QUIET AT SOISSONS; BLOODY FIGHTING IN NORTH POLAND

Severe Fighting in Part of Western Front and Russians Win in Most Severe Conflict Yet in Mlawa and Vicinity

Paris, Jan. 19.—The French War Office this afternoon reported: "In Belgium there has been a snowstorm, and there have also been intermittent artillery exchanges at certain points. There was also a fall of snow yesterday in the region of Arras, where our heavy artillery on several occasions silenced the batteries of the enemy. "As we set forth yesterday, a fairly spirited engagement has been developing at La Boisselle, where following the breaking out of several lines were there, compelled during the night of January 17-18 to evacuate our positions. These, however, we recaptured on January 18 at daybreak. The enemy has not renewed his attacks on this part of our front. "In the section of Soissons, the bombardment of the suburb of St. Paul during the night of January 17-18 was not followed by any infantry attack, and the day of January 18 passed in absolute calmness. "In the valley of the Aisne, to the east of Soissons, and in the section of Rheims, there were, yesterday, artillery exchanges. "To the northwest of Pont-A-Mousson, we yesterday occupied another field work of the enemy in the forest of Le Preire, where we today occupied 500 yards of the trenches of the enemy. "In the Vosges yesterday saw a snowstorm. Here also, there has been artillery fighting, particularly in Bas Du Sap, and in the neighborhood of Thann."

BLOODY FIGHTING IN NORTH POLAND. Petrograd, Jan. 19.—The bloodiest fighting that has occurred in battle-racked Poland has been in progress in and around Mlawa, for four days. The ruins of the little north Polish town, practically destroyed by the artillery fire of the opposing Russian and German troops, on Sunday changed hands three times, but is now held by the Russians, who have thrown the German forces back toward the east Prussian border.

In southern Poland heavy reinforcements received by the Germans, have forced a change in the Russian front. After the Germans had burned the forest west of Kielce to drive out the Russian batteries posted there, the Czar's forces were withdrawn from Kielce as the position of that town was of no strategic advantage.

MANY FRESH BRITISH TROOPS AT FRONT. Amsterdam, via London, Jan. 19.—"Heavy artillery fighting has been heard since early Monday, around Ypres, where the Germans have taken an active offensive," says the Stuts correspondent of the Telegraph. "Their efforts to occupy Ypres have thus far been unsuccessful. Many fresh British troops have arrived at the front."

The Telegraph correspondent at Scleitz, in the region near Ghent, wires that the Germans have issued proclamations forbidding the inhabitants to discuss the war under penalty of a heavy fine or long imprisonment. "Some of the inhabitants have already been punished," he says. "In fact the prisons are filled, not with ordinary criminals, but with citizens who have unwisely been guilty of some infraction of the numerous German prohibitions."

RUSSIANS SINK SHIPS. Sebastopol, via Petrograd, Jan. 19.—It is announced here that Russian torpedo boats entered the Bay of Sinope, on the coast of Asia Minor, and sunk three sailing vessels. The equipment of the ships were saved.

COST GERMANS HEAVILY. London, Jan. 19.—A special to the Daily Express and the New York Herald from the Belgian frontier says:— "The temporary advantage to the Germans on the Aisne in the northwest of Soissons, was gained at a heavy cost. Many trains of wounded, who were victims of the deadly shrapnel fire of the French, have arrived at Louvain on the route to Cologne, while the local hospitals in the towns behind the centre of the German line are filled with wounded whose condition is too serious to permit their removal to Germany."

REVOLUTIONARY TALK IN CONSTANTINOPLE. London, Jan. 19.—The Central News has a despatch from its Athens correspondent, who declares that the authorities in Constantinople are suppressing the news of Turkish defeats in the Caucasus. He says they have ordered the execution of anyone spreading unauthorized news reports.

The military rule in Constantinople is stricter today than it was in the strictest days of Sultan Abdul Hamid. Revolutionary rumors are numerous. British Navy Collar in Trouble. Callao, Peru, Jan. 18.—The British steamer Kingsway, an auxiliary of the British navy, and used as a collier, arrived here today, damaged by having struck rocks at Point Santa Elena. The British consul is endeavoring to arrange with the Peruvian government to permit the steamer to enter a dock for repairs.

FOR BELGIAN FUND. Mayor Frank reviewed this morning troops Mrs. A. S. Lamb, a contribution of \$10.75 for the Belgian fund from Inverloch, N. B. The following contributed to it: Mrs. C. D. Perry, Dr. A. S. Lamb, C. F. Alward, Jonathan Hicks and Mrs. H. B. Hicks.

WEATHER BULLETIN. Issued by authority of the Department of Marine and Fisheries, R. F. Stupart, director of meteorological service.

Synopsis.—A disturbance which originated in the Gulf of Mexico, on Sunday developed over the Middle States yesterday, has passed to the St. Lawrence Valley, having caused heavy snow falls in Ontario and in Quebec and the maritime provinces. Storm signals are displayed at Atlantic ports.

Unsettled. Maritime—Southwesterly gales with occasional rain. Wednesday, unsettled still mild.

New England Forests—Cloudy and fresh cold. Wednesday, partly cloudy with colder; fresh west to southwest winds.

Canadians Nearly All On Continent Or On The Way to France to Fight

London, Jan. 19.—Practically all the Canadian soldiers are now upon the continent or on their way to France. Following the removal of Princess Patricia's light infantry to the battlefield, the work of transporting the other Canadian units to France was hurried to meet new and violent German attacks.

More Than 90 Already Have Made Application Expect That Mounted Rifles Will Go to Egypt—I.C.R. Men in Ranks Here Have Grievance—Mobilization at Amherst

More than ninety applications have been received by Major C. H. McLean, O. C. Squadron "B," 6th Mounted Rifles, from men anxious to serve in that unit which, the understanding is, will be despatched to Egypt for action there. The expectation is that the regiment will be ready to sail almost as soon as the main body of the second contingent leave for England. A machine gun section is to be added to the regiment and Lieut. G. S. Grimmer, who is now in Halifax taking a course of instruction, will have command of it. It will comprise twelve men. It is possible also that a battery may be added to the regiment. "That the majority of those enlisted as privates are receiving half or less than their former wages, while many of them have bills to settle before leaving. "That the I. C. R. railway employees do not draw the separation allowance, and do not participate in the patriotic fund, and they ask why I. C. R. employees should be barred from the separation allowance, merely because they receive pay from the government, while a C. P. R. employee, who also is guaranteed full pay, is permitted to draw \$20. Indoor Drill. "The bad weather of the last few days has caused a cessation from the rigors of outdoor drill, tactical exercises, route marches for the 26th Battalion, and it has also meant indoor-drill for the No. 5 Co. C. A. S. C. As soon as the exercises will be continued. Presentations. "The members of the shipping department of the Globe Publishing Co., yesterday honored one of their number, Private Howard Logan of the 26th Battalion, by presenting to him a valuable case of pipes. The presentation was made by W. J. Watson. Friends gathered last night at the home of Mr. and Mrs. J. Donohue, 179 Metcalf street, in honor of James McNutt, a member of the 26th Battalion, and during the evening he was made recipient of a silver ring, the presentation being made by Kenneth Robertson. Games, music and refreshments were added to the pleasure of the evening. To Mobilize at Amherst. Amherst News.—A regiment of cavalry numbering 600 men and a regiment of infantry numbering 1,100 men will be mobilized in Amherst for the third contingent. NOVA SCOTIANS FIRST TO FRONT

17th Battalion, Supplied With Lee Enfield, to Re-inforce Princess Pats

Distinct Compliment Overseas Sent to England of No Use and Are Coming Back—Webb Equipment to Replace the Oliver—Not Too Many Sets of Harness Sent

Ottawa, Ont., Jan. 19.—Why the Lee Enfield rifle is being supplied the 17th Nova Scotia battalion instead of the Ross rifle, is a question which could not be answered at the militia department this morning. It was officially stated that the department has had no intimation about it. Such changes really do not have to be reported here. The department, however, is disposed to accept as a fact, the report that the Nova Scotia regiment is going to reinforce the Princess Patricia's and for this reason, is being equipped with the Lee Enfield rifle. It is regarded as a distinct compliment to the efficiency of the Nova Scotians, that of the regular division, they should be the first to be sent to the trenches. Some Toronto men are with them. Regarding the charge that unnecessary supplies of overcoats, harness and Oliver equipment have been sent to England, it was admitted at the department today that there is no mistake about it, or the belief that weather conditions might be somewhat similar to those in Canada. So far, there is no mistake about it, our Tommies are fighting splendidly, and deserve all the praise they get. I don't think it will last long.

Amherst News.—A regiment of cavalry numbering 600 men and a regiment of infantry numbering 1,100 men will be mobilized in Amherst for the third contingent. Major Bennett and Engineer Knight of the Headquarters staff in (Continued on page 2, third column.)

JAMES DUNLOP DEAD. Moncton, N. B., Jan. 19.—In the Moncton hospital early this morning James Dunlop of Little River, Kent County, passed away. Last night he underwent an operation, but did not regain consciousness. He was seventy years old, was born in Moncton, but lived at Little River all his life. He is survived by his wife, six sons and two daughters. He was a half-brother of Ex-Minister James Dunlop and the late Doctor Dunlop of Moncton.

FUNERALS. The body of F. W. Hatley, who died suddenly in this city yesterday afternoon, was sent to Halifax on the noon train. The funeral of Mrs. Margaret Wallace took place this afternoon from the residence of her son-in-law, Robert Carrig, Milford. The body was conveyed to the Church of the Good Shepherd, where the burial services were conducted by Rev. Walter P. Dunham. Interment took place in the Church of the Good Shepherd cemetery, Moncton.

The funeral of Patrick Harry took place this morning from the Mater Misericordiae Home, Sydney street, following requiem high mass, which was celebrated by Rev. Dr. O'Reilly. Interment took place in the new Catholic cemetery.

INVALIDED HOME. John Smith, of Fredericton, who went to Salisbury Plain, has been invalided home.

Piece of "Jack Johnson" Shell From Firing Line Received By Local Clergyman Today

Corporal Ellis Sends it With Comment on Terrible Nature of Wounds it Inflicts—Also Comes Another Interesting Souvenir

A fragment of Jack Johnson shell irregular in outline with cruel, jagged edges, sharp as a knife, was this morning received by Rev. R. H. Haughton through the mail as a souvenir from the firing line sent by Corporal A. Ellis, formerly a member of the Congregational church and now serving with the 7th Divisional Train, British Army.

The fragment is of heavy metal, is about two inches in length and a glance at it is sufficient to prove the deadliness of the shell. Corporal Ellis writes:—"This is a piece of German shell known here as Jack Johnson. They inflict terrible wounds, the rough, jagged surface tearing the flesh as it goes through the body."

Hebert Dodd, a Moncton man who was called home as a reservist to fight in the British army, was wounded by the same type of shell of which Mr. Haughton received a fragment today. In a letter to Aid. Fryers of Moncton, Mr. Dodd tells the following story of his experience:—"I got wounded on Dec. 21st, a bullet through the left arm, and a broken arm, but I am going on fine. I get everything I want and am well looked after. A few can't grumble. Well, Sir, I don't think you can call this a war-cry. I would never have dreamt that a great war was going on and that millions of men were only awaiting an opportunity to take each other's lives. I suppose you have heard of the destruction of Ypres. When I first went there it was a beautiful city. Now it is a mass of ruins."

In the registered parcel received by Mr. Haughton today containing the shell was also an interesting souvenir in the shape of the tobacco gifts from the Princess Mary fund which Corporal Ellis also sent. An ornate gold box of tobacco, engraved with the names of the allied nations and accompanied by a pretty card with Princess Mary's best wishes and a brand-new pipe completed the gift.

In sending this souvenir, Corporal Ellis wrote:—"I am sending you a little souvenir. It is one of the gifts that Princess Mary has sent to the troops. I am pleased to say that I am quite well. I thought of you all on Christmas Day. We had a very quiet day here. I did not bear a single shot fired all day. A stranger would never have dreamt that a great war was going on and that millions of men were only awaiting an opportunity to take each other's lives. I suppose you have heard of the destruction of Ypres. When I first went there it was a beautiful city. Now it is a mass of ruins."

ANOTHER GREAT SHOCK; THIS ONE IN TOE OF BOOT

Extreme Southern Part of Italy Suffers From Earthquake

NOT KNOWN IF LIVES LOST. Still Finding People Alive Under Debris in Scenes of Last Week's Disaster—Wolves Attracted From the Mountains

Rome, Jan. 19.—That a strong earthquake has occurred at Calabria, especially around Crotona, the capital of the province, is reported here. It is not yet known whether there has been loss of life or serious damage to property. Calabria is in the southwestern extremity of Italy, commonly called "The Toe." It is a mountainous region, and disastrous earthquakes have been frequent there. Tagliacozzo via Rome, Jan. 19.—Not less acute than the misery and suffering of the people of Avezzano, is that of the inhabitants of the entire district to the south, including Sanseverino, Gioi, Decina, and other towns. The loss of life and damage to property in these places is as great, but the sufferers have received far less attention. Only 200 out of 2,000. Paterno, high up on the mountain side, has suffered probably more than any other town in the whole earthquake region. Less than 200 persons have been saved out of a population of 2,000, and not a single house remains standing. All are shapeless ruins. Although living persons are still being dug out of the ruins, there are only 150 soldiers at Pescara to assist the survivors in rescue work. The few surviving towns officials complain bitterly of the neglect. They say no bread has been obtainable since Saturday and that the people and soldiers have had nothing eat but vegetables brought from neighboring villages.

Nearly All Killed. More than 4,000 of the inhabitants of San Benedetto perished out of a total population of 4,500. Only volunteers from the nearby districts have been engaged in the rescue work. They took out ten living children from among the debris on Sunday, and today they saved a young woman and a five months old child. The town of Celano lost 1,000 dead through the earthquake. There are also many injured and 10,000 persons are without shelter.

Arrezzano via Rome, Jan. 19.—Grave news reached here today from the town of Orte, southeast of this place, where the earthquake victims are reported to number more than 2,000. A thousand of the dead, it is said, are buried under the ruins of the cathedral.

Paris, Jan. 19.—A despatch to the Havas Agency from Avezzano, Italy, says that King Victor Emmanuel, in his trip to the earthquake district on Monday, visited Scurolo, Magliano Di Marsi, Massa Dell'Abate, Campello San

At Avezzano all the dogs have been killed to prevent them from prowling in the debris among the walls of the dead. At several places wolves, attracted by the scent of human flesh, have come down out of the mountains.

Art Treasures Not Damaged. Rome, Jan. 19.—The Vatican denies that art treasures, especially in the Sixtine chapel, had been damaged by the earthquake.

THOMAS MALCOLM OF CAMPBELLON CHEERFUL IN INTERVIEW WITH TIMES. "It is only too true that there is a financial depression but this is due to the calamity of the war rather than real lack of money," said Thomas Malcolm of Campbellton, this morning in an interview in the Royal Hotel. "So far as I know there is the usual amount of work going on in practically all industries and generally I should say more money was being paid out than was the case last year."

"It has been an excellent season for the lumber operations," he said, "the lack of snow has facilitated cutting and yarding but of course there will be plenty of snow yet for hauling."

Mr. Malcolm said he understood the new railway bridge at Van Buren connecting the International Railway, now operated by the Intercolonial, would be completed by March and that the business on this line would then be greatly augmented.

ABILITY WASTED IN SWINDLING?

Crown Prosecutor Pillarieri Directors of Defunct Union Life

HUGE LOSSES. Stocks Exhausted by Yearly Deficits Totaling \$1,000,000—Terms of Arrangements With National Agency Brought to Light

Toronto, Jan. 19.—"The Arabian Nights sound fat and uninteresting compared with the manipulations of these gentlemen," said Mr. Du Verney, crown prosecutor, yesterday regarding the directors of the defunct Union Life Assurance Company. "From one end of the domain to the other, hundreds and thousands of people were affected by the transactions of these men."

"Not content with building slowly and surely on a safe foundation, they wanted to take a quick cut to riches and prosperity." Mr. Du Verney proceeded to outline to the jury the history of the transactions carried out, he said, with such extraordinary genius that one might well be prone to admire the magnificent ability of the men who handled such a proposition. The company known as the National Agency, the crown counsel explained, was established in January 1901, a year previous to the organization of the Union Life Assurance Company. Symonds was president of the former company, and Hughes was vice-president. With William Evans of the Union Life and Doctor Millerham, the situation was absolutely controlled by the four men.

The Union Life, Mr. Du Verney said, was to give the National Agency 20 per cent of all premiums they (The National Agency) got. The National Agency was thus to get a large sum for doing nothing. The losses grew year by year until they amounted to more than \$1,000,000. When they exhausted stocks and had to give scrip for dividends, they carried their campaign to England.

"The crown maintains," continued Mr. Du Verney, "that these men had no right to establish that company. It was a business company, without assets and even without possibilities."

STIRRING TALE OF THE SINKING OF GERMAN IN FALKLANDS FIGHT

Captain of the Speedy Kent Pays Tribute to Bravery of the Enemy

London, Jan. 19.—Captain J. D. Allen, of H. M. S. Kent, which sank the German cruiser Nürnberg of the Falkland Islands, describes in a letter to a friend how the Kent chased, engaged and sank the Nürnberg. He says: "It was a single ship action, as there was no other ship in sight, at the time. The chase commenced about noon and the action commenced at five p. m. "After a sharp engagement in which the Nürnberg sank at 7.26 p. m. the Nürnberg was a faster ship than the Kent, but I appealed to the engineers and stokers to do all in their power to catch her, and they responded to my appeal. The Kent went faster, faster, until she was making twenty-five knots, more than a knot faster than she had ever gone before. "We drew nearer and nearer, until we got the Nürnberg within range of our guns. Soon our shells began falling thick and fast, around her, and she was struck many times, until at last she was in flames. "The enemy continued firing their guns until the ship was sinking, and as she disappeared below the surface, some of the brave men on her quarter deck were waving German flags. "The captain's letter expresses regret that he was not able to save more than twelve of the Nürnberg's crewing to heavy seas and ice cold water.

CONDENSED DESPATCHES

SOCIALISTS AND PEACE

Copenhagen, Jan. 17.—Three resolutions were passed unanimously at the closing session in Copenhagen today, of the conference of Socialists of neutral countries, which opened in this city last Sunday. The first resolution declares it to be the duty of all Socialists to work for a speedy declaration of peace, the terms of which shall provide a basis for international disarmament. It also calls upon the International Socialist Bureau at Bern, to convene a meeting of all Socialist parties at the beginning of peace negotiations, to take an advisory part therein. The second resolution proposes that all Socialist parties of neutral countries, urge their respective governments to consider the possibility of offering mediation to the belligerents with the view of a lasting peace. The third resolution, which was adopted by a large majority, protests against the arrest of five members of the Russian Duma, who met to draft a report for the present conference.

A MATTER OF CAPTAIN AND SAILORS

William Baxter, a young English sailor from the Norwegian bark Juno, came to an understanding with his captain in the police court this morning. Yesterday he laid a charge against him for assault and also holding back his wages. This morning the captain agreed to pay the boy £2 and also promised to treat him well on the return trip to the old country. He explained that according to the Norwegian laws he could retain half the sailor's wages until his time was up, but as the money was to be sent to the boy's mother, who resides in England, and who is in need of circumstances, he agreed to pay the £2. K. MacRae, Norwegian vice-counsel, appeared in the interest of the young sailor.

THINK HE WENT IN THERE FOR SHELTER

Sailor Found by Police in Elmore & Mullin's Office

Last night while Policeman Ward was making his rounds he heard a noise in Elmore & Mullin's wholesale grocery store, South Wharf, and upon investigating discovered that a small man in the front of the store had been broken. He crawled through the aperture and found a sailor in the office. He placed him under arrest and entered a charge against him for breaking and entering the store. This morning the prisoner, Edward Redmond, appeared before Magistrate Ritchie and was remanded. The Times learned that nothing was missing from the office or storeroom, and the firm have no desire to press a charge against the man. They are of the opinion that he entered the store to get warm, and not to steal. A small coat was found by the stove. It was soaking wet, and contained only a fig of tobacco and a jack knife.

BOGUS CHECK CHARGE

Prisoner in Court for Brief Time Today

Exploits of a stranger calling himself Irving Stern came to an abrupt end yesterday when he was arrested in Hampton by Sheriff Freeze on the charge of obtaining money on presenting an alleged bogus check to the local police and brought here by Deputy Chief Jenkins to face a similar charge laid by local clergyman who, it is alleged, was victimized by Stern. The latter is about twenty-two years of age, and on January registered in an Ottawa hotel at Boston. He is said to have represented himself as a traveler for an oilcloth house. He got money from S. A. Crawford, manager of Fleischman's Yeast Co. and check, but it was recovered; an East St. John woman also endorsed a check but did not lose anything, and a clergyman gave him money. Stern's method, it is related, consisted in bringing particulars regarding the families of prospective victims, then representing himself to be intimately acquainted with some member of the family in distant towns. The interview with the clergyman, in which he is alleged to have received money on presenting an alleged bogus check took place on Sunday evening and on Monday morning Stern left for his home in Ottawa. The woman involved there and when the local police learned of his apprehension they asked that he be remanded for eight days. Stern appeared before Magistrate Ritchie this morning. Chief Simpson testified that he was remanded for eight days, and that he was remanded for eight days, and that he was remanded for eight days.

DANCE UP AND DOWN STAIRS AT IMPERIAL; A "BIG TIME" NOVELTY

Very Clever Act For Opening of Week—Miss Ashe and Excellent Pictures

Though it was not good show weather the Imperial was filled last evening and the great gathering gave abundant signs of approval of the opening bill of the week. The "big time" act, a very clever dancing specialty by Mack and Williams, deserved all that was said in advance. It is one of the best dancing acts ever seen here and Miss Williams added to the attractiveness of the specialty by her dramatic to give her own Mr. Mack's dancing illustration of a baseball match was novel and won great applause. But the double dancing up and down a large staircase was the star feature. Mr. Mack and Miss Williams were recalled time after time, to bow their acknowledgments. Miss Gertrude Ashe's excellent vocal was enjoyed in "Caroline" which she sang with expression and feeling. The pictures are two very strong ones and a fine set of Hearst-Selby news pictures, in the Terence O'Rourke series, J. W. Kerrigan plays a slashing good part in fine style and there is plenty of the dramatic to give his opportunity. The Hazards of Helen saw Miss Holmes in another thrilling rail road story, well enacted and full of interest. A delightful musical of the eleven-piece orchestra, the Imperial was a good place to spend half an evening. Thos. W. Ross, leading man of the original The Only Son company, will play the title-role of this Frohman play house on Wednesday and Thursday. The play is in five acts and is Winchell Smith's best offering.

THE CONSISTENT GERMAN

London, Jan. 19.—When the British government at the beginning of the war declared a pre-emption on the two Turkish flotta leaders, and the three Brazilian monitors, the German press made a great deal of the purchase of the Turkish flotta leaders in order to influence the opinions of the people of the Porte. It was urged in seizing these ships the British government had committed an unwarrantable act, placing Turkey at a serious disadvantage. Then followed the escape of the Goeben and Breslau, a group of British officers, including a group of British officers, and at the same time saving their ships from internment during the period of the war.

REPORT CIRCULATED OF POSSIBLE DECREASE WITHOUT FOUNDATION

Montreal, Jan. 16.—(Special)—The statement ignorantly circulated that the Bank of Montreal is reducing its general rate of interest to 2 1/2 per cent. is rubbishy and has no foundation in fact, said Sir Frederick Williams-Taylor, in reply to a question raised by gossip current on the street. Sir Frederick added: "All the banks in Canada, including the Bank of Montreal, pay 3 per cent. on saving bank accounts. Interest is not paid on current accounts by the banks of Canada, except in very special cases. The rates that the banks can pay in those very special cases must necessarily be regarded largely by the value of the money in London and New York. At both these centres, but particularly in London, money is almost unobtainable, even at 1 1/2 to 1 3/4 per cent., and little more in New York."

Miss Mary Burn Tells of Conditions on French Fighting Ground  
**GREAT NEED OF ASSISTANCE**

way station where she visited the ambulance train which consisted of forty carriages. She thus describes the train. "First we visited the sleeping carriages of the sisters. Each one had a sort of little cabin formed out of one of the divisions of an ordinary corridor carriage, a little larger than an English compartment, with bed on one side, a seat on the other and various boxes and shelves for a little luggage stowed away above and below. They had lately installed a stove in the passage in view of the wintry weather and here they had been living, eating and sleeping for months together, or of them said she had not slept in bed for a month.

"Then we came to the carriages for the wounded," continues Miss Burn. "They are like big, square refrigerators with opening at the side with three great stretchers hung one above the other in each corner—twelve in a wagon with room to get between each set and move freely about as there is no other furniture. Each carriage has one infirmary, who tends these in his carriage but cannot get out or communicate with the other carriages till the train stops. They told me that the infirmaries are often priests and that when the patients are dying they perform for them the last rites.

"Miss Burn was informed by the sister that the train often went close up to the rear of the action and the workers could hear the cannon booming and the mitrailleuse.

"You cannot know la guerre que c'est terrible," said the sister, "until you have traveled through miles and miles of devastated country, black, empty of man and beast, ruined houses, corpses by the roadside unburied, such sadness; and then to come where the people seem lively and carefree, plenty to eat and the ordinary life going on, the suffering we have seen and the cruelty to women and children."

This is a description of the work that the Red Cross is carrying on in the devastated places of a country that was once the admiration of the world. Now it is a blackened ruin, and its people are homeless and in many cases starving while the head of the despot tramples them down. In spite of these sad conditions the Red Cross is endeavoring as far as possible to alleviate these conditions as they exist. Hospitals have been equipped at Boulogne and at the base of operations and Red Cross workers are engaged night and day, with little time for sleep or recreation, in their arduous work. But they need assistance if this work is to be carried on. What are you, reader, doing to help?

In many towns and cities of the dominion parties of ladies have joined together and formed sewing classes where they are doing a splendid work in making comforts for the troops. While the society has received a goodly quantity of these articles, the demand is always being made for more. Those who are unable to join these classes can perform quite as useful a work by giving a cash contribution for money to always the first need of the society for it can be converted at any moment into the most necessary supplies and can easily be sent to any place.

For the benefit of those who are occupied in making comforts the following information may be useful. Women organized for sewing should not spend money on buying the supplies which have simply to be shipped away as bought as these can better be bought at headquarters, but they are recommended to spend money on materials to work up into such garments as shirts, pyjamas, dressing gowns, bed jackets, night shirts, socks, waistlets, mitts, cholera belts and scarves or kit bags, all of which require careful making.

The following instructions are of use. Cholera belts. Most men prefer the woven belts. Flannel belts are used in some cases. As all knitting wool is now scarce it is better to use it for socks and not for cholera belts. Socks, grey or khaki yarn, natural or heather mixture. Socks with heels are preferred. Needles size 12 to 14, according to wool used. Scarves 22-30 inches long, 9-12 inches wide, in grey or khaki. Loose stitch, No. 7 or 8 needles. About 96 stitches. Double yarn. Sleeping or Blaclava cap, No. 9 bone needles (4), pointed both ends, 4 ply yarn in grey or khaki.

Our soldiers will be soon taking their places in the trenches. They will be comfortable under any circumstances and for the last two or three weeks have been filled with water and mud. It is absolutely essential that the men should be warmly clothed and have a large quantity of blankets. The society will be glad to receive any kind of comfort and also cash contributions. All gifts should be addressed to the Canadian Red Cross Society, 77 King Street, East, Toronto, Canada.

**GLASS OF SALTS IF YOUR KIDNEYS HURT**

**Eat Less Meat if You Feel Back-achy or Have Bladder Trouble**

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels of the bladder are irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush out the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive, harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.

**ANSWER TO "4-13"**

**Fascinating Story Revealed at Gem Theatre in Picture Full of Thrills**

The programme at the Gem Theatre yesterday was a splendid variety production entitled "4-13"—one of the Broadway Star features which this company has been issuing. There was also a Selig comedy which aroused very hearty laughter, in addition to which the Gem orchestra had an enjoyable bill of musical novelties.

The story of "4-13" is fascinating. It is enacted in three reels by a clever cast headed by Julia Syvann, Gordon and Harry T. Morey, and deals with the career of a supposedly respectable business man who is leading a double life. To escape detection in a trying moment he jumps aboard a train moving sixty miles an hour, grapples with the driver, opens the throttle, and the car plunges over a fifty-foot embankment. Death reveals identity. What has this to do with "4-13"? See the answer at the Gem today.

There is no possibility of any firm continuing in business and selling. The quality of "SALADA" is brown money. You get "SALADA" Brown Label from your grocer at 85c. a pound. Blue Label at 45c., and Red Label at 55c. a pound, and these are from the choicest gardens in the Island of Ceylon. All "SALADA" Teas are clean pure and free from dust, which many other teas are loaded with to reduce their cost.

After much argument adjournment was made until Thursday at 2.30 p.m. when the city licenses will be granted and a decision reached in the protested case.

**BANK OF NOVA SCOTIA'S REPORT**

The eighty-third annual report of the Bank of Nova Scotia will be found on another page of this issue.

At the meeting of the general financial soundness of the report will show that this great financial institution has gone ahead in all departments. The dividends paid for the year just closed amount to over \$248,000 and the bank has been a large contributor to the several funds of a national character that have been organized for the benefit of the province.

Taken together the report is a true criterion of the general financial soundness of the country—something it does from one of the country's greatest financial institutions—and is well worth close reading by the public.

**RECENT DEATHS**

At the home of Edgar Day, of Day's Corner, Greenwich, Queens county, yesterday, Mrs. Mary Ann, widow of B. R. Cronk, died at the age of 72. She was a native of that place, and had many friends. Her husband died last spring, and ever since then Mrs. Cronk had been in poor health. The funeral will take place tomorrow and interment will be at Brown's Falls.

F. W. Harley, of Harlow, died suddenly in this city yesterday afternoon. Mr. Harley, who represented the Steel Furniture Manufacturing Company of Ontario, had been staying at the Park Hotel and was about to leave for Fredericton. Before taking the cab for the station he left the hotel but had gone only a few steps when he was taken ill. He called to a gentleman who was passing for assistance but before he could get back to the hotel, he collapsed on the sidewalk. He was carried to his room and Dr. A. F. Emery was summoned, but Mr. Harley succumbed in a few minutes, just after the arrival of the physician. Death was due to heart trouble. The body was taken to Brennan's undertaking rooms and was forwarded to Halifax today for interment.

Mr. Harley was a native of Halifax and was in business there for many years as a member of the firm of Mathieson and Harley. Afterward he located in New Glasgow as manager for a wholesale dry goods house and later traveled for the upper Canadian house. He removed with his family to Halifax a couple of years ago. Mr. Harley was fifty-seven years of age and is survived by his wife and one daughter, Mrs. Minnie Robb, wife of William T. Robb, formerly of St. John and now of Halifax. Mr. Harley's genial personality and his many estimable qualities won him the esteem and respect of all with whom he came in contact and he had many warm friends in St. John who heard of his sudden death with the most sincere regret.

**A BRONCHIAL COUGH, PERHAPS WEAK THROAT USE "CATARRHOZONE"—DEAD SURE CURE**

Wonderful Success reported in Thousands of Bad Cases  
How many thousands are there who would gladly pay any sum to be cured of bronchitis or catarrh. Many could be cured if they would just use common sense in selecting their remedy.  
Bronchitis of course is an inflammation of the bronchial tubes which were made for the passage of air alone, and neither the moisture of an atomizer nor the liquid of a cough syrup can get where the trouble really is. The diseased parts can only be reached by a remedy that can force its way through all the breathing organs. Doctors who have used "Catarrhozone" say it is the only rational cure for bronchitis. It cures by inhalation.  
You breathe in its healing balsams, inhale its soothing antiseptic vapor and relief is immediate.  
Simple to use, delightful and pleasant—nothing compares with Catarrhozone in the cure of the day for all bronchial and throat troubles.  
Mr. H. B. McLaughlin, the well known representative of Parks and Blackwell, Toronto, says: "I have used Catarrhozone for years and can honestly say it is the only remedy that relieves me from a painful attack of Catarrhozone. The inhaler for Catarrhozone is always in my pocket and I simply couldn't get along without it. I firmly believe Catarrhozone is a wonderful remedy."  
Large size sufficient for two months use, guaranteed, \$1.00; small size 50c; sample or trial size 25c. Sold by dealers everywhere.

THE WAR NEWS

If the Vienna statement is true that the Prussian losses in killed, wounded and prisoners, amounts to 877,107 men it gives some conception of the colossal character of this war.

Along the battle front in Belgium and France the relative positions of the opposing armies do not show any important change from day to day.

In the east, a Petrograd despatch says that the capture of an important railway station has opened the road to Hungary, and also that the Russian troops in Transylvania are rapidly moving westward.

It is worthy of note that at a meeting of representatives of the Socialists of neutral countries in Europe the action of Germany with regard to Belgium was strongly condemned, and a resolution adopted calling upon all Socialists to do all in their power to bring the war to a close.

Lord Bryce, in a letter to the president of Columbia University, declares that the people of Britain are determined to crush German militarism and deliver Europe from another armed peace.

THE CIVIC AWAKENING.

Every citizen who is interested in the welfare of St. John must be glad by the awakening of the civic spirit and will also entertain the hope that this is not a spasmodic movement.

COURTS AND POLICE

Both at last week's and this week's meeting of the board of trade to discuss civic affairs complaint was made concerning the administration of justice in the courts.

MUNICIPAL AFFAIRS.

It appears to be necessary for the taxpayers of the city to take a keener interest in the Municipal Council and its doings. The representatives of the city are able, if they are all of one mind, to guard the city's interests provided they are present.

St. John would be the gainer if there were an open forum, where matters relating to civic administration could be discussed from time to time by members of the city government and other well informed citizens.

With her imports showing a decline it is very fortunate for Canada that the great demand for her products enables her to show an increase in exports.

Professor Wrong of Toronto University expresses the view that it will not be possible to starve Germany, and that she can only be beaten by hard fighting.

The finance committee of the Municipal Council promptly fell in with the views expressed by the citizens at the board of trade yesterday, and proceeded to reduce its estimates by about \$86,000 to within \$9,500 of those of last year.

"What do you think they say about Mrs. Eaton, the banker's wife?"

"I am sure I don't know," said the husband. "Nothing serious, I hope."

"They say they can tell when she's going to have a caller by her washing the children's faces! Now, you're a pretty sanguine man, Harry, but what on earth can you hope for a woman like that?"

"Well," said Henry, "I suppose all we can hope for is that she entertains a great deal."

One of the stories told by Spencer Leigh Hughes in a speech in the House of Commons one night tickled everybody. It is the story of the small boy who was watching the speaker's procession as it wended its way through the lobby.

"That, my son," said the father, "is the chaplain of the house."

"Does he pray for the members?" asked the small boy.

The father thought a minute and then said: "No my son; when he goes into the house he looks around and sees the members sitting there and then he prays for the country."

FRENCH MEDICAL OFFICERS WHO WERE PRISONERS OF GERMAN TELL OF CONDITIONS

London, Jan. 19.—A despatch from Paris states: "A channel by which a certain amount of authentic German news comes from time to time into France has been open for some weeks in the regular system by which French medical officers who have been made prisoners are exchanged against similarly captured German doctors."

"One such doctor, writing in the Echo de Paris, declares that in one of the towns where he was in Germany, after he had been given liberty of movement, he found for himself that there was a considerable shortage of food, and that in the hotels, as in the houses, each man was put on rations controlled by the state, the quantity allotted to each being carefully weighed."

"In the Figeac a major who was taken prisoner with his ambulance in August has been interviewed as to his experiences in Germany. He had hardly reached Germany before he had been sent to a German military hospital, and there during July. On their passage through with a train of German wounded they passed through a station where the Red Cross distributed delicacies. An Alsatian woman offered the doctor and his wounded a few cigars, but was roughly told by a Prussian officer not to talk to these 'indignes Français'."

"While the journey lasted the major saw a good deal of the conditions of the German wounded, and on one occasion was asked to treat them. He insists that whatever faults the French medical service may have had that of the German is far worse, the German wounded being in a terrible condition."

"Among the French wounded that came through was an unfortunate man with both thighs broken. Nothing had been done to immobilize the bones, and the man was in agony. The major was refused permission to treat him, even to give him an injection of morphia. The day on which this happened was August 23, and suddenly there was loud cheering as a man in a motor-car brought in a despatch stating that the Germans were in Paris. The Germans at the station showed their satisfaction by a hostile demonstration before the French prisoners."

"When he arrived at his destination he was told that he would be held as a prisoner of war because the French were not respecting the Geneva Convention, were using dum-dum bullets, firing on ambulances and killing the wounded and putting out their eyes. About a fortnight later he was set free."

"In Germany," he concluded, "what struck me most was the absolute ignorance in which the Germans are as to what is happening."

A Great Blessing to be Freed of Indigestion

For Years He Suffered After Almost Every Meal—Attributes Complete Cure to Use of Dr. Chase's Kidney-Liver Pills.

The experience of many people who suffer from indigestion is like that of the writer of this letter. Stomach medicine may bring some relief, but chronic indigestion is almost invariably the result of derangement of the liver, kidneys and bowels, and cannot be actually cured until these organs are set right.

With the liver sluggish there is somnolence, and the food ferments in the bowels instead of being digested.

MR. BARRETT, stated. This is the source of pain and suffering, and the cause of such dreaded diseases as appendicitis, peritonitis and kidney disease. It is much better to be on the safe side and prevent such ailments by the timely use of Dr. Chase's Kidney-Liver Pills.

Mr. J. D. S. Barrett, Nelson, B.C. and formerly of Twillingate, Nfld., writes:—"For several years I was a great sufferer from indigestion. The least bit of food caused me considerable trouble, and often I could scarcely eat a meal a day. The only remedies I tried proved futile until I began the use of Dr. Chase's Kidney-Liver Pills, and after using about eight boxes I was completely cured."

"Since that time I have not been troubled with indigestion, which I consider a great blessing. I feel grateful for this cure, and shall gladly answer any inquiries from persons suffering as I did."

COUNTY ESTIMATES CUT \$36,050 IN COMMITTEE

Members of the county finance committee with the city commissioners present as members, yesterday further reduced the estimates for the year, making the total \$184,877, including the Belgian and patriotic funds already voted.

This is an increase of \$9,205 over last year, and the current expenditure has been considerably reduced to provide for the relief funds and the interest of \$7,000 tuberculosis hospital debentures.

The following were the items in which the chief reductions were made: Sheriff's under keepers \$ 500

Bay Shore police 200

Coroners' orders 200

Lunatics 200

Lunatic maintenance 1,500

Repairs to jail 1,000

Simonds police 850

Looking up, apparently as if he saw the Psalmist standing before him he said: "You said it in your haste, David. If you had been here, you might have said it after mature deliberation."

NEW YORK BEAUTY AND HEIRESS WON BY GRANDSON OF FAMOUS PORK PACKER

**Mrs. Philip Armour**

Young Philip Armour, the third of his name, the grandson of Phillip H. Armour, who founded the Armour packing industries, has become a family man as well as a business man.

Armour was married recently in New York to Miss Gwendolyn H. Conant, a beauty and an heiress. Armour has been working nine hours a day in the Armour packing-house since last October. The young people will make

## GRAPE SHADE OF VELVET LOVELY

FACING FOR YOUR LATE WINTER HAT

This sketch shows how velvet is put on inside the hat first, then turned over the brim. Next the lower part of brim left white in cut, is covered.

(Home Millinery Lesson by Clarissa Chesley)

A lovely grape shade of velvet or the putty color which is favorite of the season can be used to cover the hat which I am describing in this article. Black velvet also could be used for the facing.

Start the work of covering by placing the corner of the velvet directly at the front inside the crown. The inside of the brim is fitted and then the velvet cut, leaving at least a half-inch margin to go over the edge.

After milliner's glue has been applied to the velvet and it is smoothed out on the brim, the edge of velvet is carefully turned over and whipped down.

The velvet is next fitted and pasted down on the outside of the brim to within an inch of the edge after allowing another half inch for the turn-over.

A wire is inserted at the edge and the velvet turned over that. The edges of the inside and the outside are then brought together and sewed through and through with long stitches which slant across invisibly between the edge and short ones through the velvet on the outside. The velvet is slashed on the inside like the frame material and sewed down to the crown wires.

The crown which is a soft tam shape, is made of a circle of velvet, measuring 14 inches front to back and 18 inches across. This is turned under and gathered over a wire. It is then fastened to the brim.

The seam on the brim must be made on the low side of the hat. The velvet is turned under on each side where it meets for the seam. The edges are then brought together so that they just meet, and are slightly stitched together.

The trimmings must be made and put on next and after that the lining made and sewed in.

## Tonsils May Team With Disease!

Should They Be Removed?

They Are Declared Seldom Equal To The Task Assigned To Them—Usually Might Go

No person should lose his tonsils without reason.

Now, unfortunately a reason often exists. The truth is the tonsils are seldom fully equal to the task which has been assigned them.

As barriers against disease they generally prove incompetent and go down with the first onslaught of the enemy. We need no further evidence of this than the examinations of the removed organ by pathologists.

They are found teeming with bacteria and riddled with disease. The lymphocytes which are the particular cells of these lymphatic structures which endeavor to put up a fight against the invading army, are overwhelmed by hosts of little foes and then all is lost.

The tonsils instead of being a bulwark of defence are just the reverse. The bacteria swarm in the crypts, convert healthy structures into disease and favor the formation of pus pockets. These pockets are cesspools of destruction, and recent investigations are proving more and more that herein lies a prolific source of many of the ills of which flesh is heir.

Toxins of all kinds produced by the various and more or less virulent bacteria, are constantly being absorbed into the system and infections of different kinds are the result.

Rheumatism and allied rheumatic disorders are now recognized as being of infectious character, chiefly due to toxins manufactured in the tonsils.

Inflammation of the membranes of the heart are affections which have been definitely traced to the same origin. According to some authors even kidney inflammation can be due to toxins manufactured in a diseased tonsil.

However important might be the function of the tonsil when healthy who would wish to keep an organ when it has become so diseased that it is not only incapable of its natural function, but on the contrary has become a Pandora's box of infection of diseases?

What we said of the faucial tonsils applies, though with modifications, to the others.

The enlargement of the third tonsil constituting the so-called adenoids is attended with certain special evils, due to its location.

Situated as it is in the post-nasal space it cannot take on any considerable size without encroaching upon the Eustachian tubes whose pharyngeal orifices are to be found upon the two sides.

The tubes are the ventilating shafts which pass from the throat to the ears.

Any obstruction of this channel is a serious menace to the hearing functions. If the obstruction persists permanent deafness is to be feared. It is in children especially that these adenoids occur, and

## Ends Dry, Hoarse or Painful Coughs Quickly

A Simple, Home-Made Remedy, Inexpensive but Unquestioned.

The prompt and positive results given by this pleasant-tasting home-made cough syrup has caused it to be used in more homes than any other remedy. It gives almost instant relief and will finally overcome the average cough in 24 hours.

Get 2 1/2 ounces Pinex (50 cents worth) from any drug store, pour it into a 16-ounce bottle and fill the bottle with plain granulated sugar syrup. This makes 16 ounces—a family supply—of the most effective cough remedy at a cost of only 54 cents or less. You couldn't buy as much ready-made cough medicine for \$2.50. Easily prepared and never spoils. Full directions with Pinex.

The promptness, certainty and ease with which this Pinex Syrup overcomes a bad cough, croup or throat cold is truly remarkable. It quickly loosens a dry, hoarse or tight cough and heals and soothes a painful cough in a hurry. With a persistent, loose cough it stops the formation of phlegm in the throat and bronchial tubes, thus ending the annoying hacking.

Pinex is a highly concentrated compound of genuine Norway pine extract, rich in ginseng, and is famous the world over for its splendid effect in bronchitis, whooping cough, bronchial asthma and winter coughs.

To avoid disappointment in making this, ask your druggist for "2 1/2 ounces Pinex," and don't accept anything else. A guarantee of absolute satisfaction, or money promptly refunded, goes with this preparation. The Pinex Co., Toronto.

**INCREASED PAY.**

The Imperial Merchant Service Guild having made certain submissions on the matter to the Admiralty are now informed by the Lords Commissioners of the Admiralty that it has been decided to increase the pay of lieutenant commanders, Royal Naval Reserve, from ten to thirteen shillings a day, i. e., the minimum rate of full pay of a lieutenant commander R. N. This will be applicable only to officers of the permanent Royal Naval Reserve force, who have been granted the rank of lieutenant commander on attaining eight years seniority as lieutenant. The increase will take effect as from August 1 last.

MRS. HOUSEWIFE; HOW YOU CAN MAKE A SACK OF FLOUR LAST LONGEST!

The above diagram is theoretical, based on Prof. Lillian Kemp's Liberal estimate of \$3.03 as the cost of a 1-pound home-made loaf of bread, and on price to six cents if the price of flour is advanced 10 per cent. The standard 14-ounce loaf is bound to advance in price, but the difference in cost between the two big loaves of different weight represented in the picture.

By PROF. LILLIAN KEMP, Institutional Manager of the Chicago School of Domestic Art and Science. The American housewife is confronted today with a new problem in the high cost of living. Bread, the one universal food, the oldest food, the staple whose price has advanced skyward, is now also going up. With the price of flour rising at its present rate, every housekeeper is vitally interested in economizing in flour more than ever before—in making her sack of flour last longer. In this article I shall try to show how to use the right kind of flour for the right thing, how to store your flour, etc.—these being the items of greatest importance in making your sack of flour last longer.

To begin with, I believe that home-made bread, everything considered, is the cheapest of all foods. If baker's bread rises in price, it would pay more American housewives to make their bread at home. Here are some startling figures which serve to show just how much you will save—especially if baker's bread advances in price to 6 cents by making your bread at home. Suppose one 40-pound sack of flour yields 80 loaves of home-made bread—a conservative estimate. I consider that each loaf of home-made bread is unquestionably the equivalent of an 8-cent loaf of baker's bread. Then for your sack you would have had a value of \$4 reckoned in baker's loaves, and for your four sacks, equaling one barrel, a value of \$16. But the price of the best flour is now about \$7 a barrel. In other words by making your bread at home you not only furnish, better article, and more palatable, but to all intents and purposes you actually save 81 per cent. Now you can't get along without bread. It is one of the best and most necessary of foods. One slice of bread, unbuttered, supplies about 100 units of fuel value (calories).

THIN FOLKS WHO WOULD BE FAT

Increase in Weight Ten Pounds or More. A Physician's Advice. "I'd certainly give most anything to be able to eat up a few pounds and stay that way," declares every excessively thin man or woman. Such a result is not impossible, despite past failures. Thin people are victims of mal-nutrition, a condition which prevents the fatty elements of the blood from being taken up by the blood as they are when the powers of nutrition are normal. Instead of getting into the blood, all the fat and starch reported special diets being taken up by the blood as they are when the powers of nutrition are normal. Johnny Kling, Now Famous Billiardist, Tells Fans How To Play Three-Cushion Game

(By John Kling, former star catcher of the Cubs, now leading race for three-cushion billiard championship.)

The three-cushion game is the most popular form of billiards. Its popularity is much like that of golf and is due to the fact that anyone can play it and enjoy the contest, yet to play it well brings out the best the billiardist has in stock. To the average player of billiards...

It's hard to beat anyone of this quartette at three-cushion billiards. Above, Johnny Kling of Kansas City. Below, from left to right, Jess Leon, Chicago; Wausonne, Philadelphia and August Kieckhefer, Milwaukee, three of the men standing in the way of Kling's acquisition of the championship.

Three cushions offers the most action and a fair chance of victory even over his superior. There is some difference in the stroke, the strength, of something that makes the ball perform differently. A steady clear eye and constant practice and study of the actions of the balls will bring improvement. The natural billiardist "feels" the angle through his cue; knows by sense of feeling how the balls will act. After each shot study that you did and figure why the balls performed in that manner.

There is one thing in three-cushion billiards that I have observed this winter. That is, I want to impress upon everyone who wants to be a good billiard player the necessity of good physical condition. I think much of my success is due to being physically fit all the time and able to endure hard matches without tiring.

FATHER AND SON

The Parable of the Prodigal Father and the Change That Came Too Late

In connection with the father and son banquet at the Y. M. C. A. and the general relation between fathers and sons, the following Parable of the Prodigal Father, written by a New York, Y. M. C. A. worker is of interest:— "A certain man had two sons and the younger of them said to his father, 'Father give me the portion of thy inheritance and he divided unto them his living. In that he paid the boy's bills and sent him to a select preparatory school and to dancing school and to college and tried to believe that he was doing his full duty to the boy.

"And not many days after the father gathered all his effects and aspirations and ambitions and took his journey into a far country into a land of stocks and bonds and securities and other things which do not interest a boy and there he wasted his precious opportunity of being a chum to his own son. And when he had spent the very best of his life and had gained money but had failed to find satisfaction there arose a mighty famine in his heart and he began to be in want of sympathy and real companionship and he went and joined himself to one of the clubs of that country, and he elected him chairman of the house committee and president of the club and sent him to parliament and he would fain have satisfied himself with the husks that other men did eat and no man gave unto him any real friendship.

"But when he came to himself he said: 'How many names of my acquaintance have boys whom they understand and who understand them, who talk about their boys and associate with their boys and seem perfectly happy in the comradeship of their sons, and I perish here with heart-lunger, I will arise and go to my son, and I will say unto him, Son I have sinned against Heaven and in thy sight, I am no more worthy to be called thy father. Make me as one of thy acquaintances.' And he arose and came to his son.

"But while he was yet afar off his son saw him and was moved with astonishment and, instead of running and falling on his neck, he drew back and was ill at ease.

"And the father said unto him: 'Son, I have sinned against Heaven and in thy sight, I am no more worthy to be called thy father. Forgive me now and let me be your friend.' But the son said: 'Not so, I wish it were possible but it is too late. There was a time when I wanted companionship and counsel and to know things but you were too busy. I got companionship and I got the information but I got the wrong kind and now alas, I am wrecked in soul and in body. There is no more heart left in me and there is nothing you can do for me. It is too late, too late, too late.'"

INCOME TAX IN AMHERST They have an income tax in Amherst. According to the list submitted by the assessors one citizen is taxed on an income of \$10,000; six on \$5,000; five on \$3,000, twenty-two on \$2,000, eighteen on \$1,500, forty-eight on \$1,000 and eighty-one on \$500. The News observes that the list will probably be open to some criticisms and some appeals, but that for the first time in the history of the town the assessors have made an honest effort to put the income tax, which has been a joke for twenty years, upon an equitable basis.

More than \$5,000 arrearages in taxes was paid last week which may be due to the fact that the civic elections will take place on February 2 and a lively contest is expected. Referring to the candidates The News quaintly observes: "They are all worthy citizens and all good men and all that we can do is to say, God bless them and let them go to it."

The insulated wire department of John A. Roebling's Sons Company was destroyed by fire last night in Trenton, N. J. The loss is estimated at about \$1,000,000.

Do you Believe

in going straight to the weak spot in treating disease? If so, you will never use anything but Peps for coughs, colds, bronchitis, and throat and lung troubles. Listen why! Peps are tiny tablets, which contain rich medicinal ingredients, so prepared that they turn into vapour in the mouth, and are breathed down to the throat, the breathing tubes and lungs direct.

Cough mixtures go—not to the lungs and chest at all, but to the stomach. There is absolutely no direct connection between stomach and lungs. When you have a bad cold, your digestion is weakened. You lose appetite and if a mass of your usual meals does not "taste good." In other words, your digestive system is leaking tons. Still cough mixtures make that condition worse.

Don't ruin your stomach to heal your lungs. Take a remedy that goes right to the spot—Peps. Surprising how they end coughs, catarrhs, bronchitis, sore throats, "sleepy man's throat," asthma, and all lung troubles. Contain no poison, and are best for children.

Dr. Gordon Stables says:—If you wish to ease and end a cough, if you desire to loosen sticking phlegm, clear the throat and the breathing tubes, use Peps. The pipe lungs and bronchitis, which are liberating when a Peps is put into the mouth, also serves another good purpose. They destroy any germs, and germs of disease in the mouth, of very attractive color shade, talored in Regent street style, prices label, \$25; sale price, \$19.50.

ST. JOHN CLEAR AT GAGETOWN

Ice Bridge Holds at Reach and Brown's Flat—Continued Rain and Last Night's Strong Wind Caused Weakening

A mid-winter excursion up the river is now a possibility, although the ice in the Reach was still solid this morning. At Gagetown, however, the channel was clear of ice and crossing had to be abandoned.

The total rainfall reported at noon by D. L. Hutchinson at the local weather bureau was 2.47 inches, mostly since three o'clock yesterday afternoon.

Mr. Hutchinson reports the rainfall generally heavy throughout the maritime provinces and New England. In Ontario and the west there has been, instead, a heavy snowfall.

CUTTING OF THE FERRY FIGURES

Commissioner Russell Speaks of Use of Pruning Knife There and in Other Departments

Asked this morning as to how he proposed to effect the reduction of expenditures in his ferry estimates for 1915 as he proposed at the Board of Trade meeting yesterday, Commissioner Russell said it simply meant doing without certain repairs and improvements of the \$10,000 voted, the sum of \$8,500 was to provide for last year's overruns and the proposed reduction would thus leave only \$1,500 to meet the ferry deficit.
