I is proposed to inaugurate a vigorous campaign and hold a number of public meetings at different points along the front one of which will probably be at Humber Bay and another of the payment thereof.

Etobicoke Approves. On Monday afternoon the Etobicoke of the Township held a meeting at Islington ceived. to deal with the matter but the intro-

ance, however, of the hydro representative that the schedule as shown was subject to adjustment by the commission on representations being made upon the completion of the system was regarded with satisfaction.

The assessment of Etobicoke is \$3,501,656 with a debenture debt of only \$74,500. The amount set aside by the

nission for maintenance, sinking fund charges and interest for the first ten years is \$26,337 and thereafter \$30,351.

Linking With Other Railways.

Another clause threshed out was hat relating to the refusal of the hydro rad.al to allow the provincial line to be linked up with any other railway ine, debarring the local municipalities The interpretation placed upon this clause by the hydro representatives and the assurance that the commission was out to give every local municipality the fullest transportation faci-lities was entirely satisfactory to the members of the Etobicoke Council. Other matter of detail considered was the allocation of the area defining the district over which the vote will be taken, which comprises school sections Nos. 1, 2, 3 and 4, or in other words, the district half way between Queen street and the C.P.R. tracks week. An analysis of the figures shows tho that quite a large inflation of the attestations has been due to the number of men for the Army Service Corps, who have been given in but were already on the rolls of the local militia.

Sir Adam Beck's hydro-radial plan for linking up all the western towns and municipalities with the city of Teronto has practically received its township is about one and three-quarters miles, narrowing down at the militia.

Township heid a meeting at Islington to deal with the matter but the introduction of other matters and the fact that none of the members had hither to had an opportunity to familiarize themselves with the bylaw, necessitated the calling of yesterday's conference, at which Reeve Siverthorne presided with all the members present. Representatives from Toronto Township council were also present by invitation.

There was general approval of the scheme, but an apparent discrepancy between the guarantee suggested by the hydro-radial from Etobicoke, \$401,335 as against \$345.355 from Toronto Township. \$111.200 from Mimico and \$82.250 from New Toronto aroused some criticisms. The assurance, however, of the hydro representative that the schedule as shown was subject to adjustment by the commission.

that calls for grave consideration, the state of affairs having become more complicated since the note was despatched, by reports of attacks upon American oil carrying vessels in the Mediterranean, presumably by Aus-

trian submarines.

Surprised Washington.

News that the note had been sent came as a complete surprise to official Washington generally, the reports which emanated from the state department early in the week being that no positive and corroborated evidence as to what actually had occurred when the Ancona went down had been received. It was said that the reports received were fragmentary, conflicting or contradictory, and that until a reply to the inquiries submitted to Austric University tria-Hungary was received it was probable that no communication would

be sent to Vienna.

Tonight it was suggested in some quarters that information of a most conclusive nature had come to Secretary Lansing, probably late Monday night, and it had been decided then that the protest should go forward immediately. Whether Ambassador Penfield had transmitted the reply of the Vienna foreign office to the list of Vienna foreign office to the list of queries submitted by the United States

could not be ascertained. The Ancona was sunk in the Mediterranean on Nov. 9, while bound from Naples for New York. The only testitiony of a native American survivor of the liner before the department is in a deposition by Dr. Cecile Griel of New York, who asserted specifically that the liner was torpedoed while the men, women and children in the cabin and steerage were scrambling to get firto the small boats.

The department has not been inclined to accept this single statement as positive proof, unless corroborated.

Much weight was given, however, to what Dr. Griel had to say. Her testimony was considered of so much importance that she was taken to Rome, where she told her story to Ambassador Walter Hines Page. The Ancona was sunk in the Medi-

with the difficulties of distribution, the professor turned to the great opportunities brought about by the war awaiting Canadian live stock men. The growth and improvement of Canadian agriculture and the individual prospects of profit on cattle, sheep and hags were dealt with.

Distribution Neglected.

With the increase of population in the Dominion, he said, the question of cheaper and quicker distribution had grown from a vital issue to one which challenged the best efforts of democracy. Perhaps, he admitted, past efforts of the government had been directed too much towards increased production to the neglect of the distribution facilities.

COUNCIL MEETS TODAY

Provincial Proposal and Bylaw to Be Submitted to People Will Be Discussed.

Hydro-radials and rapid transit within the city were the centres of at-traction at the city hall yesterday, when the meeting of the civic transportation committee turned out to be a private and informal meeting of the city council for the purpose of hearing Sir Adam Beck explain some of the phases of the privincial hydro-radial scheme as presented in the bylaw now in the bands of the cities the second in the hands of the civic fathers, and which it is proposed to submit to the

people on Jan. 1.

The main point at issue was as to whether or not the city should take charge of the radials upon their entering the city or allow the Hydro-Radial Commission to control the whole system, including that part within the city, which is called for in the bylaw. Sir Adam pointed out that the bylaw. Sir Adam pointed out that it was not the intention of the commission to invade the city streets or collect any revenues that should come to the city. He urged that the city would benefit thru the number of peowould beneat thru the number of peo-ple brought in on the radials, and that the city, having a one-third interest, would benefit in proportion by any success the radials might have. In or-der to overcome the difficulty, how

der to overcome the difficulty, however. Sir Adam promised to have prepared an order-in-council that will give the city control of all transportation rights within its limits, the necessary amendment to the bylaw being impossible at this late date.

Almost Unanimous.

With this change the members of council are almost unanimous in their opinion that the bylaw should be presented to the people, believing that it is Toronto's opportunity as far as transportation is concerned.

He stated that an order-incouncil would be passed by which the respect would be placed entirely in the hands of the government. It was necessary to have uniformity in the various bylaws, but there was no intention to over-ride the city. The control only applied to those portions of the lines which the hydro-radial commission would have to construct. In Hamilton, for example, the entrances would be much more costly than in Toronto, and when the commission constructed these they would have to be under the commission. Every necessary provision for the granting of rights of way or other service to the city would be made.

Where Do The Globe and the Liberal Party Stand on the Banking and Currency Issue?

Another column leader on irredeem-Another column leader on irredeemable paper money adorns the editorial BEAURICH CIGARS page of The Toronto Globe, being the third or fourth article of a similar nato appear within the last few days. There is a certain amount of pussy-footing in these articles, with only now and then a sharp scratch of 7 KING ST. W. the claw. They do not refer to The World or to its advocacy of national MICHIE & CO., LIMITED currency. They contain no reference

The Toronto World to the advisability of establishing a national bank of issue and rediscount. Their underlying purpose, however, is to insinuate, if not to declare, that an issue of national currency by the Dominion Government would be a depreciated currency that would soon be utterly worthless.

In its last article The Globe, after declaring that Canada must borrow a great deal of money in the very near future, went on to say:

If we go into debt by the issue of definite promises to pay interest and principal at definite dates we will fare better than if we issue indefinitely redeemable paper currency. We would get but little for this currency. It would depreciate with the issue. It would purchase munitions and food supplies for Britain in compara-tively small volume. But we would have to redeem it with a restored purchasing power. No subter-fuge can evade economic laws. If we "indefinitely" issue paper

noney of course it will depreciate in value and finally become worthless. An indefinite issue of redeemable paper simply means an unlimited issue of irredeemable currency. The World has never advocated this; so far as we know no one in Canada is advocating

We are therefore almost compelled to decide that our neighbor is appearing in the role of a special pleader for the banks and is resorting to the timeworn device of constructing a man of straw in order to knock him down. As to the main proposition that our bonds can be good and our currency worthless at the same time, we have only to say that the thing is an absurdity. If After a secret meeting of the our credit is already so low that Dotook care to dissociate himself from larger issue of non-interest-bearing

In the course of the same article The Mr. Gaby merely acted in the interest Globe goes on to point out that we alof the electric arrangements and was ready have a great amount of irredeemable paper money in circulation; Sir Adam also denounced the clause that the banks suspended specie payments over 16 months ago; that when which would give the Hydro-Electric Commission control over the city the banks subscribed to the recent domestic government loan they simply government. The Globe further declares that the banks have increased their note issues until the country sufinterpretation of the bylaw in this fers from a plethora of depreciated money. This is a startling conclusion but fairly to be gathered from The Globe's editorial. To quote:

> The Dominion will find it necessary to go into debt far deeper, and the questions of extent and erfect frankness. The suggestion of currency inflation has already been made, and cloudy ideas regarding money are in the air. They are danger signs. The commercial index of almost 150 shows that our hundred million loan is only equal to and only serves the purpose of a \$66,000,000 loan on an average year of the past decade. The chartered banks were accorded a materially increased privilege of note issue at the latest revision. On the outbreak of the war they were relieved of the obligation of note re-demption on demand. The recent phenomenal increase in prices or decrease in the purchasing power of the dollar was and still is due in part to the plethora of money.

But in its zeal to make a point against paper money The Globe has unwarrantably attacked bank isproperty of the road itself. THE MADISON.

As Patricia O'Brien, in the Jesse L. Lasky picturization of James Forbos' wonderful play, "The Chorus Lady," Cleo Ridgely is said to be seen at her best. Miss Ridgely has been identified with a number of prominent roles since she has been with the Lasky organization, but as the "wise," strong-minded chorus girl who saves her younger sister from destruction, she is seen in an entirely new characterization and a part for which she is admirably suited. "The Chorus Lady" will be the attraction at the Madison on Thursday, Friday and Saturday.

She gave as illustrations old songs of France, England, Scotland, Wales, and quaintest and most unique of all two Manx ballads, not the least of the afternoon's entertainment being Mrs. Blight's sympathetic accompaniments. How It is of Public Importance.

The frock coat has an esoteric, sym bolic existence. It is the palladium of politics. However unfashionable it may be nowadays in the salon, it is always correct on the political platform. There are politicians who de-pend on the frock coat as some preachers depend on a manuscript. It is their stay When they want a place to put the right hand, there is the "buzzim" of the frock coat. When they would produce their hearts for public inspection, there it is again.
When they would smile at the puerile inventions of the hon, gentlemen op-posite, the waist-line of the coat is the correct place to rest the hands. When tears are demanded, do not handker-chiefs nestle quictly in the tail pockets? There have been instances where a gray frock coat-with spets-has

swung a constituency.

Inasmuch, therefore, as the politician's success depends so largely upon the frock coat, why do not the tailors pay our public men for testimonials? Those who read some piano advertise-ments will understand frow reasonable such a letter as this would be from the Honorable Peter Perigord, M.P.: me in your warerooms, gave perfect satisfaction during my address and had a great part in making my remarks impressive and appealing. I must congrabulate you on the admirable way in which you have sewn on the back

Twelve years ago the Gourlay Winter and Leeming Company saw the absurdities of piano testimonials acquired as a quid pro quo. They re-solved to make the Gourlay Piano so good an intrument that any devious method of advertising would be unnecessary. Visiting artists get no opportunity to "endorse" the Gourlay-at the manufacturers expense. Bu owners of the instrument sing praises daily. See a Gourlay Piano at The House of Service, 188 Yonge

EXHIBITION GAME TO OPEN SEASON

Hamilton Rowing Club Coming -Workouts at the Arena-Hockey Gossip.

Two days of hard work has told. Several of the hockey players failed to turn up for practice yesterday, and it was rather a quiet day around the Arena. The prep. colleges, Upper Canada and De La Saile, had a host of players out, but the senior teams stacked off a little.

The pros. showed a lot of stuff in their morning workout. Harry Cameron is going in mid-season form right now, and he should have a banner season. Keats looks be ter every time out, and it will be hard to keep him oif the team. George McNamara and Cameron worked the sandwich game nicely yesterday morning and the forwards found it nard to get near Lesueur. Cyril and Corbett Denneny only need a couple of days work to be ready. Skinner has it on them all for condition. He put in four days on the Hamilton rink

Dr. Frank Knight was out again with Argonau.s last night and Dr. Jerry Laflamme did the coaching. Knight was inoculated on Tuesday but showed no lifeffec.s last night. Doyle of St. Michaels and Malone, formerly with Parkuale Canoe Club, were also out with the scullers. Argonauts have the material for a rattling good team, and should start the season in shape. They are working hard daily.

The hockey season will be ushered in on Salurday night when the Hamilton Rowing Club will meet the kiversides at the Arena in an exhibition game. The H.R.C. outfit have been on the ice for three weeks and are right in the pink. Riversides have a specuy team, but it remains to be seen if they can get enough goals early to beat H.R.C. and hold them. Condition is a great thing. is a great thing.

Should Conway sign a league contract he will leave a big hole in the Fordham nine.

This means that the players of any team in the City League can play with local O.H.A. clubs, but teams playing in the City League cannot enter and play in the Ontario Hockey Association as well.

Montreal Mail: While it is rather early to make predictions, it looks as the both the Wanderers and Canadiens will be right up in the running for the National Hockey Association champlonship title this winter. The Wanderers will have practically the same team that furnished runners-up in the race last winter, except for Goldie Prodgers, while the flying Frenchmen will be considerably strengthened by the additions of Goldi-Prodgers, Skinner Poulin, Howard McNamara and Arbour to their roster.

Both teams turned out to practice at the Arena yesterday, the Wanderers having all their regulars that were on hand on Monday in uniform, while the Canadiens had eleven players out. During the Winderer practice Harry Hyland, one of their regular forwards, was injured. Hyland hurt his knee and may be out of the game for a couple of days. After chasing the puck up and down the ice to warm up, Manager Dickie Boon divided the Wanderer squad into two teams and kept them hard at work for a full hour. Lukeman in goal, Jack Marshall and Phillip Stevens on the defence and Donald Smith, Billy Bell and Harry Hyland on Lukeman in goal, Jack Marshall and Phillip Stevens on the defence and Donald Smith, Billy Bell and Harry Hyland on the forward line composed one team, while at the other end Billy Hague was in front of the net Odie and Forsague Cleghorn on the defence and Dummy Ulrich and George O'Grady on the line. The 4two teams went at it hard, and the players showed quite a little improvement in form.

It looks as the Billy Hague, the former Ottawa goalkeeper, and Bert Lindsay of the Coast Learne, who has signed his contract, will fight it out for the regular goal-keeping job on the Wanderer team this winter. Art Boyes will have to be on the road most of the time, while no word has been received by President Sam Lichtenhein from Hesson. Sprague Cleghorn has been elected captain of the red bands this season.

How the O.H.A. Caught Cleve'and

An interesting story of the earnestness of the Ontario Hockey Association in its dealings with the suspected Cleveland Hockey Club, which has just been barred as a field for O. H. A. clubs, is going about. It is said that the big association went very thoroly into the case a good many weeks ago, and Manager Shannon of Cleveland was under observation of the strictest kind until further interest in his movements was unnecessary. The detective agency in charge of the enquiry is said to have introduced a hockey player into the Cleveland field, and gathered such complete information about the composition of the Cleveland team that Manager Shannon's visit here was simply a waste of time, and an opportunity to further involve the Cleveland crowd by his stitements on matters about which the Ontario authorities were fully informed.

Old Varsity Scrimmager Writes From Macedonia

John Moberly Mailock, M.D., is with the British Base Hospital in Macedonia. He left one of the most prolific surgery practices in Toronto to do his bit. As a layman you probably don't know John. He was centre scrimmage for Varsity 20 years ago and now, regardless of his 200 lbs., at the age of 45 years he can hood his 20 miles a day with the best of the young fellows. Dr. Mallock had several scares on the voyage, but seems happy, according to his latest letter. Among other things he said in his letter: Saloniki is the modern Thessalonica o. Paul's epistle. It is a very busy place just now, with English, French and Greek troops coming and going. The town was crowded while I was there. Raining and muddy. We remained a few days and went on into Macedonia. It is some country, and no, wonder they yelled for the Apostle Paul to come over and help them. They really needed the whole twelve. Our bovs will help them with a good heart. At present the Canadian army here consists of four men all told. The farther I get from home the more I think of Canada.

I am well and comfortable—cook and eat in the open air, and can do twenty miles a day on my feet. There were few British here when we arrived, but they are coming along now. The natives are of all races and every man keeps a dog.

THIRD-BASEMAN CARROL SIGNS WITH THE GIANTS

The Ottawa N.H.A. team became intact when Eduic Gerard accepted a salary cut and signed a contract tendered him by Coach Smith. Gerard rounds out the forward line and gives the champions eight men already signed with the good possibility of ano her being added to the string tomorrow in the person of Nick Bawlf.

Bawlf had a conference with President Bavlf had a conference

ronto, where he made an excellent record. He is the only member of over a dozen recruits who joined the Giants with him who has been retained. At present Carrol is a third-vear medical student at Fordham, where he stands well up in his classes. According to Secretary Foster he was the last member of the Giants to sign his name to a contract and will be kept with the team all year.

It is rumored that James Conway, who caught on the Fordham nine last season when Carrol played third base, is about to enter professional ball. Conway is a third-year law student and still is eligible to play with the maroon nine. Should Conway sign a league contract he will leave a big hole in the Fordham nine.

IN AMERICAN ASSOCIATION

Outfielder Jack Lelivelt, formerly a member of the Washington, Detroit, New York and Cleveland American League clubs, and with Rochester in 1913, proved the best batter in the American Association last season, according to the official averages just released by President Tom Chivington. In 152 games Lelivelt hit 346. Mayer of Kansas Citv, a team mate of Lelivelt, was technical champion, with a percentage of .361, but he took part in only seventeen games. Lelivelt's fine batting a effected for a club that finished fifth in an eight-club race. Compton, also of Kansas City, who finished the season with the Braves, stood second to Lelivelt with .343.

at the meeting tomorrow.

The Barrie Hockey Club, colors the familiar orange and green, has entered a team in the intermediate O.H.A. series. Collingwood is also in line with intermediate and junior teams. Gravenhurst will play in the inter-mediate O.H.A. instead of in the junior series, as at first intended.

Billy Breen left for Peterboro yester-day, where he will handle the two Q.H.A. teams this season. Bill has always been a favorite in the Liftlock City, but has been training Toronto teams for the past three years, previous to which he was with Peterboro for many years.

Harry Holmes of the Seattle team and a former Toronto goalkeeper, has been suffering from an attack of the grippe.

GOULD REPRESENTATIVE AT C. A. H. A. MEETING

Sheriff Paxton Unable to Make Trip-Barrie to Play Intermediate.

Suggestions for grouping are being received by the O.H.A., and there will be some great planning at tomorrow night's meeting of the executive to arrange the clubs in the most satisfactory manner. The idea is to secure the best geographical arrangements for all clubs concerned. Entries of teams will not be received after tomorrow, and any clubs desiring to enter should forward their entry and fee to Secretary Hewitt by the first

Parry Sound intended to enter intermediate and junior O.H.A. teams this season, but the new rink will not be ready until too late, so the club has reluctantly disbanded. They expect to be strongly represented next year, however, in the big association. Sheriff J. F. Paxton, first vice-presi-

So Western Colleges Decide to Eliminate Their Own National Pastime.

CHICAGO, Dec. 8 .- Members of the Big Nine Faculty Committee today sounded the death knell of baseball as 3 T'1. sounded the death knell of baseball as an intercollegiate sport in the conference. In addition to refusing to sanction summer baseball playing by their achieves, the committee voted to refer to each in situation a resolution providing for the mer besebali playing by their athieues, the committee voted to refer to each institution a resolution providing for the abolition of the diamond sport entirely, except for interclass contests.

As most of the delegates voted under instructions, it is presumed that the col-

instructions, it is presumed that the colleges will support their resolution and that intercollegiate baseball will be given up before the spring season starts. An objection by only one university, however, will torce a reconsideration of the resolution by the committee, and unless a special meeting of the committee is called for the reconsideration before its regular June meeting, the single objection would have the enect of allowing one more baseball season.

According to conference custom, the alignment of the delegates on the question was not given out. Secretary T. F. Moran, Purdue representative, said that the vote on the aboil ion of intercollegitate baseball was 7 to 2, and for the retention of the summer baseball rule 6 to 3.

tion of the summer baseball rule 6 to 3.

Advocates of the anti-baseball resolution argued that the abolition of the game would do away with 75 per cent. of eligibility questions. They declared that baseball has become so commercialized that the resolution are collected. that its retention as a college sport was that its retention as a college sport was not a desirable. one, instead of being a reunion after a separation of a year.

I had seen him as soon as I turned the corner of Thirty-eighth street and Sixth avenue. He stood in front of the "ladies' entrance" of the Troxingham, looking eagerly up and down. He was smoking one of the inevitable long black cigars which I always associate with Jack. As soon as he saw me he threw it into the street. I felt an indefinable little thrill clutch my heart as he did it. In the brotherly and sisterly relation with which Jack and I had grown up his cigar was a matter of relation with which Jack and I had grown up his cigar was a matter of course instead of courtesy. What a Bunion Really Is and How It May Be Cured

By DR. LEONARD KEENE HIRSHBERG

A. B., M. A., M. D. (Johns Hopkins University) REVALENT as is the belief, a bunion is no more like a corn than is a sugar-loaf hat like a mountain, or a whale the same as a minnow. Whereas corn is a series of crescentic layers of hardened epi-

Another collar, which is decidedly mediaeval in character, is of linen ornamented with eyelet and solid embroid-ery. It swathes the broat, and the points extend well over the chin. To make sure that this collar would fit perfectly, I first cut a pattern from white muslin, and when I had shaped it into the right design I made the linen collar an exact duplicate.

This bit of neckwear is destined for Margaretta Caulder, who always reminds me of the lovely Queen Eleanor. The chemisette fits smoothly and buttons straight up the front with tiny evelets and buttons.

I'softened the high choker with an Elizabethan frill of lace, which I hope she will not consider too frivolous to wear. I buttonhole-stitched the edges of the revers and embreidered a dainty ways insists upon having a touch of black somewhere about the neckwear, so I added a tie of black velvet ribbon to satisfy her taste.

Now I am working on a high stock with long, pointed ends. It is fashion-able to wear a collar of this sort with smarter. I am embroidering the ends with a combination of eyelet and solid, and have buttonhole-stitched the edges. I shall make the cravat of black, lustreless chiffon taffeta, long enough to be wrapped twice about the throat and hang in long ends. I think I'll give this collar to Marcia Wagner.

I hear some one coming up the stairs, which means that I must hop back into my chair and pretend that I've been

CATTLE PRICES GO UP FOR BETTER QUALITY

A Few of the Choicest Offered at Stock Yards Yesterday Sold at Advance.

MILKERS IN DEMAND

Hogs Are Selling at Slightly Lower Values and Lambs Remain Firm.

Receipts of live stock at the Union Stock Yards on Wednesday were 95 car-loads, 977 cattle, 2891 nogs, 438 sheep and lambs, 53 calves and 280 horses in transit.

There were a few lots and loads of better quality fat cattle on the market yesterday than were offered on Tuesday, and consequently a higher range in prices was the result for a few of the best. Common and medium cattle, however, were slow sale at lower values, especially common cows and canners, some of which were still unsold at the close of the market.

The stocker and feeder trade was slow, with prices easy at quotations given.

sidential Message and Tension With Germany Reacted on New York Exchange.

deneral Motors made an extreme rise of 25 points to the new record of 546, and studebaker gained 10% at 170%, with 1 to 3 point advances in Mercantile Marine preferred, United Fruit, the Harvesters, olis, and the familiar unclassified issues. Rails were under moderate but constant pressure, particularly Canadian Pacific, Great Northern, Atchison, Reading and Bris.

Brie.

U. S. Steel was heavy at the outset, falling to 86%, but recovering to 87½. Bethlehem Steel was lightly dealt in but rose to 475, a gain of 6½. Total sales arounted to 545,000 shares.

Demand sterling was at its best for the current movement, bills being quoted at \$4.71½. Francs were a trifle heavy, but other continental rates held firm. other continental rates held firm.

Bonds were irregular to heavy, with some contraction of dealings. Total sales, par value, \$5,265,000.

LOCOMOTIVE TO FRONT

Price Fluctuations in Montreal Stocks Irregular With Losses and Offsets.

The early reaction in New York con-titutes a sagging tendency, but the later improvment in that market was followed by a fair demand for special stocks here. Loomotive became prominent in this buying movement, rising a fraction above buying movement, rising a fraction above its previous high for the year, to 64¼, and closing 2 up for the day, at 63. Forgings, which touched a new high level, at 219, in the morning, against a previous record of 214¾, added a point to its advance in the second session, while Bridge rose 1, to 236. Car common sold off 2, to 46, early in the morning, but rallied to 95½ later, and closed at 95. The preferred fell 1½, to 107½, but also rallied, finishing at 109½, with a gain of ½ for the day. Ogilvie added 2½ to the previous day's rise of 4½, touching 139½, and closing 139. Dealings in Ogilvie were in fairly large volume for that stock, amounting to upwards of 600 shares.

Business thru the balance of the list was devoid of feature.

Bonds were featureless, except for a two-point rise to 90 in Canadian Rubber. Total business, 5082 shares, 400 mining shares and \$10,300 bonds.

otock market passed another dull session resterday. The listed issues were, if anything, easier, and Brazilian sold back to its minimum of 53. Dealings in the unlisted section were largely made up of transactions in the mining shares. These were strong, and prices corresponded to those on the Standard Exchange. Dominion Steel Foundry, which has made a phenomenal advance of late, was easier with sales four points below the recent high. The market is lacking in initiative, and bare of speculative interest. Many are of the opinion that a better market lies ahead but are not prepared to say when this may be expected.

BEAVER DIRECTORS **ISSUE STATEMENT**

New Addition to Mill Completed and Turning Out Much Ore. .

The working of the Beaver Consolidated Mines, Limited, continues to be the scene of aggressive development. According to a statement issued by the company the main shaft has now reached a depth of 1235 feet. The station is being cut at the 1200-foot level, and when completed, spikking will be resumed, and the lower con act between the Diabase and Keewatin formations will be reached as quickly as possible. Diamond drilling has proven that this contact exists between 1600 and 1700 feet from the surface. The addition to the mill has been completed and it is now treating from 125 to 150 tons daily.

The company has recently taken an option on the stock of the Kirkland Lake Gold-Mines, limited. This company owns 365 acres of land in the Kirkland Lake district, in the Township of Teck.

ten cents per share, together with of ten cents per share, payable bonus of ten cents per share, payable Dec. 15. The figures as given above will therefore include all dividends paid and payable by this company to Dec. 21, 1915. The cash statement as of Nov. 20 showed in the banks a little over \$240,000, and in addition to this there were seven cars of ore in transit.

FIND ON GANS LOT IMPORTANT TO ADANAC

The important find made on the Gans lot of the Timiskaming at the 400-foot level is of much importance to the Adarac, which adjoins the Gans. The Adarac is working on a winze at the 200-foot level, but is also deepening its shaft to the 400-foot level, and will cross-cut at that level to pick up the Gans vein.

The output of the Hollinger alone is now greater than all the gold mines of Rocsland, B.C., the seat of the extraordinary 'boom' of the later nineties. It would also more than pay the aggregate dividends of all the dividend-paying mines of Cripple Creek, Colorado. Furthermore, it exceeds that of any other gold mine in the western hemisphere with the single exception of the Homestake in South Dakota.

But the supremacy of the latter will be displaced just as soon as the Hollinger mill is enlarged to treat all its available ore, and then there is the 'Dome,' now bidding fair to be the greatest producer. do. pfd. . 116½ 104 104 104 10 200 do. fives . 104 104 104 104 10 6,700 Utah Copper . 79% 80% 79½ 80% 12,900 Vir. GLASGOW CATTLE MARKET. GLASGOW, Dec. 8.—Watson Batchelor report Scotch steers 13c to 14½c, Insh 9½c to 11s, bulls 8½c to 10¾c live weight. Slightly firmer demand all round.

WINNIPEG GRAIN MARKET.

WINNIPEG GRAIN WARNEL

WINNIPEG, Dec. 8.—The feature of the market today was a general weakening of tone, which found expression in lower prices in all markets at the close. Winnipeg December closed at \$1.08½, and May at \$1.10%, or 1c lower than Tuesday's close for both months. December coats closed at 40½c, and May at 42%c, or a decline of %c for the day, and May unchanged.

Cash demand was good all day for all grades of wheat down to No. 4, and premiums held steady at 3c over December for No. 1 northern.

WHEAT FAILS TO KEEP ADVANCES AT CHICAGO

Prices Finished Weak With Quotations Lower by Cent and an Eighth.

LIVERPOOL FELL OFF

Australia and Argentina Also Sent Out Reports of Good Crops.

CHICAGO, Dec. 8 .- Large country oferings in the northwest finally gave the advantage to the bears today in wheat after the market had passed thru more ups and downs than usual. Prices finshed weak, %c to 1%c net lower, with December at \$1.15% and May at \$1.16%.
Corn closed 4c to %c down, oats off
a shade to %c, and provisions varying
from 15c decline to a rise of 35c.
Wheat values early underwent a setback in consequence of lower quotations
from Liverpool, and because of bearish
crop advices from Australia and Argencrop advices from Australia and Argentina. A sharp rally ensued, influenced to some extent by bullish estimates regarding the decrease in the acreage of winter wheat seeded in the United States. Afterward the market fluctuated rapidly within a range of 3c, but not for any long time favoring either the opponents or the friends of an advance, as compered with yesterday's latest figures. European demand for wheat assumed larger proportions than has recently been the case, the amounts purchased today aggregating 700,000 bushels, but most of the total was said to be at 3c under the Chicago May price, the widest discount so far on the 1915 crop.

Price changes in oats appeared to be governed almost wholly by the action of other cereals. Elevator stocks here were increasing.

other cereals. Elevator stocks here were increasing.

Provisions ranged higher all day except just at the close wnen buying power seemed to have become at least temporarily exhausted. A sharp advance in the price of hogs was chiefly responsible for the earlier display of strength, a tho mention was still made of reports that Germany was accumulating lard.

CATTLE BUYING SLOW ON LIMITED DEMAND

Trade in Canning Stock Active on Montreal C. P. R. Live Stock Market.

MONTREAL, Dec. 8 .- At the C. P. R. live stock market today there was no further change in conditions, except that the trade was rather slow, owing to the small attendance of butchers. The demand was somewhat limited the offerings of butchers' stock being small, with a steady demand. Choice sold at \$7.50 to \$7.75, good at \$7 to \$7.25, and medium at from \$6.50 to \$6.50, while butchers' cows brought from \$4.50 to \$8.25, and bulls from \$5 to \$6.50 per 100 pounds.

The trade in canning stock was active, and sales of round lots of cows were made at \$3.25 to \$3.50, and bulls at \$4 to \$4.50 per hundred pounds.

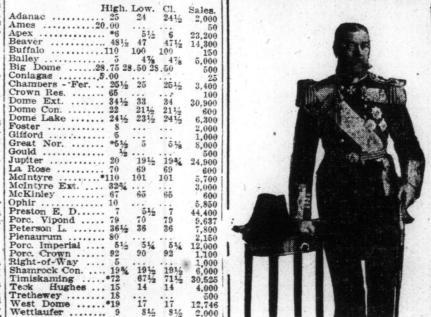

The market for sheep and lambs was firm at the recent advance. The demand was good, and sales of Ontario lambs were made at \$9.50, and Quebec at \$9 to \$9.25, while sheep brought from \$5.75 to \$6.50 per hundred pounds.

The trade in caives was fair, with sales of milk-fed stock at \$c to \$c, and grassfed at 4c to 7c per pound.

Hogs steady, selected selling at \$9.50 to \$9.75 per 100 pounds, weighed off cars. live stock market today there was no fur
