COME, LITTLE BEAR BACK TO YOUR BOX

Year Old Cub Got Tired of Captivity and Broke Loose.

LEADER IN HOT CHASE

Trick Was to Get Him Down Pole He Had Climbed.

A 12-month-old cinnamon bear cub chewed its way out of a wooden crate in front of the Canadian Northern Express Company's warehouse on East Front street, at 10 o'clock last evening, and after an exciting chase in which police officers, beat dogs and express men and scores of volunteers participated, climbed an iron pole opposite Parkins, Ince & Co., 48 West Front, where after a hour's work he was dislodged and shoved back into his box. The bear, which is about 75 pounds in weight, was trapped in the Paddy Sound district, and was consigned, via Collingwood and Toronto, to Blake Vannatter, Georgetown.

Early yesterday morning the express company received the cub in a wooden crate, but it was in the warehouse nearly two hours before the men discovered it. Late in the afternoon one of the helpers thought to take a look in at the cub and discovered that he had all but slipped out of the top and poked his head through the top of the box. The men were half way across the sidewalk when the cub thrust one of the ends of his head and poked his head through the top of the box. The express men attempted to push him back, but the bear showed up until he loosened the top sufficient to get his body through and jumped out on the sidewalk.

One plunge and he had snapped the iron chain which held him to the interior of the box, and away he went towards Yonge street. Officer 468, at the corner of Scott street, looked, but the bear disappeared. He then looked back and looked again. It suddenly looked like a brown bear that flashed past him. He took up the pursuit with the express men.

There were few night walkers on West Front street at that hour, and those few gave the bear undisputed passage. The number of officers who did not yet quite know why, but they ran along Front street he snatched a broom from the hands of a janitor who entered the building. He jumped just before he reached Yonge street, and No. 488 bowed him head over heels with one sweep of his paw.

The cinnamon evidently thought there was too much traffic over Yonge street, and after the cub had been chased with a doubled back to where he started. On the way he attempted to climb a pole, but the officer caught the end of the pole and pulled the bear down. Gr-r-r-yowled the cub, and jumped with open jaws at the constable, who hurriedly released the chain. Again at liberty, he jumped over the Express Company's window and attempted to walk straight through the window. In the end, he lumbered down and climbed up an iron pole, which he reached in a few minutes.

Water Didn't Hurt.

Bruin straddled the cross piece on the post and dived down at his pursuers, emitting growls which brought spectators from two blocks away. The junior in the grocery produced a huge iron pipe and played a stream on the cub for fifteen minutes. The only effect was to produce more growls from the bear up the pole.

Assurances of Triumph.

The other system, the French system, consists, with the advantage of the freedom of the sea, in maintaining in good and complete form a number of sufficient formations, and in creating new ones only in the measure in which they can with certainty be kept up and suitably and durably equipped with regimental organization.

"This system is established with a view to a prolonged war. Of these systems which, after six months of trial, shall triumph? To put the question is to answer it. The Germans can no longer propose an intervention, because they will therefore not be able to do in the future what they could not do in the past, when they were one of the most numerous of nations. Consequently our final victory must follow by the impetuous necessity of the concordant force of facts and figures."

HELPED FRUSTRATE EFFORTS OF BOARD

L. E. Embree, M.A., LL.D., Said Association Found Place in the Sun.

In making his address before the meeting of the Ontario Teachers' Alliance, held as a part of the Ontario Education Association convention yesterday, L. E. Embree, M.A., LL.D., said that the association had established the "place in the sun" because it had helped to frustrate the efforts of the school boards to lower salaries by dismissing their whole staffs of teachers with the object of re-engaging them or engaging others at lower salaries.

He thanked the press for co-operation in asking questions to state the salaries they proposed to state when advertising for teachers. He spoke of the efforts of the alliance to prepare a publication, "Schools and Teachers," to contain statistics relating to every school in the province, and of the liberal manner in which the alliance was treated by the department of education when the value of the statistics was recognized.

Doctor Said Sciatica-- Rheumatism--Lumbago

But He Could Not Help Me, and Endorsed the Use of Dr. Chase's Kidney-Liver Pills.

Mr. Wm. Parker, 105 Cayuga street, Brantford, Ont., tells in the following letter of his remarkable experience with Dr. Chase's Kidney-Liver Pills: "My doctor treated me for some time for Sciatica, Rheumatism, Lumbago, but to no purpose, for I had to lay off work. The visiting officer of Sick Benefit called to see me and advised the use of Dr. Chase's Kidney-Liver Pills, stating that he had been cured of the same trouble by their use. I asked the druggist about them and he recommended them highly. Not being satisfied with him, I went back to my doctor, and when he said they were good I began their use. The promptness with which they relieved the action of the kidneys and bowels was wonderful, and it was not long before I was rid of all my trouble.

"I was so bad that I could only walk by hanging on to a chair or the wall. My wife had to lace my shoes. Only those who have had this ailment can realize the way I suffered. I am writing this letter to let people who have my trouble know of these pills. You are at liberty to use this letter, and if anyone interested will call on me, it will only cost you a quarter to write to me for a detailed statement. Write to Mr. Parker, enclosing stamp for reply, and he will verify this statement. He will do this out of the gratitude he feels for his cure and because he realizes how difficult it is to obtain the cure of these dreadfully painful ailments.

There are so many treatments recommended for rheumatism that you naturally doubt them all. Here is an opportunity for you to verify the cure and put this great medicine to the test. It will only cost you a quarter to try Dr. Chase's Kidney-Liver Pills. They get at the very foundation of the rheumatism, and by removing the poisons from the system take away the cause of pain and aches.

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cents a box, all druggists. Edmundson, Bates & Co., Limited, Toronto.

thrown in to counteract the effects of the statements of his allies about the growing inferiority of the German artillery. It then says that the French reserves were in a short time in full flight, while their rifle attack broke down under the German infantry fire. Then the French are seen piling up hundreds of dead in front of their line. Critics intimate that the French are not to be trusted in any one attack on the German positions at some point, but the absence of details points to its being of little importance, or rather that the French success, if any, was slight, and that also practically admits that the Germans have stood on the defensive, contenting themselves with repelling an attack, an unusual procedure in official admitted scheme of German tactics, where the opportunity is seized at every possible time to take advantage of the repelling of an enemy following up the success.

The statement ends with the significant words that "it seems that the (the French) attacks are not yet an end," paving the way for future admissions of disaster.

GERMAN RESERVES CANNOT FILL GAPS In Ten Months at Most Forces Will Be Exhausted. DRAIN IS APPALLING French Official Report Says Enemy Has Already Shot Bolt.

LONDON, March 27.—Further intell of the French official report of the French army after six months of war have been obtained. The sixth instalment deals with material, artillery, transport and supplies and the seventh instalment takes up the situation of the German army and makes an analysis of the German forces in the field and available. The report lays emphasis on the satisfactory development of the French artillery. The famous "seven-five" guns, despite hard service, are as perfect as when the war broke out. Scarcity of ammunition has been overcome and the French heavy artillery is now superior to that of the Germans. Since Feb. 1 the supply of machine guns has been increased by one-third. Fo's Initiative Lost. Admission is made that the German war strength at the outset was much greater than had been expected. Germany's "peace" army was 25 corps. At outset she placed in field 61 corps; by January she had 69 corps (about 2,500,000 men). Germany's effort attained maximum at battle of Flanders, when 50 army corps fought French and British. From the moment of defeat in Flanders, Germany has lost the initiative. It is stated that German losses to Jan. 27 were 1,800,000 men. Of these 500,000 wounded who have returned, the net loss is 1,300,000 men. Reserves Inadequate. The report continues: "The total resources available for the war were, therefore, 8,500,000. Of these about one-half, say 4,000,000, are now at the front. The definitive losses represent at least 1,800,000 men. The available resources amounted then at the beginning of January to 3,500,000 men. Of what are these resources composed? Chiefly of men who were untrained in time of peace, the trained reservists having all left the depots for the front. It has, moreover, to be noted that out of these 3,200,000 men there are, according to statistics, 800,000 who are more than 35 years old, and are therefore of only mediocre military value. Thus there remained 2,400,000. Finally, the category of the reservists in peace contingents, according to the estimates of German military authorities themselves, one-quarter of inefficient."

2,000,000 Left. "The really available resources capable of campaigning are therefore just 2,000,000, these men, comprising the 1815, 1816 and 1817 classes, being in anticipation, constitute a list that cannot be too strongly insisted upon—the total of available resources of the operations during the 13 months of 1915. As to what the military value of these troops will be, considering the battle with which they have been trained, the formidable losses sustained in the battle of Flanders by the newly-formed corps shows very clearly. Their military stature will be limited. When it is remembered that according to the German documents themselves the definitive loss each month is 200,000 men, it is manifest that the available resources for the year 1915 will not suffice to fill the ranks of a war of ten months. It is then superabundantly established that in the matter of effectiveness Germany has reached the maximum of possible effort. German munitions are declared to be in short, their heavy artillery wearing out and their machine and modern rifle supplies practically exhausted.

CONFIDENCE OF FOE RETURNS TO DESPAIR Sublime Faith in German Success Has Been Rudely Dispelled. A "MORAL WASTAGE" Evidence Piles Up That Enemy's Nerves Are Badly Shattered.

LONDON, April 7.—The French official review of conditions in the French and German armies contains interesting revelations as to the "moral wastage" which has accompanied physical losses in the German army. It says: "The material losses of the German army have corresponded with a moral wastage, which it is interesting and possible to follow both from the interrogation of prisoners and the pocket-books and letters seized upon them or on the killed. "At the beginning of the war the entire German army, as was natural, was animated by an unshakable faith in the military superiority of the empire. It lived on the recollections of 1870, and on those of the long years of peace, during which all the powers which had to do with Germany, displayed towards her a spirit of conciliation and patience which might pass for weakness. "At the moment of the battle of the Marne, the first impression was one of the failure of comprehension and of stupor. A great number of German soldiers, notably those who fell into our hands during the first days of that battle, believed fully, as at the end of August, that the retreat, if it occurred, was only a means of luring us into a trap. German military opinion was suddenly converted when the soldiers saw that this retreat continued, and that it was being carried out in disorder, under conditions which left no doubt as to its cause and its extent. "This time it was really a defeat, and a defeat aggravated by the absence of regular supplies and by the physical and moral depression which was the result. The severity of the losses sustained, the overpowering effects of the French artillery began from this moment to be noted in the German pocket-books with veritable terror. Hope revived, however, at the end of some weeks, and there is to be found in the letters of soldiers and officers the announcement of a great movement which is being prepared, and which is to lead the German armies anew as far as Paris. "This is the great 'battle of Calais'—contrary to the anticipations of the enemy, was in reality fought to the east of the Yser. The losses of the Germans, which, during those ten days exceeded 150,000 men, and may, perhaps, have reached 200,000, productive of a terrifying impression on the troops. From that moment forward no longer declared themselves sure of victory. For a certain time they had been consoled by the announcement of the capture of the Yser, which, if it had succeeded, would have proved to be fictitious, alarm increasingly became general. "During the last two months the most intelligent of the prisoners have all admitted that no one could any longer say on which side victory would rest. If we are to judge of the absolute confidence with which the German people had been sustained, this avowal is of great importance."

CASUALTIES HEAVY AMONG INFANTRY Over Eighteen Hundred Names on List for Neuve Chapelle Action. LONDON, April 7, 7 p.m.—The latest list of casualties yet received in any of the official lists was shown in a statement given out, dated March 22. This list is believed to cover the sanguinary fighting which resulted in the capture of Neuve Chapelle last month. The list includes the names of 1843 non-commissioned officers and men of 70 regiments, the killed numbering 578 and the wounded 1107. The following casualties of British officers were listed: Killed—Lieut. David, Monmouthshire; Lieut. Molson, Royal Scots; Lieut. Ellis, Royal Engineers. Unofficially reported killed: Capt. Bass, Lancashire Fusiliers. Died: Lieut. Byfield, Duke of Cornwall's Light Infantry. Died of wounds: Lieut. Bardell, Leicestershire; Lieut. Winch, Rifle Brigade; Major Marsden, Royal Engineers. Unofficially reported died of wounds: Capt. Porter, Royal Fusiliers. Unofficially reported died as the result of an aeroplane accident: Lieut. Warrand, flying corps. The casualties in ranks issued to-night show 237 killed, 41 died of wounds, 700 wounded. These casualties, like those reported yesterday, were sustained in the Neuve Chapelle fighting. 68 Sherwood Foresters were killed, 129 wounded, and 147 Whiteheirs were wounded.

PTE. MANTELL WOUNDED. KEBENE, April 7.—Word has been received in Peterboro that Serg. Edward Mantell of the five Mantell boys who are in military service, who have met with casualties since the outbreak of the war. Richard Mantell was shot in the face at Neuve Chapelle, but it is only a flesh wound. His son was killed in action there. Pte. Herbert Mantell was killed at Mons. Pte. Robert Mantell was wounded and is interned in a German prison. Pte. Officer Edward Mantell fell with H.M.S. Astris, and Serg. William Mantell of the 57th Regiment, Peterboro Rangers, is at Kingston.

SULTAN OF TURKEY IN GAME OF BLUFF PASSENGER PAYS ON ALL TICKETS Application of War Tax to Transportation Fares is Explained. STARTS IN A WEEK Companies Will Collect the Money and Act as Government Agents.

CONSTANTINOPLE, April 7, via The Hague and London, April 7, 10 p.m.—"I am convinced that the Dardanelles cannot be forced. The brave conduct of the Turkish troops in the recent operations against the straits permits me to conclude that altho the allies bend every effort and use every means at their disposal they will be unable to achieve their purpose. "This spoke Mehmed V, the sultan of Turkey, and first caliph of the Moslem world, today in the course of an audience which he had granted to the Associated Press correspondent. The sultan throught the audience showed and expressed the greatest confidence in Turkey's ability to withstand the onslaught of the allied forces, and followed with the keenest interest a description of the operations of the allies on March 18 against the Dardanelles forts, given by a correspondent of the Associated Press. The various phases of the bombardment were discussed by his sultanhip, but he was greatly interested in the human aspect of this tremendous action. What was the effect of the enemy's fire? These were things in which the sultan showed deep concern. "When one of the correspondents told the sultan that he had been rendered nervous in Chanak Kalesai by the explosion of large shells, which impelled him to stoop at every explosion, and how an old interpreter, who also was retreating, touched him on the arm each time, saying 'Tosh! Kismet!' (Fate! God's will!) was much amused, and said that the use of the word 'kismet' was improper under such circumstances. "The old man should have used the more fully that he wanted to convey, said his majesty. "About Troops. The sultan asked if his troops appeared to be happy and contented. The answer being in the affirmative, a new smile of appreciation lit up his face. "It appears unjust to me that the allies want to force the Dardanelles and take Constantinople by sea, and that the Turkish army and coast guard are unwilling to do their duty, and speaking here, not alone of the Turkish defended fortresses, but also of those Germans who have so scientifically and bravely co-operated with them. "I would thank you if you could say for me that my admiration for the German troops is not lessened by their high ability for me to express my high opinion of their valor and efficiency. Concerning the matter of the Emperor William, I can only say that we Turkish people that he may enjoy the best of health for many years. "I value the opinion of neutrals highly and wish to avail myself of this opportunity to express my greatest satisfaction that the relations between the United States and Turkey are so cordial," said the sultan. "With this, Mehmed V, indicated by a slight movement of the hand that the audience was ending. This was the year the monarch rose from his first year with alacrity and shook hands with the correspondent. "The audience took place at Dolmabahche Palace, Brig. Gen. Sallih Pasha, the sultan's first aide de camp, acting as marshal. PRIVATE MUNROE MET WITH DEATH OF HERO CORNWALL, Ont., April 7.—Mrs. Jno. Munroe has received a letter from Lieut. Talbot M. Papineau, giving particulars of the death of her son, Lieut. J. Munroe, of the Princess Patricia's, who was killed in action at the front. Lieut. Papineau says: "I could not refrain from writing to you to say how keenly we all feel his death, and myself in particular. He was in my platoon from the beginning, and he was a most efficient soldier. He was one of those who had volunteered for a bomb-thrower. He was killed on the 6th of March while moving forward toward an expected attack. He was the regimental bomb-thrower to the 1st Battalion of the Princess Patricia's, and led the assault, but that one had there was a good deal of confusion, and when I reached the front, he had been killed. He was a fine fellow, and he was being carried to a stretcher. He has been reverently buried by his fellow-soldiers. He represents one of the serious and sad losses in the war. Canada has been obliged to make good the loss of this brave and gallant soldier. He died that he would rather have so died than have remained behind and not have played his part."

COURTS TO SETTLE BINOCULAR CASE Government Decides to Order Department of Justice to Enter Action. OTTAWA, April 7.—The government has decided to send to the justice department the question of the sale of binoculars to the militia department by the Birkett of the Kristine Supply Company of Ottawa. The department will be asked to commence action, Mr. Ellis of Toronto, who purchased the binoculars for 188 glasses. These were inferior glasses, and the department has already been suspended and the department of justice will now endeavor to force restitution from Mr. Birkett. "Hon. Dr. Reid made a motion to this effect before the public accounts committee this morning. The Liberals objected to the wording of the motion, and the motion will be held over for several days. Dr. Reid said that all he was anxious for was to get the case before the justice department. He understood the evidence glasses which had been found were those sold by Mr. Birkett to the only inferior sworn the remainder of the two thousand glasses were of first-class quality. "The only witness I saw insulted here was the auditor-general," said Mr. Mackenzie. "That is a falsehood," shouted General Hughes. "From any other source I would receive this statement, but from this lump of ignorance, I do not mind it," retorted Mr. Mackenzie. \$15,000 MORE FOR BELGIANS. Board of Trade Sends Further Remittance, Portions of Which Came From Far Away. ITALY AND SERBIA CONCLUDING PACT? Agreement Reported Reached Whereby Serbia Gets Adriatic Outlet. PARIS, April 7.—Italy and Serbia are about to conclude an agreement, telegraphed from Rome, upon the following basis: Italy will not oppose Serbia's occupation of territory that an outlet to the Adriatic on condition that Italy will not be fortified. As to the question of Trieste and Istria, this has not even been discussed. The Italian recognized the Italian character of these localities. The present visit of T. Tittoni, the Italian ambassador in Paris, to Rome is in connection with these negotiations. "If this Italo-Serbian agreement is signed this week as is expected," the correspondent of the Associated Press says, "the entry of Italy into the European war may be considered imminent."

CONSPIRACY CASE ADJUDGED. Wm. S. Thomas and W. J. Mitchell Appeared, But Constant is Absent. Before Judge Coatsworth in the county criminal court yesterday, William S. Thomas and W. J. Mitchell appeared on a charge of conspiring with one Ernest Constant, and with one another to defraud the public in connection with the operation of an organization operated under the name of the International Capitalists' Limited. Constant, who was president of the company, has been missing for some time. After several of the witnesses had testified as to how they had invested their money and up to the present have received nothing, his honor adjourned the case until next Wednesday. Both the accused were granted bail.

HUGHES IN CLASH WITH MACKENZIE "Lump of Ignorance" Descriptive Phrase Applied to Major-General. Special to The Toronto World.—OTTAWA, April 7.—Major-General Sam Hughes and D. D. Mackenzie, M.P., Cape Breton, ran foul of each other at the sitting of the public accounts committee here today, and spiced was added to the otherwise tame proceedings by the verbal projectiles hurled at each other by the combatants. It was an enquiry into the purchase of the land for Valcartier Camp, and Colonel McCain, who arranged the deal, was on the witness stand. The colonel asked his secretary for details several times in the course of his examination, and finally Mr. Mackenzie said that he objected to the doing of this by the colonel. General Hughes said that this was county court procedure. Mr. Mackenzie, who was formerly a county judge, took this remark as a reflection on him, and asked if the general intended to insinuate that he had come from the county courts. "I am just as big a warrior as he is," said Mr. Mackenzie. "And I take no bluff," said General Hughes. Much laughter followed. General Hughes followed up his witticism by calling Mr. Mackenzie "a smooth bore," and evoked more laughter. Mr. Kyte then protested against proceedings of Colonel McCain, that he had done some of his work without remuneration, as "apt to create suspicion." "With some people," interjected General Hughes, "it is not possible to keep some witnesses from being insulted." "The only witness I saw insulted here was the auditor-general," said Mr. Mackenzie. NEWS OF SPECIAL INTEREST TO WOMEN

CLAIRE ROCHESTER IN BELGIAN RELIEF

Will Give Pattern of Cap Which She Designed for Charity Purposes.

THEY ALL KNOW HER

Officers and Men of Third Contingent in Ottawa Were Given Presents.

Miss Claire Rochester, who is playing her second return engagement of the season at Shea's this week, became the idol of the third contingent of the Canadian expeditionary forces stationed at Ottawa thru personally presenting every officer with a cane and every man with a swaggar stick, inscribed, "Good luck; from Claire Rochester and Irving Berlin."

The picture shows Miss Rochester wearing a cap she herself designed from the caps worn by the Belgian soldiers. It is intended, of course, for feminine wear, and its attractiveness cannot be questioned.

TALK OF PEACE IS INOPPORTUNE

Mrs. Pankhurst and Followers Will Not Attend Hague Conference.

LONDON, April 7.—Mrs. Emmeline Pankhurst announced today that the women's social and political union and the other suffrage organizations in Great Britain and France had decided not to participate in the forthcoming women's conference at the Hague to consider the question of peace.

In this connection the British militant leader said: "This movement is well meaning, but mistaken. Those running this conference have no political influence. Pro-Germans are working hard in the direction of peace in neutral countries and much German money has been circulated in America, but this is not the time to talk peace."

DAUGHTER BORN TO CROWN PRINCESS

BERLIN, April 7.—(Via London, 5:49 p.m.)—Crown Princess Cecilie today gave birth to a daughter. The mother and child are doing well. The crown princess, who is a daughter of the Friedrich Franz III, of Mecklenburg-Schwerin, married Frederick William, the German crown prince, in June, 1906. They now have five children, four boys, the eldest being nine years of age, and one daughter.

NURSERY

Outdoor Play

There are mothers who bring up their children in an atmosphere of hygiene. They are continually talking of the importance of health, in fact, that is what we are trying to help you to do. But we do not advocate talking to children about their health and "symptoms." There is such a thing as over-protecting children, and this is what we are trying to help you to do.

ELECTRIC FOUNTAIN

An electric fountain nine feet in diameter has arrived from New York at the Arena for installation in the model garden which is to be one of the special features at the Home and Electric Show to be held there next week under patriotic auspices.

EASTER CHAPEAUX EXPLOIT FLOWERS

Employed in Great Quantities on Smartest Head-gear.

POPULAR PICTURE HAT

A Single Rose Beneath the Brim is Highly Favored Just Now.

Flowers play an amazingly important part in the success of the spring fashions. Whether it be the tiny nose-gay of delicate tinted rose buds on the skirt of a flounced evening frock, or the smart corsage seen in accompaniment with the street suit, the mission is fulfilled—the note of success is effected by the petals of the artificial flower.

The most exclusive of the 1915 spring millinery models exploit flowers in a riot of dazzling hues and delicate pastel tints. Large single roses adorn many smart chapeaux, while on others a garland or crown, a cluster or vine, is displayed with taste and dainty consideration of color.

One pretty broad-brimmed modified "shepherdess" model of Russian green imported Milan exploited a facing of virgin blue crepe. Wide sand colored marquis ribbon circles the crown and ends at the back in one long single streamer. Large, beautifully-formed asters in the pastel shades are laid flat on the brim at intervals.

Another handsome model of the "picture hat" variety, which will be seen this summer with the net frock for garden party and other formal functions, introduces a flower as its only ornament. The graceful lines of this black tulle hat with sweeping brim are full of character, necessitating but little trimming—a large "vieux" shaded rose rests under the high canted side of the hat, supplying the required touch of color.

Also a Second Sacker—Snow Greeted Leafs at Durham—Settling Down.

DURHAM, N.C., April 7.—The Toronto ball team left for Durham this morning to begin their training camp at a little past ten o'clock this morning for a day in the States. The wires were all down and no message of the inactivity could be got thru to Toronto, so that the ardent fans in the metropolis figured that they were out sweating blood. They did locate a second field that can be used in case of emergency or wet grounds on the lower Lynde and the regular field arrangements have been made to work-out in this second field when occasion requires. This will be ultimately advantageous, as the local team is here working out and the regular field is not always available. Besides, the big leaguers are now working north, and will be playing here occasionally.

Manager Clymer is, of course, non-committal as to his views of the Toronto material. He made just one significant remark when he said: "This will not be the Toronto team, but I hope to pick out a pretty fair lot from the men now in hand, and where there is need of filling in we will get the right men."

As yet the team is shy, notably a second baseman and a left-hand pitcher. Cottrell was being angied for to supply the latter demand, but was grabbed by the New York Americans, and some other high-class southpaw will have to be secured. No candidate for Fitzpatrick's place at second is here, but one in sight. The fight for outer places will be a merry one, it is expected. Kelly and Konick are carded as the catchers, with front and back. Kitchell is not here, and it is more than likely he is figuring in one of the several deals now under way.

At first Tim Jordan will have to show support over Graham, the promising youngster Rochester was so keen to get. At short Roxy Roach, who was undoubtedly one of the cleverest in the league for Buffalo last year, seems to have his place clinched. He has to beat out young St. Charles, a semi-pro from Nashville.

Charles Isaacs, Hollander, who has touched the high spot of the National League for a minute, and possibly Konnick, who has played third as well as catching, to contend with at the hot corner. Time will tell, but Isaacs certainly showed splendid form for a youngster last fall.

The Utility Job. Prieste seems to be the utility roll to himself. However, some of the youngsters may prove, if not able to hold steady jobs, good enough to fill in where necessary. Prieste a battle for the handy man thing.

Pitchers are here in plenty, but of course, at this writing apart from those furnished by the work last year there is little to go on.

Herbert and Wagner are all that are left from last year. The new youngsters are Blanche and Auld, while Laska is a veteran. The big, fast young lad last year with the Toronto Canadians, with splendid prospects if not blossoming this year at least in another year. He is only eighteen or nineteen years old, and last season was his first out. Bracket comes with the reputation of having in him the makings of a great player and hitter, showing splendid work for Duluth last summer. Brown, secured from Washington, was picked up by them in Texas, and Clark Griffith declared he was too good for Toronto to pass up. Hence he is here.

Of the five outfielders all are left-hand hitters, but Brown stands an either side of the plate. McNamee declares that he never notices whether a pitcher is left or right-handed.

All in all the men are here to build up a team that will not need a great deal of patching—and the faces are new.

Leats Work Out in South

WILLARD IS GIVEN ADVICE BY JOHNSON

Referee Says Black Man Was Away Ahead on Points—Moran Wants Match.

HAVANA, April 7.—Jesse Willard, the new heavyweight pugilist, left Havana this morning for New York, where he is due to arrive on Friday evening. The party will travel via Key West, Jacksonville, Charleston, Richmond and Washington.

The crowd at the dock to say good-bye to the champion was so great that the sailing arrangements of the steamer were interfered with, and the vessel, which should have departed at nine o'clock, did not get away until two hours later.

Jack Johnson, who came down to the steamer, shook hands with his conqueror and said: "I wish you all the luck you could wish for yourself. I hope you can make a heap of money. Be sure to save it."

Willard answered with his best wishes, and said: "I will see you in Europe."

He appeared to be affected by the incident. Johnson gave a great reception by the crowd.

The Cuban rights for the moving picture rights of the Johnson-Willard fight were sold today for \$10,000.

Johnson is preparing to go to Santiago, where he will sail for Jamaica, and then to Philadelphia.

Referee Jack Welsh says: "I had been compelled to give a decision at the end of the twenty-fifth round, it would have been Johnson's by a wide margin."

"Up to the twentieth round Willard had won by one round by a real margin, and two or three others by the slightest shade. In the thirteenth and fourteenth rounds Johnson would knock Willard out, but Willard would knock his jaw and his body were too tired."

"Johnson put up a wonderful fight to the twentieth round, but age stepped in then and defeated him."

A London syndicate has offered a purse of \$20,000 for a fight between Jesse Willard, who won the heavyweight championship of the world, and Frank Moran of Pittsburgh. Willard was offered \$10,000 for his traveling expenses.

Toronto Cricket League Have a Problem—Three Clubs Without Creases.

At the annual meeting of the Toronto Cricket League at the Carle-Hills Hotel last night it was brought to light that three of the clubs are in grave doubt as to where they will obtain grounds to play on next summer. If they are unable to secure suitable sites it will probably mean that the league will be broken up.

The following officers were elected: President, L. M. Rawlinson; vice-president, H. Dean; secretary-treasurer, W. H. Garrett. The executive representatives are: Rosedale, H. G. Woodcock; St. Albans, H. Handcock; Grace, W. Paris; Toronto, A. A. Corner; St. Barnabas, W. B. Kirklake; Riverdale, Blackwell; Parkdale, A. E. Jackson.

The meeting decided to amalgamate the two divisions of the league which will be run in a division A. Usher of the Toronto Club was the proposer of a new division B. The bowling trophy was won by H. G. Woodcock of Rosedale, with an average of 4.4 with 31 wickets. The winner of the bat in B division was E. Haven of Riverdale, with an average of 22. F. Blackwell of the same club captured the bowling honors, with an average of 5.66. President Rawlinson presented the cup to the Rosedale team for last year's championship.

A committee composed of five members was appointed to revise the by-laws and constitutions of the league. A motion was passed to have the constitution to take place after the annual meeting, and at which all prices will be presented.

The cricket situation in England during the war, declared that no county matches would be played during the coming summer. This was inevitable, said England's prominent cricket authority, even if it was the intention of the followers of the sport to arrange fixtures.

It would be impossible to get together a capable team because of the fact that so many of England's cricket players are being engaged in military duties. Woolley, another famous English cricketer, lately passed the medical examination.

Lord Harris pointed out that considerable expenses had been incurred during the coming summer and hoped that the members would help the club by keeping their subscriptions. The county ground at Canterbury and other grounds would be open for practice and it is quite likely that with the school and soldiers, some friendly games would be played. Those of the professionals who were available would have engagements offered to them as bowlers on the usual terms.

P. W. Furley, the honorary treasurer, said that the decision of last season was the first the club had experienced in eighteen years. It was entirely due to matters being so quiet at Canterbury and elsewhere being ruined.

NEW YORK, April 7.—No five-man games were scheduled in the championship tournament of the N.B.A. tonight, but there were changes in the first five of the league. The O'Connell of Newark, N.J., tallied 59 for second otherwise they will not be members. No leagues will be accepted after June 15.

The following were declared senior leagues: Don Valley, Dovercourt Park, Toronto Senior, Escotter, Yermont, Flay-grounds, Y.M.C.A., and Western City. The following sub-committee were elected: President, Walter Sparley; Secretary, Geo. Walker; W. J. Smith, Chairman; Treasurer, Bert Brydon; A. J. Walsh, W. J. Smith, Ashol Gow, S. H. Armstrong and Tom O'Neill (chairman). Grounds committee: Geo. Phillips (chairman), H. H. Roddrough and J. J. Walsh. This committee will receive all complaints from clubs in reference to grounds.

POLICE CALLED TO HOLD BACK CROWD

Willard Given Great Reception at Key West—His Manager Talks.

KEY WEST, Fla., April 7.—Jesse Willard, the new heavyweight champion pugilist of the world, arrived here late today on the steamer Gov. Cobb from Havana, where on Monday he won the title from Jack Johnson. A crowd of several thousand who gathered on the pier to greet the new champion became so demonstrative that they broke down fences and parted ropes in their eagerness to get near the Kansas giant.

The police had great difficulty in preserving order. As the steership warped into her dock the crowd of excited men, women and children on the pier craned necks for a glimpse of the new champion. Willard was surrounded by a throng of cheering, jumping, gesticulating persons, and he was hurried to another end of the pier, where a committee from the board of trade bundled him into a carriage for the parade up to the town. A band headed the procession to Willard's hotel, and he was given an enthusiastic greeting all the way. Later, when Willard was shown a telegram offering \$20,000 as a purse for a fight with Frank Moran, he referred the newspaper man to his manager, who said that he would not fight for nine months or "Willard," said Jones, "has been training for a year and a half, and has earned a title of his own. He is going to tour the country, picking up the money he has earned, for you know, Willard has not made any big money out of this fight."

On these statements, passports were made out for Johnson and his wife. The former champion said he purposed to go from Cuba to Jamaica, and thence to England and France, where he hoped to make more money before retiring to the life of a farmer in France. Johnson said he expected to ally himself with moving picture concerns in Europe, and that he probably would lecture before and during the exhibition of the pictures of the fight, in which Willard defeated him.

NEW YORK, April 7.—Jim Coffey, the Dubliner, was administered a severe beating by Carl Morris of Oklahoma in a ten round bout here tonight. Coffey forced his opponent to all the way and twice knocked the head, while Morris weighed 225 pounds to Coffey's 200, leaned heavily upon his opponent in the clinches. At close quarters Morris landed many hard body blows.

Coffey was bleeding from the mouth in the second, but in the next round a left hook brought blood from Morris' mouth. Morris was in the bell ending the fourth and in the fifth he was shaken up by a hard right to the body. Morris was cautioned for hitting in the sixth, but broke away, landing a hard right uppercut. A left hook out Morris' eye in the eighth, and while he is sure of his end of the ninth, and he held tightly in the final round. Coffey appeared over-anxious at opportune moments. Both fighters had lashed themselves to Willard and a large crowd witnessed the contest.

Receipts of live stock at the Union Stock Yards were 67 carloads, comprising 1,044 hogs, 170 sheep and lambs, with 244 calves.

Among the 944 cattle on sale there was a moderate percentage of good to choice butchers' stock, but not many of extra choice quality.

The top value reported was \$7.75, and only a very few were sold at this figure. Light, well-finished steers and heifers, 900 to 1,100 lbs., were in demand and sold at firm prices.

Choice heavy steers, \$7.50 to \$7.75; good to choice butchers, \$7.25 to \$7.50; good, \$7 to \$7.25; medium, \$6.50 to \$7.00; common, \$6.25 to \$6.50; choice cows, \$6.25 to \$6.50.

Stocks and feeders were again firm at steady prices, which reached as high as \$6.25 per cwt.

Milkers and springers, of which there were several lots of choice quality, sold at firm values.

Veal calves sold at Tuesday's quotations. Sheep and lambs were in demand at unchanged figures.

OPEN CARS REMAIN FOR ANOTHER YEAR

Postponed Railway Board Hearing Allows Present System to Continue.

EMPLOYES PROTEST

Ald. Gibbons Declares Running Board Dangerous to Workmen and Public.

Toronto street car patrons will ride for yet another summer in the open cars with the conductors swinging along for fares on the narrow running board at the side.

Mr. Gibbons declared that the running board was a danger to the workmen and the public, and that the board should be removed.

The proposed change would involve the rebuilding of all cars, and passage in certain sections would be impossible.

Mr. Gibbons maintained that the present practice was very dangerous for both conductors and people, and that reconstruction would mean the carrying of more passengers per car.

The board commented little, but in view of the differences arranged for a further hearing.

Steel Corporation Makes New High Record for War Times.

Whether the removal of restrictions on the Toronto Stock Exchange will be the opportunity it gives the speculative public to trade in mischievous securities has anything to do with it or not, the fact remains that there appears to be some dwindling of interest in the mining market with a well defined disposition to take profits in a number of shares that recently led the market in the upward movement.

La Rose was the strongest feature of the Porcupine group, selling between 49 and 50, closing within a small fraction of the top. Apex was in some demand at 3 on the announcement that the directors have a plan of refinancing the property well under way.

Timiskaming again attracted heavy profit-taking sales, and the stock finally broke under the avalanche of selling orders to 32, recovering only a fraction of the loss before the close. Chambers held close to 19, with Peterson Lake around 21 1/2.

La Rose was at 60 bid. The eighth annual report of the company is out and shows production of silver in 1914 of 1,389,247 ounces, with net value of \$637,555; cost of production was 37.2c per ounce and net selling price 52.92c per ounce. Net profit on production was \$217,979. Ore reserves on Dec. 31 amounted to 859,919 ounces of an estimated net value of \$166,784. Dividends paid amounted to \$749,515 (10 p.c.) of which over \$500,000 was paid out of surplus, leaving combined surplus of the holding and operating companies at the end of the year, \$1,040,586.

The profits for 1914 were very much less than in the previous year, due to the smaller production of high-grade ore and the lower prices received for silver which was \$3.22 in 1914, compared with 59.32c in 1913.

An excellent demand for some of the bank shares developed, notably those which sold a full point over the minimum at 216.

London's Attitude. Some cordliness has been expressed as to what effect the announcement of the liquidation of the London business with London. London liquidation played a considerable part in the swift descent of values in the closing days of July, and the advance in London selling now offers a very bad effect. However, London has been out of the panic stage for many months, has been selling in hours in order with the assistance of the government and the banks and reasons for urgent selling no longer exist.

Steel Corporation advanced to 23 1/2, the highest price since the early part of the year. The company's output, which is going largely to Great Britain, shows a satisfactory increase in the first three months, and the first quarter of the year as compared with 1914, the output being limited only by shipping facilities.

RAINS GENERAL IN WHEAT AREA

Fear of Drought Damage Alleviated and Prices Have a Setback.

NO EXPORT DEMAND Oats Were Relatively Firm on Seaboard Buying—Corn Weak.

CHICAGO, April 7.—Rain that allayed fear of drought damage started the wheat market today on a decline, which was emphasized later by the government crop report and by rumors that Austria had sued for peace. The close was heavy at a loss of 1-2c to 2c net. Corn finished 1-2c down, oats 1-4c off to 3-8c up and provisions varying from a setback of 5c to a rise of 2-1-2c.

Moisture over nearly the entire West, with predictions of ample showers where needed further east, put an end at once to dry weather talk and brought about immediate selling pressure on wheat. Something of a reaction ensued, but the government crop report turned out to be about as bullish as expected and the bulls again withdrew support. Covering by shorts had been in view of the acknowledged shortage across the Atlantic.

The dearth of fresh buying for ocean shipment, however, did not alter the fact that clearances for Europe continued on a big scale, the total for the last two days amounting to nearly four times as much as for the corresponding time a year ago. Corn eased off with wheat and as a result of improved weather conditions. Wheat and the trade was between pit speculators.

Oats were relatively firm owing to seaboard buying of the May delivery, in addition there was a heavy sale here of 200,000 bushels, chiefly for export. Demand for provisions was only fair.

ST. LAWRENCE MARKET. Turnips advanced and so did Onions on Produce Market.

ST. LAWRENCE MARKET. Good Demand for Baled Rye and Oat Straw at Good Figures.

WALL ST. MARKET OF SPECIALTIES

Motor Shares Led Upward Movement, Some Advancing Seven Points.

LONDON WAS A SELLER Movement in General List Bore Earmarks of Professional Manipulation.

NEW YORK, April 7.—In its essential features today's stock market was largely a repetition of the day preceding. Progress was made in the specialties, which have dominated operations of late. Trading was subject to three distinct periods of interest, and most transactions were somewhat under recent averages.

Automobile shares broke into new high ground, with gains which run as high as 7 points. Petroleum specialties, the smaller steel companies and numerous other miscellaneous issues, were active at advances, but leaders like Union Pacific, U. S. Steel, Reading and Amalgamated, rose and fell alternately.

Contrary to expectations, the publication of the government crop report, which showed improvement in the average condition of winter wheat in the last December, failed to exercise the slightest influence. Likewise sales of refined copper at a fraction over 16 cents, failed to favorably affect the metal group.

Rates of exchange on London were lower on heavy offerings of bankers' bills by a leading institution. Continental exchange fell in proportion, and the slight influence. Likewise sales of refined copper at a fraction over 16 cents, failed to favorably affect the metal group.

London was again a seller of our stocks in the home market and here, transcontinentals constituting the chief offerings. It is believed that these sales were made as a preliminary to another large British treasury loan. Local and interior banks are once more in the money market, long time loans and purchases of commercial paper constituting a large part of their recent operations.

Bonds were irregular, with some decided advances in Missouri Pacific's, Chicago and Eastern Illinois's and Rock Island debentures. Total sales, per value, aggregated \$2,734,000.
