FINANCIAL and COMMERCIAL J. S. BACHE & CO.'S WEEKLY FINANCIAL REVIEW

Incidents of Last Week--Amalgamated Copper--For Harmony--The Small Investor Active--The Money Situation.

NEW YORK, Oct. 19--There has been no work of incidents during the week to keep attention fixed upon Wall Street. But the reasons for decline were concentrated there and nothing that has taken place is of effect on the general situation. The connection with the banking world, which was involved somewhat in the incident, has afforded the clearing house an opportunity to look carefully into the situation and to arrive at the gratifying conclusion that all is well and that the clearing house will be taken care of in the ordinary course of business.

AMALGAMATED COPPER The other subject dominating attention again this week has been the copper problem, to which the directors of the Amalgamated Copper Company was expected to give some decided premises on which to base a solution. The directors have cut in two from eight to four. The stock has as yet not seriously declined since this announcement as to indicate that the action has not to some extent been discounted.

WALL STREET STILL HAS BAD ATTACK OF NERVES Values Lower Than for Three Years--The Public Will Not Come in Because of Revelations of Misused Funds.

(New York Journal of Commerce.) There is no blinking the fact that Wall Street has again become hysterical, not over what has occurred, but over what may not occur. Stock Exchange values are today lower than they have been in three years, even the so-called edged stocks have fallen below the March level without yet displaying any resiliency. But is not that sound reason for help? The market is stubbornly refusing to believe the insiders, it is true. No one seems to want stocks at any price, any more than copper consumers seem to want the metal. Altogether, the situation is a puzzling one. The immediate future, owing to the nervous feeling pervading the financial world, is much beset, and unless judgment be preserved there are dangerous elements that may culminate in disaster. But the resuscitation of values has hitherto been so orderly that surely what remains to be done ought to be accomplished with sanity.

THE BORDER CITY TIMES News of the St. Croix Valley Cleared by Times Correspondents.

Calais, Oct. 19. The imposition of jail sentences at the supreme judicial court, on Thursday, upon parties found guilty of violating the Maine prohibitory law, came as a great surprise to those concerned. 2300 fines with sentences of 90 days added were more than the liquor men expected, and the shock was a severe one to the men who appeared in court anticipating the customary treatment. It is safe to predict that County Attorney Donworth won't be loved any more by the parties most interested. Several vendors of the ardent who did not care to run the risk of visiting the court seat the present on the New Brunswick side of the line, but the county attorney follows up his intention of prosecuting the parties who are in the room and board in waiting for them when they return to the land of the free. Usually the jurisdiction of the court is various holders of the office of county attorney could be had in time to prepare for the worst, but the spirit of the law is more elastic than is the present incumbent when liquor matters are under discussion, and the men who took chances in remaining in the room are in the room. Several of those who are now in exile have a number of indictments to answer for, and if all sentences are imposed in each case the county jail will have a number of steady boarders during the coming year.

CONTINUED DEMAND FOR BUSTER BROWN BOOKS

The Buster Brown books which the Evening Times is giving away to all subscribers who pay 50 cents for Times subscriptions are making a great hit with the little folks of St. John. Evidence that they have caught on is found in the rapidly increasing demand for them. Young and old, toughten and untoughten, and mated men have been equally anxious to make their acquaintance in his new guise. The little ones are all the funny stunts of Buster and Mary Jane and Tige--don't under any consideration. The books are most comical and to subscribers to the Evening Times and one of the books is yours for the asking. Every time you bring fifty cents to the office you carry away with you one of these screamingly funny books. \$1 gets two, \$1.50 gets three, and so on until you have obtained the set. LABOR AND POLITICS

To the Editor of the Times: Sir--As we are going to have a local election in the near future, would it not be well for the labor people to be better informed as to whether they are going to put candidates in the field or not? Or are they indifferent to their own welfare by letting this election go by without an understanding whether they will put a man from their own ranks, or support only men who they know are friendly to labor? This, I think, should be attended to at once. If we are going to have a man from the labor ranks, then I would suggest that a gentleman well known to every working man by his untiring efforts to secure legislation for the benefit of the working people of this province, both men and women; a gentleman who is the father of the factory act and the workmen's compensation act, and who has been instrumental in getting further legislation for the benefit of the working men of every man who has a poll tax of two dollars. That gentleman is Mr. J. H. Matthews. We need more of his principles in the provincial and federal parliaments, who will fearlessly look after the interest of working men. The Trades and Labor Congress of Canada, which met in Winnipeg a short while ago, condemned the action of Sir Wilfrid and his cabinet in the Japanese question of British Columbia, and appealed to working men to oppose the candidate of Sir Wilfrid. Then let us not forget the duty we owe to the Trades and Labor Congress of Canada, for what happened in British Columbia may be our case--who knows? The labor vote has become a factor in the politics of Canada, and each party are trying to catch it; but labor men should hold aloof from either party and be independent of both and vote only for men

JOHN DILLON WILL SUPPORT REDMOND

Member for East Mayo Has Resumed Political Activities. DUBLIN, Oct. 21--John Dillon, member of parliament for East Mayo, who took up his political activities again ten days ago, continues to support John E. Redmond, the leader of the Irish party and his colleagues. Another letter from Mr. Dillon was read at Tipperary yesterday in which the writer vindicated Mr. Redmond's policy. William O'Brien, member of parliament for Cork, speaking at Tralee, yesterday, indicated his desire to return to the party in order to influence the decisions of the next session of the house of commons on the question of land purchase, finance and university settlement. Mr. O'Brien said he was ready to accept Mr. Redmond's leadership and the party pledge, if the pledge was either made more stringent or allowed greater latitude for individual policies. The archbishop of Cashel and the bishop of Drogheda have written letters declaring their adherence to Mr. Redmond's policy. These are significant signs of the collapse of the attack on the Irish party.

Funeral from the residence of her son, 145 Mill street, Monday afternoon at 2.30 o'clock. WORKINGMAN. DR. PUGSLEY AND PURITY Editor of the Times. Sir--In his speech at Gagetown, Dr. Pugsley said that he prosecuted the Conservatives who were guilty of corruption in elections the jails would not contain them. Does he speak from the experience he acquired during the many years that he was fighting the Liberals and endeavoring to prevent Laurier from getting into power? Did the present lack of jail accommodation prevent him when attorney general from taking action against his personal and political friends who placed his name on the Rotch's bill? In view of his failure to prosecute the Rotch's criminals his talk about purity will be regarded as the utterance of a person so hateful to his sensitive nature, namely, a hypocrite. ROTHESAY.

**FULLER REPORT OF SPEECH OF SIR WILLIAM VAN HORNE**  
**He Would Have Our Pulpwood Forests Protected, and Strongly Advocates Government Action in the Interests of Canadian Industry.**

Sir William Van Horne has taken a very strong stand in respect to the preservation of Canadian pulp reserves from the invasion of the American paper manufacturers, and despite the flourishing condition of business at present, Sir William sounds a warning note to the federal and provincial governments to guard the pulp industry of the Dominion by compelling the United States paper manufacturers to move their plants to Canada if they desire in future to acquire their raw material from the Canadian forests.

Sir William estimates that at the present time Americans hold not less than 10,000 square miles of the best Canadian pulp lands. Under present conditions, these Americans are allowed to take the Canadian pulpwood to their factories across the line without any duty or excise, and in return flood the Canadian market with the finished product.

"The great bulk of the paper consumed in the world," said Sir William, "is made from spruce wood. In the United States, the states of Minnesota, Wisconsin, Michigan, northern New York, Vermont, New Hampshire and Maine at one time had what was regarded as an inexhaustible supply of this timber, but in Minnesota, Wisconsin and Michigan it has been almost entirely exhausted, and the Wisconsin paper mills are now compelled to draw even upon the province of Quebec for their supply, which they have to carry more than 1,000 miles by rail, and which costs them at their mills about \$15 a cord.

"In the Adirondack region of New York considerable spruce timber remains, although the available supply for the pulp and paper mills has become exceedingly small because of the large amount of timber lands held by wealthy individuals as shooting preserves, the large park reserves, and because of the extensive areas which have been destroyed by fires. Therefore, the available spruce supply of the United States is practically limited to southern Maine, to New Hampshire, Vermont, and the Adirondack region of New York, and failing supply pulpwood from Canada, these districts would not afford sufficient spruce wood to keep the American mills going more than a few years at the outside, and probably not more than three."

**LIMITED SOURCES OF SUPPLY.**  
 "The world has only two other sources of supply, the Scandinavians and the Canadians. There is some spruce in Finland, and farther east in Russia, including Siberia, but very little of this can be counted as available. Norway and Sweden have no "floatable" rivers, and the wood has to be brought down by railway. All Europe has been supplied from these sources for a long time back, and great inroads have been made upon the forests. It is hardly necessary to point out that Canada's spruce, while equal to that of the northern United States for making, is much superior to that of Norway and Sweden, for it affords a feathery pulp which mats well, while the Scandinavian spruce would be termed a mere pulp, which makes a sheet too tender for the very fast running American machinery.

"The paper manufacturers of the United States have for a long time back been taking notice of the superior quality of their future, and they have already acquired very extensive areas of timber lands in Canada, to which they are wisely preserving the timber on these lands as well as their lands at home by buying in the spruce wood jobs and breaking up all the spruce wood they can get from other lands. The International Paper Company already owns in Canada, directly and indirectly, something like 3,000 square miles of spruce lands—mostly in the province of Quebec. The Union Bag and Paper Company owns in Canada, and mostly in the province of Quebec, something more than 2,000 square miles, and about a year ago the last named company stated to its shareholders as the reason of a reduction in its dividends from 7 to 4 per cent, the necessity of acquiring large bodies of spruce timber in Canada, and in view of the rapid disappearance of the spruce forests in the continent. These are precisely the same reasons which have actuated the International Paper Company in securing all the Canadian timber lands they can get and in buying all the Canadian pulpwood within its reach.

**MUST GET RAW MATERIAL HERE.**  
 "Many other paper concerns in the United States, besides these I have mentioned, are buying Canadian pulpwood, ground pulp and sulphite fibre to use as pulp. Without the Canadian supply of pulp and pulpwood many of the American mills would have to shut down very soon. If they cannot get our pulps or pulpwood they eventually come to Canada to make paper, and every paper mill established in Canada means a town of from 5,000 to 15,000 people, and a great addition to the wealth of the country. Canada would get more than six times as much out of her resources in spruce wood by converting it into paper at home, instead of letting it go to foreign paper mills. But Canada is letting her spruce wood go abroad without hindrance, and day by day one of her most valuable assets is being depleted, leaving little more than tree stumps to show for it.

"The paper production of Canada largely exceeds the home consumption. The Laurentide Paper Company alone produces nearly twice as much new paper as is consumed in the entire Dominion, and there are many other extensive Canadian mills more or less dependent upon foreign markets.

"The only markets open to Canadian papermakers are those of Great Britain, Australia and South Africa. These, likewise, open to the mills of the United States, which, although finding an enormous and usually sufficient market at home, have occasion to dump a large surplus into our only available markets.

"The United States can get pulpwood in Canada as cheaply as we can. Their only disadvantage as to the difference in the freight they have to pay on this pulpwood from Canada to their mills, but they have advantages that more than offset this. They have a large advantage in the cost of coal, in the supply of skilled labor, in a usually adequate home market for their products, in lower ocean rates and lower marine insurance on their exports, and in many other things."

"The stoppage of the export of pulpwood in Canada would at least result in the American mills having to buy ground and sulphite pulp from Canada, and at much higher prices than they are now paying for it, and would very soon com-

and today in her coloratura singing and trills has been placed by English and continental critics equal to Patti, Melba and Sembrich, and in her high notes has been pronounced unequalled by any singer living.

The London Times says:—"This combination of the contralto and soprano ranges in a compass of thirty notes, all of great sweetness and power, is without a parallel in the history of music."  
 Standard, London, England, says:—"Madame Yulisse proved a host in herself. The range and compass of her voice was simply wonderful. The extremely high notes characterizing the piece were reached with the utmost ease by a succession of lovely little trills which aroused the utmost enthusiasm among the audience. Madame Yulisse is the only singer living who sings the high notes as originally written; she also sings some five notes still higher than the original."

 Hon. William Paul Dillingham who has been twice sent to the United States senate from Vermont was born in Waterbury of that state on December 12th, 1843. He was educated at the town academy and afterwards studied law, and admitted to the bar in 1867. Senator Dillingham married Miss Ellen Shipman on December 24th, 1874. He early entered the political arena and was a member of the state legislature in 1876 and 1884 and served one term in the state senate from 1878 until 1880. He was first elected to the United States senate in 1880. His home is at Montpelier, Vt.

**HAMPTON SCHOOL MEETING**  
**Trustees Report They Had Expended \$23,000, While \$11,000 Was Thought to Be Enough When Scheme Was Mooted.**

HAMPTON, KINGS CO., Oct. 21.—The ratepayers of school district No. 2 in the parishes of Hampton and Norton (the Consolidated school district) assembled in the hall of the new school building on Saturday, the gathering being announced as "the annual school meeting" but it was really the meeting to organize the new district by receiving the report of the temporary board of trustees, who have had charge of building operations and the informal opening of the school, to elect two trustees supplementing the appointment of those trustees, by the government, and to settle upon the amount to be assessed upon the district for school purposes during the current year, as well as to take up any other business which the occasion demanded.

Percy B. Stevens presided and J. W. Scovill acted as secretary. The government trustees—S. H. Flewelling, G. O. Dickson, Oty and J. M. Scovill—and in addition the other members of the temporary board, also took a leading part in the deliberations.

Mr. Scovill read copies of minutes of meetings of the board of education, organizing the district, authorizing the present meeting and appointing its trustees. He then proceeded to submit a very carefully prepared report of the work done by the temporary board—the purchase of site, the preparation of plans and specifications for a school building, the issue and acceptance of tenders, and the erection of the edifice, together with the appointment of teachers, and payments made for all purposes up to the present time. These amounted to \$23,070.02 to meet which they had, under the authority given them, issued school bonds to the extent of \$25,000 bearing interest at 4 per cent. Of these, twenty-eight debentures of \$500 each had been sold at par, which with accrued interest, realized \$14,120.09. The difference, \$9,949.93, had been obtained from the Bank of New Brunswick at 6 per cent interest and for this advance the bank holds \$11,000 worth of the school bonds.

Mr. Scovill then moved that in the opinion of this meeting the school district should have the right to elect a majority of the members of the board of trustees. This was seconded by James W. Smith and Wm. J. Brown.

After some further talk, the motion passed unanimously, as did another calling upon the secretary to forward a copy of the meeting's decision to the chief superintendent.

Allan W. Hicks and John E. Coleman were elected trustees.

An assessment on the ratepayers for \$4,500 was ordered to provide for the expenses of the current year.

On motion the trustees were authorized to dispose of all school property of the former separate districts, to the best advantage.

A motion to put in force within the school district the provision of the act relating to compulsory attendance was voted down.

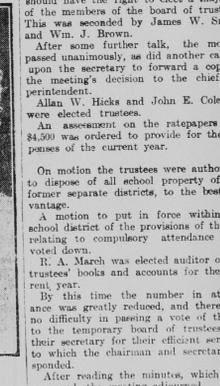

R. A. March was elected auditor of the current year.

By this time the number in attendance was greatly reduced, and there was no difficulty in passing a vote of thanks to the temporary board of trustees and their secretary for their efficient services, to which the chairman and secretary responded.

After reading the minutes, which were approved, the meeting adjourned.

GREEKS RETAIN CHAMPIONSHIP

Defeat St. Peters in Fast Game Saturday in Senior League By Score of 6 to 0.

As the result of Saturday's games, the Marathon football team captured the senior league championship for 1907, and became the winners of the Bulbeck cup for the second year and the Victoria cup for the first year.

The senior game between the Greeks and St. Peters on the Victoria grounds was a close and hard fought, the score standing 6-0, in favor of the Marathons. Considered that the Saints played two men short in the senior in the first half and one in the second the North Enders made a very good showing.

Don Malcolm was closely watched and did not score, although one of his long runs was responsible for the second try. Rankine played a fast game, and his passing was much in evidence. Howard made many fine runs and Thornhill also showed up well, but sure tackling on the part of the St. Peters helped prevent much scoring. Ledingham played his usual fast game and made one of the touchdowns.

The Marathon forwards have certainly nothing to be proud of. In the first half it was eight against six and as far as scrimmaging went play was even. If the Greeks are to do anything against the side teams it would seem that the forward line would need to be improved. McLean and Harris were back and each showed up well in open work.

For the Saints, Carten and Cobhan played the best game on the half line. Carten got next to Dr. Malcolm for three nice tackles, getting the doctor high twice and the third time sending him in the air by catching him low. Cobhan was also on Malcolm's neck and showed up well in dribbling forward. McIntyre at full back was carded and his attempt to return with a flying kick cost the team one of the scores made against them. The St. Peters forwards realizing their handicap worked well. Coll played a star game as quarter.

The Marathons kicked off but St. Peters returned and played well at once into Greek territory. The Saints played fiercely and the ball went down as far as the Greek five yard line. Scrimmages on the twenty-five yard line followed and time was fully half gone before play shifted to the Saints' end of the field.

St. Peters on the defensive proved strong and time after time the Greek halves went away with the ball only to be brought down within a few feet of the line. St. Peters played a serenade in the centre of the field the ball was kicked along the ground and McIntyre tried a flying kick. He missed and McLean following sharply, the ball was dribbled over and Ledingham fell on it. Ellis failed to convert.

In the second half the Greeks scored again and though they touched twice for safety and seemed to be on the defensive for a portion of the time, Don Malcolm got the ball from a scrim and made a spectacular run, but was tackled by Carten near the line, and Thornhill, getting the pigskin on a pass, touched it down and made the score 6-0. It was not converted. T. Powers refereed satisfactorily. The teams were:

Marathons: Fullback, St. Peters, Ellis; ... Quarterbacks, Carten, Cobhan, Howard, Thornhill; ... Running backs, Rankine, McIntyre, Wilson; ... Forwards, Birmingham, ...

St. Peters: Fullback, St. Peters, Ellis; ... Quarterbacks, Carten, Cobhan, Howard, Thornhill; ... Running backs, Rankine, McIntyre, Wilson; ... Forwards, Birmingham, ...

Senior league standing: Marathons, 3; ... St. Peters, 2.

VICTORIAS HOLD THE CUP

Down LaTours by 3-0 Score Saturday in Intermediate League--Game Protested--Curries and Micmacs Tie 0-0

The Victorias won the Intermediate League championship on Saturday by defeating LaTours by a score of 3 to 0. The west side gave them a hard fight, however. The play throughout was fast, the boys putting up a nice article of football. The Vics have won four games and tied one and have one more to play. They cannot now be headed and consequently retain the Moore cup for a second year. The first game was that between the Micmacs and Curries and resulted in a tie. A. Roberts refereed the first game and Rev. G. F. Scovell the second.

Curries. Full. Micmacs. ... Baskin, ...

LaTours. Full. Victorias. ... O'Connor, ...

Marathons. Won. Lost. Tied. ... Marathons, 3; ... St. Peters, 2.

JUDSON E. HETHERINGTON TELLS HOW THE DEAL WAS PUT THROUGH

Some Light Thrown Upon Col. McLean's Machine Made Nomination in Queens-Sunbury --- Dr. Hetherington Did Not Promise to Support the Colonel.

Cody's, (N. B.), Oct. 19, 1907. To the Editor of The Telegraph: Sir--I notice in your issue of The Telegraph October 18 an editorial on the Liberal convention at Gagetown in which you state that I withdrew my name from the convention in favor of Col. McLean and tendered the Colonel my support.

The Telegraph has evidently been misinformed as to the facts. I did not withdraw my name in favor of Col. McLean or any other candidate; neither did I at any time promise the Colonel my support. As I stated at Gagetown, the convention was called very hastily, and with the apparent intention of preventing any other candidate from having time to see his friends or organize his forces. I, for one, was in no wise consulted in the matter, although I had been previously assured by certain of the Queens county leaders of their preference for a Queens county resident over an outsider as a candidate.

Still, in the face of this, they neglected to inform me that the county was being organized, that a convention was about to be called, in fact of anything that was taking place or about to take place. To the contrary, Sunbury having been delivered to Col. McLean and Queens organized to the same end, and all the plans completed preparatory to the nomination of that gentleman, the convention was immediately sprung.

I do not wish to be understood as entering any complaint against Col. McLean -- I would rather congratulate him upon the completeness and perfection of his organization, and upon the power he commanded whereby he was able to whip the forces, great and small, into line; for this last he has my sincere admiration. The only troublesome and unsettled question which appears to have occupied the minds of the leaders seems to have been how they would serve me up to the convention -- fried, broiled or roasted. That I was to be consumed was without question, only how could I be made most palatable and with least uncomfortable after effects? -- a political indignation, being most undesirable.

I do not believe that any course pursued by political leaders tending to raise a doubt as to the fairness of their dealing or the sincerity of their purpose can but weaken the unity of the party and disturb the harmony.

I feel called upon to make the above statement in justice to myself and to my friends, who would not otherwise be able to understand my attitude.

ST. JOHN DEFEATS MONCTON AT GOLF

In spite of the somewhat bitter weather the return match with the Moncton Golf Club was played on Saturday on the local links proved most interesting and enjoyable. When a St. John team went to Moncton some weeks ago and met defeat it consisted of eight players, but Moncton sent down twelve men to do battle, which showed a good spirit and which added greatly to the interest of the contest. Moncton lost the game, but in many cases the players proved to be evenly matched. St. John was twenty-five up at the finish, but as the match was a 36-hole affair the margin was not very high. Near the course, and this counted heavily against them. A high wind and the low temperature made the scoring difficult, but some fair cards were turned in. The score:

St. John. Moncton. ... Woodcock, ...

Woodstock. St. Stephen. ... Woodcock, ...

THE NEW CITADEL

Major Phillips introduced Col. Sowton in a few well-chosen remarks and the Colonel gave a very interesting address, touching on various phases of army work. Other officers who addressed the gathering Saturday night were Major Phillips, Staff Capt. Miller, Adj. Freeman, Ensign Cornish and Capt. Willar.

There were four meetings held in the Citadel yesterday and all were well attended. Special appeals were made for contributions to the building fund as a result of which the indebtedness was reduced \$200. At 7 o'clock a meeting was conducted by Ensign Cornish. At 11 o'clock Col. Sowton was the principal speaker, taking for his subjects Love and Reconciliation. In the afternoon the auditorium was filled when Col. Sowton again took charge. Other speakers were Staff Captain Miller, Mrs. Phillips and Adj. Freeman. Lieut. Neck and Sergt. King sang a duet.

At 7:30 the auditorium was taxed to its fullest capacity and many had to be turned from the doors. The speakers were Staff Captain Miller, Mrs. Turner and Col. Sowton. Solo were sung by Captain Porter, of Woodstock, and Lieut. King sang a duet.

At 7 o'clock a torch light procession was formed and more than 100 soldiers from the local rifle range. There was a good attendance but the strong wind made shooting very difficult. The following were the winners:

MONCTON MINISTER SCORES ST. JOHN

Rev Mr. Stothard Says More Liquor is Sold Here After Legal Hours Than Before.

Moncton, N. B., Oct. 20--The Evangelical Alliance of this city has decided upon a vigorous campaign against the effort of the liquor dealers to obtain the required signatures to petition for a repeal of the Scott act in Westmorland and seems along this line are to be preached.

In Central Methodist church tonight Rev. James Stothard opened the campaign in a vigorous sermon in favor of retaining the Scott act. He declared the Scott act to be the best temperance legislation on the statute books and appealed strongly for support for it from all good citizens. It was admitted, he said, the act had not been enforced as well as it might but instead of blaming any one in particular for this fact, he advocated creating a moral sentiment among the people against the liquor traffic evil.

Replying to the argument that license was preferable to the Scott act, Rev. Mr. Stothard said it was well known that in St. John, under license, more liquor was sold after hours than during legal hours. He urged his hearers not to sign a petition asking for a repeal of the Scott act.

A WAY TO BETTER BREAD. Good housekeepers, it is said, are known by the bread and pastry they provide for their homes. When we come to think of it, there is any one thing in which a housekeeper should excel--in which she should take more pride--than in her sunny, delicious wholesome home-made bread?

Any woman can make white, light, nourishing bread. One of the commonest causes of failure in the baking is the use of poor flour. Flour, made of Ontario fall wheat alone, though nutritious and faultless as to flavor, is not strong enough. Manitoba wheat, on the other hand, is deficient in fine flavor and delicacy, although full of strength.

A blend of the two has been found to give wonderful results. This does not mean that you can mix them at home--it is difficult to do that except with the finest and most delicate machinery. Many of the best millers are blending the rich Ontario fall wheat with the flinty Manitoba wheat, thus bringing out all the good qualities of both.

With this Ontario Blended Flour, you will have no trouble in making light, white bread--bread with that peculiarly sweet, wholesome taste which one naturally associates with home-made bread.

CAUSE FOR REJOICING. Mrs. Rabbit--Oh! I'm so glad you're home again. I've missed you dreadfully. Mr. Rabbit--Thank you dear. I'm happy to say that the amateur hunter I met did the same thing.

YOU don't have to bake bread mother now, the best is baked for you. Eat of Scotch Zest, it proves its worth for yours and you.

No need to bake bread now, Scotch Zest Bread proves its worth through purity, flavor and moistness. Tried it yet?

Dykesman, business manager.

The officers plan to make this term the banquets and cordially invite young men to spend a pleasant hour with them on Sunday afternoons from 2 to 3 o'clock.

CITY ENGINEER WILL DIRECT IT

West Side Dredging Mix-up Has Been Practically Settled. The west side committee of the board of works held a conference with Hon. William Pugsley, minister of public works, on Saturday with reference to dredging at the Sand Point berth and to arrange for the completion of the site for No. 3 crib of the new 600 foot berth. It was decided that Hurd Peters, the city engineer, should direct the movements of the dredge Beaver as far as the work at the Sand Point berth is concerned and that J. R. Scammell, the engineer of the public works department, should have charge of the soundings. Mr. Scammell will take soundings at each berth when the contractor, G. S. Mayes, reports that the required depth of 31 feet has been reached, and when the dredging at the four berths is completed will take another series of measurements to ascertain if any material has fallen in and if the depth is uniform. The C. P. R. engineer will also take soundings to see that the berths are satisfactory to the company. The Beaver will be ordered to work on the site of No. 3 crib of the new wharf extension.

MUST LEGISLATE FOR TEMPERANCE

National Prohibition the Country's Need Says Every Day Club Speaker.

Bruce Addison was the speaker at a well attended temperance meeting in the Every Day Club hall yesterday afternoon, and held the close attention of his hearers while he set forth, with force and fluency, the evil results of intemperance upon the individual, the family and the state. Mr. Addison is pronounced in his views, and strongly in favor of total abstinence, and national prohibition. To the statement that we cannot make men sober by act of parliament Mr. Addison replied that we must, and that nothing short of national prohibition will serve the country's need. He quoted statistics to show the prevalence of the drinking habit and its results in poverty, insanity and crime, and declared that the attitude of the people toward the liquor traffic should be one of uncompromising hostility, while they should feel the deepest sympathy for and extend the helping hand to the unfortunate victim of intemperance.

In addition to Mr. Addison's address there was a solo by William Colwell, and a number of hymns were sung under the leadership of Mr. and Mrs. R. H. Cother.

Last evening, the club having been disappointed in securing singers for the sacred concert there was some singing of hymns by the audience, a solo by John Wood, and a solo by Miss Cother, and Rev. A. H. Cother, who delivered a brief address. Mr. Cohoe took up the question: Can a man be born again when he is old? and applied it to the work of the Every Day Club, in its efforts to help men to be men. He deprecated the pessimism which, when a man is down-leaves him there with the comment that he will not be lifted up or that he comes of bad stock and nothing better could be expected. In a fifteen minute talk the speaker went straight to the heart of the problem facing society today and pointed out that it was not enough to stop doing bad, but to begin doing good.

With references and illustrations taken from daily life he showed what could be done by men and individuals and as members of society to better the conditions around them, and especially to reach wrong and help those who have gone wrong and are perhaps themselves almost hopeless of getting right again.

The chairman made an application of the speaker's remarks by urging men who had not other special ties to aid the Every Day Club in its efforts to be of service to men.

SPECIAL SERVICES

Held in Several of the City Churches Yesterday.

A special service in memory of the late Bishop Kingston, was held in St. Paul's (Valley) Church yesterday morning. There was a good attendance, and the pastor, Rev. E. B. Hooper, in a special sermon, paid an eloquent tribute to the life and works of the deceased prelate.

In the evening a service of intercession for Sunday School children was held in the 8th anniversary of the founding of Centenary Church was also observed yesterday. The services were presided over by Rev. John W. Aikens of Brunswick street church, Halifax, and there was special music at both services. The pastor, Rev. Dr. Sprague, spoke briefly of the history of the church, in the evening, and announced that on Sunday next Rev. James Graham of Toronto who has succeeded Dr. Potts as the head of educational work of the Methodist church in Canada, would preach in Centenary.

In connection with the anniversary celebration Dr. Sprague announced that the annual congregational school would be held next Friday evening.

The new organ was in use at the services in Main street Baptist church yesterday at the residence of her mother, Rev. W. V. Higgins, superintendent of missions, preached at both services and told of the mission work in India and of the habits and customs of the natives of that country. There was special music by the choir in the evening. In the afternoon the rally day exercises of the Sunday school were held.

OBITUARY

Miss Kate Ford. The death of Miss Kate Ford, a former resident of St. John, occurred on Thursday last at Cliffdale (Mass.). Miss Ford was a sister of the late Mrs. James J. Lawlor, of this city, and went to reside in the United States many years ago. The funeral took place at Cliffdale on Saturday.

Miss Grace Peters. Mrs. Grace Peters, an aged and well known resident of Chapel Grove, died yesterday at the residence of her brother, Peter Scallan, at that place. She was aged eighty-two years. The funeral will take place today.

Thomas Youngclaus. Thomas Youngclaus, who at one time carried on a large business here, died last night a few minutes after 12 o'clock at his home, 33 Edmund street. Some eight or nine years ago he suffered a stroke of paralysis and another about a year ago and it was from the effects of these that he died. For the last day or two his condition had been critical.

Mr. Youngclaus was born in this city seventy years ago and had lived in St. John practically all his life. He was engaged in the tailoring and ready-made clothing business and for twenty years was prominent in it, but retired about eight or nine years ago. He was a much respected citizen, being looked upon as an honorable business man, and many will hear of his death with sorrow. He leaves his wife and a number of brothers and sisters, among whom are: George, of Kansas City; William J. Youngclaus, with J. N. Harvey; Mrs. Wm. Tait, Mrs. Margaret Doak and Mrs. Walter Johnston, of St. John. He also leaves relatives in various parts of the United States. Deceased was at one time a member of the Masonic fraternity and the Odd-fellows. He took a good deal of interest in politics and was all his life a staunch Conservative.

Hance Mills. (Special)—The death occurred this morning of Hance Mills, aged 80. Mr. Mills was a deacon of the Baptist church, a man highly respected by a large circle of acquaintances. Notwithstanding his advanced years he was up to a short time ago enjoying excellent health and was a frequent visitor at Amherst. His wife and two daughters survive him. The daughters reside in Amherst. The funeral will be held at Athol Tuesday afternoon.
