THE BIG STORM

Heavy Loss Along the South Shore. Building Destroyed at Digby

Great havoc was wrought by the storm that swept over Nova Scotia on Wednesday and early on Thursday morning. Reports coming to hand from points along the coast tell of the damage to shipping and the heavy loss sustained by fishermen.

Along Halifax Co. Shore

At Portuguese Cove, approximate loss \$25,000. All fishing gear was out, and no hope is entertained of recovering it. Wharves and skids were carried away, and boats and seines utterly destroyed. At Duncan's Cove, motor boats, seines, all fishing gear completely destroyed, and the losses are heavy. Nine families lost approximately \$1,000 each, and the gale was the most terrific within the recollection of the oldest inhabitants.

At Ketch Harbour the seas were the highest ever known, and the losses were heavy.

At Hubbards the damage was very serious, wharves being washed down, several houses being unroofed and there was a great loss of fishing gear. The fishermen are vainly searching the shores for their seines, etc.

At Sambro, Prospect and other points along the shore there was considerable damage.

Six Schooners Driven Ashore

LUNenburg, Nov. 6.—A storm of unusual violence has been raging for the last 36 hours and shows small signs of abating. At one o'clock yesterday morning the wind which blew heavily developed into a gale travelling at the rate of 70 miles an hour, accompanied by torrents of rain which continued all day yesterday, last night and today, trees were uprooted, windows broken and doors forced open, buildings damaged, some blown down, and vessels and boats driven ashore in all directions. The wind blew with such force that on the highest points of the town it was dangerous to enter or leave a house. Houses near the sea had, in some cases in the outlying districts, their cellars flooded and considerable produce injured.

A freight shed on the wharf of Anderson Bros. blew down and was dumped into the dock. A quantity of timber in the shipyards of Smith and Rohland was carried away by the high tide.

The schooner Dorothy Adams was driven on Kaubach's Head, and is in a somewhat dangerous position. The schooner Lauretta Frances, is high and dry at the Tan Yard, and the Aracania, Edith Miller, Carriell Hirtle, and Lucille Smith are all ashore on the southern side of the harbour, being driven on that side, as the wind was northeast. A government boat, and the tug Mascotte are under steam ready to render any possible assistance as soon as the wind goes down. The floors of some of the fish stores have been flooded, and a quantity of stock injured.

At lower Kingsburg where many of the buildings are at a low level, the sea came in over the beach filling the pound and undermining the cellars. This morning a number of people went to their barns to feed their cattle and release their stock that were in danger of being drowned. The roads have been covered at different points, and drift wood and sea debris is spread over the highway. It is stated that this was the worst storm and the highest tide since the Saxby gale fifty years ago.

Worst Storm in Fifty Years

GUYSBORO, Nov. 6.—The most disastrous storm that has visited this section of the province for many years has been raging here for the past forty eight hours. Some even say it is the worst since the great gale of fifty years ago. The wind blew from east to south east and back again, and is now northeast, and still blowing strong. The duration of the storm was most unusual. Ever since Monday an east wind had been blowing with ever increasing force, and the sea in the bay had become very rough, but not until yesterday had the wind assumed the proportion of a gale which raged with increased fury throughout the night,

at times attaining almost hurricane velocity. Much of the damage was caused by the high tide, all the water front was at times awash, and today is scattered with wreckage. Several of the older wharves were demolished, and all received a bad shaking. The sea also entered some of the warehouses, and did considerable damage to the goods stored there.

The old hull forge and pier was destroyed, and two fine motor boats belonging to Grant and Bearse which were stored there were badly smashed. Fortunately there was very little shipping in port, the S. S. Elaine having remained at Mulgrave.

Richardson's vessel which was at anchor in the harbour broke from her moorings and was washed high and dry on the rocks above Hartshorn's mill, many small boats were damaged and the shore road is badly washed away. In some places it is piled high with drift logs and wreckage, making it impassable.

The lighthouse and beacon at the mouth of the harbor were both considerably damaged.

At Cook's Cove and Salmon River, the sea overflowed all previous bounds and gutted the roadway so bad in places that neither the mail carriers or wire repair men could get through.

Perhaps the most notable incident of the storm was the fact that the high tide and mountainous seas in the day overran the long beach which has formed for ages a natural breakwater across the mouth of the harbor, and bids fair to cut a new channel through to Pumpy Cove. Trees and fences are down in all directions, and the wires are in bad shape.

It is the fishermen who will suffer the most. Nearly every available net was in the water, in the customary endeavor to catch some of the fine run of mackerel which immediately preceded the gale, and few if any will ever be found again. Several fishing boats are also reported smashed, and it is feared that the damage, particularly along the north shore, of the Bay will prove severe.

Yesterday's mail was not received here till late this afternoon, and there has been no boat from Mulgrave for two days.

Heavy Loss On The South Shore

LIVERPOOL, Nov. 6.—Reports from the outlying districts respecting the terrible gale of the past two days are as follows: At South-west Port Mouton fifteen fishing boats are ashore, several of them lost, and six others at Port Mouton proper. The fish buildings of F. A. Robertson, merchant of that place, were blown down with much loss of stock, part of Neville's Ltd., wharf was torn off, and the government pier carried away.

The Halifax and S. W. Railway had a bad washout at Summerville Beach, where the road bed for the length of twenty two rails is gone, and sunk from one to four feet. In this settlement the public road between the school house and the residence of John McGowan is impassable, being filled with rocks thrown up by the force of the sea. Port Medway has fish boats and a couple of fishing boats ashore. No loss of life has been reported.

At Liverpool this morning another exceptional high tide prevailed, being a foot higher than yesterday's which again covered the lower streets, filled the cellars, and entered stores. The river was filled with an immense amount of material swept from the waterfront, while two small wharves were carried all away and trees are down in all directions. The tern schooner Audrey P. Brown, which went ashore last night at Fort Point lighthouse has been badly pounded today, the hull strained. She may be got off with difficulty.

Fifteen Fishing Boats Destroyed

PORT MOUTON, November 6.—The hurricane which gripped Nova Scotia on Wednesday left very evident traces here, and was one of the worst in the memories of even the oldest inhabitants of the place. The tides were exceptionally high, rising many

yards above the usual level. Fifteen fishing boats were destroyed and almost all the fishermen's stands and nets were carried away. Many boats were thrown up on the shore by the waves, fifty or sixty feet above the ordinary highwater mark. The wharf and warehouses of Aubrey Robertson were washed away and through the bridge. The top of the government pier was torn completely off, and fell upon a number of boats, wrecking them. Reports from Port Medway say that conditions there are practically the same as here and great damage was done.

Schooner Ashore

SYDNEY, Nov. 6.—The schooner Rosie M. B. loaded with coal dragged her anchors and went ashore at North Sydney in the height of last night's gale. No lives were lost and the vessel suffered only slight damage.

Storm swept Cape Breton escaped without more serious damage than the usual crippling of telegraph and telephone service.

Building Destroyed at Digby

DIGBY, November 7.—The heavy northeast gale which has been doing so much damage over the province has held Digby in its grip for the past three days and is still raging. High seas have been running and at high tide the wharves have been flooded and the sea broke on Water Street.

No damage was suffered until Thursday night when passersby noticed that the building occupied on the ground floor by A. J. West-laver (the Digby meat market), and upstairs, as a tenant, by Mr. Dennison, had its foundation weakened by the heavy seas and was in a precarious condition. The tenants were helped out, but the building withstood the night's tide. Friday morning when the tide rose the heavy seas tore the remaining portion of the cribwork out and about 10.30 the building fell with a crash and is a total loss. It is owned by Mrs. Amelia Fairweather, Ottawa.

MUNICIPAL ELECTIONS

A List of Those Elected in Annapolis and Digby Counties

There was as much interest taken in some parts of Annapolis county during the past municipal election campaign, and on election day as if the whole Dominion of Canada was depending on this municipality. It is all right to take a deep interest in civic affairs, but certainly a mistake to take politics into a councillor's election. We want for councillors the best men we can get regardless of their politics in a provincial or federal election. We believe, however that the results have given us a good council and we wish them every success in the work that is before them.

The official returns for this county are as follows:

- No. 1.—A. P. Bowly, 67 maj.
- No. 2.—Frank Balsor, Acc.
- No. 3.—Fred W. Bishop, 85 maj.
- No. 4.—J. I. Foster, Acc.
- No. 5.—LeBaron Troop, 41 maj.
- No. 6.—J. Norman Berry, 36 maj.
- No. 7.—Ansel Casey, 52 maj.
- No. 8.—Ellas Rawding, Acc.
- No. 9.—W. G. Clarke, Acc.
- No. 10.—W. A. Marshall, Acc.
- No. 11.—C. L. Pigott, 51 maj.
- No. 12.—Harry Gate, 49 maj.
- No. 13.—J. C. Grimm, Acc.
- No. 14.—A. D. Thomas, Acc.
- No. 15.—Myres Gibson, Acc.
- No. 16.—Leslie Armstrong, 121 maj.

DIGBY COUNTY

There was so little interest taken in the municipality of Digby that the people of Freeport forgot there was an election. Friday's Digby Courier says: There was not much excitement in the municipality of Digby over the elections. There were contests in four sections. Weymouth, Plympton, Sandy Cove and Rossway. In Weymouth two new men were out, E. F. Hankinson and J. Milton Sabean. The former won, the votes being 108 and

85. In Plympton Councillor Andrews won out over his opponent, Thomas W. Cook, by a majority of 74. In Sandy Cove Warden Saunders was defeated by E. A. Gidney by 46, and in Rossway, Councillor Robbins went down before Clarence Cornwell by 13 majority.

The other councillors were all (except in Freeport) returned by acclamation, as follows: Westport H. P. Bowers; Tiverton, St. Clair Ruggles; Culloden, Curtis Y. Young; Brighton, Harry H. Marshall; Weymouth, North, Norman A. Ruggles; Smith's Cove Wm M Cossaboom. In Freeport the returning officer forgot nomination day and did not hold his court. The Governor in Council will be requested to set another date for nomination and election in this section.

MUNICIPALITY OF CLARE
Concession—Agné Comeau.
Church Point—Auguste Saulnier.
St. Bernard—Augustin Gaudet.
New Tusket—Amédée Robicheau.
Salmon River—W. J. Foley.
Meteghan—Thomas German.
Meteghan River—Maturin Comeau.
Comeauville—Joseph Comeau.

There was considerable interest manifested in the Salmon River district where W. J. Foley and Augustine N. Deveau contested for the honors. The vote stood 200 for Foley, 124 for Deveau. Exactly thirty years ago Mr. Foley defeated the late Nicolas Deveau father of Augustine, by 8 majority.

Messrs J. N. Rafuse & Sons are about to commence the construction of a schooner in Foley's shipyard at Salmon River. The vessel will be built from one of the latest models of knock about type and will be about 155 feet overall, 24 beam and 11 deep. It is the builders' intention to have her ready for launching early in March.

The St. John schur was in Yarmouth for Longmire, which was in Yarmouth for two weeks, sailed Monday morning for Winkor, where she will load plaster for New York. While in port the schooner had some caulking and other work done.

DISTRICT MEETING

Baptists Held a Successful Convention in Paradise

The United Baptist District Meeting convened at Paradise Nov 3rd and 4th Owing to two causes the attendance was not as large as was expected. The farmers were still busy with their harvest, and the Municipal poll happened to be at the same time. All of the pastors, excepting two were present, and one of these was reported ill. The following churches were represented by laymen: Paradise, Lawrencetown, Nictaux, Bridgetown, Middleton, Lower Granville and Port Lorne.

Among the items of general interest that were approved the following may be noted:

1. A recommendation respecting the allotments of the church for Denominational work for the current year Below is given in the left hand column the old allotment, in the centre column the new allotment and in the right hand column the amount contributed last year.

	Old	New	Contributed
Annapolis	\$100	\$100	\$ 46.63
Bridgetown	500	550	\$66.50
Clementsville	125	125	8.65
Clementspoint	75	70	36.25
Dalhousie East	30	30	38.07
Granville Centre	50	50	22.35
Granville Ferry	50	50	22.35
Granville Lower	125	125	60.95
Hampton	125	125	38.90
Lawrencetown	250	300	350.14
New Albany	35	50	36.40
Margaretville	125	125	127.15
Melvyn Square	75	125	86.49
Middleton	550	550	500.54
St. Hanley	75	150	152.89
Milford & Greywood	25	25	
Nictaux	500	550	500.54
Paradise & Clarence	400	450	491.69
Parker's & Litchfield	30	30	18.00
Springfield	200	225	213.00
Wilmet Mt.	125	125	129.27
Deep Brook		30	

The fact that the Convention is undertaking to raise \$10,000 more this year than last accounts for the increase in allotments. Deep Brook was organized last year so the name appears for the first time on the list.

2. A resolution advising the calling of a special meeting at North Williamston to consult with representatives of the Nictaux and Lawrencetown churches respecting the advisability of regarding North Williamston and Brickton as part of the Lawrencetown field.

3. A program for the current year which recommends cooperation in the Inter church Forward Movement; exchange of pulpits to stimulate benevolence; a series of evangelistic services in all of the churches, with the possible employment of an evangelist; Religious Educational propaganda including a rally in connection with Sunday School and Young Peoples' work, and an endeavour to place Baptist literature in every home; also increased activity along missionary lines. The Executive was charged with the duty of carrying these suggestions into effect.

The spirit of the meetings was fine. The women's hour was interesting. The hospitality of the entertaining church was unbounded. The next Session will be held in April, probably at Springfield. In the meantime the churches have a grand opportunity to gather in the whitened harvest.

DOINGS AT TORBROOK

This Wildcat Was Picking Out the Tender Ones

Judging from the experience of D. E. Foster, an Annapolis county farmer, this must be a year when wildcats are determined to eat only the best, even though they run great risks to get it. Mr. Foster, who resides near the Torbrook iron mines was awakened the other morning by a squawking among his hens. He hurried out with a lantern and found a fine pullet with her head freshly bitten off. A squawk a few rods away drew his attention and he ran to learn the cause. A small animal was dragging another pullet toward the road. On Mr. Foster's arrival the thief dropped his prey and took shelter in some willow bushes. The next day another commotion at the hen house caused the owner to investigate, this time tak-

ing along a potato hack. A young wildcat was looking the hens over to see what one he would have for dinner. On Mr. Foster's arrival the savage animal jumped for the rafters, but received a thumping blow between the eyes from the potato hack that broke in his skull and put an end to his depredations.

A GOOD INVESTMENT

Wedgeport Steam Trawler Co Ltd, of Wedgeport N. S.

The Wedgeport Steam Trawler Co has been organized with a capitalization of \$225,000 divided into 2250 shares of \$100.00 each, par value. The company's prospectus, which is now being circulated, contains the following:

The capitalization represents the actual cost of the steamer equipped with fishing gear ready for sea. Capt. H. T. LeBlanc, organizer and manager of the Company, is a Wedgeport man and has been connected with the fishing industry for many years, having risen step by step from a poor boy to the top of the ladder. He is a well known ship builder, has designed, built and financed the trawler up to the present time.

The steamer is of about seven hundred tons, gross, thoroughly built and fitted with the latest improvements.

Nothing has escaped the eagle eye of the builder which would add to the comfort, convenience and health of the crew. Also the economical operation of the trawler.

He has secured as Captain, Clayton Morrisset, a Nova Scotian, and one of the most experienced men in the steam trawling business, a man who has successfully operated steam trawlers from the port of Gloucester, Mass., for many years.

Having such practical and experienced men in charge the future is bright for this company as the business reputation of these men is of the highest character. This is all the more significant as at the present time an investor does not put his money into ships but men of ability and energy.

This steamer is now at Yarmouth where the most up to date machinery, imported from the United States, is being installed by the New Burrell Johnson Iron Company.

Captain LeBlanc expects to have her on the fishing grounds by the first of the year. This is also significant as steam trawlers do their best work during the winter months.

It is a well known fact that properly managed concerns of this nature give handsome returns and we have no hesitation in recommending these shares to the careful investor.

Dividends on this stock will be paid quarterly as justified by the earnings of the company.

Any one wishing to acquire a few shares of this stock can secure same by applying to secretary.

The officers as now constituted are: CAPT. J. E. KINNEY, Supt. Eastern Steamship Co., Yarmouth, President.

CAPT. H. T. LEBLANC, Wedgeport, Manager. DR. A. A. DECHMAN, Bridgetown, Secretary.

Why Daylight Scheme Failed

(Thrill Magazine)

The secret has leaked out that the real reason why the farmers were opposed to the daylight saving plan was that they were not able to get the roosters to adopt it. The chickens insisted on going to work on the old schedule. In open defiance of Congress they refused to knock off the extra hour from the morning beauty sleep. So under the new plan, instead of the roosters waking up the farmers, it became necessary for the farmers to wake up the roosters. This, quite naturally, aroused feelings of mutual antagonism. No farmer relishes the task of going out each morning while the moon is still riding in the heavens and cuffing a barn yard full of roosters off the perch. So there was nothing to do but repeal the law.

LOOK!

If you were told of a new discovery for the treatment of coughs, colds and bronchitis, as certain in its action on all chest troubles as anti-toxin is on diphtheria, or vaccination on small-pox, wouldn't you feel like giving it a trial?

Peps is the discovery!

Peps are little tablets, containing certain medicinal ingredients, which, when placed upon the tongue, immediately turn into vapour, and are at once breathed down the air passages to the lungs. On their journey, they soothe the inflamed and irritated membranes of the bronchial tubes, the delicate walls of the air passages, and finally enter and carry relief and healing to the lungs. In a word, while no liquid or solid can get to the lungs and air passages, these Peps fumes get there direct, and at once commence their work of healing.

At that rate it is fortunate for these animals that the season closed on Friday or our young friend would have made life impossible for them.

GUARD THE CHILDREN FROM AUTUMN COLDS

The Fall is the most severe season of the year for colds—one day is warm, the next is wet and cold and unless the mother is on her guard the little ones are seized with colds that may hang on all winter. Baby's Own Tablets are mothers best friend in preventing or banishing colds. They act as a gentle laxative, keeping the bowels and stomach free and sweet. An occasional dose will prevent colds or if it does come on suddenly will promptly relieve it. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Rev. M. W. Brown was a guest at Mr. Asahel Whitman's on Tuesday, the 4th.

Mr. Alfred Caldwell, of Arlington West, had the misfortune to fall from a load of grain and break his leg on Saturday last. Dr. Philney is in attendance.

The pie social on Wednesday evening was a good success, the sum of \$25.65 being realized. The proceeds are to be used for shingling the roof of the church.

Another New Church

The Baptist congregation at Kingsman's Corner (Woodville) Kings Co. are perfecting arrangements for the building of a new church in that vicinity. They plan on erecting a building to cost about \$5,000 and have already \$6,500 subscribed to cover cost and furnishings.

Agriculture

Protect Fruit Trees From Mice

(Experimental Farms Note)

Thousands of trees are injured in Canada every year by mice, and in the new districts a large number by rabbits also. All this could be prevented if the farmer or fruit grower would use the information available and protect his trees from mice. Some years there is less injury than others, and this fact leads to carelessness, and when a bad year comes the trees are unprotected.

While the depredations from mice and rabbits in winter vary from one year to another, depending on the scarcity or abundance of food, the number of mice which are in the vicinity, and the character of the winter, the injury is always greatest when the orchard is in bud, and when there is rubbish lying about; hence the latter should be removed before the winter sets in. As mice may be expected in greater or less numbers every winter, young trees should be regularly protected against their ravages. Mice usually begin working on the ground under the snow, and when they come to a tree they will begin to gnaw it if it is not protected. A small mound of soil from eight to twelve inches in height raised about the base of the tree will often prevent their injuring the tree, and even snow tramped about the tree has been quite effective, but the cheapest and surest practice is to wrap the tree with ordinary building paper, the price of which is small. Tar paper is also effective, but trees have been injured by using it, and it is well to guard against this when building paper will do as well. After the paper is wrapped around the tree and tied, a little earth should be put about the lower end to prevent the mice from beginning to work there, as, if they get a start, the paper will not stand in their way. It may be stated, however, that among several thousand young trees which have been wrapped with building paper for years at the Experimental Farm, Ottawa, there have been practically no instances where the mice have gnawed through the paper to get at the tree. The use of a wire protector or one made of tin or galvanized iron, is economical in the end, as they are durable.

There are a number of washes and poisons recommended for the protection of fruit trees and the destruction of the mice and rabbits but none of these is very satisfactory, as if the mice or rabbits are numerous, the poison has not sufficient effect upon them to prevent injury altogether. The following method of poisoning has been found fairly successful for mice, but rabbits are very difficult to deal with.

Make a mixture of one part by weight, of arsenic with three parts of corn meal. Nail two pieces of board, each six feet long and six inches wide, together so as to make a trough. Invert this near the trees to be protected and place about a tablespoonful of the poison on a shingle, and put it near the middle of the run, renewing the poison as often as is necessary.

Death of Eva Leonard

At her home, on Oct 13th, Eva, the daughter of Mr. and Mrs. E. K. Leonard, of Clarence. The end of this busy life came suddenly. Of a beautiful self sacrificing disposition her life was full of loving services freely rendered. The quiet strength of her character was felt by all with whom she came in contact. She was not called upon to fill a place in the public eye, but rather to do the every day tasks of the home. The spirit in which these were performed left nothing to be desired. Her going has left a deep void in the lives of all those near and dear to her. Truly hers was a short but fruitful life.

Besides her parents she leaves three brothers Vernon, Robert and Stewart two sisters Mrs. T. B. Akin, of Windsor, and Mrs. C. A. Bishop, of Clarence.

The funeral services were held at her late home, conducted by her pastor, Rev. I. A. Corbett. The bearers were the three brothers and brother in law, C. A. Bishop. Burial at Paradise.

SUFFERED DAY AND NIGHT

The Tortures of Dyspepsia Relieved By "Fruit-a-tives"

LITTLE BRAS D'OR, C. B.

"I was a terrible sufferer from Dyspepsia and Constipation for years. I had pain after eating, belching gas, constant headaches and did not sleep well at night. Finally, a friend told me to try 'Fruit-a-tives'. In a week, the Constipation was corrected and soon I was free of pain, headaches and that miserable feeling that accompanies Dyspepsia. I continued to take this splendid fruit medicine and now I am well, strong and vigorous". ROBERT NEWTON.

50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

Death of Eva Leonard

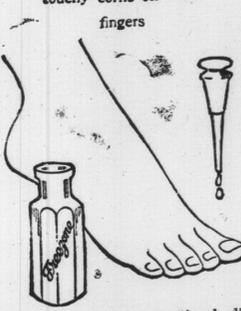

At her home, on Oct 13th, Eva, the daughter of Mr. and Mrs. E. K. Leonard, of Clarence. The end of this busy life came suddenly. Of a beautiful self sacrificing disposition her life was full of loving services freely rendered. The quiet strength of her character was felt by all with whom she came in contact. She was not called upon to fill a place in the public eye, but rather to do the every day tasks of the home. The spirit in which these were performed left nothing to be desired. Her going has left a deep void in the lives of all those near and dear to her. Truly hers was a short but fruitful life.

Besides her parents she leaves three brothers Vernon, Robert and Stewart two sisters Mrs. T. B. Akin, of Windsor, and Mrs. C. A. Bishop, of Clarence.

The funeral services were held at her late home, conducted by her pastor, Rev. I. A. Corbett. The bearers were the three brothers and brother in law, C. A. Bishop. Burial at Paradise.

LIFT OFF CORNS!

Apply few drops then lift sore, touchy corns off with fingers

Freezone is the sensational discovery of a Cincinnati genius. It is wonderful.

Doesn't hurt a bit! Drop a little Freezone on an aching corn, instantly that corn stops hurting, then you lift it right out. Yes, magic.

A tiny bottle of Freezone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

ONE ON THE BUTCHER

The following is a "true story" of a New Brunswick lawyer and a meat dealer:

A few days ago the lawyer's dog in his wanderings, stole into the meat dealer's store and carried off a nice chunk of meat.

The merchant hurriedly betook himself to the owner of the dog—the lawyer. Arriving there he asked "if a man's dog goes into your shop and steals a piece of meat, what should the shop man do?"

"Do," said the lawyer, "bill the owner of the dog and request payment for the loss incurred." The shop man in the next mail forwarded his bill for \$2 to the lawyer. It was paid by cheque. The lawyer in the following mail forwarded his bill, "To advice, \$5". The shop man paid it by cheque. Some one was out three dollars and a piece of beef. It wasn't the lawyer.

Another Mail Service

The establishment of a mail service on the D. A. R. night train between Yarmouth and Halifax is now in the hands of the Provincial Inspector at Halifax. Many Boards of Trade through the Annapolis Valley and at Yarmouth and Halifax thoroughly considered the question and each Board passed strong resolutions urging the establishment of such a mail service.

Our columns this issue are pretty well taken up with Victory Loan literature. On account of the great importance of the Loan being a thorough success we have yielded to the request of the organization to give space and more space.

Bridgetown People Are Having Narrow Escapes

Consumers of coal are advised to take warning from the case of Adam Williams, a farmer in Kansas. The case was reported by a physician in Wichita, Williams went to a coal dealer and asked what it would cost to heat his home for the winter. The coal dealer told him, and Williams fell dead. Physicians said his death was due to heart failure.

New C. P. R. Train Service

The C. P. R. are said to be planning on a new train service between St. John and Montra in conjunction with an improvement of the Bay of Fundy service. A train will reach the city, according to present reports, in time to catch the outgoing Digby boat and one will leave a city between 3 and 4 o'clock p. m., which is expected to prove quite an improvement in travelling facilities.

THIS WEEK, NERVOUS MOTHER

Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Health.

Philadelphia, Pa.—"I was very weak, always tired, my back ached, and I felt sickly most of the time. I went to a doctor and he said I had nervous indigestion, which added to my weak condition kept me worrying most of the time—and he said if I could not stop that, I could not get well. I heard so much about Lydia E. Pinkham's Vegetable Compound my husband wanted me to try it. I took it for a week and felt a little better. I kept it up for three months, and I feel fine and can eat anything now without distress or nervousness."—Mrs. J. WORTHLINE, 2842 North Taylor St., Philadelphia, Pa.

The majority of mothers nowadays, overdo, there are so many demands upon their time and strength; the result is invariably a weakened, run-down, nervous condition with headaches, back-ache, irritability and depression—and soon more serious ailments develop. It is at such periods in life that Lydia E. Pinkham's Vegetable Compound will restore a normal healthy condition, as it did to Mrs. Worthline.

THE TIGER WORSHIPPERS

First Episode Shown in the Primrose Theatre Last Thursday Night.

THE CAST Belle Boyd Ruth Roland Jack Randall George Larkin "Grim" Gordon Mark Strong Randolph Gordon Mark Strong "Tiger Face" Harry G. Monk "Bull" Shotwell Frederick L. Kohler Salonga George Field Hilca Easter Walters

In order to understand clearly the first episode of "The Tiger Trail," Pathé's great serial starring Ruth Roland, it is necessary to recount a series of adventures which happened some time before the Serial proper begins. Three adventurers, Peter Strong, "Grim" Gordon and Colonel Boyd had chartered a vessel and gone to East India in search of treasure. Before leaving their ship to go ashore they drew up and signed an agreement to share equally any treasure they found, and that, in case any of them met death in their adventure his share was to go to his heirs. Having made this "Pact of Three" they tore it into three pieces and each took one. Strong and Gordon retained their fragments of the Pact but Colonel Boyd, before embarking for shore, called Bill Boland, Captain of the ship, aside and gave him his piece of the Pact with instructions to give it to his daughter Belle in case of accident. After landing the three adventurers encountered a tribe of natives known as "The Tiger Worshippers" whose god was the Tiger. They found no treasure but succeeded in securing a Tiger Idol which the native looked upon as the symbol of their religion. A thrilling fight ensued between the adventurers and the natives and only "Grim" Gordon reached the ship alive with the Tiger Idol. He returned to America and shortly discovered a wonderful property of the Tiger Idol. When it came near flammum its eyes glowed with living fire. This property of the Idol made Gordon a rich man since with the Idol he located a tremendous deposit of Pitch Blende, the mineral from which Radium is extracted.

As the Serial opens "Grim" Gordon is living in a mansion near his mines. He has taken Belle Boyd, the daughter of his old partner in the Pact of Three and has educated her at a fashionable school in the East. Working in his mines are a great many Hindus and among them are a number of the Tiger Worshippers under the leadership of a Hindu named Salonga. They are determined to secure the Idol. They have a mysterious hold over a man known as Tiger Face whose face is marked in peculiar fashion so that his countenance is more that of a Tiger than of a human being. Also in the employ of Salonga and the Tiger Worshippers is "Bull" Shotwell, leader of a notorious band of cowboy outlaws. All of these factors are entered upon one ambition—to secure the Tiger Idol, but as the Serial opens they have been unsuccessful after many attempts.

Belle Boyd comes home from her school in the East to live with her Guardian Gordon, and on the train she encounters Jack Randall, a good-looking young engineer who is going West to accept a position in connection with Gordon's mines. As Belle steps from the train, "Bull" Shotwell and his gang attempt to kidnap her but are frustrated by Jack Randall who ousts the entire gang. Belle then goes on to the Gordon home and meets her Guardian who tells her that when her father appointed him as her Guardian it was under stood that she should marry Gordon's son Casper. But Belle is not ready to marry yet and she tells her Guardian so. That night Captain Bill Boland calls on Gordon for a sum of money. It will be remembered that he had Colonel Boyd's fragment of the "Pact of Three" and by promising one day to deliver it to Gordon he has been securing money

from the mine owner at frequent intervals. He meets Belle and makes an appointment to talk to her in the house that night. When they meet he tells her the history of the "Pact of Three" and the Tiger Idol and gives her the portion of the Pact which he kept all these years. It is his last living act for Gordon, determined to be rid of Boland's blackmailing and secure his portion of the "Pact of Three", has connected a table lamp in the room with a powerful high voltage wire and when Boland attempts to lift the lamp he is instantly electrocuted.

The Tiger Face has been prowling about in an attempt to secure the Idol and he sees Boland's death and makes his escape from the house. Then Gordon enters the room the guilt of Boland's murder on Tiger Face. Randall also comes to the room, having been aroused by the commotion and Gordon shows them the Tiger Idol and by using a phial of Radium shows them how its eyes glow when the precious metal is near it and how he located his Pitch Blende mines. He also informs them of the manner in which the Tiger Worshippers have persecuted him in an effort to regain the Idol. After he leaves Belle and Jack, they talk things over and Belle determines to stay and secure the right to the third interest in the mines which belongs to her through the "Pact of Three". Jack, who by this time has grown fond of the girl, agrees to help her and they both realize that there is trouble ahead and Janzer both from Gordon and from the Tiger Worshippers.

The next day the first "Lanze" is encountered. Belle, on a visit to the mines is surrounded by "Bull" Shotwell's men and the Tiger Face. At first she eludes them long enough to hide her fragment of the "Pact of Three" in a crevice in the rocks. Finally they capture her and take her to a great temple in the mines where the Tiger Worshippers continue their religious rites with a great Bengal Tiger as their god. When she refuses to tell where she has hidden

SHE BELIEVES IT SAVED HER LIFE

Mrs. O'Brien Didn't Have A Single Well Day in Five Years—Tanlac Restores Her to Health

"I actually believe this Tanlac has saved my life," is the remarkable statement of Mrs. Grace O'Brien, who resides at 18 June street, Halifax, Nova Scotia, Canada.

"I hadn't seen a well day in five years until I took Tanlac," she continued, "The agonies I suffered from stomach trouble made me almost wish I was dead many a time. In all those long years of suffering, I haven't known what it was to enjoy a meal, and have gone for days at a time without touching real food, because I was afraid of the pain that I knew it would bring me. Even a piece of dry toast would upset me so that I would be in misery for hours, and when I tried liquid food, it would sour on my stomach. When I would try to eat, my food would feel like a rock in my stomach and would sour and form gas that rose up in my throat and almost cut off my breathing. Pains all through the pit of my stomach sometimes kept me awake at night walking the floor and I finally got to the place where I ran down that I couldn't even dress myself. When I would try to dress in the morning, I have fainted away many a time, as I would be so weak that I couldn't stand on my two feet. If it hadn't been for my two daughters I don't know what I would have done, as they had to take care of me and the house too."

"The first bottle of Tanlac didn't seem to make much improvement in my condition for I had suffered so long that I began to feel like eating after the second bottle and as soon as I could eat and digest my food I felt myself getting stronger. I kept on until I have now taken four bottles and it is remarkable how I have improved. The pains through my stomach have disappeared entirely and the gas has quit forming. I have a good healthy appetite and can eat meat, onions, in fact anything I want—and it builds me up, and I enjoy every meal. My strength has come back until I can get around and do almost as much household work as my daughters can. I have gained ten pounds and am picking up all the time and when night comes I sleep without a pain and wake in the morning feeling like a different person. I really believe Tanlac has saved my life and I am glad to tell everybody about this wonderful medicine."

Tanlac is sold in Bridgetown by S. N. Wear, in Middleton by Clifford Mumford and in Bear River by L. V. Harris.

Money From Victory Loan Will Be Used to Re-establish Soldiers.

Our soldiers in France faced perils other than those of shell and gas and machine-gun fire. There was the peril of tuberculosis. Up to August last 3,909 soldiers suffering from this disease had been returned to Canada. These were placed in sanatoriums under the direction of the Department of Soldiers' Civil Re-establishment, and they are one of the departments of that branch that must be maintained, and come under the head of capital war outlay.

All of these men and some 20,000 others, disabled or ill, will be looked after with money raised through the Victory Loan 1919. It is the sacred duty of Canadians that the money is forthcoming.

Credits Must Be Established for Sale of Surplus Products.

Success of Victory Loan 1919 Will Insure Steady Markets for Farmers.

It takes some six bushels of wheat to feed the average person in Canada annually. Roughly, therefore, the eight million people here consume about 50,000,000 bushels each year. But even in a poor year the crop is some five times that amount, and the surplus must be sold if the farmers are to get a return for their time and labor. But the sale of the crop must be financed. Great Britain, which provides our greatest market, has not the ready cash; and so Canada must find means of raising the money. Hence the Victory Loan 1919. In view of the fact that the prosperity of the Dominion is dependent to a considerable extent upon the sale of her surplus grain the necessity of the money being forthcoming is patent.

Your dollar may be the last straw that sweeps the Victory Loan over the top. Would you take the chance of making it a failure?

Lend your money that your pay envelope may be always filled. As will follow the success of the Victory Loan.

Victory Bonds are the fodder that keeps the machinery of Canada's industrial world running at full speed.

the paper they throw into the cage with the tiger. "The Tiger's Trail" will be shown at the Primrose Theatre Bridgetown, Thursday of each week.

Victory Loan 1919 Is Bridge Between War and Peace.

Agricultural and Industrial Prosperity of Canada Depends on Success of the Loan.

Why is it necessary to have another Victory Loan? Have you heard this query? Or have you asked it? The Victory Loan of this year stands out as the bridge between war and peace. The war is over. Our boys won that. The reconstruction period is dawning and we at home must win that.

Much of the money that Canada is asking for will be needed to clean up the war debt. The expenses of demobilization were heavy, and there is still much of it unpaid. Now that our men are back, let it not be said that we repudiated the debt for bringing them back.

The sick and wounded soldiers still in hospitals are expecting that Canada will care for them and their dependents until they have been returned to health and strength. The hospital services must be maintained at full strength as long as there are returned men needing attention.

Many men through disability are unable to return to their pre-war occupations. The Department of Soldiers' Civil Re-establishment is doing a fine work in training returned soldiers in trades and professions that they can earn a living at, and is following up the training and seeing that they obtain remunerative employment. The maintaining of this branch of reconstructive service calls for much funds, and the Victory Loan will be used to pay for it as well as the other purposes.

Under the Soldiers' Land Settlement Act, enough money is lent to returned soldiers to enable them to buy and stock a farm. This money will be repaid at a low rate of interest. The soldier is thus given a chance to re-instate himself in civil life, and production is given a boost. Of the total amount of the forthcoming loan, \$24,000,000 has been apportioned to finance these soldier-farmers.

Pensions to the disabled and dependents of our glorious dead, as well as the authorized gratuities will be other items on the expense sheet. These are some of the obligations owing to the returned soldier who is now in health.

The maintaining of Canada's prosperity is an important reason why the Victory Loan should be a smashing success. The money is needed to finance the credits to overseas countries so that they may continue their trade relations with us. If Canada cannot give these credits other countries will, and then Canada will lose all that great overseas trade that has been the mainstay of our agricultural and industrial life for so long.

As an investment Victory Bonds are eminent. Paying 5 1/2 per cent, selling at par on the open market, and guaranteed by the Dominion—what further reason can you have for hesitating? The Victory Loan 1919 ought to be oversubscribed, and all right-thinking citizens will do their utmost to see that such a result is obtained.

TO CARE FOR WOUNDED Money From Victory Loan Will Be Used to Re-establish Soldiers.

But even in a poor year the crop is some five times that amount, and the surplus must be sold if the farmers are to get a return for their time and labor. But the sale of the crop must be financed. Great Britain, which provides our greatest market, has not the ready cash; and so Canada must find means of raising the money. Hence the Victory Loan 1919. In view of the fact that the prosperity of the Dominion is dependent to a considerable extent upon the sale of her surplus grain the necessity of the money being forthcoming is patent.

Your dollar may be the last straw that sweeps the Victory Loan over the top. Would you take the chance of making it a failure?

Lend your money that your pay envelope may be always filled. As will follow the success of the Victory Loan.

Victory Bonds are the fodder that keeps the machinery of Canada's industrial world running at full speed.

On October 1st we will commence our Second issue of CASH BONUS COUPONS.

Our first issues of Coupons are payable during this month, September, and already we have cashed the majority of them; some of our customers receiving as high as \$4.20.

There is absolutely no guess work about our Cash Bonus Coupon System. Our customers receive exactly the amount we advertise to give—and every purchaser who buys \$1.00 worth of goods at our store and pays cash at time of purchase is entitled to a Cash Bonus Coupon, and gets the amount due thereon as sure as if it were the coupon of a Victory Bond.

Our idea is to induce customers to pay Cash, and we make it worth while to do so by paying a Cash Bonus on the total amount purchased from our Shoe Store during a period of six months.

Our Second issue of Cash Bonus Coupons will be payable on March 1st, 1920. Try it. You will like it, and it will

Every town has a man who is disappointed because his great grandfather didn't buy the post office block for four dollars when he had the chance.

A report says the lumber market is dull with a poor outlook. The American demand is flat, and England wants only large sizes and not much of that.

Bridgetown's returned men will be entertained at a smoker in the Primrose theatre next Monday evening, a notice of which appears in our advertising columns.

Mrs A F Little wishes to thank all those who so kindly helped with the programme Monday night and especially the young ladies who gave up so much of their time for practicing.

It is said that a false report of a death near Bridgetown was the cause of an uncalled for visit from an undertaker and minister, whose presence was not particularly appreciated.

The Directors of Riverside cemetery kindly request the payment of all outstanding bills, taxes, etc., in order that they purchase another Victory War Bond for their permanent investment fund.

MONDAY EVENING'S ENTERTAINMENT

Bridgetown Will Have a Memorial Library in the Near Future

One of the most successful and best entertainments ever held in the Primrose theatre took place Monday evening under the auspices of the local Red Cross Society, the proceeds from which will be devoted to a memorial library for Bridgetown. The house was filled with an appreciative audience.

The chairman, Rev E Underwood, briefly stated the object of the entertainment and announced the following programme:

Overture, Orchestra Chorus, "Hurrah for the Flag and King", Girls

Song, "Somewhere a Voice is Calling," Miss M Troop

Song, "The Mighty Deep," Mr Henry Hicks

Reading, "A Flanders Tyke," Mrs Whiteway

Song, "A Drinking Song," Mr P Donat

Song, "Birds are Singing," Miss Juanita Bishop

Song and Chorus, "The Bachelor Gay," Mr P Donat and Ladies (From the Maid of the Mountains)

Reading, "The Honour of the Woods," Mrs W A Warren

Chorus, "Good Luck to Johnnie Cannuck," Girls

Orchestra Song, "Whi O' the Wisp," Mr P Donat

Song and chorus, "In Poppy Land," Miss J Bishop and Ladies (From Yokohama Girl)

Song, "In Flanders Fields," Rev E Underwood

Speeches, Rev M S Richardson, Rev Dr Jost, Rev W J W Swetnam

Orchestra Sketch, "A Musical Surprise," Misses M Troop, A J Bishop, Mr Henry B Hicks, Mr Vinton Lloyd, Rev E Underwood

Accompante, Mrs A F Little

Every number on the programme was well carried out, many of which were loudly encored but probably owing to the fact that the programme was quite a lengthy one only a few responded. Those who did were greatly appreciated.

In the addresses above referred to Mr Richardson spoke upon the necessity of a public library, Rev Dr Jost on the intellectual importance and Rev W J W Swetnam on the importance of a Memorial and he believed that nothing could be more appropriate than a public library.

Rev Mr Underwood thanked all who had assisted in the entertainment, including the press and especially Mrs A F Little, the accompanist, under whose management the whole programme had been so nicely arranged.

A squawk always goes up when a newspaper gets anything wrong. But this would be a pretty good world if you were half as careful about what you say as the newspapers are.

Real Live Testimonial
Given to Professor Hamilton, Hampton, N. S.
Victoria Beach, N. S., Nov. 4th, 1919
To Prof. B. S. HAMILTON:
Six months ago I was taken sick, was treated by doctors which pronounced it ulcers of the stomach and I was getting worse every day. My stomach was so weak I could not keep one thing on it, not even a teaspoonful of milk. Would vomit every thing up and feel I was in a dying condition. My life was short if I could not find aid. I was confined to my bed for four months. Hearing of Prof. Hamilton, we called him and he pronounced it a very bad case of ulcers of the stomach and said I could not live three weeks in that condition. After five days' treatment I was able to be out of bed and to eat. It is now five weeks and I have been restored from a living skeleton to my former self again. Under Prof.'s treatment I have gained 20 lbs. and able to eat my three meals a day. Prof. Hamilton has saved my life when doctors had failed and everyone thought I could not live. I highly recommend the Professor to all sick and suffering who desire health.

Make Your Dreams Come True

Fond parents dream of a bright future for their children.
They dream of the literary and musical education they are going to give their daughter, and of the high position she will take in her sphere of womanhood.
They dream of the education they are going to give their son and vision him some day as a clergyman, a famous lawyer, an eminent physician, a prominent financier, or a captain of industry.

But to make these dreams come true—or even partly true—requires foresight, planning and money.

To provide the money what plan so wise as to buy Victory Bonds for each child?

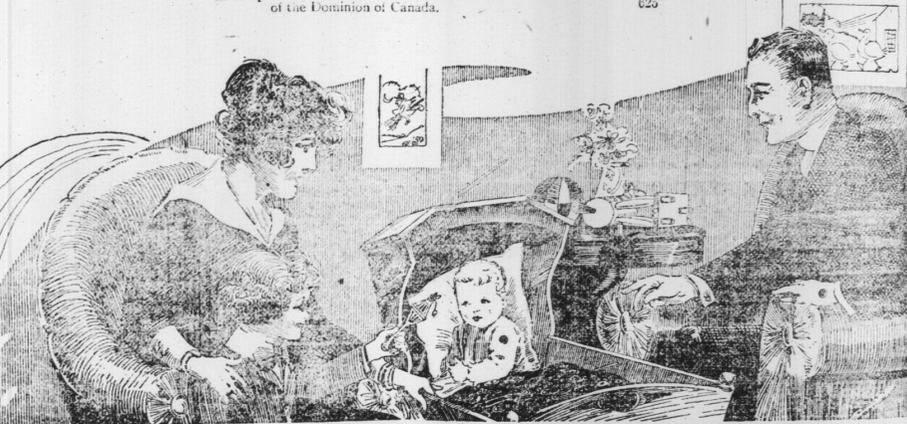

Thousands of parents bought Victory Bonds for their children in 1917 and 1918.

Surely you will be among the thousands of loving parents who will buy Victory Bonds for their children—this year?

Victory Bonds may be bought on instalments at such easy terms that every parent who so wishes may buy

GENERAL DEBILITY FOLLOWING INFLUENZA

Strength Can Only be Regained by Enriching the Blood

Following a wide spread epidemic of influenza, general debility is on the increase, and its effects may be noticed in the worn listless appearance of so many of the men and women who meet. Influenza always leaves behind it impaired vitality, and with the modern conditions of life that use up nerve force so rapidly, general debility becomes one of the most common maladies. The symptoms of debility vary, but weakness is always present. There is poor digestion, languor, weak, aching back, wakefulness at night, often distressing headaches and a feeling of fatigue. These symptoms indicate impure and impoverished blood. It is significant of nearly every attack of influenza that it is followed by anaemia and debility.

For all such run-down conditions, new blood is the most reliable cure. Sufferers should at once begin to make thin blood rich and red with Dr. Williams' Pink Pills. Under a fair treatment with this medicine they will realize more and more the health-restoring influence of good rich blood, and how this new blood brings a feeling of new strength and increased vitality. Proof is given in the case of Mrs. G. Robertson, Wingham, Ont., who says: "When the Spanish Influenza spread over our town I happened to be one of the first attacked, and the attack was a very severe one, and worse still the after effects of the trouble left me in continuous misery. I had severe pains in my side, felt low-spirited, and with no ambition whatever. My head ached almost continually, my eyes felt heavy, and pimples broke out on my face. I was advised to try Dr. Williams' Pink Pills, and after taking them for a time I felt like my old self able to do my housework, and feeling well and strong. I can strongly re-

commend Dr. Williams' Pink Pills for the serious after-effects of influenza as I am sure they will restore all sufferers to good health." You can get these pills through any dealer in medicine or by mail, postpaid, at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Death of Mrs. J. Hollis Lindsay

(From the Woodstock Press)

The death of Lulu May Florence Lindsay, wife of J. Hollis Lindsay, occurred at the sanatorium at Fairfield, Maine, on Monday. Mrs. Lindsay had been ill for several weeks and had only been at Fairfield for a few days.

Mrs. Lindsay was born at Bear River, Nova Scotia and was a member of an old and highly esteemed family. Her age was 35.

For the past few years, Mrs. Lindsay has taken a prominent part in the different musical activities of the town, possessing a charming voice. She also taught music with much success.

Mrs. Lindsay was a woman of high refinement and superior attainments kind and charitable. Her long illness was borne with Christian fortitude and without complaint.

Besides her husband, three children survive. Funeral services were held from the Methodist church Wednesday afternoon, Rev. Thomas Whitteide officiating. Interment was made at Hozeden.

A Funny Slip

An English physician telegraphed to the husband of a patient who had sustained a chill, and this is the form in which the message reached him: "No danger. Your wife has had a child. If we can keep her from having another to night she will do well."

FOURTEEN KILLED IN AN AUTOMOBILE ACCIDENT

Truck Carrying Masqueraders Struck By Train—Thirteen Others Injured

WOODBURY, November 2—Fourteen persons were killed and thirteen injured some of them seriously in the grade crossing accident at Lakesboro, eight miles from here, late last night, when a Pennsylvania railroad train struck an automobile truck of masqueraders. Twelve of the victims were killed instantly and two others died at the Cooper hospital, Camden. Two of them were women. Ten of the injured are still in the hospital and it is feared some of them cannot recover.

All of the dead and injured were from the Kensington mill district of Philadelphia. There were thirty two persons in the truck. They were returning home from after attending a Halloween party at Billingsport. The accident occurred in a driving rain; and it is believed the driver failed to see the approaching train until it was too late to stop.

FOREIGN MISSION FIELD

The Opportunity and Need for Christian Business Men

E. CARTER MILLIKIN

Within the past year it has been my privilege to visit South Africa and Ceylon and to spend some time in Egypt and in Palestine as a member of the American Red Cross Palestine Unit.

The opportunity was eagerly embraced to approach from an entirely new angle these lands which had often been studied as mission fields, laying aside in so far as possible the professional viewpoint of a Mission Board Secretary. As a Red Cross man bearing a U. S. commission I met none of the prejudice which, with or without cause, the missionary has to overcome. I was thus able to see through the eyes of military and civil officials and of business men some of the great problems with which missions have to do.

Three convictions growing out of this study were:

1. The vast need and the unlimited opportunity for the right type of missionary—the missionary who is more of a friend to the people than an antagonist of their religion, or a teacher of shibboleths; who by reason of his own innate culture and his social as well as intellectual training can meet the high and the lowly without embarrassment or condescension; who by the reality and the serenity of his faith and life can make Christianity intelligently known and attractive to men.

2. The crime—not merely the folly of our divisions as projected on the "foreign fields." There one sees without spectacles that the elements of the Christian message which are of vital worth to those to whom the missionary goes are the elements we hold in common, while these things

which divide the Church and Christianity into competitive overlapping efficiency preventing camps tend to make their zealous propagandists ridiculous or annoying in the eyes of those who see their work at first hand.

3. But it is the purpose of this little article to dwell on the third conviction which fastened itself upon me—the need for, and the unlimited opportunities open to the business man, the engineer, the scientific agriculturist, and a host of others who will go into these foreign communities as Christian men; and will stand for, exemplify, and endeavor to propagate the principles of Jesus. They will go not to exploit "inferior" peoples, or merely to make their own names and fortunes. They will go to do their bit for the development of resources latent in the peoples as well as the lands in the midst of which they make their home.

The Missionary Enterprise in its technical sense must be greatly extended or we of the Church shall fall miserably in the face of unparalleled opportunity. Christianity, however cannot be adequately presented or made indigenous by the unaided efforts of a group of missionaries. Their work must be reinforced, their teachings proven practically valuable, and their influence widely extended by a host of others who will live a practical normal and powerful Christianity, in the busy marts of trade in the centers of social life and out where civilization is pioneering.

Let us tell our boys and girls these facts, show them a vision of what their lives may do, and thus lead out and consecrate to the work of extending the Kingdom of Christ many who have neither the call nor the special capacity for professional Missionary service.

PRICE TAGGED HIS STORE

Next to Newspaper Advertising the Way to Get Business

Hugh McWilliams' success dates from the night he slipped outside his store and overheard the remarks of two men who stopped to look in the window—and passed on. It was all a question of the little price tags which were not there. When he had moved his stock of clothing, trunks and gents' furnishing goods to the new location in Miami, Okla., he had high hopes for there was room and spare for another such establishment. He was a good salesman and he employed competent clerks. He brought with him the name of "a good man to deal with". And this proved true enough with those permanently located there and those who happened to come from his former cities, people "came and went". In a locality of strangers "Mac" failed to do as well as he had a right to expect.

One evening, after closing hours he happened to be standing in front of his store when two men stopped for a moment to admire the really splendid values there displayed.

"Good stuff, that," said one "Just look at that brown suit, that tie, that pair of shoes and that tie" (pointing at each in turn). "Wouldn't that make a swell out fit?"

"It sure would," answered his friend, "but he's got no mark on them to show what they are priced at. They probably cost more than we could pay."

He had solved the problem. People wished to see the price of an article that struck their fancy, and not be compelled to ask for it. Yes, he had a good stock, splendid value attractive displays but they were not "marked".

That was all very well for his old home town, where every one knew him and his reputation for square dealing, but it wouldn't work in this "city of strangers".

McWilliams now has not only his window display plainly priced, but each and every article in the store no matter how insignificant. All who enter may read.

The first month after "decorating" his stock with price tags his trade increased fully 20 per cent. And since, in six months it has doubled.

MICKIE SAYS

YESSIR! A BUSINESS MAN CAN SAY HE DON'T BELIEVE IN ADVERTISING! BUT HE ALWAYS GETS UNEASNY WHEN HIS COMPETITOR STARTS DOIN' IT!

NABA'S FUTURE DEPENDS ON LOAN

Steady Employment and Prosperity Hangs on Victory Loan.

Canada's future prosperity depends to a great extent upon the success of the Victory Loan. No country can exist upon trade within its own boundaries. Canada counts on the trade with Great Britain and other allied countries to keep the flood of good times in the country.

The surplus products of the farm and the factory find their way across the seas. The revenue of the farmer and the manufacturer is dependent on this trade relationship being sustained. The employment of many hands depends on the orders that come to the firm. The pay envelope only comes with steady employment.

Great Britain and overseas countries are still desirous of continuing trade relations, but, overwhelmed with war expenses, they must be given credits for the time being. The farmer and the manufacturer must be paid for their products and manufactured articles in cash. Therefore, Canada must finance the proposition to keep the tide of commerce coming this way. But in order to have the money on hand to do this great thing, Canada must borrow from her people.

The Victory Loan offers bonds to subscribers paying 5 1/2 per cent. interest. The guarantee behind the bonds makes them an absolutely safe investment. Victory Bonds are accepted as collateral at any bank, and can easily be turned into money at a profit. It is then to the interests of every Canadian to subscribe for all the Victory Bonds he can, for it is profitable, it is patriotic, and it is necessary for the continued prosperity of the country.

CANADA NEEDS MONEY

War Expenditures Still to Be Met From Proceeds of Victory Loan.

The war is over and won; but Canada's main expenditures for war will not be complete until well on into 1920. The \$610,000,000 raised last year has all been spent, \$400,000,000 having been largely devoted to soldiers—to maintaining them, bringing them home, providing the necessary medical services, training them. Most of the balance of the loan was lent to Great Britain to enable her to buy our surplus products. And money is still necessary—for soldiers, for providing markets, for our surplus products, for the needs of reconstruction. And that is why another Victory Loan is necessary. Canada still needs money, and needs it badly.

A Good Investment.

Speculation is one thing. Investment is another. The majority of citizens want an investment, not a speculation. And they want a safe investment. Victory Bonds fill that requirement as does no other investment. Because behind every bond there is the national wealth of Canada—a wealth so great that it staggers the imagination.

Canadian Bank Clearings.

That Canada is well able to support the Victory Loan is clearly shown by the Canadian bank clearings for the current year. They indicate that the year's total will exceed \$15,000,000,000 compared with \$13,776,000,000 in 1918. And the year's total clearings should be three times those of 1909.

Must Subscribe More

Dividing the people of Canada into three classes—the comparatively poor, the moderately wealthy, and the very wealthy—it would seem that if contributions to the Victory Loans constitute service to the nation, the moderately wealthy class is hardly doing its share. Of the money subscribed to the Victory Loan 1918, two hundred and seventy-one million dollars were in bonds of \$5,000 and under, ninety-four millions in bonds of between \$5,000 and \$25,000, and three hundred and one million in bonds of \$25,000 and over.

Be true to yourself. Buy Victory Bonds.

A Premium for Pure Bred Rams

Any sheep raiser who purchases a pure bred registered ram of any recognized breed recorded in the Canadian National Live Stock Records or eligible for such registration for use in his own flock, and who has not previously used a pure bred registered ram shall be entitled to the annual premium of \$5.00 for two consecutive years provided he will comply with the regulations specified in Pamphlet No. 19. "Information Concerning the Policy Regarding Pure Bred Rams," issued by the Live Stock Branch, Ottawa. This pamphlet will be sent free upon application to the Publications Branch, Department of Agriculture, Ottawa. It has been decided that the best way to prove the value of pure bred rams is to help every sheep raiser, who has not previously used a pure bred ram, to use his own flock for demonstrating the value of this practice. Therefore the Dominion Department of Agriculture will grant to bona fide applicants who comply with the above mentioned regulations a sum of \$5.00 annually, for two years for each pure bred registered ram. No individual sheep raiser shall be permitted to receive premiums for more than four rams. Regular forms to be used in making applications under this policy are to be found in the back of Pamphlet No. 19.

He Ate It All

Binks—The undercrust to that chicken pie you brought me was abominably tough.

Waiter—There wasn't any undercrust to that pie, sir; it was served on a paper plate, and you've eaten it.

LOCAL POST ELECTS ARMY NURSE TO MEMBERSHIP

Miss Lucy Parker First Woman Member in State—Plans Being Made for Ball at City Hall

(Atlantic City News)

World War veterans of this city, members of James Harvey Post, No. 144, American Legion, are the first in the state to elect a woman to their officer. Miss Lucy Parker, who was an army nurse during the period of the emergency was thus honored, at their meeting held last Tuesday evening in the Ventnor News Office. This is a precedent which will be followed with respect to the applications of other war nurses.

Miss Parker enlisted in the Army Nurses Corps for the war with the hope of being sent overseas but instead was sent to Camp Dix where nurses were badly needed because of the "flu" epidemic then raging and for many weeks with her sister nurses fought against the ravages of the disease among the thousands of soldiers then stationed there. She was discharged from service recently.

Miss Parker is the youngest daughter of Mr. and Mrs. A. W. D. Parker, Belleisle, Annapolis Co. N. S.
