

ANOTHER FAKE OF THE MAIL

THREE HUNDRED BUSINESS MEN OF TORONTO OUT \$100 EACH.

A Contract Made by Sixty Fakirs on Behalf of the Mail That Was Not Completed—Was One of the Many Deals—The Fakirs Beg \$100 and Over.

The Toronto Mail has had a great deal to say about the auctioneers and lawyers in regard to legal and auction advertising. In effect it charged them with defrauding their clients because they did not advertise in the Mail. And now only one of the Mail, through its chief advertising fakir, T. W. Dwyer, undertook to demand of advertisers a reason why they give this class of advertising to the World.

The number of Chinese immigrants arriving in Canada last month was 103, as compared with 50 during the same month last year. Ottawa's last mail wagon was run into the shed this morning and the mails were not taken and soon a train by electric postal cars. Two cars are used at present, one for the Canada Atlantic and the other for the Union Depot, but no more cars will be provided. The run from the post office to the Union Station is made, without stop, in four minutes.

About 20 models of the Macdonald state have been received by the Department of Public Works. A vote of thanks will be opened in a day or two and a selection of the best made.

Dr. McLaughlin, who has been here for several days, went to-night, accompanied by Mr. Robert Birmingham of Toronto.

A MORTUARY CANDIDATE. H. T. Potts Nominated for North Bruce—Public Meeting at Tara.

TARA, Nov. 9.—The Mortuary Public Meeting at Tara, held last night, was a success. Attendance being large. Considerable enthusiasm was manifested and the interest taken in the proceedings of the day there was more than in any previous year.

In the forenoon the committee, consisting of J. A. Macdonald, W. J. Whitlock and E. Busby, and a large number of visitors from the Queen's Hotel, were in session, presided by the late and the late.

At 10 the large rink was crowded to hear the utterance of the leader of the Third Party. Addresses were presented to Mr. Potts, and the committee, consisting of J. A. Macdonald, W. J. Whitlock and E. Busby, and a large number of visitors from the Queen's Hotel, were in session, presided by the late and the late.

The address delivered by the speakers were listened to with great attention and deep interest and there were frequent bursts of applause. A vote of thanks was moved by the president of the local Reform Association and carried.

THE MONTREAL COLLECTORSHIP

Not Expected To Be Filled At Present—Electric Mail Wagons—No Pleasure Near Kingston.

OTTAWA, Nov. 9.—It is not at all certain that the Montreal collectorship will be filled at present. There are a number of things to be smoothed out in party circles in Montreal, and Mr. R. S. White will not press any claims until this is done. As for opening in Parliament the Government pretty well decided some weeks ago not to do it, with the exception of Mr. Mackintosh in Ottawa. If they did it in Cardwell they might be urged to do it in two or three other constituencies where members are willing to retire to office.

But the Government and their principal supporters in the House are against members taking office and opening constituencies. Any retirement of this kind will be at the end of the parliament. The Department of Agriculture has received from Mr. McLaughlin a report of his examination of the Kingston district, from whence came the outbreak in Parliament. The report said to have been suffering from pneumonia. The doctor reports that he can find the slightest trace of disease in the district.

A Railway Possibility

The result of the World's agitation for a winter steamboat service between Toronto and Niagara has not been unsatisfactory so far. The most progressive business men of Toronto admit the existence of great possibilities along the lines that the World has been discussing. Our agitation has brought out this fact very prominently, that the city of Toronto can be readily placed on the New York Central Railway system, with all the advantages that such a connection would give it.

It would cost the New York Central, but a trifling sum to come into the city of Toronto, and run the same way as it does in Rochester or Buffalo. Toronto is only about thirty miles distant from the Central's tracks. The fact that this thirty miles has to be made by water has not been a hindrance to the American company from establishing itself in Toronto. But what may be regarded as a difficulty years ago ought not to be so regarded to-day. We know more about shipbuilding now than we did a decade ago. To marine engineers the building of a vessel that could safely make the journey across the lake every day in the year would be no more difficult than the duplication of the Chippewa. A vessel specially constructed for this route would carry passengers with as little risk of accident in winter as in summer. It would also convey them to important centres more quickly than by any other route.

Why, then, should Toronto not avail itself of the advantages of a new and desirable connection with a great railway system? As far as men who understand the situation can see, there is no reason why Toronto should not get these advantages if we only make a move. Many attempts have been made and are being made to establish a competitive rail route between Toronto and the Niagara River. The Toronto, Hamilton and Buffalo Railway has been making fitful efforts to establish a line between these two important points. But where the T. H. & B. is just now no one seems to know. It has been long since got lost some place in the woods. It was also the intention of the St. Catharines line to go to Toronto. Some few years ago Mr. Wm. Horwood was anxious by signing on extensions of the C. P. R. from Toronto to Niagara Falls, but the people of Hamilton made a bad move in connection with his proposal, with the result that the scheme was abandoned. The only outcome of these various moves, so far as there has been the double-tracking of the Grand Trunk from here to the Bridge. With the exception of four months in summer, the Old Reliable monopolizes the field. Toronto has railway competition to all other important centres in the province except to Hamilton and the Falls. Why the best paying part of the Grand Trunk's system should remain in the hands of the Toronto and Niagara River, is a conundrum. The effect of competition to other centres has been a marked improvement in railway travel. As a result of the C.P.R.'s competitive line to Montreal the rates on the Toronto and Niagara River have been reduced by four or five hours, or about 30 per cent. If the New York Central were to locate in Toronto as marked an improvement in travel to the Bridge and New York would take place, as we have witnessed between Montreal and Toronto. The possibilities of a direct New York Central connection are very alluring indeed. If the boats we speak of were placed on the route across the Lake, it would be possible to make the present New York Central time table, to make the trip from Toronto to New York in 12 hours on some trains and 14 or 15 on others. The time by rail between two points now is 17 and 18 hours. The establishment of the proposed service would see the end of those annoying delays at Hamilton, Suspension Bridge and Buffalo, the very recollection of which makes most travellers swear if, indeed, they do not weep.

As has been already pointed out the new competition in freight along the line of the Canada Southern Railway. Since the project was first broached another important feature has been added to it. This is nothing less than the establishment of a car ferry across the lake. This may not prove to be such a wild project as at first sight it would appear. If the proposed air line railway from Collingwood were built it would be possible to load cars from 20-foot vessels at its port and make them through to New York without transshipment. There is now in existence a car ferry at St. Ignace, the distance between the terminals of which is 15 miles. Cars are ferried across at this place every day in the week. The thing can be done on Lake Ontario. And as to cost, it would be cheaper to ferry cars 30 miles than to run them 100 miles by rail. Whether there is or is not anything in this scheme we would not say yet like to venture an opinion, but in connection with the other part of the project it is well worth considering.

The City of Toronto cannot but be immensely benefited by becoming part and parcel of the great New York Central system. The business men and the Board of Trade ought to take this matter up and not only pass resolutions, but do something. The council, too, might better employ its time in discussing ways and means for increasing the city's business rather than in dissipating the city's resources in unnecessary projects. A deputation of leading citizens ought to be appointed and sent on the New York Central people in New York. Our opinion is that such a deputation would succeed in advancing the city's interests, perhaps only in a slight degree, perhaps more abundantly than any of us now anticipate.

A Unanimous Press and Other Matters

It was said the Upper Canada College was sure to go through because the whole press of the city, the World excepted, was unanimously in favor of buying the property. The very energetic outpouring of opinions before the Parks and Gardens Committee yesterday proved how little the press of Toronto represents the people of Toronto. This united and unanimous press is the same galaxy of inkblinders who wrote against Sunday cars.

THE MAYOR'S PARK SCHEME.

MANY CITIZENS ADDRESS THE PROPERT COMMITTEE.

Arguments advanced for and against the acquisition of the Upper Canada College grounds by the City—An attempt to flush the affair through—The Parks and Gardens Committee was honored yesterday by the presence of a number of prominent citizens. They came for the purpose respectively of assisting and objecting to the Mayor's latest bid—the purchase of the old Upper Canada College grounds.

The visitors were: Hon. J. Beverley Robinson, Charles J. E. Thompson, Dr. Thompson, Barrister R. L. Fraser, Dr. Barrick, Alexander Manning, D. M. DeFoe, W. R. Brock, John Rowland, M. Gibbs, S. E. McKinnon, W. D. Matthews, John Harkin, G. C. H. James, John Ross, Robert G. A. G. W. D. Butler, Massey, Robert Jeffrey, E. W. D. Sidler. There was a wrangle as to which side—those for or against—should address the committee.

Mr. Manning said those who were in favor of the purchase of the property should be heard first. The Mayor took the opposite side. He wanted those who were against the purchase to have the first say. The Mayor was the only supporter of his own motion. It was finally agreed to hear the speakers alternately.

Mr. Brock supports the scheme. W. R. Brock was the first to take up the subject in behalf of the Mayor's scheme. He considered it would be a valuable piece of property for the city to acquire. The question to be considered was whether it was desirable for the city to purchase or not. He would have opposed a proposition to spend such a large sum of money in cash, but that it only cost \$12,000 a year he was in favor of it. The city can afford to buy this if it is only used for art galleries and flower gardens.

Dr. Barrick said the ratepayers did not load up the city with \$200,000 of a debt, nor make the rate of taxes 17 mills on the dollar. It was a matter of history that the ratepayers knew it. If the property is bought, why do not those in favor of it, both in and out of the council, bring a resolution and buy it? The city would only be a mere bagatelle as to what the ultimate cost would be. If this property is not purchased, the city will be forced to pay for it in some other way. The purchase of this land would be obstructing the progress of the city. Every dollar added to the debt of the city lessens the credit of the city. If the outside financial world knew that the city was in debt, they would not loan to it. The city's credit would be a mere bagatelle as to what the ultimate cost would be. If this property is not purchased, the city will be forced to pay for it in some other way.

H. A. Massey did not think 17 mills was a very heavy rate for the property. He referred to the fact that the city had not taken much interest in public matters, but felt it his duty to do so on this occasion. He had made up his mind to give his vote for the purchase of the property. He had made up his mind to give his vote for the purchase of the property. He had made up his mind to give his vote for the purchase of the property.

Mr. DeFoe objected to the city becoming a land speculator. It does not get the benefit it should from the property it now owns. This park would cost the city \$400,000 a year. It would be a disadvantage to have a park in that locality and would be a detriment to surrounding property. The price is too high; it is \$400 a foot for the King-street frontage. He could not see how it could be made to pay for itself as an investment. Business properties at present in the city are a drug on the market. A proper valuation should be placed on the property and then it should be left to the people to decide.

Something in the background. Mr. Fraser said he had not heard one good argument why the purchase should be made. There is something in the background that the Mayor has not made public. Mr. Jeffrey said the city does not have a park for a party. If that is the case, what is it wanted for? The whole thing smolders down to the fact that the Mayor is in a hard up and wants assistance. Has the city not already assisted the University enough? The city has paid \$100,000 a year for Queen's Park. There must be an end to this running in debt. Toronto's debt is now \$100,000 and Chicago \$30,000,000. Toronto is only \$400 and Chicago \$30,000,000. Toronto is all right, but she must stop running into wild-cat schemes. There is no reason for indulging in this fancy land of the Mayor's. The scheme is not to benefit the working man, but to help the University. Mr. Robinson said the purchase would be a grand investment for the city. Mr. J. E. Thompson quoted figures to show that the price asked for the property is \$127,000 in excess of its fair value. But aside from this it is no time to buy parks. The city has not the money to pay for them. Mr. Rowland was positive the property could not be purchased and cut up into building lots at a profit. The property on the Market for Years. Mr. Butler said the property had been on the market for a number of years and the owners could not dispose of it. The price asked was excessive. The locality does not require a park. The Parks and Gardens Committee had not money enough this year to provide hand concerts in the parks the city already possessed. The Ontario Government to fast the land on the city, as all the supporters of the Government.

TWO THOUSAND WERE KILLED.

MATABELE MAKE A DESPERATE DEFENSE OF BULUWAYO.

Lozengula's Capital Captured—The Natives Literally Mowed Down—Chief Sent Presents to Administrator Jamieson and Lozengula May See for Himself. LONDON, Nov. 9.—A special despatch from Johannesburg to The Pall Mall Gazette says that the Fort Tati camp, consisting of 300 Bechuanaland police and a number of Chief Khama's men under Commander Raaf, captured Buluwayo on November 7, the day after the columns had repulsed an attack made upon it by the Matabele under command of Gombo, Lozengula's son-in-law, during which engagement Gombo is reported to have been killed. The day after the capture of Buluwayo, the Matabele fought with desperate fury, but they found it impossible to stand up against the machine guns which were used in great numbers upon the field. It was not until 2000 of the Matabele were killed that the remaining numbers fled to the westward, leaving their king's capital to fall into the hands of the British.

The British loss small. Many of the horses of the troopers were shot beneath their riders. The British force captured the place was set on fire and burned to the ground. The magazine, containing the greater part of Lozengula's ammunition, was blown up. It is reported some of the Matabele's indunas, or commanders, committed suicide by firing their rifles into the air. The Matabele were killed by the Matabele under command of Gombo, Lozengula's son-in-law, during which engagement Gombo is reported to have been killed. STILL THAT CANAL.

The Gravitation Committee Spend Four Hours Studying the Question. The Gravitation Committee met yesterday afternoon and once more talked over the question of the water supply question. The committee was composed of Messrs. Bousfield, Latta and Waterhouse. The committee adjourned until Monday next at 2.30 p.m. The members present were Messrs. Bousfield, Latta, Waterhouse, Latta, Still and the Mayor.

Mr. Bousfield said the first thing to ascertain was whether the city was in a position to take up the water supply question. The canal part was thrown in simply to assist in getting a valuable franchise. The canal part was thrown in simply to assist in getting a valuable franchise. Editorial Note. The attention of Detective Reid was called to the appearance of a woman in James street, Hamilton, yesterday. Every article of her clothing was being out in such a way that the officer thought she must have goods secreted about her person, and he invited her into the Police Station. The services of the matron were secured and she was searched. About 1000 articles were taken from beneath the folds of her wearing apparel, which was nearly empty. When spread out they covered a large table.

Arrangements have been made by the Public school authorities for a series of teachers' meetings, at which teachers of each grade will convene and arrange the program of work for the year. The meetings will be held on Friday, November 11, and on Saturday, November 12, and the classes of the various grades will be closed on the days when their respective conventions are held.

THE LAW OF CONTEMPT OF COURT.

THE CANADIAN PRESS ASSOCIATION WANTS THE PENALTY GOVERNMENT TO DEFINE IT.

Arranging for the Annual Meeting. At a meeting of the Executive Committee of the Canadian Press Association, held at the Rosin House yesterday afternoon to arrange for the annual meeting of the association and general business, this resolution was passed: Moved by Mr. A. Pattillo, seconded by R. Holmes, That whereas J. Y. Ellis, editor of The St. John, N.B., Globe, has been imprisoned and fined under the law for alleged contempt of court, and whereas it is apparent that in his case the judicial prerogative of punishment by the exercise of that law was not unjustly strained, And whereas this case, whatever its own merits or demerits, indicates that the law relating to contempt of court in its present vagueness is liable to be stretched by unworthy judges or magistrates into an exercise of gross injustice and tyranny.

Resolved, That the Canadian Press Association petition the Canadian Parliament to define the law of "contempt of court" in such a manner that, while judges or magistrates may have summary power to maintain the decency and dignity of proceedings in court, and power also to check and punish criticism or proceedings outside court, which may prejudice juries, or may before delivery of a judicial decision prejudice the court, there shall be no possibility of any citizen being otherwise subjected, without trial by his peers, to arbitrary punishment for any alleged contempt of libel.

There was considerable discussion over this case. The Canadian Press Association will hold its annual meeting on Thursday and Friday in February. It is expected that Mr. J. W. Scott of the Ontario Herald and secretary of the American Publishers Association will be present. The annual annual banquet will be held on the evening of the meeting. The principal subjects discussed at the meeting will be "The Libel Law," "Tariff and the Canadian Press," "Copyright Law," "Printing and casting machines" and "The use of electricity in newspaper offices."

TRADE TOPIC.

An important feature is that at nearly all the bankrupts sales of stock in this city lately the purchasers have been sub-towns. Another fact is that county real-estate sales are more prompt than city collections. Next Tuesday the catalog sale of the estate of C. M. Taylor & Co. stationers, will be held at 2.30 p.m. at Stocking & Co.'s. The stock is valued at over \$30,000, and a large attendance is expected.

There are no Manitoba oats coming forward this season, said a dealer yesterday. The crop has been small and one is likely to buy more than required for local use. Prices in Winnipeg are about the same as current prices in Toronto. An increase in the number of business failures in Canada for the week ended yesterday is reported by E. G. Dun & Co. The total is 37 as against 25 last week, and the number of failures in Ontario is unchanged, while increases noted in Quebec, New Brunswick, Manitoba and British Columbia.

Our regular travelers are out with their baggage for the spring trade, said a representative of one of our largest wholesale houses yesterday. "They are booking up their goods at prices that will bring them a profit of 10 per cent. A number of factories are closed in Britain, the result of the coal strike, which helps prices. Linens are firm and threads maintain the late advance."

Liquidation of December contracts is a serious business, said a speculator, "who confronts bull speculation. Here is a nearly all the visible supply sold against in some markets for December delivery that is believed must be switched over to May and placed for that month at a difference in price that will pay all carrying charges and sufficient interest to capital to make an adjustment for capital to take hold. There is a difference now between December and May to make the change and pay carrying charges, and some what has been switched at about 8c, but it is believed that the difference will widen to more than 8c before the bulk of the stock is changed over to May. About 8c is the difference generally looked for. It is claimed that the Wall-street men are the big lions in Chicago, and the question is: Will this speculation be successful? Will the men interested there pay for it on Dec. 1?"

England has grown her smallest and richest wheat crop on record, and yet English millers to-day are getting wheat for grinding at the lowest rates ever known. In every case the world over wheat yields are giving the lie to all estimates. The whole wheat trade seems to be out of joint, and the reports are discordant, all the "private" estimates are ridiculous, and all the Government "official" estimates are simply grotesque. Will the unique cereal story of 1893 ever be repeated? Association Hall could not furnish seats enough for the audience that assembled there last night at the lightest entertainment given by Mr. Frank B. Whittemore, under the auspices of the Toronto Camera Club. The views shown were scenes from the World's Fair by moonlight, exhibiting all the principal buildings in a most natural manner. Dr. Edmund E. King was the lecturer of the evening. The entertainment closed with a number of views taken from the Midway Pleasure.

100 SQUARE FEET OF Shoe Bargains

AT McPHERSON'S TO-DAY

Great Inaugural of our Cut and Slash Sale. Prices Cut, Slashed, Halved and Quartered. Ladies' Daisy Kid Slippers, common sense, last hand turn, B.C.D.E. There is absolutely no danger and discomfort in the use of this shoe. It is a rich harvest—let them seize the opportunity. When we began business our ambition was to give to the Toronto public the largest and most complete shoe house in the city. We decided at that time to call it "The Monster," trusting that the name would eventually be a synonym for the largest shoe house and most complete shoe business in the Dominion. The time has come, and after many years of perseverance the goal we have struggled to reach at last is in sight. Failure must have been inevitable had we not been strengthened and encouraged by the unmitigated confidence and generous patronage of the Toronto public, but with their aid we have successfully resisted the temptations of ostentatious and two weeks ago began our long-continued plan. We are also interested in remodeling the best of our present large premises, but before we can begin to do this we must get rid of over \$80,000 worth of fall and winter boots and shoes. Determined not to remove the goods of the premises, we have deducted from the wholesale prices the highest cost we would have incurred in removing them, and now offer them at merely nominal prices. An idea of how much we are doing to clear the way for building operations can easily be formed from these prices: Ladies' Casco kid hand-sewn leather boots, St. Louis square toe, regular \$4 boots, we have reduced to \$2 a pair. All our \$5, \$4 and \$5 shoes, manufactured by the best makers in Canada and America, will sell off at half the original prices. In cheaper grades we will offer ladies' slippers at 50c a pair, and our best quality slippers at 75c a pair. The shoes and boots we have reduced to \$2, \$3 and \$4 boots and shoes reduced to \$1.25. The cheaper grade strong work boots reduced from \$1.25 to 85c. Guinane Bro., Monster Shoe House, 214 Yonge-street.

EAST YORK FLOWERS.

One of the Most Successful Matches Ever Held in the County.

Undoubtedly the best playing match of the season was held by the East York Flower and Rifle Association on Wednesday, 8th inst., on the farm of the well-known president, Mr. William Milliken of Hagerman. A perfect day and brilliant display combined to make this a red letter day in the annals of the association. Two thousand spectators were present and the handwork of the 48 competing knights of the plow. The general excellence of the work done shamed the best of any other merit given to us, but the order of merit given below has received the approbation of our friends.

A pleasing sight was that of the president displaying a kindly and ready lurch and words of advice, criticism and encouragement as coming from so renowned a plowman. The interest manifested by the fair sex reached a climax in the instance of one lady who had recourse to her opera glasses in the attempt to discover a crook in the furrows.

We cannot omit giving special mention to the magnificent team of Mr. J. W. Wells, the winners of the prize for best team in the following is the prize list:

First class, 1st entries—James Hood, Markham; 2d, G. G. Galt, King; 3d, George Little, Scarborough; 4th, W. W. McBrien, Whitby; 5th, John Root, Whitby; 6th, Thomas Cain, King.

TORONTO MEDICALS' VICTORY.

Watty Thomson Drops a Goal From the Field and Trinity Loses By 15.

The annual Rugby match between Trinity and Trinity Medical Schools took place yesterday on the Trinity campus.

As in every other contest between the institutions this season Trinity proved victorious.

It was a stubborn fight, especially in the second half, when each side scored a single point.

Toronto had the slope advantage in the first half and rolled up 13 points. Trinity scored 2 points early in the game.

Then Smith went across for a try and Thomson failed at goal. Trinity scored next, Carter going over for a try.

The feature of the game was a goal dropped from the 25-yard mark by Dr. Watty P. Thomson, raising Toronto's score to 11 points, and Trinity had only 4. Martin kicked to touch-giving, giving Toronto two more.

The battle was a close one, but both sides presenting a strong defence, and the only scoring was the two rouges above mentioned.

The afternoon was fine and the rival student factions were out in large numbers.

THE SPALDING PENNANT.

Dundas Will Fly the Flag On Holiday—It is a Whopper.

The Dundas Baseball Club, champions of the Interior League, have received their pennant presented by Messrs. A. G. Spalding & Co. It is one of the usual flags presented by this firm to all Canadian champions, and is thus described by The Dundas Star:

"It is a whopper. As a whopper it only takes a second place to the stationer's flag made by Galt against Dundas in their last protest. It is long, nearly as long as the Galt fellow flags, and is made of the same material as the flag when they learn as wide as the difference between playing a game of ball on the diamond and the sitting room of a lawyer, and at the other end is as narrow as Galt's idea of sport."

"To come down to figures it is 26 feet long, 10 feet wide, one end and tapers down to a point. It is made of cream-colored bunting and bears this inscription: 'Dundas champion, 1894. In the first prize, "Doctor" Andrews, Mrs. Andrews, "Dell" Andrews and his wife Cassie, were brought down from the jail. The "D" and "A" were justly entitled to a cigar as the party got into the wagon to return to their homes."

Messrs. Murdoch, Mills and McGregor were on hand in behalf of the prisoners, and Messrs. Dewart and Curry for the Crown. The first prize, "Doctor" Andrews, Mrs. Andrews, "Dell" Andrews and his wife Cassie, were brought down from the jail. The "D" and "A" were justly entitled to a cigar as the party got into the wagon to return to their homes."

Before the adjournment Mr. Murdoch complained to Coroner Kingston that Juror Lambing had been guilty of gross misconduct unbecoming a juror. Mr. Murdoch said Mr. Lambing had discussed the case and expressed an opinion that the accused should have been hanged four years ago. "A man that expressed an opinion as to why it was not fit to be on a jury," said Mr. Murdoch.

Coroner Johnson said it was the duty of a juror to listen and not talk over the evidence or form any opinion until the evidence was in. He said that if Juror Lambing was so sure of his own mind, he should have been allowed to go home and write a paper on the subject. THE INDEBT ADJOURNED.

OWING TO THE ILLNESS OF JAMES EATON'S OAK HALL.

An Immense Crowd Had Assembled to See "Dell" Andrews and Wife and the Other Prisoners—A Juror Who Had an Opinion of His Own Called Down the Justice's Bench.

MALE ENERGE SALE.

Prices the lowest ever known in Toronto. Glance at all the great bargains of the many small stores in Toronto. What does it all mean? Why it means that trade is dull and that every merchant is loaded with goods he can't sell.

Some of the biggest ones are trying to make the people believe that they are not so generous and charitable as they are relating the congested state of their homes and the fact that they can't sell their goods.
