SOME SUNDAY SUBJECTS. MANY VOICES, BUT NONE WITHOUT SIGNIFICATION.

Lessons From Toronto Streets in Day. Prof. Tyndall—Social Reformers' Ideal of Society—The Lady Evangelist.

Before a large audience in Trinity Methodist Church last evening the Rev. W. F. Wilson preached an interesting sermon on "Lessons From City Streets by Daylight."

Other lesson there to be gained from the view of the world as it is. Many churches and other institutions had large untaxed areas of land fenced off while the streets were open for the free use of the people.

As regards food, the big hotels and private houses of Toronto daily waste enough provisions to feed the city. It was sincerely to be hoped that some system might be adopted by which such waste should be avoided.

But worst of all was the throwing away of time to be observed on all sides. Many churches and other institutions had large untaxed areas of land fenced off while the streets were open for the free use of the people.

NEW RICHMOND REVIVAL. The three weeks' special services in the Methodist Church, conducted by the Rev. A. B. Chambers, L.L.B., closed last evening.

Miss Hall preached at the morning service to a large congregation, her theme being "Character Building." Miss Hall's voice was clear, strong and graceful, and her delivery varied without being voluble.

The Sunday school. The Misses Hall and the Rev. Mr. Chambers addressed the Sunday school in the afternoon in the body of the church and a large number of parents and visitors were present.

THE LATE PROF. TYNDALL. Survey of the life and work of the Great British Scientist.

Rev. H. H. Wouda, pastor of the First United Church, lectured yesterday evening to his congregation on John Tyndall, the great British scientist.

At the conclusion of the Alger trial at Whitty on Friday night the Toronto contingent in attendance were unable to get away owing to the trains being blocked by snow.

Special arrangements for the lady patrons of the Crystal Theatre this week have been made for the benefit of the three-headed woman.

Gertrude Harrison, alias Gertrude Ingleby, was arrested at 14 Bond-street, by Detectives Black and Cuddy on the morning of Saturday.

Alger's severe sentence. When the train began to run it will be taken to Kingston.

Another Alleged Insurance Fraud. Montreal, March 22.—(Special.)—Thos. J. Chisholm and B. N. Tyle were arrested yesterday charged with conspiracy.

Another Charge of Shoplifting. An old woman named Jane Lowery, who describes herself as a servant, says that she had been in Niagara Falls, and has only been in Toronto a few days.

AYER'S PILLS. "Last summer, I had a very severe bilious attack. In the morning, I felt as if I was going to be sick, and my bowels, which had not moved for several days, were very hard and dry."

FIRE OF A DAY. Ex-Ald. Piper Sustains a Loss of \$1000.

At 8:17 Saturday night a fire alarm was turned into No. 5 section. The fire was at 473 1-2 Church-street, occupied by Mrs. Fleming.

At 6:55 p.m. Sunday an alarm was sent to box 52 for a fire at 27 Isabella-street, occupied by Mr. Harry L. Piper and owned by Messrs. Samuel, Benjamin & Co.

Swinging Towards Easter!

The fascination of a crowd is upon us. All the enthusiasm of success is roused by what stands for so much study and care and money.

We must make ourselves forget the riches behind the riches we show, and so must you. There are more trimmed hats, more Spring Wraps and more new Dress Goods already than ever before.

We believe in a process of education. You see a thing for the first time and you're not educated to it; it's too loud or too quiet or too commonplace.

That's why we repeat—better come and look early. Don't buy all at once; no need of hurry; come again and again.

Apply that to dress goods, cloaks and millinery. Each is the finest stock we ever had to show, even if that does seem like an old story.

Things for the Home!

New carpets for spring are here and new upholsteries. We have to be ready months ahead of you in order to keep sharp step with designers and manufacturers.

Body Brussels have the preference. More attention has been paid to their production than ever before, and designs are more pleasing in consequence.

Any quantity of rugs—all sizes, shapes and styles. The collection is worth seeing at any time. If you want the seed thoughts of correct furnishing in your mind take elevator to fourth floor and linger over the different patterns.

TORONTO'S AMBLES HIRABLES.

Next year promises to be an eventful one in the history of Toronto. A series of great events will combine to make the summer of 1897 a season of special interest.

The British Association will meet in the Queen's Hotel in the summer of that year. The event will cause Toronto to become a centre of unusual interest.

Toronto's palatial Court House and Municipal buildings will be formally opened in the presence of a distinguished gathering.

The Industrial Exhibition, that brings hundreds of thousands of visitors to Toronto every fall, will next year become doubly important.

The British Dairy Association is to meet in Toronto next year. The presence of a large number of representatives of the British dairy industry will excite much interest among the farming community.

Lastly, an effort is to be made to induce the Prince and Princess of Wales, on their visit to this city.

The citizens of Toronto have a plain duty before them. That duty is to co-operate unitedly and enthusiastically in making next year the most glorious in the city's history.

Although the prize poster competition is a purely private affair, concerning only the association that offered the prize and those who sent in sketches, the matter is fast becoming, if, indeed, it has not already become, an issue of great public importance.

Who are those critics, anyway? And on what principle have they made their decision? Do they really know No one can locate the school to which the prize sketch belongs.

THE AMERICANS

The Americans would probably suffer more than we would if the bonding privileges were annulled by the two countries.

The Canada Southern would keenly feel the effects of such a policy. It would find little use for its proposed bridge across the Detroit River.

There is one other privilege of taking goods in bond through the Province of Ontario. The Sun is as far astray in regard to the importance of the bonding privilege as it was in its estimation of the strength of the annexation sentiment in this country.

The editor of the Sun seems to be purely a victim of impulse and prejudice. No one either in the United States or elsewhere, seems to treat him seriously.

ADVANTAGES OF COLD STORAGE. The decision of the City Council to lease the old Drill Shed and the vacant lot to the south of it as a site for a cold storage warehouse is commendable.

This site is especially advantageous for this purpose as it is very close to the market, and the stores in the neighborhood, many of which deal in perishable products.

The Toronto seriously in need of efficient cold storage on a large scale is only too well known to producers and dealers interested in perishable produce.

The enormous annual surplus of our most valuable agricultural products is lamentable, and is responsible for the low prices obtained for them by our farmers, the uncertain profit to dealers, and the consequent high average price to consumers.

It is estimated that an efficient cold storage system will save enough of this loss in Toronto alone to conduct a large warehouse.

Every city and town in Canada possessing a good market should have efficient cold storage for it as important to have a proper place to keep our produce as a place to sell it.

Cold storage warehouses should be located throughout Ontario in every district where butter, cheese, eggs, fruit, fish, game, meat and poultry are produced or handled extensively.

These warehouses to the towns and to the farmers of Ontario are apparent. Cold storage warehouses will save loss at home and ensure good markets abroad.

The farmer will get the best prices for his goods, and the dealer store profits, and, paradoxical as it may seem, the consumer will pay less on the average for his perishable food.

Our surplus produce could then be put upon the British market at its intrinsic value, and would bring good prices.

With our present refrigerated cars and refrigerated ocean steamship compartments, we require to complete the system is a chain of refrigerated warehouses to hold our produce till the market is ready for it.

Our Ontario Government might assist in securing the necessary capital for this purpose. The New Brunswick Government has set the example by liberally bonusing a company to equip efficient warehouses in that Province.

Nova Scotia will likely follow, and any should not Ontario, whose needs are greatest of all, do the same? The question is well worth the serious consideration of the Local Government.

REV. S. R. FULLER'S MARRIAGE

Will be the subject of an Ecclesiastical Court trial. Boston, March 21.—On Thursday next a special ecclesiastical court of the Episcopal Church will begin its sitting behind closed doors, for the trial of S. R. Fuller, rector of St. Paul's Church, Maiden, for alleged breach of canon.

Miss Derby, a member of Trinity Church, this city. The point is that Rev. Mr. Fuller is a divorced man, and that he has contracted a second marriage with a woman living on the ground of desertion.

York County Mutual Fire Insurance Co. A meeting of the directors of the company was held in one of the rooms adjoining the Council chamber on Saturday.

There were present President W. Hill, Vice-President J. D. Evans, Manager J. Wilgar and Messrs. E. Dunlop, C. McDonald, W. Werritt, G. J. Richardson, M. L. and J. Beasley.

Tenders were received and accepted for printing of all kinds, and the forms of the policies, books, applications, etc., were determined on. A special general meeting has been called for the 4th of April for the purpose of thoroughly organizing, confirming by-laws and making the appointment of agents.

Prominent Theosophist Dead. New York, March 21.—Wm. G. Bunker, a prominent theosophist and member of the Theosophical Society of America, and the gentleman who has been regarded by the theosophists in this country as the grand high priest and legitimate successor of the late Mme. Blavatsky, died here today.

Cyclist Banker's Death. New York, March 21.—George A. Barker, an American cyclist, who was taken down with typhoid fever while sojourning in this city, died at his residence here today. The direct cause of death was heart failure.

TO EXTERMINATE THE C.P.R. According to The New York Sun, the Canadian Pacific Railway is indebted to the people of the American people for its very existence. If the Canadian railway were deprived of the bonding privilege granted it by the United States, it would fall into a decline from which it would never rally.

All the Canadian schemes and intrigues against the United States, both political and commercial, emanate from the C.P.R. The project of establishing a great line of steamships between Liverpool and Halifax, for the purpose of striking a blow at the commerce of New York, was of Canadian Pacific conception. It was devised by Sir Charles Tupper, and he is the creature of that company.

The proposed telegraph cable between Halifax and Bermuda is to be guarded for military use against the United States. It is to be, therefore, an extension of the Canadian military system, of which the Canadian Pacific, distinctly and avowedly a political and military road, is the main feature.

It is the burden of two editorial diatribes recently published in The Sun. It calls upon the Government of the United States to recall a concession that is "fomenting a hostility that will eventually in war and possibly in Canadian subjugation, if that fatal policy is continued."

Sir William Van Horne has repeatedly pointed out that but a trifling percentage of the company's business goes through the United States in bond.

NORTH AMERICAN LIFE ASSURANCE COMPANY

The annual statement for 1895 of this solid and progressive Company has just been published.

The returns to the Dominion Government having been promptly made on the 31st of December last at the close of its year's business.

The report shows that substantial and solid additions have been made to the insurance assets, and that the surplus, the movements of which items from year to year indicate progress or the reverse of its business.

There are four items in a life insurance company's statement from which a very good idea can be obtained of its progress or retrogression.

If these items are carefully compared at the end of certain years, the company's record and standing can be ascertained. The items referred to are cash income, assets, net surplus, and the reserve.

Income. In 1895, the cash income reached \$81,478 while the sum of \$7,900 was added to the surplus, plus, now amounting to over \$405,000, after setting aside \$25,000 out of the year's net income for contingencies.

Assets. The assets of the company are valued at \$1,000,000. The assets are valued at \$1,000,000. The assets are valued at \$1,000,000.

Net Surplus. The net surplus is \$405,000. The net surplus is \$405,000. The net surplus is \$405,000.

Reserve. The reserve is \$25,000. The reserve is \$25,000. The reserve is \$25,000.

HE LED A DOUBLE LIFE.

Young Szelescki, Protégé of Dr. Edward Everett Hale, Editor of Commonwealth, Turned Out to be a Burglar.

Boston, March 22.—A Dr. Jekyll and Mr. Hyde episode in real life has come to light through the capture of Chas. Szelescki, a protégé of the Rev. Dr. Edward Everett Hale. He also has wealthy relatives in New York.

While writing book reviews and editorial articles for the Commonwealth, Dr. Hale's publication, he has, in the last few days, been committing burglaries in more than 50 flats and residences in the fashionable Back Bay.

He was caught last night just as he was leaving the pawnshop of Louis Einstein, 21 Pleasant-street, where he went to dispose of stolen silverware. At the station house he confessed.

The amount of his plunder reaches well into the thousands. Some of it has been recovered. He has done all the stealing in two months. He came from Poland when a mere boy, was educated in New York, where he attended college, and came from there to this city a year ago.

It was not long before he wandered into Dr. Hale's office at 3 Hamilton-place, in search of a new place to work. He took a fancy to him at once and set him to work in the office.

He gradually worked along into higher positions. He could write very well. He had gained the friendship of the literary editor of the Commonwealth, and soon had some books to review. He did the work, and several of his reviews had appeared in the Commonwealth under his signature.

He remained there until three months ago, when Dr. Hale secured for him another position, because he could not increase his salary, as requested. He remained in the new place six weeks, and has had no regular work since, although he continued to write for the Commonwealth.

For the last two months the Back Bay district has been systematically worked by an unknown burglar. The police could not discover the slightest clue until ten days ago, when they found some of the plunder in a inside shop. They stamped there for ten days, and last night Szelescki came in with a package and was arrested with his signature attached.

HOW GEN. BOOTH VIEWS IT

HE THINKS BALLINGTON IS NOT QUITE HIMSELF.

Army Headquarters in London Certain That the Dispute Will be Arranged—The Defection of Very Painful—Changing the Name of the Volunteers—The Dress Episode.

New York, March 22.—The World's London special says: Branwell Booth did not sail Saturday for New York, and had been stated it was his intention to do; nor has General Booth any present purpose of going.

The Salvation Army headquarters at the general secretary that they are anxiously awaiting the result of the reconciliation with Ballington Booth, the secretary said: "Oh, dear, yes, we are certain that the dispute will be arranged. In fact, there's a great deal of mystery about Ballington Booth's action. His family and friends cannot understand it, as hitherto he has been most affectionate and obedient to the behests of the General. We are not being strictly accountable for his actions. We feel sure that on reflection he will return to the ranks of the Salvation Army."

Is not your simple costume," was asked, "one of the distinctive marks of the Army, to symbolize its unworldly character?" "Yes," the secretary answered, "that is so, and if the cabled statement be true that a change in that respect has been resolved by Ballington, it is quite inexplicable to us."

The World's representative gathered from the secretary's manner that Ballington Booth's defection is a very painful subject with the Army chiefs. There was an evident determination to say nothing that could lessen the chance of reconciliation.

Ballington's New Army. New York, March 22.—There has been a change in the name of Ballington Booth's new army. "God" and "America" have been eliminated from the title.

This happened between two days. On Thursday night upon the various doors which are invariably "closed," and upon the one by which visitors may enter the room in which Major Fetsch Glen guards the approach to the offices of Mr. and Mrs. Booth, was emblazoned in the tricolor of legend, "God's American Volunteers." These same doors yesterday showed only this label, "The Volunteers." The sign painter had been there, like the Scriptures "like in the night," and with his brush had caused patriotism and providence to vanish from those portals. Like the morning cloud and the early dew.

The women's dress. Another change in the plans is also announced. It concerns the women's dress. Two days ago all arrangements were made for the Salvationists to go clad in brown garb, like sober little "Jennie Wrens." But a newspaper suggestion that the new uniform would be becoming to the blondes, set the dark-haired ones thinking very seriously that the one opportunity of their lives to secure a becoming frock was being let slip. The result is that Mrs. Booth has been appealed to, and has "reconsidered," and the fair Commanders yesterday recalled the order for brown gowns and bonnets, and sent the rolls of russet cloth back to the warehouse, and pretty nearly decided to order from a set of samples of "cadet blue." This color will set off both dark and fair complexion admirably.

If it is finally settled upon, the bonnets will have to be of white straw for summer, which will lend the uniformly pleasing air of lightness and coolness entirely unknown to their former black coalsuit headpieces.

Salvationists in Australia always wear white pokes, as more suited to the warm climate," said an officer in reference to the matter; "and in Canada in the cold season they wear furs. I see no reason why there should be a modification to suit the temperate zone and tastes in this section. Naming the paper seems to be the only thing in the way of getting the new uniform adopted on its feet very shortly. Ballington Booth cannot decide what to call it, and yesterday implored his visitors to give him suggestions."

A SERIOUS LABOR RIOT. Unionists and Non-Unionists Came Into Fatal Collision at Indianapolis. Indianapolis, March 21.—A serious labor riot between unionists and non-unionists who had taken their places in the Indianapolis, Ind., streets, broke out last night. The riot was the result of a dispute between the two groups over the issue of a strike.

Monte Cristo Brunnen. The baths at the Hotel del Monte, Preston Springs, are open to guests the year round. No drug yet known to man is capable of so soon exciting a favorable change on the human system, or of giving one and vigor as results from the use of the water from Monte Cristo, Brunnen, which comes clear and sparkling fresh from the laboratory of Him who does all things well, and is now used entirely at the Hotel del Monte.

DERIVISHES ARE WELL ARMED.

They are Now Able to Deliver a Deadly Fire and Use European Tactics.

London, March 21.—A correspondent of The Army and Navy Gazette states that the Derivishes are now able to deliver a deadly rifle fire. They will combine European tactics with the formidable onsets of cavalry and spearmen in the old style. The correspondent declares that the British tactics of forming squares and awaiting the shock of battle are not to now in fighting the Derivishes and if they are followed it will result in rout and ruin.

The consensus of military opinion is that if a reconquest of the Sudan is intended a picked force of British and Indian troops 20,000 strong will be necessary.

It is no wonder that the British Government is reticent regarding the details and ultimate aim of the expedition. Even with a solid Parliamentary majority the Cabinet does not dare in the meantime to avow the opinion of the country on the great enterprise, which is certain to ultimately involve large expenditures and heavy taxation. Until Parliament rises in August Lord Salisbury will not disclose the game that the Government is playing.

The Belgian Congo Free State expedition under the command of Baron D'Amberg is attacking the Derivishes on the Upper Nile simultaneously with the Anglo-Egyptian attack upon those on the Lower Nile. The French press depicts such an expedition, but the semi-official Etouffe Belge confirms the report made by the United Press last Saturday that such an expedition had been formed and that with the consent of the British Government a force of Hussars had been recruited for it at Lagos.

General Leopold will shortly come to London to conclude the arrangements for the advance of this expedition to the Nile. Baron D'Amberg's force, is now nearing Bahr-el-Ghazal. He has with him a number of Maxim and Krupp guns.

Manager Thomas of the Canadian Bank of Commerce, Chatham, N.B., on a visit to the West Indies. He writes from Granada, to The Chatham Planet: "Well, we stay in the island—land-fruit of every kind, beautiful flowers, and everything to make a man feel lazy and get well."

Albert Forest, a Barnardo boy, has been arrested at Brantford, charged with theft. He was sent to the reformatory on three years' indenture to Bristol Echlin, of Copetown, but ran away from there and hid in the woods near Jerseyville. Echlin followed him, and Forest then skipped from there with \$1 and a coat belonging to Wait, and brought up in Brantford.

Rev. Frank W. Warne of Bengal, India, has cabled to his wife in Oakville, Ont., that he has been elected by the Bengal conference as representative to the next general conference of the Methodist Episcopal Church of the United States, which will meet in Cleveland May 17. Mr. Warne is expected in Oakville the latter part of April.

WHY IS IT THAT ONE MAN DIES AND ANOTHER CREPES AT 45, AND ANOTHER AT 87?

Why is it that one man dies and another crepes at 45, and another at 87? It is because of the accident of birth and the strength of the organs on the care he takes of himself.

When the man who runs an engine hears an unusual sound about it, he stops immediately and looks it up. If he finds a little looseness, or a little crack, it is remedied immediately. If it isn't, there will come a break presently—a break that will wreck the engine. Likely as not, this same man will totally ignore the call for help from some of his own organs.

He will let the trouble grow and grow until it lays him out in bed. If he keeps on working with a damaged body, he will soon wear it out. The strain on his nerves will tell on his constitution. He will not be healthy when he is old.

Learn more about it from Dr. Pierce's Common Sense Medical Adviser, 1008 pages, profusely illustrated, which will be sent free on receipt of thirty-one (31) one-cent stamps to cover cost of postage and handling. Send to: Dr. J. C. Rorer, Dispensary Medical Office, Buffalo, N. Y.

Windsor is a Shocking Condition Owing to a Polluted Water Supply. Windsor, March 22.—Judging from the report made to the Board of Health by the Windsor physicians, there must be at least 150, and possibly 200, cases of typhoid fever in the city. Three doctors report 46 cases of true typhoid, and as many more cases which they regard as suspicious, and which they believe to be typhoid.

A Million-Dollar Blaze. Tarentum, Pa., March 21.—A destructive fire broke out at 6 o'clock this evening in the works of the Pennsylvania Salt Manufacturing Co. at Natrona, and for a time threatened the destruction of the entire plant.
