## **SPA CONFERENCE OPENS** MOST IMPORTANT EVENT SINCE THE ARMISTICE

Disarmament, Reparations and Trial of War Criminals to Be Definitely Determined - German Chancellor Says They Will Take Loyal Attitude in Discussions.

Spa, July 5.-There was a brief neeting today of the allied and German delegates, who during the next

meeting today of the allied and German delegates, who during the next few days will discuss matters relating to the peace treaty.

The session was held in the drawingroom of the Villa Fraincuse, and the German delegates, Chancellor Fehrenbach, Dr. Walter Simons, the foreign minister, and Herr Wirth, minister of finance, were seated at the left end of the long horseshoe table, next to the Japanese. There were no introductions or shaking of hands.

The president of the conference, M. Delacroix. The Belgian premier, arose and immediately opened what is considered to be the most important international event since the armisitee, by announcing the order of business, which includes disarmament, reparations, coal supply, the trial of Germans accused of atrocities, and the situation at Danzig.

M. Delacroix inquired of Herr Fehrenbach if he desired to make any obsedvation. The chancellor, speaking in German, which was translated by an official interpreter, sald:

"I desire to say in behalf of the German people, that we have come here to take part loyally in the discussion of how the treaty of peace can be executed."

Mr. Lloyd George, as senior premier, thereupon expressed the gratification of the allied delegates, and Harr Fehrenbach, continued.

The memorandum declares that German's national wealth before the discussions of the Miller. The memorandum declares that German's antional wealth before the Miller. ## **ALDERMEN STUDY** TELEPHONE SYSTEM

City Council Gain Some Idea of Complexities of Exchanges.

There has been talk of municipalizing the Toronto telephone system. To give the city council and the press an idea of what the present system is like, Manager K. J. Dunstan the Bell Telephone Company showed a civic party over the Adelaide and College exchanges and the operators' school at the College head-ouarters, and spoke to them after quarters, and spoke to them after lunch at the National Club. The three hours so occupied satisfied all present that it is very easy to know very little about a complicated public service. Lavishly entertained with information as they were, they would fain have

enth smallest in the city, according to the number of subscribers; but it needs a regiment more of operators than College, the largest. This, of course, is because of its downtown course, is because of its downtown position—25,000 people talk daily to Eaton's, for instance. The girls sit in long rows, their business efficiency causes a hum of talk, the nearest thing to a human beehive you ever heard. Nobody who has ever seen the Adelaide exchange at work ought ever to lose his patience if he doesn't get the number he wants the instant he wants number he wants the instant he wants it. The wonder is that the girls do as well as they do. As for difficulties of help of the company have only been youth will have its way, the average length of service is less than two years. A hundred operators taking the three weeks' training—one-fourth of whom do not qualify—shows the stream coming in. A wedding a day, and girls below the stream coming in the stre and girls leaving for private ex-changes, indicates the stream going

WILD RUMORS IN OTTAWA REGARDING PREMIERSHIP

Democrats in Convention After Strenuous Day and Taking Thirty-Eight Ballots Fail to Coalesce on Any Candidate for Presidency, But Lies Between

McAdoo and Cox. San Francisco, July 5.—Attorney-General Palmer at 9.45 o'clock tonight at the close of the 38th ballot released his delegates and left the Democratic national convention free to move out of its deadlock and nominate a presidential candidate.

bemocratic national convention free to move out of its deadlock and nominate a presidential candidate.

At the end of the second ballot this afternoon, the recess, when the Palmer vote had touched 211 and it was apparent that it could be driven no higher, former Representative C. C. Carlin, Virginia, Mr. Palmer's manager, took the platform and announced the withdrawal of the attorney-general from the race.

Chairman Robinson, in presenting him, told the convention significantly that he was presenting a man who had an announcement to make, which he was confident the convention would want to hear.

Expectation was in the air, and the convention, which only a moment before had been in the height of discader in a rackety demonstration, quieted down like magic, until a pin might almost have been heard to drop in the great auditorium as Carlin took the speakers' place and said, in substance:

"I am about to make an announce-

ment of the greatest importance to this convention, at the conclusion of which I shall move a recess for 20 minutes to give the convention opportunity to decide what course it shall take. A. Mitchell Palmer asks me to

take. A. Mitchell Palmer asks me to express his sincere thanks and appreciation to every delegate who has voted for his nomination, but he is unwilling to delay the proceedings further, and authorized me to finally, positively and absolutely release every delegate pledged to him, that the convention may proceed to nominate the next president of the United States."

Convention Takes Recess.

There was a roar of "Hurrah for Palmer" as the lines broke and the convention went into a recess.

The entire Palmer vote added to McAdoo's total on the thirty-eighth hallot would give him six hundred and sixteen and a half. The Palmer votes added to the Cox total on the same ballot would give the Ohio gov-

which is seven hundred and twentynine.

The consensus of opinion seemed to be that Cox would gain in Massachusetts, Michigan and Maine, while McAdoo would gain heavily in Georgia and that Pennsylvania would split between Davis, McAdoo and Cox. There was speculation as to how long the Davis votes would hold.

Claims Are Conflicting.

Both the McAdoo and Cox forces were claiming the buik of the Palmer delegates. The claims were so conflicting that it was apparent that only the 39th ballot would tell the story. Fred B. Lynch. Minnesota, gave it as his personal opinion that Georgia's 28 would go to McAdoo and that most of Pennsylvania's 76 would go to Cox. Some of the Cox workers said that while they hoped to get a benefit from the release of the Palmer delegates, they did not see a nomination on an immediate ballot and that there still was some fighting ahead.

During the recess there was circulated about the ficor copies of a telegram from Judge Moore, Cox's manager, to Daniel C. Roper, New York, accredited with being one of the McAdoo managers, charging that "a crowd of government employes and treasury officials are for their own personal ends and in defiance of Mr. McAdoo's expressed wishes, improperly using his name to create a deadlock in this convention."

BUDGET BILL DEBATED

BY BRITISH COMMONS

London, July 5.—The house of commons further discussed the budget bill today.

Chief opposition was to the continuance of the tea duty, but an amendment to drop it was defeated by a big majority. A like result came to the amendment to omit the import duties put on last year, which the chancellor said were bringing in 3½ millions sterling and were easily collected.

### **NEW FRANCHISE ACT** FOR E. ELGIN VOTE

To Use Lists Prepared for Ontario's Last Election-May be Delay.

Ottawa, July 5 .- (Canadian Press.) That the Dominion franchise at vas given every attention by members of the commons and senate when it was being put thru the various stages during the session just proogued, is evident from the fact that corrected at various times by the officials who will administer the new law.
The Dominion franchise act, 1920,
is now in effect, and whenever the
byelection is held in East Eigin, for
which writs are expected to issue
shortly, this act will be the one governing that election. It repeals the
by-elections act, 1919, as well as the
war time election act and other measures.

Lists to Be Used.

The lists to be used in East Elgin, under the new act. will, it is expected, be made from those prepared for the Ontario election in October last year, as these will not be two years old at the time of the election. Because of the changes in elections, forms, etc., required by the new act, there is a possibility that the East Elgin writs may be held back for some little time, as the old forms used for the purposes of elections are all annulled by the new act, and it will be necessary to provide entirely new machinery for the taking of the vote.

In one recent week's flying more than 100 passengers were carried in the London-Paris air service and it is hoped that a reduction in price will increase the number of passengers. There have been an ever-increasing number of inquiries for the service, but the price has discouraged many

### GROWING OPIUM IN CHINA IN SPITE OF THE LAW

Shanghai, July 5.—Oplum is being grown extensively in parts of Fuklen province despite the law against it, according to a mission worker stationed at Yenping. He writes to the Anti-Oplum Society:

"At the city of Yungan, the headquarters of the southern forces, I found they were growing opium extensively; even in the grounds of the yamen itself-the ground was white with poppy. I was told there were over 100 opium shops in the city licensed for one dollar per night marked "Places for the breaking of the opium habit."

## The "Hello" Girl and Her Story

A GIRL lay back on her pillows at the Muskoka Free Hospital for Consumptives, her cot against the netting of the open-air pavilion, to catch every ray of sunshine.

"Do I like it?" Her eyes shone, "Rather! You don't know what it means to me. You see, I was a telephone operator. I was run down, had endless colds, and got the T. B. Mother was worried sick. She had no money to send me anywhere, and was afraid I'd die.

"So I went to The National Sanitarium Clinic, and they sent me here. Oh, the heavenly rest! And I'm getting well. Everyone is so kind—isn't it a beautiful place? It's so splendid to think there is such a hospital to come to when you haven't any money of your own."

J. R. B. Whitney, editor of Tha Canadian Observer, made an efficient chairman and some excellent patriolid speeches were delivered by Rev. S. M. Drake, Rev. H. F. Logan, Rev. H. A. Boyd, and others. They all told of the loyalty of members of this race to the British Empire and of the thankfulness they felt in being given a full measure of freedom to work out their own destiny in this country.

The premier said he was pleased to welcome destendants of those negroes who some half century ago sought refuge and freedom in Canada. The tablet was a kindly remembrance to the memory of this race who fell fighting for democracy and would prove a great incentive to good citizenship.

## TO GIVE INFORMATION

Hon. Howard Ferguson, former minister of lands, forests and mines, who was in town yesterday, said he felt he could satisfy the public that there had never been any impropriety in the administration of that portfolio during his regime. He did not know when he would testify before the judicial commission, which was inquiring into timber transactions, and he had not yet had time to read all the evidence which had been taken so far. The former minister declared he knew nothing about the charge that \$1000 had been paid to Col. Machin in connection with a timber transaction, and the suggestion that Col. J. A. Little of Port Arthur had acted as a gobetween with the government and applicants for timber limits was described as a joke. All permits granted were dealt with on their merits.

Petition for Pavement.

A petition was presented by W. G. Fisher and R. Kennedy for a bitulithic pavement upon concrete foundation on Runnymede road, between Annette street and Dundas. The petition was signed by about forty names on each side of the street.

Sanitary Inspector McMullin reported that 19 septic tanks had been declared a nuisance in the past six weeks, all having been built within this year. He drew the attention of council to the building of septic tanks without a permit, and to the completion of one where it had been stopped pending adjustment to proper construction, and there was no permit yet. There were 17 without permits in Runnymede, and three more would be completed in other parts today. Instructions had been issued verbally a couple of weeks ago that the sanitary inspector should be consulted and worked along with harmoniously by the building and plumbing inspectors. The passing of a bylaw to make the duty of each official more defined was held over.

A deputation from Runnymede road

of each official more defined was held over.

A deputation from Runnymede road protested against the township's decision to place sidewalks 12 feet from the street line, claiming that 4½ feet was sufficient, and that the proposal would cut lawns and require the breaking up of walks already laid. The proposed widening was between Bloor street and Park road. The necessity of Runnymede as a wide road was pointed out by the council. "There are only two streets in the district upon which car lines can run." Reeve Miller pointed out, "altho we are not preparing to run car tracks." The matter was left for decision after a petition is recorded.

A large deputation from Silverthorn and Caledonia asked for attention to roads, sidewalks and garbage. The latter was ordered forthwith, and the two former were to be made for estimates.

## **HYDRO MUNICIPALITIES** MAKE SPLENDID RECORD

After Eight Years of Operation Majority Have Covered All Indebtedness Despite Rate Reductions.

Twelve municipalities of western Ontario are known as "The Hydro Pioneers." Or May 4th, 1908, according to a Hydro report just issued, they signed an exclusive thirty-year contract with the Hydro-Electric Power Commission of Ontario for a supply of electric energy. A year later the agreement was validated by act of the egislature. By the end of 1912 power was first delivered to the municipalities

The twelve are: Toronto, London, Guelph, Stratford, St. Thomas, Woodstook, Kitchener, Hespeler, Preston, Waterloo, New Hamburg and Ingersoll, Shortly after these had taken action, other municipalities were ready to join, but the credit for making the great Hydro-Electric system possible must rest with the twelve pioneers. The ratepayers of these municipalities had the vision and the courage to vote by great majorities in favor of pledging the credit of their communities to a hopeful but untried public actions. nunities to a hopeful but untried public enterprise. by the provincial commission. The reduction of power-rates, as provided for in the original agreement, has ranged from \$4 to \$9 per horsepower over the eight-year period, lowering the cost to the twelve municipalities by \$1.847,181.45. The of energy in the twelve pioneer municipalities has been reduced, for domestic use, from 6.9c to 3.39c; for commercial use, from 5,13c to 2.54c, a cut of one-half. The saving to consumers has been far in excess of the sum named above.

any system, only, as a matter of fact, request made by Father Bench on they do not. The women in Ontario, behalf of the governors of St. Michwith a clear majority in the elector- ael's. ate, returned a legislature composed entirely of men. The farmers voted largely with the Farmers' party last October, but, take it all in all, they have been the most modest among our citizens, as ridings almost entirely rural returned professional men to parliament. In many Ontario ridings, the labor men may have a majority, but no labor man has been returned to the Dominion parliament.

The two-party system in Canada had for a time one great advantage. Each party, having some strength in every province, was necessarily national. Extremists in this or that section of the country were impressed by appeals to party loyalty, an appeal that will sometimes be more effective than an appeal to patriotism. But now, with the Liberal party almost unrepresented west of the Ottawa river, and the Conservative party threatened with something like extinction in the prairie provinces, that argument no longer prevails. If the new party formed on Dominion Day, under the leadership of the new prime minister to be designated this week, succeeds in building up an organiza-

learning that, costly as it may be to nationalize public utilities, it is still more costly to denationalize them. The railways were turned back to the private corporations in a hysterical hurry, and under what will probably turn out to be an unworkable law. The roads are being held up by subventions from the federal treasury until Sept. 1, after which time the interstate commerce commission is to raise railway rates to a sufficient height to pay all working expenses, fixed charges and five and a half per cent. interest to the stockholders. There is provision for the more prosperous roads to give up all they make over a six per cent. return on the capitalization to a fund for the benefit of weaker roads in the same zone or group. But the law puts a premium ca catravagance, and the rates necessary to make such earnings will no doubt prove oppressive. under his coat had been torn off, he revolver wrenched away and the highwayman, his face masked with a red bandana handkerchief, had run into the thick timber.

"Charlie just walked in, reeling like a 'drunken man," Tripp concluded, "His fall and a rap over the head with a gun-butt have made him pretty sick. I am sending out a posse of men from this end to try and set the stick-up man. You'd better do the same up there."

For a moment Judith sat

For a moment Judith sat staring at the telephone dully. Robbed of a thousand dollars, and
in broad daylight! A thing like this
had not occurred on the Blue Lake for
a dozen years.
"Bayne Travery!"

a dozen years.

"Bayne Trevors!" she gasped. For suddenly, she thought that she understoad the significance of the rumor which had twice in a week come to her. Perhaps, as Tripp himself had said, she was getting nerves. Trevors himself was on the ranch right now.

Her two fists clinched. Yes, Trevors was here with triple purpose: To curry faver with Hampton against a possible need of it, to establish an To curry raver with Hampton against a possible need of it, to establish an alibi for himself, to witness Judith's discomfiture, when at 6 o'clock she must turn the men away with an ex-

CHAPTER VIII.

RIFLE SHOTS FROM THE CLIPFS.

Thank Heaven, it was just noon! Thank Heaven, it was just noon! Judith sprang to her feet, her eyes bright and hard, and ran down to the men's quarters. Coming up from the corral were Carson and Bud Lee.

"Miller, with the pay-roll money, has been held up and robbed at Squaw Creek," she told them swiftly. "Get some men together, Carson, and try to head the robber off."

The two men, having glanced guide.

The two men, having glanced quick-y at each other, stood a moment look-

ly at each other, stood a moment looking at her curiously.

"That's on the level, is it, Miss Judith?" demanded Carson slowly.

"Of course, it's on the level!" she cried impatiently. "Oh, I know what you're thinking. I'm going to phone immediately to the bank at Rocky Bend, and have another man sent out. immediately to the bank at Rocky Bend and have another man sent out with more money. You can count upon getting your pay at 6 o'clock!"

"I told you, didn't I," muttered Carson, "that I wasn't worrying none personal? But if I was you I'd sure have the money on tap!"

With that he left her, going hastily to round up what men he could find and get them into their saddles. Bud Lee, his eyes still on her, stood where he was.

"Well," demanded the girl, "aren't you going, too?" Suddenly angered by his lairness.

his leisurely air, she added, cuttingly: "Not afraid, are you?"
"I was thinking," Lee answered
coolly, "that the stick-up gent will
most probably figure on a play like
that. If he was real wise, he's mosey
along toward Rocky Bend and pop off
your second man. Two thousand bucks
a day would make a real nice little
draw."

Judith paused, frowning. There was truth in that. If Trevors really were behind this, he would have chosen his man carefully; he would have planned

"If you'll do my way," continued Lee, thoughtfully, "I'll have just enough time to roll a smoke and sad-dle little old Climax. He's in the stable now. You're not afraid of my double-crossing you? Even if a smart-head-ed man had planned the hold-up, he wouldn't figure on a play like this. He'd think we'd have a Rocky Bender bring it out or else real and the state of the proing it out or else wait until tomor-

BEACHES

"Roaming in the Rockies" was the title of an instructive and entertaining address, illustrated by limelight views, given by Rev. H. H. Bingham, First Baptist Church, Calgary, in Waverley Road Baptist Church last night, before a large audience.

The lecturer, who was a delegate to the recent Baptist convention, impressed his hearers with the wonderful country and splendid scenery to be seen west of Calgary right thru to the coast. He dwalt upon the activity in the Peace River district and the great wheat and other crops abounding in that favored section, and the prosperity of the settlers. Rev. Mr. Bingham stated that he was privileged to officiate at the opening ceremony in connection with the First Baptist Church, in the Peace River district. He surprised his audience with the fine views of romantic scenery and pictures of growing crops of tomatoes and the wide range of vegetables produced in the western country.

Rev. J. H. Boyd, pastor, occupied the chair, Musical selections were contributed by the choir during the evening.

The Price and the Gill residences, both at Barnathorpe, were entered on Sunday night by a presumed party of juvenile mauraders. The textent of the robbery is not yet ascertained. Connected with the incident is another burglary carried out at the home of Louis Shaver, Dixie, on the same evening. Some Victory bonds and clothes were taken by the mauraders, a quantity of silverware, which had been prepared to be included in the haul, was left, behind. Several cases of petty thieving have been reported in the locality and neighborhood recently, and it is surmised that a gang of juveniles are at work.

Two Racers Will Be Viewed for First Time Together.

New York, July 5.—The Shamrock IV., challenger for the America's Cup, had a short spin off Sandy Hook today in a brisk westerly breeze, with Mrs. W. P. Burton, wife of the yacht's skipper, at the wheel for a time. The cup defender Resolute 'holidayed' at the city island yacht basin, while workmen fitted a new suit of sails. The two racers will be viewed together for the first time Thursday, when they will be officially measured at Brooklyn.

A thirty-mile triangular race between Shamrock IV. and the 23-meter Shamrock was called off at the last minute, and the larger boat was taken out to give her picked crew more sail-handling practice. The men went thru their manoeuvres with much skill and precision. When Mrs. Burton took the wheel, she guided the cup challenger like a veteran skipper.

skipper.
The Resolute probably will have a workout on Long Island Sound tomorrow before proceeding to her new headquarters at Sandy Hook, a short distance from her rival.

A daily vacational Bible school com-menced in Simpson Avenue Methodist Church yesterday under the super-vision of the vacational Bible school instructors.

There was a fair attendance and the classes will be continued for the next six weeks. The subjects to be taught are as follows: Standard hymns and singing, learning patriotic hymns and singing, learning the devotion of patriotic duty to the King and the flag and manual training.

Township Executive Committee at the secretary's office last evening, William James, president, in the chair.

Deanis McCarthy outlined the activities of the association during its existence, and suggested that the individual associations turuout the township need educating to the necessity of greater interest in the central body. "The delegates appointed should understand that myatity to the central body and faithful attendance and also financial assistance is vital to the well-being of the central organization," said Mr. McCarthy, who appealed for further assistance in his secretarial work, or a temporary release from the office for a period of three months on private business grounds.

The chairman paid a tribute to the work of Mr. McCarthy during his tenure of office and claimed that there was no necessity for re-organization, "re-junquation, and not re-organization, is required," he claimed.

Opinions were given by I. Buckley, Jas. Little, Nelson Boylen, J. Croft, W. Oxiey and others, and it was finally decided that a committee, consisting of the officers and five selected delegates, comprise the executive committee, subject to the approval of the general meeting to be held on Wednesday in Oddfellsws' Hall, 404 Bathurst street.

Lack of interest taken by most of the candidates for municipal honors in the Amalgamated Association since the last election was severely commented upon. The meeting felt that the organization was used to further personal interest and not the general welfare of the association. A suggestion that the amalgamated body should take up the matter of education and the school system generally through the two the work of the sasociation. A suggestion that the amalgamated body should take up the matter of education and the school system generally through the two whole well and endeavor to arrange a uniform school rate, was discussed and will be dealt with at a future meeting.

It was also decided to send speakers to the various local rateapayers' meetings to speak on live topics of township-

to the various local ratepayers' meetings to speak on live topics of township-wide interest.

Regarding the division of York Township, the meeting went on record as opposed to the division, and favored a larger representation in the York Township Council with a salaried engineer and staff.

A committee will be appointed at next meeting to arrange a picnic for the united ratepayers' associations.

Nearly four acres of the gulley in Withrow Park has now been filled in by the parks department and leveled up for the benefit of the children.

The fill in was made possible of late years owing to the large amount of building in the district and the earth from the excavations in the Danforth and adjoining districts being dumped at this point.

DIXIE

Mrs. Silas Fields Lake died yesterday at the residence of her son-in-law, W. D. Robertson, 42 Dale avenue, at the advanced age of 93.

Her husband, who was one year her senior, died in January last.

The late Mr. and Mrs. Lake celebrated they 70th anniversary of their marriage in April, 1919.

Their eldest daughter, Mrs. C. J. Garrison of Vancouver, celebrated her golden wedding last October.

The late Mrs. Lake spent the greater part of her married life on her husband have lived in Toronto with their three married daughters.

The funeral service will be conducted by Rev. John J. Coulter, pastor of Danforth Methodist Church, assisted by Rev. Dr. Young of Dunn Avenue Methodist Church, and Rev. Bruce Hunter.

Interment will take place on Wednesday afternoon at Forest Hill Mausoleum.

ANGLICAN CHURCH HOLDS

Keeping pace with the rapid progress of the community the Anglican Church is striving with great success to establish a foundation in Lakeview on the Lake shore road.

The mission, under the leadership of the Rev. H. Earle of Port Credit, held a successful strawberry festival and garden party yesterday evening on grounds adjoining the highway as stop 32½.

The Port Credit brass band was in attendance and the event was well supported by the Lakeview residents augmented by a strong support from Trinity Church, Port Credit.

Surrounded with the usual ice cream and refreshment booths the function attracted much attention from travelers on the highway. The mission under the pastorage of Rev. H. Earle is making good progress and the foundation of a strong church may soon be expected in this locality.

The Daughters of Scotland, St. Margaret's Camp, No. 2, held an enjoyable picnic at Centre Island yesterday, when upwards of 200 members and friends were present.

A good program of games and sports were held and prizes awarded to the winners. The gathering was the eighth annual in connection with the lodge, and arrangements were made to visit the grand camp at Gueiph tomorrow. Mrs. James Watt, president, and committee superintended the arrangements.

The suggestion of the board of education to hand over the old Technical School building on College street to the teachers' association for a club house is the subject of much adverse criticism in the east end. The matter was discussed at an informal gathering of the Riverdale Ratepayers' executive committee yesterday and it was decided to take the question up at their next regular meeting. The residents of the Danforth section will also discuss the matter. The opinion generally is that the school buildings should be used for the purpose originally intended and no other.

MARTIN OUTPOINTED.

Akron, Ohio, July 5.—Captain Bob Roper outpointed Bob Martin, champion of the American Expeditionary Forces, in a fast 12-round contest here today. Both tried hard for a knockout, but neither was able to land the decisive blow. neither was able to land the decisive blow.
Roper won chiefly because in the third he drew blood and was hammering Martin in the face.
Martin's body blows at times were almost terrific and Roper cautiously covered his midriff thru most of the contest.
The first, fifth and twelfth rounds were even. Martin had the advantage in the second, fourth and eighth, but the other six were Roper's.
Roper's weight was announced as 1814 and Martin's 1884.

## RIDLEY WINDS UP TOUR WITH VICTORY

## BENNY LEONARD STILL CHAMPION

Scoring Clean K.O. Cver Charlie White in Ninth at Benton Harbor.

Benton Harbor, Mich., July 5 .- Benny Leonard, lightweight champion of the world, knocked out Charlie White, Chicago, in the ninth round of the scheduled cago, in the ninth round of the scheduled ten-round championship fight before a crowd here this afternoon. White carried the fighting to the champion for seven rounds, half knocking and pushing the New Yorker thru the ropes in the fifth round.

The Chicagoan, who had never been knocked out before, was floored five times in the ninth round, and was counted out while lying on his face. A series of right and left hooks to the chin finished the challenger. The men met at catch weight, Leonard scaled 187½ pounds and White 134 pounds at 11 o'clock this morning. Several thousand women were in the crowd.

There was a riot when the fight ended, and the spectators scrambled over the seets and into the ring, breaking down the press section and aligning several ringsiders. None of them was seriously hurt.

Eattle by Rounds.

seets and into the ring, breaking down the press section and injuring several ringsiders. None of them was seriously hurt.

Battle by Rounds.

ROUND ONE—Bob danced around the ring a minute before Leonard hooked two light lefts to Wiffe's head. White kept backing away, while Leonard tried to feint him out for an opening. White landed the first solid blow, a left hook to Leonard's jaw. Leonard put a light left to White's mouth, and the Chicagoan clinched. The round was exceedingly tame, neither boxer landing a half-dozen punches.

ROUND TWO—Leonard danced around the slow-moving Chicagoan, and landed two lefts to the stomach. White missed a left hook and fell into a clinch. White cracked the champion's ribs with a left hook. Leonard shot two lefts to White's face. Leonard landed with a left and White missed a left jolt to the champion's stomach as the round ended. There were hisses from the crowd as the fighters went to their corners.

Leonard Not Damaged.

ROUND THREE—Leonard met White in the centre of the ring and hooked a left to the body. White fought back, driving Leonard into a neutral corner. Leonard was not damaged in the exchange, and put three lefts to the Chicagoan's head without a return. Leonard swung a solid right to White's jaw. ROUND FOUR—Leonard landed on White's neek with a right hook, and white missed a right swing. The Chicagoan rushed Leonard to the ropes, but was unable to land. White led with his left and Leonard shook him with a right-hander now the right hook and hooked him with a right-hander to the referee that White was holding. White half pushed and half knocked Leonard to the ropes chin. Leonard protested to the referee that White was holding. White half pushed and half knocked Leonard to the ropes chin. Leonard missed a right-hander and White crauked the champion on the jaw with a right-and-left.

SEVENTH ROUND—White made Leonard buck-to the heads and half conard buck-to the heads of the champion on the brak away. Leonard put a left hooke to White's body.

ROUND IDIGHT—White hooked a

The champion missed a right uppercut on the break away. Leonard put a left hook to White's body.

ROUND BIGHT—White hooked a left to the stomach and had Leonard bucking away. Leonard crashed over a right to White's head and cracked him on the ribs with a right and drew blood from the nose with a right hook.

ROUND NINE—After a little exchange, Leonard landed a right-hander on the chin and White dropped to his tands and knees. White did not wait for the full count, and as he struggled to his feet, Leonard flew at him, droppism him again. White rose slowly at eight, and Leonard drove him thru the ropes for the third knock down. As White climbed back into the ring, Leonard crashed over a right for the fourth fall. He was counted out after he went down for the fifth time.

### LACROSSE GOSSIP

Those who figure that all the good lacrosse is wrapped up in the senior series should have witnessed the battle at the Beach Saturday, when Balmy Beach and Maitlands (juniors), put up one of the speediest and cleverest exhibitions seem on any field in many a day. So even were they matched that it took twenty minutes of overtime to decide the issue. Beaches had the score 2-0 in their favor in the first quarter, while Maitlands came back and tied it up in the second frame. The third stanza saw Maitlands forge ahead, when Bill Burch landed tally No. 3, while the Beachers were unable to land a counter. Beaches tied it up in the fourth, when McLean got in a close-in sizzler that Walker was unable to handle. Score at full time, 3 all. Players were inclined to mix it up at the start, but soon found that it paid to have all hands on deck. The first ten minutes of overtime was fruitless of results, the both were constantly on the attack. The third five-minutes overtime was within two seconds of being called when McLean notched another, putting his team in the lead. On turning around Maitlands showed that old-time pep and came within an ace of beating Grand, but the Beaches goaler, who starred thruout the game, was not handing out any charities and kept 'em all out. The Longfellow crew then decided to make it safe and on some nice combination play the ball was finally sent over to McLean, who landed his third goal of the day, and put his team two goals to the good, leaving the final tally. 5 to 3. It was anybody's game practically thruout the piece, first one side coming strong and then the other. The teams are now tied in the local district race and from the locks of things, will stage some interesting contests. Certain it is, from the standpoint of clever lacrosse and clean play, the seniors will have to step to time to outdo these jumiors. The teams lined up as follows:

Beaches (5)—Grand, Reeve, McLean, Mysall, Viltue, McFadden, Porter, Pocock, Kay, Houghton, with Gleeson as spare. For Three spare.
Maitlands (3)—Walker, Thomas. Bill-ings. Dowling. Burch, Aggett, Wilson, Chandler, Schill. Scott, McCurry, with Lehto as spare.

MONTREAL CATTLE MARKET.

Montreal, July 5.—(Dominion Live Stock Branch)—Cattle receipts 1,035. About 25 per cent. of the cattle on sale have been on the market since last week. Trade was slow, but it was evident that all the cattle would be sold today. No cattle were of as good quality as usual. The highest price today was \$15. Fat cows sold up to \$11.25. There were no good bulls. Packers were offering down to \$3 for very thin canners. The market was still very slow and did not warrant much increase in shipments at present.

WINNIPEG CATTLE RECEIPTS.

Winnipeg; Man., July 5.—(Dominion Branch)—Receipts, 485 cattle; 490 hogs and 40 sheep. Buyers were bidding lower this morning and all classes and grades of cattle showed a reduction of from 25c to 50c. Good quality butcher steers ranged from \$10.50 to \$12; good to choice quality veal calves steady with Saturday's top \$15, and good heavy feeder steers from \$9 to \$9.50.

Hog market was unchanged at \$35.50.

### SOUTHERN ALBERTA HAS HEAVY RAINS

Cloudburst in Macleod District With Hail, May Cause Loss of Half of Crop.

Lethbridge, Alta., July 5 .- The long, Lethbridge, Alta., July 5.—The long, not, dry spell in southern Alberta was broken Sunday evening by thunders storms, which covered practically every district. At Macleod a cloud-burst, accompanied by hali, occurred Four inches of hali fell, cutting the group and gardens to the ground and breaking every window but those of blate glass in the north side of the guildings. Rain is still failing in many places in the southern part of the province this morning and crops are benefiting greatly, the there is title chance that the whole district will reap much more than half a crop.

Packers were offering down 3 for very thin canners. The market still very slow and did not warrant h increase in shipments at present.

## **BUSINESS QUIET** PRICES STEADY

TUESDAY MORNING JULY 6 1920

Mining Market Remains Dull, With Low Prices; Issues wave sameta Heavier.

### DOME EX. WAS WANTED

Business on the standard mining exhange was fearfully dull again yes-erday, accentuated, perhaps, by the terday, accentuated, perhaps, by the fact that there were ne markets open in New York. The market atmosphere under the conditions was not cheerful and none but those with settled convictions of what would finally eventuate out of the deadlock could be persuaded to trade. Price changes were not material and offers were about as hard to get as bids in some issues. A little stimulus was given to the market in the afternoon by the arrival of a few orders, which carried the day's trading up to over forty thousand shares. Some buyins of Beaver was occasioned by the report of the finding of another ore chute, but the price did not move far. Keora, atlas and Thompson-Krist were in rather free offer. Dome Extension was wanted and hard to get. The high-priced shares were duil and about unchanged. Oils were quiet, with only one lot of Vacuum changing hands.

KEORA EXTENSION

### KEORA EXTENSION TO BE DEVELOPED

A. J. Brant, who was for a number of years superintendent of work on the Keora, has secured 40 acres adjoining on the west. On this he proposes to form a company, with an authorized capital of \$1,000,000, to be called the Keora Extension. Mr. Brant believes that the ore bodies under exploration on the Keora continue on the Extension. These properties are about eight miles from the Hollinger Consolidated. The shear zones on the latter, if prolonged on their strike, would pass thru the Keora. Some very high assays have been obtained from diamond drills. It is, however, unwise to rely on the abnormal, unless in respect of ore actually blocked out. Porcupine is a region not of high-grade but rather of large ore bodies of medium grade.

Mr. Brant reports very satisfactory results from diamond drilling on a property adjoining the Maidens-McDonald, in the township of Deloro. Outside of this property, with the Clifton and the Big Dyke, there is at present not much activity in Deloro. Some producing mines should, however, be brought in here within the next few years. There are a number of prospects of considerable promise.

Dun's Mercantile Agency on business says: "A year that opened with
active business and advancing prices
reached the half-way mark with opposita conditions prevailing, and with
more general recognition of the fact
that economic readjustment is in progress. The change has not come suddenly, but for some time past has been
gradually developing, and it has long gradually developing, and it has long been anticipated in some quarters as an inevitable aftermath of the great boom of the war period. Prices that had risen, on the average, nearly 120 per cent. above the 1914 basis obviously could not be maintained indefinitely once the propelling forces behind the upturn had been modified or eliminated, and competitive bidding for supplies replaced by competition in selling, and the existing situation, if partly due to transportation difficulties and other special causes, primarily reflects the operation of natural elements. Allowance for seasonal restraints would explain some of the present luil in activities, but would not account for buyers' continued caution in making distant commitments.

In the last few weeks. When ten jobs were looking for nine men, labor was independent, indifferent and in-efficient. Now that ten men are looking for nine, or perhaps only seven or eight, jobs, the shoe is on the other foot, and employers are more independent, indifferent and in-efficient. Now that ten men are looking for nine, or perhaps only seven or eight, jobs, the shoe is on the other foot, and employers are more independent, indifferent and in-efficient. Now that ten men are looking for nine, or perhaps only seven or eight, jobs, the shoe is on the other foot, and employers are more independent. I not account for buyers' continued cau-tion in making distant commitments, for the efforts of many sellers to re-duce accumulated stocks of merchan-dise, or for the yielding of prices that is spreading to various basic lines, and which is again disclosed in Dun's list of wholesale quotations. It is the price question, more than any other single influence, that now dominates business movements, and the fact that single influence, that now dominates business movements, and the fact that the rising trend of most markets has been halted, and that a number of essential commodities have declined appreciably from previous extreme levels cannot be regarded as other than favorable in its bearing on the future. How far the price reaction will carry, and to what extent it will affect different trades and industries, is not clear at the moment; but it is evident that consumers' opposition to high prices has increased, rather than lessened, and that the development of forward business largely waits upon additional downward revisions."

## MONEY AND EXCHANGE

Paris, July 5.—Trading was uncertain on the bourse today. Three per cent, rentes, 58 francs 5 centimes. Exchange on London, 45 francs 70 centimes. Five per cent, loan, 88 francs 35 centimes. The dollar was quoted at 11 francs 60 centimes.

Glasebrook & Cronyn report exchange rates as follows:

N.Y. fds... 13 15-15 14 1-15

Mont. fds.. par. 9ar. 14 10 14

Ster. dem.. 450.50 451.75

Cable tr... 451.35 451.75

Hates in New York—Heliday.

Goodbody & Co., in their weekly letter, say: Easier money rates are expected to result from lower prices for commodities, especially of manufactured products.

Beyond question, business is declining in very many important lines. Buyers are now having their innings. Prices are coming their way.

The greatest slump is in the fur, silk, leather, woolen and rubber industries. The gloom in the silk and leather industries is, however, not quite as thick now as it was a few weeks ago. Furs, silk, leather and wool are selling—when they sell at all—at 30 to 60 per cent. of their prices of a few months ago.

aged by the action of Montreal, showed a stronger undertone yesterday and was apparently free of influence bewas apparently free of influence because of the closing of exchanges on the other side. The paper stocks, breweries, and sugar were the features of speculation. Another movement was made in Brasilian, which carried the price up 1½ points, Local operators are watching this stock and whenever the price has a railying tendency they dip in for a turn. The support at around 42 has held on three occasions, and there was an impression yesterday that a real advange had again started. The merger issues were quiet, but sited Corporation was strong, mainly on Montreal support. Cement was down to 61 in Montreal, and Steel of Canada tost half a point to 74 1-2. Brasilian was the only active speculative issue with a turnover of some eight hundred shares, Banks were wanted in small quantities at steady prices, but the war bonds were slightly depressed and the 1925 sold down to 94 for a broken lot.

PEAK OF HIGH PRICES REACHED IN BOOTS

Boston, July 5.—The president of the Brockton Shoe Manufacturers' Association says the real peak of shoe prices has been passed, and that competition will inevitably bring about a reduction in footwear prices, a fact to be regarded as "desirable, and necessary from every point of view." He expects no demand time this summer, and says we are coming back to old conditions, where 80 per cent. of capacity can produce all the needed footwear.

London, July 5.—Of 9200 bales of wool offered at the new British government wool auction, the larger part was withdrawn for want of competition. Bradford reports director of raw materials has sold local syndicate \$4,000,000 of wool withdrawn from auction for export to Germany, but this is not officially confirmed.

MONTREAL PRODUCE MARKET.

Montreal, July 5.—There were no new developments in the local cash grain market, the demand being very limited. There were no changes of importance in the millfeed market, and the demand for rolled oats is dull. The baled hay market is firm and active, The egg market is stronger, and prices were marked up. A good business is passing in the butter, and there is nothing new to note in the cheese market.

### MINERS SAY WM. IVENS IS MARTYR FOR LABOR

Sydney, N.S., July 5.—Convinced that he is a martyr in the cause of organized labor, the district board of the United Mine Workers, representing 12,000 coal miners of Nova Scotla and New Brunswick, wired to William Ivens, congratulations on his election to the Manitoba legislature, at the same time denouncing as "servile and stupid," the government, which they hold, caused his imprisonment.

DUY Stocks cheap---Sell them dear is

the money-making recipe of a famous financier. The question is, when is a stock cheap and when is it dear? One of the most important factors determining this point is the future prospects of the industry which the stock rep-

The shares of a number of industrial concerns made enormous price advances during the war, due, of course, to the unprecedented demand for their products. Recently, this demand has had a great decline, placing the future of these companies on a rather uncertain basis. On the other hand, the gold mines had been handicapped, on account of high operating costs due to enormously increased commodity prices as compared with the fixed value of gold. Now conditions are changing. Commodity prices are falling—the purchasing power of gold is increasing. For these reasons, a period of industrial depression would operate to the benefit of the gold mines. In our opinion, we are on the eve of a great boom in gold mining, which we believe will be ushered in this fall. This is the time to do your buying. Gold stocks of unquestioned merit can be bought cheap.
