

The Charm of Seeing is surpassed only by that of Showing the New Things that are Arriving Daily

THERE is such a diversity of new styles for women's wear this spring that to go into detail of the various modes would be a very pleasant, though a very hard task. In past seasons it has been the general custom for manufacturers and pattern makers to exploit chiefly one design with, of course, very many adaptations to it such as the tight skirt, then the kimono sleeve, then next the set-in sleeve, then the slit skirt and so on up to the present.

As you, no doubt are aware, each changing season saw some new style literally "done-to-death." But contrary to custom this spring's La Mode has been decidedly generous. The kimono sleeve, the Raglan sleeve, the set-in sleeve and the sleeve with the long drop shoulder. The peg top skirt, a little wider at the bottom; the plain skirt, the tight skirt, and a skirt with a quaint rounded slit of about four inches in length.

Then her generosity over stepped the haid and fast limits, too, in cloths and colors. Among the newest of the latter may be found the following with their definitions. Cut out this list and keep it—it's authoritative:

- CUPIDON—Pale Salmon
- MEMPHIS—A soft bluish Nile Green
- AUROSE—Subdued Flame
- ANGELIQUE—Mustard Green
- TAMGO—Deep Orange
- VIOLETTE DE PARME—Pale Mauve
- MIEL DES ALPES—Honey of the Alps
- TORPILLE—Taupe
- CARMEL—Soft Tan
- CIGALE—Reseda
- MESSIDOR—Tuscan
- SOUPIR—Mauve, found in Sweet pea Bloom
- LIONCEAU—Golden Pheasant
- MENUET—Bloom of Noonday Sky
- MEPHISTO—Fire Brand
- GOBELIN—Blue
- LOUPILLON—Burgundy Wine

**YOUNG LADIES
WON HOCKEY**

Fair Sex Proved Superiority to Bankers—Latter Seemed Fearful of Harm
One of the most interesting games of hockey played at the Arena this season between a team composed of young ladies and the Bankers (and there) the fair sex demonstrated their superiority over their opponents by defeating them by a score of 7 to 2.
The Bankers were only allowed to use one hand although the young ladies claim now that the precaution was unnecessary as they could have defeated them if they had four hands.
The fair sex allowed their opponents to score twice in the early stages of the game but after that the game was never in doubt.
The game was marred to some extent by the rough tactics of the ladies and as a result, although it was necessary to summon an ambulance, an unprejudiced onlooker could see that owing to the fear that seemed prevalent among the young men, that they could not do themselves justice.
There is a rumor to the effect that the young ladies are awaiting the outcome of the O. H. A. games before challenging the winners for the championship of Ontario.
There is also a rumor that the winning team cannot qualify under the residence rule.
The teams lined up (part of the time) as follows:—
Ladies: Miss S. Blackburn, Goal; Miss S. Blackburn, Right Defence; T. Fennel, Left Defence; C. R. Burrows, Rover; Mr. Small, Center; A. Comings, Right Wing; R. White, Left Wing; B. K. Allen, P. G. Geen.

**15TH OFFICERS
VICTORIOUS**

Locals Won Group in Indoor Baseball Last Evening.
The 15th regiment officers won their group last evening by defeating the 41st Regt. of Brockville by a score of 32-20 in the final group game. The 15th officers lost only 1 game in the group, viz. to the 14th Regt. at Kingston.
The Brockville nine strengthened their team since the game in Brockville and came up determined to win but from start to finish the game was never in doubt, the local men scoring seven runs in the first innings and were never headed.
R. D. Ponton the local third baseman had a bad spill while running to first but fortunately was not seriously hurt and finished the game.
Col. Marsh umpired behind the plate and Major Barragar on the bases and both gave perfect satisfaction.
Belleville next plays Ottawa and the winners play Toronto for the championship of Ontario.
After the game the Brockville officers were entertained by the 15th officers and left for home on the 12.25 train.

FAVORS DEEPENING THE ST. LAWRENCE CANALS

The Toronto News, of which Sir John Willison is Editor-in-chief, editorially states—
"At a meeting of the Port Hope Council the other day, Mr. J. A. Culverwell presented strong arguments in favor of having the St. Lawrence Canal deepened while the new Welland Canal is being built. In his opinion it will be disastrous to Canada if time is lost in securing a deep water channel all the way from the head of the Great Lakes to the City of Montreal. The danger is that the Erie Canal from Buffalo across New York State to the Atlantic will draw off increasing quantities of Canadian grain unless we have a superior alternative route of our own."
In conclusion Mr. Culverwell said: "If the Government feels that the country cannot stand the expense, it would not take me a very long time to interest prominent gentlemen in Toronto, Hamilton and Montreal in the project. We could build the canal ourselves and get Government assistance similar to that given the railways, in return for which the Government could regulate the rates so we could not utilize them too much for our own benefit."
What the News recognizes is the enormous advantage that would accrue to Toronto and other lake ports and to all interior Canada from the deepening of the St. Lawrence route, we should not like to see the route given over to the control of private capitalists, however worthy Canadians have already done enough for transportation companies on land and future public expenditures for public-owned enterprises. This view, moreover, is that held by an ever-increasing number of Canadians. The Federal and Provincial Treasuries have played the role of generous

**LOCAL PEOPLE
IN MIX-UP**

Some Goods Stolen From Napanee Drug Store Believed to be in Belleville.
Chief Graham of Napanee is in the city today in connection with charges of receiving stolen goods preferred against three citizens. It appears that Hooper's drug store in Napanee was robbed on Jan. 8th of this year and about \$300 worth of goods stolen. Chief Graham was notified of the affair and conducted an investigation. Traces of some of the stolen articles were found and a supposed clue led to Belleville.
The story appears to be that the man who stole the drug store articles came to Belleville representing himself to be a traveller. He met a young man and said he had lost his job and wished to dispose of his samples. The young man referred him to a local salesman who finally purchased the goods.
The goods which are believed to be some of those stolen at Napanee are valued at about \$225.
The young man who was first met and the salesman and his partner were charged in police court this morning with receiving goods knowing the same to have been stolen. As the crown was not ready to proceed, the cases were adjourned a week.
The first young man was given his liberty on his own recognizance and bail was set for the other two at two hundred dollars each.
Messrs. E. D. O'Flynn and W. Carnew appeared for the accused.

WILL PLAY IN BELLEVILLE

Frontenacs and Ottawa Juniors in Sudden Death Game.
Kingston, Feb. 16.—The O. H. A. junior Frontenacs from Ottawa here this evening by a score of six to three, thus being the two teams on the round. The half time score was four to two in favor of the winners. The latter team had a lead of three goals from the game in Ottawa on Friday evening last. The attendance at the game was about eighteen hundred. The line up:—
Ottawa Goal J. Mills
Right Defence J. Goddard
Left Defence J. Goddard
Rover T. Angrove
Center N. Milan
Left Wing R. Milan
Right Wing N. Derry
W. Cook
Belleville has been chosen for the sudden death game. The event will take place at the Arena on Thursday night, February 19th.

Valentine Tea

The home of Mrs. Balls, Commercial Street was a scene of beauty on Saturday afternoon and evening, when a valentine tea, was held under the auspices of the West Belleville Women's Institute. The rooms were prettily decorated with cards and hearts and red tulips. Mrs. James Hurst, president of the Institute and Mrs. Balls, convener of the playgrounds committee received the guests.
The Misses Post, Woodley, Vandervoort, Byers, Blackburn and Bonisteel served Mrs. G. S. Sharpe, post tea and Mrs. James Dyer cut the loaves in the afternoon, and Mesdames Post Schryver, and Vandervoort poured tea and cut loaves in the evening.
The proceeds which were in aid of the playgrounds fund amounted to \$40.

BELLEVILLE BOWLING LEAGUE

On Monday evening at the Y. M. C. A. Bowling Alleys, the Shoemen were defeated by the Steel Co. Their respective scores were:—Steel Co. 198; Shoemen 109, thus leaving the former the victors by a margin of 89 pins. The two highest averages were Mr. Ivo 144, and Mr. Smith 134.
The ten pin prize of last week was awarded to Mr. H. Asseltine with a score of 214. The cocked-hat prize went to W. Ross his score being 90.
The Bowling Alleys have just secured a new set of candle-pins. The unusual feature in this game is due to the fact that dead pins are not removed from the alleys during the play. There are ten pins in the set and three balls are allowed for each frame the highest possible score per string is 300.
Come along and try your hand with eye. The alleys are open to the public from 3.30 to 10 p.m. The prices are reasonable, and the fun greatly exceeds the cost.

Deaths Outside of the City

EDWARD OSTRAENDER

Edward Ostrander died at the home of Mrs. Murray, on Wednesday the 4th Feb. aged 90 years. He had been failing for the last four years and had lost his sight but could converse fluently till the last. A large number of friends and relations gathered at the home to pay a last tribute to a loving and good neighbor. He has lived in Murray for over fifty years having moved from Prince Edward where a large number of relations still live. He leaves to mourn his loss his widow Richard and Charles and Cora at home. One daughter Mrs. Shutes, of Belleville, and five grand children of which Mrs. Robertson of Belleville, and Mrs. A. G. Jones of Ottawa, were all present at the funeral—Trenton Courier.

MRS. JOHANNA MITCHELL

Mrs. Johanna Mitchell died on Saturday at Foxboro at the ripe age of 85 years and four months. Old age was the cause of her decease. She was a widow and member of the Methodist church.

No man or woman should hobble painfully because of corns when a certain relief is at hand as Hollis way's Corn Cure

RIVER VALLEY NOTES

River Valley, Mr. and Mrs. F. J. Smith entertained a number of their friends on Thursday night last. Getting in ice is the order of the day.

Our school teacher, Mr. Thompson, who has been attending high school at Madoc, is now attending Stirling school.

Messrs. Roy and Ross both spent a very pleasant week at Redfernville. Mr. George Heesman has been on the sick list.

A number of young people from here enjoyed the party at Mr. W. Scott's on Tuesday night. Our Sunday school is progressing favorably with Mr. Heesman as superintendent.

Mr. Stanley Irwin who is attending college at Belleville spent the week-end under the parental roof.

Artillery Dance

Invitations have been issued for a Military Dance to be given under the auspices of the Sergeants of the Artillery tomorrow evening in Johnson's Academy, Alberta Block.

The bowels must be healthy—in most ailments the first care of the medical man is to see that the bowels are open and fully perform their functions. Parmentier's Vegetable Pills are so compounded that certain ingredients act on the bowels solely and they are the very best medicine available to produce healthy action of the bowels. Indeed there is no other specific so efficacious in keeping the digestive organs in healthy action.

A word to the wise is sometimes sufficient to make yourself disliked.

ONE DEATH EVERY 4 HOURS

"Consumption" the Cause.

Six people die every day in Ontario from Tuberculosis—at the rate of one person every four hours—a total of over 2300 deaths every year—equivalent to the wiping out and loss to the community of a good sized town.

An appalling loss of life. The pity is that this continual sacrifice is unnecessary. These lives, or most of them, might be saved.

Pioneer work in the Crusade against consumption has been done by the National Sanitarium Association. The hospitals at Muskoka and Weston are today standing evidence of magnificent achievements of the Association.

One branch of the Association work is free illustrated lectures with 75 lantern views in delivered by Mr. J. B. Watson, Field Secretary of the Association.

This lecture will be given on Sunday evening 22nd inst. at 8 o'clock in the City Hall, Belleville, Ont. A collection will be taken at the close in aid of the Muskoka Free Hospital for Consumptives.

The amount of information which Mr. Watson was able to convey to his hearers in a short time was marvelous. His style of delivery was excellent.

Those who heard Mr. Watson's lecture were interested, informed, and pleased.

The wonderful lecturer gave most valuable information in a manner most thoroughly entertaining.

"Admirably practical and instructive."

"A speaker of unusual ability."

"A most thrilling lecturer."

Such is the chorus of praise, without any note of dissent, which has greeted Mr. Watson's lecture during the past two years.

The lecture explains in a simple, interesting, and complete way exactly what the disease is, how to avoid it, and how to treat it.

Parents especially should know how to protect themselves and their children. Every private individual—man, woman, and child—is in danger and should know how to combat it.

It is not too much to say that this lecture has been the means of saving many lives. It answers questions everybody is asking. It is simplicity itself—a child can understand.

To attend such a lecture is a privilege. We heartily commend it to our readers.

An Easy Pill to Take—Some persons have reluctance to pills because of their nauseating taste. Parmentier's Vegetable Pills are so prepared as to make them agreeable to the most fastidious. The most delicate can take them without feeling the revulsion that follows the taking of ordinary pills. This is the reason for the popularity of these celebrated pills, but the main reason is their high tonical quality as a medicine for the stomach.

DEATHS.

MEAGHER—In Belleville on Feb. 16th, 1914, Margaret Meagher, aged 92 years.

Living on hope is like living on wind—a good way to get full, but a poor way to get fat.

Deaths in the City

MRS. MARGARET MEAGHER

From Tuesday's Daily The death occurred at her home on Charlotte street Monday morning of Mrs. Margaret Meagher at a great age. She was born in Ireland and was a Roman Catholic in religion. She was the widow of the late Michael Mitchell. Two sons and two daughters survive. Those at Belleville; William of Rochester; Miss Mary A., and Miss Sarah E., of Belleville.

ROBERT O'HAGAN

Robert O'Hagan passed away on Sunday at the residence of his daughter, Mrs. (Dr.) Dolan, Victoria Ave. He was born in Ireland 90 years ago. He came to Canada as a young man and settled in Picton, where he spent most of his time. For the past fourteen years he has been a resident of Belleville. Seven years ago Mrs. O'Hagan died. Deceased was a member of St. Michael's church. He had been in poor health for some time.

Mourning his loss are two sons and three daughters, Robert of Lethbridge, Alta., Harry of Bliss, N.Y., Mrs. F. O'Leary, Tacoma, Mrs. George Teale and Mrs. (Dr.) J. E. Dolan of this city. He also leaves three brothers, all soldiers, Capt. Hugh and Capt. John of Tonawanda, N.Y., and Capt. Dan of Picton, Mrs. D. Goodwin of Waspos as a sister.

The funeral of the late William Ryerson Dempsey, ex-M.P.P. of Prince Edward was held on Monday afternoon. The obsequies took place from the home of Mrs. (Dr.) Dolan, Victoria Ave. The Rev. Mr. Leigh conducted service at the home and in the church. Many beautiful floral designs rested upon the casket and large crowds from all parts of the surrounding country and the neighboring counties followed the hearse. The remains were interred at Albury in the family plot. The bearers were Messrs. Geo. W. Weiss, Earl Weiss, W. R. McLaughlin, J. P. Dempsey and D. R. Dempsey.

HAD KNEE CAP FRACTURED

Mr. Robt. Covey Lakeport, had fracture to sustain a compound fracture of the knee cap just Monday. He was drawing water on sleighs which slipped around causing one of the horses to step on the tongue and break it, allowing the whiplashes to strike the heels of the spirited team and they ran away. Mr. Covey was then taken to Belleville hospital. The horses were stopped at a short distance and came through unhurt.

6th CON. SIDNEY

6th Con. Sidney, Feb. 17.—A delightful party from River Valley and Stirling, spent Monday evening at Mr. Walter Scott's.

Mr. and Mrs. J. A. Lott spent Tuesday and Wednesday at the home of Mr. Stephen Gainsford, Weolcr.

Mr. M. Sine has purchased a fine team of horses.

The effects of the earthquake were felt in this vicinity.

Members from this way attended the High School concert at Stirling on Friday night.

Mr. Geo. Bell, of the 6th Line, visited in this place on Sunday.

Mr. and Mrs. Morley Scott were guests at Mr. Edgar Shorey's, Wallbridge, on Sunday.

Everybody has had lots of trouble—and most of it never happened.

FUNERALS.

From Tuesday's Daily The funeral of the late Mrs. Clinton Comins was held on Sunday at her home near Plainfield. Rev. Mr. Ward of the Methodist church conducted a solemn service. The choir sang favorite hymns at the residence and Miss Moore rendered "Rock of Ages." The remains were taken to Victoria cemetery vault, the funeral being one of the largest in the district for a long time. Many beautiful floral tributes from the bereaved and the system in which the late Mrs. Comins had been held.

The bearers were Messrs. H. Daloe, O. N. Daloe, C. Harvey, F. Hall, R. Hodgins and J. W. Hamilton.

The funeral of the late Mrs. Anna Almeta Taylor, widow of the late Levi C. Taylor, took place on Saturday afternoon from the residence of Mr. and Mrs. George Moxam, Commercial street. Service was held in the presence of many friends by the Rev. H. N. Adams of this city.

The bearers were Messrs. Frank Fitzpatrick, George Taylor and C. Taylor, grandsons and Mr. Donald Gunn, who married a granddaughter of the deceased.

The following floral tributes were received: "Pillow—Our Mother"—Mr. and Mrs. Geo. Moxam.

Gates Ajar—Mr. G. Taylor

Wreath—Mr. Wm. Lafferty

Sprays—Mrs. William Richardson, Toronto, Mrs. Wm. Fitzpatrick and daughter; Miss Pearl Moxam.

The remains were taken to Belleville cemetery.

The funeral of the late William Ryerson Dempsey, ex-M.P.P. of Prince Edward was held on Monday afternoon. The obsequies took place from the home of Mrs. (Dr.) Dolan, Victoria Ave. The Rev. Mr. Leigh conducted service at the home and in the church. Many beautiful floral designs rested upon the casket and large crowds from all parts of the surrounding country and the neighboring counties followed the hearse. The remains were interred at Albury in the family plot. The bearers were Messrs. Geo. W. Weiss, Earl Weiss, W. R. McLaughlin, J. P. Dempsey and D. R. Dempsey.

The obsequies of the late Robert O'Hagan were held this morning, the service proceeding from the residence of his daughter, Mrs. (Dr.) Dolan, at St. Michael's Roman Catholic Church. A large number of mass cards rested on the casket. The solemn requiem mass was celebrated by Rev. Father Killen was sung in the presence of a great concourse of friends of the deceased. The interment was made at St. James Cemetery Rev. Fr. O'Neil officiating at the grave. The bearers were Messrs. Hurley, McNeil, Copeland, Paterson, Tiedale, and O'Neil.

Dust Causes Asthma.—Even a little speck too small to see will lead to agonies which no words can describe. The walls of the breathing tubes contract and it seems as if the very life must pass from this country. Dr. D. Kellogg's Asthma Remedy brings the user to perfect rest and health. It relieves the passages and normal breathing is firmly established again. The effect is instantaneous, repeated annually to prove its effectiveness.

WEDDING BELLS.

ROGERS-TWEDDIE

On Wednesday evening February 11th a very pretty home wedding was solemnized at the home of Mrs. John Tweddie when her youngest daughter, Edna Pearl, was united in marriage to Robert E. Rodgers of Tate, Sask., son of Mr. and Mrs. R. Rodgers of Stirling. Promptly at eight o'clock to the strains of Mendelssohn's wedding march played by Miss Helena Gordanier, niece of the groom, the bridal party entered the drawing room and took their places beneath a beautiful flowered bell and arch of ferns and evergreens. The bride was given away by her brother, Mr. Harry Tweedie, and looked charming in a dress of crepe de chene with trimmings of Duchess satin and shadow lace. She wore the usual veil and orange blossoms. Little Miss Helen Loucks, niece of the bride, acted as flower girl and looked very pretty in a dress of pink silk with white ribbons. The bride's flowers were a large bouquet of cream roses, white carnations and lilies of the valley. The flower girl carried a basket of pink and white carnations and lilies of the valley, in which was concealed the ring. The Rev. Mr. Kemp of Georgetown performed the ceremony at the close of which Miss Gordanier sang "I Love You Truly." After the usual congratulations the guests numbering about thirty, repaired to the dining-room, which was tastefully decorated with flowers and evergreens. The high esteem in which the bride was held was shown by the many beautiful gifts she received. The groom's gift to the bride was a long ray, the flower girl a gold band bracelet and to the organist a gold ring with pearl setting. The happy couple left amid showers of rice and confetti for the groom's home in Stirling. The bride traveled in a dress of blue serge wearing the groom's gift and a blue satin hat with white willow plume. A reception was given them by the groom's parents on Friday evening. After visiting friends for a month Mr. and Mrs. Rodgers will return to the groom's home in the West.

Miller's Worm Powders act mildly and without injury to the child, and there can be no doubt of their deadly effect upon worms. They have been in successful use for a long time and are recognized as a leading preparation for the purpose. They have proved their power in numerous cases and have given relief to thousands of children, who, but for the good offices of this superior compound, would have con-

Music and Drama

"A Butterfly on the Wheel"

The success of two continents, "A Butterfly on the Wheel" is announced for an engagement at the Griffin Opera House.

This noteworthy play upon divorce was first produced in London where it ran for an entire season and was then transplanted to New York where it duplicated its phenomenal hit. The reason why they liked it in both countries was the masterful treatment of a very delicate subject which touches the home life and the duties of a wife in relation to her marriage vows—this theme is dealt with most frankly and in such a direct manner that there need be no hesitancy in realizing that a great moral lesson that is taught all womankind. A young featherbrained wife permits herself to indulge in a very questionable conduct with a friend of the husband and as a result sends a little too far which gives a second that brings on an action for divorce.

The wife realizes when too late how innocent flirtation may easily be construed into a most serious behaviour and succumbs under the searching examination of the prosecuting attorney, who does not hesitate to impute and twist her evidence into plausible actions of guilt to her own undoing.

It is this scene that is the climax of the play and creates a great sensation from the author's masterly treatment of it.

By all means see this great play and enjoy its moving story. Plan now at Doyle's drug store. Prices 25c to \$1.00.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are cured by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Take Hall's Family Pill for constipation.

BRIDGE AT EASTERN END OF QUINTE BAY WANTED

East Hastings Conservatives Will Ask Governments to Build One.

Deseronto, February 17.—The annual meeting of the East Hastings Conservative Association was held here Friday last in Mayor's Opera House. The President, Mr. G. M. Campbell, occupied the chair. There was a large attendance, and addresses were given by S. Grant, M.P.P., A. A. Richardson, ex-M.P.P., W. E. Tamman, A. McLaughlin, Henry Devas, Jas. Hill and Dr. Newton. Telegrams of regret for unavoidable absence were received from W. B. Northrup, M.P., J. W. Johnson, M.P.P., and Thomas Carswell, M.P.P., who were to address the meeting.

Several resolutions were passed, on petitioning the Dominion and Provincial Governments to construct a bridge across the Bay of Quinte joining the eastern points of Prince Edward to Hastings. A resolution of condolence was also passed expressing regret at the death of W. P. Hudson, ex-M.P.P., and Richard Bayburn, late members of the association.

The officers elected were: President W. E. Tamman; Vice-President, Clarence Goodman; Secretary, Geo. Stokes; Treasurer, W. J. Malley.

JOINTS QUIT ACHING; NERVILINE DRIVES SORENESS AWAY.

No More Stiffness, Pain or Misery In Your Back or Side or Limbs.

Wonderful "Nerviline" is the Remedy

A man's low pain relief—just a bout is ordinary liniment—just a bout is three times more powerful, more penetrating, more pain-removing than any thick, oily or anesthetic liniment. Nerviline fairly cuts up the pain and stiffness in chronic rheumatic joints. It is quick relief to tense throbbing pains, and never burns or even stains the skin.

"Rheumatism kept my joints swollen and sore for ten years. My right knee joint was often so painful to allow me to walk. In this crippled-tortured condition I found Nerviline a blessing. Its warm soothing action brought relief I had given up hoping for. I rubbed on quantities of Nerviline and improved steadily. I also took Ferronase at meal time in order to purify and enrich my blood. I am today well and can recommend my treatment most conscientiously." (Signed) C. PARKS.

Prince Albert

Not an ache or pain in the muscles or joints that Nerviline won't cure. It's wonderful for lumbago and sciatica; for neuralgia, stiff neck, earache and toothache. Nerviline is simply a wonder. Best family liniment known and largely used for the past forty years. Sold by druggists. Try large family size bottle 50c. Small trial size 25c. Refuse a substitute. Take only "Nerviline."

The funeral will take place from her late residence, 35 Charlotte St. on Wednesday, Feb. 18th, 1914, at 9:30 a.m. sharp to St. Michael's Church, Mass at 9 a.m. Interment in St. James' cemetery.

BELLEVILLE MAN KILLED IN WEST

Former Dentist, Harry Thompson, Victim of Belleville Train Wreck.

Calgary, Alta., Feb. 16.—What is alleged by the C.P.R. officials to be the work of train-wreckers caused a railroad smash-up at Belleville at 2.10 this morning when two engines were derailed, with the result that a man was killed. A double-header freight train west-bound, ran into an open switch at a mine spur. The engines jumped the rails and crashed into the ditch, both turning completely over. Engineer Harry Thompson, formerly of Belleville, Ont. who lived at MacLeod, and was well known among trainmen in Calgary, was thrown under one of the engines and killed.

Engineer Harry Thompson was once a dentist in Belleville and went west where he entered railroading. His father, Matthew Thompson was a former manager of the Belleville Waterworks Department.

MOTORCYCLE CLUB ORGANISED

A very enthusiastic and well attended meeting was held at Hotel Gilbert on Monday night, February 9th. W. W. Self, President of the C. M. A. organized the Trenton Motorcycle Club. The following officers were elected—

President—Hugh McQuillan
Vice Pres.—J. F. Anderson
Secy.—Bob Russell
Treas.—C. A. Herington
Captain—N. O. Reeson
Lieut.—W. F. Jones
Ext. Com.—J. H. Jones, W. O. Waldorf.
Members—D. A. Phillips, J. F. Ryan, Carl Reed, J. Gregson, J. Whitney, Hon. Men.—G. D. Kiser.
A constitution and by-laws were adopted and meetings are to be held on the second and fourth Wednesdays in each month.
After the business had been transacted they repaired to Robt. Robertson's where a splendid supper was served to which all present did ample justice. Speeches were given by Carl Spencer, Past Pres. of C. M. A. and W. Self.—Courier.

Has Resigned Position

Mr. William Thompson has in accordance with the spirit of accommodation left by himself to the city court, off the city's service as city clerk and is returning to insurance work. Mr. Thompson had asked for an increase in salary, but no action was taken.

WHAT SORT OF POLITICS INTERESTS ONTARIO WOMEN

Ontario women are becoming more and more interested in politics—of that there is no doubt. Indeed it would be strange if the women of this province were not influenced by that spirit of "awakening" which is moving the women all over the world. An interesting question is "in what sort of politics are the women of Ontario so much interested?"
There are several sources to which one could go for an answer but none better than the Women's Liberal Association which are beginning to spring up throughout the province. Clubs are already established in Toronto and Windsor, and organizations are planned in Hamilton, Brantford and other points. The movement shows signs of becoming general in a short time.
The Toronto Club, not yet a year old, has over 300 members enrolled. What are these women interested in? What do they talk about? Is it theoretical politics such as the ancient history of Liberalism or historical or philosophical reasons why Liberalism is different from and according to the Liberal point of view, better than Conservatism, or is it present day practical problems affecting women and the homes of the people and which have to be settled at least partially by legislative enactment?
The answer is that undoubtedly the second line of subjects is the more popular and arouses the more spontaneous interest. The historical and theoretical aspects of politics and of

ADDRESS ON "IMPERIALISM AND THE EMPIRE"

Eloquent and Logical Address on this Great National Sentiment by E. O. Platt, B.A., M.D., at the Hastings Liberal Club.

Last night the Hastings Liberal Club heard a logical, convincing and eloquent address from E. O. Platt, B.A., M.D., on the subject of "Imperialism and the Empire." Dr. Platt approached his subject from the standpoint of a scholar and thinker, but he treated it in a manner that interested every listener. Applause was frequent, hearty and spontaneous. A number of ladies were in attendance and seemed to enjoy the proceedings quite as heartily as their male escorts.

In the absence of the president, Mr. E. E. Flynn Dr. J. Albert Faulkner, B.A., of Sudburo, was asked to take the chair. The chairman spoke briefly before introducing the speaker of the evening. He complimented the ladies on the interest they were manifesting and commented upon the good influence the better sex had exercised in shaping the destinies of the British nation. He outlined the Liberal conception of patriotism as one of deeds rather than words, and as shown by service to the throne and the empire by active work rather than empty profession.

Dr. Platt on coming forward was greeted with hearty cheers. He was not going to give an address on politics or any political subject he said. What was patriotism, he asked. What is this universal passion of mankind? It had caused the loss of more lives than any other sentiment. It had also produced deeds of the most unselfish heroism and devotion. It had inspired art and literature. The patriot is a man whose ruling passion is love of his country. It is that spirit that prompts men to obey the laws and respect the institutions of a country and in the hour of danger to offer his life if necessary as a sacrifice.

The speaker then illustrated his viewpoint by referring to a sight he had witnessed when a contingent of British soldiers was leaving for South Africa in the first Boer war. Dr. Platt then traced the origin and rise of patriotism as a national sentiment. The first great evidence that we had of patriotism in history was when the small and comparatively insignificant Greek nation had arisen in 490 B.C. and defeated the immense forces of Persia at the battle of Marathon. The same spirit animated the Romans during the rise of the empire.

In England patriotism first became a homogenous national force in the Tudor period and particularly during the reign of Elizabeth and after the defeat of the Spanish Armada. This had been a great force in stimulating art and in particular literature. It also came to the rise of patriotism in Canada, giving due credit to William Lyon Mackenzie and his band of co-patriots who had resisted the tyranny of the Family Compact. The greatest patriot that Canada

had known was a woman, Laura Secord.
Dr. Platt in his concluding remarks drew an eloquent picture of the British Empire with patriotism and freedom as unifying forces.
At the close of his address the speaker was heartily congratulated upon his magnificent address and given an enthusiastic vote of thanks.
Mr. King contributed greatly to the enjoyment of the evening by rendering two solos—"Waken up John Bull" and "I'll not Forget Belleville."

WANT SUBWAY

Belleville's mayor and council are making another effort to secure a subway under the C. E. R. and G. T. R. tracks on Front Street South.
Last evening a special meeting was held at which a majority was present and secured Mayor Willis will go to Ottawa before Friday to interview the Hon. Frank Cochrane, Minister of Railways and Canals relative to this matter.
An expert engineer who has had much dealing with matters pertaining to railways will be employed to see if it is not feasible to carry out the plan proposed by Mr. J. W. Evans engineer, to have a subway on Front Street.

CARNIVAL AT THE ARENA

Some Fine Costumes—Some Were Unique—The Judges.

The arena skating rink was the scene of the annual dress carnival last evening. Although the number in fancy costume was not large, the garments worn would have done credit to a carnival in a large city. The good music and the angel attending the greatest attention to these being unique on the Belleville rink. The variety was good, and the judges Mayor Willis, Aldermen Panter and Wallbridge had their time to decide upon the winners. After much deliberation the prizes were awarded as follows—

- 1st Lady \$5 gold—Miss Margaret Barton of Madoc, as Angel.
- 1st Gent, \$5 gold—R. W. Boyce as Mercury.
- 2nd Lady \$2.50 cash—Mrs. J. G. Galoway as Folly.
- 2nd Gent, \$2.50 cash—Chas. Skinner as Harem Girl.
- Best Girl under 15, \$2.50 cash—Miss Duesberry as Egyptian Queen.
- Best Boy under 15—\$2.50 cash—W. Mackie as Boy Scout.

CAMPBELLFORD 4 BRIDGE ST. 2

Last night the local boys gave the winners of Trent Valley League, the hardest contest they have had this season. The game was fast and short from start to finish. Belleville scored the first goal on a neat combination play made by Box, Reid and Robin, but the Weston Brothers soon struck their stride and evaded up. At half time the score stood 3 to 1 in favor of the home team.
In the second half the visitors shifted their line-up which proved very effective, although Campbellford scored the first on a long shot from centre line. Nevertheless, our boys hung on and Ketcheson and Box soon worked in on an end to end rush. The score indicates the play as the game was always in doubt, both goal-tenders turning shot after shot aside that looked like sure goals. "Soup" Goyer acted as referee and handled the game in a most satisfactory manner. A return game will be played here this coming Friday night at 8.15.

Horse on the Run.

One of the liveliest runaways in Belleville in a long time occurred at six o'clock last evening. A horse while his stable on the west side of the river, was attached to a cutter on East Bridge Street and started off between Pinnacle Street and Coleman. It was a regular amble, chorus one heard. Fortunately the road was clear and the animal kept his own side of the road. The clouds of snow flew up around as the equine rattled his shoes and steel nails against the dashboard. On the lower bridge the animal passed a loaded alchey with safety and at Coleman Street corner slipped and was captured. The horse was running to Snider's livery.

Mr. and Mrs. Henry Beaman, 17 Station street, have returned home after an extended visit to Liverpool and Birmingham. They report a very rough passage on the return trip.
It is better to know nothing than to know what is not so.

SACRED CONCERT AT BRIDGE ST.

Heavy Compositions Rendered With Much Brilliance by Choir and Soloists Last Evening.

From Tuesday's Daily
The sacred concert in Bridge Street Methodist Church last evening drew a very large and appreciative audience. Belleville musical talent was heard at best and a standard of excellence was reached which is rarely equalled in this music-loving town. The program was selected from the works of master composers including Rodney, Handel, Haydn and Maunder. The concert was in charge of the choir and Mr. H. Cameron, the assisting artists being Miss Mayel Stork, Soprano; Miss Eva LaVie, Soprano; Mr. H. Ruthven McDonald, Toronto, Baritone; Mr. Maurice Lavoie, Bass; Mr. Fred Burke, Bass; Miss Laura D. LaVie and Miss Jessie Elliott, Accompanists.

Mr. Ruthven McDonald was the principal artist of the evening. He sang "The Part is the Lord's" by Lynde and "An encore" "That Ever-story of Olden" The fullest powers of his rich, flexible, baritone voice and his interpretative ability appeared in recitative and aria: "Now Heaven in Fullest Glory Shone" from Haydn's musical comedy—"An Old Sweet Heart of Mine"—which was a pleasing variation.

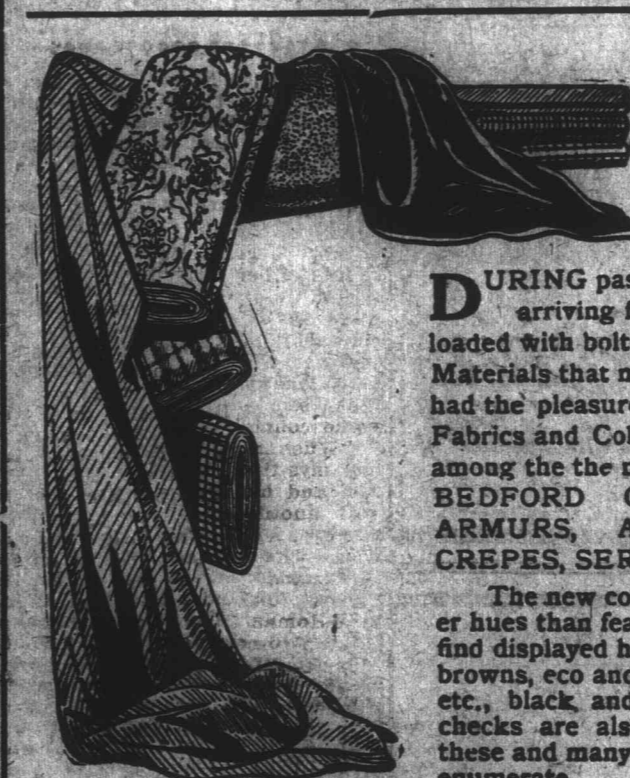

The quartet "Calvary" by Rodney was sung by Miss Margaret Hughes, Miss Gertrude Price, Mr. R. J. F. Staples, and Mr. E. L. Barrill in masterly style.
The choir rendered from Handel's Messiah, the anthem "Lift Up Your Heads."
Mr. Fred Burke's deep rich notes were heard in "Rock of Ages" by Remick.

Miss Mayel Stork sang the favorite "Ninety and Nine" in her usual peerless style.
In the choral rendering of Turner's "At Even Ere the Sun was Set" Miss H. Hughes took the solo part.
This concluded the first part of the program. The second part was given to J. H. Maunder's sacred cantata "Song of Thanksgiving" the solo work being taken by Miss M. Hughes, soprano; Miss G. Price, contralto; Mr. R. J. F. Staples, tenor, and Mr. McDonald, baritone.

The heavy demands of this sustained composition were met well by the choir and the soloists.
Chorus—"O Let us Sing"—Soprano and Tenor Duet.
Chorus—"Great is the Lord"—Soprano Solo.
The Promise—Trio: "God the Lord has Spoken"—Soprano, Alto and Tenor.
The Fulfillment—A Contralto, Recit and Aria "The Gracious Lord."
B. Soprano Solo, O Lovely Flowers.
C. Soprano and Tenor Duet "The Blushing Fruits."
D. Chorus—"For Ever O Lord"—Bass Solo.
Tenor Solo—"O Thou Whose Constant Mercies"
Chorus—"Let all the People Praise Thee." Bass Solo.

All People that on Earth do dwell"
Mr. Thomas A. Cameron both in his choral duties and in his training of the Philharmonic Society, is doing a great work in bringing the greatest sacred and secular compositions before the public of Belleville. It is gratifying to see that the people appreciate the value of his labors in this regard.

New Spring Dress Goods

We Import Direct from the Best Mills in the land

DURING past week the Spring Dress Goods have been arriving fast, and now our counters and shelves are loaded with bolts and rolls of the newest and best Dress Materials that money can procure. Never before have we had the pleasure of showing such a large range of New Fabrics and Colors as we do this season, and prominent among the new weaves we might mention POPLINS, BEDFORD CORDS, CHARMELINE, SANTOYS, ARMURS, ALBETROS, CASHMERE DE SOIE, CREPES, SERGES, JAQUARDS, etc.
The new colors are also beautiful and becoming, brighter hues than featured former seasons are popular and you find displayed here such shades as greys, taupe, tobacco browns, eco and navy blues, tango, reseda and emerald, etc., black and white, blue and white, brown and white checks are also high in fashion's favor, and we show all these and many others which space does not permit us to enumerate.

The New Materials Range in Price from 50c to \$2.50
They will be on display in our show windows during this week. We invite you to see them or, better still, visit our dress goods section, where you can handle and price the new weaves.

SILKS! SILKS! SILKS!

They are Beautiful and Becoming.
Dress Silks 89c to \$2.50 yard
They are in all the season's most popular shades and such well known materials as Paillette, Messalige, Charmeuse, Plain and Figured Chene, Moire and Plain Velours, Brocaded Crepes. Prices from 89c to \$2.50.
(These lines include black)

Exclusive "Chene-Silk" Dress Lengths
In Navys, Copenhagen, Keely Green, Old Rose, Wine, Eco Blue, Tobacco Browns and Purple. These have a beautiful finish and range in price \$10.00 to \$12.00 dress length.

Fancy Trimming Silks for Vestings, etc
In Light Grounds with Dolly Varden patterns, interwoven with gilt thread, also in checks and plaids. A large selection at
75c to \$3.75 yard

Children's and Misses' American Wash Dresses

A new shipment just opened up for your inspection

Children's Dresses at 75c
They are for ages 2, 3, 4, 5 and 6 years, in Gingham or Percale, light and dark shades; nice neat styles, well-made and trimmed. A beautiful dress at 75c

Children's Dresses at 89c
For ages 2, 4 and 6 years, in natural shade Lisen, trimmed with white. Made with belt in good full sizes, and excellent materials used 89c

Children's Dresses at \$1.00
In excellent quality Percales and Gingham, smart up-to-date styles in dark and light shades. Nicely trimmed with contrasting colors. Ages 2, 4 and 6 years at \$1.00

Children's Dresses at 1.15
Made in French style of plain Percale in Delf Blue and Lisen shades, neatly trimmed with braid and pearl buttons, for ages 2, 4 and 6 years, at only \$1.15

DIVORCE DISCUSSED

W. B. Northrup Urges Simplification of Process.

THE DEBATE IS ADJOURNED

F. B. Carroll Secunda Resolution and Premier Borden Suggests a Conference on Subject of House Rules

Sir Wilfrid Laurier, Hon. Mr. Lemieux and Hon. Mr. Doherty Against Change.

OTTAWA, Feb. 17.—A resolution calling for reform in Canadian divorce procedure was given the floor to the people a better chance, was presented to the House of Commons last evening by W. B. Northrup, the Conservative member for East Hastings.

Mr. Northrup, in opening, said that Canada and Ireland were the only civilized countries in the world which granted divorces by act of Parliament. It had once been the practice in England to grant divorces in that way. But nearly 70 years ago divorce courts had been established and the process would be greatly abridged and simplified as a result of the report of the royal commission of 1910. He did not advocate increasing the grounds for divorce or maintain that divorces should be granted at all, but there should either be no divorces or there should be divorces for riot and poor alike. As it was only people of considerable means could obtain a divorce in Quebec, Ontario, Manitoba, Saskatchewan and Alberta. In the other four provinces there were divorce courts.

"When a poor man comes to me and says that his wife has abandoned him and his children, and is living with another man in Waterloona, Ontario, I can only advise him to get rich. The poor cannot get divorces in Canada."

Hon. Rodolphe Lemieux said that as a Roman Catholic he was opposed to all divorce legislation. The deplorable condition of the law in the United States should serve as a warning to Canada. In France the low birth rate was in part attributable to the divorce law of 1834, and there was a strong agitation for its modification or repeal.

F. B. Carroll (Carlton, N.B.) supported Mr. Northrup's motion.

Judge Doherty, Minister of Justice, reminded the House that the law of Canada did not recognize divorces at all. It was beside the question to talk of reforming our divorce procedure, or of conferring jurisdiction upon the judges. How could the judge grant divorces, unless Parliament first passed a law establishing the right to a divorce upon certain conditions therein prescribed? There was no incoherence in the present system, because no person in the provinces of Quebec, Ontario, Manitoba, Saskatchewan or Alberta had any legal right whatever to obtain a divorce. True, Parliament did at the effect of divorces, but they constituted exceptions to a universal rule to which he would be glad to have no exceptions hereafter.

Mr. Barnard (Victoria, B.C.) said the divorce courts of British Columbia were satisfactory. He moved an amendment that the whole subject be referred to a select committee.

Sir Wilfrid Laurier said the effort seemed to be to make divorce easier. To this he was opposed. He thought the fewer divorces we had in this country the better.

Upon motion of the Prime Minister the debate was adjourned. Mr. Borden said that he could not quite agree with the Minister of Justice that Canada had no divorce procedure. People came here to get divorces from Parliament, just as in other countries they went to the courts. He thought that the proceedings were unnecessarily expensive and that many reforms might be introduced into our Parliamentary procedure, especially in the way of preventing collusion between the parties. However, all divorce bills originated in the Senate and the Senate committee was practically the divorce court. He therefore suggested a conference with the Senate and a committee to investigate the whole question, not with the idea of establishing divorce courts but for the purpose of improving the Parliamentary procedure.

HUGHES' AUTO EXPENSES

L. motor of Millita Says His Bill for Motor-Car Hire While in Britain and Europe Was Over Six Thousand Dollars—Gen. Ian Hamilton's Tour of Inspection Cost \$29,740—New Bills.

OTTAWA, Feb. 17.—The afternoon sitting of the House yesterday was given over to a triangular conflict between the Hon. J. Bennett, of Calgary, on the one hand, and E. M. Macdonald, of Pictou, and E. V. Nesbitt, of North Oxford, on the other. The subject before the House was a bill renewing a charter for branch lines from C. F. R.'s Calgary and Edmonton lines to the newly-discovered oil fields of Alberta. The railway committee last Tuesday amended this particular bill by cutting down the time in which construction should be commenced and completed, but according to Mr. Bennett, when, according to Mr. Nesbitt, the reactionary and railway attorneys rushed to the rescue of the corporations.

When the bill was reported, Hon. H. R. Emmerson complained that the bill was being made of one railway company and fowl of another.

Hon. Frank Cochrane said that the western people were protesting against the great flood of railway charters which were granted and re-granted without any railway construction resulting therefrom, but Mr. Nesbitt (North Oxford) pointed that cutting down the time for construction would not cause the railway companies to build any faster.

When Mr. Macdonald, of Pictou, asked what happened in the railway committee on Tuesday regarding the bill, R. B. Bennett (Calgary) said he should have been present instead of waiting until he was sent for on Thursday, when all the reactionaries and friends of privilege combined to have the committee reverse what it had done two days before.

Mr. Macdonald demanded that the remark be withdrawn, and Mr. Bennett retorted: "E. V. Nesbitt (N. Oxford) said the statement was a lie, and Chairman Blain sought to secure order. Dr. Michael Clark (Lib., Red Deer) charged that the oil interests could have railway construction hastened when settlements were not made, and that the Government was a mere servant in the matter of granting extension of railway charters.

After nearly an hour of heated debate, the bill stood over for further consideration on Thursday.

Col. Sam Hughes answered a number of questions yesterday about his trip to Europe and the cost of Sir Ian Hamilton's inspection tour through Canada. On the European trip the Minister of War was accompanied by a number of his friends in automobiles and their expenses in this behalf aggregated \$6,904. The total expense of Sir Ian Hamilton's tour was \$29,740.

Hon. J. D. Haszard introduced a bill to revise the Fisheries Act, which has not been codified since 1868. Some new features are introduced. The Governor-General-in-Council is empowered to prohibit the sale and export of fish. Something of the kind was attempted by Provincial Governments, but their action, Mr. Haszard said, was ultra vires.

It is made an offence for anyone to have fish in his possession during the closed season for that fish. Where a fisherman is found with fish out of season, he will be upon him to prove that he did not catch them unlawfully.

Hon. George H. Ferguson introduced a bill respecting trust companies. The bill is designed to bear the same relation to trust companies as the Insurance Act does to the insurance companies, and the Bank Act to the chartered banks. Every trust company hereafter chartered would be subject to the general act introduced yesterday, which as it is contained in the House by Hon. W. T. White, Minister of Finance, upon the second reading of the bill.

Compulsory audit and full report each year to the Finance Minister are among the chief features of the proposed legislation.

On the orders of the day, Hon. G. P. Graham complained that Opposition members had no opportunity to examine the report of Messrs. Guellet and Lynch in relation upon the National Transcontinental Railway, and asked that the same be printed and distributed also without waiting for the evidence to be printed. The Prime Minister said that the report was in the hands of the printer.

DIVORCE DISCUSSED

OTTAWA, Feb. 17.—A resolution calling for reform in Canadian divorce procedure was given the floor to the people a better chance, was presented to the House of Commons last evening by W. B. Northrup, the Conservative member for East Hastings.

Mr. Northrup, in opening, said that Canada and Ireland were the only civilized countries in the world which granted divorces by act of Parliament. It had once been the practice in England to grant divorces in that way. But nearly 70 years ago divorce courts had been established and the process would be greatly abridged and simplified as a result of the report of the royal commission of 1910. He did not advocate increasing the grounds for divorce or maintain that divorces should be granted at all, but there should either be no divorces or there should be divorces for riot and poor alike. As it was only people of considerable means could obtain a divorce in Quebec, Ontario, Manitoba, Saskatchewan and Alberta. In the other four provinces there were divorce courts.

"When a poor man comes to me and says that his wife has abandoned him and his children, and is living with another man in Waterloona, Ontario, I can only advise him to get rich. The poor cannot get divorces in Canada."

Hon. Rodolphe Lemieux said that as a Roman Catholic he was opposed to all divorce legislation. The deplorable condition of the law in the United States should serve as a warning to Canada. In France the low birth rate was in part attributable to the divorce law of 1834, and there was a strong agitation for its modification or repeal.

F. B. Carroll (Carlton, N.B.) supported Mr. Northrup's motion.

Judge Doherty, Minister of Justice, reminded the House that the law of Canada did not recognize divorces at all. It was beside the question to talk of reforming our divorce procedure, or of conferring jurisdiction upon the judges. How could the judge grant divorces, unless Parliament first passed a law establishing the right to a divorce upon certain conditions therein prescribed? There was no incoherence in the present system, because no person in the provinces of Quebec, Ontario, Manitoba, Saskatchewan or Alberta had any legal right whatever to obtain a divorce. True, Parliament did at the effect of divorces, but they constituted exceptions to a universal rule to which he would be glad to have no exceptions hereafter.

Mr. Barnard (Victoria, B.C.) said the divorce courts of British Columbia were satisfactory. He moved an amendment that the whole subject be referred to a select committee.

Sir Wilfrid Laurier said the effort seemed to be to make divorce easier. To this he was opposed. He thought the fewer divorces we had in this country the better.

Upon motion of the Prime Minister the debate was adjourned. Mr. Borden said that he could not quite agree with the Minister of Justice that Canada had no divorce procedure. People came here to get divorces from Parliament, just as in other countries they went to the courts. He thought that the proceedings were unnecessarily expensive and that many reforms might be introduced into our Parliamentary procedure, especially in the way of preventing collusion between the parties. However, all divorce bills originated in the Senate and the Senate committee was practically the divorce court. He therefore suggested a conference with the Senate and a committee to investigate the whole question, not with the idea of establishing divorce courts but for the purpose of improving the Parliamentary procedure.

L. motor of Millita Says His Bill for Motor-Car Hire While in Britain and Europe Was Over Six Thousand Dollars—Gen. Ian Hamilton's Tour of Inspection Cost \$29,740—New Bills.

OTTAWA, Feb. 17.—The afternoon sitting of the House yesterday was given over to a triangular conflict between the Hon. J. Bennett, of Calgary, on the one hand, and E. M. Macdonald, of Pictou, and E. V. Nesbitt, of North Oxford, on the other. The subject before the House was a bill renewing a charter for branch lines from C. F. R.'s Calgary and Edmonton lines to the newly-discovered oil fields of Alberta. The railway committee last Tuesday amended this particular bill by cutting down the time in which construction should be commenced and completed, but according to Mr. Bennett, when, according to Mr. Nesbitt, the reactionary and railway attorneys rushed to the rescue of the corporations.

When the bill was reported, Hon. H. R. Emmerson complained that the bill was being made of one railway company and fowl of another.

Hon. Frank Cochrane said that the western people were protesting against the great flood of railway charters which were granted and re-granted without any railway construction resulting therefrom, but Mr. Nesbitt (North Oxford) pointed that cutting down the time for construction would not cause the railway companies to build any faster.

When Mr. Macdonald, of Pictou, asked what happened in the railway committee on Tuesday regarding the bill, R. B. Bennett (Calgary) said he should have been present instead of waiting until he was sent for on Thursday, when all the reactionaries and friends of privilege combined to have the committee reverse what it had done two days before.

Mr. Macdonald demanded that the remark be withdrawn, and Mr. Bennett retorted: "E. V. Nesbitt (N. Oxford) said the statement was a lie, and Chairman Blain sought to secure order. Dr. Michael Clark (Lib., Red Deer) charged that the oil interests could have railway construction hastened when settlements were not made, and that the Government was a mere servant in the matter of granting extension of railway charters.

After nearly an hour of heated debate, the bill stood over for further consideration on Thursday.

Col. Sam Hughes answered a number of questions yesterday about his trip to Europe and the cost of Sir Ian Hamilton's inspection tour through Canada. On the European trip the Minister of War was accompanied by a number of his friends in automobiles and their expenses in this behalf aggregated \$6,904. The total expense of Sir Ian Hamilton's tour was \$29,740.

Hon. J. D. Haszard introduced a bill to revise the Fisheries Act, which has not been codified since 1868. Some new features are introduced. The Governor-General-in-Council is empowered to prohibit the sale and export of fish. Something of the kind was attempted by Provincial Governments, but their action, Mr. Haszard said, was ultra vires.

It is made an offence for anyone to have fish in his possession during the closed season for that fish. Where a fisherman is found with fish out of season, he will be upon him to prove that he did not catch them unlawfully.

Hon. George H. Ferguson introduced a bill respecting trust companies. The bill is designed to bear the same relation to trust companies as the Insurance Act does to the insurance companies, and the Bank Act to the chartered banks. BOND WOULD BREAK

Imperial Preference Fatal Says British Minister.

AMENDMENT IS DEFEATED

British Commons Votes Down Tariff Reform Proposal in Debate on Address by a Majority of Seventy-Four — Sir Stanley Buckmaster Says Preference Would Only Create Discard.

LONDON, Feb. 17.—The tariff reform amendment to the address was defeated in the House of Commons yesterday by a majority of 74. Capt. Iron advocated imperial preference so far as practicable without imposing a tariff on imported food-stuffs, and by admitting colonial imports at a lower rate than foreign imports. He would impose an ad valorem duty up to ten per cent. on foreign manufactures.

On behalf of the Government the Solicitor-General, Sir Stanley Buckmaster, said the policy of imperial preference was one that could not be resisted. If the Opposition desired colonial preference they must tax food. Did the Opposition intend to include a preference would tend to blind the colonies to the Mother Country. It was likely to carry with it seeds that would lead to results which many would be unwilling to contemplate. If they desired to accomplish imperial preference they must put a tax on food and also put a tax on raw material. He denied that it was impossible to give effective preference to the colonies.

"Canada," he said, "is rapidly becoming an industrial country. There costs of production are not much lower in many industries than ours to-day. I think it quite possible that if this system of preference were once adopted we would gradually find ourselves in a position in which the Canadian manufacturers would be willing to content themselves with protection, which is a natural one, owing to the cost of carriage, and when we might have completely free trade between Canada and the United Kingdom. That is the ideal everyone will consider worth striving for. Those who are the best judges in the colonies think there is something in it. We will give them precisely what they ask for and we will give them precisely what they have asked for when we get the power."

DRAFTING A SCHEDULE.

Lake District Relief Committee Has a Difficult Task.

TORONTO, Feb. 17.—The special board appointed to distribute compensation to the dependents of sailors lost in the late sale of last autumn, are wasting no time in their preparation of a schedule. It was learned last evening that the dependents who lost husbands during the war were to be aided over a period of five years.

Owing to the immense amount of detail involved, it will be some time before the first amounts are furnished. These, however, will be distributed as early as possible in proportion to the earning capacity of the victims. It is understood that the amounts paid out in this way will average from \$10 to \$70 monthly. In striking a balance of remuneration, an attempt will be made to make the sums approach half the wages of the drowned breadwinners.

Proximity of relationship and the financial prosperity of dependents will be taken into consideration before any remuneration is allowed.

LITERACY NO TEST.

President Wilson Certain to Veto Immigration Bill.

WASHINGTON, Feb. 17.—President Wilson will veto the Burnett immigration bill if it comes to his signature with so-called literacy tests contained in it.

This became known from an authoritative quarter last night after Chairman Smith of the Senate immigration committee had announced yesterday that he had passed the House, which is the literacy test. The bill will be virtually reported to the Senate soon. Prospects are that the bill will pass the Senate as reported from the committee, but the measure never will become law, according to the close friends of the President. The President does not consider literacy a test of character and believes some other means should be devised to prevent undesirable aliens from entering the United States.

Hog Cholera Epidemic Spreads.

LONDON, Feb. 17.—The hog cholera situation in Middlesex county is assuming more serious proportions, and daily the Government inspectors are condemning a large number of the animals. The first outbreak was discovered a week ago, and has spread rapidly. It is thought that the cause of the epidemic of restaurant refuse may have brought on the epidemic. The Government experts are making a thorough investigation. Animals on two farms were ordered destroyed yesterday morning.

Bank Steamer Crippled.

QUEENSTOWN, Feb. 17.—The Dutch tank steamer Rotterdam, from Amsterdam Feb. 9 for New York, is reported by wireless telegraph 75 miles southwest of this station with her rubber gone. The vessel is making for this port, being steered by a steam trawler.

Little Hope For Lord Minto.

LONDON, Feb. 17.—Lord Minto's condition last night was critical. Little hope is entertained for his recovery.

DIVORCE DISCUSSED

OTTAWA, Feb. 17.—A resolution calling for reform in Canadian divorce procedure was given the floor to the people a better chance, was presented to the House of Commons last evening by W. B. Northrup, the Conservative member for East Hastings.

Mr. Northrup, in opening, said that Canada and Ireland were the only civilized countries in the world which granted divorces by act of Parliament. It had once been the practice in England to grant divorces in that way. But nearly 70 years ago divorce courts had been established and the process would be greatly abridged and simplified as a result of the report of the royal commission of 1910. He did not advocate increasing the grounds for divorce or maintain that divorces should be granted at all, but there should either be no divorces or there should be divorces for riot and poor alike. As it was only people of considerable means could obtain a divorce in Quebec, Ontario, Manitoba, Saskatchewan and Alberta. In the other four provinces there were divorce courts.

"When a poor man comes to me and says that his wife has abandoned him and his children, and is living with another man in Waterloona, Ontario, I can only advise him to get rich. The poor cannot get divorces in Canada."

Hon. Rodolphe Lemieux said that as a Roman Catholic he was opposed to all divorce legislation. The deplorable condition of the law in the United States should serve as a warning to Canada. In France the low birth rate was in part attributable to the divorce law of 1834, and there was a strong agitation for its modification or repeal.

F. B. Carroll (Carlton, N.B.) supported Mr. Northrup's motion.

Judge Doherty, Minister of Justice, reminded the House that the law of Canada did not recognize divorces at all. It was beside the question to talk of reforming our divorce procedure, or of conferring jurisdiction upon the judges. How could the judge grant divorces, unless Parliament first passed a law establishing the right to a divorce upon certain conditions therein prescribed? There was no incoherence in the present system, because no person in the provinces of Quebec, Ontario, Manitoba, Saskatchewan or Alberta had any legal right whatever to obtain a divorce. True, Parliament did at the effect of divorces, but they constituted exceptions to a universal rule to which he would be glad to have no exceptions hereafter.

AMFLIASBURG

Ameliasburg, Feb. 17.—Mr. Morley Carrington and family visited at Mr. Clayton Fulvers on Saturday night. Mr. Roy Dempsey was visiting at Mr. J. A. Dempsey's on Sunday. Miss Ida W. Brown, of Toronto, is the guest of Miss Mande Dempsey. Quite a few from here attended the play at Ameliasburg. Mr. Delbert Snider's visited at Morley Carrington's on Sunday. Mr. Roy Dempsey had the misfortune to slip on his foot this week. We are glad to report it is not serious. Mr. Norman Dean of Trenton is staying the week-end at Mr. Carrington's. Messrs. Everett and Byron Adams are handling logs to Trenton. Mr. Morley Carrington and Mr. Delbert Snider attended the sale at Red-nerville on Friday.

MOUNTAINVIEW

Mountain View, Feb. 9.—A week ago Tommy Armstrong, nearly cut his thumb off, cutting through the bone, but they think it can be saved, and he is doing very well. Over sixty took advantage of the stormy night, last Friday, to attend the dance at Wm. Barber's. All report an enjoyable time. Miss Zetta Cuskey was homeward bound for over Sunday. Mr. and Mrs. Howard Anderson and Ross were in Toronto last week. Jas. R. Anderson was in Toronto attending the Holstein Breeders' Convention last Wednesday and Thursday. Miss Irene Thompson, Mrs. Geo. Anderson, Mr. and Mrs. H. G. Stiefel, Miss Adeline Sprague and Mrs. Walter Fymer attended the Sunday school convention at Albany last Friday. Miss Sprague and Miss Adeline Sprague are going to Toronto for a visit on Wednesday. Miss Vera Sprung of Picton is visiting her cousin Miss Mary Belle Black. Miss Edith Leader spent Sunday with Miss Black. Mr. Charles Wood is filling the cheese factory ice house. Rep. Armstrong, Wellington Bristol, and Jas. R. Anderson filled their ice houses last week. Mr. Ridley Anderson attended the sale of the late Mr. Hicks of Allisonville last week. The W.M.S. meets at Mrs. Ed. Habb's on Wednesday at 2.30 p.m. The Women's Institute will meet on Wednesday, Feb. 18th at Mrs. East Anderson's. All the women are requested to bring sewing in Toronto to prepare the material obtained for the hospital, Mrs. H. J. Parliament will give an interesting paper. The Teachers' Training Class will meet every Wednesday night in the basement of the church. The secretary has the books for study now. Mr. Jim Young is visiting in this neighborhood. Mrs. Harold Young is visiting at her home. The high winds have ceased the downfall of Mr. Geo. Anderson's windmill.

BLESSINGTON

Blessington, Feb. 14.—We are certainly having some cold weather at present, registering from 23 to 31 below zero. J. Johns left for Warkworth on Wednesday. Miss Alice Long has returned home after spending six weeks in Chicago. Mrs. F. Robinson and baby Bernice spent last week at her home at Melrose. Mrs. Charles Smith and baby Carol are spending a few days visiting the former's mother, Mrs. M. Morden of Melrose. Mr. and Mrs. Wm. Alexandra and children of Calgary are the guests of R. Miller. Mrs. R. Miller entertained a number of her friends on Monday night. A. M. Hagerman is confined to the house with chicken-pox. Mr. A. M. Hagerman has purchased a new piano.

CROOKSTON

Crookston, Feb. 14.—We are having the real old fashioned winter weather this last week back in our little village. The Misses Sampson of Lindsay are visiting their sister, Mrs. Wesley Wickens of this vicinity. Miss Blanche Kilpatrick is visiting friends at West Huntingdon. Mr. Jim Chambers and Miss May Chambers spent Sunday last with Miss Mildred Donnan, West Huntingdon. The members of the Women's Institute and a number of young people spent a very enjoyable evening last Tuesday at the home of Miss Jennie Tanner. Light refreshments were served at the close of the evening. A surprise party was given to Mr. and Mrs. A. Stevenson on Friday evening and they were given a purse. The Misses Ada and Emma Woods visited Mrs. Charles Moreland of Moira a few days last week. Our league intends holding a debate on Thursday evening. We are looking for a large crowd of our Beulah friends to visit our league on Thursday evening. Miss Frankie Sullivan and Mr. Percy Kilpatrick visited friends at Thomaburg on Friday. Miss Nellie French is spending a few days at Ivanhoe visiting her aunt, Miss Nettie Benson. Mr. Stanley Thompson and Miss Helen Thompson of West Huntingdon visited Miss Ada Woods on Sunday. The trustees of our church have appointed Messrs. Jim Chambers and Percy Lancaster as ushers of the church for the year 1914. Mr. and Mrs. T. W. Sullivan visited Mr. and Mrs. Timothy Sullivan at Tweed on Sunday.

POINT ANNE

Point Anne.—We are sorry to report the serious illness of Mrs. Wesley Macdonald. We all hope for a speedy recovery. A concert held in Shannonville on Tuesday evening. A fine time is reported. Miss M. Balance of Newburg was the guest of Miss Mary Bowyer on Wednesday and Thursday. Miss Alice Cole of Deseronto is spending a few days with relatives here. Roblin's Mills.—On Thursday evening, Feb. 12th the A.O.U.W. Lodge gave their annual oyster supper. Ow-ing to the cold and disagreeable weather there was not a large attendance. After partaking of a most enjoyable supper a very interesting program was given. Mr. H. Anderson of Roseneville acted as chairman, gave a very interesting address followed by a duet by Mr. G. Crosby and Miss Vera Thompson. Several other brethren ably contributed to the evening's entertainment. Mr. Claude Thompson of Belleville has been the guest of Miss Vera Thompson for the last few days. The W.M.S. held their regular monthly meeting at the home of Mrs. G. B. Chost on Thursday last. Quite a number of friends attended the social at Mountain View on Tuesday night last. Miss Audrey Reddick was the guest of Miss Annie Sager Friday evening. Mrs. W. Reddick has been on the sick list and we are glad to report is some better. Mr. B. Ferguson and sister Luella are visiting friends across the bay. Arthur Knight who has been very sick for the last week is some better. Mr. Sam Pope moved one load of hay to his new home here one day last week.

WHELAN & YEOMANS REAL ESTATE AGENTS Offer the Following Properties for Sale

HOUSES FOR SALE
\$1,900.-Corner Moira and Sidney Sts. 10 room brick house with frame barn and large lot.
\$3,200.-Cedar Street double brick house, 8 rooms, side, lighted with gas, hot water heating, on south side, hard and soft water, good cellar.
\$1,600.-Corner Moira and Sidney Sts. brick house and barn, large lot.
\$1,000.-East Meira Street. Frame house, 6 rooms, summer kitchen, electric light and gas for cooking. All in first class repair.
\$3,500.-Queen Street, solid brick, two story house, all modern conveniences, large lot.
\$2,200.-Two new brick 7 room houses with all modern conveniences, lots 46, 123, Chatham St.
\$2,400.-Alco Street, 2 story frame house, 10 rooms, electric light and all modern conveniences.
\$750.-Frame house with large lot, West side Yeomans Street.
\$1,500.-Gordon Street. Frame house almost new, 8 rooms.
\$2,000.-2 story, 6 room brick house near Albert College. Easy Terms and handy to G.T.H.
\$1,500.-5 room, roughcast house and lot, near Albert College and G. T. R. Easy terms.
\$3,000.-Two story brick, electric light, all modern conveniences, first class, near Front Street, close to Ontario Avenue.
\$1,100.-Roughcast house, Olive Street.
\$1,500.-Frame house, Great St. James Street.
\$2,200.-Two story, 8 room brick house and 20 acres garden land, 50 apple trees and small fruit, situated on Oak Lake. This summer place. Will exchange for city property.
Gold brick house, Albert Street, all modern conveniences, hot water heating, small house, lot 60 feet front.
Up-to-date frame house, Queen Street, all modern conveniences, hot water heating, first class, barn, lot 50 ft. frontage.
Fine double frame house less than ten minutes walk from Front Street on Meira Street, West side, small house and large lot.
Seven room roughcast house with barn, hen house and large lot, also frame house with large lot just off West Moira Street. To be sold cheap. Comparatively new seven-room frame house with large lot, with first class well and fruit, in the village of Redwerville, Prince Edward Co. Easy terms.

LOTS FOR SALE
\$200 each-Burnham Street, 5 lots, 42x132.
\$12 per foot-Con Bridge and McDonald Avenues.
\$350-Albert Street, 50x100, West side.
\$10 per foot-Foster Avenue, North of Bridge.
\$75 each-North Coleman Street, 5 lots, 45x150.
\$150 each for two lots east side of Ridley Avenue, size 40x110 feet.
\$125 each for two good building lots, 40x174, on Ridley Avenue, next to Bridge Street.
\$125-Dufferin Avenue, between Pine Street and Victoria Avenue, 5 lots, about 60 feet frontage.
\$300 each, two large lots on Chatham Street North.
\$500-Corner Dundas and Charles Streets, 50x88.
\$250-Lot 65x135, Lingham Street just north Victoria Avenue.

FACTORY SITES
The best factory site in the city about 6 acres on bay shore, good dockage and along C.N.R. Double frame house on ground.
\$750.-East Moira Street, about 3 large lots, also fine water power, in good repair. An ideal spot for small factory.
190 acres 4th Con. Thurlow, first class house, and out buildings with cement floor, well fenced and watered, about 15 acres timber. This is a strictly first class farm in the best of condition, 5 miles from Belleville.
\$7,000.-Township Huntingdon, 200 acres clay loam, 125 acres work land, balance wood and pasture land, 2 good springs, barns 48x30-30x50-2x10, stone basements and cement floor, drive house, hog pens, hen house, implement shed etc., well fenced and watered and all in good repair. Easy terms.
Big Island on bay shore, brick house about 75 acres of land, well fenced and good barn, wood except one quarter down, balance easy terms.

BI-PLANE IN CITY HALL HOCKEY PRINTERS DEFEAT RAH! RAHS!

From Saturday's Daily
Homes flight, the dream of human life itself, the new commercial fact of the twentieth century the folk lore literature of dawning civilizations, the prehistoric, conceived mythologies of ancient peoples, the writings of the master minds of Greece's golden years, the pictured grotesqueries of medieval Darius Greens, all of these and other records tell of man's unquenchable ambition through all the ages to fly. Why mighty empires and civilizations have sprung up, flourished and decayed, the dream remained a dream unfulfilled as when the common ancestor of man, a flight thrilled by it. And then, light brief years ago-10! The electric spark flashed the nerve chords that the world had heard and that man had conquered the air, that the dream of ages had come true at last! Seven years ago! And since that day a Kierulff had flown across the English Channel.

From Saturday's Daily
The printer and the B. B. C. met at the arena last night from seven till eight in a friendly little game of hockey. The college rah rals had it in their heads that they could slip it over the printer's very easy, but they found that they were wrong. Anyone could very easily notice their disappointment. However the game went along smoothly for a few minutes when the school boys began to rough up a bit but they were kept in the penalty box for their. The rest of the game went along again quite smoothly the first half ending 2 to 2. The last half opened up 5 to 2 with about three minutes before the game sounded when the printer scored their winning goal, ending in the score of 4 to 2. There were a large number of spectators present.

From Saturday's Daily
The kind of Conservatism from Deseronto, Belleville and Trenton, which set out for Marmora last evening to attend the banquet to Robert J. Cooke, M.P.E., and E. Gust Foster, K.C., M.P., did not reach the city until late in the afternoon. The banquet was held at the Marmora Hotel, and was a very successful one. The speaker, Mr. Cooke, was very eloquent and his address was well received. The banquet was held at the Marmora Hotel, and was a very successful one.

From Saturday's Daily
A very fast and exciting game of hockey was played at the arena last night between the hours of 10 and 11 when the Dominion Construction Co. met the fast Griffin's Theatre team. Both teams backed hard, and long on honors, but the fast pace of the Griffin team proved too much for the "Road Builders" and the game ended 3-1 for the amusement dispensers, Whelan and Arnot, on the wings of the Griffin team, played some splendidly. The referee, J. McKenna, was very fair and the referee, J. McKenna, was very fair and the referee, J. McKenna, was very fair.

W. R. DEMPSEY EX-M.P. DEAD

From Saturday's Daily
William Ryerson Dempsey, Ex-M.P. P., for Prince Edward County, died very suddenly of heart failure yesterday. He leaves a widow and five children. Mr. Dempsey was one of the best known politicians of the county. He was born in 1832 in Prince Edward. He was prominent in military life, serving in the Fenian Raid of 1866. He was representative of Annapolisburg in the county council and filled all the important offices. In 1898 he was elected member of the legislature. He leaves a widow and five children. Mr. Dempsey was one of the best known politicians of the county.

CONTESSAZONE WAS GRAND SUCCESS AT OLD ALBERT

Reception and Program-The Social Side of Evening-Description of the Decorations-Promenades, and Refreshments-Endowment Plan.

From Saturday's Daily
Things may come and things may go, but Albert College goes on forever. Each year, the old institution puts on the gaily colored, gives the freedom of its halls to students and citizens alike and holds the conventional social event of the college calendar. As a result of another conversation made the old college ring with the sounds of merriment. This yearly festival of enjoyment is one of the links in the chain that binds the student and the ex-student so they can never forget the days spent in the halls. Albert's "conversazone" of 1914 has now gone into history. Last evening the great function was observed. The hundreds of guests which thronged the halls were received in the chapel in Massey Hall by Principal and Mrs. Baker, Miss E. Gardiner, Mr. and Mrs. C. M. Reid and Miss Strangways. While the guests were pouring into the chapel, the college boys ripped off such bellows as "Roaming in the Gloaming" and "When the Lights are Low" and indulged in songs and in flashes of witty remarks at students' dining to sit with a young ladies in quiet converse the hour was spent until Rev. Dr. Baker on chair man took the platform and expressed a welcome to the guests. Such a packed auditorium spoke volumes for the college. The program governing the body is endeavoring to keep up the work of the past. Old Albert has a place in the educational life of the province. By its fund it is known. For this reason response is not slow to the call of the \$100,000 endowment proposal. The institution must grow because it is of God. It will be hampered if the endowment is not secured. But the college goes on in the faith that God and silver are the best means and women desire to give in a good cause. The male quartets Messrs. Staples, LaVole, Schryver, Cameron and Burhill. The final number on the program was the overture by Tom Gump, "The Old and Pleasant," piano, Miss Edwards, McDonald, Groszkart, Terwilliger, organ, Miss Eva LaVole, Conductor Miss L. LaVole.

ARE CHEMISTS SUCCEEDING IN CREATING LIFE?

Several European chemists have succeeded in producing forms of organic matter which have brought science much closer to a solution of the chemical origin of life than has Dr. Loeb's "fatherless frog." The fatherless frog had a mother, and was therefore only of chemical percentage, while these two European scientists have produced "higher peptides" and "osmotic growths" which are of purely chemical origin.

Chemists seem generally agreed that if they can succeed in building up genuine protein out of chemical substances they will have succeeded in grappling successfully with the fundamental, perhaps the principal problem confronting them in their attempts to create organic matter. Protein is a highly complex chemical compound which forms the corner-stone so to speak, of all living vegetable and animal matter.

Synthetic chemistry, which has dealt so successfully with many difficult problems involving the building up of complex cells, as for instance in building up isopropin, the base of synthetic rubber, has not yet succeeded in creating protein. Molecules we know are composed of atoms, and atoms, which are only a short time ago were believed to be the smallest component parts of the matter are now known to be composed of electrons, which are arranged in the atoms in geometrical forms such as cubes, tetrahedron, etc. The more complicated the geometrical forms in which these electrons are arranged the more readily will they change their position in coming in contact with other chemical substances; such a change involving a "breaking down" of the atom, of which they are the constituent parts.

Protein is so highly complex in its interior structure—its electrons moving about within its atoms on as complicated a scale as the stars and planets which compose the solar system—that it has so far eluded the modern wizardry of the chemist's creative wand.

Dr. Emil Fischer, of Germany, has succeeded in building up "higher peptides," the nearest approach to the problem yet produced. The "higher peptides" are not unlike bacteria but are not organized; they partake of the nature of ferments, which in scientific parlance are known as "enzymes." Enzymes are the active principle of yeast. They are very wonderful and very mysterious little bodies; as yet little is understood of their nature.

Science knows enzymes will perform the most marvellous tasks, tasks wholly out of proportion to their size and volume. It is due to the enzymes in yeast that bread is made, to ferment, and everyone knows that a tiny quantity of yeast is needed to raise a very large quantity of dough. Perhaps the most astonishing thing of all about the enzymes is that after performing their task they themselves are wholly unaltered as to form, size, bulk. Their mere presence, in other words causes the remarkable changes to occur which the laymen briefly classes together as "fermentation."

If two pieces of platinum are placed in an acid liquid and subjected to a strong current of electricity the platinum will be pulled to pieces and the tiny particles which remain will roll about in the liquid like a heavy cloud. If a drop of this be dropped into hydrogen peroxide the metal liquid will behave itself very much like an enzyme. It will decompose a million times its own volume of peroxide and after performing this giant's task will have retained tained its original form and chemical composition.

A French chemist, Dr. Stephane Leduc, of the University of Mantes, has produced chemical growths which he terms "osmotic growth" which, if anything, are more wonderful ever than Dr. Fischer's "higher peptides." Dr. Leduc strews calcium chloride particles into a solution of alkaline carbonates, phosphates or silicates and produces growths which bear a remarkable resemblance to corals, plants, polyps and trees.

These growths, which, it must be emphasized are of pure chemical origin, are not mere forms that have crystallized into shapes resembling vegetable growths. They show all symptoms of youth, old age, decay and death. They do not grow by accretion, like crystals, but by intussusception which is the technical term for the manner in which all organic matter builds up its cellular tissue—that is grows. This means that it absorbs its nutrition like living beings, converts the nutrition thus absorbed into substances which it is able to assimilate in growing as for instance a sort of internal sap not unlike the sap of a plant or the blood of animals. Thus the phenomena of circulation is present, and to this must be added respiration.

If injury is inflicted upon an osmotic growth it repairs that injury in much the same way as the animal organism heals a wound inflicted upon it. It is able to perform periodic movements and most remarkable of all, if the weight of an osmotic growth be compared with the weight

of the seed from which it sprang, it will be found to be many times greater than that seed while the liquid in which it grew on the other hand, loses weight showing that it has been used up by the osmotic growth in process of assimilation.

Dr. Leduc does not claim that these osmotic growths are organic matter, but in view of the many points which they have in common with vegetable forms, the question arises, "if they are not vegetable forms, are they not at least an intermediate form from which vegetables can be developed?"

DOES JAPAN LEAD IN WIRELESS

Japan has taken up the matter of wireless communication with the same insight and zest that she has done in the case of most other facilities pertaining to modern progress and achievement. So rapid has been the development made by her electricians both in invention and instalment that "it is a question whether in some important respects she is not now ahead of more pretentious nations." At least such is the opinion of the editor of The Japan Magazine.

Speaking more in detail of Japanese progress in the field of wireless, this writer says that the Japanese first began to take a serious interest in the possibilities of wireless telegraphy as early as 1886, when the noted electrician, Dr. Shida, set up an apparatus of his own construction on the banks of the Sumida River, Tokyo; but his attempts to send messages across the water by means of electric waves were not wholly successful. After European scientists began to publish the results of their investigations as to the nature of electric waves, the Japanese electricians turned again to the subject, and this time with greater promise of success. Dr. Nagaoka and Dr. Mizuno, of the Engineering Department of the Imperial University, Tokyo, now commenced an exhaustive course of investigation and experiments with some very encouraging results. In 1897 Dr. Assano, of the electrical section of the Department of Communications, Tokyo, set up a wireless telegraphic apparatus on the old forts in the Bay of Tokyo, and attempted to exchange messages with a station erected on the reclaimed land at Tsukijima, near the mouth of the Sumida River. In the meantime the great Marconi was going on with his wonderful experiments in Europe; and about 1895 he perfected his apparatus to such an extent as to have it considered a decided success, having it patented in England in 1896. Although the Marconi system was quickly taken up in Japan, the nation's own inventors and scientists did not cease their investigations and experiments, especially the electricians of the Department of Communications.

The Japanese, we are further informed, freely admit they have learned much from Marconi and other Western inventors. They have, however, perfected a system of their own. This system, known as the Teishinsho system, is adjudged one of the most complete on record. Naturally the new invention became a matter of immense importance to the Navy; for all the navies of the world were now installing wireless telegraphic apparatus on their ships, and Japan could not afford to suffer the disadvantage of being left behind. But she did not deem it a great advantage to have just the same system as that employed in Europe. Accordingly, naval electricians got to work, and with the assistance of these connected with the Department of Communications, a special system for use in the Imperial Japanese Navy was perfected and adopted by the fleet. The code used by the Department of Communications was not regarded as guaranteeing sufficient secrecy for naval use; but the new system invented for the Navy, known as the Kaigun-sho, enables the fleet to preserve absolute secrecy as to position and message, and is believed to be more scientifically perfect than that used by any other of the world's navies. This secret system, which owes its existence and efficiency largely to Professor Kimura, was used by the Japanese Navy with telling effect during the war with Russia. Indeed, it was by this means that, unknown to the enemy, Admiral Togo was able to receive warning of the approach of the Baltic fleet and be in readiness to meet it when it came in sight, its every movement being known to him up to its appearance on the horizon. It is hardly too much to say that in that greatest sea fight of modern times, Japan owed her victory in a large measure to the perfection of her system of wireless telegraphy. This statement is made on the authority of the Japanese themselves.

The editor of the Acton Free Press says: Ten years ago the Free Press editor could buy ten dozen new laid eggs with a year's subscription. Now he is able to purchase only three dozen with that dollar. Eggs have gone up but subscription remains the same. See where we stand in the matter of the high cost of living.

Within the next dozen years many of us will regard in a different light various questions that now seem absolutely determined. If we all mulishly held our intelligence in the same old rut year after year we would never have any progress. Life itself is a continuous manifestation of changes. Unchangeableness is evidenced by fossilisation.

But to return to the subject of paving. There are two kinds of standard permanent pavement upon the desirableness of which opinion seems to be about evenly divided in the council. After having looked into the matter pretty thoroughly we have no hesitation in saying that if either of the kinds of pavement now proposed is put down, our citizens generally will be abundantly satisfied. Both have been tested under the most diverse and adverse conditions, and both have shown the most satisfactory results.

There is no perfect pavement. There is no pavement that embodies all the advantages. The pavement that approaches the closest to perfection, we believe, that made from creosoted wood block. It is comparatively noiseless, it is yielding and elastic for the horses' feet, it is not in the least slippery, it can be torn up at any time in sections without damage, it is durable under the heaviest traffic, and resists decay. It has two disadvantages—it is extremely expensive, and its surface being somewhat rough, it is difficult to keep clean.

Sheet asphalt in its various forms is easily the most popular, and the most widely adopted of all forms of permanent paving. It has the great positive advantage of having a smooth surface that never becomes flinty. Neither does it ever wear up rough. Ruts and holes will form in time, but the plastic nature of the asphalt always remains, and there is never a disintegrated surface to afford a shelter for dirt and disease-breeding germs. It is exceedingly durable under such traffic conditions as prevail upon our main street. The initial cost is not expensive. Its clean, smooth surface always presents a neat, tidy appearance.

Its one big disadvantage is that its surface is in one solid mass and when this is once broken, to make sewer repairs for instance, it is difficult to mend the break and make it uniform with the surrounding surface. For Belleville, where our pavements are ripped up every day or two on a dozen varying pretexts, ease of repair is a most important consideration.

If the section of the council that is in favor of creosote block could carry their views into effect without causing an actual outbreak of hostilities on the part of the Front Street property owners, there would certainly be little or no dissatisfaction as far as the rest of the town is concerned.

Also it may be said that if sheet asphalt or asphaltic concrete is chosen there will also be general satisfaction.

If asphaltic material is adopted we would recommend that the street intersections, as for instance where Bridge crosses Front Street, should be paved with wood block. The least slippery material should be put down where horses and carriages have to make turns, and at these points the pavement has to be most frequently disturbed on account of underground "improvements."

We would also suggest that if a choice is to be made between sheet asphalt and asphaltic concrete, that the council first get the opinion of the city engineer at Ottawa where they have experimented very largely with both varieties of paving. As far as our own observation went while visiting that city last summer, it appeared that the asphaltic concrete that had been down for some years was showing a tendency to work up into a rough, pebbled, and uneven surface. We were also informed, though not by any city official, that sheet asphalt was now being substituted almost altogether in the construction of the new streets.

THE PAVEMENT

It is with a source of congratulation that the city council for 1914 has definitely moved away from the concrete pavement heresy which had a majority of followers in the council of 1913. It is nothing to the discredit of any member of the council to have changed his opinions on the subject. As a paving material, concrete is only an experiment, and many condemnatory reports have only been made public since last year's council passed the resolution in favor of its adoption. It is far more sensible for men to take a position in accordance with the light and leading of facts and full information, than to maintain a stubborn adherence to discredited opinions, merely because those opinions were at one time held, and without regard to the fact that full information was not then available. In other words, a frank avowal of change of mind is more honest and honorable than bull-headed persistence in preconceived views that have subsequently been shown to be erroneous. It has been said that the man who never changes his mind has no mind to change.

When the meek, retiring oyster is abstracted from his bed, in a manner rather shocking. He is very far from dead. When we prod his private person, (Though his heart seems still and cold) We convulse his constitution With an agony untold. Now instead of adding lemon 'Twould be vastly more humane. To anoint his tiny features With a sprinkling of cocaine.

When we add a pinch of pepper, Just to give the menu zest, We envelope more in suffering. That rends his tiny breast; And a touch of hot tobacco To his person, it appears Brings a gush of untold anguish That is far too deep for tears. So instead of adding sauces, That give him needless pain, Let us spray the little fellow With a dashlet of cocaine.

When all the evidence is in it appears that we humans are only humane in very scattered spots.

Women are always doing things in a way to make the men smile. In Paris the latest fashion decree is that the ladies wear overalls, and the dear creatures, in obedience to the decree, it is said, are wearing them, but under their own garments.

One of our largest railway companies suggests that safety first be made a part of common school education. What boys and girls must learn to appreciate more thoroughly is their bodies and their privilege of living. Life is dear to all of us but we are reckless with it and fail to conserve it. This railroad's rational plan is to teach the pupil that he owes an obligation to society to develop into a man with all of his faculties and body trained to do the best work.

The time is not far off when the man with a body weakened by a reckless boyhood will be thought of as an offender rather than an unfortunate. Our bodies are our power plants. The energy developed there measures our ability to do things in life. We should take pride in keeping up this priceless conservation station. Safety first instruction in the schools means sounder men and women of tomorrow because it will make more careful and considerate boys and girls to-day.

The eugenists are wonderful folks whose impressive authoritativeness does not always pan out. Here is Dr. Compton of Barnard College, New York, who might with advantage to himself be persuaded to be a little more careful of his facts when trying to persuade us of the truths of eugenics and heredity. In his recent address to the American Federation of Child Study he stated that "all the children of a brown-eyed father and a blue-eyed mother will have brown eyes without exception." Now this might possibly be all right, if, unfortunately, it doesn't happen to be wrong in many instances; because, very promptly comes a communication to an Eastern newspaper to the effect that "if this is true, then I know of one exception, for my sister, who is blue-eyed, has three children, all with blue eyes, but their father had brown eyes, and I have heard him remark that it is curious none of his children had brown eyes." To say the things are not so and to state them with impressive authority is one of the chief weapons of the eugenist. Let us hope that such a failing is not hereditary.

LO, THE POOR OYSTER!

It is all very well for the masculines to taunt the feminines with their incosistent sense of humanity which leads them to band themselves together to protect the horse and other domestic animals, and permits them at the same time to wink at the wicked slaughter of beautiful birds, which are the possessors of lovely tail and wing feathers. We have heard and read about all this. But what about the men who pitch the lowly lobster, whilst still alive into boiling water? And what about the suffering of the impaled fish? There are men who will tell you that a fish doesn't feel any pain when the hook is firmly fixed in its epiglottis. Of course it doesn't, or why would it dart, hither and thither with an agonized swiftness that tells its own story. We have listened to many noble returned deer hunters who have gloatingly told the story of lead pumped into an escaping deer in the woods of the north; also of deer, badly wounded, escaping into the bush to wait for that moment, when Death more merciful than man, comes to put an end to their sufferings. And we can easily hear, in imagination, a perfect shriek of laughter, when we hint that it is just possible the shell-engirdled oyster passes through the gates of suffering because of man's self-indulgence. Listen:

When the meek, retiring oyster is abstracted from his bed, in a manner rather shocking. He is very far from dead. When we prod his private person, (Though his heart seems still and cold) We convulse his constitution With an agony untold. Now instead of adding lemon 'Twould be vastly more humane. To anoint his tiny features With a sprinkling of cocaine.

When we add a pinch of pepper, Just to give the menu zest, We envelope more in suffering. That rends his tiny breast; And a touch of hot tobacco To his person, it appears Brings a gush of untold anguish That is far too deep for tears. So instead of adding sauces, That give him needless pain, Let us spray the little fellow With a dashlet of cocaine.

When all the evidence is in it appears that we humans are only humane in very scattered spots.

Women are always doing things in a way to make the men smile. In Paris the latest fashion decree is that the ladies wear overalls, and the dear creatures, in obedience to the decree, it is said, are wearing them, but under their own garments.

To say the things are not so and to state them with impressive authority is one of the chief weapons of the eugenist. Let us hope that such a failing is not hereditary.

RADIUM EMITS INVISIBLE RAYS

A Gram is Worth a Fortune—its Usually Separated From Pitchblend

Many persons are asking what radium really is, the general opinion being that it is a substance of extreme brilliancy and continually giving off vast amounts of heat to say nothing of sundry electric shocks and mysterious deaths every time it is approached in any other than the duly prescribed form.

However the general public have had so little opportunity to become familiar with it so that it is no wonder that the true facts concerning the mysterious substance have become stretched.

Radium gives off a certain amount of heat and there are certain experimenters who claim that there is a very feeble light emitted under certain conditions, but its great value is the invisible ray which comes from it, and by means of this invisible ray all the experiments and curative results so far attained have been performed.

Radium is combined with bromine in the form of radium bromide and in this condition is sold for about \$75 per milligram, or the one thousandth part of a gram, a gram being about the twenty-ninth part of an ounce.

The great source of radium so far has been a substance called pitchblend. Tons of this matter must be treated and sifted before the costly radium is separated. Other sources have been discovered and worked to some extent, but as there are very many other radio active substances found with the radium the refining is more difficult than with pitchblend. It might be interesting to know that the incandescent gas mantles, so freely used now, are highly radio active and if one is placed over a few coins or jewelry which are in turn resting on a photographic plate in a light-tight box, and the entire combination put aside for about a week, the plate may be developed and the images of the coins will be on the plate. The invisible rays have acted as light and this is perhaps the best way to understand the powers of radium. Of course radium is very much more active than the thorium on the mantles, but the mystery comes along when we consider that these rays apparently never stop.

MEANING OF "POT LUCK"

The Commonplace Phrase Originated in Limoges

The real origin of the word "pot luck" is unknown to most of the people who use it. In Limoges, France, however, one runs into potluck itself. In a certain corner of that quaint city of jostling roofs there is still segregated, much as if in a ghetto, a Saracen population, probably a remnant of the wave of Saracens that swept over Europe hundreds of years ago. Here they live in their crooked, narrow streets, following old customs handed down from generation to generation. There are many butcher shops in the quarter and outside of each steams a great pot of soup over a glowing brazier. In each pot stands a ladle as ancient as the pot.

When a customer comes with a penny, in goes the ladle and comes up full of savory broth and chunks of meats, odds and ends that the butcher had left over. And what comes up the customer has to take. One can imagine how anxiously the hungry urchin or the mother of seven must eye the inexorable ladle, and how a pretty girl might get another draw from the butcher's boy.

At any rate, "to take potluck" means to take what you get and say nothing, whether the pot is in Limoges or in the house of the man who eagerly invites a friend of his youth to dinner.

Fire-killed Spruce Useful
The manufacture of violins and sound boxes for talking machines offers two uses that have been found for fire-killed spruce timber, large quantities of which are found in the forests of the Rocky Mountains.

A maker of high-grade violins claims that fire-killed Englemann spruce is the best material he has ever found for the manufacture of violin tops. The value of the wood lies in its very light weight, its fine straight grain, and its freedom from resin. Wood for violin tops must be straight-grained and absolutely edge-grained; that is, cut at right angles to the annual rings, which for this use should show from twenty to thirty to the inch.

New Street Naming Scheme
Painting the names of streets on the cement curbing at corners instead of on pole supported signs is being tried by a California city.

TO GO BEFORE NEXT JURY

JAMES P. MARTIN, CHARGED WITH FALSE PRETENCES.

Real Estate Agent Had Preliminary Hearing—Property in Question is Outside Coquitlam, B.C.

From Friday's Daily.
James P. Martin, of London, Ontario was yesterday afternoon in Magistrate Mason's court given a preliminary hearing into the charge that on January 5th, 1912 he did unlawfully by false pretences cause and induce Mr. R. H. McCrea to make a valuable security, to wit, a check for \$600 payable to the said James P. Martin, with intent to defraud.

The deal was over "Maple Ridge" subdivision property outside of Coquitlam, some 50 acres were turned over to about twenty purchasers, including Messrs. Kerr, Huycke, Piewes, McCrea, etc. The purchasers had a member of those who made purchases, that the situation. This man in court told how he believed from his investigation that the land in question was not the three and three and a quarter miles from Coquitlam as Mr. Martin is alleged to have said but some nine or ten miles farther away, indeed more than three or three and a quarter miles east of the village of Hanev which is on this side of Coquitlam. This purchaser said he found the land not as near the trolley line as he alleges he was told, and stated that it was covered with forest, which would take \$200 to clear.

The defendant, Jas. P. Martin was committed for trial and the Magistrate took his bonds to appear at the next jury assize to stand his trial.

P. J. M. Anderson represented the crown; J. F. Wills, K.C., for complainant and Geo. S. Gibbons, London for defendant.

LOCAL LADIES WERE WINNERS

From Friday's Daily.
The Ladies Curling Club of Belleville is a proud organization today. Their representatives yesterday had the honor of winning the Ontario Curling Association Tankard at the first competition among ladies' curling clubs. All the clubs in the association were in the contest which took place at the curling rink in this city.

All day long the noise of battle rolled at the quarters of the club. Belleville's young ladies turned out in large numbers and witnessed the competition with keen interest. Among the spectators were a great crowd of men, who roundly applauded the ladies as they played.

The visiting rink was from Toronto, Peterboro and Kingston. On Wednesday evening, the local ladies played hostesses at Hotel Quinte, having a reception for their friendly rivals in the tea room.

Majority for Belleville 11

Majority for Kingston 3

Presentation

A pleasing event then occupied the attention of the ladies, and with a few days and gentlemen in the sitting room.

Mr. F. E. O'Flynn the official referee congratulated the players, particularly the local rink, and with games of the day and called upon Mr. J. A. Macfadden, vice president of the Ontario Curling Association to make the presentation of the tankard.

Mr. Macfadden said as he was the only bachelor on the O.C.A. executive he insisted upon putting up a tankard for competition. The excellence of the play throughout satisfied him of the value of such a contest. He thought that the winners of the ladies' tankard should play the winners of the men's tankard. He congratulated the Belleville ladies in winning the trophy, when it was first put up for competition. The playing showed that the best rink of curlers had won. This was the first time all the clubs had met together, applause and song by ladies, "He's a jolly good fellow."

Mrs. Lingham president on behalf of the local club and winners accepted the tankard and eight smaller, but beautiful and much to be cherished individual cups, one of which was for each of the Belleville winners.

Mrs. Lingham said the Belleville ladies were grateful to Mr. Macfadden that the trophy had been put up. She thanked those who had taken part in the competition.

Mr. O'Flynn thanked the ladies for their assistance in the referee and commented on the close competition in the consolation contest. The Kingston ladies were thereupon presented with the china.

Belleville ladies then served tea to the visitors before they took trains for their homes.

"We are proud of our ladies" was the general comment made by the gentlemen curiers.

Mr. J. Piewes of Brockville is in the city today.

BLUE AND DISCOURAGED

Mrs. Hamilton Tells How She Finally Found Health in Lydia E. Pinkham's Vegetable Compound.

Warren, Ind.—"I was bothered terribly with female weakness. I had pains and was not regular, my head ached all the time, I had bearing down pains and my back hurt me the biggest part of the time, I was dizzy and had weak feelings when I would stoop over, it hurt me to walk any distance and I felt blue and discouraged."

"I began taking Lydia E. Pinkham's Vegetable Compound and am now in good health. If it had not been for that medicine I would have been in my grave a long time ago."—Mrs. ANNA HAMILTON, R.F.D. No. 6, Warren, Ind.

Another Case.
Esmond, R.I.—"I write to tell you how much good your medicine has done me and to let other women know that there is help for them. I suffered with bearing down pains, headache, was irregular and felt blue and depressed all the time. I took Lydia E. Pinkham's Vegetable Compound and commenced to gain in a short time and I am a well woman today. I am on my feet from early morning until late at night running a boarding house and do all my own work. I hope that many suffering women will try your medicine. It makes happier wives and mothers."—Mrs. ANNA HAMILTON, Esmond, Rhode Island.

CONSOLATION

Mr. F. E. O'Flynn the official referee of the competition and vice-president of the Belleville Curling Club was so delighted with the competition that he put up a consolation prize of eight cups and a certificate of appreciation to the winners of the consolation prize. The consolation prize was won by the Belleville rink, which defeated the Kingston rink by the score of 8-6. At the close of the ninth end Miss Betts and Mrs. Robinson had tied at each Miss Betts had the last shot. Toronto won "4" and two. Had Miss Betts failed to throw the stone right into the center, both Kingston and Toronto would have been tied on the two rinks. But the Kingston rink took the situation and won the championship for the Limestone City ladies.

CIVILIAN RIFLE CLUB LOST

FOURTEENTH REGIMENT, KINGSTON, WON BY TWO POINTS.

Local Shots Not Used to Shooting Immediately After Journey—Lighting Was Different.

From Friday's Daily.
An interesting return match took place last night at the armories at Kingston between teams of the Belleville Rifle Association and the 14th Regiment. The first match had been held in Belleville resulting in a win for the Belleville boys by 51 points. Last night's match resulted in a win for the 14th Regiment by 2 points, after a very exciting finish. The result was in the balance until the last shot was fired. Our boys did not shoot up to anything like their true form, which was mainly due to the poor lighting arrangements and having to shoot immediately after a cold journey. All however enjoyed themselves immensely. The members of the 14th Regiment afterwards entertained their visitors in the officers' mess where refreshments were served. Several Belleville boys were among the spectators to see the match, including the 34th Battery boys who are at present undergoing a course of instruction at the Artillery Barracks in Kingston. Another match is being arranged to take place on the rifle butts in the early spring. Last night's scores and details were—

14th Regiment	Belleville Rifle Association
Captain Campbell 90
Lieutenant Swaine 89
Pte. Carr-Harris 89
Major Dawson 87
Lieut. D'Este 87

ALLEGED ROBBERY AT THE POINT

From Thursday's Daily.
Mike Marzoty and Ivan Mezer were arrested at Point Anne last night and brought to the city. They are charged with assaulting and robbing Andrew Zimly. Two other men who were wanted were not found. The two men come up for trial tomorrow.

IS ANTI-TREATING TO BE PROPOSED

(Special to The Ontario)
Toronto, February 13th, 1914
Will the speech from the throne to be read at the opening of the Ontario Legislature next Wednesday be forecast the introduction of an Anti-Treating Bill by the Government? It will be remembered that it was during the session of 1912, two years ago that Sir James Whitney introduced his resolution in favor of the abolition of treating in the following terms—

"That in the opinion of this House legislation to prevent and put a stop to the treating habit should be enacted and if necessary supplemented by regulations under which retail licenses are granted and sold."

During the speech in which he proposed this resolution the Prime Minister made a number of comments among which were the following—

"Surely I need not say anything of reprehension as to that ridiculous, disgusting habit of treating."

"I think it probable that if any legislation were enacted going away from the treating habit with regulations by the Department which has control of the license system, holding over the hotel keeper that he will lose his license if he disobeyed the law, it would have the effect of abolishing the treating and rendering more good service than any other measure could."

"In my opinion, as Hon. Mr. Blake says, this question of treating is the belief that legislation of this kind would in a short time kill and destroy the desire for the habit of treating and our young men and boys of the present day would grow up so that in five years from now it would never occur to them to enter upon this habit of treating because they would not see other people doing it."

"Within the last forty-eight hours it has been communicated to me by more than one man who is engaged to-day in the wholesale manufacture of ardent spirits in this Province and in the retail sale of ardent spirits, that they hope distinctly that legislation of this kind will be undertaken because they want to see the treating habit destroyed."

"The public mind of this Province has declared its opinion and is in favor of the change I have indicated."

Mr. J. Piewes of Brockville is in the city today.

SCREAMED WITH PAIN

Nearly Died With Kidney Trouble Until "Fruit-a-tives" Gave Welcome Relief and Completely Cured The Disease.

CHARLES CALVEART, Esq.

St. Thomas, Ont., April 1st, 1913
"In 1911, I was laid up with Kidney Trouble and not able to get out of my chair. The pain was excruciating and my screams could be heard in the street. I tried many different remedies without any results and I was steadily growing weaker. One day, a friend from Ottawa came in to see me and when he found me in such poor health, said he would send me a sample of 'Fruit-a-tives', which he did and I commenced taking them. They did me good from the start and in a very short time I was up and around. 'Fruit-a-tives' completely cured me and I have enjoyed the best of health ever since."

I would not have any other remedy for Kidney Trouble and would strongly advise anyone suffering from this trouble to cure themselves with "Fruit-a-tives."

It is simply wonderful, the relief that "Fruit-a-tives" gives in Kidney and Bladder Troubles. In the great majority of cases "acid uric" pain in the back, "kidney cramps" and Rheumatism, the kidneys are not actually diseased. They are merely overworked. That is, they are doing more than their share of the work of ridding the system of waste matter. In most cases of Kidney and Bladder Trouble, there is also Constipation and faulty Skin Action. "Fruit-a-tives" relieves the Kidney Trouble by obecting the action of the Bowels and Skin. This marvellous fruit medicine acts directly on the liver and kidneys and skin, and is the only medicine in the world that does act on all three of these great eliminating organs. "Fruit-a-tives" will always cure Kidney Trouble when caused by poor skin action, constipation and acid indigestion. 50c. a box, 6 for \$2.50, trial size 25c., at all dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

AUTO OWNERS MUST COMPLY

The police of the province have received a circular from the Provincial Department, calling attention to the new regulations concerning the numbering of automobiles. The regulations in part are as follows—
Owing to the fact that a great number of motor vehicles owners fail to comply with the provisions of the Motor Vehicles Act in the placing of their registration markers, the Department begs to direct attention to the following excerpts from the said Act. With a view to obtaining a more rigid enforcement of this particular section, the matter of its frequent non-compliance is being brought to the notice of the local police authorities.

The marker on the front shall be as far down and as high from the ground as may be necessary to render it distinctly visible, and the marker on the back shall be so placed that the lower edge thereof shall not be lower than the body of the motor vehicle.

Every such motor vehicle shall carry a lamp so placed as to illuminate conspicuously at all times between dusk and dawn, the number placed on the back of the vehicle.

No number other than that upon the marker furnished by the Provincial Secretary shall be exposed on any part of a motor vehicle.

The number shall be kept free from dirt and obstruction and the markers shall be so affixed that the numbers may be at all times plainly visible.

A permit shall remain in force only during the calendar year in which it is issued.

On a change of ownership of a registered motor vehicle, the permit and markers thereof shall go with the vehicle, and notice of such change of ownership shall within 24 hours be sent by the persons to whom such permit was issued to the Department of the Provincial Secretary, together with the full name and address of the purchaser, and the purchaser shall

Wore Ear Protectors
The intense cold continues although there was a tendency towards moderation. In the middle of the week visitors in town started Belleville by wearing ear protectors. They looked extremely unusual but very comfortable.

Miss Ruby Pliner of the Intelligence staff met with a painful accident yesterday, when she hid the mistake to have one of her fingers severely crushed. Medical aid was summoned and she is now doing as well as can be expected.

SISTER: READ MY FREE OFFER.

I am a woman.
I know a woman's trials.
I know her need of sympathy and help.
If you, my sister, are unhappy because of ill-health, and anxious for household duties, social pleasures, or daily employment, write and tell me just how you suffer, and ask for my free ten days' trial of a home treatment suited to your needs, with references to Canadian ladies who gladly tell how they have regained health, strength, and happiness by its use. I want to tell you all about this successful method of home treatment for yourself, my reader, for your daughter, your sister, or your mother. I want to tell you how to cure yourselves at home at trifling cost, and without any medicine. Men cannot understand women's sufferings; what we women know from experience, but know better than any doctor, and thousands have proved there is hope even for the hopeless in my method of home treatment. If you suffer from pain in the head, back, or breasts, feeling of weight and dragging down sensations, falling or dizziness, or of internal organs, bladder irritation with frequent urination, obstinate constipation or irregularity of the bowels, irregularity, bloating or unnatural enlargements, catarrhal conditions, dyspepsia, extreme nervousness, depressed spirits, melancholy, desire to cry, fear of something evil about to happen, creeping feelings, or of general feeling that life is not worth living. I invite you to send today for my complete ten days' treatment, which can be easily and surely conquered at your own home, without the expense of hospital treatment, or the dangers of an operation. Everywhere are seeking the surgeon's knife by knowing of my simple method of home treatment, and when you are cured, my sister, I shall only ask you to pass the good word along to some other sufferer. My home treatment is for all—youth or old, and restores health, vigor, and strength. It will explain a simple home treatment, which speedily and effectively cures green-sickness (chlorosis), irregularities, headaches, and lassitude in young women, and restores their plumpness and health. Tell me if you are worried about your daughter. Remember it costs nothing to give my method of home treatment a complete ten days' trial, and if you wish to health worth seeking for. Then accept my generous offer, write for the free treatment suited to your needs, and I will send it in plain wrapper by return mail. To save time you can cut off in the places that your feelings, and return to me. Write and ask for the free treatment to-day, so you may not see this offer again. Address: MRS. M. SUMMERS, Box 87, WINDSOR, ONTARIO.

PERSONAL OR RACE SALVATION?

Pastor Russell's "Movies" Teach Both Views.

THE GOSPEL IS NOT FOR SALE

Moody and Beecher Quoted by Dr. Abbott as Representing Opposing Views of Salvation—Pastor Russell Shows That Both Views Are Biblical—An Opening of Photo-Drama of Creation in Indiana's Capital City.

Ind. Feb. 15.—Pastor Russell is here, opening the Photo-Drama of Creation at Tompkins Hall. Besides the initial great expense of the beautiful and instructive drama, it must cost a fabulous sum to have it going in every place at one time—New York, Boston, Cleveland, Cincinnati, St. Louis, and here—and in Chicago and other places soon! Whence all this money for so grand a cause?—all these? Why do you not charge a dollar a seat? are the questions everywhere.

Pastor Russell's only answer is, "I cannot sell the Gospel. Jesus and His Apostles never took up collections, nor authorized begging in God's name, so far as the Bible shows. People blessed by the message voluntarily send me money to further the good work of re-establishing faith in God and the Bible amongst thinking people. In proportion as God supplies it we spend it. It must be so!"

The Pastor's text was, "God wills that all should be saved and come to a knowledge of the Truth" (1 Tim. 2:4). He declared that this salvation for all will be from the sin, sickness and death all inherit from Adam; and that it will be ushered in by Christ's Kingdom. The salvation now proposed is that of the Church, "chief" or superior salvation. However, "Second Death," will be the portion of all who prefer sin to holiness.

In the course of his sermon the Pastor said: Dr. Lyman Abbott, the immediate successor to Henry Ward Beecher at Park Street Church, delivered an address, on October 12th last, at a Beecher Memorial service, in which he stated: "Mr. Beecher was the most famous preacher in America, perhaps in the world, and the most sharply criticized. His never-failing denunciation pronounced against the prophet of whom all speak well. I was present—the year was probably 1870, though I am not sure—at an interview between Mr. Moody and Mr. Beecher, in which the former urged Mr. Beecher to leave the Park Street Church for a world-wide evangelistic tour with him. After Mr. Moody had gone, Mr. Beecher said to me: 'I should like to do it, but it is impossible. We do not agree. Mr. Moody believes that this is a lost world, and he is trying to save some from the wreck; I believe that it is the world itself that is to be saved, and that the Kingdom of our Lord and of His Christ.'"

Dr. Abbott has stated very succinctly the two views of religion which generally prevail today, and which were ably represented by Mr. Beecher and Mr. Moody. While the difference between these two views is a wide one, and seemingly the one contradicts the other, nevertheless this is not so. Both views contain an element of truth. Both views have Scriptural support. The right understanding of the Bible lies in seeing how both of these views are parts of a general whole. Whoever can get a glimpse of that general whole thereby gradually increases both his confidence in the Bible and his own faith and hope toward God. Whoever fails to get that comprehensive view remains weak in faith and uncertain in his theology. He continually recognizes a lack and continually finds a conflict between his heart and his head, between his view of the Bible teaching and his reason.

Let us note the two sides of this subject from the Bible viewpoint; and thereby satisfy and harmonize our hearts and our heads, and convince ourselves that the Story of the Cross and of the world's Redemption is the true Story of the Divine Program, and that the results will not be narrow and meager, but broad and generous.

Mr. Moody merely held to the teachings of Jesus, the Apostles and the Prophets when he declared that which God created perfect, in His own image, had been sadly wrecked by disobedience; that a curse, or blight, had come upon mankind; and that this curse, or Divine sentence of death, is behind all the tears and pain and groans, behind all the mental, moral and physical weaknesses with which we and our neighbors are surrounded. It is a matter of heredity. Instead of our condition being one of evolution from a lower to a higher plane, it is a condition of devolution from a higher to a lower plane.

The reaction from barbarism to civilization through the influence of Christianity was indeed a step upward from the depths of degradation for many, but it was not a step out of the degradation. The reign of Sin and Death still prevails. Despite our education, the heart of man is still selfish and sinful, and the human body still full of aches and pains, sighing and crying still continue. Not only have we not found a panacea, a cure-all, but despite our most persistent efforts diseases are multiplied,

and our souls growing mentally and physically weaker.

But while the Gospel of Christ has not as yet saved the world, it has proven a wonderful blessing to those who have become sincere followers of Jesus—a saintly few. To these the Gospel has not only brought peace and joy, but has shown to them "the power of God unto salvation." It has saved them from many of their weaknesses and fears. More than this, it is a preparation for a completeness of life.

It brought unto them the second blessing of Jesus, when they, according to His promise, shall experience a complete change of nature—from earthly coalition to Heavenly, from weakness to power, from humiliation to glory, from animal, or human, conditions to spirit conditions.

But Mr. Beecher's view, also, contains Bible Truth. Although the Kingdom of our Lord, although as yet every knee does not bow and every tongue confess to the glory of God, nevertheless, according to the Bible, the final outcome of the Divine Plan will include all these things. Amongst other things prophesied, the knowledge of the glory of God has not yet filled the whole earth. Not yet are all the blinded eyes of ignorance and superstition opened, nor are all the deaf ears unstopped.

The Bible explanation of the situation is that God from the very beginning purposed the permission of sin, in order to give valuable instruction to angels and to men respecting the sinfulness of sin and its dire consequences. God's Law declares, "The wages of sin is death." We were confused by the errors which crept into Church creeds during the Dark Ages, when the Bible was practically non-existent, when the bishops were supposed to be the successors of the Apostles, and when their decisions were considered infallible.

Their teaching that the dead are alive misled us, turned us away from the Bible teaching that the dead are dead. Their teachings respecting a fiery Hell and a Purgatory led us away from the Bible teaching of the final state of punishment. Now we find that the Bible Hell is the tomb, the death state; and that God in His great Plan has arranged to abolish our sentence of death by the universal awakening of the dead. All in the graves shall hear the voice of the Son of Man, and come forth.—John 5:28, 29, R. V.

The Bible teaches that God has an orderly Plan for His entire work; and that not until man has passed through six great Days from his creation, each a thousand years long, will His Week of labor, toil and strife against sickness, pain, sorrow and death be at an end. Then Messiah's long-promised Kingdom will be established. Christ shall come, a spirit being, and shall dethrone Satan, who through human superstition and ignorance has become the master of men. Satan shall be bound, and the great King of earth, though his Kingdom will be invisible to men as Satan's kingdom is invisible—because composed of spirit beings.

The grand work of the Kingdom of God (Jesus and His glorified Church) will be a work of human agencies) will be a work of Restitution. (Acts 3:19-21). As Adam fell from the moral image of his Creator, he is to have the opportunity of rising again to this image, to be redeemed by Messiah's sacrifice. The Church's salvation, in progress since Pentecost, is a salvation to a Heavenly existence, by a change of nature. But the world's salvation will consist of a restoration to perfect human nature, which will find its perfection of enjoyment in an earthly Eden, gradually becoming world-wide. Adam's death sentence was accompanied by sickness, sorrow and pain, so when the Redeemer shall apply to mankind at His Second Coming the general forgiveness and amnesty promised in the Bible, the result will be the gradual elimination of sickness, sorrow and pain. By the close of Messiah's thousand-year Reign, there shall be no more sin or death. The curse will thus gradually disappear, giving place to Divine blessing and fellowship.—Revelation 21:5; 22:3.

Many Bible students believe that the wonderful increase of knowledge and blessing in the world witnessed during the past fifty years are evidences foretold by the Bible, indicating that we are already in the dawn of that New Day of Messiah's Kingdom. The running to and fro and increase of knowledge, the wise of God, the understanding, and the imminence of a great Time of Trouble (Daniel 12:1-4, 9, 10; Matthew 24:21), point out that we are in the time of the ending of the old order of things, and the dawning of the new.

This great Time of Trouble we see approaching. According to the Scriptures, it will be all-embracing. It will include all religious systems, all human governments, nations and conditions of men, and will culminate in anarchy. Although for a time humanity will seem to be bereft of righteousness, will finally be attained, not because of human wisdom to extricate itself, but because Messiah's Kingdom will then be established. God's Word declares: "When the judgments of the Lord are in the earth, the inhabitants of the world will learn righteousness." (Isaiah 26:9.) Then will evil doers will be cut off in the Second Death, without hope of further redemption, while the obedient will attain human perfection.

Rev. Lyman Abbott outquoted Mr. Beecher as one of the first ministers to accept Darwin's theory of Evolution. No doubt this is so. A good man, broad and generous, but misled by the creeds, thought that he found in Evolution something more rational than the Bible taught. He endeavored to bridge the two together. Others have endeavored to do, only to fail; for the Bible throughout is

in direct opposition to the Evolution theory. It distinctly teaches the fall of man.

Jesus declared that He came to recover that which was lost. God sent His Only Begotten Son, that whosoever believeth on Him should not perish. St. Peter taught of the Resurrection of fallen man to his former glorious estate, in the likeness of his Creator. If Darwin's theory be correct, then Jesus, His Apostles, and all the Prophets, were astray.

But what is the Evolution hope? Briefly stated, this: That some day, through our forefathers' (or monkeys; that we have progressed in a measure, but are still perishing, as did our monkey forefathers. Under Darwin's law of the Survival of the Fittest, disease and death will gradually weed out the more stupid and vicious (as it is not doing, so far as one can see), that in the far-off future our children may attain such perfection as to know how to live forever and rightly enjoy the blessings of earthly life.

Perhaps the Evolution hope is better than none! Surely, if we are to have any hope of the things of the Dark Ages! but it must be far from soul-satisfying to all who think deeply. But the Bible hope proposes that Messiah's Kingdom shall take in the entire race of Adam, and by disciplinary instructions and encouragement shall help all the willing and obedient to human perfection. This hope for the world is beyond the special hope which is the exclusive portion of the fully consecrated disciples of Jesus.

Dr. Abbott sympathized with us in advance, saying, "There are still some isolated preachers who endeavor to persuade their congregations that Evolution is perilous to the soul, and who found their religious teaching on the old doctrines of a finished creation, an absentee God, and a pestilence-stricken world." We confess that we belong to this class. There can be no doubt that we are living in a pestilence-stricken world, and that conditions here are no such as a gracious and loving Being would provide for His intelligent creatures. Rather, as St. Paul declares, "We are all under the dominion of Death, which has prevailed since the time Father Adam was cut off from fellowship with his Heavenly Father, under the sentence of death.—Romans 5:12-21."

The condition of the pestilence-stricken world is permitted in order to carry out the teaching of the Scriptures. The Bible declares that God is allowing mankind to learn a great lesson of their own incompetence and helplessness, which will be valuable to all eternity to both men and angels; that present trials and difficulties and death will be raised for a great purpose. For six thousand years men have been learning the bitter lessons of disobedience to the laws of righteousness, and their need of help Divine. Only a few yet know that "God is Love."

But such as see the true light of God's Word, and the call of the Church to be joint-heirs in Messiah's Kingdom, and the eventual Reign of Righteousness, have a great joy and blessing. As for others, we begrudge them not whatever joy or peace they may get out of the teaching that will liberate them from the horrible nightmare of the Dark Ages.

Continuing his eulogy of Mr. Beecher, Dr. Abbott said: "But no one any longer asks sarcastically, 'So you think your grandfather was an ape?' And you say that they will venture to denounce as atheists those who believe in life as a process of Divine growth, and redemption as a process of spiritual development." We fear Dr. Abbott is right—that the learned in pulpits and pews have thoroughly lost their faith in the God who created the world, that no longer approach one another with the fact.

But is the fact any the less true for this reason? Suppose all the great minds accept the Evolution theory—that Adam was the son of an ape, and oppose the Bible teaching that he was a special and direct creation of God, the moral image of his Creator. Suppose all those decide that man never fell from perfection, and never needed a redemptor; and that all the Bible statements respecting Jesus as the Redeemer are false. Suppose the literary world that all early life is merely a development, an evolutionary process, called in a complimentary sense, "Divine growth," with the thought that quite probably there is no Divine Being, but merely some great force operating in the world, that redemption is only a higher development of the moral instincts.

What of all this? Must we accept such decisions as final? Shall we not rather take the assurances of the Bible respecting these very men of letters? Of these great scholars the Lord prophesied thousands of years ago, saying, "The wisdom of their wise men shall perish, and the understanding of their prudent men shall be hid." (Isaiah 29:14.) St. Paul declares, "The wisdom of this world is foolishness with God."—1 Corinthians 3:18-20.

Couldn't Hear It. A man who was charged in a London police court with intoxication and using bad language pleaded guilty to the first part of the charge, adding, "As to the language, I know nothing about that because I'm deaf."

Wealthiest Man in India. The Nizam of Hyderabad is reputed to be the wealthiest individual in India and one of the wealthiest persons in the world, with a personal income said to amount to \$2,500,000 a year.

Not the Same. "He says he is always outspoken in his wife's presence." "He means outtalked!"

Animals' Eyes. Horses, giraffes and ostriches have the largest eyes of land creatures, cuttlefish of sea beasts.

JUST ONE MORE WOMAN RISES

To Tell Her Sisters They Can Find Relief in Dodd's Kidney Pills.

Mrs. John Cabot. After Six Years' Suffering, Tried Dodd's Kidney Pills and Found New Life and Energy.

White Head Place, Que., Feb. 16th (Special)—One more woman has risen to tell her suffering sisters they can find relief in Dodd's Kidney Pills. That woman is Mrs. John Cabot, well known and highly respected here, and she expresses her enthusiasm in these words: "I certainly recommend Dodd's Kidney Pills. There is nothing better."

Asked to give her experience, Mrs. Cabot continued: "My trouble started in a cold, and I suffered six years' Rheumatism, neuralgia, stiffness of the joints, cramps in the muscles and heart flutters were among my symptoms, and finally Bright's Disease developed. It was then I started to use Dodd's Kidney Pills and they helped me almost from the start. After taking four boxes I feel like a new woman."

Dodd's Kidney Pills cure the kidneys. Healthy kidneys strain all the impurities and poisons—all the seeds of disease—out of the blood. Dodd's Kidney Pills are the only cure for this disease but by expiring good blood give new life and energy to every part of the body.

THE MARKETS

From Saturday's Daily. Today's early storm did not prevent a large attendance at the Belleville market. Milder weather and the prospect of an early thaw and sunshine proved strong drawing cards. Prices, however, did not change much. Butter brought the usual 32 and 33 cents per pound. Eggs sold at 40 to 43 cents per dozen. Hens sold at 10 to 12 cents per pair. Poultry were worth \$2.00 per pair. Hay was offered and sold at \$13 to \$15 per ton. Dressed beef was a little dull. The regular price per quarter was 12c for fore and 14c for hind quarters. Some lowering took place towards the close of the market. Apples and potatoes brought regular prices. Hogs are not changed at \$9 live and \$12.50 dressed per cwt.

The hide market is unchanged. Lamb Skins 90c Butchers' hides 11-12c Farmers' hides 10-12c Horsehides 3-6c Deakins 10-12c Yells 10-12c Farmers' wool pelts 40 to 80c Butchers' wool pelts \$1 The same figures rule in the fur markets. Best No. 1 mink \$4 to 4.50 No. 2 mink \$3 to 3.50 Black skunk \$1.25 to 1.50 No. 1 muskrats 20c Weasels according to size 10c to 40c

RIFLE SHOOT

Last night at the armories the Belleville Rifle Association held their ordinary practice and proved that their visit to Kingston and the scores they made were by no means their true form. The following speaks for itself: J. Doch 96 J. J. 96 J. Thompson 96 George Ellis 96 A. Haggerty 96 H. Holton 94 W. Moore 93 E. Hagan 92 J. Hurst 92 W. Ridley 84 C. O. Walker 84 E. Deshane 81 L. Gauthier 80 C. Lloyd 79 J. Woodley 72

MRS. CLINTON COMINS

On Thursday evening the death occurred of Edna J. Comins, wife of Clinton Comins of the seventh concession of Thurlov. Deceased was the daughter of Mr. and Mrs. James Parkes, Dunbar street of this city. She was born thirty-two years ago in Thurlov and resided there all her life. She had been ill only a short time in religion she was a Methodist, and took a deep interest in Plainfield church. She had many friends in this city who regret to hear of her decease. Besides the husband three children, two boys and a girl survive.

DRIVER HAD LEG BROKEN

Mr. Jack LaFee, driver of one of the Asselby buses had his leg broken last evening in an accident. He had driven a young lady from the C. N. O. R. depot to the college and returning when in making the Grier Street corner, the vehicle slid and upset. In the fall the driver received the injury. He was soon found and given attention. Fortunately no one was inside the vehicle when it upset.

ENERGETIC CLUB DANCE

Another program card has been hung on the walls of the Johnstone Dancing Academy, Alberta block. The latest organization to initiate a plan of winter dancing is the Energetic Club which last evening came up from Point Anne and held one of the most enjoyable at homes held in the city. All thoroughly enjoyed the dancing music.

Mr. and Mrs. Adam Leslie, of East Bridge street have returned from Boston, where they have been visiting their daughter, Mrs. F. A. Ashley.

The Rev. Wm. Lambert, Oakwood, President of the Bay of Quinte conference and Rev. A. M. Irwin, B.A., B.D., Camington, Secretary, were guests over night at the Tabernacle Methodist parsonage. They were returning from Nanapanee where they met the conference program committee to arrange the program of the coming conference.

SAD TRAGEDY NEAR TRENTON.

Infant Child of Mr. and Mrs. Jas. H. Turner Dies of Strangulation—Mother Apparently Demented.

(Special to The Ontario) Trenton, February 16.—Dr. Farley was summoned to the home of Mr. and Mrs. Jas. H. Turner on the Brighton road a couple of miles west of Trenton at an early hour Sunday morning when he entered the infant child about a week old was lying there dead, and the mother in a dazed condition. The child was found in a room where other small children were playing. The infant had apparently been smothered or strangled some time during the night, but an inquest will be held to determine positively the cause of death.

PETERBOROUGH MAN HAS NOSE AND LIPS GRAFTED ON FACE FROM OWN FLESH

Baltimore, Md., Feb. 16th.—With a part of his forehead substituting for a nose, Ross Allen of Peterboro, at a hospital here, seems to be in a favorable way to have practically the whole of his face newly shaped. When he entered the hospital about two months ago, with his face disfigured from an accident in a saw mill five years previously, his nose and lips were missing. A section of flesh was cut from his forehead in December and a grafting operation made the lip base. The graft was bound about the head until the grafting was complete. This occurred about two weeks, when sufficient adhesion having taken place the lip section was carved from the arm, and lips shaped. The same procedure was followed in the upper lip treatment. A section of the arm flesh being grafted across the upper lip and the arm strapped to Allen's head and shoulders until this section too, had taken hold.

DEATH OF DAVID MORTON

From Monday's Daily David Morton, a well-known and highly respected resident of Tweed, passed away very suddenly this morning after only three days illness from acute indigestion. He is survived by his wife (see Mary Ray) and a family of four sons and two daughters. These are William Charles, of Melville, Prince Edward County; Mrs. Thomas Wood, Ameliasburg; Mrs. Elizabeth Morton, of Belleville; and Miss Jane, Toronto. Deceased was the son of the late George Morton and was born at Kingston, seventy-four years ago. When he was about fifteen years of age he came with his parents to settle near Melville in Prince Edward County. He afterwards moved to Tweed where he married Mary, daughter of the late Wm. Ray. Here he followed a mercantile business for some time, but several years ago he retired to a small farm near the village. Mr. Morton was a devout member of the Presbyterian Church, and was a Conservative in politics. He was of a quiet, unassuming disposition, but held in high respect and esteem by a circle of friends on account of his many excellences of character.

PURCHASED A NEW FARM

Mr. Jerald Hanna of Rednersville, has purchased a farm east of Corbyville, having disposed of his property Rednersville and his egg business. He is now moving on his new farm.

FOUR ELDERS WERE ELECTED

The count in the election for elders for John Street Presbyterian church was handed out this morning with the following four reported as elected: J. W. Cook, P. McL. Forin, A. J. MacLaren and C. R. MacIsaac.

An Oil for All Men.—The sailor, the soldier, the fireman, the lumberman, the out-door laborer and all who are exposed to injury and the elements will find in Dr. Thomas' Electric Oil a true and faithful friend. To ease pain, relieve colds, dress wounds, subdue lumbago and overcome rheumatism. It has no equal. Therefore, it should have a place in all home medicine cabinets and those taken on a journey.

Mr. Reuben Cooper left on Saturday for Toronto to attend the Motor Show.

FORMER STUDENT AT BRIDGE ST.

A former Albert College student, Rev. Thomas W. Neal, pastor of Bathurst Street Methodist Church, Toronto and formerly of Sydney St. church, Kingston, occupied the pulpit of Bridge Street Methodist Church, yesterday, when the third Sunday of the rededication of the sanctuary was observed. Albert College students attended in large numbers. Added interest to the services was given by the appearance of Mr. Ruthven McDonald of Toronto, one of the greatest singers in Canada. The morning music included Maudslayi's anthem "Praise the Lord," Mr. Staples taking the solo parts, and the chorale "On a Path Gaze" (L. Neal) sung by Mr. Ruthven McDonald. The evening service was marked by the choir singing of Shelley's "Miss G. Price and Miss M. Hughes in the solo parts. Mr. R. McDonald sang Adams' "Babylon" and was heard in the solo work of "The Cross." The chorus being rendered by Messrs. Barrill, Cameron, Schryver, Brotherhood and Staples.

The evening sermon was based on Joel 2-28 and dealt with details. It is more than 2000 years since the obscure Hebrew prophet brought this message to the Jews, who have always faced the future and the sunrise. Joel sought to inspire them with the ideal of the Golden Age. Ours is the Golden Age. It began at Pentecost. To be living is sublime. Dreaming, aspiring, creating ideals this means progress.

"Are you willing to make some sacrifice for your principles? Is your life to be one of ease and leisure?" If we have no great future calling us, then our work is finished. But if young and old are ready to sacrifice time and blood for the kingdom there is hope for our world. Jesus, Plato, Moore and Sidney had unselfish aims. Where ideals are lacking, the people cease to resist. Today we hear of the lowering of the people's convictions, and the loss of their ideals. "Are you facing Babylon (slavery) or Calvary (consecration)?" The man who follows the green will always realize his best self. The old Greeks filled the market places with beautiful statues, which had influence on the lives of the people. If we follow false ideals, we shall become wreckers along the shore. "What ideals do young women hold up for young men?" asked the preacher. "The young men rightly asked: 'What kind of woman is she who is to make ideals for men?'"

She is not the new woman. She is not the militant suffragette. We have no place for this kind in Canada. Our noble Canadian women, great hearted and seeking to lead to the best, the ideals of a man's mother, sister, or his heart's best friend holds before him, "may hold him in the evil day when the appeal of Babylon comes." Women have power to mould. There are some women interesting for a half hour, some a whole day, others an entire lifetime. The letter, those who inspire for a file time, are those who mould in the lives of men. A woman discovers a man to himself. Her influence is not negative but positive. Sometimes we fail to see the best in womanhood. Some today are jealous of her position in life. Almost everything. But many of these activities have been taken over to the home and given over to the factory and shop. Women have simply been following the change.

RECEIVED VERY BAD CASH

While engaged in playing hockey with the Midgates against the O.S.D. on Saturday morning, Mr. Harry Hunter unfortunately received a bad gash over the eye which required medical aid.

NORTHPORT

Northport.—The Orangemen held their annual entertainment in their hall last week. All who attended report an excellent program. Mr. Wetherall, our pastor, made a few timely remarks and made an excellent chairman.

Those who braved the storm to attend the Big Island entertainment given by a number of Shanahonville people received a rare treat. Mr. Stuart of the provincial government addressed the members of the Northport Egg Club the other evening. The topic was "Sorting, Packing and Marketing Eggs."

We are sorry to hear that Mr. B. F. Wilson is on the sick list. Mrs. Frank Williams and daughter Nora are visiting at Mr. H. David's.

Mrs. Will Potts is visiting at the home of Mrs. Thomas Mills. The directors of the Northport Cheese Co. have hired Mr. F. D. Brennan of Deseronto to make cheese for the coming season.

TAKES FINE POSITION

Mr. Percy G. Robbins for two years musical director of Griffins Opera House, here in Belleville, has accepted the fine position offered to him in Marcu Loew's Million Dollar theater in Toronto. An organ costing \$100,000 is to be installed which instrument, Mr. Robbins is to command.

Mr. Harry C. Good of the Harry C. Good Company, Printers, King Street, Toronto, was in Belleville over the week end. He is a graduate of The Ontario Office.

SINCLAIR'S

PARCEL POST

Brings Sinclair's Big Store Right To Your Door

THE month of February, 1914, goes down in Canadian History as marking the introduction of Parcel Post in this Great Dominion of ours, and while this is generally recognized as a great forward movement, bringing closer together City and Country life, making possible an easy exchange of products, which in turn means reducing the high cost of living. To the Rural Sections it means easy access to the great Shopping Centers, and in this connection we take pleasure in announcing the fact that whether you live one mile or hundreds of miles from Belleville, Parcel Post brings our store, with all its shopping advantages, directly to your door, and in order to make shopping easy for those who do not reside in Belleville, we will, from this date pre-pay full postage on all goods purchased from our store by Mail Order.

Our store is a Woman's Store, we carry no men's goods of any kind, but in our lines of Staple and Fancy Dry Goods, Ladies' and Children's Garments, we present a collection of strictly up-to-date goods that cannot be surpassed.

One of the largest Departments of our store, and one that the Parcel Post System enables us to place directly at your service, is our Dress Goods, Silks, Velvets, Laces and Dress Trimmings, which we believe to be the largest in Central Ontario.

Our store has a reputation for Dress Goods, Silks, Dress Trimmings, etc., and a Post Card or Letter from you, with a request for samples will receive an immediate reply. And should you make a selection from samples sent you we will Pre-Pay Postage on your Parcel to any address in Canada.

CALL TO STIRLING SOME PILE OF PEANUTS SUSTAINED.

A pro re nra meeting of the Presbytery of Kingston was held in St. Andrew's church, Belleville, today at 11 o'clock. There were present Revs. Cameron, Currie, Graham and Kerr, ministers; and Messrs. Wm. Claxie, and D. V. Sinclair, elders. The principal matter of business was a call from the congregation of Stirling to Rev. J. T. Hall of Swansea in the Presbytery of Toronto, offering a stipend of \$100 and a manse. The call was sustained and ordered to be forwarded to the clerk of Toronto Presbytery with instruction to expedite its transmission. Arrangements for induction will be made at the stated meeting on March 3rd, in Kingston.

AEROPLANE EXHIBITION

The Canadian Aeroplans Exhibition in which the locally manufactured Military Biplane is on view, is still in progress at the city hall. Wednesday February 18th, is the last day of the exhibition.

TO PLAY IN CAMPBELLFORD

A hockey team representing the Bridge Street Church Athletic Club goes to Campbellford tonight to play. A return game will be played here on Friday evening.

FURNISHES COSTUMES

A recent issue of the Rochester Evening Times contains a cut of Mr. Lew Clement, a former Belleville boy, who never forgets the reunions. Mr. Clement is furnishing the costumes for the Eagles Show tonight at Rochester. A fund of \$30,000 is being raised by a committee and \$20,000 has been subscribed.

Mr. and Mrs. Bard Phillips and Master Harry and Miss Manie were the guests of friends in the city over Sunday.

Mr. G. C. Dupran, Holloway St. is making very satisfactory progress towards recovery from a recent severe attack of pleurisy.

The oldest horse in Prince Edward County, an Indian Arabian pony, died a few days ago near Picton. It was forty-one years of age.

Mr. and Mrs. P. Burken and little son, Leo left Saturday evening for Port Hope after spending a couple of weeks with relatives in this city.

Watch Gone Wrong?

Leave it at our Repair Department where it will be put in first-class order, and carefully adjusted.

Special attention given to resetting of Diamonds and other precious gems.

Angus McFee

216 Front St.

I believe in a permanent agriculture, a soil that will grow richer rather than poorer from year to year. I believe in 100-bushel corn and 50-bushel wheat, and I shall not be satisfied with anything else. I believe that the only good weed is a dead weed, and that a clean farm is as important as a clean conscience. I believe in the farm boy and in the farm girl, the farmer's best crops and the future's best hope. I believe in the farm woman, and will do all in my power to make her life easier and happier. I believe in a country school that prepares for country life, and a country church that teaches its people to love deeply and live honorably. I believe in community spirit, a pride in home and neighbors, and I will do my part to make my community the best in the province. I believe in the farmer, I believe in farm life, I believe in the inspiration of the open country. I am proud to be a farmer, and I will try earnestly to be worthy of the name.—Frank L. Mann.
