"COME ON IN" to-day?

OAK HALL CLOTHIERS

ALL GERMANY IS AROUSED OVER CASE

Emperor William May Be Called to Witness Stand—Editor Backed by Public.

BERLIN, Oct. 25.—(Special.)—The hearing of the case of Count Kuno von Moltke, former military governor of Berlin, against Maximilian Harden, editor of Die Zukunft, for defamation of character, is growing more and more sensational every day.

In the course of to-day's proceedings Dr. von Gordon, counsel for the plaintiff, declared that he would eventually ask for the testimony of Emperor William to prove that Count von Moltke never had used his official position to promote political ends.

Herr Bernstein then charged that the court clique of which Count von Moltke was a member was guilty of infamous secret crimes.

Harden has said that he will call as a witness Paul Lindau, the author of a life of Emperor William, who will testify that the late Prince von Bismarck once expressed himself concerning excesses of Prince Philip zu Eulenburg in the strongest terms imaginable.

The bench has decided to admit testimony to prove the allegation that certain practices prevailed among the friends of Count von Moltke.

The court has decided to refer Prince zu Eulenburg's medical certificate, submitted yesterday, saying he was ill to attend the hearing, and he has been summoned to appear to-morrow.

Next Wednesday has been suggested by Hon. Mr. Monieith for receiving the deposition from the Employers' Association respecting the factory inspector appointments.

HAMILTON HAPPENINGS

CIGARMAKER WROTE AN APOLOGY AND IS FREE

City Takes Action in Regard to the Offer of Park Land—Died From Injuries.

HAMILTON, Oct. 25.—(Special.)—Miss Chown, matron of St. Peter's Infirmary, died in the City Hospital this afternoon, as the result of injuries received in an accident which happened on the afternoon of Oct. 9.

David Pearlstein, the cigarmaker who was arrested yesterday for contempt of court, was given his freedom this afternoon after making a written apology and paying the cost in his labet suit, the costs amounting to \$125.

May Accept Park Property. The city has at last taken action in regard to the offer of W. D. Platt of a large piece of land in the southwest part of the city, suitable for park purposes.

Mr. Platt, in offering it, stipulated that the city should lay some cement walks and spend at least \$200 per year on it for ten years.

F. R. Martin asked the board to disapprove of the charges that have been made against Ward Foreman Neilligan, and Chairman Sweeney informed him that so far as the board of works was concerned it was thru with the matter, and only left it open for the Trades and Labor Council to take action.

The application made by Lake & Bailey, that a switch be run from the line of the B. & H. on Main-street to the front of the mill, was granted, but only on condition that no cars be loaded or unloaded there before 11 p.m.

Dr. Olmstead was set upon by a thug last night in South James-street, at the corner of Robinson-street, while on his way home, and sandbagged. He was pretty badly used up and was confined to his bed to-day.

Consumption Infringery. The infirmary presented to the consumption sanitarium by J. J. Grifton will be handed over and opened informally Saturday afternoon.

Dr. English, medical superintendent of the Hamilton Asylum, has made arrangements to treat the consumptive insane in a separate building, and will keep them entirely separated from the other patients.

Sergeant Prentice of the police force left this morning for Bermuda in search of health. His friends expressed considerable anxiety. He has been two months' leave of absence.

Joseph Marshall and A. Delber were committed for trial this morning on the charge of stealing 1500 lbs. of pig-iron.

New Lighting Rates. The Hamilton Electric Light Company announced its new commercial lighting rates this morning. The new rate is a combination flat and meter rate.

The current consumed is charged for at the rate of 4 1/2 cents per kilowatt hour, with a discount of ten per cent for prompt payment, with an additional fixed charge, according to the kind of lamp used, as follows: Four candle power lamp, 4 cents a month; six candle power lamp, 7 cents a month; eight candle power lamp, 10 cents a month; ten candle power lamp, 13 cents a month; twelve candle power lamp, 16 cents a month; fifteen candle power lamp, 20 cents a month.

The engagement is announced of Hendrie Leggat, Vancouver, to Miss Gillard, daughter of Mrs. W. H. Gillard.

Brown Discovered. In one of the most prominent stores on North James-street, Hamilton, Brown is discovered as the leading fashion.

Real Estate in Hamilton. For a speedy sale or purchase, with a square deal, consult A. J. Douglas, the reliable real estate broker, 505, Bank of Hamilton Building, Hamilton, Tel. 2173.

Get the Habit—Go to Federal Life Barber Shop, Fred H. Sharp, Cigars, Sleds and Skis, strictly first-class; rates \$1.50; phone 1274, D. Smith Prop.

NEW YORK STOCK MARKET

FURTHER BANK DEPOSITS

Borrowers Secured Portions of Big Loan and Were Allowed Renewals—Situation Clearing.

NEW YORK, Oct. 25.—The stock market reflected an early curb to the exuberance of cheer, which marked the revival of late yesterday from the depths of despair into which it was slipping.

The amount of business done on this basis was surprisingly large, and the amount of cash which changed hands in brokers' offices during the day might afford a clue to the destination of some of the funds that were being withdrawn from deposits with banking institutions.

The number of additions to banking and trust institutions which closed their doors, most of them to check runs, had little effect on market sentiment.

A further deposit of government funds was made with the banks and the abject financial minds continued to devise means for relieving the situation.

The constant evidence of this activity had a soothing effect on apprehension. From the strictly stock market point of view, the day was a record for the loan crowd late in the day supplied by a bankers' pool to the extent of \$15,000,000, and was loaned on call at the rate of 1 1/2 per cent.

There was continued evidence of painful liquidation in isolated stocks today, and the same was true to a greater degree in the bond market.

Some sensational declines on small transactions were thus occasioned. Bond prices were weak. Total sales par value, \$4,566,000.

United States 2's declined 1/8, and the 4's registered 1/2 cent on call.

CLOTHES MADE TO ORDER WITHIN FOUR DAYS

New Departure in the Tailoring of Fine Clothes.

Semi-ready Company Have Perfected the System in the Special Order Department of Their Big Factory.

The special order department of the Semi-ready Tailoring is now delivering suits and overcoats within four days after reception of the order.

The special order work was at first instituted simply to help out the agencies where only a small stock of the "in-labour" garments was carried, but it has now become a feature in the Semi-ready business.

The Semi-ready trade mark and the price is on every special order garment.

In addition to their stock of garments, every Semi-ready store carries a set of sample fabrics, and these are made up and finished to the exact measure of the customer.

ONE DAY IN BUSY BERLIN.

Movement for Canadian Club—A Golden Wedding.

BERLIN, Oct. 25.—(Special.)—H. J. Sims, president of the Berlin Board of Trade, is organizing a movement for organizing a branch Canadian Club here.

Mr. and Mrs. Christian Hopp to-day celebrated the 50th anniversary of their marriage. He is 82 years old and Mrs. Hopp 75. They have lived in Berlin nearly half a century.

Rev. M. L. Wines, and Rev. S. R. Knechtel returned to-day from Milwaukee, where they attended the general conference of the Evangelical Association.

Suit Cases \$2.50

This Autumn Clearing Sale is certainly making business hum for us, and why shouldn't it? The values we are giving simply cannot be overlooked by the man who wants to save on traveling goods.

This handsome Keratol Suit Case is a good example of how prices are being cut. Worth \$3.50, Saturday, \$2.50.

BOLD ESCAPE FROM THE ALMONTE POLICE COURT

On Point of Answering a Question, Prisoner Turned and Bolted Thru the Door.

ALMONTE, Oct. 25.—(Special.)—William Farrell, committed yesterday to stand his trial in Perth on a charge of theft, boldly ran out of the police court this morning in the presence of Acting Chief of Police Anderson and escaped.

Farrell was brought out of his cell and appeared before Police Magistrate Smith to answer another charge of disorderly conduct. The door of the courtroom was open, and Acting Chief Anderson was at some distance from the prisoner.

Farrell was on the point of answering a question put to him by the magistrate, when he suddenly turned and ran out, pulling the door after him. He was too feet for Anderson.

This makes Farrell's fourth escape from police custody.

A. Lang.

Two frame icehouses, the property of the Grenadier Ice Company, on the east side of Morrow avenue, Parkdale, were burned to the ground at 5 o'clock yesterday.

Capt. Tait of Horse 14, Ossington-avenue, fell from the first story of one of the buildings and had his back hurt. He was sent home.

The fire was first noticed by Foreman J. Rule and an alarm was sent in from Box 183.

Four horses and a pony were taken from the big icehouse, which had recently been renovated.

The fire is thought to have been caused by a spark from the smokestack of the Toronto Furnace & Crematory Company, in the rear of the icehouses.

The firemen did splendid work in saving the icehouse of the Furnace Company, which was fiercely threatened.

The buildings were worth \$4000 and were fully insured in three companies.

Big Social Function.

CORNWALL, Oct. 25.—(Special).—A lodge of instruction will be held in the town hall on Wednesday afternoon and evening, Oct. 30, by St. Lawrence District Lodge, I.O.O.F. All the lodges in the district will be well represented, and the different degrees will be exemplified by degree teams from the following lodges: Oriental Lodge, Cornwall; first degree, Regal Lodge, Cornwall; second degree, Letta Lodge, Morrisburg; third degree, Amity Lodge, Prescott. A special train will be run from Brockville over the G.T.R.

WORK DELAYED ON MINT.

OTTAWA, Oct. 25.—(Special).—It had been hoped that the work on the royal mint would have been sufficiently advanced to allow of a formal opening on Nov. 9, the King's birthday, but it is likely that it will be close on to this date.

INNOCENT MAN ELECTROCUTED.

COLUMBUS, O., Oct. 25.—After the electrocution of Albert Davis in the penitentiary today, Father Kelly, who had acted as spiritual adviser to Davis, declared that an innocent man had been electrocuted.

CANADA AND THE CRISIS.

While the present financial strain in the United States cannot fail to be reflected more or less in other countries, it is now evident that it will cause no serious world disturbance.

In a recent editorial The New York Evening Post, far from being despondent over the position, approved the view taken by hundreds of business men who thought they saw "in the rescue of certain banks from domination by promoters and stock gamblers, the promise of a return of all the banks to the traditional and safer methods of an older day."

responsibility that they accept, not only to their clients, but to the country. They can best fulfil that responsibility by "utilizing savings and employing capital so as to secure the steady on-going of mercantile and manufacturing enterprise."

GOOD FOR THE ELECTRIC RING.

Naive in its disregard of the public interest and idyllic in its care for the interests of its friends of the electric ring is The Globe's plan for settlement of the Niagara power issue. Control the electric light company as the gas company is controlled—allow the shareholders their fixed dividend—10 per cent. we presume—and there you are.

ENFORCING THE LAW IN NEW YORK AND CANADA.

The New York statute regulating common carriers and other corporations which control public utilities, not only defines the law, but undertakes to provide for its being enforced.

AT OSGOODE HALL ANNOUNCEMENTS FOR MONDAY.

- Chambers. Cartwright, master, at 11 a.m. Divisional Court. Peremptory list for 11 a.m.: 1. P. B. Smith v. Parsons. 2. Clark v. Hubbard. 3. Darby v. McGregor. 4. McCann v. Martin. 5. Baldwin v. ... 6. Allan v. Place.

Obtained Money.

Charles W. Patterson alleges that William Whitton and William Duncan obtained money from him by fraud. In the writ of habeas corpus, Patterson is claiming \$1000 and costs.

Wants Deposit Returned.

H. H. Williams, Esq., are being sued by James Clark, manager of Toronto, for \$500 paid to the company, as a deposit in respect of the sale of certain parcels of land.

Action Over Property.

Herman Tilton Thompson of Toronto has begun an action against Frederick Skill of Toronto and John Sears of Frontenac county, claiming to set aside a transfer of certain lands in the Township of James, district of Nipissing.

A FRIGHTFUL ACCIDENT.

Woman Burned to Death by Exploding Lamp.

BLACK AND WHITE GOAL.

Editor World: It is understood that the Ontario Government proposes to go into opposition to the existing electric companies for the purpose of furnishing "power" through the country, or, as it is otherwise called, "gas" or "white coal."

THE KINCARDINE REVIEW IS UNABLE TO ACCEPT THE STATEMENT OF THE LONDON POLICE COURT.

The Kincardine Review is unable to accept the statement of the London police court that it has no near in fight. The Review continues: "What, then, remains of the great electoral vindication of the autonomy bills and other acts of the Laurier government, were the instruments of London by-election? All will remember how the election of Mr. Hyman by a majority of over 5000 was used as showing that the people of London approved the acts of the administration."

THE EAST TORONTO LIBERAL ASSOCIATION WILL HOLD ITS ANNUAL MEETING ON MONDAY AT 8 O'CLOCK.

The East Toronto Liberal Association will hold its annual meeting in the I.O.O.F. Hall, Broadview Avenue on Monday at 8 o'clock. Officers for the ensuing year will be elected and addresses will be delivered by Mr. H. Dewar, T. C. Robinette, W. H. Shaw and other prominent Liberals.

EXCISE TARIFF FOR CANADIAN WINE.

Editor World: In connection with your editorial of to-day and reference to the fact that the government will be in need of the \$5,000,000 or so of revenue from imported leaf tobacco, I would like to point out that loss of such might, with wisdom, be at least partially made up by bringing the Canadian wine industry under supervision and an excise tariff, which would tend to do away with "the black eye" now given our wines by unscrupulous and irresponsible manufacturers and dealers in the article.

COMPLAINT STILL IS RECEIVED.

Meanwhile, from many quarters, The World is informed of the tardy arrival of trains, and the great annoyance caused to travelers thru missing their connections.

WANTS DEPOSIT RETURNED.

H. H. Williams, Esq., are being sued by James Clark, manager of Toronto, for \$500 paid to the company, as a deposit in respect of the sale of certain parcels of land.

EATON'S DAILY STORE NEWS

Grand Thanksgiving Festival Week

HUNDREDS and thousands are enjoying to their utmost this great display, with its blaze of lights, its wealth of autumn decorations and the entrancing music, and, most particularly, the big festival in values.

Our stock is larger than ever—bigger assortment and more space—and with only a few days before Thanksgiving, now is the time to do all your shopping. With so much required for the house, your family and yourself, it's your economical duty to shop at Eaton's. But, whether to buy or enjoy the festival, come anyway.

New Vade-Mecum Series of Books

A handy sized well-bound book for 23c.

It would be hard to find better value in books than offered in the Vade-Mecum Series at 23c per volume. We have over 100 titles to choose from, being a carefully selected list from the works of standard authors.

THE T. EATON CO. LIMITED

190 YONGE ST., TORONTO

Just the old story told at the beginning of this campaign, and retold every day—thru traffic from the United States taking precedence of local necessities.

Another phase of the railroad situation is opened up by the following communication from Bowmanville, Ont.:

Editor World: In your agitation for a recognition of the rights of the manufacturers for an improved railway service, you have been moving in the right direction. The manufacturers of Bowmanville have been for many years endeavoring to get the G. T. R. to run a spur from the main line to the town, without success.

George Lynch Staunton of Hamilton, who was at the parliament buildings yesterday, stated that the London election conspiracy cases were ready for trial and will be taken up at the beginning of the session, which opens in this city about the middle of November.

The conspiracy cases will come first, and will probably be called on the 18th. Following will come the perjury charges against Tom Lewis and Jack O'Meara in connection with evidence given at the preliminary before Magistrate Denton.

E. F. B. Johnston will defend O'Gorman, Reid, Mulloy and Wiley, and J. W. Curry will act for Lewis and O'Meara.

HISTORY OF THE JEWS

Rev. Madison Peters Delivers a Most Interesting Address at Holy Blossom Synagogue.

Rev. Madison C. Peters, one of the most prominent clergymen of New York City, occupied the pulpit at Holy Blossom Synagogue last night.

“Wherever Paul looked the present condition and the future of other nations seemed brighter than those of his people,” said the speaker.

“The Jew who measured advantage only by the standard of worldlyness, there was no advantage in being a Jew. In Rome, where the Jews lived only on sufferance, one of the greatest indignities to which they were subjected was to be present at the carnival, where, amid the fives and jests of the attendants, Jews were forced to race with privateers and Barbary horses.

NEW BASIS IS ADOPTED FOR RAISING OF FUNDS

Anglican Board of Missions Change the System of Making Appointments.

A decision of considerable importance in connection with the raising of funds by the Anglican Church in Canada for mission purposes was arrived at yesterday when the board of missions decided to make a radical change in the apportioning of claims on dioceses by increasing the western assessment about 75 per cent.

This scheme of readjustment will distribute ratings on the same proportions, etc. It was felt by the board that the east had been doing all that could be expected, and that the desired increase of funds should be provided by a section which has up to the present been somewhat favored.

The scheme adopted is as follows: Alberta, 2347; Athabasca, 2100; Columbia, 2850; Calgary, 2275; Columbia, 2100; Fredericton, 2475; Huron, 2100; Keweenaw, 2100; Kootenay, 1774; Ontario, 2400; Ottawa, 2750; Quebec, 2750; Qu'Appelle, 2100; Rupert's Land, 2100; Saskatchewan, 2111; Toronto, 2100; Yukon, 2100.

It was decided to add to the grants \$2000 for Mackenzie River, \$2000 for Athabasca, \$500 for the Yukon, \$1000 for Columbia.

Rev. W. C. White's proposal for a mission sphere in China will be reported upon by the executive committee.

Support was promised the new policy of evangelizing and civilizing the Eskimoes, including the adoption of a permanent central station, as presented by Rev. E. J. Peck.

The next meeting of the mission board will be held at Toronto in April.

There is no doubt now that young Joseph Stammer has been drowned in the lake.

Yesterday a searching party found his canoe floating bottom up near the beach, east of the Scarborough Bluffs.

There was a hole about the size of a man's hand in the bottom of the craft, which had been caused by the discharge of a shotgun.

Whether Stammer himself was injured or whether he simply perished when the canoe filled will not be known until the body is recovered.

His friends believe that had he not been seriously hurt he could have swum to the shore.

The searchers were in a launch, kindly loaned by the Methodist Missionary Society, who are always willing to give any assistance that their motorboat can render, and when hurrying back the craft struck a submerged rock and was so badly strained that she filled, the party of five having to wade thru water to land.

The Schofield Company was notified, and the speedy “Miss Fidgety” was sent to the rescue and removed the wrecked launch to the docks.

Plumbers Met. The plumbers held another mass meeting at the Labor Temple last night, when it was reported that two more employers had conceded the men's terms.

There are now only 10 men out, and it is expected the other employers will come to terms within the next few days.

ESSEX TO BE READY BY WEDNESDAY—THREE CITIES ARE INFORMED.

Hon. Adam Beck, who reached town from Temagami yesterday morning, was engaged during the day with the engineers at the offices of the Hydro-Electrical Commission in preparing the estimates of the cost of distributing power to the municipalities who have asked for it.

The municipalities who have asked for it are Hamilton, Stratford and Gait, who have applied for this information to have it forwarded, while the estimates for all the other municipalities which passed bylaws on Jan. 1 last in favor of government power transmission have been practically completed, and will be sent them as soon as application is made.

It is understood that the estimates for the municipalities are less than \$50,000, based on copper wire at 25c a pound, a figure now greatly reduced.

In the case of this city, the question of distribution cost was referred to City Engineer Rust, to Messrs. Smith, Kerry & Chase, engineers, Mr. Chase stated last evening that they are making an estimate of the cost of power transmission in the hands of the city engineer on Wednesday next. They are engaged in preparing a present report, according to instructions, are covering the field very completely, but have not yet reached the ultimate figures.

The report which will be based on power bylaws were Toronto, Berlin, Brantford, Hamilton, Guelph, Gait, Hespeler, Ingersoll, London, New Hamburg, Ottawa, Preston, Port Arthur, Paris, Stratford, St. Marys, St. Thomas, Toronto Junction, Weston and Waterloo. Ottawa's problem has been solved by the city engineer, and Port Arthur is now taking steps to provide its own supply of power.

On Wednesday last Messrs. Smith, Kerry & Chase, engineers, of this city, were engaged to take charge of the work of developing power at Silver Falls for the City of Port Arthur. Estimates will be prepared for a present capacity of about 6000 horsepower and for an ultimate capacity of 30,000 horsepower.

The head of water at the falls is about 200 feet, and power will be transmitted 25 miles. The Hydro-Electrical Commission's estimate last spring of the cost of developing 6800 horsepower at Port Arthur was \$619,700.

THE WORLD'S HOME MAGAZINE FOR WOMEN EDITED BY LAURA E. McCULLY, B. A.

OCTOBER.

O dear, clear October, Cold hand and fire heart, When there's frost on the meadow the heartstone's warm.

O clean, strong October, You're sunny and you're wholesome, And I'd rather kiss your cool lip than June's warm mouth.

O ruddy-cheeked October, Blue's your eye and fresh like morning, And your hair blows like the sunset with a yellow maple flame.

O night of October, You smell all nuts and apples, And I see the moon like fire between the haystack and the barn.

O wayward, sweet October, There's wine and there's cider, And the sun strolls thru the day with his eye half shut.

Then love me in October, When the air is like champagne, And the life that's falling in the leaf is rising in the blood.

Worcester, Mass. —Frank Crane.

"Lady Meds" Admitted to the Medical Society.

A long-standing obstacle to the good-fellowship now existing between the men and women of the Medical College has been at last removed.

This year the lady medics are admitted to the privileges of the class society and have been duly installed by the gallant Varity medics as members in full standing.

The occasion was fittingly celebrated, we are told, with a trip to the theatre, followed by a triumphant procession home, while the fellows gave the yell and enquired most solicitously what was the matter with the lady medics.

No one was found of sufficient tenacity to disagree the case, and so all went peacefully.

As most people know, the admitting of women to the class societies at Varity took place some years ago.

But unless we are misinformed, no one has ever regretted it. All of the grads remember with pleasure their merry times at class meetings, where they debated and sang "Toronto" and met their fellow-students on the basis of common interests.

That the women of the Medical College have been so long excluded is probably due to their small numbers, and we are glad, at any rate, that that day is over.

We compliment the young women, and one in particular, who led the movement on the feeling of "esprit de corps" which they have showed and their tact in carrying on the necessary negotiations.

They will, without doubt, never forget at any future time to show unflinching loyalty to Alma Mater to the interests of the student body as a whole, and absolute fidelity to the body which has taken them in.

It is "fun to" the women of our college to show that they are not half-hearted in their sentimentality, but that they are as capable as the men, and that their likes are neither frivolous nor selfish.

They will live up to their obligations, support the organ of their college, advancement in honors, standing and renown.

C. H. E. Association.

The program of meetings of the Canadian Household Economic Association to be held during the coming winter has been completed.

Meetings are held in the Normal School Theatre on the second Tuesday of the month at 8 p.m.

The speakers will be: Nov. 12—The Water Supply, by J. A. Amyot, provincial analyst, lecturer at Toronto University.

Dec. 10—Current Events, a Review of 1907, by W. E. Macpherson, B.A., LL.B.

Jan. 11—Ethics and Self-Culture, by Prof. F. Tracy, B.A., Ph.D., University of Toronto.

Feb. 11—Canadian Literature, by Miss Warnock (Katherine Hale).

March 10—Is the Higher Education Necessary for Women? by William Scott, B.D., principal Toronto Normal School.

April 8—What is the Real Emancipation of Women? by Rev. R. J. Hutcheon, M.A.

May 8—The Physiology of Dietation, by W. Warner Jones, B.A., M.B., F.R.C.S.

All those interested in these subjects are cordially welcomed, no fee being charged. Membership, with use of library, is 20 cents per annum.

Personal.

The ten given yesterday afternoon by Mrs. William and Mrs. E. A. Badenach was a delightful social event, when over 100 guests called to do honor to the bride, who was crowned in delicate blue voile with trimmings of old point, while Mrs. William Badenach wore black silk eolienne with garter-pleated cream lace.

The rooms were prettily decorated with yellow chrysanthemums and Killarney roses, and Prof. Jennings with his orchestra added much to the enjoyment of the reception.

Mrs. J. M. Wilkinson and her sister, Mrs. Short, with the Misses Wilkinson, left yesterday for Germany, where they will spend the winter. Miss Winifred Wilkinson will study music at

Leipzig, Mr. J. M. Wilkinson will remain in Toronto, having rented a house at 35 Spadina-road for a year.

One of the most interesting events of the season took place on Thursday evening at the Victoria Club-house on the club was given.

The older set were present, besides the chaperones, and some very elaborate debutantes were among the dancers.

Several including Miss Madeline Walker, whose girlish beauty appeared to great advantage in a simple gown, of white silk, with lace bertha and scintillating scarf of silver sequins, with a silver ornament in her blonde hair.

Miss Pearl Wynn, from Goderich, was another dainty blonde, also in white. Miss Hazel Nicholls wore white French lace with silk applique of roses and a Spanish wreath in her hair.

Misses wore white lace and Misses Cosby also wore white. Miss Evelyn Taylor was very striking in white messaline silk with bouquet of American beauties.

The Misses Mortimer Clark were present. Miss Clark in white satin, touched with lace net over silver and pink.

Misses wore white French lace with silk applique of roses and a Spanish wreath in her hair.

Misses wore white lace and Misses Cosby also wore white. Miss Evelyn Taylor was very striking in white messaline silk with bouquet of American beauties.

Among those who took part in the set of honor were: The Misses Mortimer Clark, Miss Minnie McMurrich, Mrs. Frank Cowan, Mrs. Harton Walker, Mrs. Frank Arnold, Mr. Harton Walker, Capt. Wilson, Mr. Wilson, Mr. Arnold, Mr. W. D. Ross, Mr. Arnold.

Mrs. Taylor wore black sequined net. Mrs. Taylor was in pink. Mrs. Pentecost wore a French voile in black and white, with crushed Dresden rose.

Mrs. Chadwick was in pale pink crepe. Miss Muriel White in yellow. Miss Cosby, pale blue. Miss Muriel Cronyn, pale yellow chiffon. Miss Mabel Lennox, white. Miss Constance Pentecost, a Dolly Varden organdie.

Miss Florence Bell in white. Miss Amy Sinclair was in pale blue and Miss Aileen Sinclair in pink. Miss Muriel Jarvis, pale pink organdie and pink.

Mrs. Jim Foy, apricot Empire gown. Miss Pauline Foy looked smart in white lace and embroidery. Miss Chadwick also wore a black gown.

Miss Winifred Evans, white dress; Miss Edith Holland, a becoming blue dress and silver wreath. Miss Dorothy Graham was in white. Miss Edith Cross, white dress.

Miss McGill, white and crimson roses. Miss Brenda Smelle, apricot silk bouquet of white carnations. Mrs. J. A. M. Allen, pink. Mrs. W. S. Scott, black point d'esprit and jet grey ostrich stole.

Mr. and Mrs. Bush, Colongue, the Misses McMurrich, both in white. Misses Eva Miles, white guipure. Miss Mary Miles, pale yellow and violets.

An interesting musical event of

Thursday night was the annual concert at Massey Hall given by the College of Music.

An acceptable program was rendered, the numbers being too numerous to mention at length. The young ladies who took part were: Miss Clina Duffy (instrumental), wearing dainty white silk frock; Miss Dorothea Byrne in white lawn, also instrumental; her rendering very brilliant. Miss Nellie Byrne, a promising contralto, followed with "The Lost Chord." She was wearing white satin, trimmed with gold sequins.

Miss Mabel Toynard gave a tasteful interpretation of Mendelssohn's "Andante." Miss Evelyn Dorothea, a soprano of unusual clearness, sang Chopin's "Allegro Molto" and "Mene Mossa." Wednesday's Schopauy, contralto, sang "Ah! Sestino Ma Pure il Cor." She was becomingly gowned in white point d'esprit.

Miss Margaret Casey, E. Strand and "All Forse Lui." She was gowned in white net. Tachalkowski's "Andante Troppo" was rendered by Miss Dolle with much effect. She is an exceptionally talented young pianist.

Mr. Harold Meler, bass, followed with "Do the Nations?" by Handel. His enunciation was especially good. Miss Mamie McDonald's playing showed excellent technique. She was becomingly gowned in white silk.

The instrumental accompaniment to the meaning rather difficult of apprehension. On the whole, however, the concert showed a brilliant variety of talent. Dr. Torrington is to be congratulated upon his success.

The friends of Dr. Ellen Burt-Sheratt will be pleased to learn that she has returned to the city after her rest of five years and has taken up her practice at 9 La Plaza, corner Charles and Jarvis-street.

Mrs. John McKee, formerly of Peterboro, is in her new house, 31 Bloor-street, and will receive the second party in November and during the season.

An interesting event took place in St. Mary's Church, Bloor-street and Delaware-avenue, Wednesday evening, when the marriage was solemnized of Miss Lillie Young, daughter of Mr. H. Young, and Mr. Harry McCarter, Belfast, Ireland.

Rev. Mr. Harte officiated, assisted by Rev. Harry Young, brother of the bride. The bride, who was given away by her brother, Mr. Alexander Young, wore a dress of white silk, with lace train and tulle veil, with a coronet of orange and white flowers, and carried a bouquet of white roses. Her bridesmaid, Miss Reid, wore a dress of white silk, and carried a bouquet of chrysanthemums.

Mr. Harry Reid supported the groom. After the ceremony Mrs. Young received the guests at her residence, Margaret-street. Later in the evening Mrs. and Mr. McCarter left for their honeymoon in the United States. The bride and bridegroom were the recipients of many valuable and useful presents.

The Lieutenant-Governor and Lady Mortimer Clark attended the annual inspection, prize-giving, and at home of the Royal Grenadiers at the armories on Thursday night, and the latter graciously presented the awards won at the annual rifle match afterwards.

Lieut.-Col. and Mrs. Goderich received in the officers' quarters, where refreshments were served on tables decorated with chrysanthemums and American Beauty roses. Lady Clark, who was wearing dark green velvet and lace, with small velvet toque, presented with a lovely bouquet of

Why Complain About The Price of Meat?

Fish is healthier and much more palatable if you get the right kind and have it cooked right.

ACADIA CODFISH

in clean, wooden boxes, 2 lbs. in a box, is largely used by the most particular people in Canada. It is nothing but pure ATLANTIC CODFISH, very lightly salted and all ready for the cook.

mauve orchids and lilies of the valley, on behalf of the regiment.

Capt. and Mrs. Charles Boone arrived from England on Sunday, and will be with Mr. and Mrs. Boone in Bloor-street until they take up housekeeping for themselves in Elmley-place.

The hounds meet this afternoon at 2.30, at Gates' Hotel, Newmarket. Next Tuesday the meet will be at Todmorden at 2.30, and the Thanksgiving Day hunt will be at 11 in the morning from The Kennels, Scarborough.

Col. Sir Henry Pellatt, A.D.C., and the officers of the Queen's Own Rifles have sent out invitations for the regimental inspection and presentation of shooting prizes at the armories on Wednesday evening next.

Announcement has been made among friends and relatives of the engagement of Miss Mary Hagarty, daughter of Mr. Dr. Morton Jones, son of the Rev. Septimus and Mrs. Jones.

RESTLESS BABIES.

If your little one is restless and cross it is more than likely the trouble is due to some derangement of the stomach or bowels, and if Baby's Own Tablets are given the child will soon be bright and cheerful, and when the mother gives her child this medicine she has the guarantee of the government analyst that it contains no opiate or poisonous drug.

Dr. J. E. Loney, Allanford, Ont., says: "I have used Baby's Own Tablets for constipation and other ailments of children and have found them more satisfactory than any other form of medicine." Sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

WORLD'S DAILY FASHION HINT

The straight up-and-down lines which mark the smartest styles this season are well shown in this coat. It was imported recently from Paris, and was made by one of the best-known houses there. The material is brown calfskin, with a vest of cream white cloth, decorated with bands of Indian embroidery and small gilt buttons. The lining is of brown, gold and white satin brocade, and shows on the turned-back portions of the sleeve and coat are edged with sable fur. The trimming bands on the sleeve and coat are brown broadcloth, stitched about a quarter of an inch from the edges, which are left unfinished. The hat has a brim of yellow satin and a crown of sable, and is trimmed with a band of beadwork and roses.

PEOPLE MUST FOLLOW UP ADVANTAGE WITH NEW LAW

Have Asserted Public Supremacy and Now Must Have Non-Partisan Commission.

CHICAGO, Oct. 25.—To-day's sessions of the National Civic Federation were given over to 5 minute talks by business men. The committee on resolutions reported as follows: After twenty years of federal legislation, as interpreted by the court, directed against the evils of trusts and combinations, and against railroad rebates, beginning with the Interstate Commerce Act of 1887, and the Anti-Trust Act of 1890, a general and just conviction exists that the experience gained in enforcing these federal acts and others succeeding them demonstrates the necessity of legislation which shall render more secure the benefits already gained and better meet the changed conditions which have arisen during a long period of active progress, both in the enforcement of statute law and in the removal of grave abuses in the management of railroads and corporations. These changes now demanded are: (1) Immediate legislation is required, following the recommendation of President Roosevelt and the interstate commerce commission, permitting agreements between railroad corporations on reasonable freight and passenger rates, subject in all respects to the approval and supervision and action of the interstate commerce commission.

(2) The enforcement of the Sherman Act, and the proceedings under it during the administrations of Presidents Harrison, Cleveland, McKinley and Roosevelt, have accomplished great national results in awakening the moral sense of the American people, and in asserting the supremacy and majesty of the law, thus effectually refuting the impression that great wealth and large corporations were too powerful for the impartial execution of law. This great advance has rendered more secure all property rights, resting, as they must, under a popular government, on universal respect for and obedience to law. But now that this work is accomplished it has revealed the necessity for the legislation which shall maintain all that the Sherman Act was intended to secure, and safeguard interests it was never expected to affect.

As the next step in executing the determination of the American people to secure in all industrial and commercial relations justice and equality of opportunity for all, with full sympathy and loyal support for every effort to enforce the laws in the past, we urge upon congress, without delay to pass legislation, providing for a non-partisan commission, in which the interests of capital, of labor, and of the general public shall be represented.

This commission, like a similar commission, which proved most successful in Germany in 1870, shall consider the entire subject of business and industrial combinations, and report such proposals as to the formation, capitalization, management and regulation of corporations (so far as the same may be subject to federal jurisdiction) as shall preserve individual, initiative competition and the free exercise of a free contract in all business and industrial relations.

WESTERN HOSPITAL

Governors Will Ask Public to Donate \$25,000.

At the annual meeting of the Toronto Western Hospital, Thomas Crawford, M.L.A., occupied the chair, and Dr. John Ferguson acted as the secretary.

Dr. Gullen, the treasurer, reported the income for the year as \$48,307.07, an increase of nearly \$500, but the demands upon the hospital have increased in even a greater ratio.

Dr. James McCullough, who has acted as medical superintendent for many years, reported that the total number of patients admitted during the year 1888 during the previous year staff now consists of a lady superintendent, a head nurse, forty-nine female nurses, two matrons, three house surgeons and a bookkeeper and stenographer and sixteen other employees.

Dr. John Ferguson, the secretary, referred to several changes which had been effected during the year that would improve the income of all of the hospital.

The hospital has now accommodation for 140 patients at prices ranging from \$4.50 to \$20 per week. Eleven years ago the hospital was started in a rented house with only accommodation for seven patients.

The governors will ask the public now for \$25,000 for necessary additions and improvements. They also wish to thank the many friends of the hospital who have so generously assisted it in the past. Whenever a special appeal has been made in the past for funds for special objects there were those who were ready to give. It is confidently expected that this occasion there will not be lacking those who will give.

The governors of the Western Hospital are E. B. Osler, M.P.; Hon. Thomas Crawford, M.L.A.; Herbert Langlois, Randolph Macdonald, J. W. Corcoran, David Fasken, H. C. Tomlin and Drs. James McCullough, J. B. Cullen, A. S. Macdonald, J. Ferguson, H. A. Beatty and Price Brown.

THE LATE MISS GEESEON.

Editor World: As there appeared a recent issue of your paper an appeal for subscriptions to defray the hospital expenses of the late Miss Earle Geeseon, will you kindly allow me thru your columns, to express, on behalf of the brother, and sisters of the deceased, their appreciation of such and all who responded to this appeal? These members of Miss Geeseon's family would gladly have pledged themselves to supply the funds necessary for her care and comfort, as they had provided for her in illness and weakness before, but they were unaware of her sad condition until a few days before her death was announced. It was a great consolation of dire necessity to feel that in her time of need they were able to contribute to the expense of her care, and that she had been in public service by the expenditure of much precious

Queen Quality "AUTO BOOTS" \$5 CUSTOM GRADE. THE last word of fashion is the new "Queen Quality" Auto Boot. Note the extra high top. How appropriate with the prevailing short skirt! But be sure you get the "Queen Quality" brand. It is sold only here. That name guarantees quality. It is worth a million dollars. And every dollar of this reputation is behind your single purchase. SPIRITUALISTS GO TO TRIAL

Howland and Rynek Couples Committed on Fraud Charge.

Mr. and Mrs. Clarence Howland and Mr. and Mrs. Samuel Rynek were yesterday committed for trial on a charge of defrauding the public by means of spiritualistic seances.

Mrs. Lowe, the crown witness, said she had gone to the Howlands and that someone, supposed to be Mr. Lowe's mother, had been "materialized."

"The spirit called me 'Lenna,' which is the name my mother-in-law used to use. She also gave me a message."

MOTHERS MUST HAVE ABUNDANT STRENGTH

No Mother Can Rear a Healthy Child Unless She is Strong Herself.

A woman's anxieties multiply ten-fold about the time the new baby is expected. If her strength is exhausted and her blood weak, it goes hard in the hour of trial.

Ferrozone should be used because it makes the blood nutritious and rich. By instilling new strength into every part of the body, it uplifts your spirits at once.

Childbirth is certainly made easier by Ferrozone. The following statement expresses the earnest gratitude of Mrs. M. E. Duckworth of Durham. It is a woman's story—of her own case—told that other women may profit by her experience.

"Before baby was born I was in a weak, miserable, nervous state. I had no reserve strength. I tried to build up, but nothing helped me. I looked upon the coming day with dread, knowing I was unequal to the occasion."

"Ferrozone braced me up at once. It gave me strength and spirits, brought back my nerve and cheerfulness. From my experience with Ferrozone I recommend it to all expectant mothers."

There is more concentrated nourishment from anything else. It supplies what weak systems need. Simply take one tablet at meals and you'll feel benefited in a thousand ways.

Ferrozone makes healthy, virile, vigorous women; try it. 20c. per box of fifty tablets, or six for \$2.50, at all dealers.

WINDING UP "WIRELESS"

De Forest Company's Premises in Possession of Bailiff.

A winding-up order has been made against the Dominion De Forest Wireless Telegraph Company, whose headquarters are in Montreal, at the instigation of E. W. Humphrey, promoter of the company, on a claim for salary and fees.

The company have an office in the Home Life Building in this city, and as they were several months in arrears with the rent, a bailiff was put in possession yesterday.

The company was incorporated on Feb. 28, 1906, with a capital of \$1,200,000 and a directorate composed of Montreal, St. Louis and New York men. Considerable of the stock was sold, and the list of shareholders numbers from 150 to 200. There are, however, few Toronto people concerned.

WEARY OF KNOCKING.

MELBOURNE, Oct. 25.—Premier Deakin is angry at Germany's cavalier treatment of the claim of Burns, Phillip & Co. for illegal actions by the German commissioner on the Marshall Islands. He claims it is a violation of British treaty rights. "For a diennium," he said, "we have been knocking at the door of the German foreign office seeking redress in vain."

DEATHS IN THE CITY.

Deaths registered at the city hall yesterday were:

Rachel Grelman, 10 years, mitral disease.

Richard Kirby, 1 year, pneumonia.

Reggie Hollingshead, 1 year, ilio-colitis.

Dorothy A. Blyth, 16 months, whooping cough.

Harrison, stillborn.

Ellen E. McDonald, 55 years, rupture of cerebral artery.

Jennie Spink, 4 days, convulsions.

Violet Spence, 17 years, rheumatism.

Thomas Cronan, 75 years, cerebral hemorrhage.

Josephine Shea, 28 years, general toxemia.

Annie Emma Hardy, 3 months, premature birth.

Passengers on Victorian.

LONDON, Oct. 25.—(C.A.P.)—The Victorian steamer sailed today. Among her passengers are Capt. G. N. Cory, Sir George Dashwood and T. H. Gault and family.

WOOD'S PHOSPHODINE

It is the only medicine that cures all the ailments of the nervous system, such as Debility, Mental and Brain Weakness, Nervousness, Sexual Weakness, Emissions, Sleeplessness, and Frets of Abuse or Excess. Price 25c. per bottle, six for \$1.50. One will please, all will cure. Sold by all druggists, or mailed in plain package on receipt of price. *See pamphlet.* The Wood Medicine Co., Toronto, Ont.

CITY CAN'T RAISE MONEY TO BUILD TRUNK SEWER

Controller Hubbard Thinks Tightness in Money Will Prevent Successful Flotation.

The board of control yesterday received the joint report of City Engineer Rust and Dr. Sheard recommending a system of sewage disposal and water filtration at an estimated cost of \$5,120,000 with details as already published.

The stand taken by the mayor that the board should at once discuss the matter and report to the city council on Monday was opposed by Controllers Ward and Hubbard. The latter declared that there was still lack of definiteness in the proposal, as there was a possibility of opposition from residents in the vicinity of the Woodbine that would prevent the land necessary for the project from being acquired. He held that the money could not be raised, even if the bylaw carried, owing to the tightness of money.

The suggestion of Controller Hocken that both Dr. Sheard and Mr. Rust had "conceded something" in coming to an agreement, drew from the former a denial. The present plan, he asserted, was one for which he had always contended, including water filtration.

On Controller Ward's motion, it was agreed to hold a special meeting of the board on Tuesday to consider the matter.

Dr. Sheard says he is confident that the new trunk sewer bylaw will carry. Change of Boundary.

A change, the not one of a material kind, was made in the boundary line of the northern district that it is proposed to add to the city. The boundary will include 200 feet of the property north of St. Clair-avenue. On reaching the south boundary of North Toronto, the boundary is followed to a point 200 feet east of old Yonge-street, bringing the line down through the property of the late Robert Park property at Centre Island.

Other industries in sight.

Should the Mackenzie-Mann syndicate establish the big ironworks in Ashbridge's marsh, it is probable that other industries may locate here, as Commissioner Thompson has had communications from a number of United States firms, which will come to Toronto if the smelter is installed.

Manager W. H. Moore of the York Radial says that the company is still determined not to accept the city's terms for entrance into Toronto.

CHATHAM CENTRAL BAPTISTS

Have Purchased Primitive Old Place of Worship.

CHATHAM, Oct. 25.—(Special.)—For over a quarter of a century a livery stable and otherwise a general purpose building, the old Primitive Methodist Church, on the corner of Centre-street and Wellington-streets, opposite Harrison Hall, is once more to become a place of worship.

It is understood that a deal was put through this morning by which Proprietor S. Johns, who is at present conducting a livery stable on the premises, disposed of the building to the congregation of the New Central Baptist Church for \$2500.

The Central Baptist congregation, which is made up of young people who separated themselves from the William-street Baptist Church, in the possession of their new place of worship in a modelled and fitted up in modern style.

The pastor of the Central Baptist is Rev. A. G. Condon, executive officer for the Children's Aid Society, who created a sensation a short time ago through the search he made in some questionable houses for children under age.

GIVES VALUABLE ADVICE.

Simple Home Recipe Said to Do Wonders for Many Here.

A well-known authority says that Backache is often nature's danger signal, which notifies the sufferer that the kidneys are sick.

The following simple home-made mixture is said to relieve backache and cleanse and build up weak, disordered kidneys, if taken before the stage of Bright's disease. Fluid Extract Dandelion, one-half ounce; Compound Sarsaparilla, well in three ounces. Mix by shaking well in a bottle, and take in bed-time.

Well-known local druggist is authority that these ingredients are mainly of vegetable extraction and harmless to use, and can be obtained at all outlets from any good prescription pharmacy. Those who think they have kidney trouble or suffer with lame back, frequent desire to urinate, especially at night; painful, thick, discoloured urine, etc., should give this prescription a trial, as no harm can possibly follow its use, and it is said to do wonders for many people.

DEBATE AT LABOR TEMPLE ON TAXES AND THE MAN

A debate will take place at the Labor Temple on Sunday afternoon between W. J. Douglas, Single-Taxer, and F. J. Peel, Socialist.

Former will contend that the worker is burdened by taxation, and the latter will think they do not. It would not make any difference if the worker were to be taxed at all, as long as the worker only get a living in any case so long as capitalism lasts.

An open discussion will follow the address.

COAST LINE SHOPS CLOSED.

MONTGOMERY, Ala., Oct. 25.—The Montgomery shops of the Atlantic Coast Line, employing 300 men, and with a monthly payroll of \$18,000, were closed yesterday. Master Mechanic Pearson said this order was due to a strike by the force employed at the shops of the Western of Alabama Railroad has been reduced to twenty-five men.

The TITLE and TRUST COMPANY

make a distinct feature of Title Insurance—something entirely new for Canada. It maintains a staff of trained specialists and gives its clients an absolute guarantee of title, backed by a large, responsible corporation. Owners of real estate and anyone thinking of buying property should send at once for descriptive booklet, which gives substantial reasons why every title should be insured.

WIRELESS IS RAPID REPLY FROM IRELAND WITHIN FIVE MINUTES

SYDNEY, N.S., Oct. 25.—The New York World correspondent made today a test of the Marconi transatlantic wireless telegraph system.

Arrangements had been made by cable that The World correspondent should be at the Port Morien, Cape Breton, station on this side of the Atlantic and a London Daily Mail correspondent should be at the Clifden, Ireland, station, on the other side, and that they should exchange messages written on the spot and timed.

The feat of transmission is so marvelous that it is not surprising that the public has been sceptical and the air of mystery that so long surrounded the matter only increased that feeling, although the seeming mystery was only precaution to prevent secrets from being stolen.

The towers are so situated that out-liers would find it difficult to approach, but it was in an exactly similar place that a man who professed to be Marconi's friend stole some of his ideas and plunged him into litigation from which he is not yet free.

All mystery was dispelled to-day. Every nook, every corner and every room was open for inspection.

The World correspondent, who was a cable operator for five years, found Mr. Marconi willing to answer all questions.

Messages Exchanged.

Finally the correspondent asked Mr. Marconi if he was ready for a test. The inventor answered that he was. Then the correspondent stepped to one side, and it being later than the hour agreed upon for the test, wrote the following message, timed 11:40 a.m.:

"Sorry to keep you waiting, but Ireland is a good place to stay. Kind regards."

The paper was folded up so that no one could see it and passed to Mr. Marconi, who handed it unopened to Mr. Johnston, the operator.

Mr. Johnston immediately called Clifden, making the letters "Cdn." the signal for that station. After calling twice he proceeded with the message. The World correspondent followed the transmitting letter by letter, word by word, and can vouch that the message handed in was flashed out by the apparatus.

As soon as the signaling had been finished, the correspondent and the operator went to the receiving room. There Mr. Johnston adjusted the receiver, and at 11:45 a.m. handed to his message.

"Don't mention it. Fine as silk."

The whole thing had not taken the message slowly, say at the rate of ten or twelve words a minute.

Sending 3000 Words a Day.

Mr. Marconi said afterward:

"The Port Morien station is transmitting to Ireland about 3000 words a day."

From Port Morien I intend to go to New York, where I am to lecture before the Society of Electrical Engineers. I have had much trouble with delays on the land wires, and it is my intention to put in a private wire from Cape Cod to New York and relay all messages wireless station."

"Can you work between Port Morien and Cape Cod now?" he was asked.

"Oh, yes," he answered. "That's easy. You see, we have to do something to get our messages thru on time, and if the cable companies intend to hamper us in our work I have my plans that will overcome the trouble, but I hope we shall get along well together."

A FISHERMAN'S LUCK

Weak, Worn and Almost in Despair to His Rescue.

When Dr. Williams' Pink Pills Came to My Aid.

"My strength was almost gone, my breath very short and I could hardly walk. I used many remedies, but they did not help me. Finally a friend advised me to take Dr. Williams' Pink Pills. I did so, and to-day, thanks to the pills, I am a perfectly well man."

This very emphatic statement is made by Mr. R. L. Porter of Mattland, N. S., Mr. Porter is a fisherman, subject to much exposure. He further says: "I was in a state of debility and bloodlessness. Sometimes I was too weak and miserable to do so. I was wakeful and restless at night and could not get in the morning. I was troubled with pains in my back and shoulders, sometimes I could hardly straighten up. Then indigestion came to add to my misery, and my condition was one that made me almost hopeless. I tried several medicines—but in vain. Then one day a friend said, 'Why don't you try Dr. Williams' Pink Pills?' I tried them and I shall always be grateful for them. In a short time I began to regain my health. I could eat better, and could eat any kind of food. My strength returned. I could attend to my work. I was in fact perfectly well when the pills actually due to Dr. Williams' Pink Pills."

Dr. Williams' Pink Pills build up the strength and drive out disease in just one way—they actually make new red blood. That is all they do, but they do it well. They don't act like the like common pills that growling girls with mere symptoms, they go right to the root of the trouble in the blood. That is why they cure anemia, with all its headaches and backaches and dizziness and heart palpitation. That is why they cure indigestion, rheumatism, neuritis, St. Vitus' dance, general weakness and the special ailments that growing girls and women do not like to talk about.

Insist on getting the genuine. But you must insist on getting the genuine pills with the full name "Dr. Williams' Pink Pills for Pale People" on the wrapper around each box. Sold by all medicine dealers or by mail at 50c a box, six boxes for \$2.50 from The Dr. Williams' Medicine Company, Brockville, Ont.

JUVENILES WERE DEPOSITORS

Treated as Such by the York Loan Officials.

Referee George Kappeler yesterday returned the hearing of the juvenile claims against the defunct York Loan Company.

The evidence given tended to confirm the contention of the claimants that they were really depositors and treated as such by the company, who paid out, whenever a demand was made, quite regardless of rules or bylaws.

The further hearing was adjourned until Friday next, when counsel will argue the points raised.

TENTH ANNUAL CRUISE TO THE MEDITERRANEAN

Many Great Advantages Are Offered on the Trip.

From N. Y. Globe, Oct. 21, 1907.

One of the most comprehensive and attractive trips leaving the United States this winter is Clark's tenth annual cruise to the Mediterranean and the Orient, leaving New York Feb. 6, 1908, by the specially chartered steamer Arabia. The Arabia is one of the largest and finest and steadiest steamers in the world and is specially adapted for a cruise of this kind, where the steamer is practically one's home for several weeks. A discriminating portion of the traveling public has long been familiar with the many great advantages offered by these cruises, and by its patronage has shown its appreciation of the trip.

Among the many places to be visited are Madeira, Cadiz, Seville, Granada and the Alhambra, Jerusalem, Alexandria, Cairo, the Nile, Naples, Pompeii, Rome, Nice, Monte Carlo, etc.

The duration of the cruise is seventy days and the price is from \$400 up to \$875, according to location of staterooms, etc. The rate, however, includes shore expenses, excursions, hotels, carriage drives, guides, etc. The arrangements throughout on land and on sea will be of the highest class.

CHANNEL FERRY SCHEME.

LONDON, Oct. 25.—Sir Charles Rivers Wilson, president of the G.T.R., speaking to Lloyd-George on behalf of a deputation seeking to further the channel ferry scheme, said there were seventy-eight of such ferries in operation. His own ferries on Lake Michigan worked exceedingly well. They never had an accident, even on a passage of eighty-five miles under the severest conditions of a sea fog.

DR. GILLETTE DENIED BAIL.

NEW YORK, Oct. 25.—Dr. Walter R. Gillette, formerly vice-president of the Mutual Life Insurance Company, who yesterday was convicted of perjury and remanded to the Tombs, was denied bail by Justice Dowling in the supreme court to-day.

Cheese Markets.

NAPLES, Oct. 25.—Eight hundred and thirty-five colored, 300 white cheese boarded; 12 1/2c bid; no sales on board; most sold on curb at 3c.

PERTH, Oct. 25.—On the Perth cheese market to-day there were 775 boxes white cheese offered. All sold subject to Brockville ruling. Usual buyers present.

Catarrh of the Head

Is very common, but awfully dangerous because it causes deafness and leads to consumption. Cure is as certain to follow the use of Catarrhazone as day is to follow night. You simply breathe the fragrant, healing Catarrhazone which spreads through the nasal passages, throat and lungs. Driving out every vestige of catarrh. "It was cured through" writes Ernest M. Wilkinson of Laurenceton, "after many years of misery by Catarrhazone, which is a splendid remedy to keep the air passages free from mucus." Catarrhazone sells for \$1.00, which buys a complete outfit. Sample size 25c.

NEWS FROM LISKEARD.

Aerial Navigator Forming Syndicate to Build Ship.

NEW LISKEARD, Oct. 25.—(Special.)—It is "in the air" that New Liskeard may be the scene of some of the most interesting experiments in aerial navigation.

The pleasure steamer "Winnipeg" is the property of the Upper Ontario Steamboat Company.

The extensive additions being made to the Canada Hotel by the proprietor, W. T. Lawless, formerly of Ottawa, are nearly completed.

The meeting of the town council on Monday evening the merchant petition for an amendment of the early closing bylaw was considered.

The meetings of the local board of trade are lately increasing in interest.

At the meeting of the town council on Tuesday, the 23rd, it was announced that the Hon. Frank Cochrane has instructed the road inspector to blaze out the line of the proposed road to Montreal River via Milberta and to estimate the cost of same.

The question of the cost to the town in the matter of sick men brought here from unorganized districts north of New Liskeard came before the council on Monday evening.

The morning train from the south was delayed on Wednesday over seven hours owing to the burning of a bridge on the Grand Trunk Railway.

Dr. Charles Rivers of the G.T.R., speaking on behalf of a further the chances there were several in America.

Dr. Walter R. president of the Company, who is as certain to be perjury and was denied bail by the supreme court.

DR. MCLAUGHLIN'S ELECTRIC BELT

The man who proved that he was five years ahead of Prof. Loeb in discovering that "Electricity is Life" now says that he can cure John D. Rockefeller, and agrees to give \$5,000 to charity if he fails.

BY JAMES K. GRAHAM

Atlantic City, N.J. — John D. Rockefeller offers a million dollars to the man who will give him a healthy stomach. He made that offer to a doctor who called upon him, saying that it would be worth a million to him if he could fix his stomach up so that it would digest his food.

"A million dollars for a healthy stomach," — John D. Rockefeller.

"I accept the offer and will forfeit \$5,000 if I fail to deliver the cure."

—Dr. McLaughlin.

This looked to me like material for an interesting story, which led me to Dr. McLaughlin's offices for more particular details. The first meeting from the doctor convinced me that I had met a man of convictions, and strong ones. The doctor was enthusiastic over what he terms a long-sought opportunity, and entered gleefully into a discussion of the subject. "I would like to accept that offer," said the doctor. "I think that I can earn it, and further, I believe that a drug will do what Mr. Rockefeller wants done, simply because there is no vitality in the secretory glands of the stomach, and until he gets that vitality, which no drug can give him, he will never be cured. "Just understand one point clearly: His food does not digest because certain functions related to digestion are powerless to act. They are weak, incapable of doing what nature intended. You see that. Now you can see that to get him right you must revive the strength in the parts which are weak. That is plain. Drugs will not do that. They never did and they never will, and every doctor on earth knows it. "What will do it, then? Electricity! "I would pay \$5,000 this minute to see John D. Rockefeller walk into this office and permit me to tell him what I can do for him," said the doctor. "I am certain that I can build up his digestive apparatus as I am that I have done the same thing for hundreds of others. His case is not incurable by my method, and I would consider my fortune made if he would but grant me a trial. "What is my method? The restoration of vitality—nothing more. To suffering tortures and dosing themselves with drugs without relief who never try a remedy like mine because they impose entire confidence in their family physicians, who believe that electricity is a remedy of the future, not of today," and so advise their patients. "I tell you that electricity is a remedy of to-day. It has been a grand remedy for the past ten years. I have studied this subject more carefully than any physician ever studied his textbooks, and I can show you results. I am curing men every day who were never able to get benefit from drugs. "Is it true, doctor, that your patients are mostly people of the middle or poorer class?" "Yes. When a rich man is sick he calls in his doctor, who writes a prescription and looks wise, and the rich man has confidence that he will be well to-morrow. He feels better, perhaps, because the doctor can fool nature for a while. But after a while the doctor looks wise and it doesn't do the rich man any good, and the first thing he knows nature demands her price and he has to pay it, as the doctor can help him no more. "When a poor man gets sick he does the same way, but he soon gets tired of the doctor's bills, and takes his case in his own hands and comes to me. I cure him with Electricity, and that is why my patients are usually poor men. Rich men's doctors will not let them come to me. "You cannot possibly estimate the true import of this discovery of Prof. Loeb," said Dr. McLaughlin. "It means more happiness to the civilized race than has followed any discovery since the beginning of the world. It is the general recognition of the great possibilities which exist in the application of electricity for the preservation of the vigor of youth. "I have for years contended that old age was nothing but the freezing of the blood when there was no longer sufficient vital heat in the body to keep the blood warm and the organs active. I have said that years did not cause decay, and proved it by citing cases where some men have been made vigorous under my rejuvenating treatment at eighty, while you have examples all about you of

repair—when the stomach is not able to generate sufficient electrical heat to supply the demands of nature. This excessive waste is due to over-taxation of the vital forces by hard work, mental, grief or worry, extra physical exertion, severe fevers, such as typhoid or malaria, which drain away the vitality and leave the system debilitated. Now here is where Dr. McLaughlin passes beyond the period covered by Prof. Loeb and shows how this vital electricity, which is the basis of life, may be replaced in the body when lost by the causes producing debility. He says: "When the stomach is not able to generate sufficient of this energy to supply the demands of the vital organs, the natural result is a lowering of nerve, organic and muscular power, and general debility. Then an artificial agent must be used to assist the stomach. That agent is Dr. McLaughlin's Electric Belt. "This is the remedy for Mr. Rockefeller. To prove my faith in it, I would be willing to put up \$5,000 to be given to any public charity which he may select if I fail to cure his stomach in four months, he to wear my appliance for six hours each day or night during that time. And he may be the sole judge as to the results obtained. "How about Mr. Rockefeller's offer of a million dollars, doctor?" "That is a secondary matter. I want it, of course, but not for my own use, as I don't need it, and a million dollars wouldn't increase my happiness one quiver. I would much rather have the satisfaction of seeing my invention successful in curing a case where so many noted physicians have failed. When a man has devoted the greater part of his life to the development of an idea which he thinks will benefit humanity he is passionately fond of his idea and money holds little fascination for him. "What would you do with the money, doctor?" "If I should earn the prize I would gladly consent to having it go to some public charity, which I would reserve the right to name. "And the \$5,000 which you offer?" "On the day that Mr. Rockefeller agrees to use my treatment and observe my simple instructions I will put up my certified cheque for the amount, to be paid to any public charity which he may designate if he says that I have failed in my work. "Then you leave the matter entirely in his hands?" "Entirely. I am willing to trust to his decision. "A great many wealthy men are suffering tortures and dosing themselves with drugs without relief who never try a remedy like mine because they impose entire confidence in their family physicians, who believe that electricity is a remedy of the future, not of today," and so advise their patients. "I tell you that electricity is a remedy of to-day. It has been a grand remedy for the past ten years. I have studied this subject more carefully than any physician ever studied his textbooks, and I can show you results. I am curing men every day who were never able to get benefit from drugs. "Is it true, doctor, that your patients are mostly people of the middle or poorer class?" "Yes. When a rich man is sick he calls in his doctor, who writes a prescription and looks wise, and the rich man has confidence that he will be well to-morrow. He feels better, perhaps, because the doctor can fool nature for a while. But after a while the doctor looks wise and it doesn't do the rich man any good, and the first thing he knows nature demands her price and he has to pay it, as the doctor can help him no more. "When a poor man gets sick he does the same way, but he soon gets tired of the doctor's bills, and takes his case in his own hands and comes to me. I cure him with Electricity, and that is why my patients are usually poor men. Rich men's doctors will not let them come to me. "You cannot possibly estimate the true import of this discovery of Prof. Loeb," said Dr. McLaughlin. "It means more happiness to the civilized race than has followed any discovery since the beginning of the world. It is the general recognition of the great possibilities which exist in the application of electricity for the preservation of the vigor of youth. "I have for years contended that old age was nothing but the freezing of the blood when there was no longer sufficient vital heat in the body to keep the blood warm and the organs active. I have said that years did not cause decay, and proved it by citing cases where some men have been made vigorous under my rejuvenating treatment at eighty, while you have examples all about you of

men who are old and decrepit at sixty. "Now Prof. Loeb says that the animal heat is electricity. That I know to be true. We get that heat from the chemical action of the acids and juices of the stomach upon our food. That is combustion. This combustion produces carbonic heat, and carbonic heat is electricity. That is the basis of life in every vital organ. As long as the stomach is able to generate enough of this heat to replenish the wear and tear upon our vital energies we are strong and active. It is when the stomach finds the strain too heavy that we grow old and begin to decay. "An old fellow, a patient of two years previous, asked me to have his belt overhauled, as he wished to put it on again. I reminded him that he

general debility in younger men. "Years have nothing to do with it. In each case it is the failure of the stomach to generate sufficient energy to supply the demands made by the vital organs. "How quickly we fall when the stomach fails to digest the food. That shuts off the supply of energy. "I have on record hundreds of instances where men of 75 to 80 have returned to the hard labor of their youth with a vim after having worn my appliance three months. "One decrepit old man of 75 had in youth been a blacksmith. After using my appliance he took up his tools and says he can work as hard as he did at 35. He says he is an old man made young. "Another man of 73 said he had been crippled with rheumatism for forty-five years. He pronounced himself cured and as vigorous as he ever was in youth. "Another who was a wreck at 40, and said that he had been so for

Then I questioned Dr. McLaughlin in regard to his Electric Belt, and asked him wherein it was so much better than other similar contrivances. "That is very simple," replied the doctor. "Having spent twenty-four years in study and experiment, I have found means of perfecting my appliance, of removing defects as fast as they appeared in actual use, and of supplying features, such as a regulating device, non-burning electrodes, reversible battery, and of increasing the power of my appliance until it is five times as strong as that of any other electric body appliance on the market. My appliance is conceded to be the only one of the kind which is constructed upon purely scientific principles, and with it, all other so-called electric belts are the inveterate of the blacksmith's hammer. "It is not upon that point, however, that my success has been founded. My immense business is due to my knowledge of the effect of elec-

Then upon Dr. McLaughlin showed me a file containing letters from many of the best known people in the city and from outside places. At random I picked out several and reproduce some of them here. The doctor told me that many of his best testimonials could not be published, as the patients, though recommending his treatment privately, objected to publicity. "MRS. WM. HOLMAN, 482 Quebec Street, London, Ont., says: 'I am well satisfied with your Belt. It has cured me of indigestion, and I have had none of the pains in my head since I got the Belt.' "MR. WILLIAM BOWERS, Box 198, Brantford, Ont., says: 'I can certainly recommend your Dr. McLaughlin's Electric Belt to all men suffering as I did with nervous debility and general weakness. It cured me. Here is a letter to show that drugs are no good: "MR. G. HERMAN, Wardrop's Camp, Whitesmith, Man., says: 'I wish to tell you what your Belt has done for me. When a lad of eighteen years, I was carrying a heavy bag of corn, and somehow or other I must have hurt myself. A pain came on soon after, like a cramp in the stomach, and it was getting steadily worse until I was restored from your Belt. I tried doctors and standard medicines with no benefit. I then read in the papers of your Belts and their wonderful cure, and purchasing one of your Belts I found relief at once, and it has now completely taken the trouble away, and I can now lift anything without feeling that hated pain. My food digests better, and I can now enjoy pleasure, whereas before I was unable to be where it was. I am very well pleased with your Belt, and would not part with it at any cost. I would gladly recommend it to any sufferer, as I have proved it to be a cure for what medicines would not reach. "The next was a letter from the well-known boxer, Tommy Ryan, who says: "When I got your Electric Belt my stomach was very bad—so bad that it was impossible for me to get into good condition. The Belt has done wonders for me; my appetite is restored, my stomach perfectly, and built up my general strength. "There were dozens of letters from prominent men, whose names Dr. McLaughlin was permitted to publish them, would be sufficient guarantee of the genuineness of his case. Among them were several prominent physicians, who spoke highly of the treatment from personal tests. "Dr. McLaughlin has handed me a letter from a very grateful man. "MR. CHAS. W. WAKEFORD, Salem, Ont., says: 'I take pleasure in writing to let you know what your Belt has done for me. I should have done so before. I think there is nothing that will take the place of your Belt for me in any way. It is all you say and more. It has made a man of me. I have given it a fair trial, and I think it is all right. I have gained in flesh and muscle, and have worked hard every day. I shall not fail to recommend it. "You can take a man who is thin, puny and unattractive in appearance, and pour this electric life into his body every night for a few months, with the proper exercise, and you can add twenty-five pounds to his weight, double his energy and vitality, and transform him into a giant in strength, as I have often done. Look at the men who have worn my Belt and you will see men of force, men of power and confidence, men who respect themselves and are respected and admired by their fellow-men. "Poor digestion, inactive liver, constipation, sluggish heart, slow thinking, dormant energy, laziness are all due to lack of electricity. Understand that electricity is the motive power that keeps the organs active, and you will see what I mean. In such cases you can see how my Electric Belt will pump action into the body. It renews the energy and transforms the sluggish into a bundle of vigorous energy. "MR. ANDREW W. LANGFORD, Stratford, Ont., writes: 'I will state that your Belt cured me completely of indigestion and lost vitality.' "Nature is the greatest doctor on earth. When she can't cure a man because she needs aid, now, most people have an idea that this aid is drugs, and when they get sick or suffer from pain of any kind they proceed to dope their stomachs with the stuff that is sold for medicine. That doesn't help any; in fact, it does a great deal of harm. The dope that you put into your stomach is poison, and it weakens the organs and nerves of your body. What Nature needs is electricity. "This agitation of the subject is going to prove of incalculable benefit to the future health of our race. Just satisfy the people that they can procure a renewal of bodily vigor and health by simply renewing the electricity in the body and they will pray for a relief from noxious drugs. Convince a suffering man or woman that drugs will not cure him, and that all they need is a new supply of electricity, and you have made them happy. "So many people suffer from pains and aches, neuralgic rheumatism or lumbago or neuralgia, or from indigestion, these nerves are electricity, and if these nerves are electricity, and send a gentle current from my Electric Belt so that it will convey the life direct to the ailing part, and relief is often felt in an hour. I frequently cure such cases within ten days. "Your Belt cured me of rheumatism four years ago." T. J. WHITE, Copper Cliff, Ont. "Belt has done for me. I cured my backache." A. RUSSELL, Niagara Falls.

"Suppose we take a man who has a one way or another overtaxed his system until it is in a state of abject dejection, the brain sluggish, all ambition gone, and an ever-present feeling of despondency, a disposition to give up the fight. "In that case the electric force has been reduced and there we have the cause of the debility. Now suppose that force and you have a rejuvenated man, as good as ever. "These scientific men would do nothing along the path that I have already well worn they would find more evidence to back their theory that 'Electricity is Life' in one day than they will get out of the case of a frog in ten years. I prove it by results upon human beings whom I have cured, and I have over \$5,000 worth of testimonials to prove the use of my Belts. Let the scientists take my patients as samples and they will be convinced of the wonderful power of electricity. "If it were not for the prejudice due to the great number of fakes in the land, I would not be able to handle the business that would come to me. The 'Free Belt' fraud and the 'Free Drug' scheme, which are not free at all, have made every one sceptic, and I'll hammer away until every one knows it. "I think, doctor, why is it that you seem to get better results than a physician derives from using a battery on his patient?" "Because the nervous system which receives the electric current is so sensitive that the current from a battery shocks it, but leaves no additional vitality in the nerves or vitals. That is why a doctor's system is never good. Now, my system is different. I put the current into the body for six or eight hours every day or night, usually at night, and the patient's delicate nerves are not shocked or jarred by the current, as it goes into them just like a driving force, saturates the just-likened field. They absorb it, drink it in, and as it is their life they grow strong with it. "I think, perhaps, that is the reason that doctors think so little of electricity as a remedy. Of course, they don't know all there is to know about applying it, and as their method is a failure they conclude that electricity is no good. "Some doctors even believe that my appliances do not generate a current. I will pay \$1,000 for one of them that falls to give a powerful current as soon as it touches the body. In days gone by electric belts were burn the skin. My appliances have a soft cushion electrode which give a glowing heat, but no sting or burn. They have also a regulator to control the current. "The day is drawing near when physicians and you now apply electricity because of their belief that it is set in the experimental stage will be set in the fact that while they have been Electricity as I supply the necessary marvelous curative powers in these drugs will only stimulate. "And understand, not limited to stomach troubles, any organ of the body, any part that lacks the necessary power to perform its natural functions, can be restored by my method. It gives strength; it makes the nerves rich and red and warm; it vitalizes the brain and muscles; it puts life into a dead man; it just makes a good man out of a bad one in every way. "With my Electric Belt I cure rheumatism in its worst forms; I cure neuralgia and aches, weak nerves, general debility and any other trouble which can be cured by restoring strength. "If you are sceptic, all I ask is responsible security for the price of the Belt, and you can

THE MILLION DOLLARS JOHN D. ROCKEFELLER OFFERS FOR A HEALTHY STOMACH.

had reported himself as cured two years before, and I did not see the need of the belt now. "Precaution," said he, "I was cured two years ago, strong and sound, but I am 71 years of age and am not as well able to stand knocking about as I was in my youth, and I wear the belt occasionally, not because of present need, but just in case that I will have strength to spare in case of demand. If you are riding a bicycle on level ground and see a hill before you, what do you do? Put on more steam, eh? I am getting older every day, and I need more steam. That is why I wear my belt." "This is upon the same principle that an engine pulls a train of cars up a hill. On level road it goes easily, but when it goes up hill the strain power from burning coal, just as your stomach makes it from burning food, is taxed beyond its limit, is unable to go farther, and, exhausting all its steam in the effort, breaks down. "The human body is just like that engine. It breaks down when the physical energy is overtaxed. That means of replenishing the electricity of the body, and that is the basis of my treatment. "Decay in old men is similar to

twenty years, was cured, and three years later undertook the severe hardship of a trip to the Klondike. He returned a few months ago and said that he had stood the terrible privations better than hundreds of young men. "I could cite thousands of similar fifty thousand voluntary testimonials, and that there is not a hamlet in this country without one or more cures that my appliance, you will understand that my experience has been broad. "I have treatment is a success in any case where strength is lacking wherever it is in the nerves, stomach, heart, kidneys, liver or any other part. My appliance gives a soothing, constant electric glow, which is taken by the body just as a sponge takes up water. It cures rheumatism in any guise, as well as every other form of pain. "I have an enthusiast, you say, why should I not be? I have the gratitude of thousands of people who have been cured by my Electric Belts after the failure of the best physicians. I am enthusiastic because I know that I offer suffering humanity the surest cure that is known to-day. "I have gained my success by learning how to treat my patients and do not charge nothing for my knowledge. I know how; others know that I can cure for every patient. My patients are my friends. They are building my success."

tricity upon the ailments treated and the best way to obtain that effect is to take every case that comes to me as an individual and direct the application of my belt to suit the demands of this particular case. When you consider the fact that the organs into which I supply life to electricity I get my results. My success comes from my cures. If I did not cure my agony, as has the business of every other maker of electric belts. A great many schemers and frauds have gone into the electric belt business because money, and have resorted to very questionable methods at the old age. You can't fool all the people all the time. I was active in these cases, and they did not last long. "Now, doctor," I said, "your theory sounds very good, but can you give me any bona fide evidence of cures to back up your statements? You know there are a great many advertised cures, and in this case of Mr. Rockefeller, who has been in the hands of the best physicians for years, remedies are successful." "That is my strongest argument," said the doctor. "Here are given names of prominent people, letters without solicitation. You can see these patients and secure from them a verification of what is contained in

PAY WHEN CURED
Beautifully Illustrated Book Free.
Dr. McLaughlin has a book which every one, both men and women, should read. It tells facts that are of interest to every one who wants to remain young in vitality at any age. It will show you the way to future happiness. It is beautifully illustrated with photographs of fully-developed people, down from overwork and dissipation, and how they can regain the vigor of youth in a few weeks' application of electricity. It is written in plain language and the illustrations are of the highest type of art. No one should be without this book. We send it sealed, without this book, and one for women. If you are all-time sceptic, Consultation is free and inviolable. For hours—9 a.m. to 4 p.m. Wednesdays and Saturdays to 8.30 p.m.

PRIDE OF CANADA

OUR NORTHERN forests are large, and as yet there is many an unexplored mile, in which denizens of the wilds hold sway; but it is believed that the demand for Canadian Furs in Europe will soon send the trappers to the further end of the district. This will affect principally the price of Mink, because Mink is the greatest fur exported from Canada. The demand for it is excessive. Just now you have a chance to purchase Canadian Mink from us at the old figure, and to get, also, superior fur.

Here is a very handsome Natural Mink Coat, seven-eighths length, with roll shawl collar, box back and front, full sleeve with cuffs, any kind of best satin or brocaded lining. **\$750**

Write for our new Catalogue, if you can't call. Showrooms open until 10 o'clock, Saturday night.

FOR UNIFORM PROCEDURE.

Colonial Office Sends Intimation of Change in Taking Evidence.

The lord high chancellor and the judges of the high court in England have at present the right to pass rules which govern the taking of evidence here for use in the courts either in Great Britain or the other colonies of the empire. But thru a despatch, bearing date of Sept. 25, from Lord Elgin of the colonial office, the provincial government was yesterday notified from Ottawa that on the adoption of these rules of the supreme court, a copy of which is enclosed, by the judges of the high courts in this and other provinces, a uniform method of procedure in this respect will be obtained throughout the Dominion. The lord chan-

cellor and his conferees on the English bench have agreed in these circumstances to waive their right in the matter. It appears from Lord Elgin's despatch that the advisability of bringing about a uniform method of procedure in this relation throughout the empire was raised in Mr. Chamberlain's despatch—"General"—bearing the date of June 23, 1903. The judges in all the provinces will, in all probability, shortly conform to this request from the colonial office, and bring these rules into general use.

To Do Business in Illinois. —SPRINGFIELD, Ill., Oct. 25.—(Special.)—The secretary of state issued a license to incorporate to-day to Mr. Leon Stinson & Co., Limited, of Toronto, Ont., with a capital stock of \$40,000. The location of the corporation in Illinois is Chicago.

York County and Suburbs

ALEX. McCOWAN CHOSEN BY FINE CONVENTION

Big Meeting Unanimously Renominates Present Member—County News.

MARKHAM, Oct. 25.—(Special.)—The historic old riding of East York has witnessed many remarkable political gatherings, but never one rivaling in point of attendance and enthusiasm that of to-day, when Alex. McCowan, M.L.A., was tendered and accepted at the hands of his fellow-constituents the re-nomination for the local legislature.

No more emphatic endorsement of the Whitney Government could be desired and, incidentally, the present member, Mr. McCowan. The meeting throut was characterized by a breeziness and hearty good will which augured well for the Conservative candidate and a determination to hold the riding by all honorable means.

A feature of the meeting was the unanimous endorsement of the principle of public ownership, and the ringing which greeted the name of W. F. Maclean, M.P., member for South York, in

A. McCOWAN, M.L.A. Who Yesterday Received the Nomination for East York.

connection therewith, as tending to show the temper of the gathering, the incidents connected therewith are noteworthy. In seconding the nomination of Mr. McCowan, H. C. Marr of Markham Village declared that he (Mr. McCowan) did not make a much noise, whereas the member for South York did, and that the latter was wrecking the Conservative party. As one man the meeting resented the charge and cheered for Mr. Maclean drowned the speaker's remarks. He was, however, tendered and accepted at the hands of his fellow-constituents, "too!" yelled the crowd.

Some Who Were There. Among those present were: Reeve T. H. Spence, T. B. Willis, E. H. Wilson, R. A. Fleming, T. E. Henry, J. O. Torrance, Alex. Torrance, Markham Village.

William Silver, William Armstrong, A. Pringle, T. Underwood, J. W. Jackson, Major Elliot, Robt. Agar, L. Armstrong, Markham Township, H. A. Nisbett, J. Sanderson, J. Savage, Richmond Hill.

Reeve George S. Henry, E. W. D. Butler, C. Jennings, J. Birke, J. W. W. Latham, Frank Law, Robert Kerr, W. W. Thompson, A. Paterson, T. Jackson, S. Pherrill, W. Patton.

Murch, Stewart, A. McMillan, F. James Baird, F. Humphrey, Thomas Williamson, A. Willis.

Alexander MacGregor, M.L.A., by William Latham and H. C. Marr, Dr. Walters, by John McGregor and C. E. Lyon.

George S. Henry, by C. T. Lyon and Jerry Nelson. John McGregor, by J. Barrow and J. W. Jackson.

On motion of Messrs. Jackson and Underwood the nominations were declared closed and the movers and seconders spoke briefly, and were followed by the nominees.

result was greeted with deafening cheers, to which the latter briefly responded.

Other Speakers Orate. Capt. Tom Wallace was introduced as "Fighting Tom" and made a capital impression, in the course of a rattling five minute speech.

R. R. Gamay, M.L.A., "the man from Mantoulin," was given a rousing reception and in the course of an address of an hour or more, aroused his hearers to the highest enthusiasm. The Whitney Government had given honest legislation, the sanctity of the ballot was now preserved as it had not been during the regime of the late government and the iniquitous power and timber concessions given to party leaders, had been replaced by a policy which had already brought millions into the public treasury.

"There is not an honest Liberal," said the speaker, who believes his party has a chance at the next election. It is too soon to forget scandalous acts of the Ross administration. The redoubtable "Herb Lennox" was cheered to the echo and dealt a thrashing in public ownership, which he declared Mr. Henry had adopted to help him on his pilgrimage. Not alone East but West and North ork would greatly be helped by the next election ranged under the Conservative banner.

Cheers for the King, Premier Whitney, the candidate and the chairman brought the meeting to a close.

TORONTO JUNCTION. Y. M. C. A. Will Take Steps to Erect Fine Building.

TORONTO JUNCTION, Oct. 25.—The population of Toronto Junction is increasing at a rapid rate. It is evident from a comparison of the voters' list of 1907 with those of 1903. The population was 1,474 in 1903, compared with 2,384 last year. Number of voters 3148, as compared with 1,747 last year. Parliamentary voters 3040, as compared with 1,827 last year.

The local police court proceedings for today were presided over by Peter Laughton, J.P. Robert Hook was to have conducted them, but was out of town. Police Magistrate Hill sits on a "W. F. Fire," a railway conductor, who committed a breach of the Railway Act by coming into the Junction intoxicated while in charge of a train on the 17th inst. and appearing to-day in response to a summons, and a warrant was issued for his arrest.

Robert Hook appeared to-day charged with disorderly conduct, and a series of evangelistic services will commence Nov. 3 in Victoria Presbyterian Church. The services will be of a union nature, held under the auspices of a number of the churches of the Junction, and will be under the leadership of Mr. Herbert L. Gale, formerly of Boston, assisted by John Hatch. These men are noted evangelists, and about two years ago conducted a series of very successful evangelistic series in the down town districts of Hamilton. They have also done good campaign work in the Maritime Provinces. Special music will be provided by massed choirs from the different local churches.

The funeral of Mrs. Louisa London, wife of F. A. London, foreman of the automobile repair shop of the Canada Cycle Motor Co., took place this afternoon from the Speer undertaking rooms to Prospect Cemetery. The funeral was largely attended and the display of floral tributes was beautiful.

Russell, youngest son of John Ritchie, of Law-street, died to-day. The body was transported by the Star to Smith's Falls for interment. A special meeting of the council will be held next Tuesday evening to accept the electric street lighting system.

Wm. Bristow, a carpenter, residing on Cockburn-avenue, had his face lacerated by a fall from a scaffold this afternoon. His injuries are not serious.

A lecture on "The Women of the Indian Empire," illustrated by colored slides, will be given in the College of Music Hall on Tuesday evening, Oct. 29, at 8 p.m. The lecturer, a lady missionary, has spent several years in India, and will tell a thrilling story of the woes of India's womanhood. Scenes will be depicted of Zenana's hospitals, villages, health temples, etc. Mayor Baird will occupy the chair, and there will be a collection taken in aid of the Nankai Hospital in India.

A meeting of the committee that is arranging for the establishment of a Y.M.C.A. in the Junction took place to-night in Victoria Presbyterian Church. Arrangements were made to approach the prominent local manufacturers to see if sufficient financial support can be relied on for the erection of a permanent building. The result of this enquiry will be announced at the public meeting which will be held two weeks from to-night. Several sites for a permanent building, have been looked over, and a location on Dundas-street near the Keele estate is regarded with favor.

The contractor on the paving of Dundas-street expects to have the cement sub strata laid as far as Keele-

street by to-morrow night. The mixer is now at Van Horn-street, and the work is proceeding at a rapid rate.

RICHMOND HILL. General News From the Thriving Village.

RICHMOND HILL, Oct. 25.—The funeral services of the late A. L. Skeels was held on Wednesday afternoon by Rev. J. A. Grant. The funeral was also conducted with full Masonic honors by Richmond Lodge, of which he had been the oldest member, assisted by honorable brethren from a distance. The remains were afterwards conveyed to Arcade, N.Y., for interment.

J. P. Naughton has been appointed postmaster at Elgin Mills to take the place so long held by his late father. The Metropolitan Railway, together with the county council, are putting in a first-class cement bridge at the crossing at Elgin Corners.

Great interest is centered on the public library concert to be held on Thanksgiving evening in the Masonic Hall. A great array of excellent talent has been secured.

J. M. Henry, principal of the high school, is progressing favorably. During his sickness the school is being ably piloted by his oldest son, an honor student of Queen's University.

Thanksgiving service will be held in the Presbyterian Church on Thursday next, at 11 a.m., when Rev. A. P. Brace, B.D., will preach.

The first real test of the work of the High School Literary Society was shown on Wednesday afternoon. The program consisted of musical and literary numbers, and was excellent.

The Victoria Square Women's Institute will be held next Wednesday at the home of Mrs. Wilmot, Brumway.

The subjects of discussion will be: "Considerable anxiety is felt as to the whereabouts of Rus. Allison, who left town last week and has not returned," and "The new station, it is hoped, will soon be forthcoming." Mr. Smith, the agent, at the Canadian Northern Station, has been removed.

Rev. J. C. Bell and wife of Pickering spent a few days of this week in our village. Mr. McLennan, principal of our public school, will give an address at the Epworth League on Monday evening, subject, "The Dignity of Labor."

WESTON. By the will of the late Lawrence Reg. Lemoire of Weston, an estate valued at \$14,225, of which \$6000 is in real estate in Weston, and the rest in personalty, passed wholly to his wife, Arvilla L. Lemoire, Mrs. Lemoire having, however, predeceased her husband, the estate passes to their son, Lawrence Lemoire of Weston.

WOODBRIDGE. The Toronto daily papers, in giving the market quotations for grain, give the quantities of the various kinds coming to the market each day, quantities ranging from 500 to 1500 or 2000 bushels. Why here in Woodbridge we have a much better market and have delivered at the station and at the mill of T. F. Weston, than 2000 bushels every day during the past week, and no decrease in sight yet. Prices are within a couple of cents of Toronto prices.

The contractors are busy at the piers for the overhead bridge on Pine-street. There are four cement piers and three spans of girders. On Williams-street is an one-span overhead street with two massive piers. Every effort is being made to have the grading completed by the first of next week. Ross Mackenzie has returned from his trip thru the county, serving jury summonses for the sessions on Nov. 18, and about court and general sessions on Dec. 3.

John E. Harris has sold out his bakery and (now) gives his whole attention to his business-shop.

DOVERCOURT. Rev. Dr. and Mrs. Abraham, assisted by Messrs. MacFarlane and Gilchrist, deacons, will give an home in the parlors of the Dovercourt Church (Presbyterian), on Tuesday evening next, from 8 to 10 p.m., to which a general invitation is issued. The object of the gathering is to "get acquainted" and it is hoped that everybody, and especially new-comers, will be present.

BRACONDALE. On Thursday evening last a carpet-ball game was played between Bracendale and Yarmouth Lodges, S.O.E., at Lambton Mills. The score was 30 to 35 in favor of Yarmouth. During the evening refreshments were served and a very pleasant time was enjoyed by all.

On Monday evening last the new reformatory hall to be erected by Bro. E. Boggs, P.D.D. The boys evening refreshments and a game of carpet ball at the close of business.

10,000 Yards of Scotch Linoleum Arrived—Wet on One Edge.

SCOTCH linoleum from Dundee and Kircaldy—the very best linoleum in the world—will be selling in this store on Monday at the following rates:
40c and 45c Qualities—29c
50c and 65c Qualities—38c
75c and \$1.10 Qualities—69c

The reason is a big one, namely and to wit—the Atlantic Ocean, no less. This linoleum has been soaked in sea water on one end of the rolls about an inch deep, water having found its way down the hatches of the ship during the equinoctial gales last month.

There you have the whole thing. The damage is covered by insurance. You may have the benefit of the full reduction.

3000 yards Scotch Printed Linoleum, 2 and 4 yards wide, in floral, block and tile designs, in light and dark colors, all thoroughly printed and seasoned, regular 40c and 45c square yard, special, square yard **29c**

4000 yards Scotch Printed Linoleum, in 2 and 4 yards wide, in floral, block, tile, matting and parquette, in blues, fawns, reds and greens, very heavily painted, suitable for stores, dining-rooms, kitchens, bathrooms and halls, regular 50c and 65c square yard, special, square yard **38c**

2500 yards Scotch Inlaid Linoleum, 2 yards wide only, in floral, block, tile, fancy parquette and two-inch quarter-cut oak board, suitable for halls, dining-rooms, kitchens, surround for rugs and stoves, regular 75c to \$1.10 square yard, special, square yard **69c**

The Hunter's Watch
IT'S not a hunting watch, but a hunter's open faced watch, and is used during the hunting season all over Northern America because as a timepiece it is accurate. The trade mark of one of the largest makers of timepieces in America or in the world for that matter, is on every watch—usual watchmaker's guarantee, just the same as if it cost you ten times the price. Safe delivery guaranteed—money back if not satisfied.

300 Nickel Open Face American Watches, stem wind and set, with nickel vest chain, complete Monday, watch and chain **\$1.39**
