SITUATION IN BALKANS TAKES TURN FOR WORSE

Hungarian Premier Makes Disquieting Speech

OBJECTS TO CZAR'S MESSAGES

Says Solution Thus Arrived at Is Not Satisfactory — Meanwhile Conditions in Bulgaria and Servia Become Daily More Dangerous

(Canadian Press)

Budapest, June 20.—Count Tizsa, the Hungarian premier, after a conference with Count Von Berchtold, Austrian minister of foreign affairs, made an important speech yesterday in the Hungarian chamber. It is regarded as indicating the resentment of Austria-Hungary as to the lecture delivered by Russia to Bulgaria and Servia in the czar's message to the rulers of those countries. The count's speech took the form of an expression of fear for the independence of the Balkan states and insisted on the rights of the latter to settle their differences as they choose, either by war, mediation, or arbitration. Their decision, said the count, must be perfectly free or otherwise the solution of the difficulty would amount to intervention. "Such a solution," said the premier, "we would not accept. We will not allow any power to obtain special privileges in the Balkans." Despatches from Sofia and Belgrade represent things as daily becoming more dangerous. The latest Bulgarian reply to Servia's note is tantamount to a refusal to do so. She is determined to fight unless Servia yields. Bulgaria is still holding out from the conference of premiers in St. Petersburg and for this reason Premier Pashich of Servia has not gone to the Russian capital.

CANADIAN SAYS HARVEST MACHINERY IS CHEAPER IN THE STATES THAN ANYWHERE

Chicago, June 20.—In no other country are prices of harvesting machinery so low as in the United States, according to Thomas Findlay, who testified here at the anti-trust hearing of the International Harvester Company. The witness is vice-president of a Canadian company which manufactures harvesting machinery. He said the foreign trade of his concern had increased 100 per cent in the last ten years. His company, he declared, found the same difficulty that the International did in selling through jobbers, as soon as the latter sold a machine they lost interest in the buyers.

Put Pinkerton Sleuth on Trail of Fox Thieves, Says P. E. Island Jury

Twelve Criminal Cases in Prince County Court Include Several of Fox Stealing — Rich Haul Tempts the Crooked Ones — One Prisoner Says Guilty and Gives Crown Evidence

(Special To Times)

Charlottetown, P. E. I., June 20.—Queen's county jail, in Charlottetown, had not a single prisoner in it last week, and for some time Kings county jail in Georgetown has had only one—James A. McInnis, who will be tried for manslaughter at the middle of next month. Prince County, however, is different. The supreme court at Summerside has twelve criminal cases for trial. John Murray, charged with arson; James A. Webster, larceny; Jas. Cahill and Benjamin Souler, shop breaking; Edgar Cannon, stealing boxes from the Belle River Ranch, and also from George Harbour; Frank Dawson, larceny; Ernest Stimperton, stealing boxes from J. E. Birch; Thomas Murray, larceny, breaking jail and conspiracy to steal boxes; Charles Burns, conspiracy to steal boxes, and Lem Coughlan, receiving stolen goods. The grand jury found true bills in all cases with the exception of those of Frank Dawson and Charles Burns. This is one of the most criminal records on the island for many years. The small fox ranchers have been the worst losers. The larger companies can afford to adopt effective measures for the protection of their property, including watchmen, blood hounds, burglar alarms and men traps. At this season the temptation to steal young foxes which are worth from \$6,000 to \$10,000 each, is very great as the pups are so small they can be easily concealed and shipped off the island, perhaps to be sent back again and sold here. The grand jury were evidently impressed with the necessity to stop this epidemic of crime and who has given the commend that a Pinkerton detective be employed in connection with the fox cases.

UNCLE SAM MAY TAX JAMAICA BANANAS; PLANTERS ARE WORRIED

Kingston, Jamaica, June 20.—Construction has been caused among banana planters here by the receipt of a Washington cablegram announcing that the United States will impose a tax on Jamaica bananas. The government was appealed to for help and a cablegram asking for details was sent to the British ambassador at Washington. The banana industry is the principal one of Jamaica and as most of the fruit goes to the United States the tax will be a serious blow to the British colony.

Place Their Case in Hands of British Ambassador — Serious Blow to Them

London, June 20.—Miss Lillian Lenton, a militant suffragette, convicted of setting fire to the fire in the New tea garden pavilion and who has given the police much trouble, has escaped in man's clothes from the house where she was living in Leeds pending the expiration of her license. Miss Lenton was released from jail in March, because of illness caused by a hunger strike. She broke her license and was not heard of again until June 10, when she was arrested at Doncaster on the charge of setting fire to a house. She again pleaded guilty. She was charged with breaking into the house at Doncaster with the intent to burn it. A witness for the defence, who called herself May Denis, confessed that she and not the Winnipeg woman was guilty. She professed to be Miss Lenton, for whom the police had been searching. The Winnipeg woman was released and Miss Lenton was sent back to jail.

SERIES OF ACCIDENTS IN YARMOUTH; BOY IS VERY BADLY HURT

Yarmouth, N. S., June 20.—Robert Hubbard, aged sixteen, was seriously injured in an automobile accident last night, receiving a compound fracture and his foot being badly crushed. Besides three bruises and cuts all over his body. He was playing ball near his residence, and in stepping out of the way of one auto, stepped immediately in front of another going in the opposite direction and owned by a Maine tourist.

LETHBRIDGE HIT BY A WIND STORM AND CLOUDBURST

Gale Does Lot of Damage and Deluge Makes Things Worse. Lethbridge, Alb., June 20.—A combined hurricane and cloudburst struck Lethbridge yesterday and considerable damage is reported. The city spent the night in darkness, owing to the disabling of the power plants, also in telecommunication in the city and on the rural lines was partially destroyed. The gale ripped the roofs off several houses, permitting heavy damage by water. Several barns, outhouses and fences were blown down and many trees destroyed. In some sections of the city, shacks were rolled about like boxes and piled upon one another. Rain came down in a perfect deluge and scores of cellars are flooded. The precipitation which in an hour here amounted to 1.11 inches was general over the south country.

Wireless Service, Norway to Boston

Christiana, Norway, June 20.—A committee of the Norwegian parliament today unanimously recommended approval of the contract arranged between the Marconi company and the late Norwegian government, providing for a wireless service between Norway and America, if certain modifications can be obtained. Under the contract, the Norwegian government is to spend \$860,000 in the erection of a station at Stavanger, which will be connected with a station at Boston.

CHICAGO TROUBLE, 45,000 QUIT WORK

Deadlock Between Builders and The Unions

MILLIONS IN JOBS TIED UP

Coal Operators of West Virginia Districts Refuse to Recognize United Mine Workers of America and a Strike Threatens

(Canadian Press)

Chicago, Ill., June 20.—A deadlock existed today between the 500 members of the building construction employers' association and the 10,000 members of seventeen building trade unions, who were locked out yesterday. More than 25,000 laborers whose work dove-tailed in with that of the locked-out men automatically lost their jobs, making a total of 45,000 men thrown out of work. The lock-out effects more men than any similar action in the history of the labor unions in Chicago. The lock-out suspends work on improvements aggregating \$45,000,000, including ten office buildings, the county hospital, fifty buildings in Michigan avenue, and 500 apartment houses. Looks Like Coal Strike. Washington, June 20.—Fifty coal operators representing virtually all the mines of the New River, Pocahontas and Virginian coal fields in West Virginia, after a meeting here yesterday, have agreed to refuse recognition to the United Mine Workers' of America in dealing with their employees. It was announced after the meeting that the decision was unanimous and final demands of the miners for recognition would not be considered further. Notice was given the operators several days ago that a general strike would be called on July 1, unless the union was recognized. Several thousand men would be involved in each of the fields.

Three Other Changes in Maine Line-Up — Pinkerton Out of Game For Few Days

The Bangor Maroons arrived in the city this morning on the Boston train without Manager Magoon. The players from his resignation, Mr. Magoon said that he had done his best to make good team and wished to be relieved of the responsibility. The management also let three of their players before starting for St. John last evening. They are: Pitcher Giersch, who was picked up by the Maroons after being sacked for a week by Frederick Outfielder Hammond and First Baseman LeBrun. Swasey is now holding down the infield for St. John last evening. The Bangor team, like all the others, is putting up snappy baseball.

CANADIAN NAVAL MATTER AGAIN IN BRITISH HOUSE

London, June 20.—The Malay battleship which Rt. Hon. Winston Churchill said he intended to purchase in connection with the Canadian dreadnoughts, goes towards the formation of an imperial fleet, according to a question in the House of Commons yesterday when Sir John Rees inquired of the first lord, what he intended to do with it. Mr. Churchill made the reply that the plan which he foreshadowed in introducing the navy estimates involves the employment of the Malay battleship in conjunction with any ships Canada might purchase. Developments which have taken place as regards the latter made it undesirable at the present to elaborate this suggestion. As the Malay ship will not be completed until 1915, the matter could well remain in abeyance.

Segee, chairman of the board of assessors of Revere, today was found guilty of making false entries in the tax valuation books. ROTHESAY 'PHONES AGAIN DISCUSSED

Lower Classification Not Objected to, But Increased Tolls Are Commission to Sit Again This Afternoon

The New Brunswick Public Utilities Commission met here this morning to hear the protest of the Rothsey subscribers to the proposal of the New Brunswick Telephone Company to place their exchange in a new classification, and also to introduce a ten-cent toll charge each way on all messages between St. John and Rothsey. After the matter had been discussed, the council for the subscribers withdrew the objection to being included in class D, but maintained the protest against the increased tolls. At the close of the hearing the commission adjourned for lunch and will meet this afternoon to consider the matter. It is not likely that their decision will be announced today.

Chairman G. O. D. Otty, presided with commissioners A. B. Connell and Felix Michaelson, and Secretary F. P. Robinson present. The telephone company was represented by W. A. Ewing, K.C., J. B. M. Baxter, K.C., A. W. Bennett, F. P. Robinson, president and O. J. Fraser, superintendent. H. F. Puddington and A. H. Hanington, K.C., appeared for the Rothsey subscribers. Mr. Puddington presented the case for the Rothsey subscribers, saying that the close relation between that suburb and St. John put their exchange on a different basis from others. Most of the subscribers had installed the instruments for the sake of securing communication with the city rather than for local use. If a toll charge of ten cents each way was made they had a right to expect at least a reduction on their rental charge. Counsel for the company objected to the introduction of a new petition for revision of rental rates, contending that the toll charge was the only issue before the meeting, as the rental rate was fixed by the classification. (Continued on page 7, sixth column)

The players from his resignation, Mr. Magoon said that he had done his best to make good team and wished to be relieved of the responsibility. The management also let three of their players before starting for St. John last evening. They are: Pitcher Giersch, who was picked up by the Maroons after being sacked for a week by Frederick Outfielder Hammond and First Baseman LeBrun. Believed Dead and Prepared For Burial But She May Recover

New Dale, Man, June 20.—Ruth Philpot, a Galician girl, aged eleven, when sent to take a cow to another farm, tied the cow's chain to her waist. Something scared the animal and it ran away, dragging the girl through the bush for two hours. When a man found the girl tied to the cow, he thought she was dead, so did not touch her, but went to the girls' parents and told them. They went out and got the child, and thinking she was dead, washed and dressed her in a white dress and laid her out for burial. Five hours later the child opened her eyes and a doctor was called in. He found the child in a fearful condition, but she may live.

Western Political Rumors

Edmonton, June 20.—It is rumored today that the resignation of Premier Sifton is only a matter of months and that he will go to London, with a large salary, to act as the resident representative of Alberta while Hon. C. W. Cross becomes premier. The reason given for the alleged change is the difference of opinion between Messrs. Cross and Sifton over the Alberta great waterways affair.

YOUNG MATRON IS SUICIDE IN WINDSOR, N. S.

Mrs. Levi Deal Ends Life By Cutting Throat

BODY FOUND BY HUSBAND

Was Lying at Foot of Stairs in Their Home Early This Morning—Leaves Child Ten Months Old

(Special To Times)

Windsor, N. S., June 20.—At an early hour this morning the community was startled by the news of a tragedy when it was discovered that Mrs. Levi Deal, aged twenty-five years, in a temporary fit of insanity had committed suicide by cutting her throat. For a few weeks she had not appeared well but the symptoms were not such as to cause apprehension on the part of her friends. The finding of her lifeless body came with a terrible shock to her husband. Mr. Deal awoke between five and six o'clock, missed his wife and, on going down stairs, discovered her lying at the foot of the stairway dead. Coroner Ried held an inquest and the verdict was suicide during a temporary fit of insanity. Mrs. Deal was Miss Boutiller, from Margaret's Bay, and is survived by her husband and one child, ten months old. No reason other than disease of the brain can be assigned for the act. Mrs. Deal was much respected by the community. Great sympathy is extended to the bereaved husband.

Private May of the 16th detachment of the Canadian Army Service Corps of Guelpie, the patient operated on, was removed from the field hospital at the militia camp on Carlings Heights with severe internal injuries, sustained in a runaway accident. The interruption in the hydro-electric system left the hospital with only an auxiliary gas system. This was not sufficient in the operating room, and candles were secured.

The contest was rowed in a nasty rain and the rippled surface of the water caused slow time. The official time of the race was—Harvard, 11 minutes, 52 seconds; Yale, 12 minutes, 11 seconds. Harvard won the freshman eight race by 1-1/2 lengths. The official time was: Harvard, 10:41; Yale, 10:48.

## GOVERNMENT NEGLECT OF ST. JOHN STIRS BORDEN CLUB TO ACTION

Convinced that St. John's position with respect to the traffic of the Grand Trunk Pacific is growing uncertain because of the failure of that railway to provide for a line into St. John, and because arrangements to handle freight here next year are not under way, the Borden Club, the organization of younger Conservatives last evening decided that the time has come to put these matters up to the Federal government. In executive session last evening the Borden Club unanimously adopted the following progressive resolutions:

Whereas, The Hon. Mr. Cochrane, Minister of Railways, has stated that the eastern division of the National Transcontinental will be operated via the Quebec ferry early in 1914; and

Whereas, Mr. Chamberlin, president of the G. T. P., has stated that the G. T. P. did not intend to do anything at present towards erecting terminals at St. John; and

Whereas Mr. Gutelius, manager of the I. C. R., stated that the N. T. R. has running rights over the I. C. R. from Moncton to St. John; and

Whereas the Minister of Railways has stated that terminals to handle freight and passengers will probably be completed as soon as the wharves are finished at Courtenay bay, which will necessarily not be for some years; and

Whereas NO PROVISION HAS BEEN MADE TO RECTIFY AND HAVE READY TERMINALS TO RECEIVE PASSENGERS AND FREIGHT BY THE TIME THE EASTERN DIVISION OF THE N. T. R. IS BEING OPERATED; and

Whereas UNLESS NECESSARY STEPS ARE AT ONCE TAKEN, ST. JOHN WILL NOT RECEIVE THE EARLY TRAFFIC FROM THE N. T. R., which will go to either Halifax (N. S.), or Portland (Me.), or to both.

Therefore resolved, that the R. L. Borden Club request the Hon. Mr. Hazen, minister of marine and fisheries, and member for the city and county of St. John, to BRING THE ABOVE FACTS TO THE NOTICE OF THE CABINET; and

Further resolved, THAT THE HON. MR. HAZEN BE REQUESTED TO URGE UPON THE PROPER AUTHORITIES THE NECESSITY THAT RUNNING RIGHTS FOR THE N. T. R. FROM WENINGTON TO ST. JOHN, BE AT ONCE SECURED, AND THAT IMMEDIATE STEPS BE TAKEN TO ARRANGE FOR THE ERECTION OF TERMINALS AT ST. JOHN; and

Further resolved, That a copy of this resolution be sent to the Hon. Mr. Hazen.

over the mantel and fireplace. I am indeed fortunate to have a home like this.

Silver Salore

"I eat of nothing but solid silver plates with the Ashburnham crest and coronet stamped on them. One can see one's silver here than is to be found in all the houses of Fredericton put together. The earl and I were so overcome with the cordiality of the reception extended to us that we shed tears."

**MORNING LOCALS**

Local transportation men expect that a government grain inspector will be stationed at St. John next winter.

The committee of the county council, which met yesterday to arrange for legal advice regarding the municipality's right in the foreshore at Courtenay Bay, adjourned to meet again at the call of the chair without taking action.

Eight hundred trees have been set out on the Board of Trade orchard at Brown's Flats.

The general contract for the new machine shop and roundhouse for the C. P. R. at McAdam has been let to Henry Post, of Woodstock, who has sub-let the masonry work to William Steeves also of that town. The contract to supply the roofing has been let to John E. Wilson of this city, Murray & Gregory will supply the lumber and J. A. Lively the hard pine.

The carmen in the employ of the St. John Railway Co. received their increase in pay yesterday. "The rate is now the same as is being paid in Halifax."

The boys at the Industrial Home were given an entertainment last evening by the members of St. Luke's church, in which the programme carried out was greatly enjoyed. At the close refreshments were served.

The new C. P. R. steamer St. George, purchased to go on the St. John and Digby route is said to be the fastest of any coastwise passenger steamer in North America, being capable of 24 knots per hour. The steamer may not be put on the route until next spring, but it is expected that when she does start it will be in connection with the train from Montreal at noon, making a double boat service across the bay.

Of the 700 members of the San Francisco Division of the Union, 100 are college graduates. This is said to be a greater proportion of college men than can be found in any other labor organization in the country.

No Votes for Women in Vestries

London, Ont., June 20—The Anglican synod last night defeated the proposal to allow women votes in the vestries. The vote was—Clergy 41 for to 30 against; laity, 30 for to 17 against. A two-thirds vote was necessary. During one speech against the proposal the speaker was hissed by some spectators in the gallery, and the bishop threatened to clear that portion of the hall.

### A LONDON VIEW

Mr. Borden has not set the Thames on fire with his "emergency" policy. Far from it. London is not disposed to be nervous over our Premier's heroics. In the Empire capital they know politics when they see it, and Mr. Borden has been playing politics, and dangerous politics. Here is some significant editorial comment on his position from the London Daily News and Leader:

"Mr. Borden brought in his Navy Bill not to deal with an emergency in the naval defence of the Empire—for none such exists—but to lay the foundations of Imperial Federation. Contributions to a single Imperial Navy instead of the development of local navies; permanent representation through a minister on the Imperial Defence Committee; a share in and responsibility for the determination of foreign policy—all these are intended by Mr. Borden to compel the development of the Empire along federal lines. The Liberals, led by Sir Wilfrid Laurier, stand for the traditional ideal of an Empire of autonomous sister States, each controlling its own affairs and all united by the bonds of affection, interest, and common institutions, as against Mr. Borden's ideal of a centralized Empire, which restricts drastically the autonomy of the States within it and puts its faith in machinery as the link between them. Whatever tactical course Mr. Borden may adopt, that tremendous issue has been set plainly before the Canadian people. The Australians and South Africans have already decided it against Mr. Borden."

There you have it. Australia and South Africa have taken the other course. To them Mr. Borden's plan is reactionary. There is no emergency. The right plan is to build the ships at home. That is the plan the people favor. Why will Mr. Borden not give them a chance to say so?

### THE MONEY SITUATION

The tightness in money all over Europe and America means that the world is short of capital. This may not be so bad as it sounds. There is a tremendous demand upon capital for works that are necessary, and there is not a dollar to throw away in constructing plants to do work that can be well done by plants already built. Fewer miles of railway track were laid in the United States in 1912 than in any year since 1897, but, on the other hand, more rolling-stock was ordered than in any year since 1906.

In financial circles this was considered an admirable showing, and was taken to mean that the existing plant of railway tracks and terminals was to be utilized to a higher degree with an output of public utility decidedly larger than before. There is probably less reason for feeling down in the mouth over the present money stringency than is generally supposed. The clouds certainly have a silver lining. The great added wealth which this year's crops will bring will probably improve things to a wonderful extent. The financiers took time by the forelock this year, and by the time the extent of the crops can be measured the world will regain its confidence. Good crops should mean comparatively easy money once more. No doubt speculative enterprises have been hard hit, but some of them needed it, and while some legitimate projects have been interrupted or postponed they will go ahead later on with all the more speed.

### THE "GOOD ROADS" FARCE

What is to be the end of the road question in New Brunswick? The Fennington road act—the new Highway Act—is now supposed to be in full operation, but all over New Brunswick the roads are in about as bad shape as they ever were in the last generation, assuming equality of weather conditions. The present road act is a fine political instrument, but it is not going to give New Brunswick good roads. This province, if it keeps on spending large sums of money for the making and upkeep of highways, must introduce a system of patrol and repairs, in order that throughout the year or at the close of the winter season, some plan may be followed whereby all the principal roads will be examined from time to time after the fashion of the railroads, with the idea of attending to matters of drainage and other small repairs, instead of waiting until the road has gone thoroughly to the bad before attending to it.

For twenty years and more New Brunswick has not been getting a decent return for the money it has spent on its highways. And it has spent, in twenty years, a really vast amount.

When we have a dry summer, we have comparatively good roads, not because of good management, but because Providence is kind. In the spring and fall we have wretched roads all over the province, and they are bad enough after every heavy rain in the summer time. These conditions cause immense financial loss to the province, and continued

and costly annoyance to everyone who lives in the rural districts.

The farmers all realize that politics is at fault. We have too much politics and too little road work. Year after year the promise has been made that a competent engineer would be given charge of the highways, so that all work would be done under intelligent direction. That promise has never been kept. The province continues to waste public money on the highways, and the government's present course means merely partisanship and not road making. How long is this farce to be continued?

Sir Wilfrid Laurier is going to speak in Ontario and Quebec in August. There is no man in Canada who will command so good a hearing.

Commissioner Agar is suffering because of the lack of judgment shown by his dust-raising employees. Even street-cleaning demands a measure of common sense.

Anyone who thinks the scheme to sell the Municipal Home is not dead is at liberty to try to revive it; but the attempt will mean a loss of time, money and reputation.

The attempt to destroy the character of Lloyd George and Sir Rufus Isaacs has proved a dismal failure. The British Tories are unsuccessful even at scandal-mongering.

The Borden Club puts it up to Mr. Hazen, not with the idea of making him uncomfortable, but for the purpose of eliciting a clear and explicit statement in regard to St. John and the G. T. P. The club's resolutions outline a situation that ought to be cleared up at once.

On this day thirty-six years ago broke out the "great fire." It was a sadly devastated city that the men of '77 looked upon when, with the embers cooled, they took up their task of rebuilding. But the pluck, and public spirit were there and the foundations were well laid for the greater city which we know in 1913.

By what route is the Valley railway to enter St. John? June is almost gone and the country is still waiting for a decision it should have had at least a year ago. What is the game? Who is holding the project up? Surely continued loss of time in a matter so important as this is inexcusable. What do the Mayor and Commissioners and the Board of Trade know about it—or have they inquired?

Fox-stealing has become so prevalent on Prince Edward Island that the grand jury has recommended the employment of a Pinkerton detective to break up the practice. It seems that when a certain sort of Islander sees \$10,000 walking around on four legs he is utterly incapable of letting it get by. The fox-farmers have set traps and snares, but have employed watchmen—but all in vain. The two-legged animal makes the smartest of all thieves.

### Girl's Nerves

Too many girls grow up with weak, anemic bodies and exhausted nervous systems. Indolent life and too much application in school are sometimes the cause.

The blood needs enriching and the nerves need strengthening by such treatment as Dr. Chase's Nerve Food. This food cure is doing wonders for many thousands of girls whose parents had almost despaired of their ever developing into strong, healthy women.

Mrs. J. Barnhill, 395 Woodville avenue, Toronto, writes: "My daughter suffered from nervousness since childhood, and any medicines she tried did not do any lasting good. We read in the papers about Dr. Chase's Nerve Food, and my daughter used it with wonderful results. This treatment has built up her system and so strengthened the nerves that she feels like another girl."

### BIRTHDAYS OF NOTABILITIES

FRIDAY, JUNE 20

This is the birthday of the Hon. Adam Beck, father of the hydro-electric legislation in Ontario. He is the son of a German iron founder and was born in Baden, Ont., fifty-six years ago. He has made a fortune as a manufacturer of cigar boxes. Entering the legislature in 1902, he became a member of the Wilfrid government in 1905 and took up the question of electric power with much enthusiasm. He is vigorous, thorough and public-spirited.

### LIGHTER VEIN

BREAKING INTO PRINT

"My cousin once wrote something and had luck—it was printed."

"What was it?"

"His marriage announcement."

### KNEW HIS GROUND

"You say this man is no chicken stealer?" inquired the Judge.

"Yassuh," replied Erastus Pinkley. "Da's what I said."

"What do you know about the facts in this case?"

"I ain' 'posed to know nuffin' 'bout de facts in de case. I is an expert witness foh de defence."

### THERE'S NO USE STALKING

Last summer a Connecticut farmer was approached by a tramp who asked for something to eat and a night's lodging. It was pretty well toward evening and the work was all done, so the farmer gave the tramp his supper and sent him to the barn to sleep, agreeing that he was to call him the next morning in time to work out his "keep."

About half past three in the morning the farmer roused out the tramp.

"What's all this, boss?" said the hobo, rubbing his eyes.

"Time to get up and work."

"What doing?"

"We're going to reap."

"Reap what?"

"Oats."

"Are they wild oats, boss?"

"No, of course not. Why?"

"Well, if they ain't wild oats, why do you have to sneak up on 'em like this in the dark?"

## COMPEL THEM TO WED

Plan Proposed in Austrian City to Boom Marriage Rate

Trieste, June 20—There has been such a decline of recent years in the marriage rate of Trieste that one of the city dignitaries suggests the institution of a system of compulsory matrimony. It is proposed that on a given date in each year all spinsters who have attained their thirtieth should be required to present themselves before the syndic in whose jurisdiction they reside.

The names of those who, on medical examination, prove to be thoroughly sound, would be sorted according to sex, placed in separate urns, and then drawn two at a time.

Those whose names are drawn together would, at the conclusion of the draw, be united in marriage forthwith by the syndic.

**SERIES OF ACCIDENTS AT WEST SAINT JOHN**

But for the presence of mind of Joseph W. Barry, of Albert street, little Olie Burke, who was so badly injured in a runaway accident in Union street, West St. John, yesterday afternoon, might have died before Dr. F. H. Neve reached him. Little Olie has sustained a severe wound on the head, and was scaped almost as cleanly as if a knife had been used, as he lay unconscious in the road, but was picked up by Mr. Barry who, seeing that he was unable to breathe turned him upside down and allowed the blood which had clotted in his mouth and head to gush out, thus permitting respiration. He worked with him for several minutes until Dr. Neve arrived. The latter placed twenty stitches in the back of the lad's head and four more in the right side of his face. The little boy had been driving with his uncle who is employed as driver for W. B. Daley, and had been left on the team while his uncle went into Harry Smith's grocery store. A shunting engine caused the animal to bolt. Little Marjorie Millidge was responsible for stopping the animal in its dash down the street.

John John Conking, chief officer of the coal barges from Quebec, was leg broken yesterday during an altercation with a member of the crew. In stepping back to avoid a missile which the other had thrown, he fell over a bar of iron. He was removed to the hospital.

A workman on the new Conolly wharf had one of his feet crushed yesterday by a heavy piece of timber falling on it. He was treated by Dr. Neve and later taken to his home.

**MORNING NEWS OVER THE WIRES**

A note left by the sweetheart of the young Swede, Olsen, with whom she committed suicide, at Three Rivers, this week, explained to her father that she meant to be united to him (Olsen) if not in this world, then in the next. Suspicion of foul play has been dispelled.

Hon. Mr. Cochran, minister of railways, with F. P. Gutelius, and others are making an inspection of the P. E. Island railway today. They arrived yesterday in Charlottetown.

Coffin's Island Lighthouse, near Liverpool, N. S., was destroyed by lightning yesterday. It was one of the best known coast-marks, having been first lighted in 1812. The home of the keeper of the light was destroyed also.

Isaac Conrad Spencer, U. N. B. graduate of 1910, was given the degree of Bachelor of Laws at Harvard University yesterday, and George Eulas Foster, a U. N. B. graduate of 1904, received the degree of Master of Arts.

At the meeting of the Dominion Medical Council in Montreal yesterday it was decided to permit a physician of ten years' standing to practice medicine in any province of the dominion on payment of \$100. There will be no examination except for physicians of less than ten years' standing. The purpose of the regulation is to do away with provincial limitations.

**AMERICAN SWINDLED IN LONDON**

London, June 20—Slight-of-hand, a cinematograph venture, and the confidence trick were successfully introduced into a scheme by means of which Basil Vankeerton, a visitor from the United States, and living in Albany street, N. W., has been swindled out of \$1,250.

At Charing Crossing he made the acquaintance of an affluent-looking gentleman, who explained that he had made a lot of money out of picture palaces. The stranger persuaded him to take the management of a new branch in Constantinople.

Later the American met an old man of benevolent appearance, who told him he had inherited a large fortune, but had to give a part of it to a charitable institution in Turkey. Mr. Vankeerton agreed to take a large sum there for the stranger.

In the meantime the American's first acquaintance had turned up, and Mr. Vankeerton was persuaded to cash a check for \$1,250.

Had Rheumatism WAS CONFINED TO HIS BED FOR FOUR MONTHS.

Mr. W. H. Riley, Ruddell, Sask., writes: "It is with the greatest pleasure that I can recommend Doan's Kidney Pills to all suffering with rheumatism. I was so bad with this terrible disease, I was unable to get up from my bed for four months, and nothing seemed to relieve me until a friend recommended Doan's Kidney Pills. I had my doubts about them, but was so desperate I would try anything suggested to me. After taking half a box I was able to get up, and after taking two boxes could get around quite well. After taking six boxes I was completely cured and able to work for the first time in five months, and have not had a touch of rheumatism since. Anyone who has not been cured by other means, and who does not know me now, as I am strong and active since taking your valuable medicine."

TO WEAR GRECIAN DRESS New York Society Women to Adopt Comfortable Clothing New York, June 20—Members of New York's most exclusive social circles, it has become known, have gone in for the comfortable and artistic Grecian effects in dressing advocated by Lady Constance Richardson, upon her arrival here. One of the first of the fashionables to interest herself in a sane dress as opposed to the "bobbed, immoral, slashed gowns denounced by the clergy and the laity, and prohibited in the streets by the police of western cities," is Mrs. Robert Goetel.

Mrs. Goetel has been making a special study of the comfortable Oriental dress for women since her brilliant Persian fancy dress ball a year ago. She is one of the first of New York society women to appear in the Grecian costume.

So favorably has the idea of this style, with its artistic, flowing lines, been taken up that it is predicted the new gowns will be popular during the brilliant Newport season.

LETTER M MAY LEAD TO FINDING SENDER OF THE BOMB TO SHERBROOKE

Sherbrooke, Que., June 20—The peculiar fashioning of the letter "M" among the capitalists of the typewriter on which the parcel which killed Mrs. A. O. Bloudeau was addressed, may prove to be the final proof now lacking which will finally drag the mail murderer of Sherbrooke to the gallows.

DON'T KEEP YOUR FOOD IN A GERM BREEDER

Strong Handsome Economical Dry Clean Sanitary

A momentous question of the day is, how to keep food sweet, clean and fit for the table. Experience has shown that this is not possible where the cheaply made "ice chest" is used, owing to the dampness which produces mold and disease germs. The ice bill, too, must be kept down as far as possible.

McClary's "Model" Refrigerator

stands in a class by itself, being planned and built on peculiarly scientific lines. It is an ideal domestic cold storage, and will keep your food in a delightfully clean, sanitary condition. McClary's "Model" has a lining of White Enamel, which you can wash just as you do your dishes. The shelves, which are reticulated, can be readily taken out and cleaned. You will find this refrigerator, by long odds, the cheapest in the end, for it pays for itself many times in the saving of ice alone.

**Will The Weight Hurt Willie Ritchie In His Bout With Rivers?**

By TOM ANDREWS

After a week or more of dickering about weights, Willie Ritchie, the light-weight champion, and Joe Rivers, a California boy of Mexican parentage, have finally agreed to meet before Eddie Grassy's club at San Francisco, July 1, in a 20-round contest.

It will be the first championship match that Ritchie has had since he won the title from Ad Wolgast on Nov. 28, 1912, just about seven months ago. Under the rules of former days, it was customary for a champion to fight at least every six months, so that Ritchie has been following close to the old tradition.

The weight agreed on is 134 pounds at ringside on 188 three hours before the contest, which makes it very close to 138 ringside, as a boxer can take on very little good weight in that length of time. When Eddie McCooty fought Mike Gibbons in New York last fall, he agreed to weigh 138 ringside, and the day of the match I weighed him at 2:30 p.m. and he scaled 135 1/2 pounds, while on the same scales at ringside he weighed just 135 flat, showing that he had lost in the interim instead of gained. This was no doubt due to nervousness on his part.

Ritchie is naturally a big light-weight, although he made the 138 ringside for Wolgast without any trouble. However, if he has agreed to make 138 three hours before the contest, which he has, you can gamble that he will make it and be strong, too, for his manager, Billy Nolan, knows the boy better than anyone else and will not permit him to make a weight that will injure him in any way. It is a peculiar fact that the tables are reversed in this match compared with the time when Billy handled Battling Nelson against Joe Gans, for at that time he insisted on Gans weighing 138 ringside with his fighting tops on. Now he is anxious to have Ritchie get the heavy side a few hours before the time of weighing. At that Mr. Nolan may be playing for effect to throw the others off the track. With all this talk about weight and the probability that Ritchie will be weakened in making it, the interest will increase ten-fold, and that is what he weakened in making it, the interest will increase ten-fold, and that is what the foxy Billy wants, for it will mean bigger receipts, and as he is working on a percentage basis, it will be more coin for him. Nolan knows the game, and you may rest assured he will get none the worst of the bargain.

Rivers is a grand little fighter, clever and a good hitter, but he will find Ritchie a much improved boy and harder to beat than when he won the title from Ad Wolgast.

**THE MARCONI MATTER**

London, June 19.—That this house, after hearing the statement of the attorney-general and the chancellor of the exchequer in reference to their purchases of shares in the Marconi company of America, accepts their explanation of what that such purchases were made, and that they were not mentioned in the debate of October 11 last, and acquits them of acting otherwise than in good faith and reproaches the charges of corruption against the ministers, which have been proved to be absolutely false.

**NORTHUMBERLAND LIBERALS COMPLETE ORGANIZATION**

Newcastle, N. B., June 19.—The annual meeting of the Northumberland Liberal Association was held here this afternoon. Hon. John P. Burchill presided and W. S. Lodge, M. Are you among those who reason in this fashion:

"All this talk about 'Acid-Mouth' may be all right—but it doesn't apply to me. I haven't got 'Acid-Mouth.' I take scrupulous care of my teeth."

Let us put this question to you:

"How do you know you aren't among the 19 out of every 20 who do have 'Acid-Mouth'?" Have you tried the 'Acid-Mouth' test?

"If you want to have the best chance in the world to keep your teeth for life—use Pebeco Tooth Paste."

Pebeco Tooth Paste does all that ordinary dentifrices do—cleans, whitens and polishes teeth beautifully. In addition, it stops 95% of all tooth-decay by neutralizing "Acid-Mouth."

**RETALIATORY CLAUSE IN UNDERWOOD BILL**

Washington, June 19.—An amendment to the Underwood tariff bill, adopted today by the majority members of the senate finance committee, would give the President of the United States authority to suspend certain rates in the proposed law and to proclaim special rates against nations which discriminate against products of the United States.

The amendment is appended to the clause giving the president authority to negotiate reciprocal agreements with other nations and in some respects resembles the maximum and minimum clause of the Payne-Aldrich tariff law eliminated in the house bill.

In substance, the amendment would provide that when any nation discriminates against the products of the United States, or imposes restrictions upon United States exports, or does not, in the opinion of the president, reciprocate in the trade relations, the president may by proclamation suspend certain rates and put in effect others.

Only specified articles, it is understood, are to be included under the terms of this amendment, and the retaliatory rates are specified also. Among the articles included in the list upon which the president might suspend rates, are fish, wheat, flour, coffee, tea, earthenware, wines and malt liquors, silk dress goods, leather goods, jewelry, sugar and molasses.

A communication was also received from Mayor Frink in answer to a letter sent him concerning the placing of labor papers in the Free Public Library, stating that he would inform the commissioners of the library that the city commissioners could see no objection to having labor journals on the tables there.

A resolution was moved by the Carpenters' Union in reference to the reorganization of the Independent Labor party. The resolution will be dealt with by the officers of the organization.

VICTORY FROM BANGOR GIVES GREEKS LEAD

Eight Runners Roped Home In Tenth — Fredericton and St. Croix Tie in Ten Inning Game

Table with 4 columns: Team, Won, Lost, P.C. St. John: 13, 8, .617; Fredericton: 9, 6, .600; St. Croix: 9, 4, .690; Bangor: 3, 14, .176

After reaching the tenth inning with the score 2 to 2 in the St. John-Bangor game yesterday in Bangor, McLellan, who was pitching for Bangor was withdrawn by Manager Magon and Girard sent in to pitch and before the inning was ended eight runs were scored in his delivery. The Maroons got two in the tenth, making the total 10 to 4. Bangor scored one in the second on an error and a sacrifice fly. The Greeks tied the score in the seventh when Pinkerton got first on Wilde's fumble, was sacrificed to second by Black and scored on Watt's long hit to right.

Table with 4 columns: AB, R, H, PO, A, E. O'Brien, 3b: 6, 2, 1, 2, 2, 0; Pinkerton, 2b: 4, 1, 2, 1, 0, 0; Tarbell, lf: 4, 0, 1, 0, 0, 0; Black, rf: 5, 2, 2, 0, 1, 0; Shanley, lb: 5, 1, 2, 0, 1, 0; Watt, cf: 4, 0, 2, 0, 0, 0; Bien, c: 4, 2, 0, 0, 4, 0; Waterhouse, ss: 4, 1, 2, 0, 2, 1; Riley, cf: 2b: 4, 1, 1, 0, 0, 0; Woodbury, p: 5, 0, 0, 0, 0, 0

Notes of the Game: Bangor seems to have, or should have, a holy horror of the last inning. Twice in succession they have blown up in this stage. We are again in the front rank, with the other two of yesterday's tie following closely. Everybody on our side had a safe walk but our genial friend Bien, but we're not worrying about that. He really is the league leader with the stick. And he stole second yesterday. Shanley is doing good work at first base. Watt has shown his ability for all round playing by jumping into any one of three positions, leading first sacker outfield.

BUSY MORNING IN THE POLICE COURT

Cousins Charged With Fighting—Costly Stone Throwing—Several Remand Cases

In the police court this morning before Magistrate Ritchie, Norman and Solomon Sabourin, cousins, arrested last night on charge of fighting in Mill street, were remanded. John Howes, who owns the house, said the window was worth \$50. Several prisoners who were in jail on remand were brought into court and some of them disposed of. CARLETON STORES MAY HAVE HALF HOLIDAY

Thursday Recreation, Granted Drivers, May Be Taken, Too, By Proprietors

Following the action of merchants of Carleton in allowing their drivers a half-holiday on Thursdays, comes an agitation to have the stores all close on Thursday for the half-day. Some of those interested took the matter up this morning with the store owners and the majority of them, it was said, seemed willing to close. It may be that on next Thursday, besides the drivers being off, the proprietors will also be spending a few hours of recreation, free from business cares.

THE C. P. R. AND THE RATES

Ottawa, June 20—A moving story of how much more money they could have made had they been allowed to charge American rates to Canadians was told by C. P. R. representatives at the railway commission at yesterday's session of the western freight rates inquiry. W. B. Langille, assistant freight traffic manager, painted visions of the wealth that might have flowed into the C. P. R. coffers had his road been able to exact the very rates which opposing interests have been endeavoring to prove are lower than those of the C. P. R. The inquiry is being continued.

ADVANCE MEN TO CAMP TOMORROW

Army Service Corps, 90 Strong, Major Massie Commanding

OTHERS ON GROUNDS MONDAY

Tuesday to See The Real Opening—Colonel Humphrey Likely to Command—Change in The Cavalry Regiments

The first entraining for Camp Sussex will take place tomorrow morning, when the members of the Army Service Corps of this city, under Major A. E. Massie, will leave for the big military camp grounds, about ninety strong, to prepare for the coming of the larger bodies on next Tuesday. This will be the real camp opening. Although the Service Corps and "H" Co. of the R. C. R. of Fredericton will go to Sussex tomorrow, there will be no arrivals of other parties until Monday, when the advance squads of the rural regiments will reach there to pitch the tents for the big force. It is expected to be one of the largest camps in years, and the fact that it is not to be divided into two bodies, drilling at separate periods has caused it to more strongly appeal not only to the "old-timers," who like the idea of the united camp but to the recruits as well. This, too, has greatly helped in the lack of listing recruits and others this year, as it is well known that there is much more of interest, much more to be learned, and still more to be seen when the one camp draws the militiamen at the one time to the grounds. The announcement that the camp will be "dry" this year is nothing new. It has been called "dry" for some time past, and strict orders have been issued by the camp commandant, Colonel W. M. Humphrey, against the sale of liquors within the confines of the encampment, with the understanding that these orders be enforced. There is certain, of course, to be some liquor smuggled through the lines, but the quantity is decidedly small compared with what used to be the case when the cantons flourished in different corners of the grounds. Colonel Humphrey is expected to take up his marquee in the staff lines tomorrow, as although it had been rumored that Black's Harbor would probably command at Sussex this year, it is generally believed that the former will have particularly since no orders have been issued slating Colonel Rutherford for the post. The understanding here is that he will command Aldershot.

DELIGHTED WITH HER SINGING

Miss Mabel Williams Gives Recital in Mr. Kelly's Studio

An interesting event of yesterday in musical circles was a recital given in J. A. Kelly's studio in Union street by one of his pupils, Miss Mabel Williams, daughter of Mr. and Mrs. F. E. Williams. Before an assemblage of her friends, Miss Williams gave an artistic programme of twelve numbers, varied in style and well demonstrating the young lady's rich mezzo-soprano voice. Her voice is of good range and power, she sings with much expression and shows natural art, and excellent training under Mr. Kelly's direction. It was a delightful afternoon and both Miss Williams and Mr. Kelly were warmly congratulated. Another very pleasing feature was the playing of a Chopin Ballade by Mrs. J. M. Barnes.
