TURNING TO BRITAIN FOR ASSISTANCE

Depredations of Pirates on Southern Coasts of China are Causing Much Uneasiness

Shanghai, Aug. 24.—Evidence of the absence of stable government in China is furnished by the wide prevalence of piracy on the southern coasts. In this region, of course, pirates have long flourished, but certain recent depredations have been carried out with a coolness and daring which suggest that, in the estimation of these gentry, the chances of their being brought to book are even more remote than under the tardy and half-hearted methods of the old regime.

DOUBLE HEADER

Today's Baseball—New Pitcher Likely in Second Game—Tarbell May Return

The Houston Reds and the Marathons are scheduled to play a double header this afternoon. The first game will start at 2 o'clock and the second at 4 o'clock.

The Evening Times and Star

The St. John Evening Times is printed at 27 and 29 Water Street every evening (Sunday excepted) by the St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act.

THE CORRECT VIEW

The Standard quotes Mr. Borden as declaring for one united navy, presumably about the control of which Canada would have nothing to say. If Mr. Borden meant that he has changed his views, he declared himself in parliament in favor of a Canadian navy.

ORGANIZATION NEEDED

There are three or four runners in St. John who when in training can run 100 yards in faster time than was made at the Maritime Championships in Charlotte town. St. John was not represented at this meet.

MEMORIAL SERVICES

The local Salvation Army has planned to hold memorial services for General Booth. All the city corps will unite in the Charlotte street Citadel for a memorial service on Wednesday evening, and on Thursday between the hours of 12 and 1, which corresponds to the time of the burial of General Booth.

THE EXHIBITION

The reports from agents of the Exhibition Association who have gone through the provinces all agree in saying that there is a more generally declared intention than usual among the people to visit this year's fair.

THE THINNING RANKS

The day grows lonelier; the air is chillier than it used to be. We hear about us everywhere. The haunting cords of memory. Dear faces once that made our joy. Have vanished from the sweet fumes band.

WOMAN SUFFRAGE

The prohibitionists in the Conventions of Ohio, Oregon, Illinois and Iowa endorsed woman suffrage. The Kansas State Sunday School Convention adopted a strong resolution in favor of woman suffrage.

RECENT DEATHS

The news of the death of Caleb Bolyea, for about yesterday after an illness of eight months, was heard with general regret throughout the city.

THE INVENTOR OF "HABBITING"

The name of Isaac Habbit is generally associated with the anti-friction metal which bears his name, but his greatest invention was the "habbiting metal."

MEMORIAL SERVICES

The local Salvation Army has planned to hold memorial services for General Booth. All the city corps will unite in the Charlotte street Citadel for a memorial service on Wednesday evening, and on Thursday between the hours of 12 and 1, which corresponds to the time of the burial of General Booth.

GERMAN VIEW OF SPEECHES IN ENGLAND

The Matter of Increase in the Naval Strength of Fatherland

LETTER FROM BERLIN

An Amusing Incident at a Masked Ball--Wonderful Model of Nelson's "Victory"--Honor is Paid to Zeppelin

(Times' Special Correspondence) Berlin, Aug. 23--In a leading article in the "Deutsche Tageszeitung," the organ of the Agrarian party, it is stated that recent speeches of British ministers and the strengthening of the British navy have made but little impression in Germany, as hardly any new idea is advanced in them, and hardly any fresh development revealed. It is immaterial, the article says, that the statements made about and against Germany were of a more friendly character. Germany has to reckon with the fact that England contemplates the possibility of a conflict with Germany, although this conflict is not desired, and nothing will be done to bring it about. It has been stated in the British parliament with gratifying clearness, it adds, that England will regulate the size of her navy according to that of Germany, and little importance need be attached to the assurance made by the way that, in adopting measures for the strengthening of the British fleet, the government considers only the necessity of protecting and defending the vital interests of the British Empire.

How About The Boy's School Clothes?

If you have the school clothes to buy bring in the boy and have him fitted to one of these new suits--the reliable M. R. A. kind and extra durable. Never have we had so extensive and attractive an offering of fall and winter styles and it would be well to choose while assortments are best. Two-Piece Suits, double-breasted style, mixed Tweeds and Worsteds in greys, greens, browns; blouser and straight pants. Ages 7 to 18 years. Prices \$2.85 to \$12.00. Three-Piece Suits, Tweeds, Worsteds, Serges, Chevots, Saxons in greys, browns, greens and blues, some with two pairs of bloomer pants. Ages 12 to 18 years. Prices \$4.25 to \$15.00. Yoke Norfolk Suits in a wide range of prettily patterned cloths. Ages 7 to 12 years. Prices \$5.75 to \$8.25. Sailor Suits in plain navy, browns and greys, neatly trimmed, also a very large range of nobby effects in fancy tweeds. Ages 3 to 10 years. Prices \$2.75 to \$7.50. Buster Brown and Russian Suits, brown velvet corduroy trimmed with white silk cord, plain grey and mixed Tweeds, also plain navy, browns and checks in Tweeds and Worsteds. Ages 2 1-2 to 6. Prices \$3.25 to \$9.00. Wool Jersey Suits with Cap, in plain fast colors, white, cardinal, myrtle, navy and brown. Price \$2.30. Boys' Straight Pants in tweeds, extraordinary value, pair 67c. Boys' Clothing Department.

MANCHESTER ROBERTSON ALLISON, LTD.

INTERCOLONIAL RAILWAY AT THE TORONTO EXHIBITION.

The Canadian government railways are prominently featured at the Canadian National Exhibition in Toronto this year, in a very striking and attractive display in the new Federal Government Building. An electrical map of the territory served by the Intercolonial and the Prince Edward Island Railway occupies over thirty feet of the wall space, and by an ingenious contrivance of electric lighting flashes at various intervals the many points of interest along the route. The line of the railway across the map flickers with motion effects as if the Ocean Limited or the Maritime Express were dashing along the "All Canadian Route" from Montreal to Halifax, St. John and the Sydney linking by a national highway the maritime provinces to the more populous centres of the Canadian Dominion. Close by is an illuminated large painting of the Ocean Limited, with alternating lights behind giving a motion effect that is most realistic of a moving train. Several new and attractive pictures in sepia show places of interest and scenic beauty along the line in Quebec and the Maritime provinces. In another part of the exhibit are pictures showing the grand opportunities for sport and recreation, and a splendid collection of mounted fish and game specimens, a very attractive and interesting exhibit and one that every visitor to the fair should see.

TERRIBLE AND TRAITOROUS NEWS COMES FROM OTTAWA

Think of it, Borden Government Gives Contract to Despised Yankees--Bonar Law and Home Rule (Toronto Globe) Terrible and traitorous news comes from Ottawa, and if it is confirmed then nothing short of the resignation of two-thirds of the Borden cabinet need be expected. A Minneapolis firm has secured the contract for an elevator which the government is about to have erected at Port Arthur. Two, the Minneapolis firm's tender was \$333,851 less than that of any Canadian firm, but don't we all remember how present cabinet members, other Tory speakers, bankers and perfervid patriots appealed to us to throw aside all question of gain and vote against reciprocity. Some cabinet members, amid the applause of their hearers, declared against any "truck or trade" with the United States, and now here they are, for the sake of a few dollars, turning down good Canadian contractors and throwing no less than \$1,179,500 into the pockets of Yankee contractors. Borden should be castrated for once. Unhappily swift and sharp overtook the promoter at least in the Welland police court yesterday. One Sam Morris of Buffalo, came to Welland about three weeks ago, and so despoiled of a vote. He was shortly thereafter arrested and pleaded guilty to the charge. For the next two years Morris will be in jail, and so despoiled of a vote. In the meantime the attorney-general's department must find out, if it does its duty, who was behind Morris in his personating recalcitancy. What a pitiable sight the Unionist party now is under Bonar Law, and what a miserable exhibition so-called loyal Ulster is making of itself over home rule. The same stupid hysteria which a few years ago led the Ulster Orangemen to declare they would kick Queen Victoria's crown into the Boyne has broken out again, and so the men of Ulster, in Britain and in Canada, who on every possible occasion have been declaring that they stood for one navy, one army and one crown are now shouting for a separate crown, for they declare their intention to kick King George's crown into the Boyne if home rule passes. This is the pass to which Bonar Law has led a wing of his party, and no wonder he and his lieutenants are squirming under Winston Churchill's lash, while Hon. A. J. Balfour looks grimly on, knowing the party must soon call on him to deliver it.

Moncton Man Attempts Suicide

Moncton, Aug. 23--Harry Wallace, aged about thirty-four, unmarried, who lives with his mother on High street, attempted his own life between 8 and 9 o'clock this evening by shooting himself in the breast with a revolver. Wallace fired two shots, one taking effect in the region of the heart and the second missing the mark. His condition at a late hour was critical and his recovery is doubtful. The shooting took place in his room and when those in the house were alarmed by the shots and reached the room the young man was lying on the floor. Dr. Claxton was hastily summoned and worked several hours in an attempt to save his life. Wallace, who resided with his widowed mother, had been drinking the last two or three days and his rash act is attributed to a fit of melancholy. He is an employee of the I. C. R. as a laborer and was formerly a brakeman. He had been working in Boston at railroad work and returned here recently and of late has been in the I. C. R. employ. The Poor Nobles of Italy Lecturing at the Camera Club on an out-of-the-way tour in central Italy Alexander Keighly said he learned on good authority that a fine medieval castle in good preservation in one of these Italian towns had been sold to an Englishman for \$10, says the London Daily Chronicle. The poverty of the noble in Italy was sometimes pitiful. He found one majestic pile inhabited by an old woman of aristocratic family, but miserably poor. Showing outwardly as much as possible of its ancient state, the only furniture within it was a deal table, a chair and a battered candlestick. In the town of Assisi, while he was talking to a priest, some poor little children persisted in begging, and the priest told him they were the children of a Count. Some women delight in showing how agreeable they can be--strangers.

THE BEST TREATMENT FOR ITCHING SCALPS AND FALLING HAIR

To ally itching and irritation of the scalp, prevent dry, thin and falling hair, remove crusts, scales and dandruff, and promote the growth and beauty of the hair, the following special treatment is most effective, agreeable and economical. On retiring, comb the hair out straight all around, then bath with a bit of soft soap held over the end of the finger. Anoint the scalp with the following mixture: Put in a small bottle a few drops of the purest castor oil, and add to it a few drops of the purest cod liver oil, and shake well. Rub this mixture into the scalp with the fingers, and then wash with cold water. Shampoo alone may be used as often as is agreeable, but once or twice a month is generally sufficient for all ordinary cases. Those wishing to try this treatment may do so without expense by sending to "Cosmetics," Dept. 44, Boston, for a free sample of Cuticura soap and ointment, with 25¢ book on skin and hair.

GREAT COLONIZATION PLAN

Winnipeg, Aug. 23--Steps towards completing the organization of the colonization company recently launched by the Duke of Sutherland were taken at a conference in the Royal Alexandra Hotel this morning at which the duke, Sir William Mackenzie, Sir William Whyte, A. Norton and B. S. Dennis, of the Canadian Pacific Railway at Calgary, were present. When all details are settled they will proceed on an imposing scheme that will probably rank as unique in colonization work. From coast to coast the land to be acquired by the company to be settled by tenant farmers from the British Isles. In the charter of the company it is understood there is provision for permitting the tenants to acquire their freehold on equitable terms.

Struck By Lightning

Norton, Aug. 23--(Special)--During tonight's lightning storm a bolt struck a barn near Belleisle station and burned it to the ground, together with twenty-five tons of hay and two pigs. The barn was owned by G. G. Scovill and was situated about a half mile from Belleisle Station. The hay belonged to Roy Farrer. Near the barn was a farm house, which escaped. There was no insurance. Reports from the country round about say that the storm was very severe, but as yet no other place has been reported as having been struck. Wales is no more a nation than were the Highlanders in the Scottish counties, for the inhabitants of Brittany, says Lord St. Aldwyn.

PRESIDENT SUSPENDER

THE London Directory (Published Annually.) Enables traders throughout the World to communicate direct with English MANUFACTURERS AND DEALERS in each class of goods. Besides being a complete commercial guide to London and its suburbs, the directory contains lists of EXPORT MERCHANTS with the Goods they ship, and the Colonial and Foreign Markets they supply; STEAMSHIP LINES arranged under the Ports to which they sail, and indicating the approximate Sailing; PROVINCIAL TRADE NOTICES of leading Manufacturers, Merchants, etc., in the principal provincial towns and industrial centres of the United Kingdom. A copy of the current edition will be forwarded, freight paid, on receipt of Postal Order for 2s. Dealers seeking Agents can advertise their trade cards for 21c, or larger advertisements from 2s. NOW Is the Time to BUY You Can Build Next Year

Now is the psychological time to buy a lot in Fair Vale Park, as no telling how prices may jump next year.

It is only natural that St. John will have to grow. Even now her residential sections are fast giving way to business enterprises, and the homes will have to be built in places outside the business district—hence the value of Fair Vale Park as a home investment proposition.

FAIR VALE PARK "The Suburb With a Future"

is but a short run out the I. C. R. Our lots are but a few moments walk from the Depot. The new Valley Railroad will cut across the rear.

We shall be glad to furnish all information about our holdings, and invite you to make all the inquiries you desire.

REV. W. W. RAINNIE'S LIFE ENDS SUDDENLY

Milltown, Aug. 23—A sudden and great regretted death occurred in Milltown about 8:30 o'clock this evening, when Rev. William Wright Stuart Rainnie, pastor of the Presbyterian church here, passed away at his home, after suffering more than a day from acute indigestion. When death came his wife and daughter were with him.

Rainnie had been at Oak Point with the boy scouts and on Wednesday night ate some canned goods, which it is thought brought on indigestion. Dr. M. L. Young was sent for on Thursday and the afflicted man was taken to his home. Dr. W. H. Laughlin was called in, a consultation was held, but the heart was found to be too weak to sustain the shock of an operation and an endeavor was made to strengthen the heart but this failed.

Mr. Rainnie is survived by his wife and one daughter, Jean. Mrs. Rainnie was a St. John girl, being formerly Miss Watson.

Rev. Mr. Rainnie, who was well known in St. John, was born in Aberdeen, Scotland, February 6, 1865, and came of old Jacobite stock. He attended Dr. Bell's school in Aberdeen and graduated in arts from Glasgow University. He was connected with the staff of the Highland Light Brigade and the Gordon Highlanders, but on account of his pronounced Jacobite views resigned after serving seven years.

J. M. Robinson & Sons Bankers and Brokers. Members Montreal Stock Exchange. Market Square, St. John, N.B. Montreal.

He came to Canada in 1889. After taking a course in theology in the Halifax Presbyterian College he was ordained by the presbytery of St. John at Hampton in 1892. He came to Calvin church as minister in 1893 and remained for twelve years. He has been pastor of the Milltown church for five years.

Rev. Mr. Rainnie was a remarkably able speaker and was noted as a humorist. He was famed for his rendition of Scotch stories and was perhaps the best known public reader in the province.

Friends in St. John were shocked to hear of his sudden death and many of them said last night that the Presbyterian church had lost one of its ablest and most efficient workers.

A GOOD SHOWING. According to the Inland Revenue Department Bulletin No. 174 on Baking Powders, received, DEARBORN'S PERFECT BAKING POWDER developing 12.78 per cent. by weight of gas fifty points higher than the government standard.

In comparison with Royal developing 12.83, Pure-Gold 10.28, St. George 10.90, Imperial 7.88, Acorn 11.86, Johnson's 12.30, Woodville German 9.94.

REGULAR RATES. There was an elopement a short time ago, and after a brief honeymoon the bride returned to the parental roof.

GOOD RESULTS ARE SHOWN IN FIRST SEASON

Closing of the Harriet R. Allison Playground Yesterday

EXERCISES ENJOYED

Report of the Supervisor, Mrs. W. C. Matthews—Ladies Gather in Force, But Men Conspicuous by Absence—The Programme

The closing exercises of the Harriet R. Allison supervised playground took place yesterday afternoon. This ground, however, will really be kept open for at least two weeks more. It has had a very successful season, with Mrs. W. C. Matthews as supervisor and Miss Journey as assistant.

There was a fine display of baskets and quite a number of games were played. Mrs. Matthews was in charge of the exercises and she was assisted by Miss Journey.

REPORT OF THE SUPERVISOR, MRS. W. C. MATTHEWS. The Victoria Street Baptist Sunday school issued a small organ for a week without charge, bringing it over and taking it back, and Miss Julia Pirie trained the children for the musical drill and choruses.

them pla. in the sand, have a swing in the baby chairs and then stroll down to the beach. I have had nothing, too, bring their sewing and sit with us for the afternoon. Visitors from outside the city have been very interesting, especially the States. All felt we had an ideal spot for a playground.

We have had very little trouble with the children. They have been so happy they had no time to quarrel. They all seemed to take pride in the property and I have not had to reprimand any for destroying things. One case of smoking and profanity the grounds came to my notice near the first. This was dealt with firmly and no further trouble has ensued.

In our industrial department we cannot show much work done, but we think what we have is most creditable for the first year. Had we had time and been allowed we could have sold quite a number of articles to the many visitors. Our boys made twelve large reed baskets, three medium and three small, in all eighteen.

Four of these belong to the boys. The girls made fifteen raffia baskets, two napkin rings, two needle books. The rule is they make two, retaining one for themselves. Three little girls donated both their baskets to the association.

We have taught quite a class of girls to sew. Teaching just three stitches this summer, Bobby, after such a long wait, I really believe forces have been set going down here this summer in the lives of the children that will mean much to them in their future. Personally, I have enjoyed working with the girls and boys and I shall miss their lively good-natured noise.

Respectfully submitted, MRS. W. C. MATTHEWS. The original poem recited by Estella Fox was jointly composed by her and Marion Peterson, and was as follows:

BOBBY'S CHOCOLATE. Bobby had two sisters. Who were always kind and good. But Bobby he was naughty. Never did a thing he could.

So this day mother gave them A chocolate big and round; While the girls went out to play, Bobby hid his in the ground. "Now I will eat my chocolate," Bobby said with a grin. "But you ate yours this morning," Said his sisters both at once. "No, I did not!" he cried.

"Wee little Bobby said, "Come here and I will show you. —In the flower bed."

But Bobby was mistaken. The wax had just melted. And lo! His lovely chocolate Had melted all away. "There! There—your greedy Bobby. Said his little sister May, "I know you'll eat your chocolate With us another day."

FIRST PROVISIONAL PRESIDENT OF CHINA

Peking, Aug. 23—Dr. Sun Yat Sen, who was the first provisional president of China, has arrived here from Shanghai to undertake the duties of the office.

Archbold charged; Roosevelt denies

Washington, Aug. 23—John D. Archbold today told the senate committee investigating campaign funds that the Standard Oil Company's \$250,000 contribution to the Republican war chest of 1904 was made upon assurance from Cornelius N. Bliss that "the contribution was acceptable to Colonel Roosevelt and that further contributions would be acceptable."

Oyster Bay, N. Y., Aug. 23—Replying to charges made by John D. Archbold before the senate committee today Colonel Roosevelt said: "Not only did I never know anything of such a request being made, but my published letters and telegrams show that when the rumor that there had been a contribution reached me I acted at once, reiterating my demand again and again that the money should be immediately returned. If it had been given, and been assured by Mr. Cortelyou that the money had not been received and would not be received, then, even on the assumption that Mr. Archbold is telling the truth, his testimony so far as I am concerned consists of the repetition of his heavy assertions which were instantly disproved by the production of my letter and telegram."

SIGNS OF PROGRESS. For the year ending July 31, 1910, the St. John clearing house figures amounted to \$76,900,143, while for the year ending July 31, 1912, they totalled \$1,220,395, an increase of \$4,520,252, equal to more than 5 1/2 per cent. The clearing house figures, of course, do not represent the actual volume of trade of this city as a great por-

Be Sure It's Duffy's. The pure malt whiskey that has been prescribed by many physicians when a tonic and stimulant was needed. Look for the "Old Chemist" trade-mark on the label. Be sure the seal over the cork is unbroken. Duffy's Pure Malt Whiskey is made wholly from malted grain by the most skilled experts and as only sound, perfect grain can be malted, it must be seen this product is rich, pure and wholesome.

Courtenay Bay Heights Building Lots! Work on the Street Railway is now going on and the cars will soon go right to these lots. Values will greatly increase and prices will be raised. Secure lots now and reap the benefit. Our streets are made and we are ready for the rush; more new sidewalks being laid, more new houses building, every thing booming in this established centre of activity, and every buyer making money. Come and see for yourself.

Fairville Plateau Building Lots. Don't let this chance slip by without investigating. This is choice home property in a rapidly growing town and the prices and terms are within the easy reach of any working man or woman. Sherbrooke St. is nearly completed and sidewalks will be laid at once. Office on property near foot of Harding Street. See agent there any evening or Saturday afternoons and get free plans and information or A. C. Smith & Co., St. John, West.

WEAK MEN, READ Dr. McLaughlin's Electric Belt. Perfect health and strength denote the absence of disease. When you are weak it means that you lack that which is the foundation of strength of life itself—ELECTRICITY. You may be afflicted with Rheumatism, Dyepelia, Lame Back, Weak Kidneys, Nervous Debility, Sciatica, Constipation or any of the numerous diseases which lead to an early breaking down of the system.

THEY THINK A LOT OF PRINCE PARIS

Edward of Wales Made Fine Impression There

TALES OF FRENCH CAPITAL

Tragic Result of a Strange Jest—Little Old Woman Donates \$4,000 to Police—Aviator Disputes Wisdom of Government Action

(Times Special Correspondence) Paris, Aug. 23—All Paris misses the Prince of Wales, and especially the humble folk of the quarter in which he lived. Every day the shopkeepers of the Rue Royale were on the alert for a glimpse of the prince. The cobbler whose trade kept him at the window was the most fortunate. "I saw him every day," he says with justifiable pride. "Every time he went out he passed my shop, and let me tell you, he never failed to give a glance at it. He was a charming young man and not a bit proud. One day a little girl—I saw it with my own eyes—ran into him as she was playing. The prince held her to keep her from falling and asked her so pleasantly if she had hurt herself."

ENGLAND DOES NOT UNDERSTAND

Economic "Blunders That Come From Discard of Union"—Lack of Incentive Under Present Conditions—The Priest and Politics

(Times Special Correspondence) Dublin, Aug. 23—It was my good fortune to spend a few days in the beautiful and happy South of Ireland with a very remarkable Catholic bishop. This brilliant and engaging man is chiefly famous as an authority on the financial relations of Great Britain and Ireland. His books are the staple of his reading, and he is something more than an auditor to the prince when he is in the south of Ireland. He is a man who holds that life must be controlled and directed, that it can be made happy and secure.

ANOTHER BLOW AT SAILING VESSEL

Panama Canal May Put More Out of Use

LONDON NEWS LETTER

Transformations in Empire Capital Criticized—Bookings for Passage to Canada Again at a Premium—A Decline in Number of Medical Students

(Times Special Correspondence) London, Aug. 23—Sail craft continue to decrease on all the seas and oceans of the world. The first real assault upon the sailing ship came with the opening of the Panama Canal in the sixties. The occupation of the clipper ship as regards some of the most important trades of the world was then significantly threatened. It is apparently reserved for the Panama Canal, after the lapse of long years, to deliver the final blow at the wind-jammer. Until within recent times the long voyage trade between this country and the Pacific seaboard of America was a sort of preserve of the sailor. Then steam began to intrude even the San Francisco trade. It is now morally certain that the short cut through the Panama Canal will presently give the steamship a practical monopoly. British owners, conscious of the trend of events, have for years past been quietly getting rid of their sailing craft. Even the Scandinavians have now ceased to believe in them. Here and there a vessel may be built, but for all practical purposes the production of wind-driven craft has ceased. Those which are afloat are survivors of a past age.

AEROPLANE IS SIMPLE

The working parts of the modern flying machine are infinitely fewer in number than those of the automobile, the motor boat, the railroad locomotive or the steamship. Far more complex is the operation of a high-powered motor car than that of a high-powered aeroplane. Far more delicately adjusted are the thousands of parts of the automobile, the motor boat, the railroad locomotive or the steamship than the mechanism of the flying machine. It is this very simplicity of construction and operation that has enabled the aeroplane to outdo in continuous motion every other known form of conveyance, except steamers, motor boats and sailing ships, and these last named are able to maintain their motion only because of their huge driving mechanism, not being taken to the bulk that is propelled.

Milk is an excellent thing for the skin, and a little warm milk mixed with an equal quantity of warm soft or boiled water should be used every night to bathe the face, and should be rubbed in with the fingers, incipient wrinkles receiving an extra amount of rubbing, extra being taken to rub across, not along them. The hands and arms should be bathed in like manner.

The Cost of The Awful Curse of Strong Drink

\$2,256,324,447

A Practical Solution of the Drink Problem That Will Eliminate Our National Expenditure

Chicago, Nov. 15.—The national expenditure of the people of Great Britain last year, as shown by reliable reports, was \$185,000,000. An amount which is almost beyond comprehension by the report of the General Committee of the great Presbyterian Church, made public at the Atlantic City (N. J.) meeting last May, that the people of the United States last year expended for strong drink the enormous sum of \$2,256,324,447, or the sum of \$24.17 for each person, and \$111.15 for each American family. The same report also states "the fact remains that this is an alarming increase in the use of intoxicating liquors in the United States. It is a commentary on our boasted twentieth-century methods of reformation, and results accomplished. All this in spite of the fact that billions of money and the best brains of the country are combined and through our great and mighty temperance and church organizations and individuality, "the fight of the centuries" against the evils and curse of strong drink is being waged today by thousands of noble men and women.

If all these grand and noble men and women, and all others interested, would only recognize the fact that the man or woman who is suffering from alcoholism or what is commonly spoken of as the drink habit, are poisoned and just as much in need of medical attention and care as

AGRICULTURAL CREDIT INSTITUTIONS ABROAD

Commission From States to Investigate—Some Facts of Interest About System in Germany

(Bradstreet's)

Interest in the subject of rural credit or agricultural finance seems to be on the increase. In its platform adopted at Chicago the Republican National Convention urged an authoritative investigation of agricultural credit societies and corporations in other countries and the passage of state and federal laws for the establishment of a national system of agricultural credit societies having for their purpose the loaning of funds to farmers. The Democratic platform adopted at Baltimore declared the question of rural credit or agricultural finance to be of equal importance with that of currency reform, and recommended that an investigation of agricultural societies in foreign countries be made, and that it might be determined whether a system of rural credit suitable to conditions in the United States might be devised.

On August 8 Senator Newlands, of Nevada, introduced in the senate a joint resolution authorizing the commission appointed by the Southern Commercial Congress to go abroad for the purpose of investigating rural systems of agricultural finance and inviting for the commission the diplomatic consideration of the terms included in its itinerary.

The senate adopted this resolution on August 15. Twenty-seven states were represented in the conference held on the subject under the auspices of the Southern Commercial Congress, which held its fourth annual convention in Nashville, Tenn., in April last, and the conference was directed by David Lubin, the American delegate to the International Institute of Agriculture who explained the European systems from the publications of the institute. The conference decided that an investigation of those systems should be made by an American commission with a view to the adaptation and adoption of some of their features in the United States.

It is of interest to note in connection with this subject the results of some investigations made by Ambassador Lehmann into agricultural credit systems in Germany, which have recently been made public. Germany, it may be said, is regarded as the birthplace of co-operative agricultural credit. The founding of the German system of agricultural credit is attributed to Friedrich Wilhelm Raiffeisen, burgomaster of Weyerbach, who was led by the distress of the years 1846 and 1847 to seek a remedy in a system of co-operation for the slight amount of credit obtainable by the small landholders.

At Weyerbach, the first town of which he was appointed burgomaster, and at Heddendorf, to which he was later appointed, he founded the first agricultural co-operation bank which was called after him, and whose establishment was followed by that of many others. Raiffeisen saw that while the individual farmer might be too small a factor to command extended credit facilities at good terms, a combination of such farmers would represent a strength with which money lenders would be glad to make terms.

For the guidance of those entering into the co-operative associations he laid down three maxims: first, that the members of the association should hold themselves liable to an unlimited extent for the transactions of the society; second, that the association should operate only in a limited field, so that the members would be in effect neighbors; and third, that the management of the business of the society should be done at a minimum cost, most of the members giving their services.

Raiffeisen feared speculative control of the banks, and in order to avoid this and to extend the benefits of the system as

Just Hold the GILLETTE Naturally

Shaving with the GILLETTE is not a fine art, nor does it require skilled labor. You may be "no good with tools," yet you can shave yourself easily and well with the Gillette Safety Razor.

Hold it lightly, as illustrated, and it falls naturally into the right shaving position, blade edge just touching the skin. Then draw it across the face, not hoe fashion, but with the Angle Stroke shown, and the keen GILLETTE blade will cut smoothly in any direction—with the grain, across it, or against it.

If you want a light shave, or if your skin is tender, screw the handle tight. If you want a close shave, loosen the handle about a quarter turn. This allows the blade to spring away from the guard a little and take more hold. Buy a GILLETTE and forget your shaving troubles.

Standard Sets, \$5.00. Pocket Editions, \$5.00 to \$6.00. Combination Sets, \$6.50 up.

At your Druggist's, Jeweler's or Hardware Dealer's.

THEY THINK A LOT OF PRINCE IN PARIS

(Continued from page 9)

promptly relieved all apprehensions by saying to M. Lepine: "For nearly forty years I have been walking about Paris and have been able to appreciate the services of the Paris police. As a mark of my esteem for them I bring you some money, for in my opinion not enough can be done to relieve the police injured in the execution of their duties or the members of the families of policemen killed on duty."

Thus saying, the old lady laid \$4,000 in bank notes on M. Lepine's desk. "I know I don't look the part," she said modestly, "but after all that does not alter my sentiments or my money, does it?"

M. Lepine, the most gallant of men, replied: "What do appearances matter to me, when the sentiments are golden? I thank you from the bottom of my heart for the gift of your money. The old lady departed, leaving no clue to her identity.

M. Reginald Kann, an authority on aviation, writes to the "Temps" that a very great mistake has been made in sending aviators to Morocco, where they are on the eastern frontier. In Africa they can continue to make raids on the coast, and sporting interest along the coast. Aeronautics no longer have any need of such an advertisement.

Mr. Kann contests the right of aircraft to the title of "a new arm," as up to the present its offensive value is recognized as negligible. It is true that a bomb-dropping competition is in progress, but his conditions are not those of war, and the experience of the Italians in Tripoli has shown that the moral and material effect of explosive dropped from aeroplanes is very small.

The services that the aeroplane can render, says M. Kann, are, first, the discovery of the enemy's batteries; secondly, the throwing of a bomb; and thirdly, the dropping of a bomb on the enemy's transport department. The Casablanca Aviation Section took with it twenty tons of material, and the transport of such a load up country offers an insuperable problem.

Jules Poincaré, the one-armed cripple who had been acting as premier at one of the Paris music halls, imagined a way of making his life more romantic by displaying with \$8,000 worth of jewelry entrusted to him by a friendly dealer. These enabled him to be for a few days the owner of a motor car, to drive about from town to town, and to enjoy such a vacation as he never before had in his life. But, like many a romance, it has come to a sudden end. Poincaré was pressed by a good Belgian family. He lost his arm in a fencing contest.

Professor Filsenan, a well known doctor in Lunenburg put forward the curious idea that the end of the world may be brought about by everybody becoming mad.

What would most contribute to the undesirable result would be the spread

ANOTHER BLOW AT SAILING VESSEL

(Continued from page 9)

list on the chance that some of those who have booked passages may drop out. Another company has a few places available in its next two ships, and then nothing until after the end of September.

Every year during the last decade there has been added to the number of the certified insane in England and Wales the equivalent of something like three battalions of the British army, and year by year the pathetic army of the broken and maimed, and often in body, in proportion to the population, growing greater.

Of the total number of certified insane persons 91.5 per cent. were males and 8.5 per cent. females.

Fewer Medical Students

Apart from the influence of the insurance act, the shortage in the entries of medical students has for years been creating a feeling of uneasiness among the leading members of the medical profession of Great Britain. With a continually growing population and with an incessant increase in the number of appointments open to the medical profession, the entry of students has been so seriously decreased as to cause acute anxiety, at least in the London medical schools.

The official figures published by the General Medical Council for the United Kingdom emphasize the fact that the gravity of the situation is general rather than local. In 1813 the number of medical students entered was 1,747, of whom 1,570 qualified and were admitted to the register. Since then the numbers have steadily declined till last year, when the entries

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portions of the ear. There is only one way to cure deafness, and that is by constitutional means. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed, it becomes swollen, and shuts off the hearing. Deafness is the result, and unless this inflammation is removed, hearing will be destroyed forever. Since cases out of thousands are cured by Catarrh, which is nothing but an inflamed condition of the mucous lining of the Eustachian tube, we will give one hundred dollars for any case of deafness caused by catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. CHENEY & CO., Toledo, O.
Take Hall's Family Pills for constipation.

Diarrhoea, Dysentery, SUMMER COMPLAINT AND ALL BOWEL TROUBLES ARE CURABLE BY THE USE OF DR. FOWLER'S EXTRACT OF WILD STRAWBERRY

Mrs. Shaw Lunn, Falmouth, N.S., writes:—"I am dropping you a line to let you know what Dr. Fowler's Extract of Wild Strawberry has done for me. Last summer my little girl had diarrhoea so bad she passed blood. A friend told me of the Extract, so I sent and got a bottle of it, and six doses cured her. In December, 1911, my brother came home from the woods very bad with cramps and diarrhoea, and thought he would have to call the doctor. I thought of the bottle of "Dr. Fowler's" I had in the house, and gave it to him, and in three days he was as well as ever and went back to his work again. I would not be without it in the house if it cost twice as much."

See that you get Dr. Fowler's Extract of Wild Strawberry when you ask for it.

Price - 35 Cents.

Manufactured only by The T. Millers Co., Limited, Toronto, Ont.

Less Hot Work around the Stove

The more you use Edwards' Soups the less hot work there'll be around the stove.

You simply empty the contents of a packet into water, boil for half-an-hour and your soup is ready for the table. All the troublesome part has been done by us—only the easy part is left for you.

And whenever Edwards' Soup comes to the table, good, hearty appetites come there too.

Put a few packets of Edwards' Soup on the grocery list.

EDWARDS' DESICCATED SOUPS

Very inexpensive and cheaper still in 1/2 lb. and 1/4 lb. tins.

Edwards' Desiccated Soups are made in three varieties—Brown, Tomato and White. The Brown variety is a thick, nourishing soup prepared from fresh beef and fresh vegetables. The other two are purely vegetable soups.

SPORT NEWS OF A DAY; AT HOME AND ABROAD

Baseball Stopped By Fog. The Houston Reds and the Marathons were to have played a double header on the Marathons grounds yesterday, but the games were called off on account of rain and fog. Eight innings of the first game were played and the visitors scored 8 runs to the Greys' four. Umpire Rudderham, the new ump. declared "no game." The summary: Marathons. AB. R. H. PO. A.E. O'Brien, 3r ... 4 1 1 0 3 0 0 Wintley, cf ... 3 1 1 0 3 0 0 Fraser, lf ... 4 0 3 0 0 0 0 Pinkerton, 2b ... 3 0 1 2 2 1 0 O'Donnell, rf ... 2 1 0 3 0 0 0 Dutton, lb ... 3 0 2 12 2 0 0 McGovern, c ... 3 1 1 3 1 0 0 Riley, ss ... 3 0 1 1 2 1 0 O'Connor, p ... 3 0 0 2 3 0 0 28 4 10 23 14 3

Earlier in the season sickness and injuries to several of the star players put the team out of the running. Now, just as Doolin's men started to play classy ball, sickness robs the club of the services of the crack young southpaw twirler, Ad. Brennan. According to Manager Doolin and many experts, Ad. is one of the best left-handed pitchers in the country, and his absence has weakened the Phillies' twirling staff. Brennan is laid up with diphtheria, and has pitched his last game of the 1912 season. Manager Doolin declares that the spit ball is responsible for the attack of diphtheria from which Brennan is suffering.

The lowest estimate of C. W. Murphy's harvest is placed at \$150,000. It is said the Pittsburgh club may earn \$100,000 more, and that the great work of the Washingtons will net a similar amount, more than any previous Washington harvest ever made. The champion Athletics have not drawn as much money as last year, it is said, because of the uncertain playing of Mick's men. The Philadelphia Nationals, owing to the dropping of nearly all their best players, will have a poor year, financially, but will break much better than even.

There will be a very interesting game of ball at Tilton's Corner this afternoon, when the winners of the City League and West End League will meet for the championship of St. John. This is one of a series of five or seven games. The game today will start at 2:30 and there will be a double header. The winners of this league will receive a cash cup from Scribner & Co. King Square. The teams to play today are the Victoria and Charlotte street Baptists.

It is likely the Boston Reds will play a series of games in Halifax during the first week in September. Brennan, formerly of the Socials, has been passed out by Chicago to Dubuque of the Three I league. The Socials have signed Pitcher Barry of the disbanded Waterloo, C. B. team. Halifax may have an opportunity of seeing one of the New England League team next month. Manager Jenor, of the Socials, has received a letter from the Lynn-Mass. team, asking for dates during the week of September 9, and made them an offer to play on Sept. 9 and 10.

On account of the unfavorable weather conditions lately, the schedule of the tournament of the St. John Gun Club has been disarranged and with the idea of giving the members a better chance in the competition the shooting has been extended two weeks, making four more weeks before the winners will be determined. The Wednesday night shooting has been discontinued as it was found that the same on too early to give the members a chance to finish shooting.

Frederick Glenner—Bob Ganley got the signals of the Houston battery yesterday. The Pets worried Martini by claiming that he was pitching with his foot off the rubber. Art Finamore did some nice outfielding and so did Pat Duggan. Hannah Hoyt has a lot of trouble in getting ground balls hit to her right. So has Bidlo lost yesterday. Frank Harrington is always as cool as the proverbial cucumber. Dodo Fitzgerald has something on all the catchers in the league. He showed Jack Watt up yesterday and made the Houston line runners look like ice wagons.

The Money Makers. According to information gleaned from baseball men conversant with the financial status of the various major league clubs, none of the club owners will lose money this year, in point of receipts versus expenses. But it is openly stated that several managers will find their profits are much less than they were a year ago. The big money-makers in the major league are the New York Nationals, Boston Red Sox, both Chicago clubs, the Pittsburghs, Washingtons and Athletics.

The Turf Lexington Notes. The world's record for yearling trotting was broken at the Blue Grass Fair recently, when Ed. Willis, trainer at The Pipers Wilkes Farm, drove the bay colt Peter Volo, to a record of 2:19. Peter Volo trotted the first quarter in 35.2 the last in 1:07.4, three-quarters in 1:43.12 (making the middle half in 1:07.12) and the mile out in 2:19. As could have been expected the colt trotted some coming home (3:0 1/2 the last quarter), but as he is a big, strong fellow of the type to stand training, there will come a day this fall when he will come the best quarter at the American League race only in the world. The Red Sox have done a phenomenal business at home and abroad and may provide a net profit of \$250,000, not including the world series raffle off by the team. The Chicago White Sox, while leading the American League race only in the world, are still drawing big crowds at home, the profit being estimated at \$175,000, if not more. The Cubs didn't do so well at the out set, but since Chance's men have braced and are regarded as possible winners of the National League pennant, they have

trof while under a hard drive. He is by Peter the Great, 2:07 1/4, out of Nervolo Belle, by Norvolo, 2:04 1/4, and was bred to the writer as informed by Mr. Joe Knight of Nicholasville, Ky. It will be remembered that it was Eda Willis who drove Miss Stokes to a yearling record of 2:19 1/4, something no other trainer has ever accomplished, and has now beaten a record already held by driving Peter Volo to a record of 2:19. "And the end is not yet."

WHAT FAME BRINGS TO POPULAR DIVA. Madame Tetrizini Now Commands Salary of \$3,000 a Night. When Madame Louisa Tetrizini was singing in San Francisco five years ago her fame had not spread to the east, and at least two important interests failed to embrace the opportunity offered to them by the diva at that time. Tetrizini was singing at the Tivoli Gardens. Her weekly salary at the outset was three hundred and fifty dollars, and as her fame grew, the management increased her honorarium until she was paid three hundred dollars a night. The late Her Conried was then in charge of the Metropolitan Opera House in New York. In response to a telegram asking her terms for a five-year contract, the diva replied that she would sing for five hundred dollars a night. These terms the impresario declined.

MORNING NEWS OVER THE WIRES. Louis Rozencweig, alias Lefty Louis, wanted in New York in connection with the Rosenthal case, has been located in a Rocky Mountain suburb, and is to be brought back to New York. The I. C. R. station at Memramook was burglarized last night but unsuccessfully, as only about seventy cents in copper were secured. The burglars then took a horse and carriage owned by a man named LeBlanc and drove off. The rig was found later but the thieves are still missing. James Sirios has been sent up for trial in Hartland charged with obtaining money under false pretences going about the country selling tickets in a society which does not exist and also selling spectacles, say he had been appointed by the government to examine the eyes of children. The C. P. R. has refused to carry liquor to Carleton county. A new company is being formed in Woodstock to take over the hardware business of H. W. Burt. Wallace Gibson is the promoter and it is understood that Hon. J. K. Flemming will be in the company. Richhurst, Aug. 23—Collector of Customs Hestey is having some difficulty with the department. A customs service official has been looking into the matter. J. P. McManon, Mr. Hestey's clerk, is acting collector pending the result of the inquiry. Paris, Aug. 23—French astronomers are taking deep interest in the eclipse of the sun on Oct. 10. A French official is to sail for Brazil tomorrow to make observations. "Thank you. Good luck, and I hope you will never die till a London hick sets," said a defendant to a dead South Western magistrate.

MORNING LOCALS. The city commissioners yesterday visited the city property at Green Head to study the conditions of the site of the proposed cement works. It was reported yesterday that there had been three breaks in the water pipe in St. David, Clarence and Erin streets, but at the water and sewerage office it was said that no breaks had occurred that the dampness in the street was caused by the "sweating" of the pipes. The total number of vaccinations at the board of health office to date is 325. Many applicants are arriving at the eleventh hour. A request is made by the citizens of Fairville to the city business houses for them to place a two-cent stamp on letters, as Fairville is not in St. John and therefore has the two-cent stamp rate from the city. FLAGS OF THE WORLD. Red is by far the most predominant color in the flags of the world. There is only one flag in Europe that does not contain red, and that is the standard of Greece. After red, blue takes pride of place; but many flags are entirely red, except for minor devices. Egypt, Morocco, Austria-Hungary, and Japan possess all-red flags. No fewer than 42 other countries display red freely in their banners, and the color is, in a natural sense, typical of valor and bravery. Blue in flags represents justice; white stands for purity.

San Francisco Swimmer. Miss Nellie Schmidt, who is twenty years of age, is the first woman to swim across the Bay of San Francisco to Oakland, Mele, a distance of eight miles. Only twice before has this great swimming feat been accomplished—by Dr. F. W. Kitchin, August 6, 1882, and Walter M. Pomroy on September 17, 1911. Miss Schmidt, who hails from Alameda, Cal., made the successful swim on Sunday, August 11, and showed no signs of fatigue after the accomplishment of her luxurious attempt. The coconut palm is not only valuable as a source of food and drink in tropical countries, but it is also the best of all trees for shade.

LOCAL NEWS

BIRTHS AND MARRIAGES Eleven marriages were registered this week with J. R. Jones, registrar of vital statistics and he also recorded the birth of four girls and three boys.

THE CONGREGATIONAL CHURCH Friends of Rev. Mr. Mahood, pastor of the Congregational church, will be pleased to learn that he is slightly improved after an operation which he underwent this week. His place tomorrow at both services will be taken by a former pastor, Rev. S. W. Anthony, now of Cowassville, P. Q., who is here on avist.

IS THIS THE KIRBY? Frederick Barnes called at the Times office today to say that ten years ago he knew a man named Kirby in Williamstown, Conn., who had gone there from St. John, sixty years of age, and was crossing keeper at Camp Station. Mr. Barnes thinks that the city clerk at Williamstown, or Luke Flynn, a restaurant keeper, could give information to enquirers.

COUNTRY MARKET This has been a very quiet week in the country market, largely owing to the fact that so many of the farmers were engaged in haying. Today also saw little country produce brought in, but there was a demand for what supplies were offered. Lamb was much more plentiful and may be cheaper. Butter is higher and eggs were asked for about twenty-seven cents. Eggs are also advancing in price, while green goods are on the decline.

POLICE COURT. John Lane arrested a few days ago for being drunk and who jumped into the harbor, was before the court this morning and was fined \$5 on thirty days. John Allen, arrested on a charge of securing money under false pretences was again remanded. William White was also brought in and remanded. One other prisoner charged with drunkenness was fined \$5 or two months in jail but the fine was allowed to stand.

A. O. H. DECORATION DAY. The A. O. H. members will observe decoration day tomorrow and are planning to visit the graves of their departed brethren in large numbers and honor their memory with floral tributes. Major Thomas King will be grand marshal of tomorrow's parade which will be headed by the City Corner Band and will leave the hall in Union street at 1.30 p. m. A committee will receive flowers at the hall today and tomorrow morning.

YACHT RACE TODAY. One of the chief holiday attractions for today will be the yacht race at Millidgeville this afternoon under the auspices of the R. K. Y. C. The race will be for the Commodore's Cup and is open to Class A, B, and C sloops. The starting gun will be fired at 2.45 and the time limit for the race is three hours. The boats will sail from Millidgeville to Appleby's wharf and return. Quite a few entries have been received for the race. The judges are Robert Thomson, George B. Hegan and J. E. Armstrong. The timers are William White and H. A. Wilson.

LOYAL TRUE BLUE. Victoria Lodge No. 88 of the Loyal True Blue Association held a supper and entertainment in their hall, Oddfellows' building, Simonds street, last evening. A large crowd was present. The tables were tastefully spread and handsomely decorated and were in charge of Mrs. Akery, Mrs. Haines, Mrs. Johnston, Mrs. Marston, Mrs. Brown, Mrs. Morrill, Mrs. Stackhouse, Mrs. Thompson and Mrs. Holton. After supper B. B. Frederick led in the chair and the following programme was carried out:—Piano solo, Miss Akery; address, David Hipwell; reading, Mrs. B. Haines; piano solo, Miss L. Cooper; reading, Mrs. Morrill; God Save the King.

TELL THE TRUTH. Joseph Stackhouse, a thirteen year old lad reported for breaking trees in an orchard owned by Blanchard Fowler in Wright street and also stealing apples there, was before Magistrate Ritchie in an orchard court this morning. He pleaded not guilty but Mr. Fowler told his catching Stackhouse and another lad in the orchard with apples in their pockets. He said Stackhouse tried to run away from him but was caught. The lad told his story to the court, and after he was finished His Honor told him that his middle name should have been Ananias and that had it not been for lies that he told both to the court and to Mr. Fowler, he would have been allowed to go but that he would now be detained.

DOG FINDS ITS WAY

HERE FROM FREDERICTON CITY REWARD FOR FAITHFUL SERVICES BY ITS HORSES

Doran Family Left There Last Saturday; Animal Arrived at Their New Home Yesterday A rare case of dog intelligence is reported. A family named Doran, having moved from Fredericton last Saturday, took a house in Egbert street. In leaving their home in the capital, in the hustle and bustle they left behind their dog. When members of the family went into the yard last evening they were surprised to find the animal there, wagging its tail and apparently glad to see its owners again. Excepting for some cuts about the feet the animal was in good condition. What all are trying to puzzle out now is, how the dog got to the city and still more, how he managed to find the new home of the family. The only possible way of solving the mystery that they see, is that the dog followed the railroad track and although he must have been very often weary and hungry, persevered until he arrived in the city. Truly the dog is man's faithful friend.

WESTFIELD ROBBERY

Home of Frank Lane Visited And Articles Stolen

A telephone message to Chief of Police Clark this morning stated that the home of Frank Lane at Westfield was burglarized between 10 and 11 o'clock last night. The burglars are supposed to be traveling this way. A silver Waltham watch, a black hand bag and a five dollar bill were stolen. The police here are on the look-out. A later report to the chief stated that some of the stolen property had been found on the side of the road this side of Westfield.

MANY BEAT THE STREET RAILWAY IN RUN OF YEAR

An Amazing Collection Of Valueless Coins And Other Articles

THEY ARE PASSED FOR FARES

Medals, Lead Discs, Trading Checks and Even Tops of Syrup Bottles Have Secured Transportation for the Unscrupulous - Many Foreign Money Pieces

In the office of the St. John Railway Company there is a big black box, having eight or ten compartments, and every lit the compartment has some prize stock all its own. The box is plain enough in appearance on the outside, but when it is opened there is revealed a vast collection of all kinds of coins, foreign, mutilated, smooth, and indescribable, as well as a number of interesting assortment of aluminum pieces, bottle tags, medals, trading checks, and other "fares", all of which have found their way to the treasury through the boxes of the car conductors. Through the courtesy of H. M. Hopper, manager of the company, a Times reporter was accorded the privilege of an inspection of the strange lot of curios, souvenirs of the fact that many people have been successful in "doing" the railway, to put it mildly. The coins of almost every nation on the map of the world find their way to it but a few months, and in an ordinary handful of the rightly labelled "junk" is a matter of but a few minutes to select the smaller coins of France, Italy, China, England, United States, Mexico, Newfoundland, Russia, Germany, Spain, Portugal, Holland, in fact all the countries of more or less importance in the world in addition there are to be seen, without a very careful search either, coins bearing the stamp of such far distant places as Ceylon, Straits Settlements, Uruguay, Deminca, Peru, British Guiana, Hayti, Greece, India, Norway, and Panama.

Mr. Hopper said that it was really surprising how soon the "junk" accumulated. In fact such ordinary occurrences had become for the boxes to be "stuffed" with this foreign coinage that a special box had been reserved for it, and compartments had labels designating from which country the coin had come. In a few minutes he had the coins or articles so gathered would represent about a thousand dollars in fare. Some of the foreign pieces were negotiable at par, while others had to be disposed of at much below, and some had to be thrown out because of being unmarketable.

To the seeker of rare coins, the collection would be of little value. It is a mass of such far distant places as Ceylon, Straits Settlements, Uruguay, Deminca, Peru, British Guiana, Hayti, Greece, India, Norway, and Panama. The coins are precisely new, and bear the date of last year, or some time within the last decade. The head of many a noted ruler is to be found on one or other of the coins, and names which have been famous in the history of a nation are inscribed about the edges.

For instance, in the large collection yesterday in one handful picked up were coins stamped with the profile of Carlos 3rd, Oom Paul Kruger, Victoria Emmanuel III, Napoleon III, Louis XVIII, Leopold, Napoleon III, Louis XVIII, Leopold, Belgium, Alphonse XII and other notable.

Besides the vast collection of coins, which are slipped into the fare boxes mostly by foreigners, there are a large number of counterfeit fares which find their way there, and which it is thought are not of foreign origin, but intentionally inserted by local people. In the last few days several pieces of silver, tops of syrup bottles, medals, paper souvenirs, trading checks, and a variety of other articles which at one time carried one, two, or more persons in the street cars, alongside those who conscientiously inserted the lawful coinage of the realm in the fare box.

It has been the custom in the past to have an auction sale of horses which have become old in the service of the city, horses which have been guided to the scene of many fires, or which have performed other duties connected with the municipal department, and done well. Commissioner H. S. McLellan proposes to make a change in the disposal of these faithful steeds, and regarding the matter from a sentimental standpoint, and being a true-lover of horse flesh, he has decided that in future there will be no public auction of horses which have seen a certain number of years in the service of the municipal departments. Instead a home will be found for them where they will receive the kindly usage to which they have been accustomed, either on a farm, or in some other such place where they will not be over-worked or ill-treated. Or, if necessary, the use of chloroform might be resorted to, should death be thought preferable to a few years of drudgery after a long and faithful record in the public service.
