Analyses of Coal

HOW COALS ARE CLASSIFIED

Intelligent purchase of coals

of bituminous grade demands a

knowledge of fuel classification.

To the average consumer, per-

haps, coal is a single elemental

substance. As a matter of fact,

however, it is a compound of

fixed carbon, volatile matter

which is driven off in the form

of gas during the process of

combustion, moisture, sulphur,

and the incombustible residue

known as ash.—(Coal Trade

Journal Vol. 54 No. 33).

The following is an analysis

of Springfield, (Dept. of Mines)

Canada Bulletin No. 22:

Fixed Carbon 81.5%

Ash 1.5%

Sulphur 0.9

Volatile Matter 14.1

The above analysis shows

Springhill to be superior to all

in this province.

INTERESTING DIS-COURSE OF CRIME

Aibly Brought Out By Rev. A. J. Prosser, Pastor of the Bridge-town Baptist Church.

Rev. A. J. Prosser gave a strong discourse on Sunday evening on Law observance. He gave many interesting figures showing the great increase in crime in the cities of the United States which illustrated most forcibly the alarming increase of lawlessness. He spoke strongly against the activities of the I.W.W. and of the Ku Klux Klan.

He also referred to matters more local with special references to gambling in its various forms which he stated was allowed, permitted or carried on by even members and officials of church organizations in town, his own church not excepted.

The N.S.T.A. he pronounced a farce bootlegging and the manufacture of home brews was all too prevalent.

There were violations of the Inland Revenue Act, the Children's Protection Act, etc. Officials were blamed for these things and while blame very frequently did attach to them, the public, the people as a whole, must also share in the blame. Bootlegger and Vendors of unlawful drinks generally have been arrested, fined and given their liberty to raise the money. This gave them a chance to skip out of which they availed themselves and very possibly started up the same business elsewhere.

MOSCHELLE

Mr. and Mrs. W. W. Sanford and son Donald, spent Sunday with relatives in Clementsville.

Mrs. Geo. Barteaux and son recently spent Sunday with her father, A. G. Walker, Bridgetown.

Don't forget the bean supper in Harris' Hall on Wednesday, Oct. 24th.

Mr. and Mrs. H. C. Ritchie and Master Donald Ritchie, and Mrs. Leonard Ritchie, spent Wednesday, Oct. 10th, with Mr. and Mrs. Ernest Bauchman, Bridgetown. Mrs. M. Bauchman who has been visiting at the same home, returned with them.

Mrs. Frank Williams and daughter are spending the week with her father, Mr. James Ritchie, Annapolis Royal.

Mr. and Mrs. J. M. Palmer, of Melvern Square, were recent guests at the home of Mr. Robert Ritchie.

Mr. Arthur Barteaux and family, of Kentville, arrived on Saturday to attend the funeral of his sister, Mrs. James Ritchie. Much sympathy is extended to the family.

Hay is now being made in many parts of England by means of an electric fan which dries the grass, which is cut and stacked while still green.

CHILDREN'S DAY OBSERVANCE IN ST. JAMES' CHURCH

As announced in our last issue, Sunday, Oct. 21st, was observed as "Children's Day", by the Anglican Communion throughout this Dominion.

In St. James' Church the 11 a.m. service was under the auspices of the Sunday School and a large number of children were in attendance, entering heartily into it.

For the instruction of the children the Rector took the subject of Worship as a part of our duty toward God, making the following Acrostic of the word—

The Worship of God must be
Worthy,
Orderly,
Reverent,
Sincere,
Humble,
Intelligent,
Persevering.

A similar service was held in St. Mary's, Belleville, in the afternoon.

In the evening the subject of the sermon was "The Need of the Hour", basing his discourse on I Chronicles 29:5 (latter part) Mr. Underwood stated this to be—Whole-souled devotion to God and His service on the part of all who name the Name of Christ. Recalling the day and taking the home as the foundation of society there must be, he said, consecration on the part of parents if children are to be brought up in the love and nurture of God.

These advertising to the language of the God's prayer as having for its background home relationships, he asked—"I wonder how many fathers realize from the very fact that the child, when taught to pray, is taught to say "Our Father", he necessarily gets his ideas of God colored by what he sees in the life, and hears in the conversation, or his earthly father, or he draws a contrast and eventually comes to the conclusion that his father has fallen very far short."

Taking the home of Joseph and Mary at Nazareth as a model, because in it "Jesus increased in wisdom and stature and in favor with God and man," (Luke 2:52) there must have been positive and definite religious teaching by both example and precept. This is evident from the fact that Jesus was ever ready with the word of God, which he must have learnt in His youth; also because when He again came to Nazareth, where He had been brought up, He went as His custom was, into the Synagogue on the Sabbath day. The explanation of this is that Joseph and Mary realized their responsibility before God for the whole child.

Emphasizing the potency of example over and above precept, especially as regards public worship, the speaker adapted the comment of an early writer on verse 6 of Psalm 95, and quoted as follows: "If it be so that one 'COME, LET US' goes further than twenty times go and do, how careful should parents (especially fathers) be that their examples be Jacob's ladders to help their children to Heaven, not stumbling blocks to lie in their way, and make them sin."

There is a Christian view of marriage, and there is a Christian view of parentage, which those must deliberately adopt who would have their homes fulfill their proper function toward God and man. This will involve the joint complete surrender of anything and everything incompatible with the end in view.

This is what consecration means, and, inasmuch as the home is the foundation of society, and the children of today are the men and women of tomorrow, it is emphatically the need of the hour.

"Who, then, offereth willingly to consecrate himself this day unto the Lord?"

The sermon closed with an appeal for workers in all departments of the church, but especially in the Sunday School, based on the same text.

The service was concluded with the singing of Francis Ridley Havergal's beautiful hymn—"Take my life, and let it be consecrated, Lord, to Thee."

NEAR FATALITY IN AUTO ACCIDENT

Car Driven by C. W. Bouby Turns Over at West Paradise--Occupants Injured.

A near fatal auto accident occurred at West Paradise on Thursday night when a Ford Sedan driven by Dr. C. W. Bouby, Chlorproctor, and occupied by Miss Irene Cox, of Middleton, and Miss Ritchie, of Annapolis, attempted to pass another Middleton car, both proceeding home from Annapolis. The scene of the accident was a level stretch of excellent roadway and Bouby passed the other car by running slightly out into the narrow ditch but bringing his machine into the road again too sharply it turned over. Miss Cox was most severely injured being unconscious for some time, while Miss Ritchie was painfully bruised and Dr. Bouby received bruises and some cuts. The other car contained two nurses who gave instant attention to the victims. Miss Cox was carried to the next house, W. B. Rymer's, and later removed to Middleton.

PRESIDENT OF MOUNT ALLISON

Personal Mention

One of the nicest courtesies you can show your friends is let them learn through this column of your visit whenever you go away. Let us know when you have visitors at your homes. The Monitor will consider a courtesy whenever you give us an item of this kind. Write or phone No. 12 or 102.

VICTORY

Mr. and Mrs. Stewart Potter, and daughter Gertrude, accompanied by Miss Utah Robinson, of Clementsville, were the Sunday guests of Mr. and Mrs. Joshua Simpson, Oct. 14th.

Miss Ethel Rosecrants, of Bear River, has been visiting her aunt, Mrs. Willard Rosecrants.

On Friday evening, Oct. 12th, an auto party consisting of Mr. Murray Harris, as chauffeur, Mr. and Mrs. Mansfield Campbell and sons, Carl and Donald, of Bear River, Miss Clara Campbell and Miss Dorothy Smith, of Salem, Mass.; Mrs. Will. Crouse, of Clementsville, was entertained at the home of Mr. and Mrs. Joshua Simpson.

Mr. and Mrs. John Simpson and family were the guests of Mrs. Ralph Potter Sunday.

Mr. and Mrs. Bernard Alcorn, of Bear River, were the guests of the latter's father, Mr. George Berry, Sunday.

Mr. Arthur Pulley held a dance Saturday, Oct. 13th.

We are glad to report that Mrs. Jubal Kaulback is much improved in health.

Mr. and Mrs. Charles Kaulback have gone to St. John to work.

Miss Eva Darras and Mr. Roy Wagner were married Oct. 9th. We wish them most happy nuptials.

Mrs. Roy Wagner is visiting Mrs. Delbert Wagner, Bear River East.

Our moose hunters have returned empty handed. A scarcity of moose is reported.

Mr. Lemuel Hewey, of Digby, is spending a few days with his family here.

PRESIDENT OF MOUNT ALLISON

Dr. George J. Trueman Was Inaugurated With Impressive Ceremony.

Sackville, N. B.—George Johnston Trueman was, amid impressive scenes and in the presence of an audience that taxed the capacity of Pawcett Memorial Hall, inaugurated as the 5th President of Mount Allison University.

Dr. Trueman was introduced by Senator Black of Sackville, and welcomed to the University by Professor Hinton, by Dr. Graham, of Victoria College, Toronto, representing the Methodists of Canada and by Dr. A. Stanley Mackenzie, President of Dalhousie University, Halifax, representing the Colleges of Canada.

Dr. Byron C. Borden, the retiring President of Mount Allison University, presented Dr. Trueman with the Charter of the University, and in doing so declared him the President. He later humorously remarked, "My attitude from now on will be that of let George do it."

BURYING APPLES

Novel Method of Keeping Apples For Spring and Early Fall Use.

(By A. Rutledge in The Country Gentleman.)

As in a well-settled rural community I do not know more than a few people who use the following method of keeping apples for Winter and early Spring use, I must conclude that the method is not widely known. If it were it would certainly be adopted, for there is nothing superior to it. The cellar with the dirt floor is a mile behind it. This device can be employed to keep a considerable quantity of apples, but I had in mind just a few bushels for use on the family table.

Select a spot in the garden near a path. Be sure that the place is well drained, preferably on a slight slope. Sink a barrel or a box to a depth to be determined by the number of apples it is to contain, the rule being that the topmost apples in the container should be about eight or ten inches below the level of the ground. In well drained situations I have used receptacles that had bottoms and those that had none—there is no apparent difference—but in the bottom put a little clean straw or hay. If the holder has cracks, tack pieces of pasteboard over them. Some people line the receptacles throughout with paper, but if the holder is clean I have found this is not necessary.

Store only choice apples and lay them in by hand. A spotted apple may affect the whole adjacent group. If tumbled in, many of them, being bruised, will rot. When the container is sufficiently filled, spread loose newspaper over the apples, but don't tuck them down tightly so as to exclude the air. Fit a good top that extends like a roof away from the lips of the container so that rain will be shed. This top need not be tight on the container, but it must not leak. It is well to tack a piece of tin, sheet iron or even oilcloth over it for safety. A stone on top will keep the wind from blowing it off. If the top fits snugly, cut an air-hole near the top of the container, on the south side; this is for ventilation. If the container is not wholly sunk and if the apples are heaped high in it, pile the loose earth about it.

I remember buying a barrel of choice Baldwins in November and finding the barrel as described; there were nearly used by March. Buying a second barrel then out of cold storage, of the same grade as those purchased first, I found the barrel as described first, in superior condition. They seem to retain, under this treatment described, their firm consistency and their delicious flavor. Though I have a cellar for storing fruit, I don't know what I should do without a box or a barrel for burying choice apples in the garden.

LITCHFIELD

Miss Addie Hamilton left on Saturday for Carleton, Yarmouth Co., for work in the clothes pin factory. Miss Addie is very popular among the young folks of our place having been home since July and all regret her departure.

Mrs. Otto Johnson and baby, accompanied by her mother, Mrs. John Roop, left on Saturday for her home in Arlington Heights, Mass.

The B.Y.P.U. meetings were organized here on Thursday evening to be held once a week. We wish all the members and committee good success.

Messrs. Frank Sproule, Gordon McCaul and Willie Roop have returned home from the Canadian West where they have been for the harvesting season.

AGAINST FILTHY LANGUAGE

The Stipendiary Magistrate of Hamilton, Bermuda, is determined to put a stop to the use of obscene and filthy language on the street. Three youths were recently brought before him, and in convicting them he said: "This sort of thing has got to stop because there is far too much of it. One can hardly walk along the street at the present time, unless he hears a lot of improper language. It may be heard all times of the day and night, and particularly Saturday nights, when there seem to be more people about to hear it. It is my duty to make an example of these cases, so that decent people who are entitled to walk the streets without having to close their ears for fear of hearing filthy language, may do so. In order that others may take heed the sentence of the court is that each of you be imprisoned in Hamilton gaol for 10 days at hard labor."

HENRY THE FIRST

Henry Ford owned the first motor car in Detroit. It made a racket and it scared horses. Also it blocked traffic. It left alone even for a minute some inquisitive person always tried to run it. Finally he had to carry a chain and chain it to a lamp post whenever he left it anywhere. And then there was trouble with the police. He got a special permit from the Mayor and thus for a time was the only licensed chauffeur in America. He ran that machine about 1,600 miles through 1895 and 1896, and then sold it to Charles Ainsley of Detroit for \$200.

"SKILLED" HUNTERS

Wednesday morning, Oct. 10th, a number of people of Mulgrave were excited by what they thought was the presence of a moose or deer swimming in the Strait between there and Hastings. They could even distinguish his huge antlers. Accordingly a number of aspiring Nimrods and even some seasoned hunters took up the chase. Long range shots were first tried but availed nothing, although they did cut several electric wires on the posts. The hunters then followed the feeling moose in a boat. They overtook the object of their chase near the Hastings side of the Strait, and to their chagrin found that it was an old tree carried over by the tide and the spreading antlers were branches of the tree.

GREAT RECORD FOR A PICTURE OWNED AYRSHIRE

"Lady Margaret of Glencoe," an Ayshire cow, bred and raised by Mr. William Macdonald, Bay View, recently completed the following Canadian record of performance test: October of 1922, 823; November, 1922, 1615; February, 1923; March, 1923; April, 1923; May, 1923; June, 1923; July, 1923; August, 1923; This makes a total of 13,722 lbs. of milk for the eleven months. There was an average test of 4.5 for butter fat. If Lady Margaret had not been bred so soon she would have made a Maritime record.

Town Topics

Tid-bits on the Tip of Everybodys Tongue

A Cook's Tour.

A package of Moir's Chocolates, weighing 5 lbs., was recently sent to Korea—postage 96c. Another order came in from India. Thus within a few days Moir's Chocolates have circled the globe.

In the long stretch from noon to night meals, a chocolate bar breaks the monotony toadvent-

age. Many are very fond of Moir's Meltomilk, made after the Swiss style, a big bar for 10c.

With the coming of colder weather and earlier evenings, indoor functions are more the rule. The demand for Fig Newtons is accordingly very great. Tom Thumb type Fig Bars.

Although more machinery has been installed and the staff increased, it is hard for Moir's plants to catch up on the orders roll in from all directions.

UNITED CHURCH NOTES

The special preacher and lecturer next Sunday in the Baptist Church and in the United Church at close of the regular evening service is the Rev. Mr. Howe of the Kentville Sanatorium, where he is doing a fine work among the people there. He has been for some years in Japan and his lecture will therefore have many personal touches that will enhance its great value.

ITEMS OF INTEREST FROM PARADISE

B. Y. P. U. Hold Unusually Fine Meeting. Interesting Address by Miss Archibald.

Paradise.—Capt. Ralph R. Layte, of Paradise, who has been residing in Bridgeport, Conn., is now on his way to Yokohama, Japan, via Vancouver, on the Empress of Canada. Captain Layte has accepted a responsible position as Asst. Gen. Works Manager and Chief Engineer to the Nipponophone Co. The complete construction of concrete and steel buildings will be under him. Mrs. Layte will remain in U.S.A. until conditions in Japan, as result of the earthquake, have improved.

Tuesday, Oct. 16th, was Crusade Day, with the Paradise Missionary Society. Miss Mable Archibald in her "Princess" costume, addressed the afternoon meeting. At the evening service Miss Archibald dressed Gordon Smith in native costume speaking also for a half hour. The main address of the evening was given by Mr. W. S. Tedford and was stimulating and inspirational appeal on behalf of the Telugu Field as Miss Archibald's story was graphic and realistic. In one case we saw clearly the old India in her superstition and idolatry and in the other address the new India where Christ has been brought to influence the life and thought. The Missionary offering for the day was almost \$40. Tea was served in the vestry. Special music was furnished by the choir and m'at quartette. The Clarence Missionary Society was well represented. Not often is a community privileged to meet and listen to messages from two returned missionaries the same day, whose messages we believe have made a lasting impression on the Missionary that of the community.

A Hallowe'en Social under the chairmanship of Mrs. Harding Layte will be held October 31st in Longley's Hall. A good time with games and tea will be enjoyed at the close of the programme.

Miss Minnie Jackson is here on a vacation visiting her mother, relatives and friends.

Mr. H. W. Longley spent a much enjoyed vacation in Halifax lately visiting his daughters, Mrs. Wm. Lally and Miss Eleanor Longley.

Miss Alice Longley, of Acadia, is at home resting for a few weeks.

Mr. Anthony Banks and Mr. Irving Bishop are leaving this week to continue their studies at Truro.

Mrs. Angiers, of Lower Granville, is visiting at the home of Mr. and Mrs. F. W. Bishop.

Rev. W. Stoddman Smith is attending the District Quarterly meetings at Port Wadsworth this week.

The B.Y.P.U. held an unusually fine Missionary meeting Oct. 21st. The programme, under the leadership of Mrs. E. G. Morse, was as follows: Scripture Reading, Miss E. Sproule, Solo, "Sometime, Somewhere" Mr. E. G. Morse.

Ladies Quartette, "When the Lord shall call His own"

Mrs. Elliott, Miss Durling, Mrs. Beard and Miss Annie Jackson.

Reading, "Manners and Customs of Indians One Hundred Years Ago" Miss Helen Starratt, Miss Marjorie Morse and Miss Lillian Leonard.

Reading, The Indian's Prayer Mr. E. G. Morse.

Guitar Solo.—Mrs. Ritchie Elliott.

Reading, "Religious Life of the Mic-macs" Reading, Gloucester—Miss Boss.

Solo, "Oh Jesus I have Promised" Mrs. Ralph Beard.

"The Early Life of Dr. Silas T. Rand" Charles Longley.

Address, "Missionary Works of Dr. Rand"

Mr. R. A. Longley.

Reading, "The Dying Indian" Miss Margaret Marshall.

Ladies Quartette.

KILLED DEER AND WILD CAT WITH ONE BULLET

While hunting in the woods near Coal Branch a short distance from the city, Mr. Louis Beers, of Coal Branch, it is reported, shot at a deer and upon approaching the animal he discovered that he had not only killed the keen scented animal but had also mortally wounded with the same bullet, a wild cat which was clonched to the breast of the deer.—Moncton Times.

ASPIRIN

UNLESS you see the name "Bayer" on tablets, you are not getting Aspirin at all

Accept only an "unbroken package" of "Bayer Tablets of Aspirin," which contains directions and dose worked out by physicians during 22 years and proved safe by millions for

- Colds
- Toothache
- Earache
- Headache
- Neuralgia
- Lumbago
- Rheumatism
- Neuritis
- Pain, Pain

Handy "Bayer" boxes of 12 tablets—Also bottles of 24 and 100—Druggists. Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacid of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

LARGEST TROUT OF THE SEASON IN CAPE BRETON

The Sydney Post offered prizes for the largest trout caught by a Cape Bretonian in any of the waters of that island this year.

James E. MacDonald 1st—Five and a quarter pounds—from Catalone Lake.

R. L. McLennan 2nd—Four pounds and ten ounces from Catalone Lake.

R. G. McLean, Glace Bay, caught a trout in the Catalone Lake weighing four pounds and three ounces and Percy Murphy landed one at St. Esprit which tipped the scales at three pounds and fourteen ounces.

The heaviest trout caught in Cape Breton this year hooked by Charlie Weaver, of Philadelphia, it weighed five pounds and fourteen ounces. It was caught in Baddeck River.

NEW YORK BOARD PROBES CHARGES OF MALNUTRITION

Appalling Conditions Related to Housing Commission as Horrible and Inhuman Scenes Are Described And Decried.

New York—Stories of whole families suffering from malnutrition because they could not pay the rent and buy food too, of mothers starving their babies might eat; of tenement districts where the average infant was six pounds under weight of "safety-last" fire escapes and gougling landlords—all because of the shortage of homes and exorbitant rents—were related before the Housing Commission recently. Judges and welfare workers, professors, wage earners and mothers with babes-in-arms, appealed to the commission to recommend renewal of the emergency rent laws so that when they expire next February thousands of families may not be thrown upon the mercy of landlords.

The climax in a steady recital of conditions variously described as horrible, inhuman, indecent and deplorable, came when the commission asked Justice Aaron I. Levy, President of the Board of Municipal Court Justices, if he would suggest any amendment of the emergency rent laws.

"Yes," answered the Justice. "I would wipe out the rent laws and abolish the landlords' right to summary proceedings and eviction of tenants. He still would have the common law to fall back upon."

Contrary to previous testimony presented by Dr. Samuel M. Lindsay, Professor of Social Legislation at Columbia University, an emergency exists in the housing situation and there is no doubt widespread suffering, Justice Levy declared. He cited that during the first nine months of the year landlords brought action to evict 65,000 families who were unable to pay rent increases demanded of them and unable to find other homes. Seventeen thousand rental cases now await jury trial in Greater New York, and it will be years before the courts can dispose of them, the Justice said. Last year, he asserted, 56,000 such cases were tried in the greater city.

There were stories of whole sections, hitherto devoted to homes for the moderate salaried man or wage earner which were now exclusive high-priced houses. Greenwich Village, with its antiquated tumble-down, gas lights and absence of plumbing, has thus become an exclusive residential centre for wealthy disciples of "Bohemia," it was testified.

"Old Chelsea," once reserved to the families of moderate salary earners, has become an overcrowded rooming house section. Women and children of the East Side are becoming wage earners in rapidly growing numbers. They have to help husbands and fathers pay the rent, the commission was told. Settlement workers testified that more and more under-nourished children were being taken from unsanitary, crowded tenements, to be fed and given charity, sunlight and air.

BOBBED HAIR AND SILK STOCKINGS

A correspondent of the Montreal Gazette writes to that journal as follows:

"It is now, perhaps, a week or ten days ago that I came across a little item of news in your paper from a town in the United States of America. It seems that there was some bold attempt made to discipline the girls in the public schools of that city. There was a plan discussed to ban bobbed hair and silk stockings. But the girls got early wind of what was in the air and carried the meeting triumphantly with a rush with a deaf little rhyme:

"I can show my shoulders, I can show my knees, I am a free-born American citizen And can show what I please." The situation in the United States at present, therefore, is as follows: "All the little girls are recognized as free-born Americans and wear what they please. But the thick-set, hard-headed, deep-headed, deep-chested, sturdy muscular men, the men who went "over the front" against the German bayonets and dived under the sea for the German ships, the men who have worn deep wrinkles on their brows earning interest to buy the clothing, and gone blind studying out the habits of the silk-worm, the men who have dug coal out of the bowels of the earth to keep the girls warm in winter, or trudged behind the plough in order to grow the grain to make bread; these men cannot drink a glass of sherry wine or a bottle of lager beer without being fined for it, or sent to prison, or stigmatized as "boot-leggers." Although I cannot easily see why "boots" are not at least as well adapted to human legs as are silk stockings.

One of the strongest arguments used in favor of the policy of breaking up the saloon was that this would set the money tree for use in the home. This is the way that the money apparently is used at home. It is just as healthy for little girls to go bare-legged, is it not, as to wear silk stockings?"

CRIPPLED BY RHEUMATISM

Began to Improve After Taking "Fruit-a-tives"

The Medicine Made From Fruit

You can get rid of Rheumatism. You can be free of pain—of swollen hands and feet—of aching arms, legs and back. "Fruit-a-tives" will drive the cause of Rheumatism out of the system and give you permanent relief.

"For over three years, I was confined to bed with Rheumatism. Finally I decided to try 'Fruit-a-tives'. Before using half a box, I noticed improvement. I continued taking 'Fruit-a-tives' improving all the time. I can now walk about two miles and do chores around the place."

ALEX. MUNRO, Lorne, Ont. 50c a box, 6 for \$2.50, trial size 25c. At dealers or from Fruit-a-tives Limited, Ottawa, Ont.

THE MIRACULOUS CHRISTMAS GIFT

It is a very nice thing to make a gift that will please all the members of the family. A box of candy will do that or a crate of fruit. But usually some one in that family gets the lion's share. That is not possible when the gift is a subscription to "The Youth's Companion." It is like that fabulous pitcher of milk of the Greeks; though everyone drank deep the pitcher remained full. Everyone has a lion's share in the good things of "The Companion"; everyone skims his own cream, yet there is the very choicest cream left for the next comer. What better Christmas present can you make than a periodical with such fabulous powers of dividing its pleasure among a dozen and yet keeping it all intact.

The 52 issues of 1924 will be crowded with serial stories, short stories, editorials, poetry, facts and fun. Subscribe now and receive:

- 1. The Youth's Companion—52 issues in 1924.
- 2. All the remaining issues of 1923.
- 3. The Companion Home Calendar for 1924.
- 4. All for \$2.50.

Or include McCall's Magazine, the monthly authority on fashions. Both publications, only \$3.00.

THE YOUTH'S COMPANION Commonwealth Ave. & St. Paul St., Boston, Mass. New Subscriptions Received at this Office.

Coal? Coal!

We have a good supply of Soft and Hard Coal on Hand.

New Fall Suitings & Overcoatings Just In.

E. L. FISHER

RECORD SHATTERED IN 1923 SERIES

391,430 Persons Paid \$1,063,815 to See Six Games in World's Series.

New York.—Three hundred and one thousand four hundred and thirty persons paid \$1,063,815 to see the six games of the world's series of 1923. These figures shattered all previous records, the old record having been established in 1921 when the Giants and Yankees in an eight game series attracted 289,977 fans with receipts of \$900,233.

Advisory Council's share \$20,887.50. Each club's share \$59,182.10. Figures for six games: Attendance 301,430. Receipts \$1,063,815.

Advisory Council's share \$165,572.25. Each club's share \$267,729.86. The players' pool this year \$362,783.04, was more than \$100,000 larger than ever before. Seventy-five per cent of this amount is to be divided among the Yankees and Giants. The Yankees, for their victory, will receive sixty per cent, and the Giants forty per cent. Figure on a basis of 25 eligible players, each Yankee will receive about \$6,539 and each Giant about \$4,363.

Each second place club will receive about \$27,208 and each third place club about \$18,158. The following staff of officers was elected and installed: N. G.—Florence Blackford. V. G.—Bessie Weir. R. S.—Bessie Thurber. F. S.—Lillian Thurber. T.—Maud Haines. Warden—Virgil Stevens. Conductor—Dorcas Powell. R. S. N. G.—Archibald Thurber. L. S. N. G.—Beatrice Westcott. R. S. V. G.—Lea Perry. L. S. V. G.—Eva Stevens. I. G.—Irene Thurber. O. G.—Oda Thurber. The installation ceremony was conducted by the District Deputy President, Mrs. Bessie Rupp, of Digby, assisted by a full staff made up from the visiting degree team.

HEALTH

Keep your health. Always keep MINARD'S handy. The universal remedy for every ill.

NATIONAL FISH DAY

If the young of one single species of fish—for example the herring—were allowed to mature without interference by man or molestation by natural enemies in the sea, in the matter of a few years the sea would be unable to contain that single species alone. And it all the thousands of fishes matured one hundred per cent of their progeny, in a surprisingly brief time the sea would be impassable to ships.

This probably illustrates better than anything else the copiousness of the fishery resources of the world, and fortunately for Canada, we dominate waters which are the most fertile on earth and which of themselves are capable of supplying the fish demands of its entire population.

Even before Columbus struck this continent, it is believed that Basques regularly visited the waters off our shores in quest of the silvery harvest. Icelanders, too, records would indicate, came in the wake of Lieif Ericson long years before Columbus and fished off our coast. Four hundred years ago there were fishing stations on the Gaspesian shores. Not long afterwards thriving fishing villages sprang into life in Nova Scotia. But with four hundred years in written history behind the industry in Canada and an unverified and legendary history antedating by centuries the coming of Columbus, the fishery resources available to Canada are today in the infancy of their development. Each year fleets come from France, Portugal, Iceland, Great Britain, and sometimes from more remote countries, to reap a harvest on our North Atlantic fishing banks. Yet we here in Canada, with these vast storehouses right at our door, spurn the food Our natural heritage is wretchedly cast aside. Anyone who comes to claim it, but the prologues of contempt that comes from proximity sets us seeking for foods less accessible and less economical and generally without the alimentary qualities of sea foods.

The North Atlantic fishing banks are undoubtedly the most productive fishing areas in the world. They are directly off our shores and are more readily reached from our Maritime parts than from anywhere else. Yet our American consuls take three times the quantity of fish that we take there. Other comparisons similarly illustrate our negligence and shortsightedness. Only recently the decline of the North Sea fisheries has turned the attention of Great Britain to our Atlantic banks and it is not improbable that in a few years a fleet of British trawlers will be invading our waters to secure supplies of fresh fish for Old Country folk.

Is it not time that we should make greater use of our vast natural source of food? We have the mechanical resources and the intrepid, hardy citizenship to prosecute our fisheries to the maximum, but unfortunately our population does not patronize the industry to justify more intensive fishing than at present. Our inshore fisheries are being reduced because demand will not maintain the former population engaged in the industry.

National Fish Day—October 31st—is set aside to focus attention upon our great natural resource and to commemorate the brave fishermen who have sacrificed their lives to secure food for us. The most practical way in which Canada can help the industry and show appreciation for the fishermen, is to make greater use of sea products thus making the calling a more remunerative one for the men who go down to the sea in ships. It is an appreciation of nature's gift to recognize fish as a food and it is also wise policy from a nutritive and economic viewpoint.

NEW REBEKAH LODGE INSTITUTED Digby.—A new Rebekah Lodge was instituted at Freeport last Thursday evening with 43 members. The name adopted was "Fair Isle" and the installing officer was Special Deputy Grand Master Elizabeth Mattatt. Vice-President of the Maritime Provinces and Newfoundlander, Mrs. Bessie Hooper, of Digby, as Acting Grand Marshal, Mrs. Bessie Rupp, of Digby, as Acting Deputy Grand Master and Mrs. Bertha Peters, of Digby, as Acting Grand Secretary. The degree team of Zelma Rebekah Lodge, of Digby, was present and exemplified the degree.

The following staff of officers was elected and installed: N. G.—Florence Blackford. V. G.—Bessie Weir. R. S.—Bessie Thurber. F. S.—Lillian Thurber. T.—Maud Haines. Warden—Virgil Stevens. Conductor—Dorcas Powell. R. S. N. G.—Archibald Thurber. L. S. N. G.—Beatrice Westcott. R. S. V. G.—Lea Perry. L. S. V. G.—Eva Stevens. I. G.—Irene Thurber. O. G.—Oda Thurber. The installation ceremony was conducted by the District Deputy President, Mrs. Bessie Rupp, of Digby, assisted by a full staff made up from the visiting degree team.

HEAVY AND SHELF HARDWARE

Steep---Stir Steep!

You've heard of the cook who threw away the cabbage and kept the water it was boiled in. Many of us have been doing that with our tea. The right way to make the right tea, Rakwana, brings out the full flavor that has been kept for you by the lead packets:

Measure out a scant teaspoonful. Pour on violently boiling fresh water. Steep three minutes. Stir well. Steep a minute or so more.

Result: 3 cups from one spoonful of Rakwana Golden Orange Pekoe, 160 spoonfuls to a pound, more than 450 cups! The best costs less in the long run:

Rakwana Golden Orange Pekoe
The Best of the First Flush

NEWS OF THE WEEK

ALL THE DOINGS AND UNDOINGS IN OUR SURROUNDING VILLAGES.

PRINCEDEALE

Mrs. Harold Howard and Mrs. Gordon Harbert and son Gordon, Jr., of Ipswich, Mass., are guests of their parents, Mr. and Mrs. George Wright. Mrs. Hazel Plak and daughter Dorothy, are spending a few weeks in Boston.

Mr. and Mrs. Harry Sibbins and children, of Greywood, were Sunday guests of relatives here.

Mrs. Annie E. Fraser returned from Smith's Cove, where she has been spending the Summer.

Mrs. Samuel Harnish, of Greywood, is spending a few days with relatives here.

Mrs. Leslie Baird, of Clementevale, spent Sunday with her sister, Mrs. Elder Fraser.

Mrs. Wm. Sibbins, of Greywood, spent the week-end with her daughter, Mrs. M. Wright.

Miss Betty Hutchinson, of Roxville, is the guest of her sister, Mrs. Iva Wright.

Miss Gladys Wright, of Moschelle, is visiting her parents, Mr. and Mrs. P. Wright.

Rev. and Mrs. Leon B. Wright returned to Kempville Monday after spending a week with Mr. and Mrs. Furman Wright.

Mr. and Mrs. Millego Wright spent Sunday in Greywood.

Mr. and Mrs. Clifford Sanford and son Otis, Mr. and Mrs. Harry Sanford, and children of Clementevale, were Sunday guests of relatives here.

Lawrencetown

Lawrencetown.—I. C. Archibald, of Halifax, was a week-end visitor at his home. He was accompanied on the trip by H. L. Pelton, also of Halifax. On Saturday I. C. Archibald, H. L. Pelton and Dr. W. C. Archibald motored to their camp at Albany to spend a few days.

Lawrence Morse, of the Royal Bank of Canada, local branch, has been transferred to the Digby branch for a few weeks.

C. F. A. Patterson, general merchant, who has been spending a well-earned vacation in Portland, Me., Winthrop, Mass., and other parts of the U.S.A., returned to his home on Saturday.

W. B. Bishop, Halifax, spent Sunday at the home of Mr. and Mrs. E. C. Shaffner. Accompanying him from Wolfville by motor was a party including J. E. Hales, the members of which were guests at the same home.

Miss Irene Phimey has taken a position with Bishop and Ritchie.

F. L. Bishop is spending a few days in the woods hunting for moose.

At a recent meeting of the rate-payers of the town, the resignations of C. J. Warwick and S. H. Daniels from the Board of Water Commissioners were accepted and E. C. Shaffner and J. H. Stoddard were appointed in their places.

A motor party consisting of Mr. and Mrs. S. H. Daniels, F. E. Daniels and Miss Denton, motored to New Minas on Sunday, where they visited Mr. and Mrs. S. DeWolfe.

Several local people who are working out of town were visitors at their various homes over the week-end. The following were the week-end visitors: R. J. Shaffner, H. M. Peltus, of Wolfville; W. S. Prince, Kentville; J. H. Stoddard, E. F. Shaffner, Acadia, and S. C. Morse, Windsor.

A MOOSE YARN

It falls to the lot of few moose hunters to have the experience of bringing down a moose within a few minutes after leaving home, and the short time crammed full of excitement. This brief narrative refers to the veteran guide, Jud Gray, of Kempville. For some time Mrs. Gray had requested her husband to take her into the woods on a hunting expedition, and it was at midnight that Jud made his decision to take her in. In a short time both were on their way. They proceeded a short distance to Nepsedeck Ridge where Jud gave the call for a bull moose; in a few seconds the answer came violently back; the veteran guide called again and this time the bull ploughed into a tree a short distance away. Jud then gave the whine of a cow moose and immediately the bull came tearing through direct for Mr. and Mrs. Gray. The experience was one to make a faint heart beat violently, but Jud dropped to his knee and brought the animal down with a well directed shot through the heart, but not before the moose had come within about 20 paces. Then came the work of preparing the carcass; this was accomplished in quick time, and the meat was on sale in Yarmouth in the evening. "Think it over, hunters."

BRITISH QUOTA ALREADY FULL, OFFICIALS SAY

No More Immigrants to be Allowed Into States This Year, is the Latest Report.

Montreal.—Through their tardy arrival, 250 immigrants who reached Quebec over the week-end en route to the United States, have been refused admission to that country.

A message to that effect being received by the local United States immigration officials.

The S. S. Anonia, which has been held up in this connection instead of proceeding to Montreal, left Quebec. A number of the immigrants are now appealing the decision before the local Board of Immigration.

The only alternative left to them is to remain in Canada for one year and then cross into the United States, or return to their country of origin and try again.

A ruling was given out by Washington with regard to the admission of belated British passengers, off Montreal liners, waiting at Quebec for entry into the United States. The reply of the American authorities is a flat refusal. The immigrants in question must remain at Quebec or return to Great Britain.

FINE VIEWS

Mr. Edson Graham's hand-colored photographs of Nova Scotia at the exhibition attracted wide attention. He had on exhibit about 70 views of Nova Scotia representing beauty spots between Halifax and Yarmouth. This collection is worth the attention of the Government to purchase it and have it on exhibition at some central place where it will be the means of attracting tourists to our valley.—The Kentville Advertiser, Oct. 5th.

AUTUMN GLORY

The trees their flaming torches raise
Above the sun-kissed land.
The sunbeams in these Autumn days
In crimson velvet stand.
And soft in Autumn's mellow light
All nature seems to rest,
While in the lake's calm mirror bright
Trees view their radiant dress.
Oh! glad the brightness of the Spring,
And gay the Summer time.
But, Autumn days, no season brings
A beauty such as thisne.

So in the fact of ripened age
Do light and love appear,
As when the brilliant Autumn days
Crown bright the closing year.
—Helen B. Anderson, in The Toronto Globe.

Here and There

A discovery of excellent ocher (raw sienna) was recently made near Eilershouse Station on the Dominion Atlantic Railway. The color is uniform throughout, with very little gritty matter in the main body. The material can be burnt to produce a variety of colors from reddish brown to black. Prospecting is still going on.

Canadian Pacific S.S. "Metagama" westbound from Glasgow via Belfast, recently docked at Montreal and Quebec with the record number of 382 cabin and 1,078 third class passengers. This constituted a record only for ships of the size and type of the "Metagama," the Canadian Pacific Empress liners often having a far larger list.

Canadian Pacific Railway officials estimated that 61,000 men would be required to harvest the western crops this year. They expected to supply only 9,000 from the prairie provinces and British Columbia and made arrangements to carry over 50,000 from Ontario, Quebec and the east.

United States factories turn out chewing gum to the value of \$41,000,000 annually. The extent to which this product is used in this country can be appreciated when it is known that at the Canadian Pacific Windsor station, Montreal, a man is continually employed in removing gum stains from the marble floor.

Despite the fact that the new Basilica at Ste. Anne de Beaupre is still in course of construction, many thousands more have visited the shrine this year than in former years, and at frequent intervals the Canadian Pacific Railway has been called upon to add special equipment to its regular trains to accommodate the pilgrims. The Redemptorist Fathers are investigating a large number of cures claimed to be miraculous.

SCOTT'S EMULSION

Help Came Just In Time, Declares Clark

"If I hadn't got Tanlac just when I did I believe I would have had to give up my business and go to the hospital," said C. H. Clark, 42 Craig St., Montreal, well known contracting painter.

"I don't believe a day passed in fourteen years that I didn't suffer. Every time I stooped to pick up my brush it seemed like my poor back would break. My kidneys had me up seven or eight times every night. I lost about twenty pounds in weight, and was losing three days from work

"I've gained sixteen pounds by taking Tanlac and am so well my work is like play. I never have to get up at night, sleep twelve hours some nights, and get up feeling as refreshed as a school boy. Tanlac is priceless."

Tanlac is for sale by all good druggists. Accept no substitute. Over 37 million bottles sold.

Take Tanlac Vegetable Pills.

RECORD MOOSE FOR ANTIGONISH COUNTY

Antigonish.—What is supposed to be the largest bull moose killed in Antigonish County in recent years was shot by Hadley MacDonald and Dr. Owen J. Cameron at Maple Ridge on Friday morning last. The antlers measured 53 inches and had 26 points. Local hunters say that this animal, the prize of the season, was the largest ever taken into Antigonish to their knowledge.

WESTVILLE LADIES SHARP SHOOTERS

Mrs. L. G. Ferguson and Mrs. S. G. Mackenzie Both Brought Down a Moose.

Westville, N. S.—Mr. and Mrs. L. G. Ferguson, and Dr. and Mrs. A. G. Mackenzie left on a hunting trip the first of last week. They had a most enjoyable trip and both ladies succeeded in shooting a moose. They are to be congratulated on this, as they are the first ladies in this district to have such luck. Dr. Mackenzie and Mr. Ferguson met with similar luck last week.

ROYAL YEAST CAKES

Good home-made bread is the finest food on earth—the one food that everybody eats—that agrees with everybody.

MADE IN CANADA

RECORD ESTABLISHED

Montreal.—Loading 275,000 bushels of Manitoba wheat in eleven working hours, the S. S. Ethelreda established a new grain-loading record here when she sailed for Plymouth last week. The former record was made by the S. S. Clearpool which loaded 240,000 bushels in 10½ working hours last year.

RESUMPTION OF DIRECT STEAMSHIP SERVICE THIS SPRING BETWEEN MONTREAL AND THE PRINCIPAL NORWEGIAN PORTS, WITH THE OBJECT OF FURTHERING THE EXPANSION OF TRADE BETWEEN CANADA AND NORWAY, IS ANNOUNCED BY THE CANADIAN PACIFIC TRAFFIC AGENTS FOR THE NORWEGIAN-AMERICAN LINE.

MANY MILLION DOLLARS ARE HIDDEN IN FRANCE

Paris.—All over France men and women for years have been hoarding American currency. It became available in large quantities with the coming of American soldiers during the war, and the French people were quick to see its value. Today people are wondering how many dollars are concealed in the "woolen socks" of the republic.

The estimates run from \$1,000,000 to \$5,000,000. Recently a Frenchman living in Chamouny, who kept a candy store during the war, disclosed to a friend a strongbox containing over \$12,500 in American bills of various denominations, which he said he would sell when the franc reached 20 for one dollar. "There are a good many men in this town alone who have more than 1," this man declared.

The exact amount of American currency left in France by American soldiers and officers will probably never be known, but many believe that if a thorough canvass of Brest, Saint Nazaire, Bordeaux, Le Mans, Tours, Chaumont, Aix-les-Bains, Vichy, Dindard and the surrounding localities were made, the total would be nearly \$5,000,000.

ADVICE TO GIRLS

It isn't a bit sentimental, girls, but if you are picking out a 1924 husband, keep the economical situation in mind. Don't for instance, select the good looking, nifty dressed boy who won the toddle prize at the ball last night and whom all the girls are "crazy about."

"Pick out a homely fellow, a plunger, one who likes to work better than he likes to dance—you know, the awkward chap with the three-buttoned coat whom most girls call a "boob."

This is the advice of Judge Harry A. Lewis, Chicago divorce expert.

Judge Lewis says the girls today are not looking at the business of marriage in a practical way. The chap with "class" whom the girls think is just perfectly wonderful to look at probably hasn't "accepted a position" since Christmas. He's all wrong as a 1924 husband. He can't bring home the bacon.

"The dancin' fool with the good looks and no brains is a cold pan-cake as a husband this year." And the bride of the husband who can't provide invariably lands in the divorce court. Hubby has to hit the ball these days. That's the trouble—the girls aren't practical enough. They should figure that when they are marrying they are entering a 40-year contract. They should use the same caution that they would in entering any long time business contract. They should look beyond the honeymoon.

"Too many girls fall in love with a man's cute manner, his slick hair, his elegant way of wearing a stock-pin or his easy flow of ballroom persiflage.

"I have handled 2,500 divorce cases since last September. I have listened to wife after wife relate how ball-room idols have fallen down as husbands. They can dance—oh how they can dance! But what a sorry spectacle they are in the business world. It takes a hustler to take home the bacon nowadays and good looks don't count at all. Girls shouldn't forget this economic fact."

MOTHER OF LARGE FAMILY

Recommends Lydia E. Pinkham's Vegetable Compound to Other Mothers

Hemford, N. S.—"I am the mother of four children and I was so weak after my last baby came that I could not do my work and suffered for months until a friend induced me to try Lydia E. Pinkham's Vegetable Compound. Since taking the Vegetable Compound my weakness has left me and the pain in my back has gone. I tell all my friends who are troubled with female weakness to take Lydia E. Pinkham's Vegetable Compound, for I think it is the best medicine ever sold. You may advertise my letter."—MRS. GEORGE I. CROUSE, Hemford, N. S.

My First Child

Glen Allen, Alabama.—"I have been greatly benefited by taking Lydia E. Pinkham's Vegetable Compound for bearing-down feelings and pains. I was troubled in this way for nearly four years following the birth of my first child, and at times could hardly stand on my feet. A neighbor recommended the Vegetable Compound to me after I had taken doctor's medicine without much benefit. It has relieved my pains and gives me strength. I recommend it and give you permission to use my testimonial letter."—MRS. LDA RYE, Glen Allen, Alabama.

Women who suffer should write to the Lydia E. Pinkham Medicine Co., Cobourg, Ontario, for a free copy of Lydia E. Pinkham's Private Text Book upon "Affirmations Peculiar to Women."

OWN RAILWAYS ONLY IF THEY CANNOT PAY

Sir Henry Thornton, in Boston, Lays Down New Rule For Government.

Boston.—Government ownership of railroads should be resorted to only when railroads could not be made to pay and to render adequate service to the public under private ownership and management. Sir Henry Thornton, President and Chairman of the Canadian National Railways, said at a banquet of the Traffic Club of New England. He told the assembled traffic men that while Canada now has government ownership, the government does not operate the roads but leaves their management in the hands of a Board of Directors, who are railroad men.

The head of the Canadian National system said that one of the more important phases of the railroad industry in the United States and Canada was the attitude of the employees of the roads, "to whose temperament and welfare those wielding power in the great industries often give too little thought."

HEAVY PENALTIES ON LIQUOR CHARGES

Amherst.—A motor car has been confiscated, three men fined \$200 each and one given seven days in jail without option of fine, as the result of a motor drive and a subsequent party, in which liquor figured. The cases were dealt with by Stipendiary McKenzie, when \$200 fined were imposed on Leo Gates, Louis Kinnear and Joseph Gallant, on charges of violating the Inland Revenue Act, and Gates, whose car had been confiscated, was given a jail term for operating a motor vehicle while intoxicated.

WEDNESDAY, OCT. 24th, 1923

LET US FORGET

The appeal of Provincial President Andrews to comrades of the G.W.V.A. and to ex-service men generally as published in The Monitor of last week is strong and forceful, and should not fall on unheeding ears. The enforced resignation of the Secretary of the Dominion Command C. G. McNeil, a splendid and efficient officer, is much to be regretted. It is indeed regrettable after a splendid fight on behalf of pensioners, that funds are no longer available to carry forward to a successful conclusion other desirable results. The fight is one for the helpless and for the ones who have fallen short of receiving justice by reason of too much red tape and too little sympathetic consideration. Public memory for deeds and results in the great world struggle is short and the years bring it more and more rapidly to the vanishing point, till perchance in the future another war may rise to a furnace heat the fires of popular enthusiasm. While memory grows dim with the public at large, it is to be feared that it also grows dim with very many of the men who have come back out of the jaws of hell with it, true, many memories which they would fain forget but also with others which it will keep alive. While the present generation of men are living there are wrongs to be righted and inequalities to be adjusted out of past war conditions and these things can be accomplished only by a united effort among ex-service men themselves. If they too forget, how can an unseathed portion of the public be expected to remember? Throughout the Province are quite a number of active and vigorous branches of the G.W.V.A. and with these the returned men have their rooms and as social centres there is kept up at least a semblance of the splendid comradeship which prevailed in the days when an instant of time divided life from death. Let returned men generally examine present conditions, seek out a remedy in the closest of loyalty to their organization and to their old comrades, for in no other way can they carry with them to the fullest degree the interest and moral support of the great body of the public.

"PLUCKY CANADA"

The Referee, a leading American financial and sporting authority, in its current issue pays high tribute to Canada and to Canadian financial stability. Writing under the caption, "Canada As The States See Her," Bert E. Collyer, owner and Editor of the Referee, has the following editorial: "While we realize that the people of Canada would not regard exaggerated flattery in the light of a compliment, we believe we remain within the confines of simple truth when we remark that no nation in history has met the financial demands of war with greater good spirit and carried the financial burdens with greater intelligence than the vast Dominion that tops the North American continent. Ten years ago Canada's debt was less than \$350,000,000. On January 1st, 1923, it was \$2,516,929,000—over two billion dollars added by the war. Were it not for the fact that the bulk of this colossal debt is owned within the Dominion—Canadians themselves owning bonds to the extent of \$1,969,995,000—the interest payments would doubtless drain the country dry, reduce the exchange value of the Canadian dollar to a ruinous figure, and plunge Canadian

PUBLIC SAFETY AND AUTO DRIVING

While the subject of reckless auto driving may be somewhat trite the necessity for remarks on the subject will continue to exist until some practices now prevalent become non-existing. We hear at times a good deal of reckless auto driving in the United States where traffic must, of necessity, be far more congested than in this Province, but we note also that there are more drastic methods applied there to remedy abuses. Frank A. Goodwin, Registrar of motor vehicles in that State, announces the cancellation in August, 1923, of 421 licenses for driving under the influence of liquor. Mr. Goodwin recalls that in August, 1919, only 31 licenses were lost for the same offence. "When," he asks, "is prohibition going to begin?"

Some Dominion Provinces might well exact the penalty that is dealt out so plentifully to drivers who "get over the bay" in the "Bay State". If 421 persons went on highway sprees in August and were caught in the Puritan State, how many must there have been in similar cases within Nova Scotia's borders? It speaks well for one phase of Massachusetts policing that such a big haul was made of a most pestiferous class of motor culprits. Registrar Goodwin further remarks concerning one month's fatal accidents that mostly all happened at night and were due to a combination of failure to obey the headlight law and to drunken riding from beaches or camps.

The matters mentioned above might properly have more attention legally and otherwise in our own Provinces and very shortly must have more attention given than in the past. These are wide variations in the strength of law regulations in Nova Scotia but mistaken notions of leniency should not be put for one moment in the scale against public safety.

Another most objectionable practice which should be dealt with is the habit among some motorists, who when they are proceeding along the road at their own selected pace and another car blows to pass them take this as a signal to at once enter upon a speed contest. Human life has been lost in this Province during the past year just in this way, while in other cases drunken drivers have been a menace to the sober and prudent citizen, who regulates his driving fully in the interests of public safety. These matters to which we have referred above are rousing public interest and will arouse it more till safety becomes a more important consideration with all drivers than reckless speed or drunken exhibitions of how not to handle a car. Most citizens comply without urging or without drastic methods to whatever the law or in their own common sense tells them is in the interests of public safety. Those who do not must be compelled to courses of sanity.

finance and business into a chaotic condition. As it is, the semi-annual interest payments go into hundreds of thousands of Canadian homes and provide money for the payment of the Federal taxes from which the interest payments are drawn. At the time Canada might have met the enormous demands of the war by borrowing from New York, but the wisdom, as well as the patriotism, in resisting the temptation, and instead placing the burden immediately upon the shoulders of her own people, is now apparent. Within a few weeks

OBITUARY

W. H. Weldon. The death took place at an early hour on Friday morning last at the home of his daughter, Mrs. S. C. Turner of Mr. W. H. Weldon, after a period of trying illness borne with patience and resignation for over a year.

The funeral took place on Sunday afternoon services at the house being conducted by Rev. J. H. Freestone, assisted by Rev. Dr. Jost, after which the remains were taken to Annapolis accompanied by members of the officers and members of Rothsay Lodge A.F. & A.M. Here the cortege was met by the officers and members of Bureka Chapter and of Annapolis place under Masonic direction in Woodlawn Cemetery. The attendance was very large and a notable tribute to a highly esteemed brother and citizen.

The late Mr. Weldon was born in Charlottetown eighty-seven years ago his parents being from the Isle of Wight. His father, a lay preacher, in the Methodist Church, predeceased Mrs. Weldon by many years. She brought up her family with care, giving them good educational advantages and the son, W. H. Weldon, the last surviving member of his family, has been a resident of Annapolis since 1880, with the exception of the past three years spent here with his daughter, Mrs. Turner. For fully forty years of that period he was cutter with A. M. King & Son and the excellence of his workmanship was widely known. He took always a keen and active interest in the work of the Methodist Church, and was also a most highly esteemed member of the various offices in the lodge and in the Royal Arch. He was highly esteemed in all the relations of life.

He leaves to mourn their loss, three daughters, Mrs. Victoria Ellis, of Oxbow, Maine; Miss Mabel Kellogg, of Peabody, Mass., and Mrs. S. C. Turner of Bridgetown, with whom he made his home for the past three years after retiring from active work. He was a man who enjoyed general esteem and most especially so among those who knew him best.

Mrs. Manilla Piggott is spending the Winter with Mrs. Frank Poole, West Paradise.

Miss Olive Yolding, of St. John, spent the week-end in town, the guest of Mr. and Mrs. Elias Messenger.

Personal Mention

Mr. and Mrs. R. A. Bishop and Mrs. Freeman Corbett, of Bridgetown, and Miss Josephine Whitman, of Lawrencetown, were guests Sunday of Mr. and Mrs. L. B. MacLeod, South Street.—Register.

Mr. Frank Poole, of St. Croix Cove, was a visitor in town on Tuesday last.

Mr. George Hall, of Yarmouth, was a guest last week of his brother, Mr. E. C. Hall, East Granville Street.

Mr. Ronald Whiteway left on Thursday of last week for Montreal where he took passage for his home in London, after a pleasant visit here, the guest of Mr. and Mrs. Chas. DeWitt. Mrs. Whiteway who is a guest of Mrs. DeWitt, leaves a little later, returning by way of Halifax.

Dr. W. Arthur Smith, of Trinity Church, Dartmouth St., Boston, spent part of Monday and Tuesday in Bridgetown, the guest of Mr. and Mrs. Hallett McLaughlin, and Mrs. E. White, his mother-in-law, returning to Boston Wednesday.

Rev. and Mrs. A. J. Prosser left on Monday to attend the district meeting at Port Wade afterwards motoring to Kentville, Yarmouth Co., where they will spend the next ten days at Mr. Prosser's old home.

Mrs. Freeman Leslie, of Wolfville is visiting her daughter, Mrs. Clifford Porter, and other friends in town.

DALHOUSIE WEST

Mr. and Mrs. James Harnish and family, of Lequillo, spent Sunday at the home of her parents, Mr. and Mrs. Thos. Todd.

The Sewing Circle met Wednesday, October 17th, at the home of Mrs. Amos Hannam.

Mr. Ronald Longmire, of Bridgetown, was the Sunday guest at the home of Mr. Norman Buckler.

Mr. Thos. Buckler and mother, of Dargie Section, spent Sunday at the home of Mr. Appleton Buckler.

Mr. Eleazor Gillis, of Waterville was the Sunday guest at the home of his brother, Mr. Willis Gillis.

Mrs. Wm. Lockett and son John accompanied by Miss Rose Ruggles of Bridgetown, was the guest at the home of Mrs. Amos Hannam Wednesday, Oct. 17th.

Mr. Manley Brooks was successful in getting a fine buck Tuesday morning, Oct. 16th.

Mr. and Mrs. Chas. Trask, of Little River, who has been visiting her daughter, Mrs. Amos Hannam, and son, Mr. Willis Gillis, is now visiting her son, Mr. Eleazor Gillis, of Waterville.

Analyses of Coal

HOW COALS ARE CLASSIFIED

Intelligent purchase of coals of bituminous grade demands a knowledge of fuel classification. To the average consumer, perhaps, coal is a single elemental substance. As a matter of fact, however, it is a compound of fixed carbon, volatile matter which is driven off in the form of gas during the process of combustion, moisture, sulphur, and the incombustible residue known as ash.—(Coal Trade Journal Vol. 54 No. 33).

The following is an analysis of Springhill, (Dept. of Mines) Canada Bulletin No. 22:

Table with 2 columns: Component and Percentage. Fixed Carbon 81.5%, Ash 8.4, Sulphur 0.9, Volatile Matter 11.2.

The above analysis shows Springhill to be superior to all in this province.

turned from Berwick, where she has
been visiting friends.

**AUTO TURNS OVER, MR. JOHN
CARTER SUSTAINS BROKEN
COLLAR BONE, OTHER OCCU-
PANTS CONSIDERABLY SHAK-
EN UP.**
Another auto accident took place
Sunday afternoon about two miles
above town when a Ford car owned
by Rupert Elliott, lost one of its
wheels and turned over with its oc-
cupants, Mr. Elliott, Mr. John Carter,
his daughter, Mrs. Gladys Carey and
two other friends. Mr. Carter sus-
tained the most serious injury, a
broken collar bone, but the other
members of the party were more or
less painfully shaken up.

HONOR OF C. G. I. T. MEMBER PLEASANT SURPRISE PARTY IN WEST PARADISE

A very pleasant surprise party was
given at the home of Mr. and Mrs.
E. C. Hall, the occasion being the
birthday of Miss Mary Anthony. The
party consisting of the C.G.I.T. girls
and Taxis boys of the Baptist
Church met at the home of Mr. and
Mrs. F. H. Beattie and at eight o'clock
proceeded to Mrs. Hall's. They were
there met very cordially by Mrs.
Hall and a very pleasant evening was
spent by all in games, etc. Towards
the close of the evening Miss Anthony
was presented with a fine fountain
pen, by those present, for which she
warmly thanked them. Refreshments
were then served and after a few
songs were sung the party dispersed,
all spending a most enjoyable eve-
ning.

IN MEMORY OF EDITH LAURA WRIGHT

Dearest Laura thou hast left us
And thy loss we deeply feel,
But her God that has bereft us
He can all our sorrows heal,
Thou hast left us and we miss thee
Sadly miss thee Laura dear,
In vain we listen for thy footsteps,
Still thinking thou art near.

There is no death! The stars go down
To rise upon some fairer shore,
And bright in Heaven's jewelled crown
They shine forever more,
And ever near us though unseen
The dear immortal spirit tread
For all the boundless universe
Is life—there is no dead.

One by one earth ties are broken
As we see our loved decay,
And the hopes so fondly cherished,
Brighten, but to pass away
One by one our hopes grow brighter
As we near the shining shore,
And we know across the river
Waits the loved one we adore.

Through all her pains, at times she
smiled,
A smile of Heavenly birth;
And when the angels called her home
She smiled farewell to earth.
Heaven retaineth now our treasure,
Earth the lonely casket keeps,
And the sunbeams love to linger
Where our darling Laura sleeps.

Weep not that her trials are o'er,
Weep not that her race is run,
God grant we may rest as calmly
When our work like hers is done;
Till then we yield with gladness,
Dear Laura to him to keep,
And rejoice in the sweet assurance
He giveth His loved ones sleep.

Peaceful be thy silent slumbers,
Peaceful be thy grave so low,
Thou no more will join our number,
Thou no more our sorrows know,
Yet again we hope to meet you,
When the day of life is fled,
And in Heaven with joy to greet you,
Where no farewell tears are shed.
30-11p. MOTHER.

ROUND HILL

Mr. and Mrs. L. B. Dodge and son,
William, of Kentville, are visiting Mr.
and Mrs. W. H. Williams.
Thomas F. Rice, of Montreal, is
visiting his mother, Mrs. Colin C.
Rice.

Mrs. Conrad Gidney and children,
of Mink Cove, Digby Co., recently
visited her parents, Mr. and Mrs.
Wm. Bailey.

Miss Ruth Harris, of Moschelle
in this village on Saturday, 20th.
The marriage took place on Oct.
17th, of Miss Hope LeCain, daughter
of Mr. Wm. LeCain, Sr., to Stan-
ley Spurr, son of Mr. James Spurr.
They have the best wishes of a host
of friends. They received many beau-
tiful presents. Mr. and Mrs. Spurr
will reside in this village.

SEALED TENDERS

addressed to
the undersigned, and endorsed
"Tender for breakwater extension at
Port Lorne, N. S." will be received
at this office until 12 o'clock noon,
Monday, October 22nd, 1923, for the
construction of an extension, 50 feet
long on the centre line and 45 feet
wide, to the breakwater at Port Lorne,
Annapolis County, N. S.
Plans and forms of contract can
be seen and specifications and forms
of tender obtained at this Department,
at the office of the District Engineer,
Bellevue Building, Halifax, N. S. and
at the Post Office, Port Lorne, N. S.
Tenders will not be considered un-
less made on printed forms supplied
by the Department and in accordance
with conditions contained therein.
Each tender must be accompanied
by an accepted cheque on a chartered
bank payable to the order of the Min-
ister of Public Works, equal to 10
per cent of the amount of the tender, War
Loan Bonds of the Dominion will also
be accepted as security, or War Bonds
and cheques if required to make up
an equal amount.
Note—Blue prints can be obtained
at this Department by depositing an
accepted Bank Cheque for the sum of
\$10.00, payable to the order of the
Minister of Public Works, which will
be returned if the intending bidder
submit a regular bid.
By order,
R. C. DESROCHERS,
Secretary,
Department of Public Works,
Ottawa, October 4th, 1923.

WEST PARADISE

Mr. and Mrs. B. W. Saunders were
guests on Sunday of Mr. and Mrs.
Charles Foster, Upper Clarence.
Mrs. Norris Daniels is visiting Mr.
and Mrs. George Whitman, Berwick.
Mr. Robie Whitman returned from
Wolville spending the week-end at
his home here.

Mrs. Dexter Jarvis gave a much
enjoyed chicken supper and dance at
her home on Tuesday evening of last
week.

Mr. Norris Daniels is still picking
ripe strawberries from his garden
plot.

Visitors at Mr. and Mrs. D. H.
Sarsfield for the week-end were: Mr.
and Mrs. Frank Saunders and daugh-
ter, Violet, of Harmony, King's Co.

HAMPTON

Prof. B. S. Hamilton has bought
the Clarence Foster property of Mr.
Norris Mitchell and is making exten-
sive repairs to the buildings which
will add very much to the appear-
ance of the village. Mr. Frank Chute,
of Phoenix Cove, is doing the work.

On Oct. 20th, Mrs. John B. Temple-
man presented the writer with six
apples grown in 1922. They were
about No. 2 Starks and in perfect
condition.
Miss Mabel Hawkins, who has been
spending several weeks visiting rela-
tives in Massachusetts, returned home
last week.

Mr. and Mrs. Pearl Grey, of Lynn,
Mass., were recent guests of Mr. and
Mrs. Norris Mitchell.
Mr. J. W. Grant, of Danvers, Mass.,

LIVE STOCK EXHIBIT AT KENTVILLE

The Sage spent half an hour or so
wandering around in search of the
livestock exhibit, which, considering
the fact that Hants, Kings and An-
napolis Counties have some of the
finest livestock in the Provinces, he
supposed would be well worth seeing.
At last he found it, and it consisted
of five or six head of rather ordinary
looking cattle, and two pigs. It gave
the Sage quite a shock. Imagine
three counties putting up nothing
better than that! Where were the
cattle of the Experimental Farm at
Kentville? The government spends
a good many thousands of dollars of
the people's money every year in
maintaining the farm, and if there
are any livestock on it, they at least
could have driven over to Alderhot
to show us something of what we
get for our money—Sage in Berwick
Register.

recently spent several days the guest
of his niece, Mrs. Allison Tompkins.
Capt. R. P. Clute is putting in a
black fox ranch. We wish the Captain
luck in his new venture.

Miss Iris Mitchell left Friday, 19th,
for Boston, where she expects to re-
main for an indefinite period.
Miss Beatrice Slocumb, of Curram,
is visiting Mr. and Mrs. Allen Bezan-
son.

Mr. R. B. O'Neal, who recently
underwent an operation for appen-
dicitis, we are glad to report, is able
to be around again and Sunday, 14th,
resumed his duties as Supt. of the
Sunday School.

THE MARITIME PROVINCES

(The Montreal Gazette.)
The idea that the Maritime Provinces of Canada, and Nova Scotia in particular, were injured by Confederation and are kept back by this connection with Canada has been asserted by a section of the press and by public men so long that it has come to be accepted as a thing not to be questioned. It has helped to create the opinion that the Government of Canada is responsible for what disappointment has come to those who expected greater things and that it is to be blamed because it does not proceed to do what is necessary to realize the undefined dreams of the fault finders. In the Maritime Provinces, more even than in other parts of the country, the disposition to blame the Government for not doing things that can best be done, and should be done, by individual enterprise is becoming chronic; and the man who sits and grumbles aloud receives more attention than the man of energy and enterprise who moves and does things. It is encouraging when one who can speak with some authority rises up to proclaim a more vigorous doctrine and force attention more on what has been missed. The Maritime Provinces of Canada are not starting still, as a whole. The census bears testimony to their growth in population, and growth in population does not come and remain without growth in trade and industry. In 1871, the first census following Confederation was taken. The population of the three Provinces then and in 1921, when the last census was taken, compares as follows:

	1871	1921
New Brunswick	285,594	387,839
Nova Scotia	387,809	522,837
P. E. Island	94,021	88,615

767,415 1,000,291
The increase in the three Provinces in the period covered with 232,000. In the State of Maine, which lies most nearly to the Maritime Provinces and adjoins New Brunswick, in the same period, from 1870 to 1920, the population grew from 626,915 to 768,014. The Canadian provinces showed the greater progress.

The Maritime Merchant, a periodical devoted to the trade interests of the Provinces, in a recent issue, makes a mild protest against the common habit referred to of overstressing the unsatisfactory features in the situation and ignoring what gives proof of progress and advancement. It thinks the Maritime Provinces got rather the worst of the Confederation bargain; but evidently also thinks that there is no good to be attained by lamenting the fact. It thinks the way to get on is to keep on fighting, forgetting the unprofitable past, and doing what is possible to make new headway. One paragraph is of special interest. It is as follows:

"One may wonder, perhaps, when looking back to the time of Confederation and hearing people talk about the prosperity of those days (and no doubt there was great prosperity), in Nova Scotia particularly, as compared with the rest of Canada, as to whether our situation today would have been relatively as good as it was then, had we remained out of the Confederation altogether. We almost fear it would not; in fact, it might have happened that our dependence upon the United States would have been so great that long ere this, though the Union Jack still waved over Government House, we should have been taking our instructions from Washington; at least in so far as affairs economic were concerned."

Then the article proceeds to say that conditions have changed so much that it is bewildering to think of what the position of the provinces might have been if they had remained out of Confederation. Older residents can remember, just before Confederation, it says, when Moncton, now the second city in New Brunswick, was a struggling village with little business and less employment for labor. Amherst, Truro and other towns were in much the same position, while Sydney and New Glasgow were scarcely on the map.—Regina Leader.

FIVE COAL MEN
IN U. S. SUMMONED

Washington.—Five New York and Massachusetts wholesale coal dealers and Madeira, Hill and Company, an anthracite mining firm, with offices in Philadelphia, have been summoned by the Federal Trade Commission to appear before it Nov. 19th to answer charges of engaging in a conspiracy to enhance the price of coal.

NO CURRENCY INFLATION

British Government Does Not Intend to Manufacture Artificial Money.

London.—Great interest has been aroused recently by reports that the Government was considering a policy of currency inflation as a remedy for the present serious unemployment which some economists had attributed to too rapid deflation, but if the Government ever contemplated such a

change of policy it would seem that it has thought better of the idea.

Sir Laming Worthington-Evans, Postmaster General, in a speech at Colchester, emphasized the need of a sound currency system and said of the rumors that the Government intended to manufacture artificial money that there was not the slightest ground for such fear. It had no such intention. Frederick Goodenough, Chairman of Barclay's Bank, in a speech at the same meeting, made it clear that he is opposed to any policy on inflation. He pointed out to Ger-

many as an instance of the danger of unchecked inflation and declared his belief that a policy of deliberate inflation would not cure the evils of unemployment, nor secure commercial prosperity for the Empire. On the other hand deflation was a matter requiring handling with the greatest of care and due regard to the conditions existing elsewhere.

It was to Mr. Goodenough that Minister of Labor Bortow in a speech last week erroneously attributed the plan for currency inflation.

UNDECIDED YET ON ROYAL COMMISSION FOR HOME BANK

Ottawa.—Referring to the numerous questions in the press and elsewhere concerning the appointment of a Royal Commission to investigate Home Bank affairs, Right Hon. W. S. Fielding, Minister of Finance, and Acting Prime Minister, said that there had been no decision to appoint such a commission, and he hoped that such appointment would not be found necessary.

PORT LORNE

Rev. D. W. Dixon has returned from a visit at Port Greville.
Mrs. (Rev.) D. W. Dixon visited friends in Windsor recently.
Mr. and Mrs. Bernard Eismor, of Granville, were guests of Mr. and Mrs. Charles Beardsley, on Sunday.
Mrs. T. W. Templeman is leaving on Friday 19th for Buffalo, N. Y., to visit her daughter, Mrs. Warren Cook. Mr. Herbert Wilkins and his bro-

ther, Morris, came home from sea a few days ago. They were shipwrecked in the storm of Oct. 1st.

Let me put COMFORT in your home this Winter.

Let me reduce your coal bills by one-third. Let me make EVERY room in your home cosy and warm. Let me provide your home with healthful ventilation—clean, pure, moist air circulating throughout the house. In other words, let me install a

GILSON FURNACE

"Makes Many Warm Friends"

A New and Better Heating System at a Sensational Price

Costs Less to Buy

The Gilson is the lowest priced efficient heating system on the market. You pay less for the furnace—less for the installation—no expense for pipes.

Costs Less to Use

You can heat every room in your house with the Gilson Pipeless Furnace on less fuel than it takes to run your stoves. Your family will no longer shudder at the thought of getting undressed in a cold bedroom. And this cast-iron furnace uses surprisingly little fuel. Users say it saves from 25 to 40 per cent. With fuel at present prices, think what that means!

Installed in a Morning

I can install this modern heating system in your home in less than a day—any home, old or new. No walls to rip up. No mutilated partitions. No muss or fuss. Just one register on the main floor. I'll start first thing in the morning and by afternoon your Gilson will be ready to protect you against winter's cold.

Guaranteed to heat your whole house

All you need is enough cellar excavation to accommodate the furnace. I not only give you my personal guarantee of satisfaction but also Gilson's of Guelph will stand back of me. This proven heating plant also leaves the cellar fine and cool—you can store vegetables alongside it, if need be, without harm.

The Most Phenomenal Success in the Heating Business in Canada

Only placed on the market a year ago, the Gilson furnace has had an astounding success. It has taken the trade by storm. Over 400 of the best hardware men and tinsmiths in Ontario alone—men who KNOW furnaces—have taken on the Gilson because it appeals to them as the best heating plant made.

Here are Some of the Reasons Why:—

- (1) A real cast-iron furnace—fire pot, feed section and radiator are heavier in construction than in any other furnace I know of.
- (2) Burns coal or wood. A splendid furnace for soft coal. Big roomy door makes it ideal for burning wood.
- (3) GUARANTEED FOR TWENTY-FIVE YEARS—The broadest and longest guarantee given with any furnace. Two-piece fire pot, straight-walled to prevent ash lodging against the side and deadening the heat radiation.
- (4) Triangular duplex grate, easy to shake, and big roomy ashpit.

GILSON MFG. CO.
LIMITED
GUELPH - CANADA

Let me give you an Estimate—FREE

The Gilson Furnace costs you nothing. It saves its price in fuel and in doctors' bills, in furniture and draperies, in convenience. The comfort it brings is a bonus of satisfaction. I want to prove these facts to you. Telephone or come and see me and I will gladly quote you on the size of Gilson Furnace you need, show you where it should be installed and demonstrate its economy to you. We are going to have another winter of high-priced coal and wood. All the more reason why you should get in touch with me at once.

SCHOOL BOOKS

(Amherst News.)

School books in Nova Scotia are today fully three times as expensive as they were in 1914! The statement which is rather startling, was made at a recent meeting of the Yarmouth School Board by A. J. McLeod, Vice-Principal of the Seminary in that town. Mr. McLeod is reported as having stated that there are too frequent changes in the public school texts, this involving great expense and resulting as far as Arithmetic, Grammar and Reading are concerned, in poorer texts.
The complaint that has been voiced before the Yarmouth Board is one that might very properly find expression before the Amherst School Board and in fact before every School Board in the Province. Not long ago we expressed our regret at the methods pursued in connection with the government controlled school book bureau at Halifax. There a system is in vogue which enables dealers to secure books only upon cash with order—a system that has worked hardship in number of cases where store keepers wished to meet a demand with more speed than generally emanates from a government office. While the autocratic methods of those entrusted with the sale of the books are bad the price and contents of the books seem to be worse. On all sides one hears complaints about changes of the books. When to this is added complaints of teachers about the content of the books, some saying they are getting worse all the time, others saying that pupils may leave the eighth grade without any knowledge of world geography, it is surely high time that public and persistent attention were given to this matter.
This is a serious matter, which evidently has got beyond the control of the Superintendent of Education and the Council of Public Instruction. The result is that the people themselves should take the matter up with their local school boards who in turn should make a strong presentation to the government officials.

PULPWOOD HEARING HAS SPICY SESSION IN NEW BRUNSWICK

St. John, N. B.—The Royal Commission on pulpwood opened its sittings here. The first witness, Gray B. Keith, of the Atlantic Pulpwood Company, St. John, representing a number of American paper companies, declared himself opposed to an embargo on pulpwood, as meaning that it would cut off farmers' revenue, deplete population and would not bring in American mills because of excessive expense in moving plants. He said it would take away the rights of the Canadian citizen to dispose of his property where he pleased. It was not the logger who depleted the forests, he said, but careless operators. His company had shipped by water from Nova Scotia and would do so later from New Brunswick.
Hon. J. B. M. Baxter laid before the commission certain exhibits giving statistical, statutory and other data.
Edgar Rickard, President of the Pictou Paper Company, with extensive pulpwood and paper mills in Maine and Quebec, said the company's consumption was 35,000 cords of pulpwood a year, of which 30,000 came from Canada.
His New Brunswick holdings had a capacity of 20,000 cords a year. It has very extensive plants in different parts of this Province.
He was very strongly opposed to an embargo, which he said would render their holdings useless. He asked that whatever policy might be finally decided on the holdings of his company, peculiarly situated as they were, should be exempt.

ALEX. S. McNEIL'S NEW POSITION

He Will Have Supervision of All Coal Mining Operations in Cape Breton.
Sydney—The supervision of all coal mining operation in Cape Breton on behalf of the British Empire Steel Corporation will in future be in charge of Alex. S. McNeil, at present General Superintendent of Mines for the Dominion Coal Company, according to information given out recently by an official who is in close touch with what is going on in official circles at Corporation headquarters. As far as can be learned Mr. McNeil's appointment is only a matter of a few days.
The Coal Company will in the course of a few weeks begin negotiations for a new wage contract.
Mr. McNeil is recognized as a man who understands the practical side of coal mining and who has wide knowledge of the many problems of coal mining in Cape Breton and a man who has been successful in his dealings with the miners.

GOOD YIELD OF POTATOES

St. John, N. B.—A good yield, good quality and fairly good price.
In these words Hon. W. P. Jones, D.C., of Woodstock, who was in the city, summed up the potato situation in Carleton and Victoria Counties in New Brunswick and Aroostook County in Maine. He said, however, that the acreage was not quite up to the average this year. The farmers, he said, were receiving on an average about \$1.50 a barrel for their crop from the field and there was a fairly good demand.

Fall Weather Hard On Little Ones

Canadian Fall weather is extremely hard on little ones. Oct day is warm and bright, and the next we get cold. These sudden changes bring on colds, cramps and colic, and unless baby's little stomach is kept right the result may be serious. There is nothing to equal Baby's Own Tablets in keeping the little ones well. They sweeten the stomach, regulate the bowels, break up colds and make baby thrive. The tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

PAIN IN THE JOINTS

Is An Indication That The Blood Is Thin And Watery.

The first sign of rheumatism is frequently a pain and swelling of one of the joints. If this is not treated through the blood, which is the seat of the disease, the poison spreads, affecting other joints and tissues—sometimes rheumatism attacks the heart and is fatal.
A remedy that has corrected many cases of rheumatism is Dr. Williams' Pink Pills. These pills enrich and purify the blood so that the poisonous rheumatic matter is driven out of the system as nature intended. Miss Gertie Denne, Washago, Ont., was attacked with rheumatism and found relief through Dr. Williams' Pink Pills. She says:—"About a year ago I was attacked by rheumatism and for two weeks was confined to my bed. The trouble was so painful, affecting the joints of my limbs so that I could not stand alone. Mother had a box of Dr. Williams' Pink Pills in the house and thought they might help me. I began taking them, and when I had taken these pills got a further supply, with the result that the rheumatism vanished and I was a well girl. I may add that my mother and two of my sisters have also used the pills for various ailments with equal success, and now we are never without them in the house."
If you are suffering from any condition due to poor, watery blood, or weak nerves, begin taking Dr. Williams' Pink Pills now, and note how your strength and health will improve. You can get these pills thru any dealer in medicine, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

McLACHLAN GUILTY OF SEDITIOUS

Jury Out An Hour And a Half in Trial of Deposed C.M.W. Secretary.
James B. McLachlan, deposed secretary of District 26, U.M.W., was found guilty of publishing seditious libel, in Supreme Court. The jury, which retired at 12:45, returned at 2:15 o'clock with their verdict. The accused was remanded to jail for sentence.—Halifax Herald.

NEW LAMP BURNS 94% AIR

Beats Electric or Gas
A new oil lamp that gives an amazingly brilliant, soft, white light, ever better than gas or electricity, has been tested by the U. S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94% air and 6% common kerosene (coal oil).
The inventor, J. M. Johnson, 246 Craig St. W., Montreal, is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money, make \$250 to \$500 per month.

GOOD YIELD OF POTATOES
St. John, N. B.—A good yield, good quality and fairly good price.
In these words Hon. W. P. Jones, D.C., of Woodstock, who was in the city, summed up the potato situation in Carleton and Victoria Counties in New Brunswick and Aroostook County in Maine. He said, however, that the acreage was not quite up to the average this year. The farmers, he said, were receiving on an average about \$1.50 a barrel for their crop from the field and there was a fairly good demand.

WHO IS SHE?

Widespread interest and comment is being caused throughout Canada by the amazing life story of "The Wonderful Heroine" in the Family Herald and Weekly Star of Montreal. The heroine of the story is a remarkably beautiful young woman of romantic and tragic history, whose picture in colors is being given free to subscribers of the Family Herald and Weekly Star. When one considers that the subscription price of this big 72 page family and farm journal is only \$2.00 per year, one is amazed by the value received, but with a magnificent picture thrown in, the value is indeed superlative.

CAPTAIN TELLS OF ATTACK BY RUM PIRATES

Says Armed Men Made Successful Escape After \$26,000 Haul Off Montauk Point.

Yarmouth.—Another lurid tale of robbery at the revolver point by rum pirates on the high seas, is told by Captain John Sims, master of the auxiliary schooner Dominion Packet, which is in this port from St. Pierre to take on ballast. Threatened with death if he resisted, Captain Sims claims that he was forced to hand over to unknown men who boarded his vessel as she lay off Montauk Point, \$6,440 in cash and 800 cases of whiskey, valued at \$30,000.
According to the narrative of the captain, the rum pirates approached his schooner in a fast motor boat, only two of them, clad as fishermen, being visible. As on previous occasions he had disposed of his cargo to fishermen, the captain states that he saw no reason to be suspicious of the prospective customers and allowed them to board his ship. After several minutes of bargaining a favorable price quotation on one hundred cases of liquor was reached and the strangers followed the captain into the cabin to complete the transaction.
Concluding his task of figuring up the total cost of the wet goods, Capt. Sims declares that when he turned to present the purchasers with their bill, he gazed into the muzzles of two levelled revolvers and met a curt order to "throw up his hands." Unarmed, he was forced to sit at his cabin desk while the pirates ransacked the small compartment, discovered and pocketed the sum of \$6,440, and then ordered him up on the vessel's deck. There he found that during his absence other pirates, who had apparently been concealed in the motor boat, had boarded the vessel and were holding the crew up with revolvers. With several pirates set to work to transfer the vessel's cargo of 800 cases of whiskey to the motor boat, and after this had been completed, made their getaway.
THE ROAD HOG
(Thomas Goss, in Montreal Gazette).
A young man I knew, an auto fool,
Now in a cemetery lying,
He spurned all device of the auto's rule,
When the whole police force were trying,
He pooh-poohed all they had to say—
For he longed to do some erratic play.
He named his car the "Cyclone" car,
Without any thought or reason,
And he dash'd about both near and far,
In a fine, or stormy season,
His seat in car he call'd his throne,
He thought the earth was all his own.
He'd step on his gas with a foolish boot,
As if it did not matter;
He would open out and away would shoot,
Making pedestrians scatter.
He seem'd to possess the devil's own nerve
As around street corners he'd shoot
and swerve.
He loved to grip his steering wheel,
He felt his heart glow prouder,
Then out from a line of cars he'd steal
And toot, toot, the louder!
What cared he for the consequence?
He placed his faith in his independence.
"The great Road Hog," they named
this fool,
Who got an awful bending!
They said he was the devil's fool—
Whose deeds long call'd for hanging.
His horn it was a great shock-giver,
Which thump'd your heart against your liver.
He'd dive in here—he'd dive in there;
It aroused the other's mettle;
He'd make the other's gasp and stare,
For his ways sung like a nettle.
But can we expect from this Road Hog kind,
Who laughs at those they leave behind?
But alas, there came his final hour,
As heedless he went dashing,
To pass some cars he ran full power;
Crash! into a tree went smashing.
That ended this road-hog's frenzied zeal—
Died on his throne—died at his wheel.

QUALITY

NO TREASON

PRICE has always been of secondary importance in the blending of KING COLE Orange Pekoe. It has to be, if that characteristic rich flavor is to be maintained. Unusually choice teas are continually sought for it, and the cost of these is frequently changing.

KING COLE Orange Pekoe is for the real tea lover to whom a fine cup of tea is a delightful necessity. Any lowering of the quality would be necessary.

The price of KING COLE Orange Pekoe has changed slightly from time to time, and may again be higher or lower according to market conditions, but its original exclusive flavor remains unaltered.

"The Extra in Choice Tea."

A RICH GOLD FIELD

Molega, Queen's County, is still yielding gold. Mr. Leihan's last brick of gold from the new lead at Molega yielded 56 ounces from six tons of quartz. It is reported that a wealthy American company will take over the Leihan gold mining property. They will put in electric power and operate on a large scale.
Molega has been a gold yielder of no mean proportions for many years in Nova Scotia; and these fine auriferous leads are again showing up exceedingly well.

M. W. Grves & Co. Ltd.

The annual meeting of the Dorcas Society of the Baptist Church was held on Wednesday afternoon, Oct. 17th, at the home of the President. After a pleasant hour spent in social and sewing, the regular business was taken up. Encouraging reports of the year's work were read by the Secretary, Miss E. A. McClelland, and the Treas., Mrs. Howard Adams. Two hundred dollars has been paid to the chairman of the building committee on parsonage repairs. Mrs. E. V. Hutchinson reported \$30 raised at the last meeting by personal contribution. The entertainment committee

Local Happenings

Among the Annapolis County winners at the Three Counties' Exhibition held at Kentville were: H. E. Bent, Tupperville; W. C. Spurr, Melvern Square; Allen Bezanson, Hampton, and Eleanor G. McCormick, Annapolis.
 The marriage took place at the Baptist parsonage on Monday morning, Oct. 15th, Rev. A. J. Prosser officiating, of Mrs. Maria Dargie, of Bridgetown, to Mr. Freeman Rupert Rachford, of Waterville, King's Co. The ceremony was attended by only the immediate relatives of the contracting parties. The contracting parties motored to Waterville during the afternoon followed by the best wishes of their friends.
 Mr. H. F. Hamilton, of Lawrencetown, Provincial Secretary-Treasurer of Great War Veterans' Association, has been appointed Soldiers' Advisor for Nova Scotia on the Federal Appeal Board of Pensions.
 The first case in court in connection with infraction of the game laws came up some few days ago when Arthur Vidito, of Nictaux Falls, was convicted before Stipendiary F. R. Fay on the charge of killing deer out of season. A fine of \$100 and costs was imposed and the fine was paid.
 It appears that Vidito was picking apples on the Messenger place about three miles from town, when the deer strayed along. Vidito secured a rifle and shot the animal. This occurred a few days before the period for legal shooting had arrived.
 Mr. Walden F. Rice, of Industry, N.Y., was successfully operated on recently. He is reported as doing as well as can be expected.
 Chief of Police Bain and Sergt. Gaudet paid a visit late Saturday night to the Canadian Cafe where they rounded up nine young men who were occupying the rear part of the establishment. On Monday morning they appeared before Stipendiary Pelton and upon pleading guilty to the charge of gambling were each fined \$15 including costs. Wednesday morning the Chinese proprietor of the Canadian Cafe pleaded guilty to the charge of "permitting premises to be used for gambling," and paid a fine of \$100 which included costs.—Liverpool Advance.

A. V. Cook, of Waterville, and party comprising Vaughn Young, George Belleveau and George Cox, returned on Friday from a hunting trip to Albany Cross, Annapolis Co., bringing with them two fine moose.
 The most utterly charming fish story ever told, to which every other angler might just as well bow his head and quit, is told by John S. Montgomery, former Mayor of Lodi, California. The ex-Mayor says he was fishing on the Rogue river in Oregon and had a number of flies hooked into his hat—like fishermen do. A branch of tree knocked the sky-piece off and it galloped down the stream out of sight. It was found a week later by a San Francisco fisherman on a salmon's head. The salmon had snared in a long leader and worn the millinery down the coast.
 The evaporating factory at Aylesford and J. G. Rood's canning factory at Waterville commenced operations last week.—Register.

Annapolis Royal Lodge A.F. & A.M. pay a fraternal visit to Rothery Lodge on Thursday evening next.
 To a party consisting of Messrs. Newman Daniels, George Whitman and Nelson McLeod goes the honor of securing the first moose of the season in this immediate neighborhood. The moose was shot Friday in the vicinity of the old Abbott camp about four miles back from West Paradise and was a very fine fat specimen of genus.
 There was a scarcity of town water for a time on Saturday as the reservoir went dry. It appears that the party went up some days ago to let more water on gave the regulating apparatus the wrong turn, hence the scarcity. Matters were soon remedied but the eels were somewhat disturbed with disastrous results to a few which got mutilated beyond recall in "taps and other household conveniences."
 On Friday afternoon Mrs. Fred E. Bath gave an interesting and instructive talk in the Sunday School room of the United Church to the Senior and Junior C.G.I.T. of the various church organizations. This was followed by refreshments and games concluding two hours spent most profitably and enjoyably.
 At the annual meeting of the Girls' Work Board of Bridgetown, held in the Board of Trade rooms on Monday night the following officers were elected: Chairman—Mrs. Frank Stevens; Vice-Ch.—Mrs. (Rev.) A. J. Prosser; Sec.—Mrs. Miss Hortense Grimmer. Arrangements were also made in connection with the W.C. T.U. medal contest and papers will be read about the last of November by the Senior C.G.I.T. girls who are entering this competition.
 Mr. A. P. McDonald, of the Colonial Motor Co., while on a shooting trip Wednesday morning in the neighborhood of Albany, saw five deer, first a buck and a doe, then buck and doe and fawn. All were on the main highway but Mr. McDonald having only a shot gun with him was obliged

The New Superior Chevrolet Chassis

\$565
 F.O.B. OSHAWA
 SALES TAX ONLY EXTRA.
A Quality Chassis which can be used with any Standard Body

CHEVROLET Economical Transportation is now available to the light truck user at a lower price than ever before. It is no longer necessary for the buyer of a Chevrolet Chassis to have a special body prepared.
 The construction of this new Chevrolet Superior Chassis permits any standard body to be built on to it. Two popular types of body are shown in the illustration above. Many others are available, at moderate cost, to the buyer of a Chevrolet Superior Chassis.
 Accompanying this new measure of economy are the usual Chevrolet qualities of power and endurance, and the many improvements recently completed in the Chevrolet Superior line.
 Combined, these render the new Chevrolet Superior Chassis the greatest value of its kind in Canada. Every prospective light truck owner should inspect it at our showrooms.

Ask About the G.M.A.C. Plan of Deferred Payments

so desirous were those who had bought the work that it should be seen, they entered it in the Fair competition. In the class calling for "the best collection of embroidery five pieces," she obtained first prize, the collection consisting of a pair of cut work pillowslips, centre cloth, tray cloth, and handkerchief. In the class calling for "embroidered pillow slips" she obtained second prize with a pair of "day-slips." The honor thus gained is all the more pleasing when it is remembered that Mrs. Sanborn had no idea her work was to be put into any competition, it being done, as stated above, in the ordinary way of business.
 The delicious flavor and the number of cups to the pound—these are the two points to consider when making your choice of tea. The very finest flavored tea on this market today is MORSE'S SELECTED ORANGE PEKOE, but it is a little more expensive than other teas. It is also true, however, that it has great spending qualities. When you consider the way it spends it is not really so high as it seems.
 There was some discussion in the circle this week about the coffee gets in Boston. The wife of the radio operator said that she had been in Boston for many years, and when she came to Canada to buy the thing she most missed was a cup of coffee. But it is not so hard to get in Boston. In the class calling for "AL COFFEE and she told the story of how she got it.
 Minard's Lmlnt for Cems.

HUSKY PUPS BORN AT CHATEAU FRONTENAC

The Hudson Bay dog team which has been such a popular feature in connection with the winter sports activities inaugurated by the Chateau Frontenac at Quebec three years ago, shows promise of future teams of exceptional merit. Two very fine litters have been produced. On the morning of April 15th the Indian who is taking care of them was delighted to find that Wobaka, a beautiful white female husky, had presented as her contribution to Quebec winter sports, three pups which very much resemble wolf whelps. One very fine pup developed rapidly and was named Negik. Wobaka was jealous of the attention showed the family of her team mate and, not to be outdone, presented the Indian with a litter of eight. Great hopes are entertained for the future of this litter as wolf blood runs strongly in the veins of Makwahle, the sire, a splendid beast of some 100 lbs. with shaggy grey coat, long vulpine muzzle, pointed ears and pale amber eyes glistening through narrow slits. Makwahle was born in the wilderness north of Lake Superior. The Indian is already making plans for the training of this last litter and expects to have them paraded broken in before the first snow. This is usually done by taking a trained leader and placing her in harness with the pups. At first, traces are attached to a light birch log and the initial try out usually suits in a wild scramble, the pups going in various directions with the leader turning around with a puzzled look as much as to say "what's it all about?" The tangle is straightened out to the accompaniment of a chorus of yelps but gradually the young ones come to understand what is expected of them, and the team becomes more proficient the weight of the log is increased. By the time a sleigh can be used they are able to draw heavy loads. In the Northwest Country they can draw with ease as a hundred pounds per dog.
