## LEADERSHIP OF PREMIER FOSTER REPUDIATED AT A STORMY SESSION OF LIBERALS CALLED TOGETHER BY THAT HONORABLE GENTLEMAN

### GOV'T WILL AID THE DOM. STEEL CORPORATION

Arrangements Have Been Made for the Company to Proceed With the 25,000 Ton Ship Plate Contract on Gov't's Account.

### SATISFACTORY PRICE AGREED UPON

By Its Act the Gov't is Materially Assisting the Canadian Steel Industry at a Time When Trade Prospects Are Uncertain.

Montreal, July 10.—Official announcement, it is learned, will be forthcoming tomorrow from Hon. C. C. Balfour, Minister of Marine and Fisheries, as to the details of the understanding on which the Dominion Steel Corporation is to proceed with a 25,000 ton ship plate contract for account of the Dominion government. Directors and officials of the company, who have been in negotiation for the past few days with the minister at Ottawa, returned to Montreal today. While refusing to discuss the result of the several conferences, pending the official declaration by the Minister of Marine, it was learned that the negotiations had resulted in a satisfactory agreement having been arrived at, and that building operations on the big plate mill at Sydney would be resumed forthwith.

What modification was made in the original price of \$4.15 per hundred pounds for the ship plate was not held by the Steel Corporation officials who as previously stated, declined to give out any information until Hon. Mr. Balfour had made his official statement. That the price agreed upon by the representatives of the government and the company, however, is satisfactory to both interests is generally assumed. The original contract, it will be recalled, was for the delivery yearly of 50,000 tons of ship plate to extend over a period of five years, so that at the old price of \$4.15 per hundred pounds, the amount of money involved ran well over the \$4,000,000 mark. The modification in the contract in effect the government is materially assisting the Canadian steel industry at a time when trade prospects are uncertain, and rendering possible the establishment on a large scale of a ship plate branch of the industry which, with ocean tonnage in such great demand, is of prime importance to both the country at large and the steel operators.

When the contract was given in 1918 it was stated that the capacity of the new plate mill at Sydney would be sufficient to both fill the annual 60,000 ton requirements of the government and provide for additional demands which might arise. Most of the Canadian-built ocean going tonnage of the past four years has been launched from shipbuilding yards far removed from the source of steel supply, thus rendering inevitable heavier costs of production. With a large and modern plate mill, situated with basic requirements close at hand, as will be the case at Sydney, the possibilities for further developing the ship building industry of Canada are materially enhanced.

The representatives of the steel Corporation, who conducted the negotiations at Ottawa, were: Mark Workman, president of the company; William McMaster, the vice president; Hector Melnes, K. C., J. H. Plummer and E. H. Wood.

### SYDNEY RECEIVES BATCH OF FINES

Dealers in the Ardent Called Upon to Settle in Police Court.

Sydney, N. S., July 10.—Fines amounting to \$880 were contributed this morning to the civic treasury by three liquor sellers found guilty of offences under the N. S. T. A. by Magistrate Muggall at the city police court. S. Roberts, convicted of keeping for sale, was fined the sum of \$200 with costs; Edward Aswell, for selling, was taxed \$220; and Stephen Katchuk paid the cost a like tribute.

### BIG DIRIGIBLE MOVING ALONG AT FAST CLIP

Latest Reports from the R-34 Shows the Big Airship to Have Attained a Speed of from 75 to 80 Miles An Hour.

### SHOULD REACH ENGLAND SATURDAY

Strong Westerly Winds Are Proving a Great Aid to the Ship—In Constant Touch With Radio Stations.

Washington, July 10.—Aided by a westerly wind that sometimes reached a velocity of nearly forty miles an hour, the British dirigible R-34 tonight was well over the Atlantic on the return trip to East Fortune, Scotland, after a stay of 86 hours in America. The last message from the airship received today by the Navy Department, gave her position as 400 miles due east of New Bedford, Maine, and more than 1,000 miles from Mineola, Long Island, from which place she started last midnight. The dirigible, according to wireless reports received by the Navy Department throughout the day, averaged more than sixty miles an hour for the first fifteen hours of the return flight, and at times the big airship's speed reached between 75 and 80 miles an hour. The dirigible thus was making better time than at any period of the flight to this side of the Atlantic, and, if weather conditions remain favorable, naval officers here believe Major G. H. Scott, commander and members of the R-34's crew will see British shores early Saturday.

The first word heard from the R-34 after the big dirigible left American shores this morning was a radio message sent at four a. m., giving the ship's position as 150 miles due east from Long Island. Direct communication was maintained with the Navy Department thereafter. At ten a. m. a message said the dirigible was then making good 58 knots an hour, equivalent to about sixty-four land miles. An hour later the R-34 signalled that the wind was becoming stronger, and that the dirigible's speed had reached eighty miles an hour at times. A request was sent to the weather bureau late today that weather reports be sent to the R-34 regularly during the trip to England in order that the dirigible might be kept informed of unfavorable weather conditions along the route. Another radio message asked all reports from vessels along the path being followed by the R-34 be wireless.

The last weather report sent to the R-34 from here tonight, said that a storm centered over Newfoundland was moving northeast, and that another over Ontario was moving toward Newfoundland. Strong westerly winds were predicted over the western Atlantic as far east as the fifty-fifth meridian, and probably much farther. The weather report compiled by Forecaster Howie concludes: "You will have strong westerly winds next 24 to 36 hours with some clouds and a falling barometer. My advice is to keep well south, and take advantage of westerly winds attending rapid movement of disturbances north of latitude 45. Good luck and a quick trip."

### "LIB" CONVENTION TO BE HUMMER, SAYS MR. MCKENZIE

Sydney, N. S., July 10.—"There is every indication that the National Liberal Convention in Ottawa next month will be attended by unequalled success," said D. D. McKenzie, M. P., house leader of the Liberal party, on his return to North Sydney from Ottawa.

"The information which comes to me and other members of the National Committee," Mr. McKenzie continued, "indicates that there will be a complete representation of delegates from all parts of the Dominion. In addition, there will be a very large number of adherents of the party who wish by their presence at the convention to show their loyalty to Liberalism and their confidence in its future. The largest auditorium in Ottawa—Howick Hall at Lansdowne Park—has been engaged for the occasion, and the convention, which it will accommodate, promises to be the greatest political gathering Canada has known."

### MR. FOSTER'S PROPOSITION TO ELECT FOUR DELEGATES FROM ST. JOHN DEFEATED

At Various Stages of Last Night's Meeting There Was Much Disorder and Feeling Ran High on Both Sides—The Old Line Liberals Not Jubilant, Feeling That the Result of the Meeting Was a Deathblow to the Hopes of Liberals in This Constituency—Mr. Foster Opposed to Catholic Delegates.

After a stormy session, marked by extraordinary scenes, the public meeting of Liberals called last night by Premier Foster repudiated his leadership and voted down a motion to elect four delegates from St. John to the national convention. The scrutineers did not announce the result of the vote, but it was in about the proportion of two to one. The delegates elected at the old convention will therefore represent St. John at the Ottawa convention, Albert has the right to elect two delegates, but they have not yet been chosen.

Some of those present pleaded that an effort be made to effect a reconciliation and offer the Liberal-Unionists representation at the national convention. Others quite as plainly did not want anything to do with the Liberal-Unionists.

At various stages of the meeting there was much disorder and feeling ran high on both sides. The old line Liberals were not particularly jubilant over their victory, the feeling being that the result of the meeting was a deathblow to the hopes of the Liberals in this constituency. After the meeting adjourned Mr. Bentley of St. Martins went about wagging a despondent head at his friends and exclaiming: "Well, we have committed suicide."

After a good deal of squabbling Mr. Foster was elected chairman by a substantial majority, but it was soon apparent that while the meeting was willing to accord every courtesy to the premier it was not going to accept his leadership, or allow him to ignore the action of the old convention. Mr. Foster faced the music like a man, however, and made a good fight. But his position was hopeless from the start, and the wrath of the old Liberals at his determination to run this constituency would not be appeased.

In opening the meeting Premier Foster said he was the first time he had faced a political audience in St. John since the campaign of 1917, and he wished to say a few words on provincial politics.

Our victory, he said, was a notable one, even in St. John, if we consider all the forces of civilization and money arrayed against us. It was notable because of the election of Dr. Roberts, who though not a professional politician is a valued member of the government and a good representative of St. John.

Mr. Bentley was only defeated by 100 votes. If all the votes had been counted he would have been elected, Mr. Sinclair had been defeated, but he now had a position in which he could serve the workmen.

Continuing, Mr. Foster expressed his regrets at the passing of Mr. Barnaby and paid a tribute to his memory.

It may be soon—it may be some time—that opportunity will come to discuss provincial politics, said Mr. Foster, and went on to say that the opposition in the legislature had not severely criticized the policies of his government. The Standard had not been criticizing his policies in a broad manner, but merely heaped its abuse upon him day after day in order to divert attention from the record of the opposition. The Standard criticized his war record—but he proposed to put the Standard directors under inspection later on, and their records would be exposed to the public. The Standard directors, he said, had permitted homes in this province to be looted while the soldiers were away. They knew about these things, but did nothing.

### Wanted Delay.

Continuing, Mr. Foster said he had been consulted about the calling of a general convention, and he had counselled delay, believing that the longer it was put off the better the chance of reuniting the party. It had been decided to hold the national convention in August, and he had been asked to assist. He was not sure some provincial premiers, who put their own interests above those of the Liberal party, at the Ottawa conference the westerly premiers were not asked if they had shed their unwelcome coats, and he was not asked what his coat was. The premiers of the province were simply asked to undertake the calling of conventions. After various trips he served in St. John on June 21st, and the first opportunity he telephoned Dr. Emery whom he had considered a friend. When Dr. Emery came to see him the doctor assumed an attitude that surprised him.

Mr. Foster said the tariff would be a great issue in the next election as high prices and industrial unrest were attributable to the tariff, and they should have the support of the Liberal Unionists in shaping a tariff secretary. If they wanted to win, they must have harmony and unity; they would need to consolidate their forces. The Premier then suggested that a secretary be appointed, and mentioned a name. But the meeting insisted on the selection of Mr. Hensberry, who was secretary of the last convention.

Michael Kelly—"Now we should elect a chairman."

Mr. Foster—"Very well. But having called the meeting I am entitled to preside."

Cries of "No" and "Preside."

A delegate wanted the call to a convention.

### Mr. Carvell Coming To Consult With Premier Foster

Special to The Standard. Ottawa, July 10.—Hon. F. D. Carvell left for home, this afternoon, and it is understood before he returns he will have an interview with Hon. W. E. Foster in regard to the Liberal convention delegates and other questions. It is again reported that he will retire from the cabinet during the present month, but he denies that he is to become head of the Dominion Court of Commerce. Instead he will resume the practice of law in Woodstock and will retain his seat in parliament. As to his future, that too is uncertain. Evidently, it is believed, he will return to the Liberal party, but that will not be for some time, although next session may find him seated in "No Man's Land," as a sort of independent Liberal, a position similar to that occupied by Hon. W. S. Fielding during the greater part of the present session.

### Dutch Sends Curt Reply in Answer to Allies' Note

Say They Are Conscious of Their Internal Obligations and Must Be Left Free to Exercise Their Sovereignty.

Paris, July 10.—The Council of Five received today a reply from Holland in answer to the council's note regarding the reported escape from the island of Wieringen of the former German crown prince. The Dutch note, in which were said to be rather curt terms, pointed out that the rumor of the escape was unfounded, and expressed surprise at the warning given by the council.

### AUSTRIANS AND HUNGARIANS AT LOGGERHEADS

High Tension Exists Between the Two Governments and the Hungarian Minister is Recalled from Vienna.

Bulletin—Paris, July 10.—High tension between the Austrian and Hungarian governments is indicated in despatches received here today from Vienna and Budapest. The Austrian foreign minister, Dr. Otto Bauer, has demanded the recall from Vienna of the Hungarian minister, Bela Kun, Hungarian Soviet head, according to a Budapest despatch, has addressed a note to the Austrian government, protesting against what he calls a press campaign against the Hungarian legation at Vienna. Documents, used in this campaign, the note said, are valueless depositions. Bela Kun asked satisfaction for the official encouragement given this campaign.

A Voice—"They are."

Other Voices—"Everybody had an opportunity to attend."

Called an Autocrat.

Continuing, Mr. Foster said it had been stated that he was an autocrat—that he wanted to rule with an iron fist. "This was not so; he had no desire to rule, but he felt that the purpose of the national committee had not been carried out at the recent convention, and as a representative of the national committee he had felt a duty to call a convention in which all the Liberal elements should have representation."

Mr. Foster said the tariff would be a great issue in the next election as high prices and industrial unrest were attributable to the tariff, and they should have the support of the Liberal Unionists in shaping a tariff secretary. If they wanted to win, they must have harmony and unity; they would need to consolidate their forces. The Premier then suggested that a secretary be appointed, and mentioned a name. But the meeting insisted on the selection of Mr. Hensberry, who was secretary of the last convention.

Michael Kelly—"Now we should elect a chairman."

Mr. Foster—"Very well. But having called the meeting I am entitled to preside."

Cries of "No" and "Preside."

A delegate wanted the call to a convention.

### THE CHAMBER OF DEPUTIES IS NOT SATISFIED

French Peace Delegation Criticized for Failing to Insist Upon the Necessity of Pooling the War Expenditures Among the Allies.

### LOOK TO ALLIES FOR MONEY AID

The Financial Situation of France Said to Have Improved Satisfactorily During the Last Three Months.

Paris, July 10.—In the chamber yesterday several deputies criticized the government for the vagueness of its financial policy, and for its delay in imposing additional taxes. The French peace delegation was also criticized by Raoul Peret, former minister of commerce, and chairman of the budget committee, for failing to insist upon the necessity of pooling the war expenditures among the Allies.

"The situation in the treasury," he said, "is not sufficient. We have not obtained from our Allies the financial cooperation which, in all justice, we had a right to expect. We must apply to the co-operation of the Allies, when the moment comes, to constitute the League of Nations. Cannot we appeal to those across the sea, who have kept their riches intact? That is the real question."

M. Peret expressed the fear that France, left to herself, will be unable to balance her resources with expenditures with sufficient rapidity.

M. Klotz, the minister of finance, in reply, said that the signature of the treaty had not foreclosed the negotiations.

"We can, and we will," he said, "pursue with the United States and Great Britain the necessity of financial union. Conventions to that end are already going on and will be followed up with all the patriotism of which we are capable."

M. Klotz said that the financial situation had improved in the last three months. While during the first quarter the government was required to apply to the Allies for advances totaling 4,500,000,000 francs, only 1,850,000,000 francs had been advanced during the second quarter, while the excess of tax receipts over the budget estimates had increased to 350,000,000 and the current bond sales were growing.

M. Peret estimated the present deficiency at 12,000,000,000 francs annually.

### DON'T CARRY BOOZE ABOUT STREETS OF MONCTON

Two Belgians, Each With a Suit Case of the Contraband, Forced to Pay a Fine for Their Daring.

Special to The Standard. Moncton, July 10.—Two Belgians en route from Montreal to Inverness, N. S., and each carrying a suitcase full of old rum, seven gallons in all, gave the city police a lively chase this afternoon. The foreigners arrived on the N. T. R. train and had to wait over for the Ocean Limited. While they were strolling around with their grips they became objects of suspicion. Chief Rideout interviewed them, and succeeded in getting one to the police station, while the second made a break for liberty. Before he was captured he ran a distance of two miles, being found in a barn at Lewisville. When the strangers were arraigned this afternoon they were convicted of violation of the Prohibition Act, and each fined \$102, which they paid, and left town by the first train, leaving their wet goods behind.

Some five other prohibition cases were on the docket today, one party being fined \$50, and the other cases standing over. Some of the stuff being sold by the bootleggers is home brew and brought in from the country districts.

Ottawa, July 10.—The liner Corcoran with 1,206 of whom the majority are soldiers and their dependents, will reach Quebec on or about July 14, according to militia department advices. She carries 156 officers, 421 other ranks, 292 women, 287 children, 37 infants, 21 members of the nursing service and nurses.

### HON. FIELDING TO ATTEND THE CONVENTION

Preparations for the Convention of Liberals Divide Honors With Cabinet Reorganization in Keeping Political Pot Boiling.

### PARTY LEADER NOT IN SIGHT

Most of the Riding Conventions Have Been Held and Delegates Chosen—New Brunswick Lagging.

Ottawa, July 10.—Credentiahs have been extended to the Hon. W. E. Fielding to attend the National Liberal Convention in August. It is expected that he will be in attendance with other Liberals who left Sir Wilfrid Laurier on the conscription issue. Preparations for the convention here with the prospective cabinet reorganization is keeping the political pot boiling. Reports received by the convention organizers here, indicate that throughout the various ridings, there seems to be a free mind on the question of a successor to Sir Wilfrid Laurier as permanent chief of the Liberal party. There is indication also, it is stated of a general desire for the laying down of a "thoroughly progressive" policy.

When the call to the convention, was issued, invitations were sent to a number of organizations outside party limits. While, generally speaking, they will not send delegates to the convention, a number will present their views. The Canadian Brotherhood of Railway Employees has advised that it will have representatives present on the opening day of the convention to present its views. The proportional representation society has asked permission to present the case for proportional representation. In Quebec and Ontario most of the riding conventions have been held and the delegates chosen. In Nova Scotia nearly all the delegates have been chosen, but in New Brunswick, a number still remain to be appointed. Arrangements are said to be well forward in the Western Provinces although the Saskatchewan convention will be held till the middle of the month.

### MARSHAL JOFFRE TO BE HONORED BASTILLE DAY

Will Lead Troops in Triumphant Parade and Then Take a Seat by the Side of Pres. Poincare.

Paris, July 10.—Marshal Joffre, it was announced today in the lobby of the Chambers of Deputies, will lead the troops during the first part of their triumphant march here Bastille Day, July 14, but on arriving at the presidential palace to salute President Poincare, he will leave the procession and will be invited to take his seat beside the President.

More than one hundred deputies, distinguished with the place given Marshal Joffre in the parade, introduced in the Chamber a resolution, which they signed inviting the government "to give Marshal Joffre and commanders of armies and army corps under his places in the victory parade merited by their eminent services in the battle of the Marne, which saved the country and civilization."

An official note was issued today saying:

"The newspapers announce the government has not invited Marshal Joffre to participate in Monday's parade in the place which is due him. This news is false."

### N. S. CLERGYMEN TO MONCTON

Moncton, N. B., July 10.—Rev. J. A. Ramsay, for nearly twelve years minister of St. Andrew's Church, at New Glasgow, N. S., has accepted a unanimous call extended to him by St. John's Presbyterian church in Moncton. Rev. Mr. Ramsay succeeds in the Moncton church Rev. T. Porter Brown, who recently accepted a call to Newark, N. J.

## SUSSEX TO HAVE CENTRAL BUILDING FOR THE G. W. V. A.

Citizens Will be Asked to Contribute \$3,000 to Make the Enterprise a Success.

Special to The Standard.  
Sussex, July 18.—The Great War Veterans of Kings county will shortly ask the public to contribute three thousand dollars for quarters for a central building where the interests of all the men in the county may be looked after. A committee from the citizens, the Women's Institutes and the G. W. V. A. will have the matter in hand, and an appeal will be made to the public for the modest amount mentioned above. Only by a permanent secretary can the work of looking after the returned men can be done satisfactorily. There are many questions arising from time to time, which require much time to settle, and it is impossible to handle the work satisfactorily, except through a permanent organization. For instance, it is proposed to appoint a resident physician to look after men residing here. In the past, these patients had to go to St. John. The new order of things was brought about by the G. W. V. A. and Major McKay is expected here shortly to make the necessary arrangements.

The idea of the Veterans is to buy the church, formerly occupied by the Presbyterians, and have it renovated, so that it will meet the requirements of the organization. A meeting will be held shortly to arrange for a systematic survey of the county for funds. A membership drive will also be conducted and it is proposed to enroll the great majority of returned men in the G. W. V. A.

Dr. J. U. Burnett has been appointed military medical officer for Kings county. This appointment was made at the request of the G. W. V. A. All discharged men are entitled to free medical treatment for one year, and all men discharged as medically unfit, will receive attention without charge for life. It is necessary that the applicant to dental attention. Dr. Reid being the local appointee.

Rev. H. S. B. and Mrs. Strothard left on Friday morning for Mr. Strothard's new charge at Chatham, N. B.

Rev. Father Lockary, who has lately returned from overseas, was a recent guest of his sister, Miss Margaret Lockary, at her home on Prince William Street.

Mrs. Guy J. Robinson and young daughter, Beatrice, of New York, are guests of Mrs. Mary Maxwell at Moore's Mills.

Rev. Mr. Holmes arrived from Taymouth on Thursday last to assume the pastorate of the Methodist Church.

Many friends learned with deep regret of the death of Mr. Joseph M. Maxwell, which occurred at his home at Moore's Mills, on Wednesday of this week. Mr. Maxwell had suffered from a long and lingering illness which was borne with great patience and fortitude, and his death, while not unexpected, was nevertheless a shock to his relatives and friends. He leaves behind him a widow, mother, four sisters and one brother to mourn his loss. Much sympathy is expressed for them in their bereavement.

Ch. Ralph Alisander arrived from overseas this week and is receiving cordial welcome.

Capt. A. Watson Gregory of St. John, spent the week-end in town, the guest of his mother, Mrs. Thomas Gregory.

A number of soldiers have arrived from overseas this week and are being cordially welcomed by relatives and friends.

## RESTORING RUSSIA.

Bolshevism in Russia is on the defensive. After more than two years, during which time that entire empire has suffered such horrors as history has never before recorded, the forces of the present so-called government are facing defeat on all sides. During the past few weeks, as a result of co-operation between the Allies and the anti-Bolshevist armies, punishment has been inflicted on the Reds which has created consternation in the ranks of the Bolshevist rulers in the great and elsewhere. In the north, on the Archangel front, Russian forces supported by the Allies have resumed their advance and in a number of engagements have killed, wounded and captured many of the enemy. With sufficient supplies and favorable weather conditions these troops are in a position to drive the Bolshevist marauders out of that entire territory. In the south the Crimean Peninsula has been cleared by General Denikin, who continues to advance along the Volga, driving all before him. And in Siberia Admiral Kolchak, now recognized as the supreme governor of all Russia, has met with far greater success than can be appreciated by the meagre despatches coming through. Perhaps even more important than these military advantages is the fact that the Allied governments, following the step taken by General Denikin, have recognized Kolchak as leader of the all Russian party and have arranged for support to be given his forces. Apparently the utmost harmony exists between the two great leaders who up till quite recently have been acting independently of each other, and between Kolchak and the Allied powers. For the first time since Bolshevism obtained control there is unity of action in the opposition, leading to the belief that before very long results of a most important character may be anticipated. Indeed even now there are rumors of the evacuation of Petrograd by the Red element, of Lenin's desire to proclaim a dictatorship as a last resort and of a gradual awakening among the mass of the Russian people in various portions of the Empire against the brutalities inflicted by the revolutionary forces. Thus with German support withdrawn, with co-operation on the part of the Allies and with a gradual revivification of feeling among the Russians themselves it is not unreasonable to anticipate that before long something resembling order may be restored in what most unfortunate country.

## OUR ROAD POLICY.

The farmer who mortgages his property for all that it will carry and who with the proceeds puts a coat of paint on his verandah, a flower bed in his lawn and a fancy bathroom over the kitchen, but who fails to provide a cook stove, bed, or carpet for the floor, spends his money foolishly. The Minister of Public Works who hands out thousands of dollars on little stretches of main highway to be used by a few scores of motorists and who ignores the hundreds of miles of ways over which the farmers of the province must haul their goods, is spending his money foolishly. It would be very nice to find our trunk roads kept in good condition, but the completion of patches two or three miles long on highways extending one hundred miles is not sufficient to justify the contention that these highways are fit for travel. Not so it is reasonable to allege that because of these few odd strips of durable paving the roads of the Province are being put in excellent condition. The people who have to use the roads know otherwise. The farmers hauling heavy loads from place to place, from their farms to the marketing centres, and who are only occasionally compelled to make use of the so-called trunk roads, realize the utmost criminal neglect which is being displayed by the present Provincial Government in this most important work. We have had one mortgage after another placed on the credit of New Brunswick, trespassed finance which burdens every man, woman and child in New Brunswick with additional taxation for as long as they live, and we have seen this money handed out to political friends in the shape of extravagant appropriations for repair work on roads which the majority of the people never use. Some of these days we will wake up to the fact that the credit of this province has become so involved that further borrowing will be rendered practically impossible because of the meagre security remaining. And for all, if the present rate of unnecessary expenditure is maintained, we will have nothing to show of value to the people.

## WHERE DO THEY STAND?

There is very natural speculation among Liberal and Conservative Unionists as to the attitude of Messrs. Carvell and Elkin touching the situation which has arisen in the ranks of the Liberal party in St. John-Albert in view of the fact that these representatives, one the acknowledged leader of the Unionist party from

New Brunswick, the other a federal member from this constituency, are believed to be very favorably disposed toward Hon. Mr. Foster. It is a matter of more than mere curiosity to men to learn just what their sentiments may be. So far neither one has by his conduct offered evidence or anything other than a desire to support the party to which he is now attached, nor has there been any public intimation on the part of either—although there are rumors in the case of Mr. Carvell—of any indication to retire from Union and again become associated with Liberalism. Yet the fact that the Liberal newspapers which support these two men among others are also supporting the party opposed to them, creates a condition which is, to say the least, somewhat puzzling and which is creating in the minds of a certain element an impression that there is something beneath it all which is deserving of explanation.

The people of St. John-Albert who elected Mr. Elkin and the Unionists of New Brunswick who support Mr. Carvell are entitled to know at the present juncture what the intentions of these representatives may be, and it is certainly in the interests of the men themselves that they make perfectly clear at the earliest possible moment their attitude toward the position now in process of reorganizing with Liberalism. Mr. Carvell and Elkin intend to remain faithful to the policies of Union Government it will be decided to their advantage to say so clearly and definitely and thus relieve a situation which is fast becoming embarrassing to all. Failing such action they leave themselves open to a suspicion which while probably not in any way justifiable will nevertheless be a matter of regret.

## PAYING FOR PAVING.

Commissioner Jones, who is to be in charge of the Water and Sewerage Department for the next nine months, is credited with the suggestion that whether permanent paving shall be paid for by abutments, from general assessment, or by bond issue. What's the use? We already have a Local Improvements Act under which abutments are expected to pay a portion of the cost of construction in front of their properties, which Act has proven a complete failure. Abutments will not pay, and rightly so, for the streets upon which paving has so far been suggested are those in common use by practically all residents of this city. And in view of the apparent indifference of City Hall towards carrying on anything like a systematic programme, it should not be expected that these owners of property will willingly meet the required expenditure. If we had in existence a definite policy under which certain work would be carried on yearly, then the situation might be different and there would be some justice in calling upon abutments to contribute, in the realization that eventually all would be expected to do their share.

The suggestion of paying for paving out of general assessment is equally absurd. There is no general assessment to pay from. Already our ordinary taxes are reasonably high and to add to the general assessment each year a sum sufficient to accomplish anything commensurate with the needs of this department, would have the effect of placing St. John in a very unfortunate position with respect to the rate of taxation. It is a generally accepted axiom that the cost of works of a permanent nature may properly be spread over the lifetime of those works. In accordance with this, a bond issue is the reasonable solution of our annual problem and indeed will be found the only plan by which we may ever hope to carry on this necessary work.

The difficulty in the way of St. John is not so much in respect to the mode of payment as in securing at the head of affairs a man with sufficient energy and determination to do something in the way of actual work. Perhaps if Mr. Jones will suggest a plebiscite as to whether renewals of existing water mains—which renewals will not produce any increased revenues—should be paid from water assessments in previous years, or provided for by additions to our capital debt, he may find a feeling in favor of the first named plan, and while he is at it he might just as well inquire the opinion of electors as to the advisability of replacing a water main, in which no leak has ever been discovered, merely because of the fact that it had been underground for a number of years.

## MR. FOSTER REPUDIATED.

By a large majority the meeting of Liberals called by Premier Foster repudiated his leadership, and left the old Liberal in control of the situation. While the meeting appeared to entertain very cordial feelings towards Mr. Foster personally, the opposition to his attempt to impose himself upon the party as a leader, and to set aside the election of the delegates to Ottawa chosen at the recent convention of duly elected

ward representatives, was pronounced and bitter. The discussion disclosed that there is a breach in the local Liberal party which is beyond any hope of healing before another election. Appeals for harmony and unity fell on deaf ears; neither side was prepared to propose a practical basis of compromise; and the question of leadership was fought to a finish in this constituency was committing suicide.

Mr. Foster has no reason to be proud of the result, and the reaction upon his prestige as leader of the Provincial party will be of a serious character. When the smoke of the conflict clears away his quite unnecessary intervention will be blamed for widening the breach in the Liberal ranks, and rendering almost impossible any further efforts to reunite the party in this constituency. The burden of the complaints uttered at the meeting was that Mr. Foster desired to play the autocrat, and the Liberal party in this constituency has had a sufficient of autocratic bosses. In failing to co-operate with the chairman of the local Liberal Association and the defeated candidates, who in accordance with the instructions of the National Committee had the right to call the local convention, Mr. Foster set himself in defiance to the local leaders of the old Liberal and to the recognized procedure of the party; and the intervention put upon his high-handed action by his own meeting was that he was more concerned to assert his authority than to promote unity and harmony within the party. With open eyes a majority decided that Mr. Foster's leadership, which he sought to impose upon them in a way that struck at the roots of their respect and their right of self-government, was not worth the price of a vague prospect of victory. There is the rub. Mr. Foster will not be easily forgiven for recklessly wrecking the party in this constituency.

## WHAT THEY SAY

**Crisis Impends.**  
New York Times—That a crisis impends in our relations with Mexico is not to be doubted. Intervention may not, and should not, be necessary. It is devoutly to be wished that the Carranza government may come to its senses and by displaying a capacity to settle the internal affairs of the country, avert resolute action by the United States in defense of its citizens in Mexico.

**Poland's Resurrection.**  
New York Tribune—That a nation is more than a color on the map, or even a collection of individuals bound together by cultural affinities, is shown by the rebirth of Poland. The marvelous resurrection seems to support the mystical idea, tinged with romanticism, that a nation is living, breathing spirit which pursues its own life and enforces conformity to its will, not the mystical idea, tinged with casual association.

**No Fooling Here.**  
New York Star—No one has any doubt as to how much Mr. Wilson feels his audience on the other side of the Atlantic when he tells them the American people are not to be fooled behind him, or whether he fools them at all. But virtually every single bit of voting testimony that has been produced in this country since the election went to the polls in November, 1918, is proof positive that nowadays he doesn't do much fooling of anybody at the ballot boxes here at home.

**Tempting Mexico.**  
Philadelphia Public Ledger—There is not a great deal to commend in the past handling of the Mexican situation by our own government. There have been too many alterations of policy, firmness and aggression have been succeeded by "watchful waiting," we have undertaken tasks which have been far beyond our power to perform, and it is not to be wondered at if Mexican officials have under-estimated our power or been tempted to stretch our patience too far.

**Daring Suggestion.**  
Springfield Republican—It may appear daring to offer advice to a man who is now generally supposed never to accept such offerings, but our bit of common counsel to the President is to call off his speaking tour, seek a conference with the elder statesmen of the republican party and propose that they attain a domestic peace without violence concerning the convulsed peace of the world (Paris edition) before the Senate goes into prolonged convulsions of debate on the question of ratification.

**Lemuel Ely Quigg.**  
New York World—There was no false pretense about Lemuel Ely Quigg as a party worker or professional lobbyist. He grew up under a system that has fallen into disfavor, and he held his faith in it after it became obsolete. Through the assistance of the corporations with politics that was maintained when Paik was boss, a responsible party organization did business on a straight commercial basis. So long as they engaged to the proper quarters and made satisfactory terms, it was recognized that they should pay for what they got and get what they paid for. Nature of persons in this service a far sense of honor and a certain reserve were demanded for reasons of prudence.

LANGWIDGE.

Langwidge is what we express our thoughts with and keep people from finding out what we are really thinking. The langwidge you speak depends on what country you were born in just by luck without your consent. If a child born in France started to speak German his parents would look at it in surprise. Everybody thinks their own langwidge is the only one worth talking and when you see 2 foreigners talking forin together you wonder how they can understand each other. If it wasn't for langwidge you wouldn't know the names of things. Several words in a strale row with a period on the end make a sentence, and several sentences sometimes make a book. Most books should start to be red at the beginning, but a dictionary can be started anywhere with equal pleasure. When babies want something they make sounds which nobody can understand except themselves, only they are such feeble sounds that the babies generally get what they want anyway. This proves that langwidge is more of a luxury than what it is of a necessity. When a dog wants to express a thought very much he can bark and wag his tale at the same time, so if you don't understand him at one and you mite at the other.

first to one and then to the other of his ears, and saying: "You see this, Mr. X? Well, it just goes in here and comes out there." Several words in a strale row with a period on the end make a sentence, and several sentences sometimes make a book. Most books should start to be red at the beginning, but a dictionary can be started anywhere with equal pleasure.

Yes, a woman should trust her husband, but it is not always advisable to let him know it.  
He—"Do you think your father would consent to our marriage?"  
She—"He might. Father's very eccentric."

Clarice—"Kitty married a man a good deal older than she is, so I hear."  
Penelope—"Older? Why he's twice her real age, and three times the age she says she is!"

**FRANCE IS FACING A DESPERATE ISSUE IN WAR FINANCES**  
Spent With Open Hand During Hostilities and Now Must Tax to Extreme in Order to Pay Her Debts.  
Discussing the financial situation of France, the Paris correspondent of "The London Morning Post" says: "The new budget is creating a sensation throughout the country. Mr. Klotz's idea is to tax people on their expenditures, but it remains to be seen whether his proposals will not hamper trade that a loss to the revenue will result from the new measures. As has been well said by a Frenchman, England is perfectly prepared to accept taxation, but will rise up in arms whenever her personal liberty is attacked, while France, and incidentally America, will accept all sorts of infringements on personal liberty, but are entirely recalcitrant so far as taxation is concerned."  
"If Mr. Klotz's proposals go through we are to have matches at two pence a box; we are to have a rain of fines for any person who has evaded taxation; the state is to have the lion's share of successions; sales of all sorts are to be heavily taxed; drinks will cost more, and sugar, coffee, electricity, gas and tobacco are to be raised in price."  
"The Frenchman also is to realize the necessities of the income tax system. From the fiscal standpoint, the income tax is perhaps one of the most interesting problems. When this tax was first introduced in 1915 it was a very mild order and its aim was primarily to establish a sort of census of income."  
"Protests of all sorts are heard as to the new taxation. People say that life is becoming absolutely impossible, and a good many talk of the possibility of clearing out to the islands, and restarting life under conditions where the problems are simpler and more elementary. Proposals of this sort have hitherto neither been meant nor taken too seriously, but I was surprised today to learn that a well known publicist had recently been persuaded only with difficulty from making such a step. The man who persuaded him remarked: 'In view of the present situation I doubt very much whether I gave him sound advice.'"  
"I was asked today whether it was

true that England was preparing to nationalise her coal mines. The only answer I could give was the Asquithian 'Wait and see.' An acute publicist said: 'The experiments you are making are in our eyes experiments of the most dangerous character. If you carry them through they may result in the entire collapse of European civilization.'"  
"We went on to discuss the budget. Frenchmen here recognize fully that the position of France is very different from that of England. They point out without ill-feeling that for forty-four years they were compelled to bear the burden of heavy armaments, and that France entered on the war with an overburdened budget, and carried on the war from hand to mouth, and that she deliberately pursued a policy of financial ruin. She needed money, and took it wherever she could get it. Now for the first time—bitterly disappointed by the fact that Germany is not minding her obligations—she is making a gallant effort to honor her signature. It is easy to criticize Mr. Klotz's proposals.

"I have even heard financiers stating in the exaggerated language that is common to the Bourse, that they would like to meet him in a dark lane and execute summary justice on him. But Mr. Klotz is faced by a well nigh desperate situation. The paper circulation has reached gigantic proportions, and the debt is overwhelming, but the debt and paper money have to be redeemed. She can meet her obligations in all sorts of ways. She can make a levy on capital; she can raise money by the sale of government securities; she can repudiate her loans; every one is agreed that this policy would be suicidal, both for France and for Europe.

London, July 10—The Government  
has decided to appoint a parliamentary

legislative evolution along the lines of  
Australia. This was announced to-  
day in the House of Commons by An-  
drew Bonar Law, Government leader.

**International Settlement of  
Air Power Advised to  
Avoid Future Dispute.**

Great Britain is actively engaged in  
laying the foundation of a world-wide  
aerial supremacy as complete as was  
her maritime supremacy prior to the  
war. Her plans to achieve this important  
object were started even before  
this country entered the war.

Moreover, she is completely con-  
vinced that aerial transportation will  
revolutionize the widespread commerce  
and firmly weld it together by the  
speed that is the chief attribute of air-  
craft.

Realizing the importance of aerial trans-  
portation in the economic develop-  
ment of the world in general, and  
the reconstruction period after the  
war in particular, the British govern-  
ment appointed the Civil Aerial Trans-  
port Committee May 22, to "consider  
and report to the Air Ministry with re-  
gard to:

(1) The steps which should be  
taken with a view to the development  
and regulation after the war of avi-  
ation for civil and commercial purposes  
from a domestic, imperial and an in-  
ternational standpoint.

(2) The extent to which it will be  
possible to utilize for the above pur-  
pose the trained personnel and the  
aircraft which the conclusion of peace  
may leave surplus to the requirements  
of the naval and military services of  
the United Kingdom and overseas do-  
minions."

**Northcliffe Heads Body.**

The committee was presided over  
by Lord Northcliffe, and included  
many prominent citizens of the British  
Empire. Its report was completed and  
presented to Parliament May 11, 1918,  
and has just become available to the  
American public through the Manu-  
facturers' Aircraft Association. The  
published report has several important  
passages, conclusions and recommen-  
dations omitted.

The committee urges government as-  
sistance to the British aircraft man-  
ufacturing industry as the paramount  
essential for the "safety of the em-  
pire."

To aid in bringing world-wide aerial  
supremacy to the British Empire two  
of the proposals forwarded follow:

(a) That an offer should be made  
by the home government to the larger  
self-governing dominions and to Egypt  
and India to supply a definite number  
of machines, free of cost, as soon as  
they become available conditionally on  
these countries, in the meantime sub-  
mitting a detailed scheme for the for-  
mation of units of an imperial air  
force.

(b) That the government should  
assist in the event of the forma-  
tion of companies for aerial trans-  
port services or other commercial  
purposes, they should be prepared  
to contribute to the purchase of ma-  
chines at a reduced price.

**Army to Come First.**

The report lays down the possibility  
of commercial air routes throughout  
British dominions, but says in con-  
nection therewith that an army con-  
tingent in from 125. The fire de-  
partment were soon on the scene and  
the blaze was extinguished before  
much damage was done.

**LUMBER PILE FIRE.**

A fire broke out a little after noon  
yesterday in a lumber pile in Murray  
& Grey's yard at an alarm was  
rung in from box 128. The fire de-  
partment were soon on the scene and  
the blaze was extinguished before  
much damage was done.

**UNION MAN A DIRECTOR.**

The New Brunswick Power Com-  
pany has notified the union that one  
of their number may be elected as a  
member of the board of directors and  
has named July 12 as nomination  
day, the election to be held on July 22.

**World Agreement Needed.**

"The right to pass across other na-  
tional territory without let or hind-  
rance, relief from varying terms and  
conditions attaching to flight which  
may be onerous and irksome, the ab-  
sence of customs restraints or tariff  
restrictions, and generally the absence  
of the apparatus for hampering or ar-  
bitrarily routing trade are all wanted.  
On all these grounds it is submitted  
that the case for an international set-  
tlement is strengthened."

The committee has exhaustively  
studied the possibilities of aerial trans-  
port with rigid discipline. The  
investigation covers special voyages  
made in the past sixty ton airships  
of the R-34 type developed by the na-  
val section of the British Air Force.

General Northcliffe himself, in a re-  
view of the airship situation makes  
the following prediction:

"In conclusion the commercial air-  
ship of the not far distant future will  
have a 'disposable' 200 available for  
crew, fuel and merchandise, or passen-  
gers, of fifty or sixty tons or more.  
It will have speed of 90 to 100 miles  
an hour, with ample accommodation  
for passengers in the shape of saloon,  
drawing room, sleeping room and cabin.  
It will be able to remain in the air for a  
week or more at a time. After a jour-  
ney it will return to moorings like a  
water-borne ship, only being housed  
in a shed for a periodic overhaul."

St. John Woman Gains Nine  
Pounds — "Nothing Less  
Than Wonderful What  
Tanlac Has Done for Me,"  
She Declares.

**Statement after statement is now  
being made about Tanlac, the new  
medicine that has brought about re-  
markable results in Saint John and  
vicinity. One of the latest to testify  
to the powers of the medicine is Mrs.  
Annie Collins, wife of Charles E. Col-  
lins, a well known employe of the  
Willott Fruit Company, residing at  
44 Union street, Saint John. Mrs.  
Collins, in relating her interesting ex-  
perience, states that she could not  
eat anything but what hurt me and I  
had fallen off until I was almost a  
living skeleton. My food would sour  
and the gas from it would blast me up  
until I would almost smother. Why  
my heart would palpitate at times  
until I thought each breath would be  
my last. I couldn't sleep at night on  
account of this gas and I would have  
to get up for fear of smothering to  
death. I was nervous and tired all  
the time, and in the mornings when I  
first got up I could hardly get around.  
My head would swim so that by the  
time I got to the top of the stairs I  
would have to stop and see where  
I was. I had no appetite, and my  
stomach was so weak and upset that  
just the smell of things cooking  
would nauseate me, and I had gotten  
to where I was almost afraid to eat  
because I knew so well that I would  
have to suffer afterwards. I was so  
thin, weak and nervous that I would  
have to lay down often during the  
day and rest, and my stomach was in  
such a bad fix that it looked like I  
was going to starve. I had used so  
many different kinds of medicines  
without relief that I just didn't know  
what to try next.**

"When I saw what others were say-  
ing about Tanlac, I bought a bottle,  
not because I had much faith in it,  
but because I was in so much misery  
that I was willing to try anything.  
But Tanlac proved to be the very  
thing I needed, for after taking my  
first few doses I began to get hungry  
and was surprised to find my food  
did not sour and ferment like it had  
before. When I finished my first  
bottle I had an appetite like a bear  
and could eat just anything I wanted  
without the least trouble from it. I  
got real pleasure out of eating now  
because everything tastes good and  
my stomach never gives me any more  
trouble. That tired, nervous feeling  
as well as the dizziness, has left me  
and I am not only feeling fine, but  
as I said, I have already gained nine  
pounds in weight. It is nothing less  
than wonderful what Tanlac has done  
for me in this short time, and I will  
praise it the longest day I live."

Tanlac is sold in St. John by Ross  
Drug Co., and F. W. Munro under the  
personal direction of a special Tanlac  
representative.—Adv't.

**Don't Spoil Your Hair  
By Washing It**

When you wash your hair, be care-  
ful what you use. Don't use prepar-  
ed shampoos or anything else, that  
contains too much alkali, for this is  
very injurious, as it dries the scalp  
and makes the hair brittle.

The best thing to use is just plain  
mild coconut oil, for this is pure  
and entirely greaseless. It's very  
cheap, and beats anything else all  
to pieces. You can get this at any drug  
store, and a few ounces will last the  
whole family for months.

Simply moisten the hair with water  
and rub it in, about a teaspoonful is  
all that is required. It makes an ab-  
undance of rich, creamy lather, cleanses  
thoroughly, and rinses out easily.  
The hair dries quickly and evenly, and  
is soft, fresh looking, bright, fluffy,  
wavy and easy to handle. Besides, it  
loosens and takes out every particle  
of dust, dirt and dandruff.

The advisability of passing a by-  
law giving the common council pow-  
er to forbid the location of any busi-  
ness in a certain locality was consid-  
ered at the committee meeting of the  
council yesterday morning but no ac-  
tion was taken as Commissioner  
Thornton announced that he was pre-  
paring a report on the matter. The  
paving question was also up for dis-  
cussion and as usual nothing accom-  
plished. Commissioner Fisher thought  
a plebiscite on the matter of paving  
out of general assessment or not  
should be taken. Commissioner Bul-  
lock was opposed to a plebiscite. A  
tender of \$41.38 for painting the win-  
dow sashes and doors of the west  
side city hall was referred to the com-  
missioner of public safety with power  
to act.

Commissioner Bullock recommend-  
ed that a lot of land on Church Ave-  
nue, Fairville, be sold to the Bishop of  
St. John for \$75. Carried.

**HOLD FIRST MEETING.**

The St. John housing board—Com-  
missioner T. H. Bullock, A. H. Wet-  
more, George P. Hennessy and Con-  
troller A. P. MacIntyre—held their  
first meeting yesterday afternoon at  
2 o'clock, for organization purposes.  
The commissioner stated that the  
board would develop operations as  
rapidly as possible.

**Russian Mandate  
In Turks' Empire**

Paris, July 10.—Prince Lvoff, repre-  
sentative here of the all-Russian gov-  
ernment of Admiral Kolchak, has writ-  
ten to Premier Clemenceau, as Presi-  
dent of the Peace Conference, calling  
attention to the Russian interests in  
the Turkish empire, and asking that  
Russia be given a mandate for the Dar-  
danelles.

Prince Lvoff, in his communication,  
proposes an international mandate for  
Constantinople, with Russia repre-  
sented. He admits that it would be im-  
possible for Russia to take a mandate  
for Armenia.

### Coombs Refuses Buck From Baker

#### Explains His Removal as Manager of the Phillies and the Appointment in His Place of Cravath.

Speaking to the New York Herald regarding his resignation as manager of the Philadelphia National League baseball team, and the appointment of Charles C. Cravath, the hard-hitting outfielder, to the management, John Coombs says:

"I did everything that could be done with the material I had at my disposal. There are weak spots in the club, and I made suggestions for their strengthening, not one of which was acted upon. I have no complaint to make as to President Baker's decision that he wanted another manager, but I object to his passing his 'buck' to me as the cause of his team's failure. I have great respect for Cravath's ability, but I don't think he or anybody else can win ball games with the material I had."

"We were in the shape at the start of the season, but on our last Western trip, we spent over \$28 just for tape to fix up spike wounds and other injuries. 'Whitted, Sickling and Emel' have been playing games with injuries that would have kept them on the bench with any other team in the league. We didn't have substitutes to take their places and I had no way of getting any new players."

Coombs, who was one of Connie Mack's principal pitchers when the Philadelphia Athletics were winning world's championships, became manager of the Phillies last winter after President Baker had released Moran, who is now piloting the Cincinnati team. Coombs came here from the Brooklyn Club. He has business interests in Texas to which he says he will now give his attention.

Cravath has been with the Phillies since 1912, coming from the American Association. He is popular with the players.

Jack Coombs is well known to the old St. John ball fans, as he was seen in action here for a couple of seasons before he went into big league games.

### TORONTO SCULLER AT PHILADELPHIA

#### Bob Dibble Won Quarter Mile Dash in Independence Day Regatta—Dislocated Thigh Put Him Out of Senior Event.

"Bob" Dibble, the Toronto sculler, who was at one time stationed in St. John with the 180th Sportsmen's Battalion, took part in the Independence Day regatta at Philadelphia. He beat Jack Kelley in the quarter-mile dash, but was defeated in the senior event at the regular distance. Dibble dislocated his right thigh after having rowed a half mile and had a slight lead when the accident caused him to stop rowing. He had dislocated his thigh while in the Canadian service during the war and the injury last Friday was a direct result of this.

Meeting of the Citizens' Reception Committee, planned for last evening at 8 o'clock, has been postponed until this evening at 8 o'clock. Board of Trade rooms.

### French Boxer Wants Bouts

#### Leon Bedou Now in United States Looking for Bouts—Spent Four Years in War—Used to be Featherweight.

Four years of war have not killed the love for fighting in the breast of Leon Bedou, the French boxer, who is now in the United States looking for bouts. Leon used to be a featherweight, but two years of warfare on the Western front and two more in Siberia have raised his weight somewhat. He thinks, however, that with a little training he will soon be able to do 135 pounds or better. Leon boxed in Russia and in Japan and he had three bouts on the Pacific Coast before heading for Toledo to see the world's heavyweight championship contest between Jess Willard and Jack Dempsey. Bedou has fought many contests in England. Among the men he has met are Joey Starmer, Fred Blackbrough, Billy Wells, of Bermondsey; Lew Edwards and Sapper Ben Kellcott.

### RESUME INTERSTATE GOLF.

Officers of the Massachusetts Golf Association have announced that interstate golf competition would be resumed on July 26, when the Massachusetts team would play Rhode Island at the Wannamoisett Country Club. The Connecticut team will play Massachusetts at the Brae Burn Country Club on September 6. Francis Outmet is captain of the Massachusetts State team.

### TOD SLOAN TO ACT IN "MOVIES."

Tod Sloan, the most wonderful jockey of his day and the first to introduce the now famous "monkey seat," is going to don racing colors again. It will be in the "movies" this time, however. He has just signed a contract to ride the race horse Determination in a film play of that name, soon to be produced by the United States Photo-Play Corporation.

### WILL HOLD DIAMOND MEET.

The Y. M. C. A. of Toronto will again hold a "Diamond" meet for the first prizes in each event there will be genuine diamonds. For the derby a handsome diamond ring will be presented the winner. A gold watch will be second prize, and for third there will be a diamond stickpin. All the events will be handicaps, so that the service will have a chance with the more experienced.

### MONTREAL RUGBY TEAM.

Montreal will again have a Rugby team in the "Big Four." For several years past the big city has not had a team in this league, but now that the war is over, a great revival of sport is anticipated in Canada, and Montreal will again be to the fore with strong Rugby organization.

### Sussex Horses Won At Chatham

#### Fern Hal, Recently Purchased by Dr. McAllister, Won Free For All Yesterday, While Victoria Captured the 20 Trot and Pace.

Chatham, N. B., July 10.—Fern Hal, the Montreal mare, purchased during the Moncton meet July 1st by Dr. D. H. McAllister of Sussex, N. B., won the free-for-all here this afternoon in a four heat event. John A. Hal, owned by W. G. Fenwick of Bathurst, captured the first heat in 2:12 1/4, but the next three heats went to Fern Hal, the best time being 2:11 1/4. Budlight, the Moncton free-for-aller, got third money, while Peter Farren, the St. John horse, had to be content with fourth place.

In the 2:30 class every heat was a horse race and it took five to name the winner which was Victoria, owned by Dr. D. H. McAllister of Sussex. Roy Miller, owned by B. E. Reardon, of Moncton, captured second money and Alice Hal, the Frederick mare, was third. The best time in this class was 2:13 1/4 made by Alice Hal.

The second day's racing was marked by the largest attendance ever seen on the Chatham track. The attendance on the opening day was also large.

The started in the two days' events was H. H. Lee of Maine.

Summary: 2:20 Trot and Pace, Purse \$300. Victoria, Dr. D. H. McAllister, 4:12 1/4. Roy Miller, B. E. Reardon, Moncton, 1:35 1/2. Alice Hal, H. G. Kitchen, Frederickton, 5:31 1/2. Border Prince, E. Dryden, St. John, 2:16 1/4, 2:21 1/4, 2:16 1/4, 2:23 1/4, 2:17 1/4.

Free-for-All, Purse \$400. Fern Hal, F. Michael, Moncton, 2:11 1/4. John A. Hal, W. G. Fenwick, Bathurst, 2:14 1/4. Budlight, P. A. Belliveau, Moncton, 4:23 1/2. Peter Farren, P. O'Keefe and Son, St. John, 3:23 1/2. Time—2:12 1/4, 2:11 1/4, 2:14 1/4, 2:14 1/4.

CHAMPIONS WON AGAIN. The Victors have reorganized and are now called the Glenwoods. Last evening they played an interesting game of ball with the Champions on the Victoria Square diamond, the latter team winning by a score of 9 to 6.

The battery for the Champions was Moore and White, while Carney and McCrossin were between the posts for the losers. Both pitchers enjoyed steady ball and the game was enjoyed by a fair crowd of spectators.

### Leaders Trimmed The Carleton Nine

#### St. Peter's Won Eight-Inning Game in St. John League Last Evening by Score of Five to Three.

A good close eight inning game, featured by some excellent fielding, was played on the Queen Square diamond last night between the St. John league leaders, resulting in a victory for the St. Peter's nine over the Carleton team by the score of 5 to 3. The third cut in the first half of the second inning was rather spectacular. Garnett catching a high foul off Hansen's bat, retiring him and the side. A double play by Doherty to Lenihan to Dever was another interesting feature of the game. The following is the official score and summary:

### East End League Game Exciting

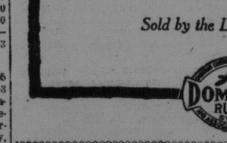

#### Last Evening in Seven-Inning Game the Alerts Were Victorious Over Cotton Mill Nine by Score of Four to Three.

An interesting contest was staged in the East End League last evening, when the Alerts defeated the Cotton Mill by the score of 4 to 3. The game went for seven innings, and was keenly contested throughout. Brooking, for the Cottons, pitched a fine game and had ten strike-outs to his credit. Mason received better support from the Alerts. He retired five of his opponents by the air route. The largest crowd of the season was in attendance and thoroughly enjoyed every play. The batteries were: For the Alerts, Mason and Callahan, and for the Cottons, Mill, Cooper and Brooking. D. Currie made an excellent umpire.

The Rockwoods and the Imperials will meet this evening in a league fixture and another good game is assured.

AROUND THE CITY  
SHOWERS—THUNDER

RETURNED FROM OVERSEAS.  
Capt. Miles G. Brown, C. A. M. C., of Moore's Mills, N. B., has returned from overseas and is being warmly welcomed by a host of friends.

UNION DEPOT CONCERT.  
Suburbanites who made use of the Union Station last evening were entertained by vocal selections rendered by two calves, which were waiting shipment by express. The howling animals created quite an uproar.

BAY HORSE FOUND.  
A bay horse, weighing about 900 pounds, was found wandering in the vicinity of the Sandy Point entrance to the Park on Wednesday. The horse was cared for by the Union Ice Company. Up till last night no one had claimed the animal.

SILENT COP DAMAGED.  
The city's silent policeman on duty at the corner of Dock and Union streets came to grief yesterday. It is understood that a car made a miscalculation in rounding the corner, with the result that the policeman was on duty last night minus a head.

COMPLETE ORGANIZATION.  
The war veterans of the West Side and Fairville are to hold a meeting Monday night in the Temperance Hall, Market Place, West Side, to complete the organization of a branch of the G. W. V. A. to include the men living on the western side of the harbor.

VETS. JOIN R. N. W. M. P.  
George C. Warden, St. John, and John J. Rowland, Scotland, are the two latest additions to the ranks of the Royal North West Mounted Police, being sworn in yesterday. Both these men are veterans of the great war. Rex I. Corcum and James McJiday, Fredericton, are expected to join up today.

SENT TO HOSPITAL.  
A Russian claimed protection at the police station last evening. He was sick, and after a doctor had seen him he was sent to the General Public Hospital. The man came here from Montreal about three weeks ago and was then sent to the hospital. It is likely that some arrangements will be made to have him returned to Montreal.

C. N. R. EXPRESS LATE.  
The Canadian National train due here at 5:30 was about an hour late in arriving in the city. The delay was caused by engine trouble. The freight locomotive, which left the rails at New Brunswick several days ago, is still lying across the right of way. It is expected it will be removed in the course of a few days, when the large crane from Moncton will be available in this section.

STALLED ON PRINCESS STREET.  
Traffic on Princess street between German and Sydney was held up for a few minutes last night when a 60 horse power roadster, towing a six cylinder touring car, stalled while crossing the sidewalk to enter the Warden stable. While the chauffeur fussed with the non-starting self-starter the pedestrians took to the street and the horsemen added another note on the superiority of equines.

WORKING ON NOVEL.  
Arthur Hunt Chute, son of Rev. A. C. Chute, of Wolfville, is now Associate Editor of Leslie's Weekly. Since his graduation at Acadia he has had more than his share of adventure. During the Balkan war he served as a war correspondent. When the great war broke out he hastened to the scene of conflict. He is at present in Nova Scotia, where he is gathering material for a series of sea stories on the Nova Scotia clipper ships. He is also reported to be working on a novel which is soon to be published.

WEDDINGS  
Johnson-Weldon.  
An interesting event took place yesterday morning at Portland Methodist parsonage, when Mr. William Wesley Weldon, of Oak Point, was united in marriage to Miss Eliza Johnson, daughter of Mr. and Mrs. James Johnson, of Jerusalem. The ceremony was performed by the Rev. Neil McLaughlin, in the presence of a number of the friends of the bride and groom. Mr. and Mrs. Weldon went up the St. John river in the Champlain and will reside at Oak Point, where Mr. Weldon is a successful farmer.

YOUNG OFFICERS  
HOME YESTERDAY  
Several young officers from the Royal Air Force returned home yesterday morning. They arrived in Quebec on the S.S. Megantic. Among them were Lieutenants Wesley Davis, Murray Hatheway, Alfred Stephenson, John Rowley, Harold Christie, Ralph Patterson, and Joseph Armstrong, all of St. John, and Lieut. Campbell, of St. George. Lieutenants Rowley and Christie crossed with the 4th Siege Battery, with which they went to France and later returned to England where they qualified for the commission. Lieut. Hatheway was a private in the signaling section of the 115th and later in the same capacity with the 26th with which he won the military medal. He then went to England and was commissioned.

EXTRAORDINARY BARGAINS IN  
WOMEN'S WASH SKIRTS, MIDDY BLOUSES, SWEATERS, PULLOVERS.  
Right at the height of summer time activities comes this unusual opportunity to buy exquisite wash skirts and middy blouses at a remarkably low price.

HEROISM OR GOOD CONDUCT  
To make sure that no case of heroism or exceptionally good conduct in the great war was unrecorded, the local military authorities have received notification from Ottawa to reward covering exceptional services rendered by officers or men in the field, or while in prisoner of war camps, or gallant conduct in escaping or attempting to escape from enemy hands.

PERSONALS  
T. M. Burns, secretary of the Board of Health, is confined to his home through illness.

PERSONALS  
The record must be established by at least two witnesses, one of them an officer. Forms for these applications are now ready at the military headquarters, Sydney street.

Paving King Street Under Discussion

Men Doing Business on King Street and Vicinity Discussed Question in City Hall Yesterday Afternoon—Intention of Commission to Lay Smooth Asphalt.

A meeting of business men doing business on King street and the vicinity was held in City Hall yesterday afternoon to discuss the question of paving King street. The meeting was called at the instance of G. L. Warwick and others, and R. B. Emerson, president of the Board of Trade, occupied the chair. Representatives of George E. Barbour, Baird & Peters, W. H. Thorne & Co., and other firms were present.

The idea of calling the meeting was to secure an expression of views as to the proper paving for King street. The main thing which developed was that the meeting was strongly in favor of the city going ahead with an extensive program, though it was not prepared to enlighten the commission as to how they could raise the money needed.

After some discussion with Com. Fisher and Engineer Hatfield, the meeting decided to leave it to the commission to decide what kind of pavement should be used on King street. Com. Fisher said it was the intention of the city to lay a smooth asphalt on King street. If they put down a rough granite pavement it would be better for the horses, but they could not keep a rough pavement clean, and in the view of the department the citizens were keener about clean streets than the horses were about streets giving them a good foothold for hauling.

HOME SECRETARY  
WAS BANQUETTED  
Guests of Y. W. C. A. Last Evening Made Presentation to Mrs. E. Costigan, Who Returns to Toronto—Pleasant Time Enjoyed.

Mrs. E. Costigan, who has been home secretary of the Young Women's Christian Association here for the last six months, has completed her work and will return to Toronto. Mrs. Costigan has been a very popular and efficient worker and those in the city, who have been associated with her, much regret her removal from the city.

As a testimony to the pleasant relations between her and members of the organization, twenty-two of the girls gave her a farewell banquet on Thursday evening. Dainty refreshments were served and a good time was enjoyed. At the close of the banquet Mrs. G. E. Courtice, on behalf of the girls, presented Mrs. Costigan with a handsome ivory set. Mrs. Costigan made a suitable reply. She referred to the pleasant time she had spent while secretary of the Y. W. C. A. The remainder of the evening was given over to songs and speeches. Miss Margaret Maxwell will succeed Mrs. Costigan as home secretary of the local Y. W. C. A.

Were Welcomed By Fellow Lodgers  
Last Evening Members of Golden Rule I. O. O. F. Who Have Returned from Overseas Were Banquetted—Address by Rev. W. R. Robinson.

An official welcome was extended by Golden Rule Lodge I. O. O. F., West St. John, to the men of that lodge who have returned from overseas and the affair was one of the most successful ever held under the auspices of the lodge. There was a large attendance of members of the lodge and also sister lodges.

The welcome took the form of a banquet and the committee in charge of the arrangements certainly did themselves proud. After the good things to eat had been disposed of, Rev. W. R. Robinson in a splendid address welcomed back to the lodge room seven of the brothers who had served overseas. He expressed the delight of their brother members in once more clasping hands with them around the altar and the pride felt by all brothers in the way they have answered the call of King and Country.

Short addresses were also delivered by the guests of the evening and the singing of the National Anthem brought to a close a memorable meeting.

It was a great story for the Canadian people to think over. Men had gone from every walk of life and made good. The great characteristic of the Canadian was his self reliance and for this the credit must go to the fathers and mothers who taught them to look out for themselves when children, and owing to this characteristic the Canadian army had played a part in the war altogether out of proportion to the number of men enrolled.

At the close of the address Chairman Belding expressed the thanks of the club to Col. Peck, and three hearty cheers and a tiger were given for the speaker. The singing of the National Anthem brought the gathering to a close.

It has for some time been the desire of the Dominion Council to possess an official organ for the association, but the difficulty seemed to be in securing the man. The combination required was found here in St. John, and a couple of weeks ago the national secretary came to this city, arranged with Mr. Gibson terms of purchase and returning to Toronto found that the proposal met with the unanimous approval of the Council, which body it was last week announced. Previous to coming to St. John Mr. Gibson was engaged in newspaper work in England for a number of years. He was with The Standard for upwards of three years and left for the purpose of establishing the magazine which he has now transferred.

An Interesting Address Delivered

Lieut.-Col. C. W. Peck, V. C., D. S. O., M. P. for Skeena, B. C., Guest of Canadian Club Yesterday—Said Canadians Best Fighting Corps in Any Army in Europe.

Lieut.-Col. C. W. Peck, V. C., D. S. O., M. P. for Skeena, B. C., gave most interesting address before the Canadian Club yesterday on the war during 1918 in the course of which he spoke at length on the work of the Canadian corps, which he said was the most compact and best fighting corps in any army in Europe.

In the absence of Sir Douglas Haast the chair was occupied by A. M. Belding, vice-president of the club, who in introducing the speaker, referred to the fact that the last speaker who had been heard was a distinguished soldier and member of the British parliament and at this time they were to have the privilege of hearing another distinguished soldier, a member of the Canadian parliament and both natives of New Brunswick. Col. Peck had enlisted in the early days of the war, had won the highest honor possible to the British soldier, the Victoria Cross, and had been decorated with the D. S. O., and he took great pleasure in introducing him to the club.

Col. Peck expressed his appreciation of the honor done in inviting him to address the club, for it was a great pleasure to come back to the province of his birth, to which his forefathers had come 160 years ago. His family had been in the province for 23 years and always lived under the English flag.

He had chosen the year 1918 for his subject as this had a particular significance for him, for it was during that year that he had reached his lowest ebb and also during it came the flood tide and the German army had been forced to sign the most humiliating armistice ever signed by any nation. In dealing with the subject he asked the indulgence of his audience for a somewhat long and rambling story, but he was more familiar with them and after all that they did was simply an example of what had been done by all the divisions and battalions.

First he wanted to speak briefly of the events preceding 1918. In 1914 Canada had sent forth a great number of men, untried in war and naturally the people wondered how they would comport themselves, but deep in the bosom of the Canadian people was a feeling of confidence in them, and the surmise that they would play a man's part in the game. For three years and eight months the Canadians were at the front and stood firm and true and scattered before them like the chaff before the wind, the finest soldiers of the Great War.

Referring briefly to the part played by the Canadians at the first battle of Ypres and other engagements in all of which they acquitted themselves with credit, he came to May 1918, when they were sent again into the Ypres salient and held it, handling over to the Canadian troops the same trenches they had taken on when going in. From here they were given a short rest in billets to prepare for the coming of the Somme where one battalion lost 400 men in three days in trench warfare. In the spring of 1917 they were removed to Vimy where they captured the ridge on April 9 and in the fall of the same year they fought at Passchendaele.

Early in 1918 his division was in the rear. In May the Germans began their big drive and the Canadians were sent to Arras where for many months they held on and kept the enemy back. In the latter part of May they were sent to Cambrai and were placed in Foch's reserve army, and this was the highest command they could have been paid, as only the best troops were used.

This army which was to be used either as the last means of defence or as the big attack which should break the enemy back. The German high command realized that that battle that the war was lost and as the Canadians were sent to Arras where for many months they held on and kept the enemy back. In the latter part of May they were sent to Cambrai and were placed in Foch's reserve army, and this was the highest command they could have been paid, as only the best troops were used.

They drove the enemy back two and one-half miles and he was half way back drinking coffee in a dugout, the battle over, at 8:30. On August 13th they were moved to Arras and took part in the attack by the first army. It was the Canadian troops who broke the Drocourt-Queant line and at the time Cambrai fell they were actually over a mile beyond that city on its flank.

It was a great story for the Canadian people to think over. Men had gone from every walk of life and made good. The great characteristic of the Canadian was his self reliance and for this the credit must go to the fathers and mothers who taught them to look out for themselves when children, and owing to this characteristic the Canadian army had played a part in the war altogether out of proportion to the number of men enrolled.

At the close of the address Chairman Belding expressed the thanks of the club to Col. Peck, and three hearty cheers and a tiger were given for the speaker. The singing of the National Anthem brought the gathering to a close.

Canadian Boy Is Purchased

Sold to Boy Scout Assn. of Canada by Percy Gibson Who Established it—Mr. Gibson Appointed Editor and Dominion Publicity Agent.

The Canadian Boy Magazine which was established last year ago in St. John by Percy Gibson, formerly of The Standard staff, has been purchased by the Dominion Council of the Boy Scouts Association of Canada, and will hereafter appear as the official organ of that important body. Mr. Gibson's services have also been secured, and he has been added to the staff of the Dominion Council. He will, of course, retain the editorship of the magazine, which in the short period of twelve months has met with so much success. The transfer naturally means that Mr. Gibson will eventually remove to Toronto to take up his new work, and he expects to go to that city during the next ten days or so to arrange for the transfer of the office, moving up permanently later in the summer.

This sale is the result of the impression the Canadian Boy has made on the minds of workers in Boy Scout matters in Upper Canada and the West.

King's Daughters' Guild Sessions

Interesting Reports Read During Three Meetings Yesterday—Address Last Evening by Quebec Branch President—Visiting Delegates Entertained.

Miss A. M. Brown, president of the Dominion Council of the King's Daughters' Guild, presided at the evening session held last night in the main hall of the Centenary church.

A very interesting and instructive address was delivered by Miss E. M. Gornery, president of the Quebec branch, who took the subject of "Missions" and explained in detail the scope and character of the Guild's work in this line.

Mrs. A. Pierce Crockett read a most interesting and complete report of the work done by the St. John Chapter in the work of receiving and welcoming the returning soldiers and dependents during the months when this port was the chief entrance to the home land. The report was prepared by Mrs. G. Heber Vroom, was a thorough and enjoyable resume of the work done during the past months at this winter port.

Miss Brown, the president, read a very interesting and complete paper on the work of the International Order of King's Daughters and its relation to the purposes of the organization and the activities maintained throughout the world, dealing principally, however, with specific cases in Canada and the United States.

Mrs. W. S. Carter enhanced the evening with several delightful solos, which were warmly applauded and called for two encores.

Yesterday afternoon was taken up principally with reports on committee work. Miss McTavish read a report on Junior work, covering the subject in a very complete manner.

Miss Alma McFarlane, Fredericton, a V. A. D. girl, who has served several years overseas, entertained the session with an interesting reminiscence of her work back of the firing line and in England, touching on some phases of military relief and hospital work which were comparatively new to the audience. Mrs. A. Pierce Crockett during the afternoon session was heard in several delightful vocal numbers, which were heartily appreciated.

Mrs. J. C. Austin, Toronto, led the devotional exercises.

Shortly after 4 o'clock the session adjourned, when the out-of-town delegates were the guests of Mrs. A. P. Crockett and a delightful time was enjoyed by all at the Manor House.

At the morning session, Miss E. L. Thorne, Fredericton, reported for the New Brunswick branch, in the report showing that there were nine circles in the province, with a membership of 225. In the absence of a representative, Miss E. M. Gornery, Montreal, read the report from the Nova Scotia branch, and Mrs. Chandler, Charlotte town, reported for Prince Edward Island. All reports were most encouraging.

Today three sessions will be held, closing the convention.
