URBAN LINE MUST CONCUR

If Cheap Fares to Mount Pleasant and Radial Railways

Are to be Furthered—Aldermen Are Afraid to Speak on Elevator Question—Boyle vs. Fleming on Victoria Square—Boyle in Ottawa.

The sub-committee of Works, appointed with Mr. Lamb as chairman, to force it possible the wire companies to run their wires underground on business streets, met yesterday. President Warren and General Manager Moyses of the Metropolitan Street Railway were present, and the committee were encouraged to tackle the big problem of making Toronto the hub of a radial railway system.

Mr. Warren explained that the chief difficulty in the way lay in the statute which provided a standard gauge for radial railways of 4 feet 8 1/2 inches, while the Toronto and Metropolitan companies had laid one of 4 feet 10 1/2 inches. The Metropolitan Company, however, is submitting a proposition to the Toronto line, whereby the former for certain considerations would be given running powers over the Church street line, belonging to the latter. This route it is understood is not a heavy paying one, and Mr. Warren is suggesting that it be turned into a trunk line for the routing of radial lines into the city business centre. The idea was favorably received by the sub-committee, especially in view of the proposed improvements to St. Lawrence Market.

Cheap Fares Depend on Urban Roads.

In reference to the question of cheap fares to Mount Pleasant Cemetery, the Metropolitan line representatives assured the committee that in two weeks a 10-minute service at a 5 cent return fare would be put on. They also unfolded a scheme which they were submitting to the Toronto Railway Company by which each road would sell 5 cent coupon tickets, the coupon to be reciprocally honored when presented by passengers going to and from the stations by the two companies. Citizens could thereby get to Mount Pleasant from all parts of the city for 5 cents and return for the same price. The committee will suggest to Manager Keating the advisability of cooperating in this or a similar scheme.

Cost \$7000 to Bury Wires.

City Engineer Rust reported that an underground conduit on Yonge-street between Front-street and King-street for carrying wires would cost about \$7000. This would include 12 ducts, capable of carrying a total of 200 wires, replacing work cost \$300 extra. He suggested that the committee consider the advisability of constructing a conduit on Yonge-street and leading ducts to the different companies at intervals of 100 feet, and the Metropolitan and Canadian Pacific Railway Telegraph companies, and to the T. I. Company, and also to arrange for a meeting with the above companies.

Big Questions Revolved.

The Board of Control has been called for 3 o'clock this afternoon, but those who anticipate any action, either with respect to Victoria-square or the elevator contract, will likely be disappointed. Mr. J. H. Boyle is not prepared to urge his case in favor of the building until the charges of bribery preferred by W. A. Gieseler respecting the obtaining of signatures, in its favor are settled. Boyle claims to have negotiated settlements with those whom the opening of the park would affect, and has evidence to prove that the Assessment Commissioner's estimate of the cost is just \$100,000 too high. He also objects to Mr. Fleming's argument that the turning of the Knox Church site into business premises as contemplated would be a superfluous creation of commercial buildings. "He forgets," says Mr. Boyle, "that at the same time we are creating 300 feet new business frontage; in this way we will be doing away with 600 feet by the expiration of the park site. So that there would actually be a loss of 150 feet frontage by the transaction."

Then, as to the elevators, a subject on which the aldermen assume a decided sympathetic attitude. There is little prospect of the amended specifications for a new tender being ready for the board to day.

Mr. H. H. Nares.

The Mayor has been located in Ottawa, while his absence it is believed, with the Toronto and Hudson Bay Railway. The following petitions were read by the City Clerk yesterday afternoon: Brick sidewalk, west side Portland-street, King to Front; east side Portland, King to Adelaide; also for narrowing of the latter part of Portland-street to 24 feet; side-

LAXA-LIVER PILLS

If your tongue has a nasty coating on it and you have a bad taste in your mouth it is evident your Stomach, Liver and Bowels are out of order. CLEAN COATED TONGUE

BREAD RIOTS ARE FEARFUL.

Causing a Much Greater Loss of Life Than the War.

Spanish Prisons Are Too Small to Contain the Numbers Arrested—Military Required to Suppress the Disorder—Many Italian Prisoners Practically in a State of Siege—King Humbert Greatly Distressed.

London, May 10.—The Madrid correspondent of The Daily Telegraph says: "Bread riots continue throughout Spain. The painful monotony of the story was broken this morning by lists of victims, killed and wounded in the wild attempts to obtain flour. In Ciudad Real and in almost every town of the province of that name there were very serious disorders, and the outbreaks were only quelled by the military. Now it appears that the prisons are too small and too few to contain the people arrested."

Yesterday, at Linares, 14,000 workmen became disorderly and a regular battle ensued with the municipal guards. The rioters possessed themselves of a quantity of fire arms. The streets were barricaded, and they remained so down to the moment of telephoning. Twelve dead bodies and many wounded still lie in the streets and nobody dares to remove any of them in account of the firing which continues steadily."

Italy About as Bad.

London, May 10.—According to a special despatch from Rome 23 provinces in Italy are virtually, if not formally, in a state of siege. Rumor of the riotous outbreak is fomented by the clericals, who have chosen the moment for an attack on the monarchy. No proof of this exists, but King Humbert and his entourage are greatly distressed at the turn of events.

Further Violence.

Madrid, May 10.—The bread riots at all centers, the seat of violence, which began yesterday, were continued last night, the women taking a prominent part in the work of destruction.

A riotous mob paraded the streets, demanding cheaper bread and other necessities of life. The rioters marched to the factories, where they looted the people who were at work. Later, they sacked the central bureau and burned the records and archives. A strong force of gendarmes was sent to the scene and a charge was made upon the mob, which was repulsed. The rioters returned and attacked and burned all the bonded warehouses, after possessing themselves of the wheat in stores.

The Rioting at Naples.

Rome, May 10.—The rioting at Naples yesterday was widespread. It was started by big bands of students, armed with sticks and revolvers, who operated in various parts of the city. They were joined by others and stone throwing became general. The police frequently charged and dispersed the rioters, who however returned and overturned horse cars, with which they attempted to build barricades. It was reported that they were unable to withstand the charges of the cavalry. The rioters made several attacks upon soldiers, using stones and bricks, and the troops fired, killing or wounding a number of the rioters. The latter fled a number of streets and hid in the houses. The streets and burned several guard houses.

Disturbances also reported from various points in the Province of Calabria.

General Malmachi, the military commander at Naples, has been appointed Royal Commissioner with full power to restore order.

Excitement at Berno.

Berno, Switzerland, May 10.—The news of the rioting in Milan has greatly excited the Italian workmen, who abound in Switzerland.

This morning, 1000 Italian workmen paraded the streets, carrying a red flag, draped with crapes, at the head of which were banners, singing and cheering for the revolution. The outbreak at Milan appears to have been felt here, and the reports of the regular correspondents of the Bureau of Industries. The returns are for the first week of May:

Wheat.—No effect that the area of fall wheat had been increased. In most cases the crop came out in the spring in about the same condition as it entered the winter. Little harm appears to have been done by insects, wire-worms being reported in a few cases. The first two weeks of April were far from favorable for the crop, and although rains later helped the plant it is hardly in as forward a condition as usual. Where sown early on summer fallow land wheat has never been more promising. In several of the western and central counties some plowing up has been done, but not to any considerable extent. The present average yield of wheat therefore, may be set down as quite up to the average, and the average condition in the first week of May as fair. The outcome of the crop, of course, depends upon the weather of the next six weeks.

Barley.—The prospects for clover, as correspondents wrote, were most favorable. Some heavy frost—occurring chiefly in the early part of April—owing to the dryness of the district, but not to so great an extent as to be considered serious, while, on the other hand, many reports describe clover as looking splendid, especially in the case of new fields. Reports from the St.

Publisc County Conventions.

Conventions to discuss the prohibition of the sale of intoxicating liquors were held at Brampton, Dufferin, May 10, at Shelburne, North York, May 18, at Owen Sound, North Bruce, May 22, at Chesley, May 23, at Durham, and East Bruce, June 13, at Walkerton.

Midnight Phantoms

That Haunt Thousands of the Homes of Canada.

And Can Be Banished Only by the Use of Dodd's Dyspepsia Tablets—They Never Fail, But Convince by Curing.

How many haunted homes are there in Toronto? How many haunted houses are there scattered over our fair Dominion? There are thousands.

And the ghosts, the malicious, midnight phantoms, that haunt them, rendering thousands of lives unhappy, are, said to say, invited by those who suffer at their hands. Strange, is it not, that a man should invite a gibbering spectre, to murder his sleep and make the long, quiet hours of the night wretched?

Yet so it is. People suffer all the tortures of Dyspepsia, Indigestion, Biliousness, Headache, Neuritis, etc., while, all the time, relief, speedy and certain, is within their reach. Dodd's Dyspepsia Tablets will lay the ghosts of Indigestion, Dyspepsia and all other disorders of the stomach and digestive organs, positively and permanently.

This is no idle boast. It is a fact, indisputable, irrefragable.

Why should you? Dodd's Dyspepsia Tablets will not fail you. They have given cure and happiness to thousands, and have never failed once.

If you don't believe it, test them. They'll convince you by curing you.

Many of the lives of thousands of men and women have been wasted in misery, in continual suffering, while they have been waiting for relief, and relief lay waiting for them to take it. Dodd's Dyspepsia Tablets will positively cure the worst case of Indigestion, Dyspepsia, etc.

Dodd's Dyspepsia Tablets are sold by all druggists at fifty cents a box, six boxes \$2.50, or sent, on receipt of price, by The Dadds Medicine Co., Limited, Toronto.

Mr. Nicholas Rooney, 62 Yonge-street, desires to call the attention of the public to his large stock of lace curtains, tablecloths, table napkins, linens, toweling, cotton sheeting, quilts, flannels, and lace handkerchiefs, etc., which he is selling at very low prices. Mr. Rooney's well-known reputation as a purchaser in the English markets of the above goods should insure him lots of customers at this season of the year. There has been a great demand for the goods Mr. Rooney is at present offering to the public.

An Old Retiree Retires From Duty.

New York, May 10.—John M. Toucey, for many years General Manager of the New York Central Railroad, resigned his position and will be placed on the retired list, ending the annual holiday season. When Mr. Callaway became president he abolished the office of general manager, and Mr. Toucey acted as assistant to the president. This change was made in accordance with the terms of his decision to retire was practically reached some days ago.

A BLESSING TO WEAK, WORN, NERVOUS Women.

MILBURN'S HEART AND NERVE PILLS

restores color to the pale cheek, regulate the heart, tone the nerves, enrich the blood, and impart strength and vitality to the entire system.

MILBURN'S HEART AND NERVE PILLS

A MONCTON LADY AN OTTAWA LADY.

Cured of Weakness, Nervousness and Heart Trouble.

Several years ago I had an attack of La Grippe, which left me in a very weak condition, my health being much impaired. I do not suffer now from any of the troubles which formerly made life miserable for me. If sufferers from heart or nerve trouble will only give these wonderful pills a trial they will have a rich reward for so doing in the restored health and vigor which I believe will result from their use.

MRS. B. BEAUMONT,
 Cor. Wesley and George Sts.,
 Moncton, N.B.

MRS. PASCAL LIBERTY,
 315 Cathcart St., Ottawa, Ont.

MILBURN'S HEART AND NERVE PILLS are the most certain and satisfactory remedy in the world for weak, palpitating or throbbing heart, nervousness, sleeplessness, faint spells, dizziness, weakness, debility, dyspepsia, anæmia, run-down condition of the system, after-effects of Grippe, etc. Sold by medicine dealers everywhere at 50c. a box or three boxes for \$1.25, or sent by mail on receipt of price.

ONTARIO'S CROPS.

Lawrence and Ottawa counties are particularly good. Alfalfa did not stand the winter, as well as red clover.

Vegetation.

Correspondents differ greatly in their opinions as to the condition of vegetation, some considering growth as being well advanced for the time of year, and fully as many others regarding the season as being rather backward. In the eastern part of the province the season was relatively more advanced than in the west.

Live Stock.

The majority of the reports concerning live stock are of a most satisfactory character. Horses as a rule are in fine condition. Cattle are also reported to be in good health, but heavy loss was reported in one or two places, but not to a serious extent. Sheep came through the winter in capital shape, and lambs are many and strong. A few cases of hog cholera occurred in some western sections, but the disease was quickly stamped out. With this exception swine are described as being in good condition. Hogs are now sold for \$12.00 to \$18.00 pounds. The supply of food was plentiful, and there is an abundance of straw.

Farm Supplies.

There appears to be a surplus of hay in nearly every section of the Province, but more especially in the west. Much of the crop is not of good quality, although, of course, there is a fair amount of first-class hay yet to be had. Owing to the large quantity available for sale, prices were low all winter. Reports regarding oats vary, for while many claim that there is a surplus, others hold that there is still a good supply left. Oats were fed more freely than usual during the winter, and during the last few months a large quantity was marketed, consequently there was a better figure in some of the western farmers at the beginning of May. Dollar wheat created an active market, and during the last month an immense quantity has changed hands. It looks as if nearly all the crop has been disposed of in some quarters, although farmers are occasionally spoken of as having from 50 to a few hundred bushels of wheat ready for a further rise in price. Some new seed is being secured than usual, but in some places "equal to the demand." Complaints are made of the low price for beef, especially when offered for fat animals, and many of this class of animals are being kept for a better figure in some of the western counties, and consequently there are rather more in the hands of farmers than are desired, but in the eastern counties fat cattle are scarce.

The Dyspepsia Table.

Rev. Mr. Jones has thankfully acknowledged the receipt of the following amounts in answer to their appeal for the maintenance of a dispensary for the poor, from consumption, at the Muskoka Cottage Sanatorium—\$175 is required:

Previously acknowledged \$74.75; Mr. J. J. Copeland \$1. A. Friend \$1. T. E. Bradford \$1. Anonymous \$4. W. G. Moore, Hamilton, \$2. Widow, Montreal, \$1. L. E. Smith, Acton, \$1. Young Ladies' Bible Class, Clinton-street Methodist Church, \$3. Mrs. J. Ogden \$5, total \$383.75.

Will Reply to Senator Doer.

The speech of Senator Doer last week was greeted with the courtesy demanded

ALLUVIAL GOLD DEEP

Details of the Reputed Place Near Sudbury.

It is alleged that the gravel, 25 to 30 feet of the Precambrian would pay for work it 7-10. Heard from—Mining News.

Further particulars are to be had by the discovery of an alluvial gold-bearing gravel on the Vermilion in the North Bay county, New Brunswick. The Mining News at Sudbury, in the vicinity of which puted find was made, says that deposit covers an area of several miles of country and averages 3 to the ton, sometimes running as high as \$1.50. The beds are conventional and it is considered by some that worth working. They are a center of half a mile back on each side of the neighboring hills.

Yukon Party Heard From.

Mr. George C. Parker of Paris, Toronto, informed The World that he had received a communication from M. T. Tolson, dated April 27, written from the summit of Mt. Pease, Alaska. Tolson is a member of the Bannock camp, a party of prospectors, who are working on the Yukon. Tolson says: "The Bannock camp is along the Northwest Police. I have had to send J. C. engineer, but to Stagnary to do from his duties as United States officer. The weather here is cold, but fine for traveling. We are within five miles of summit, with three feet of snow. It is a lucky escape in coming this far. The snow is the Chilkoot. You have heard of the horrible disaster which befell the party already mentioned. They are coming back from Dyea and this time, we should have crossed over. I was in a very bad state indeed, and thought that my remaining time on earth would not be very long. Both doctors and medicines failed to give me relief."
