## Interests Against Proposal Challenge Daylight Saving

### Looks As Though There Would Be a Fight Before Railway Commission Tomorrow Over Action of Railways

This morning the Mayor received the following telegram from the Secretary of the Ontario Operating Committee of Railways, dated Toronto:

Action of railways in advancing summer time tables is being challenged by interests unfavorable to change and hearing will be held before Railway Commission, Ottawa, Tuesday next. Canadian Railway War Board suggests that boards of trade and municipalities in favor of daylight saving place their views before Railway Commission either in person or by telegraph.

C. HUDSON,  
(Sgd.)  
Secretary Ontario-Operating Committee.

Sends Telegram in Reply.

In reply the Mayor is sending a telegram setting forth that not only did the City Council of St. Catharines pass a resolution some time ago asking that a daylight saving measure be passed by Parliament, but on failure of the proposal to carry at Ottawa last week, the Council met in special session and passed a resolution putting time forward one hour beginning yesterday morning.

A similar telegram from Mr. Hudson was received by Mr. P. B. Yates, as Secretary of the Board of Trade. He took the matter up this morning and will send a wire stating that the Board of Trade of this city wants the daylight saving plan to be in operation. It is believed also that heads of the factories in this city will wire Ottawa expressing the hope that the advanced time will be permitted to remain.

All Want It.

Over the weekend The Journal got in contact with several of the leading business men of this city and asked them what their opinion was on the subject. They all expressed strong views, and said they were pleased to see that the City Council took action on the matter. An hour in the summer means a good deal to them and to their help, and they hope the Government or the Railway Commission will not oblige the railways to return to the old time.

A motion for approval of the Calgary resolution was carried with only one dissenting vote.

The conditions of such visits should be regulated on the principle of reciprocity as follows:

  - (b) Such right of visit or temporary residence shall in each individual case be embodied in a passport or written permit issued by the country of domicile and subject to visit there by an officer appointed by and acting on behalf of the country to be visited, if such country so desires.
  - (c) Such right shall not extend to visit or temporary residence for labor purposes or to permanent settlement.
- Indians already permanently domiciled in the other British countries should be allowed to bring in their wives and minor children on condition:

## RETURNED MEN WELCOME HOME

### Large Numbers of Relatives, Friends and Citizens go to Station to Greet Men in Khaki From Overseas

Several hundred citizens were at the station last night at 6:03 to meet the members of the 31st Battery who were to come in on that train. Early in the morning word was received that they had arrived in Hamilton and would be in here in the evening. The news quickly spread and at the train time the bugle band of the G. W. V. along with a lot of citizens and relatives and friends gave the boys a rousing reception.

It was a great sight as the men in uniform stepped from the train to see relatives run from one coach to another to find their own particular friend. A pleasing feature of the reception was the presence of so many of the old boys of the Battery who came home before and were on hand yesterday to greet their old comrades.

Ald. Eagle and Mr. A. H. Wallace were on hand with their cars to take the boys to their homes. After the greetings the band headed the cars and formed a procession down the hill and the heroes were on the last lap of their journey home.

## EVENING ARRIVALS

At 7:50 there was another large crowd to greet the boys who had to stay over for their papers. Among those present were Mayor Elson, Ald. Riff, Rose, Dakers, Smith, Mr. Wallace and Mr. Sherwood.

That \$18,000 of last year's Welland patriotic fund subscriptions still remain unpaid, was the startling fact revealed at the meeting of the Patriotic Fund Society in the City Hall. CORNS ACT LIKE A PUSH BUTTON

Tells why they are so painful and how to lift them right out.

If you push an electric button you form a contact with a live wire which rings the bell. When your shoes press against your corns they push their sharp roots down upon a sensitive nerve and you get a shock of pain.

Instead of trimming your corns, which merely makes them grow, just step into any drug store and ask for a quarter of an ounce of one. This will cost very little but is sufficient to remove every hard or soft corn or callus from one's feet. A few drops applied directly upon a tender, aching corn stops the soreness instantly, and soon the corn shrivels up so it lifts right out, root and all, without pain. This drug is harmless and never inflames or even irritates the surrounding tissue or skin.

Those subject to sick headache, bilious attacks, indigestion or any form of stomach trouble are urged to get a quarter of a pound of phosphate from the inside bath. DAYLIGHT SAVING

It is not hard to understand the farming interests through the daylight saving bill. The daylight saving bill, though perhaps the most important measure since the war, is not being seriously injured by the business or life. In the earnings the dew is on the fields, the sun is lying thick and heavy on the men from getting out of bed, for he figures he is tired for time that is probably to be put in. In the afternoon, the quitting time would be earlier and men would be in the fields when the sun is fairly high. Those persons who have been born and raised on the farm will appreciate the significance of this situation. The urban communities, on the other hand, find it much better to have their offices, shops, etc., while the day is still young and they and their help can get pleasure, gardening, game, etc., or anything else desirable to city and town. It is so obvious that it is wondered at that they want to put through the daylight saving bill.

In deciding to pass a measure to have time advanced by the City Council of St. Catharines, it is naturally to be considered, of course, the benefit it naturally has to the city. The railways, telegraph lines, express companies, etc., will appreciate the daylight saving it would

**DRINK HOT WATER BEFORE BREAKFAST**

Says you really feel clean, sweet and fresh inside, and are seldom ill.

If you are accustomed to wake up with a coated tongue, foul breath or a dull, dizzy headache; or, if your meals sour and turn into gas and acids, you have a real surprise await you.

Tomorrow morning, immediately upon arising, drink a glass of hot water with a teaspoonful of limestone phosphate in it. This is intended to first neutralize and then wash out of your stomach, liver, kidneys and first fest of intestinal all the indigestible waste, poisons your bile and purifying the entire alimentary canal.

Those subject to sick headaches, backache, bilious attacks, constipation or any form of stomach trouble are urged to get a quarter pound of limestone phosphate from the drug store and begin enjoying this morning tonic bath. It is said that men and women who try this become an enthusiastic end keep it up daily. Just as hot water and soap cleanse, purify and freshen the skin so hot water and a teaspoonful of limestone phosphate act on the stomach, liver, kidneys and bowels. Limestone phosphate is an inexpensive, white powder and almost tasteless.

**DAYLIGHT SAVING**

It is not hard to understand why the farming interests throughout Canada object to the daylight saving scheme though perhaps their objections could be minimized somewhat without seriously injuring their own business or life. In the early morning the dew is on the fields, some times lying thick and heavy. It prevents men from getting out at work and hence the employer loses time and money, for he figures he is paying hired help for time that cannot be profitably be put in. In the afternoons, also, the quitting time would be an hour earlier and men would be leaving the fields when the sun would be still fairly high. Those persons in the city who have been born and brought up on the farm will appreciate the significance of this situation.

The urban communities, on the other hand, find it much better to have the early closing, for the business men can shut their offices, shops, factories, etc., while the day is still with them and they and their help can go out for pleasure, gardening, games, motor trips or anything else desired. The advantages to city and town people are so obvious that it is not to be wondered at that they want the legislation put through for daylight saving.

In deciding to pass a measure locally to have time advanced one hour the City Council of St. Catharines considered, of course, the people for whom it naturally has to legislate. When the railways, telegraph companies, express companies, etc., adopt the daylight saving it would cause

**SOCIALIST LEADER ENGAGES IN A VIOLENT ATTACK**

**Declares In Favor of Germany Entering Into Immediate Relations With Russia—Alleges Return of Imperialism**

(Special to The Journal.)

Winnipeg, March 29.—In National Assembly today Hugo Haase independent Socialist Leader, made a violent attack upon Gustave Noaks, Minister of Defence, for his methods in suppressing recent strikes, shooting of Spartacists and other alleged abuses of power, claiming that the defence minister's course constituted a return to imperialism. Herr Haase also attacked Chancellor Scheidemann for under estimating Sunday's demonstration in Berlin in favor of Gen. Ludendorff, declaring this showed that the present military leaders of the nation were standing solidly behind Ludendorff, supported by Conservatives and other parties of the right, as well as a portion of Bourgeoisie. Herr Haase, who was frequently interrupted during his attack declared in favor of entering into immediate relations with Russia saying that the Ukraina would soon be able to supply Germany with raw material and later with food.

undless confusion if there were not some step taken to make the official and the business time uniform. It is regarded as unfortunate, by The Journal, that the country and the city are at variance on the subject, but we can quite appreciate the reluctance of the farmer to move his clock ahead while at the same time fully recognizing the great advantage which the city dweller believes he gets by getting through with his day's work an hour earlier in the afternoons.

**DARING HOLD UP AT DETROIT BANK**

Bandits Held Fourteen Persons in Lavatory and Vault and Grab \$65,000

Detroit, Mich., March 29.—Holding fourteen persons, including several women patrons, into the lavatory and the vault of the west side branch of the Commonwealth State bank here, six bandits yesterday robbed the institution of \$60,000 in cash and unregistered Liberty bonds, which officials say may exceed \$65,000 in value. Fifty thousand dollars in currency had been removed from the branch to the main office only a few hours before the hold-up, according to J. M. McCaushey, president of the bank. The holdup was one of the most daring in recent years.

Two of the men stood guard outside the entrance to the bank, while four entered with the man at their head waving a sword off shotgun. Charles H. Mooney, cashier, and Paul Mallick, his assistant, were ordered from their cages and with several patrons forced to stand with upraised hands while the bank vault was being rifled. The two bank attaches were then ordered into the vault with four patrons, and the big steel door closed. Eight other persons, including several who came in after the bandits entered, including two women, each with a baby in her arms, were ordered, one by one, into the lavatory.

The bandits then gathered all the currency in sight and escaped in a big touring car.

It was several minutes after the bandits left before the lavatory and vault were opened and the imprisoned persons released.

In Australia and New Zealand horse racing is more popular than in any other part of the world. When "plotting out" a new town, it is not unusual for the race track to be laid out first, even before the sites of the houses and school have been decided upon.

**ACID IN STOMACH SOURS THE FOOD**

Says Excess of Hydrochloric Acid is Cause of Indigestion.

A well-known authority states that stomach trouble and indigestion are nearly always due to acidity—acid stomach—and not, as most folks believe, from a lack of digestive juices. He states that an excess of hydrochloric acid in the stomach retards digestion and starts food fermentation, then our meals sour like garbage in a can, forming acid fluids and gases which inflame the stomach like a hot balloon. We then get that heavy, lumpy feeling in the chest, we urinate sour food, belch gas, or have heartburn, flatulence, water-brash, or He tells us to lay aside all digestive aids and instead, get from any pharmacy four ounces of Jad Salts, and take a tablespoonful in a glass of water before breakfast while it is still sweetening, and, furthermore, to continue this for one week. While the result follows the first dose, it is important to neutralize the acidity, remove the gas-making mass, start the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices.

Jad Salts is inexpensive and is made from the acid of grapes and lemon juice, combined with lithia and sodium phosphate. This harmless salt is used by thousands of people for stomach trouble with excellent results.

**TORONTO WILL SAVE DAYLIGHT**

Mayor Issues Proclamation to Take Effect Sunday—Citizens Expected to Conform With Order

(Special to The Journal.)

Toronto, March 29.—This morning Mayor Church issued a proclamation officially placing the city on the daylight saving basis, at 8 a. m. Sunday. From that hour daylight saving time will be Toronto city time according to the proclamation. The city solicitor is not quite sure of the Mayor's powers in the matter, or as to legality of his action but public sentiment in this city is generally behind the daylight saving proposal and it is expected that the majority of citizens will put their clocks and watches forward accordingly.

**LENINE COQUETTING WITH PRES. WILSON**

Paris, March 29.—A rumor was current last night that the United States had received a note from Premier Lenin and War Minister Trotsky of the Russian Soviet Government asking recognition for that Government, says Marcel Hutin in The Echo de Paris today. M. Hutin adds that he "cannot say that President Wilson is disinclined to give the request favorable consideration."

The market this morning was very poorly attended and no changes in prices from last week were noticed. On the grounds, an innovation never before witnessed, was a man selling buttermilk by the quart at 6 cents per quart.

**REPATRIATION LEAGUE IS FORMED HERE**

Organization Carried on at Meeting of Citizens Yesterday.

Another meeting for the purpose of completing arrangements for the formation of a Repatriation League in this city was held yesterday afternoon in the Council Chamber. Capt. Malcolmson was asked to take the chair. As a result of the discussion the Mayor was elected as president of the League, Mr. Leo Cunningham, Secretary, Mr. A. H. Wallace, chairman of the reception committee, Mrs. C. G. McChie, head of the entertainment committee and the following as members of the social welfare committee: Mrs. Muleck (ex head), Mrs. Malcolmson, Mrs. Clambert, Mrs. McChie and Mrs. Gardner, Mr. C. McChie and Dr. Smith and Mr. J. A. Forester were named a committee to visit on the City Council and ask for a grant to pay a stenographer for three, or four months to assist in the Repatriation League work.

It was also decided to hold a large public meeting in the Opera House if it can be secured for Sunday evening April 6th and that one or two outside speakers be obtained.

**EUROPEAN FEARS ARE UNFOUNDED**

Territorial Rights Will Not Be Disturbed According to Correspondent—British Efforts to Bear Fruit.

(Special to The Journal.)

London, March 29.—(British wireless service.) Efforts which the British Delegation at the Peace Conference is making to procure for the world the clearest possible peace will bear fruit in the Peace Treaty shortly to be made public, the Paris correspondent of the Westminster Gazette declares. He states on the authority of "a highly placed personage" that the conference does not mean to violate territorial rights and that fear on this point felt by interested peoples in Europe are quite unfounded.

**VON PLESSER WANTS DUEL**

Challenges Count for Calling Former Emperor Cowardly.

Berlin, March 29.—General Von Plessler, for many years commander of the former imperial headquarters, challenged Count Hohenbroeck to a duel because in a pamphlet Hohenbroeck characterized the former emperor's conduct as cowardly, according to the Lokal Anzeiger.

The newspaper adds that Hohenbroeck declined to accept the challenge of General Von Plessler, who is an octogenarian.

**BUFFALO AND FORT ERIE GIVEN THE PREFERENCE**

(Special to The Journal.)

Toronto, Mar. 28.—Buffalo and Fort Erie were favored by the Associated boards of trade at their meeting today as the terminal points of the proposed memorial bridge across the Niagara river to commemorate the hundred years of peace between Canada and the United States. The proposal to put the bridge at Niagara Falls had many supporters but the Buffalo-Fort Erie men had the majority.

**BEFORE OR AFTER INFLUENZA**

By Dr. M. Cook

The cool fighter always wins and so there is no need to become panic-stricken. Avoid fear and crowds. Exercise in the fresh air and practise the three C's: a Clean Mouth, a Clean Skin and Clean Bowels. To carry off the poisons that accumulate within the body and to ward off an attack of the influenza bacillus, take a good liver regulator to move the bowels, such as Castor Oil or a pill made up of soap-apples, leaves of aloe and root of jalap, to be had at any drug store, and called Dr. Pierce's Pleasant Pellets.

The system should be built up by the use of a good iron tonic, such as "Fronde's" tablets, to be obtained at some drug stores, or that well known blood-maker and herbal tonic made from roots and barks of forest trees—sold everywhere as "Dr. Pierce's Golden Medical Discovery."

For a tonic that will freshen up the blood, clean the digestive tract and put new force and vim into you, I know of nothing better than Dr. Pierce's Golden Medical Discovery—and it contains no alcohol or narcotic so is perfectly safe to take.

WINSON, Ont.—Dr. Pierce's Golden Medical Discovery and his "Pleasant Pellets" are wonderful medicines for home use. I used to suffer with weak lungs, smothering spells and sick-headaches, but since I have taken the above mentioned medicines these conditions have left me.

Such medicines as Dr. Pierce's are worthy of praise and I am very glad to add my testimonial to the thousands of others.—Mrs. ELLEN HARDING, 11 Erie Street, West.

**BRITISH PEERS ARE DEPRIVED OF RANK FOUGHT WITH ENEMY**

Duke of Albany, Duke of Cumberland and Viscount Taaffe in Enemy Armies.

London, March 29.—The Duke of Albany and the Duke of Cumberland and Viscount Taaffe, who adhered to the enemy during the war, have been deprived of their British peerages by a king's order in Council.

The Duke of Albany, who is a cousin of King George, and the Duke of Cumberland, a cousin of the late King Edward, both served with the German forces for at least a part of the war. Each was a royal Duke of Great Britain. Each was British born. The Duke of Albany served the Kaiser under the title of Prince Charles Edward of Saxe-Coburg and Gotha and the Duke of Cumberland as Duke of Brunswick and Luneburg. Both Dukes had courtesy commands in the Rhinish army, the Duke of Albany being a full general.

Prior to the war the Duke of Albany took precedence over the Duke of Connaught, the Archbishop of Canterbury, and the Lord Chancellor. He held three and the Duke of Cumberland two British peerages, each with hereditary seats in the house of Lords.

Viscount Taaffe is a member of an ancient Irish family. He was living in Silesia at the outbreak of the war and fought with the Austrian army as a captain.

**NO PERMANENT ARMY STAFF FOR THE LEAGUE**

Paris, March, 29.—It is reported that the amendment to the League of Nations covenant urged by Leon Bourgeois, providing for a permanent military and naval staff for the league has been rejected by the League of Nations Commission.

Captain Chas. Bell of this city has been engaged in a literary capacity upon the staff of the Toronto Globe.

Our Dental operations are WELL performed, reaching the point of unsurpassed skill and quality, yet our prices are reasonable.

We could not doubt, lower our prices, but only by sacrificing the skill and quality necessary in Good Dentistry.

This we will not do—believing that the best Dental work is the only kind to offer our patients.

Among the men from overseas who have recently come home, none are more deserving of a hearty welcome than Gunner Bert Stewart, of Lundy's Lane, Niagara Falls, Ontario, who returned on Friday, "Cetic," arriving home on Friday. Mr. Stewart has lived all his life on "The Lanes," with the exception of a few weeks spent at St. Catharines previous to enlisting with the 7th Field Battery of that place, and transferred to the 4th Battery in France. He was one of the boys of the Thorold Township school, and had worked as a carpenter before the outbreak of the war. Gunner Stewart was only wounded slightly during his four years overseas, he having gone over with the first contingent, and looks as well as he did before the war.

CANADA AS A BEAR LAND

(1) Grizzly bear at Banff. (2) Polar bear in Banff Zoo. (3) Black bear cub, Alaska. CANADA grows bears as well as grains and fruits and other products of the soil. Bruin is to be found in every province, but it is in the mountain region of British Columbia that he flourishes. There one will find grizzlies and silver tips, browns and blacks and grays, and all the sub-varieties in between, including Teddy and Johnny cubs, among the children. All of these specimens may be seen in the interesting Zoological gardens at Banff, where they are lined up like soldiers on parade, in front of their cages—especially as dinner time nears! But it is most interesting and exciting too, to see bruin as he runs wild in the woods. One day while following a narrow mountain trail in the Rockies, I was surprised to see a few yards ahead, what seemed like a piece of the trail move to one side, single-handed, with a monster grizzly, who, when he stood upright, towered above his human foe. It was literally a fight to the death, with the grizzly the loser.—F. Y.

Wright's Home-Made Bread

Now that the restrictions are off regarding the use of substitutes, our Bread is back to the high Standard we set previous to the war. Our genuine Home-made Bread is scarcely touched by hand, having in our equipment the most sanitary system of handling it. This machine costs a lot of money, but we believe it is hygienic and more sanitary than by hand. Therefore it pays in these days when germs are so easily spread, the handling of food stuffs should be carefully done. We believe the public will appreciate our system of doing this.

Solomon McCord, of this town, put on a straw hat and sailed forth for Niagara Falls, N. Y. on Saturday to drown his sorrows in the flowing bowl. Police Constable Farrell arrested McCord, and this morning he paid \$10 for his spree. He admitted that he had taken a wee bit too much, and also stated that he was fifty years young.

 "That the Public Utilities Commission be notified to discontinue the operation of the Civic Gas Plant for the sale and distribution of gas on and after the 15th June, 1919, and that the Commission be requested to serve notice of such discontinuance upon the customers served by the said Gas Plant so that they may make other arrangements before that date."

### DEATH OF MRS. M. PEGG.

She passed away on Sunday evening at the Children's Shelter, 217 Queenston Street, Mrs. Martha H. Pegg, wife of R.M. James Pegg, in her 65th year. Besides her husband she leaves to mourn her death two sons: Addison A., of Toronto; J. Hamilton of Minneapolis and one daughter at home. The late Mrs. Pegg has been

matron in charge of the Children's Shelter for some time.  
 Corporal Robert Brown, who has been in active service overseas for the past sixteen months, arrived in St. Catharines on Sunday night where he spent an hour en route to his home in Thorold Township. He was given a hand of welcome by Alderman William Hill.

The funeral of the late Captain Jas. Delaney, was largely and respectfully attended this morning. Further particulars in to-morrow's Journal.

## THIS WILL MAKE MILLIONS HAPPY

Let folks step on you feet hereafter; wear shoes a size smaller if you like, for corns will never again send electric sparks of pain through you, according to this authority.  
 He says that a few drops of a drug called Freezone, applied directly upon a tender, aching corn, instantly relieves soreness, and soon the entire corn, root and all, lifts out without pain.  
 This drug is sticky but dries at once and is said to simply shrivel up the corn without inflaming or even irritating the surrounding tissue.  
 It is claimed that a quarter of an ounce obtained at any drug store will cost very little but is sufficient to remove every hard or soft corn or callus from one's feet. Cut this out, especially if you are a woman reader who wears high heels.

## BIG EATERS GET KIDNEY TROUBLE

**TAKE SALTS AT FIRST SIGN OF  
BLADDER IRRITATION OR  
BACKACHE**

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out; they weaken from over-work, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad get from your pharmacist about four ounces of Jasi Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jasi Salts is inexpensive; cannot injure, makes a delightful effervescent lithia water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.

The many friends of Rev. Mr. Honey who was operated upon at the General and Marine Hospital a few days ago will be pleased to hear his condition is very favorable.

**Come Mother, This Castor Oil**

**Is What You Need—Don't Cry!**

If you, mother, had to swallow the awful dose—Think back to your childhood days—Ugh! Give your children Cascarets instead. Cascarets taste like candy. Every child loves to take a Cascaret. Besides Cascarets act better on the little liver and bowels when the child is bilious, constipated, feverish and sick. Cascarets are delightful—harmless—cheap!

Each 10 cent box of Cascarets, the pleasant candy cathartic, contains directions and dosage for children aged one year old and upwards. When the little one's tongue turns white, breath feverish, stomach sour, there is nothing better to "work" the nasty bile, souring food and constipation poison from the child's system. Give Cascarets, then never worry.

## SICK--WEAK--MISERABLE THOUSANDS OF VICTIMS

Man feels bad all over...feels weak...feels nervous, irritable, gloomy...gets angry at little things that ordinarily would not be noticed! You feel tired mornings. Your sleep does not rest you. **NERVE EXHAUSTION.**  
 The Great American Disease. There are numberless people who do not call themselves sick, and yet they feel nervous, weak, languid and tired most of the time. They have no ambition or endurance to work—everything they attempt is an effort. Life to them appears as a long, gloomy future. Their appetite is poor and variable; they become irritable, cross and discouraged. They have pains and aches in various parts of the body and there is often indigestion, belching of gas, pains in the stomach present. Sleepless, wakeful and restless nights follow. They become drowsy after meals and the brain tires easily.

## OF INTEREST TO THE AILING MAN

28 years' experience and learning, 28 years doing one thing and doing it well. Experimenting days long past. I know! My success is due to system and direct methods. I go after the cause. No delays—no waiting—no wondering. No weary months and years dragging along waiting for expected results. I make a fee for treating the patient as long as treatment is necessary. If I make you a fee of \$10.00 or \$25.00 it means that I will treat you; case until you are dismissed. Consultation and examination free.
