Quite an interesting discussion on "The Christian and Politics," under the leadership of Hon. W. C. Sutherland, ex-speaker of the Saskatchewan Legislature, featured the meeting of St. Andrew's Presbyterian Church Brotherhood Sunday morning.

Christ, he said, advised that the laws of the land be observed as well as the laws of God. "Christ was not a political reformer," he added.

"Is it right for Christians to take part in politics? Who are most likely to resist temptation?" asked the speaker. The trouble with Canadian politics was the system of bribery and corruption. It was a hard thing to control.

"But the kind of men in Parliament" the ideal and the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns grey and looks streaked, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred-fold.

Thousands of folks recommend this ready-to-use preparation, because it darkens so naturally and evenly. You molsten a sponge or soft evenly. You moisten a sponge or soft brush with it, drawing this through who will not be influenced," was Mr.
Sutherland's advice.

"The question is, "Shall a Christian allow anyone else to represent them in politics?"

The question interesting British fiscal experts, therefore, is whether the present year-end collections will provide the additional £188.000.000 surplus of revenue over expenditure to complete the chancellor's debt reduction fund. January net revenue provided £45,000-000 of it.

Detailed statistics received by the foreign information department of the Bankers' Trust Company of New York, show that British revenue collections in the first nine months of the fiscal year 1920-21 amounted to 63 per cent of the chancellor's estimate of total revenue for the year. For the corresponding period of 1919-20 the revenue returns equaled 58 per cent of the estimate, so that the British chancellor faces the final quarter of the present fiscal year in a better position than his situation at the equivalent period of the preceding year. The Only Milk Supply Your Home Needs

Rich, Pure "Whole" Milk-Evaporated and Sealed Fresh in the Heart of Canada's Finest Dairy Farms-Sterilized for Safety-Delivered to You by Your Grocer.

MORE and more Canadian homes are assuring themselves of a pure milk supply by using Carnation Evaporated Milk—pure, fresh "whole" milk delivered in a safe, convenient way.

It comes to you sealed-safeguarded against contamination—in air-tight containers. So you can keep your milk supply on your pantry shelves as long ahead as you wish. You have fresh, rich milk every time you open a can.

Thus you are never "caught without"

The fresh, rich milk is delivered to our condenseries—Canada's finest farms produce it. It is rigidly tested and inspected. Then part of the water is evaporated from it. Rich and creamy, and while fresh, it is sealed in air-tight containers and made doubly safe by Sterilization.

Because part of the water is removed Carnation Milk is twice as rich as ordinary milk. It can also be used as cream for tea, coffee, cereals, etc.—whenever your taste demands extra deliciousness.

Otherwise - for all ordinary household

Add Water to Carnation Milk At least, an equal quantity to restore it to the original richness and consistency. No sugar or preservative has been added, you can use Carnation for all milk purposes.

It is simply milk of uniform quality, absolute purity and exceptional freshness-without the inconvenience of daily delivery, uncertainty, frozen bottles or unexpected needs.

You can order it ahead-with your groceries. Phone your grocer—the Carnation Milkman—for several tall (16 oz.) size cans or a case of 48

Mayor Little, Just Home From New York Last Night, Favors Plan To Honor the Western Ontario Track Team-May Be Home On Tuesday.

The victorious relay team which broke a world's record at Johns Hopkins track meet in Baltimore Saturday night, will likely be tendered a civic reception when they return to the city and before dispersal to their homes in Western Ontario.

Mayor Little had just returned last night from New York and was unable to say definitely whether the demonstration could be arranged, owing to the fact that definite knowledge of when the boys were coming home was not yet at

The program for their trip included several days of sight-seeing around Baltimore, and it is quite possible that the lads will not be back until Tuesday. However, the civic authorities may be able to get in touch with Professor G. Mel Brock, who has charge of the team on the trip, and find out the av of arrival.

New York, Feb. 28—Wall Street, 10:30 a.m.—On the stock exchange the week opened with a recurrence of the recent uncertain trend. Shippings and olls were reactionary, while rails and equipments were steady. Atlantic-Gulf, American International, Mexican Petroleum, Royal Dutch and American Woolen lost from ½ to 1½ points in the first few transactions. Southern Pacific, Baldwin Locomotive, International Paper and People's Gas hardened moderately on short covering. United States Steel, selling ex-dividend, with numerous other popular issues, lost a fraction. Exchange on London eased slightly from last week's final quotations. A Pennsylvania Congressman Draws Full Two-Year Pay

Washington, Feb. 26 .- John R. Farr Republican, of Scranton, Pa., took his seat in the House today as representative of the tenth Pennsylvania district last night in voting to unseat Patrick 19% McLane, also of Scranton, who has 76% held his seat throughout the present 13% congress Mr Farr will draw \$21,000 congress. Mr. Farr will draw \$21,000 salary and incidental expenses for the six days he will serve in the House. After the House voted to remove Mc-Lane, the new member was immediately declared elected, and was sworn in just midnight. The proceedings against McLane were based on charges that he had violated the corrupt prac tices act, and also that there had been wholesale election frauds in his return

to congress.

The princely remuneration that goes with Representative Farr's six day service, approximating a rate of \$3,500 a day, results from a computation of salary and incidental allowances to cover the entire two-year period of the congress to which the House has held him to have been rightfully elected. While McLane also has drawn pay for the entire two years, lacking the six 124 123% 123% cays remaining of the present congress he is requested to make no refund, the

At times my heart would palpitate and flutter so badly I would nearly smother and I would have to gasp for breath. In fact, I thought I had heart trouble.

Time for a "forced march"

"A man he seems of cheerful Yesterdays, and confident Tomorrows-"

And—there you are! Selling goods or advice is a matter of complete understanding of two things: conveyance of information as to nature and quality to buyers; and the creation of a desire to buy, in their minds.

It is simple.

Like all things essentially simple and apparently easy, it is however, full of pitfalls for the unwary.

One mistake most readily made by the advertiser who is not a deep student of the subject is to curtail or omit his customary expenditure for advertising in periods of uncertainty.

Whereas that is the time for a Forced March.

The keener the competition among producers and sellers, and the less eager or more diffident the consumers, the greater is the need for additional activity and intensity by the advertiser.

This is the Time of Times for using Daily Newspaper Advertising.

The Daily Newspaper is the medium of the moment—the axis of opportunity; flexible, powerful and instantaneous in its ability to create sales.

The Daily Newspapers of Canada welcome the challenge of present business conditions. They can be used to overcome them by almost every manufacturer and merchant prepared to make a "Forced March" with his advertising.

Advice as to the best ways and means of doing this will be given to those who inquire of us; or consult any recognized advertising agency—a list supplied on
