

UNUSUAL DRASTIC ORDER

JUST CRIPPLED VETERANS

Several Men Who Saw Overseas Service May Be Forced To Leave G. T. R. Carshops—War Veterans Threaten To Demand Investigation Into The Case.

Stirred by a report that an order had been received from G. T. R. headquarters in Montreal to the effect that all one-armed men who had not been in the service of the company previous to the war and had since been employed in the local carshops, were to be let out, returned soldiers in this city are threatening to take action through the G. W. V. A. and other organizations, to bring about an investigation, according to a despatch which appeared in the Advertiser today. The order was reported to have been received on Wednesday, and was to be effective within one week.

About a dozen men affected are reported to be feeling rather bitterly over the action. While they attach no blame to local officials and realize that the company must take measures to protect itself, the men believe that fate is dealing them an unkind thrust, and that perhaps the government is largely to blame for not giving them greater protection.

That the order has been received is not denied by the officials of the company in this city. It was pointed out by them that they are absolutely helpless, no matter how great their sympathies are for the men. It was absolutely against the rules of the company to hire such men without the proper authority. According to one of the officials, it is only a matter of the company protecting itself. If a man who has lost one hand is hired, he said, the company has to assume all the responsibility if by accident the man loses his other hand, and the Grand Trunk would be forced to recompense the man for total disability instead of only 50 per cent.

METAL WORKERS OF ITALY EXPECTED TO ACCEPT GOVT.'S PLAN

Compromise Agreement Between Men and Employers Likely.

GIOLITTI IS ANXIOUS

Labor Difficulties Must Be Adjusted Before He Can Meet Millerand.

Rome, Sept. 10.—Belief exists in political circles that an agreement which will end the conflict between Italian metal workers and employers, which resulted in the occupation of more than 400 plants by the men during the last week, is imminent. It is pointed out that Premier Giolitti must leave on Saturday for Aix les Bains, where he will meet with Millerand of France, and that he could not go if the situation in Italy was not cleared up.

In a special edition the Tribune reflects this understanding. Negotiations recently resumed for a solution of the metal workers' conflict, the newspaper says, "promise to result favorably. An accord seems to be near on the economic question, and despite complications there is reason to believe difficulties will be overcome soon."

The general tone of Italian press and public opinion, however, gives the impression that neither extreme will be reached, and that for the present at least the conflict will be postponed to some future date.

SOCIALIST GROUP FAVORS COMPROMISE TO END CONFLICT

Milan, Sept. 10.—Members of the Socialist group in the Italian Parliament today, in the general confederation of labor, and representatives of the Federation of Metal Workers, conferred here yesterday with delegates, which occupied the entire day, seemed to reflect a desire on the part of the confederation to accept a compromise which would solve the anomalous industrial situation throughout Italy.

Socialist deputies, as well as leaders of the confederation of labor, favor a middle course, which would lead to an early settlement, realizing the grave consequences for all that will result from a continuing strike. The latter section of the metal workers, however, opposes any such move and wishes rather to enlarge the agitation by bringing in other classes of workers.

Men Arming Themselves.

It has been reported several days that men who have taken over industrial plants have been arming themselves, and recent events have seemed to confirm these rumors. None is known as yet, however, where they secured their helmets, searchlights, and grenades and machine guns. The men go through military drill each morning under the supervision of former officers in the Italian army.

In the Ansaldo works here sixty aeroplanes have been found ready to fly and there is no doubt that the pilots are ready to operate the machines in case it is necessary to communicate between the military and the former non-commissioned officer named Piliopoli is in charge. The military organization of the plant has been entrusted to one Schiavella, a rabid revolutionist, who is said to have become a sort of general in chief.

An officer was surprised and captured by the workmen near the plant and taken before the workmen's tribunal. He was disarmed and freed on condition that he would sign a declaration that he was taken from the plant, and his pistol was taken from him, a promise being made that it would be returned the day after the end of the present struggle.

EARL OF DERBY DENIES REPORTS

Says He Resigned in Order to Resume Activities At Home.

Paris, Sept. 10.—Reports that the resignation of the Earl of Derby as British ambassador to France was caused by a disagreement with the French Government over the policy to be followed in Russia were denied by the retiring ambassador today. The Earl of Derby, who is expected to leave for England tomorrow, declared that he had requested the British Government to relieve him before the end of the year, owing to his desire to resume his activities in England.

Asked whether he would resume political work, he said he preferred a private life, and would not be troubled by H. H. Asquith. "Wait and see," he said.

DOES NOT EXPECT ANY MORE HEAVY SHOCKS

Italian Observatory Expert Believes Serious Disturbances Past.

Florence, Italy, Sept. 10.—Minor earthquake shocks which have been felt since the disastrous tremor of Tuesday morning in the devastated zone north of this city, indicated the disturbance is subsiding, according to Father Agazzi, director of the observatory here. He said that small shocks succeeding each other rather frequently show the seismic phenomenon are wearing themselves out, while a long pause succeeds a severe earthquake, another strong shock occurs, which may be considered as the culmination of the small shocks which precede it.

He is to be considered as good evidence as indicating that no serious results of the earthquake may be expected.

SOVIET FORCES ARE CONCENTRATING FOR ATTACK ON KOKOVA

Constantinople, Sept. 10.—Russian Bolshevik forces are being concentrated to make a desperate effort to recapture Kokova, an important town on the south side of the Danube River, 45 miles above Kherzoo, where the fall rains deepen the mud and make a campaign impossible.

POLISH DELEGATION LEAVES DANZIG FOR RIGA ON SUNDAY

Paris, Sept. 10.—A wireless dispatch sent by Prince Sapieha, the Polish foreign minister, to M. Tchitcherine, the Bolshevik minister of foreign affairs, says the Polish peace delegation, bearing full credentials and having powers to conclude an armistice and peace preliminaries, will be ready to leave Danzig September 12 for Riga.

DECIDE ON TERMS.

Warsaw, Sept. 10.—Decisions relative to the military situation, Lithuania and peace terms to be insisted upon by Poland at the conference with Soviet Russia at Riga, have been reached by the council of the Polish government, which refused to give any details relative to them.

In explanation of the heavy increase in the delegation has been selected, but it has not as yet been made public. It is believed that M. Domski, who headed the delegation sent to Minsk, will not hold a similar position at Riga, and there are hints in official quarters that M. Grabinski, leader in the Polish diet, or Prince Sapieha may be selected.

NO WORD RECEIVED BY HER BROTHER OR EMPLOYERS

New York, Sept. 10.—No word of the death of Olive Thomas, who died this morning in Paris, has been received here by her brother, James Duffy, who lives here, or by the motion picture store where she attracted notice as the "Cannon Girl." The next season she was in both the "Polies" and the "Frolics," and posed for magazine covers by noted artists.

In 1917, Miss Thomas left the stage to enter the motion picture field. In California, the same year marrying Jack Pickford, motion picture actor.

Labor Organ Undecided About Accepting 'Bolshevik Gold'

London, Sept. 10.—Admission was made this morning by the Herald, organ of labor, that it has in its possession £75,000 of "Bolshevik gold." The newspaper states the money is being held, pending a decision by the shareholders as to whether it should be used. The opinion of readers of the paper is asked by the newspaper which publishes the admission on its first page, under glaring headlines. Last month charges that the Russia soviet government was subsidizing newspapers in other countries for the purpose of carrying on propaganda, were published here, and the Herald was named as one journal which had received money from the Bolsheviks.

The newspaper refers to the soviet funds as "a magnificent demonstration of real working-class solidarity, and of what Russians mean by internationalism."

"To accept it," says the Herald, "will be to complete a notable episode in international socialism. Increasing cost of production and the political shyness of advisers makes it necessary for us at once to double the price of this paper if this money is not accepted."

NEW TAXES BRING ABOUT BIG JUMP IN REVENUE RECEIPTS

Ottawa, Sept. 10.—Canadian Press.—Receipts from inland revenue, as a result of luxury and other special taxes imposed, have taken a big leap forward. For the five months closing with the end of August, the ordinary revenue and ordinary expenditure were \$20,885,859, during the months of 1919, they were \$7,775,461. For the month of August alone inland revenue receipts were \$5,807,114; in August, 1919, \$1,638,840.

The figures appear in the monthly statement issued by the department of finance today. For the first time the statement gives details both of ordinary revenue and ordinary expenditure. For the five months ending August 31, ordinary revenue and ordinary expenditure compare as follows: Ordinary Revenue: 1920—\$18,527,579. 1919—\$12,236,719. Ordinary Expenditure: 1920—\$13,575,321. 1919—\$8,752,330.

In explanation of this year's figures include the first interest payment on the last Victory Loan.

A total net debt, after deducting non-active assets, now amounts to \$2,224,496,915.

CANADA'S DELEGATES TOO MANY CANADIAN TO LEAGUE ASSEMBLY BOYS ARE AFFECTED NOT YET APPOINTED WITH 'SPECTATORIS'

Toronto, Sept. 10.—"Our national life is being affected by a disease," it is officially announced that Canadian delegates to the assembly of the league of nations have not yet been formally appointed. It is, however, expected that they will be Sir Robert Borden, former premier; Hon. C. J. Doherty, minister of justice, and Hon. N. W. Rowell, former president of the Privy Council.

U. S. President Sends Telegram To That Effect To Miners.

Washington, Sept. 10.—President Wilson in a telegram today to representatives of the anthracite mine workers in Pennsylvania refused to grant the request to reconvene the joint committee of operators and miners for the purpose of considering a new wage award.

NEGROES REPLACE IRISH STEVEDORES

New York, Sept. 10.—Negro workers today replaced the Irish longshoremen who deserted White Star Line piers two weeks ago in protest against the treatment of Archbishop Mannix and Terence MacSwiney, by British authorities. There was no disorder when 200 negroes, furnished by a contracting stevedore, appeared outside the piers, although police reserves had assembled to suppress possible outbreaks.

CITY REGISTRAR SUFFERS STROKE

Hubert Dignan Is Reported Slightly Improved This Afternoon.

While at work in the city registry office Wednesday afternoon, H. Hubert Dignan, city registrar, was suddenly stricken with paralysis and was removed to his home, 280 Dufferin avenue, in a precarious condition. He was reported today to be somewhat improved, but his recovery is still uncertain. He has served as a civic official for many years, numbers a list of friends here.

CALAMITY IS FEARED

Sinking of Earth Along Genoa Gulf Cause of Seismic Disturbance.

Fivizzano, Italy, Sept. 10.—Survivors of Tuesday morning's earthquake, which laid the once flourishing and cheerful town of Fivizzano in ruins, are still in the hours pass, content to realize more and more the extent of the calamity that has befallen them and they seem stupefied with the horror of the disaster. As in former earthquakes some of the families have been rescued almost without injury from the ruins of their homes, while in other cases every inmate of shattered dwellings was killed.

One little girl, whom nobody recognizes, wanders about the town with her back torn and tears running down her begrimed face, asking pitifully for "mamma mia." She possibly is a child of visitors here for the summer season, and was playing in a field when the earthquake came. Her family was probably wiped out. She cannot tell where she lives and knows only that her name is "Tina," and that she and her mother and little brothers.

A volcanic crater has suddenly opened at the top of Pizzo O'Quale, a mountain 5,846 feet high about nine miles northeast of Spezia. It is located on what appears to be the possible cause of the district's shaking by Tuesday morning's earthquake, which resulted in the loss of hundreds of lives in the region south of Florence. A telegram from Spezia states the crater is emitting smoke and sulphur fumes, and that scientists there attribute the volcanic outbreak to the earthquake.

SINKING OF EARTH ALONG GENOA GULF CAUSE OF 'QUAKE

Berlin, Sept. 10.—The seismographic station at Jena suggests as the possible cause of the Italian earthquake a sinking of the earth along the mountains bordering the Gulf of Genoa. The station says it indicates a massive caving zone in the earth's crust.

GAS IS ORDERED OFF A BELMONT

Strong Representations Made To Minister At Toronto Are Effective.

[Special to The Advertiser.]

Belmont, Sept. 10.—An official order has been issued by Hon. Henry Mills, Toronto, minister of public works, to the Southern Ontario Gas Company directing that consumers of gas at Belmont and on the town of Belmont be turned on again today. The gas supply was suddenly cut off yesterday because consumers refused to pay increased rates, and as a result many homes in this vicinity have not been able to have warm meals since, as they had no other stoves.

Deputation, comprising W. H. Falls, W. A. Barons and John Dawes of Belmont; Reeve Stanley Shaw, of Belmont; and Hon. Henry Mills, Minister of Public Works, went down to Toronto yesterday and interviewed Hon. Henry Mills. They made a strong plea against the absolute injustice of the gas supply being cut off without any notice, and the hardships being experienced by consumers who had no other means of heating their homes except by gas.

The deputation was accompanied by their solicitor, J. M. McEvoy, of London. Mr. Mills gave the deputation a splendid hearing and stated that an order would be issued immediately instructing the company to turn the gas on again.

In the meantime arrangements are being made for a meeting at Belmont on Monday afternoon, when the consumers claim that the company has absolutely no right to raise its rates until the agreement entered into expires. It was made for twenty years, and has run for five years. The company, it is stated, will argue that it is an impossibility to give service without increasing its rates.

MINERS' VACATION SLOWLY NEARING END

Men Are Expected To Return in a Few Days.

STOLEN COATS QUICKLY FOUND

Recovered Before Owner of Store Heard of the 'Burglary.'

Willesbarre, Pa., Sept. 10.—Leaders of the insurgent mine strike and officials of the United Mine Workers of America said today the "vacation" of Districts 1, 2 and 3 will not last more than a few days. Miners in the Hazleton district have started picketing at the collieries, where efforts were made to continue operations. All but one of the mines were shut down today.

Production yesterday was only 250 tons against an average of 37,000 a day, according to figures of the Lehigh Valley Railroad.

WANTS CHAIRMAN FOR T. AND N. O. COMMISSION

Hallebury, Sept. 10.—The local board of trade is petitioning the Ontario Government for the immediate appointment of a chairman for the T. and N. O. WOMEN'S INSTITUTES PULLING BOY'S EAR TO DISCUSS "HELP ON THE FARM" PROBLEM IN POLICE COURT

Premier Drury Expected To Attend Big October Convention.

The big Women's Institute convention which is to be held in the city at the end of October promises to be one of the most interesting yet held. Chief among the speakers will be Premier Drury of Toronto, Dr. Hill of London, and Mrs. Todd of Orillia. In addition to reports of institute work throughout Western Ontario, a variety of interesting subjects will come under discussion, many of them social problems. The problem of help on the farm, as well as child welfare, immigration, the education and training of immigrants, the subjects of Mrs. George Edwards of Keweenaw, the president with her executive committee, is now busy preparing the program.

Appointed by Housing Commission—Standard Dwelling On Exhibit At Fair.

F. B. Lavender was appointed by the Housing Commission at its meeting last evening to advise all people wishing any information regarding the housing situation in the city. Mr. Lavender is president of the Central Veterans' Council and has had a considerable amount of work to do in establishing soldiers in various classes of employment. Mr. Lavender's office will be in the city hall, and will be under the guidance of City Clerk Baker.

An exhibit will be shown at the fair next week of the standard house of the Housing Commission. It will be fully furnished with all the latest furniture, and will be open for public inspection.

School Boy Flashes a Mirror

We are all familiar with the school boy trick of flashing the sun's rays from a piece of looking glass. By holding a mirror at a certain angle you can catch this flash from the sun. At any other angle, it is ineffective. Just so with a diamond. It is cut in certain definite geometrical lines or you do not obtain the full force of light. That is the reason diamonds are called "cut stones." John A. Nash, My Jeweler, sells only Perfect Diamonds, blue white, and in many shades of color. His store is 266 Dundas street. NAVAL BRIGADE BOYS ARE BACK IN LONDON

The arrival of the training ship Pinta at 3:30 Thursday morning, completed the voyage of the large number of London boys who participated in the naval training course. On the trip the Naval Brigade visited Windsor and Sarnia. At the latter place they were successful in capturing the second prize for the best dressed parade held on Labor Day. At Windsor Mr. Beattie, trial judge, was in charge. Mr. Beattie met the boys at Port Stanley and was in charge until they arrived at the London and Port Stanley station here at 5 o'clock last night, when they were dismissed. The training ship Pinta is scheduled to leave Port Stanley for a trip and will leave Port Stanley for Windsor soon as final arrangements are made.

TO EXTEND WORK IN THE RURAL DISTRICTS

Agricultural Department Plans Important Changes in Western Ontario.

Roscoe Finn, B. S. A., has returned from the Canadian National Exhibition, and while in Toronto interviewed Hon. Manning Doherty, minister of agriculture, on the proposed enlargement of the scope of the county agricultural officers. It is proposed to establish a sort of county agricultural board with representative farmers from each township as members. This will assist the county agricultural expert in his work on the needs of each rural municipality, and the work in the larger counties like Middlesex will be greatly facilitated. It is possible that the farmer representatives will be paid for each meeting they attend, but this is not certain. An announcement applicable to the whole province is anticipated from Mr. Doherty shortly.

WANT FARM HANDS

United Boards of Trade to Discuss Settling Farm Hands.

The United Boards of Trade of Western Ontario will meet in the directors' rooms of the Western Fair Association on Wednesday next to confer with Hon. Manning Doherty regarding the increased immigration into this district. The object of this meeting will be to endeavor to have first-class British farmhands come to this district. Local men on this board are: Ald. John Bridge, president; Lieut.-Col. W. J. Brown, John Leung, J. H. Laughton, and Gordon Philip, secretary-treasurer.

PUSHED FROM TRAIN

James Murray Painfully Injured When He Lands On Head.

James Murray, 105 Oak street, was painfully injured about the head and shoulders when he was pushed from a work train on the Grand Trunk Railway at a short distance west of Eglinton street at 3:25 o'clock Thursday night. Murray, who was employed by the railroad company, stated that he was pushed while the train was in motion. He landed on his head. His face was badly lacerated, but when the police ambulance arrived he decided that he would walk to his home.

Michael Spina Makes \$3 to \$4 a Day While in London.

Michael Spina came from Sunny Italy nineteen years ago and subsequently invested his spare capital in a hand-organ, with which he grinds out varying amounts of revenue daily depending upon the city in which he plays his genuinely Bohemian profession. For instance, in Montreal, where he has to pay \$50 a year for a license, his income ranges from \$1 to \$1.50 a day, but in kind-hearted London, where a license can be dispensed with, he makes \$3 to \$4 a day.

Michael was playing on Ridout street Wednesday, when he espied a likely-looking boy, and motioned to him. The boy claimed to be a musician, and didn't turn the crank organ for him. Apparently the boy itinerant musician, pulled his ear. Michael told Magistrate Graydon it was all a mistake, and he didn't intend to hurt the boy, so he got off in police court yesterday with some free advice about turning his crank-organ him- self hereafter. Morden Pitman, the boy, lives at 514 Talbot street, and his mother told the magistrate that he had come home still crying after he had complained to the police.

It was a hard climb up the courtroom stairs for old Michael, who is 71, and he was late leaving his hotel. King street, so an officer was sent to meet him. His wife lives in Montreal, but he has been playing in Hamilton, until recently he remembered that the Western Fair, which he annually attends, was just about due. He had so many explanations to offer that the magistrate sent out for an interpreter. D. Cusidori.

An onlooker with bourgeois instincts asked old Michael if he ever had been playing on the streets. Michael, who is evidently keenly conscious of his position, replied that jobs were no good. The biggest part of the money goes into the pockets of the boss, he observed, and that was why he preferred to work for himself.

COL. RAWLINGS GOES TO HIGHER POSITION

Salvation Army Officer Appointed Field Secretary For Eastern Canada.

It was announced yesterday that Col. John Rawlings, who, for the past five years, has been commander of the local branch and this district of the Salvation Army for Eastern Canada, Col. Rawlings will leave for London this week. He will be succeeded by Col. J. H. Rawlings, who will be in charge of the work in the district. Col. Rawlings has been in the Salvation Army for a number of years, and in all probability will be in the work as commander here. Several other changes will be made shortly, both in local work and in the district.

During the time Col. Rawlings has been here he has been responsible for many extensions of the work. Several branches have been opened, and these are now showing the very best results. His work in the city was the building of the Bethesda Hospital. This promotion is not the first one that Col. Rawlings has received. It is evident that the work of the Salvation Army in the city is of a high standard, and Col. Rawlings has been connected with Salvation Army work the greatest part of his life.

SALADA BUYS HUGE WARE.

In February next the Salada Tea Company will occupy the magnificent new building at the corner of Lawrence street, Montreal, the building at present occupied by Salada at St. Paul and St. Salope streets, and erected by them eleven years ago, having for some time been inadequate for their business. Other Salada warehouses are situated at Toronto and Boston.

JUVENILES ARRESTED

Boy and Girl Both Charged With Stealing Articles.

Two juveniles, a boy who is but 10 years of age, and a girl just four years his senior, are confined to the Children's Shelter as a result of the police arresting them on a charge of theft. The boy is alleged to have stolen a bicycle, while the girl is said to have taken a purse from the Grand Trunk station.

GUELPH FIREMEN ARE GRANTED BONUS

Sept. 15

GUELPH, Sept. 9.—The trouble which arose in the Guelph Fire Department a few weeks ago, when the firemen asked for an increase in wages, has come to an end, and the men will not go on strike as was expected. Instead of granting the men a permanent increase the council have agreed to give them a bonus of \$10 per month until the end of the year, at the expiration of which time the matter will be further adjusted.

CONCERT AT HOSPITAL.

The staff and patients at Westminster Hospital enjoyed a real treat on Wednesday evening, when the Brunswick Trio, assisted by other artists put on one of the "Music and Mirth" concerts. The party consisted of W. N. and R. R. Spence and Jack Ballantyne, who composed the Brunswick Trio; Messrs. McAllister and McKellar, typists and dancers; Mr. Mickie, drummer, and Miss Ebert, who greatly pleased the audience with her well-chosen and delightfully rendered readings. The whole concert was of high order, and gave complete satisfaction to all.

SAYS OCEAN LINERS WILL DOCK AT PORT WITHIN FIVE YEARS

Company Which Has Dominion Charter Plans Huge Expenditures.

Important developments in connection with projects planned by the Great Lakes and Atlantic Canal and Power Company, which has secured a Dominion charter, are expected shortly and if completed will materially affect not only London but the district. Preliminary surveys by the company's engineers are now in progress, it was stated to The Advertiser today, and the company's plans call for an expenditure of more than half a billion dollars.

Within five years, you will see ocean liners coming up to Toronto, and from there to Port Stanley on Lake Erie, said J. N. Cantin of St. Joseph, Ont., to The Telegram today. "The plans provide for a canal 35 feet deep and 400 feet wide to be built from a point close to Port Talbot on Lake Erie to Port Frank on Lake Huron. This distance is approximately 45 nautical miles, and by sending steamers this way at least 350 miles can be saved over the Lake St. Clair and Detroit River route. We plan to have only one lock between Lake Erie and Lake Huron. This is made possible because the difference in the levels of

Lake Erie and Lake Huron is only nine feet. We estimate that this section of the project will cost fifty million dollars. Its construction will result in a saving of at least 20 per cent over present transportation costs to say nothing of time. This, in view of steadily increasing freight rates, means millions of dollars to shippers every year, especially to Toronto firms."

Mr. Cantin states that the company has secured its charter, and is ready to proceed at any time. The only thing preventing work starting at once is reports that are pending from the international waterways commission. "From Lake Erie to Lake Ontario," he said, "a cut will be made perfectly straight from Jordan Harbor on Lake Ontario to Moulton Bay on Lake Erie, a distance of not quite nineteen nautical miles. The fall between the lakes is 325 feet, and would necessitate six locks. We plan also to deepen the Straits of Mackinac and the Saint Ste. Marie ship channel, making ocean terminals of Chicago, Indiana Harbor, Gary, Milwaukee, Duluth and Port William and seaports of Detroit, Windsor, Toronto, Buffalo, Hamilton, Charlotte, N. Y., and Valleyfield, Quebec.

Mr. Cantin states that the company is ready to expend \$200,000,000 additional in developing electrical power. Lake Huron, he declared, is the greatest marine connecting link in the world even though navigation is only open the great lakes for an average of 220 days each year. Actual figures, he said, show that a vessel passes every fourteen minutes, and that the value of commodities carried exceeds one and a half billions annually. The country forming the boundary of Lake Huron to a depth inland of 270 miles, he claims produces annually more food, material and commodities actually convertible into cash than any other area five times its size. The proposed Lake Erie to Lake Huron Canal, Mr. Cantin said, would take the route of Lake Ontario at a point approximately 15 miles distant.

SEPTEMBER WEDDINGS

LAW-HOLT.

Leamington, Sept. 10.—A quiet wedding was solemnized at St. John's rectory by Rev. A. Kinder, when Geoffrey Law and Miss Kathleen Holt, second daughter of Mr. John Holt, 9th concession of North Gosfield, were united in marriage. The groom was supported by Glen Gossyne of Detroit, while Miss Devine of Essex was bridesmaid. After the ceremony the bridal party motored to the home of the bride's father, where they were welcomed by a large party of friends and relatives. Tables were set on the lawn and the assembly partook of a splendid supper. The happy couple left on a trip to Toronto and eastern points, and on their return will take up residence on Clark street east.

CRAWFORD-BRUNK.

Kitchener, Sept. 10.—A very pretty house wedding was solemnized on Wednesday afternoon when Miss Gladys Brunk, daughter of Mr. and Mrs. S. Brunk, 154 Lancaster street east, was united in marriage to Wilbert Crawford, son of Mrs. Annie Crawford of Stratford, Rev. J. H. McEwan performing the ceremony. She was attended by Miss Eva Massel, who wore a pretty gown of pink georgette and carried pink roses. The groom was assisted by Leslie Brunk, brother of the bride. The happy young couple left on the afternoon train for Toronto, where they will take the boat for Port William and visit with relatives in Winnipeg. Edmonton before returning to Collingwood.

ALLEMANG-STUART.

Waterloo, Sept. 10.—A quiet wedding took place at the home of the bride, the Presbyterian parsonage, Rev. D. A. McKencher officiating, the contracting

parties being Miss Mary E. Stuart, formerly daughter of the late John Stuart, Waterloo Hospital, daughter of Archibald Stuart, and Alva Allemang. The bride was prettily attired in white, trimmed with greenery and carried white roses. She was attended by Miss Gladys Merritt, who wore a dress of Nile green with green and white of pink roses. E. Naylor was groomsmen. Mr. and Mrs. Allemang will reside at 58 Church street, Kitchener.

ZAGELMEYER-FOSTER.

Leamington, Sept. 10.—The wedding was solemnized at the Methodist parsonage here when Glen Zagelmeyer and Miss Ellen Foster, George Harrison and Miss Alice Stobbs supported the bride. Rev. L. W. Hill, R. E. performed the ceremony. After a wedding tour, Mr. and Mrs. Zagelmeyer will reside in Detroit.

ELLISON-JOHNSTON.

Exeter, Sept. 10.—One of the prettiest autumn weddings in this district took place at the home of Mrs. E. J. Wright, when Miss Margaret L. Johnston became the bride of Rev. Harold Ellison of Collingwood. The ceremony was performed by Rev. L. W. Hill, pastor of James Street Methodist Church, assisted by Rev. Mr. Curran of Meaford. The bride was wearing a traveling suit of sand-colored tulle with hat to match. She carried a corsage bouquet of Ophelia roses and was the groom's gift, a necklace of pearls and sapphires. The ceremony was performed in front of a beautiful band of flowers. Mr. Wright acted as matron of honor. Mendelssohn's wedding march was played by H. Wright. Following the ceremony, a dainty buffet luncheon was served. Mr. and Mrs. Ellison left for Toronto, where they will take the boat for Port William and visit with relatives in Winnipeg. Edmonton before returning to Collingwood.

GRANT-GRASSICK.

A pretty September wedding was solemnized on Monday at the King's Presbyterian manse, when Mary H. Grassick, eldest daughter of James H. Grassick of Collingwood, was united in marriage to Alexander Grant of Detroit. The bride was attended by her sister, Miss Margaret Grant. Following a wedding trip, Mr. and Mrs. Grant will reside in Detroit.

WHALEY-LOVELESS.

The wedding was solemnized on Wednesday at St. John's rectory where the bride, Miss Annie and the groom, Mr. Robert Loveless, were united in marriage to Alexander Grant of Detroit. The bride was attended by her sister, Miss Margaret Grant. Following a wedding trip, Mr. and Mrs. Grant will reside in Detroit.

ALLISON-CASE.

Exeter, Sept. 10.—The wedding was solemnized at the home of Mr. and Mrs. Adam Case, when their eldest daughter, Ethel Catherine, became the bride of Charles Allison, Rev. A. A. Trumper officiating in the presence of only the immediate relatives. The wedding march was played by Miss Ada Case, and during the signing of the register Miss Allison sang "A Psalm of Love." After a dainty luncheon was served, Mr. and Mrs. Allison left for Niagara Falls and Buffalo. The bride was traveling in a suit of navy blue tulle with georgette blouse to match. The groom was wearing a suit of black serge and tie with hat to match.

SCHENCK-WHITE.

A quiet wedding took place at Stratford on September 8, when Ellen White, third daughter of Mr. and Mrs. William White of Elgin, was united in marriage to Charles C. Schenck of Stratford, Rev. Mr. Martin of Knox Presbyterian Church. The bride wore a dress of white tulle and carried a bouquet of white roses. The groom was wearing a suit of black serge and tie with hat to match. The ceremony was performed in front of a beautiful band of flowers. Mr. Schenck acted as matron of honor. Mendelssohn's wedding march was played by H. Wright. Following the ceremony, a dainty buffet luncheon was served. Mr. and Mrs. Schenck left for Toronto, where they will take the boat for Port William and visit with relatives in Winnipeg. Edmonton before returning to Collingwood.

ALL READY FOR FAIR OPENING

Exhibition This Year Promises To Smash All Previous Records.

Queen's Park throbbed with activity today, hundreds of workmen and exhibitors having commenced the annual rush of preparation for the opening of the Western Fair. All exhibitors have been located and displays are being whipped into shape throughout the grounds and in every building. Tents are being erected by concessionaires and outside exhibitors, while live stock and cattle buildings are being rapidly put up. Today fourteen carloads of live stock arrived from distant points, while farmers from the district are bringing others hourly. The first of the speed horses have also reached the barns, and indications, according to Secretary A. M. Hunt, are that there will be an exceptionally heavy quality entry.

Chicago booking offices telegraphed that all artists for the grandstand performances will be on hand for their first performance Monday afternoon, while the advance guard of the Johnny J. Jones midway shows is already on the scene. Two trainloads of more than forty cars will bring the midway shows to the fair grounds on Sunday afternoon. All exhibits and every attraction will be ready for children's day on Monday. The "kiddies" will have a genuine bargain day, being given the full bill of the week, but 5-cent admission charges will be in effect on gates and stands and along the midway.

The coin-operated turnstiles ordered some months ago were delayed in delivery. The gates will be manned for the first time tomorrow. Today caretakers were placed on duty in all buildings and they will continue on guard day and night until the close of the Fair.

Half-Dollar Fess. The half-dollar problem is one that the officers of the Fair are giving attention. Saturday and Monday the admission for adults will be 25 cents, but during the remainder of the exhibition the rate will be 50 cents. On the heavy days it is probable that 40,000 to 50,000 people will pass through the turnstiles, and a tremendous "tonnage" of coins will be required to keep them moving. Change booths will be maintained at the gates, but the directors urge visitors to come with their own coins, if possible, in order to facilitate handling the crowds.

The Playgrounds Association will furnish three supervisors every day during the exhibition. They will look after the needs of the youngsters, and will devote special attention to restoring to their parents any of the "kiddies" who may be separated from their friends on the grounds.

Sending German Guns. The public utilities department will transfer a number of the captured German guns to the exhibition grounds for the inspection of Fair visitors. Representatives of the Fair directors who proceeded to Toronto to accept entries in different departments were delighted to pick up the National exhibition. Today all space is gone, and Secretary Hunt has been compelled to turn away large numbers of intending exhibitors.

The poultry show will break all records with a display of 2,051 birds. The dog show, which opens on Tuesday, will also be a notable event, while the motor show, pure foot show, art exhibition, and other special features, will also achieve notable standards.

COPS WATCHED GAME OF AFRICAN GOLF ON SUNDAY MORNING

John Anderson and His Pals Were Fined As Result.

Charged with keeping a gaming house, John Anderson, colored, of 103 Glenwood avenue, pleaded guilty in police court today and was fined \$10 and costs or ten days. James O'Rourke, Samuel Harris, George Chantler, Harry Fountain and George Fountain pleaded guilty of being frequenters, and were assessed \$2 and costs. Patrol Sergt. William McCullough stated that at 1 o'clock on Sunday morning he watched through the window of John Anderson's house and saw the men playing African Golf. He swore that Anderson had a little mug in which he placed the rake-off from each game, which he turned to the municipal sum of 5 cents. Anderson first pleaded not guilty, as he understood the charge that was laid against him was that of being a frequenter. When it was explained this was not the case he changed his plea. According to Patrol Sergt. McCullough and Constable George A. Tomlin, they made their entrance to the house through the front door. Anderson claimed they broke in. There was a hole in the door to prove it. "You say you did not break in, ma house; you say that in front of whole court. You ought to be ashamed of yourself," said Anderson. In the raid the crap-shooters attempted to make a getaway, but were rounded up by the constables. A quantity of money and the dice which was scattered around the room when the constables made an appearance, was collected along with "seven come eleven" boys.

MR. KING AND THE TARIFF.

In an appeal to East Elgin voters to support the Meighen candidate the local Government organ misrepresents the Opposition leader, as follows:

The first duty of an Opposition is to oppose. The Liberal Opposition, however, which selected Mr. King as the party leader and exponent of the party platform, seems slightly hazy as to just what to oppose, at least so far as the tariff decision is concerned, in the policy of the Government, to oppose which is the whole reason of being.

This is one with the attitude of the other Meighen newspapers which daily endeavor to mislead the public as to the Opposition tariff policy. The above quotation is intended to spread the impression that Mr. King and the Liberal party have no definite, distinct policy in regard to the tariff, that their official announcements indicate vagueness and uncertainty. Here is what Mr. King has stated on this point:

In revising the tariff to this end care will be taken of the position and needs of all the industries in our country, but such tariff as may be necessary in this connection, will be, under Liberal policy, a tariff of consumers, not a tariff to further the interests of combines, monopolies, or any special privileged class.

Could anything be plainer than that? Is there a tariff platform conceivable that would more completely serve the interests of all classes of the community save those who would plunder the people?

The vivid point about Mr. King's tariff policy is that it aims to bring relief to the consumer harried by the increasing taxation and prices. On the other hand Mr. Meighen has intimated that there will be no reduction in the tariff no matter what may be the report of the tariff investigating committee, no direct attempt made to help the public combat the high cost of living.

Mr. King and the Liberal party propose to oppose the unfair conditions which exist in this country today through government in favor of a small ring of profiteers. Mr. Meighen talks eloquently of "harmony" and "progress" in Canada, but refuses to take any direct route to secure this desirable state by fighting privilege through the tariff or any other way.

Mr. King in his declaration of policy comes out definitely and distinctly for the masses, the only stand he could take as the head of true Liberalism. Neither is Mr. Meighen hazy, but is openly, boldly for the old reactionary Toryism. East Elgin should have no difficulty in making its selection.

THE RAILWAY RATES.

It was not to be expected that there would be anything but general dissatisfaction at the increased freight and passenger rates that have been sanctioned by the Dominion Railway Board. Business of all kinds is so directly affected that the indignation is certain to be great and widespread. The increases will run from twenty to forty per cent, but only for a short period. When that period elapses the rates will be reduced or placed at the figures in force today.

As usual it is the general consumer who has to pay the piper, as it is certain the advance in freight tariffs will add to the prices of most of the commodities that come under the heading of necessities.

Objectionable as the decision of the board is to the public, it is not easy to see what other course could have been adopted to meet the stupendous expenditure necessary to the operation of the National Railway system. The only other way would have been to directly tax the country for required millions. That the money is needed is made clear in the latest government statement of the Canadian National's finances. Last year the expenses were over thirty-three millions and the revenue less than thirty-two millions, making a deficit approximating eleven millions. And, as the railways point out, the cost of equipment has been steadily advancing, not to mention the repeated wage increases. To meet this the railways have had no advance in rates until the one decided upon by the Railway Board.

A GREAT MISCALCULATION.

The ephemeral writings of many celebrated journalists, turned off in the red heat of the Bolshevik rush on Warsaw, read very limp and foolish now. There have been scores of wild miscalculations on every sort of thing since 1914. But the way nearly all were fooled by the Polish recovery is a climactic sensation in this line.

It is amusing to read in the London Nation the article by Theodor Wolff, a German democrat. These German democrats are as reasonable as muzzled dogs. Theodor grumbles about the Spa conference, not so much "the conditions imposed re disarmament and coal deliveries" as "the method used by the Allies to enforce their demands." The Germans "expected" to negotiate, not "to sign orders received," and now "all parties in Germany, the Radical extremists included, have unanimously uttered sharp and bitter criticism of the Spa policy of the Entente." They protest against the tactic of force.

Having paid his respects to the Spa decisions, Herr Wolff turns to the Polish part of the treaty of Versailles, another grievance. It is insufferable to German "moderates" that Germany should be "forced" to pay back a quantity

of the coal she stole from France, and equally monstrous that in the restoration of Poland some small districts with a German majority should be included. But, ah! see how Poland is flattening out. "Many people in Germany believe that France wants to occupy the Ruhr Valley chiefly because the Polish bulwark turns out a rampart of paper. We have always known the Polish state created at Versailles to be an impossible construction. We as neighbors (nice neighbors!) must know these things better than the theorists who compounded the Polish state of the most different fragments. Now the Soviet army has made a victorious advance against Poland," and so on. Disclaiming any desire for the deletion of Poland, Herr Wolff says that Germany should be consulted in its reorganization. "Will the Powers, instead of coming to a useful understanding, take Upper Silesia from us and repair Poland's prestige at our expense?" Upper Silesia has coal mines, and apparently the Germans are not too confident about the coming plebiscite there. Wolff's idea manifestly was that the overthrow of Poland's armies and the consequent restriction of her confines would make it inexpedient for Europe to leave the Silesian coal mines at the disposition of a feeble, insignificant state constantly menaced or dominated by powerful neighbors. Better leave the mines to Germany who can use them to good purpose!

It is a safe bet that the sudden annihilation of the Red armies upset these hopes and was a hard pill for German "moderates" as well as reactionaries to swallow. The miracle happened. It seems that the gods no more than men can love Germany.

STRIKES IN INDIA.

Recently nearly a quarter of the population of Bombay, which numbers about 900,000, rose to enforce the demands of the textile workers. A great crowd met on the causeway which unites the port of Bombay with the mainland. On one side of the causeway were the mills; on the other, the densely-populated, dark, heat-breathing houses of the mill hands. The demands of the mill workers were that children under 12 years of age should not be employed, that hours of work should be reduced. Both of these demands were embodiments of the International Labor Conventions adopted at Washington.

The crowd became more noisy, more insistent. Police were called out and, in the tumult, many of the strikers were injured. The next week, twenty thousand ceased work in the textile mills at Sholapur. Riots again occurred. Six strikers were killed. Many were injured. Again the cause was the Children's Charter and the international standard of hours determined by the labor conference held under the aegis of the League of Nations. Demands of the workers in both cases were granted.

So the strike movement continues in India. Where it breaks out, it takes on the character of a local labor revolt. The International Labor Code is being set up in India—not at the instance of the Government of India—but at the instance of the workers; and they are defending it with their lives. So far, Bolshevism has had no appeal to the population, other than that the Indian soldier feels himself constrained not to fire upon the insurgent populations of those numerous little republics between India and Russia—when such populations profess Bolshevism.

EDITORIAL NOTES.

Things Italian are tumbling and crumbling from earthquakes physical, industrial and social.

If he wants to, Mayor MacSwiney can save his life; those murdered Irish constables didn't have a chance.

German Reds at Danzig talk of introducing a "terror." Have they not heard of a terror named Foch, who has an eye on that neighborhood?

Lovet Fraser says in the London Mail that education seems declining in Scotland. "In the townships of the far north almost the only books now purchasable are the kinema novels of Zane Grey and Edward Rice Burroughs. Even in the district of Cromarty the works of Hugh Miller are said to be unknown to the rising generation." That is pretty good. Education surely hasn't stuck to old Hugh Miller. The times do move in education as in other spheres.

THE SCOUT LAW.

[London Daily Telegraph.] The Boy Scout movement teaches boys to play the game of life according to M. C. C. rules, and if there are fairer laws than those we should like to know on what tables of stone or marble or board they are to be found. The best proof of the value of these rules is that Boy Scouts are easily recognizable even when they are out of their uniforms. The discipline has got hold of them. They have a frankness and a courage of bearing which distinguishes them from their fellows who have not passed through the ranks of ordered comradeship. Above all, they have acquired that mysterious quality of handiness which enables them somehow to be on the spot when they are wanted, and to do the right thing at the right time, with cheerful briskness. The Boy Scout is one of the best hopes of the world. More power to their poles! There are still foul dragons which await their slaying.

THE HOMELY TOUCH.

[Montreal Gazette.] The Americans love the homely touch; and it is a melting scene when Senator Harding is discovered putting out the family wash! It was the homeliness of Lincoln that endeared him to the common people; and it was thrilling when Cleveland, in his shirt sleeves and with a corn cob pipe in his mouth, intimated that memorable message to England about the Venezuela trouble. America loves to see its great men in their shirt sleeves; and time was when it was a notable commendation for the presidential candidate to eat peas with his knife.

NO "CORNER" FOR HIM.

[Hamilton Herald.] Once Sir Thomas Lipton in a business deal came into possession of a large quantity of wheat. He was advised to join with others in cornering the market and forcing up the price. He refused, saying that no gentleman would tamper with necessities of the poor. No wonder the world has acclaimed him as a "good sport."

GAY DECEIVERS.

[Kingston Whig.] Windsor people were puffed up to learn that in that city "no drunks were arrested on Sunday last for the first time in several months." The Montreal Star takes the crimp out of the case by saying: "They are learning how to hold their liquor."

From Here and There

FOR A BETTER WORLD.

[Halifax Chronicle.] Speaking at the unveiling of a war memorial, General Sir Ian Hamilton said that everywhere in the whole world the renown of the British fighting man had been spread by those whom they now mourned. The boys won glory; they did not go out for glory. He said, indeed, said General Hamilton, who would try to unveil the thought and motives which may have been at the back of the minds of statesmen, financiers, generals, on that day six years ago when a state of war was declared between ourselves and the Germans. "But at that mighty crisis," continued Sir Ian, "I was in a position, as head of our central striking force, to place my hand on the pulse of thousands of these boys, and I can assure you that they went out to fight for a better world, and died in that great quest." And now today, he added, came another crisis, perhaps as vital to the future of humanity as that of six years ago. "Could we preserve the Treaty of Versailles? Was it worth preserving? To put an end to war by knocking out the aggressor was to win half the battle only—the first half of the business. After they had finished they had to get the war fever and the propaganda out of their heads and decide whether they were out for reconciliation or for ruin."

CULTIVATING THE FARMER.

[Vancouver Sun.] "Politically," said the late Sir John Macdonald, "the farmer is very satisfactory. He asks little and gets nothing." Both the old-time parties seem to be largely imbued with the same tradition on this point, although there is a plenitude of evidence that it is a mistake. Whatever may have been the case in the past, the farmer nowadays is not only asking a good deal from the government, but he also intends to get it, and he thinks he knows his idea how to form a party of his own, and either to run the administration himself or to send enough agriculturists to be a dominant influence.

In this ambition he may or may not succeed. The best guess at present is that at the next election enough farmer representatives will be chosen to make a working arrangement with them necessary to whoever is to carry on the government. Such being the case, the sooner the task of reaching an understanding is taken in hand the better for the country. On the question of protection the most important single issue before the people, the position enunciated by Hon. Mackenzie King in favor of a moderate tariff should meet with general acceptance in the rural districts. This, however, is by no means all that is needed. What the Liberals should endeavor to do is to cultivate a deeper spirit of sympathy with the rural point of view of things in general.

PROFITEERING IN WOOLENS.

[New York Tribune.] A prominent woolen goods selling agent cited a case yesterday in which he asserted that cloth he sold to a clothing manufacturer at \$4 a yard was made up into suits which sold at wholesale for slightly less than \$50 apiece, only to be shown in one Chicago store at \$110, and in a New York establishment at \$95.

THE BEST WAY.

[Brantford Expositor.] One of the largest employers of labor in Brantford tells the Expositor that he expects wages and material to remain high in cost, but he already sees signs of cheapened production in the fact that the cost sheets show that his men are producing considerably more per diem than formerly. This is welcome news. The best way to keep up wages is to increase production, as without such increase commercial stagnation must set in sooner or later and much unemployment result.

"WHAT REWARD SHALL WE GIVE HIM?"

[Montreal Star.] "Let us not be weary in well-doing, for in due season we shall reap if we faint not." These words were spoken by Premier Lloyd George at the close of a memorable address during the Great War, and in the direct simplicity of their language no less than in the lofty courage of their optimism they breathe the life spirit of the man who rose from the humble position of a "petting-farm attorney" to the counselor of kings and the arbiter of the destinies of nations.

Premier Lloyd George, who has gone to Switzerland for a needed holiday, is the boldest statesman in Europe who has been in office continually since the beginning of the war. No man threw himself more wholeheartedly into the war, no man did more to weary away the weary traditions that were benumbing Britain's efforts, and none has tackled with greater sincerity or with a deeper enthusiasm the absorbing problems of peace and rehabilitation. Lloyd George possesses the sturdy independence of thought that he derived in youth from his uncle, Richard Lloyd, the shoemaker. From him also he inherits his vehement rebellion against false authority that has been a dominant characteristic of his public life. From his early surroundings he has also derived that love of Nature that finds expression today in his devotion to his native Wales, her poetry, her songs, her lonely mountain valleys and her majestic hills.

Lloyd George has many critics and not a few enemies. But no man plows a straighter furrow in the face of opposition or obprobrium. His single-minded purpose is the fulcrum on which he levers his successive triumphs.

HOPE FOR THE BEST.

[London Daily Express.] There are optimists and pessimists, determined minds which will not be balked of their fixed ideas, and the optimists, even when they suffer defeat, help most to make the world go round. But most of us are neither one nor the other. We are creatures of impulse, and we can control the impulse. Face the worst when it comes and face it like a man. Until it comes, believe in the possibility of the best. You do not gain strength, you rather sap it, by foreboding and despair.

WILL DISCOVER LATER.

[Brantford Expositor.] Lindsay reports a newspaper amalgamation, and another daily and another weekly newspaper have gone out of existence. The newspaper manufacturers will discover, perhaps too late, that they are killing the goose that has been patiently laying the golden egg for them.

"AIN'T IT THE TRUTH?"

[Hamilton Spectator.] There would appear to be good ground for the assertion that what a man will dismiss the heat with a passing thought on a work day, he will devote his whole time, attention, grief and language to the thermometer on Sunday.

ALIENATING ITS FRIENDS.

[Picton Gazette, Conservative.] The new Union Government at Ottawa has made a good start towards alienating its remaining friends. If the postponement of the referendum vote is not a direct bid for the support of liquor interests, it certainly has that appearance. The political party that thinks the defeat of the Healey Government is an argument for catering to the whiskey interests is making a huge mistake. Public sentiment is unalterably hostile to the traffic, and the government that builds on friendliness to the liquor trade is already sowing the seeds of its own undoing. The party reasons only. Party loyalty is not at a high ebb at these times, and no government can afford to affront the prohibition sentiment of the country.

CANADA'S CENTURY.

[La Presse.] An Australian delegate to the Imperial Press Conference has said that the future capital of the British Empire will be situated in Canada. Evidently the immensity and the riches of our country have made more than an ordinary impression on those who are seeing them for the first time. The newspaper man whose remark is here cited will be ready to range himself with those who say, in re-echoing Sir Wilfrid Laurier, that the twentieth century will be Canada's century.

QUITE TRUE.

[New York Sun.] Canada is sending out the first woman geologist to study fossils. There's many a woman that could give her sister scientist points painfully learned from the fossil she lives with.

PREVIOUS.

[Kingston Whig.] Perhaps we were a little premature in calling that other one the world war.

Poetry and Jest

STRANGE.

His fishing trip was a success.
He caught himself a dandy mess.
And what is stranger still to say.
No single big one got away.

GOD'S SCHOOL.

[Robert Finch.]
God's school a forest is.
Full of vast sciences;
Cool and green,
Green and cool,
God's school.

Green of wave, sea-weed green,
Green of jewel and peacock's sheen:
Green paved,
Green roofed.
Nor is any shade unmoved
By a wind's sweet breath.
And when a flower's death
Unwinds the showers come down.
By their tears the greens are laved.
And the floor is greener paved.
And the space is greener roofed.
Crowned with greenest row.
And this by all the myriad band
That swarm this cool, green shadow-land,
Is with delight approved.

SUPPLYING A WANT.

[Birmingham Age-Herald.]
"What's in that crate of stuff you are getting in?"
"Just a shipment of oja boards," replied the hotel manager.
"Great Jupiter! What's the idea?"
"We believe in giving service here. Every now and then a guest calls for a oja board. Hereafter when we get a request like that our clerks will answer, 'Coming up, madam, at once.'"

THE MOON.

[F. W. Harvey, in the London Spectator.]
What have you not seen
Old White-face, looking down
Sings the heaven was hollowed out
And winds were blown?

You saw White Helen
On the walls of Troy Town.
You silvered dew the ruin
When Troy shook down.

Ulysses you saw
And the strange seas that bore him.
But all he wandered to see
You had seen before him.

Bodies black and yellow,
Gold tresses and brown,
The brown earth covers them
And you look down.

WHEN LOVE CAME.

[Mary Hodgkinson, in Chamber's Journal.]

Did he come to me in a kindly guise,
With trappings of silver and gold?
Or came he with clatter of sabre and steel,
As a warrior brave and bold?

Did he lure me with strange, sweet melody,
In the wee, small hours of the morn?
Or came he in grief, lest my heart should refuse
A suitor so sadly forlorn?

No—his dear strong hand took hold of my own,
His tender eyes looked into mine,
And my heart's dearest love to my love went out,
In the answer, "Love, I am thine."

And the touch of his hand still thrills my heart,
As it did in that bygone day.
For the love that we plighted long years ago
Is the love that will last for aye.

IT COMES UPON ME IN THE WOODS.
[Edward Rowland Hill.]

It comes upon me in the woods,
Of all the days, this day in May;
When wind and rain can never think
Whose turn it is now to have its way.

It finds me as I lie alone,
Blinking up through the swaying trees,
Half wondering if a man who reads
"Blue sky" in books that color seas—

So fathomless and pure; as if
All loveliest azure things have gone
To heaven that way—the flowers, the sea,
And left their colors there alone.

Hark! leaning on each other's arms.
The pines are whispering in the breeze,
Whispering—then hushing, half in awe
Their legends of primal seas.

The wild things of the wood come out,
And stir or hide, as wild things will;
Like thoughts that may not be pursued,
But come if one is calm and still.

Deep bemocks down the gorge shut in
Their caves with hollow shadow filled.
Where little feathered anoints
Behind a sunlit lattice build.

And glimmering through that lace of boughs,
Dancing, while they hang darker still,
Along the rafters river shines and shines
The restless light's incessant thrill.

Those birds would hold no more aloof—
How know they I am here, so well?
'Tis your woodpecker's warning note;
He is their seer and sentinel.

They use him, but his faithfulness
Perchance in human fashion pay—
Laugh in their feathers at his voice,
And ridicule his stumbling way.

That far-off flute-note—hours in vain
I've followed it, so shy and fleet;
But if I found him, well I know
His song would seem not half so sweet.

But still I prate of sight and sound;
Ah, well, 'tis always so in rhyme:
The idle fancies find a voice.
The wise thought waits—another time.

FAME.

[F. W. Harvey, in the London Spectator.]
We know a man with funny feet
And foolish grin, a movie star;
His fame has spread to every street
From New Rochelle to Sanitar.

We know a man of wondrous mind
Too many brains his name is signed
And he is famous? He is Not.

A MODERN SONNET.

[Ella Panning, in New York Sun.]
Oh, love, you're a human for me!
I caught you Tuesday darning hose,
And even the dullest eye can see
Neat patches on your last year's clothes!

Your shoe-black hat, home-laundered
Your gloves with well-knick finger-tips,
Your casual ways about the house,
Bring praises to a lover's lips.

I picture some safe inglenook,
A kitchenette, with you the queen.
I've heard you say you love to cook
The costly spiced, the humble bean.

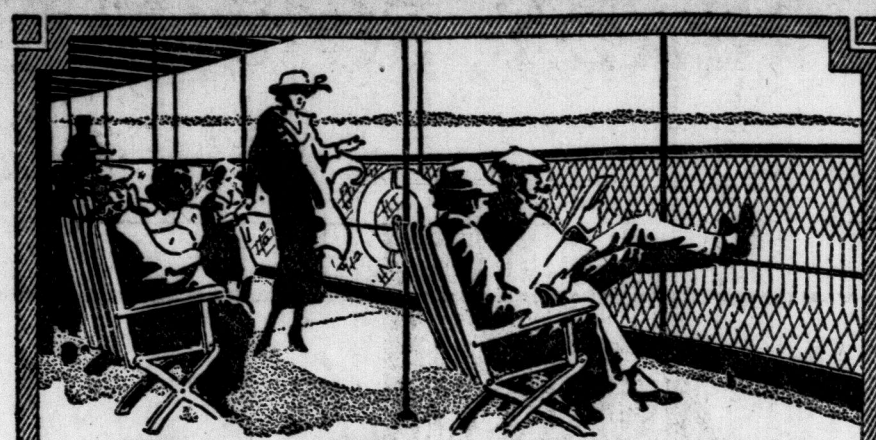

I've learned how simple are your tastes,
You're mindful of a poor clerk's purse;
Scorn her who coin on candy wastes—
Vow ices bad and lobster worse!

Ah, my Chlorida, heed these rhymes
Of one whose love will e'er prove true.
Who, in these fearsome, high-price times,
A treasure, girlie, sees in you!

Applied Domestic Science, pet!
Your household platform's chiefest boast:
Out of the salary I get
Each week a dime we ought to bank.

THE COUNTRY MOTHER.

Her snow-white hair,
Her kindly touch of her loving hands,
Her keen interest in her children,
The way she loves her homestead,
Her ability to cure everybody's ills,
The pious she bakes,
And the perfectly wonderful bread,
Her ability to keep everybody's ills,
The tidiness of her home,
How the farm hands respect her,
That butter she churns,
And the cheese she makes,
Her treasure-trove of a cellar,
The vision of her in her rose garden.

For a "Great" Vacation

try the Great Lakes Trip
by Canadian Pacific Steamer

FOR when the mercury is playing around in the upper eighties, and you wish Henry Ford would invent a self-refrigerating collar, do you ever stop to remember that the temperature of Lake Superior never rises above 40 degrees? What if you don't spare the time for a long holiday? The Canadian Pacific Railway's Clyde-built steamships make a five-day trip from Port McNicoll to Fort William and back, during which you can be as cool as an Eskimo and as comfortable as a clubman.

Roomy cabins, the best of chefs—oh, those broiled Lake Superior whitefish!—tea on deck under the lazy awnings—seagulls against the long, northern sunset—and a breeze from a thousand miles of clean pine woods, on duty twenty-four hours in the day.

Then—if you find you've got more time than you counted on—how about a week on the Nipigon River, forty miles from Fort William, with guides, canoes, and camp fires and white water under the moon—and more speckled trout than you know what to do with?

How do you get there? That's easy. Phone, write, or see any Canadian Pacific Ticket Agent.

Does a Heat in 2:09 1-4

DETROIT, Sept. 9.—Very little rain fell at the state fair ground today and those who went out to the Michigan shortship meeting, saw a good track and the fastest heat of the week. This burst of speed was in the 2:12 pace, in which Haledo had won two heats. The judges told them that 2:11 1-4 was not good enough, and in the third mile Vance cut in with Pat Ponter and after a roaring drive he beat out Haledo in 2:09 1-4.

The 2:17 trot went to Lady Allerton. She finished in front in every heat, but Agate was placed in front by judges. Then Bay City Fare flattened and took command.

The 2:14 trot was a special race and Doris Watts had something on Letanna S., although the Canadian horse made her go the final mile in 2:15 1-4 to keep out of his way.

The program ends tomorrow with three events and the largest fields of the week. The 2:08 trot, 2:26 pace and 2:08 pace wind up the bill.

Other Societies—Send-off
Banquet Tonight At Tecum-
seh.

Yesterday's game between the Tecumseh and the Tigers at Hamilton was postponed on account of rain shortly before commencing time. Several of the players were found tuning up for the various field day stunts to be staged here on Saturday. Manager Shaughnessy and Joe Briger took the mark and ran for a few yards to get a line on each other's speed.

The calling off of the game brought Acting-Manager Calbert and Manager Shaughnessy together and it was agreed that the unplayed game be transferred to London as part of a double-header for tomorrow afternoon. London's big booster day for the benefit of the Mint League champions.

Today is ladies' day at Tecumseh Park, the last of the season. Hamilton coming here determined to take their first victory on the local lot this year. Today, Hamilton's leading pitcher, will probably oppose Oscar Detolite, but the latter's ability to baffie the Tigers is too established to allow them merely a fighting chance to win their first game here today.

The chamber of commerce has arranged to enable 5000 invalided soldiers to participate in the Booster Day tomorrow, providing admission tickets for each hero. Several societies in the city have taken the matter of requesting all members to attend the games in a body if possible.

The Knights of Columbus are among those who are going to swell the attendance, as the net receipts of the day will be divided among the London players. The K. of C.'s are sending a number of members to the banquet this evening at the Tecumseh House for the purpose of presenting a memento to each player.

VETERAN GEO. LYON
AGAIN CHAMPION
OF GOLF SENIORS

Always Led Field by Good
Margin—Weller, St.
Kits, Second.

OTTAWA, Sept. 9.—Mr. George S. Lyon of the Lambert Golf Club, Toronto, is again champion of the Canadian Golf Seniors Association in the second and deciding round of the annual tournament held today at the course of the Royal Ottawa Golf Club. Mr. Lyon turned in a card of 80 for 18 holes of medal play. As he had lost the first round on Wednesday, his total for the 36 holes is 157, and he thus is the champion.

He played good golf in all departments, and led the field by a safe margin. Mr. J. L. Weller of St. Catharines, Ont., had the second best score, viz—160.

The honors for the best net scores were divided by Mr. J. L. Weller of St. Catharines, and J. H. McGregor of Lambton, who finished on even terms with a score of 153.

ROSLYN, N. Y., Sept. 9.—The last British invader seeking this year's amateur golf championship of the United States was repelled today, when Francis Ouimet, Boston, eliminated Thomas D. Armour, Scotland, holder of the French amateur championship, 5 up and four to play. Bobby Jones, the 20-year-old wizard from Atlanta, defeated the young Massachusetts champion, 2 up and four to play.

Tomorrow the sectional rivalry will be continued for the draw puts Jones against Ouimet. They have never met before in an important match. The other semi-finalists are Chick Evans, Chicago, and Edward P. Allis, Milwaukee.

Erase the retailer's and wholesaler's profits on your Fall Clothes purchase

When you buy a Suit or Overcoat in the average retail store — whether ready-made or tailored-to-order — YOU PAY TWO PROFITS—the retailer's and the wholesaler's.

For instance on a \$60 suit of clothes—the retailer gets at least \$15—the wholesaler \$12. That's the tribute you are paying to the DOUBLE PROFIT account.

When you buy Tip Top Clothes you pay \$27—THE MAKER'S PRICE, with no taxation for jobber or retailer.

MONEY NEEDED HERE

Says Financing Crop Move
and Other Business Re-
quires Every Dollar.

TORONTO, Sept. 9.—On the authority of Sir Henry Drayton, minister of finance, who is tonight attending a demonstration in honor of the prime minister, Mr. Arthur Meighen, in Sir Henry's constituency, Kingston, Ont., the following statement has been issued regarding the financial situation in Canada.

"Owing to the financial conditions arising out of the war and the change in Canada in recent months from a favorable trade balance to an adverse trade balance, the minister of finance has requested the Canadian banks to decline to facilitate the importation or carrying of Canadian and other securities which have been held abroad. To that end the minister is requesting the banks to have purchasers of sterling or foreign exchange in amounts of a thousand dollars or over and drawers of drafts received for collection from outside of Canada for the like amounts, certify that the exchange so required, or the draft from abroad does not represent the purchase outside of Canada of such securities.

"The minister is of the opinion that it is impossible for Canada to absorb this portion of its foreign debt or foreign securities at this juncture without embarrassment to general financial conditions. Every available dollar now in Canada is required for the business of the country, and particularly to finance the crop movement, and if money is withdrawn in the way referred to, the withdrawal will seriously affect and restrict the commercial activities of the country."

RUSSIANS SHOW OPTIMISM, SAYS MOSCOW WORD

Polish Wireless To Paris Says
Soviet Situation
Brilliant.

PARIS, Sept. 9.—A Moscow wireless communication picked up today says: "The Polish Government is mistaken if it has illusions that the military situation has undergone unfavorable changes, as owing to the reserves sent to the front, the military situation of Soviet Russia once more is brilliant."

"We adhere, as ever, to the conditions of our ultimatum. We hope for a lasting peace, but owing to the incessant struggle of the Polish workers for peace with Russia, we have the right to complete the Polish army with an armed workmen's militia without injuring the cause of peace."

"The Soviet Government hopes for the moral support and sympathy of the working classes of all countries. The British Government would oppose with the same vigor the formation of an armed bourgeois militia."

"The Polish Government suddenly shows a great desire for peace, the foreign minister, Prince Sapieha, expressing the hope that the negotiations will be concluded at the earliest possible moment. The red army in several sectors has begun an offensive, and the Government is in a virtual situation that with the end of the Polish successes it is the most favorable moment to make peace."

"Poland had founded great hopes upon international politics as a weapon against Soviet Russia, but the American Government has affirmed in a positive manner its opposition to Polish imperialism, advising Poland not to attempt the occupation of Russian territory. The stand of the American Government is what has inspired the Polish landlords in their desire to make peace."

RUSS DELEGATES WILL GO TO RIGA

Warsaw, Sept. 9.—A Russian Bolshevik peace delegation will go to Riga to meet Polish representatives, Prince Sapieha, Polish foreign minister, has been notified by George Tchichérin, Russian Bolshevik minister of foreign affairs. The latter, however, did not mention the date when the Soviet representatives would leave Moscow.

MACKENZIE WOULD SELL INTERESTS AT REASONABLE FIGURE

Sir William Makes Offer To
Ontario Hydro Com-
mission.

TORONTO, Sept. 9.—The Toronto Star says today that Sir William Mackenzie has fixed a lump sum, which he is willing to take for the Mackenzie Light, Power and Traction interests at Niagara Falls, and in the vicinity of Toronto, and has given the Ontario Hydro-Electric Commission a virtual ultimatum, to accept or reject it immediately.

The price asked is reported to be most reasonable, allowing practically nothing for franchise rights and being on what might be called a "cash" basis. It is millions below the price first mentioned by the electric magnates.

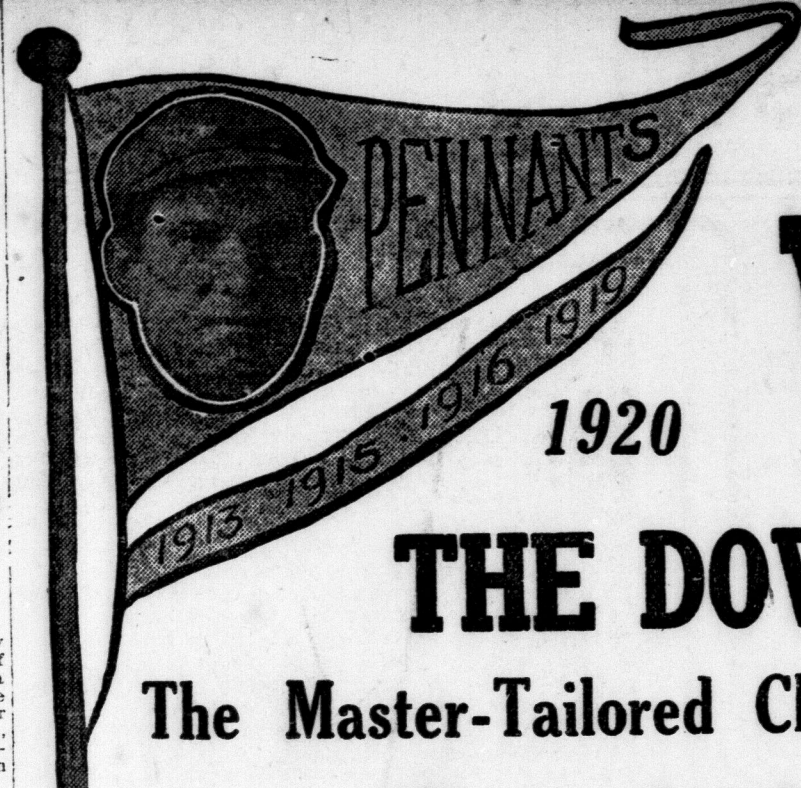

"The deal will require the assent of the Drury Government. While the existence of the Sutherland commission complicates the situation, there is hope that the Government would permit the purchase to be consummated, as it would put an end to costly duplication between the hydro and private electric systems, and greatly facilitate the supplying of power to industries."

INSISTS THAT MAYOR 'SHOW UP OR SHUT UP'

OTTAWA, Sept. 9.—The Retail Merchants' Association of Canada is determined that Mayor Church of Toronto, must "show up or shut up," regarding his allegations of profiteering in food and other necessities of life. The mayor's evidence will be submitted to the Dominion board, and if his charges are proven the members declare that they will make every possible effort to have the names of the guilty parties made public.

"If no evidence can be produced we shall ask the mayor to apologize to persons so charged." E. M. General secretary of the board.

Out of Bondage

An Announcement of the Greatest Importance!

Every woman—every husband—every householder in Canada—should read this message!

IN announcing that the Canadian-Made BlueBird Electric Clothes Washer is "on the market" ready for delivery and use, we are privileged to make a revolutionary statement.

The BlueBird Electric Clothes Washer is not simply a piece of machinery—it is an institution—an appliance that frees womankind from her most disagreeable, distasteful and unhealthy task—that of doing the "family wash" by the rub board method.

Old Time Washing Methods Are Brutal

TO men, who only know in an indistinct sort of way that the washing "gets done each week somehow or other," this may not seem like a revolutionary accomplishment. But to the women, who each week of their lives must face the family washing, it is an announcement of transcending importance. Washing by the old method is brutally hard work. It requires greater physical effort than most women are capable of. It takes the bloom from rosy cheeks. It leaves in its wake unhappiness, raw nerves, and, in many cases, permanent physical troubles.

BlueBird Stands for Happiness

THAT is what we mean when we say BlueBird is not simply "a piece of machinery".

BlueBird radiates Happiness in every home it enters—BlueBird stands for happiness in homework!

In the designing and building of the Canadian-Made BlueBird Electric Clothes Washer, we recognize the requirements of only one person—the woman in the home. The BlueBird is built to render her a lifetime of faithful service. Every day of every year it is at her command—capable, efficient, quickly accomplishing the most distasteful of all household duties.

An All-Canadian Product

THE Canadian-Made BlueBird Electric Clothes Washer and Wringer is not simply "assembled" or "painted," but made in Canada. Every piece of material in it is Canadian. The workmen are skilled and experienced Canadian mechanics. In BlueBird, Quality is predominant, from the enamel on the cabinet to the smallest bolt used in it. In point of construction, the BlueBird is today the finest washing machine manufactured, not in Canada alone, but in any country! It is over-strong. The frame is built like a bridge. The tub in which the clothes are washed is made of copper, indestructible and rust-

less. The wringer is all-steel and adjustable to every necessary position, and for all fabrics of every weight and thickness. The motor that drives the washer and the wringer is the finest motor ever fitted to a device of this kind. In appearance, the BlueBird Washer is graceful and attractive and is finished in pure white enamel, trimmed in grey—instantly rubbed clean. The cost of operation is negligible—a few cents per week. It operates simply by attaching to any electric light socket.

Frail or Heavy Fabrics Perfectly Washed

THE Canadian-Made BlueBird Electric Clothes Washer is a machine of supreme efficiency. It operates on the oscillating principle, which, by continually forcing the water through and through fabrics, washes them CLEAN without injury, wear or damage to even the frailest garments or the heaviest blankets. The BlueBird operates absolutely without human effort. The clothes are simply placed in the tub, the power turned on, and in fifteen minutes you return to find them spotlessly clean. The same motor that drives the washer drives the wringer, simultaneously if desired. That is the modern and efficient way to wash.

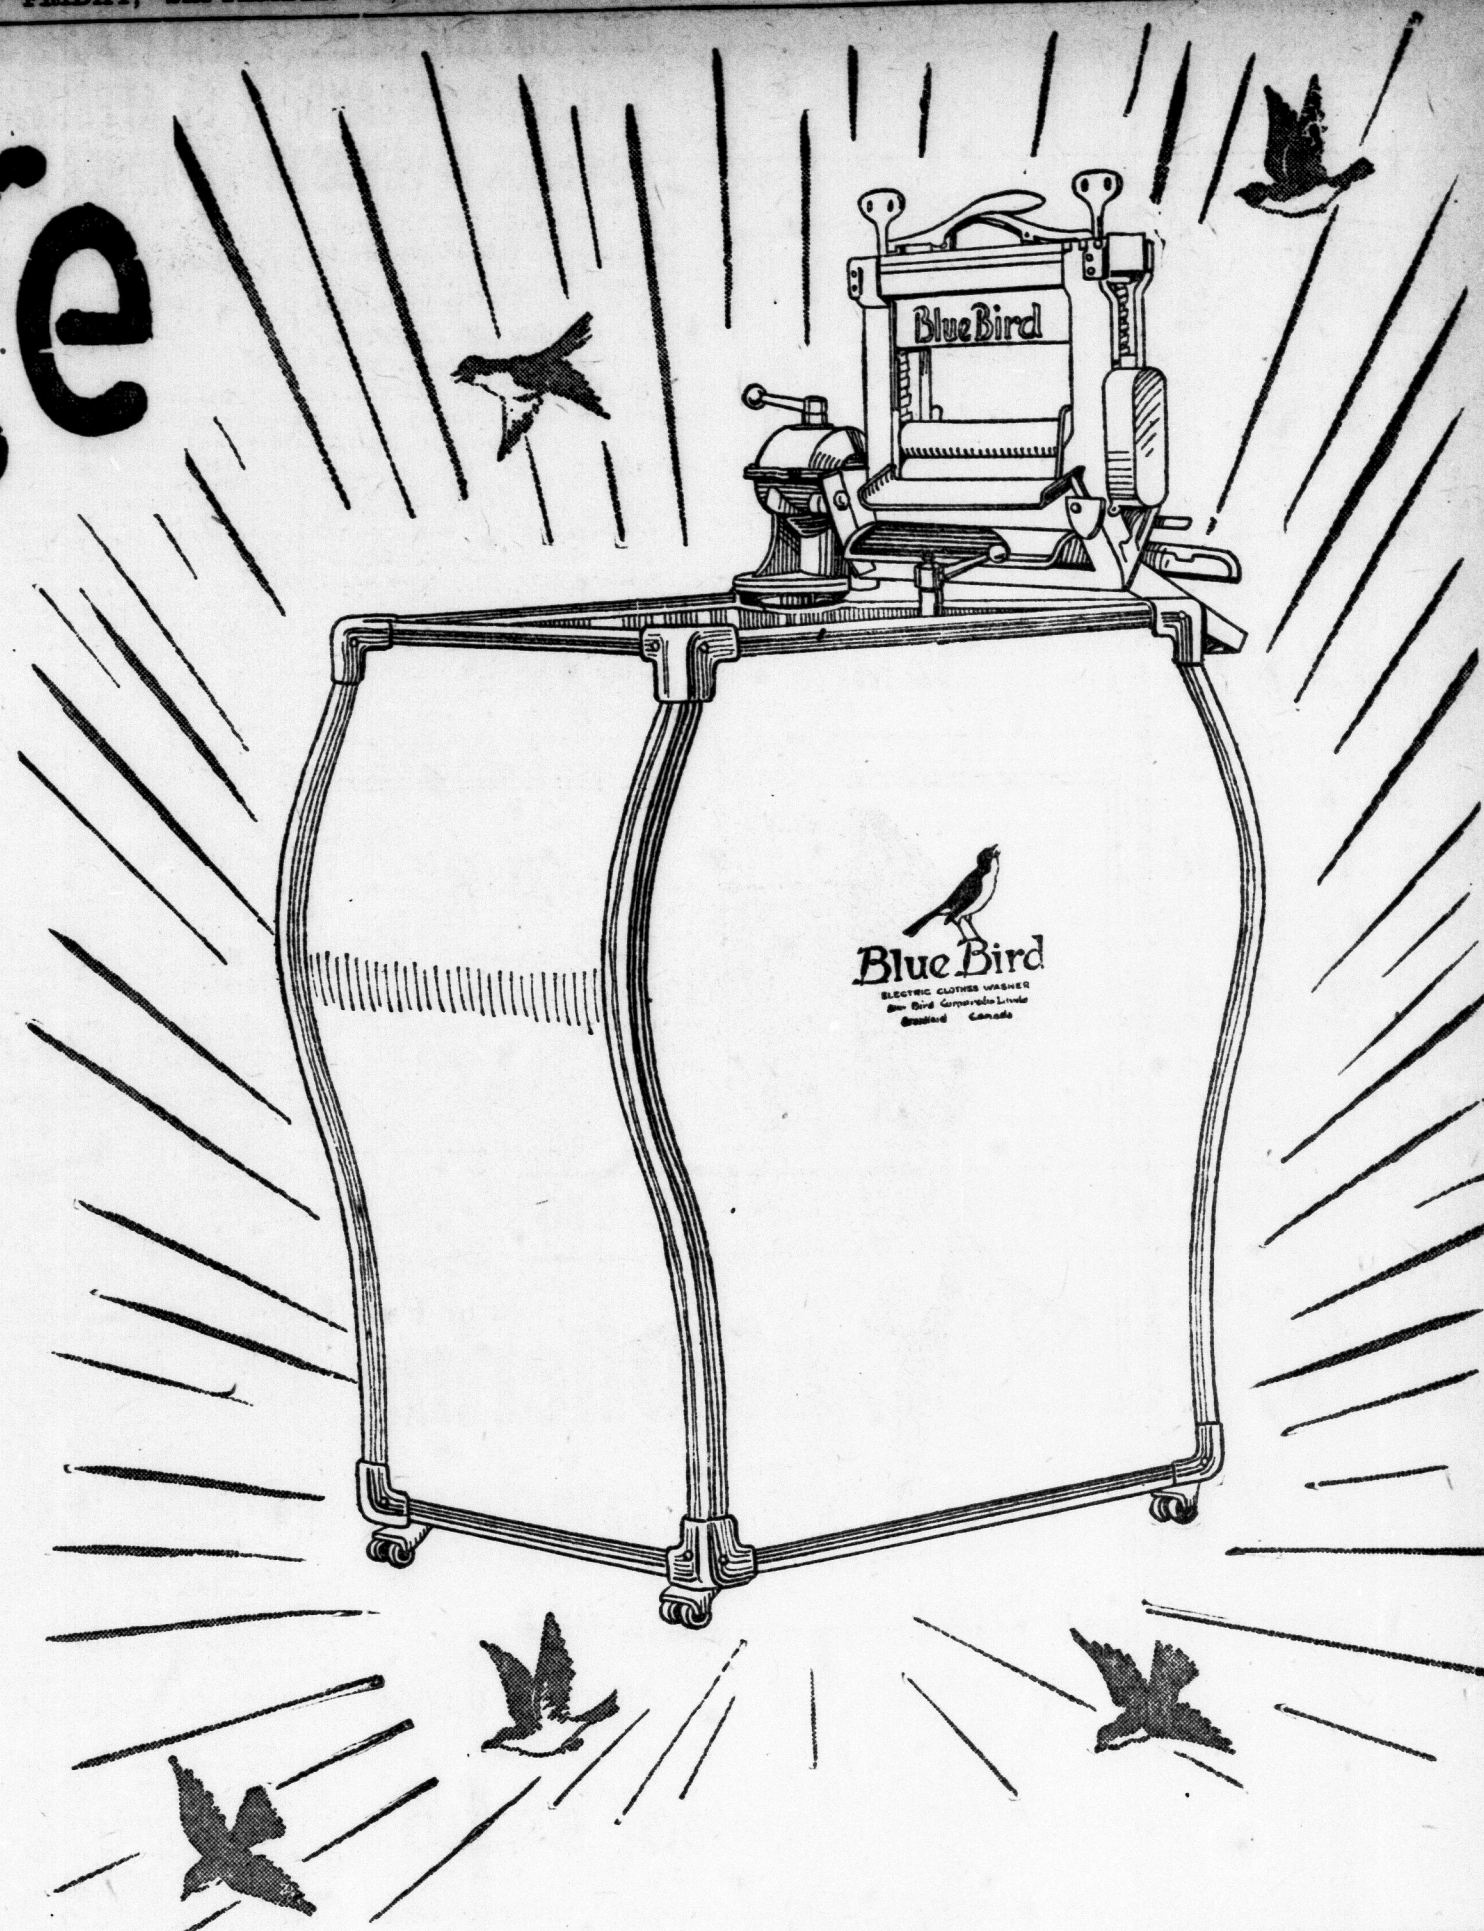

Indispensable in Every Home

THE BlueBird Washer must not be considered as something "it would be nice to have." The BlueBird is indispensable in every Canadian home. Women must no longer be subjected to the drudgery and misery that washing meant under the old-time method.

Economy demands that clothes be no longer pulled and torn and worn to shreds in one-fifth of their normal life.

That is What We Mean by "Out of Bondage"

CLEAN clothes in abundance without effort are demanded by the high standards of Canadian life. So the woman who possesses a BlueBird Washer owns not simply "a piece of machinery". BlueBird is happiness and freedom and emancipation from an antiquated, harmful and extravagant system which has held womankind in bondage since the dawn of history.

Specifications of the Canadian-Made BlueBird Electric Clothes Washer:

CABINET	White, Grey trim. Has table top, waist high. Working parts enclosed. Safety for children. Attractive appearance. Graceful design. Enamel finish—easily kept clean.	MECHANISM	Simplest design, few moving parts.

JOHN DID NOT LIKE UNCLE SAM'S LAND, IS BACK IN WINDSOR

Chinaman Who Involuntarily Smuggled Himself Over the Border Returns.

WINDSOR, Sept. 9.—Negotiations were completed tonight by the immigration authorities in Detroit and Windsor for the return to Canada of John Lee, Chinaman, employed in a local restaurant, who unintentionally evaded the officials at the border and slipped over into the United States. In years gone by certain borderlines made fortunes by smuggling Orientals past immigration men on the other side, but John demonstrated how easily the feat could be accomplished when he started out to attend the races at Devonshire Park this week, and boarded a train, thinking it would take him down-town. He was stunned by surprise when it landed him in Detroit, where he has been kept hidden by friends until arrangements could be made by his attorney, F. C. Kerby, for his return. Today he professed his love for Canada and his dislike for Uncle Sam's land, and vowed never again to leave the fair Dominion voluntarily.

REID PLACES STAMP OF APPROVAL UPON HIGHER RAIL RATES

Intimates That Government Itself Was in Favor of Increases.

TORONTO, Sept. 9.—Hon. J. D. Reid, minister of railways and canals, who with D. B. Hanna, president of the Canadian National Railways, and Grant Hall, vice-president of the Canadian Pacific Railway, was a guest of the directors of the Canadian National Exhibition at luncheon today, gave an address in which he spoke strongly in favor of the increased freight and passenger rates recently granted by the railway companies of this country by the board of railway commissioners for Canada. The minister intimated that the Government favored the rate increases.

In view of the palpable progress the country was making, Dr. Reid urged his hearers to be optimistic. "In the interest of the railways, and the country as a whole," he said, "do not let us be too hard on our railway systems. Give them a chance, give them an opportunity. If you can't boost, don't knock. Could anything be more discouraging, more disheartening, than for these men (Canadian National Railway officials) to work as hard as they have to find that all their work was not succeeding in making the road pay?"

Stating that the Canadian Pacific Railway had advertised Canada in all countries of the world, Hon. Dr. Reid asked: "What possible chance has Canada if by any chance the Canadian Pacific Railway were reduced to such a state as not to earn its dividends, or that they might have to be assisted by the Dominion of Canada?"

Answering his own question, the minister said: "There is not a man in this country, I believe, who would insist on such a proposition."

Reference was made by the minister to deficits on railways in the United States and increases in railwaymen's wages having been granted by the United States Government, and he said Canadian railwaymen were also entitled to increased pay.

In the United States increased freight rates followed the increased wages. In Canada increased wages to railway men in 1919 amounted to \$10,000,000, Dr. Reid said. This was a very serious matter to the Canadian Pacific Railway and Canadian National Railways, which had not asked or received any increases of freight rates, and they were out from \$40,000,000 to \$50,000,000 last year. This year the United States Government had given wage increases amounting to \$500,000,000 or \$700,000,000 and the Canadian Government could not refuse to advance the wages of its railway employees. Besides, the price of fuel had gone up tremendously.

Increase in Wages. "Are we in Canada to stand up, notwithstanding \$50,000,000 or \$70,000,000 in wage increases," said Dr. Reid, "and say: 'You railways must pay. You are not entitled to increases in freight rates.' The public who transport their produce on these railways should pay an equal amount to the increased cost of operation."

The minister added that the railway companies had taken cognizance of the increased costs to the railways, because the times were abnormal and had granted the increased rates which could be adjusted at any time when the cost of living was reduced.

WINNIPEG TRADE BOARD TO APPEAL

WINNIPEG, Sept. 9.—(By Canadian Press).—Winnipeg's protest against the increased freight rates will take the form of an appeal to be carried by a delegation from the board of trade direct to the Federal Government. Details of the appeal are being discussed this afternoon at a meeting of the board's executive.

D. A. Clark, chairman of the traffic bureau of the board, recommended on behalf of the bureau that objection to the award of the railway commission be entered and that an immediate appeal be made. The appeal, it is stated, will ask:

That the award be suspended. That an appointment be made to have the appeal heard at an early date by the Dominion cabinet. That a committee of the board of trade be appointed to conduct the appeal.

It is taken for granted that the traffic bureau's recommendations will be accepted.

MUST HAVE PERMIT TO GROW TOBACCO

Many Kent Tobacco Growers Are Reminded of Necessary Formality.

CHATHAM, Sept. 9.—The local office of the department of inland revenue has issued a warning to all tobacco growers that they must immediately obtain the necessary tobacco-growing permits. These permits should have been taken out by the growers as soon as they had planted their tobacco, but quite a number of them have as yet failed to do so.

Practically all ministers of the Chatham district of the Methodist Church are in session in Victoria Avenue Methodist Church today. Representatives from each circuit are also present. The conference is presided over by the Rev. Mr. Thompson of Wallaceburg, and the Rev. Mr. Jones of Blenheim is secretary. The morning session was devoted to business and a general discussion. A spiritual conference was held this afternoon.

FUNERAL OF MONSIGNOR MCGEE LARGELY ATTENDED

Impressive Ceremony Held Today in St. Joseph's Church, Stratford.

STRATFORD, Sept. 9.—"A father of his people" was the tribute paid this morning by Rev. Father O'Reilly, C.S.R., of London in his sermon at the funeral mass of the late Monsignor McGee at St. Joseph's Church. The church was packed, and there were audible expressions of emotion throughout the service.

Solemn high mass was celebrated by Rev. T. P. Lowry, nephew of the deceased, with Rev. Father Rona as deacon, and Rev. Father Quinlan as subdeacon. Rev. Father Torralba was master of ceremonies. The school children and Knights of Columbus occupied the centre pews of the church and formed a guard of honor. Priests from all parts of Western Ontario were present for the service.

CANNOT REMOVE NECESSITIES TAX SAYS MEIGHEN

Premier Contends Duties On Life's Necessaries Must Remain.

KINGSTON, Sept. 9.—At a get-together banquet here tonight by W. R. Givers, manager and director of the Standard, the chief guests were Hon. Arthur Meighen and Sir Henry Drayton. Over 100 guests of all shades of political opinion gathered to listen to the addresses of the distinguished visitors at the Frontenac Club.

Premier Meighen devoted most of his time to discussing taxation from all its angles, speaking of the methods which had been adopted during the war and comparing the course taken by Canada with what had been done by Great Britain and other countries. Dealing with the income taxation he pointed out that while many believe that not enough had been done in that way there were many things to consider by those who would go farther. He dwelt on the position of Canada, being so close to the United States which with its commanding position could offer inducements to the taxpayer. No better inducements to the taxpayer could be offered to a country where there was danger of being heavily taxed than another country close by could offer better inducements, and it behooved Canada to be careful in dealing with income tax increases.

Speaking of the position of the farmers of Canada he pointed out that the taxes on implements today were about the same as had been in force twenty years ago.

Tendency to Decrease. There has always been a tendency for all taxes to decrease as times went on, for the reason that people began to import lines of goods which were free or which carried lower rates of duty. The situation as it affected the

CANNOT REMOVE NECESSITIES TAX SAYS MEIGHEN

Premier Contends Duties On Life's Necessaries Must Remain.

Those who said that the reduction of duties on some things and not on others would find that if the duties were taken off some things they would have to be taken off all. No one thing would stand alone. If the necessities of life were untaxed, what was left to provide the necessary revenue? From the standpoint of the commercial integrity of the country it cannot be done, said Mr. Meighen.

Speaking of the reduction of rural population in Canada the premier contended that the figures showed that even while there had been a slight decrease the situation was not nearly so grave as in other countries, and that the farmer was better today than formerly was the farmer in the Dominion. He pointed out that the system of taxation in force could not be unfair to the farmer when increases had been as great as an average of 45 per cent. from 1910 to 1919 in the value of the land actually farmed. This advance would not have come if the taxation was unfair.

W. R. Givers presided at the banquet which was held at the city of Kingston was proposed by ex-Mayor T. J. Hickey, and replied to by Mayor H. C. Hickey, both of whom made eulogistic remarks about the distinguished guests of the evening.

BEWARE OF DECEPTION

Statistics show that when egg albumen is used as a constituent of baking powder, the amount so used is too small (usually 15/100 of 1%) to affect the quality or effectiveness of the baking powder containing it, and when so used, is plainly for the purpose of fraud. Intelligent buyers will not permit themselves to be deceived by the water glass test.

BLUNDEN RECOVERS

Driver of Wrecked Auto Leaves Hospital—Suffering From Shock.

SARNIA, Sept. 9.—A jury has been empaneled to inquire into the circumstances leading to the death of Zina Martiline, an Italian workman, who died on Wednesday at the dock of the Century Coal Company, Point Edward, while engaged in loading coal for the steamer Harmonic.

Coroner Dr. T. P. Bradley held a hearing in the police court today after viewing the remains at Phillips' morgue. The inquest was adjourned until Monday night at 8 o'clock, when the following jury will hear the evidence: R. J. Hamilton, W. B. French, William Alcock, William Lumby, Herbert Couse, Charles Keller, David Brown and Walter Eddy.

Leaves the Hospital. Frank Blunden, driver of the car which ran over the embankment at South Christina street early Saturday morning, who has been in the Sarnia General Hospital recovering from his injuries, has recovered sufficiently to leave that institution today. Blunden is still suffering from shock and complaints of internal injuries, but is able to be about. The young man in conversation today denied absolutely that he was married to Mrs. Watson, his companion, who was fatally injured, but refused to state whether he was married or single. It is his intention to remain in Sarnia for a time, he said, but beyond that he did not divulge any of his plans for the future.

Shortage of Books. According to local booksellers there is a noticeable dearth of public school books and school supplies, and as consequence a large number of the school children have been unable to procure the necessary supplies with which to proceed with their studies. Daily the bookstores are besieged with children inquiring for books and supplies, but it is impossible to meet their request. Orders placed for books some time ago remained unfulfilled, shortage of paper being given as the reason by the publishers for the delay.

FOOTBALL RESULTS. London, Sept. 10.—Canadian Associated Press—Results of Association football games played yesterday follow:

Third Division. Bristol Rovers 2, Newport 0. Scottish League. Airdrieonians 4, Falkirk 1. Hamilton 1, Dundee 0. Hearts of Midlothian 4, Ayr United 1. Aberdeen 3, Clyde 0.

LAKE STEAMERS HEAR CONCERT HELD IN DETROIT

Many Border Wireless Stations Also "Sat In" on Radiophone Concert.

WINDSOR, Sept. 9.—Wireless stations in border towns covering a wide radius last night "sat in" on a radiophone concert conducted in Detroit, at which selections played on musical machines were sent through the air via wireless, and distinctly heard by operators within the receiving radius.

The program included solos by Giesler, Helfetz and Victor Herbert, and a rousing march by Sousa's Band, every note of which was said by operators who heard the unique offering, to be perfectly audible.

J. H. O'Leane of L'Assomption College, Sandwich, reports that members of the faculty at the college using the wireless set of that institution, heard both band and orchestral selections with equal distinctness. He said tonight the faculty was greatly interested in the concert by air, and hoped the service would be continued.

F. R. Blodgett, Devonshire road, Walkerville, was another Canadian, who "attended" the concert in the air, and

he said tonight he was thrilled by it. Messages from lake vessels indicated the "concert" was heard for a considerable distance by wireless operators on river and lake boats.

COMMUNITY DANCE TO AID SOLDIERS' MEMORIAL

Textile Workers Still On Strike—Both Sides Determined.

STRATFORD, Sept. 9.—As a means of raising funds for the soldiers' memorial, the Merchants Association has decided to put on a dance on the newly-paved Ontario street in the near future, and committees are working on the details.

The textile workers of the Avon Hosiery Company are still on strike, and both sides apparently are determined.

MURINE After the Movies Wholesome-Cleansing-Refreshing When Your Eyes Need Care

FOUND WANDERING IN FIELDS, CANNOT TALK, READ NOR WRITE

Young Man Now in Care of County Police at Chatham.

CHATHAM, Sept. 9.—An unknown young man found wandering on the farm of J. S. Rankin, 10th concession, Dover Township was brought in to the county police this morning by Mr. Rankin.

Mr. Rankin stated that he had found the man in a field on his farm, and his strange behavior aroused his curiosity. On speaking to the man he received the most curious sounds that ever emanated from a human throat. Considering the man was not in a proper condition to be roaming around the country he brought him to the county police.

The young man is about 5 feet, 5 inches in height, and well built. When found he was clad in an old shirt, trousers and an old hat. From the condition of his hands he has not washed for some time, and his face is covered with a stubbly beard.

As his language is wholly incomprehensible and he is unable to either read or write, Magistrate Arnold committed him to jail for one week, so that inquiries can be instituted.

U. S. STEAMER AGROUND.

London, Sept. 10.—The United States steamer Sibony is aground in the harbor of Vigo, Spain, according to a Lloyds dispatch. Passengers on board the ship are being landed.

WORTH OF A GOOD NAME.

The success that has come to Ye Olde Firme Heintzman & Co., Limited, 243 Dundas street, London, is due primarily to the quality of the piano that they have made for more than 70 years. Unless every piano reaches the very high standard set by this firm, it is not allowed to leave the factory. It is this particular care on the part of this old established firm that gives this piano a distinctive place among the world's pianos.

What Republicans Offer In Place of the League

Senator Harding's mention of putting "teeth" in his proposed reconstructed Hague tribunal evokes only jeers from the Democratic friends of the league of nations. Political dentists," observes the New York World (Dem.), "will tell him that without a league only false teeth are possible now," and the Richmond Journal's (Dem.) title for an editorial on the subject is "Harding's False-Teeth Proposal." On the other hand prominent Republican newspapers are enthusiastic over the Republican candidate's plan, the New York Tribune declaring that while the Harding program "promises no millennium, it is definite and affirmative, whereas the Cox program is vague and negative."

So that the public may more fully understand just what is offered by both parties, THE LITERARY DIGEST, in its issue of September 11, publishes an enlightening article, drawn from editorial statements by American newspapers, comprehensive, unbiased, and deeply interesting. Read it and you will be able to vote more intelligently at the coming election.

VENTURE INTO QUEBEC LATEST MEIGHEN PLAN

Premier Has Temerity To Attempt Speaking Tour There.

(Special to The Advertiser.) OTTAWA, Sept. 9.—A governmental invasion of Quebec Province is in contemplation for the Indian summer months. Premier Meighen made his debut in that province at Quebec, where he spoke at the Carleton memorial ceremonies. That, however, was a non-political speech, though the event may be considered as having political significance of the bonne entente variety.

Now the premier is preparing for a political tour. He starts at Sherbrooke on September 21, the day after the by-elections in St. John and Colchester. He has chosen the eastern townships, nominally English-speaking, for his starting place. Meetings will be held in Cookshire, Compton, Lennoxville, Magog, Cowansville and Knowlton.

Later in the season Mr. Meighen will venture into Quebec and Three Rivers. Speakers accompanying him will include Hon. Messrs. Balfour and Doherty, Senator Foster and others.

RUSSIAN BOY SHOT DURING INSTRUCTION

NEW YORK, Sept. 9.—Pavel Nikolski, aged 14 years, and one of 800 Russian refugee children being mothered by the Red Cross at Fort Wadsworth, Staten Island, on their long journey from Siberia to Petrograd, was shot and killed early today while being instructed in the army's manual of arms by a friendly soldier on guard duty. This announcement was made at noon by Red Cross officials.

HEARST DENIES KNOWING ABOUT TIMBER 'STEAL'

Former Conservative Premier Flatly Contradicts Evidence of Marks.

SPOKE TO MINISTERS

Judge Riddell Points Out the Premier's Responsibility Went Further.

TORONTO, Sept. 9.—Fraudulent returns were sent to the Ontario Government by scales of the Fort Frances Lumber Company in 1909 and one camp of the Keweenaw Lumber Company of Kenora overbilled a reporting timber cut that should have brought about \$20,000 dues to the Government, according to evidence given before Justice Riddell and Latchford in the timber investigation held this afternoon by Samuel Price, chairman of the workmen's compensation board. Mr. Price stated that in 1909 he was appointed by Hon. Frank Cochrane, a commissioner to investigate supposed irregularities in connection with the sending in of false returns to the Government, and these were two things he had discovered.

Sir William Hearst, former premier of Ontario, was a witness today and flatly denied the charges of Samuel Marks, that Sir William and Hon. G. H. Ferguson, minister of mines, knew of irregularities and took action regarding them. The former premier declared that he received no information suggesting wrong-doing in connection with the disposal of timber limits from Marks or anybody else.

At the time mentioned in 1916 he was not the minister of lands and forests and was actually ill, said Sir William. He had had a conversation with Marks in reference to matters generally. He had heard complaints about mining claims being staked for timber, but could not say when or how often or from whom. And he discussed it with the minister, and understood that every precaution would be taken to protect the crown from wrong-doing or fraud. He thought the records would establish this was done.

Justice Riddell pointed out that when Sir William spoke to the responsible ministers that did not release him from responsibility. "You intend my Government,"

Nothing Said To Him. Sir William, in reply to further questions, said that when he was minister he thought nothing was said to him about irregularly staked mining claims. As to the manner in which Government scalars performed their duty, he said the administration was responsible for the administration of the department, and he was one in whom he had confidence. He could not recollect whether the deputy minister had recommended to him that the culprits be checked up.

Sir William admitted that he, Dr. Pyne and Mr. Duff were in Kenora in 1912 about the time that Charles H. Greer had sworn \$1,000 was wired there for Col. Machin and when timber deals were pending.

"I certainly know nothing of that," (the \$1,000). "No money was paid to my knowledge at Kenora or at any other place properly nor improperly, and I never had any suspicion."

"Did you or any person on your behalf, while you were minister, profit to the extent of a dollar in any transaction?" Sir William Hearst was asked. "Not a cent," he replied, "either through my department or any department of the Government."

"Did you collect any money or any toll from those who got concessions?" "Never a cent."

Prior to Sir William Hearst going on the witness stand, Samuel Marks was called upon to repeat his statement of yesterday on the stand, to the effect that he had informed Sir William Hearst in 1916, while the latter was a member of the Government, and had also informed Hon. G. Howard Ferguson, then minister of lands, forests and mines, that there was laxity on the part of Government officials in connection with timber concession and that timber was being reported from mining claims and that neither minister had taken action in the matter. He admitted today that as a result of his efforts legislation had been enacted under which timber did not go with mining claims. It developed that Marks had been disappointed because he and his brother had not received government appointments which they had expected under the Hearst regime.

DRURY SEES NO REASON TO CALL SPECIAL SESSION
Premier Refuses Request of Spence For Dominion Alliance.

TORONTO, Sept. 9.—Premier Drury said today that he could not see any reason for calling a special session of the Legislature as requested by the Ontario branch of the Dominion Alliance, through Rev. Ben Spence, the secretary, for the purpose of considering amendments to the Sandry bill to put a stop to the importation of liquor into the province of Ontario. The Sandry bill cannot be made effective immediately, the premier said, and there will be no special session of the Legislature.

FOSTER TO ATTEND EAST ELGIN MEETING
OTTAWA, Sept. 9.—Sir George Foster, minister of trade and commerce, leaves for Aylmer, Ont., tonight for the convention there tomorrow, at which a Government candidate is to be selected for East Elgin. Sydney MacDermid, the Farmer candidate in the constituency, has been before the public for some time, and there is a possibility that W. G. Charlton will again contest the seat in Liberal interests. An official Liberal nominee has, however, not been chosen.

masters of the collegiate staff, R. A. Brunt and P. M. Thompson, are to undertake the work. The bureau will serve Western Ontario.

TURN HAIR DARK
WITH SAGE TEAIf Mixed With Sulphur It
Darkens So Naturally
Nobody Can Tell.

The old-time mixture of Sage Tea and Sulphur for darkening grey, streaked and faded hair is grand-mother's recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients, called "Wych's Sage and Sulphur Compound." It is very popular because nobody can discover it has been applied. Simply moisten your comb or a hair brush with it and draw this through your hair, taking one small strand at a time; by morning the grey hair disappears, but what delights the ladies with Wych's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive.

Corn—Dec. 31 17½; May, 31 17½. Oats—Dec. 31 17½; May, 31 17½. Chicago, Sept. 10.—Wheat prices turned down today, influenced by a break in sterling exchange and reports of rain in Argentina. There was a break in the eastern buying which recently has been a feature. Selling, however, was not aggressive. Opening quotations, which varied from 1½c to 1½c lower, were followed by a moderate further decline and then something of a rally. Prospects of warmer weather had a bearish effect on corn. After opening 1½c to 1½c lower, the market continued to descend.

Oats reflected the weakness of other grains, falling 1½c to 1½c down and ending a further 1½c. (Chicago Grain Futures.) (Chicago, Easton, McCallum Company.)

MAJESTIC

FAIR WEEK
Continuous Performances

**SHIPWRECKED
CANNIBALS**

See the giant man-eaters of New
Guinea.

See the strange customs and man-
ners of a people fast vanishing
from the earth.

See the thrilling adventures these
two intrepid cameramen were
forced into by a shipwreck upon
a cannibal island.

A thousand thrills, a hair-raising ex-
citement—never knowing when
death would strike.

The Boards of Education of
Toronto, Ontario, Detroit,
New York.

have given this picture the highest
possible recommendation, as being
of invaluable instructive, educational
and interesting value, and say that
it is the duty of every man, woman
and child to see it.
