BURGLARS ENTER ANDOVER STORE

A bold robbery took place early Monday morning at Andover when D. R. Bedell's store was broken into. Gilbert Titus happened to go by the store about 1 o'clock in the morning and noticed a light. As soon as possible he aroused Mr. Bedell. In the meantime the thieves got away with about \$100 worth of clothing, consisting of two ladies coats, two childrens coats, several suits for underwear and numerous pairs of silk and wool hose. In their hurry they left behind several bags packed with merchandise. It is supposed they made for the United States border by automobile and it is doubtful if they can be traced.

BATH

The month just ended has been the busiest October in local shipping circles for many years. The total number of carloads of potatoes being shipped from Bath alone, being 51 cars, or on a conservative estimate 12,500 barrels. Thousands of barrels of potatoes, besides are stored in the different warehouses of the local buyers and every available cellar in town is filled with the potatoes of farmers, who have stored them in the hope that later on, better prices may prevail. One company alone, during its first week of buying, took in 2000 barrels. A hopeful anticipation that prices for this product might be better was realized last Friday, when a raise of five cents a barrel was recorded. The former price paid being sixty cents.

Hallowe'en pranks were much in evidence last Friday evening, especially in the lower end of town. The attack of the youthful vandals, it would appear was centered on one of our most peaceful citizens. The generosity of the youths was very evident, for they bestowed upon the citizen, articles of every description, useful and otherwise. In fact his front porch might have been taken for an untidy yet up to date junk shop.

On Saturday night the Hallowe'en spirit had not totally abated for a small yet very useful building belonging to Theodore Gallagher was pried loose from its foundations and sent tumbling from its original position on the crest of a steep embankment to the shore below.

When the hydro was turned several months ago, most of the individual buildings in town had been wired already for the flood of artificial light. Since then numerous other individuals have had their respective homes and places of business wired which adds much to the nightly appearance of the town. The C. P. R. station however, it would appear, does not need these advantages. Yet a few lights so placed as to brighten up the platform on the arrival of 55, the night train, would certainly be much appreciated by the patrons of the road; adding much to the safety and general appearance of the company's property as well.

Miles E. Agar wholesale hardware merchant and prominent lecturer of St. John, N.B. passed through town on Monday by motor enroute to Perth.

Anthony Cummings, 90 years of age lies seriously ill at his home at Killowen, with very little hope held out for his recovery.

Steven Mooney B.C.L., Perth, was in town Sunday enroute to Fredericton, there to attend court.

Miss Mary Murphy, left on Saturday for St. Thomas, Carleton, Co. where she has accepted charge of that school.

Fred McLaughlin, W. J. Garmon and T. C. Bohan motored to Houlton, Me. on Sunday.

A pleasant Hallowe'en party was held in the Club Hall, last Friday evening in honor of the school children of the advanced grades. Mrs. John T. Commins and Miss Margaret Irving acting as chaperons.

Mr. Philip Dionne and Family of Perth, last week moved to town and are occupying the H.P. Giberson house.

Sheriff A.R. Foster was successful Mr. and Mrs. Harry Price and Mr. and Mrs. J.N. Drost motored to Monton Sunday last in apprehending at Bristol, the young man who on the night of Oct. 25th so successfully battered up the front of the office building belonging to Charles T. Bohan. Satisfactory guarantees having been given to cover the cost of repairing the damage, he was allowed his freedom.

Arthur J. Drost last week had a powerful radio installed in his home much to his own enjoyment and that of his many friends.

MARRIED AT FREDERICTON

Miss Vivien Coulthard Becomes
Bride of J. Burton Taylor
at Home Wedding

A very pretty home wedding was celebrated this afternoon at 3 o'clock at the home of Mr. and Mrs. H. L. Coulthard, Saunders street, Fredericton when their daughter, Vivien, became the bride of J. Burton Taylor son of the late C. Humphrey and Mrs. Taylor of Hartland. The ceremony was performed by the Rev. F. H. Holmes, pastor of the Methodist church, in the presence of the immediate relatives of the bride and groom.

The bride, who was given in marriage by her father, wore a tailored suit of navy blue pique tulle, a crepe de chine blouse, wood colored duvetyne hat and a seal scarf. She carried a bouquet of white roses and entered the parlor to the strains of the Wedding March played by Miss Vivian Smith. She was attended by her sister, Miss Vane Coulthard, who wore a gown of black velvet with hat to match and carried a bouquet of American Beauty roses. Egbert Cacc supported the groom.

Following the ceremony a buffet lunch was served, the dining room being prettily decorated with hearts and cupid and the table centered with a large basket of yellow chrysanthemums. The bride's table was centered with the bride's cake surmounted by a miniature bride and groom and surrounded by yellow and white maline.

The bride, who has been for some years on the staff of Dibble's Drug Store, was the recipient of many beautiful wedding gifts, she being deservedly popular with a large circle of friends and the public generally. Her gifts included linen, silver cut glass, furniture, china, and numerous cheques. Her present from the groom was a seal scarf while to the bridesmaid he gave a ring, a brooch to the pianist and a stickpin to the groomsman.

Mr. and Mrs. Taylor will reside in two town pounds. The little mite is do Gleaner.

Fire Causes Death At Aroostook

A fire broke out in the house of Fred Bean on Oct. 30th, which caused the death of his wife, who was suffocated by the smoke from the blazing residence. Mrs. Bean who was virtually a helpless cripple was over 60 years of age and weighed about 260 pounds. She usually sat in a large chair which had been specially made for her by Mr. A. Hathaway, blacksmith of Aroostook, but on the morning in question she was lying on a couch, her husband, Fred Dean having left to drive the children to school at Aroostook, which was his daily avocation. About 10.30 a.m. a boy who was on his way to Art Russell's saw smoke coming from the house and raised the alarm. Neighbors who quickly assembled were able to see that Mrs. Bean was dead and that the fire had not reached her, so it is most probable that she had not suffered, in fact it was almost certain that she was suffocated in her sleep, but before she could be reached a 2 gal. can of Kerosene exploded close to the door of the bedroom and before her body could be taken out both her legs and one arm had been burnt off.

Mrs. Bean was sister to Art Russell, farmer, and had lived round the locality near the U. S. border practically all her life and was greatly respected. It was certainly a great relief to her friends to feel assured that her death was surely a painless one instead of the terrible fate of being burned alive which was at first understood to be the case.

Leaving Hartland

A large number of the members of the Methodist Church and congregation met at the home of Rev. Thos. and Mrs. Pierce Saturday evening to express regret on their leaving our town and to bid them good bye. They have sold their bungalow here and have bought a home in Woodstock where they intend making their home in the future. The evening was pleasantly spent in social intercourse and refreshments were served by the ladies of the church. Mrs. Pierce was presented with a very nice rug while Mr. Pierce was made the recipient of a sum of money.

AROOSTOOK

Mrs. Burchall f McAdam was a visitor with Mr. and Mrs. R. A. McAdam last week. Miss Teressa Bourgeois spent the week-end with friends at Fort Fairfield.

Messrs Henry Gant and D. H. Hussey of Everett, Mass. passed through Perth on Saturday enroute to Riley Brook on a hunting trip.

Mrs. D. J. McLennan paid a visit to her parents Mr. and Mrs. Ebbett on Saturday, at Peel.

Mrs. McPherson and her brother Amos Ketch, accompanied by Miss Hazel Walters, motored to Houlton last week.

Mrs. Ira Wharton of St. Stephen is visiting Mrs. J. R. Smith.

The Empress Rebecca Lodge gave a supper and entertainment last week for the purpose of raising funds for the I. O. O. F. home.

An accident occurred on Sunday afternoon when an Auto overturned near Upper Kent, striking and breaking a telegraph pole, which fortunately did not injure the occupants beyond a few bruises. The accident was caused by a "road hog" who in passing kept in the middle of the road, causing the other car to swerve too near the side and upset. The party consisted of Mr. and Mrs. C. Lovely and infant, Mr. J. H. Donovan and Mrs. Lawley. The "road hog" who refuses to turn out sufficiently to let other autos pass is becoming not only a nuisance but is a source of danger and numerous accidents and steps should be taken to restrain this vicious practice.

A party was given on Hallowe'en night at the home of Mr. Len Parent and a pleasant evening was spent with music, games etc. Refreshments were served during the evening.

Mrs. Washburn Larlee who has been seriously ill is reported to be greatly improved in health.

Mr. "Stork" who visited three homes in Aroostook last week, paid another visit on Saturday evening Nov. 1st and left a fine daughter with Mr. and Mrs. H. W. Taylor, this last arrival makes a total of eight during the past 8 years, six of whom are under 6 years of age. We beg to reiterate the statement made last week, "We have no race suicide in Aroostook".

BRING RESULTSAncient Island
Disappears

A new deluge-drama was revealed recently when a British sea captain sailed for waters which were once held back by Easter Island. With the disappearance of this tiny volcanic speck, emerging out of the lonely Pacific, twenty-three hundred miles off the coast of Chili and fifteen hundred miles removed from the nearest inhabited country, the last dot-of-an-immense-continent, with millions of inhabitants, and once, in the remote ages, boasting a great unknown civilization and a brilliant court of an emperor, has vanished.

All of this once mighty land has been engulfed in the ocean, by earthquake, fire and flood. For almost a century and a half, Easter Island has been an enigma to scientists. Its vanished peoples left many strange monuments to their skill. Although warred against by the storms of tens of centuries, these mute memorials preserved much of their original shape. Scientific investigation after scientific investigation has sailed to its charming shores in an effort to unravel its riddle of the ages; but the effort was in vain. Just what this story of a buried continent would tell is now lost forever. It has become one of the many mysteries of the Pacific Ocean. In view of the fact that the last trace of an ancient land, which once, it is believed, stretched almost to Asia, has disappeared for all time, it will be interesting to trace its history, so far as we know it.

Since its discovery by Admiral Roggeveen in 1772 this isle has been a constant source of stimulation to the minds and activities of archaeologists and to the imaginations of romancers of every description. "There on the slopes which face the boundless ocean, carved out of the porous rock of which the island is largely composed, stand huge platforms from 20 to 30 feet wide and high and hundreds of feet in length. No cement has been used in their construction, but the blocks of which they are built are perfectly shaped and joined together.

Even more remarkable than these platforms are the great stone statues which surmount them, some upright, some overthrown and shattered, some only partly carved. They are enormous images; grotesque human busts, ranging from five feet to 48 feet in height, and looking out over the sea with inscrutable, unseeing eyes.

What ancient race of people produced these remarkable examples of sculpture? Surely not the Polynesians who now dwell on Easter Island, for they have no knowledge of stone carving, and look upon the ancient statues as "the hardiwork of the gods." This enigma has for several years occupied the attention of two investigators in particular. Prof. Macmillan Brown, a noted Australian scientific worker, and Mr. Frank Brunnell, an archaeologist who has spent the last twenty-five years in the South Seas and South America.

Both have issued statements summarizing their work on the problem, and both have arrived at this amazing conclusion: that the Easter Island remains point unmistakably to a great Pacific continent, to an empire and a civilization which were completely wiped out and submerged under the sea by some vast natural cataclysm.

At last, a vanished empire, civilization wiped out and reposing on the ocean's bottom—it recalls a story first related by the Greek philosopher Plato, who had it from certain Egyptian scientists that 9,000 years before the time of Solon, ancient lawgiver of Athens, there existed a vast country just outside the Strait of Gibraltar, a country whose inhabitants had evolved a perfect form of government, under which every one was content and happy.

The name of this country was Atlantis, and the Atlanteans overran and subdued all the Mediterranean nations, except Athens. Then came a tremendous cataclysm, and Atlantis, a land as large as Asia Minor and Libya combined, suddenly sank with all its palaces and people, into the ocean now called the Atlantic.

During the twenty-four centuries since Plato's death there has been unceasing speculation concerning the possible germs of truth that may have formed the foundation of Plato's story, but nothing can be proved. We have no facts, no remains, only visions such as the submerged city of Atlantis that Jules Verne has drawn for us in his pseudo-scientific tale, "Twenty Thousand Leagues Under the Sea."

But the authentic reports of Prof. Brown and Mr. Brunnell regarding Easter Island at once seem to translate the old legend not only from the Atlantic to the Pacific, but also from the realm of fancy and romance to the domain of fact and history.—The Sailor.

Hymn in Court.

When the Folkestone, Eng., magistrate recently licensed Sunday dancing, a number of objectors to Sunday dancing—who included ministers, churchmen and women of all denominations—in the body of the court commenced singing "Praise God from whom all blessings flow." Led by a Baptist, they sang the four lines of the Duxology, while the court clerk and police cried "Order, order," before they were ejected.

ASTHMA NEVER
CAME BACKSince Taking The Fruit Treatment
in "Fruit-a-tives"

Read this letter from Mrs. J. M. Pennington of New Rockland, P.Q. "In 1919, I was taken with Bronchial Asthma and no one knows what I suffered during the winter. I began having choking spells and would just gasp for breath and could not speak. The doctor said he could do nothing for me.

In the spring of 1920, I started taking "Fruit-a-tives" and soon the choking spells became easier and I have not had one since May 7th, 1920. It is such a relief to be able to go to bed and have no thought of having to get up in the night for an hour or more as I did all that winter, but never have to now, all because I take a "Fruit-a-tives" tablet every night. 25c. and 50c. a box—at all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa, Ont.

WINTER FLOWERING BULBS

Hyacinths, tulips and narcissi can be grown successfully for winter

with very little care, if planted now. A good friable garden soil, with a little sand added through drainage

is essential. The desired number of pots should be obtained in the following sizes: four and one-half inch for hyacinths, one bulb to a pot; five-inch for tulips, five bulbs to a pot; and six-inch for narcissi, three or four bulbs to a pot. Other containers can be used satisfactorily provided there is a hole in the bottom for drainage. First place bits of broken pots or small flat stones in the bottom of the pot to facilitate drainage, then partly fill the pot with soil, well pressed. Place the bulbs base down on this, cover with soil and press firmly all around with the tips of the fingers. When finished the tips of the bulbs be just showing and the soil should be one-half inch from the top of the pot.

after potting, a thorough watering should be given, filling the pots to the brim to ensure saturation of the soil. The pots should be buried six inches deep in the sand out of doors, or placed in a cool, dark part of the cellar to make root growth. If the pots are placed in the cellar, occasional watering may be necessary to keep the soil in the pot always moist. A good root growth is absolutely essential before attempting to force the bulbs into bloom. It is impossible to get good bloom from a bulb with scanty root growth. From six to eight weeks is required for root formation. About the first of December those bulbs buried out door should be brought into the cellar, otherwise they may become frozen. If cut flowers are wanted, the bulbs may be planted in boxes and treated as described for pot culture.

COULD NOT

Pains and Headaches Relieved by Taking Lydia E. Pinkham's Vegetable Compound

Dublin, Ontario.—"I was weak and irregular, with pains and headaches, and could not sleep nights. I learned about Lydia E. Pinkham's Vegetable Compound by reading the letters in the newspapers and tried it because I wanted to get better. I have got good results from it as I feel a lot stronger and am not troubled with such bad headaches as I used to be and am more regular. I am gaining in weight all the time and I tell my friends what kind of medicine I am taking. You may use my letter as a help to others."—Mrs. JAMES RACHO, Box 12, Dublin, Ontario.

Halifax Nurse Recommends

Halifax, N.S.—"I am a maternity nurse and have recommended Lydia E. Pinkham's Vegetable Compound to many women who were childless, also to women who need a good tonic. I am English and my husband is American, and he told me of Lydia E. Pinkham while in England. I would appreciate a copy or two of your little books on women's ailments. I have one which I keep to lend. I will willingly answer letters from any woman asking about the Vegetable Compound."—Mrs. S. M. COLEMAN, 24 Uniacke Street, Halifax, Nova Scotia.

Colleen Moore made a decided hit
People", a brilliant expose of the lives
of many, who really are not at all
what they appear to their neighbors
and friends day by day. On Saturday
evening Dustin Farnum was shown
in "The Man who Won". Although
starring Mr. Farnum, many of the
roles were stellar ones, among them
that of the husband taken by Ralph
Clodinger and the interloper by
Lloyd Whitlock. A trio of tramp char-
acters were screamingly funny,
through the piece. The well filled bill
was opened with an Educational reel
comedy, wherein a quartette of
trained apes did some wonderfully
intelligent stunts. Read page 7 for
this week's program.

OLD PEOPLE NEED A TONIC NOW

They should take Father
John's Medicine

It is not un-
common for old
people to feel
frail and weak
and unable to
resist the cold
as the chill of
winter comes on.
Their body en-
ergy is often at
a low ebb. They
have not been
getting quite
the proper amount
of nourishment
from their food.

When this is
so, they should
at once begin to take a food tonic
to strengthen the body and to nourish
and enrich their blood.

Father John's Medicine is the best
food tonic and is perfectly safe. It
nourishes nerve and body tissue and
builds up the resisting power so that
the system is able to throw off poison-
ous waste matter. It acts as a very
mild laxative. All pure food. Guar-
anteed free from dangerous drugs.

POTATO MARKET CONDITIONS IN THE UNITED KINGDOM

Trade Commissioner in London, writing under date Sept. 30, 1924, states that he has come across in the press several alarmist statements predicting a shortage in potatoes in the United Kingdom, and as from past experience it would seem possible that similar reports might reach the Canadian press, he thought it advisable to consult one of the principal firms in the United Kingdom associated with the potato trade. Within his knowledge, past experiments which have been made in an endeavour to secure an outlet for Canadian potatoes in this market have been unsuccessful. While the cost of transportation has been a handicap, the chief reasons are that only certain varieties of potatoes are saleable in this country and these differ almost entirely from those grown in Canada; and moreover trial shipments have reached this country damaged by frost which made them practically unsaleable. In conversation it was stated that while there is some disease in certain districts, the English crop, which is only now being lifted promises a fair yield; that there is a very heavy crop in Scotland, which as far as is known, is unaffected by disease; and that there is a good crop in Ireland. This firm are receiving offers from Holland, Norway and other Continental countries which

grow the varieties in demand in the United Kingdom, at prices which compare favourably with those of English potatoes. There is no present prospect of a shortage of potatoes and if there are any opportunities for Canada, these will come later on.

It is stated by this authority that the only potatoes saleable in Great Britain are what are known as "White Flesh".

A few lots of potatoes are going to English Markets but on account of low prices in United States and Germany not much prospects in this market except at low prices.

Any SKIN TROUBLES in Your Home?

Then Zam-Buk is your surest means of securing once more perfectly sound tissue and a blemish-free skin. Zam-Buk owes its signal triumph over skin disease to its unique herbal composition. This rare antiseptic balm expels all harmful germs that have secured lodgment beneath the cuticle, banishes sores and eruptions, and grows healthy new skin in a way done by no mere pore-clogging ointment or fatty salve.

ECZEMA ON HANDS.—Mr. J. E. Cusick, of 349, Wilson St., Hamilton (Ont.), says: "Every winter eczema appeared on the back of my hands. The intense itching and pain was most severe, and the disease got so bad, I was unable to work. Even a sample box of Zam-Buk proved its worth, and I at once bought a supply. I never could have believed if I had not experienced it, how quickly Zam-Buk completely healed my hands."

BURNS & SCALDS.—Mr. E. Webster, of 519, Seigneurs St., Montreal, says: "As I was lifting a pan of boiling water off the stove, my son Eddie ran towards me and knocked the pan towards me, severely scalding my neck. We tried several so-called remedies, but they all failed to give him relief. We then applied Zam-Buk and this acted like a charm. It drew away the pain and soon healed Eddie's terrible scald."

POISONED HAND.—Mrs. Geo. Boorman, of 906, Selkirk Avenue, Winnipeg, says: "I cut my left hand while using a pair of scissors. The deep injury was lacerated so profusely and so long, I was afraid an artery had been severed. Inflammation set in, and my thumb turned black with poison. Zam-Buk soothed the acute pain directly, drew out all inflammation and discoloration and soon healed the wound."

FIRE

A very bad fire broke out at St. Anne's on Sunday afternoon in the Eastern Townships Company.

The fire is believed to have originated from dead leaves being burned on a railroad track not far away.

Several hundred cords of wood were burned and the loss is very heavy. There were several fire brigades from nearby towns with their equipment enlisted in fighting the fire. The Edmundston Brigade responded about two o'clock Sunday afternoon and stayed until the early hours of Monday morning. The C. N. R. Tank car which was loaned to the C. P. R. was also in attendance.

The Van Buren and Caribou Fire Brigades were also at the fire and the combined efforts of these brigades did excellent work and were responsible for curtailing the damages from the fire as there is reported to be an immense pile of pulpwood in the yards.

Here and There

"Moose are plentiful in the Chapleau, Ont., district, and hunters can secure a good 'bag' of deer and bear," says J. W. McVey. Experienced guides can be obtained and hunters are assured they will get their limit.

"One of the things for which Canada is most to be congratulated is that she has established a system of education that compares favorably with any in the world. Canada is a nation of literates, she has a remarkably small proportion of illiterates," stated the Right Hon. H. A. L. Fisher, former Minister of Education in the British government, when disembarking at Montreal.

One of the many gifts offered by enthusiastic individuals to the Prince of Wales on his visit, the majority of which he could not for obvious reasons accept, was a package of French-Canadian tobacco grown on a farm at St. Roch l'Achigan, situated near the boundaries of Montcalm and Assomption counties. In a letter from the Alberta ranch the Prince through his secretary thanked the donor for the gift.

A cablegram from London, England, quotes an article in the "Financial News" dealing with the British Empire Exhibition. It stresses the exceptionally fine exhibit staged by Canada and the unquestionable benefit to trade relations it has effected. The article pays a high tribute to the Canadian Pacific Railway exhibit, describing the railway's gorgeously illuminated map of Canada, with its 5,000 incandescent lights as probably the most brilliant specimen of cartography ever seen at the exhibition or elsewhere.

It has been announced that H. J. Logan, M.P. for Cumberland, will accompany the Minister of Trade and Commerce to the West Indies to negotiate a new reciprocal treaty with those islands. The general purpose of the visit is to admit West Indian commodities free in return for Canadian manufacturers receiving similar treatment, the products of the two countries being entirely dissimilar. It is also hoped to build up a direct system of importations through Canadian ports instead of through the United States, by which route a great proportion of West Indian products now come to Canada.

The Canadian Pacific Railway has appointed P. A. Cox, general agent, to be assistant Oriental manager, at Shanghai, and E. F. L. Sturdee, acting general passenger agent for the Orient, to be general passenger agent for the Orient, with headquarters at Hongkong. Leo Solloway, recently appointed Asiatic freight agent, with offices at Montreal, and supervision over Oriental and Australasian traffic via Pacific ports, has the distinction of being the youngest official in the Canadian Pacific Service. He was born in Vancouver, in 1895, and has been in the steamship freight service 14 years.

The winners of the Canadian Pacific Railway's Ontario bungalow camps fishing trophy competitions for 1924 were announced recently. The French River competition resulted in two competitors turning in fish almost identically alike. In this contest a tie was declared. The successful anglers were D. W. L. Hawkins, New York City, and H. H. Champ, Hamilton, Ontario, each entering a small mouth bass weighing exactly 4 pounds. The winning fish at Nipigon River Camp was a 6 pound, 10 ounce trout, caught by William Metzger, Detroit, Michigan. The Devil's Gap (Lake of the Woods) trophy was won by J. A. Furlong, Winnipeg, Manitoba, who entered a musk-lunge weighing 20 pounds, 8 ounces.

Use the Want Ad Way

IF you have anything to sell, a house to rent, money to loan; IF you want a position, or a farm or a store; IF you are in need of help for your farm or your business;

THEN put a WANT AD in The Observer. It will make money for you. If you read our Want Ads you can save the price of your year's subscription to The Observer by saving money on some article advertised in our Want Ad column.

THE WAY you write your Want Ads has a lot to do with their effectiveness. State clearly just what you want to buy when you are advertising a farm or a house, etc., for sale; give the price and terms you will accept. If you want a position give your qualifications. Be explicit and to the point.

THE COST of these Want Ads is very small. Fifty cents for the first week and twenty-five cents for each additional week. No ad to exceed five lines, six words to the line. If over five lines the price is ten cents per line for first week and five cents per line for each additional week.

Money must always accompany the order. Please don't forget this as no ad will be charged. Address all communications to

The pastor will preach on the subject "A Call To Thanksgiving" and the choir will render special music. It is fitting that all thoughtful persons should gather in the appointed places of worship on this day, to offer thanks to Almighty God for the many blessings bestowed. Those who do not worship elsewhere will find a cordial welcome at the Baptist Church. In the evening at 7.30 o'clock the pastor will again preach and will take for his subject, "Costly Helpers".

OBITUARY

MRS. CLARA HALLETT

One of the largest funerals ever held in Upper Brighton was on Sunday afternoon, when people gathered from every quarter to pay their last respects to Mrs. Clara Hallett, who died on Friday, Oct. 31st. She was ill only a few days with pneumonia and her death came as a shock to the whole community as she was honored and respected by all who knew her. Sister Hallett professed religion a number of years ago and united with the Primitive Baptist Church of the above mentioned place where she remained a consistent member and church worker. Her last testimony was telling of her prospect of Heaven and giving council to others to make their peace with God. Not only the church but the whole community deeply feels the loss of this Christian mother.

She was 70 years old and leaves to mourn, two sons, Elverson and William, who lived at home with her and two daughters, Mrs. John Christian and Mrs. Glenn Colwell of New Westminster, B. C., who could not be present at the funeral and one brother, Ransford Kimbal of Lowell, Mass.

The funeral services were held at the Primitive Baptist Church, conducted by Rev. P. J. Quigg assisted by Revs. J. M. Mallory and A. H. Hatfield with interment in the cemetery nearby.

Much sympathy is felt for the bereaved family in the loss of a good mother.

BATH

(Too late for last week)

A certain amount of excitement was caused Saturday night about 12 o'clock when an automobile driven by a band of merry-makers, stopped first in the alleyway between the warehouse of the J. W. Bohm Estate and Fred P. McLaughlin's blacksmith shop, presumably for refreshments. When refreshments having been served, the motor was thrown in reverse, the captain, John Barleycorn gave orders that "This night, through the obstacles be great. Every cylinder is expected to do its duty." The immediate objective was the office owned by Chas. Bohm.

The thirty intervening feet were covered in record of time. Down in the gutter they backed; up over the cement platform and then CRASH—down the two large lower panes of glass. Such was the impact that the wood work between the windows and the foundation was smashed to kindling and the office safe, panic stricken, jumped fully six inches from its original position. Not being satisfied with this amount of progress, the motor was still supplied with sufficient gas to keep the rear wheels revolving about 1000 revolutions per second. Then when the wood work had been screeched by the revolving tires, and as the facility to the endeavor to move this building became more and more apparent, the captain having been well high spent, the crew deserted the ship. The first mate then took charge, spread his sails and at 4 a. m. Sunday morning, made presumably for an unknown part in the land of golden opportunities to the south-west.

Fred P. McLaughlin during the past week has completed the raising of his blacksmith shop, new "H's have been inserted; the floor has been relaid and other much needed renovations taken care of.

Fire on Monday morning destroyed the bank and contents of Howard Park at Bristol. The less than heavy rain recently covered by insurance.

The dance held at the Elite Theatre on Wednesday evening, by the young ladies of Bath, for charitable purposes was highly successful, the hall was very artistically and daintily arranged for the occasion, a good time was spent by all of those present and a goodly sum was realized.

Miss Margaret Hoinle of Grand Falls, who during the past week was the guest of Mrs. William Martin, Lower Main Street returned home on Monday.

Mrs. John Ireland, Nobleton, Ont., writes:

"I was a great sufferer from severe headaches and bilious spells. I tried a number of remedies without obtaining any benefit until I was advised to use Dr. Chase's Kidney-Liver Pills. R. Chown of East Florenceville, Mr. and Mrs. Billings, Juniper and Claude Fitzgerald of Glassville. The rooms with their tastefully arranged potted plants and flowers presented a pleasing appearance especially the parlor where the bride and groom received their congratulations, the bride being prettily gowned in navy blue silk canton crepe, with touches of embroidery in oriental colorings. The evening was delightfully spent in social conversation and music, both vocal and instrumental, with Mrs. Sperry Green at the piano. IN MEMORIAM

IN LOVING MEMORY OF
Leverett E. Cattelle, died Nov. 2nd 1922.

O weary eyes with tears so dim,
Too deep to often flow
Some day you'll see the face of him,
And with his glory glow;
And in that day no grief nor fear,
Thank God shall bring you tears.

O hungry love that longs to bind
The dear one hid away
God ev'ry broken link shall bind,
And give them back some day,
You'll shout with everlasting breath,
Thank God there is no death.

BACK TO ROYALTY

Egyptian King the "Patron Saint" of Suspenders.

Modern Man Must Concede That He Owes Much to Monarch of Many Centuries Ago.

Perhaps if suspenders could be said to rise to the dignity of a "patron saint," old King Nar-Mer, of the earliest dynasty of ancient Egypt, would be the logical candidate for the job. He bossed the first of the series of what we know as the dynastic kingdoms of Egypt more than 5,000 years ago. Nar-Mer is undoubtedly the first royal patron of suspenders, as testified plainly by his delineation wearing the article, found on a slate palette dug up in the ruins of Hierakonopolis late in the last century. His lone suspender, however, differed from the present models.

Perhaps his royal ribs would be glad for old associations' sake to know suspenders are "coming back" after pretty nearly losing their grip on that part of the public who wear trousers. But, though Fashion may have rung the gong on suspenders some years ago, the fickle old dame has done a reverse now, according to the haberdashers' reports. These purveyors of all the latest in ladda gents' furnishings say that their sales are steadily increasing wherever suspenders have been put on display.

The very latest styles from London (where our styles in pants—bag pants, trousers—are born, doncherno) prescribe cuffless trousers to a very large extent. And as we male molds of form know but too well, cuffless pants are the very device to hang badly without the aid of suspenders. They're quite as unsatisfactory in most cases as going to a dance in evening clothes without the aid of braces. And of all the uneasy feelings ever inflicted on man by the uncertainties of dress dependability, this torture is maybe the worst. For if his trousers should slip—good night! Also, good night, style! Of what avail custom-made trousers fashioned by the highest art of super-tailors—if the darn things don't look right? And nine out of ten of the cuffless kind don't, unless galls are attached to give 'em the absolutely necessary proper pitch and hang.

But a whole lot of nice things can be said favoring the return of suspenders, besides the above. They are the fat man's friend and the thin man's ally—Philadelphia Ledger.

May Ect in Abyssinia.

British Consul General Gerald Campbell told about his experiences in Abyssinia at a lecture recently. Although it is a land rich in archaeological material, he said, the world could not avail itself of the aid this would be in illuminating many doubtful pages of early Christian history because the Abyssinians would permit no one to make excavations there.

The queen of Abyssinia says she is a direct descendant of the queen of Sheba and King Solomon.

Abyssinians consider themselves very highly civilized, the lecturer said. Their laws are based on the Justinian code, which might be all right, he continued, if it were not for the betting that goes on and with legal sanction. Judges are sometimes called upon to settle a wager, and as they are sometimes the recipients of the stakes, their interest in such cases is keen.

Another crude form of justice is the habit of chaining plaintiff and defendant together while the trial goes on.
