GUELPH, Ont.

THE PERFECT VACUUM CLEANER

THE PERFECT VACUUM CLEANER does just as efficient and thorough work as the most expensive Vacuum Cleaner made.

That's a pretty strong statement!

It is made in face of the fact that there are dozens of Vacuum Cleaners of all shapes, styles, classes, and prices.

But there is not one that can do better work than THE PERFECT.

It is a Canadian Vacuum Cleaner.

THE PERFECT Vacuum Cleaner is simplicity itself.

There is nothing about it to get out of order.

It will last for generations of constant, hard, practical use.

It is most easily operated, a small child can operate a hand power machine.

THE PERFECT cleans carpets, rugs, floor coverings of all kinds, upholstered furniture, bedding; inaccessible places, such as corners, cracks, crevices, beneath radiators, registers, behind doors, closets, trunks, chests, linen closets, desks, files; it removes dirt, dust, fuzz, and other like accumulations—all in one operation.

The dirt is sucked or drawn up and retained in a bag in the machine, to be disposed of later in the furnace or elsewhere.

The bag is easily removed and dirt dumped in a moment and the bag put back in its place in a few seconds.

When cleaning carpet which has not been taken up for some time, it is proper to raise it around the walls and apply the Vacuum Cleaner both sides of the carpet so as to make certain of removing all larva, eggs or moths which may lurk in the folds of the carpet.

Bear in mind; there is just one simple operation—the dirt, dust and accumulations are removed bodily.

They are not stirred up and suspended in the air to settle again in some other place as is the case with sweeping.

No subsequent dusting is necessary because of the cleaning.

You know when you sweep with a broom how necessary it is to raise all the windows, to cover you hair, piano and other articles.

SHOWING DUST BAG REMOVED FROM CLEANER

That is done to protect them from the flying dust from your sweeping.

You cannot cover up all the bric-a-brac, curtains, walls, ceiling and ledges. They gather great quantities of dust.

With the PERFECT all this is done away with. There is not a particle of flying dust.

Just estimate what this means to your home. How it saves the carpets, rugs, wall paper, woodwork and the curtains—not only in the care necessary to keep them clean, but in the articles themselves—saves so much wear and tear.

“Tuberculosis is a Floor Disease”

No one thing will contribute more towards sanitation of your home than the PERFECT Vacuum Cleaner.

It is one of the modern health adjuncts. Along with the dust and dirt are removed germs, microbes and bacteria; in cleaning carpets and rugs, the air is drawn in a large volume through the fabric—through every fibre of the article itself and after the dust is separated and retained in the bag that air passes through a cloth saturated with a disinfectant allowing the pure, fresh air to escape in the room. What a comfort, what a blessing to the inmates.

In this way it completely removes moths, vermin and insects; the eggs and larva are so minute as to be almost unseen.

Renovates the furnishings—makes them sweet, clean and pure.

Instead of a disease and germ brooding place, your furnishings will be healthful and clean—suitable for close, personal association:

THE PERFECT Vacuum Cleaner is new but dealers the country over are enquiring about it and we have yet to find a single instance where these dealers do not praise it most highly and report universally in favor of it.

The house-wives everywhere, have in the strongest terms, stated their liking for it; they say they would not be without it.

In many cases, in homes where the matter of cost was no object, house-wives have expressed their preference for the PERFECT over large and expensive machines.

You can now have your own home cleaned whenever you want it, as often as you want it, and as cheaply as you could possibly ask.

Nozzle heads for various and special purposes can be obtained at a trifling extra cost.

Not only is the PERFECT Vacuum Cleaner a household article but can be used in barns, sale and livery stables to groom horses, cattle, etc., by using a specially made suction curry comb, which loosens and removes all dandruff and dust: what a comfort to the dumb animal.

We also have an exhaust attachment to which the hose with proper nozzle can be attached and used as a blower to remove dirt otherwise inaccessible.

The PERFECT can be operated by Hand, Water or Electric Power.

The PERFECT Cleaner is guaranteed in every way. If your dealer does not happen to have the PERFECT—remember the name PERFECT—and have one shipped to you at once direct by us. Hand Power PERFECT Vacuum Cleaner \$25.00, with carpet nozzle and hose. Water Motor Power PERFECT Vacuum Cleaner \$35.00, with carpet nozzle, but without hose: 4-ply rubber hose however is furnished at 1¢ a foot F.O.B. Guelph or Hamilton. All net cash with order.

We do not say that if within two or three days time you do not like it your money will be returned. Use it a week—ten days—two weeks, then if you are dissatisfied for any reason, we will refund you your money without question upon return of machine in good order.

If you will use the PERFECT just a short time, you will never want to part with it.

Ask your dealer—but don't wait.

If you don't know the local PERFECT dealer or agent, write us at once, send the remittance and the PERFECT, complete ready to use, will be shipped immediately with our unqualified guarantee.
