RACING HOME AND ABROAD

THE TRACK AT WOODBINE NOW IN EXCELLENT CONDITION.

Trainers Give Their Charges Some Fine Gallops—Mr. Hendrie's Misfortune—Hays' Horses Coming to Toronto—Racing at Washington—On Many Tracks.

The cold, raw wind of yesterday morning kept many visitors away from Woodbine Park, and only the most enthusiastic followers of the banglows were on hand to see the thoroughbreds at work.

The track was in excellent condition, and in consequence the majority of the trainers seized the opportunity to send their charges along. Among those that received special gallops were John Nixon's trio of Jumpers, King's Conny, Lion Heart and Clark.

Next week the trainers will begin to put the screw on and some heavy work will no doubt be recorded. Mr. Wm. Hendrie's ill luck seems to cling to the stable, for the news has reached here that Connetta has gone amiss and will not be seen on the turf this season.

Mr. Hays, the well-known gentleman rider, writes from Westbury, L.I., that the majority of his horses will be sent to the Brookline, Mass., meeting, but that the rest of his stable will stay at Woodbine and try conclusions with the local hunters in the Red Coat races.

FIGHT WITH MATABELES.

THOUSANDS OF THEM MET A SMALL BRITISH FORCE.

For a Time the British were Driven into the Water, but They Rallied and Repulsed the Rebels—Many Instances of Real Heroism to be Related.

Cape Town, April 24.—A despatch from Bulawayo, dated April 24, says that a force of 100 British soldiers and 200 natives, with Maxim and Hotchkiss guns, met the Matabeles three miles out from Bulawayo. The British party, and drove them into the Umguza River. One of the whites of the British party, was killed, three of the officers were wounded and several of the natives were killed.

The Matabeles lost 150 killed and a large number wounded.

Deliver into the Water.

The details of the fighting show that the defenders of Bulawayo decided to make a sortie from the town and engage the natives, who were besieging it. The British party met with no resistance until they reached the Umguza River, where they came upon the Matabeles who were entrenched along the north bank for four miles. The British party, with Maxim and Hotchkiss guns, met the Matabeles three miles out from Bulawayo. The British party, and drove them into the Umguza River. One of the whites of the British party, was killed, three of the officers were wounded and several of the natives were killed.

There were many instances of personal heroism. Trooper Baxter, seeing Corporal Wise severely wounded, and his horse shot from under him, jumped from his own horse and helped Wise to mount him, thus enabling the corporal to escape. Baxter gave his life for his friend, for shortly after Wise's escape, he was killed by a stroke from an assegai, hurled by one of the ambushed foes. Guy had a narrow escape, a bullet grazing his scalp.

Lieutenant Hood was severely and Lieutenant Crews slightly wounded. The latter insisted that Hood should take his horse and the latter, after some demur, did so, and effected his escape. Crews also got off without further injury, but had great difficulty in escaping Bulawayo.

Maxim Guns Being Jammed.

The Hotchkiss and Maxim guns became jammed early in the fight. They were only fired twice. Had it not been for this loss the Matabeles would have been far heavier than they were.

The horse that Selous was riding was killed in midstream, and the rider barely escaped with his life.

All the troops were cool and plucky. They drove the enemy up the river, inflicting heavy loss upon them. The exact number of killed and wounded Matabeles is not known. The Matabeles were in full retreat and were being closely pursued by the British and their native allies, when the order was given for the latter to fall back to Bulawayo, it being feared that a much stronger force would meet with.

To Act on the Defensive.

The Government has cautioned the officers to act on the defensive only until reinforcements shall have arrived. It is thought here that the British will prevent the natives from attempting to attack the town, which it was their evident intention to do.

There is no truth in the report that the British were defeated. The only basis for it was a statement in the first despatches that the British had been driven into the river. Later details make no mention of this and it is thought that the statement was a mistaken one for the British crossing the river to reach the enemy at close quarters.

It is reported that a large number of Boer wagons conveying ammunition and other field requisites are leaving Pretoria, the capital of the Transvaal. Their destination is unknown.

Earl Grey, the newly appointed administrator of the British South Africa Company, who is at Paalia on his way to Salisbury, has despatched a report to the company stating that he has every good reason to believe that the defenders of Bulawayo are holding the position until the arrival of reinforcements.

A PROSPEROUS CHURCH.

The 67th annual meeting of Jarvis-Street Baptist Church was held in the chapel last night, the Rev. Dr. Thomas presiding.

One item is city taxes, \$1238.

The tributaries of the church, the Chester and Berkeley-street missions, showed very good reports, the former having its place of worship paid for, while the latter has considerable money on hand.

A YOUNG LAD'S RESCUE.

CONFINED TO HIS ROOM FOR MORE THAN A YEAR.

An Inmate Suffered Through Pains in the Muscles of His Legs and Arms—Reduced Almost to a Living Skeleton.

From the Wolfville, N.S., Acadian. Mr. T. W. Beckwith is the proprietor of the Royal Hotel, Wolfville, the most important hostelry in the town, and a man of well known and esteemed throughout that section. He has a bright, handsome looking son, 15 years of age, named Freddie, who has had more than average intelligence. It is pretty well known in Wolfville that Freddie underwent a very severe illness, though the beautiful spring means which he owes his recovery is not so generally known and a statement of the case may be the means of helping some other sufferer. On the 26th of December, 1883, Freddie was taken ill and was confined to his room and his bed until March, 1884. Two different physicians were called in during his long illness. One said he had a gripe and the other that his trouble was rheumatism. He was troubled with severe pains through the muscles of his legs and arms, after three or four days was obliged to take to bed, where he lay nearly all winter, suffering terribly from the pains. He became reduced almost to a skeleton, and was unable to relish food of any kind. During his illness he suffered release owing to trying to get up sooner than he should. Boylike he was anxious to get out and enjoy the beautiful spring sunbathing and for several days was carried out and taken for a drive. This brought on the relapse. The doctor was again called in and as he continued to grow worse he was ordered once more to bed. Things then looked very dark, as despite the medicine he took he grew no better. At last his father decided to try Dr. Williams' Pink Pills. Soon after beginning their use Freddie began to feel better. His appetite began to return and the pains were less severe. As he continued the use of the Pink Pills he regained his health and strength rapidly, and in about a month was apparently as well as ever, the only remaining symptoms of his trying illness being a slight pain in the legs, which did not disappear for several months. It is over one and a half years ago since Freddie took his first pill, and in that time he has not had a recurrence of the attack. There is credit that Dr. Williams' Pink Pills cured him, and both the boy and his parents speak highly in their praise. Dr. Williams' Pink Pills are the medical marvel of the age. In hundreds of cases they have cured after all other medicines had failed. They are a positive cure for all troubles arising from a vitiated condition of the blood, and a shattered nervous system. Sold by all dealers or by mail, from Dr. Williams' Medicine Company, 233 North Second Street, Philadelphia, Pa., at 50 cents a box, or six boxes for \$2.50. There are numerous imitations and substitutions, against which the public is cautioned.

Prevented a Waste of Powder. A good story of Major Macdonald, who is en route for Akashev, to take command at the front, is told by the London Chronicle. The plucky major commanded a battalion of Southerners at the battle of Tokki—brave blacks who were devoted to the major and his like him a father. During that battle they disobeyed him for the first time. The wily devils had lain down a few hundred yards from the Egyptian force and were deliberately drawing the fire of the latter by springing up, waving their banners and falling once again in time to escape the shower of bullets that followed. The eagerness of the Southerners to follow the major could not be made to see the object of the derelicts was to cause them to exhaust their powder. Major Macdonald exhorted, commanded, swore in his fluent Arabic, and all to no purpose. The blacks would "loose off" their enemies. So at last the situation becoming desperate, he ran forward, and walking down the front of his line he shouted to his men, "Now if you must fire, fire through me!"

Independent Foresters. Dr. Oronhyatekha, S.C.R. of the I. O. F., has returned from Ottawa, after having made an initial deposit of one hundred thousand dollars with the Government. While there a number of the members of the Dominion Parliament were received into the order, the doctor paying immediately the initiatory ceremonies. In a few days the new constitution will be filed with the Government, when a license will be granted, giving power to the order to issue four and five thousand dollar policies. During the month of March twenty-eight hundred applications were received for admission to the order, being four hundred in excess of the number received in the same month of last year.

A Wonderfully Even-Balanced Piano. The difficulty in piano-making is to get a perfect evenness throughout. Instruments of first-class manufacture, where they will excel in many essential points, yet are uneven in some essential point. Ellen Beach Young, the famous American prima donna, pays the high tribute to the Holzmann & Co. concert grand piano that it is "wonderfully even-balanced." She knows, for these famous pianos were used exclusively in her Massey Hall concert, and throughout her Canadian tour.
