CLARA PHILLIPS SWINGING ON ROPE ESCAPES FROM JAIL

Hammer Murderess, With Outside Aid, Makes Daring Dash for Liberty in Los Angeles.

Los Angeles, Dec. 8.—One of the boldest and most sensational jail breaks ever recorded here was that made by Mrs. Clara Phillips from the county jail, where she was imprisoned under sentence of from ten years to life after her recent conviction for murdering Alberta Meadows with a hammer. The authorities suspect Mrs. Phillips planned to wreak vengeance against Peggy Caffee, her companion at the time of the murder, and whose testimony prac-

tically convicted her, for after the prisoner's escape peculiar tire imprints found near the jail were found also in front of the Caffee home in Long Beach.

Deputies are guarding every known loophole of escape, speedy motor boats are scouting off shore between Long Beach and the Mexican line and an airplane is hovering over the Mexican border and the authorities expect soon to hear of the fugitive's capture.

The escape, apparently, was planned and prepared a long time in advance. Mrs. Phillips retired early, and complained of not feeling well. When the matron called her next morning she did not answer, and soon afterward the fact of her escape was known. Aided by confederates who worked rapidly but quietly within twenty-five feet of the room where the jail matron sat reading, the prisoner was enabled to wriggle through a small opening made

CHEAP GLASSES ARE NOT CHEAP

What makes a pair of glasses valuable is the BRAINS used in furnishing them. Those who know how, place a value on their services. Knowledge is worth money. Our prices are as low as is consistent with best quality and satisfactory individual attention.

HOW TO PLEASE MOTHER OR FATHER

A pair of perfect fitting glasses gives more comfort to those who wear them than anything under the sun. We can easily explain how this can be accomplished and be a perfect surprise for Xmas.

other parts of the jail, down through a trapdoor and out to where liberty and an automobile awaited her.

Investigation indicated that at least three persons had aided the woman. Her quarters were on the third floor of the old jail building and she occupied a tank cell overlooking the roof of an auxiliary structure, a story lower. Footprints and other marks on this roof led to the belief that at least two persons had aided her on the roof, and that one or two more swarmed them in the automobile at the street level.

The jail stands in the main business section of the city. It is within a block of the Federal Building, where postal activities are continuous. Street cars pass along one side and even in the quiet hours of the night vehicular traffic is heavy. There are always jailers and matrons on duty and a glare of street lamps surrounds it.

TEACHING BOYS TO COOK CALLED AID TO HEALTH

Problem Argued at Meeting of Women's Freedom League in London.

London, Nov. 21.—(By Mail).—"Should boys be trained in housecraft and cooking?" was the question debated at a meeting of the Women's Freedom League. Dr. Elizabeth Sloan Chesser argued that the teaching of housewifery and cooking to men and boys would help to solve many social problems and improve the health of

the community reports "The London Daily Telegraph." Housekeeping, she said, was much more arduous work than journalism, public speaking or medical practice and, therefore, men were more fitted for it than women.

Men excelled in executive work, and if they could create better music, painting and poetry than women they could also create better savories and soups.

A. Clephan Palmer said women were becoming more masculine and to hold their own men must become still more masculine. They did not do that by cooking chops or dusting ornaments. Moreover, it was unnecessary, as the modern idea was to be as homeless as possible. "Two rooms and a car was the American ideal. He advised men to follow the precedent of King Alfred and let the cakes burn.

SPEDDERS TO FARE HARD

Indianapolis, Dec. 8.—In an effort to curb speeding in Indianapolis, Mayor Samuel Lewis Shank had police officers line up six of eight persons arrested for speeding before John Mitchell, whose wife and a girl companion were killed by an automobile, which witnesses said was speeding. Mitchell told of the accident.

Mayor Shank warned speeders that hereafter they would be taken to the city prison in a patrol wagon and held under high bond. Soon after this warning the two women were killed by the same automobile.

In a statement to members of the motorcycle department of the city police, the Mayor said: "Treat 'em all alike."

FOOD SITUATION IN GERMANY SERIOUS

Hamburg, Dec. 8.—Dr. Siegfried Heckscher, former Radical member of the Reichstag, and who in 1920, was mentioned as a possibility for the ambassadorship to the United States, writing in the Hamburgischer Correspondent, declares the food shortage in Germany is becoming grave. Dr. Heckscher suggests the possibility of enlisting the aid of the United States. He cites the relief given the Belgians, Chinese and Russians, and pays tribute to the organizing genius of Herbert Hoover and the sympathy and humanity of the American people. Dr. Heckscher declares that millions of Germans nightly go to bed hungry, and that scurvy and tuberculosis are increasing.

WHITE ELK IS TO SAIL FROM PORTLAND, ME.

DOWN ON THE FARMERS.

(Kingston Whig)

Toronto Globe says we do not want any men in this country who hide their faces. Looks like a wallop at farmers and others who grow whiskers.

It was announced at a meeting yesterday of the board of governors of the Home for Incurables that a generous donation had been received from Miss Mabel Barbour. J. S. Gregory was in the chair and the report of the secretary-treasurer, F. M. Mansell, was very gratifying. Great satisfaction was expressed over the work of the superintendent, Mrs. Meyer, for her efficient management and care of the sufferers.

THE EVENING TIMES AND STAR, ST. JOHN, N. B., FRIDAY, DECEMBER 8, 1922

The Evening Times and Star

ST. JOHN, N. B., DECEMBER 8, 1922

The St. John Evening Times is printed at 27 and 29 Canterbury Street, every evening (Sunday excepted) by The St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act.

THE DOOR IS CLOSED.

The City Council has established a degree of patience in dealing with the New Brunswick Power Company which is now very properly terminated. The time for negotiations ended with the ten days limit and the refusal of the company to accept the city's offer. The city has no other offer to make. Mr. Booth and his friends believe that by continued clamor they can wear down the Council and have their way in the end? The Council heard them yesterday but even courtesy may sometimes cease to be a virtue. Some of these gentlemen can be made to understand that the door to negotiations is closed and will be closed by themselves. The Council and the public will be relieved of what has become an annoyance. The New Brunswick Power Company has chosen its bid. Let it haul up the blankets and give us peace. The city has an important work on hand and is proceeding to carry it out. It does not need the assistance or will not beajoined or coerced. Mayor Fisher very properly says there is no reason for further argument. All possible arguments have been presented over and over again and the people of St. John have decided upon the course they shall pursue. That ends the matter so far as the New Brunswick Power Company's appeals are concerned. There is to be an end of monopoly and the beginning of a new era for St. John; and it is to be ushered in by giving value to watered stock at the expense of the people.

THE POWER COMMISSION.

The way is now clear to get cheap light and power for St. John. A Power Commission appointed, the winter season is not the best for construction purposes, but the sub-station can be built and a lot of work done in readiness for a quick extension of the distribution system both before and after the first of May. The gain to be made by getting the cheap current distributed as quickly as possible will justify the Power Commission in speeding up its work throughout the winter and early spring. The finances can be arranged without difficulty, and with expert advice from one who has experienced in hydro-electric installations everything will go smoothly. The Commission is very fortunate in one respect, and it is that the New Brunswick Electric Power Commission, which has the deepest interest in the success of the whole hydro project, has an admirably organized engineering department whose counsel will be of the highest value in the way of rapid action. The City Council is sympathetic, the citizens want hydro, and the Power Commission has a clear field. The city is to be congratulated on the work accomplished in the short period since Mayor Fisher was elected. It is a record that creates confidence and gives the people a feeling that the gain to be achieved is within reach. The delay was long and vexatious, but the corner has been definitely turned and the obstacles to real progress removed. The Power Commission has the opportunity to render the city a service of incalculable value.

NEW YORK IS HARD HIT.

Mayor Hylan of New York said last week that the city had only four days' rations of anthracite coal in the yards. It is well for coal users in St. John to bear in mind that the use of substitutes here as far as possible is of the utmost importance. Of the situation in New York the Evening Post says:

"The finger was writing on the wall all summer, and only the public and people with tickets for Florida can disregard it. Every year we burn 90,000,000 tons of hard coal. The strike, which endured from April 1 to September 11, left us on the latter date with only 22,000,000 tons mined since the beginning of the year, whereas we should have mined and distributed 60,000,000 tons. That is, the shortage was practically half of the year's supply. It is impossible to make up such a deficiency because production cannot be pushed above 9,000,000 tons a month and because the aftermath of the shopmen's strike has made it difficult to ship all that was mined. The first week in December finds New York without yard accumulations for the future, her consumers with only a few days' or weeks' supply in the bins, and even the rich in some metropolitan districts had to get a few bags in their linousities. It was abundantly shown when the coal strike ended that New York could not expect, unless weather and mine production were unusual, to get more than one-half its normal supply of coal for the winter. Under the new law the ice cannot legally come in contact with any fluid that is to be drunk."

BANS ICE IN ALL DRINKS.

Health Motives Actuate New Law in Maine. Augusta, Maine, Dec. 8.—Maine was in front among all the states of the Union in its prohibition law, and continues to set the pace in matters having to do with drinks. Beginning this week ice cannot be legally served in—or for any drinks in the hotels or public eating places of the state—not even for water. Under the new law the ice cannot legally come in contact with any fluid that is to be drunk. The keynote of this law is health. Officials point out that there is danger of the existence of harmful bacteria in ice, and that while some of it is all right, a great portion of it comes from rivers and streams that are subject to pollution. The sub-stations for Moncton and Sussex are now being constructed. Engineer Krebs of the N. B. Hydro Commission, said yesterday. Moncton will be receiving hydro by December 15.

THE LUMBER JACK.

(By Agnes Joyana.)

Ho! Who, let me ask, is the real lumber jack? Is it he who sits pasty-faced, nervous and worn, in a tight, stuffy office, weighed down with cares? That the lumbering brings him; at work to the forest, and at home in confusion of cities? Or is it he who, in the great, restful calm of the forest's expanse? My axe keeping time to the pulsing, the throbbing, Of the still, mystic music to which the earth thrums. It is he who exists where the smoke and the smell, Of a scammed, seething city replaces the clean air? Or is it he who breathes daily the breath of the pines? Where the Soul-kins of God the winds bring to my soul, Which expands in contact and bursts its confines, And may never return to such limits again.

WHERE WE FALL DOWN.

It is well, in view of the failure of St. John to take advantage of the federal and provincial aid offered to provide itself with a vocational school to remind ourselves of what is being done elsewhere. If this part of Canada is to be in a position to enter into competition with other countries it must have trained workers, and it is not producing them. Of what is being done in France to get trained workers a recent issue of the Montreal Star says: "France has once again given the world a lead in an important sociological problem by passing legislation providing funds and official machinery to aid young persons in the choice of their occupation. The positive value of vocational guidance has been thereby officially recognized and the Secretary of State for Technical Education is to control the 'operations which come before the selection of a trade or profession or calling, the object of which is to reveal the physical, moral and intellectual aptitudes of the young.' The legislation goes even farther than this, for it stipulates that the employment offices must ascertain in the case of young people under the age of eighteen if they possess a 'certificate of professional aptitude' and all such applicants must have attended compulsory vocational courses for three years. Vocational guidance officers are to be attached to various organizations and corporations. France has taken a bold step in this pioneer work, and one which should repay her in interest one hundredfold. Valuable information comes from the reports of a committee of the American Society of Mechanical Engineers, shows that industrial education in the United States has increased to a remarkable extent. We quote: "More than 100,000 persons are studying the trade extension courses in New York alone and 924,000 are studying in federally aided vocational schools, supported by appropriations of over \$18,000,000; and more than 4,000,000 students in the United States have completed correspondence courses." A great deal of money goes out of this city and province for correspondence courses because no vocational schools are available. The city should act in this matter before the period of federal and provincial aid expires.

PEOPLE TO FINANCIERS.

(London Westminster Gazette.) "Woodbine Willie" (Rev. G. A. Studer-Kennedy, rector of St. Edmund, Lombard street), delivered a striking address in the Royal Exchange yesterday. The country is one of the most remarkable in the history of that historic building. More than a thousand years ago, it was a well-known figure in the banking and insurance world—attended during the lunch hour a special service "in preparation for the two-minute silence on Armistice Day." Clerks and typists gave up their lunch hour to attend the service. The Mayor and Sheriff attended in state, and their brilliant robes added impressiveness to the occasion. A check drawn from the banks and insurance offices led the singing, in which stockbrokers and typists joined with equal fervor. Wearing on his surprise the Military Cross, and speaking with impassioned eloquence, "Woodbine Willie" appealed to his hearers, as being men who had power for peace or war, to "concentrate the great system" of the money market to the cause of peace. "Peace at any price" was his declared, "but so great a wealth at any price. You can say no dearer in human blood and lives for wealth." Was it not true to say, he asked, that the greatest power in the world was money? Was it likely that the money market was altogether free from thoroughly paid blackmailers? He made no general charge, but appealed to them to cast out those men who helped to cause wars. Speaking of Armistice Day, he said it had become a great tradition. It was bound to affect the life of the whole world and the lives of those yet unborn. The problem was how that tradition could bring, not victory on some future battlefield, but the inestimable and necessary blessing of peace. If civilization could not destroy war, it would destroy civilization. The men who died, he declared, were victims, as Christ was a victim, and Armistice Day was a day edited by a great sacrifice, as Good Friday was.

LIGHTER VEIN.

Present Punishment. A colored parrot, coming upon a group of his parishioners playing African golf, reproached them and demanded, "Don't yo' all know it's wrong to shoot craps?" "Yes, jailson," admitted one cultist, "an' believe me ah's payin' fo' mistakes."—Boston Transcript. Fully Qualified. Mistress—Above all things you must be frank. New Cook—What's that? Mistress—Why, to let people know just what you really think. New Cook—Sure, mom, that is how I lose all me jobs.

MORNING NEWS OVER THE WIRES

Henri Duval, alias Causabon, the man who made a confession saying that he witnessed the murder of Blanche Gernau, more than two years ago, before the police and a magistrate, yesterday morning denied everything he had said in the confession. He was on the stand before the royal commission investigating the case all day. The whole statement, he said, was a pack of lies made because he was afraid of the detectives and was drunk. He said he was in the Quebec Citadel military prison on the night of the murder. The question of whether a barn may be regarded as a private residence under the meaning of the New Brunswick Prohibition Act is the point on which an appeal to the Supreme Court was made in Fredericton yesterday in the case of the King vs. John King. The accused was acquitted by Magistrate Limerick and the Crown appealed the case. Davy Dickson, business manager of the Amalgamated Society of Carpenters and Joiners, a Canadian organization, said yesterday in Toronto that his society would refuse to be dictated to by the United Brotherhood of Carpenters and Joiners of America. He said the trouble with the United Brotherhood was the refusal of this body to issue charters to new branches of the Canadian organization. The petition for the mortgage as made by Richard E. Holt, vice-president of the Salvation Army, who set forth that the market value of the realty of the army in the United States was \$15,225,000, that of personality \$9,070,000 and the total debts and liabilities, \$6,208,303. Of this, \$3,923,573 is secured by mortgages on properties in various parts of the union.

THRILLING RESCUE OF WRECKED MEN IN BREECHES-BUOY

Cuckholds Lightkeeper and Assistant Save Crew of Nova Scotia Three-Masted Aground in Angry Storm.

By the expedient of a hastily arranged breeches-buoy the lives of the captain and crew of three men of the three-masted schooner, "Barbara W," were saved late Monday night, November 27, when the vessel went ashore on the Cuckolds and was lost. The thrilling rescue was due to the Cuckolds lightkeeper, F. T. Robinson, and his assistant, E. V. Talbot. By dint of hard work these men got a light line to the ship and pulled off a heavy hawser from the ship to which the breeches-buoy was attached. All of the seaman came safely. The "Barbara W" hails from Parrsboro, N. S., and was bound for Wolfville with 200 tons of fertilizer from Boston. She was launched only four years ago at Port Greville, N. S. The vessel being driven toward the harbor Monday and in the night her anchors dragged in the hard gale and she was tossed toward the Cuckolds. She struck at about 9 o'clock in the morning, when the snow was swirling in front of the gale. When she struck the waves were being washed far up the rocks. The vessel was tossed and buffeted as her stern held fast. It was impossible to launch a boat. The tossing of the ship and the ugly waters around made it a difficult job for the lightkeepers to get a line to the vessel. The sailors could catch hold of it. They had to cling fast to masts and other things solid to keep from being washed overboard. The high waves also made it impossible for the men on shore to see ship or men for more than a moment at a time. The hauling of the hawser ashore and the fastening of the same at both ends was a matter of time and difficulty, for the sea kept everything moving. At length, however, it was taut enough for the men to get into the breeches-buoy, and start one by one for the shore. Light keeper Robinson tried to notify coast guard stations at the time the ship went ashore but was unable to do so because the telephone wires were giving trouble. When last mail was landed he blew the big fog horn as a signal of distress and the Damariscove Coast Guard Station sent a life-boat and crew, these arriving about 8 o'clock. Word was sent to Portland by Deputy Collector C. J. Marr, for the Coast Guard Cutter Osprey, which arrived before noon. It was considered impossible to salvage either ship or cargo. The vessel was pounded badly and broken.

BRINGS MASTODON BONES

Prof. Shackleton Returning to New York With Parts of a Baluchitherium. San Francisco, Dec. 8.—Professor J. B. Shackleton of the American Museum of Natural History is preparing to leave for New York with several hundred pounds of a Baluchitherium mastodon and other specimens of extinct animals unearthed by the expedition which the museum is maintaining in the Baluchistan region of Central Mongolia. English paleontologist named Coper discovered a few bones of the mastodon within recent years, but Professor Shackleton said today that he had nearly enough specimens to make up a complete skeleton. The bones resemble those of an elephant, but are much larger.

CONSERVATIVE LEAD BEARD

GROW 16 YEARS ON A BET. London, Nov. 17.—(By mail)—Few people were more intensely interested in the result of the British election than Frederick Wilkins, of the Tower Inn, Burghill, near Hereford, declares The London Daily Mail. When at the 1908 election the Conservatives were defeated and a Liberal Government was returned to power, M. Wilkins made a vow—and backed the vow with a wager—that he would neither have his hair cut nor his beard shaved until the Liberals were removed from office. During all these sixteen years M. Wilkins' hair and beard have flourished, for he has been faithful to his vow. His hair covers his shoulders, except when it is fastened up with hair pins, and his beard flows far down over his waistcoat.

RECENT DEATHS

The many friends of Thomas P. Connor were sorry to learn of his death yesterday which occurred in Waupun, Wis., where he was the superintendent of the State binder twine factory. The news of his death came to his brother, John Connor, of this city. Mr. Connor, who was a son of the late Thomas Connor, of the North End, left St. John about twenty-five years ago, going to Kingston, Ont., where he resided for several years, after which he went to Peterboro and later moved to Wisconsin, where for several years he had held an important position. The late Mr. Connor had been in poor health for some time and had been granted leave of absence for six months in the hope that he might regain his health. Besides his wife, he leaves one son, Thomas, who is now a medical student at Kingston Medical College and who served with distinction with the Canadian forces overseas; also four daughters, Sister St. Thomas and Sister Frances Claire, of the Ursuline convent, Chatham, Ont.; Kathleen, who is teaching in the West, and Winifred, living at home with her mother; one sister, Miss Johanna, who is in Kansas City, and one brother, John, of this city. Mrs. Connor was Miss Conkey of North End. Joseph Conkey is her brother and Miss Katie Conkey and Sister Dechantel of St. Vincent's Convent are her sisters.

Patrick Arsenault of Fox Creek, near Moncton, died on Wednesday of pneumonia. He leaves a wife and one son.

Mrs. Anastasius Allen, a native of Shelburne, died recently in Fitchburg, Mass. Mrs. Louis Conneau of this city is a niece.

As the result of a blood poisoning which set in after the extraction of a tooth Edward Mahoney, thirty-six years of age, died recently in Sackville. A family survive. He had relatives in this city. The late Hon. P. G. Mahoney of Melrose was a cousin.

Hugh McDonald, 95 Britain street, who was severely injured yesterday about one o'clock, while shifting a safe in the Bank of Montreal, King street, died soon afterwards in the General Public Hospital. He was employed with William Swanton, contractor, and others in hoisting a large safe upstairs when the rope strapping broke and Mr. McDonald was pinned against the wall. He was rushed to the hospital and died about four o'clock.

The late Mr. McDonald was forty-eight years of age and is survived by one daughter, Mrs. William Lang, with whom he was living at the time of his death; two brothers, Donald of the United States, and John, of this city; two sisters, Mrs. Francis Moore and Mrs. Andrew Olson, both of this city. The funeral will take place on Monday afternoon at 2.30 o'clock from a residence of his son-in-law, William ang, 95 Britain street.

SMALL SIZE COAL USAGE IS URGED

Many Will Go Heatless if They Insist on Old Grades Accustomed to, Says New York Administrator.

(New York Tribune) With predictions of a cold wave sweeping toward New York from the northwest, bringing a drop of 20 or

more degrees in temperature, William H. Woodin, State Fuel Administrator, called attention again yesterday to the imperative necessity of stocking up on substitutes for domestic sizes of hard coal.

It is futile, the Fuel Administrator holds, for householders to expect to get sufficient quantities of domestic size hard coal and unless the smaller sizes—pea, buckwheat and rice—are bought now, the cold weather will find many without fuel of any sort.

Fifty thousand tons of these smaller sizes are now in the railroad terminals in New Jersey awaiting purchasers, it was said, and until purchasers are forthcoming, the 1,800 cars in which the coal is loaded cannot be returned to the mines for additional cargoes.

Many consumers have shown themselves extremely reluctant to use the small coal, although fuel administra-

tion officials say it can be used to advantage in virtually any furnace. Included in the 50,000 tons are eighty-five carloads of pea coal, which, Mr. Woodin says, could be used by families dependent on cellar or wagon dealers, some of whom appealed to the Fuel Administrator yesterday for aid in getting coal. They will confer with Mr. Woodin today and present a statement of their normal requirements for comparison with the tonnage allotted them this year, and every effort will be made to supply this class of trade.

In using pea coal in the average kitchen range, it was explained, it is only necessary to prepare a bed of ordinary building brick, broken into pieces of the size of stove or egg coal. Pea coal placed on top of the brick will burn freely, it was said.

The Fuel Administration again emphasized there is no need for any one going heatless when large stocks of

steam size anthracite and bituminous are on hand for almost immediate delivery. Only those who insist on getting the sort of coal they are accustomed to using, domestic size hard coal, will find that none is to be had.

Much Coal Found to Be Spoiled. In Newark an investigation by officers of the Health Department showed 50 per cent of the coal sold there is stale and cannot be burned. The City Law Department was asked to make an immediate investigation.

FEWER DEATHS, MORE BIRTHS, INDICATED BY REPORTS. Washington, Dec. 8.—A declining birth rate and an increasing death rate for 1922, as compared with 1921, were forecast by the Census Bureau, which based its calculation on records for the first six months of the year for the registration area of the country, comprising about 82 per cent of the total population of the United States.

The birth rate for the first six months of this year was 22.7 per 1,000 population, while for the same period of 1921 the rate was 24.8, and for the whole of last year 24.3. The death rate for the six months ended June 30 this year was 12.6 per 1,000 population, while for the same period of 1921 the rate was 12, and Maine had the highest mortality rate for the half year, being 18.7, with New Hampshire second with a rate of 15.5. Idaho had the lowest rate with 8.2.

STRICKEN BOY RELIEVED. New York, Dec. 8.—After a corps of volunteers aided had worked over him for three days Simon Schum, a 16-year-old patient in the Orthopedic Hospital, began to breathe naturally the other day at the West Side Young Men's Christian Association. Schum, who is suffering from a broken neck, sustained while diving at Coney Island last July, and complete paralysis incident to an operation for spine fusion, drew his first natural breath when at the direction of the physicians, the artificial respiration ceased for a few minutes. He continued breathing, and

1,100 ARE SAVED AT SEA BY HEROISM OF CAPTAIN. Officer Swims With Line to Wreck. London, Nov. 28.—(By mail.)—A thrilling story of gallantry at sea was related at Lloyd's when Captain E. R. G. R. Evans, R. N., was presented with Lloyd's Gold Medal for Saving Life, reports the London Daily Mail.

A. L. Sturge, chairman of Lloyd's, said that on March 3, 1921, the steamship Hong Moh, carrying 1,100 Chinese coolies, struck on rocks northeast of Hong Kong. Captain Evans, in command of H. M. S. Sarfisle, received a wireless message, but found he could not get near, owing to shallow water. Captain Evans took charge of a motor boat, which also could not get close, owing to the heavy seas. Captain Evans thereupon swam to the wreck with a line. Only a powerful swimmer could have made headway, and there was danger of being dashed to pieces against the wreck.

Eventually Captain Evans made fast the line and the survivors were hauled on board the motor boat—back to which Captain Evans swam. Later, while the boat was crowded with refugees, it was discovered that a rope had fouled the propeller, and again Captain Evans went overboard. After hard work the propeller was released. They succeeded in saving every living man from the wreck, said Mr. Sturge, amid cheering.

THE FIRST CONTRIBUTION. The first contribution towards Rosebud Day in aid of the Children's Aid Home was received yesterday and it was a generous one, amounting well for the success of Rosebud Day. At the time of her travels, "France and Flanders Revisited," given on Tuesday night in St. Andrew's school, Mrs. E. Atherton Smith made an earnest and eloquent appeal on behalf of the Home and Rosebud Day. L. G. Crosby was among those present and he was greatly moved by the appeal. Yesterday he forwarded to Mrs. Smith the sum of \$50, saying that he wished the money to go towards the Rosebud Day funds for which she had asked support. He also extended good wishes for the success of the day. Little children in need seldom lack friends and apparently the little children cared for at the Home have found some good and true friends in their able pleader and the generous giver.

N. H. S. LADIES' ASSOCIATION. The executive of the Ladies' Association of the Natural History Society met yesterday afternoon with the president, Mrs. Harold Lawrence, in the chair. The treasurer reported that the net receipts of the lecture course were \$30.87, and in congratulating the executive on the fine programme and the success of the course, Miss Grace W. Leavitt added a cash donation to the proceeds. It was decided to hold round table talks on the third Friday of each month in the winter and to serve tea. This was a new departure which it was thought would meet with general approval.

PROMINENT MEN ON THE MONTREAL. Among the passengers who arrived here yesterday on the Canadian Pacific steamship Montcalm was Captain T. McG. Stokes of Montreal, who had been in England looking into financial conditions. He said that British capitalists are ready to invest in Canada as soon as the discount rate permits. He said he found a great improvement in the O. Country.

Another prominent passenger was Col. A. M. Jarvis, C. M. B., C. B. E., who was returning to Sidney, B. C., after a business trip to England and Paris. He was a member of the Northwest Mounted Police for thirty-one years, aided in suppressing the Northwest rebellion in 1885, was in command of a squadron of the Lord Strathcona Horse in the South African war, and on the headquarters staff of the second Canadian division during the European war.

REJECT SIMONDS SEWERAGE ACT

East St. John Residents Vote 2 to 1 Against It—A Small Poll.

Of the 160 residents of East St. John qualified to vote, fifty-eight turned out to the polls yesterday and rejected the Simonds Sewerage Act by a vote of thirty-nine against the act and nineteen for it. It was said that the vote was small because many workmen could not get to the polls, which were open from nine a. m. to four p. m. only. The act provided for the levying of an assessment to cover the cost of laying the sewerage system, and this had been estimated at \$74,000, including a water system. There is a committee appointed in regard to the proposed amalgamation with the city, and a meeting is expected shortly. Those on the committee are: W. F. Burditt, James E. Quinn, Councillor A. M. Magee, W. Flewelling and E. G. Cameron.

TO THE HOSPITAL SUFFERING FROM KNIFE WOUNDS

Suffering from knife wounds in his breast, Albert Sinstead was taken to the General Public Hospital last evening.

Crossing the Channel (Edward Hutton, in London Sphere). I do not think there can be another twenty miles in all Europe—certainly there is not in Western Europe—so crucial as those between France and Canada.

Now it is only that we leave an island and enter a continent, or vice versa. That is much, but by no means all.

The two peoples which the Channel separates are the two great political powers of modern Europe.

As I went into France a few days ago, there was among others in my compartment in the train, a young married couple.

They were going to visit her family, and all the way he was sleepy. She was moved by the countryside—her country—

"The best sunset I've seen this year," she remarked to her.

"Oh," said he quickly, "I think we brought it over with us."

"Ungracious? Very. But he became even more Johnsonian before the journey's end."

"How lovely it is," said she to him.

DAY'S WORK NOW A PLEASURE

Halifax lady blesses the day she heard about Dreco. Dreco is proving its real merit in case of habitual Constipation, nervousness, weak stomach, indigestion, gas in the stomach, biliousness, dizzy spells and deranged kidneys.

Mrs. Samuel Kaye, 1 1/2 Liverpool Street, Halifax, N. S., writes: "I have suffered from stomach trouble for a long time. I could eat hardly anything without suffering afterwards. My kidneys caused me much trouble. I had terrible pains in the back, my liver was sluggish, as spots floated before my eyes and I got such awful dizzy spells. I always had to be taking something for constipation."

"I was tired when I got up in the morning. I hated to think of the work I had to do. I was tired when I got up in the morning and myself have been taking Dreco and the results are wonderful. The burning in my stomach and the pains in my back are gone, my eyes are clear and spots before my eyes. My bowels act regular, I can sleep fine and can eat anything. My condition is greatly improved, and I feel much stronger, with a good flow of rich blood through my system, making my work a pleasure. We highly recommend Dreco to anyone."

Dreco is being specially introduced in St. John by Ross Drug Co. Go there today and ask for Mrs. E. Hanson, the Dreco expert, and let him explain the merits of this great remedy. There is no charge and he will tell you honestly and ask for Mrs. E. Hanson, the Dreco expert, and let him explain the merits of this great remedy.

ing frankly about the disease seems evident. In Dr. Taylor's speech he made use of a simile which should bring the hope of treatment down to its simplest terms. The accidental dropping of a lighted match in a waste paper basket is but a small matter if one takes immediate action. But leave the flame alone until it has caught on rugs and curtains and run up to the ceiling, and it requires extraordinary activity to put out the blaze. Cancer begins often as the accidental though persistent irritation of tissue. Taken immediately it can be treated and cured. Later on when it has spread, when other parts of the body internally or externally develop lesions, extreme measures are necessary if life is to be saved.

The exchange of talk and information on this vital subject can lead to but one danger—nervous anticipation of the future which leads people to suppose every rash or swelling an incipient cancer. Were the possible patient alive to the nature of one of our most active enemies, doctors would soon reduce the fatalities from this needlessly deadly ailment.

The members of the Melita concert party, assisted by local talent, gave an interesting programme at the Seaman's Institute last night. The various members of the party delighted a fair sized audience with their efforts. Mr. Main, of East St. John, had the audience mystified by his slight-of-hand tricks and his rapid recitation of poetry with the funny antics of his merry marionettes. The following persons contributed to the programme: Melita party, Mrs. Silk, Mr. Bear, Jack Davies and Mr. McPhail; local party, Mrs. Setley, Miss Elsie Loop, Miss Sloan, Jack Lockley and Mr. Main.

THE PROPOSED IMPERIAL ECONOMIC CONFERENCE

London, Dec. 8.—(By Canadian Press Cable).—Premier Bonar Law, replying to questions in the House yesterday, said it would be premature to make any statement regarding the agenda for the proposed imperial economic conference until replies to the invitations sent to the Dominions had been received. However, one important matter the delegates from the Dominions would bring up would be in connection with schemes for development and doubtless another would be a proposition for the stimulation of trade.

The Opportunity Circle of the King's Daughters, with Mrs. R. D. Inness as leader, were hostesses last evening at the guild to the matron and visitors when a dinner and social evening were enjoyed. The matron, Miss Flower, is finding her work greatly appreciated by the different circles. Mrs. H. W. Robertson addressed the guests.

Muenster, Germany, Dec. 8.—The Provisional Diet at Westphalia has forbidden the sale of alcoholic drinks to persons under eighteen years of age or habitual drunkards. The presence of habitual drunkards, as well as children under fourteen years of age, in places where intoxicants are sold also is prohibited. The Diet further has ordered that no alcoholic drinks may be sold in motion picture shows, and has reduced the hours for the sale of such beverages in licensed places.

The New Brunswick Fire Prevention Board transacted routine business at its meeting yesterday afternoon. In regard to the investigation of the circumstances surrounding the fire in the Y. M. C. A. building at Fredericton, recently, H. H. McEldan, the fire marshal, said that it would likely be held early next week.

GETS SEVEN YEARS PENAL SERVITUDE

G. L. Bevan Sentenced at the Old Bailey

Found Guilty on 15 of 16 Counts in Fraud Charges—Judge Dwelt on Honest and Dishonest Methods in Presenting Financial Balance Sheets.

(Special Cable to The New York Times and Montreal Gazette) London, Dec. 5.—Gerard Lee Bevan, former chairman of the City Equitable Fire Insurance Company, was found guilty at the Old Bailey today on fifteen of sixteen counts in charges of fraud brought against him, and was sentenced to seven years penal servitude.

The Bevan case attracted an enormous amount of public attention, not merely because of the magnitude of the financial speculations in which he was concerned, but also because of the social position of some of his fellow-directors in various companies. His flight to the continent by airplane and arrest in Vienna added to the sensational aspect of the case.

Mr. Justice Avery, in summing up, dealt with the defense's contention that Bevan had signed certain minutes of the board meetings of the City Equitable Company without reading them, and so failed to detect their error. He asked the jury to consider how that could have been possible unless Bevan had done it with his eyes shut, and he declared that it was impossible to doubt that Bevan was the dominating spirit of the directorate.

When the court took up the 296,000 overdraft which had been allowed to General Manager Mansell, although he drew in salary and commission 28,000 or 29,000 per annum, Bevan had excused the matter on the plea that Mansell was so valuable to the business, but the judge asked whether there was good reason to keep a dishonest servant because he obtained business. The court pointed out that Bevan's only explanation of his flight was that he had been asked to leave the country, but he declined to say by whom, and he instructed the jury that if they held him guilty of the charges they could not leave out of consideration the fact that he fled and could give no real explanation of the reason.

Finally, the court dealt with the "window-dressing" of the company's balance sheet by purchasing government securities for the day the balance sheet was made up. He drew a distinction between honest and dishonest "window-dressing," saying: "Suppose a shopkeeper put in his window attractive goods with attractive prices, and then when a customer

hands over money for them he keeps the cash, but says, 'I cannot deliver the goods because they are only borrowed.' What would you think of him?"

"Yet that does not differ from the action of the company in recording its assets in its balance sheet securities that it does not possess. I hope it is not true that such 'window-dressing' is an everyday transaction in the city of London."

CALENDARS FOR 1923.
The Times has received a very pretty 1923 calendar from the Wilson Box Company, Limited, also a very useful one from the Confederation Life Association, George W. Parker, St. John, provincial manager.

KING STREET BREAK.
A break was made into Oak Hall some time last night and many clothing items were taken. Among the articles were several suits and overcoats. It is not known definitely just how an entrance was effected but the thieves left the building from the rear of the store in Market street.

SERVICE ENDED.
The ferry steamer Maggie Miller, which plies between Millidgeville, Summerville and Baywater on the Kennebecasis river, discontinued her service yesterday afternoon and went through the falls to tie up for the winter.

EXHIBITION DIRECTORS.
At a meeting of the Board of Directors of the St. John Exhibition Association held last evening in the office of Horace A. Porter, manager, ten additional members of the board were named—John Calder, City Dionysius, A. E. Everett, P. R. L. Fairweather, A. L. Foster, Captain A. J. Mulcahey, Jacob W. Myers, G. L. Warwick, H. W. Wigmore and F. B. Schofield.

INVIGIL PASTOR TO STAY.
The second quarterly meeting of the official board of the Fairville Methodist church was held in the vestry last evening. Encouraging reports were received from various departments. A committee was appointed to arrange for an anniversary service in the latter part of January. The pastor, Rev. J. M. Rice, received and accepted a unanimous invitation of the board to remain for a third year.

A. W. COVEY TO MONTREAL.
A. W. Covey, president of the Maritime Branch of the A. A. U. of C. left last evening for Montreal to attend the annual meeting of the Atlantic Athletic Union camp there today. He was accompanied by A. C. Millie of Halifax, vice-president of the maritime branch. Preliminary to his departure arrangements have been completed for the hockey match booked for New Year's night between the Halifax Wanderers and Sussex.

CASE CONTINUED.
In the Circuit Court this morning the case of Noble vs Stewart was continued. The plaintiff finished his case and the defence was begun with Mr. Stewart giving evidence and the examination of two garage employees testifying as to the extent of damage done in a collision which took place between the cars of the two parties last summer and which is now the cause of these proceedings. The court adjourned until this afternoon.

GREAT MARSH CONFERENCE.
Matters pertaining to the Great Marsh will be discussed at a conference scheduled for Wednesday morning of next week between the members of the Common Council, the Great Marsh Commission, the Simonds Commission, representatives of the Dominion Government and the Canadian National Railways, according to an announcement made by Mayor Fisher this morning. It is expected that many matters affecting the conditions along the Marsh Creek will be brought up and discussed.

IN NEW BRUNSWICK.
The Canadian Morning Digest, published in Toronto, says: "Troquois Productions, Inc. of New York City, is reported as arranging to film a series of fifteen two-reelers on the stories of Joe Lavelle, the Gullweed Guide, production to start in November. These stories have been published in the Toronto Sunday World, in Canada, and in many U. S. papers, and the Sportsman's Digest, the monthly published in Cincinnati. The productions will be made in New Brunswick."

NOT CONSIDERED SERIOUS.
A report from the General Public Hospital this morning was to the effect that Albert Sinstead, who wounded himself last night with a knife in Germain street, was about the same and that his condition was not considered serious. As the man was sleeping last night at the time the detectives went to the hospital they did not disturb him for details of the affair but it is said that upon being refused an offer of marriage to a young lady he stabbed himself several times in the chest.

FORTY HOURS.
The Forty Hours Devotion was started in St. Peter's church this morning at a solemn high mass celebrated by Rev. James Woods, C. S. R., who was assisted by Rev. J. A. Cloran, C. S. R., as deacon, Rev. George A. Coffin, C. S. R., as sub-deacon, and Rev. Donnell Coll, C. S. R., as master of ceremonies. Following the celebration of mass a procession in honor of the Most Blessed Sacrament took place. The priests, altar boys and children of the parish took part.

BROTHER IS DEAD.
Mrs. A. O. Lamoureux of West St. John received a telegram this morning from Gloucester, Mass., telling of the death of her brother, Charles Purdy, there, yesterday, following a stroke of paralysis. Mr. Purdy was for many years a resident of the West Side and went some time ago to Gloucester with his brother, James. The brothers opened a rigging business there to serve the fishing fleets and were making a success in this endeavor. Besides the sister and brother mentioned, Mr. Purdy leaves two sisters residing on the Pacific coast. He was a son of the late Captain James Purdy.

AN INTERESTING DISPLAY.
A silver cup donated by M. R. A. Ltd. to Agricultural Society No. 32 of St. John county, is now on view in one of the M. R. A. Ltd. upper King street windows. This society holds its fair annually at Loch Lomond and the cup is competed for by the members of the ownership of the best dairy cow. The competition has succeeded in adding several new members to the society. In 1922 the cup was won by Fred Stephenson of Golden Grove. Photo of the winning cow along with that of its proud owner are also exhibited in the window. Another cup donated one year ago by J. M. Robinson & Sons is also being shown. This is competed for yearly for the best collection of potatoes. It was won in 1921 by Fred Stephenson and in 1922 by George Crozier. The basket of potatoes shown in the window are from the winning collection this year.

PAUL KUHRING GIVES BLOOD TO SAVE FATHER

Telegram This Morning Reports Former St. John Clergyman a Little Better.

Rev. A. L. Fleming, curate of St. John's (Sons) Church, this morning received a telegram from Mrs. G. A. Kuhring, expressing appreciation on behalf of herself and her husband, Rev. G. A. Kuhring, formerly of this city, for prayers offered for Rev. Mr. Kuhring's recovery after a serious operation in Toronto last week. She said that her husband was a little better, was now practically free from pain and was experiencing a revival of strength. This news will be received with much satisfaction by the many friends of Mr. and Mrs. Kuhring here. Before the operation Mr. Kuhring's eldest son, Paul, gave a pint of his blood in a transfusion operation, and it is felt that this act of sacrifice went a long way towards strengthening his father to withstand the major operation.

Paul Kuhring was a former U. N. B. student, and he, as well as his father and brother Gustav, saw much service overseas during the Great War.

THE CITY AND THE POWER COMPANY

"Unless they have something new to present, I cannot see any necessity of meeting them; if they have anything new I think it should be presented at a public meeting of the council," said Mayor Fisher this morning when asked if there was any likelihood of further meetings with the representatives of the New Brunswick Power Company in connection with the sale of their property in the City of St. John. He would make no further comment on the meetings held yesterday and the evening before.

APPEALS FROM ASSESSMENT

R. A. MacIntyre, chartered accountant, has been engaged by the city to make an audit of the books of several companies which have appealed from the assessment placed on them by the Board of Assessors. The audit is authorized under the provisions of the St. John's Assessment Act. A report of the findings of the auditor will be handed to the chairman of the board and will in turn be submitted to the Common Council.

POLICE COURT

James Sheridan and Charles Gavin were before the magistrate this morning charged with being stopways on the steamship Canadian Victor. They were given in charge by Captain Leith of the vessel. They were remanded to sail until the ship sails again or until some arrangement regarding them can be made with the immigration authorities.

AT SAND POINT.

An inspection of the wiring of the city sheds on the West Side is being carried out by G. G. Harz city engineer, and Barry Wilson, city electrician, so Commissioner Bullock said today. Following their report preparatory to the work made to do some necessary repairs and replacements. The commissioner has asked the city engineer to prepare plans and an estimate of the construction of fire-walls dividing the West Side sheds in order to localize any possible fire danger. The estimate of cost of construction, together with the possible saving in fire insurance rates will be gone into before a recommendation is made to the council. The water pressure at Sand Point, he added, was particularly good at present.

OPEN ARENA NEXT WEEK

One of the finest in Canada, What They Say About St. John Building.

St. John's new arena is rapidly nearing completion and the citizens have every reason to be proud of it. It is the largest and finest in the Maritime Provinces, and visitors from outside points say that it is one of the finest in Canada. It probably will be opened the first of next week. There is an excellent ice space of 185 x 97 feet, and there is seating capacity for 4,000 people with additional standing room for 2,400. There is a large promenade all around the rink from any part of which an excellent view of all parts of the ice surface is had. The dressing rooms are equipped with hot water heating and there are seven special hockey rooms besides a refreshment counter and check room.

A hand stand at the upper end of the rink is raised up and has sliding glass doors which are opened when the music starts.

The Eastern Canada Steel and Iron Company of Quebec City were the contractors for the steel structure; Denton & Condon of Digby and Kentville were the contractors for the concrete and woodwork; the Jones Electric Company of the city, electrical work; the St. John Plumbing and Supply Company for the plumbing. The proprietors of the rink are Joseph Morgan and F. G. Finley.

DULUTH IS AFTER ROWING CLASSIC

Bids for the National Regatta of 1923

Baseball Deals—Carpentier to England for Charity Boxing—Bicycle Riders Many Miles Behind Record in Six Day Race.

(Canadian Press) Duluth, Minn., Dec. 8.—Duluth will be represented in the 1924 Olympic tryouts and will bid for the 1923 national rowing regatta. J. H. Barnes of the Duluth Boat Club has agreed to underwrite any guarantee the club may be forced to make to the national association of amateur oarsmen to bring the premier rowing event in the U. S. to Duluth.

Philadelphia, where the regatta was held last year, is the only other city which has asked for the national event.

San Francisco, Dec. 8.—Tim Harris, outfielder for the St. Paul club of the American Association, has been purchased by the San Francisco club of the Pacific Coast League.

Seattle, Dec. 8.—James Boldt, president of the Seattle Pacific Coast Club, has obtained the release of "Doc" Johnston, former first baseman for the Cleveland and Philadelphia Americans. A Louisville report was that Johnston announced he was to manage a Pacific Coast League club.

New York, Dec. 8.—Pal Moran, New Orleans lightweight, defeated Jimmy Hamilton of Denver, in a 12-round bout here last night.

Boston, Dec. 8.—Teams representing Massachusetts Institute of Technology and Boston University will open tonight this year's hockey season in Greater Boston.

Far Behind Record. New York, Dec. 8.—Alfred Gault and Gastano Belloni and the team of Maurice Brocco-William Coburn, tenaciously clung to their lead of a single lap at the end of the 104th hour of riding in the six day bicycle race at Madison Square Garden at eight a. m. They had pedaled 1,824 miles and seven laps. One lap behind them was the team of Egg-Eaton. Two laps behind were Grand-McNara, Medden-Kayser, Horan-Fitzsimons and Grimm-Gastman.

The team of McBeath-Burt, Taylor-Landa, Kopyev-Azulin, Hill-Vernace, Bell-Gaffney and Spillens-Eyckmann, were three laps to the rear. The Green-Gay team was last, trailing six laps.

The record for the 104th hour is 2,031 miles and five laps, made by Fogler and Hill eight years ago.

Paris, Dec. 8.—Carpentier and his manager, Docamps, are to leave for England today to take part in a charity boxing at Brighton. GERMAN SAYS FRANCE MADE GOAL PROFIT. Essen, Dec. 8.—That France made 2,000,000,000 francs profit on coal delivered by Germany on the reparations account since the armistice, was a statement to the press by Dr. Klaus Schöler of Essen. He quotes the French publication Le Progrès Elitaire, to the effect that a total of 28,750,000 tons was delivered which was resold at an average price of 91.20 francs. Dr. Schöler declared that the deliveries were credited on the reparations account at the rate of 61.70 a ton, but that the special committee of the French coal handling organization sold them at 40 or 50 francs higher. He says that in 1921 Germany delivered to France 3,100,000 tons of coal and 4,200,000 tons from the Saar district.

CARLOADS OF SMELT SENT FROM MIRAMICHI. Newcastle, N. B., Dec. 8.—Between fifteen and twenty carloads of smelt have been shipped from the Miramichi already this season, largely to the U. S. market.

Fishermen equipped for open water fishing have been making big catches on the lower river recently, the fishing having been the best in years. Seven cents a pound has been the ruling price and record receipts of last year, when more than \$600,000 was received by the fishermen of the North Shore counties, may be surpassed if the smelt catches continue as large as they have been.

Most of the shipments in carload lots are being routed to New York and Boston via Quebec and Vermont.

Latest returns in the New Zealand general elections show that the government has 33 seats, Liberals 19 and Labor 17.

REPORTS ON SITUATION ON THE CONTINENT

Wm. Webber of C. P. R. Here Today Tells of Impressions and Experiences There.

William Webber, general agent at Atlantic ports for the Canadian Pacific Steamships, Ltd., who arrived in the city yesterday from Montreal, returned recently after an extended tour to the British Isles, France, Belgium and Germany. In England he found business was steadily improving, business in general was good and the people seemed to have considerable money to spend. Shipbuilding alone is a very important feature of the present rate of exchange. All of their factories are working overtime, producing a large amount of goods, and there is very little unemployment. The result is a surplus of goods on the market. In Hamburg he found conditions very good, although the people had eaten 8,000 marks' worth of food, and later to be charged 2,500 marks for a fifteen minute taxi ride. However, he said he never met used to their money and found that these thousands of marks equalled only a little more than a dollar in the States. The prices of automobiles and furniture throughout Germany, he said, were selling for 2,500 in England and were offered for four million marks, while the price of furniture was some beyond the reach of people of ordinary means. Tourists, he said, were not making a margin due to the rate of exchange. Travelling conditions were very good in Germany, he said, and large numbers of people were taking the accommodations of the railroads. In Belgium he found business brisk, especially in Antwerp, where the glass works were especially interested and many were looking to Canada as their future home.

Mr. Webber will leave New York on January 20 on another cruise to the West Indies.

BELGIAN FAITH IN GERMANY IS NOT PROFUND

London, Dec. 8.—Agreement among the allied premiers upon questions of reparations and the later-allied debts depends largely upon the proposals which Premier Poincaré is expected to unfold at tomorrow's meeting here, according to an authoritative statement from the Belgian delegation.

Until these proposals have been made known and considered, the delegation said it would be difficult to foretell the course of the negotiations. The Belgians have arrived without any knowledge of fresh proposals from Germany regarding reparations and it is believed that during the conversations, the Belgians have expressed their distrust of Germany's desire to fulfill her reparations obligations in full.

COMMUTER RIDES MILLIONTH MILE

Trips on Railway from Philadelphia to Cape May Reach Astounding Total in Twenty-two Years.

Cape May, N. J., Dec. 8.—Henry J. Fleischer, a prominent business man of 68 North Fifth street, Philadelphia, lays claim to being the champion New Jersey commuter. Mr. Fleischer has completed 1,000,000 miles between Cape May and Philadelphia on the West Jersey & Seashore Railway. He lives at Cold Springs, two miles north of this city.

Despite snows and stormy weather, he has not missed a day with the exception of holidays and Sundays since 1900, when he moved from Philadelphia to Cold Springs. He tells many interesting experiences of being snowbound on the road in the twenty-two years of his travel.

Before automobiles came into general use Mr. Fleischer went to and from the station with a horse, but now he uses an auto. His daughter, Miss Ruth Fleischer, has met him almost every day at the station.

Mr. Fleischer completed the million miles on Saturday. He has seen many veterans of the road retire, among them were "Uncle Dan" Forster, the hero of the Wrentham wreck, who stuck to his post despite the fact that the train left the rails and went out in the middle of the field. Other veterans who have gone during the period are conductors Henry Harvey Shaw, Joseph McConnell, Charles Baker and Baggage Masters Doughty and Corsons, who were on the road nearly half a century.

The veteran commuter rode on the first train over the new route via Woodbine Junction and Cape May Junction, which shortened the time to this city and gave the short route the Delaware River Bridge service.

BIRTHDAY PARTY.

A pleasant party was held last night at the home of Miss Blanche Sigouin, 300 King street West, in honor of her birthday. On behalf of the gathering, Miss Madeline Irvine presented to her a handsome manicule set. Miss Sigouin made a suitable reply. Games and music were played.

RAISING MONEY TO HELP TERREBONNE

Montreal, Dec. 8.—Measures for the immediate relief of the Terrebonne sufferers by the raising of funds were set on foot yesterday at a meeting of the relief committee of Montreal and district. Subscriptions to be received through the newspapers, the Board of Trade, the Chamber of Commerce, and the Archbishop's Palace. Funds thus raised will be expended on relief only and not for reconstruction. The campaign was given an auspicious start by a subscription of \$500 from the Knights Club of Montreal.

Mrs. Gauthier, administrator of the Catholic Arch-diocese of Montreal, was said to be writing to all the parish priests in the diocese authorizing them to receive contributions from their congregations.

SEVEN NEW WORLD RECORDS IN SWIMMING

Chicago, Dec. 8.—Seven world's swimming records were broken last night in a swimming meet held under the auspices of the I. A. C. was the individual star. In the 100 yard dash, back stroke, he shaved 1-5 seconds from the former record of 21-2 and in the men's 100 yard dash, back stroke, he lowered the record by one second, the new mark being 1:02-3. He also swam with the team that broke the record for the 160 yard distance. The time was 1:44-5, two seconds lower than the old mark.

Miss Sybil Bauer, I. A. C., in winning the women's fifty yard dash back stroke, established a new record of 54-5 seconds. She also established a new record of 8:06-4-5 in the women's open 200 yard back stroke. She lowered the old record by one second.

The Hyde Park High School relay team won the Medley race and set a new world's record of 2:14-4-5, one and one-fifth seconds below the old mark. Howell, of the Hyde Park team, set a new record for the inter-scholastic 100 yard free stroke, clipping off the distance in 54-4-5 seconds, one fifth of a second under the former record.

MINERAL FINDS MADE IN SWEDEN

Deposits of Iron, Zinc and Copper Ores—Latter Especially Valuable. Stockholm, Nov. 6.—(By mail)—A discovery of new mineral wealth in Sweden is announced by Director Axel Gavelin, head of the Government Geological Research Department, who has asked the Riksdag for an appropriation to cover the investigation of the newly-found ore deposits.

These lie in central Sweden, and consist of iron, zinc and copper ores. Mr. Gavelin does not give exact details as to the total size of these deposits, but he considers them extremely promising, and says that if further search fulfills his expectations, the copper find especially is valuable and will form a national asset of great importance.

The total iron ore deposits of Sweden already known are calculated to contain nearly 1,400,000,000 tons, running an average of 60 per cent. iron, which is said to be over 23 per cent. more than the average for all iron mined in the rest of Europe, and 16 per cent. more than the average for the world as a whole.

Although much of Sweden's iron ore is used for the domestic manufacture of iron and steel, the export is considerable. In 1918 the total export was six and one-half million tons, while last year the figures were four and a half million.

Copper mining and export, which is hundreds of years old in Sweden, has declined of recent years, and the familiar copper was seen in every Swedish home was in a fair way of becoming valuable antiquities. Now, however, a revival of the Swedish copper industry may result from the newly-discovered deposits.

MEN'S GIFT SALE OF KING THE HATTER IS DRAWING CROWDS

The idea of a sale of Christmas gifts in men's wear is rather a new one and certainly has drawn well at King the Hatter's. Neckties boxed like everything in holy style are as low as 50c. Braces and garters and arm bands are shown singly and in sets at sale prices. Silk and Angora wool mufflers are another attraction. Mr. King figures on trebling his business by having his profits and gaining advertising out of the scheme.

Band tonight, good ice, Carleton Rink.

FREDERICTON NEWS.

Fredrickton, Dec. 8.—The condenser of George S. Clark of the Fred B. Edgecombe Company, who has been seriously ill at his home, in Brunswick street, for some time, shows no improvement.

Some night classes conducted here by the Vocational Committee were closed on Thursday night, and the public closing will take place tonight. The classes have been conducted under the supervision of B. B. Barnes. Two hundred and ten pupils were enrolled. That is below what it was a year ago, when the highest total was reached, but is said to be up to the average.

Dr. G. G. Melvin has returned from Perth, where he was attending a meeting of the sub-district Board of Health, and held a conference with the sub-deputy registrars and sanitary inspectors.

SEAMAN GOES FREE.

Halifax, N. S., Dec. 8.—James Ashton, able seaman, brought here from St. Pierre under charge of attempted murder of Captain Horwell of the schooner Mary Elizabeth, was discharged this morning. Magistrate O'Hearn said the charge against Ashton had been made under the British Shipping Act, the plaintiff having laid his complaint in writing before the British consul at St. Pierre. In this case the requirement of the act had not been fulfilled in that the captain's statement had not been sworn to. Ashton was allowed to go free.

THE AIR MAIL

(By Rear Admiral W. F. Pullan, U. S. N.) (Retired) The prediction of Colonel Henderson, chief of the air mail service, that mail would be transported from San Francisco to New York in thirty hours in the near future is justified by the creditable record of the mail-plane flyers during the last year, as well as by the remarkable endurance and distance records of many aviators during the last few weeks.

Despite these obstacles the plucky and skilful mail flyers covered nearly two million miles and delivered about forty million letters during the last year without a single casualty. They stuck to their work under all conditions of weather, and reached a standard of more than 90 per cent efficiency. People along the route declare that they can set their clocks by the mail planes.

reached New York without landing. And the plane that carried MacReady, night in a day, against head winds and storms three-fourths the distance across the continent had but a few days previously won the world's endurance record by remaining in the air more than thirty-six hours. This record reveals the degree of perfection and reliability to which the Liberty motor has been brought, and it clearly indicates future success in transcontinental non-stop flights.

No Need of Non-Stop Flights. But it must be noted that the non-stop flight from coast to coast is not necessarily essential to the success and extension of the air mail, nor to the ultimate air transport of passenger and certain light-weight merchandise

worked. Safety will thus be increased all emergencies anticipated and a large percentage of the available space and weight to be carried must be given to fuel and oil. By stopping at intervals along the route more weight can be given to passengers and mail. If the plane, flying from San Francisco to New York, for instance, make two or more stops at designated points along the line, the planes may be refueled, or the mail, passengers and freight may be quickly transferred to other planes that are kept keyed up and in readiness instantly to take up the flight to the next station. Warning by radio from the flying plane to the station ahead will insure readiness and a quick transfer. The delay in such a flight will not be great, and the motors of the plane will not be over-

night as well as by day. This will greatly reduce the time of transport.

Transcontinental Lines. It is not a dream to picture at least three transcontinental air lines in this country, following in general the routes of the railroads—one from San Diego to New Orleans, one from San Francisco to Omaha or St. Louis, and one from Seattle to Chicago by way of Minneapolis. Continuing from the Mississippi Valley, these three lines will terminate at New York or Boston with intermediate stations.

And it follows that there will ultimately be a development of inter-connecting north and south lines between the principle cities throughout the country. This in years to come we may predict a network of air lines so that the time of mail transport will be reduced to about one-third the present record.

There is no one thing that so directly affects the personal interests and well-being of every man, woman and child in the country as the quick delivery of the mail. It not only vitally affects every business interest, every banker and corporation, but it is a boon to every home in the land. It is interesting to emphasize this fact. For instance, families become scattered, parents and their children are inevitably separated. Consider the cases of illness, the need of quick medical or surgical aid, the haste to reach homes in an emergency, the anxiety of mind in every family at times. The air mail and air transportation will come to the rescue.

The National Aeronautical Association of the United States, which has just been formed, with headquarters in Washington, for the purpose of encouraging the development of useful aviation, has prepared a map which graphically illustrates the annihilation of distance and the saving of time by air transport. This map shows that, measured by the new standard of time and distance that will follow the practical application of air transportation, the territory of the United States will shrink to about one-third its present area. It is impossible to overstate the importance of this subject. Air power is not only vital in national defense, but it will be an ever-present element of prosperity in commercial activities as well as a convenience and comfort in the routine of daily life.

ANTRIM CASTLE FIRE. £143,000 is Claimed for Malicious Damage.

Belfast, Nov. 8.—(By Mail)—Claims totalling over £143,000 have been lodged with the Northern Ireland Government for alleged malicious damage to Antrim Castle, the residence of Lord Massereene, and Ferrard, which was destroyed by fire on October 29. The trustees claim £200,000 for the building, furniture, Lady Massereene's £20,000 for clothing and effects, and Colonel Richardson £70 for clothing and personal effects.

C. Golder, a seaman on the steamship Montcalm, was taken to the General Public Hospital yesterday afternoon suffering with an injured shoulder. His injury is not serious and he will be able to return to his ship within a day or two.

HIGH SCHOOL ALUMNAE. The High School Alumnae met last night at the residence of the president, Miss Grace Campbell, of Hazen street, and enjoyed an interesting programme. Miss Edith Cummings was in charge and the subject for the programme was "Anatole France." Miss Marion Thompson gave the introductory sketch of his life and Miss Cummings then gave a paper telling of his various works and giving some

criticisms of his writings. He is the unchallenged leader of French literature, a master of style, witty, ironic and humorous. Miss Cummings spoke particularly of "Red Lily," "Bergeret," and the reminiscences of his childhood which he has related in "The Book of My Friend." She also recalled Anatole France's connection with the Dreyfus case. Miss Marion Thompson read a chap-

ter from "Penguin Island." Miss Mildred Bustin sang two solos that were much appreciated; her accompanist was Mrs. W. L. Beville. Refreshments were served and a social hour enjoyed. A short executive meeting was held and plans were made for the Christmas closing at the High School. A request for support had been received from the health centre and a sum of money was voted to that institution.

MACY'S TELLS MEN HOW TO PICK PRESENTS FOR WIVES

Gives Suggestions for Anniversary Gifts for Brides of Last Year and Former Years, With List of Types of Remembrances for the Various Marital Jubilees.

That the wedding anniversary is a tradition which can be made to yield fruitful returns in the direction of increased sales volume in many lines of merchandise is a thought that has probably escaped the average storekeeper. The possibilities in a special merchandise appeal based on the gracious custom of remembering with a gift the anniversaries of the bride of yesterday are, however, fully realized by the R. H. Macy and Co. department store of New York.

Macy's took a page ad in all the metropolitan dailies recently to call the attention of husbands of all ages to the importance of making a bit with "Friend Wife" by demonstrating that the date of the wedding ceremony has not been forgotten. Twenty-one kinds of wedding anniversaries were listed in the ad, ranging all the way from the first anniversary year to the seventy-fifth, and it was pointed out that each celebration, according to tradition, demands a different kind of gift. Suggestions for appropriate gifts in each case were accordingly given, together with the price of the merchandise and the department in which it would be found at the Macy store.

Because of its novel form, as well as the special purpose it served, the advertisement attracted a great deal of attention and comment, and it is learned from representatives of the firm that it was signally successful in making many new men customers. Incidentally, this unique and enterprising stunt made a sure-fire hit with the women friends of Macy's, the latter appreciating the service rendered to them by the store's appeal to forgetful or indifferent husbands to "say it with gifts" on the occasion of the wedding anniversary.

The advertisement was headed, "In Honor of the Bride of Yesterday." Stretched diagonally across the page, from top to bottom, was a series of artistically executed pen-and-ink sketches depicting brides in costumes of various periods. In bold type, and double-headed, the purpose of the ad was thus explained.

"Tradition prescribes that we bring gifts to the bride—not only to the new bride, but quite as much in honor of her whom the dignity and grace of years have adorned.

"The gracious custom of remembering with a gift the anniversary of the bride is so old that the exact origin of the names for the various weddings has long been forgotten. We only know that since the middle ages certain tokens have been thought to be fitting for certain years as remembrances from husband to wife, and that as the years increase they grow more precious—from the fragile paper gift of the one-year bride to the gold of the bride of a half century.

"To the family and friends who join in the celebration we offer appropriate gift suggestions for all the anniversary years from one to seventy-five."

In a decorated border appeared a complete list of the different kinds of wedding anniversaries, from the first to the seventy-fifth. These were designated as follows:

1. Paper, cotton.
2. Straw, paper, calico.
3. Candy, leather, muslin.
4. Leather, silk.
5. Wood.
6. Iron.
7. Wooden, copper, floral.
8. Bronze.
9. Pottery.
10. Tin.
11. Linen, silk.
12. Rock, crystal, glass.
13. China.
14. Silver.
15. Coral.
16. Ruby, emerald.
17. Sapphire, ruby.
18. Gold.
19. Diamond.
20. Diamond.

From a merchandising standpoint the most striking and unique part of the Macy advertisement was the plan adopted of grouping merchandise offerings appropriate for each anniversary.

These were so arranged as to form a border for the message in the central part of the copy. In order to show how it was done, the following extracts are offered:

For the Bride of 1921.
"The fair white sheet on which few words have as yet been written is for the bride of one year. One may give her:

- "A box of imported stationery lined and edged with color, \$1.98.
- "Double correspondence cards in white, gray or buff, with tissue-lined envelope, \$1.99 a box.
- "Stationery department, main floor.

"Letters of James Huneker," by Josephine Huneker, \$2.94.
Book department, main floor, 8
"An etching by Zorn, \$1.24.
"Picture department, fourth floor.
For the Bride of 1917.
"After five years one is quite solidly established in matrimony. In order are

such gifts as:
"A mahogany tip table with inlaid top, \$12.48.
"A mahogany muffin stand, \$11.48.
"A walnut book rack, \$5.94.
"Furniture department, sixth floor.
"A mahogany mantel clock in tambour design, \$9.94.
"Clock department, fourth floor.
Center.
"Hand-decorated bread knife and board, \$2.69.
"Art embroidery department, fourth floor."

For the Bride of 1912.
"Let us hope her tastes are domestic! One may buy her:
"A tin egg poacher, 66 cents.
"A kitchen reminder, 91 cents.
"A kitchen set of six indispensable articles, \$1.49.
"Dessert.
"A decorative painted tray, \$2.69.
"Art embroidery department, fourth floor."

Suitable gifts for brides of other years, ranging all the way back to "The Bride of 1862," were suggested in the same way. In the latter case, veteran husbands with a sixty years' service stripe to their credit, were offered the following constrictive hints:
"What but the diamond could fittingly symbolize the marriage of sixty years? One might choose:
"An exquisite wrist watch of solid platinum incrustated with diamonds, \$114.
"A diamond and platinum scarf pin, \$94.50; a bar pin whose top of filigree platinum is set with three diamonds, \$79.50.
"Jewelry department, main floor."

78 Seconds, Men, From Lather to Towel!
The World's Fastest Shave—We Invite You to Try It

For a quick shave, a super-keen blade. That's the whole story. We've processed a barber's edge—the keenest cutting edge known—on a safety razor blade. It took us years to perfect it. The result is a Velvet Shave in 78 seconds actual time.

Over the Face—Once
No scraping. No after-shave smart. No shaving lotions needed to protect the face. Once over the face—that is all. Thus you reduce shaving time one-half. And save your face for dull-edged blades ruin the skin. Dermatologists tell us three men in four, past 36, look ten years older than they are, because of improper shaving methods.

This new blade overcomes it. Changes the whole shaving situation. It marks a new era in home shaving. Already millions of men are enjoying the comfort it brings.

3 Things in a Shave You've Never Had Before
First—a super-velvet shave, going over the face one time. No scraping.
Second—a quick shave. 78 seconds from lather to towel. Only a super-keen blade can do it.
Third—a 78 second velvet shave every day. The strop keeps up the edge of the blade.

Sharpens Itself
We recommend your using our famous strop for the same reason a barber strops his razor. It keeps up the keenness. It works as a part of each razor—there if you care to use it, or, if you choose, you can just insert new blades as you feel the need. Self-stropping is a patented Valet AutoStrop feature. It helps to give you the world's fastest shave every day.

Make the Test
78 seconds for a velvet shave—that's our proposition. Pick up a Valet AutoStrop Razor at your dealer's today. Make the test. It will amaze you.

"My Boy was Starving to Death" "As He Was Getting No Nourishment He Was Gradually Wasting Away."

"Here's a story which will interest every mother. Before my boy was born, I was in such delicate health that the doctor didn't think I would survive the ordeal. For weeks after he was born my life was despaired of, so I couldn't feed him and the poor little fellow was left to the care of friends. He wasn't naturally strong. No care was taken in choosing his food and his poor little stomach became so weakened that he couldn't keep anything on it. As he was getting no nourishment from his food, he was gradually wasting away. Finally, in desperation, we sent for a child specialist and he said that my boy was starving to death. He gave him some medicine and advised a certain diet. The child did improve but somehow couldn't seem to get strong. This went on for four or five years and the boy still continued weak and puny looking. He could not play like other children without having to lie down and rest. My sister who lives on a farm near the sea, said that she could fix him up if I would send him to her. While I hated being separated from him, I was ready to make any sacrifice to get him strong. He was away from me for three months and it was with feelings of great excitement that I awaited his return as my sister had written me that I would be surprised when I saw my boy. When my sister got to the train, I could not believe that it was my own boy that she was leading by the hand. I never saw such a change in any child. He was fat and rosy and full of life with a happy smile. 'What on earth have you done to him?' I said. 'Why,' she replied, 'I simply made him live out of doors, gave him good food—made here's the secret. I gave him three bottles of Carnol. Before he had taken half a bottle his whole appearance had changed. He got heavier, his face took on a colour and he would run round for hours at a time.' The change in my boy is the most wonderful event in my life. New Method Of Reducing Fat

A new item from abroad informs us that the American method of producing a slim, trim figure is meeting with success in this country. This system, which has made such a wonderful impression over there, must be the result of exercising or dieting, or interference with one's meals is a mighty important and useful addition to civilization's necessities. This system can be obtained from any druggist the world over or from the Marmola Company, 4612 Woodward Ave., Detroit, Mich. For one dollar a case, which is a decidedly economical price, considering the number of tablets each case contains. They are harmless.

HEALTH CENTRE PLANS

Preparations are well under way for the formal opening of the St. John health centre on December 12, and an interesting programme is assured. Many committees have been assigned various tasks in connection with the formal opening and it will be a big day. Speeches will be given and music will be an important part of the programme. It is hoped to have hand music as well as orchestral music. The centre will be decked out in festive attire. Interest in the health centre extends to every individual in the community and among its board members are some of the most influential men and women in the city. Recently four new members were elected to the board—Mayor G. Fred Fisher, who ex-officio is a member of the board; Commissioner T. H. Bullock, Dr. Murray MacLaren, C.M.G., M.P., and Dr. P. L. Kenney. Dr. MacLaren and Dr. Kenney represent the medical profession on the board.

Memorial Candle

For Caruso to Last Eighteen Centuries (Canadian Press Despatch). New York, Dec. 7.—A candle of chemically treated bees' wax five feet in circumference at the base, sixteen feet high and weighing one ton, known as the Enrico Caruso Memorial Candle, has just been completed in the studios of Antonio Jelle and Brothers, and will be shipped to Pompeii, Italy, within a few days. It cost \$3,700 and was made on order of an orphan asylum in New York, of which Caruso was a generous benefactor. The candle will be lighted on the occasion of Our Lady of Pompeii, where Caruso last worshipped. It is expected to last eighteen centuries, burning at the suggestion of Cardinal Vannucelli, twenty-four hours on each All Souls' Day, which occurs on November 2. Five men spent four months making it.

Rheumatic Pains

Are relieved in a few days by taking 30 drops of Nether Seigle's Syrup after meals and on retiring. It dissolves the lime and other accumulations in the muscles and joints so these deposits can be expelled, thus relieving pain and soreness. Seigle's Syrup, also known as "Extract of Roots," contains no drugs, no strong drugs to kill or mask the pain of rheumatism or lumbago; it removes the cause. 50c and \$1.00 bottles at druggists.

MR. FISHER'S REPORT

Mr. Fisher reported that the Musquash development was a mistake. Mr. Butler then retired and Mr. Bodell addressed the meeting, arguing that the city should have offered a higher price for the company's property than \$2,577,000. He said that in his judgment the city had not treated the company fairly in offering that amount, but he felt it was inadequate. Mr. Bodell presented some further arguments and submitted something which he called an offer. This he wrote down as follows:

DR. CHASE'S OINTMENT

DR. CHASE'S OINTMENT. "When my little son was three months old he broke out in sores on his chest and arms. We did all we could to heal those terrible sores, but nothing did him much good. Finally I ventured on a box of Dr. Chase's Ointment and kept on using it. At last we were rewarded by the steady healing of the sores, and finally he was completely relieved of them. He is now three years old, and has had no return of the trouble since."

Every Merchant His Own Editor

A merchant talking with the writer said: "I consider my Daily Newspaper Advertising to be the most important thing I do each day. It is the only thing I do that the entire community are simultaneously informed about. 'I look upon my advertising space in a somewhat similar fashion, I imagine, to the way the editor looks upon the whole paper. He has so much space and so much copy to use. His job is to make his paper as interesting as he can, to as many people as possible. 'I haven't as much space as he has; therefore it is doubly important to me to make my space more interesting than his space—IF I CAN. 'Hundreds of people come into my store whom I can never hope to meet personally. So I figure that the next best I can do is to give them a definite impression of my personality through my daily newspaper advertising.' The basis of successful advertising for any local merchant is disclosed in that conversation. Reason it out. Issued by The Canadian Daily Newspapers Association, Head Office, Toronto.

THE CAUSE OF INFLUENZA SAID TO BE UNKNOWN

Remains an Unsolved Problem, Says American Medical Association Journal—Argues Against Bacillus.

Commenting editorially on a review of medical knowledge concerning the cause of influenza, written by Dr. Hans Zinsser, visiting bacteriologist to Presbyterian Hospital, New York, The Journal of the American Medical Association asserts that "the cause of the disease still remains an unsolved problem."

"Zinsser defines influenza as a mild fever of a few days," says the writer, "with sudden onset, characteristic pains in the head, back and limbs, and great prostration. Slight sore throat, mild

AGAINST CHILD LABOR IN THE UNITED STATES

The Congress of the United States, not much given to making Christmas presents, has the opportunity this year of doing something for the children of America worth many presents.

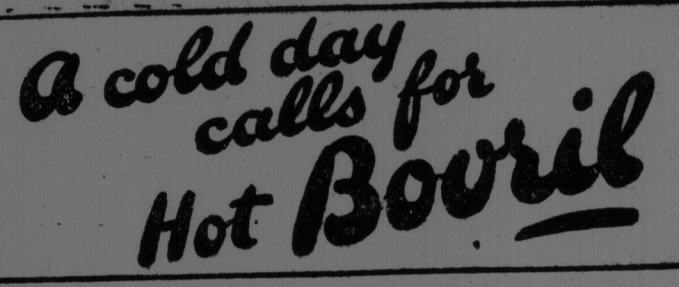

Americans, as a people, are so far won to the children's cause that they do not realize how much remains to be done and how urgent is the need of this grant of power to the national government.

The need of the constitutional amendment comes from the fact that this Federal law was, in May last, declared unconstitutional. A preceding Federal act, written upon a different theory, had previously been declared unconstitutional.

such labor or the extent of any prohibition thereof by Congress. The power vested in the Congress by this article shall be additional to and not limitation on the powers elsewhere vested in the Congress by the Constitution with respect to such labor."

Even in a short session, cannot room be found to consider this resolution, perfect its language, if necessary, and send the amendment on its course? Many months must elapse before the necessary states can ratify it.

bronchitis and conjunctival injection may be either primary or secondary. This is the form in which influenza makes its first appearance; as such, and free from complications, it causes few deaths, and to find the cause of this basic disease, which may be followed by highly dangerous secondary respiratory infections, is the etiologic problem of influenza.

gillus as the primary cause of influenza, Zinsser places the frequent failure to find it in the early stages of the disease; its presence in healthy persons and in patients with other diseases than influenza, notably measles, in which it may be found in as many as 65 per cent. of the cases; its occurrence, according to some observers, in a prodigious number of distinct strains with different antigenic properties, an observation, inviting further study, that does not harmonize well with the idea of the bacillus being the cause of a specific disease, and, finally, the failure of human inoculation with influenza bacilli to produce reactions like that of epidemic influenza, as well as the failure of injections of vaccines of the bacilli to protect against influenza.

"In our editorial discussions of influenza at the time of the 1918 epidemic, it was maintained that the influenza bacillus had not been shown to be the cause of influenza, and that wholesale injections of vaccines of this bacillus for the purpose of prevention were not warranted. The correctness of this view is upheld by the subsequent developments now summarized by Zinsser, whose primary friendliness to the cause of the influenza bacillus is obvious.

Commercial League.
The G. E. Barbour team took all four points from the Maritime Nat. Works team in the Commercial League game on Black's alleys last night. Tonight the teams of Emerson & Fisher and Amer-Halden-McCreedy will roll.

Table with columns: Name, Total, Avg. Includes names like G. E. Barbour, Belyea, Stammers, Seely, Pike, Cosman.

Maritime Nat. Works.
With four points desperately needed by the New Brunswick Telephone Company's team to keep them within striking distance of the league leaders coming into the home stretch in the championship race for the first series in the Commercial League, the phone men, with their backs to the wall, smashed two league records for the season, captured their four points and still entered into high hopes of landing on top. The Canadian National Express team was kept in the third string when Parfitt rolled 136, breaking the season's record by twelve pins, but even this high string failed to secure the point for his team. The phone men's total of 482 for the first string broke the previous record, also held by this team, by one pin, while their grand total of 1887 broke the record, again held by this team, by nine pins. Marshall's score of 118 and Jenner's of 111 were also special features of the match.

St. Andrew's won from Centenary in the Inter-church Badminton League game on Centenary courts last night by a score of 14 to 2. The play was closer than the scores would indicate and a large number of spectators were present. Rev. B. G. Fulton, pastor of Centenary church, gave a short address of welcome before the play commenced. The Centenary ladies served refreshments after the tournament. The results of the play were as follows:

champion boxer, would engage Ed. (Strangler) Lewis, heavyweight wrestler, according to Dan McKetrick, Dempsey's eastern representative. McKetrick announced the receipt of a \$300,000 offer for Dempsey's end in such a match. The offer, McKetrick said, came from Bob Matchis, Oklahoma City oil man. Billy Sandow, according to McKetrick, is prepared to post a forfeit of \$5,000 to bind the match for Lewis, and to wager \$25,000 on the side that the wrestler would best the boxing champion.
