REPORT.

IN presenting the Fifteenth Annual Report of the Association for Improving the Condition of the Poor, the Board of Directors thankfully acknowledge the donations made to the funds under their control.

The claims of the Poor have been considered and a measure of relief has been granted, through the hearty and willing response of the Contributors, whose charity is recorded in the list of funds received by the Treasurer.

CONTRIBUTIONS

have been received amounting to the sum of \$1635.72. This also includes Mrs. Wilson's legacy and the interest on Mr. A. K. Doull's bequest.

THE TREASURER'S STATEMENT

is made up to 1st Nov. 1881, and shows a balance due the Union Bank of \$2032.84, to meet which there is an account due by the City for broken stone of \$2812.64. The difference of these two items \$779.80 represents what remains of \$900 received in Bequests. The subscriptions for the year not being sufficient to meet the expenditure.

THE STONE SHED.

The Directors in a former report have called attention to the fact that the broken stone is sold at a loss of three quarters of a cent on each bushel. The city is well able to pay for it at what it costs. There is a saving from a mere money point of view, to the City in having men honestly employed earning their daily food. The work, though humble, prevents the labor-

ers from becoming pauperized. It keeps them out of temptation. It helps to make them sober and industrious.

The Chairman's Statement is appended and shows details. It is the best branch of the Association's work.

INSPECTOR.

Mr. Alexander McDougall visited a large number of those getting relief and was of much assistance in preventing fraud.

THE SOUP KITCHEN

was removed to 96 Creighton Street, under the charge of Mr. Charles Newington, and a branch office for the sale of it was opened by Mrs. Bonyman at 171 Albermarle Street. Although the Soup was made with care, and was of good quality, there was not that demand for it which the Directors expected. This fact shows that there could not have been very pressing want among the class of persons relieved.

COMPARATIVE STATEMENT OF RELIEF.

In 1880 the amount of funds disbursed was \$1646.25. In 1881 there was distributed by grant, and by the surplus of cost of stone shed over earnings, together, the sum of \$1743.71.

APPEAL.

The Directors confidently appeal to the sympathies of their former patrons to furnish them with the funds necessary to the proper carrying out of the work of relief, both by opening the Stone Shed and by supplying the destitute with Coal and other absolute necessities of life, in accordance with the rules of the Association. There are no running expenses to waste the funds and the strictest economy is practiced in their disbursement. The Treasurer, Mr. W. S. Stirling, will continue to receive at the Union Bank all sums sent to him, and acknowledgment will be made in the daily press as usual. The thanks of the Directors are due to the many

friends by whose kindness toward the poor they are put in possession of funds to carry on their benevolent operations. It would assist the work if subscribers would direct the attention of their friends to this Association and speak a word in favor of making a contribution to its funds. Every year removes some honored name from the list of subscribers and fresh donors are required to swell the ranks. In a city the size of Halifax there should be many more both able and willing to lend a helping hand to so good a work. The piercing cold of winter searches into the dwellings of the poor, who are ill provided with clothes to resist its attack. The little children with insufficient nourishment to sustain them, suffer the greatest misery during the season. It is to relieve the most pressing want under such circumstances that the funds are applied.

Our thanks are due to the Press for kindly inserting notices relating to the work, without charge.

JOHN DOULL, *President.*

STONE SHED REPORT FOR 1881.

I regret I have to again record a financial loss on the part of the Stone Shed for the past year, owing to the causes pointed out in the Report of 1880, and which can only be avoided either by reducing the price paid the men employed for their labor,—a proceeding very undesirable, and not in accord with the spirit of our Association,—or else by persuading the Civic Authorities to increase the price paid for broken stone from 4 to 4½ cents per bushel. This latter course would again place the Stone Shed in a position to be nearly self-supporting. However, I do not by any means regard even the large deficiency shown in the past year's

work as all lost, as at present we have no fitter means of helping industrious men, to help themselves, and the men, as a rule, are very grateful for this work given to them when they can find no other work to do. Appended will be found the usual Tabular Statement.

Record for week ending.		Number of men employed.	Bushels of stone broken.	Wages paid for breaking stone.	Amount paid for stone.	Overseers, tools repairs, &c.	Total weekly payments.

*ABSTRACT OF THE FUNDAMENTAL RULES BY WHICH THE
ASSOCIATION IS TO BE GOVERNED.*

1. To consider each applicant for relief as entitled to charity until a careful examination proves the contrary.
2. To give relief only after a personal investigation of each case, by visitation and enquiry.
3. To relieve no one except through the visitor of the section in which the applicant lives.
4. To give the necessary articles, and only what is immediately necessary.
5. To give what is least susceptible of abuse.
6. To give only in small quantities, and in proportion only to immediate need ; and of coarser quality than might be procured by labor, except in cases of sickness.
7. To give assistance at the right moment ; not to prolong it beyond the duration of the necessity which calls for it ; but to extend, restrict and modify relief according to that necessity.
8. To require of each beneficiary abstinence from intoxicating liquors as a drink ; of such as have young children of a proper age that they be kept at school, unless prevented by unavoidable circumstances ; and that those of suitable years be apprenticed to some trade, or sent to service. The design being to make the poor parties to their own improvement and elevation ; the wilful violation or disregard of these rules shall debar them from further relief.
9. To give no aid to persons who, from infirmity, imbecility, old age, or any other cause, are likely to continue unable to earn their own support, and consequently to be permanently dependent, except in extreme cases, for two or three days, or until they can be referred to the Commissioners of the Poor, or to the churches to which they belong.

10. To depend on and whose their good

In all ca they will be application to render a of their dis stated mon will be allow

Most of once to app may appear

In the gt ed as prop tinue to be soon be ex primary obj dition of the a public cha tal relief.

The 10th ized in spiri or so debase them to sel and indolen

The com sent to the have procur reason of applicants, relieved ; an

10. To discontinue relief to all who manifest a purpose to depend on alms, rather than on their own exertions for support, and whose further maintenance would be incompatible with their good and the objects of the Institution.

In all cases of want coming to the notice of the visitors, they will be expected to perform the same duties, although no application has been made. It shall be their duty moreover, to render a written report of their labors, and also an account of their disbursements, to their respective Committees, at the stated monthly meeting. No visitors neglecting these duties will be allowed to draw on the funds of the Association.

Most of the Rules will doubtless, commend themselves at once to approval. As it respects others, the propriety of which may appear less obvious, the following explanations are offered :

In the 9th Rule, the permanently dependent are not regarded as proper subjects for relief, because, if they should continue to be relieved, the entire funds of the Association would soon be exhausted in the support of a permanent list ; and its primary objects—the elevation of the moral and physical condition of the poor—be defeated. Such persons should become a public charge, which is far preferable to reliance on incidental relief.

The 10th Rule refers to those who have become so pauperized in spirit by long-continued vagrancy or gratuitous relief, or so debased by other causes, that there is no hope of inciting them to self-support and to aid whom would encourage sin and indolence, and foster a great social evil.

The complaints of unrelieved applicants who have been sent to the Association should not be listened to, until they have procured a card from the visitor, *for a card assigning the reason of refusal should always be given to the unrelieved applicants*, which if produced will show why he was not relieved ; and, if unproduced, a proof that he has been attended

to. In either case, the member will thus be made acquainted with the action of the visitor, and the reason for it.

Two or three important results involved in the observance of the foregoing rules deserve notice. First, by refusing aid to the persons described, none are necessarily left to suffer. Even those who constantly persist in their vicious courses, and cannot be relieved without injury to them and the community, still have a recourse in the legal relief provided by the Commissioners of the Poor; so that all are cared for. Second, the Association does not supercede existing charities but so far as is practical, makes them available for those for whom they are designed. Third, that it is governed by such humane and economical considerations as have most important moral and social bearings on the individuals concerned, and the public.

☞ Visitors, in complying with the foregoing rules, should carefully direct their attention to such particulars bearing on the different classes indicated therein, as will qualify them for an intelligent and judicious discharge of their highly important and responsible duties.

☞ The attention of members is also called to the said Rules, and the co-operation with the visitors most earnestly solicited, for, without it, the great and difficult work in which the Association is engaged cannot be effectually accomplished.

☞ It will be noted that relief is granted without distinction of class or creed.
