The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol → (meaning "CONTINUED"), or the symbol ▼ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ▼ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. REPORT.

Your Committee present the Report of their proceedings during the past year, with mingled and conflicting feelings: for while, on the one hand, there is abundant cause for satisfaction and thankfulness for the progress, (both in St. John's, and the Out-harbors) of the New-FOUNDLAND CHURCH Society, events have occurred which have caused considerable difficulty and anxiety. It is not to be expected that an Institution of the nature, and with the objects of this Society, should pursue its course without its trials, difficulties, and impediments. Were it so, associations of Christian people, as in the case of individual Christians in such circumstances, would run the risk "of settling down on their lees" or of forgetting that they can accomplish nothing by mere human instrumentality, apart from the Divine grace and favor. The past year has brought its trials to the Church Society: Into a detail of what they have been, your Committee deem it unnecessary to enter here: the result which they report with sincere regret, is the vacancy of the office of Patron, by the resignation of His Excellency the Governor on the 12th of November last. Your Committee would avail themselves of this opportunity of expressing their regret at any proceeding of theirs, which may have led to such a step on the part of His Excellency: at the same time, they hope and believe, that the Society will give them credit for having simply and sincerely desired to keep in view the vindication of its principles, and the preservation of its interests.

In reviewing the Ecclesiastical incidents of the past year, not the least important has been the Visitation of the Lord Bishop of the Diocese, which extended along the Labrador from Blanc Sablon to the Seal Islands, together with St. John's Island and St. Barbe Bay on the opposite side of the Straits, and thence along the N. E. coast from Quirpon to Trinity. His Lordship was absent on his voyage between three and four months, having sailed from St. John's on the evening of the 15th June, and returned on the 29th of September. Confirmation was given to 693 persons in 26 different places, 4 Churches and 6 graveyards were consecrated, and among the former was one, at St. Francis Harbour, the first ever built on the dreary coast of the Labrador.

The Bishop subsequently held confirmations in Conception Bay, where 466 young persons ratified their Baptismal vows, and lately his Lordship has administered the Holy and Apostolic rite to 82 persons in the mission of Heart's Content, on the South shore of Trinity Bay, and to 236 persons at the following places in the neighbourhood of St. John's, viz., Petty Harbour, Fox Trap, Pouch Cove, Torbay, and the Mission of Portugal Cove, -making a total 1477 persons during the year. In the course of the Visitation in 1863, the Lord Bishop held a general Ordination on the Sunday after the Ember week in September, in the Parish Church of St. Paul, Trinity. The Rev'd. Messrs. Boland, of St. George's Bay, and Walsh, of Upper Island Cove, were admitted to the Priesthood, and Messrs. Darrell, an Exhibitioner of the Society for the Propagation of the Gospel at the Theological Institution, and John Moreton, Literate, were ordained At the late Ordination in the Cathedral Church on Trinity Sunday, Messrs. Coombe and Meck, Society's Exhibitioners, were admitted to the Holy Order of Deacons; and on last Sunday the Rev'd. Messrs. Crouch, of Trinity, Elder, of Fogo, and Colley, of Grole, were admitted to the Holy Order of Priests.

On St. John Baptist's Day, the Bishop held his fourth Visitation of the Clergy, and delivered his triennial charge.

Your Committee have great pleasure in introducing into their Report the following extracts from letters of Clergymen addressed to the Secretary, only regretting that such communications are not more numerous and general.

I wish that in replying to your request to be furnished with some information respecting this Parish and Mission, for insertion in the Report of our Church Society, I could hope to supply any that would interest its numerous Members and kind friends.

But in a settled charge like that of St. John's, we have seldom, if ever, presented to us in the course of our Pastoral work, any novel features which it would be worth while to delineate for the above purpose. Amidst our constant employment among the sick and the poor, you are well aware that we find much to interest ourselves, and to encourage us, and to fill our hearts with thankfulness to Ilim Who alone gives any increase to our unworthy attempts to glorify Him, and to serve our flocks; but I do not know that the details would be suitable for the Report.

I may mention, however, that there has been a considerable addition during the past year to the number of our Communicants in the Cathedral—that I do not remember any year since I have been connected with this Parish, whether as Curate or Rector, within which so many children have been baptized—and that the attendance at the Sunday School during the past winter—especially of girls,—has been larger and more regular than before. These may, I hope, be regarded as some tokens that the good Hand of God is upon us. To Him be all the glory!

There have been several instances of good-will to the Church Society, some of which I cannot forbear mentioning. A fisherman to whom I had not applied, brought me 20s., and when I said to him, in my surprise at his generous free-will offering, "I thank you,"—he rejoined at once, "O! Sir, I deserve no thanks; thank God, Who has given me the heart to give it!—I only wish it were more."—— who was formerly in the Sunday School, but in growing from a bay to a man, had grown out of my knowledge, called this spring at my house, sending in word that he wished to see me. On my going out to him, he greeted me very warmly, I must confess to an uncomfortable feeling at my not recognising him. I enquired his name and his business, when he presented to me a sovereign, saying, "This Sir, is for the Church: I have made a good bill at the ice." The last case I will mention, though not the last I could mention, is that of—— an apprentice. He was about to leave St. John's, and called to pay me a farewell visit. Having given him some advice as to his future course and conduct, I was

about to dismiss him, when he said that "he could not leave without paying something to the Church Society," and gave me a dollar.

Fortune Bay.

The Rev. J. G. Mountain, Rural Dean of Fortune Bay, thus writes, from his mission (Harbor Briton and its neighbourhood)-I trust I may report amid much coldness and indifference in some places, a progressive improvement on the whole, in the religious life of the people, and in their desire for the Sacraments and ordinances of the Church. I may mention as one instance of improvement, that the custom of drinking to excess at the "settling time," when numbers are congregated at the Merchants' store has greatly decreased, and on this occasion last year there was a very good attendance at the morning and evening daily prayers in the Church. The number of Marriages in the Church was double that of any former year, a sign that the scandalous practice hitherto so frequent, of parties being married, or rather coupled, by any fisherman who can read has been discontinued. The number of Communicants in some of the settlements has reached to a majority of the inhabitants, and there is every appearance, in increased earnestness of life, that they are "meet partakers of that Holy Feast." It ought not to be omitted that those who are connected with the Merchants' establishments, and therefore have, by their position, most influence with the people, are in general an example to all in their lives, in attendance at Prayers and Communion, in support of the Church, and personal kindness and attention to the Missionaries.

The outward tokens of advancement are more easily denoted: a dwelling house at Pushthrough is so far completed that the Schoolmaster, (a very excellent and worthy man from England) is enabled to live in it; the Mission house at Grole has been nearly completed. The frame of a School house at Sagona (where a teacher is much needed) has been set up and boarded in. The funds for these purposes have been supplied from various sources; mainly private. partly also with the aid of the Board of Education, and of the Member for the Bay. The chief and most gratifying feature; however, in this respect, is the erection of a handsome brick Church with stone facings at the sole expense of Thomas Hunt, Esq., a Merchant of a long established and respected house in the Bay. The style is early English: the whole length, including chancel, 80 feet, breadth 30 tcet. The fittings, pulpit, &c., are of wainscot, substantial and in good taste. The building was nearly completed in the Autumn of 1853. The severe winter which followed caused some considerable, but not permanent injury, and it is expected that it will

be completed with the sittings, &c., this year.

A small but comfortable Parsonage is also in course of erection, and it is hoped will be completed this year. The funds for this house are raised by friends in England: and assistance from the

Society, or any other source, is much desired. The collection for the last exceeded that of any former year, amounting to full £100 currency, and it is hoped that interest has been excited and information conveyed, by the Branch Meetings of the Church Society, two of which have been held during the past year. Space with not allow of my adding the details I should desire respecting the other Missions in this Deanery. At Belleoram, Grole and Garnish the same improvement is evinced in the increased number of Communicants, and in the attachment of the people to their laborious ministers and teachers. This is still more evident, though not perhaps greater in proportion at Burgeo, which owing to the rapid influx of families from other parts of Fortune Bay, and their concentration in one spot, is now the most important settlement on the The number of Communicants in the two Burgeos is about There, if any where it may be said "the multitude of them that believe are of one heart and one soul," bickerings and jealousies seem almost unknown, and the people are much attached to their Clergyman, though I must add that they have not in some cases the same advantage of a good example from those who have most influence over them. The Church is found insufficient for the accommodation of the increasing numbers, and the people have already raised a considerable sum towards building a new and larger one, on a better plan, for which they are auxious to obtain assistance. A still greater difficulty is the want of carpenters which has hitherto prevented the work being begun.

Portugal Cove.

The event of the year in Portugal Cove, is of course the erection of a new Church which is just finished, and is to be consecrated (D.V.) on St. Peter's Day. Arrangements had been made for this undertaking by my predecessor the Rev. Wm. Grey, who had raised from friends in England, the sum of £117 sterling, which produced in currency, about £140. He had also received a donation from the Bishop of the Diocese of £50 currency, and a vote had been procured by him for the same amount from your excellent With this sum in hand, I deemed myself warranted in entering into a contract for £308 currency for the whole building, with Messes. Southcott, of St. John's, baving first obtained the consent of the Bishop of the Diocese to take down the old Church for the sake of much valuable board it contained. Of a misfortune that occurred to us on the last night of the year 1853, I need not speak further than to express my gratitude for the sympathy and assistance of both the Bishop of the Diocese and the Church Society, suffice it to say, that though for the time, a heavy discouragement, it did not break down our determination, but, I believe, incited the contractors, people and myself to greater zeal, the result of our combined labour being a Church, which I trust will be found second to none in this Island, save the Cathedral, in every requisite

a Church should possess. It is due to the people of the place to say, that all, with very few exceptions, cheerfully contributed both material and labour to the full extent required of them. The Church, as it is at present laid out, will accommodate about 100 more than the old building, and room, should it be required, could be made for another fifty. At present the amount expended has been £360 currency.

The collection for the present year has been £37 currency, an

increase of £10 on the preceding year.

Greenspond.

Mr. Moreton writes from Greenspond—If you please I will adopt the 7th of the Society for the Propagation of the Gospel's recent enquiries as expressing the wish of the Committee for information, viz.:—"Are you satisfied that your congregation are contributing to the best of their ability?" I have already replied to this, "Yes; so far as I am able to bring home the duty to individuals." But if the question means, "Does my whole Flock contribute what may fairly be required from them;" or even, "Do I obtain what might be obtained;" I must say decidedly, "No: very far from it.' Perhaps most of my Brethren in the Diocese would make the same reply.

I will endeavour to state the reasons which appear to me for this

deficiency.

The success of the Society in the outport Missions generally, seems to depend, speaking only of human means, wholly upon the Missionary's persuasions and exhortations, and the information conveyed by the yearly Report.

I am convinced that these means are very insufficient. I cannot hope that they will ever work such success for the Society, that it may be fairly called prosperous. This may appear from a state-

ment of some particulars of my Mission.

Among my Flock are Planters who are doing very large business, free from debt, and keeping money at interest in St. John's, with very great influence over their many servants and less wealthy neighbours, who give me for the Society each a dollar yearly, and do no more. Some of the same class, give nothing. From the young men, sons of Planters, and servants, I get, with a few exceptions, nothing. What I do obtain from any is given very much from good will to myself, and therefore may suddenly cease at any moment when they conceive some offence in their Clergyman. Yet, I fully believe, that the large majority of my Flock really value the services of the Caurch, and would rather make some sacrifice than lose them. Their very large alms-giving to the poor proves to me that they are not wholly selfish and illiberal. The subscriptions to the Church now building at Pinchard's Island, where one family has given more than £50, another nearly £40, and others in proportion, prove their willingness to support the Church, in some cases; so does the repeated declaration of a Planter in another part of the Mission, that he will gladly give £100 towards building a new

Church. And these are not solitary cases.

The failing is not in the people, but, as I have said, in the means, or lack of means, to influence them. My Mission includes a population of about 3,500, distributed in 22 settlements. Sixteen of these settlements, besides Greenspond, are regularly visited for the purpose of holding Service, and I usually stay at least one day and night in each. One or two of them I visit often; most of them about four times in a year; some less; some but once. Upon these rare visits there must always be much to do; each family to be visited, if possible, some services for the sick and infirm, private baptisms for children, besides public ministration at Church. Even if at any one visit, I could be sure of meeting all the persons in a settlement from whom I should obtain contributions, which is never the case, I have little strength and spirit left for the collection after these duties are ended. But all are not to be met in many visits, and so, to effect a general collection, I must speak of it, and ask for it at every visit; and this I am sure is trying and hurtful to both Clergyman and people.

I could point to many individual acts of great self-denial in almsgiving and brotherly-kindness, and great firmness in right conduct, amid difficulty and discouragement; all showing these a right-minded and right-hearted people, and giving sure hope of their not being wanting in this grace also, whenever they can be fairly tested. The past year showed some improvement upon former years, at least in the manner of the people's offerings; I never before received nearly so many unasked contributions for the Society. A most encouraging circumstance. I would, therefore, pray the Committee to consider what means can be devised and employed besides, and in aid of,

the limited efforts of the Clergy.

If I may presume to suggest what occurs to myself, I would propose the preparation and circulation of some papers, frequently issued, and in large number, much more familiar in language and interesting in manner and matter than perhaps the annual Report can be made—an "Occasional Paper," or Periodical Magazine, not limited to the subject of the Collection, but containing general Church information, and made as attractive as possible. It could be widely circulated through our lending Libraries, and would be very much sought by the people.

By such means the fishermen might become ruch better informed, they might be influenced by example, in the narratives contained in such papers, and could be strongly urged and exhorted by a mode

in which no direct personal interest could be suspected.

I am aware that much expense would be involved in this, but as an endeavour to work for Christ's Church, made in faith, I could not fear the result. Probably funds to meet the first outlay would be cheerfully contributed by the Clergy and other friends of the

Society—I am willing to contribute as far as I am able. But I fear I am presuming upon the liberty given me. You will believe me only anxious to serve the Society in my proper province.

Believe me,

Rev. and dear Sir,

Your's very faithfully,

JULIAN MORETON.

I ought to say that the return does not show the whole amount contributed to the service of the Church in Greenspond. The Churchwardens collect an assessment upon the sittings in the Church yearly, to meet local expenses. The amount collected last year was £14 2 2.

The sales at the Depository since the last return have been as follows: 137 Bibles, 117 Testaments, 680 Books of Common Prayer, 1122 Religious Books and other Publications, thus affording pleasing evidence of the utility of the Institution, and of the appreciation in which it is held.

Whilst your Committee refer for full and particular information respecting the funds of the Society to the account of the Treasurer annexed to this Report, they would state here in general terms that the receipts of the year 1853, as far as they are exhibited by the Returns which have been received, have amounted to £981 19 6. And during the same period your Committee have voted in accordance with Rule VI, the total sum of £894 9 3. And the total sum that has been in the Treasurer's hands this year, including the balance of the previous year, is £1876 8 9. As compared with last year the following Missions show an increase in the amount of collections made in them: St. John's, Pouch Cove, Portugal Cove, South Shore, Bonavista, Moreton's Harbour, Harbour Buffet, Harbour Briton, and Grole. The great and momentous question of Education is, your Committee regret to say, still unsettled. The late Act expired with the last Session of the Assembly, and no new measure has been adopted. The consequences which may be apprehended from the suspension of the Colonial Schools

throughout the Island can scarcely be other than injurious: and the time seems at last arrived at which efforts should be renewed to secure for the children of the Church of England the advantages of which they have been too long deprived. What steps should be taken your Committee are not now prepared to recommend: but they trust that the subject will engage the serious attention of all their Brethren: and that some plan may be devised, and some united action carried out, which may confer lasting benefit upon the youth of our Communion.

Acting on the suggestion of the Lord Bishop conveyed in a letter to them under date of April 6, 1854, your Committee appointed the following Members: Archdeacon Bridge, and Messrs. Robinson, Hoyles, Bayly, T. Row, and H. Thomas, a Sub-Committee to revise the rules of the Society. Those Gentlemen brought in the following Report:—"The Sub-Committee appointed on the 7th of April to revise the Rules of the Society, beg to submit the

II.—The Officers of this Society shall consist of a Patron, a President, Vice-Presidents (being the Rural The Committee of Deans) a Treasurer and Secretary. Management shall consist of the Officers of the Society, and of seventeen Lay Members of the Society, exclusive of the said Officers, of whom four shall be elected by Members of the Society resident in the Deanery of Avalon; three by Members resident in the Deanery of Conception Bay; three by Members resident in the Deanery of Trinity Bay; three by Members resident in the Deanery of Notre Dame Bay; two by Members resident in the Deanery of Placentia; and two by Members resident in the Deanery of Fortune Bay, of whom seven shall be a quorum. election of the Lay Members of the Committee shall be as follows:—On Easter Tuesday in the year 1855, and on Easter Tuesday in every succeeding fourth year, a meeting of Electors resident in each Deanery shall be convened by the Senior Clergyman (or in the event of his omission so to do, by public notice) at some convenient hour and place, of which notice shall be given during Divine Service in

each Church in the Deanery, at least 7 days previously; at which meeting the Senior Clergyman, or in his absence some other person then to be chosen by the Members, shall preside, and at which meeting the Members present, whether in person or by proxies, Members of the Society, and constituted by writing, shall elect, seriatim, their representatives to the Committee; provided that the persons elected may be resident in any other Deanery than that which they may be chosen to represent. The President, or in his absence, the Archdeacon of the Diocese, or Bishop's Commissary, shall be ex-officio Chairman of the Committee; and in addition to his vote as Member shall, when the votes on any question are equal, have a casting vote. All Clergymen of the Diocese shall be ex-officio honorary Members of the Committee, with the right of speaking, but not, with the exception of the said officers, of voting at its meetings. often as it shall become necessary, from the death, absence from the Colony, resignation, or refusal to serve, of any of the said Lay Members, to appoint others or another in their or his places or place, a special meeting of Members of the Society, in such Deanery where the vacancy shall arise, shall be convened in like manner as the Easter Meeting; and the like notice shall be given of such special meeting, when the necessary number of Members, to replace those required, shall be in like manner elected.

III.—His Excellency the Governor for the time being shall be requested to accept the office of Patron: the Lord Bishop shall be President, and the Rural Deans Vice-Presidents of the Society.

V.—It shall be the duty of the Committee to determine from time to time on the appropriation of the funds, to the furtherance of the Gospel in this Island, under the recommendation and sanction of the Lord Bishop of the Diocese—the objects to which such appropriation shall be made shall be as follows:—1st towards the maintenance of the Clergy and licensed Lay-Readers—2nd, the erection, enlargement or repairs of Churches, Parsonages, and School-

rooms—3rd, the supply of Bibles, Prayer Books, School Books and Religious Works and Tracts. While it is hoped that every Clergyman in the colony will make a yearly collection for the promotion of the objects of the Church Society, and impress upon every individual under his Pastoral charge, the obligations by which he is bound to contribute thereto, year by year, the system of the Church Society does not require any Clergyman to withhold the ordinances of the Church in any case of refusal or neglect to pay towards his support.

VI.—The Committee shall meet on the first Monday of every quarter at St. John's.

VII.—The Committee shall appoint, each year, two of their Members to audit the Treasurer's Account.

VIII.—A Monthly Meeting of the Members of the Society shall be held on the 2nd Wednesday in every Month, at 7 o'clock: and a General Annual Meeting of the Society on the 2nd Wednesday after Trinity Sunday, or as soon thereafter as the Bishop may appoint.

IX.—No existing law shall be repealed or altered, nor any new rule established, except at a General Meeting of the Society, the proposed change having been first recommended by the President or the Committee, and in the latter case, approved by the President. A Special General Meeting of the Society may be convened by the President at any time on his own authority, or by the Committee, or by any twelve Members of the Society by a written requisition addressed to the Secretary.

XII.—No Mission or Clergyman of any Mission shall receive any allowance or assistance from the Society, unless at least a list of the contributions, made in such Mission to the funds of the Society in the preceding year, shall have been duly forwarded to the President or to the Secretary, together with a return of all payments or offerings of money, not being fees for occasional Services."

Your Committee received the above Report as it stands, with the exception of the latter part of the 5th Rule,

commencing "While it is hoped."—They deemed it inconsistent with the nature and object of Rules, that such a statement should appear as a Rule, and above all, unnecessary, as the Church Society has never, either in its Rules or in its Reports, maintained the opinion that a Clergyman is required to withhold the Ordinances of the Church from persons who refuse to pay their Church dues; neither does it maintain it now.—It was, therefore, resolved by your Committee to adopt the Report of the Sub-Committee with that single alteration, and ordered that the statement in question should be printed, year by year, as a Note appended to the Standing Rules.

In conclusion, your Committee would urge upon all the members of the Church of England in this island and its dependencies, both Clergy and Laity, the importance not merely to the present generation, but to those who shall come after us, of union, earnestness, and energy, in supporting an Institution which has been permitted to confer so many benefits upon Newfoundland. It has pleased Almighty God to shew many tokens upon it for good, and who can doubt that if all Churchmen will pray for the Divine Blessing upon it, and combine in heart and hand to uphold it, the Newfoundland Church Society will be in an ever increasing measure, an instrument in extending year by year, by all, and duly constituted agencies, the inestimable blessings of the Gospel and of the Church.
