30TH YEAR

The Toronto World

A BIG DRY DOCK FOR TORONTO GOVERNMENT AID FOR THE POLSON IRON WORKS IS A PROMISE FROM PUGSLEY

Minister of Public Works is Also Favorable to Improved Wharfage System and Freight Handling Facilities, and Wants Welland Canal Deepened.

MANY NICE THINGS SAID AT ONT. CLUB BANQUET

If only a portion of the improvements to Toronto harbor outlined by Hon. William Pugsley, minister of public works for Canada, at the banquet at the Ontario Club last night, are completed within the next few years, there will be no question of the supremacy on the great lakes as a receiving and distributing point for ocean and lake cargoes.

There are three things in the opinion of the minister of public works, gleaned from observations in a tour of the harbor during the morning, that Toronto needs:

1. An adequate system of wharves, with better connection between the railways and the wharves and better opportunities for the handling of freight.

2. The enlargement of the Welland Canal.

3. A dry dock, with a shipbuilding and repair yard capable of handling the largest vessels on the lakes.

"I am not here to-night for the purpose of making promises to the good people of Toronto," Hon. Mr. Pugsley said. "It is not necessary that I should make promises. What we have done and what we are doing to increase in any way the feeling which we entertain towards the City of Toronto, and that ought to be a guarantee of the course we shall pursue in the future with regard to its claims."

Toronto Should Grow.

"Toronto is the second greatest city in Canada. It seems to me that Toronto is in a position to increase its business and population with marvelous rapidity. I would like to see it not the second city of Canada but one of the great cities of the American continent. The opportunities are great. The industry, enterprise and intelligence of its citizens are second to none anywhere. I see no reason why any limit should be put on the prosperity and increase which may be obtained by Toronto."

He believes from what he saw to-day that the people of Toronto are alive to their possibilities as to the development of their harbor, and you will find that the prime minister and my other colleagues in the government," declared Hon. Mr. Pugsley in conclusion.

Guests to Be Honored.

The chair was occupied by M. J. Haney, president of the Ontario Club, with Hon. Mr. Pugsley on his right and Senator J. E. G. Campbell on his left. Those present at the guest table were: H. H. Dewar, K.C., C. G. Marlett, Senator Geo. A. Cox, Geo. T. Somers, Dean Gahagan, R. G. Foster, Controller F. S. Spence, F. W. Broughall, J. J. Main, J. B. Miller, J. H. Housser, Lionel H. Clarke, E. R. Ralph, Wm. Douglas, K. C. Alf. McLeod, Mr. Robert J. Jeffrey, W. K. George, A. Paton, Ald. Weston, T. C. Robinson, K. C., and J. F. Mackay.

Understanding some predictions of a large crowd of the faithful blocking Bay-street to gain a glimpse of the minister as he passed into the club, he in the consensus of the members of the committee having the matter in charge, there was little disturbance on the outside and perfect harmony inside.

Mr. Dewar's Tribute.

In introducing the speaker of the evening, Mr. Dewar, referred to Hon. Mr. Pugsley's transition from the realm of provincial politics in New Brunswick to the larger field of Dominion affairs, bringing with him the experience of business and political sagacity, as well as a characteristic tact which enabled him to handle difficult problems with perfect satisfaction.

Mr. Dewar referred to the local members of parliament who "misrepresented Toronto." He said it was not true that the department of public works had turned a deaf ear to the entreaties of Toronto, and mentioned that when a deputation from the city met the minister, he declared that only half the truth was usually told by his political opponents. He reported an expenditure for the year ending 31st March last of \$1,743,739.39, which was made up of \$1,867,864.01 on capital account, \$1,292,359.15 on income, and \$25,054.23 on revenue. The department was divided into three branches—harbors and rivers, public buildings, and telegraph and telephone. The harbors, he said, were under chief engineers who had resident engineers in the different cities. He paid a graceful compliment to J. G. Sins, engineer at Toronto, saying: "We have no more intelligent, more loyal to the country, or more faithful in the discharge of his duties than the man you are fortunate to have residing right here with you."

He is a man whom the department can at all times trust to bring to the duties of his position the most faithful devotion in the interests of the country.

The Policy of Patronage.

With regard to the class of public buildings being erected, Hon. Mr. Pugsley said he always advocated a

SOMETHING DOING FOR TORONTO

According to Hon. William Pugsley, federal minister of public works, Toronto's harbor needs better wharves and facilities for handling freight; the improvement of the Welland Canal, and a large dry dock and ship-repairing yards.

"And," he told the Liberals who banqueted him at the Ontario Club last night, "I believe from what I saw to-day that the people of Toronto are alive to the possibilities of harbor development, and you will be able to count upon me and upon the prime minister, and my other colleagues in the government."

Mr. Pugsley declared that he was willing to recommend to the government favorable consideration of the application of the Polson Iron Works of Toronto for assistance in the construction of the dry dock and shipyards. He also declared that as soon as the N. T. Railway was completed, in 1913, the Georgian Bay and Welland Canal projects should be undertaken.

HON. WILLIAM PUGSLEY.

AFFECTING SCENES AT BORDEN'S ONTARIO TOUR EXPULSION OF THE JEWS DETAILS STILL UNSETTLED

Orders of Russian Government Are Being Carried Out With Relentless Cruelty.

The expulsion of the Jews from Kiev has begun and is proceeding with relentless cruelty.

The exodus is compulsory, and in fulfillment of the orders of the Russian Government that all Jews who can not establish a legal claim to residence outside the pale return forthwith to the confines defined in the original Jewish segregation law. The pale was formed by the Polish provinces and the Ukraine.

The scenes in the streets of Kiev yesterday were affecting. The expelled ones were veritable paupers, lacking all means of subsistence. For the moment the Jewish families possessing some means were undisturbed.

Through the day a straggling train of wagons passed out the city gates carrying the miserable household effects of the banished. All was confusion. Sobbing women clinging to their little ones and sad-faced men were alike escorted outside the town limits and told to return to the places of their banishment.

A different procedure is adopted toward the Jews who have some wealth. They, however, are put to great expense being obliged to return to their native towns to secure new permits for a visit to Kiev on the grounds of urgent personal business. These permits are granted for limited terms and also require frequent renewal.

LIVE BABIES AS MODELS

Training of "Little Mothers" in Philadelphia Public Schools.

PHILADELPHIA, May 26.—Babies will be used as live models for the demonstration by nurses at a series of lectures to be begun to-morrow in the public schools by demical inspectors from the bureau of health. They talk on baby culture, deal with proper food, the manner of clothing and the bath. The lectures are to be given before the older pupils in the lower grades of the public schools in the congested wards of the city with the hope that the girls will carry home to their mothers some helpful hints and be of greater assistance in the care of the babies.

It is the intention to conduct examinations at the close of the term, when the girls receive some mark of merit for their proficiency.

DAMAGES FOR SLANDER

Awarded Blind Musician Against Toronto Clergyman.

LONDON, May 26.—At the Wiltshire assizes Charles Hammett, blind musician, obtained £150 damages against Canon Plumtre of St. James Cathedral, Toronto, for slander. A stay of execution was granted.

C. N. R. OTTAWA ENTRANCE.

OTTAWA, May 26.—Plans were filed in the railway commission today for the entrance to the city of the C.N.R. line from Toronto. It will skirt along the southern part of the city and enter at the Montreal line of the company now comes in. The important thing about it is that Ottawa is evidently to be on the main line of the road between Toronto and Montreal.

SHOT THRU THE HEART.

TROY, N. Y., May 26.—Martin Casey, a character in Stephentown, was shot thru the heart to-day by Frank Carr, also of that place. Casey quarrelled with Carr outside the latter's home and fired two shots at him, which missed. Carr ran into the house and procuring a rifle, fired the fatal bullet thru Casey's heart. Carr was arrested and brought to the jail here late to-night.

BORDEN'S ONTARIO TOUR DETAILS STILL UNSETTLED

But He Will Open Up at Campbellford June 14, and Probably Visit About a Dozen Other Places.

Also the itinerary is not definitely arranged for R. L. Borden's Ontario tour next month, some details have been definitely decided. Yesterday Hon. J. S. Duff and Major Currie, M.P., were interviewing railway officials, arranging for special rates and services.

The tour will open at Campbellford on June 14, and will later take in Belleville, Trenton and Newcastle. From there he will likely go to Niagara Falls and possibly to Hamilton, then to Clinton, Durham and Newcastle. From there he will likely go to Niagara Falls and possibly to Hamilton, then to Clinton, Durham and Newcastle. REFUSED TO TAKE OATH

Civil Servant Thought It Had Clause Similar to Accession Declaration.

OTTAWA, May 26.—Considerable talk is going on in the civil service respecting the failure of one of the clerks in the customs department to take the oath of allegiance to King George V. In the case in point it is stated that the clerk refused to go in with the others, taking the ground, which is said to be wholly erroneous, that the oath contained passages similar to the accession declaration.

BRITISH PRESS ON CANADA

The Dominion Will Not Wait Forever on British Electorate, Says Mail.

LONDON, May 26.—(Canadian Associated Press Cable.)—In reference to Canadian commercial negotiations, the London Daily Mail says that the Dominion's ideal is still closer commercial union with the empire, but as years pass without response from the British electorate, hopes diminish. It would be unwise for the British to delude themselves as to the attitude of the present Canadian sentiment.

SETTLED PELAGIC SEALING.

VICTORIA, May 26.—(Special.)—It is announced by the authority of British naval officers that a settlement of all matters affecting pelagic sealing is now practically concluded. In the light of the conference offer of \$150,000, made by the United States ten years ago.

TIME LIMIT NEARLY UP.

QUEBEC, May 26.—The time limit given to the Canadian Northern Railway for the refunding of the \$200,000 which the city had given the company on condition that they erect workshops in this city, will expire in a couple of days. It is stated that nothing had been done in the matter by the company as yet. At a meeting of the city council a few weeks ago a motion was adopted giving the Canadian Northern Railway Co. a month in which to comply with their demand.

FRENCH SUBMARINE, SUNK IN COLLISION, LIES DEEP IN CHANNEL WITH 27 MEN

Three Officers and Twenty-four Men Are Entombed in French Submarine at Bottom of Channel, and Are Probably Dead

PARIS, May 27.—A special to The Matin from Calais says that claims have been attached to the submerged Pluviose. A despatch to The Journal says that the torpedo boat destroyer which crashed there by the Channel, was sent there by the cross-channel steamer Pass de Calais, which, crowded with passengers, bound for Dover, struck the partly submerged Pluviose when about two miles from the harbor.

Accounts differ as to the cause of the accident. Admiral Fourrier has expressed the opinion that the submarine attempted to pass beneath the steamer, while other officials think that the Pluviose, after a long dive, came up by chance directly under the paddle wheels.

The shock of the contact brought the passengers to the steamer's rails, and they saw almost instantly the hull of the submarine rolling above them, and later a torpedo boat destroyer put out and anchored near where the Pluviose had gone down. Within an hour or two a wrecking vessel was lying near the destroyer, and her crew were making hasty preparations to send down divers to locate the ill-fated submarine, entombed in which are three officers and 24 men.

The chances of rescue are very slim, because, in the opinion of experts, divers in their attempt this evening to reach the Pluviose, and if the impression made are not already dead, it is certain that the delay will prove fatal. The submarine lies in many fathoms of water, and the divers were able to descend only a short distance. Powerful dredges and machinery will arrive from Cherbourg in the morning, when all efforts will be centered in a final attempt to reach the ill-fated craft and bring her to the surface.

The general fear is entertained that the Pluviose received a vital blow from the paddles of the Pass de Calais, and that some of her plates were crushed. Even if the crew succeeded in closing her water-tight compartments, they will not be able to survive for any great length of time. Of the 27 men in the Pluviose three were officers, including Commandant Prat of the submarine division of Calais.

The submarine was of the Laubeuf type. Her length was 160 feet and her displacement was 308 tons.

An Excursion to New York

On June 23 The Toronto World will run an excursion to New York and return. The rate from Toronto via rail will be \$14.25 for the round trip, while via water the rate will be \$12.35 for the round trip. The tickets will be good leaving on the above date, and good to return leaving New York July 2. This will be the last opportunity of a reduced rate to New York until Aug. 18.

Doubtless many people will take advantage of this excursion, as June is an ideal month for visitors to the great metropolis.

BOY HAS BRUTAL CRAZE FOR BEATING CHILDREN

Has Been Enticing Youngsters Into Seclusion and Whipping Them Into Insensibility.

ST. JOHN, N.B., May 26.—(Special.)—The police this morning made a sensational arrest of the boy found who has been torturing children in this vicinity for the past few weeks.

He is Charles McLaughlin, 16 years of age, and he was arrested in his home this morning, after he had jumped from a high window in an attempt to escape. The boy was taken to the police station and positively identified by the children he ill-treated.

No case for a long time has caused such a sensation as this one. McLaughlin, who is a dime novel fiend, approached little children on the street and with the promise of candy would induce them to accompany him to a secluded place. Then he would strip the children and beat them almost into insensibility.

Four cases are already reported against him and there may be more. In all the cases his method was the same, and the children beaten by him were very seriously injured.

INTERMEDIATE RATE FOR BELGIUM AND ITALY

Will Be Placed in Same Position as France in Regard to the Canadian Tariff.

OTTAWA, May 26.—(Special.)—The tariff agreements with Belgium and Italy, which Hon. W. S. Fielding promised the house of commons last session, and the details of which, it is said, will shortly be announced, will practically give these two additional European countries the same tariff concessions granted to France.

Both Italy and Belgium have been placed at a disadvantage in the Middle East by France, which gives an intermediate tariff rates on a considerable list of French products, while the highest rates are still collected on similar commodities from these countries.

Belgium has been hit by the provision of the Canadian-France treaty that goods must be shipped to Canada direct from the country of origin, in order to get the intermediate rates.

This has had a tendency to injure the shipping port of Antwerp. Italy has suffered more particularly on account of the lower rates given to the silk of France. The departure of Hon. W. S. Fielding and Hon. Wm. Patterson for England has been delayed by the negotiations with Belgium and Italy, which are expected to be concluded within the next ten days.

THE COST OF LIVING

Government Enquiry Shows Alarming Increases in Certain Commodities.

OTTAWA, May 26.—(Special.)—The May number of The Labor Gazette contains additional results of the enquiry being conducted by the department as to the price of commodities and the cost of living.

The cost of hides, tallow, leathers and boots is particularly dealt with. The figures produced show that the prices of these commodities were higher in 1908-09 than at any time in the previous twenty years. Compared with the average prices for the decade 1890-9, the increase was approximately 35 per cent. The most noteworthy recent advance has been an exceedingly rapid increase of cowhides and calfskins during the past year, which has affected the price of boots and shoes.

During April industrial accidents occurred to 340 individual workmen in Canada, of which 94 were fatal, and 246 resulted in serious injury. The railway service leads the list with 18 killed and 40 injured, and the lumbering industry comes second with 15 killed and 11 injured.

RUTHERFORD HAS RESIGNED FROM PREMIERSHIP

Entire Alberta Cabinet Send In Their Resignations—New Prime Minister, Chief Justice Sifton, is a Brother of Hon. Clifford Sifton.

EDMONTON, May 26.—(Special.)—Premier Rutherford and his cabinet resigned this morning and Chief Justice Sifton was sworn in by Lieutenant-Governor Bulaya as premier. With Hon. Mr. Rutherford, Hon. C. W. Cross, attorney-general, Hon. Duncan Marshall, minister of agriculture, and Hon. F. E. Bessard, minister without portfolio, all retired. Hon. W. H. Cushing, former minister of public works, and Hon. W. A. Buchanan, minister without portfolio, the other two ministers of the Rutherford administration, resigned during the session of the legislature during the Waterways crisis.

The new premier, who is a brother of Hon. Clifford Sifton, will have in his cabinet Judge Mitchell of Medicine Hat as attorney-general, Hon. Duncan Marshall as minister of agriculture, and another southern member, possibly Dr. Warnock, as minister of public works. The new administration is made up entirely of southern men.

Premier Sifton, after being sworn in to-day, stated that no announcement with regard to his cabinet could be made till Monday. The afternoon Lieutenant-Governor Bulaya swore in the new members of legislature and immediately prorogued the house. Another session will be held in the fall, perhaps November.

The caucus held last night of government supporters decided to ask Premier Rutherford to place his resignation in the hands of the lieutenant-governor. At the same time it was decided to request Chief Justice Sifton to assume the premiership, he being assured of a substantial majority in the house.

There was a hard fight to save attorney-general Cross, as he has enthusiastic followers, but the only condition on which Sifton would discuss the leadership was that none of the ministers who had anything to do with the legislation and contracts of the Great Waterways should be included in the new cabinet.

Judge Mitchell of Medicine Hat is the only name mentioned as successor to Cross. Besides the resignations, the resignation of attorney-general J. A. Boyle is the only lawyer in the house, and the prominent part he took in leading the insurgents, makes it probable that he will be the majority of the government supporters.

Hon. Arthur Lewis Sifton, M.A., B.A., D.C.L., K.C., the new premier of Alberta, is not a stranger in the political arena. He was elected to the legislature of the then Northwest Territory in 1888, and 13 years later was re-elected by acclamation on taking office as treasurer and commissioner of public works. In 1903 he was appointed chief justice of the territory, and in 1905 chief justice of the newly formed Province of Alberta.

He is an elder brother by 8 years, of Hon. Clifford Sifton, the former Speaker of the Manitoba Legislature, and the family homestead at the time of his nativity (1828) was in Middlesex County. He was educated in the public schools; at Wesley College, Winnipeg, and Victoria College, Toronto. He studied law and was called to the bar in 1852. He married Mary H. Deering in 1852 and has one son and one daughter. He lives at Banff.

MONTREAL HARBOR PLANS.

MONTREAL, May 26.—(Special.)—Major G. W. Stephens, chairman of the harbor board, states this evening that the Montreal harbor plans have been approved. In fact 1000 men are already at work.

The feature of the present season's operations will be the new Victoria pier which will give accommodation to six additional ocean steamers and four times as much space for river craft.

To Settle Western Dispute. OTTAWA, May 26.—There is a dispute among the building trades at Regina, and Deputy Minister of Labor went to Regina to-day to make an effort to adjust the differences.

STILL DARKING DAYS.

Cold yesterday morning; fine in the afternoon; darkening throughout the day. Good for fruiting, but no encouragement to garden or fruit man. And yet things come along. Fall wheat and extra good feeds can be seen lengthening out and pluming down its ribbons and getting a long way from the look of grass; but timothy hay has not yet felt the same upward stimulus. Field peas make a fine low burst above the ground like a forest in miniature. A variety of fresh green peas grow now. Young flocks of quality are let out in the bright hours; then rushed back to the stables with their dams. Tomato plants that had the glass shades left off thru the night will of cold the next day. Rain lies long on the ground before it soaks down, leaving a muddy glare behind. And it is but time when the blue barn swallow will stop to sit on a wire fence with its little mate.

HAMILTON HAPPENINGS

MILITIA SHOULD LEARN LESSON OF STONY CREEK

General French Uses the Battle There as Illustration of Value of Night Operations.

HAMILTON BUSINESS DIRECTORY

Housekeeper Wanted

Hotel Royal, Hamilton

HAMILTON, May 26.—(Special.)—General French arrived this morning and was met by Col. Logic, commander of the Fifteenth Brigade, and a number of officers of the local militia. He was taken to the Royal Hotel, where an informal reception was held. At noon he was entertained to luncheon in the armory. This afternoon he went out to the battlefield of Stony Creek, where he laid the cornerstone of a monument to be erected by the Women's Wentworth Historical Society to the memory of the soldiers who fell in the war of 1812.

Mrs. Calder, the president of the society, before asking the general to lay the stone, briefly outlined the history of the movement to erect the monument. She praised Earl and Lady Grey for the encouragement they had given it.

General French said that it afforded him great pleasure to officiate there that day. Canada, he remarked, was indebted to the history of the British Empire beyond the seas in its history and traditions. There must be, he felt sure, a great incentive to the soldiers and citizens of Canada to desire to be worthy of the monument testimony to the work the women of Canada had done in all parts of the Dominion to perpetuate the story of its military.

The Lesson of the Battle.

After giving a resume of the battle of Stony Creek, which was fought at night, the general made the following remarks: "The lessons we learn, from this great national lesson, from this encounter, should be to train soldiers to work at night, for next to shooting, that is the most special thing in war to-day. I have had some experience in fighting at night, and also some experience in training men to fight at night, and no one who has not experienced it can realize how weird and empty the darkness makes it. It is not the darkness that is bewildering. The difficulty can be entirely overcome by practice, and I would recommend all officers to study well the lessons of the battle of Stony Creek. Had not an officer who was used to operating at night taken a few men, placed the enemy's guns, and captured two generals, thereby turning the tide of this encounter, we should not have been standing where we are this day."

After a short prayer had been offered

By Bishop Dumoulin, the stone was laid by the general.

W. O. Sealey, M.P., then welcomed the general on behalf of the County of Wentworth, and introduced him to the warden, who also happens to be named French.

General French was presented with a silver trowel as a memento of the occasion.

Reviewed Hamilton Troops.

To-night he reviewed the Thirtieth Royal Regiment and the Ninety-First Canadian Highlanders in the armory. The former turned out 617 strong and the latter 403. After the review the general complimented Lieut.-Col. Mewburn, of the Thirtieth, and Lieut.-Col. Bruce of the Ninety-First, on the soldierly appearance of their commands.

Charging that his wife, although mentally competent, is held a prisoner in the asylum here because he cannot afford to pay \$200 for her release, John N. Dunn, of Chicago, is endeavoring to interest influential people there in the case.

He has told Chicago papers a sensational story insinuating that the \$200 he is called to pay is "graft."

Notwithstanding the fact that Dunn, according to correspondence at the asylum, deserted the woman, Ella Tuomey, of Galt, in 1897, at Detroit, when they were returning from Chicago, he has spared no effort, since 1902 to have her released. He has interviewed senators and congressmen all over the States, and got many of them to write letters here. Several times he has written himself, offering to take the woman from Canada. The government inspectors have investigated the case and decided the woman could not be freed.

Rice Carson, corner of Vine and Park, was arrested to-night, charged with stealing a gold watch from J. McKeand.

Scientific Association Elect Officers.

The Scientific Association at its annual meeting to-night passed a resolution of sympathy with the family of the late A. T. Nelli, a past president.

H. B. Witton read a paper on Stories and Legends, which was made an honorary member of the association, and a letter acquainting him with his appointment will be despatched to him.

Nou Duran, 120 Caroline-street, was taken to the general hospital this afternoon suffering from a broken toe. A bar of iron fell on his foot.

Judge Sutherland this afternoon dismissed the action for damages brought by J. E. Kerr against the Township of Saltfleet. Mr. Kerr complained that the ditches dug by the township flooded his farm and destroyed his trees.

HOT SHOT FOR CANADIAN ENVOY TO NEW ZEALAND

Western Liberal Writes to Ottawa Declaring No Klondiker Had Any Use For W. A. Beddoe.

OTTAWA, May 26.—(Special.)—Major Henry Woodside, formerly a well-known western Liberal newspaper man writes the Ottawa Journal to-night protesting against the appointment of W. A. Beddoe as Canadian trade commissioner to New Zealand.

Amongst other things he says of Mr. Beddoe: "His unpleasant connection with the Beddoe-J. B. Tyrrell libel suit, his more unpleasant withdrawal from the editorship of The Dawson News, and his most unpleasant appointment, first as government official and later as editor of the newly converted 'Nugget' (now 'World')—an appointment which split the Liberal party in the Klondike, are incidents which might be investigated with interest."

"I do not know of an honest Klondiker who had any use for Beddoe, and I feel sure that the cleverest cartoonists in Canada, usually represented in the 'almighty law' in his Dawson masterpiece."

"If Mr. Beddoe was to be sent to some obscure South American country, the error would not be so glaring, but to send him among a people notably high in intelligence, standing and commercial acumen, in an insult to them and to us. The New Zealanders who lived in the Klondike will not be likely to approve him to their countrymen."

T.C.M. COMMENCEMENT

Annual Concert of Leading Pupils an Enjoyable Affair.

Last night at Masey Hall the pupils of the Toronto Conservatory of Music assembled for the annual commencement of the year, and introduced the Canadian Institution to the New England Conservatory.

The occasion was the twenty-sixth annual commencement of the conservatory, an institution which has done more to advance the cause of music and general culture than any other on the continent. Aside from the qualities of the staff teachers, the prominence is due especially to the efforts of Dr. Edward Fisher.

On occasions of this sort it is not quite fair to "pick out" those who might be described as "favorites." But in the singing of Massenet's "Vision Pensive," Rhond Jameson again displayed the generous quality of his baritone and added to his reputation as an emotional interpreter. Miss Kathleen Howard, who, by the way, was the winner of the first prize for female voices at the recent Erie Grey competition, disclosed again the brilliant coloratura qualities of her voice in "Veni, Creator, Rex Caeli." Words of praise must also be accorded to Mabel Watson for her singing of Massenet's "He is Kind." The piece de resistance, "The Song of the Sea," was sung by Miss Della E. Johnson in a grand and noble allegro-vivace movement from Mendelssohn's concerto in G minor.

But all numbers of the program testified to the thoroughness of the training afforded by the Conservatory of Music and its value in raising and sustaining the place of Toronto in the musical circles of Canada. The other contributors to the program were: Miss Iva, in Champlain's "Concerto"; Miss Rachel, in "Concerto in B-flat major, Op. 28"; Miss Constance Martin in Grieg's "Concerto in A minor, Op. 16"; Miss Flora Macdonald, in "Concerto in A major, Op. 24"; Miss Pearl Preston Hall in Weber's "Ocean Thou Mighty Monster"; Miss Pearl Rewan in Tchaikovsky's "Concerto in B-flat minor, Op. 23"; and Neil Donald McFadyen, who gave the Treadler song.

The Toronto Symphony Orchestra, which accompanied several of the artists, and was also heard in several selections, maintained its high reputation. There was a very large audience.

Quebec Chambers of Commerce Say Georgian Bay Canal Should Be Built.

MONTREAL, May 26.—(Special.)—The Georgian Bay canal was the feature of today's session of the Federation des Chambres de Commerce. A resolution proposed by C. H. Cattell and seconded by M. M. A. Jamin, member of the House of Commons, in favor of the project of the construction of the canal with the least possible delay, that the route of the canal be one, and be navigable for ships drawing 22 feet.

Irish Get More Entries.

The entry list for the Irish-Canadian tourney at Riverdale Rink Monday and Tuesday continues to grow and in spite of the suspension by the C.A.A. of some of the entries, there will be plenty of competition between fast and skillful men.

Bob Day is determined to redeem himself for his defeat at Boston, and is training harder than he ever did before. The "Big Scot" is working with Hilliard Lang, who gets Kid Howell of Halesbury at Hamilton Wednesday night. The following entries were received by Tim O'Rourke last night: Ed. Vallan-court, 105; W. O'Meara and T. Morris, 115; W. Parke, W. T. Edwards, and Will Carr, 125.

Saturday's Bicycle Races.

The entries for the Toronto Bicycle Club's big meet at Scarborough Beach Saturday, predicts a successful evening. The first race starts at 8:15 and any riders not on the mark will be left. Secretary W. Gladish says there will be no waiting. "We are going to read the names of the riders and allow our patrons action all the time." Allowing boys with bicycles to enter free is a good idea, as it gives them a chance to see the races.

NO SURRENDER ON THE OATH, SAY ORANGEMEN

Will Send Special Copies of The Sentinel to Clergymen With Articles Against Any Change

BRANTFORD, May 26.—(Special.)—Delegates to the Supreme Orange Lodge assembled here to-night expected to conclude their labors at an early hour in the morning by the election of officers and selection of the next place of meeting. Early this morning a committee, consisting of a representative from each of the Canadian provincial grand lodges, was appointed to consider the scheme for a Protestant platform for the Dominion. This platform has the hearty approval of the delegates.

At the afternoon session a strong resolution was adopted protesting against any change of the Orange oath. A special issue of The Orange Sentinel, containing articles opposing any change proposed, will be forwarded to every Protestant clergyman in Canada and Newfoundland. A resolution of sympathy was also passed to Queen Alexandra and the royal family and another expressing loyalty to King George V.

Resignation of Foreigners.

A special committee was appointed to draft legislation to prevent registration as voters of foreigners conversant with English. In this connection a Toronto delegate provoked a laughing by telling the Ontario Toronto contact, who was the signer, when asked if he was a subject of King Edward VII. replied, "No, I am not."

All lodges in the future will be asked to take action in cases of drunkenness of members, especially those in uniform. The matter came up through a report received by the grand master that one of the attending delegates had been found intoxicated. It turned out, however, that the party was not an Orangeman, but wore an Orange badge.

The announcement was made by representatives of the Grand Lodge of Ontario West that a new grand lodge was under way for New Ontario. The announcement followed the oft-repeated request of Kenora and Rainy River for permission to join the Grand Lodge of Manitoba.

A memorial form of flagstaff and flag will be raised over the grave of Alex. "Mac" Leach, "Maple Leaf." The gathering rose and sang the "Maple Leaf," signifying their hearty approval.

The following appropriations were made: The Imperial Protestant Federation, \$100; Orange Orphanage, Nova Scotia, \$100; True Blue Orphanage, Prince Edward Island, \$100; to assist the provincial grand lodges in organization, \$100.

The historic of the Salvation Army was strongly endorsed by resolution and delegates were asked to have all lodge members assist the army in every way possible.

Officers Elected.

To the surprise of everyone the election of officers was reached at ten o'clock. The principal officers re-elected. They are: Dr. Spruille, M.P., grand master; J. H. Scott, K.C., Walkerton, deputy grand master; Rev. Canon W. W. Stramton, grand chaplain; J. Parkhill, Midland, grand treasurer; Wm. Lee, Toronto, grand secretary; A. A. Gray, Toronto, grand lecturer; G. W. Woodburn, grand director of ceremonies; W. M. Fitzgerald, Toronto, assistant grand secretary; H. C. Hoeken, Toronto, assistant grand treasurer; H. DeWaters, Minden, Ont., and Joseph E. Thompson, Toronto, auditors.

The eighty-first annual meeting of the Orange Order of the British Empire was concluded at midnight to-night. Just before adjournment Winnipeg was chosen as the place of meeting next year.

Eaton's Athletic Meet.

Eric Lavoie, who has received the invitation of Mike Fugmelio, an Italian five-miler from Vespucci, who has invited him to take a 5-mile distance in the splendid time of 26 flat. If he is as good as all that, it will keep him in the running for a humphing to beat the Italian out. Treasurer the Canadian champion for five miles and is going to give a little for this meet on June 4, and the list of about twenty in this event will take a lot of beating. Buffalo's leading over another entry, also in this event.

Paul Paul, the Buffalo champion mile runner, has not yet entered the open, and says in his letter with his entry that he is in the game. He wants to beat Paul is carrying around in the city about the holding he received from Tall last spring. The 74th Regiment camps in Buffalo. Entries on the meet day only to be made, and the list exceeds the officers' expectation, with to-day's mails to hear from which would reveal the number considerably.

The plan will be put on sale next Monday.

Cremona Becoming Popular.

MONTREAL, May 26.—Cremona is making its way, slowly at first, now faster, and bids fair to become fairly general among the Protestant portion of the population. The crematory here was established in 1902. In that year there were three cremations; 1903, 6; 1904, 8; 1905, 18; 1906, 19; 1907, 20; 1908, 27; 1909, 52. So far this year there have been 52.

James Simpson, Chairman of the Board of Education, when asked last evening as to a report that he was to be made a member of the technical education commission appointed by the government to visit Europe, said that the statement was quite premature.

He has, however, been endorsed by the Trades and Labor Council of Canada as their candidate.

Suburban Residences for Merchants and Professional Men

Toronto has needed a highly restricted suburb, and fortunately the beautiful Lawrence Estate up Yonge Street North, has been purchased, improved and placed upon the market for those who wish quiet, refined and beautiful surroundings.

LAWRENCE PARK

is decidedly a refined district, and only people who can erect a satisfactory residence are invited to purchase lots. This property is being sold to those who want to live there. It is destined to be Toronto's only restricted suburb, and prices are sure to advance steadily as the city grows and the demand for suburban residences increases.

INDUCT NEW PASTOR

St. James' Church, Guelph, Welcomes Rev. S. H. Dix of Dartmouth, N.S.

GUELPH, May 26.—(Special.)—Rev. Dr. S. H. Dix, formerly of St. James' Church, Dartmouth, N.S., was this afternoon formally inducted into his new charge as pastor of Chalmers' Church, one of the oldest churches in Guelph, with about the largest congregation in the city.

The main address of the afternoon was made by the Rev. Mr. McLeod of "Belwood," while the Rev. W. R. McIntosh of Elora presided. The address to the congregation was made by the Rev. W. G. Wilson, pastor of St. Andrew's Church, who during the vacancy of the congregation has been acting as pastor of that church. The address to the new minister was made by the Rev. Mr. Blair of Nantawong. Rev. W. G. Wilson, in addressing the congregation, expressed himself in an original manner. Good church members and conscientious church workers should, he declared, not expect of the minister to call at their homes. They should be content with meeting him in church and should let him devote his time to the consolation of the sick and afflicted and to the preparation of his sermons. These were more important things for the pastor of a large congregation than making over tea cups or looking up new members.

This evening's services were given to a social gathering, at which congratulatory addresses were made as well as two presentations, one to Rev. Mr. Wilson, and one to Rev. Mr. Dix, pastor of this city. Rev. Dr. A. W. Wood, the first pastor of Chalmers' Church, who filled the pulpit for twenty-six years, resigning about two years ago, took part in the services.

KING JAMES GALLOPING WINS VAN COURTLAND

Mile in 1:37 4-5 Will Make Him Favorite for Brooklyn on Tuesday.

BELMONT PARK, May 26.—King James, carrying 139 pounds, easily won the VanCourtland Handicap at Belmont Park, today.

Time 1:37 4-5. Together with his very impressive race, makes him the probable favorite for the Brooklyn Handicap to be run at Gravesend next Tuesday.

King James' time today equaled the time of the Metropolitan Handicap. The start was good and Priscillian went out to make the pace and led to the far turn, when Stilling sent King James up fast on the rail and taking the lead, won galloping by lengths from Priscillian, with Zienap third. Summary:

FIRST RACE—Maiden colts, 2-year-olds, 5 furlongs, straight. 1. Antenor, 108 (Shilling), 2 to 1. 2. Colston, 105 (Thomas), 10 to 1. 3. Amald, 108 (Crewey), 13 to 5. 2 to 1.

ALBANY, N.Y., May 26.—Assemblyman Perkins' bill withdrawing the Percy Gray bill exempting from personal liability of directors of racing associations was passed by the senate yesterday. The bill now goes to Gov. Hughes.

A similar bill by Senator Agnew had previously passed the senate, but has been held up in the committee on rules in the assembly, and in order to pass the Percy Gray bill, Senator Agnew had the senate rules suspended, and the senate committee discharged from further consideration of the bill. The Agnew bill prohibiting the publication of betting odds on horse races is still in the committee on rules, and has little or no chance of passing.

At Scarborough Beach. The Royal Polo Team, the big free circus feature at Scarborough Beach next week, have been the sensation of the big vaudeville and pacific circuits which they have played. On a small stage, and mounted on bicycles, they play a regulation game of polo, which is just as exciting and hazardous as the original variety of the sport. There will be other new and interesting attractions.

MINERALS IN NORTH ONTARIO.

All over the country the sentiment against wildcatting is very general. The practical men recognize that the public must be interested in the mining exploitations of northern Ontario in order to get capital to pursue the development required.

The testimony given by nearly everyone who is in a position to speak with the authority of experience is to the effect that the mines of the north are not poor men's properties.

There should be no misunderstanding about this. It does not mean that poor men are unable to go into the mining regions and make valuable discoveries, and that they may not amass sudden wealth in this way; but it means that the greater part of the country requires the capital necessary to put in expensive machinery in order to extract the metals from the low grade ore which prevails.

When this is the case the folly of over-capitalization must be apparent, and the worse than folly of those who try to float companies on a mere chance has done more to injure mining than anything else in Ontario.

At the present time there are thousands of acres staked out under affidavits swearing to the discovery of mineral in place, while much of the territory is covered with farm soil many feet deep. Until such claims are inspected and the government through its inspector at least testifies to the presence of mineral of value, the public should be careful of investing.

The testimony of experienced mining men from other mining communities is altogether favorable as to the potentialities of the whole north country, and those who are trying to introduce the importance of the gold and silver belt can only be influenced by motives of self interest if they know anything at all about the situation.

TWO PRELIMINARIES. It will be time to talk reciprocity with the United States when they've lowered their tariff to something like Canada's.

And the only reciprocity talk of theirs that we can listen to is tariff legislation in the shape of reductions. If Uncle Sam scales his tariff down to certain things, we will do the like with certain things of ours.

PRUSSIAN CITY COUNCILS. In his valuable book on "The Government of European Cities," Professor Munro of Harvard University remarks that as to the general character and standing of the municipal councils, there is and can be but one opinion.

Among the local elective organs of the various countries of Europe and America, he continues, none have been more successful than the Prussian city councils in securing as members men of ability, integrity and general prestige. It is, he adds, well within the truth to say that in a city like Berlin, the councilors are chosen from among the very best citizens of the capital; that they form, for the most part, a well selected, elite drawn from the professional, mercantile and academic circles of the population; that, in short, they represent not the hasty and transitory judgments of the masses, but the best business sense of the community.

In considering the question why men whose private interests are so important should be willing to give to the German municipality so much of their time and thought without any direct remuneration and without the slightest indirect possibility of financial recompense, Prof. Munro attributes it chiefly to the fact that in Prussia the social prestige which attaches to public service of any sort is greater than it is in any other country. The Prussian national authorities have for many years assiduously fostered the doctrine that those who serve the state in either military or civil offices, should take rank in the social scale above the ordinary layman, no matter what the wealth or business standing of the latter may be.

ment of the rising population. It has descended from the state to the city, and Professor Munro says, the influence it has had in leading men of wealth and prominence to welcome the opportunity of a seat at the council board can hardly be overestimated.

TORONTO HONORED IN THIS.

In the appointment of Prof. J. F. McCurdy to the charge of the School of Oriental Research at Jerusalem under the auspices of the Archaeological Institute of America, one of the foremost scholars of the world has received an undoubted compliment, and Toronto, which should be proud to shelter a man of such distinction, has been honored in his person.

Cremation is steadily growing in popularity, if such an expression may be used for a process which none of us wish to anticipate. In Montreal, where a crematory has been established for eight years, the record for each successive year has been: 3, 6, 6, 16, 19, 20, 27, 32 and this year to date 39.

The best advertising in the world is done in Canada. The Canadian general advertiser is handicapped. He has no magazine or medium of wide general circulation in which he can advertise except at a loss. But the daily newspaper advertising in Canada is not excelled, and it is only equalled in one other city, Philadelphia.

conclusion to which he has come. It has not been formed in any haste, for, in his own words, he went there to study not only London but the provinces as well, and he added: "I have studied them, not superficially, but with great care." During his residence in England he has seen no hint of decadence at all.

DESTRUCTIVE FIRE AT OTTAWA.

OTTAWA, May 26.—A fire of serious proportions broke out at 12.15 this morning at Desrivieres' planing mill at 213 Church-street, and the mill and lumber yard were quickly consumed.

Status for the Capital.

OTTAWA, May 26.—A statue of King Edward the Peace-maker is proposed to be erected on Parliament Hill, the site being on the bluff overlooking the Ottawa River, a short distance from the statue of Queen Victoria, at the unveiling of which King George officiated.

When Wine is Not Wine.

The Paris wine merchant who has received six months' imprisonment for selling adulterated Sauterne should have taken expert advice before he had been any, in combination with the dramatist, who in early life had a high reputation as a chemist, was once called to give evidence regarding a certain brand of wine, which he testified that it was totally innocuous.

Will See Fairplay.

OTTAWA, May 26.—That the government will see fair play in cases where contractors on government work fail to deal properly with their labor is indicated by a quotation from a letter by the minister of labor, Hon. Mr. Pugsley. The quotation is given in the latest issue of The Labor Gazette, in which he mentioned the case of a contracting firm on government work failing to pay a judgment for \$3000 for injuries to one of the men.

Because he jabbed a street railway conductor in the mouth with his umbrella, following a dispute regarding a transfer, Charles Taylor, an old man, was fined \$15 and costs in police court yesterday morning. Of that sum \$12 goes to the wounded con.

style of building in which the community could take some pride. It was not for the larger places alone to receive the buildings. The smaller towns also contributed a portion of the revenue. It was the people's money they were spending. The opposition had stated they were frittering public money away by erecting buildings in smaller cities and towns. They were entitled to them just as much as the larger cities.

THOROLD FARMER KICKS AT PRICE OF EASEMENT

Hydro Electric Commission Offered \$3320, But Owner Won't Look at It.

WELLAND, May 26.—(Special).—One of the most interesting arbitration cases in the history of the hydro-electric power commission opened in the county buildings this morning, before Judge Wells of Welland, acting for the claimant, Fraser Guenther, and Judge Morgan of Toronto, acting for the commission. W. M. German, M.P., appeared for Mr. Guenther, and A. F. Lobb, K.C., Toronto, acting for the commission.

Mr. Lobb made a tender of \$3320, which was not accepted. Mr. Guenther was examined by Mr. German at some length. He is the owner of 805 acres in Thorold Township, lots Nos. 107, 108 and 109. The commission had offered ten towers of five high and covers a base 16 feet square. They had taken occupancy of land 132 feet wide, crossing an orchard and fields and cutting through a wood. The apple trees numbered 25. These had an average yield of five to six barrels per year per tree, and would probably continue bearing for 30 years yet. The price per barrel would average \$2. In ten years, a tree would produce \$300 worth of apples at least.

Judge Wells asked as to the cost of building. Mr. Guenther placed this at \$10 to 60 cents per year per tree. "Only 22 apple trees have been cut," corrected Mr. Lobb. Mr. German replied that while only 22 had been cut, the remaining ten were on the land to be taken by the commission, and might be cut at any time. "We have no such right whatever," Mr. Lobb replied. "If you cut any more you propose to pay for them," asked Judge Wells. "We are satisfied," assented Mr. German. "We have not a right to cut a stick outside of those mentioned," added Mr. Lobb.

Mr. Guenther went on to tell of three pear trees that had been cut down. They would average \$5 a year each. There was a butternut tree that produced 10 bushels, worth a dollar a bushel, an ash worth \$10, a maple worth \$10, and eight maples worth \$25 each in the roadway to the house. These were 26 or 27 years old. "What is your house worth?" asked Mr. German. "It cost \$7500, and the brick in it was bought at \$4 a thousand, which was a great deal cheaper than now."

Mr. German added the information that the house was larger than any in Welland. Then he asked what the farm was worth. "It is worth \$2000 an acre. I would not take less than \$90,000 for it," Mr. Guenther replied. "The commission was next directed to a 17-acre bush, thru which a way had been cut. This was made up mostly of virgin hard maple. The area cut down was 2 1/2 acres.

Mr. Lobb: We will pay the value of the timber, and the best value, too. The remainder of the bush had been damaged to the extent of \$5000 or \$6000, said Guenther. Judge Morgan said he had heard it stated that the body of the crew was accustomed to the new conditions and did not suffer. Again he had heard the reverse story. There was an astonishing diversity of opinion as to the extent of the damage. For damage to two hayfields and a pasture field. The contractors had cut their way thru four wire fences, which had taken down some rail fences. Mr. Lobb: The contractor will put them back in the shape in which he got them. Mr. German: That is all right if my learned friend will give his undertaking, but I would not take the word of the hydro-electric commission. We'd have to get a hat to make them keep their promise. Mr. Lobb: I will give my personal undertaking. If Mr. German likes, I'll deposit the money. Mr. Guenther went on to say that he had spent \$70 this year in extra fencing because he had lost the crop of a nine-acre pea field, which he did not sow because the field was cut up. Judge Morgan: How many towers on the land? Mr. Guenther: Two on the field and one on the edge. Judge Wells: That would not prevent you putting up your own tower on the area not being used by the commission. Mr. Guenther: Well, I suppose I could, but I am not used to doing patch work. "What is your farm worth less because of this transmission line?" Mr. German asked. "I would have it there for \$10,000," Mr. Guenther replied.

The Green and the Urteen. Judge Wells asked the opinion as to what future rights the commission wanted. Mr. Lobb said that was set forth in the printed agreement. Mr. German complained that he had never seen the agreement spoken of, nor had Mr. Guenther seen it. Mr. Lobb: Mr. McCormick offered it to Mr. Guenther, but he would not listen. Mr. Guenther asked this emphatically and Mr. Lobb characterized as false Mr. German's statement that he had never seen the agreement. Mr. German denied this also, and there was a hot exchange of words. Home-seekers' Low Rates to Western Canada via Chicago and Northwestern Railway from all points in Canada. CENTRAL METHODISTS APPOINT DELEGATES

For the Coming General Conference—St. Paul's Church to Sell Parsonage Property.

At the annual meeting of the Central District Methodists yesterday in Elm Street Church, it was shown that an advance movement of the churches in the district had been made to the extent of \$180,000, while \$18,331 had been given for missions. An increase of \$1461. For general church purposes \$123,000 had been given, which is \$54,140 increase. A lively discussion took place in regard to the question of the advisability of giving more prominence to Sunday school work.

The question of raising funds for a memorial to Major Neil of Port Rowan, the first Methodist preacher in Upper Canada, and who died at Port Rowan in 1840 at the age of 80, was brought up. At last year's meeting of the Toronto Conference it was decided that \$1000 should be given by the different churches in the district for this purpose, but very few of the churches have lived up to the agreement. Some of those present described the affair as sentimental nonsense, and considered that such an action would be establishing a dangerous precedent. However, it was decided to make another effort to get the fund.

Rev. C. O. Johnston was appointed representative of the central district to the stationing committee, alternating with Rev. F. C. King. St. Paul's Church congregation was granted permission to sell the parsonage property, and the proceeds are to be used in the reduction of the church debt. It was decided to hold the next annual district meeting in Queen Street Methodist Church, Meanwhile a committee is to be appointed to consider the advisability of some readjustment in the boundaries of the central district. The delegates to the general conference will be: E. M. Hamilton, W. J. Watson, Fred. J. Duns, F. Biddall, Queen-street—A. Ogden, Mr. Paull, W. W. Ogden, Ald. Welch; Broadway Tabernacle—F. C. Winters, E. Hartley, Judge Denton, E. H. Kassevel, Geo. Wilson; Yonge-street—Mr. Morley, Mr. Martin; St. Paul's—W. K. Doherty, A. B. Powell, S. Syer, Harry McGee, J. S. Clark, Eglington—R. G. Kirby, S. J. Douglas; Davisville—C. H. Shaver; Newtonbrook—Mr. Schmidt; Downsview—S. Dandy; A. Golding; Thornhill—David James, Richmond York-street, J. S. Hall; Newtonbrook, R. E. Hicks; Davisville, E. R. Shorey; Thos. Oliver.

In case any of the above should be unable to act the following alternates were appointed: Broadway Tabernacle, Frank Stanley; St. Paul's, E. M. Peck; Thornton, Thos. Oliver; H. Connell; York-street, J. S. Hall; Newtonbrook, R. E. Hicks; Davisville, E. R. Shorey; Thos. Oliver.

Arabian Coffee. The Arabian coffee-maker, having prepared his fire of charcoal and placed near it a huge pot containing water, took a few carefully selected green coffee berries, carefully culled out all imperfect berries and foreign substances and then places the best of the berries in an iron ladle held over the fire. The berries are permitted to roast until they begin to smoke, and are then while still unchurned, placed in a small pebble closely fitting the cup of the mortar. The berries are not however, reduced to a dust. While in this process a quantity of water from a small pot has been half filled with tepid water from the large pot and placed over the fire. When the water in the small pot has begun to boil the broken coffee berries are thrown in, and the boiling is permitted to go on for a short time, the decoction being stirred with a spoon until it shows signs of boiling over. The coffee is then served in small cups without cream or sugar.

A Courtier in Blue Flannel. A fine yacht lay at anchor awaiting a favorable breeze for her mission of pleasure. The crew idled about the deck, and a happy group of guests was aft conversing pleasantly. In the group was a handsome mother. Her little daughter with whom she sometimes finds it necessary to be a trifle severe. Particularly in this true when the hour for going to bed comes around each night. One night the clock struck eight, and the father watched his three-year-old play on in a conscious effort to appear unconcerned. "Edith, do you know it is your bedtime?" he asked. Edith dropped the playthings and walked over to her father with very sober mien. "Edith, do you know it is your bedtime?" he asked. Edith dropped the playthings and walked over to her father with very sober mien.

When a Kansas woman addressed a letter to the attorney-general of the state asking him if there was any law forbidding her wearing trousers, the matter caused considerable comment. The woman was a plain, sensible person who worked hard to support herself and children on a small farm, and in this employment she found skirts cumbersome and awkward. She decided that she could wear any trousers with comfort and convenience provided the law would permit. There is something fine about the Kansas woman's position. She did not smugly work hard to support herself and children on a small farm, and in this employment she found skirts cumbersome and awkward. She decided that she could wear any trousers with comfort and convenience provided the law would permit.

A FORMER TORONTO MIAMIXED P.N. SCANDAL

Leaves Wife in Toronto, While He Goes Off to States and Plays False to Trusting Woman.

Enquiries from Philadelphia as to the whereabouts of Rev. Daniel G. Protisch, formerly of Toronto, and whose wife is still living here, have revealed some unpleasant facts. A Slavonian woman with a newly-born baby appeared last week to the Evangelical Lutheran Ministerium in Philadelphia, to locate Protisch, who had promised to marry her, and who, she said, is the father of the child.

Protisch, prior to about a year ago, was employed by the Upper Canada Bible and Tract Society. When he left Toronto, he declared he was in the last throes of consumption, and was going back to his mother in Germany to die. His wife has since been employed by the tract society and until recently has ignored the fact that her husband was still in America. It finally came to her ears that he had gone to some university in the States to study for the ministry.

It appears from the circumstances reported to the Philadelphia Ministerium, that while he was studying, he lived with the young Slav woman there, promised to marry her when he was admitted to the ministry. After his ordination it is alleged, he deserted her and went to Pittsburgh, where he was kindly received by ministers of the Presbyterian and Methodist churches. Then he disappeared. Enquiries were made broadcast by the Ministerium and Protisch was given until Tuesday last to answer the charge. When the tribunal failed to locate him his ordination was withdrawn.

On enquiry, last night, The World learned he is likely in Chicago. The local Polish Baptist Missionary, Mr. Kollenkoff of East King-street, has received a letter from Protisch from that city. Protisch is about 45 years old, and when here looked very frail. He had a hard experience in escaping from a hard experience in escaping from exile in Siberia.

NEW RUSSIAN INVENTIONS. Good Fortune of Illiterate Peasant of Tolstoy's District. Russia abounds in belated inventions which, hardly recorded to-day, would have immortalized or enriched the world if made a few years ago. Generally it is an uneducated peasant, leading a primitive life, out of touch with the latter-day work, devises some wonderful apparatus, and then learns, to his intense chagrin, that it was invented several years ago by some other man. The force is transferred by a whole system of levers, and may develop any horse power desired. All the parts of the "automotor" are metallic. Sagnoff had gone to Moscow, together with a companion, to build an "automotor," the cost of which will not, he says, exceed \$250. Another invention was actually shown, explained, and discussed recently in the presence of specialists, professors and officers of the army and navy by an engineer named Chapieffsky. It is an aeroplane without wings, which is a very novel improvement. It flies into the air straight from an explosion of benzine. From the water it rises with still greater ease than from land. A pair of horizontal wings hinder the rising movement, and against violent whiffs of side wind the apparatus is protected by a so-called safety rudder, which automatically diverts the air.

WOMEN AND TROUSERS. Thoughts Suggested by the Recent Decision Rendered in Kansas. When a Kansas woman addressed a letter to the attorney-general of the state asking him if there was any law forbidding her wearing trousers, the matter caused considerable comment. The woman was a plain, sensible person who worked hard to support herself and children on a small farm, and in this employment she found skirts cumbersome and awkward. She decided that she could wear any trousers with comfort and convenience provided the law would permit.

NEW ADDITION TO THE CITY DAIRY'S PREMISES ON SPADINA CRESCENT, TO CONTAIN THE NEW ICE CREAM PLANT AND THE CONE MANUFACTURING ESTABLISHMENT.

Realty and Building

Local real estate men report that a lull has developed in business activity during the past week or so. Especially is this the case in relation to big deals, of which very few have been reported of late. The public's appetite for speculation in lands has evidently been satiated for the time being, and such buying as is being done is for home-building purposes rather than for a turn over at short or long dates. There are, of course, the usual number of houses changing hands in different sections of the city, and this is the real backbone of all realty. If there is one district in which the demand for dwellings is greater than elsewhere it is in the vicinity of High Park, where a considerable number of homes have been turned over this spring. The section south of Howard Park-avenue has become a prime favorite with the prospective householder, and dealers handling properties in that portion of the city are finding a good call for their offerings.

While a temporary suspension in activity has been noticed in real estate, there has been little or no let up in building in various portions of the city, as the list of permits issued by City Architect McCallum during the past few weeks shows. There have been a goodly number of these for the erection of medium priced houses, and from present indications it is likely that this month will be a close rival of April, which made a record in building activity.

The Upper Canada Bible Society have taken out a permit for the erection of their new premises, a two-story store and office building, on College-street, just west of Yonge. The cost is to be in the neighborhood of \$35,000 and allowance will be made in the construction for the addition of more storeys later on. Gordon and Hewes are the architects.

The Park Blackwell Co. are putting up an addition to their factory at Bathurst and Front-streets. The new portion will add to that portion of the factory to be three stories in height and will be of brick. It is to cost \$15,000.

A permit to build has been issued to Garrett Smith for the erection of a two-story and attic dwelling at the corner of Heath-street and Warren-road. The cost is to be in the neighborhood of \$13,500. Langley & Howard are the architects.

NAME COMMISSION NEXT WEEK

Government to Look into Workmen's Compensation for Injuries.

In the speech from the throne at the opening of the legislature on January 25 last, the announcement was made that a commission would be formed dealing with the Workmen's Compensation Act, having for its object an enquiry into the working of such legislation elsewhere with a view to an amendment dealing with this very important subject and having due regard to the conditions which surround it here.

Yesterday Sir James Whitney said that arrangements were being made for the issuance of that commission, and the name of the Workmen's Compensation Act, having for its object an enquiry into the working of such legislation elsewhere with a view to an amendment dealing with this very important subject and having due regard to the conditions which surround it here.

It is understood that the object of the government is to create legislation carrying into further effect the Workmen's Compensation Act passed by the Dominion Parliament some years ago, which is based upon the principles laid down in the English act.

TO IMPROVE QUEEN'S AVE. IF PLANS DON'T MISGARRY

Park Commissioner Wilson Will Submit to Aldermen Estimate of Cost of Alternative Proposals.

Two plans for the improvement of Queen's-avenue and University-street were submitted by Park Commissioner Wilson to the parks and exhibition committee yesterday afternoon. He will now make an estimate of the cost. In the meantime he will have the centre strip added between the South African memorial and Queen-street.

The first plan submitted involves the widening of the west driveway from 27 to 35 feet and making the east driveway 25 feet wide at the ends and 20 feet from the armories to Elm-street, with numerous cross sections. The strip between the driveways would be enclosed with high curbs, with a garden between them, planted with trees, shrubs and flowers and from which the public would be excluded.

The other plan provides for the laying of a double line of car track on the west side of the east driveway, which would narrow it down to 15 feet in width. The margins would be improved and the public not allowed to walk on them. Provision is made for the erection of monuments at several points on the street, as for instance, one for a military hero, opposite the armories, and some distinguished citizens of the empire at the College-street entrance. A plaza opposite the armories is also suggested.

Chairman Graham and Park Commissioner Wilson were appointed representatives to the playgrounds' convention at Rochester, N.Y., June 7 to 11.

To the property committee yesterday Property Commissioner Harris took exception to the criticism of the criminal assize court grand jury in its recent presentation to Justice Riddell.

"It shows how superficial must be their examination," declared Harris, "they speak about the court room being crowded with 40 children and adults, when the public are excluded. The room, too, is only used on an average of 20 minutes a day."

As to the suggestion of placing the court rooms in the attic to avoid noise, Mr. Commissioner declares it is "noisier in the attic than any other part of the hall."

Invitations will be extended to Prof. Wong, Dr. Gilmore and Dr. Chambers to attend the meeting of the special committee on Tuesday next, investigating the conditions of the jail.

A RELIC OF HEATHENISM

Chairman Mabee Calls Express Co.'s Contract With Employees.

Chairman Mabee of the Dominion Railway Board made the following remarks at the express companies squirm a bit yesterday by producing a contract which the Canadian Express Company has for 40 years been obliging its employees to sign, and which binds them, or their relatives, from claiming damages in case of accident, and agreeing to indemnify the company for any legal and other expenses should action be entered to recover for injuries or death.

"Now," said Chairman Mabee, "this agreement probably is nothing this commission has jurisdiction over, but in considering the question of express tolls, it may be helpful to know if all of the express companies have contracted with their employees to relieve them of their liability."

"If all express companies have been released from their ordinary liability toward their employees, it may have some bearing on what are and what are not the proper tolls."

"The agreement is obsolete," said W. W. Williamson, general auditor of the Canadian Express Company. "It is a relic of forty years ago, and the company does not shield itself behind it."

"Then, why maintain it?" asked Chairman Mabee, "why don't you wipe out a lot of these heathen relics?"

President Stout said the Dominion Express Company did not go so far, but it had a similar agreement, and compelled its employees to carry accident insurance. Scott Griffin said the Canadian Northern had no contracts, but insisted upon the accident insurance.

"I don't know what the courts would hold," observed Chairman Mabee, "but I do know this, that all the courts I know would struggle hard against holding such an agreement valid."

Canada Not So Far Ahead. LONDON, May 26.—Dr. J. W. Robertson, addressing the County Council Association at Westminster, said that the people who gave the impression that Canada was far ahead of Britain did not know much about Canada, and knew less about England. He found here excellent conditions in agricultural education in spots; his main work in the past had been to try to multiply those spots in Canada.

H. Porter, \$5; Hamilton-Cassels, K.C., \$10. Total, \$36,620.61.

The total cost of the monument is about \$38,000.

KINDNESS TO ANIMALS SUNDAY

Pastors Will Be Asked for Special Sermons June 19.

It was proposed at the monthly meeting of the Humane Society yesterday afternoon that Sunday, June 19, be a "Mercy Sunday," and that the pastors of the different denominations be asked to preach on kindness to animals.

The manager, P. C. L. Harris, reported the prosecution of a man in Huron County for cruelty to his horse. This was the second charge, and the man was fined \$10 and costs. Numerous calls are being made on the Toronto society for the outlying districts for advice and help, some requests coming from as far north as Cobalt. In this city during the past month 28 prosecutions were made.

GIRL'S FATHER SHOT HIM

Discovered His "Son-in-law" Had a Wife in the Old Country.

WETASKIWIN, Alta., May 26.—Louis Goldman, a former butcher of Wetaskiwin, was shot yesterday by his father-in-law, Jerome Amand. Goldman married a Miss Amand about six months ago and the announcement of the wedding was clipped from a newspaper and sent to his wife in the old country.

The girl's father heard about this previous marriage. The two men began quarrelling and Goldman undertook to give the old man a horse-whipping, when he received two shots in the head.

S. S. DELEGATES COMING

Eighty From Great Britain to Washington to Visit Here Tomorrow.

The delegates from Great Britain to the World's Sunday School Convention, now in session at Washington, numbering about eighty, will arrive Toronto at the end of this week, visiting here on Saturday and will stay in the city until Monday, during which time they will be the guests of the Sunday schools of the city.

On Saturday afternoon, they will be taken for a ride thru the city in motor cars, and on Saturday evening there will be a public meeting in the Metropolitan Church, when the delegates will be formally welcomed, and some of the more prominent of them will make addresses. To this meeting, which begins at eight o'clock in the evening, all pastors of churches, superintendents of Sunday schools and all in any way interested in Sunday school work are invited. It is hoped that the Sunday school people of Toronto will give them a hearty welcome.

Special attention is called to an organ recital which will be given in the Metropolitan Church from 7:30 to 8 o'clock. This in itself will be a great treat.

A CHAIN OF THEATRES

Klaw & Erlanger-Frohman Syndicate Will Glorify the Continent.

CHICAGO, May 26.—To end the open door warfare which had been declared by scores of theatres in small cities throughout the U.S., Klaw and Erlanger-Frohman syndicate hereafter will own theatres or will acquire leases of playhouses in every strategic city in the country, says The Tribune to-day.

Twenty-five million dollars will be invested by the syndicate in theatres, which will reach a chain from the Atlantic to the Pacific, and from Vancouver and Winnipeg on the north to New Orleans and Galveston on the south. Five companies will be incorporated with \$5,000,000 capital each, to acquire or own theatres in every city that is known to be a good "show town."

CAUSE OF THE SUFFRAGETTES

One of the English "Martyrs" Gives Address in Toronto.

Miss Elsie McKenzie, an English suffragette, who suffered the martyrdom of imprisonment and fasting, gave an address before the Toronto Suffrage Association last evening. She is a graceful young woman, of apparent earnestness in the cause, and is a convincing speaker.

She said that the walls and floor of her cell were damp and filthy, and conditions altogether unsanitary, but that, like the soldiers of other military fields of battle, who cared the suffragette martyrs for the filth and ill-usage they encountered, if their actions were to lead to the high goal they aimed to attain?

"We have," she said, "our grievances, but where are our remedies? The martyr Christiana had one remedy, the voting men of to-day, if they wish to vote on some important issues, become veritable hoodlums, who should not we adopt womanly militant tactics? But, soon this will be unnecessary. Opinion everywhere is turning in our favor."

James L. Hughes, referring to the Dr. Stowe Memorial Fund, toward which the Boughen Reception Committee had been enabled to donate \$15,000, said it was time monuments were erected to the memory of women.

Mrs. Roland Eleton, a representative of the Working Women's Guild of Toronto, stated that a Women's and Girls' Aid and Protective Association had been formed for the purpose of leading young women to a practical realization of their highest ideals.

NO CHANGE IN DOMESTIC SITUATION.

World Office
Thursday Evening, May 26.

Transactions in domestic securities to-day were very similar to what has been taking place for two or three weeks. There were no individual instances of either market improvement or special weakness. Outside orders are as small as they can be, but stocks are not being forced into the market to any great extent, and prices are therefore held at current levels without straining inside support. Outside attractions this week are against any trading interest, even if the market was in shape for such operations.

Bank of England Statement.
LONDON, May 26.—The weekly statement of the Bank of England shows the following changes: Total reserve practically unchanged; circulation increase \$155,000; bullion increase, \$277,712; other securities increase, \$3,228,000; other deposits increase, \$1,811,000; public deposits increase, \$4,108,000; notes reserve increase, \$738,000; government securities increase, \$100,000.

The proportion of the bank's reserve to liability this week is 49.6 per cent.; last week it was 53.25 per cent. The rate of discount remains unchanged at four per cent.

Bond Issue Placed.
NEW YORK, May 26.—A contract for the sale of the fifty million dollar bond issue of the St. Paul Railroad to the Credit Lyonnais, the Societe Generale Comptoir National and Banque de Paris, was signed to-day in the offices of the Chicago, Milwaukee and St. Paul Railroad. The loan will be issued entirely in foreign denominations, the probable issue price being 98 per cent.

It was learned this afternoon that bankers had practically concluded the negotiations for the placing of \$10,000,000 of Southern Pacific bonds in the German market.

On Wall Street.
Erickson Perkins & Co. say at the close: Demoralization in the grain market, with a fall of 1-3/4 in the July and September futures, continued all the afternoon up to the close. The result should be highly beneficial to the trade and the market for foreign and, thru liquidation of loans, help the money market. The benefit to stocks is apparent. The ruling firm all the afternoon with metal, gold, and a point or more. The granular lead, if the grain crops work out as well as conditions indicate, so far in advance the western railroad next fall will have a heavy increase in traffic.

The stock market now has a good foundation for a rise. There is a large short interest which will be held, as prices gradually advance. We look for new high figures on this movement, but would buy only on moderate setbacks.

Some of the long-delayed sales of American railroad bonds were officially announced to-day. The total of all sales is expected to run between \$150,000,000 and \$200,000,000, according to some authorities.

U. S. Co. say at the close: The close was strong. Recovery was made on small transactions and began immediately after wheat broke. As the market will be closed Saturday and Monday the speculative element is not inclined to do any business and small transactions are to be expected. Conditions are such that, barring some absolutely new development, the market should be much better next week. We would avoid the short side for a while.

Charles Head & Co. say at the close: A better tone prevailed to-day owing to the contraction of the various alarming rumors put in circulation yesterday. The break in price of wheat of about four cents per bushel, the placing of the St. Paul bonds and reported arrangements for placing a large block of Southern Pacific bonds abroad, taken in connection with the growing ease of money and the enlargement of the short interest, should bring about a better feeling as to stocks, and we would suggest purchases on all weak spots as the most likely means of securing a profit.
