NEWS FROM ABROAD.

EUROPE.

Albert Grant has filed a petition in bankruptcy. Liabilities, \$691,993.

A German loan of seventy million marks will shortly be placed on the market.

The Prince is unwell, having an attack of asthma. Prince Gortschakoff is seriously ill.

Derry Linn theatre is closed because the performers refuse to agree to a reduction of wages.

The Porto has agreed to pay Russia half a million francs for the cost of Turkish prisoners.

A Copenhagen despatch says a diplomatic rupture between Germany and Denmark is probable.

The Full Mail Gazette says it is reported the Government intends to appoint the Duke of Devonshire as Viceroy of Ireland.

A Dublin despatch states that the Catholic bishop informed the Lord Lieutenant that the Catholics were to be allowed to hold public meetings.

It is reported that the Emperor of Austria has offered the Duke of Cumberland as a bride for the Duke of Cambridge.

The Berlin National Gazette says it is highly probable that the remarkable attitude of the Danish Court at the Duke of Cumberland's marriage has prompted Germany to ask Austria to abrogate clause five of the Treaty of Prague.

A group of English financiers through Sir A. H. Lydell, British Ambassador at Constantinople, have offered the Porte a much better financial scheme than that offered by the French syndicate.

The marriage of the Duke of Windsor and the Duchess of Devonshire is expected to take place at Windsor Castle early in the month of March.

Several of the state apartments of the palace have already been put in readiness for the royal wedding, and other preparations will be made prior to the ceremonial.

A Berlin despatch says there is a credible rumour that Dr. Falk, Minister of Public Worship, has proposed, and the Emperor has accepted, a scheme of reconciliation making France, instead of South Germany, the centre of gravity in ecclesiastical affairs.

The Legal Committee of the German Federal Council have finished consideration of the Parliamentary budget bill.

They have so far eliminated its most objectionable clauses and otherwise softened its harshness until it is scarcely regarded as likely to test the present disposition of the Austrian Government.

These reports are regarded as favourable, and it is believed that the attitude of Russia will, on an English point of view, be a most satisfactory one.

A Rome despatch says:—The completion of the straitened condition of the political situation in Italy.

Sunday energetic appeals were made from the pulpits in all the parish churches, which followed by special collections after mass and vespers.

The work has been undertaken by the Confraternity of St. Peter's, its members being assisted by a large number of Catholic gentlemen who attended the service.

Amid the reports of deactivation, strikes and bad trade received from England, it is pleasant to perceive any hopeful sign.

Remuneration has been circulated that the Budget would reveal an enormous deficit.

On this point the London Times, received by the last mail, declares that if political difficulties are settled and peace brought about, there seems also a fair chance that the balance may be inclined favourably.

It adds that the fact that the same taxes as now, the revenue next year will be close on \$24,000,000 against a probable deficit of \$23,000,000.

It is stated that the fact that the Army and Navy estimates are cut down, proves the financial situation to be very far from desperate.

UNITED STATES.

John Gough, the well-known lecturer, is ill with bronchitis.

The Utica Daily Republican suspended publication yesterday.

The President has received numerous congratulations upon the confirmation of the Custom House nominations.

Revenue agents report that a large number of the basements of a restaurant in New York, have been used for the storage of opium.

Gov. Talbot, in his message to the Massachusetts Legislature, reviews the decay of the fishing industry in consequence of the treaty with Great Britain, and calls for an investigation.

The venerable poet and essayist, Richard Henry Dana, died on Sunday morning, aged ninety-three.

THE ZULU WAR.

Advance of the British Troops.

CAPE TOWN, Jan. 14.—No answer having been received from Outway, the Zulu king up to the 11th, the British advanced to his territory the next day.

They encountered no resistance. It is reported Outway is hampered by the peace party.

It is expected that feeble resistance will be made.

THE AFGHAN CAMPAIGN.

Abandonment of Kabul—Obstacles to the Advance—The Russian Position—The British Position—The Russian Position—The British Position.

LONDON, Jan. 20.—A Kabul despatch says Gen. Roberts had no success against the Afghans, and that the British had abandoned Kabul.

**Medical.**  
**Whitcomb's Remedy**  
FOR  
**ASTHMA,**  
Rose Cold and Hay Fever.

The late Jonas Whitcomb of Boston, visited Europe a few years since for the benefit of his health, which was impaired by frequent attacks of *Sporadic Asthma*. While under the treatment of an eminent German physician his asthma disappeared; he procured the recipe which had done so much for him. This remedy has been used in thousands of the worst cases with astonishing and uniform success. It contains no injurious properties whatever.

**TESTIMONIALS.**  
ST. LOUIS, Mo., Nov. 10, 1877.  
Messrs. J. BURNETT & Co.:  
I have used your *Whitcomb's Remedy* for my asthma, and I have in no case found any relief until your Remedy came to hand. I most cheerfully recommend it to anyone troubled with Hay Fever or Asthma, for it is the only remedy ever used by me with any good effects.

**VOL. VII. NO. 358.**

**THE PLAGUE IN RUSSIA.**

The pestilence brought from Turkish battlefields.

**A SOLDIER'S FATAL GIFT.**

VIENNA, Feb. 3.—The Medico-Chirurgical Central Blatt states that the origin of the pestilence in Russia is as follows: A Cossack, returning from the war to West-Prussia, brought his lady-love a shawl, which was probably part of his spoil. The girl wore it two days, and died of the symptoms of the plague and died. During the following four days other members of the family died, and the disease spread rapidly, but the local authorities did not pay any attention to it till the inhabitant who had died and whose remains were unable to bury the victims. The epidemic had assumed serious dimensions by the 24th November, but the Government only informed officially on the 14th December.

The pestilence has since spread to the district of the Danube, and is now spreading in the district where it reigns and others which are healthy, a double cordon is being formed, firstly, in the towns and villages, shutting off streets where the plague reigns, and secondly by surrounding the places with troops, so that nobody is allowed to pass. Quarantine also being instituted at the border of the infected districts. The population is to take an active part in preventing the crossing of the sanitary line. The panic in Russia is almost incredible. People of every class and station have petitioned for the entire cessation of all intercourse—even of postal communication—between the west of Russia and the Volga. Letters sent from the Astrakhan and Tauris are not received by the persons to whom they are addressed. Some people even refuse to take paper money.

A Berlin correspondent says Russian railway cars are no longer admitted to German territory. The export of grain from Poland will suffer severely from this restriction. The Russian Government is discussing the expediency of prohibiting the transit of Russian provisions sent to the Balkan army. The Russian sanitary commission has proposed to shut off the Volga line from all intercourse with Russia and to permit communication only under quarantine.

The Porte announces that Russian ports are to be quarantined against Turkish ports on the European coast of the Black Sea. The East Roumelian Commission has proposed the same measure against the coast of the Dobruja and issued regulations identical with those put in force by Austria in regard to traffic, and the importation of goods across the Russian frontier.

BERLIN, Feb. 3.—An imperial decree establishes strict passport regulations for persons entering Germany from the east within twenty days; all clothes and baggage must be disinfected.

PARIS, Feb. 3.—In consequence against the plague are being taken at Marseilles and other ports.

ST. PETERSBURG, Feb. 3.—A detachment of infantry are marching to reinforce the military cordon, which is a thousand miles long, around the district infected by the pestilence.

BUCHAREST, Feb. 4.—A regiment has started from this place and another from Galatz for the formation of a sanitary cordon on the Russian frontier.

VALPARAISO, Feb. 4.—A rumour of an outbreak of the plague in Chile, in consequence of demonstrations here, which were quieted by the announcement that the Government had ordered the quarantine of one of all arrivals from the Black Sea.

BERLIN, Feb. 4.—It is stated that according to an investigation by the Prussian authorities, the plague existed in Astrakhan since May, 1877. Even paper money in the district has been ordered to be burned.

LONDON, Feb. 4.—A Berlin despatch says—It is reported that Germany and Austria are preparing to call England's attention to the danger of the unrestricted admission of imports from Russia.

**A NEW SOURCE OF GRAIN SUPPLY.**  
Siberia likely to be a formidable competitor for the wheat of the West.

LONDON, Feb. 3.—The *Pall Mall Gazette* says—in consequence of the discovery of a sea route to Siberia, two schooners were built at Tjumen. One sailed last August laden with wheat to St. Petersburg, and arrived at the mouth of the River Obi on September 3rd, after which she proceeded to London and Constantinople. The other is likely to be a formidable competitor with American and even with Russian wheat, as it may be sold in London, including freight, for 90 cents per bushel, while Russian wheat costs 108 cents and American wheat 110.

**Home Rules in Council.**  
DUBLIN, Feb. 4.—At the meeting of the Home Rule League to-night, several Home Rule members of Parliament were present. The extremists violently attacked Dr. Butt. The resolution, which the latter threatened to regard as a declaration of want of confidence, was rejected by 34 to 22. It is reported Dr. Butt is dissatisfied with the closeness of the division.

**The Zulu War.**—The English will have some tough fighting at the Cape before they subdue the Zulus, led by Cetewayo. No potentate in Africa takes greater pride in his military array than the Zulu King. It is as much a hobby with him as it is with some Indian princes to maintain a large army in as efficient a condition as circumstances render possible. Since his accession to the throne the rudiments of drill have been introduced into the Zulu host, and the greater number of his troops carry arms of precision. Lord Chelmsford, the present Commander-in-Chief at the Cape, has just published a pamphlet which gives the numerical strength of the Zulu army as a little over 40,000 men, without including segments of veterans. Following the German plan, Cetewayo passes the male population of his kingdom through the ranks. Enlistment commences at fourteen or fifteen years of age, and it would appear that the army, once enrolled, being permanently to the army, for it is stated that no soldier is allowed to marry until he is forty years old, being more than twenty years from the date of enlistment. The regular troops are divided into thirty-three regiments, extending to seven veteran battalions, eighteen regiments being composed of married soldiers and fifteen of bachelors. At present, Lord Chelmsford has no more than 14,000 men under his command, a large portion of whom are, unfortunately, saying he has orders to hold him. If the United States Attorney will decide him by the force of the set Sheriff will take him by force.

An attempt is being made by several American journals to deny the existence of pleuro-pneumonia among American cattle.

**NEWS FROM ABROAD.**

**EUROPE.**

Albert Grant has filed a petition in bankruptcy. Liabilities, \$681,993.

A German loan of seventy million marks will shortly be placed on the market.

The Car is unwell, having an attack of asthma. Prince Gortschakoff is seriously ill.

Henry Lane theatre is closed because the performers refuse to agree to a reduction of wages.

The Porte has agreed to pay Russia half a million francs for the cost of Turkish prisoners.

A Copenhagen despatch says a diplomatic rupture between Germany and Denmark is probable.

The *Pall Mall Gazette* says it is reported the Government intend to appoint the Duke of Connaught Viscount of Ireland.

A Dublin correspondent states that three Catholic bishops informed the Lord Lieutenant of Ireland that the Catholics were willing to accept any fair compromise.

It is reported that Bismarck suggested a treaty with Austria abrogating the effects of a treaty of Prague as soon as the betrothal of the Princess Thyra to the Duke of Cumberland was made known.

The Berlin *National Gazette* says it is highly probable that the remarkable attitude of the Danish Court at the Duke of Cumberland's marriage has prompted Germany to ask Austria through clause five of the Treaty of Prague.

A group of English financiers through Sir H. Lydell, British Ambassador at Constantinople, have offered the Porte a much better financial scheme than that offered by the French syndicate. They also include in their offer of a loan of twelve millions.

The marriage of the Duke of Connaught will, it is expected, take place at Windsor Castle early in the month of March. Several of the state apartments of the palace have already been in readiness for the Royal nuptials, and other preparations will be made prior to the ceremonial.

A Berlin despatch says there is a credible rumor that Dr. Falk, Minister of Public Worship, has proposed, and the Pope has accepted, a scheme of reconciliation making Prussia, instead of South Germany, the centre of gravity in ecclesiastical affairs, and detaching the sees of Metz and Strasbourg from the Church of France.

The Legal Committee of the German Federal Council have finished consideration of the Parliamentary gagging bill. They have no far eliminated the most obvious clauses and otherwise softened its harshness until it is scarcely recognizable. The bill is a disgraceful and a disingenuous attempt to suppress the press.

The difference between Russia and Roumania respecting the proprietorship of a fortress on the outskirts of Silistria is regarded as likely to test the present friendship of the Austrian Government, which supports the delimitation of the Dobruja frontier against Roumania.

There is good reason to hope that the attitude of Russia will, from an English point of view, leave no ground for criticism or reproach.

A Rome despatch says—In consequence of the strained condition of the political relations between Russia and the European powers, an attempt has been made to secure the withdrawal of Russian troops from the Balkans.

**THE ZULU WAR.**

**Advance of the British Troops.**

CAPE TOWN, Jan. 14.—No answer having been received from Cetewayo, the Zulu king, to the British advance, the British troops are expected to be in the neighbourhood of the Zulu king's kraal by the end of the month.

The Marine and Fisheries Department is in receipt of an invitation from Berlin asking the British Government to send specimens of Canadian fish and fishing implements to an exhibition under the patronage of the Crown Prince, to be held in Berlin in 1880. It is hardly likely that the Government will feel disposed to make the necessary outlay unless circumstances should render an acceptance of the invitation fitting.

DEFALCATIONS BY INLAND REVENUE OFFICERS.  
It is with regret that it is announced that in Nova Scotia, one of the collectors of Montreal, two other collectors of Inland Revenue are in like circumstances. Both were in Nova Scotia. One had been suspended and then returned to his camp. The other has found good security for his delinquency, but has been seen in the public service. In all these cases the parties have been long-landed partisans of the Grity party, and their exposure and dismissal is a singular commentary on the claim of some of the Opposition papers that the Grity party are the only party to have been dismissed or would be dismissed by the cruel Tory persecutors. How many more honest people remain to be discovered will be seen in due time.

A SIGN OF THE SESSION.  
OTTAWA, Feb. 4.—The question of the moving and seconding of the Address in regard to the railway, was the subject of public life. This is the crowning sign of an approaching session. The names of the members of the House of Commons are being announced in the order of the session.

NO AWARDS HAVE YET BEEN MADE in the matter of the Pacific railway contracts. The usual crop of slanders is being raised.

THE RUMORSPREADER.  
Of course there is correspondence going on in regard to the action of the Government in relation to the railway. The Americans do not like it. The railways do not like it. Those who business may be affected do not like it. But the necessity of the case overrides all minor considerations. It is not improbable that all the business of the railway will be transferred to the Intercolonial railway, and such a guarantee of the healthiness of Canadian stock as to be of the highest value commercially.

THE SUGAR QUESTION.  
Messrs. Drummond, Reipath & Dutton have seen the Finance Minister in relation to the vetoed question of sugar. Also the Minister has seen a good representative of the importing interest. What passed is not to be published. It is, however, reported that the Finance Minister will give his best attention to the task of reviving a great trade and establishing a most profitable industry.

OTTAWA, Feb. 5.—Hon. Mr. Brecken, of Prince Edward Island, will move the reply to the Address at the opening of Parliament. Mr. Joseph Tass, of Ottawa, will be the second.

THE RUMORSPREADER.  
Correspondence between the three Governments in regard to the railway has not been of necessity necessarily interfere with the railway business, and of course some compromise will be reached. It is, however, reported that the Finance Minister will give his best attention to the task of reviving a great trade and establishing a most profitable industry.

THE PEMBERA BRANCH.  
The Globe, in a telegraphic paragraph concerning the running of freight and passenger trains on the Pembina Branch, as referred to in the *Mail's* Victoria correspondence, says—

This difficulty, instead of reflecting on the administration of Mr. Mackenzie, is rather the contrary effect, for it would have been obvious had the Conservatives been in power that a proposed agreement to be entered into between the Canadian Government and the St. Paul & Northern Pacific Railway, which would have carried the line over the thirty-three miles between Emerson and Winnipeg, but over the whole of the Pembina Branch, would have been a very large and profitable business.

The Globe is not aware that the "difficultly" can hardly have arisen from the fact that the Pembina Branch is a branch of the St. Paul & Northern Pacific Railway, which would have carried the line over the thirty-three miles between Emerson and Winnipeg, but over the whole of the Pembina Branch, would have been a very large and profitable business.

**DEATH OF DR. DUNCAN CAMPBELL.**  
Because of an Emminent Physician.

By the death of Dr. Duncan Campbell, which occurred at half-past two o'clock on Wednesday afternoon, Toronto loses one of its oldest, most generous and friendly citizens. About three months ago the affection of the heart, which he himself and those who were attending him had reason to believe would prove fatal. He was born at Edinburgh in 1811, and came to Canada about forty-five years ago, settling in the town of Niagara, where he remained some time. About 1850 he, with his family, came to this city and took up his residence. A man of great learning and aptitude in his most responsible position, he soon became known as an able practitioner, and established a very large and lucrative business. He was a member of the Royal College of Physicians and Surgeons, Edinburgh, taking his degree in 1833, and some years afterwards was elected a member of the General Council of the University of Edinburgh. The Western Homoeopathic College of Ohio complimented him by conferring a degree upon him. In 1859 he was elected President of the Homoeopathic Society of Toronto, and held the position with honor for ten years, when he resigned. Becoming a member of the Ontario Homoeopathic Society in 1874, and held the position until last year, when he was elected President. He was known as the actor's friend, because of many acts of kindness which he performed for unfortunate members of the profession, many of whom have reason to thank him for helping them on their way. Surrounded by the members of his family and friends, he passed quietly away at the "indivisible country," leaving behind him a reputation for skill, energy and humanity, and a commendation of all who enter upon the profession he followed.

**Age of Enlightenment.**  
In an age of enlightenment like the present, the value of electricity, and of compounds containing an electric principle as remedial agents, is widely appreciated. Foremost among the latter, both as regards the thoroughness and safety of its effects, and the rapidity of its action, is THOMAS' ELECTRIC OIL. A widely popular external and internal remedy for coughs, colds, sore throats, asthma, croup, and other affections of the breathing organs; an invaluable outward specific for lame back, soreness and contraction of the muscles, and every variety of sore or hurt; a prompt source of relief for pain, and a medicine upon which the public can also implicitly depend in cases of rheumatism, neuralgia, piles and kidney complaints, inflammatory affections, dysentery, and every other ailment. Its persistent use eradicates the most obstinate of the disorders to which it is applied. Physicians need not be in the highest terms. Moreover, horsemen and stock raisers administer it with the greatest success for distempers and starts of horses and colic of all kinds. Ask for Dr. THOMAS' ELECTRIC OIL. See that the signature S. N. Thomas is on the wrapper, and that the name Northrop & Lyons are blown in the bottle, and take no other. Sold by all medicine dealers. Price 25 cents per bottle, only by Northrop & Lyons, Toronto, Ont.

**Notre-Electric—Selected and Elected.**  
A Public Singer, and a member of the "British Operatic Association," London, England, "I have derived great benefit from 'Brown's Bronchial Trochoc' than from any other drug."

**THE ZULU WAR.**

**Abandonment of Khost—Obstinate of Yakhob Khan.**

ST. PETERSBURG, Jan. 21.—The Ammiral has arrived on the Russian frontier. His followers were disarmed, and the Ammiral was released. The Ammiral was released, and the Ammiral was released.

Yakhob Khan, who was the chief of the Ammiral's followers, was released. The Ammiral was released, and the Ammiral was released.

The Ammiral was released, and the Ammiral was released. The Ammiral was released, and the Ammiral was released.

**THE ZULU WAR.**

**Affairs at Ottawa.**

THE COLLECTION OF THE REVENUE.  
It is an understood thing that the Government are determined to, as far as possible, reduce the cost of collecting the revenue. Officers found to be inefficient will not therefore be likely to be filled up on a vacancy occurring.

BERLIN FISHERY EXHIBITION.  
The Marine and Fisheries Department is in receipt of an invitation from Berlin asking the British Government to send specimens of Canadian fish and fishing implements to an exhibition under the patronage of the Crown Prince, to be held in Berlin in 1880. It is hardly likely that the Government will feel disposed to make the necessary outlay unless circumstances should render an acceptance of the invitation fitting.

**THE ZULU WAR.**

**THE CATTLE DISEASE.**

Live Stock from Portland Passed at Liverpool.

Mild Form of Pleuro-Pneumonia in the States—Opposition of the Agricultural Interests to the American Trade.

LONDON, Feb. 3.—The Privy Council has received telegraphic reports from British Consuls in the United States, stating that a mild type of pleuro-pneumonia exists in various parts of the country, but is not malignant nor infectious. The cattle received by steamer on February 1st from Portland, which were bought in the same market and at the same time as those which arrived by the steamer Ontario, were subjected to a very rigid examination, and found healthy. They were shipped to London for sale. The agricultural interest is endeavouring to induce the Privy Council to schedule the United States as an infected country.

MONTREAL, Feb. 3.—Although a good many Canadian cattle dealers have been badly frightened owing to the recently imported American cattle, the market has not been hurt. One dealer certainly sold four car-loads of cattle last week on this market at a considerable loss, but the "scare" has since kept back stocks, and prices have been obtained since then. Advice from Liverpool to-day show that cargoes of American cattle are being passed through by Messrs. Messrs. Thompson, Murray & Co., of the Canada Shipping Company, received the following despatch to-day: "Alabama cattle passed inspection." Each cargo is being inspected and passed on its own merits. Consequently shippers here who closely follow the advice from Liverpool to-day show that cargoes of American cattle are being passed through by Messrs. Messrs. Thompson, Murray & Co., of the Canada Shipping Company, received the following despatch to-day: "Alabama cattle passed inspection." Each cargo is being inspected and passed on its own merits.
