

### Scores Injured In Rioting

#### Fierce and Prolonged Encounters on Chicago Streets Yesterday.

#### Nervous Guard Opens Fire on Innocent Street Car Conductor.

#### Employers Request Aid of the State Troops but Mayor Is Opposed.

CHICAGO, May 3.—The first rifle shot fired during the teamsters' strike went whizzing through a crowded thoroughfare today.

The shot was fired by a guard on a wagon of the Express. The Express while he was passing through a crowd of strike sympathizers at State and Randolph streets. The driver of the wagon reined his horse and a guard within the wagon poked his head from the wagon and seeing a street car conductor stooping and taking a throw missile fire. No one was hit. The conductor was throwing a switch.

Rioting in the streets today was so prolonged and so fierce that a committee of members of the employers' association left for Springfield to request Governor Dineen to call the state troops. The mob that filled the streets in the business quarters today were larger and uglier in disposition than they have been in the past. There was fighting in all parts of the downtown quarter throughout the day, and a dozen times policemen were compelled to use their clubs and wagon guards with heavy chains swung them whenever they were threatened. There was a riot in the city when a mob boarded street cars and attacked people riding with them, giving as a reason later that they were strike breakers. W. J. Jamison and Edward Bowen, the latter a negro medical student, were two sufferers of this class. Up to 7 o'clock tonight a score of hospitals were taken to hospitals with all sorts of injuries.

#### Scores Injured in Fights

Besides these there was fully two score who were injured in the various fights of the day and whose names could not be learned. The total injured is estimated at 75.

Mayor Dunne declared the emergency but not asking for the presence of troops and Chief of Police O'Neill says he is confident he has the situation under control.

Despite the orders of Mayor Dunne, many wages of concern against whom strikes have been declared, were handled today by men armed with rifles and shot-guns.

The request of the employers made today that the police be allowed to ride on the wagons was refused by the chief of police.

#### Spontaneous Riots

Riotous scenes this afternoon were witnessed in the streets of Chicago from the North side to the University of Northern and Marquette hotels, the Marquette Fair and other structures. The cause was the delivery of coal from wagons at the Marquette hotel. The men on leaving the hotel under heavy guard were followed by excited thousands, shouting and yelling. The men were shot and their escort. Turning east into Madison avenue, the wagons were halted in front of McVickers theatre. F. E. Buckmaster, chief of police, who furnished the escort, was here reorganized, attacked and beaten, together with the greater part of his escort. The riot became so fierce that the guards were forced to seek refuge in the United States hotel. The riot finally, under redoubled police, moved to the east teamsters running Michigan avenue, where another running fight ensued for several blocks, through the streets. Rioting policemen, arriving in many patrol wagons as the result of the riot charged into the streets. The riot lasted for many minutes, during which time many persons who had no part in the fight were struck. With the help of the police the wagons in the end reached their stables, completing one of the most exciting trips made during the present strike.

#### More Strength to Drivers

Representatives of the striking teamsters here voted for a measure which promises more strength to the striking drivers. At a meeting of the joint council a fund of \$20,000 was raised by the treasurers of the different affiliated unions and an assessment voted upon, which, if lived up to, will mean an income to the strikers of \$20,000.

The weekly assessment is to be furnished by the individual drivers throughout the city who are not employed. Each man is to be assessed one dollar a week and the number of men employed is in the neighborhood of 30,000. No sympathy strike will be called by the coal teamsters' union.

Brutality in the strike today began with a fight on a street car at the corner of 26th street car at Stewart avenue. The victims are Edward Boswell, a colored medical student, and W. Jameson, also colored. The men who committed the assault escaped. Shooting occurred at Franklin and Madison streets, when a big caravan manned by colored drivers and guards were attacked by a big crowd. The negroes opened fire at the corner of Franklin and Fred. Smith, when seated on a paper-laden wagon, narrowly escaped death. A bullet passed through Williams' coat and another through Smith's hat. After the shooting the caravan proceeded on its stormy route. While driving on the street car at Franklin and Madison streets, Joseph Scott, a non-union colored teamster, was shot in the right shoulder. He was taken to a police station, where his injuries were dressed.

#### Increasing Police Force

Chief of Police O'Neill is steadily increasing his force, and he believes he will be able to cope with the situation. He says 14,000 policemen are on strike duty. Nearly 300 negro strike breakers refused to work when the police called on the non-union men to work for the company them to the barns of the employers' team company.

"We are not going to work as teamsters," said one of the negroes, "but we are in our hands," several of the negroes said. "We want to go back to St. Louis."

More than one hundred subpoenas were placed in the hands of United States deputy marshals to be served to violators of the federal court injunctions issued in connection with the strike. Counsel for the employers' association will use evidence obtained from the hearing of over wholesale indictments.

Each driver of the F. E. Scott Trans-

fer and Teaming Co. was accompanied by a rifle. Two policemen followed each wagon. "I am going to operate my wagons at any cost," said Mr. Scott. "If more rifles are required to protect my drivers I have plenty in store."

#### Drivers Carry Revolvers

Employees on wagons of the United States Express Co. today wore revolvers in holsters at their sides. Deputy sheriffs armed with rifles acted as escort to fourteen delivery wagons of the Siegel-Thompson wagon in one of the streets were Isaac and Samuel Forter, brothers, of Mendota, Ill., who had just left the Great Northern hotel drawing a crowd of negroes following a wagon and escort and were attacked. Many disinterested pedestrians had the same experience.

"Can the police control the situation and bring about the free resumption of business or ought troops to be demanded at once?"

The conservative members of the association and teaming company thought the question today.

Those who favored a demand for state troops declared that the longer a settlement of the strike was delayed the more influenced the public mind would become and that more serious outbreaks than had yet taken place might be expected.

C. Carlson, who has had charge of the auto trucks for Montgomery Ward & Co., where the strike started, was probably fatally injured in front of the teamsters' union headquarters today by a brick thrown from a window. He was picked up and taken to the hospital. He has concussion of the brain.

#### Rifleman Stands Off Crowd

A rifleman on a wagon owned by the Adams Express Company held off a crowd of one thousand persons at Jackson boulevard and Chicago river. As the wagon proceeded without a police guard along Jackson boulevard toward the river a crowd rapidly gathered. The appearance of a rifleman on the rear of the wagon meant a stand-off at a distance until the wagon reached the Jackson boulevard bridge, where a stop was necessary. An open fire was then quickly increased and finally a rush was made toward the wagon. Rifle at shoulder the man calmly stood up and commanded the mob to stop. This he did at once and later they disappeared, while the wagon disappeared across the bridge.

This is a prominent figure in the Chicago Produce commission men are facing a loss amounting to hundreds of thousands of dollars. No express goods were received by the produce merchants today. All the "green goods" and fruit they received came by freight, which is a serious loss in perishable foods because the fruit and vegetables deteriorate in transit.

#### Poughkeepsie, N. Y., May 3

The streets here from several brick yards between Dutchess Junction and Chelsea returned to work today and the plant resumed operations. In every case where the men returned to work the employers had granted an increase in wages amounting to twenty cents per day.

#### Mayor Dunne's Statement

Mayor Dunne said tonight: "We have by no means reached the limit of resources. I am confident that in every able-bodied citizen over the age of 18 years. If necessary I could call in the hundreds of employees of the waterworks extension works as they are employees of the city and sworn to protect its interests. This would give a large additional force where there are a large number of ex-militiamen in Chicago to whom I could appeal. In fact, I find I could get plenty of men of good character who would be willing to respond to a call to preserve peace. I do not want to humiliate our city in the eyes of the world by the use of force. We cannot preserve order in our streets. When we must cry for help, when we find ourselves unable to handle the situation, then the appeal to the state or the national government should be made. But for the honor of Chicago the city should not permit a resumption until its resources are exhausted."

#### JAPS WATCH THE FRENCH.

Ambassadors Keep Tab on Rojostevsky's Hiding Places.

Paris, May 3.—Notwithstanding denials, it now appears that the Japanese officials are carefully observing the movements of the vessels of Admiral Rojostevsky's squadron off the Indo-Chinese coast, and are seeking information from the French authorities concerning the nature and duration of their stay. The members of the legation have advised several enquiries to the foreign offices asking particularly whether the ships were inside French waters. The reply was that all the vessels of the Russian squadron have left the harbor.

These enquiries appear to indicate the purpose of the Japanese to submit further representations on lay grounds for subsequent action.

#### WILLIAM OSLER'S FAREWELL.

Five Hundred Physicians Do Honor to Departing Celebrity.

New York, May 3.—A guest from as far away as Egypt was among the more than 500 physicians who gathered last evening in the large banquet hall of the Waldorf-Astoria to do honor and bid farewell to Dr. William Osler, hitherto professor of medicine at the University of Edinburgh, and now about to depart for England to fill the regular professorship of medicine at Oxford.

Dr. S. Weir Mitchell, of Philadelphia, the venerable author and nerve specialist, presented to Dr. Osler a beautiful bound copy of James Long's translation of "De Senectute" (an old age) by Cicero, printed by Benjamin Franklin in 1744, the first translation of a classic issued from an American press. Dr. Osler's hobby is the collection of rare books. Dr. Osler's hosts were among the most noted physicians of America.

### Reports of Disturbances on Easter Monday Throughout Empire.

The bodies of thirty victims of Monday's shooting were removed at three o'clock this morning from the police station to the cemetery. Police and soldiers closed the streets around the station during the removal and arrested several citizens.

The committee of the social democratic party of Poland and Lithuania has issued a circular urging everybody to observe tomorrow as a day of general mourning because the police did not permit the bodies of the victims to be buried with proper ceremonies.

### Reports Coming in

St. Petersburg, May 3.—(7:07 p. m.)—Reports of slight disturbances in various places in European Russia during Easter Monday are now coming in. The greatest excitement of that part of the empire was at Mitopol, where a mob for several hours held high carnival and burned a portion of the town.

At Nizni Novgorod a regular battle occurred between the soldiers and the crowds on Millionaire street. The soldiers killed one person and wounded many.

### Krupp's Immense Army.

Large Orders for Armaments Add Six Thousand to Pay Rolls.

Essen, Prussia, May 3.—The Krupp's immense contracts, partly for the armament of German artillery and partly for Russian, Japanese and Turkish orders have required the company to increase the number of workmen from about 24,000 to more than 30,000. The insufficiency of dwellings for the men has compelled the management to erect temporary barracks for their accommodation.

### "NEWMARKET OF AMERICA."

Opening of Magnificent Race Course Today.

New York, May 3.—With such events as the 114th running of the rich Metropolitan handicap with \$10,000 added, and the opening of a magnificent new race course, tomorrow will be a memorable day in American racing. Fully 50,000 persons are expected to throng the course when the handicap candidates are called to the post, and the initial gathering of the Westchester racing association have notified the hotel management that if the imported help is not discharged by noon tomorrow a strike of all the members of the association in the hotel will be called.

### MORPHINE IN FLOUR.

Smuggled Drug Causes Many Deaths in China.

San Francisco, May 3.—The steamship "Cord" brings news of many deaths in the inland country of China. According to a story from Amoy, it has been the custom to smuggle morphine into that section, as the duty on the drug was very heavy. Recently a number of boxes were smuggled inside a shipment of flour. In some manner the boxes were broken and their contents mixed with the flour. Instead of the flour being consumed, it was sold to the up-country districts. Within a week people began to die in apparently the most mysterious manner. It is reported that fully fifty people died of morphine poisoning.

### JAMES J. HILL'S ADVICE.

"Give the Roads Fair Treatment" Veteran Tells Commission.

Washington, May 3.—James J. Hill, president of the Northern Pacific Railway, was heard on the rate question today before the Senate commission on interstate commerce. Mr. Hill said there was only one safe basis on which a low rate could be had and that was the low cost of producing the transportation. The value of the service is determined by the density of the traffic and that makes the rates vary with conditions.

### CRUDE PETROLEUM FOR THE COMPLEXION.

Chicago Tribune.

"If you want to see complexions, come to the oil wells," remarked the experienced operator in crude petroleum, smiling.

"Not women's complexions—no; they are not enough to fascinate the phenomenon, but it is true, nevertheless, that a man who works under the grimey conditions that are inevitable around the petroleum wells, hairy, bristled men who work day after day under the spouting oil of the active well, or around the pumps, that are black or green or amber fluid, as the case may be, from the depths.

### Passing of A Minister

Hon. James Sutherland Dies at His Residence in Woodstock.

Affecting Scene in Commons on Announcement by the Premier.

In Tears Sir Wilfrid Laurier Refers to Loss of Faithful Friend.

From Our Own Correspondent.

OTTAWA, May 3.—News of the death of Hon. J. Sutherland, although unexpected in view of the gloomy report from Woodstock during the past few days, came as a shock to members of both sides of the House. Few men in parliament were more generally esteemed than the late minister. At the opening of the House Sir Wilfrid Laurier consulted Mr. Borden, and then returned to his own seat. The galleries were crowded and members witnessed one of the most touching incidents that has ever happened within the chamber of the Commons. While routine business was being disposed of a telegram was put in Sir Wilfrid Laurier's hands. It was a personal message from Woodstock apprising him of the death of his colleague.

Up to this moment the only information which the House had received was through press bulletins posted by the telegraph companies. On the orders of the day being called, Sir Wilfrid arose with the yellow slip of paper in his hand. For over a minute he stood in his place unable to speak or utter a word, tearing down his cheeks. The House and galleries looked on sympathetically and members witnessed one of the most touching incidents that has ever happened within the chamber of the Commons. While routine business was being disposed of a telegram was put in Sir Wilfrid Laurier's hands. It was a personal message from Woodstock apprising him of the death of his colleague.

### ARMY OF 400,000 LED BY 'PHONE.

Every Stroke Correctly Timed by Field Marshal Oyama.

Electrical Review.

Among many things which the Japanese have done during the war which they are now waging and which have attracted the attention of the world, their use of the telephone is one. As each advance was made, or a retreat was dug connections were made with headquarters by telephone. Thus, not only was all important information transmitted immediately to the commander, but fighting was directed from the latter point by the same means. The commander was able to direct the movements of his troops and to receive reports of the progress of the fighting. The telephone in this service has taken the place of the courier and does the work better and more quickly. By its ability to communicate quickly with many and widely scattered points, it has been of great value in the Japanese operations. It has enabled one commander to be able to control a larger force than was possible under the old system. Count Okuma, the Japanese minister of war, has directed the operations of 400,000 men and have timed his strokes so exactly that he has been forced to depend upon orders carried by horse. How could he have controlled a fighting line a hundred miles long? Without the telephone the operations would have been directed by a number of messengers acting according to a certain plan, but depending largely upon his own judgment for what to do and when to do it. That the fight would have been carried on as bravely none can doubt, but the telephone co-ordinated the actions of each division and reduced the armies to one vast machine. Nothing was left to chance; every stroke was correctly timed and the result was a complete victory. The Japanese have followed by the engineering corps, and the result of every skirmish and the taking of every village were known within a short time at headquarters.

### BRUTALLY MURDERED.

St. Thomas, D. W. I., May 3.—The United States auxiliary gunboat Peoria arrived here today from the island of Culebra and reported that the crew of the armored cruiser West Virginia was in Target Bay, Culebra, yesterday evening, a coal steamer named Lee attacked the cruiser and killed a crew member with a knife, cutting his left arm, stabbing him near the heart and slaying his first mate. The steamer was captured by the Peoria and the crew was taken to the Peoria. The men had no previous trouble.

### Juncture Not Been Effected

Russian Admiralty's Opinion is That Two Fleets Have Not Met.

St. Petersburg, May 3.—The admiralty here professes ignorance as to whether Admiral Nebogatov and Admiral Rojostevsky have joined forces, but the impression prevails in naval circles that the junction has not been effected. The admiralty officials vigorously deny any intention of sending the protected cruiser Askold and the torpedo boat destroyer Grozovoy to the island of Shangai, to join Admiral Rojostevsky, and having recently been shown against Great Britain and suffering from temporary insanity. The men had no previous trouble.

### Charge Is Unfounded

Amoy, China, May 3.—The provincial and military officials here, after an examination of this vicinity under orders from Peking, have found nothing to sustain the charge of the Russian consul at Foochow that the Japanese have a wireless station in the neighborhood to communicate with Formosa. The Japanese claim that the Russian charge was made to secure privileges here for the vessels of Admiral Rojostevsky's squadron.

### WANAMAKER GIVES TO Y. M. C. A.

Paris, May 3.—Announcement was made at the dinner terminating the Y. M. C. A. congress that John Wanamaker of Philadelphia has given \$100,000 for Y. M. C. A. buildings at Peking, Seoul and Kioto. This supplements Mr. Wanamaker's former gifts for buildings at Calcutta and Madras.

### CASHIER GOLL ARRESTED.

Milwaukee Bank Official Located in Chicago.

Chicago, May 3.—Henry G. Goll, absconding cashier of the First National Bank of Milwaukee, was arrested at the Dakota hotel here today. He had been on the run for four days and was registered under the name of A. C. Smith. Goll was arrested by detectives who had tracked him from Milwaukee. The missing cashier made no pretenses when arrested. He said he was willing to go back to Milwaukee. He refused to be interviewed and was taken to Milwaukee late today.

### MEXICO HAS GOLD STANDARD.

Mexico City, May 3.—The gold standard went into operation without the slightest jar or disturbance in business circles. The finance department had by a series of new regulations and laws smoothed the way for the adoption of the gold standard. The peso is worth 20 cents in gold. The final completion of monetary reform is hailed with general satisfaction.

### Silas A. Lottridge a New Jersey Enthusiast

Who hunts birds with the camera, fitted up the summer home with a box with a microphone from which a line ran to a telephone receiver in the house. With this arrangement Mr. Lottridge heard much of a bluebird family's chat for several weeks. He has written of his observations of these little neighbors and their bluebird acquaintances for the May St. Nicholas.

### MAJORITY STOOD FOR ACQUITTAL AND A FOURTH TRIAL IS UNLIKELY.

New York, May 4.—Having failed to reach a verdict and declaring that they were hopelessly disagreed, the jury in the Nan Patterson case was formally discharged at 2:30 this morning.

The jury was given the case at one o'clock yesterday and after deliberating twelve hours came into court at 1:30 this morning and informed Recorder Goff that they had failed to reach a verdict. The jury declined the recorder's advice on any point of law regarding which they were not in doubt and were sent back to continue their deliberations.

At 2:20 o'clock the jury again entered the court room where the recorder and other court officials were in waiting, and the foreman announced that they had failed to agree on the verdict. He added that their disagreement concerned the twelve men composing the jury that has considered this celebrated case.

It is understood that a majority of the jury was for acquittal, but in what proportion is not known. Miss Patterson collapsed on the jury's announcement and fainted dead away. She was assisted from the court by one of her counsel and several court attendants and revived in the anteroom.

On the second return of the jury, Recorder Goff made a personal appeal to the jury to reach a verdict. The foreman entered the jury box and polled the jurors in open court but they were not able to agree. The recorder then asked them again if there was not some point in law or something else against which they might be able to reach a verdict, but the jurors remained steadfast and finally declared their verdict.

Verdict a Disagreement.

Recorder Goff before dismissing the jurors cautioned them not to tell how they stood.

Future procedure in the case is uncertain. It has been intimated by the district attorney's office that the people probably would not attempt another trial. Should this be the case Miss Patterson would be released either in nominal bail or under her own recognizances and the indictment eventually be squashed.

(From Tuesday's Daily.)  
Agreeably Unique—As will be seen by referring to the weather report for the past month, less rain fell during April, 1905, than has been the case for nearly thirty years. In April, 1877, the rainfall was 0.14 inch and the average for thirty-one years is 1.59 inches, whereas last month the total was 0.21 inches.

Next Convention Here—At the meeting of the Teachers' Institute held at Revelstoke last week, it was decided to hold the next convention at Victoria. A resolution favoring the holding of the midwinter entrance examinations simultaneously at the various centres was carried, and it was decided to abolish the midwinter entrance examinations.

Imperial Limited—The double daily service on the C. P. R. will be inaugurated June 4. The Imperial Limited will leave Vancouver at 5:15 p. m., and the Atlantic Express will leave Vancouver at 8 a. m., and the Pacific Express will arrive at 7:30 a. m. The schedule of arrivals and departures at Montreal has not yet been received.

Sneak Thieves Unrewarded—Some time after 10 o'clock Saturday night sneak thieves entered the premises of Smith & Champion, furniture manufacturers, Douglas street, and through the till. There being nothing therein save a few postage stamps, they were not detected when they took big chances and became burglars. Entrance was gained by forcing a back window.

Close Ladysmith Office—Announcement is made that the government of Ladysmith is to be closed on Friday next, the business in future to be carried on by the Naaimo office. George Thomson, the prominent government official, is to be transferred to Victoria and enter the assessor's office here as assistant to Assessor Worsfold. The schedule of arrivals and departures at Montreal has not yet been received.

Wholesale Grocers' Association—At the annual meeting of the Wholesale Grocers' Association of British Columbia, held in Vancouver on Saturday last, officers for the ensuing year were named as follows: President, Percy Wollaston, Victoria; vice-president, W. J. McMillan, Vancouver; treasurer, F. J. Rickaby, Victoria; secretary, F. Elworthy, Victoria; assistant secretary, J. N. Ellis, Vancouver. Victoria was represented at the convention by Messrs. Wollaston, Todd, Elworthy and Rickaby.

Delicious Innocence—There is an element of delicious innocence in this editorial paragraph from the Vancouver World: "Three men were arrested in New York yesterday for cutting up rather roughly. They gave what undoubtedly will prove fictitious names, and the names of the men were given as Gallagher, M. P., from Ottawa. Whom ever he may have been, he probably intended this for a smart trick on 'Big Bill' Gallaher, one of British Columbia's representatives at Ottawa."

Fires of the Month—The total fire loss in Victoria during the month just ended is given by Chief Watson as just ten dollars short of one hundred. There were during April no less than two of these, and one, on the first, for a fire outside the corporation limits, and the other, on the second, at Taylor mill on the 3th, is charged with \$5 loss; that is also put down as the damage at Rev. J. P. Vickers on the 13th; \$10 is stated to cover the loss at Ald. Dr. Hall's on the 12th; and \$70 is the damage bill in consequence of the burning of a cow shed on Beacon street Friday.

Marched to Goldstream—On Sunday morning about fifty members of No. 1 company, Fifth Regiment, took part in the route march to Goldstream, the start being made from the Drill hall early in the forenoon. The entire party of about twelve had left about an hour before the main body, and when the latter, accompanied by the bugle band, arrived at Craigflower bridge, they were attacked and forced to retire for a short distance. Some skirmishing was indulged in until the Six-Mile House was reached, when a number of the attacking party were surprised and captured. Lunch was served at Langford Place, and the afternoon was spent at Goldstream, games and different sports being indulged in. The evening train was taken back to the city.

Released the Dogs—Some time during the dark hours of Sunday night some person or persons were arrested, bent, taken to the city pound premises on Chambers street and broken down the barricade. A large number of dogs were imprisoned, releasing no fewer than twenty of the animals. A gentleman who lives just across the street says some person going towards the pound at dusk, but could not establish his identity. The pound keeper, C. C. Green, is very much annoyed at the affair and

pecting the operation of the water-cars, which have proved a great success in the waterfront city. He obtained a photograph of the cars which shows that a long "arm" extends on either side which can be raised or lowered at will to accommodate traffic, and by the use of these "arms" the entire length of the street can be satisfactorily sprinkled. It is altogether probable that such a system will be installed in Victoria at an early date.

Garnegie Library—Building Inspector Northcott will be at once called for tenders for the construction of a brick boundary and retaining wall surrounding the north and east boundaries of the Carnegie library building. It is estimated that the cost of the work will be in the neighborhood of \$700. Though the building is now in a completed state, as far as the contractor, George Snider, is concerned, it has not yet been taken over by the corporation and a considerable time will elapse before any move is made in the direction of providing interior equipment and the necessary books. The exterior cleaning-up process will in itself occupy a few weeks, as much debris has to be removed. The contractor's effort will be made to have the building fully equipped and open to the public by the latter part of October.

Re Trap Rights—Messrs. Langley & Martin "reclaim" the pleasure from the department of justice at Ottawa to represent the federal government on the Rock Bay trap site, which is to be a trap site of the province. The case is a matter of some importance, as B. J. Short, of Vancouver, is to erect a trap at Clover Point, off the Dallas road. Mr. Short has a Dominion licence, but was not allowed to trap on the ground that the site applied for was outside the territory decided upon as open for that purpose. The case is being decided by a judge of the Supreme court. Attorney General Wilson is understood to be not confined to the foreshore above low water mark alone, but that the rights beyond that along the shore line.

An Excellent Suggestion—The Colonist in receipt of an excellent suggestion from a resident of the city who takes a special interest in all efforts made in order to settle the question of right in the Victoria district, and the Canadian-Australian liner Manuka is due in a few days from Antipodes ports via Honolulu, and has a large party of passengers aboard—probably 500—mostly of the wealthy tourist class. A stop of two hours or more will be made at the port, and the suggestion is that it would be a very appropriate and pretty thing for the girl pupils of the schools to be present on the day of the arrival of the liner. The suggestion is being considered by the Mayor and officials of the Tourist Association, laden with flowers and tourist literature, and the girls are being trained in waiting at the service of the passengers who might wish to make a tour of the city and inspect its beauties. The Tram Park—While no definite steps have as yet been taken by the tramway company to convert the twenty acres which it has acquired on the Gorge bridge into a park, Mr. Goward, the local manager, explains that when some preliminary details have been worked out the park will be commenced and completed in such a manner as to prove satisfactory, not only to officials of the company, but to the public whose pleasure the park is to be constructed.

On Advertising Tour—Herbert Cutbert, secretary of the Tourist Association, has left on the first advertising tour of the year. He will visit the principal points on the coast, paying particular attention to Portland, on account of the crowds expected there during the summer months as a result of the opening of the great Lewis and Clark express. He will make short stops at all the resort places, and will be away three weeks or thereabouts.

Beacon Hill Park—The energetic park committee of the city council has done excellent work this season in cleaning up the Beacon Hill park. Much of the old underbrush having been removed and burned, the green swards mowed, the flower beds put in line shape and the walks and paths cleaned up. As a consequence the park now looks very pretty and inviting. A noticeable improvement in the construction of a large strongly-banded cage for the wild cat, which is one of the chief attractions at the menagerie. A new drive has been constructed from the menagerie to the stone bridge at Goodacre lake.

Wedded in Dawson—Rev. W. H. Barrough, formerly pastor of the Centennial Methodist church here, celebrated in Dawson recently the marriage of Mr. A. F. Englehart and Mrs. Maude Pope. The groom is a native of Victoria, and the bride is a native of Dawson. The wedding was a most successful one, and the bride and groom were accompanied by a large number of friends.

Fears for Safety—Some apprehension was caused last night by the non-arrival at the quarantine station of Dr. J. H. Macdonald, who left the city for station early in the evening. Fearing he was in difficulty, at 11 o'clock the Maude was sent out in an effort to pick the doctor up. The Maude had not reported the result of her search as the Colonist went to press.

Another Bad Walk—A majority of the old board sidewalks in the James Bay district are in a bad state of disrepair, and are constantly being replaced by makeshifts. Yesterday a lady passing along the western end of Quebec street had the misfortune to slip on one of these makeshifts, and in falling she sustained a severe injury to her leg. It is felt that something should be done by the city council to remedy this grievous state of affairs.

Assessor's Staff Busy—W. W. Northcott, city assessor, and his assistant, Mr. Scofield, were busy as nailers yesterday preparing for the mail no fewer than 25,000 notices. The notices are being mailed for the present year. Much work is entailed in the operation of mailing all these notices, and the process of stamping and stamping the large list is done in the most approved fashion—utilizing an ingenious stamping pad of Mr. Northcott's own invention.

The Pandey Proposal—Much interest has been aroused locally respecting the application of Messrs. Pandey & Co. for the lease of a portion of the Indian reserve on which to establish their paint and varnish works. The proposal is being considered by the city council, and it is felt that an initial step in the direction of getting the concession would be to secure the consent of the Indians themselves, and then make application to the federal authorities. Having secured the endorsement of the board of trade and the city council, it is felt that Messrs. Pandey & Co. have moral support sufficient to warrant the necessary government action.

The Hotel Site—The work of filling in the James Bay flats around the C. P. R. hotel site is proceeding very rapidly, and it is felt that the contractors for the hotel, the entire job, which is a huge one, will not likely be completed before the end of the year. The contractors are doing the work in a most efficient manner, and it is felt that the hotel will be a most successful one.

Tram Car Sprinkling—Apropos of the proposition now under consideration by the city council aiming at an arrangement for the sprinkling of the streets by means of a specially-constructed car, it is mentioned that some four or five years ago the same scheme was given consideration by the city council on the initiative of Mr. A. J. Yates. Mr. Yates took a special interest in the matter and sent to Portland, Oregon, for full information re-

Mr. Jeeves Explains—Explaining by the reasons which actuated him in entering a local newspaper office, Mr. Jeeves explained that a local newspaper office was being established to provide a septic tank sewerage system for the Spring Ridge district. Mr. Jeeves stated to a Colonist reporter yesterday that he had been in property owners had thought it most undesirable that a septic tank should be placed in a public school of the city, and to arrange that the overflow should go to Rock Bay at a point where it would become a nuisance to the residents of the latter neighborhood, the bay being shallow at many points, the poorer residents getting their firewood from the beach. "As I am not a sanitary engineer and know nothing about the matter personally," he said, "I have advised the city to agree to submit the plan of the proposed sewerage system to the provincial sanitary engineer, Mr. E. Johnson, or his provincial health officer, Dr. Fagan, and they pronounce it satisfactory, and the city agrees to consent in five days."

Sealers Return From Coast Cruise

Bring News That Carmencita is Sealing Not on Way to Mexico.

Lands Mate and Two Men at Clayoquot—News of Various Schooners.

Several sealing schooners which followed the Eva Marie to port yesterday from the coast, bring reports from all twelve of the local schooners and from two alien sealers, the Japanese schooner Kinsu Maru and the Mexican schooner Carmencita of the Averex McLean. All have low catches—the average will be less than 400 skins to the schooner. The Alle I. Algar, concerning which misleading reports were given currency last week, is reported to have secured 245 skins; the Jessie (Captain Haan), with 205, and the Victoria with 140. The Libbie with 251 skins, and the Dora Stead with 100 skins to the schooner.

The Carmencita is the big schooner which cleared from Victoria under a provisional register (granted on condition that the schooner be taken to a Mexican port to secure the register); she cleared for Acapulco, Mexico, and went on her way to that port. She was secured for sealing—Mexican vessels are not needed there as Mexico is not a party to the modus vivendi regarding pelagic sealing. Captain McLean, however, gave out before leaving that he was not going sealing; he said that, with the vessel under his command, he was going to proceed to Acapulco, California, instead of Drake's Bay, California, where he secured his outfit, which was shipped to San Francisco, and its shipment gave rise to the absurd report published by the San Francisco Examiner that a big schooner was shipping two hundred tons of sealers to a sea-raiding expedition. The truth was that the Carmencita was shipping three hundred tons of sealers, and perhaps also, a raiding expedition, similar to that of last year.

Crew Plays Rough House

The Carmencita has fourteen skins. She has at least one of the dogs. The schooner had had an adventurous voyage, however, though she got few skins. Included in the stores loaded at Drake's Bay were some cases of strong water—hence the trouble. There were several fights on board, and when the schooner reached Clayoquot a few days ago the mate and two men were landed by British capitalists from Dawson to the Klondike creeks. The steamer will proceed north after loading bunker coal at Ladysmith.

Boat's Crew Fired on

But, if reports are true, the Copper Islands may receive a visit from the Carmencita, which is still in the water. The Copper Islands are a group of islands in the north, some of which are inhabited by the natives. The schooner is reported to have been fired on by the natives, and the crew was forced to flee. MINNESOTA DELAYED.

Accident to Machinery Delays Big Hill Liner at Port Townsend.

The big Hill liner Minnesota is delayed at Port Townsend as a result of the breaking down of the machinery of the vessel. The steamer was proceeding to sea on her way from Seattle to the Orient with a heavy cargo on Tuesday, 5:30 p. m., when the starboard engine was damaged by the breaking of the high pressure piston. It was decided by Captain Under to return for repairs, and the vessel reached Port Townsend, whence news of the accident was telegraphed to Seattle agents. Chief Engineer Lacey yesterday made an examination of the damage and it will be effected as quickly as possible.

The steamer had a tremendous cargo, 28,000 tons measurement, 25,500 tons dead weight. According to a Seattle agent, the weight and cargo represented a total value of \$8,500,000. A special despatch from the Colonist correspondent at Port Townsend last night says: "The breakdown of the engine of the Minnesota was of small moment. The removal of the cylinder head disclosed a force of mechanism for the high pressure piston cylinder, which would have ultimately proved serious injury. A force of mechanics from Seattle, under the direction of Chief Engineer Lacey, underwriters made a careful survey of the vessel and pronounced her seaworthy. She will probably sail at daylight."

NOT ACCEPTED.

Hitch Regarding Ports to Be Called at Delays Mexican Steamship Service.

It is reported that Andrew Weil & Co. have not yet accepted the contract with the Canadian government for the establishment of a steamship line between Victoria and Vancouver and Mexican ports. A hitch has arisen with regard to the ports to be called at by the steamships to be operated by the line. It is reported that the Canadian government has offered a subsidy of \$50,000 per annum for the operation of the line, but the Canadian government has refused to accept the offer.

NEW C. P. R. STEAMERS.

Mr. Piers Returns to Montreal and Tells of Work on Atlantic Liners.

Montreal papers publish interviews with Arthur Piers, manager of the C. P. R. steamship line, who has returned from England, where he has been arranging details regarding the construction of new Atlantic liners. The new liners are to be built in England, and will be operated by the C. P. R. steamship line. The new liners are to be built in England, and will be operated by the C. P. R. steamship line.

THE TRAGEDY OF TWO LIVES.

Sad Ending of Five Years of Happy Married Life.

Blackpool, Eng., May 3.—The bodies of Robert Bunting, an Englishman who formerly lived in Burnley and inherited a small fortune from his father, and his wife, Elizabeth, to whom he was married in Philadelphia about five years ago, were found in a field in the suburbs of this town early today. Both had been shot and there was a revolver beside the bodies. It is believed to be a case of double suicide. It is stated that the couple intended to sail today for the United States on a visit to Mrs. Bunting's mother in Philadelphia. They leave two children.

Two years before her marriage. According to the story he taxed her with the offence and as a result of her admissions he told her to prepare immediately to sail for Philadelphia, leaving their children at Blackpool. They started on Tuesday, but were not seen for some time. The bodies were discovered. Each was shot through the mouth, and the bullet entered the brain. The bodies were found in a field in the suburbs of this town early today. Both had been shot and there was a revolver beside the bodies. It is believed to be a case of double suicide.

HEINZE LOSES IMPORTANT POINT

Refusal to Answer in \$5,000,000 Suit May Cost Him Deery.

Helena, Mont., May 3.—Under a decision handed down by the Supreme court today, Judge Bourquin of the district court of Butte, Silver Bow county, may pass upon the motion of James Heinze & Montana Consolidated Co. to strike from the files the answer of F. A. Heinze to a suit for \$5,750,000. Heinze is alleged to have been illegally extracted by Heinze and his companies from the Pennsylvania mine. Before a notary Heinze refused to answer certain questions propounded by the Boston & Montana counsel, and Judge Bourquin was asked to strike the answer from the files. It is planned to build a line of railway to the head of the Capilano. Some 6000 acres of land in the vicinity of the head of the Capilano railway will be used by all other enterprises in the valley. It is also planned to start an agricultural settlement above the Capilano contributory to the railroad. A Vancouver rat stopped a street car today. It was not on the rail but in the gutter. How the rat got there is a mystery. Once in it was electrocuted and its body collected by the machinery.

Chicago Tastes Of Anarchy Fighting and Rioting is Fiercer Than Ever in Business Sections.

Cowardly Strikers Shoot and Club Single Men on the Streets.

Bands of Hoodlums Parade the Thoroughfares Assaulting Unprotected.

CHICAGO, May 2.—Fighting and rioting fiercer than on any previous day of the teamsters' strike was carried on in the business section of the city today. Stones, clubs and knives were used with apparent abandon and an accurate account of the injured cannot be obtained. It is known that one man was killed during the day. In the night near the Auditorium hotel his skull was fractured and he was taken to a hospital, where he died. His name was Charles Beard. The strikers and their sympathizers attacked the non-union men at every opportunity. They were shot down within two hundred feet of the retail store of Marshall Field & Co. and clubs were used to break down the corner of the Auditorium hotel in plain view of hundreds of women who were compelled to run from the mob to save their own lives. In many instances men walking along the streets, who had no active connection whatever with the strike, were assaulted by hoodlums who beat them first and later accused them of being strike-breakers.

One Thousand Police Sworn in The team owners' association, which employs none but union teamsters, finally refused today to make deliveries to any of the firms involved in the strike when ordered to do so by the city's association. Pressure was brought to bear upon business houses with which the team owners had contracts. The team owners said they would not attempt to deliver coal to any firm where a strike is now in progress because they own no coal. One thousand police were sworn in today upon the announcement by the employers' association that they would employ more than a thousand men to guard their property tomorrow.

Strikers' Outrageous Acts Store employees burdened with bundles are stopped, and their parcels taken from them and opened and searched by pickets and union sympathizers to see if they are attempting to deliver goods to customers or carrying their own property to their homes. After assuring the pickets that the contents of the bundles belong to them, they are not disturbed further.

In one instance a hired carriage was stopped in Washburn avenue and the occupants were ordered to get out and walk. Another woman with both arms full of bundles was caught by the strikers and stopped. She was taken to another corner, where she halted a second cab. Again she was stopped by the union sympathizers. Finally she boarded a street car.

Coal Supply Short The need for coal is rapidly developing into one of the most important factors of the situation. In the city, with the exception of one or two big houses, the supply of fuel on hand in State street changes from day to day. The Union Traction Co., speaking of the scarcity of coal, said: "In several of our stations unless we get coal in two or four hours we will have to close down."

Railways Must Admit 'Phones Instruments to Be Allowed in Stations for Exchange Business.

OTTAWA, May 2.—It is likely that parliament will enact a law this session requiring railway companies to admit telegraph instruments, telephone companies in their stations; also compelling telephone companies to exchange business.

Ralph Smith returned from Clifton Springs sanitarium, where he spent a fortnight. He is almost rid of his catarrh. The government has decided to retire all collectors of canal tolls, seeing that henceforth there will be no tolls to collect.

William Ross, former minister of militia, will be called to the Senate to succeed Mr. Curran, recently unseated for non-attendance.

Mr. Kennedy was one of the speakers in the autonomy debate today. He opened by expressing an unqualified benevolent and philanthropic project which is at present engaging the best ability of the organized labor. The circular is self-explanatory.

BAGS ONE MORE BOB CAT. President's Party Not at All in Luck Saturday.

Greenwood Springs, Colo., May 2.—Courier Elmer Chapman arrived here today from Camp Roosevelt. The president's hunting party, an unimpaired full day yesterday, bagging only one bobcat. The hunters are not fully decided on the question of leaving the camp. The game is so plentiful on West Elk that they may remain there for the balance of their stay in the mountains, although they have been planning to go to the head of Garfield creek, about fifteen miles from here, early in the week. There is one objection, however. Arising in two days would be lost in making the change. Secretary Loeb will visit the president tomorrow in company with Chapman.

NEONOTA, N. Y., May 2.—A band of masked robbers rode into the village of Gilbertville, about 18 miles from here, early today, blew open the supposedly burglar proof safe in the private bank of E. C. Brewer, and carried off nearly \$10,000. When the started villagers were awakened by the muffled roar of the explosion and had been hit by the pistol fire of the retreating bandits, they found that the robbers had isolated Gilbertville from the rest of the world by cutting all telegraph and telephone wires, and when the pursuit was finally taken the robbers had gained a lead which could not be overcome.

London, May 2.—The House of Commons reassembled today after the Easter recess. The debate on the alien bill, introduced by Sir Charles Dillk, an advanced Radical, who opposed the measure, contending that it was unnecessary, as he was prepared to support the measure, was held in the afternoon. The bill, which was introduced by Mr. Dillk, provides for the regulation of immigration, and was passed by a majority of 100.

Amaday Death Roll Sixty-Two Dead and Two Hundred Wounded in Warsaw Riots.

Slaughter Denounced as Unnecessary by the Outraged People.

Workmen Forbidden to Congregate and Are Fired on for Disobedience.

WARSAW, May 2.—(9:15 p. m.)—The May day death roll totalled 62, including two children who died in the hospitals during the night. Probably 200 were wounded. Crowds gathered at the tenth district police station this morning where thirty victims, men and women and three children, were awaiting identification. Some minor disturbances occurred today in different sections of the city, but no casualties were reported. All day long infantry and cavalry patrolled the streets, which were crowded with people who were not spared their criticism of what was generally termed unnecessary slaughter. The popular citizen is most bitter against the military and government officials expect many attempts at revenge upon the officers commanding the troops, all of whom are known. The Polish Press is Silent on the subject of yesterday's happenings. The official Russian paper prints a short and entirely inaccurate report of the rioting in Warsaw, and is said to be greatly upset by the turn of affairs.
