1908 was paid this year by the Locomotive Engineers Company, owning and operating the Engineers' Hall on Talbot street. The dividend just declared amounts to 5 per cent. The conclusion of the war, resulting in numerous entertainments being held is said to have increased the revenue of the company.

**GOES TO LONDON.**  
Killingworth, son of Train Dispatcher Killingworth of London, who has been night operator at the C. P. R. depot here for some time, has been removed to London. His position here is being filled by Operator McKay.

## MAYOR M'BRIDE WINS ELECTION PROTEST; DISMISSED BY JUDGE

Relator of Protest Proceedings Must Pay Costs of Action.

BRANTFORD, Feb. 5.—Judge Hardy today handed down his judgment in the mayoralty protest case, dismissing both grounds on which the protest was based with costs against the relator.

**ANOTHER FIRM LOCATES.**  
The American firm of S. C. Johnson & Son, Racine, Wis., manufacturers of prepared wax and wood stains, have located in Brantford and have purchased a portion of the waterworks property near the Robbins & Myers plant. Their representative, J. Collier, was in Brantford yesterday to close the deal. Early this spring a new factory will be erected by the company with a floor space of 20,000 feet, in which it is expected 100 men will be employed before the end of the year.

THERE are two reasons for continuing this offer of a Pair of Pants ABSOLUTELY FREE with every Suit or Overcoat ordered on Saturday and Monday at \$27.00. Although our store was overcrowded, the severe weather kept many away who

wanted to take advantage of the opportunity, and second, many of those who came could not be waited upon. For that reason we repeat the wonderful offer of a Pair of Pants FREE with every Suit or Overcoat bought at our store on Saturday or Monday. In other words, whether you buy a Suit or an Overcoat you will receive a PAIR OF PANTS AS A GIFT. These Pants are worth from \$3.00 to \$12.00 a pair. Many fine pieces from our first shipment of new spring materials are included in the big range from which you have a choice.

We make this offer regardless of the loss to us, in order to keep our staff fully employed during an otherwise quiet period. It is quite an unusual opportunity which no man can afford to miss.

## ASSOCIATION FORMED BY ONT. RANCHERS

Sheer Waste To Feed Scrub Stock, Says Breeder.

TORONTO, Feb. 5.—About a dozen men who are sheep or cattle ranchers in various parts of the province of Ontario where the land is not suited to agriculture met here today and organized the Ontario Ranchers' Association, president: James Fennessy, Kenilworth, vice-president: C. M. Laidlaw, Burwash, secretary-treasurer, and the following directors: R. H. Fenelon, Nain, and W. W. Shields, Powassan. The organization meeting was held under the direction of C. M. Laidlaw, provincial ranch specialist.

C. P. Bailey of the department of agriculture expressed his sympathy with the attitude of those present in their claim that more concern should be shown for their problems by the proper authorities.

The discussion brought out the fact that prevailing lease arrangements were unsatisfactory and that the matter was not in the hands of agricultural authorities who could more sympathetically administer the statutes governing ranch leases.

**CATTLE BUSINESS PROSPERS.**  
TORONTO, Feb. 5.—The cattle business in Canada is in a very flourishing condition, according to a statement made by John Gardhouse, president of the Ontario Cattle Breeders' Association, at the annual meeting of the association in this city today. Foundation stock in all breeds, he said, was selling higher than ever before. The president declared that with feed being shown for their problems by the proper authorities.

**TO OPEN HOLSTEIN OFFICE.**  
TORONTO, Feb. 5.—With assets to the amount of \$20,260, and no liabilities, and with an increase of 499 members in the past year, bringing the total membership up to 3,200, the Canadian Holstein Breeders' Association made a five-pointing at its annual meeting today. The number of registrations for the year was reported at 14,284. An increase of 1,288 over the previous year's registrations. The activity in the Holstein trade was indicated by the statement that there were 15,253 transfers last year, 3,193 more than in 1918.

In the last year 153 cows qualified for the record of performance in connection with the production of butter. It was stated that Canadian Holsteins had been shipped from British Columbia to Australia and Hawaii and that breeders in Eastern Canada had in the last four months sold between 400 and 500 Holsteins in the United States. The association decided to spend

## STRIKE ON FRENCH RAILROADS PROBABLE

PARIS, Feb. 5.—Calling a general strike on French railroads on February 10 if union demands are not met before that time is probable as a result of a three-day meeting of the allied council of railroad workers in this city. Demands presented include incorporation in regular salaries of indemnities for the high cost of living. Increased monthly salaries to crews on freight and passenger trains, and a wage scale of 2 francs 40 centimes per hour to track walkers and shopmen in the lower grades.

## ECONOMY AND PRODUCTION WILL SOLVE PROBLEM OF EXCHANGE OPINION IN BOARDS OF TRADE

**Dominion Tax Commissioner Will Be Asked To Amend Clause in Business Profits Tax Act—High Cost of Labor a Serious Factor.**

Important topics were discussed at length at the afternoon session of the second annual convention of the Western Ontario United Boards of Trade, which opened at the Tecumseh House on Thursday. During the afternoon a resolution was unanimously carried, asking that the tax commissioner at Ottawa be interviewed by a deputation representing the boards of this part of the province for the purpose of having the clause in the business profits tax act governing borrowed capital amended.

This resolution was advanced by the Brantford Chamber of Commerce and came up at the last annual meeting of the United Boards.

George Mathews of Brantford, who moved the resolution, said that the present act was unfair. If a firm which did not have sufficient money to carry on a business borrowed money from the bank, the Government, Mr. Mathews stated, collected all that money earned, after the interest had been paid to the bank. He considered this a hardship upon the unfortunate manufacturer, who could not raise sufficient money to go into business without borrowing money from the banks.

At the present time there is no business profits tax act in existence. Like all other measures, it became null on December 31. The deputation which will visit the capital, however, will urge the tax commissioner or the minister of finance to leave out or amend this clause when the new act is drawn up.

Mr. Mathews, in reply to a comment by one delegate to the effect that there was only one side to the question, replied that the other side was that "the Government needs the money."

The resolution advanced by the Brantford Chamber of Commerce to ask the minister of finance to place a prohibitive tax upon such American magazines as refused to carry a Canadian section, in which Canadian manufacturers might advertise, was defeated by a majority of one.

Major J. K. Jordan of Brantford, in moving the resolution, said that Canadian manufacturers as a result of this prohibitive tax upon such American magazines as refused to carry a Canadian section, in which Canadian manufacturers might advertise, was defeated by a majority of one.

After U. S. Factor, Arthur Dunn of Chatham, said that the matter one which should be gone into carefully. It should be remembered that the boards of trade were

out to bring American branch factories to this country, and it was the demand for their goods, brought about by the advertising, which induced American manufacturers to establish in Canada. Some other delegates said that the advertising in some of the American magazines had a tendency to do much good in Canada, as in some cases Canadian firms paid a royalty for using the patents of American firms which did not manufacture in this country. The goods sold on the other side were identical to those made in Canada, and therefore the firms here secured advertising absolutely free.

The exchange question between Canada and the United States was discussed at length, and all speakers were of the opinion that the only solution was the exercising of economy and the increasing of production in Canada.

George Mathews of Brantford said that the American financier absolutely dominated the exchange situation. If Canadian wanted to deal in another currency they must deal in the currency of that country, and for this reason the only solution was buying the money of that country.

The exchange rate between different parts of the British Empire was more serious to Canada than the rate between here and the United States. In some instances, Mr. Mathews stated, if a Canadian firm bought silk in Japan, which he said was frequently done, it was necessary to pay the Japanese in yen, and before Canadian money could be transferred into the yen, American money must be purchased. Mr. Mathews stated that he would accept sterling from the United States only in payment for goods, and he would then insist on the firm making the payment doing so at the American valuation.

Production at Low Ebb.  
Production effort in Canada was never at its low ebb as at the present time, Mr. Mathews continued. The price of labor was a serious question which the country now faces. This country was not producing as much per hour as it produced before the war, and a better rate of exchange was not to be hoped for while this state of affairs continued.

H. Sneyd of Preston, speaking on the same subject, said that Great Britain was not worrying over the exchange rate. Canada, he said, was the best customer of the United States, and the Americans were anxious to retain our trade.

John Bridge, who presided at the meeting, did not believe the situation was so very serious to Canada. When a Canadian was charged heavy duties between the industrial worker and the hostler, Mr. Bridge said, and for that reason he spent his money at home the next day.

No Great Danger.  
W. S. Bowden of Goderich did not think there was any great danger of Canada becoming insolvent. The people had had faith that the country was worth the times what it owed, and if they could only exercise strict

economy and produce more, the situation would be cleared up.  
A resolution advanced by the Goderich Board of Trade recommending that the Ontario Government establish a commission or bureau to provide information regarding institutions or firms which were likely to establish in Canada was defeated. It was the opinion of many delegates that the reason that American firms did not tell about themselves was that they did not want to be bothered with letters from insurance and other companies of the town in which they were considering locating. Major Jordan believed that many firms did not divulge their names for this reason.

H. Sneyd thought the organization should not lean on the Government for assistance, but should be able to get out and hustle for business without the Government's assistance.  
The report of the special committee appointed to take up the question of uniform rates for hydro-electric power was filed on motion of W. S. Bowden, convener of the committee.

No action was taken on the question of bonusing industries.  
Among those who have signified their intention of being present at the sessions today, when the London City Council will be the host at a dinner in the Masonic Temple at 12:30 are large numbers of the members of Western Ontario municipal and township councils, farmers' clubs, etc., who have accepted the invitation to the united boards to be present to take part in the discussion of "Land Settlement and Immigration."

A luncheon was held at the afternoon session.  
**BAD COLD**  
LEFT HIM WITH  
**BRONCHITIS**

However slight a cold you have you should never neglect it; if you do it can have but one result. It leaves the throat or lungs, or both, affected.

Bronchitis is one of the most common affections of a neglected cold, and neglected bronchitis the most general cause of consumption.  
Dr. Wood's Norway Pine Syrup is just the remedy you require to cure the bronchitis. It does this by loosening the phlegm and mucous, and stimulates the inflamed bronchial organs, allays irritation and subdues inflammation. It soothes and heals the irritated parts and thus prevents it becoming chronic.

Mr. R. P. Sundblad, Francis, Sask., writes: "I had a very bad cold which left me with bronchitis. I tried several cough remedies and oils of all kinds, but they all failed. At last I got Dr. Wood's Norway Pine Syrup and after using two bottles I have never had a sign of bronchitis since. I therefore can heartily recommend it for coughs and colds."

Don't accept a substitute for Dr. Wood's Norway Pine Syrup. It is put up in a yellow wrapper; 3 pine trees the trade mark; price 25c and 50c. Manufactured by The T. Milburn Company, Limited, Toronto, Ont.

## BEAVERS ENTERTAIN

**Grand Secretary Pays Visit To Local Lodge.**

E. W. J. Griffiths, right worshipful grand secretary of the Canadian Order of Beavers, paid an official visit to Beaver Lodge, No. 1, in this city last night. A pleasant surprise awaited him. The London members of the order presented him with a gold watch, suitably inscribed with the emblem of the Beavers.

Following the regular meeting the members were entertained by Right Worshipful Grand Chaplain Norman E. Peel, one of the founders of the order. He made the presentation to Mr. Griffiths, who made a suitable reply. A buffet luncheon was provided.

A hearty vote of thanks was passed by the members for the manner in which they had been entertained.  
Other speakers during the evening were: E. T. Essary, past grand master; Ald. G. B. Drake, Dr. L. S. Holmes, Joseph Vivian, W. J. Cook, H. W. Wallace and W. G. R. Bartman.

## LADIES ENTERTAIN MEN.

The ladies of Christ Church last night entertained the men of the congregation at a delightful banquet, which was followed by an enjoyable sing-song. Several addresses in the "Forward Movement" were listened to with interest. The principal speaker, A. A. Ingram of St. Thomas, was introduced by Canon Gunne, who presided. R. M. McElheran, Chancey Smith, William Hayden, A. McCormick and other members of the congregation also spoke. Miss H. Gunne presided at the piano for the sing-song.

## RECITAL BY PUPILS

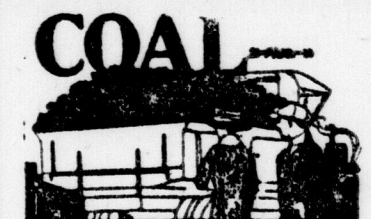

**First of Season's Series Highly Appreciated.**

Talented pupils are given a splendid opportunity to perform before the public in the advanced pupils' recital held at the Conservatory of Music several times during the year. The first one of the series was held in the Conservatory Hall last evening before a large and very appreciative audience. Some very splendid work was done by the pupils taking part and a marked improvement was shown in the work of those who have appeared previously. Much credit is due to the efficient staff

of teachers who were represented on this program. The pupils who participated were Misses Rosella Hamilton, Marie Forbes, Edna Terry, Alicia Clement, Beatie Kerr, Eva Metcalfe, Florence Dewey, Leah Kennedy, Laura Kirkwood, Nettie Jones and Meda Jones Westland and Barrows. The teachers represented were Miss Dorinda Abbott, Miss Belle Brown, Mr. Chas. Perry, Mr. Thomas Martin, Mr. F. L. Willgoose, and Mr. H. J. Brouwer.
