JOHN RUSSELL, JR., Manager. A. M. BELDING, Editor. TELEPHONE—News and Editorial, 192; Advertising Dept., 706; Circulation Dept., 14. The Times has the largest afternoon circulation in the Maritime Provinces.

THE EVENING TIMES, THE DAILY TELEGRAPH. New Brunswick's Independent newspapers. These newspapers advocate: British connection. Honesty in public life. Measures for the material progress and moral advancement of our great Dominion. No graft! No deals! "The Thistle, Shamrock, Rose entwined, The Maple Leaf forever."

OUR VISITORS

The citizens extend a cordial welcome to the governor-general and Lady Grey and party on this occasion of the first visit of their excellencies to St. John. If the skies today are dull the hearts of the people are warm with hospitable intent and the distinguished visitors will find no lack of entertainment during their short stay in New Brunswick. Possibly there might have been something more than has been provided in the form of a popular demonstration, but at this season so many citizens are residing at out-of-town resorts that anything in the nature of a general celebration in the city is quite unusual. Earl Grey has journeyed about Canada a good deal during his term as governor-general, and is now familiarizing himself with the maritime provinces. He is seeing this portion of the Dominion at a favorable season of the year and cannot but be impressed by the beauty of the varied scenery, the resources of these provinces, and the intelligence and thrift of the people. He is seeing historic places, rich in memories of toil and sacrifice, and service; for, though we have no ancient history in the old-world sense (except our share in that old-world history), yet on these shores have been crowded into the annals of two or three centuries much that is worthy of honor and remembrance, and much that adds lustre to the flag of the empire. Coming from an insular country and climate in the old world, their excellencies will appreciate certain similarities in these provinces, and feel the more at home. Among those who welcome them in St. John are not a few who first saw the light under English or Scottish or Irish skies, while the great majority of the people are but a few generations removed from homes in the United Kingdom. Hence the welcome extended today is not merely to the governor-general of Canada, but to a statesman of the empire.

THE PLAYGROUNDS

At the closing exercises at the Centennial playgrounds yesterday a mother who had sent four or five children daily to the grounds expressed in the most feeling terms her sense of appreciation of the privilege of thus removing the little ones from the dangers and temptations of the street. She was not alone in her testimony to the value of supervised playgrounds. In addition to the assurances given by parents, and by the hundreds of children, the display of samples of work done by the little ones in the kindergarten department was a revelation. It is a pity that a very much larger number of citizens did not assemble at the grounds to see the work, to observe the children, and to witness the closing exercises. When, a year ago last spring, the Times and Telegraph gave an opportunity for the expression of popular feeling by opening a subscription in aid of the establishment of supervised playgrounds, for which Miss Mabel Peters and other members of the Woman's Council had pleaded earnestly for several years, there may have been some doubt in the minds of those who had not seen such playgrounds elsewhere, as to the need or the success of such an institution. But the public response was general and generous and one playground was opened last summer. This summer there were two, and they were aided by a small grant from the city. It is to be regretted that they are closed so early, but the school board was compelled to insist upon this course, because of repairs to be made to the school buildings. An effort will be made, however, to utilize the Victoria grounds for a time longer, and this will be greatly appreciated by the children. Next year should see a small supervised playground in every suitable school yard in the city, for small children, and a larger and fully equipped playground for the larger ones. One of the ladies who spoke yesterday afternoon at Centennial grounds, herself a member of the school board, said it had been stated that the salvation of a country lay in its school houses, and she felt like saying, in that presence and amid those surroundings, that the salvation of the country lay in its playgrounds. The statement is worthy of more than a passing thought. Physical health and mental and moral training are involved in the work of the supervised playgrounds, and it is impossible for even the best impressionable children to encounter the refining influence of the teachers without deriving some good therefrom. It is a significant sign of the times that a recent issue of Clarissa and the Common is devoted exclusively to the subject of play, with more than a hundred pages set forth with illustrations the story of the great playground convention in Chicago. One of the ladies who attended that convention as a delegate from the city of Detroit was one of the most interested participants at the closing exercises of the St. John playgrounds yesterday. A year hence the Times hopes to be able to record further notable advance in this city in the recognition of the duty society owes to the children, not merely to compel parents to send them to school a certain number of days each year, but to provide in a city without either front or back yards such play-centres as a proper training of the youth of the community imperatively demands.

OUR FUNNY ALDERMEN

When the city council of St. John wants to make itself exceptionally ridiculous, it may be relied on with absolute confidence to select the most opportune occasion. This morning, in presence of the personal representatives of the governor-general, the aldermen proceeded to badger the mayor because he had selected the opera house as the scene of the presentation of the civic address to Earl Grey. No doubt, if City Hall had been chosen, his excellency would not have been as likely to have his attention diverted from the kingly part of our civic rulers, who would in that event have him all to themselves, and be able to swell almost to bursting with a sense of self-importance. But the mayor, to whom was left the burden of completing the arrangements, decided in favor of the opera house, where the superiority of the alderman over a mere citizen may not be so obvious. At another time, such a squabble would be the subject of public derision; but in presence of Earl Grey's representative, on the very day of the Earl's arrival, it is worse than ridiculous—it is discredit.

POLITICAL NOTES

The coming of Mr. R. L. Borden to this city two weeks hence will lend an added spice to political comment, and awaken a more general interest in the local situation. A despatch from Quebec states that Mr. Borden will address the electors of that district on the 29th of August, and may be accompanied by Hon. Messrs. Whitney, McBride, and Dr. Rheame. The meeting will be held in the open air and extensive preparations are being made. Mr. Bourassa, as a result of the insult offered him in Quebec, has received invitations to speak in a number of places in St. Hyacinthe has sent him this invitation: "We, Liberals of St. Hyacinthe, believing by tradition in the principle of freedom of speech, and anxious to know in its entirety the programme of provincial policy which you have endeavored to outline in Quebec, request you to come and address a public meeting at St. Hyacinthe, Saturday, the 17th instant, at two o'clock, and we promise you an attentive audience, prepared to pass an impartial judgment on the measures of reform which you advocate."

A member of the Montreal Star staff, writing from Cornwall, Ont., says: "There is a split in the ranks of the Liberal party in the county of Stormont, Ontario. As matters now stand there are two factions warring one against the other. The trouble dates back ten years, and the climax was reached on Wednesday evening last, when a convention was held to nominate a candidate for the next federal election. As a result, beside the regular candidate, Mr. Robert Smith, who was put in nomination at the convention, Mr. Ambrose Mathern, a former candidate of the party, has announced that he, too, is in the field, and is running as an independent Liberal, and the probabilities are for a three-cornered fight in Stormont county, with two Liberals and the present representative of the county, Mr. Pringle, as the candidates."

Mr. E. H. Harriman is to be requested once more to answer certain questions in the courts, relative to his railroad manipulations. Wall street will once more rise up and shout that President Roosevelt is destroying the foundations of national prosperity. The government replies, however, that it is not meddling with anyone who does not infringe upon the rights of the people.

The St. John school board has met the increased pressure upon the high school by removing one of the lower grades to the Victoria school building. There still remains the problem of relieving the pressure upon the lower grades throughout the city, caused by the enforcement of the compulsory attendance act. This may prove a more difficult proposition.

A singular feature of recent developments in Ireland is the rioting in Belfast, and the resolution of the mob, which meets bullets and bayonets with barricades and paving stones. The source of the Belfast trouble is not so much political as industrial, following a determined and prolonged strike.

The announcement of cabinet reconstruction at Ottawa, is still deferred. "Hope deferred maketh the heart sick," but candidates hereabouts are still unable to encounter the refining influence

AND SO DID HE

(Puck.) He fondly loved a little maid, One rich in looks and clothes, But fate was most unkind to him He never could propose. One day while in his motor car He murmured, "Will you be And then the honking back broke down, And he departed." Again, while in his motor boat He started, "Dear Marie— When suddenly the engine stopped, And so did he. While on a surface car one night He spoke, "Oh, please me— Then up the ship went high in air, And so did he. An anchored airship they were in, "Am I what?" "No, no, no, no, Then up the ship went high in air, And so did he. The years went by, he didn't pop To suave and sweet Marie— So, "Am I what?" "No, no, no, no, And so did he.

IN LIGHTER VEIN

IN THE COUNTRY. You must write me lots of postal cards while I am away for the summer, said one young woman. Why postal cards? Inquired the other. Oh, to make it more pleasant and so. The postmaster takes an interest in you and everybody is willing to go after your mail if you have plenty of postal cards in it.

Even you seem to have a great deal of trouble with your automobile. What do you call it? Jack—True love. True love? Gracious! Why? Because true love never did run smooth.

Lawyer—I can get you a divorce without publicity for about a hundred pounds; Society Woman—How much more will it cost with publicity? GETTING AT THE ROOT. (Success.)

While visiting the south recently a traveler chanced upon a resident of a sleepy hamlet in Alabama.

"Are you a native of this town?" asked the traveler. "In what?" languidly asked the one addressed. "Are you a native of the town?" "What's that?" "I asked you whether you were a native of the place?"

At this juncture there appeared at the open door of the cabin the man's wife, tall, sallow and gaunt. After a careful survey of the questioner, she said: "Ain't you got no sense, Bill? I means you 'yo livin' heah when you was born, or as yo' born before yo' begun livin' heah. Now answer him."

THE BISHOP'S JOB.

(Harper's Weekly.) To illustrate a point he was making in an address he was delivering the other day, Bishop Potter told the following story: "Not long ago I was staying with a friend in a country house up on the Hudson. On Sunday morning as I passed through the library I found a small boy curled up in a big chair deeply interested in a book. 'Are you going to church, Tom?' I asked. 'No,' he replied. 'Why, I am,' I said. 'Huh!' he said, 'that's your job.'"

Pawnbroker—A pond. Shoemaker—A creek. Burglar—The breakers. An athlete—A spring. Messenger boy—The rapids. The czar—The sun.

THE PULPWOOD TRADE

(Charlottetown Guardian.)

Canada is shipping vast quantities of pulp wood to the United States yearly which ought to be manufactured in this country. The spruce wood realized about \$3.20 per cord on an average when delivered at the nearest railway station to where it is cut. About \$3,000,000 worth was exported last year representing over 800,000 cords of wood. Our American cousins, whose wood supply is becoming exhausted, are very eager to secure the Canadian article. For obvious reasons it would be much better for Canada to have this wood manufactured at home and it is proposed to have an export duty placed on pulpwood to check exportation. One and a quarter cords of wood go to a ton of paper, and it is claimed that every ton of paper made at home would leave \$7.50 more in the country than if the wood were sold. Canada has already a growing number of pulp and paper mills, and their industrial value is very great, a single one of the larger mills having an annual output of \$2,000,000. One large paper mill will employ a thousand hands exclusive of those in the lumber camps and on the drives. In this matter Canada is clearly the master of the situation and should make the most of her advantage.

THE MONEY STRINGENCY

(New York Post, Thursday.) Large payments on new securities which are due today, to-morrow, and next week, together with the rise in call money, tend to disturb things. A payment of \$3,000,000 was made by Great Northern shareholders; one of \$15,000,000 is due on Union Pacific convertible bonds today, and another payment of like amount on Southern Pacific new preferred stock is due next week. With the present shortage of funds it is difficult to meet these extensive requirements.

SPLENDID PROGRAMMES MARKED CLOSING OF THE PLAYGROUNDS

Mayor Seam and a number of others; a solo by Frank McCloskey and solos and recitations by the children.

About 3 o'clock all present were grouped about the rear door of the school. The opening number of the programme consisted of the hearty singing of the Maple Leaf by the children. This was followed by a solo by Miss McCloskey, who was enthusiastically encored.

Miss Greeny's class of sixteen girls and four boys next took the platform and gave a highly creditable exhibition of physical drill. The most marked thing about this part of the programme was the manner with which the little ones obeyed every order given and the perfect time and order maintained.

Miss Miller's Report The Centennial playgrounds opened for the season 1907 on July 1st with the following teachers: Miss Scott, Miss Greeny, physical culture instructors; Miss Foulis, art teacher; Mrs. Chisholm, pianist and Mr. Hill, all of whom by their painstaking efforts and zealous efficient work have helped to make this vacation a happy and most profitable one for the children.

The average attendance for the afternoon has been 280, and from the morning 135, which considering the unfavorable weather conditions existing I think has been exceptionally good.

The smaller children enjoyed the teeter, swings and sand pile, the larger boys and girls enjoyed the games of croquet and basket ball.

Two facts worthy of note during the entire season are the universal cleanliness and good will existing among the children and the care taken of the grounds which we leave in as good condition as we found them.

A Club Organized Mrs. Skinner, of the board of school trustees, spoke a few words of counsel to the children. She was followed by Uziel Whalen, who executed a sand dance to the evident delight of all, and Miss Benise Hill, who sang an excellent solo.

To the committee of supervising play, we the undersigned have the pleasure to report that the closing of the Centennial playgrounds has been a most successful one.

The following are the officers of the teams: Senior boys—S. Morrison, manager; G. McDade, 1st captain; J. McGrath, 2d captain; C. Kelly, secretary-treasurer.

Junior boys—G. Morrison, 1st captain; S. O'Leary, 2nd captain; R. Jenkins, 3rd captain.

Junior girls—Beattie Hill, 1st captain; Ada Westmore, 2nd captain; Mary McCarthy, 3rd captain.

The meetings of the teams will be held on Tuesday at 7 o'clock and the boys Wednesday the same hour.

It was remarked that only one person on the grounds seemed entirely uninterested in the programme. This was a little miss of some six or seven summers who was toiling industriously in the sand box making "houses," as she explained.

The teachers all seemed to be very popular and the appearance of Miss Miller and Miss Greeny especially was followed by calls for three cheers which were heartily given.

WILL USE VICTORIA GROUNDS

The playgrounds committee desire to thank the following for flowers sent to be given to the children yesterday: Mrs. Jones, Mrs. Alward, Miss Grace Fisher, Mrs. A. A. Some Fine Work The display of work done by the children in the kindergarten department at both groups was a great surprise to the many visitors who crowded into the rooms to inspect it. Miss Peters selected a few examples of the best work in nature painting, clay modelling, raffia work, knitting, etc., to present to Lady Grey, in connection with the knitting one little girl saw her mother doing some darning at home and volunteered to help her.

It is said that the committee from the treasury board which went to Montreal recently placed two propositions before the C. P. R. with a view to increasing the city's revenue at Sand Point. A tentative offer was made to lease to the company berths, 1, 2, 3, and 4 at a rental of \$45,000 a year and a proposition was also put forward to charge on steamers loading at the winter port a flat rate of fifteen cents a ton on all freight, the companies to redistribute the rates as they deemed advisable. During Sunday's storm the house of W. W. Britain, South Bay, was struck by lightning, and several of the inmates received quite severe shocks.

Guy D. Robinson, chief clerk in the office of the general freight agent of the C. P. R. here has been promoted to be chief clerk to the general foreign freight agent in Montreal and will leave this week. His successor as chief clerk here will be F. P. Tinker travelling freight agent.

In the World of Sport

ARE IN FOREIGN WATER NOW

Yankees Not so Jubilant as When in Their Own Ponds; Conditions Not Their Way as Ordinarily.

KIEL, Germany, Aug 11—The American yachtsmen who tomorrow will sail their boats in the first of the races for the sonder class are quite doubtful as to the result, as the conditions here are so different from those under which their three boats were selected.

The Cheewik VIII, the Marblehead and the Spokane were built for light air, and with a low freeboard. In the qualifying races the breeze was not more than 10 miles an hour, while here during the 15 days of practice the velocity of the wind on only two days has been less than 15 miles, and often it has been 15 and 20 and puff.

The German boats were built for Baltic conditions. They have a higher freeboard and are longer, being 37 feet over all against 34 and 35 feet for the Americans. The latter, owing to their build, take a good deal more water than their German competitors. From what the Americans have seen of their work during the last fortnight the Germans know how to get the best results out of their boats under home conditions.

Prince Henry of Prussia sailed the Spokane today for a couple of hours, and her American crew, composed of J. Lewis Stackpole Jr., and E. A. and R. D. Boardman, admired the manner in which he handled her. He took the squaly puffs easily, and got as much out of her as those who sail her every day thought they could have done.

The sailing committee of the Imperial yacht club, supplementary to the general agreement, treated the Americans, as the Americans consider it, with extreme sportsmanlike generosity. The Imperial yacht club's committee asked Henry Howard of Boston, chairman of the regatta committee of the Eastern yacht club, when he arrived here a few days ago, to draw up his suggestions for sailing rules, as a basis of discussion. When he presented a written draft the Germans accepted it in its entirety.

KID MCCOY IS A WEALTHY MAN Norman E. Selby, or Charles Kid McCoy, as he was known to followers of the boxing game, is attracting much attention in Indianapolis. Starting from that city in 1880 as an illiterate youth, he fought his way to pugilistic fame with a stout set of arms and the ability to hit harder than any man of his weight in the world. McCoy never was recognized and his appearance was extremely deceptive. Expert ring followers have expressed the opinion that he could hit harder than any other boxer the ring has produced, without regard to weight.

He won the middleweight championship fairly from Dan Creedon, and defeated many of the leading heavy-weights. In the ring he gained a reputation for craftiness that evidently was well founded. Judging from his career since quitting the squared circle.

He has succeeded in business ventures, and today is probably the wealthiest man who ever made fighting a profession. He married the widow of a New York millionaire broker. They have a fine residence in a costly quarter of the metropolis. McCoy's matrimonial escapades have filled many columns of print.

He is tall, five feet, 11 inches, and appears taller on account of his slight figure. Extremely dark, of good features and figure, he was known as the Beau Brummel of the ring.

McCoy probably has made his last appearance in the ring, although he is remarkably well preserved, and believes he is just as strong and skilful as ever. There is now in the automobile business and made the trip to Indianapolis in a Peerless racing car.

HACKENSCHMIDT IS IN DEMAND LONDON, Aug. 10.—There is a futter in the wrestling world. Since Hackenschmidt, the "Russian Lion," defeated Madral, the "Terrible Turk," at Olympia, the British public has heard little of anyone contesting the claim of the Russian to be the world's champion wrestler. But new aspirants to the position have arisen, and four of them at least, are it is stated, the equals if not the superiors of Hackenschmidt. One of these is Le Marin, a Belgian, who, it has been arranged, will meet Hackenschmidt in Dublin during the August Home Show week. The match will be for \$1,500 a side, the style "catch-as-catch-can." Le Marin publicly challenged Hackenschmidt in the Theatre Royal, Dublin, last Saturday night.

BILLY WELLS AFTER SMITH. Billy Wells writes to the Montreal Star:— "Sir:—Kindly challenge for me Johnny Reagan, who is in town again, and I am anxious to get on a go with him, and

would box in two or three weeks if he will deposit \$100 with The Star or any responsible person for his appearance. Also I challenge any 133 or 135 lbs. man in Canada.

Since Danny Smith is stalling around as being a champion I am willing to box him, and if I do not stop him in ten rounds and I will lose the fight and give him the gate receipts and side-bet.

THE WAY TO KEEP OUT THE "PROS" LONDON, Aug. 10.—A writer in the Daily Mail believes persistent international competition is a safeguard against professionalism. Commenting upon the defeats sustained by the British in rowing, tennis, golf and other sports, he said:—"For compensation in all these defeats we need look no further than enjoyment of the rigor of the game," which always accompanies internationalism. Australians and Americans between them first saved lawn tennis from paucity of extinction, and then raised it to a new level of vigor. It is twice the game it was, thanks to the dash and originality of the non-British players. In cricket, rowing, tennis, lawn tennis, horse jumping—one must not forget golf, in which two championships have gone recently to foreigners—no more a braker time, since many visitors from many places brought their native verve to the several competitions. As a people, we tend to become stereotyped. We tread the mill and bow without thought and with dulled interest to an image of mechanical style which it is hardly good form to alter."

QUEER BASEBALL HURT. RICHMOND, Aug. 10.—The Rev. Dr. George H. Spooner, pastor of Broad street Methodist Episcopal church, is confined to his home on account of an accident which had deprived him of the use of his right arm.

The minister undertook to pitch for both sides in an amateur baseball match. While throwing the ball with an under twist of his arm, he twisted the sphere backward instead of forward, twisting his arm almost into the shape of a rope and breaking the bone.

The fight in the Eastern League is interesting. Rochester and Montreal are the only clubs not in the running. McGraw, of New York, is said to be anxious to get Rube Kinsinger, the Buffalo pitcher, and to have made a big cash offer for him.

Tim Flood who was expelled from the Eastern League by President Powers, leads the American Association in batting, with an average of .400. Charlie Carr, another ex-Eastern Leaguer, is also doing good work with the bat and has a mark of .420.

Did you ever notice that Boston American batting order? It begins at left field. Then comes centre field, right field, first base, second base, third base, shortstop, catcher and pitcher. One of Jim McInnes's hunches, or just chance?

In a recent review of the national sport, since the inception of the American League—in other words since 1901—the New York Sun shows that Lajoie has the best batting record during that time—average of .422 in 1901. No other player in National or American League has a percentage above .400.

AMERICAN WERE UNANIMOUS. John J. Dixon, secretary of the Amateur Athletic Union of the United States, Thursday last, sent to each member of the board of governors of the A.A.U. the result of the mail vote taken in relation to cancelling the terms of alliance between the A. A. U. of the United States and the Canadian A. A. U. The vote recorded was practically a unanimous one, the only member of the board of governors voting against the proposition being Dr. George J. Fisher, of the Young Men's Christian Association, an allied member of the A. A. U. Seven members did not vote.

DAN LITTLEJOHN AFTER McLEOD

Dan Littlejohn is anxious for a "go" with Beth McLeod and suggests that such a meeting might be arranged as one of the attractions for the coming Carnival. An alternative Littlejohn would meet McLeod at Fredericton during exhibition in the capital.

ON THE RACE TRACK

CANADIAN HORSE AT EMPIRE CITY Many more horses arrived at Empire City track Saturday, and another hundred are now en route. The liberal purse offered here has attracted the attention of Canadian horsemen, and most of the prominent owners who race in the northern circuit will be represented at the Yorkers meet, which begins tomorrow.

Secretary David Duffalo to reserve stalls for ninety-two horses, which were shipped later in the day. The names of the owners or trainers and the number of each shipped are: Walker, 17; Ferris, 15; Fiser, 8; A. J. Govey, 3; Lauder, 5; Gilchrist, 5; Selby, 5; R. D. Williams, 6; Thomas & Ireland, 12; Whalen, 2; Joe Cooper, 3.

Among the horses that arrived Friday were Prince Ahmed, Morale, Polly Prim, La Puella and Pink Star. So crowded are the stalls near the track that several owners were obliged to stable their charges at Morris Park.

AT SARATOGA. NEW YORK, August 10.—Three favorites and a second choice and two long shots divided the money at Saratoga. By the victory of Far West, in the fourth race, the books were hit hard to be played down from 6 to 1 to 7 to 2, at the close.

GOOD RACES AT CIRCUIT CLOSING. The Grand Circuit meeting closed at Buffalo Saturday with two hotly contested races. Big fields faced the barrier in both events and it took four heats to decide the winners. Lotta, formerly Lady Thistle, won the first heat, the 216 trot. Lotta was beaten by Margaret O. in a hot drive down in the stretch in the second heat. Lotta then took the next two heats and race. In scoring for the second heat in this race, George Ahrens, driver by Ed. Geom, broke a small bone in the foreleg and was withdrawn.

Tommy H., who sold favorite in the job, lost the first heat in the 213 pace, but won the race and fourth heat and race. Tommy H. paced the second mile in 2:07 1/2.

SADDLE AND SULKY. Mr. Croker's Rhodora, the half-sister to Orby, carried 123 pounds to White Eagle's 124 and the latter best her a head in the National Breeder's Produce Stakes at Sandown Park. This is the most valuable two-year-old race in England, and was worth about \$22,000.

A fine performance from a time standpoint was accomplished by the French four-year-old Querido in the Prix de President de la Republique at Maisons Laite. He carried 131 pounds and ran the mile, four furlongs and a half in 2:36, but won the race at six furlongs, making a new American record at a mile and four furlongs in 2:30 1/2. Querido is a good horse and race at six furlongs, made a new record in this spring and won the Chester Cup.

Keynote, making her first appearance in the year's record, won the Alabama stakes at a mile and a furlong at Saratoga yesterday. Demand, in winning the race, set a new record for the track record of 1:11 4/5. Mr. Seagram's Deuce won the fifth race. Alex. Smith, formerly a well known player, was warned by the stewards of the meeting to keep away from the track. This order also applies to all tracks under Jockey Club control.

TRACK NOTES. The 210 list for 1907 has already made a good start. Sonoma Girl, 2:06 1/4, appears to be in a class by herself.

Thirty thousand dollars has been offered for Sonoma Girl, 2:06 1/4. The Breeders' association sold the scrap iron that came out of the Roadville fire for \$700 at the rate of a little better than the record for the M. and M. stake.

The price \$33,000, put on Sonoma Girl, 2:06 1/4, approaches the figure for which Maud S. and Nancy Hanks were sold. Sonoma Girl in two starts has won \$8,000 and is still in \$83,000 worth of stakes.

Sonoma Girl, 2:06 1/4, and Charley Balden, 2:08 1/2, are a great pair of trotters for the credit of the California sire Lynwood W.

The green Kentucky mare May Earl, by Sam Mito, 2:12 1/2, took a record of 2:10 1/4 in a winning race at Terre Haute last week.

Valuable Instruction for Readers of The Times

HOW TO SAVE LIFE FROM DROWNING

Everyone should consider it a duty to learn to swim; in fact it should be part of the national education. Many swimmers, however, lack knowledge of the proper methods of rescue and resuscitation of the apparently drowned, as recommended by the Royal Life Saving Society, of London.

From want of this knowledge swimmers are frequently deterred from attempting a rescue. In many cases where help has been at hand, and persons were brought to shore apparently drowned, they have subsequently died, whereas if the proper treatment had been put into force, animation might have been restored.

When a person unable to swim falls into the water, he usually rises to the surface, throws up his arms, and calls for help. This, with the water swirling, will make him sink, and if the arms are moved above the head under water he will, as a natural consequence, sink lower. The struggle will be prolonged a few seconds and then probably again, though perhaps not sufficiently to obtain another breath of air. If still conscious he will renew his struggles, more to the effect of a drowning person, who is not to do so; but it is necessary to know what to do if face to face with a drowning person. If a person in distress is approached from the front, he will probably be turned on his back, and will probably give up his struggles and submit quietly, finding himself supported and able to breathe freely.

I will call you, to prove merit, examples of Mr. Dr. Shoop's Restorative and my Book on either Dyspepsia, the Stomach, Heart or Kidneys are merely symptoms of a deeper ailment. Don't mistake the common error of treating symptoms only. Symptom treatment is treating the result of your ailment, and not the cause. Weak Stomach nerves—the inside nerves—mean Stomach weakness, always. And the Heart, and Kidneys as well, have their controlling or inside nerves. Weaken those nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made for itself a name. It is for blood, to treat the "inside" nerves of the Stomach, Heart or Kidneys are merely symptoms of a deeper ailment. Don't mistake the common error of treating symptoms only.
