VERY QUIET IN FLANDERS

British Have Carried Out a  
Successful Raid in Which  
Germans Had Some Severe  
Losses

FRENCH ARE ACTIVE

Heavy Artillery Duels Re-  
sumed Between French  
and Germans on Verdun  
Front

The German forces have captured  
Arensburg, capital of the Island of  
Oesel, and are still pursuing the Rus-  
sians at various places. Aiding the  
operations as far as possible are Ger-  
man cruisers and torpedo boats, which  
have shelled coast batteries and towns.  
Attempts by the German fleet to enter  
the Gulf of Riga or operate in the  
waters between Oesel and the Dago  
Islands, have been met with resistance  
from the Russian land batteries and  
Russian naval units. In the latter re-  
gion the Germans have accepted  
battle, and retired in the face of the  
Russian warships.

As yet no attempts have been made  
by the Germans to effect a landing  
on the coast of Estonia and harass  
the right flank of the Russian army,  
and neither has any effort been made  
to penetrate the Gulf of Finland.  
In the Baltic, no military operations  
on a large scale have been attempted,  
but the big guns are carrying out  
judicious bombardments of great im-  
portance. The Germans have been  
successful in starting an infantry offen-  
sive. The British have carried out  
successful raids in which severe losses  
were inflicted on the Germans and  
machine guns and machine guns were  
taken.

After the lapse of two days the  
heavy artillery duels have been re-  
sumed. The Germans have been suc-  
cessful in starting an infantry offen-  
sive to the north of the famous Hill 344.  
Also on the Alsace front there is con-  
siderable artillery activity. On the  
Julian front there is heavy  
fighting. In the Brezostova valley and  
in several sections, the artillery is en-  
gaged in heavy fighting, and there  
also have been sharp counteroffensive  
raids. In the Brezostova valley  
a strong attack by the Austrians was  
broken up by the Italian machine guns.  
The Austrians are keeping up their  
artillery attacks, and the latter opera-  
tions against them or launching in-  
fantry attacks. In the latter opera-  
tions captured 148 prisoners and three  
machine guns.

The British craft lost  
Champane has been torpedoed and sunk by  
an enemy submarine with a loss of  
five officers and 51 men. The British  
submarine was on a mission to over-  
see, and is believed to have been lost  
with her entire crew.

URUGUAYANS VERY  
ENTHUSIASTIC FOR  
CAUSE OF ENTENTE

Great Public Demonstration  
Held; Uruguay Not Neu-  
tral With the Entente

Montevideo, Uruguay, Oct. 15.—At a  
great public demonstration, organized  
on the occasion of the rupture of rela-  
tions with Germany, Dr. Felixiano  
Viera, president of the republic, deliv-  
ered a speech in which he reaffirmed  
the sympathy of Uruguay for the Bel-  
gian cause and the solidarity of the  
republic with the countries which are  
fighting for the cause of justice and  
right.

Uruguay and Allies.  
Montevideo, Oct. 15.—A presidential  
decree issued today sets forth that the  
policy of neutrality will not be applied  
to the governments of the entente allies.  
Uruguay severed relations with Ger-  
many on October 7.

THE GRIM EVIDENCE.  
Mexico, Oct. 15.—Passengers  
returning here last night from the  
report seeing the bodies of twenty  
Mexicans hanging to telegraph poles  
along the Mexican Central railway.  
Mexican officials say the bodies are  
those of Villa followers who a few  
days ago attacked a military train, mak-  
ing it for a passenger train.

PROHIBITION IN IOWA  
Des Moines, Iowa, Oct. 15.—  
Early returns in the prohibition  
referendum, voted on today, in-  
dicate large "dry" majorities.  
If the ratio obtained at midnight  
is maintained, prohibition will  
be carried in the state by 56,000.

DAY OF PARTIES IS  
GONE, SAYS MINISTER  
OF NEW GOVERNMENT

Hon. C. J. Doherty Ad-  
dressed Big Meeting in  
Quebec, Dealing Mostly  
With War Questions

SPEAKS OF SACRIFICES

Praises the Military Service  
Act and Speaks With En-  
thusiasm of the Union  
Government

Huntingdon, Que., Oct. 15.—Hon. C.  
J. Doherty, minister of justice, ad-  
dressed a gathering of 1,000 people  
here tonight. At the outset he stated  
that he was not firing the first gun  
in the election campaign, but had come  
to bring the message, "Win the War."  
Early in his address he expressed  
pleasure at the formation of a union  
government.

He said: "I am glad to feel tonight,  
as I am sure the people of Canada  
feel, that the day of parties is  
gone."  
He believed that it was the domina-  
ting feeling of the people of the Do-  
minion that this was not a time for  
the continuance of those things men  
called party principles, which had so  
long divided the people, and the gov-  
ernment, as it exists today, appreciated  
this, he said.

The minister's address was eminently  
patriotic; he would not pretend that  
the Military Service act would not  
mean sacrifice on the part of the young  
men, he said, and he believed all young  
men would understand the situation  
and respond cheerfully and eagerly.  
Hon. Mr. Doherty said he did not  
mean that, in casting old party prin-  
ciples aside, men had gone astray from  
their principles; still less did he desire  
to imply that he would express admira-  
tion for any sacrifice of principle upon  
the part of any men who had earnest-  
ly and sincerely entertained such prin-  
ciples.

PUNISH GERMANS  
AFTER THE WAR

British Mass Meeting De-  
clares for Post War  
Punishment

London, Oct. 15. (via Reuters Ottawa  
agency)—A great mass meeting of  
soldiers and women was held at Cad-  
ogan to devise post war punishments for  
the Germans for their U-boat crimes. A  
resolution was adopted asking employ-  
ers to refuse to employ Germans on  
land or sea, requesting the public to  
refuse to buy German goods and de-  
stressing master mariners to refuse to  
salute the German flag, the boycott to  
continue two years and an additional  
month to be added for every future  
crime.

MR. ROWELL GIVES  
REASON FOR ACTION  
Explains to Ontario Liberals  
Why He Joined Union  
Government

Toronto, Oct. 15.—Hon. N. W. Rowell,  
has sent from Ottawa a letter to the  
Liberal members of the Ontario legis-  
lature announcing his resignation as  
leader of the Liberal party in the prov-  
ince. Referring to the meeting in Ot-  
tawa at which he was asked to join the  
union government, he said:  
"As I had advocated conscription and  
union government for many months, I  
felt I could not refuse to join without  
other Liberal leaders in helping to  
form such a government."

NO PATCHED-UP PEACE  
London, Oct. 15. (via Reuters Ottawa  
agency)—Ramsay MacDonald, M.P.,  
speaking to the workers of Loughbor-  
ough, said they did not want a patched-  
up peace which would only bring on  
another war 10 years hence.

GERMANS CAPTURE TOWN  
Berlin, Oct. 15. (via Reuters Ottawa  
agency)—The statement of the German  
press, issued tonight, shows that Ger-  
man soldiers and officers are reported  
operating on a large scale.  
"In the west there has been no fighting  
operations on a large scale."  
The statement of the German press, issued  
tonight, shows that German soldiers  
and officers are reported operating on a  
large scale.

U.S. TROOPS FOR SALONIKI  
Washington, Oct. 15.—Dis-  
patch of troops to Saloniki to  
assist in a big drive in the Balkans  
was urged upon President Wilson  
today by Senator King.  
The senator also ad-  
vocated declarations of war against  
Austria-Hungary, Turkey  
and Bulgaria, and proposed  
that definite promises of mili-  
tary co-operation be obtained  
from the Japanese mission now  
here.

British Government Favors  
The Move and American  
Government Would Wel-  
come It

Ottawa, Oct. 15.—A suggestion that  
Hon. J. D. Hanson, former minister of  
marine and fisheries, will be sent to  
Washington in the event of it being de-  
cided to have a representative of the Do-  
minion at the United States capitol, is  
regarded in the capitol as a good guess.  
No definite decision has been reached,  
however, either in regard to the post of  
the appointment. The matter, which was  
first broached during the parliamentary  
session, is still under consideration.

Britain Will Consent  
Ottawa, Oct. 15.—The Evening Journal  
says today:  
"The creation of a Canadian high com-  
missioner to Washington to represent  
the Dominion in the United States is  
under consideration.  
"It is understood that the government  
is in communication with both the British  
and United States authorities on this im-  
portant constitutional step.  
"The British government will un-  
doubtedly consent to the move and it is be-  
lieved the American government will wel-  
come it gladly, recognizing a Canadian  
representative."

ALL APPLICANTS

ON SAME BASIS

Commonsense Hearing

First Class of Men Evince  
Desire to Obey the Law  
Promptly and Either Re-  
port for Service or Claim  
Exemption

Ottawa, Oct. 15.—Reception of the  
proclamation calling out the first class  
of men under the Military Service Act  
is reported here in an every way sat-  
isfying manner. The men who are  
eligible for exemption from military  
service are being heard before a local  
tribunal. At present there was an evi-  
dent desire to comply promptly with the  
provisions of the act.

Considerable interest is manifested  
in the provisions of the regulations  
about to be issued that no counsel or  
advocate shall be heard before a local  
tribunal. The main purpose of this  
provision, it is understood, is to place  
the men on an equal footing with the  
rich in respect to their application.  
Neither in claiming exemption before  
a tribunal, will be permitted to employ  
the services of a member of the bar.  
Thus the wealthy applicant will be un-  
able to secure any advantage in this  
regard. Opposition from the legal  
fraternity is not anticipated. Further-  
more, the view is expressed that the  
local tribunals will deal with the applica-  
tions from a commonsense point of view if the issue is  
not belittled with legal technicalities.  
The military authorities are placed on  
the same footing as applicants. A  
military representative, appointed by  
the local tribunal, will appear before each local tribunal, but  
he is not to be a member of the bar.

In regard to voluntary enlistment,  
the following is made by the military  
service council:  
"Notwithstanding the issue of the  
proclamation any man belonging to  
class I will be allowed to report for  
duty before he is called to do so by  
the registrar, providing he produces  
the counterfoil of his report for  
duty before he is called to do so by  
his employer stating that the latter  
does not intend to claim exemption for  
him."  
"When so reporting before they are  
ordered by the registrar to do so may  
be allowed to join any unit they de-  
sire, provided they are suitable for  
and that such unit is in need of re-  
cruits."

LIBERALS TO CHOOSE  
ROWELL'S SUCCESSOR  
Members of Ontario Legis-  
lature Will Meet on  
Thursday Night

Toronto, Oct. 15.—G. C. Hurdman,  
M.P.P. for Ottawa, and assistant Liberal  
whip in the Ontario legislature, has  
called a meeting of the Liberal members  
for Thursday of this week at the  
rooms of the General Reform associa-  
tion, 100 Ontario street.  
"Thursday's gathering of Liberal M.  
P.'s will be vital to decide who will  
succeed Mr. Rowell," said a prominent  
Liberal today.

GREEK OFFICIALS  
LOST IN A WRECK  
Italian Steamer Supposed to  
Have Been Torpedoed

Athens, Greece, Oct. 15.—A painful  
impression has been created here by  
the torpedoing of the Italian steamer  
Bari, on which were a number of Greek  
officials from Turkey whose names do  
not appear in the list of 50 survivors  
who were landed at Corfu. One hun-  
dred and twenty are said to have been  
landed on the Gallipoli peninsula  
(Turkish territory).  
There have been no previous advices  
of the sinking of the Bari. The only  
steamer of that name listed in avail-  
able records is a small one of 224 tons  
gross, which was formerly known as  
the Luburise and was built at Piume  
in 1873.

UNSUITED FOR JOB  
German Socialist Leader Has  
Little Use for Michaelis

Amsterdam, Oct. 15.—At a Socialist  
meeting in Berlin yesterday, Philipp  
Scheldemann, leader of the Socialist  
majority in the Reichstag, deplored the  
fact that Germany's enemies had  
"scolded" at the German desire for  
peace.  
"We will not renounce a square foot  
of German soil," he added. Dr. Mich-  
aelis, Herr Scheldemann declared, was  
unsuited to the post of chancellor.

ALBERTA PREMIER  
HAS NOT ANNOUNCED  
HIS NEW CABINET

If MacKay Does Not Accept  
Vacancy Gorge P. Smith  
May Become Member of  
Government

MAY BE SURPRISES

But General Presumption Is  
That All Old Members of  
Government Will Get Old  
Positions

Edmonton, Oct. 15.—Premier Charles  
Stewart was engaged today in con-  
sultation with members of the late Sifton  
cabinet and other prominent Liberal  
members of the legislature in regard to  
the personnel of his ministry. No an-  
nouncement was made this afternoon  
with reference to the cabinet, but it  
is likely the members will be an-  
nounced and sworn in some time to-  
morrow.  
It is understood that Hon. A. G. Mac-  
Kay, late Liberal leader in Ontario, has  
the offer of a cabinet position, but has  
not yet decided whether or not he will  
enter the government. Mr. MacKay  
himself declined to discuss the prob-  
ability of his entry into the ministry.  
Another name which is prominently  
mentioned is George P. Smith, Cam-  
eron, who is also the Liberal nominee  
for the Dominion.  
It has been generally understood that  
all the old ministers will be back in  
their former portfolios, but such may  
not be the case, according to gossip  
around the parliament buildings today.  
"There may be some surprises in the  
new government," a prominent Liberal  
said, "but a knowledge of the political  
situation stated to the Canadian Press  
Limited."

HIGH COMMISSIONER TO U.S.  
Ottawa, Oct. 15.—The strengthening  
through common relations in the war  
of the ties of friendship between Can-  
ada and the United States may be  
strengthened through the appoint-  
ment of a Canadian high commis-  
sioner at Washington, whose duties will  
be very similar to those of Canada's  
"ambassador" in London.

NEW PRINCIPAL  
Kingston, Oct. 15.—The appoint-  
ment of Rev. Dr. Bruce Taylor, of Men-  
treuil, as principal of Queen's university,  
Kingston, was announced today. Dr. Taylor  
will take over his duties here before  
next spring.

AGAINST VON TIRPITZ  
Copenhagen, Oct. 15.—The Berlin  
Germania says that the German gov-  
ernment is opposed to the appointment  
of Von Tirpitz as chief of the navy.

Friedrich party of which Admiral von  
Tirpitz is one of the leaders.

WANT CONCILIATION BOARD  
Winnipeg, Oct. 15.—After a two  
month session, Oct. 15.—The  
Canadian Pacific Railway Conductors,  
during which they failed to reach an  
agreement, an application has now been  
made to the minister of labor at Ottawa  
for the appointment of a board of con-  
ciliation.

REPRESENT C.N.R.  
With Sir William Meredith  
Will Determine Value of  
the C.N.R. Stock

Winnipeg, Oct. 15.—The Free Press  
Ottawa correspondent tonight says:  
"The Manitoba and Ontario interests  
have named Judge Phippen of Toronto  
as their arbitrator with Sir William  
Meredith on determining the value of  
the \$60,000,000 value of the C.N.R. stock.  
The Canadian Northern which the govern-  
ment will require under the legislation  
passed by the parliament last week will  
appoint a third, but in the event of a  
disagreement, Judge Phippen, the  
arbitrator, will determine the value of  
the stock."

REMOVAL OF DUTY  
ON OLEOMARGARINE  
Dominion Cabinet Will Take  
Matter Under Considera-  
tion This Week

Food Controller Will Have  
Some Say About Spread  
Between the Producer and  
Consumer

Ottawa, Oct. 15.—In the course of an  
interview today, Hon. W. J. Hanna, food  
controller, said that while it is not  
possible to fix the price of potatoes the  
"spread" between the price paid the pro-  
ducer and the consumer will be fixed.  
By means of the spread and  
licensing dealers throughout the country,  
the food controller will be in a position  
to control the potato market to as great  
an extent as is possible.  
When asked concerning oleomargarine,  
the food controller said the statements  
made by him in Montreal last week had  
apparently been misunderstood. He pointed  
out that he was expressing his personal  
views when he said that this article of  
food should be admitted free. Whether  
they would meet the approval of the cabi-  
net remained to be seen.  
The suggestion by the food controller  
that the duty on oleomargarine should be  
removed will be considered by the cabinet  
this week.

SERIOUS MISPRINT  
Was Responsible for Misunder-  
standing in French District.

Ottawa, Oct. 15.—A misprint in the  
French version of a pamphlet issued  
by the military service council is re-  
sponsible for considerable misunder-  
standing in French-speaking districts.  
The pamphlet refers to the proclama-  
tion issued on Saturday last as calling  
up men aged less than 20 years instead  
of at least 20 years. The men required  
to report for service or to claim  
exemption are "those who have attained  
the age of 20 years and were born not  
later than the year 1897 and are un-  
married, or are widowers but have no  
children."

Washington, Oct. 15.—The substance  
of the agreement between Great Britain  
and Holland, great worth for  
the first time, relating to the amount  
of food obtained by Germany and the  
Netherlands, and also the amount to  
go into Germany, discloses that Great  
Britain and Germany made similar  
agreements with Holland and about  
the same time.  
The British agreement was made  
November 1, 1916, and the German  
agreement was made on December 1,  
1916.  
Only commodities produced in the  
Netherlands are concerned; imports are  
governed by The Netherlands overseas  
acts, which guarantee to Britain that  
none of the products shall be sent into  
Germany. The agreement provides  
that the total exports from Holland to  
the United Kingdom shall be pro rata.  
It is assumed that the remainder not  
sent to Britain goes into Germany.

Only 20 Per Cent. of Men  
Liable to Draft Who Have  
Reported Volunteer Their  
Services; Tribunals Stated  
for Heavy Work

IS BARBER EXEMPT?  
Tonsorial Artist Claims Ex-  
emption on Grounds of  
Necessary Occupation; the  
Registrar Doubts if Bar-  
bering Is Necessary to  
Home Production

Registral Carson has received 400 com-  
pleted forms, both the report for service  
and the claim for exemption variety, and  
out of this number approximately eighty  
per cent have claimed exemption.  
The registrar informed The Alber-  
tan last night that the majority of men claim-  
ing exemption are from outside points and  
the claim is based on "essential occupa-  
tion." "That is not surprising," remarked  
Mr. Carson, "because outside of the city  
the chief occupation is farming, producing  
grain, and I expect many of the claims  
will be based in that occupation."  
Is a cutter of hair, a sprinkler of  
bar, a party who ask repeatedly, "Sham-  
poo today, sir? Electrical massage?" and  
usually opens the conversation with  
"Beautiful weather," even though there  
is a 40-mile blizzard in operation at the  
time, and ends it with "98 cents." It is  
such a man essential in keeping the  
home fires burning? This is one of the  
many problems brought to the attention  
of the registrar.

Asked if he thought the barber would  
be considered as a necessary occupation,  
Mr. Carson said, "I think a barber who  
shaves himself, expressed some doubt,  
but remarked it was up to the tribunal."

All Want Exemption  
Regina, Oct. 15.—Of 81 applications  
made at the post office today, under the  
proclamation, 67 were for exemption,  
and 14 for service.

Saskatoon, Oct. 15.—The two medical  
boards here examined 103 men under the  
Military Service act today. Of this num-  
ber 61 were passed into class A-2; seven  
into class B, while 35 were rejected.

Edmonton, Oct. 15.—Sixty men had  
made application for exemption under the  
Military Service act when the post office  
closed tonight.

Victoria, Oct. 15.—Eighty-five Victori-  
an men in military uniform for at the  
local post office today, but 83 of these  
applied for exemption.

Montreal, Oct. 15.—Out of 239 men  
who applied at the post offices here  
in connection with the Military Service  
proclamation only 18 did not seek ex-  
emption. Sixty of the registrar here  
is practically idle.

Winnipeg, Oct. 15.—Out of the 500  
men of class one who reported at the  
post office today, about 75 per cent  
made claims for exemption.

NOVELISTS ARE DROWNED  
Victims of Submarine Attack in  
Mediterranean.

London, Oct. 15.—The Times announce  
the death both of Claude Arthur  
Askew and Alice, his wife, novelists  
and dramatists. Major Askew was at-  
tached to the Serbian army. Both  
were drowned in the Mediterranean on  
October 15 as the result of an enemy  
submarine attack while going to Corfu.

HIS MOTHER'S BIBLE  
"I would like to use this Bible, sir," stated Ralph Morton, of  
Leduc, as he stepped before an officer of a local unit yesterday,  
Bible in hand, to take the oath of allegiance and become a soldier  
of the king.  
The officer gave him a hard look, and was about to remark that  
he did not have time for humor, when the boy spoke again, saying: "It was my mother's." The various faces in  
the room bearing a grin in anticipation of some fun immediately  
observed, several throats were cleared, and those nearest the windows  
observed something in the street that made them wink their eyes.  
"All right, my boy, you shall use your mother's Bible, and I  
honor you for it," remarked the officer, and thus did one of his  
majesty's soldiers enter the army, swearing to do his duty, "so help  
me God," by King, country and not forgetting his mother.

ADVENTURESS  
AND DANCER SHOT  
IN PARIS AS SPY

Mata Hari Found Guilty of  
Conveying to Germans  
Secret of Construction  
of British Tanks

Paris, Oct. 15.—Mata-Hari, the Dutch  
dancer and adventuress, who two  
months ago was found guilty by a  
court-martial on the charge of espion-  
age, was shot at dawn today.

Ms. Mata-Hari, long known in  
Europe as a woman of great attrac-  
tiveness and with a romantic history,  
was, according to dispatches, accused  
of conveying to the Germans the secret  
of the construction of the entente  
"tanks" this resulting in the enemy  
rushing work on a special gas to com-  
bat their operations. She was said to  
have left Paris last spring and to have  
spent some time in the English town  
where the first "tanks" were being  
made, afterwards travelling back and  
forth between England and Holland  
and later going to Spain, where she  
aroused suspicion by associating with  
a man whom the French secret service  
long suspected. When she reappeared  
in Paris she was arrested, a contribut-  
ing circumstance, it appears, being  
the fact that she was seen there with  
a young British officer attached to the  
"tank" service. Her conviction was  
confirmed by a revision court, and on  
September 28 the supreme court con-  
firmed the previous findings.

London, Oct. 15.—The Times announce  
the death both of Claude Arthur  
Askew and Alice, his wife, novelists  
and dramatists. Major Askew was at-  
tached to the Serbian army. Both  
were drowned in the Mediterranean on  
October 15 as the result of an enemy  
submarine attack while going to Corfu.

HIS MOTHER'S BIBLE  
"I would like to use this Bible, sir," stated Ralph Morton, of  
Leduc, as he stepped before an officer of a local unit yesterday,  
Bible in hand, to take the oath of allegiance and become a soldier  
of the king.  
The officer gave him a hard look, and was about to remark that  
he did not have time for humor, when the boy spoke again, saying: "It was my mother's." The various faces in  
the room bearing a grin in anticipation of some fun immediately  
observed, several throats were cleared, and those nearest the windows  
observed something in the street that made them wink their eyes.  
"All right, my boy, you shall use your mother's Bible, and I  
honor you for it," remarked the officer, and thus did one of his  
majesty's soldiers enter the army, swearing to do his duty, "so help  
me God," by King, country and not forgetting his mother.

THE RETIRING PREMIER

The removal of Hon. A. L. Sifton
from provincial affairs into the wider
field of Dominion politics, is a mile-
stone in the career of one of the
cleverest and most sagacious states-
men which western Canada has yet
produced. His friends look for a bril-
liant future for this man, who is not
yet sixty years of age, and who has
at least a decade of usefulness be-
fore him, in the ordinary course of
events.

Although Hon. A. L. Sifton was
born near London, Ont., and was edu-
cated in Wesley college and Victoria
university, he is a westerner and is a
member of a family, the name of
which has loomed large in western
affairs for nearly 40 years. His father
came to Manitoba in the first rush
of landseekers from eastern Canada,
and established himself in Winnipeg;

where later he became associated with
journalistic enterprises and a factor
in provincial politics. He was for
many years president of the Free
Press Publishing company. For one
term he was speaker of the Manitoba
legislature. In the light of history,
perhaps one of his most important
activities was his advocacy of prohibi-
tion in Manitoba at a date when this
proposition was far in advance of the
time; and Hon. John Wright Sifton
will probably be remembered for
pioneer work in the cause of temper-
ance after other achievements of him-
self and his sons are forgotten. It
is consistent with this family tradi-
tion that his eldest son has been a
lifelong temperance advocate, and
that, as premier of Alberta, he helped
to bring the campaign of two genera-
tions for prohibition to a successful
conclusion in Alberta in 1915.

Hon. A. L. Sifton came to Alberta
in 1889, and entered western politics
many years before the province of
Alberta was organized. In fact, his
political career was following the
conclusion of his appointment as
chief justice of the Northwest Terri-
tories in 1903. When the province
was organized in 1905 he became chief
justice of Alberta, and continued so
until 1910. He was peculiarly adapted
to this career, and a rare sense of
exact justice with which he is en-
dowed contributed to make him a
brilliant success. In the administra-
tion of law and order which marked
the western Canadian frontier life is
different from that of all other provin-
cial territories, he played an important
and difficult part, with remarkable
success.

In 1910, after the resignation of the
Liberal administration following the
A. & G. W. scandal, Mr. Sifton was
invited to become the premier. He
was probably the only available man
in the province at that time who could
handle the situation successfully; and
at some sacrifice, he consented to re-
tire from the bench and to re-enter
provincial politics. In the past seven
years he has accomplished everything
for which the public hoped. He has
restored confidence, he has brought
about sound, orderly conditions and
he has given a pre-eminently success-
ful government. In addition to this
he has introduced a policy of radical
reform legislation which has set the
pace for every other province. Woman's
suffrage, rural credits, public
hospitals and prohibition are only a
few of the items of this program.

Personally of a retiring and reserved
disposition, judicial and reserved,
Hon. Mr. Sifton is sometimes mis-
understood. Achievements which are
peculiarly his own are not always
recognized as such. The public not
infrequently reverses the order of
merit in its estimate of the persons
with whom he is associated in im-
portant undertakings. Although re-
tidence and reserve are not the char-
acteristics most admired in the eyes
of the west, Hon. Mr. Sifton has
nevertheless established himself in
the confidence of the public and en-
joys a wide popularity. He is recog-
nized as a shrewd politician, a sagacious
student of the times, an almost
infallible judge of human nature and
a cautious, but persistent and tena-
cious advocate of radical reforms.

His new appointment offers a much
wider field of usefulness, under con-
ditions of difficulty which will tax
the powers of Canada's ablest states-
men. As usual, Mr. Sifton has delib-
erately faced crisis and staked all on
his ability to solve difficulties and
get over hard places with success and
advantage to his country. The eyes
of his home province will be turned
expectantly to the new minister of
crown lands who has never yet failed a
public hope.

AUSTRIA'S MAGNANIMITY

Count Czernin, the Austro-Hun-
garian foreign minister, has admitted
in a burst of confidence that his coun-
try might consider letting the entente
allies off if they speak up quickly and
don't haggle over terms. But he was
impelled to add a warning that if they
foiled this opportunity away Austria
was likely to lose her patience and fly
into them.

Tolerance and forbearance are Aus-
tria's watchwords. She may be a little
irritated, but is not yet mad. By if
she should get mad, the count warns,
there would be no holding her back.
What has pricked her more than any-
thing else is the rough language that
has been used by her enemies. They
have called her moribund. They have
intimated that her people were not
united. They have talked about
democratizing her. Even the un-
pleasant word dismemberment has
been used. This is the sort of thing
that is calculated to make Austria take
sides with Germany if it is pushed
too far.

The entente allies mustn't just
fuss because there are some thirty-two
languages spoken in the dual mon-
archy that the people don't under-
stand each other. They mustn't think
because the Czechs desert and go over
to the Russians, because the Bohemians
want to be independent and because
the Hungarians take a day off every
few weeks to celebrate the anniversary
of some battle in which they licked
the Austrians, that all these races are
not bound together by
the ties of nationality and affection.

If the allies can only get this clear
in their minds they would realize what
a formidable foe Austria would be if
she should lose her self-control and
begin to hit out. While she still has
a grip on herself, it would be well
for them to hearken to Count Czernin's
offer. All he asks is that Austria be
left alone. She demands no Utopia,
he says—nothing like it. She doesn't
want democracy, she doesn't want
internal reforms. All she wants is peace
with Strauss music in the parks and
the promise of an unending line of
Hapsburgs on the payroll. If she
could be assured of this felicity she
would be willing to relinquish all
thought of conquest and welcome al-
most any limit to world armament.
Particularly she would be glad to
see navies abolished. Austria never
could see where a navy did her any
good.

With the atmosphere thus cleared
the world may be nearer to peace
than it knows. Austria, it had been
supposed, was bent on carrying out
her plans of conquest and to her
domination of Germany has been
ascribed the latter country's continued
if feeble resistance, but now Austria
is relenting and is willing to let Italy
go home and take back Galicia, just
as if nothing had happened.

The Calgary school night classes
begin at the Central Collegiate In-
stitute tonight. They should be well
attended.

The union government seems to be
going along without any serious im-
pediment, and will be rolling along
very smoothly from this time forward.

The presence of several returned
soldiers upon the examining tribunals
would be very satisfactory. Doubt-
less many of them will be appointed
to such tribunals.

If Mr. Cross in his sensational ap-
peal to stay with Sir Wilfrid Laurier
had accompanied his exhortation
with explanations, he would have got
further in this province.

The province of Alberta has started
in on its third premier, but it has
had two leaders of the opposition.
The third leader of the opposition
is just about due.

The Italian advance is one of the
sensations of the war. It is not very
active at present, but the progress
of our Italian allies has been the
pleasing surprise of the year.

Hon. C. W. Cross wishes it under-
stood that he is still for Laurier,
first, last and all the time, but why
he is opposed to the union govern-
ment he leaves to the imagination.

Judging from the numerous expres-
sions heard everywhere, the people of
Alberta are willing to give the union
government a fair chance and a very
sympathetic examination. But it will
have to make good.

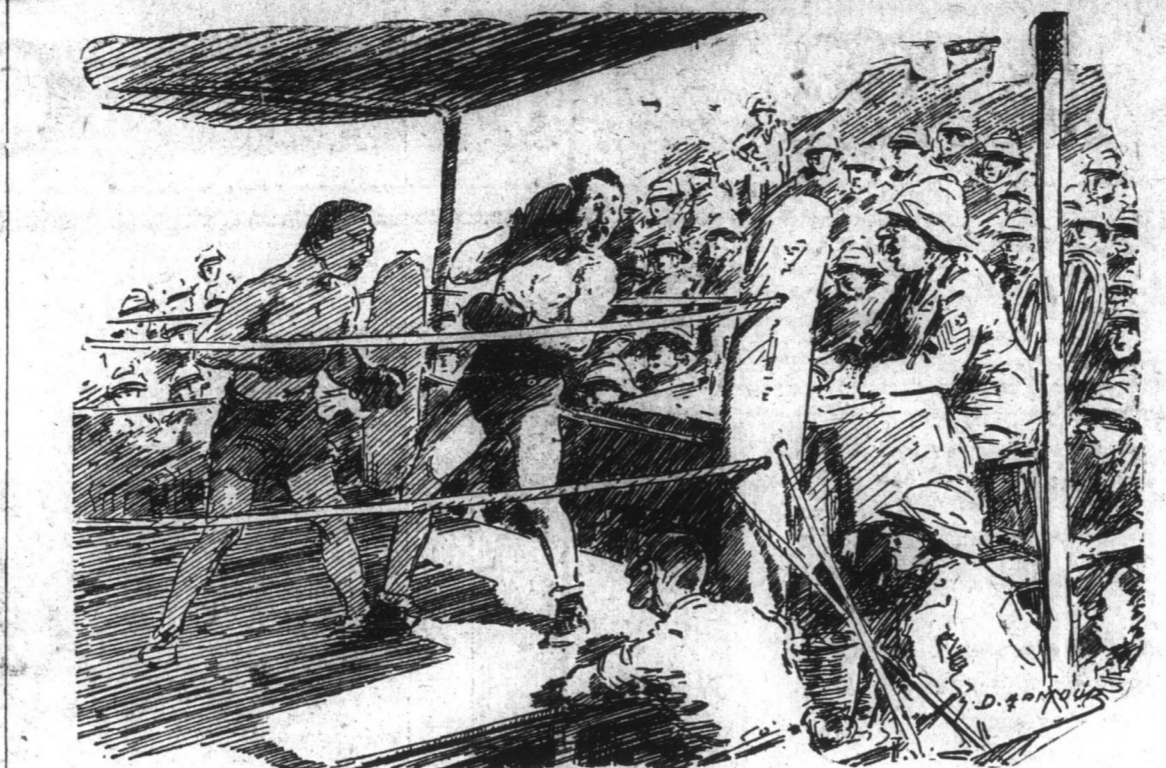

Of every five men who are sub-
jected to exemption who have re-
ported so far, four claim exemption
for some reason or other. If all the
exemptions are granted, the next
army will not be very large.

The anxiety which the Conservative
newspapers had for a peaceful settle-
ment of troubles for the Dominion
government is only equalled by the
hope that they have for trouble for the
new provincial government.

In Toronto last week the police
magistrate sent a man to jail for 30
days without option of a fine for reck-
less motor driving, even though there
was no serious accident. The public
must be protected against the reck-
less motor driver.

The Russian bear seems to have
been bumped in a new place, and
Premier Kerensky is serious, but
hopeful. The idea seems to be that
when the bear gets bumped often
enough and hard enough that he will
turn round and fight.

The city of Calgary does not pay
such good wages that it cannot afford
to pay for the full time that its em-

Competitor (in international contest): 'The blighter's bit me.' Referee: 'Well, ain't yer got no teeth of yer own? Box on.'

PILLAR OF SALT CITIZENSHIP

(By Theodore Roosevelt in Kansas City Star)

(When Lot's wife was looking back
to safety she could not resist looking
back to the land she had left and was
thereupon turned into a pillar of salt.
The men from the old world who, instead
of adopting an attitude of hearty and
inclusive loyalty to their land, try also
to look backward to their old countries
become pillar of salt citizens who are
not merely useless, but mischievous
members of our commonwealth.)

The dispatches of the German govern-
ment published by the state depart-
ment give us an illuminating glimpse
not only of German methods and of
German conduct toward this country,
but also of certain phases of our own
citizenship. The German government
proposed to use this country as a basis
of operations for wrecking the Cana-
dian railways. It also proposed to use
and pay its agents and certain of
our citizens for "sabotage in every kind
of American factory for supplying mil-
lions of war munitions to the German
army to secure a majority in both
houses favorable to Germany." The
German staff in issuing these directions
and in naming certain American citi-
zens as tools for the treasury were
insisted that the embassy should not
be compromised and that "similar pre-
caution must be taken in regard to
Irish pro-German propaganda."

Good citizens who have been misled
by false counsel must now clearly see
nothing to show but a chance to use
a certain spot of the earth in Canada
that our sons at the front are told
is theirs.

(2) That this value was the profit of
people's labor. The crops, houses, ma-
chinery, was the direct result of their
labor, and it was the direct result
of their labor, the profit of their
labor.

(3) That the lower animals, horses,
dogs, cows, goats, etc., could see our
goods or houses, but could not see the
value of the land on which they were
a sight reserved only to human
beings, gifted with reason, and those
who can't get the value of the land
the brute creation, void of reason or
see they could see it.

(4) That the few or many
who would get the value of this value,
the profit of other people's labor,
neither did they toil, nor
neither did they spin.

(5) That they would be the lords and
masters of the earth, and the owners
of the land, and the owners of the
drawers of water to the owners of
this ever-increasing-in-value spot of
earth.

(6) That such would be known as
first citizens, highly respected, sub-
stantial, and that they would be office-
seekers, aiming to get where they
could hide this value from the people,
pocket the most of it, and tax the
homes, goods, wealth of the rest of
the people.

(7) That the Bible teaches that the
profit of the earth is for all. This
profit is the very value of the town-
ship, and it can easily be taken by
taxation direct for the public treasury,
so all can have the good of it. The
Bible also states, "In the labor there
is profit." Here again is stated the
fact that all labor in building, improv-
ing, etc., goes to produce this value
of land.

(8) The taking of this value by tax-
ation and not taxing houses, businesses
or goods, would give all more of an
interest in the earth that God made
for all, and thus make the opening words
of the Lord's Prayer, "Our Father," a
practical reality by giving all an inter-
est in that which He created for all;
the earth—instead of a few now having
the earth owned by a few to enable
them to live like gentlemen without
work, off the labor of other people. As
it is now, taxing labor products or
wealth for revenue, and leaving the
value to stay in the pockets of holders
of title deeds is recognizing that God
is the Father of a few privileged land
holders and the "stepfather" of the
rest of the people. Any wonder the
"stepchildren," those who have only
their own labor to live on, are becom-
ing cold and indifferent toward the
Christian church, looking upon it as
the stronghold of privileged land own-

LETTERS TO THE EDITOR

ALBERTA AND SINGLE TAX

"Economist" Discusses Resolu-
tion of Urban Municipalities.

Editor Albertan: With your permis-
sion, seeing that the Union of Urban
Municipalities condemned the small
amount of single tax Alberta now en-
joy, I would like to lay before you
four readers two or three articles on
the above subject showing what
single tax is, how it is not, and how
it is the only hope of the people
for economic justice. You hit the nail
on the head when, in your editorial
notes, you stated:

"As a matter of fact, there has been
no single tax in the full meaning of
the word in the province of Alberta, but
the province of Alberta, but the Union
of Urban Municipalities showed little
doubt as to the value of this value,
that amount of single tax which the
Alberta municipalities now enjoy."

Now, the members of the municipal
union must be intelligent and fairly
honest, but they don't understand
single tax or they would never have
made such a bad break as to condemn
it.

In doing so, they proclaimed to the
world that they have never considered
the most important duty of a public
man, which is to provide revenue or
taxes for the public service in a way
that would be just and fair between
man and man.

Taxation has two purposes—first, to
secure revenue; second, to promote jus-
tice, equal rights, fair play, liberty,
democracy among people. Our present
ways of securing revenues are a denial
of justice, a mockery of liberty, free-
dom, democracy, etc.

The writer was a single taxer when
a school kid. He said that if in the
years to come he could get a farm and
that farm would become a townsite by
the coming of a railroad, that his land
would become a thousand times more
valuable than before, and that he him-
self would be a very rich man. Land
worth a few dollars an acre becoming
a townsite, subdivided, then sold at
so much a lot would several acres
would be worth before the railroad
came? That was a schoolboy dream.
To many it has become a reality to
see which we have only to open our
eyes and look around us. But there
were some hard facts about this dream
that did not dawn upon him till later
in life. These facts are:

(1) That that value, due to the
sharpening of the people, was not wealth
like crops or goods or cattle or horses
or anything else produced by labor.

(2) That this value was a public
debt on the people for which they had

nothing to show but a chance to use
a certain spot of the earth in Canada
that our sons at the front are told
is theirs.

(3) That this value was the profit of
people's labor. The crops, houses, ma-
chinery, was the direct result of their
labor, and it was the direct result
of their labor, the profit of their
labor.

(4) That the lower animals, horses,
dogs, cows, goats, etc., could see our
goods or houses, but could not see the
value of the land on which they were
a sight reserved only to human
beings, gifted with reason, and those
who can't get the value of the land
the brute creation, void of reason or
see they could see it.

(5) That the few or many
who would get the value of this value,
the profit of other people's labor,
neither did they toil, nor
neither did they spin.

(6) That they would be the lords and
masters of the earth, and the owners
of the land, and the owners of the
drawers of water to the owners of
this ever-increasing-in-value spot of
earth.

(7) That such would be known as
first citizens, highly respected, sub-
stantial, and that they would be office-
seekers, aiming to get where they
could hide this value from the people,
pocket the most of it, and tax the
homes, goods, wealth of the rest of
the people.

(8) The taking of this value by tax-
ation and not taxing houses, businesses
or goods, would give all more of an
interest in the earth that God made
for all, and thus make the opening words
of the Lord's Prayer, "Our Father," a
practical reality by giving all an inter-
est in that which He created for all;
the earth—instead of a few now having
the earth owned by a few to enable
them to live like gentlemen without
work, off the labor of other people. As
it is now, taxing labor products or
wealth for revenue, and leaving the
value to stay in the pockets of holders
of title deeds is recognizing that God
is the Father of a few privileged land
holders and the "stepfather" of the
rest of the people. Any wonder the
"stepchildren," those who have only
their own labor to live on, are becom-
ing cold and indifferent toward the
Christian church, looking upon it as
the stronghold of privileged land own-

The crowning glory of Alberta is
that the members of her government
see clearly the state of affairs and that
their sense of justice has caused them
to progress along single tax lines by
taking more and more of ground
values for the treasury. The wild land
tax of five per cent is single tax. The
increase tax of 6 per cent, on all
land sales of \$1,500 and upward, is
single tax. The doing away with the
business tax or license is progress to-
ward single tax.

The poll tax, the theater ticket tax
are measures against single tax, as
such taxes fall upon people's labor, not
upon the value of land. Leaving build-
ing and stock-in-trade exempt from
assessment is progress toward single
tax. Owners of such such heavy
burden by paying for insurance, but does
the value of the townsite or city-site
need insurance? Do we not want people
to build, improve, stock up, etc., in
allowing wealth to be taxed? Would it not
be better to base our public institu-
tions on justice? Would that not re-
spond more to the credit of our public
men?

The city of Sydney, Australia, one of
the largest in the empire; for two years,
has assessed only lots at their value
for public revenues, and the mayor re-
ports a surplus of \$100,000.

Calgary taxes improvements and
business, and it is up against the
funds. And they have very little single

tax here. Surely the members of the
municipal union have another "blinker"
coming. And let us hope that in this
case second thoughts will be the bet-
ter ones. The trouble with Alberta is
not that she has "some" single tax,
but that she has not got nearly enough
of it. When the people, the masses,
see the single tax idea, then, but not
tell them, will they "wear diamonds"
themselves, instead of telling and moll-
ing to earn them while their opposi-
tors wear them.

## ROBERTSON COLLEGE GUILD ANNUAL MEETING

Raised \$600 in Past Year; A Course of Historical Lectures Being Arranged

The sum of \$599.96 was raised during the past year by the Calgary branch of the Robertson College Guild. According to the treasurer's report, given at the annual meeting yesterday, the money has been expended with the exception of a balance of \$501. Of the amount paid for lectures, \$200 for scholarships in Robertson college, and \$50 towards the college library. The report of the secretary, Mrs. A. Moore, was also given, showing a busy year's work for the guild. The officers elected for the coming year were: President, Mrs. F. M. Black; vice-presidents, Mrs. R. B. Francis, Mrs. L. P. Harrop and Mrs. N. J. Christie; secretary, Mrs. H. C. Graham; treasurer, Mrs. David Carter. The executive committee will comprise representatives of every Presbyterian church in the city. Approval of Mrs. Moore's work as secretary was expressed by the president and members. The guild is at present undecided on the point of continuing the scholarships at the college or devoting the funds towards the construction of a new building. The college has suffered in point of attendance through the war, but the close of the present year will see four graduates, which is felt to be encouraging by those interested. Arrangements are being made for a course of lectures on incidents of historical interest in Canada from various viewpoints. These will be given by the leading speakers of the province and will be announced when the schedule has been completed. Following the meeting yesterday, which was well attended, refreshments were served and Mrs. McKenna sang delightfully and Miss Olive and Miss Evelyn sang a piano duet.

## VICTORIAN ORDER'S FUNDS IN ORDER UNTIL JANUARY

Income From Patients Rapidly Increasing; Over 300 Nurse Visits in Sept.

With the coming of better times in the city one organization to benefit is the Victorian Order of Nurses. The order has received so much more financially than previously that the meeting of the board yesterday found sufficient funds on hand to run affairs until January. Where receipts from patients used to average monthly between \$12 and \$20, for September they reached over the \$50 mark. The second and final installment of the annual dividend of \$500 was also duly received yesterday. One account which each month amounts to one of more or less consideration is the street railway fare of the nurses. The patients many in number are in varying and outlying districts of the city and then over 300 visits are made, such as was the case in September, car fare makes an item. It is altogether likely that the social service department of the city hospital, under whose direction the order visits tubercular cases in the city, will be asked to share the expense. A splendid donation of linen for use by the nurses in emergency cases was received by the board yesterday from a member, Mrs. J. K. Cummings. The linen is valued at \$50 and includes 1 doz. sheets, 2 1/2 doz. towels and 1 1/2 doz. pillow slips. Dr. Lincoln, the president, was in the chair and the other members of the board present were: Mrs. J. E. A. MacLeod, Mrs. A. M. Scott, Mrs. James Findlay, Mrs. St. C. Costello, Mrs. J. K. Cummings, Mrs. W. H. McLeads, Mrs. J. W. Huggill, Mrs. Mustard and Miss Ashe, the head nurse.

## SOCIAL & PERSONAL

Miss Shaw, who has been the guest of Mrs. W. E. Tabor, leaves tonight for Vancouver en route to Japan.

Mrs. W. H. Berkinshaw is still confined to the house, the result of a compound fracture of the limb.

Mr. and Mrs. C. J. Ford are being congratulated on the birth of a son.

Miss Helen Mackintosh has been visiting in St. Catharines and has now gone on to Toronto.

Mrs. Macdonald and Miss Genevieve Macdonald left this morning for Victoria, where Captain C. V. Macdonald, who is ill at the hospital there, is not improving during the past few days.

Rev. Arthur and Mrs. Barner have returned from Toronto and other eastern points.

Miss Ethel Egbert has returned from a visit in Vancouver.

Dr. and Mrs. W. H. McGuffin have returned from the east, where they spent the past six weeks.

Mrs. H. T. Whitmore, who has been confined to the house through illness for several weeks, is improving slowly.

Mrs. D. L. Howard has removed from Fourteenth avenue west to suite 2, Rosemont apartments.

Mr. and Mrs. F. M. Black returned Sunday from a three weeks' stay at the coast. Mr. Black went up to Edmonton that night, and returns home today.

How about that Christmas package for your boy at the front? Better think about getting it ready now and be sure not to disappoint him.

Mr. and Mrs. J. E. A. McLeod are removing early to Fourth avenue west in the 300 block.

Mrs. G. A. Anderson has resigned as secretary of the Woman's Hospital Aid society, and Mrs. R. J. Hutchings has been appointed in her place temporarily.

Mr. James Ryan has returned from Edmonton, where he spent the weekend.

At the annual Chautauqua in Chicago last week many Canadian artists contributed to the musical and dramatic program, many of whose names will be familiar to Albertans. Lieut. H. R. Pest, formerly of Edmonton, gave an address on "Life in the Trenches."

Dr. and Mrs. J. Maguire have been spending a few days in Edmonton, staying at the Macdonald.

Mrs. Vanderhoef, who spent several days the guest of Mrs. Hewson, Fifteenth avenue west, has returned to Glenbow. Before leaving Mrs. Vanderhoef entertained at a very delightful tea at the Palliser. The event took place in one of the private dining rooms of the hotel, and Mrs. Hewson assisted the hostess in receiving the guests, among whom were the Prince and Princess Beauharnois, who are spending a few days in the city; Mr. and Mrs. Drake of Glenbow, who have also returned home after a visit to the city; Mrs. Scott Dawson, Mrs. West Jones, Mrs. W. H. Barker, Miss Ellen Dennis, Mrs. Olive Betts, Mrs. Harry Tait, Miss Marion Cardell, Hon. C. R. Mitchell, of Edmonton; Major Fitz-Horrihan, Hon. C. W. Fisher, of Cochrane; Mrs. Kindersley, of London, England; and Captain Allison Day. The tea table was arranged with sunset roses, and the same fragrant flowers decorated the room.

Chatham, Ont., Oct. 15.—This letter will interest every lady reader, because it describes a condition for which doctors advise a operation. That the operation is often unnecessary and very often leaves the patient an invalid for life is well known.

You will read here of what Dr. Chase's Nerve Food has done for this lady and will then understand the great good it accomplishes in many thousands of similar cases throughout the continent.

Efforts to think long and earnestly before consenting to an operation of this kind. It is a simple matter to give Dr. Chase's Nerve Food a trial and the results are almost always entirely satisfactory. You not only avoid the risk and expense of an operation, but and yourself restore to health and vigor.

Mrs. E. M. Ford, 89 Delaware avenue, Chatham, Ontario, writes: "Four years I suffered from my nerves. I was restless and could not sleep well. I had headaches, neuralgic pains through the body and backache. There was a buzzing in my ears and twitching of nerves and muscles. I also had palpitation of the heart which caused shortness of breath. I was easily tired and always drowsy after eating. When walking or on my feet very much my feet would seem to go dead in my shoes. I consulted two doctors and both told me that I would have to have an examination and probably an operation, but I would not have either. Shortly after I commenced using Dr. Chase's Nerve Food, and after a treatment of this medicine I can say I am now feeling as I am about without the least dead feeling in my feet, and am grateful to Dr. Chase's Nerve Food for my cure. I think very highly of this medicine, and recommend it to other sufferers whenever I have an opportunity."

Dr. Chase's Nerve Food, 80 cents a box, a full treatment of 8 boxes for \$2.75, at all dealers, or Edmonton, Alberta, and Toronto, Ont. Do not be talked into accepting a substitute. Imitations only disappoint.

## JAPAN BENEFITTING SPIRITUALLY FROM THE GREAT WAR

The effect of the great European war on civilization in Japan was pointed out yesterday at a meeting of W.A. members by Miss Shaw, who is on her return journey to Japan after a fortnight. Miss Shaw is a very clever speaker, and through her connection with the Peace Memorial school for girls at Osaka, Japan, she has brought very close in touch with conditions in that part of the orient. The meeting, which was held in St. Stephen's parish hall, was well attended by members of every branch of the W.A. in the city. Rev. Canon James occupied the chair. Japan has learned urgent lessons from the war, said the speaker, all of which were having their effect on the evangelization of the Buddhist devotees. It had been the means of bringing to light the corruption in the Buddhist temples; and also the army and navy, in which faith was boundless. German literature has flooded the country and German philosophy was being studied by students, both boys and girls. As the war has advanced, the Japanese have come gradually to see the futility of the German idea as opposed to the allies' motives of justice and righteousness and they have cast in their lot with allies and a vestige of their belief. They have appealed to the Christians to aid them in saving their young men and women from moral vamps. Per pair... This appeal has been going on. The speaker added an appeal for continued help from all W. A. branches and members, and also pointed out this great necessity at the meeting of the girls' branches which she addressed in the evening at Paget hall.

## FISH SALE AT CITY MARKET OPENS THIS MORNING

As a means of keeping fish for some time the market is given out by an expert as a reliable method for preserving any quantity. The fish is first cleaned and then salted and packed in barrels and cleaned. It should then be rubbed well with salt and put in a strong brine. The Associated Consumers are putting on a three days' fish sale at the public market, which will be open to the public at 7 and 8 cents a pound. This will probably meet with instant success, as the quality of meat is quite beyond the reach of many.

## TODAY'S EVENTS

## A TAG DAY SATURDAY FOR DEPENDENTS OF SAILORS

The officers of Calgary will be asked to assist the Navy League of the British Empire and Canada on Saturday by contributing to their funds through a tag day.

The money raised is to be devoted to the widows, orphans and institutions of the brave boys who have been providing our shores from invasion by the German hordes. Very few people in Canada, particularly in the western part, fully realize the extent to which the war has done and is doing for the empire in the present war. Many of the brave men have given their lives for the cause of freedom and the protection of our land. They have left a large number of widows and children to the look after, and every man and woman in Calgary should be willing to contribute all that they possibly can on Saturday to this worthy cause. This is practically the only day set apart for the sailors as tag day. Any one willing to assist the laggers can do so by contributing the contents of the committee, Mrs. Harold Hill.

## RED CROSS NEEDS 200 MORE TAGGERS FOR THURSDAY

British Red Cross Appeal to Be Made on That Day by Local Branch

The Red Cross society still requires the assistance of 200 taggers for the British Red Cross tag-day on Thursday. This appeal is extremely urgent. The British Red Cross society is expending \$30,000 a minute in keeping up its various units in different theaters of the war. It is estimated that \$10,000 a day is required to meet the needs of the society. The Calgary Red Cross hopes that this appeal will be widely and generously answered. It is necessary that the organization on tag-day should be very complete to achieve the best results. All women who will give their services to tag, are requested to register their names at the Red Cross depot immediately. This is not intended to interfere with those Red Cross groups who have made themselves responsible for the outlying districts of the city. The 200 taggers are needed for the center of Calgary.

## BEAUTY CHATS

### Selecting Your Color

Several requests have come recently for a chat on the colors becoming to various types of women. Some few weeks ago we did discuss this subject briefly. Yet its importance cannot be overestimated.

For a woman may spend from ten to two hundred dollars for a new dress yet choose a color that she should not wear, and as long as the dress lasts, have a feeling of disappointment in her purchase.

It has been the habit of women for several generations to select black as soon as they passed their youth. Why? Black can only be worn by ruddy cheeked, bright-eyed youth—by women and girls who radiate life. Black is one of the most trying of colors; it brings out every blemish and wrinkle, every hollow, every deep gray tint to the skin.

Dark blues, very deep browns, grays of any shade, lavender, violet, mauve, navy, deep green—these are the colors for older women. Any of the above will do for street wear; for indoors, white, soft rose pink, pink and blue pastels and lavender. Such dainty combinations will bring out the attractiveness of graying hair. Black is the color that seems a part of aging.

Be sure that the colors you wear become you. Do not run to gaudy combinations, and don't dress returned in an uninteresting monotone. Wear the shades that bring out the lights in your hair, the deep color of the pallor on your skin. And be sure the colors you purchase are in harmony.

To A.B.—Your letter sounds as though you had used your hands a great deal in hard work. That would account for large joints and rough skin. Protect them with canvas or rubber gloves as much as possible when working; rub with cold cream at once after long immersion in water. In a few days I will devote a chat to the care of rough hands.

Committee Reports Against Establishment of a Civic Flour Mill, But Asks Food Controller to Fix Prices

The much-discussed question of recognizing and adopting the principle of the one-man car was passed just before the council adjourned about 11:30 last night. Aid. Adhead left earlier in the evening, and Aldermen Tallon, Broatch, Patrick and McTaggart opposed the motion. Aid. Broatch gave figures to prove that the operation of the one-man cars cost more than that of the two-man cars. It was too late for much speaking, and the motion was carried.

The market report of the commissioners held over from last week caused considerable discussion. The council agreed to the proposition to try transfers up to noon on the first five week-days and all day Saturday. But the council could not agree to doing away with the retail business at the city stall. Aid. Tallon thought the fact that more help was asked for indicated that there was a real need for the sale of goods in small parcels.

Commissioner Graves responded that a producer always had the preference. If a farmer came in and there was no room for him, the huckster had to wait in his favor. But it was only wise to take the rent from the consumer. He also thought that considering the advantages of the place the rent was high enough.

It was decided to make no change. The application of the hospital board for permission to build the nurses' home on city property in the hospital grounds was granted.

The recommendation from the finance committee endorsing Hyde's method of conducting the city auditing was passed without discussion. The committee reported in favor of accepting the two companies mentioned. He also thought that considering the advantages of the place the rent was high enough.

Two non-board companies were recommended by the finance committee for recognition. Aid. Tallon was opposed to allowing property on which the city has loaned money being insured in non-board companies. Aid. Adhead took the same stand. Aid. McNeill was in favor of accepting the two companies mentioned.

EXECUTIVE OF THE CANADIAN VICTORY LOAN TO MEET Luncheon Will Be Held at Palliser Today to Draw Up Plans for the Flotation Campaign

The southern Alberta executive committee of the Canadian Victory Loan met at the Palliser yesterday afternoon to arrange the numerous details subsequent to starting the large campaign for soliciting subscriptions in the section of the country they represent. Those present were: Wm. Toole, chairman; G. R. Marroch, vice-chairman; Thorburn Allan, J. B. Sutherland, C. P. McQueen, E. D. Adams, C. D. Tappin, H. Mehn, E. D. Coxe, W. M. Cochrane and E. Taylor.

WHAT THE COUNCIL DID LAST NIGHT

- Instructed the city solicitor to have the temporary injunction of the bakers dissolved, and to defend the city's rights in the matter.
Tabled the petition for a curfew.
Agreed to grant increase of pay to water and sewer maintenance employees from 36 cents to 40 cents per hour.

PURE RICH BLOOD PREVENTS DISEASE

Bad blood—that is, blood that is impure or impoverished, thin and pale—is responsible for more ailments than anything else. It affects every organ and function. In some cases it causes catarrh in others, dyspepsia; in others, rheumatism; and in still others, weak, tired, languid feelings and worse troubles.

Hood's Sarsaparilla is the greatest purifier and enricher of the blood the world has ever known. It has been wonderfully successful in removing scrofula and other humors, increasing the red-blood corpuscles, and building up the whole system. Get it today.

ALL RATEPAYERS INVITED

WHAT THEY ALL SAY

The mayor held the letter in question until after the council meeting. The mayor said later that if the assessors had not sufficient staff he would favor employing some veterans to do the work. At the council meeting Aid. Broatch asked what was being done and the mayor replied that a letter had been received that would be considered this morning.

FOOD CONTROL COMMITTEE MEETS AT PALLISER, 4 P.M.

A meeting of the local food control committee, together with the members of the provincial food control committee, president of the commission of inquiry into the Korniloff affair, has returned to Petrograd and in an interview with local newspapers declared that he did not see in the actions of Gen. Korniloff and the other accused officers any character of high treason. It was proved, he said, that Gen. Korniloff throughout the movement committed no act of a nature to weaken the fighting front.

Boys Have Made Excellent Record in the War; Will Send Them Xmas Gifts

The Rev. George M. McDonald, secretary of the Children's Aid society, for pardonable pride in the records made at the front and in the overseas forces by boys who have been wards of the juvenile court in some cases, and in others, who were proteges of the society in the adjacent period, when some boys seem to be victims or possessed by a spirit that continually leads them into mischief.

EXONERATES KORNILOFF

Paris, Oct. 15.—The announcement by the war office tonight reads: "In the region of the plateau between Alton and Crotona the artillery activity was violent during the day. Patrol encounters took place in the Champagne west of Auberville. There was intermittent cannonade on the rest of the front."

THE FRENCH REPORT

Two German captive balloons were brought down today, one by our special guns and the other by one of our aviators. "Eastern theater, Oct. 14: The artillery was only moderately active along the whole front. In the course of a successful raid on Homodons, six kilometers west of Seres, the British troops captured 110 prisoners and two machine guns."

SIX MONTHS AFTER WAR

Ottawa, Oct. 15.—It is announced that authority has been given to the department of naval service to retain the services of all Royal Canadian Naval Volunteer Reserve men for a time not exceeding six months after the termination of the war.

LOCAL PARLIAMENT MEETS

At the first session of the local parliament which meets tonight in the assembly hall of the public library the speech from the throne will be read. The items of the speech will be debated upon. The session opens promptly and all members of the debating society and all intending members are requested to be prompt.

TO FORM NEW LEAGUE

Indianapolis, Oct. 15.—A report that within 30 days a new baseball league will be formed, including in its circuit four American Association clubs and four International league clubs, was current in Indianapolis tonight. Authority for the report was given as a "man high in the council of organized baseball."

FISH FROM ATLANTIC

Naval Department Pays Portion of Transportation Charges

Ottawa, Oct. 15.—The naval department is considering the advisability of paying the transportation charges on the cheaper grades of fish from the Atlantic coast to the central provinces, thereby giving dealers in the interior an opportunity to secure supplies of cheap fish.

DEAF PEOPLE

DEAFNESS AND NOISES IN THE EAR are now being cured by the newly discovered "French Ointment." This new remedy goes right to the actual seat of the trouble, and effects a complete and lasting cure in a few days.

CONSERVATIVES OBJECT

Do Not Want Rowell to Run in North Toronto. Toronto, Oct. 15.—Considerable discussion is taking place here among Conservatives regarding the selection of a constituency for N. W. Rowell to contest at the coming election. It has been suggested that he should run in North Toronto, but Conservatives in that district may rebel if the government increases this move. They claim that if Sir George Foster does not run in this constituency Dr. Bruce should be offered the seat. Dr. Bruce is at present working in a casualty clearing station in France.

HIGH STATESMANSHIP

Toronto, Oct. 15.—"Union government is a piece of high statesmanship and of patriotism too. I think we may now look forward to a much happier future politically, for it unites us in one great cause, and I believe the outside world will regard it as a tribute to Canadian character and patriotism."

SOLDIERS RETURNING

Winnipeg, Oct. 15.—A party of 173 returned soldiers will pass through here for the west on Wednesday. Ninety-three are for Calgary and 83 for Victoria.

FAVOR UNION GOVERNMENT AND WIN-WAR POLICY

Local Conservatives Would Have Union of Parties to Choose a Win-the-War Candidate in Local Riding

SPANKIE DEBATES

E. H. Crandell and S. B. Hillocks Declare for Unionism, While Dr. Spankie Thinks the Matter Over

E. H. Crandell, president of the South Calgary Conservative association, informed The Albertian that he favors the new win-the-war government.

"I am in favor of anything that will win the war. I think that is the first and only consideration that should occupy the minds of the Canadian people at the present time," said Mr. Crandell.

"Do you mean by this statement that you think this is the only way to win the war?" asked the reporter. "No, I think the war would be won anyway."

"Then what attitude do you take toward the present union government, and what do you think will be the attitude of the Conservatives toward it?" "I think the public will support it."

"Liberals and Conservatives. Do you think the Liberals and Conservatives can get together on this matter and choose a union candidate?" "I don't see why not."

"How would you suggest the candidate should be chosen?" "By calling a win-the-war convention, properly advertised and properly representative of the whole constituency."

"But how would you make this convention properly representative?" "Where would the delegates get their credentials?"

Mr. Crandell then outlined a plan. He would like to have small win-the-war conventions held in various parts of the constituency. Then these conventions would send properly accredited delegates to the main win-the-war convention. The candidate who is thus selected to have the united support of both parties.

Endorses Union. S. Bacon Hillocks, while not being wholly satisfied with the selection of Liberals made for the cabinet, is a firm believer in union government, and thinks that all parties should get behind the new government and make it a success. He said to The Albertian:

"As far as I am concerned, I think the union win-the-war government is the right thing. Naturally I am not convinced that all who have been taken into the cabinet should have been taken in. But aside from local prejudices I have always been in favor of union government. I think the Conservatives will go on with it and that it will sweep the country. If you ask my opinion I think the same Conservatives and Liberals should back the win-the-war government."

Not Prepared to Think. Dr. Spankie, the president of the Calgary Conservative association, has been away shooting, and since returning to town has not had time to think sufficiently on the subject to furnish an opinion.

REPRESENTATIVES OF MILITIA DEPT. TO MEET HERE

All Appointees to Local Tribunals of Militia Department Will Hold Conference in Calgary on Friday

The representatives of the militia department who will attend each local tribunal in the province, will attend a provincial conference at Calgary next Friday to receive final instructions from Major Kerby as to their duties when officiating at the tribunals.

Major Kerby was instructed some time ago by the military authorities at Ottawa to recommend the names of 100 men, returned veterans if possible, who would act for the department in attending the tribunals and looking after the department's interests.

Major Kerby has not completed his list of appointments yet, but will call the conference in the meantime and afterwards give individual instructions to appointees selected later.

The conference will be held in the public library on Friday afternoon.

DR. ROBERTSON TO SPEAK. Dr. James Robertson of Ottawa, will address a meeting in the Central Methodist church tonight at 8 o'clock, on the subject of "Food Control." The educational institutions of the city are joining with local food control committee to make this meeting a success and will assist with the program.

CUTICURA HEALS ITCHY SCALP RASH

That Burned and Pained Four Years. Hair Came Out. Loss of Sleep.

"My scalp was red and very itchy, and a fine rash developed which burned and pained incessantly. This seemed to destroy the hair roots, causing my hair to come out, which disfigured the top of my head. It also caused loss of sleep. The trouble lasted four years. Then I sent for a free sample of Cuticura Soap and Ointment which encouraged me to buy more, and I had one cake of Cuticura Soap and one box of Ointment and I was healed." (Signed) John Cunningham, Church St., Antigonish, N.S., April 4, 1917.

Why not make Cuticura your everyday toilet soap and prevent skin troubles? Absolutely nothing better. For Free Sample Each by Mail address post-card: "Cuticura, Dept. A, Boston, U. S. A." Sold everywhere.

CHIEF COMPLAINS THE POLICE CANNOT CONTROL TAXICABS

Licenses Are Issued to Any Person, Fit or Unfit, for Payment of Fee to Government

That urgent legislation is needed at once to place power in the hands of the police to regulate the issuing of taxicab licenses was pointed out yesterday to The Albertian by Chief of Police Cuddy, for a variety of reasons, among which is the fact that as regulated at present by the provincial authorities, licenses are issued promiscuously to any and all applicants without references being furnished by the applicant for licenses, who are often of character and antecedents which render them unfit for the work of dealing with the public, especially strangers to the city, many of whom are at the mercy of the drivers of taxicabs, in that, if the driver of the vehicle is untrustworthy enough, especially in the case of young girls, they may be taken to destinations other than that asked for, and placed in great moral peril.

Examples of this were quoted by the chief of police, in that in one holder of a license who has not the use of both his hands cannot operate his cab without endangering the safety of the public.

The matter of the regulation of the issuing of licenses of public vehicles for hire was brought before the city council last February, which is said to have taken up the matter with the provincial authorities, but so far nothing has yet been done to bring about the required legislation to transfer this power to the city police, who are the most concerned with regard to safety.

Should Increase Penalty. Another matter pointed out by the chief of police, was that the law at present is not strict enough in dealing with vehicle drivers who pass a street car discharging passengers, in that the present fine of \$20 and costs is not enough of a deterrent and should be raised to \$100 and costs. The chief quoted several cases in which irresponsible taxi drivers had been reported to the police for severe offenses which under normal regulations should have caused them to lose their licenses.

Jury Are Sleepy. By the time these witnesses had been examined and cross-examined it was 11:30 o'clock and both lawyers asked for an adjournment as the jurymen were getting sleepy. The coroner assented to the adjournment as four witnesses, including the woman in the car, had yet to be examined.

INQUEST ON DEATH OF HARRY VALENTINE IS NOT CONCLUDED

Eye Witness Is to Give Evidence; Lawyer for Weir Puts Witness Through Grilling Test

Coroner Ross opened the inquest last evening into the death of Harry Valentine, the 18-year-old boy who died Saturday evening after being run down by an automobile on Seventh avenue operated by Robert Weir, a taxicab driver of 722 Sixth avenue west.

The first witness called by the coroner was Dr. Ned McPhatter of Fourteenth avenue, who testified to having been called by Weir Saturday evening to attend the injured boy.

Dr. McPhatter said death was caused by the windpipe being broken or lacerated, which had resulted in the blood flowing into the lungs.

He also testified that there was no mark or bruise on the skin of the throat to show that any heavy wheel or other implement had passed or struck the boy's neck.

Dr. McPhatter gave it as his opinion, in reply to questions, that if a heavy Studebaker car weighing some 3,500 pounds had passed over the neck that it would have been crushed. He had not noticed any damage done to the clothes of the victim of the accident beyond the fact that one of his pants legs was torn at the knee.

He said the boy was conscious when brought in, but died soon after, and testified that even if a dozen surgeons had been present his life could not have been saved with the injuries he had sustained.

Weir was represented by Attorney McKinley Cameron, while Attorney H. H. Gibberlet represented Mr. T. V. Valentine, father of the dead lad, Mr. Valentine being present in person.

Witness Confused. The second witness was 18-year-old Cecil Newbery, who testified to having seen the accident. He said he had seen Harry Valentine pass him on a wheel and had thought it was a boy he knew. He had followed and passed him, and seen him knocked down by the automobile, but on cross-examination by the Attorney for Weir, was easily confused. He could not give a correct estimate of the speed at which the Studebaker was driven, but he said he remembered he received at the hands of the experienced lawyer could not tell whose fault it was that had caused the accident. He said he thought Harry had been dragged 30 feet after being struck, but was not sure. He said Harry had tried to get up, but had been evidently changed his mind after seeing the auto and tried to turn back south, and then the crash occurred.

He was followed on the witness stand by George Valentine, 14 years old, brother of Harry, who said Saturday night he had started to cover his route on a pony owned by Wilfrid Manary, and that his brother Harry, on his brother's motor cycle, was going fast with him. He said Harry got ahead of him and that he had been passed by the automobile, and he had seen Harry in front of it, heard the crash and had seen the glass fly. He said the auto had his lamps lit, but that he did not see them. The boy made a good witness and held his own with the attorney for Weir.

During the course of the examination it developed that there was a woman in the car with Weir, who helped to hold the injured boy till the office of Dr. McPhatter was reached. George had asked Weir to take his brother to the Herald building, where several doctors would be on hand and had gone to Dr. McPhatter's residence, but later admitted that he had seen Weir had pulled his brother out of the auto and left him on the sidewalk under strong excitement. He told how Harry had opened his eyes and asked where he was and then became unconscious till he died.

The consensus of opinion amongst the jurymen was that death had been caused by the head of the victim being jerked violently back, which stretched the windpipe and ruptured it. The inquest will be continued at 8 o'clock this evening in the undertaking parlors of Harrison & Foster.

"Darkness . . . but look! In Heaven, a light, And it's shining down . . . God's accolade! Lift me up friends. I'm going to win—my cross!" From "Tricolor," by Robert Service

TO the sick and the wounded, the British Red Cross ministers according to the highest traditions of the Hospitallers, or Knights of St. John of Jerusalem.

Small wonder, then, that their insignia dawns upon many a sufferer's returning consciousness as God's Accolade!

To Canada is given the privilege of once more leading the Empire in aiding the work of the British Red Cross, by contributing generously to its cause.

**A Few Facts About the Work of the British Red Cross**

The British Red Cross Society is the only institution which carries voluntary aid to the Sick and Wounded of the British forces on land and sea in every region of the War.

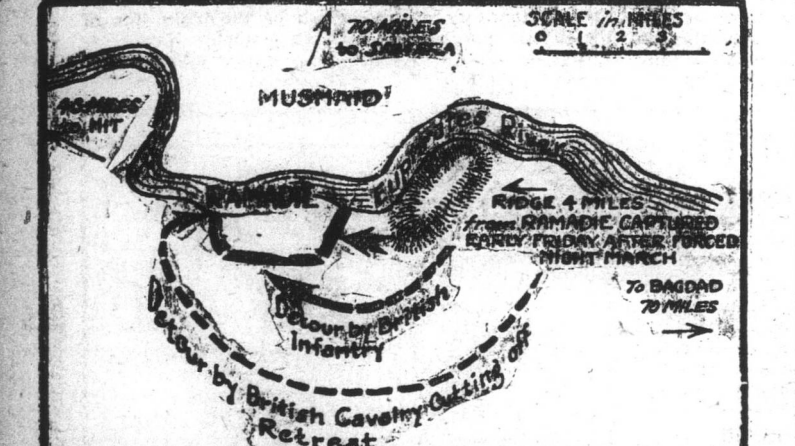

Its work is therefore the concern of all classes of British subjects, whether living in the British Isles, in the Dominions and Colonies beyond the seas, or in foreign countries.

**IN GREAT BRITAIN**

- \$100,000 for initial outfit in providing and equipping after-care institutions for totally disabled men.
- \$100,000 for materials for Red Cross Working Parties.
- 40,000 books and magazines supplied weekly for the sick and wounded.
- 460 Motor Ambulances, Cars, etc., for Home Service.
- 28 Command Depots and Convalescent Camps regularly visited and supplied with Comforts and Games.

The home (London, Eng.) administration and management expenses (excluding hospitals) for the year ended 20th October, 1916, represent 2.92 per cent. of the total expenditure, or less than 3 cents on the dollar. Audited accounts have been supplied to the Canadian Red Cross Society.

Red Cross work costs over \$300,000 per week or \$30 a minute.

HOW BRITISH CUT OFF RETREAT OF TURKS. The accompanying diagram illustrates the strategy used by General Maude, formerly of Ottawa, in gaining his success on the Euphrates. By a forced night march his troops early Friday morning captured a ridge at Mushad. That place is north of the river, but General Maude does not report that he crossed the stream, and so we assume that the ridge, which he says is four miles east of Ramele, is on the south bank and responsible for the bend in the river at that point. While part of General Maude's troops held the river front west of the ridge an infantry column made a detour away from the river and advanced on Ramele from the southeast and south. In addition to which a force of cavalry made a longer detour by way of the south and entrenched themselves west of the town. The river runs in the town on the north and is without bridges, so that the enemy army, having failed in desperate attempts to break through to the west, was compelled to surrender.

THE GREATEST SENSATION of the year in Electrical Hall has come! It comes in the form of the eagerly-awaited Annual Sale of high-grade fixtures for living-rooms, dining-rooms, dens, etc., at markings BELOW FACTORY PRICES! As usual with a selling of this nature, we planned months ahead of its action, thus securing a fairly large assortment of handsome electric fixtures to sell at three prices, little short of phenomenal.

The fixtures all wired (but NOT including lamps) include direct lighting and indirect lighting units and clusters, drop chain and lantern fixtures in brushed brass, antique brass, royal copper, bronze, burned brass, wrought iron, etc. Come early today---many have been waiting for just such news as this!

## HIGHER SUBSISTENCE RATES FOR MEMBERS OF THE HOME GUARD

### In Future Rate Will Be \$20 Per Month, Equal to That on Overseas Service

Ottawa, Oct. 15.—An order-in-council has been passed providing that men of the active militia engaged in home guard duty throughout Canada, shall be given the same subsistence allowance as men of the C.E.F. At present there are some 2,000 men on guard duty in Canada, the great part of whom are unfit for overseas service, who receive the same rate of pay as members of the overseas forces. In the past, however, they have been granted a subsistence allowance of only \$13.50 a month, while the overseas men have been given \$20 a month. A large number of complaints as to the inadequacy of this allowance have been received at the militia department, the minister, after considering the matter for some time, decided that in view of the high cost of living and the approach of winter, it would be best to place the men on home guard duty and the men of the overseas forces on exactly the same basis, both as regards pay and subsistence allowance. He therefore recommended this to the privy council, which resulted in the passage of the order. The increase in the subsistence allowance for home guard men is to date from the first of this month.

## TWO MILLION HUNS WAITING TO BE KILLED

### American Airman Doing His Share and Going Back to Bag Few More Reptiles

Kansas City, Mo., Oct. 15.—"There are two million Germans over there waiting to be killed. Somebody has to kill them to end this war. Sure, I am going back and do my share of it."

Such is the answer of Lieut. Weston Birch Hall, aviator in the French army, when he is asked if he intends returning to service after his thorough experience. Lieut. Hall, who lives in Higginsville, Mo., was in Kansas City today to address the City Club at its noon luncheon.

"It's the greatest sport in the world, this combat in the clouds with a man's life as the stake," Lieut. Hall said. "The fighting aviator enjoys all the pleasure of a keen athletic contest, with the added spice of danger, something high that he is invisible to search, and of all he surveys until he runs into an enemy, he fights, like the original caveman, for the supremacy of his domain. I was not afraid. It was both work and play."

Lieut. Hall spent six months in the air before he brought down his first of nine planes. "Did I worry because I had killed after I brought down my first plane?" he laughed. "I slept like a baby that night. What is war for, if it isn't to kill? I knew those fellows were out to 'get' me."

Hall fought his first battle at a 14,500-foot height. He had been attacked over Verdun by two Boches in a heavy scout plane. He was alone in a "speeder" equipped at that time, April, 1916, with the Lewis gun, the unwieldy quick-firer placed above his fuselage. The Missouri boy "got" both. One German fell from his machine, tumbling in a sickening spiral two miles to earth. Before the plane dropped, Hall saw the other man slump lifeless from his seat.

"My record to date is nine planes, not nine planes forced to descend, but nine in which I killed the aviators in mid-air," he explained. A plane is considered brought down when its pilots are killed.

Serving since the second day of the war, having enlisted in Paris, where he was a professional flier, Lieut. Hall has fought on three fronts, the French, Russian and Rumanian. On all these fronts he has been decorated. His most prized ribbon is the French Military Medal, given only for extreme valor. On his Croix de Guerre appear three olive branches, or bars, each one signifying that Lieut. Hall has been mentioned specifically in the general orders of an entire army.

Since going to France Lieut. Hall has been forced to change his name. "Weston" translated into French means a suit of clothes, he says. "For Birch," the French say, "you're named after a tree. What a handle," he laughed. So I call myself Bert. They translate that into "Bill."

## CORSET TOPICS No. 1

It is a great temptation to the large woman to draw up her corset as much as she can. The flesh, however, may be compressed just so much and no more. After that it goes up or down, as the case may be, causing ugly lines, a red face and an extremely awkward walk. The corset may be made quite tight about the hips, but it must be left easy at the waistline and around the top.

If your figure is stout, there is a particular American Lady Corset model, which will supply your needs. Prices range \$1.50, \$2.50, \$3.00, \$4.00
