TUESDAY MORNING FEBRUARY 25 1919

VOL. XXXIX.—No. 13,985 TWO CENTS

Liberal Members of Parliament Appoint Temporary Federal Leader

D. D. MACKENZIE IS TEMPORARY LEADER OF LIBERAL PARTY

Is Choice of Caucus to Succeed the Late Sir Wilfrid Laurier. A STUBBORN FIGHTER His Selection as Opposition Spokesman May Mean a Long Session.

Ottawa, Feb. 24.—The Liberal senators and members of the house did the unexpected thing in caucus this evening by naming D. D. MacKenzie, M.P. for North Cape Breton and Victoria, as temporary leader of the Liberal party. A committee was appointed under the chairmanship of J. A. Robb, chief Liberal whip, to help with the work of the caucus, but Mr. MacKenzie, for the present at least, succeeds Sir Wilfrid Laurier. He will be the leader of the opposition, entitled to the salary of \$7000 per session, and will be the spokesman for the Liberal party in the house of commons. The choice of a permanent leader is relegated to a national convention, which is to be summoned as soon as possible, but probably not until after the prorogation of parliament.

Result a Surprise. The result of the caucus came to the waiting press men and the public generally as a surprise. Up till last night it was considered a matter of course that Mr. Robb would act as floor leader for the coming session. It appears, however, that much pressure came from Ontario and western Liberals prominent in the caucus, but without seats in the house, against choosing a leader from the province of Quebec. These Liberals in the caucus were led by the Hon. W. S. Fielding, one of the ablest and most experienced parliamentarians in the house. The result was a compromise. The Quebec Liberals were willing to give up Robb, but they would not allow Fielding. This made the choice of Judge MacKenzie almost inevitable.

The caucus assembled this morning, but after an hour's conference, adjourned until 3 o'clock. By that time the proposed compromise had been agreed upon.

UKRAINIANS MUST UNITE FOR SELF PROTECTION

Warsaw, Feb. 24.—The social realist parties in the Ukraine have issued a proclamation declaring that the "Franco-British imperialists" were the enemies of true freedom. Therefore, the Ukrainians must unite and forget their differences in order to protect themselves from the attacks which were now under way on three sides of them—on one side by the Bolsheviks, on another by the Poles, who desired the oil fields, and on the third by the Rumanians, who were after Bessarabia.

MAY TRADE WITH ENEMY UNDER CONDITIONS

Paris, Feb. 24.—The French government has issued a decree authorizing the foreign minister or persons appointed by him to grant to French dealers permission to trade with enemy subjects under certain conditions. The general prohibition of trading with the enemy still remains in force.

WILL BE AT WORK IN A FEW DAYS

Clemenceau's Condition Reported to Be as Satisfactory as Possible. Paris, Feb. 24.—The bulletin issued tonight by the attending physicians, reports Premier Clemenceau's condition as "satisfactory as possible." The doctors expressed themselves as satisfied that M. Clemenceau was out of danger, and that complete recovery was only a matter of a few days' absolute rest. Asked concerning the date on which he would be able to leave his home, one of the doctors said: "Probably Thursday, if the premier follows implicitly the instructions regarding the necessity of absolute rest." Premier Clemenceau expressed today a desire to go to the war office on Thursday. Marcel Hutin in The Echo de Paris, predicts that the premier will be back at work Wednesday, and will preside at the peace conference Thursday. The writer quotes the premier as saying: "I am better, but it is not your fault. It is my good nature which has produced it." Doctor Laubry, the premier's family physician, confessed that Clemenceau was right.

RAIDED CASTLE; BURNED ARCHIVES

Riotous Mob at Mannheim Stormed Military Prison and Liberated Inmates.

Paris, Feb. 24.—Following a meeting at Mannheim, called in honor of the memory of Kurt Eisner, the republic of Baden was proclaimed. The people opened the gates of the military prison and liberated men in prison and then raided the castle and burned the archives.

ARRIVES AS ENVOY OF IRISH REPUBLIC

Sean O'Cealligh Presents Himself at Peace Conference With Demand for Recognition.

Paris, Feb. 24.—Sean O'Cealligh presented himself at the peace conference today as the accredited envoy of the provisional government of the Irish Republic. O'Cealligh has sent a letter to Premier Clemenceau, to Paul Ducas, secretary-general of the peace conference, and to each delegate a letter in which he brings to their notice the claim of his government, in the name of the Irish nation for international recognition of the republic of Ireland and the admittance of Ireland to the league of nations.

This letter was accompanied in each case by copies of the Irish declaration of independence on January 21, and of the message of greetings from the "nation of Ireland" to the rest of the world. In his letter, O'Cealligh states, Professor De Valera has been delegated by the national assembly to present a statement to the peace conference and to the league of nations, in the name of the Irish people. He asks that a date be fixed for the reception of these men.

Ever since it was declared that the Irish would send delegates to the peace conference, O'Cealligh has been generally understood here that the credentials would come before the committee on credentials in the same manner as those of any other persons applying for recognition.

MOTHER AND DAUGHTER ARE BADLY BURNED

Early Morning Blaze Narrowly Misses a Fatal Conclusion. As a result of a fire at 357 Brock avenue early this morning, Mrs. Benjamin Haynes and her three-year-old daughter, Gladys, both lie in the Western Hospital badly but not critically burned about the body and arms.

The fire, which was of unknown origin, started in the front second-story bedroom at 1:30 a.m., completely cutting off Mrs. Haynes from all chance of escape except by the window. Assisted by the roar and glare of the flames from the sound sleep, she picked up little Gladys and tried to make her way down stairs, but warned by the shouts of those below that the stairs were impossible, she dashed out on the front balcony and would have dashed herself to the street, had she not been persuaded at all hazards to await the fire reels. For some moments she and the baby stood on the narrow balcony lighted by the flames which burst from the window behind her till at last she sank down overcome, choked with the heat and smoke, just as ladders were rushed up to the balcony, and the firemen mounting plucked her and the child from their perilous position. A pulmoner was soon on the spot and after receiving first aid from Drs. Cook and Buck, both sufferers were rushed to the Western Hospital in the police ambulance.

BEATY CONTRADICTS.

Montreal, Feb. 24.—The rumor, apparently coming from Portland, Maine, that the Canadian Pacific Railway was planning to make that port the terminus for its largest vessel, was contradicted by E. W. Beatty, president of the Canadian Pacific Railway, tonight.

TROTSKY'S RED ARMY IS NOW ESTIMATED AT 800,000 MEN

Bolshevik Leader Has Assumed an Exalted Military Attitude. HIS OVERCOAT STOLEN

Vindictive Against Poles, and Declares That They Must Be Given a Lesson.

Warsaw, Feb. 24.—"We must fight the treacherous Poles to the last soldier." This is the dictum which Leon Trotsky, the Russian Bolshevik minister of war, sent from the Perm front to the Smolensk-Minsk headquarters, where the troops have been ordered to advance on Baranovich. Trotsky is anxious to give the Poles what he terms a "lesson," as he especially hates Paderewski.

It is just revealed that prior to Paderewski's becoming premier, the members of the Polish legation in Moscow were arrested and some of them were shot. When the Warsaw government protested, the Moscow government replied: "We are surprised. We thought we were doing you a favor by locking up your bourgeois representatives." Trotsky has assumed an exalted military attitude, assembling about him commissaries whom he treats as his marshals. He is also holding frequent reviews, sometimes riding on horseback wearing a high cap of sheepskin and calling out to the men: "Good morning, my little soldiers!" whereupon they reply, "Good morning, comrade."

Stole Trotsky's Overcoat. These close relations, however, did not prevent one of his comrades from stealing Trotsky's sable overcoat recently during a halt, when the war minister was enjoying his usual sumptuous meal. Trotsky, who has of late taken to himself more power than ever, had a fierce quarrel with Nikolai Lenine, the Bolshevik premier, regarding the "Princes' Islands" conference. He strongly opposed this conference, but Lenine prevailed. Lenine desires to preserve Bolshevism at any cost, and also to keep in, as far as possible, with the allies, in the belief that Bolshevism will sweep over the world.

Sverdloff, of the central executive committee of the central workers' and soldiers' delegates, has been playing mediator between Trotsky and Lenine, and has been engaged at Vilna, Minsk and other points in urging the Bolshevik officers to cease their crimes and keep a semblance of order, as reports of murder and pillage are reaching the "capitalistic press."

Building Up an Army. Trotsky is continuing his efforts to build up an army, which he now estimates at 800,000 men. He is supposed to have ammunition for six months. Trotsky manages to keep the cloth factories working for uniforms, although handicapped by lack of coal, but large quantities of wood are being used. Another handicap is transportation difficulties. There are only two trains a week to Baranovich, with a special first class coach for the soviet delegates and third class for freight cars for the others. Among the Red army are special corps of women, whom Trotsky endeavours to win over to his cause, also up to the present the women have proved their bitter enemy, due to the Bolshevik plans to suppress marriage.

The commissaries are attempting to employ many women in the ministries and other offices, but the majority of them leave soon. A fight against religion is going on. Moscow's celebrated church of St. Basil has been closed. The statue of Our Lady of Iverskaia has not been destroyed, but it is covered by a piece of calico on which is printed: "Religion is opium for the people." Social conditions are very serious, and even medical students have been mobilized to treat serious cases of disease.

CLOSE OF BRITISH MAILS. British and foreign mails will close at the General Postoffice as follows: Regular ordinary mail will close at the G.P.O. at 8 a.m. Thursday, Feb. 27. Regular registered mail will close at the G.P.O. at 11:30 a.m. Thursday, Feb. 27. Supplementary registered mail will close at the G.P.O. at 10 a.m. Thursday, Feb. 27.

Something Secret is Hatching At Castle Where Ex-Kaiser Lives Amerongen, Holland, Feb. 24.—Dr. J. Krieger, one of the cleverest department chiefs in the German foreign office, left Berlin today after a visit of three days in Amerongen. During Saturday and Sunday he conferred with former Emperor William. Last night Dr. Krieger had a conference with Herr von Gattard, the former emperor's private secretary, and was with him far into the night. The nature of the conferences at Amerongen Castle are kept absolutely secret. It is remarked, however, that the recent activity at the castle coincides with the presence at The Hague of Dr. von Kuhlmann, the former German foreign minister, who is said to be showing the greatest zeal.

MUST BE CAREFUL BEFORE GRANTING MINERS' DEMANDS

Lloyd George Says Commission Will Be Appointed, as Trade Might Be Crippled. AVERT CIVIL STRIFE

Miners as Well as Other Workers Would Suffer if Industries Are Injured.

London, Feb. 24.—The United Kingdom is faced with the prospect of a coal strike, and the house of commons should do everything in its power to avert it, said the premier, who declared today in introducing a bill to constitute a committee to inquire into the conditions prevailing in the coal industry. The premier said he had been advised that to grant the demands of the miners would throw a burden on the most serious sort upon other industries—a burden so serious and so grave that it might have the effect of throwing scores, if not hundreds of thousands, out of employment, and that it might cripple the export trade in coal, iron, steel, machinery and shipping. It was the king's wish, he said, that the figures the government had were inaccurate, and that was the reason for the inquiry.

SEATS FOR WOMEN IN LEGISLATURE

Parliamentary and Municipal Membership Forcasted in Provincial Opening.

Another triumph for the advocates of equal political rights for women will feature the opening of the fifth session of the present Ontario legislature. An authoritative forecast of the speech from the throne gives the recognition of woman's claim to full membership in the provincial assembly and to membership in all municipal bodies, as the chief innovation to be announced. This will be in keeping with the opening day of the session as the legislative chamber is always thronged at the opening with a majority of ladies, and today every gallery will be the ladies' gallery. Twenty years ago the legislature was inundated with petitions for woman's suffrage, and the time when the words, "Madam Speaker," might be heard, was spoken of as a prime joke.

The other features of the speech from the throne, to be read by His Excellency Sir John Hendrie, will express gratification at the victorious conclusion of the war, and pay an adequate tribute to the part the men of Ontario played overseas. The legislation with respect to the reconstruction period will review the various plans adopted by the province to co-operate with the Dominion government in soldiers' land settlement, vocational training and housing schemes. The requests for invitation cards indicate that the opening will be thronged. An added attraction is the possible presence of Gen. Pau and members of the French mission.

THE SHOPPER'S VISITING LIST. Nowadays people do not go out to buy, they go to shop. If they intend buying dress material, or a hat, they visit several shops and finally return for what best suits their fancy. It is so with furs. Ladies wishing a fur garment visit all the likely furriers and get an idea of the available values before they finally make a purchase. This method of making a selection, after thorough comparison, is understood, and perfectly agreeable to the Dineen's. Include Dineen's show rooms in your visiting list and form your own judgment as to fur bargains and values. W. & D. Dineen Company, Limited, corner Yonge and Temperance streets.

LEOPOLD IMPRISONED. Former Leader of German Armies in Russia Suspected of Complicity in Murder. Geneva, Feb. 24.—Prince Leopold, former commander-in-chief of the German armies on the Russian front, has been imprisoned at Munich on suspicion of being one of the instigators of the murder of Premier Eisner. A list of persons to be assassinated by the revolutionaries is said to have been found, and it was proposed to take twenty hostages from among the aristocracy. The Bernese committee of Bavarians has voted a motion of pension of ten thousand marks for the widow of Eisner.

APPOINT W. K. GEORGE, TORONTO, TO NATIONAL SAVINGS COMMITTEE

Ottawa, Feb. 24.—An order-in-council has been passed appointing W. K. George of Toronto, a member of the national war savings committee. He also becomes chairman of the central Ontario division of the National War Savings Organization, with headquarters at Toronto.

Ontario Government to Grant Women Right to Sit in House

ALLEGED ABDUCTION OF JAMES T. GUNN

Police Representative Lured to Oakville, Runs Current Story. UNDER THIRD DEGREE

Startling Revelations Expected—Mrs. Gunn Affirms Rumor a Hoax. The London Morning Advertiser yesterday morning published the following story from their Toronto correspondent: "James T. Gunn, member for the Toronto Police men's Union upon the royal commission which is investigating the police administration of the city of Toronto, who was appointed following the police strike of December, was kidnapped and held in a house in Oakville for twenty-four hours. He was released and brought back to Toronto by his abductors when he refused to agree to their proposals or pay heed to their threats.

Fell for Bait. The commissioner had left an automobile in Howland street with the intention of going to see some friends for a short time on Saturday evening, when the automobile carrying three men drove up. He was accosted and asked to step in, since his presence was required at his home in a hurry. Without a further exchange, Mr. Gunn, whose wife was in the house, stepped into the automobile. Then, in spite of his remonstrances he was driven to Oakville.

MUNICH QUIET, LATEST REPORT

Representatives of Radical Councils to Join the Bavarian Government. Berlin, Feb. 23.—Conditions in Munich have settled down into a fair measure of order and temporary political stability, with which the Ebert government for the present apparently does not intend to interfere, although the decision to incorporate in the Bavarian government representatives of the workers', peasants' and soldiers' councils, it is believed, contains elements of future political conflict.

Such an arrangement is opposed to the provision in the new German constitution which recognizes only state governments based upon democratic general elections; whereas the soviet referred to are purely class organizations. The Majority and Independent Socialists further are determined to reconvoke the diet as soon as conditions permit, thereby leaving the way open to a clash with the central government. The general strike ended this afternoon and all the workmen will resume work tomorrow. They will, however, suspend their labors Wednesday after the funeral of Kurt Eisner. Spartacists are in possession of the telegraph system in Baden and railway traffic in that state has been suspended, according to a despatch from Karlsruhe to The Lokal Anzeiger.

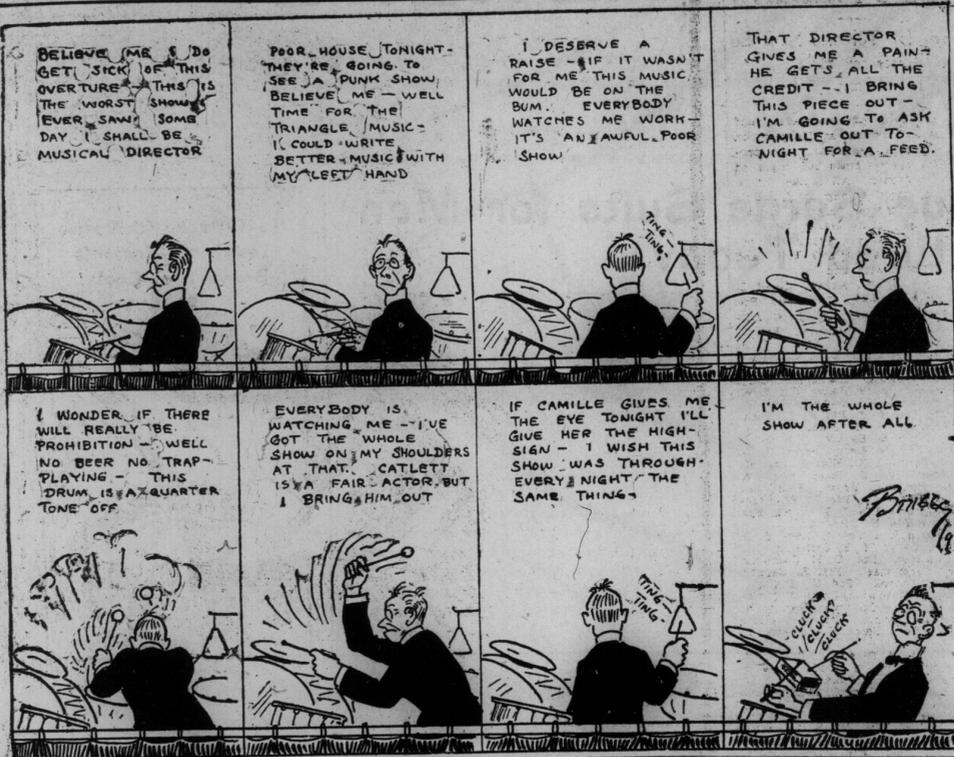

LISBON IS QUIET; STREETS ARE PATROLLED Lisbon, Feb. 24.—Absolute quiet prevails in Lisbon, where the republican guard is patrolling the streets. Lt. Leuzmann Salgueiro was appointed civil governor of the city on the return of the minister of war from Oporto. The Official Journal will publish this evening a list of the officers who have been dismissed from the army. The president of the republic has signed a decree dissolving the national congress. Elections will be held April 13.

AYEARST'S STATEMENT FAILS TO CLEAR UP HOMER LIQUOR CASE Inspector's Latest Explanation Directly Contradicts Sworn Evidence at Trial. THE PHANTOM AGENCY Now Contradicts Denial of Its Existence Made in Court. Chief License Inspector Ayearst's signed statement to The Globe of Monday, submitted as a public explanation of the Homer whiskey seizure, is hardly worth notice. To exhibit all its points of conflict with the sworn testimony would take up too much space. In his first sentence he says he was aware that Lavell was doing "a large wholesale business in intoxicating liquors. But he supposed that at the trial the facts that would show where Lavell was procuring this liquor. The cheque which The World has been insisting daily must be produced, would show it. The cheque would show whether the liquor crossed the Niagara River and from whom it came. It would show how the Canadian customs law may have been made a sieve by wholesalers, as Ayearst says Lavell was a sieve thru which the Niagara district was filled with illicit whiskey. Ayearst's efforts have been frantic to keep the cheque out of sight. There can be no doubt there was a cheque, Clyde, Ayearst's witness at the trial, says so simply and voluntarily as to a sworn statement.

About the Agency. In the same sentence Ayearst says: "I placed the matter in the hands of a local detective agency." His own witnesses swore the agency was the White Detective Agency, and when Mr. McCarron, counsel for defendants, asked for the address of the agency, Ayearst stood between the bench and his witness to prevent the answer. The court, reminded the parties that the question of the address was a proper question to ask, and that no conceivable harm could come of the information. The article notes of the trial at this point read: "Mr. McCarron: First I want to know the address of the detective agency?" "Witness (McPhail): Have I to answer that question?" "The court: If it is a legitimate business, there is no reason why you should not." "Mr. Ayearst: There is no such agency. It is a detective agency they are talking about, but giving wrong names." "Mr. McCarron: If it is not a legitimate business, it is not and we may let it go that." "Ayearst in his statement to The Globe writes: 'I placed the matter in the hands of a local detective agency.'" He said at the trial there was no such agency. It is impossible to follow him. It is enough that he is directly contradicting the sworn evidence. In his signed statement to The Globe, he also appears to say that not one ounce of the truck loaded at the Homer disappeared. This is in direct contradiction of the evidence of License Inspector King and Ayearst. It was stated half a dozen times in the evidence that five boxes of the seventy-five cases delivered at Homer and checked into the truck by Clyde, could not be accounted for. Again in a statement to The Star, Ayearst says, referring to The World: "The mistake was made when they made me say that the Niagara district is full of liquor. I said nothing of the kind. I believe that the liquor seized at Homer came from Toronto." The following is Ayearst's statement to The Telegram on Saturday, quoted in The Sunday World: "The mistake was made when I was full of illicit whiskey coming in there and we determined to stop it." "There must be a contradiction to some member from one day to another the statements he makes. The World could go over everything he has said and show a contradiction to some other statement or to sworn evidence. The comments made by The World were made upon evidence only and verbatim statements quoted. The comments may have been startling but were inevitable because the conclusions the evidence led to were inevitable. It is quite reconcilable with everything that has been said that his whole monstrous transaction was carried out without knowledge of any member of the government. The World is not aware of the fact that Mr. McCarron, or anyone in his office had no knowledge of what was going on. What becomes of the public conscience? On Saturday Ayearst said the Niagara district was full of liquor. When we showed that this assertion coming from an official of his position meant systematic and gigantic violation of the Canadian customs, he sees that he has put his foot in it again and complains that we misquote him. It is futile to quote him or pin him to anything. He seems to know enough in his latest statements to keep out of the way of the truck. He does not mention it at all. There must be a searching investigation of the board of license commissioners and the whole transaction in connection with the Homer incident from start to finish." "And here The World leaves Mr. Ayearst for the moment, with the papers that published his statement and with the public—and with the legislature. Truth will prevail!"

DUKE AT MEETING OF VICTORIAN ORDER

Nurses' Association Elect Officers for the Ensuing Year.

His Excellency the Duke of Devonshire, patron of the Victorian Order of Nurses, was present at the annual meeting held in the Gage Institute, yesterday afternoon. A number of the nurses in uniform were present. Miss Hall, R.N., superintendent, told of the work of the nurses during the epidemic of influenza, when sixteen nurses made 220 visits in one day. New districts were opened in Weston and New Toronto, and the Parkdale house closed. Two motor cars purchased during the year were reported. Total number of patients were 5757, entailing 32,739 visits. Dr. W. J. Dobbie spoke of the value of the nurses to those who could not afford other professional service. Arthur Hewitt, president.

VETERANS

SOLDIERS CAN TRAVEL AT SINGLE FARE RATES

Kingston, Feb. 24.—The request made by the Army and Navy Association of Kingston to have the half-fare rate for soldiers continued to the end of demobilization has borne fruit, and today Dr. Evans, commandant of the local association, received a copy of a letter which J. M. Neal, secretary of the Canadian railway board, sent Hon. Dr. Reid, minister of railways. The letter says in part that it has been arranged that the privilege whereby members of the Canadian expeditionary force were granted round trip tickets at single fare rates when visiting their homes, etc., upon production of a certificate that they were actually on the strength of the Canadian expeditionary force, which was cancelled at the end of last year, is to be restored until Sept. 30, 1919.

SEAMEN'S GRATUITY.

The Central Branch, G. W. V. A., is taking up the case of a naval veteran who was for two years with the Princess Pats in Flanders, able-seaman, A. E. Warren, 105 McCaul street. It appears that because he enlisted later with the Canadian navy, he has been lacking due consideration in respect to the gratuity to which he is entitled. Other naval veterans are also complaining of similar injustices. It is understood that there is at present no office thru which the naval veteran can have his grievances adjusted thru the government.

REHEARSING FOR BANQUET.

For the purpose of finally deciding upon the program for the Wednesday night concert at the armories, a special rehearsal of the Mendelssohn Choir has been called for tonight. The more successful of the unaccompanied numbers from the two concerts last week will be given together with the National Anthem, the Marsellaise, and other national melodies, and other numbers still to be decided upon. Two grand pianos have been installed, and a special platform has been erected under the direction of Dr. Fricker, who is going to give the concert. The Mendelssohn concert will last about two hours, and there will be other numbers interspersed provided by the entertainment committee.

PROFESSOR MIVOR ON LABOR UNREST

Tells Social Science Club That Constitutional Revolt is Needed.

At the meeting of the Social Science Club in the Margaret Eaton Hall yesterday afternoon Professor Mivor spoke on labor conditions and the causes of social unrest. The attitude to this unrest should be to find its causes rather than to seek to suppress or chloroform it.

Two causes were given for social conditions. First, the sense and pressure of poverty, and secondly, the sense of exploitation on the part of the workman. The institutional causes of poverty are inadequate wages and irregularity of employment.

It is economic to have poverty, is bitterness necessary, are strikes inevitable, are strikes necessary? asked the speaker. Coming to the causes of strikes, Professor Mivor said that old-time strikes were mainly due to a demand for higher wages. This does not maintain now. Taking figures in the United States from 1901 to 1915, it was found that 3,000,000 working days had been lost because of strikes, but of these only 192 were because of a call for higher wages, while 24 were due to a demand for shorter hours and 75 to a desire for recognition on the part of the unions.

Changes being made in England are according to the Whitley program, in which councils in the works, in the district and in the nation will have a part in reconstructing Canada. Constitutional revolution is needed. The demand for labor is for control of process, and there is also a demand for control of production. Among the remedies suggested was the supply of new interest for the laborer in his work. During the war the output in the factories dropped, but it stopped after a while, but because there was an object which was thought to be worth while, the motive in the days of the guilds the motive of seeing a work completed was present to the workman.

QUARANTINE TO GIVE SERVICE

G. F. Webster & Son, general agents for the New York service for Toronto, are in receipt of the following: Sir Alfred Booth authorized following statement in accordance with the terms of the contract between the Cunard Line and the Government of Canada for the service of passenger steamers of the highest class, between Southampton, Cherbourg and New York. It is inconceivable that the Cunard Line as the premier British line in the North Atlantic could allow the important passenger traffic between the United States and the channel ports to be monopolized by foreign-owned companies.

JOINT LODGE MEETING

At a joint meeting of Lily of the Valley Lodge, Daughters of England, and London Juvenile Lodge, Sons of England, last night Wm. Geo. Jones was presented with a handsome clock in recognition of his work in connection with the juvenile department of the society. L. G. Cross, grand secretary of the Daughters of England, in making the presentation on behalf of the Juvenile Lodge, remarked that it was mainly the work of Mr. Jones that put the juvenile department on such a sound footing. Presentations of jewels were also made to the past presidents of Lily of the Valley Lodge and London Juvenile Lodge. An exceptionally good concert was contributed to by local artists. W. Burley, chief advisor of London Juvenile Lodge, was chairman.

MRS. STEARNS HICKS DIES OF PNEUMONIA

Prominent War Worker Was Tireless and Faithful to the End.

In the death of Mrs. Stearns Hicks from pneumonia, yesterday morning, the Toronto branch of the Red Cross has lost one of its most outstanding workers. Mrs. Hicks had been ill for two weeks, but kept on at her post until Monday last week, when the gravity of her illness became apparent and yesterday her death occurred at her home in the Alexandra Apartments.

Mrs. Stearns Hicks was born in the old home of her great-grandfather, James Barker, in Bloomfield, Prince Edward county, being a great, great, grand-daughter of David Barker, U. E. Loyalist. With these traditions, it was only natural, when war was declared, that she should enter into patriotic work, and in charge of headquarters of the Toronto branch of the Red Cross, she became one of the best known and most admired of Toronto's women war workers.

The news of the death of Mrs. Stearns Hicks, so deep a grief for her many friends, came as a personal loss to the army of women to whom she had endeared herself in her tireless work during the war. No more faithful soldier had guided up a life for King and country, than this splendid woman who enlisted at the beginning of the war and served for its duration. Quietly, tirelessly, day after day, taking no leave, recognizing no holidays, with heart and soul bound up in the work, she followed after the loved ones of a service which is only comprehended by those who were nearest to her.

"THREE FACES EAST."

"Three Faces East," the secret service play by Anthony Paul Kelly, at the Princess Theatre this week, has all the merits of a mystery play in that it keeps one guessing to the very end.

"MAYTIME."

"Maytime" is certainly something different, and the big crowd at the Royal Alexandra last night fairly revealed in it. It had been said to have reminiscences of "Milestone," but apart from the fact that there are four acts, occurring in 1840, 1850, '60's, and the present day, the pieces have nothing in common.

AT THE GRAND.

As a genuine actor with a sense of humor, Zillah Covington is worthy of the name. His acting is splendid, but it was his voice inflections that pleased so much at the Grand last night.

LIVE STOCK MARKET

With 3708 cattle on the Union Stock Yards Market yesterday there was a steady demand for almost all classes. We would say the market was not any higher than the close of last week, but nearly all classes sold at steady prices with Thursday's closing quotations.

There was very strong inquiry for good and choice butcher cows, and a fair demand for breeding stockers and feeders, while good bulls made satisfactory prices. The market for good bulls indeed has been and continues very steady, although there was an active trade with the bulk of the offerings sold out by noon.

Good to choice milk cows and springers sold at from \$7.00 to \$13.00. Briefly this is the World's size up of yesterday's market, and we believe it will be practically the same for the bulk of drovers and commission houses, together with the leading packers and butchers.

With a light run of sheep and lambs about the yards, the market was 25c to 50c higher, and with 250 calves the market was steady to 25c up.

There was a run of about 200 hogs with last week's, and 17% f.o.b. The buyers are talking lower prices for the balance of the week, and it is likely they might work down to slightly lower levels.
