A HONG KONG SWINDLE.

Selling Trunks for the Finest Spun-English and American Honors the House.

Boston, April 10.—Vogel & Co., Hong Kong, have done a large business in China and other goods between China and America and Europe.

Recently English and French consignees of the firm received several cargoes of cheap fourth rate silks in place of fine class goods which had been ordered and paid for.

The arrival of the ship Richard Robinson in New York Saturday with a cargo from the same house exposed an extensive fraud of the same nature.

Several New York silk firms had purchased a large quantity of cheap goods from the house at New York.

The cargo it was found to consist principally of Canton matting worth less than \$2 a bale.

The house of the matting was at Hong Kong and as supposed for France.

The detectives of the latter country endeavored to find him, but he has been traced, it is believed, to Italy.

His captives will not be held as the pursuit was made as rapidly as possible.

The goods were sent to Europe by the ship Richard Robinson in New York.

The first instance of sharp practice in which Vogel & Co. was caught was in the expedient they adopted to pay to a second cargo, and successfully secured.

Immediately shipped a cargo of poor sugar and a local banker had him the price of the cable order.

Ten days later the telegraphic letter of credit was received from the bank.

Hamilton, April 10.—The trouble they might rely on the support of the other strikers.

A report from McBean's shop was read by the secretary, saying that there were six men working there at the old wages, one of whom said he could threaten any man who would try to take him off work.

The chairman said the strikers should exercise great vigilance as Monday was a very busy day.

The chairman said the merit of rejecting proposals belonged to the bosses.

The next two weeks would demonstrate who owned the control longest.

He did not think there was much work with the laws, but he had noticed that the member for West Toronto, Wm. Duffin, had never appeared to notice the working men in any bill brought in in the house.

The meeting then adjourned.

At a meeting of the custom boat and ship makers held in Duffin hall last night, the members unanimously resolved not to purchase the Telegram and to withdraw their support from any merchant who advertised in it on account of the stand taken by that paper in regard to our fellow-workmen.

They also gave a grant of fifty dollars, and wished them every success.
