MR. TALBOT DECLINES  
TO TALK POLITICS

Denies Report That He Came to Alberta To Try to Settle Difficulties in Legislature

Senator Peter Talbot passed through the city last night upon his way to Ottawa. He came to Calgary a few days ago and returned on the opening of the senate which takes place on April 6.

"I came west on account of the illness of my wife," Mr. Talbot said. "She has recovered somewhat. I also was anxious to come to Alberta because the foreman on my farm had been arrested and returning on the opening of the senate which takes place on April 6."

Senator Talbot would discuss no opinion on political conditions in the province. He admitted that he took a deep interest in watching it, as every Alberta man who is interested in it. He had no solution of the present difficulty which he would present to the public. As a matter of fact he would be content to make any statement further than that which has already been published.

HAWES BRINGS SUIT  
AGAINST CORNWALL

His Edmonton Lawyer Has Received Instructions to Issue a Writ Against Peace River Member

Edmonton, April 1.—The despatches from Toronto, published this morning to the effect that Alfred Hawes had instructed his solicitors to issue writs against W. R. Clarke, president of the Alberta and Great Waterways railway and J. K. Cornwall, said to be a member of the company, for an amount which would come close upon a quarter of a million dollars...

Mr. Henwood has received instructions to issue the writ and this will be issued at an early date in the supreme court in Edmonton.

Further than this, Mr. Henwood would vouchsafe no information as to the attitude of the other side in the case if that Hawes was forced to make this move and issue the writ after the story had been told to the commission to clear himself of any charge of an attempt to hold Cornwall up, and that his claim cannot possibly be substantiated.

O. M. Biggar who acted as Cornwall's solicitor when Hawes threatened to issue his writ a month ago and he stated this morning that Hawes had absolutely no ground for claim.

The Journal reporter who called upon him this morning, that the only possible reason that Mr. Cornwall would have wanted to settle with Hawes a month ago was to prevent Hawes from taking any action that might have stampered the legislature at a critical moment.

"This crisis over" said Mr. Biggar, "this morning, whatever documents Mr. Hawes has have been already submitted to him. He has turned his copies of those documents over to Mr. Walsh and he doubts whether Mr. Walsh will find it necessary to use very many of them. I think we rather welcome Mr. Hawes' action in leaving the writ now. It can do no harm."

GREATER CONTROL OF  
THE U. S. RAILWAYS

Important Legislation Introduced Into the United States Congress.

MANY FEATURES OF THE  
CANADIAN COMMISSION

And the Bill Will Be Hurried on Its Way Through the House.

Washington, April 1.—The administration railroad bill, stripped of many of its original features, but still providing for the creation of a commerce court and the regulation of railway agreements, consolidations, securities, rates and routes, all amendments to the interstate commerce law, was reported to the house today by the interstate commerce commission.

The bill was introduced by representative Townsend of Michigan, on January 18. The original measure was drafted by Attorney General Wickersham, who is also sponsor for several of the amendments made by the committee, but the measure contains amendments, liberal excerpts from the bill presented early in the session by Chairman Mann of the committee, whose views are not in accord with the administration, but who takes charge of the bill on the floor committee. Mr. Mann will ask the House Monday to make the bill privileged, failing which he will seek suspension of the rules to expedite consideration. The majority report says:

"The Hepburn law of 1878 vastly improved the law providing for regulatory control over railroad corporations engaged, in interstate or foreign commerce and much enlarged the scope of the authority conferred upon the interstate commission. The law shows that some important matters which should be the subject of government control are not now within the scope of authority heretofore conferred on the commission."

STRIKE WILL LAST  
LESS THAN A MONTH

That is the Opinion of T. L. Lewis, the Head of the Miners.

St. Louis, April 1.—"Don't be alarmed over the outcome of this affair; don't be afraid that we will not be able to sign up an agreement. It will all be over within a few days. Anybody this is good fishing weather," said T. L. Lewis, president of the United Mine Workers of America, in discussing the strike situation with 3000 Illinois miners today.

"It is not work we want," he said, "it is not work we want to do on our part, but we want a full and complete share of the results of our labor, and we will never be satisfied until we get it."

In an interview he said the miners would win in all their demands within thirty days, with the possible exception of Illinois and Pennsylvania, which he said more time might be necessary.

Several extensive operators already have made offers for a settlement, according to Mr. Lewis, but in each case he has refused to negotiate or permit them to reopen their mines, even though promising to pay the new wage scale from April 1.

"This question must be settled as a general proposition, and not through individual operators," he said.

Negotiations in the southwest, in Illinois and in Western Pennsylvania, will probably be prolonged for not only do some of the operators maintain that they cannot afford to pay the wage increase...

LAWYER HAD BAD  
MEMORY FOR FACTS

And Unfortunately he Burned Up Some Rather Important Correspondence About Public Matters

Ottawa, April 1.—Before public accounts committee today P. J. Clarry of Hastings, lawyer, whom Houghton Lennox in common, charged with having obtained a rate-off in connection with the settlement of damages for lands flooded through operations of the Front Valley canal system near Peterboro, was heard in his defence. Clarry admitted having retained retainers from parties to settle claims against the government, but this, he thought, was before he had been engaged by the government. Before leaving Hastings, he had burned some correspondence by the government in the presence of Houghton Lennox. He stated that he had acted concurrently for those and other claimants.

SCAVENGER DID  
GOOD BUSINESS

He Found \$25 in the Clean-up Process Which Came From The City Hall

After they had been carted away in a rubbish pile to be burned in connection with the "clean-up" festivities Thursday a \$25 bill and a \$5 bill were found by Jack Elliott, a city scavenger. This particular consignment of rubbish consisted mostly of old paper that had been thrown out of the city hall offices and was piled at the rear of the building. In shovelling it into the dump cart Cal. Hubbert, the teamster, did not notice the currency. It remained for Elliott to discern it as he was raking the papers into the fire. The bills were in excellent condition and intact. A \$20 bill is said to have been lost from the treasurer's office many months ago.

**Tone Is Always First**

Tone is the most important feature of a piano because, on the quality and permanency of tone, depends the value of the piano.

The distinguished singing tone of the **Wills Bros. Piano** is its greatest asset.

It is the only piano that combines the sweetness, mellowness and majesty—its possible because the new Scales Wills Bros. ### The Ticklemouse

—and his Sleepyland Adventures

By Roy Rutherford Bailey with Davy and Dorcy

#### On Gumdrop Mountain

The Ticklemouse was already in his furs when the twins woke last night at the tickling of his cool paw. In the dim light of the nursery he shook out two little fur suits like his own. The twins, and he, laughed to see that they looked more alike than ever. "We're triplets, now!" squeaked the Mouse. He led them to the window and fastened their new toboggan below his arm, ready for emergencies. They stepped in, the Ticklemouse grasping the levers. The motor's hum, rose high and shrill—they were up and away! Their captain spoke never a word as he headed the aeroplane into the wind and pointed her straight for the North Star. By and by Davy understood. "He's taking us to the North Pole, Dorcy!" he shouted, happily. The Mouse heard him, and winked over his shoulder toward a fat, oilskin bag marked "Polar Provisions". Davy opened it. "See, Dorcy!" and he drew out a handful of crackers and cheese. Dorcy nestled closer to the Ticklemouse's side, and fed him while she ate, and they sped on into the frozen North—the land of the midnight sun.

"You dear little thing!" said the Mouse in her ear. "I know plenty of little girls who'd never stop to think whether a Ticklemouse was hungry or not. But they never get ideas to the Pole, do they? Ah! There it is, now!"

Swinging in wide circles about a small, glittering mountain among thousands of starting screaming snowflakes, their airship settled gently to the icefloes at its base. The three fur-clad comrades stepped out on to the top and stared up at the mountain, and at the silent sentinel that capped its crest. The Mouse sniffed the frosty air in disappointment.

"It's the North Pole, sure, pop," he said as they started up the mountain, "but I felt sure somehow, that the Pole was made of green cheese, the same as the moon, but the wind's blowing down little and there's no hint of cheese!"

"Just then little Dorcy slipped and fell into the frosty mountain-side. When they picked her up, she was licking her

lips. "It's candy!" she cried. "Just taste it, Davy—I thought it was ice!" The Ticklemouse smiled. "What kind of candy?"

"Gumdrops. Why, the mountain isn't Right-O! We're now on Gumdrop Mountain—no wonder polar expeditions are popular with the Eskimo boys. We'll take some specimen gumdrops home for proofs." A deep, hollow groan from the mountain-top cut him short. Could it be the Pole was alive?

The Mouse shuddered, but the Mouse only smiled again.

"It was a bleak, frosty climb to the top; but at last they stood beside the Pole—a tall, round, striped affair that looked strangely familiar to the twins. The Mouse grew a little camp-habit from his belt and hacked off a few chips.

"More proofs," he said, shrilly. "Have a taste!"

The twins obeyed, and smiled their delight. The North Pole was just a little bit candy!

With the Stars and Stripes in his teeth, the Ticklemouse scrambled up

the pole and called them proudly to the peak. He paused a moment, then glanced somewhat just below the flag—something red and round. "This does as a substitute for leaving our instruments in a cache," he muttered.

"What was it?" asked Dorcy, as they descended slowly to their camp. "He frowned. "A mousetrap! Wish could march every last one of 'em here out of nasal vein!"

Another last, long look at the lonely Pole-tail and grim in the rosy light of the Aurora, and they rose into the air, headed for home, as they swooped downward, it seemed to their backward glances as if the Pole were rocking back and forth in silent laughter. They flew lower and more slowly than on their northward trip, so that the old little igloos of the Eskimos, the turking polar bears, the shining fields and yawning stretches of open water dotted with walrus heads and huge ironing teabags, were in sight for hours.

It was nearly dawn when they landed in their own familiar bedroom. It seemed strange to find everything just as they had left it, for they felt as if they had been gone a month.

The Ticklemouse felt carefully through the pockets of their fur suits after the twins popped into bed. He held indignantly as Dorcy, the little girl hung her head.

"The—the proofs? Oh, Mr. Ticklemouse, I was watching the polar bear and I got so excited I forgot and ate 'em all up!"

Davy glared at her. "Not all those gumdrops?"

"Yes, and—and the chips off the Pole!"

"Then nobody will believe we've been there at all," gasped Dorcy. "Oh, Mr. Ticklemouse, what shall we do?"

The Ticklemouse smiled and patted the twins goodnight. "Never mind," he said, "it's just as well, really. There's what are proofs, on a night like this? I don't see anybody else's tracks in the snow." He winked at them. "We'll have the fun!" and with the whip of the impatient fan he vanished into the silent night.

The whole proceedings passed off well and the arrangements could not have been better, although it was a pity that the evening concert could not have started punctually instead of being forty minutes late. The Nanton Choral Society carried off the bulk of the honors, with Claresholm second. It must be said that the Nanton Society seem to be extremely enthusiastic over the festival, and their successes were entirely deserved. As usual the judging was questioned by some, but except in one instance, that of the Bass solo, it seemed to be about correct. Claresholm lost the mixed quartette, the judge said, because they sang unaccompanied. One thing worthy of remark was the behavior of the audience, who listened intently throughout and there was no needless noise or moving about. The singers were on the platform. It might be better to have a couple of judges, but no doubt expense is an item here. Altogether the Southern Alberta Musical Festival has come to a successful conclusion.

A very apparent effort is being made to make light of the story of Alfred Hawes, who has made some effort to collect some money from some persons whose name appears in this investigation.

It is pretty nearly time that the commissioners, or some person else in the city, should let us know just who is in control at the city hall.

Why not get some now—this moment, and forever rid yourself of stomach trouble and indigestion? A diet of stomach gets the blues and grumbling.

EXPLANATION NOT SATISFACTORY.

The explanation of the mayor and the city clerk about the holding up of the amended general location sent in by the G. T. P. for the information of Calgary is hardly satisfactory to the public.

From that time until the plans were placed upon exhibition, real estate men came into the city clerk's office and looked over the plans, very minutely and carefully.

FRANCE HAS AN AIR FLEET NOT TO BE DESPISED AT ALL.

EDITORIAL NOTES.

When a lawyer takes the witness stand, the witness seems to have the privilege of insulting, as well as being insulted.

### BALL CLUB WILL HAVE VERY GOOD GROUNDS

If Not Exhibition Grounds Then Some Other Convenient Place

The Calgary professional baseball club executive committee held a meeting last evening at Hal. Middleton's office to consider the grounds proposition.

If the club does not get the old exhibition ground as last year, it will have another suitable ground. Indeed, arrangements have already been made. Considerable progress was made last evening and a proposition is on foot to lease for a number of years some property that will make splendid ball grounds. These grounds are right near the car line and close in. If satisfactory arrangements are made, and the executive sees no reason why such arrangements will not be made, these grounds will be fitted up in a manner that will make them as good as any in the circuit. Good bleachers and a comfortable grandstand will be built, and the diamond will be fixed up to date.

The executive is well pleased with the progress made by their manager, Bill Carney. Several letters were read, and the players he has signed, and those he intends signing up, will be such that the Calgary team will be the fastest and best team ever seen in this city.

A letter was received from Carney yesterday, in which the Calgary manager outlines his training proposition. His players will report in a day or two, and will commence training at Seattle in the course of a few days. The team will remain in Seattle until the middle of April, when they will leave for Vancouver to play a series of three games with the Vancouver Beavers. After that games will be played at Seattle, Tacoma, Great Falls and other towns en route to Calgary.

### Western Canada League Notes

Billy Hamilton has signed a new man. He is quite a youngster—only a week old, in fact, but if he is a chip off the old block he should be of big league calibre.

Manager Walters has just succeeded in landing two pitchers he has been after. Parrish, of Green Bay, Mich., and Sage, of Hibbing, Minn., are the men. Jacobson, a catcher from the Chipewyan Valley league, is also to be given a trial.

There is some talk of Medicine Hat team putting in a couple of weeks, training over in Washington state. If this arrangement is made the team will likely report at Walla Walla. Three good games can be played around there with a chance of a couple with the Spokane team of the Northwest league. "President" Conzina thinks well of the idea.

A star ball player who has been up in Alaska for a year or two wants an infield job with the Hat. He could sure be placed, as Billy Hamilton knows his capabilities, but unfortunately the expense of bringing him here would be too costly.

Manager Hamilton reports that he will have all the members of last year's team back on the old job with the exception of one or two. It looks as though pitcher Campbell will be one of the absentees. "Betty" wants \$15 a month for his services and intimates that unless he gets it he will play independent ball in the States. This will be a foolish move on Campbell's part, as such action would likely result in his name being put on the blacklist for life. He made many friends in the city last year and they cannot understand why he should

give the Medicine Hat club the throw down, especially in consideration of the "white treatment" he received through being carried along week after week on full pay when he was unable to play through sickness. However, Nelson and Dunn will be on the firing line and three others are being signed on whose recommendations are quite good. One of them had a record of only three losses in twenty games played last year, and of his seventeen wins he pitched five no-hit games. If Bill gets the man he is after for first base he will lead the league in batting this year.

### Southern League

A meeting of the Southern Alberta Baseball league was held in Staveland today, with the following delegates in attendance: C. R. Robinson and F. B. Nelson, Macleod; Frank Slough and C. F. Wray, Granum; John Ardelle, Claresholm; and W. W. Overang and C. R. Miller, Staveland.

J. B. Robertson, of Staveland, was re-elected president and C. R. Robinson of Macleod, secretary-treasurer for the season of 1910. A four team league, composed of Macleod, Granum, Claresholm and Staveland was formed, and a playing schedule drawn up. The season opens on the 17th of May, with Claresholm at Macleod, and Staveland at Granum on the 20th of May. C. R. Robinson of Macleod and William Donnelly of Nanton, were appointed umpires for the season. All the towns in the league are very enthusiastic and prospects for a good season are very bright.

### ABE ATTELL HAD A SHADE THE BETTER OF MORAN

But it Was Close Going—Third Battle That Ended With Both Going Blind

New York, April 1.—Abe Attell, the champion featherweight, had the better of Owen Moran of England tonight in a ten-round bout before the Fairmount A. C. The men have fought twice to a draw in California, and there has been bitter feeling between them. In the first round Moran poked a stiff right in Attell's left eye, but Attell came back strongly, and the round was his. The second also went to Attell, but Moran outpointed him in the third. Attell had the better of the fourth, fifth and sixth. In the fifth he drew blood from Moran.

Fighting was hot in the seventh and eighth and in the ninth Moran had his turn at drawing blood with a blow that gashed Attell over the eye. In the final round, Moran in a rush went against the ropes. As he bounded back he fell against Attell and both rolled over on the floor. Moran finished strong and was fighting hard at the close.

The License Commission.	

A meeting of the provincial license commissioners was held in the Armstrong block on Thursday evening, at which there were present, D. C. Byrne, Banff; J. MacKercher, Olds and Dr. Strong, Edmonton. The object of the meeting was to consider the application of D. McKinnon, for a liquor license at Acme. After receiving the report of the license inspector and the petition favoring the application, the commissioners decided to recommend that the license be granted.

### CLASH OF HEAVIES AT THE CITY HALL

One Gentleman Call the Other a Liar—One to Fight—Peace Restored.

Commissioner S. J. Clarke started to throw Health Officer George Macdonald out of his office yesterday, indignantly, and had not Aid. George E. Wood stepped between the belligerents some blood might have been spilt. The big commissioner made for the medical man after the latter had called him a liar and repeated the accusation to make it perfectly plain.

"Don't touch me," cried Dr. Macdonald, "or I'll put you through that window—up" day program. Clarke, who has the distinction of having seen a real bull fight, had not supposed it was a matter of conjecture in city hall circles. Commissioner Clarke is the largest man of the two, but he is somewhat inclined to embonpoint, while Dr. Macdonald is younger and more active. It was not so many years ago that he was considered an athlete, and he has kept in pretty good form ever since.

The cause of the trouble was a manure pile which the commissioners wanted removed in connection with the "clean-up" day program. Clarke complained to the mayor about it, and the latter called up Chief Sanitary Inspector Davis over the telephone and he reported to have spoken to him very severely about the matter. Davis went to Dr. Macdonald and complained, while Dr. Macdonald is younger and more active. It was not so many years ago that he was considered an athlete, and he has kept in pretty good form ever since.

Next Week at the Orpheum. Manager Sherman of the Orpheum theatre is leaving nothing undone to secure good acts for the Orpheum theatre. Next week he has secured the Regoras, the great novelty ring performers, coming direct from Seattle, where they have been playing to standing room only. Knott and Lawrence, the singing and dancing team have been before the public for a number of years. Joe Rolfe, the Swedish comedian, introducing wooden shoe dancing. Bert Ranson will sing New York's latest success, "The Star of Love is Burning." This was billed for this week, but owing to sickness of Mr. Ranson will be postponed. The orpheumscope will have its usual up-to-date pictures. Every Saturday afternoon at 2:00 and 8:30 special matinees for the school children, when they will be admitted for five cents.

The Royal Chef. If one-half the good things said of "The Royal Chef" by both critic and playgoer of other cities be true, and no doubt they are, Calgary is in for a theatrical treat on Monday and Tuesday at the Lyric theatre, one not only out of the ordinary, but which will doubtless prove a real treat in seeing and hearing. The music by Ben M. Jerome, it is asserted, is particularly charming, while the story and lyrics of Chas. S. Taylor and George Stoddard is vivacious and brilliant, overflowing with rich, intelligent humor and biting satire. The company is declared delightful, being composed of fine singers, great dancers and comedians, capable of amusing and exhilarating effort. Mr. Ebn has a fine singing voice and renders his numbers in a manner exhibiting cultivation. The feminine portion is composed of attractive young singers and dancers, a fact taken advantage of by capable and inventive stage management, to form handsome young creatures into bouquets, garlands and tableaux galore. The original Broilers, consisting of young people, who are the 500000 workers, whom the federation represents, are expected to abide by the decision of the committee on what is good or bad.

To Censor Pittsburgh Theatres. Pittsburgh, April 1.—The Allegheny County Federation of Catholic societies has appointed a standing committee to censor theatrical performances in the city. The 500000 workers, whom the federation represents, are expected to abide by the decision of the committee on what is good or bad.

A Successful Dance.

Over one hundred couples attended the annual dance of the Bartenders Union, held in Sherman's hall last night and it was one of the most successful events of the season. J. McPherson was Master of Ceremonies and was ably assisted by Charles Plymester.

The music which was supplied by Irwin's orchestra, was everything that could be desired and the event did not conclude until the early hours of the morning.

Some Perils of Democracy.

Mr. R. B. Bennett, M.L.A., will give an address on Sunday afternoon at three o'clock in the Y.M.C.A. building under the auspices of the Round Table Club (Mr. A. Price, leader), to men only on the above subject. This is the first of a series of monthly addresses arranged by this flourishing club, and should have been given last Sunday. It was postponed owing to the indisposition of Mr. Bennett. Music will be rendered by the orchestra, and Mr. Wilbur Hornor will sing a solo. Men are cordially invited to what will undoubtedly be a most profitable address.

MOTHER AND DAUGHTER SAVED BY GIN PILLS

The Famous Kidney Remedy, 44 Woolfey Ave., Toronto, March 21, 1909.
"White engaged as assistant at Sterling Mines, Gray's Sliding, Ont., I became familiar with the merits of Gin Pills.

On leaving Toronto, I left my wife (aged 51) and my daughter (aged 21) in poor health. The former had tried all sorts of remedies for her ailment—Middle Age or Change of Life. The joints in her hands were badly swollen and she suffered much pain.

It occurred to me that Gin Pills would help her and so advised her. This was a happy thought, for my wife wrote back to say she was trying Gin Pills.

Her next letter said: that the pills were doing her good, and the second, and I told her to keep on with them, and a few more would be sent you. When Gin Pills have proved their great value, get them at your dealer—50c a box, 5 for \$2.50.

NA-DRU-CO Reliability

When you buy clothes or groceries, meat or furniture, you can judge for yourself the quality of what you are getting.
When you buy Medicinal or Toilet Preparations you buy on faith. Tooth-paste may look good—have an agreeable flavor—whiten the teeth beautifully—yet eventually destroy them. A medicinal preparation may be pleasant to take or very much the opposite without giving you any clue as to whether it is a safe and effective remedy.

The Law's Protection

The laws of every Province in Canada, expressing the will of the people, protect you so far as doctors' prescriptions are concerned by demanding that these must be dispensed by physicians or duly qualified druggists.

NA-DRU-CO'S Protection

To protect you in the matter of household remedies and toilet articles we have brought out the NA-DRU-CO line of about 125 Medicinal and Toilet Preparations. Each of these preparations is compounded by our own expert chemists, and is guaranteed by one of the largest wholesale drug firms in the world, the National Drug and Chemical Co. of Canada, Limited.

The ingredients used in NA-DRU-CO preparations are the best and purest that we, the largest buyers of drugs in Canada, can procure. Nothing is left undone to make NA-DRU-CO preparations absolutely reliable.

The phenomenal demand for Na-Dru-Co Tooth Paste, for example, proves that people appreciate the scientifically compounded tooth paste which keeps the mouth and teeth in perfect condition.

Ask Your Physician or Druggist

To put this absolute reliability of the NA-DRU-CO line beyond doubt or question, we are prepared to furnish to your physician or druggist, on request, a complete list of the ingredients in any NA-DRU-CO preparation. Ask these men, who are men of standing in your community, and in whom you place implicit confidence, all about NA-DRU-CO remedies.

Moreover, if after trying any article bearing the NA-DRU-CO Trade Mark you are not entirely satisfied, return it to the druggist from whom you bought it and he will hand back your money.

If your druggist hasn't the particular NA-DRU-CO preparation you ask for in stock he can get it for you within two days from our nearest wholesale branch.

- The following is a partial list of the NA-DRU-CO preparations:

# A MIRACLE IN MANITOBA

## CAPTAIN BANISTER STRICKEN WHILE IN CAMP HAD TO BE CARRIED TO TRAIL HELPLESS IN BED FOR SIX WEEKS

### "Fruit-A-Tives" completely cured Him After Doctors Failed

Captain Banister's letter reads like a page from the History of Miracles. It is one of the strongest endorsements ever given to any medicine in the world.

Captain Nelson Banister of Oak Lake is known from one end of Manitoba to the other—in fact, throughout Western Canada. Naturally, the letter of such a prominent citizen and officer is bound to carry convincing weight with all thinking people.

"Fully appreciating the great benefits that I have derived from using your wonderful remedy, I feel it is my duty to write you a little history of my case and ask you to publish it for the good of some others that may be today suffering from the ailment that I am happy to say, 'Fruit-a-tives' completely cured me of."

About two years ago, while in Camp at Brandon with "A" Squadron, 13th Manitoba Dragoons, I was stricken with Sciatica and Neuritis of the muscles of the heart. I was so bad that I had to be carried to the train and sent home, and after being again carried from the train to my bed on arrival at Oak Lake, I was forced to stay there six weeks. Doctors and medicine in time enabled me to get on my feet, but I could do no work, and was almost as helpless as when confined to bed. A sample of "Fruit-a-tives" came to our house about that time and I tried them. Believe me—that from the first dose I experienced great relief and continued taking them until I was as well and strong as ever. This satisfactory change and restoration to health, I attributed wholly to "Fruit-a-tives," and I never miss a chance to recommend them to my friends and neighbors.

Previous to taking "Fruit-a-tives," my heart was excited, but since taking "Fruit-a-tives," the heart has become so strong that I was able to have a minor operation on one of my hands and took chloroform without any ill effects. Today the whole family uses "Fruit-a-tives," we purchase them from Mr. Graham, our local druggist, keep them in the house all the time, and just simply could not get along without them. They are the best medicine in the world.

Truly, the dose of the miracle have not passed away. With these small "Fruit-a-tives" tablets, what physicians with all their skill, cannot do, it does seem almost miraculous. Yes, nothing is more logical and scientific than the immediate action of "Fruit-a-tives."

Sciatica, Rheumatism and Neuritis, in any form, are caused by poisoned blood.

It is the duty of the bowels, kidneys and skin to rid the system of waste matter, or urea. If any of these organs are weak, the waste matter stays in the system, and is converted into acids.

It is this acid which poisons the blood and inflames the delicate nerves, membranes and muscles, causing

### The Pictures of Mayors

Editor Albertian,

Why pay \$175 for the mayors' pictures when they can be done for \$100?

In regards to an item appearing in the Albertian some time ago as to the painting of portraits of some fifteen Calgary mayors at \$175 each and spoken of as extravagance by Mr. Wm. George, president of the board of trade and Taxpayers' association, it seems quite reasonable when it is understood that a proposition has been made to the commissioners for \$100 each.

Under such circumstances, as rate-payer of the city I see no reason why we should pay the sum of \$2625 for the said portraits when they can be obtained for \$1500. It is not necessary that they should be done, but as the city hall has not yet been completed, why not have this matter considered in regard to the chairman of the finance committee, Ald. Mitchell's opinion, I may say that a great many would agree on the fact that they would be nice things to have, but if the said mayors were to pay for them, themselves, which man would get the most, the one hundred or the one hundred and seventy-five both guarantee to be satisfactory and if under a guarantee, I ask as a rate-payer, in regard to the chairman of the finance committee, Ald. Mitchell, why not have a man in our own city to do it for less and guarantee to be as good.

### Condemns Mayor and City Clerk

Editor Albertian:

It was with much interest and commendation that I read your remarks this morning on the conduct of the city clerk in regard to the official communication referred to by the G. T. P. officials about the location of the railway within the city limits.

The clerk's flimsy excuse that he did not think it of sufficient importance to "go it on the table of the council, or before the board of commissioners, is too thin a subterfuge to be accepted by any one, and clearly shows how unfit the clerk is for the important and responsible position which he holds, which offers such an excuse for not immediately and with the greatest possible dispatch, placing before the proper authorities, what he looked upon as most important information, and has been anxiously waited for and expected from day to day, for months past, and what makes the offence that much more heinous, is the fact that the import of it made it possible that any one receiving the information in advance of the general public was placed in a position of great advantage at the expense of the rest of the community.

Poorly and foolishly arbitrary and audacious as the city clerk is known to be, no one, for one moment, believes that he dares to withhold the receipt of such an important document from the commissioners or the council, on his own responsibility, and the fact which he omits to mention, is that the mayor acknowledges to have seen, and leaves a great deal to be explained on the part of the mayor.

And judging from the expressions of public opinion that are borne on the street today on every hand, the silence of the mayor in not communicating such an important piece of information at once to his fellow commissioners, and the council, leave him open to the most severe censure, and I do not think the simplest or most charitable member of the community would do the mayor the injustice of offering for him the excuse that he did not appreciate or apprehend how such an important piece of information should be dealt with, or the opportunity it would give interested parties to benefit by the knowledge. It is now known that this information was given in accordance with certain parties, and I have no hesitation in expressing the opinion which I believe is held by every unprejudiced person, that the action of the city clerk, whether from non-precision of the importance of the communication, which no one believes he is acting under advice or direction of some one, whom he thought in authority over him, or equally culpable and ought to be immediately discharged from his office, or the opportunity to resign. And as for the mayor, I cannot find words to characterize his conduct too severely. Irrespective of the motives

## THE CONSERVATIVE VETO AMENDMENT

Sir Robert Finlay Declares for a Strong And Efficient Upper House—Vote on April 13

London, April 1.—The official opposition amendment to Premier Asquith's resolutions on the veto power in the house of lords, was moved in the commons today by Sir Robert Finlay. It declares in favour of a strong and efficient second chamber, but expresses willingness to consider proposals for the reform of the upper house but it declines to proceed with the government proposals which would destroy the usefulness of the second chamber. Premier Asquith has a motion which provides that the committee stage on all three of the veto resolutions shall be concluded on the night of April 14.

## Profits in Western Canada.

London, April 1.—The Western Land company's profits last year were £486 sterling. The sales amounted to \$371 acres, for which \$233 sterling was obtained. The average price per acre for a recent deal of one hundred thousand acres was thirty-four shillings, while the cost per acre was 21 shillings 3 pence. The dividends were arranged to purchase a large coal field in the vicinity of the company's lands. New capital will be provided for.

## GIVE COOK CREDIT WHETHER REACHED POLE OR NOT

And Let the Controversy End, Says Lieut. Shackleton

New York, April 1.—A plea for a complete cessation of controversy as to whether or not Dr. Cook reached the North Pole was made tonight by Sir Ernest H. Shackleton in his address at the dinner of the New York Transit club given in his honor at the Hotel Manhattan. The British explorer gave the impression that he believed Dr. Cook should receive credit for his work in the north whether or not he reached the pole.

"It is hard work in the polar regions," said he, "and the traveling in the far north does not make for the same certainty with which one accepts an invitation to a dinner. I think we should give the controversy alone and not discuss further, but I do not speak with any authority in the matter."

## O'BRIEN FORMS NEW LEAGUE IN IRELAND

All For Ireland League to Reconcile Catholic and Protestant Fellow Countrymen

Cork, April 1.—The "All for Ireland League," the object of which, Wm. O'Brien said, was to enable the Irish people to choose between his program, which would reconcile the Catholic and Protestant fellow-countrymen, and John Redmond's, which set them against each other, was inaugurated today. Mr. O'Brien characterized the Nationalist party "as a mere puppet, a detestable, secret society, whose avowed purpose was to build up a system of Catholic Orangemen, more execrable than its Protestant forerunner."

Louis Duraven, Rosemore and Castleton sent letters approving the movement.

## Roosevelt in Scandinavia.

Christiania, April 1.—Ex-President Roosevelt will spend a day in Copenhagen on his way to Christiania, where he will arrive May 3. He will deliver the Nobel lecture on May 5, and will leave either the sixth or seventh for Stockholm. From there he will go to Berlin. King Haakon has invited Roosevelt to be his guest at the palace during his stay here. The university of Christiania will confer upon him the degree of doctor of laws.

## STOMACH & LIVER DISORDERS

LOSS OF APPETITE, CONSTIPATION, PAINS IN THE STOMACH, BILIOUSNESS, HEADACHE.

When your head is dull and heavy, your tongue furred, your bowels constive, and you rise in the morning tired, with no relish for breakfast and dreading your work; when you are racked with pains—in the head, chest, back, stomach—all over; when you are bilious and unable to look at food; when you feel "done up," have no appetite, no energy, no interest or ambition—your stomach and liver are out of order. As a result, the decayed products of undigested food are poisoning your blood and sapping your vitality.

It may be the weather, or overwork, errors in diet, or constitutional weakness; but whatever the cause, your stomach and liver need help, and need it sorely. Mother Seigel's Syrup, made from roots, barks and leaves, provides all the help they need. It will tone up your stomach, renew your appetite, make food nourish you, purify your blood, stimulate your liver to healthy activity, regulate your bowels, and give you new strength, new energy, new life.

## CAN ALWAYS BE CURED BY TAKING

Simon T. Clennon writes, January 24th, 1910, from Point Michaud, Richmond Co., N.S.: "When forty years of age, I began to experience pains over my stomach, first by just a slight distressed feeling, but later by almost continuous suffering, that made me dread to eat."

"Headache and Constipation followed, and, as is but natural, I became weak and pale. Most fortunately I had your valuable remedy brought to my notice. After taking two bottles of Mother Seigel's Syrup, I felt vastly better, and soon my cure was complete."

Mrs. E. Mandette, Pembroke, Ont., says, Jan. 6th, 1910: "I suffered for over six years with a kind of tired feeling after eating, palpitation of the heart and rheumatism, until my complete cure was attained by Mother Seigel's Syrup. I was subject to headache and sleeplessness. My face was pale. I had a swimming sensation in my head and, sometimes, black specks floated before my eyes. Wind in my stomach caused me distress. I began to take Seigel's Syrup, and three months' use of it was sufficient to cure me."

**AMENDED RULES  
IN FOOTBALL GAMES**  
A Clause That Will Prevent Controversies Similar to That of Last Year  
The new rules and constitution of the Alberta Football Association, are now such, that they govern all games played in the province, including the various leagues.  
This will avoid the Ross-Strang mix-up of last season. Last year there appeared to be an understanding that any player could play for a club in any league so long as the clubs were not in the same league, and that the rules did not apply, only to shield finals.  
This caused the controversy between Edmonton and Calgary Caledonians who both won out in their districts, while the above players helped both teams, and each claimed their services in the final.  
The amended rules to this section read as follows:  
"No players shall be transferred from league to league without first making application and securing consent of the registration and amateur standing committee of the provincial association."  
This will easily avoid any precedent, as a player in the future even if he complies with the residence rule, cannot play for another club outside the one he first signed up with without receiving the written transfer from the league. When this transfer has been given the player in question cannot go back to his old club again during the same season.

**THE BONEPILES ARE  
UPON THORNY GROUND**  
The Necessary Funds are Not Coming  
In Very Rapidly  
The Regina Baseball club is still heading upon thorny ground, and from the present outlook a team from that city is not yet certain as can be seen from the following report from the Regina Leader:  
"While the average Regina baseball fan is sitting back contentedly waiting for the opening of the Western Canada League season, a few citizens are working day and night in an effort to secure sufficient funds for the launching of the team.  
So far the efforts of these citizens have not been crowned with the degree of success expected, and it is possible that Regina may not have a team this season.  
President J. W. Smith, one of Regina's most prominent citizens, is a gentleman who invariably carries through successfully any project with which he is connected, but so far his efforts to secure a substantial interest in the baseball club have not met with anything like a cordial reception. The members of the Greater Regina Club were communicated with by the Leader last night, in regard to the serious state of affairs, and promised to be present. Saskatoon is ready and only too anxious to take over the Regina franchise.  
Will Regina stand for this?  
For obvious reasons the Regina baseball was a dismal financial failure last season. This season the organization is on a business basis, and the prospects are of the bright, but funds are needed to get things going. It is only a matter of a couple of thousand dollars but it is not fair to ask one or two men to go responsible for it all.  
Would it not be a fine thing for the Saskatchewan capital to be a missing link in the Western Canada Baseball league this year?"

**FOOTBALL NOTES.**  
The Y.M.C.A. football club will hold a practise this afternoon at Mewata park. All players are requested to turn out in uniform.  
The Hillhurst club will hold a practise on their grounds this afternoon. Senior and intermediate players are requested to be present.  
The Y.M.C.A. will enter a Junior football team in the Junior league. This will guarantee this league three clubs and possibly four. If Hillhurst Juniors join, so far T.M.C.A., Western Canadian College and St. Mary's are the certainties.  
Ab. Kent, the lacrosse-hockey player, who last summer played soccer for the Y.M.C.A., will again play for that team this year. Ab. will not, however, be able to put in much time at the game as he cannot spare the time to practise.  
The Okotoks football team, which last year played in the senior league, will again organize shortly. Okotoks will not join the league, but will be out with challenges to the best of them for exhibition games.  
The City Football club held a practise last evening at Mewata park. Besides the usual old hands, one or two new faces were noticed. The city executive expect to have a good team this summer, and have several new men whom they will be glad to have. The registration forms are given out.

**Going to Big Battle.**  
New York, April 1.—John J. Gleason, partner of "Tex" Rickard, in promoting the Jeffries-Johnson fight, declared today that while not a ticket had been sold for the contest, which is to take place at Emeryville, Calif., on July 4, demands for reservations had been received from many parts of the world.  
"We have even a request from China for 150 seats," said Gleason, at his hotel, "and Hugh McIntosh is to bring a big delegation from Australia. A man in Mexico, Ga., has asked for seats for himself and wife. We have made arrangements with all railroads, whereby those who will travel to see the contest may pay for their seats at the same time they get their railroad tickets, and their seat coupons will be attached to their railroad tickets. We will have no trouble in selling all the seats for \$5 to \$50 each."  
"Jeffries was in fine condition when I saw him last, as was Johnson, and the fight certainly will be a wonderful contest."  
Johnson is 32 Years Old.  
Chicago, April 1.—Jack Johnson, the champion pugilist, who appeared in the municipal court yesterday, to answer a charge of speeding his automobile on Michigan avenue, gave the court a surprise by demanding a jury trial. The court set the trial for April 29. After Johnson had disposed of his court engagements he went to his home, where he acted as host to a large party, which had assembled to celebrate the pugilist's 32nd birthday.

**The Character of a Piano Depends Upon the Character of Its Makers**  
Any person of average observation has noticed that the long-established, creditable, old houses in any line of manufacture are the ones who produce the best articles and deserve the highest confidence. Those who put the best materials and the best skill into their products are the ones who acquire that public recognition which means success. The makers of the now famous  
**Nordheimer Piano**  
were among the early pioneers of the piano business in this country. Established in 1840, they have ever held to those ideals of art which make for permanent reputation, rather than for the quick profits that come from the commercialization of piano-making and piano-selling. The result of this policy has been the steady-growing perfection of their instruments and the envied name for seventy years of being one of the best reputed and most reliable piano houses in Canada.  
Those who are contemplating purchasing an instrument—either a grand or player piano—should at once get particulars of the moderate terms asked by the Nordheimer Piano & Music Co. Limited, for their various grades and styles.

**Chandler vs "Cap" Kidd**  
Editor Albertian:  
Baseball dope must be at low ebb in Calgary, when your scribe Mr. Chandler has to lower himself (if such were possible) to write such an unscrupulous article to fill his column.  
Mr. Editor, personally I do not care one iota for Chandler's article, but if it were true, then the Edmonton managers are sadly to blame for allowing such a thing to continue. For during the last two seasons I have never missed a game, and three fourths of the games I watched and rooted for the grand stand at which a great many ladies were present. Now and I been in the habit of hurling insults at the visiting players, the Edmonton management would have informed me and that pretty quickly that my presence was undesirable. Mr. Editor, the fans of Edmonton know how to respect the ladies, we do not have to take any lessons in politeness to the fair sex from Calgary. I am much obliged to Mr. Chandler for wishing to save me from a severe beating, 'tis evident I have never avoided one, for I have always associated with the visiting players after the close of a game, and some of them are my warmest friends. Surely it was kind of Chandler to give his friend Vickerman, late of Calgary, such a nice write up. Mr. Editor, it was unnecessary, we fans know Vic well for being a sound, sensible sport. He certainly showed that by leaving Calgary for a real live sporting town like Edmonton. In conclusion Mr. Editor, would you scribble at his earliest convenience kindly supply me with a list of baseball phrases suitable for me to use during the much looked for coming season, so that I shall not offend the susceptible ears of delicate feelings of the Calgary players. Thanking you in anticipation for insertion.

Making a grand total of \$8,000.00 given away free in cash rebates. The coupons are redeemable at the expiration of twelve months, or as soon as the 220 lots are sold and paid for.

That the public may have every confidence and a positive guarantee that this plan of rebate is bona fide and made in good faith, we have deposited with the Bank of Toronto, at Calgary, Alberta, a sealed plan of the townsite. On each and every lot there is plainly marked the amount of the rebate, and it shows the total distribution of the sum of \$8,000.00 as per description given above. This plan does not favor a few buyers, its basis being an equitable one.

The sealed plan is to be opened and the rebates and bonuses paid by us at the Bank as soon as the 220 lots are sold and paid for.

The rebates and bonuses amounting to over \$15,000.00 apply to all the lots with odd numbers sold on monthly payments. The lots having even numbers do not call for rebates (only bonuses).

You select your lot from the plan of the townsite, secure a numbered coupon corresponding to the number of the lot purchased. This coupon is good for the amount of the rebate as marked on the back of the lot selected by you from the plan. The coupon is numbered the same as the lot, and calls for one of the rebate amounts as specified above.

## Extra Special!

We will give one grand premium of \$1,000.00 in gold to the person or persons purchasing one or more lots under this plan, who sends us the first estimate that is the nearest to what the population of Silver Lake City will be in 1912. All estimates to be handed in at the time you purchased your lot.

A cash premium or bonus of \$500.00 will also be paid by the promoters of this townsite to the person who will furnish the best plan for lighting, draining and supplying the town with water. This competition is open to all persons who purchase one or more lots under the above plan in the townsite known as Silver Lake City, Alberta.

A second cash premium or bonus of \$500.00 will be paid to the person owning one or more lots in the townsite, for the best suggestion or plan for beautifying the town, including costs of same, etc.; all plans submitted subject to our approval.

To the person purchasing one or more lots in Silver Lake City, and building thereon within two years the best dwelling or business block, we will pay a bonus of \$500.00 in gold.

To the person who purchases one or more lots in this townsite, and who is the first to build thereon a hotel that is up to the requirements and specifications according to law, we will pay, if built of cement, a 10 per cent. bonus on the cost of the building as soon as completed; we will also pay an additional bonus of \$500.00 in gold, payable as soon as these 220 lots are sold and paid for. Cost limit, \$10,000.

To the person who will build under the same conditions, a general store and stock the same, we will pay 10 per cent. on the cost of the building, and an additional \$500.00 in gold if built of cement or stones.

To the person who will build under the same conditions, a building of cement suitable for a blacksmith and general repair shop, size 20x40 feet, we will pay a bonus of 10 per cent. on the cost of the same, and an additional bonus of \$500.00 in gold.

To the first child born in Silver Lake City who is the offspring of parents who own one or more lots on which there is a dwelling in which they have lived for not less than one year, we will pay \$500.00 in gold. The said \$500.00 in gold to be deposited by us in the Bank of Toronto, Calgary, Alberta, to the credit of the child, to there remain on deposit until the child has reached the age of 21 years. The interest and compound interest in 21 years at 5 per cent. would amount to the large sum of \$———. Should the child fail to reach the age of 21 years, the amount so accruing becomes the property of the parents in 21 years, and should they fail to live, the total amount with interest accruing is to revert back to the city, and becomes the property of the same.

To the first couple who own one or more lots in Silver Lake City, and who have lived on their property for not less than one year, and who are married publicly in the said City of Silver Lake, we will pay a bonus of \$500.00 in gold.

Trees so planted are to be cottonwood, poplar, evergreen, or trees adapted to the climate, and are to be not less than 10 feet high when first set out or planted.

**GUESSING CONTEST**—Amounting to \$500.00 in Gold, divided in three premiums; first premium \$250.00, second premium \$150.00, and a third premium \$100.00, will be paid to the purchaser of one or more lots under this plan who correctly guesses the year in which the manager of this Company, F. Coulson McCool, was born. The first correct guess received by us is worth \$250.00, the second \$150.00 and third \$100.00, payable when the 220 lots are sold and paid for. To facilitate your guessing facilities, call on F. Coulson McCool in person.

**Sick Benefit Clause.** To the person owning one or more lots in Silver Lake City that are paid for, on which there is a dwelling in which the owner has lived for not less than one year, we will pay, in case of sickness that incapacitates the person for work, the sum of \$5.00 per week for a term of not more than three months. Should you die we pay \$200.00 funeral expenses. Time limit, two years from date.

This makes a total of over \$15,000.00 given away in bonuses and rebates; \$7,000.00 in premiums and \$8,000.00 in rebates to the purchasers of Silver Lake City lots at \$130 per lot, \$10.00 down and \$10.00 per month for 12 months, without interest, as per above. The lots are 25x117 feet. The townsite is situated in the richest section of Southern Alberta, on the Canadian Pacific Railroad, less than 50 miles from Calgary.

There are no building restrictions. If you will build with cement, brick or stone, we will allow you a rebate of 10 per cent. on the cost of your building, payable on completion of same, in gold. There is adjacent to this townsite an unlimited quantity of good building stone. This proposition applies to all kinds of buildings, shacks, barns, dwellings or business buildings; our preference is that you build with cement, for this reason—a cement building of any kind, properly constructed, is the cheapest and most durable; they are warm in winter, cool in the summer, saves insurances, are fire proof and will stand for hundreds of years. Bonus. Time limit, two years.

Send or call for a plan of the townsite, select your lot from the number of the same, remit us \$10.00 with the number of the lot selected; we will then send you a receipt for the \$10.00, our agreement, and a numbered rebate coupon corresponding with the number of the lot selected by you. You will thereafter pay us the sum of \$10.00 per month for 12 months. We will then furnish you with a deed of the lot, and redeem your rebate coupon. On the receipt of the initial payment from you, you are entitled to compete for one or all of the premiums as specified above, amounting to over \$15,000.00 in gold.

All valuable letters containing money must be registered, or you can remit by bank draft, post office money order or by express. We will not be responsible for money unless sent as above.

Full, particulars, plans, etc., may be had on application to

P.S.—Read this prospectus carefully over more often than once. The more you read it the better you will like it, and don't forget the fact, that it only costs an initial payment of \$10 to get in on the good thing that is conceded to be the poor man's opportunity to secure a home.

We ask you to join us and lend us your help to build the city.

We are also prepared to offer exceptional inducements, large cash bonuses, etc., to all kinds of manufacturing industries. There is a good opening in this townsite for a shirt factory, glove factory, cigar factory, etc. The bonuses paid for manufacturing industries will be estimated on the number of people employed. The above offers will increase the amount of rebates and bonuses given by us, away beyond \$16,000.00.

## Palpitation of the Heart

One of the first and most dangerous symptoms of heart disease is the irregular or violent palpitation of the heart. There is only a fluttering or a sinking feeling. There may be a most violent flushing of the skin, and a sense of the arteries throbbing. There may also be a feeling as though about to faint. In all such cases the act of the heart and Nerve Pills will restore it to its normal condition. In all such cases the act of the heart and Nerve Pills will restore it to its normal condition. ## Palpitation of the Heart.

One of the first danger signals that announces something wrong with the heart is the irregular or violent throbbing. Often there is only a fluttering sensation, or an "all gone" sinking feeling; or, again, there may be a most violent beating, with flushings of the skin, and visible pulsations of the arteries.

There may also be experienced a smothering sensation, gasping for breath, and feeling as though about to die.

In all such cases the action of Milburn's Heart and Nerve Pills in quieting the heart and restoring it to its normal beat, is beyond all question marvellous, as our thousands of testimonials will show.

Mrs. Martha Mason, Marbank, Ont., writes:—Just a few lines to let you know what Milburn's Heart and Nerve Pills have done for me. I have been troubled with weakness and palpitation of the heart, would have severe choking spells and could scarcely lie down at all. I tried many remedies but got none so answer my case like your pills did. I can recommend them highly to all with heart or nerve trouble.

Price, 50 cents per box, or 3 boxes for \$1.25 at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

## SOME WARM CRITICISM OF ASQUITH CABINET

It Had Some Resemblances to The Some Donkey

London, April 1.—The second day in the commons on Mr. Asquith's veto resolution was marked by a high standard of oratory.

F. E. Smith, Unionist member for Walton, opened with some biting humor at the expense of the cabinet's apparent dissonance on the question of the lords. The front of the government bench was like a stage donkey, he had less that moved but not all together. He told the government that they were ill advised to commit themselves to a policy which must mean two more elections this year.

J. A. Simon, liberal member for Walthamston replied to Mr. Smith. He said the lords had been proved wrong on all great public controversies which had been settled. Not in forty years and one single conservative measure had been hampered by the lords while the list of Liberal measures mutilated or rejected continually increased. He assured the government of the united force if the government pushed on vigorously with the resolutions.

Lord Hugh Cecil demanded for the limitation of the upper house to 400, nominated by the king on advice from his ministers, whereof 350 were to be chosen from the hereditary peerage.

Augustine Birrell, speaker in capital form. He claimed that veto resolu-

## AFRICA TO BE TRANSPORTED TO JUNGLE OF LOUISIANA

And Then the Big Game Hunters Can Stay at Home.

New Orleans, April 1.—No more trips to Africa for the chase of hippopotamus and eland, dikdik, wart hog and other animals, will be necessary ten years from now if the Louisiana legislature heeds the request of the state game commission. The commission, after a conference with Congressman Broussard decided today to ask for an appropriation for the importation of big African game to Louisiana for breeding purposes.

Representative Broussard, who has introduced a bill in congress, looking to the introduction of African animals into the United States for food purposes, declared today:

"I do not think this importation idea can be laughed down. It is merely a matter of education and when the people see the value of the hippopotamus, oodoo, dikdik, and a host of other varieties, I might mention, as meat producers, at a time when a supply of meat is an economic necessity, there will be no objections."

Investigate Fire Insurance

Albany, April 1.—As a result of recent disclosures in the fire insurance investigation the assembly of ways and means committee today reported in favor of an investigation of the fire insurance business on the same lines as that collected into the life insurance business in 1905.

"I am absolutely at the end of my career as an explorer," said he, "reports that I am to lead an expedition into the antarctic regions are not true, and I certainly do not contemplate another trip to the North Pole."

# CALGARY'S REAL ESTATE OPPORTUNITIES

## NOW IS THE TIME TO BUY FARM LANDS

### Medium Sized Tract Cheap Land

200 acres of land in the famous Heatherbrae District near the town of Camrose, which is fast becoming a railway center.

1760 acres of this land is within two miles of Chattan, a small town which has two elevators, churches, school, and a number of hardware and general stores. The land is generally level and free from potholes and sloughs; some small scrub and patches, but is mostly clear land. The soil is a rich black loam with clay subsoil. There is plenty of coal in the District which can be had at the mines at \$1.50 per ton. Will sell all or subdivide.

PRICE: \$13.50 PER ACRE; ONE-FIFTH CASH. Balance four equal annual payments at seven per cent. interest. Can be sold in quarter, half or whole sections.

This is a splendid farming proposition as the Heatherbrae country is justly celebrated for its abundant crop of oats and No. 1 Northern wheat. The district is well settled and good roads have been made throughout the country. Some of the most satisfied and prosperous farmers in the whole of Alberta are to be found in this district.

807 First St. E., Opposite Post Office, McDougall Block, Ground Floor, Phone 1760.

### Ranch 1760 Acres, 8 Miles from Parkland

NO. 181.—500 acres under cultivation; 500 acres can be irrigated—private owned irrigation ditch; 14 miles of fence; buildings worth \$1,500. Price \$20 per acre; \$10,000 cash, balance in 5 equal annual payments with interest at 7 per cent. All good land and is a steam plow proposition.

### 800 ACRES NEAR MARKET

NO. 427.—800 acres 5 miles from Langdon and 14 miles from Calgary; all fenced and cross fenced; 500 acres under cultivation; some small buildings, 3 good wells; rail-road siding and school on property; All good first class land; cheap at \$22.00 per acre; half cash, balance to be arranged.

### HIGHLY IMPROVED FARM

NO. 220.—Section, 24-26, W. 4th, 640 acres. This property is all fenced and cross fenced into half and quarter sections; 320 acres broken, 180 acres of which is ready for seeding in the spring and has been exceptionally well worked, and should produce the best possible crop. The crop in 1909 yielded about 100 bushels to the acre. As soon as the crop was removed, the ground was plowed and disced last fall, and is now ready for the seed. 140 acres is in stubble. The buildings consist of one large dwelling house, frame of 10 rooms, over 4,500 feet of lumber in the house, and could not be built now for less than \$2,500; the same is finished inside with ceiling and highly varnished. The owner allows the furniture to go with the residence to the purchaser. Besides the residence there is a good stable that will hold 5 teams of horses, corral, shelter for 100 head of cattle, one permanent granary, holding 6,000 bushels; 3 movable granaries each holding 1,500 bushels, and two good drilled wells in both of which there is exceptionally good water. Rural mail delivery and telephone close to this property. Property fenced; this farm will produce this season about \$9,000.00 worth of grain, estimating that the wheat yield will be 30 bushels, and the oat crop 80 bushels to the acre, which is a very conservative estimate, considering the crop that has been grown on this farm in former years. PRICE \$38.00 PER ACRE; \$10,000 cash, balance to be arranged to suit purchaser, with interest at 7 per cent.

### Wage-Workers' Symposium

PARAGRAPHIC RECORD RELATIVE TO THE TOPICS, PROCEEDINGS, EFFORTS AND LESSONS LEARNED BY THE WORKERS AS THEY PLAY THEIR PART IN THE WORLD'S GREATEST MOVEMENT.

#### Increasing Wage Scale

The Spokane council by a vote of nine ayes to a solitary no has passed an ordinance increasing the wage scale of laborers in the city employ from \$2.75 to \$3.00 a day.

#### Saskatoon Carpenters Wage

Delegate Edwards of Regina reports that Saskatoon Sask. carpenters have succeeded in getting their schedule raised for the coming season—nine hour day at 45 cents per hour.

#### May Labor Men Triumph

From the throat of every toiler in the land, from the heart of every enslaved soul in the world, rises the cry that the workers of Philadelphia may triumph in their cause.

#### An Eye for An Eye

A firm resolve on the part of every wage-worker that for every eye taken by the employers' brutal police there will be an eye in return, would probably have the desired effect in Philadelphia at this time.

#### Railway Brotherhoods Coming In

That the big railroad brotherhoods with their large memberships will soon abandon their policy of isolation and join the American Federation of Labor is the opinion of practically all the representatives of the railroad brotherhoods now in Washington, D. C.

#### Printers at Portland

The job-printers of Portland are now getting \$25.00 per week. The old scale was \$22.00, though quite a number of extra skilled craftsmen received a higher rate. There are about 125 in Portland. The Portland rate is now the same as paid job-printers in other coast cities.

#### The Tobacco Workers

The Tobacco Workers' International union has instituted a co-operatively owned factory in the city of Louisville for the purpose of competing with the tobacco trust. President McAndrews of the international, says that the union is meeting with much encouragement in the new enterprise, and it is expected to branch.

#### Wisdom From Regina

Regina Trades and Labor Council have been discussing the question of street railway franchises in the Saskatchewan capital, and a resolution was adopted placing on record as being opposed to granting of a franchise to any private corporation, and in favor of the city of Regina owning and operating their own street railway.

#### Labor Temple at Los Angeles

The Labor Temple of Los Angeles, Cal., has been formally dedicated. The ceremonies were attended by a large gathering of trade-unionists, including delegations from San Francisco, San Jose and other cities. The Labor Temple is a splendid seven-story structure built upon the most up-to-date lines; a credit alike to the city and to the cause which it was dedicated.

#### Rights of Workmen

Workmen kick up an awful fuss about their "rights," when so-called rights consist of smoking on cars or some other fool thing. However, his protests seem to pass unnoticed—no one seems to have any respect for the workman or his "rights." Who can blame them? Who can have any respect for a class which votes as the working class does.—Western Clarion.

#### Workmen's Compensation in Manitoba

The passing of the Workmen's Compensation bill in the Manitoba legislature during the week places on the statute books of the province a measure which is calculated to be of material benefit to workmen injured in the course of their employment, and that without placing anything more than an evenly divided burden upon the employers.—The Voice.

#### The Code of Honor

"Very little boys even are ashamed to tattle about each other. The grown man who stoops to such a proceeding"

might well go to the schoolboy and learn his code of honor. Until we decide that we can only judge men and women by what they are to us, utterly disregarding what any one else thinks or wants us to think about them, we will always be liable to the disturbances of spirit that petty gossip can bring about."

#### What Unions Are Up Against

This is what the international unions are up against. They are forbidden to picket in case of a strike, but the employer is free to employ scabs to break the strike. The worker under capitalist law, has no more standing than an animal. He can't fight successfully under such conditions. The only thing for him to do is to capture the political powers of the government, and destroy the system that makes the worker merely a pawn without standing before the law.—Amalgamate Journal.

#### Get into Political Action

Get into political action not to endorse candidates who are placed in nomination by another class, who recognize our class interests and will protect our interests while in office. Until such time when we progress on these lines we shall have our strike and be forced down, if not by reduction of wages and increase of hours, then by increased prices for the necessities of life and lesser employment through improved machinery. Get wise, think over this, and agitate it in your meetings.—Machinists Journal.

#### Fate of Russian Socialists

Nine Socialists of the Russian parliament are being secretly transferred from one prison to another in order that the people may be left in ignorance as to their whereabouts. Five others have been sent to Siberia. Nicholas Tschalkowsky and Katherine Brashkowsky have had their farcical trial. The latter was sentenced to Siberia for life, while the former must leave the country, and will probably go to England. These patriots who have probably been killed had not the American and European citizens interfered in their behalf.

#### Formation of Printers' Club

The formation of printers' clubs is becoming popular in some of the large cities of the jurisdiction. These bodies are instrumental in bringing the membership closer together and in exercising a better social influence that could be generated in no other way. The movement for the formation of a club composed of members of the Typographical union has been started in St. Paul, Minn., and Frank Cusick, chairman of the committee, 406 Court block, that city, requests information on the subject from established organizations of this character.—Typo Journal.

#### Legislation in Nova Scotia

A bill was introduced in the Nova Scotia legislature at the instance of organized labor in coal mines, and with the endorsement of the Trades and Labor Council of Halifax, providing for compulsory recognition of organized labor. The bill provides that after passing of the act corporations and all employers of labor shall recognize as such any united body of workmen or employees and every local union existing in the province having interests in common, whether the employees are affiliated with an organization of association outside the province of Nova Scotia or not.

#### Things as they are

"Let us devote ourselves to the task of lifting the veil from the voters' eyes, and showing them things as they are. To this end let us apply ourselves assiduously to the task of gathering material, information, facts and presenting such to wage-workers. Let us, if thought advisable, go as far as to employ, constantly, experienced and able diggers after facts, who shall devote all their spare time to searching and collecting concrete and specific evidences of the exploitation of the workers by the masters through appropriation of natural resources through industrial and political coercion, deception, chicanery and fraud."

(Continued from page 11.)

### The Philadelphia Strike

The strike of the street car men in the "City of Brotherly Love" has furnished material for discussion among the membership of organized labor throughout the country. From the very moment the street car men of Philadelphia protested against the machinations of the company to crush their union and wipe it out of existence, the administration of the city and state arrayed itself with the corporation to uphold and defend the brutal despotism of the traction magnates. The mayor of the city Philadelphia became the outspoken champion of corporate greed and declared that "there was nothing to arbitrate." The police force, the fire department and the city employees were converted into an army, equipped with the weapons of murder, to suppress the strikers at all hazards. The state constabulary was called in and these heartless Cossacks felt no scruples in even committing violence on women and children, as they galloped madly wherever people assembled on the streets. The officers of the traction company have dominated the administration of the city of Philadelphia, and every order from the street car magnates has been faithfully executed by the strikers who yield service obediently to the brutal tyranny of the strikers of Philadelphia. It is awakening the membership of organized labor throughout America to the fact that there is no "identity of interest" between exploiter and exploited, and that the man of economic power can use every force, masked by law, to subjugate the laboring people. —Miners' Magazine.

### A. F. of L. at Philadelphia

The Philadelphia revolt on the part of the A. F. of L. members corroborates the contention that wage-workers will do the right thing when they have to. When it comes to a show-down President Gompers could not dictate to the organization. The organization is, after all, the real machine. This is contrary to the view of many "industrialists," but it reaffirms the position taken by the majority of socialist unionists that the A. F. of L. is and should be made the economic instrument of the wage-workers of this continent. The present trend of events in hitherto isolated workers' organizations is further evidence in favor of such action. With the Western Federation of Miners and the railway brotherhoods lining up for affiliation, and the present practical move towards federation—departments—the future of the American Federation of Labor may write more of the history of labor's emancipation than the most enthusiastic have hitherto anticipated. In the world-wide movement of labor men are mighty small potatoes. Economic forces are compelling the workers to take the correct line of action. From the policy of "no politics" to the consideration of the formation of an independent political party, in four short years, is worthy of note and full of significance. The phenomenal increase in membership in what is termed the organized labor movement is a hopeful sign. Once the workers become interested in their own welfare; once they realize their slavish and helpless position under capitalism; and finally when they see in working class political action the key to a solution of the problem, the triumph of labor is not far distant. The next ten years will unfold the most eventful period in the entire struggle of the ancient world for freedom. It is a privilege to be fully alive these days. The culmination of evolution—a revolution in our social system—is to take place in our time. It will require a splendid exhibition of solidarity and much education to fit the workers for the responsibilities of administering the affairs of the new social order. Until the smoke and din of the struggle for supremacy has cleared away, few of us will realize the part we have been playing in the role of the greatest event in the world's history.

No use of granting your rights, if you have not the power to enforce them. Governments are but executive committees of the employing-owning class.

The workers waste a lot of money celebrating the liberties they do not possess.

Every parliament building under the flag of capitalism should be converted into a Labor Temple.

Billious Headache

COMES FROM LIVER DERANGEMENTS WHICH ARE THOROUGHLY OVERCOME BY DR. CHASE'S KIDNEY-LIVER PILLS

Headache is said to be the most useful sign in the system. It is a sort of alarm that warns you of something wrong with some organ of the body.

Most frequently the trouble is indigestion and torpid liver and the pain arises from the poisoned blood passing through the arteries of the brain and head.

There is no cure for bilious headache, torpid liver and indigestion that can be compared to Dr. Chase's Kidney and Liver Pills for prompt and certain results.

This has been proven by so many thousands of letters published from time to time that everybody should know it by this time.

Mr. Fred Hinz, Bradshaw, Perth Co., Ont., writes: "I don't like to have my name in the papers, but feel that I should like to suffer humanity I should tell of the good I obtained from Dr. Chase's Kidney and Liver Pills and Ointment."

For years I was troubled a great deal with sick headaches and was often so bad that I could not work. Being advised to try Dr. Chase's Kidney and Liver Pills I did so and can say they have brought about a complete cure.

From the first I found that one pill cured my headache quicker than every time. I was also a victim of itching piles and found Dr. Chase's Ointment the most satisfactory treatment I ever used.

I brought relief almost instantly. I was also a victim of itching piles and found Dr. Chase's Ointment the most satisfactory treatment I ever used.

"Some Perils of Democracy" the subject of a very interesting address yesterday afternoon by Mr. Bennett, K.C., M.L.A., at the Y.M.C.A. Mr. Bennett, in his address, pointed out some of the evils of democracy, and the perils which, in his opinion, this western country has defined Democracy. He pointed out that the man who is called with justice, freedom of speech, action and conscience, else it would be a class reformer must follow men. Democracy of government. It is the earliest dawn of civilization manifested in every form in the state and that even if there is no greater freedom than that all men are equal rights and liberties, but are not a liability in power. Men in the east in the same mould, walk of life men are for greater talents than others. An aristocracy in Democracy is an aristocracy in democracy is it an aristocracy.
