CREDIT RATES OF PREMIUM.

THE great and decided success which has attended this hastitution, has induced the Directors to REDUCE the RATES originally required in British North America, to the ordinary European Rates. The result of such Reduction is to enable parties to avail themselves of the inpoportant benefits to Life Assurance at smark lower Rates of Premium than those of any other Assurance Company I mustiful business in Canada.

The Directors have also resolved to extend to British North America the advantages afforded by the HALF CREDIT RATES of PREMIUM which have been so highly approved, and are so generally adopted by Policy Holders in the United Kingdom. The most liberal conditions are likewise offered to the Assured in the limits to which they may proceed by sea or land, to other parts of North America without affecting their Interest in their respective Policies.

BALLONING —The mania for air navigation access to have become universal. The two ascensions of Measrs. Bizio and Barral, for seven ific purposes, and M. Poitevan's a sal excursion, with a pony, have been described in the papers at great length. Dr. Gale went up at Paria, with three other persons, and bad a successful wowage for five or six leagues. At London, Mr. Green d. siring to emulate the aspiring jockey of Paria, ascended with a poney weighing two hundred pounds; but before a magnificate we complaint of some benevotent person belonging to a society for the prevention of cruelty to animals. A physician testified that the vogage would not be likely to endanger either the life or the health of the poney, and in view of this testimony, Mr. Green was allowed to proceed.

Woman, was Rayous En.—The mind of woman is peculiarly constituted, and exquisitely adapted for influencing the finer parts of man's nature; and when the heart of man is dead to that influence, it is dead to almost every higher and puter feeling, which alone distinguishes him from the heasts of the forest. As good women are the beasts of the forest. As good women are respected by the men of the age, so may, from time to time, to time, be traced, by an unersing measure, the degree of civilization to which that age has attained. We do not mean by respect, the senseless adulation—the outward adulation displayed towards women during the middle ages, but a deeper, a more lasting, a more valuable kind of respect.

Canal AT THE SAULT ST. Marie. The American Senate has passed a bill making an ap-propriation of 500,000 acres of land towards the Canal AT THE SAULT ST. MARIE.— The American Senate has passed a bill making an appropriation of 500,000 acres of land towards the expense of cutting a canal at the Sault St. Marie, by which the whole of Lake Superior, with its wast mining regions, would be opened up to the shipping from the lower Lakes. The distance to be out is about a mile, and the lail to be overcome is only about 22 f-v!, the ground presenting no formidable difficulties in making the excavation. The completion of this work will necessarily facilitate the commerce and settlement of the Fax West, and the prospect of it adds another to the many reasons which already exist for the construction of a retiway from Toronto to Lake Huros.

A RAILBOAD ACCIDENT.—About 7 o'clock Sunday evening, as a locomotive belonging to the Harlem Railroad Company was backing down the track near 34th street, for the purpose of being attached to a train, a man named Richard Troy was intexted and staggered against the engine, and fell under the wheels, which partially passed over his leg and crashed it in a shocking manner. Several of his bones were fractured, and he was conveyed to the City Hospital.

is equally wrong in stating, that " Dr. Fulford comes accompanied by a Clerical Staff,"—not a single Clergyman, not even a Chaplain, having accompanied him from England. As to the "bridle upon his Clergy," we are not aware that they want to be "reined up," for to confinue the stable metaphor of our contemporary, we don't know that any of them are inclined to "jib" or "kick over the traces." As to "Convocations of the Clergy," the man is a donkey of the longest ears to imagine any such thing; we have 'lived some years in this country, and happen to belong to the Church of England, but we never yet heard of any such thing as a "Convocation of the Clergy" in this Diocese, or of any while demands a more than the provinces.—N. FIRE! FIRE!! FIRE!!!;

IT is not generally known that a few of Armstrong's Patent PORTABLE FIRE ENGINES, improved by "Camparell," are still on hand. Their utility requires no puff—witness the saving of Messrs. Gillespie, Moffatt & Co.'s stores at the late great Fire in Griffintown; also the house of E. R. Fabre, Esq., our worthy Mayor, at the awful conflagration on Friday night last—both owing to these useful, simple, and economical instruments. Their Power and Utility will be tested before purchasing, by the owner.

Unlike the heat of peralcious quackeries which boast of vegetable ingredients, the LIFE MEDI-CINES are purely and solely vegetable; and contain meither Mercury, nor Antimony, nor Arsenic, nor any other mineral, in any form whatever. They are entirely composed of extracts from rare and powerful plants, the virtues of which, though long known to several Indian tribes, and recently to come eminent plants, the virtues of which, though long known to several Indian tribes, and recently to come eminent plants, the virtues of which, though long known to several Indian tribes, and recently to come eminent plants, the virtues of which, though long known to the ignorant pretenders to medical acience; and were never before administered in so happily efficacious a combination.

The first operation is to loosen from the coats of the stemach and bowels affeces which collect in the convolutions of the small intestines. Other medicines only partially cleanes these, and leaves such collected masses behind to produce habitual Costiveness, with all its train of evils, or sudden Diarrhem, with its imminent dangers. This fact is well known to all regular anatomists who examine the human bowels after death; and hence the prejudice of these well-informed men against the quack medicines of the age. The second effect of the VEGETABLE LIFE MEDICINES is to cleanes the kidneys and the bladder; and, by this means, the liver and lung, the healthful action of which entirely depends upon the regularity of the urinary organs. The blood, which takes its red coler from the agency of the fiver and lung, before it passes into the heart, being thus purified by them, and nourished by food coming from a clean stomach, courses freely through the veins, renews every part of the system, and triumphantly mounts the banner of health in the blooming cheek

DYSPEPSIA, by thoroughly cleaning the first and second stomachs, and creating a flow of pure healthy bile, instead of the stale and acrid kind; FLATULENCY: Loss of Appetite, Heartburn, Headas..., Restlessness, Ill-temper, Anxiety, Languor, and Melancholy, which are the general symptoms of Dyspepsia, will vanish, as a natural consequence of its cure.

Costiveness, by cleaning the whole length of the intestiner with a solvent process, and without widence: all violent purges leave the bowels costive within two days.

the intestiner with a solvent process, and winder violence: all violent purges leave the bowels costive within two days.

Diar, see and Cholera, by removing the sharp acrof fluids by which these complaints are occasioned, and by promoting the lubricative secretion of the mucous membrane.

Fewers of all kinds, by restoring the blood to a regular circulation, through the process of perspiasion in such cases, and the thorough solution of all intestinal obstruction in others.

The Live Madicines have been known to cure RHEUMATISM permanently in three weeks, and GOUT is half that time, by removing local inflammation from the muscles and ligaments of the joints.

Dropsies of all kinds, by freeing and strengthening the kidneys and bladder: they operate most delightfully on these important organs, and hence have ever been found a certain remedy for the worst cases of GRAVEL.

Also Worms, by dislodging from the turnings of the bowels the slimy matter to which these creatures adhere.

Ten ony of Mr. NATHAN MATHEWS. a highly respect ble and wealthy citizen of Newark, N. J. Dr. G. W. HALSEY:—I believe your Forest wim: and Pills have been the means of saving my life. When I commenced taking them, I lad at the point of death, with Dropsy, Piles, and Sathman. My Physicians had given me over as past cure, and my family had lost all hope of my recovery. White in this deadth station, your Forest Wine and Pills were procured for me, and before I had finished the first bottle of the Wine, and box of Pills, I experienced great relief; my body and limbs, which were greatly sacilen, became sensity reduced. Hopes of my recovery began now to revive, and after continuing the use of your medicines for about a month, the Piles and Asthma were completely cured. The Dropsy, with which my life was placed in such great danger, was also nearly gone. I have continued the use of your Medicines until the present time, and now enjoy as perfect health as ever I did in my life, although I am more than saxty years of age. I ascribe my recovery entirely to the use of your excellent Medicines. Dr. Halbert—Dranding to remove a disease of the Liver, from which I have suffered severely for opwards of ten years; and, having adhered cleenty to the directions which accompany the M. dicines, I have recovered my health, notwithstanding all who knew me thought my case incerable. Previous to taking the Wine and Palis, I had recourse to the best medical teatment, but continued to grow worse to an alarming degree. Some of my triends spoke despirit gly of my case, and tried to persuade me from making use of any advertised remedies; and, I doubt not, but what there are handre's who are desmaded from taking your examplements. But, what a pity it is that the deception of the property of the property of the second of the second of the property of the second of the property of the property of the second of the deception of the property of the second of the second of the property of the property of the property of the second of the property of the prope and being cared by your excellent remedistiumanly speaking, they have saved my life; when I commenced making use of them, I was in a wretched condition, but began to experience the good effects in less than three days; and, in six weeks from the time I purchased the Medicines, to the grant surprise of all my friends, I was entirely cured, and had increased filten pounds in weight, having taken one box of the Filis and two bottles of the Wine. Would to God that every poor sufferer would avail himself of the same remedies! would avail himself of the same remedies!
