C. I. TO PAY \$250,000 TAXES IN MARITIMES

N. B. SHARE IS TO BE \$119,000 SAYS BAXTER

Agreement Tentative and Depends on B. C. Pact

KIERSTEAD'S TRIP

Premier Declares U. N. B. Professor Not Acting for Provincial Government

TENTATIVE agreement by the Canadian National Railways to pay \$250,000 annually in taxes to the Maritime Provinces has been reached with the respective governments of the provinces.

Premier John B. M. Baxter said here today. Nova Scotia's share, as announced by Premier Rhodes, will be \$91,000, while Prince Edward Island's portion will be \$40,000 per annum.

New Brunswick's allotment, Premier Baxter said, would be \$119,000 a year.

Premier Baxter added that such an agreement hinged on an understanding with the British Columbia government that there would not be any increase in taxes of the Canadian National in that province.

"I feel morally certain," the premier declared today, "that such an agreement as outlined will be definitely reached."

Efforts in this direction at the conference of premiers in Ottawa last week were successful and the additional revenue for the provincial treasury will be of material assistance. Successive governments in the Maritimes have for years endeavored to have the Canadian National pay taxes in the provinces but without avail until now.

DR. KIERSTEAD'S MISSION

Questioned regarding reports from Winnipeg re inquiries into Manitoba taxation by Dr. W. C. Kierstead, Premier Baxter said that when Dr. Kierstead was leaving for the west, he had informed him he would pick up data in this regard. He was, therefore, not directly representing the New Brunswick government.

It is understood, however, that Dr. Kierstead's name has been mentioned in connection with the proposed assessment equalization board for the province.

TAX ON INSURANCE COMPANIES IS CUT

Royal Gazette Announces a Reduction to One-half of One Per Cent.

FREDERICTON, N. B., June 16.—By supplementing letters patent the name Puddington Wetmore, Morrison, Limited, has been changed to Puddington and Cole, Limited.

The Minister of Public Works, Hon. D. A. Stewart, is calling for tenders for the construction of the Woodstock to Campbell Settlement, a distance of 47 miles. Tenders close on the 18th. He is also calling for tenders for the construction of Five Mile Brook Bridge, parish of Stanley, York county, on the Fredericton to Boiestown road.

TAX REDUCED

Official notice is given today in the Royal Gazette of the reduction of the provincial tax on the net premiums of insurance companies, to one-half of one per cent. of net premiums. The tax is part of the special temporary taxation imposed during 1926 under legislation enacted at the last session of the House of Assembly.

Avoided Snake But Ran Car Into A Ditch

United Press

SAMMOTON, N. J., June 16.—Mrs. Elizabeth Schlorer did not want to run over a five-foot snake Tuesday which had wriggled onto the highway, so she turned her automobile into the ditch.

The machine did a double somersault. Mrs. Schlorer was thrown out when it turned over the first time and her husband went through the rear window of the sedan on the next flip.

Both were severely injured and their 16-year-old daughter was slightly cut and bruised. The reptile escaped.

SAINT JOHN MAY GET NEXT NAVY LEAGUE ANNUAL

R. E. Armstrong Speaks of Dominion Meeting at Winnipeg

Saint John may get the next annual meeting of the Dominion Council of the Navy League of Canada.

That there is a strong sentiment in British Columbia and other parts of the west for an expansion of Canada's naval fleet along practically the same lines as those of Australia was announced by R. E. Armstrong, president of the N. B. division, who returned home today from Winnipeg, where he attended the eighth annual meeting of the Dominion council last week. Mr. Armstrong accompanied him. Certain recommendations were determined upon by the Dominion council, and these, he said, would doubtless be submitted to the Ottawa Government.

It was impressed upon the public of Winnipeg and practically all Navy League delegates that a loyal and lloy spirit had been aroused by the Navy League throughout Canada, and that its chief objectives, such as the expansion of the navy and the promotion of Canada's freight traffic through Canadian ports, were being forcibly and effectively advocated.

PHILADELPHIA, Pa., June 16.—Grover Cleveland Alexander, pitcher for the Chicago Cubs, has been suspended "for breaking training regulations, and failing to appear in uniform on the field," it became known today.

Receives News of Brother's Death

Daniel McCarthy, 78 Harrison street, has received the sad news of the death of his brother Dennis McCarthy of East Boston. Mr. McCarthy was a veteran of the civil war and took part in the parade of veterans held in Boston in the summer of 1924. Although 87 years of age he refused to ride and walked in the parade. He is survived by four daughters, one sister, Mrs. Bernard Coyne, of Boston, and one brother, Daniel McCarthy of this city.

Window Washer Falls Sixteen Stories to Death, Kills Woman

CHICAGO, June 16.—James Vando, a window washer, yesterday plunged sixteen stories to his death from the window of a downtown office building and killed a woman pedestrian, upon whom his body crashed. Ropes attached to Vando's safety harness broke.

The woman, Mrs. Catherine Jez, the mother of five children, suffered a broken neck and a fractured skull. She was waiting for a street car at the time of the accident.

HALIFAX MAN SUGGUMBS TO SPOTTED FEVER

George Wallace Dies in Moncton Early This Morning

ILL SHORT TIME

Same Ailment Contracted in Montreal Proved Fatal to Robert McCleave

Special to The Times-Star

MONCTON, N. B., June 16.—George Wallace, well-known Halifax business man, who has been in the Moncton hospital with what has been diagnosed as spotted fever, succumbed at 10 minutes to 2 o'clock this morning after all efforts known to medical science here were made to save his life.

Mr. Wallace had been in Montreal attending the general assembly of the Continuing Presbyterians and had arrived in Moncton on the Ocean Limited Sunday afternoon on his return home.

ILL ON ARRIVAL

He stopped off in Moncton having a business appointment here and was taken ill shortly after his arrival at hotel. His condition rapidly grew worse and he was taken to the City Hospital late Sunday night, his case being diagnosed as spotted fever, the same ailment which resulted in the death here of Robert McCleave, who had attended the general assembly in Montreal with Mr. Wallace.

TO PREVENT SPREAD

The two deaths here occurring under such dramatic circumstances are attracting wide attention and local board of health authorities are taking every precaution to prevent a spread of the contagion.

The late Mr. Wallace was a shoe merchant on Barrington street, Halifax, and had been in business some 15 years. He was 47 years of age and was a native of Halifax. He was an elder in the Presbyterian church in Halifax, was a Rotarian and Mason and prominent in the social and business life of the city. He is survived by his wife and one daughter, Marjorie, and also one brother.

Former Assistant General Manager of Royal Bank Started at Capital

FREDERICTON, N. B., June 16.—Private telegrams received here this morning advised the death of Francis J. Sherman, formerly assistant general manager of the Royal Bank of Canada, who died here at 10 o'clock today. He was 45 years of age, and had been in the banking world, having inaugurated the Royal Bank of Canada's new extensive business in Cuba and South America.

The late Mr. Sherman had been living in Atlantic City several years, following his marriage and subsequent retirement from business. Several months ago he was injured in an accident, which ultimately resulted in his death.

The remains will be brought to Fredericton where the funeral will take place Friday next.

Mr. Sherman was a writer of no small ability, and in 1908 published "Matus" a volume of verse. This was followed later with several pamphlets. He was a cousin of Dr. Chas. G. D. Roberts, and of Bliss Carman. He served with the Canadian forces during the late war. Dean Sherman of Quebec is a brother. Mr. Sherman is survived by his widow and two children.

Loughran To Meet Carpenter Tomorrow

PHILADELPHIA, Pa., June 16.—Their training completed and both men reported to be in excellent condition, Georges Carpentier and Tommy Loughran, rested today in preparation for their ten round light heavyweight battle here tomorrow night. In some quarters odds of six to five in favor of the Frenchman were reported, while the local boxing fraternity were confident that Loughran would emerge the victor.

PROROGATION ON THURSDAY NEXT WEEK LIKELY

Customs Probe Reported Due Today or Thursday

MAY BE DEBATE

Reports of Other House Committees Not Expected to Delay Program

Canadian Press

OTTAWA, June 16.—Early prorogation of parliament is now predicted. With the Alberta natural resources question out of the way, members are beginning to look for the end about the middle of next week. The order paper is practically a blank, nothing remaining but the Montreal harbor loan bill, and supply.

The one remaining item of business which may hold things up is the report of the committee which investigated the Department of Customs and Excise. It is expected that this report will be tabled in the House of Commons, tomorrow or Friday.

MASS OF EVIDENCE

Members of the committee have been working on it since the public sittings closed last week, but the mass of evidence collected, as well as other circumstances, make the preparation of the report a somewhat lengthy business.

Members of the committee have said that they hoped to bring down a "heated straight for hell," but its tabling in the House will be almost certain to precipitate a lengthy and perhaps bitter debate. A couple of days will, it is expected, be sufficient to dispose of this, and parliament would be in a position to prorogue about Thursday of next week.

The reports of the other house committees are dealt with quickly, and the voting of the remaining estimates and supplementary bills, is a lengthy business if agreement has been reached in regard to prorogation.

SECTIONALISM IN CANADA DECRIED

Prof. Kierstead Delivers eloquent Address Before Winnipeg Gathering

WINNIPEG, Man., June 16.—"All sectional problems should be considered in the light of what is best for the Dominion as a whole," declared Dr. W. C. Kierstead, professor of philosophy and economics, University of New Brunswick, when addressing a meeting of the meeting of the women's Canadian Clubs of Winnipeg.

Prof. Kierstead, who is keeping with the policy adopted by the associated Canadian Clubs for the interchange of prominent speakers, is on a speaking tour of the Dominion, made an eloquent and impressive plea for high national ideals and avoidance of the danger of sectionalism.

Prof. Kierstead was the guest of honor at a banquet held by graduates of the University of New Brunswick, and other universities in the Maritimes.

Arrive Here By Auto From California

Mr. and Mrs. Arthur McHarg and their sons Donald and Ray, of Los Angeles, California, have arrived in the city, and are the guests of Mrs. McHarg's brother, Everett Herrington, and Mrs. Herrington, Guilford street, West Saint John, for the summer months. They made the trip from California by auto in 18 days, and report the roads in excellent condition, with good camping grounds all along the route.

Body of Mother Home For Burial

Dr. William C. Macdonald, of Boston, accompanied by his daughter, Miss Catherine Macdonald, arrived in the city yesterday and are guests of Mr. and Mrs. H. H. Mott, 13 German street.

Dr. Macdonald is accompanying the body of his mother, Mrs. Mary Macdonald, widow of Donald Macdonald, from Boston to Central Cambridge, N. B., for burial there tomorrow. Mrs. Macdonald passed away in Boston in the latter part of February.

Funeral services will be held tomorrow at Central Cambridge. Dr. Macdonald will be accompanied to Cambridge by Mrs. W. H. White of Sussex, a sister of the late Mrs. Macdonald, and by Mrs. H. H. Mott, the former a brother, also Dr. William L. Macdonald of Boston.

He Who Gets Slapped

Rev. Arlie Brown

WHEN the Rev. Arlie Brown, pastor of the Baptist church at Thornton Gap, Ky., declared in a sermon that all bobbed-haired women were "headed straight for hell," Miss Martha Bates, 22, sitting in the congregation, took it as a personal insult, because her own hair is bobbed. She went outside the door and when the preacher came out she slapped him, twice, hard. She was arrested and sentenced to 30 days in jail, but was promptly pardoned by Governor W. J. Fields. "I'd do it again, too," she says. "Only I think I'd use my fists."

URGES LOYALIST SPIRIT AT OPENING, WOMEN'S INSTITUTES GATHERING AT FREDERICTON

FREDERICTON, June 16.—Delegates to the fourteenth annual convention of the Women's Institutes of New Brunswick, were formally welcomed to the capital this morning, when Mayor W. G. Clark extended a welcome on behalf of the City of Fredericton at the opening session of the convention in the Legislative Assembly Chambers at the Parliament buildings.

Following the chorus, "O Canada," Mrs. Elizabeth Nutter, provincial superintendent, referred feelingly to the memory of the departed Fredericton Mayor Clark, as he expressed his appreciation of the pronouncement of the Federated Women's Institute with respect to the suppression of the liquor traffic.

Mrs. Charles Forstell of Hampton, replied to the address of welcome, briefly expressing the appreciation of the Women's Institute delegates for the very cordial welcome to Fredericton, a place of pleasant memories to many of the delegates.

The report of the provincial superintendent was then submitted by Miss Elizabeth Nutter, covering the work of the Women's Institutes throughout New Brunswick during the past year. Four new branches had been organized.

PAYS TRIBUTE

Mrs. Harvey also paid a high tribute to the memory of the late Fredericton Mayor Clark, as he expressed his appreciation of the pronouncement of the Federated Women's Institute with respect to the suppression of the liquor traffic.

STUDIES TO BE CENTRALIZED AT PINE HILL

Executive Instructed to Make Change Without Delay

LEADERS AGREE

Support of Arts Work at Sackville Institution Is Pledged

Canadian Press

MONTREAL, June 16.—The general council of the United Church of Canada today approved the centralization of theological instruction in the Maritime Provinces at Pine Hill College, Halifax, the theological college of Mount Allison University to move there, and further, that the church support arts work at Mount Allison. The executive committee was instructed, in view of the great importance of these proposals for the future work in Eastern Canada, and Newfoundland, to carry them "into effect without delay, even though they involve an immediate expenditure greater than that provided for in the budget of 1926-27."

The hearty assent of the council was given after an explanation of the situation had been given by Dr. Clarence McKinnon, principal of Pine Hill, and Dr. George Trueman, president of Mount Allison.

GRANTS REQUESTED

The two colleges asked for such a grant to Pine Hill as would make it possible to carry on work there without financial embarrassment, and that not less than \$10,000 a year be given to aid Mount Allison. No sum was specified in the council's recommendation to the executive.

Question was raised by Dr. J. H. Army, Toronto. He expressed the suggested \$10,000 on the ground that it had previously been decided by council not to fix in that body amounts of financial assistance.

Principal McKinnon and Dr. Trueman then gave explanations of the case. Dr. McKinnon referred to the theological union agreement in the Maritime Provinces as the most extraneous thing that had ever been done by the colleges of the church. The institutions were 167 miles apart, and neither had previous affiliation with the other, previously represented by the church, Pine Hill being Presbyterian and Mount Allison Methodist.

DIFFICULTY OVERCOME

But the difficulties were overcome and recommendations were brought to the council, temporary, of course, "because this is Scottish blood in our veins down there, but we hope ultimately to carry them out to Dr. Trueman, whose breadth of vision made the union possible."

He trusted the council would grant the privilege of the experiment.

Dr. Trueman told his hearers that after having the theological college for about half a century it was not easy to part with it, or to convince its people that it should be taken away. In fact, Mount Allison had felt Pine Hill should come there, inasmuch as the Sackville institution was the only university of the United Church in the Maritimes.

SAINT JOHN, N. B., JUNE 16, 1926.

OUR MOTORING VISITORS.

Figures quoted in a recent issue of The Evening Times-Star concerning the number of cars entering this province last year from the United States have been the subject of comment and several citizens have questioned their accuracy.

In the article referred to, The Times-Star said that, according to a report submitted in the House of Commons, nearly half a million automobile tourists came to this province last year from the United States.

We have now consulted a publication issued by the Department of Railways and Canals containing the necessary information. This Department recently has secured its figures by checking the incoming cars at ports of entry in the different provinces, and we presume that the figures are based on averages.

This publication shows that in 1925 the number of cars which entered this province for a period of twenty-four hours was 476,835; of those which remained here for from two to thirty days was 11,982 and of those which stayed for from one to six months was 388, making a total of 488,822 for the year.

Compare that with our paucity of public utilities and lengthy communications, trains running once a day instead of every half-hour and we realize that if a car is not regarded as an absolute necessity to the Canadian countryman it is so nearly essential that the point becomes debatable. The New World is no more civilized than the Old. Circumstances have forced civilization into different channels, that is all.

Thousands of Roman Catholics in Saint John will follow with personal interest the events which will take place in Chicago next week. Thousands belonging to other churches will watch these events with sympathetic attention. The belief demonstrated in the Eucharistic Congress is certainly that which caused the main body of Protestant Churches to secede from the Mother Church; nevertheless it is only he who is incredulous of all but conclusively proved facts—and when a fact is proved it becomes a matter of knowledge, not belief—who is unwilling to concede to others a latitude of faith he does not allow himself. Whatever be our tenets, the Eucharistic Congress must impress all as a wonderful manifestation of adherence to spiritual doctrine.

If anybody knows of a tower mounting a Big Bertha and a few Lewis guns, he may have the luck to find nearly 10,000 gallons of mash and 600 gallons of alcohol, not to speak of a few stills and distillery engines like they did in California. But don't pose as the owner of a trout farm while lurking in the vicinity, the alibi is weak and did not save Mr. Luchetti from arrest.

Who cares whether or no there be a tree in Guatemala that yields milk. We have in New Brunswick trees which provide almost everything we need from alcohol to silk stockings, so why deprive the cow and the pasteurizers of their only chance to make a living?

Seize a letter in the Yarmouth Mercury about sending young people out here for the sum of three pounds, I would like to say they had fat better keep where they are for there are thousands of starving people out here. You would have felt sorry to have seen them lined up for a meal. There were twenty thousand in Toronto alone, and to be in the cold without food is pretty bad. This has been a long winter and if emigrants have no money when they land or something they had better starve in their native land, for nine out of ten people who came from the old land cannot work on these farms. After twenty-four hours and could send a lot more. Yarmouth is my home town and my brother sends me the Mercury every week, so I hope you will publish this letter. My advice is to keep the young blood at home and boost the fishing trade, not send them out to a country to freeze or starve to death.

In November last, while riding in a street car to West Toronto, a representative of The Times-Star fell into conversation with an Englishman, still young in years. The man has come to Canada as a boy, worked several years on a farm near Toronto, and then secured a situation in the city. He now has a wife and children, owns his house, has permanent employment, and a small bank account. He said in substance: "When I put on my best clothes and go out, I am as good as anybody—for there are no class distinctions—Canada is the country for me."

This man's experience should be sufficient answer to the starvation story, but unfortunately people in England do not hear about it, while the misfit who maligns the soil and climate of Canada rushes into print and creates a prejudice not easily overcome. There is more reason for an educational campaign in the Mother Country, and perhaps a more careful selection of immigrants so that the misfits and slanders be kept out of the other side.

ONE OF THE REASONS. One of the reasons why Canada does not get more immigrants from Great Britain is found in the following letter from Toronto to the Yarmouth (England) Mercury of May 22, on conditions in the Dominion:

CIRCUMSTANCES AND CIVILIZATION.

Referring in particular to the motor car, Agricultural and Industrial Progress in Canada, published by the C.P.R., says: "What the world considers luxuries have come in the new by being accepted as indispensable facilities." This is one of those true statements which are none the less misleading by implication. It conveys the impression that this side of the Atlantic leads the other in the matter of the amenities of civilization. In point of fact, the motor car is just one of those things which in Europe is regarded, and rightly, from quite a different angle. The Old World has in general such a network of railways, such a jostling of cities from which radiate into the country trams, buses and common carriers, which are analogous to our express services, that the ownership of a car is in most cases unnecessary. A person is unfortunate if he must walk over half a mile to be picked up and transported without delay whithersoever he desire. He is badly situated if there be no daily carrier service passing his door to convey his produce or bring his supplies. And this can be done cheaper than he could do it for himself, whereas a car is in most cases a pleasure vehicle pure and simple.

Compare that with our paucity of public utilities and lengthy communications, trains running once a day instead of every half-hour and we realize that if a car is not regarded as an absolute necessity to the Canadian countryman it is so nearly essential that the point becomes debatable. The New World is no more civilized than the Old. Circumstances have forced civilization into different channels, that is all.

Just Fun

MANY FLIRTATIONS

I'm in a terrible funk. A fellow wrote me a letter saying he'd follow me if I didn't keep away from his wife. "Why don't you keep away from his wife?" "He didn't sign his name!"—London Opinion.

SHOUT THESE OFF THE HEEN HOUSE

YOU'RE so crooked you'd steal the cream out of coffee. From the cool look you give me you'd think I was the snow in the two orphans. You're as small as a microbe's eyebrow. Pick up your hoop and roll away. Pull the lake over your head you can't get any wetter. You're nervous enough to give a fish swimming lesson. As a dancer, your feet are musical—both flat.

You're as useful as a flapper on a farm. You're so dumb you think a pipe dream is a plumber's nightmare. Blow along with the rest of the wind. AFTER kissing a girl it is hard to realize she uses the same lips for eating purposes.

THE MAN BEHIND THE SMILE I don't know how he is on credit, I never heard him say, But he's got a smile that fits his face. And he wears it every day. If things go wrong he won't complain. Just tries to see the joke; He's always finding little ways Of helping other folk.

He sees the good in everyone. Their faults he never mentions; He has a lot of confidence In people's good intentions. You soon forget what ails you When you happen 'round this man. He causes a case of typhoid Quicker than the doctor can.

No matter if the sky is gray, You get his point of view; And the clouds begin to scatter, And the sun comes breaking through. You'll know him if you meet him, And you'll find it worth your while. To cultivate the friendship of The "Man Behind the Smile."

SHORT—"I say, old man, can you lend me a liver?" "Impossible. I've tried to lend you money several times, but you always seem to look upon it as a gift."

THREE O'CLOCK IN THE MORNING OFFICER: What are you doing here at this hour? Stranger: I forgot my key, officer, and I'm waiting for the children to come home and let me in.

ISN'T it funny that when a doctor treats one he always has to pay for it, doesn't he? One doesn't!

DINNER STORIES THE guests at the boarding table were discussing diets. "I lived on eggs and milk for two months," remarked one lady, "and I actually gained ten pounds."

THE sweet young thing entered the public library and inquired whether "The Red Boat" was in. "We've no book of that name," she was told. "Oh, I'm sorry," said the girl. "I made a mistake. I mean 'The Scarlet Launch.'"

TWO salesmen were swapping tales on the relative faults of two of our prominent railway systems. The first traveler finished up by saying, "On my last trip through here it was so smoky that we had to leave the door at the rear of the coach open in order to let the smoke out."

"Renouncement," by Alice Meynell. And in the dearest passage of a song.

Oh, just beyond the fairest thoughts that endure as long, as anything in any age. Mrs. Meynell, who lives in London, will hold a place in English letters comparable with that of Christina Rossetti and Mrs. Browning.

I must not think of thee, and tired yet strong. Their faults he never mentions; He has a lot of confidence In people's good intentions.

Queer Quirks of Nature

By ARTHUR N. PACK President, The American Nature Association.

WHEN in the early summer we are tempted to open our windows, perhaps yet unsecured, that we may enjoy the refreshing coolness of the fresh night air, we are likely to admit a June bug or two.

These fly blunderingly about the room, and as they touch the ceiling are thrown to the floor by the impact of their wings against the surface. Sometimes we may encounter one outdoors in the twilight, flying swiftly toward some unknown goal.

People who study such things tell us that there are nearly a hundred species, but there are only a few which are recognized by most of us. In the south a bright-colored species is sometimes used as a plaything by children who attach a line thread to it, and let it fly as far as it can.

Another very common species, especially in the northern states, is the golden-bellied beetle, which is a bright golden yellow. Many people do not know that the white grubs so commonly found in the rich earth of the garden, or about the roots of the garden, or about the roots of grass on the lawn, are the young of the June beetle.

The mother beetle lays her eggs in a ball of earth at the roots of grass. When, the year or two of this sort

of life, the grubs make earthen cases in which to transform to the adult form, the skunks destroy great numbers of them, sinking little holes a couple of inches deep directly to the well-hidden morsel, which, by some keen sense unknown to us, they are able to detect.

The Very Idea!

By Mollie Chubb.

ALL AT SEA SISTER has a bathing suit. My, oh my, but it's a beaut. Kinda short, and tight, but, shoot, even so it looks real cute. Feelin' proud 'cause she's his child. She goes swimmin', thubby styled. That's what makes the wild waves wild.

NOTHER sweetie, lookin' grand, rather loaf upon the sand. Doesn't bathe, but, understand, she prefers to get real tanned. Nothin' else she'd rather do. Sits and suns an hour or two. Goes away when she is through. That's what makes the ocean blue.

STILL another little pip, goes upon a fishing trip, with her dad who likes his hip. Kind, you know, that's on the hip. Four miles out, so he should fret. Drops it in, so cold 'twill rather do. Hasn't spilled a drop as yet. That's what makes the sea upset.

Good hard work is the main thing that keeps a man from not succeeding. Most people can keep a promise just about as easy as they can a secret—which is why it's so foolish to make promises.

A man may be so close in a crowd that his wife can touch him, and so close at home that she can't. Before they were married he used to walk up and down in front of her house, too bashful to go in. Now, when he comes home late, he does the same thing, 'cause he's afraid to go in. When the drill sergeant shouted "right about face," his newest private unsmiled, "thank goodness, I'm finally right about something."

Whenever mom cooked nice fresh bread The kids rushed in for feed. Yes, that's the way they helped her in Her daily hour of knead.

Royalty's favorite flower is marigold. The number of reasons why a father and mother get little rest on a vacation trip depends on how many children they have.

He walked up to his sweetie's dad— The question that he put, Was "Can I have your daughter's hand?" Instead, he got a foot.

There's one satisfaction in getting ready to receive week-end visitors. By the time you've cleaned house, etc., you're too darn tired to spend much money entertaining them.

Takes two to make a bargain. Mother falls for it, and dad pays the bill.

BEACONSFIELD SCHOOL TAKES RED CROSS FLAG

Wins Saint John County Banner—Mass Meeting at St. Vincent's

Beaconsfield school has won the Saint John county Junior Red Cross flag for this year. It was announced at the mass meeting of the Juniors and their friends, held yesterday afternoon in St. Vincent's auditorium. The flag was presented to the winning school by Dr. J. L. Biggar, Canadian Red Cross Commissioner. A guard of honor of six pupils received the flag with due ceremony promising that it would be carefully guarded and flown upon the school staff beneath the Union Jack. In spite of the very rainy weather there were 214 of the Junior mem-

bers present in the auditorium and they took part in the program most efficiently. Miss Margaret Jones, the young chairman, Jack Moore, the secretary and the ushers for the meeting were all Junior Red Cross members from the New Albert school and they carried through their duties in a dignified and capable manner that any group would have envied.

WELCOME EXTENDED

Margaret Jones welcomed Dr. Biggar, F. T. Short, the New Brunswick Red Cross president, and Miss Jessie Lawson, Junior Red Cross supervisor, who had seats on the platform with the chairman and secretary of the meeting. Jack Moore called the roll and each Junior Red Cross branch represented answered by repeating its name and motto and the Junior Red Cross motto "I Serve," and stating how many members were present.

Those branches present were as follows: from the New Albert school, Maple Leaf, Light Bearers, Young Canadians, Loyal Workers, Busy Bees and Willing Workers; from Centennial school, Mowzyknickers, from St. Vincent's, Sunshine Fairies; from St. Thomas's Snowdrops and from Beaconsfield, Lancaster Live Wires, Busy Bees and Martello Juniors.

All of the Juniors took part in the hearty singing of the Junior Red

song, The Snowdrops and Sunshine Fairies, smaller folk in dainty white dresses with white caps, took part in a very pleasing exercise showing how the Juniors live up to their motto "I Serve."

The Juniors from Beaconsfield who were present 57 strong, presented admirably a pageant which illustrated the Junior ideals of Health, Citizenship and Service. They carried appropriate banners and symbols and wore Red cross caps and arm badges.

DR. BIGGAR HEARD

Dr. Biggar in his brief address said he saw immense possibilities for the Red Cross in Canada in years to come because of the Juniors of today. He urged the Juniors to live up to the ideals of their organization to remember that country was only a collection of individuals and the value of Canada as a nation was the value of all the individuals in Canada. He believed Canadians had one fault, they thought in terms of their own locality and forgot that Canada was larger than the United States and larger than Europe and was in fact one of the finest and biggest countries in the world today. He pointed out the responsibility of Canadians to make their country what they wanted it to be.

TALKS OF HEALTH RULES

Miss Lawson was introduced as one whom the Juniors all knew and

were very fond of. She urged the Juniors in the holidays to keep the health rules to save the pennies to help handicapped children and try always to be kind.

These were general admonitions for all Juniors in New Brunswick but for the Saint John county Juniors she had two special requests that they should use their influence to discourage spitting on the city streets and to teach other children not to destroy the trees and flower beds in the city.

Savage Washer and Dryer

From Hamper to Line In 18 Minutes

How to accomplish this—you fill your Savage Wingerless with warm water by means of the "Spin-Rinse" hose. Place the soiled clothes in the aluminum spinner-basket; touch the switch—and for fifteen minutes, rest or occupy yourself with other household duties. In using other types of washers, it is well to note, you are in constant attendance upon them—working with them every minute of the time. The Savage works all the time for you. A big difference!

How is it possible? It is simplicity itself. The fresh pure hot water from the faucet is whirled through and through the fabric at 20th Century speed; the speed of the spinner, not the force of the water does the work. No drop is used over again. Only two minutes suffice to rinse everything thoroughly.

Now, you are ready to "Spin Dry!"

To do this it is only necessary to turn off the water. In one minute more the entire load is dry for the line. Only one operation to rinse and dry, one to wash and blue. That's all.

To empty your Savage, a touch of the foot starts the AUTOMATIC PUMP EJECTOR—which in two minutes forces out the water into sink or drain. This pump, by the way, is driven by the washer motor.

Your Savage is today the only washer which comes complete with filling and emptying equipment. There are a host of other advantages besides "Spin-Rinse, Spin-Dry"—but after all, the place to prove these is in your own home, any washday, and any Savage dealer will gladly demonstrate.

Shall Miss Twenty Give a Medical Student a Ten-Year Option on Her Heart?—Which Shall Miss Sixteen Choose, Education or Dates?—What Can Be Done for the Middle-aged "Lonlies?"

DEAR MISS DIX—I am a girl of 20 in love with a boy of the same age. He is studying medicine, and will be seven years more at school. Then it will be two or three years more before he will be well enough established in his profession to be able to marry.

He lives in another city and I do not see him often. He wants me to wait for him, and that any girl is very foolish who goes into one. Try to take a cold, dispassionate, appraising view of the proposition that this young man makes to you.

ANSWER: I think that nine times out of ten a long engagement works out disastrously for both the man and the woman, and that any girl is very foolish who goes into one. Try to take a cold, dispassionate, appraising view of the proposition that this young man makes to you.

He asks you to deny yourself all the pleasures of girlhood, and to spend the ten best years of your life sitting on the anxious seat, on the chance that he will come back and get you. You are to have no beaux, no parties, no dates, no dances and parties. You are just to sit at home with mother and father and suck your thumb, instead of running around and having good times with the other boys and girls. You are expected to get all the happiness you require by just thinking about him and wondering what he is doing. Nice, cheerful prospect, isn't it?

Worse still, you are to give up every opportunity of marrying anybody else, with no certainty that he will marry you. The ten years between 20 and 30 are the years when a woman is prettiest and most attractive. They are her matrimonial harvest time, and if she doesn't make her hay while the sun of her girlhood shines she is apt to gather in a very poor crop.

Now when the ten years are up, in which you have done your patient waiting stunt, the man may want to marry you, and he may not. In the long years in which you have been separated the chances are that you will have grown very far apart. Environment and association will have changed and molded you both.

You will not come together as the ardent boy and girl of 20, but as a mature man and woman, who have learned to think different thoughts and have different viewpoints, different habits. Each of you may have had the characteristics that appealed to the other, or your tastes may have changed so that the qualities you find entrancing now will bore you to tears then. Not many of our ladies survive ten years.

Of course, people often do marry at the end of long engagements, but in most cases it is merely the paying of a debt of honor on the man's part. He feels bound to marry the girl he has kept from marrying some other man, while on the woman's part it is desperation. She has given up all other men for this one, and it is her last call to the dining car.

Don't put yourself into this unfortunate position. Don't cut yourself out of all the pleasures of girlhood. Don't give any man a ten-year option on your heart and hand. Tell the young man to go on with his studies, and that when he is ready to talk business to call around again, and if you love him then as you do now, that you will say "yes."

DEAR MISS DIX—I am a girl of 16, an orphan living with my grandmother and her husband, who is my step-grandfather. My grandmother is old-fashioned, and does not want me to have any of the pleasures of the modern girl, though I do nothing wrong, but I love to go to all the dances and parties. But she and my grandfather think that everything I do is wrong, and we fight over it from morning till night. My grandmother is so angry with me that she says I cannot live with her any longer, and that I must get out and get a job. But I want to finish school and take a business course so that I can get a good job that will lead somewhere.

Both my grandmother and her husband are leaving town in June, and I will be left all alone. What shall I do? **HOPE.**

ANSWER: I think that, as you have so much to gain by continuing your education, you had better submit yourself entirely to your grandmother and obey her implicitly until you have finished school. Of course, she is hard, and lacking in sympathy and understanding, but it is better to have the pleasures that belong to your time of life, but very often we have to bargain with conditions and make the best trade for ourselves that we can.

In your case it is not so important for you to have dates with the boys and go to parties and have good times as it is to get an education that will enable you to do worth while work later, instead of menial work that has no future to it. And if the only way that you can do this is by yielding gracefully to your grandmother's tyranny, then make a virtue of necessity and fall in with her ways.

Tell your grandmother that you will do just as she wishes, and that she will have no more trouble with you, and that there will be no more fights. And perhaps she will rescind her cruel resolution.

And remember also that as long as you live under another person's roof, you are in honor bound to repay the hospitality you receive by complying with the customs of your hosts. That is only elementary good manners.

DEAR MISS DIX—Can nothing be done for the middle-aged lonlies? There is nothing more terrible than the fate of women like me, who, in the early forties, are made to feel that life is done for them. I worked faithfully to raise a nice family of children. They have filled my whole life, especially since my husband died. They have married, and I find myself all alone in the world, with no one to look forward to seeing. No one is depending on me for happiness or home comforts. What are we to do? **A. M. R.**

ANSWER: I don't know. It is a problem that has so many ramifications that it would take a Solomon to settle it. Every solution that is suggested seems to have some fatal objection to it.

Lonely clubs have been established in many cities, but there seems no way of keeping the undesirable out, and they soon become the happy hunting ground for adventures and adventuresses, who find easy victims in the men and women who are so hungry for companionship that they accept any stranger at his or her face value.

Clubs are the answer to the problem for many lonely men, but women at best are not clubbable creatures. The domestic woman who has spent her life at her own fireside, seldom can get up any enthusiasm over golf, and she generally feels like a fish out of water, floundering around club verandas.

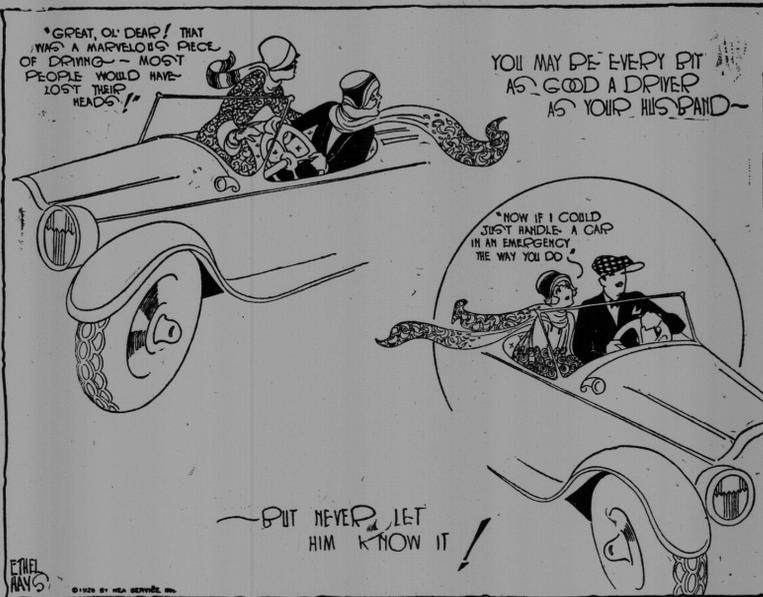

Talleyrand advised everybody to learn how to play a good game of cards in their youth, so that they might not pass a miserable old age, but you have to be born with the love of cards, as you do with a hankering for society or a passion for "causes," to get any good out of them.

Marriage as a cure for loneliness is another remedy that is worse than the disease, because after one is middle-aged one is set in one's ways, and it is almost impossible to adapt them to another's. Besides, before you can marry you have to catch your husband, and the elderly woman who does that has to go fishing with a gold hook, which not all possess.

And so, there you are. The only real cure for loneliness is to cultivate a philosophical spirit and to keep busy doing some worth-while work. **DOROTHY DIX.**

FLUTED TAFFETA DAINY TRIMMING WITH CHIFFON

Pale pink chiffon is made into a youthful dance frock when perky ruffles of taffeta are used as trimming.

Ruffled into three tiers which join each other, this frock is not only inexpensive to make, but very effective for the school girl's evening wardrobe. One of the essential features is the circle of chiffon, which encircles a low waistline and ties into streamers edged with the fluted taffeta.

At the bottom of the skirt a ruffle of the chiffon joins another ruffled effect and a band of the fluted taffeta is stitched on. The flutings can match the pink chiffon, or be selected of a contrasting or deeper shade of pink.

BEHIND THE SCREEN

A RUSSIAN had, whose father had been in the diplomatic service of the czar as minister to Lithuania, found refuge in Paris, as have so many other of his brothers in ex-nobility.

He had been brought up in the tradition of royalty. For a century his family had been titled court personages. His were the manners of the young noble.

Transplanted today into the screen representations of society, Amil Lebedeff fit like a glove. It is no secret in the Paramount Long Island studios that this young man is being groomed for stardom. It is no secret that David Wark Griffith considers him an outstanding "find" of the year. In a short time he is expected to be quite as popular as John Gilbert and to play similar roles.

Lebedeff is now playing the "devil's secretary" in the Griffith production of "The Sorrows of Satan," in which Adolphe Menjou is starred.

His family rift by the revolution, some of his kin imprisoned and some dead, he found himself in Paris, disconsolate and about penniless. He took work in a French film studio. One day he happened to attend a

movie house, where Griffith's "Isn't Life Wonderful?" was being shown.

"I saw there a picture of great suffering. I had just passed through a long period of suffering and there was a kinship between the film story and mine," he relates.

There and then he determined that he would work for Griffith and made his way to America with that purpose.

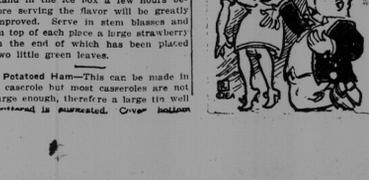

With a layer of potatoes, sliced rather thin. Add four, salt and paprika, also some onion if this flavor is not objectionable to the family. When pan is half filled add slices of uncooked ham and continue to fill dish with layers of potatoes, sprinkling in salt, flour and paprika. When pan is filled, bake in hot oven for three-fourths of an hour if a large knife can be easily removed to the platter for serving.

Asparagus on Toast—Place cooked asparagus on toast previously buttered and moisten with water in which asparagus has been cooked. Pour over it a cream sauce and sprinkle with paprika to give a rich dish.

Tomato and Lettuce Salad—On a bed of heart lettuce place half a tomato, sliced side down. Pour over it a little salad dressing and sprinkle with paprika.

Strawberry Kiss Cake—Beat very stiffly the whites of two eggs. Add one cup of sifted sugar and a little salt. Continue to beat mixture until all is one and then bake in a tin lined with paper, for three-quarters of an hour at least. Have oven very cool and keep it so in order that the egg and sugar will not melt. When baked, remove from paper, set on a cool plate and place on a platter. Over this spread a box of strawberries crushed with sugar and over all pour one-half pint whipped cream.

LITTLE JOE
THE LEADING QUESTION OFTEN LEADS TO MATRIMONY.

IN NEW YORK SEE-SAWING UP and DOWN BROADWAY

WHAT do you dance? Whatever it is, the chances are you can find a place to dance it in New York.

New-fashioned or old-fashioned, new world or old world!

LOOKING out the window of my office on a Saturday night, I can see a merry party of Greeks gathered in a clubhouse and dancing off steps that look as incredibly ludicrous as well as the Charleston must look to a Greek. There is much stamping of feet and circling and putting of hand against hand.

Just around the corner a parade of lights announces the American "Jazz dance" parlor and this parade reappears a dozen times on the way to Broadway where the entire glittering thoroughfare shrieks the invitation to come and dance, with prices ranging from a nickel a "crash" to \$10 an individual concert charge.

IN THE middle Forties and early Fifties Russians cavort in their hectic acrobatics.

Under a few blocks over to Lexington and linger about the Armenian "whiskibob" resorts after coffee and the chances are, a photograph will take up some staccato dance tune of a faraway land while the proprietors little niece, whirrs and capers.

Wander a bit farther and the sidewalks offer a vast variety of dances. Down through that section of the East Side inhabited by the Italians one may see the younger generation stepping off the Charleston while, just around the corner where a wedding party celebrates, the "oldsters" dance as in their native land.

ZIG-ZAG the side streets of the East Side—Tenth, Twelfth, Ninth to Fourteenth streets, off Second Avenue, and you will bump squarely into a "social club" where the waltz still reigns favorite—not the waltz of today, but the flowing, whirling waltz of "Blue Danube" memory.

Head toward the waterfront, in the general direction of Grand street and through the side streets thereabouts, drop into any one of the dozen Jewish and Hungarian resorts or grab a taxi and go to the "Little Hungary" of the upper Eighties and, suddenly, the music changes.

True, they must inject a little syncopation for the "moderns!" But you will hear also the fiery, almost Oriental strains of the gypsy dances!

All New York dances—and dances well into the morning! And whatever your favorite dance may be you'll find it if you have the patience of the hunter.

ADVENTURES of the TWINS

THE FORTY WINKS GREET THE TWINS

"In one of the Forty Winks," said the Eye as it looked solemnly at the Twins from under its three-cornered hat. "Didn't you ever hear of the Forty Winks of Drowey Land?"

"The name seems familiar," said Nick politely. "Where are the others?"

"They're coming," said the Eye. "This place is called Shut-Eye Town. We sleep most of the time with our hats down over our faces like this." And the Eye's queer three-cornered hat slid down until he was covered entirely—all but his arms and legs. Then it flew up again where it had been before. "But when there is the slightest noise we wake up," he went on. "I heard Shoozlesugglesmore, the gatekeeper, open the blue gate to let you in. So I came to see what was up. Here are my brothers now. I thought they would waken when they heard us talking."

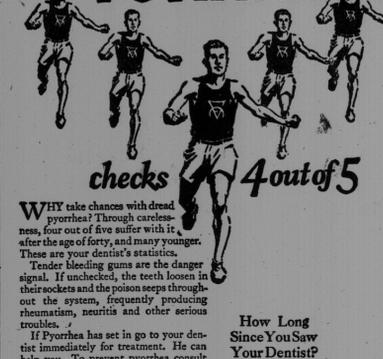

The other thirty-nine Winks now came out of the same tall tree that the first Wink had come from and stood starting in a silent row. They were of different colors, all the Winks were. Some were blue, some were brown, some black, some gray, some hazel, and some even green.

"We're the policemen of Drowey Land," said the first Wink. "We have to ask everybody who comes exactly what he is here for, if he's had the measles, whether he prefers wheat-cakes to buns, and what the earth folk think of the weather. Commence!"

The Twins couldn't help laughing, which had a peculiar effect. The hats of the Forty Winks slid down and then instantly slipped up again. No doubt they were showing their surprise.

"I'll tell you what we're here for," said Nick. "We are hunting for Inco, our china elephant door-stop. He had

WHY take chances with dread porphyria? Through carelessness, four out of five suffer with it after the age of forty, and many younger.

These are your dentist's statistics. Tender bleeding gums are the danger signal. If unchecked, the teeth loosen in their sockets and the poison seeps throughout the system, frequently producing rheumatism, neuritis and other serious troubles.

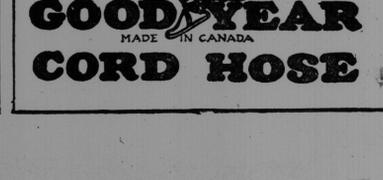

If Porphyria has set in go to your dentist immediately for treatment. He can help you. To prevent porphyria consult him at least twice a year, and brush your teeth night and morning with Forhan's Porphyria Liquid.

This pleasant dentifrice contains Forhan's Porphyria Liquid which has been used by dentists for the last 15 years in the treatment of porphyria. If used regularly and in time it checks or prevents the ravages of this mouth scourge. Start brushing your teeth with Forhan's today. It not only gives your teeth a perfect cleaning, but keeps you safe from dread porphyria's toll. All druggists, 50c and 60c in tubes.

Have you tried Bon Ami POWDER?

You'll like Bon Ami Powder. Just as you've always liked Bon Ami Cake. Women who have used it are all singing the praises of this other form of Bon Ami. The same magic ingredients in a handy, sifter-top can. Soft and scratchless, Bon Ami Powder blots up dirt without hard work. It cleans and polishes quickly, and thoroughly. Nothing can equal it for making the bathtub glisten, cleaning the refrigerator, or restoring the lustre to aluminium, copper, agate and tin. But for windows and mirrors, most housewives prefer Bon Ami Cake! Convenient in size and very economical.

REV. D. J. LeBLANC, C. S. C., President of the University of St. Joseph's College, at St. Joseph's, and a former graduate, who presides at the encenial proceedings which began last night.

English Valedictory

John F. Sheehan, of Saint John, English valedictorian, spoke as follows: The immortal Shakespeare, with his amazing insight into human nature, tells us that "one man in his time plays many parts, his acts being seven ages." Today, we, the graduates of '26, realize that the curtain is about to fall on the first and probably the most important act of our life's drama—an act which has absorbed nearly a score of years in the making—an act whose successful completion will determine the outcome of the whole performance.

LIFE'S GOAL

"Life is real, life is earnest." What a wealth of significance is contained in these simple words! We shall find them indelibly impressed on every pathway open to our future efforts.

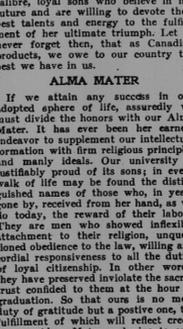

SUGGESTS MOTTO

"God and my country," the motto of the royal crest, is one that we might well make our own. We are Catholics and Canadians—the one before the other. It is true, but in Canada, more than in any other country, the two may go together in complete harmony.

DUTY TO CANADA

Wherefore, then, the steady exodus to the States, the sharp thorn in the side of our country, who call themselves Canadians and by availing across the border? Something vitally necessary is lacking in the education of those who thus mock the spirit and frustrate the aim of our forefathers, the glorious pioneers who, though confronted with gigantic obstacles, toiled unceasingly

ALMA MATER

If we attain any success in our adopted sphere of life, assuredly we must divide the honors with our Alma Mater. It has ever been her earnest endeavor to supplement our intellectual formation with firm religious principles and many ideals. Our university is justly proud of its sons in every walk of life who have found the distinguished names of those who, in years gone by, received from her hands, the best talents and energy to the fulfillment of her ultimate triumph. Let us never forget them, that as Canadian products, we owe to our country the best we have in us.

RETROSPECT

Not so long ago, in our earlier years at our Alma Mater, we sat amidst the student body, gazed in awe and envy at the graduating class and dreamed golden dreams of that great day when we too, would leave the walls of St. Joseph's far behind us.

FAREWELL WORDS

Rev. Father President and members of the faculty, your tedious and difficult task is done. Not always have we shown ourselves grateful for the untiring energy and paternal solicitude which has ever marked your bearing towards us.

A SPECIAL MESSAGE To BOYS and GIRLS

You happy boys and girls with a daddy and mother—what a good time you have! Mother makes you nice things and daddy is always giving you ten cents—a quarter—sometimes a dollar, all for yourself! What a nice world it is for you! Lots to eat; good clothes to wear; not a worry.

Boys and Girls, send at least a quarter for the Orphans

BUT HAVE YOU EVER THOUGHT ABOUT THE POOR LITTLE CHILDREN WITH NO DADDY, WITH NO MOTHER, WITH NO ONE TO CARE FOR AND LOVE THEM? OF COURSE YOU HAVE!

And you are going to do more than think about the Orphans. Why, the boys and girls of New Brunswick can do wonders when they try! Just imagine, if every Protestant boy and girl sent a quarter to the New Brunswick Protestant Orphans' Home, thousands of dollars would be raised. Perhaps enough to pay off the big amount of money the Orphanage is in debt.

Now, Boys and Girls, Just Ask Your Daddy to Give You at Least a Quarter to Send to the Orphans—He Will Give It to You Right Away, and Be Proud of You For Your Kindness. And Remind Him, Too, to Send in His Own Contribution. Fill in the Coupon.

INTERESTING EXERCISES AT MEMRAMCOOK

Continued from Page 8

An association should be to stimulate alumni to preserve in every act of their daily lives those same high ideals of broad purpose and sympathy which they gleaned from the university and its teachers; and to make the wisest use of Alma Mater in rendering its full measure of service. An alumni association must have some definite program of accomplishment in behalf of the university or else the whole fabric of organized effort would prove of no avail.

"Hence there is an obligation to formulate a program, keeping at all times the best interest of the school in mind, and to stimulate an interest among the alumni that will naturally and reasonably keep them in close touch with the plans, policies and progress of the institution. The alumnus should be made to feel that he is part of the university. He should be made to realize that the association is bigger than a social organization for the pleasure of the group, bigger than a convenient means of raising money. He should be interested in the fundamental aim of the university which is scholarship and the advancement of learning.

"It must be understood, too, that the position of the Catholic colleges with comparatively small alumni and old student groups, scattered as they are throughout our own provinces and even through the neighboring states, is not an ideal one. It will take years to perfect an efficient Alumni Association, but the foundation must be made and it cannot be made too soon.

"Let us now consider the preliminary steps to the formation of an Alumni Association. In the first place, the colleges must realize that it is by them that the first work must be done. They must interest the alumni. An alumni office should be established. Complete, correct and up-to-date records must be kept of all graduates. They should contain all necessary information as to the alumni addresses, interests, alumni and undergraduate activities. The university should know its alumni. This may seem to be an extremely obvious statement, but it is a fact that most Catholic schools know only the successful, the outstanding figure.

"They have paid too little attention to the young graduates, the man out of school five, ten or fifteen years who is just beginning to feel secure in his profession or calling and who can be an extremely valuable asset to the institution, not only now but in years to come. Too many alumni have been slighted. Too often have their requests, important or trivial, been neglected or overlooked in the conduct of more important business. The personal element and contact has been lacking.

"The one reliable medium of acquainting the alumni with the activities of the school and its men everywhere is through the publication of an alumni magazine. An informative journal, offering news of the university, public addresses and lectures of faculty or alumni, a reasonable discussion of al-

letics and an interesting section of notes about the activities of alumni of former years, is an asset to any college. A balance of news matter is essential and the educational phase of university life should not be overlooked. The alumni have a pride in the achievements of the college and their fellow graduates that can be cultivated.

"The alumni, once interested will spread the influence. With it will come an organization of local alumni clubs in centers where the number of old graduates permit. While the first aim of an alumni club is usually social, it is significant that almost invariably upon the heels of organization comes the desire to enter into some definite field of service. Generally, one of its first aims is to establish scholarships for the education of worthy boys desiring a college training. Also it aims for the promotion of a proper relationship between the local high school and the university by means of meetings and various activities. Finally, interesting the proper type of high school youth in the college is another commendable phase of alumni work that has had much material success and this should be actively sponsored by the local association.

"With a definite program of activity, an interested club membership and a representative group of officers, a local alumni club can be a factor in Catholic community life. For, as regards alumni work, the field is unlimited. Moreover, if the Catholic college is to continue its advance in higher educational circles, an alumni interest and co-operation must be solicited and obtained. The Catholic alumnus, if he is to reflect his college training in everyday life, must accept his obligation to Alma Mater, recognize his privileges as a graduate and support his institution.

"A moderate amount of organized alumni loyalty is worth more than an unlimited amount of unorganized goodwill. When the Catholic alumnus and the Catholic college realize this fact and reasonable efforts are expended to achieve results, Catholic educational institutions will be strengthened.

"In conclusion, I might add that all which I have previously said as regards alumni associations may be applied to any university in the Maritime Provinces and consequently to our own University of St. Joseph's. Therefore, I appeal to all the old graduates of this institution and also to those, who on the morrow will become members of the alumni, that they heartily and earnestly support the reorganization of the alumni of our university, which reorganization I trust will be made in the near future, and that in the years to come the University of St. Joseph's College may boast of a real, active Alumni Association, functioning to the best interests of the university and of the graduates themselves."

Dr. Baxter spoke first in French thanking the faculty for the invitation to be present. Addressing the assembly in English he remarked that after four years at Ottawa he had learned to value brevity. Formerly he had been prevented from attending by business in future, with perhaps more time, he could come often and would be pleased to. "I come because I like it and enjoy smiling faces of boys."

Referring to the graduates he hoped they would return. He spoke of them leaving college to enter a world little known by them, and which few knew well. There was nothing more important in Canada than a good understanding among people; there is room for everybody, so let us build up shoulders of race or creed, he said. He hoped the graduates would remain in Canada which offered fine opportunities to all.

He would like to see a repetition of this bilingual night in English speaking parts of New Brunswick and advised English-speaking friends to come and take back the message of unity which St. Joseph's offered. He congratulated the congregation of Holy Cross for pursuing a policy vital to Canada.

Judge LeBlanc, Hon. A. A. Dyzart and Hon. A. J. Leger congratulated the debaters on the excellent showing they had made. The speakers also praised the president of St. Joseph's, Rev. Father LeBlanc, for his successful administration.

HALPORT IS SENT UP IN CHECK CASE

Is Committed by Magistrate on Charge in Connection With \$75 Check

Samuel Halport yesterday afternoon was sent up for trial by Magistrate Henderson on the charge of obtaining money and goods from Samuel Goldfeather under false pretences. Following the taking of the evidence of W. A. Fisher, manager of the bank where the check was cashed, the case was closed for the prosecution and counsel for the defence moved for dismissal, which was refused. The accused then pleaded not guilty and was sent up for trial by the magistrate. It is probable that he will be tried sometime this week under the Speedy Trials' Act.

The only witness heard yesterday was W. A. Fisher, manager here of the Dominion Bank. He identified the accused, who was introduced to him by S. Goldfeather as the latter's cousin, M. Goldfeather. The accused handed the witness a check which he asked to be cashed. The witness handed the check to S. Goldfeather to be endorsed. The latter did so without looking at the face of the check. It was for \$75 and was drawn on the Springfield Na-

tional Bank and sent to the First National Bank, Boston, for collection. It was returned marked "No account." The bank looked to S. Goldfeather to make good the amount because of his endorsement. He had not done so yet but had given the bank a note for the amount, the witness said.

There was a short cross examination by Mr. Ross, following which the case for the prosecution was closed.

DISMISSAL REFUSED.

Mr. Henneberry then moved for dismissal on the grounds that no case had been made out to justify the sending up of the accused for trial. Magistrate Henderson refused to grant this motion and asked the accused to plead, who then declared that he was not guilty. The magistrate then declared the evidence sufficient to send him up for trial and so ordered.

TO SUPREME COUNCIL.

George D. Martin left this morning on the Governor Dingley en route to West Baden, Ind., to attend the annual session of the Supreme Council of the Royal Arcanum. He will be the only representative from the Maritimes attending the annual convention.

IS RECOVERING.

The friends of Robert Logan will be pleased to learn that he is rapidly recovering after an operation for appendicitis and was enabled to leave the General Public Hospital yesterday and return to his home 41 Cedar street.

Protection Means Comfort

You can make your home a real summer resort—with all the comfort, and none of the inconvenience—by having the protection of complete screening.

Screen every door, window and verandah—then live in cool luxury without a fly, mosquito or insect to disturb you. EXTRA good health through real sleep and undisturbed rest more than pays for the small cost of screen protection.

While enjoying this summer comfort you can be happy in the knowledge that when you keep out flies you are keeping out disease. The small annoying house-fly is more than a nuisance—his dread germ carrying habits make him a menace to health—sometimes even to life itself.

There is only one positive protection—that is to screen every entry to your home. TO-DAY, measure every door, window and verandah, then talk it over with your local Hardware Merchant—he has a screen for every purpose and you will be surprised at how little they cost.

Cox-Silliphant.

The marriage of Miss Alice Silliphant, daughter of Mr. and Mrs. William Silliphant, of 270 Chesley street, and Byron F. Cox, son of Mr. and Mrs. Frederick Cox, of West Saint John, was solemnized last evening at the residence of the officiating minister, Rev. R. S. Crisp, Douglas avenue, in the presence of immediate friends and relatives. The bride looked charming in a grey and rose gown with hat to match. She carried Ophelia roses. The bride was attended by her cousin, Miss Hazel Morissey, who was becomingly gowned in a green dress with hat to match and carried a bouquet of sweet-heart roses and lilies-of-the-valley. Frederick Cusack, cousin of the bride, was groomsmen. After the ceremony the bridal party motored to the home of the bride's parents where a wedding supper was served. Mr. and Mrs. Cox

Low-Pressure Treads of Dominion Royal Cord Balloons solve a vexatious problem.

Engineering Science gave to the world the riding comfort of Low-Pressure Balloon Tires.

Royal Cord engineers gave to Canada Low-Pressure Treads, which assure to Balloon Tire users all the riding comfort of low inflation without undue wear on the tires.

Dominion Royal Cord Low-Pressure Treads, with six protecting rows of tread blocks, make a continuous flat "footing" for the tire, which not only takes all the road friction—thus protecting the side walls of the tire—but gives greater traction, less liability to skid, longer wear and all the comfort of true low-pressure inflation.

Dominion Royal Cord Balloons are built with Latex-Treated Web Cords, giving extra mileage without adding to your cost.

Latex-Treated Web Cords

Patented and used exclusively in Dominion Royal Cord Tires. Each cord is saturated with pure Latex (milk of rubber) and the cords are held together flat and evenly in a web of Latex without cross-tie threads. Friction and internal heat, the greatest enemies of tires, are eliminated.

Retail Merchants' Association President Writes to Common Council

CONTRACTS GIVEN FOR COAL SUPPLY

Discount Date for Water Rates September 16—Hose Purchase Authorized

Tenders for coal for the ferry, harbor and water and sewerage departments and for hose for the fire department were accepted at the meeting of the council yesterday afternoon. Street conditions and early closing by-laws were other matters called to the attention of the members of the council by communications received.

No. 2 salvage corps wrote that the resignation of A. S. Walker had been received and his warrant was ordered cancelled.

A report from D. I. McRoberts and W. E. A. Lawton that they had agreed on a valuation of \$7,700 on the property of E. P. Watson, King square, was read. The communication was referred to the chairman of the board of assessors.

OVERASSESSMENT, IS CLAIM

W. R. Scott wrote that the firm of Taylor & White had been overassessed \$796.90 on the old mill site, Lansdowne avenue, and asked that this amount be credited on their 1926 tax bill. This was referred to the Mayor for a report. The building, they claimed, was destroyed by fire some years ago but they had still been assessed on it.

A communication from D. Magee, president of the Retail Merchants' Association, suggesting that the principal streets be flushed at least twice a week at night, was referred to Commissioner Frink for a report.

D. E. Andrews wrote complaining of the unsatisfactory condition of Metcalf street extension and this was referred to Commissioner Frink for a report.

The application of Walter S. Freeze to be appointed a constable was referred to Mayor White, with power to act. A. E. Everett wrote asking that the council amend the early closing by-law relating to furniture stores to bring it within the act and this was referred to the Mayor and city solicitor.

On motion of Commissioner Wigmore, Sept. 16 was set as the discount date for the payment of water rates for 1926, a discount of 5 per cent to be given on all bills paid on or before that date.

COAL TENDERS

On motion of Commissioner Bullock the tender of the Colwell Fuel Company for 3,000 tons of coal for the ferry at \$6.75 a ton was accepted. This was the same price as quoted by R. P. & W. F. Starr but he had found the coal supplied by the former company the more economical. The tenders of the Colwell Fuel Company of \$7 a ton and R. P. & W. F. Starr of \$7.60 a ton for soft coal for the harbor department and of J. S. Gibbon & Co. for hard coal of \$18.50 and \$18.75 a ton, were accepted for the harbor, ferry and water and sewerage departments.

On motion of Commissioner Harding he was authorized to purchase 300 feet of hose at \$1.60 a foot from each of the following firms: Dominion Rubber Co., Dunlop Tire & Rubber Co. and Good-year Tire & Rubber Co.

Commissioner Harding was given authority to pay a bill of \$28.12 for repairs to the exhibition building.

GOOD SHOWING BY FAIRVILLE CADETS

Boys Win Praise of Colonel Snow at Inspection on Tuesday

The inspection of Fairville cadets was conducted yesterday by Col. A. B. Snow, Eric Snow and Sergt. Major Simonds. Every boy of cadet age who is a member of the school is enrolled in the cadet corps and every cadet enrolled was on parade for inspection, including Glendon McCaughan, of Milford school. As there is no cadet corps in Milford Glendon McCaughan has joined with the Fairville corps. The present cadet year has been one of the most strenuous, baseball, softball and junior and senior track teams having all been entered into by the cadets and athletics having proved very popular. In the provincial rifle competition for cadets last October, Murray Phillips, of Fairville, was one of the three winners of medals at 100 and 200 yards. Colonel Snow said yesterday that the physical training as exhibited by the Fairville cadets, was the best he had seen this season. He also paid a tribute to the officers for their splendid training of the cadets and praised the cadets for their fine showing. The officers of the corps are Capt. Charles Cheeseman, Lieut. Donald MacPherson, Lieut. Allison Allan, Lieut. Ronald Heusals, Sergt. Russell Webb, Sergt. Russell Byers and George Stackhouse. The Fairville cadet corps has been organized for three years. L. N. Fanjoy, principal of Fairville Superior School, has been instructor and coach. William Harris has been the very efficient signalling instructor for the last two years. Two of the members, Donald MacPherson and Glendon McCaughan, are taking the Morse signalling course and will be examined on Friday afternoon by Col. Powers, who will also examine the members, who are taking semaphore signalling.

CARLETON PROSPEROUS.

WOODSTOCK, June 15—The summer session of the Council of the Municipality of Carleton county was opened here this forenoon at the Court House, Warden Chas. Clark, Woodstock, presiding. Warden Clark spoke of the increased prosperity of the Carleton county farmers since the date of the last meeting in January, a condition enhanced by the unusual price commanded by potatoes.

APPEAL FROM BAN ON PICKETING SEEN

TORONTO, June 15—Indications are that efforts will be made by labor leaders of this city to have a judgment rendered by the British Privy Council regarding the decision of the Supreme Court at Ottawa yesterday, declaring that peaceful picketing in the course of a strike is an offense in Canada. It was stated that an appeal to the Privy Council on the case of *Renevs vs. The King*, which brought out the Supreme Court judgment, will likely be filed.

MEIGHEN IS 52 TODAY.

OTTAWA, June 16—Rt. Hon. Arthur Meighen, Conservative leader, celebrates his fifty-second birthday today.

LIQUOR AUTO IS CAPTURED NEAR HARTLAND

HARTLAND, N.B., June 15.—Customs excise officials succeeded in capturing an automobile containing from 60 to 70 gallons of liquor, just beyond Florenceville, this evening, but

second automobile, which was accompanying the first, made good its escape, going north. The two men in the captured car endeavored to elude capture but were finally run down and have been taken to the county jail at Woodstock.

The driver is named Rosignol and hails from St. Hilaire, and his companion, whose name was not known, is believed to belong to Buctouche. The capture of the first car was effected by means of a barricade across the road but the second car managed to break through the obstruction. Officials in the north of the province were notified immediately and it was thought probable that the second car might be captured before midnight. The capture of the first car was due to the quick action of Customs Inspectors Gaudreau, Ross and Aklerley, of

St. Leonard, who had made a seizure of 160 gallons of alcohol six miles from St. Leonard at noon and were bringing in the wet goods in two automobiles. They spotted the two run-running cars two miles south of Hartland going north and sent word back from Woodstock to have a barricade erected and round them up at Hartland.

The message was sent to John Murdoch, towns marshal at Hartland, but before he could act one car had passed through Hartland. The customs men from Woodstock in hot pursuit were finally able to take the first car at Florenceville where a barricade had been put up and proved a pitfall for the leader of the two automobiles. The two men in the captured car jumped out and took to the fields but were soon brought in. They were taken to the Woodstock jail by Sheriff Tompkins, of Woodstock. Inspector Gaudreau stated tonight that the men driving the two cars were

Camile and Emile Roignol, of St. Hilaire. It is not known which of the two is the one now in jail and which is the driver of the car that negotiated the barricade successfully.

BISHOP OF NAMUR REACHES NEW YORK.

NEW YORK, June 15—Mgr. Thomas L. Heylen, Bishop of Namur, who will preside at the Eucharistic Congress, arrived at the Pennland today, accompanied by several other distinguished Roman Catholic churchmen. It was the first time Bishop Heylen, who has presided over Eucharistic Congresses for 20 years, had set foot on North America soil since he presided at the congress at Montreal.

BISHOP BIDWELL TO SEE SON IN HALIFAX

MONTREAL, June 15—"I am just waiting around, I have nothing in view for the present," remarked Bishop Bidwell, of Kingston, former Anglican Bishop of Ontario, who resigned from that church position recently, when seen at a local hotel here today. Bishop Bidwell is accompanied by Mrs. Bidwell. They are on their way to Halifax to visit their son. At the conclusion of their visit to the Nova Scotia city, Bishop Bidwell will spend the summer months at Metis, Que., and intends to take charge of the Anglican church there for the summer months.

The steamer *Manchester Commerce*, cleared yesterday for Philadelphia, where she will load general cargo for Manchester.

Recognized Quality

THE large number of motorists who can afford to buy any make of car, and yet drive a Ford by choice, is a tribute to the car's intrinsic worth.

Simple in operation, built to a high quality standard, and maintained by a superior service organization, Ford products appeal to the most discriminating.

For twenty-one years Ford has maintained this standard of quality, which fact has been recognized by over twelve million owners.

TALK OF MARATHON HERE WITH MILES AND DEMAR COMPETING

MUCH DEPENDS ON RESULT OF HALIFAX RACE
Local Men Watching Developments of July 1 Event

A SUGGESTION was made today that efforts be made locally to stage a long distance race here about the middle of July with such international stars as Clarence DeMar, Boston, and Johnny Miles, sensational Cape Breton youth, competing. DeMar leaving Montreal, Miles talked with DeMar about the possibilities of a race in Halifax on July 1, and said he would be willing to come down for a race of not less than 15 miles. It is likely something of this nature will be attempted and while DeMar is down here, the opinion has been expressed that a race be arranged following the Halifax affair for Saint John.

CITY REPRESENTED
Saint John would have representatives of its own in the race here, including George Sprague. Sprague, it is learned, will likely compete in the Halifax race.

Canadian Girl Athletes Are Invited To Attend Big Meet In Sweden

PREPARATIONS FOR LOCAL MEET MOVING AHEAD
Many Entries Are Being Received From Outside Points
CANADIAN girl athletes have been invited to attend the Women's international games at Gothenburg, Sweden, on August 28, 29 and 30, but, owing to the shortness of notice, it is unlikely that a Canadian team will be sent, according to word received here from Toronto headquarters of the W. A. A. P. The program for these games is similar to that used for Canadian meets and includes the 100 yard dash, the hurdles, running long jump, throwing the four-pound weight, javelin and discus throw and basketball. Finances largely hinder any Canadians being sent. The holding of the games and the fact that Canadians are busy with preparations for the first girls' meet here on Saturday afternoon on the Allison grounds.

NELSON TO PITCH IN GAME TONIGHT

EARL NELSON and the Saint John team will take another crack at the champion Water Department team on the North End grounds this evening, and in view of the trouncing given the Watermen by the Trojans this week, the outlook is none too good for the Blueholders. In addition, it is likely they will be without the sterling services of Snodgrass at first base, he being out of town. Hannah will pitch for the Watermen and they need the game to keep out in front in the league race. Another big crowd is expected, morning and in the afternoon worked out lightly. Roy also worked out lightly yesterday and reported himself as feeling in and within the 128 mark.

CAPPELLI, SINGER, LAUDS PROVINCE

Says New Brunswick Scenery Excels Anything He Has Yet Seen

Mario Cappelli, world celebrated tenor and a Metropolitan Opera artist, who is engaged to appear at Queen's Hall, London, Rome, Naples, and in Spain during the months of July and August, and who has sung at the funeral services of President Woodrow Wilson and President Harding, is at present in the city.

"I was a little afraid when I first set out for New Brunswick," said Cappelli last night, "my friends had told me that this was a country of ice and snow and before my arrival in your province I thought it must resemble the North Pole. However, in all my travels in Switzerland, France, Germany and the beautiful country of Italy, I have viewed no scenery to compare with what you have here. Your forests are for the artist's brush."

Signor Cappelli's parents were natives of Naples, Italy, but removed to the United States some years ago. Cappelli was born in America but was taken to Italy when four years of age, by his mother. At Rome, when still a child, he heard his first opera, "Faust." He became a member of the Vatican boys' choir and sang at the Vatican for a number of years.

It was during the war that Cappelli met the late Enrico Caruso. While a member of a military band at a training camp at Dicks New Jersey, Caruso appeared there in concert work. Cappelli was introduced to the great tenor and he predicted that Cappelli would soon be able to sing his (Caruso's) roles, if given the proper training.

Arrangements were subsequently made for Cappelli to journey to New York from camp Dicks twice each week for instruction. Cappelli, who interviewed last evening, told the story of one riding some 300 miles on a freight train to hear Caruso sing in New York.

TO EUROPE IN JULY

Cappelli will sail for Europe in July and will make an eight weeks' tour of the continent. He said last night that he would return to the United States in October to fulfill engagements with the Chicago, New York and Philadelphia opera companies and would later make an extended tour of the United States. The artist also remarked that he would like nothing better than to visit the Maritime Provinces once more. He said he was very much taken with the hospitality of New Brunswick and Nova Scotia people.

PREVENTS SCENE

ROME, June 15—Quick thinking by two Vatican gendarmes prevented a painful scene while the Pope was passing through the Basilica of St. Peter yesterday afternoon. It became known today.

As the Pope was proceeding through the church, a young prelate suddenly began in a loud voice to express sac-

rigilious remarks, jumping upon a chair and gesticulating toward the Pope.

The gendarmes, instead of attempting to eject him, occupied his attention until the Pontiff had left, and then arrested him and turned him over to the police. An inquiry indicates that he suffered a sudden attack of insanity.

BALDWIN'S PLAN MEETS OPPOSITION

LONDON, June 16—Premier Baldwin's new plan for settling the coal strike is not liked by Ramsay MacDonald, former Labor premier, and A. J. Cook, secretary of the Miners' Federation, any more than by the Laborite members of parliament, who attacked it in the House of Commons yesterday when the premier was outlining it.

In a speech delivered at Aylesbury last night Mr. Cook said the premier, in suggesting a partial suspension of the seven hour's work act, which now governs the working hours of the miners' advocate.

"If he believes the British public wish the miners to go back to longer hours, and smaller wages, why doesn't he test it and appeal to the country?" he asked.

GIFTED WOMAN DIES

Mrs. George W. Daniel Dead at Sussex—Funeral Tomorrow Afternoon

Special to The Times-Star
SUSSEX, June 16—The death occurred at Sussex on Monday evening of Mrs. George W. Daniel, wife of G. W. Daniel, who was the first manager of the Bank of Nova Scotia in this province, in 1857. In 1879 she was married to Mr. Daniel in Yarmouth, N. S., and leaves beside her husband, two sons—Harry M. of Kansas City, and Roy L. of Woodstock, N. B. One son, Kenneth, died in infancy.

Mrs. Daniel was a very gifted woman. She was a painter and etcher and excelled in music. She was a writer of notes, as well as an accomplished pianist. Mrs. Daniel had been in delicate health for several years, and had lived in several different localities in hope of bettering her condition, but without avail. Finally her heart became affected. The funeral will be from Trinity church Sussex on Thursday afternoon, June 17, at 2:30 o'clock.

Successful Complexion Renewing Treatment

A treatment for sallow, muddy, freckled or blotchy complexions that is always successful is the application of ordinary Mercolized Wax. This is sure to succeed, for the simple reason that it literally takes off and discards the old complexion. The wax possesses the peculiar property of absorbing the worn-out, faded or discolored surface skin, coming off a little each day, in fine, almost invisible particles, that no inconvenience or discomfort is experienced—and the most careful observer cannot detect the use of this treatment.

MILTON SILLS in
"THE UNGUARDED HOUR"
With DORIS KENYON
Sixty Thrills of Life and Love Crowded Into Sixty Golden Minutes of Romance and Daring.

WE WILL NOT SPOIL AN EXCELLENT PICTURE BY TELLING YOU THE STORY, but we will say that Miss Kenyon answers the question most satisfactorily. She takes Sills, who has the role of an Italian duke, indifferent to feminine charms. But in the end he succumbs, and the manner in which the character is played by Miss Kenyon brings about all this, furnishes enough thrills, laughs and heart interest to satisfy any motion picture fan. Sills, as ever, is excellent in his characterization of the Italian duke.

Mrs. Stella Simpson, Lower Coverdale, Dead

MONCTON, June 16—The death of Mrs. Stella Simpson, wife of Alonzo Simpson, occurred last evening at her home in Lower Coverdale, after an illness lasting more than a year. Mrs. Simpson, who was 22 years of age, was born at Lower Coverdale, and is survived by her husband, one child about a year old, her father, Ward Lutes, one brother, John and one sister, Hattie, of Lower Coverdale. The funeral will be held Thursday afternoon at 2:30, interment taking place at Mud Creek cemetery.

AUTO OUTPUT GROWS

Production For April This Year 13 Per Cent. Higher Than Year Ago
OTTAWA, June 18—Production of automobiles in Canada during April, says the Bureau of Statistics, totalled 21,562 in number and included 16,799 passenger cars, 2,709 trucks, 1,982 chassis and 12 taxicabs and busses. This output was four per cent. below the production of 22,374 units in March, but was 13 per cent. above the 19,059 units reported for April of a year ago.

YOU MEAN TO SAY YOU KNOW WHAT TAGALONGS GOT IN THAT BOX?
WELL, SURE! I SHOULD SAY YOU'LL BE STRIPPED OSCAR!
I'M DYIN' TO SEE WHAT IT LOOKS LIKE ON HIM!
YES-I CAN'T IMAGINE HIM AS ANYTHING LIKE THAT.

That's That!

WELL, YOU SHOULD GET A GOOD PRICE FOR THEM—THEY LOOK AS THOUGH THEY WERE IN SPLENDID SHAPE—
SURE, THEY ARE. I'VE OWNED A LITTLE BIT WHERE WE CARVED 'EM UP. THE INSIDES ARE JUST AS GOOD AS NEW.

MACGREGORS

There's no game that requires more highly specialized equipment than golf.

Your Clubs must be exactly right in length, balance, weight, and "feel"—and in this case the last is not least. It takes experience to know how to give a club that all-important subtle something we call "feel". It is this that breeds confidence—and it is confidence that wins games.

Balls also must be right or you won't get the proper distance, direction or durability. It's easy to be certain you have the proper equipment. Thousands upon thousands of golfers using MACGREGOR Clubs testify to their supremacy.

Step into our store today and look over our line of MACGREGOR golf goods. You are always welcome and perhaps you'll also find some of our other lines of merchandise interesting.

JOS. GILBERT LOST IN WOODS WHILE FISHING

Spends Night Alone While Storm Rages at Lepreau

MORNING SUN IS GUIDE TO ROAD

Alarm Sent to City to Family—Searching Party Out

TO SPEND all last night lost in the woods near Lepreau was the harrowing experience of Joseph Gilbert, of 68 Union street, Saint John, as the climax of a fishing trip began yesterday morning. Mr. Gilbert came out of the woods this morning about 8 o'clock weakened by his trying experience and arrived home about 11 o'clock.

FATHER NOTIFIED.
Mr. Gilbert, accompanied by Roy Thorne and Gregory Hages, left about daylight yesterday for the Lepreau River in Charlotte county. The first intimation that anything was wrong was when a telephone message was received about midnight by Mr. Gilbert's father, Harris Gilbert to the effect that someone should go down at once in a car as something was wrong with Joseph, but it was not said what the trouble was.

BROTHER RESPONDS.
Ernest Gilbert, brother of Joseph, left for the scene, accompanied by Max Brager. The next word received was when Miss Annie Gilbert, a sister, answered the phone and received a message that "Joe hadn't been found yet."

As the news of his being lost had been kept from her she naturally received a severe shock as she had not known that her brother was missing. About 8 o'clock this morning, Leo Gilbert, a cousin, who had also gone to Lepreau, telephoned that everything was all right; that Joseph had been found, but was weakened and would have to recuperate before coming home.

SEARCHING PARTY OUT.
Detective Herbert Kilpatrick, of the city police force, also went down last night to aid in the search. It was found that a party of about 50 had turned out in an effort to locate the missing man.

Mr. Gilbert said it was about 6 o'clock last evening that he knew he was lost. He thought the wisest thing to do was to spend the night without further effort to get out. The others had thought that he had returned to the camp owing to the fact that they arrived there and found that Mr. Gilbert was missing they could not do much, as they were pretty well fatigued themselves following a strenuous day of fishing. They, however, instituted a search. Mr. Gilbert said he had heard the discharge of guns and had replied by shouting, but could not make his voice heard a sufficient distance.

In the meanwhile he was becoming fatigued, and his clothes were soaking wet. He thought it best to stay where he was and wait for daylight. It took him about three hours to get out of the woods, and his clothes were torn to shreds.

Mr. Gilbert said he felt none the worse for his experience now that it was over.

H. E. MAGNUSSON TO GYRO MEETING

Local Vice President to Leave Tomorrow For Big Gathering in Winnipeg

Harry E. Magnusson, vice president of the local Gyro Club, will leave on Thursday for the annual Gyro International convention in Winnipeg, to be held the week of June 21. Mr. Magnusson expects to be away about two weeks. At Montreal he will be joined by the delegates from the Halifax and New Glasgow clubs, and accompanied by Gyro Governor Arthur T. Smith of Halifax, will proceed to Chicago, where a special train will convey all the delegates from the eastern Canada and United States clubs to Gyro's greatest gathering. The Winnipeg club has arranged for at least 1,000 delegates.

This is the second year in succession that the annual convention has been held in Canada. Last year it was held in Vancouver. The Maritime delegates will be accompanied home by one of the international officers, who will proceed to Moncton to install a club already formed and flourishing there.

SAINT JOHN GIRL WEDS IN S. AMERICA

Miss Eileen Turner Bride of William Campbell—Now on Way Here

An announcement of interest to many in Saint John came by cable this morning to Mr. and Mrs. J. H. D. Turner, Paddock street—the marriage of their daughter, Miss Eileen Turner, R. N., to William Campbell, which took place in Colon, Colombia, South America. The cable also brought the word that they are on their way home to Saint John by way of New York.

The bride has been in South America for about a year, and has been superintendent of the hospital of the Tropical Oil Company. The bridegroom is a Montreal young man, engineer with the same company.

ON DUTY AGAIN.
Wilson Dalton, city court clerk, who had been spending a two weeks vacation at his residence, in Renforth, was back at his desk this morning.

The prize winners were: Ladies, first, Mrs. J. P. Daley; second, Mrs. H. A. Hopper; Gentlemen, first, J. Joseph Mitchell; second, Spiegitt; third, Arthur Mitchell. The door prize was won by Miss Beatrice Murphy.

SENT TO JAIL
Found guilty in the Police Court some days ago of assaulting and using abusive language to his wife, John Janelson, who was remanded at that time, was brought before Magistrate Hensley this morning and asked if he had secured sureties to keep the peace. He replied that he had not had opportunity. He also had been found guilty of being drunk and this morning was fined \$8 or two months in jail on that charge. He was sent to jail to serve the two months and also must secure the sureties before given his freedom. He wanted to be released in regard to the present charge, but he warned the wife, who was in court.

SOLUTIONS OF FERRY PROBLEM BEING SOUGHT

Several Ideas Include Limiting Harbor Service to Day Time

Ways and means of reducing the expenditure on the ferry are under consideration by Commissioner Bullock, and he hopes soon to be in a position to make a recommendation to the Council. Information as to the cost of a new passenger boat, the saving in wages by operating only on boat and saving in fuel by adopting oil burning engines, is now being gathered.

Another proposition is that a day service only be given by the ferry, the boat being laid off each day about 7 o'clock. It has also been suggested by a well known West Side resident that the ferry be run only for the accommodation of those working in the city, that the hours be from 6 to 1 p. m., 11:30 a. m. to 1 p. m., and from 5 to 7 p. m. This, he asserted, would do away with the necessity of having two crews and would reduce the operating cost very materially.

POWER COMPANY DEVELOPMENTS ARE REMOVED

Stock Brokers, in News Letter, Discuss Finances and Reports Heard

"Persistent rumors of developments in connection with the New Brunswick Power Company" are reported in the news letter of McDougall & Cowans, stock brokers, King street. It says, "Concurrent with a strong demand for both the bonds and the first preferred stock, emanating chiefly from New York, there are rumors of special developments pending in connection with the New Brunswick Power Company. Just what the nature of these rumored developments is has not yet been disclosed, but apparently they are of a kind which will react favorably upon the securities. One theory current is that American Power interests may be negotiating for control."

"During the past little while the bonds, which are of 5 per cent. coupon and due in 1937, have advanced and are presently quoted between 86 and 88. This represents a rise from well below 80 but a few months ago. The preferred stock has also shown further strength and is presently 66 bid. This is up several points in recent dealings and represents an advance from around 50 over the past three months. Recently the directors prepared a provision or interim dividend of 1 per cent. on the first preferred stock, and this was paid on June 1, and was said to be in recognition of improved earnings of the company during the current year. The regular 7 per cent. dividend on this stock was passed following the payment for the first quarter of 1925, so that the distribution just made is the first which shareholders have received since that time."

LORD DARLING TO BE AT BAR MEET HERE

Former Chief Justice of England and Former Governor Whitman Coming to Saint John

Charles F. Sanford, K. C., vice-president for New Brunswick, announced today that Mr. Lord Darling of Langham would be the British representative at the annual meeting of the Canadian Bar Association, to be held in Saint John on Sept. 1, 2 and 3. The United States representative will be Hon. Charles F. Whitman of New York, formerly governor of that state and one of the leaders of the New York bar.

Lord Darling of Langham was formerly Chief Justice of England.

DAIRY EXHIBIT TO HAVE NEW FEATURES

Exhibition Manager Has Conference Here With N. B. Minister of Agriculture

At a conference last evening between Hon. Lewis Smith, Minister of Agriculture, and H. A. Porter, manager of the Saint John Exhibition Association, the minister promised the co-operation of the department in making the dairy exhibit at the Saint John Exhibition better than ever. Several new features are promised in this department this year.

A meeting of the directors was held last evening with the president, F. A. Dykeman, in the chair. Progress was reported by the several committees working on the various features for the exhibition.

Street Car Workers In Oslo On Strike

OSLO, Norway, June 16.—Traffic was paralyzed in the greater part of the city today when 4,600 municipal workers, including 1,000 street-car men struck. Citizen volunteers joined in maintaining some services and scenes reminiscent of the British general strike occurred. The strike was caused by wage reductions.

As Hiram Sees It

"We haint got no radiola out to the Settlement," said Mr. Hiram Hornbeam to The Times Star reporter, "but you orto hear our Frog Band. It's the best five-band you ever listened to. Long afore you folks is tunin' in to hear some orchestry in the evenin'—an' long after it's all over—our band is pipin' away like good fellers. The's two ponds—'an' one feller sets the time an' they all tune up fer a concert that haint got no static or nothin' mechanical about it. Every note is clear as a bell. Some folks says it makes 'em feel homesome—but that's because they ain't used to it—or maybe it's because the Frog Band haint got no use fer jazz. As fer me, gimme the frog concert—the wind in the trees—'an' the sound of the brook—'an' I don't crave fer no better lullaby—no, sir."

"Hiram," said the reporter, "to one whose nights have been jarred by the horror of a street car rounding a sharp curve very few minutes, your musical preference tempts me to throw up my tasks and go ahead."

"The frogs is waitin'," said Hiram—"come away."
