### AGRARIANS WANT MORE WESTERN SEATS

Premier Will Decide His Future by Results of Coming By-Elections.

### Special to The Standard

Ottawa, Feb. 13.—Parliament opens tomorrow with cabinet reorganization and tariff revision dominating the political field.

The cabinet shuffle, well in progress, will be the most thorough since 1891; the tariff revision, which will come in April, the most complete since 1897. The possibility of an immediate general election has dwindled.

On Tuesday the Hon. W. L. Mackenzie King will move an amendment to the address denouncing an appeal to the country, but the House will vote it down.

### VOTE OFFER TO BE LESS AT WEEK-END

Regular Schedule to Decline Twenty Per Cent at End of This Week.

### LAST OF THE 200,000 EXTRA VOTE BALLOTS

Phonograph Offer Ends Too—Great Interest Being Taken in The Standard's Contest.

### Special to The Standard

This week is a week of triple opportunity in The Standard's big prize contest.

Three big offers are in vogue—they all three end positively Saturday night at midnight. All contestants may work up to the last minute of the offers and bring or send in their returns on Monday.

Full details of the big offers are given on today's contest ad.

### 200,000 EXTRAS

The 200,000 EXTRA vote offer which has proved a popular one with the contestants will be past history after midnight Saturday. This week a 200,000 EXTRA vote ballot will be given for each and every \$20 worth of subscriptions turned in.

Never again during the course of the contest will it be possible to secure 200,000 EXTRA vote ballots. The Contest department feels that it has given all contestants sufficient time in which to get started with the extra ballots. This announcement of the last 200,000 EXTRAS should be of paramount importance to every contestant who is in the race to win.

This is also the week of the Starr Phonograph offer. Two magnificent Starr Phonographs are offered as EXTRA prizes to the two contestants (one in each district) who collect the greatest amount of subscription money by midnight Saturday of this week. Which contestant will win these magnificent machines? The Phonographs are not "clinched" yet by any means. There is no reason why you cannot win one of them if you get busy.

Vacation Next Week.

Realizing the strenuous efforts that will be put forth during this last week of the 200,000 EXTRA vote ballots and the Starr Phonograph offer, the Contest department has decided to declare next week a holiday, to enable contestants to recuperate from the hurry and flurry of this week; also to give them time to attend to various little personal matters which will undoubtedly be neglected during the week.

Not Too Late.

It is not too late to enroll in the contest; or for contestants low in the contest to get busy on the 200,000 EXTRA vote ballots which they are still to be had. Much can be accomplished by good, live hustling by Saturday night at midnight.

AT THE UNIQUE TODAY—Wedgewood Knodell in "813."

### Smuts' Victory Shows Value Dominion Rule

"Better a Dominion Within an Empire Than an Insignificant Republic Without."

Ottawa, Feb. 13.—The vital importance to the British Empire of the recent political victory of the Smuts Government in South Africa was stressed by Hon. N. W. Rowell in his address before the Ottawa Club here yesterday.

The Hon. Mr. Rowell said that the most significant lesson to be learned from the recent election was that it clearly showed all the British and a majority of the Dutch people stood united for self-governing Dominion within the British Empire rather than an insignificant republic without the empire. It meant that South Africa stood with the other commonwealths of the empire for the larger liberty and a nobler destiny.

Re-affirms Former Position of Road in Reviewing Finding of Board.

### WILLING TO REINSTATE FORMER WORKERS

But This is Due to the Fact That a Semblance of Approval Had Been Given.

Toronto, Feb. 13.—President Hanna of the Canadian National Railways, last addressed the following letter to F. A. Bennett, deputy minister of labor, setting forth the view of the government, "allay with regard to the finding of the board of conciliation in the case of the president's "no politics" order. The letter is dated February 11th, and says in part:

"The board of directors at its meeting yesterday gave careful consideration to the reports of majority and minority of the board of conciliation, and while not accepting any of the suggestions to point out that both the majority and minority reports find that the granting of leave of absence for political purposes is a question that rests with the management."

Rests With Management.

"The majority report stated, 'the management may refuse leave of absence for proper cause, if in its opinion it would be against the interest of the railway,' and the minority report states (referring to cases on other railways), that 'it was shown in each case that it was by special arrangement, unapproved by any rule or schedule obligations on the part of the railway.'"

"The board of directors has felt all along that it was quite within its rights to decline without leave of absence to enable employees to become candidates for election or to serve as members of parliament. Its position is now supported by finding of fact by both the majority and minority reports."

Dublin, Feb. 13.—One man was killed by a police volley yesterday at Clondrohid bridge, in the martial law area, which armed men destroyed Friday.

A party of police visited the site of the bridge near Macroom and ordered a number of persons nearby to halt. They refused to do so and the police fired, with fatal effect, for one of the civilians. Another was made Friday night upon the barracks at Elphin, County Roscommon. The police held out all night, without injury to any of their number, although explosives were used in the attack and one of the gables of the building was blown in.

Attack Passenger Train.

An official report of the attack by armed men on a passenger train in Cork yesterday reported in news dispatches from that city, says the train was about to leave Malrow station when armed men boarded the engine and compelled the engineer to proceed until the train had reached a cutting near the Mill street station. There it was halted and a heavy fire was immediately opened upon the foremost car in which fourteen soldiers were riding.

Fought Fifteen Minutes.

A fight lasting a quarter of an hour, followed in which a sergeant was killed and one officer and five soldiers were wounded, four seriously. Rifles and equipment were taken by the attacking party, which numbered two hundred men, and the engineer was ordered to proceed.

In view of this and similar incidents involving danger to railwaymen, and passengers, the official report says, a repetition of the occurrence would lead to the closing of the railway in the martial law area in which the attack occurred.

Condemns Irish Horrors.

London, Feb. 13.—Cardinal Bourne, Archbishop of Westminster in a pastoral letter to his archdiocese which was read in the churches today, refers to the "horror and outrage," in Ireland.

The letter continues: "In the midst of this welter of confusion I have grave reason to fear that some of my own flock, impelled by legitimate love of country and urgent longing for realization of their lawful aspirations, are unwarily allowing themselves to become implicated, by active sympathy or even actual co-operation, in seditious organizations which are in opposition to the laws of God and the Catholic Church."

Conspiracy a Sin.

Cardinal Bourne refers to the warning of Cardinal Manning in 1897, that the church, through the Pope, had declared a conspiracy, whether against the church or state, was a sin against the former because it could not be tolerated, and against the latter, as rebellion.

Cardinal Bourne adds: "And I take that warning heed fifty-four years ago and make it my own today. The game Penmanship is no longer in use, but the activity it connected is still alive and the denunciation of the second Archbishop of Westminster applies in unchanging measure to that activity today by whatever name it is called."

### USED HUSBAND'S SPORTING RIFLE

Victim Was Dead When Family, Roused by Shot, Reached Her Room.

Special to The Standard.

Fredericton, N. B., Feb. 13.—A sad tragedy occurred at Devon on Saturday night when Mrs. Johann Neill, wife of Albert B. Neill, committed suicide by shooting herself through the breast with a rifle soon after her husband had returned home about 10.30 o'clock and while he was discussing with his son in the upstairs apartment, the political convention over which he had presided.

While nobody was with her it is believed that she got out of bed—she had retired about 9 p.m. and it was then about 10.30 p.m.—and took one of her husband's high powered sporting rifles, which stood in the corner of the room, placed the muzzle under her left breast and pulled the trigger.

Rifle Beside Body.

Her stepson, Don Neill, sleeping in the adjoining room, heard the shot and rushed into the room, where he found Mrs. Neill lying on the floor with the rifle beside her. He at once called his father and brother from upstairs and by the time they reached the unfortunate woman's side she was dead. They sent for Dr. M. Mullin, who, as coroner, had town marshal Leo Hayes summon a jury for an inquest.

Mrs. Neill, who was 44 years of age and was born at Williamsburg, York county and was formerly Miss Johann Gilmore. She had been three times married. She is survived by two sons, Charles Fullerton, of Napidogan and Ian who lives with his mother, and one daughter, Mary, who also lived with her mother.

### R. D. HANSON IS NOMINATED IN YORK-SUNBURY

After His Defeat in Great Convention John P. Palmer Makes Choice Unanimous.

### ALMOST 700 BALLOTS CAST IN CONVENTION

Large Numbers of Farmers Present at Nomination in Sympathy With Agrarians.

### Special to The Standard

Fredericton, Feb. 13.—Richard B. Hanson, K. C., was chosen as the candidate in support of the Meighen Government in the approaching by-election in York-Sunbury on Saturday afternoon.

The selection was made at the convention called by the executives of the National Liberal and Conservative Association of York and Sunbury counties and which proved the largest political gathering ever held in this city, despite the fact that the previous night a storm had raged and blocked many of the highways.

Delegations Very Large.

The York County Court House failed to come anywhere near accommodating the hundreds who gathered. Farmers were present in large numbers showing that the agrarian vote of this district is behind the Government candidate.

The fact that almost 700 votes were cast in the selection of a candidate shows what a large convention it was and all the "old timers" on hand agreed it was the biggest as well as one of the most representative political assemblies ever convened here. Despite the fact that there had been a lively canvass for supporters of the two candidates, the best of feeling prevailed throughout the convention.

Only Two Resolutions.

The preliminaries of the convention consisted merely of the moving of two resolutions expressing sympathy with the bereaved family in the death of the late Colonel Meland and the loss which the constituency had met in his death and the other expressing confidence in Premier Meighen and his government.

Mr. Hanson was placed in nomination by W. S. Tompkins, of this city, seconded by Frank Taylor, of Sunbury County, and John D. Palmer, of Fredericton, by Charles D. Richards, M. L. A., and his nomination was seconded by Count Fred Seymour of Douglas, Coon. F. Graham of Southampton, then moved that the nominations close which carried.

Ballot is Secret.

Then it was decided to select the candidate by secret ballot in open convention and method for taking one vote so that the principal of one man, one vote, would prevail and all those present would have an opportunity of voting. Alderman Frank L. Coad acted as returning officer and it took almost half an hour for those present to place in the ballot boxes and deposit their ballots.

### TWO CIVILIANS ARE SHOT DEAD IN IRISH FIGHT

One Was Lying in Bed When Stray Bullet Inflicted Fatal Injuries.

Important Official Said Have Been in Lorry That Was Assailed.

Belfast, Feb. 13.—A number of fatalities occurred in Ireland over the weekend. General Headquarters reported today that a military lorry was ambushed Saturday night behind a wall near Rostown, in South Down.

"The fire was returned," the report said, "and some of the attackers were seen to fall. The military suffered no casualties."

### Shot Dead in Bed

A double tragedy, evidently connected with the foregoing occurred. James Brophy, who according to his relatives had not quit his house for some time, was shot dead in bed and John Healy, while walking home late was shot dead. His body was found in the street this morning.

Unofficial reports assert that an important person was in a private motor car with the lorry which was ambushed and was the object of the attack, but this the police deny.

### Motor Ambushed

A motor car with a party of constabulary going from Balbrigan to Swords, Dublin County, was ambushed this morning. A man was shot dead near Rutovani, County Cork, and two auxiliary policemen were wounded by bombs thrown into the billiard room of the town hall in Macroom Saturday.

### HANNA REPEATS "NO POLITICS" IS C. N. R. POSITION

Re-affirms Former Position of Road in Reviewing Finding of Board.

### WILLING TO REINSTATE FORMER WORKERS

But This is Due to the Fact That a Semblance of Approval Had Been Given.

(Continued from page 1)  
"In view of the above the acceptance of the men's proposal would be merely agreement on the part of the management that cases might arise where the policy laid down could be departed from. This would be leaving open the very door it is desired to keep shut."  
"The board of directors with a desire to do justice to the individual employees affected is prepared to re-instate in the service with wages for lost time, the two employees, Messrs. Palmer and Moore, who were elected to the Manitoba Legislature and Mr. Higgins, the employee from Lesaside shops. It will require investigations to see just what actual loss had been sustained. The directors will also authorize the management to grant leave of absence without pay to the first two mentioned employees to attend their parliamentary duties during the life of the present Legislature.

#### Why The Concession.

"The management is prepared to take this step in view of the contentions made by the men that the individual employees concerned had acted in ignorance of the views of the management in this question and that a semblance of official approval had been given to their political candidature by the fact that they had been granted leave of absence with the knowledge of officers that they were to be candidates in the elections. The management, however, only prepared to take this action upon the distinct understanding that the question of policy involved is not in any way affected. The management merely withdraws its retrospective effect insofar as three men are concerned."  
"That there may be no misunderstanding, let me again re-affirm our position that no employee can continue in the service and accept nomination from any political party, Federal or Provincial. This is the policy laid down by the directors in this matter and our officers will be advised accordingly."

### BRITISH OIL MEN BELIEVE REDS THROUGH

Reported to Have Sewn up Russian Oil Fields Tight.

### BOUGHT FROM FORMER OWNERS OF PROPERTY

Understood Millions of Francs Involved in Deal—Negotiations Carried on in Paris.

Special to The Standard.  
Paris, Feb. 13.—The Shell and Royal Dutch oil interests are reported on good authority to have concluded a rather remarkable political and commercial bargain, which amounts to buying the Bolshevik regime in Russia will fall within ten years.  
Under this arrangement, which it is understood was consummated in Paris, British oil interests have bought from Russians who held title to the property under the Czar's regime, rights to oil from the Grosny district in the Caucasus. The basis of the agreement is the payment now of 5 to 10 per cent. of the estimated value of production from these fields, in return for which the British interests are assured exclusive rights. There is a time limit of ten years to the agreement—in other words, if at the end of ten years the oil owners are unable to regain their property the deal is off. Naturally if the Bolsheviks fall this year and are replaced by a regime which recognizes old property rights, British interests may get oil quickly.  
Considerable secrecy surrounds the deal, but it is learned that it is of great magnitude that the lawyers who handled the deal here got a commission of several million francs. Payments made by the Shell and Royal Dutch are said to run into many millions of francs sold.  
A number of Russians owning property in the Grosny fields are refugees in Paris, and are engaged directly in the negotiations, it is said. It is common report in the Russian colonies here that a number of Russians have recently had much money to spend—men who did not have so much a short time ago.  
Negotiations are said to be under way by both British and French oil interests to make a similar arrangement for the control of oil in the Bakou district. This district is now under doubtful control, being held by the Soviet organizations of Azerbaijan, whose subservience to Moscow is a matter of some doubt. The railroad line from Bakou to Baku, on the Black Sea, built by the Czarist Government, runs through Azerbaijan and Georgia territory. This is the richest oil district in the Caucasus.

### HUNDREDS SAW FIGHT IN RUM-RUNNERS' FUED

Man and Woman Were Shot Down Outside Police Headquarters.

### MAN ARRESTED WAS MAULED BY CROWD

Victim of Shooting Denies Knowing Man Charged With the Deed.

New York, Feb. 13.—A feud among bootleggers operating on the whole-sale whiskey "cash market" near police headquarters is believed to be responsible for the shooting of Alberto Akro, 31 years old, who said he lived at 247 West Thirty-sixth street, and Mrs. Alda Perotti, 33, of 32 Mulberry street.  
Akro, who said he was an importer, was shot in the back by Mrs. Perotti, who was carrying her seven-month-old child, was wounded in the leg.  
Akro was taken to police headquarters after more than fifty men and women joined in an attack on Antonio Mammì, 33, who said he lived in Providence, R. I., and who was accused of having done the shooting. Mammì was being kicked and cuffed when rescued by detectives.  
In police headquarters Akro said he did not know who shot him nor why he was shot, nor did he know Mammì.  
An ambulance surgeon then examined the wounded man, announced he was in a serious condition and took him to Gouverneur Hospital. Mrs. Perotti also was taken to the hospital, but was permitted to return to her home later.  
The shooting was witnessed by several hundred men and women, some of them employed in police headquarters, a block away. Jacob Leavitt, a police headquarters clerk, said he saw the prisoner sneak up behind Akro and fire two shots. Akro fell. Mammì then, according to Leavitt, backed a few feet away and fired again.  
The bullet, the police said, glanced off Akro's head and lodged in Mrs. Perotti's leg, as she was walking a few feet ahead of Akro. In falling she managed to protect the infant in her arms, keeping it from striking the sidewalk. Mammì then calmly walked past the prostrate couple. Leavitt said.  
Policeman Hunt, attached to the headquarters clerical force, said he saw Mammì throw a pistol in a nearby gutter. He recovered the pistol, but before he could arrest Mammì the crowd had attacked him.  
Akro, who is said to be wealthy, has a police record, but although arrested seven times in the last few years, never has been convicted. In 1916, the police said, he was detained several weeks in the "Tombs" in connection with the slaying of Michael Gornat, a politician, at the corner of Madison and Chestnut streets. Michael A. Romano, formerly deputy street cleaning commissioner, was indicted for the murder, but was acquitted.

### Stolen Cigarettes Hid In Bloomers

Matron Found Pilfered Goods and Mrs. McGundry Lost Her Plumage.

Special to The Standard.  
New York, Feb. 13.—A lot of those horrible things that make Miss Lucy Gaston Pogo roar like a lion have been missed recently from the plant of the Helmar Cigarette Company in 438 West Fifty-fifth street, and yesterday afternoon the manager of the plant, Charles J. Webb, stationed himself by the exit door so he could see everybody that left. He was attracted by Mrs. Stella McGurdy, 18, of 648 Tenth avenue. It seemed to him that Mrs. McGurdy took rather chubby and plumper than usual, so he called Patrolman O'Neill and had her arrested. She was taken before Lieut. Callahan in the West Forty-seventh street station.

"What's the charge?" asked the lieutenant.  
"Stealing cigarettes," said the policeman.  
"Where's the evidence?"  
"She's got it somewhere about her," said Mr. Webb. "She isn't that fat naturally."  
Admitted Theft.  
Lieut. Callahan scratched his head a bit, looked thoughtful and then turned to Mrs. McGurdy, who is very small.  
"Did you take any cigarettes, little girl?" he asked.  
"Sure," the police say she said. "I took a lot of them."  
"Where did you hide them?"  
"In my bloomers," said Mrs. McGurdy promptly. "What are you going to do about it?"  
"Why? Me?" said Lieut. Callahan, blushing. "I'm not going to do anything. I'm going to send you down to the West Thirtieth street station, where there is a covered-up freedom."

So Patrolman O'Neill and Mr. Webb and Mrs. McGurdy went to West Thirtieth street station and Mrs. McGurdy was taken into her private office. When she came out she held forty-five packs of cigarettes in her hand and Mrs. McGurdy was not quite so plump. There she was locked up, charged with petty larceny and will be arraigned this morning in West Side Court.

### Spiritual Message of Modern Painters

First Sermon of Series Preached by Rev. F. S. Dowling on "The Cross in Modern Art."

Preaching before a large congregation in St. Andrew's church last evening, the minister, Rev. F. S. Dowling, delivered the first sermon of a series on "The Cross in Modern Art." The series is to be each Sunday night until Easter Sunday, and will be the exposition of the spiritual message of modern painters, as Holman Hunt, Walters, Millet, and Hofman.  
The subject.  
The subject last night was Holman Hunt's painting "The Light of the World." The preacher pointed out that the artist thought a free thinker in his early days, became an ardent Christian and a passionate love for Christ. A prominent feature of the artist's work is the element of hope and a forward looking faith. He pictures the Resurrection rather than in the light of the Crucifixion. Christ died for our sins, but life is risen for our justification.  
The speaker described how the picture was painted in an orchard in the moonlight, a common candle serving as a light, while the artist's feet were protected from the cold by a wrapping of straw.  
Each member of the congregation was provided with a print 5 1/2 x 3 1/2 inches in size, by which Mr. Dowling invited them to follow him in his descriptions.  
Disavowing any pretense to be an art critic, he said he loved pictures and liked to hear their whispered messages and would tell the message the painting bore for him.  
Indicated Urgency.  
The figures with the lighted lantern and the sandaled feet coming to the door at night in the urgency of the quest the artist purposely choosing the night to emphasize this idea.  
"Why is this that so comes? Who is it that knocks at night upon a knocking door? Examining a dress—long white robe of the prophet, the high priest's breast plate clasping the jeweled wrap about the shoulders, the golden crown of a king upon the head—all set forth this messenger of the Good Shepherd, Fairville, Rev. Dean Sampson, D.D., was at St. Luke's, Rev. R. P. McKim preaching at St. George's.  
At Trinity, the new curate, Rev. A. E. Gabriel took the service, the Rector, Rev. Canon Armstrong preaching the first of his Lenten series of sermons on "The Character of Christ," referring especially to the strength of the Master. In the evening the opening address on the Church Catechism was given, the signed with questions on it being the subject.  
At the Mission church last evening the sermon was preached by Rev. J. V. Purdy, who spoke in the interests of the Maritime Home for Girls at Truro.

The left hand carries a lighted lantern and following it's rays one sees, on the right, fallen apples, suggesting the forbidden fruit, man's first sin, and his alienation from God through sin. The light bearer quickens the conscience and draws the attention of the onlooker to his own sinful state.  
On the left the lantern's rays light up a closed door with rusty hinges, grown over with weeds, the most prominent feature. Examining a dress—long white robe of the prophet, the high priest's breast plate clasping the jeweled wrap about the shoulders, the golden crown of a king upon the head—all set forth this messenger of the Good Shepherd, Fairville, Rev. Dean Sampson, D.D., was at St. Luke's, Rev. R. P. McKim preaching at St. George's.

Intertwined with the golden crown is a crown of thorns from which radiates also a light, the light of forgiving love ever born by this messenger and the real light because the real hope of the one both from sin's bondage and if he will but respond. It is the light of Christ's sacrificial death.  
The night without is relieved by the light of the spirit, a life of service in God's great world with its garden of delectable fruits wrought by the hand of the toiler and the overreaching aspiration to those present in his bondage.  
It is a knock that calls to noble service. Sleeper, awake, the light is the world is at your door. He is there for practical ends, a life of freedom of the spirit, a life of service in God's great cause.  
The speaker told of the criticism of the painting by the artist's friends, who pointed out that there was no light of the door, Hunt replied, "It is the door of the inner self, it can only be opened from within."  
The artist's title for the picture was well chosen—He who is the very light of the world is knocking at the door of each human heart. He who is the light of the world is not in the dim past, or in far distant heavens, but confined to a church or hierarchy, but patiently loving is knocking at the door of each human heart, of each human life, and that is sublime.  
The preacher closed with an earnest appeal to those present to give heed to the picture's message, in the season of the Christian year that marks the Saviour's glorious resurrection. To come from the night of redemption which He had purchased, and in His name and His light to go forth and labor.

### Poles And Soviets To Sign A Peace

Russia Complains That Poles Have 212,000 Men on Polish-German Frontier.

London, Feb. 13.—The permanent peace treaty between Poland and Soviet Russia, negotiations for which have been underway at Riga for some time, will probably be signed within a few days, according to a wireless despatch from Moscow received here yesterday.  
A Helsinki despatch received February 11, quoted a Moscow wireless message as stating that the Russian-Polish peace treaty already had been signed in the city of Helsinki. The Helsinki despatch embodied an erroneous rendering of the Moscow radio announcing the probability of the early signing of the pact.  
Huge Polish Army.  
Berlin, Feb. 13.—The German Government has informed the governments in London, Paris, Rome and Warsaw that 212,000 Polish troops are concentrated on the Polish-German frontier according to latest information reaching the government. The communication gives details of the distribution of the troops and maintains the information proves the police force is not being demobilized.

### TIME OF SNOW COVERING N.F.L.D. RAILROAD

St. John's Has Had No Train Service for a Week Now and None in Sight.

### SNOW FROZEN HARD IN GREAT DRIFTS

Situation is One of the Worst Newfoundland Has Faced in Years.

St. John's, Nfld., Feb. 13.—An express train was fighting its way through snowdrifts twenty feet high tonight 100 miles from this city and doubt was expressed that it would be able to reach St. John's before the middle of the week. On board are a number of passengers from Canada and the United States, besides the mail from the continent.  
The point where the worst obstacles were encountered was the twenty-mile long neck of land averaging two miles in width, which connects the main part of Newfoundland with the irregular southeastern peninsula on which this city is located.  
Snow Frozen Hard.  
The blizzard, which swept the island during the first half of last week and terrific gales whirled over this narrow barrier between Trinity Bay on the east and Placentia Bay on the west and piled up huge banks of snow. Yesterday it rained and severe cold today formed a hard crust on the snow, making it difficult to remove the blockades.  
No passenger train has left St. John's since noon last Sunday, and it is probable that none will be sent out before Wednesday.

Italy Wants German Debts Remitted to Avoid a World Catastrophe.

(Copyright, 1921, by Cross-Atlantic.)  
Rome, Feb. 13.—The growing difference between Italy and France are revealed in the attitude of the Italian newspapers.  
"France intends to annihilate Germany," writes Gen. Benetvenga in the Tempo. "Only sheer lunacy could suggest such a demand. Europe would today be in the throes of communist revolution if Germany had fulfilled all the terms of the Versailles treaty. Italy and Germany saved the world from Bolshevism."  
"The truth is that France feels the reawakening of Germany and perceives that Germany disposes of the arms of intellect. Therefore France intends to annihilate Germany and any step towards this end is welcome to her. The occupation of the Ruhr district is the first step on the road to Berlin, but the Allies who aided and abetted France in the making of the Versailles treaty will not follow her."  
"Europe might be spared a world war," writes the former Premier Nitti, "if England, France and the United States would waive their claims against Germany."  
He says that Germany can never pay the "absurd sums" demanded of her, but does not refer to the Italian claims against Austria.

### Stole Necklace And Later Returned It

Owner Asked to Come to Altar of St. Mark—Man in Fur Coat Thief.

(Copyright, 1921, by Cross-Atlantic.)  
Rome, Feb. 13.—A curious story of a stolen necklace restored to its owner under romantic circumstances comes from Venice. For some time a lady belonging to a noble Venetian family has been living in one of the principal hotels the town. A few days ago a magnificent necklace of Oriental pearls disappeared from the lady's jewel-case. Though the thief could have taken away many other precious jewels as well, and a sum of loose money, nothing was touched except the pearl necklace. The police set inquiries on foot; a reward was offered; but nothing came to light.  
Later a registered letter arrived at the hotel addressed to the countess. The letter was sealed with a heraldic device, and contained an invitation to the old countess to come at a certain hour to the altar of the famous Niccolò Madonna in the Cathedral of St. Mark. The letter stated that if the countess failed to come alone no more would be heard of the necklace.  
The next day she went to St. Mark's, and knelt down by the altar named. She was a while she knelt herself touched on the shoulder and, looking round, saw a man in a fur coat, with gold-rimmed glasses and yellow gloves. The stranger whispered in her ear that she could have it back if she would swear before the Madonna not to reveal the name of the person beside her, nor bring any action. The countess nodded her head, and repeated the oath after the mysterious stranger, who then drew from his pocket the necklace and gave it to her. Kissing the old lady's hand, he left the church without saying a word.

### Claims British Want To Cancel War Debts

Treasury Department of U. S. Refuses, However, to Make Any Changes in Terms.

Washington, Feb. 13.—More than one suggestion that Great Britain's war debt to the United States be written off has come from British sources, a member of the Senate foreign relations committee said yesterday, after Secretary Houston had been closeted with the committee for two hours discussing the status of the United States Government foreign loans.  
Committee members, said Mr. Houston, had confirmed that the British Government had made a formal proposal to cancel the debt and that the treasury department had refused. First intimation that such a proposal had been made was given by J. Auston Chamberlain, British Chancellor of the Exchequer in a recent address in Birmingham, England.  
Satisfied With Course.  
Some Senators said the course of Secretary Houston in dealing with such suggestions had been "eminently satisfactory."  
Mr. Houston was said to have reiterated that the only course open to him was to follow the law authorizing the treasury department to exchange the present allied certificates of indebtedness for long term notes. The secretary read a long prepared statement to the committee detailing all payments to the Allies and the present status of the loans. At his request no part of this was made public, but it was said to have been substantially the same as that given by him recently to the Senate judiciary committee.

(Copyright, 1921, by Cross-Atlantic.)  
London, Feb. 13.—"Skeets" Martin, the veteran American jockey, who is very prominent on the English turf, is spending the winter in Switzerland, where a large number of jockeys go to keep themselves fit by skating and bob-sleighing during the dead season of racing.  
St. Moritz, the principal headquarters of Swiss winter sports, is a favorite resort of well-known jockeys, and the late Danny Miller always spent nearly all the winter there.  
The marriage of Mrs. Anna Lilly, of the staff of Manchester, Robertson and Allison, to Mr. Henry Catlow, of the C. P. R. detective force, occurred at Carleton Saturday. Both are popular and favorably known in this city, where they have many friends who join in extending sincere wishes on the happy event.  
Mr. and Mrs. Catlow left on the afternoon train for a wedding trip to Montreal and other Canadian cities.

Mr. R. B. During the hour that was taken to count the ballots the four members of York in the legislature, James K. Pinder, John A. Young, S. B. Hunter and Charles D. Richards, M. L. A., Parker Glasier, ex-M. L. A. of Sunbury, Dr. B. M. Mellin, of North Devon, W. S. Tompkins and ex-councillor John Scott of this city, David B. Hipwell of St. John, and John A. It was after four o'clock when the result of the vote was announced by Ex-Warden Albert B. Neill, vice-president of the Liberal and Conservative Association of York and Sunbury counties, who acted as chairman of the convention with John B. McNair, of this city, as secretary. The result of ballot was—Mr. Hanson, 457; Mr. Palmer, 224.  
Makes Ballot Unanimous  
Mr. Palmer was the first to speak. He thanked the convention for the large and creditable vote that had been given him and said that he would ask the convention to make the nomination of Mr. Hanson unanimous. He would, of course, have been satisfied, he said, if he had received the largest vote, but he believed the vote had been fairly taken. He desired to see the party go into an election with the principles ahead of personal ambitions.  
Cheer Mr. Palmer  
There have been splits caused in this party in the past over such matters, declared Mr. Palmer, "but I am not that type of a man." He then moved, amidst much enthusiasm, and seconded by Albert Treadwell of Musgraveville, Sunbury county, that the nomination of Mr. Hanson be made unanimous, which carried and Mr. Palmer as he stepped from the platform was wildly cheered.  
Mr. R. B. Hanson  
The cheering was renewed a moment later when Mr. Hanson stepped upon the platform to make his speech of acceptance in which he said he had been a private in the ranks for twenty years and urged the support of a united party, which he felt confident would enable him to carry his party banner to victory in the event of there being a contest. He expressed doubt as to whether the United Farmers when they learned of the split and unanimity of the great convention in support of the Meighen Government would not consider the job ahead of them was too great and decide not to nominate a candidate.  
The convention closed with cheers for the King and Mr. Hanson and Mr. Palmer.  
The Candidate's Career  
Mr. Hanson is junior partner in the legal firm of Shipman Hanson, of the city. He was born in Charlotte county on March 20, 1879, and graduated in Arts from Mount Allison University in 1899 and from Dalhousie University in 1901. His classmates include Hon. E. N. #### Unique Series of Revival Services

Church Members Rather Than the 'Sinners' Receive Evangelist's Attention.

Norton, Feb. 13.—The revival meetings in the Norton churches have come to an end. In both character and results the meetings differed widely from those held on previous occasions. The past has seen emotional evangelism and large numerical results, but little has proved to frequently that nature is effervescent and that numbers dwindle.  
The recent meetings were truly revival meetings with emphasis placed upon the reviving of spiritual life and energy within the churches.  
It was now to have the Christians lambasted instead of the sinner, and for the churches to be told that conversion should be the constant task and joy of the local body and not the special work of the outside evangelist. Too many churches, we were told, are lonesomes and only tress-up fresh and enthusiastic young converts.  
The Rev. T. A. Woods, the evangelist, endeavored himself to every body and especially to the boys and girls.  
Mr. W. J. McBreaney, soloist and musical director, gained the sincere regard and co-operation of everybody. The evangelist and soloist have gone on to Stovewack, N. S. for another campaign.

#### FIFTY-NINE DAY VOYAGE ENDS IN WRECK OF SHIP

Term Schooner in Terrific Gale Drives on the Rocks of Quidi Vidi.

St. John's, Nfld., Feb. 13.—The term schooner Elizabeth Fearn, Captain Vainor, 59 days from Bahia, to this point in head winds, struck the northern head of Quidi Vidi at 6:20 this morning and now lies on the rocks a total wreck. Yesterday she was in Cape Race, worked down the shore in a heavy gale. During the night Captain Vainor tried to work off the land, but under the short canvas could not do so. Gradually she drifted to the north, hoping to make the Narrows, but struck. After the shock she cleared the rock and fell away to the south so far as the north side of the cap, where she brought up anchor. A flare was at once sent up and seen by Mr. Jos. Hennesbury, who aroused the settlement, all the men at once hastening to the spot.  
Terrific Sea Running  
A terrific sea was running at the time, but Mate A. Power crept out on the jibboom and threw ashore a rope which was caught by John Horne. The dory was then launched on the port side and worked around under the jibbooms to the starboard by Mate Power, where the others of the crew got board and were hauled to shore. As the sea was coming over the vessel, and it was feared she would go and pieces any minute through pounding on the rocks, the crew had time to save very little. The captain, however, secured his charts, sextants and chronometer. The tug Ingraham was sent to the scene early this morning, but owing to the sea running, could do nothing with the vessel, which is settling by the head with the rocks pounding through her bottom.  
The Elizabeth Fearn was a splendid vessel of 246 tons and owned by Messrs. Campbell and MacKay.

#### Nearly 50 Percent Reduction In Lumber Cut

Scalers' Reports Place This Year's Cut at About 200,000,000 Feet.

#### American Market Shows Improvement

Demand for Pulpwood is Not as Great — Revenue This Year About \$1,000,000.

Fredericton, N. B., Feb. 12.—Estimates received from scalers reaching the Department of Lands and Mines indicate a cut of approximately 200,000,000 feet of lumber upon the crown lands of New Brunswick this year.  
This information was given out by Hon. C. W. Robinson, minister of lands and mines.  
Last year the cut of lumber upon New Brunswick's crown lands was about 360,000,000 feet and the cut of almost fifty per cent. that has been made is about the same as has been made in the case of privately owned lands.  
Expect \$1,000,000 This Year.  
Hon. Mr. Robinson estimates that the revenue from the crown land stumpage rates will not be less than \$1,000,000 this year as compared with \$1,200,000 last year. The increased rates on stumpage became effective last August and the \$5 per thousand rate is being paid on this winter's lumber operations on the crown lands for the first time.  
American Market Improves.  
With a most hopeful view of the American lumber market, which is expected to pick up and afford a profitable outlet for the surplus lumber New Brunswick may have to offer, R. W. McLellan, president of the Canadian Realty Co., Ltd., has returned from New York.  
As to the pulp wood market he reports conditions are not so bright because the American mills are so heavily overstocked, but the linen trade, with which he is actively identified through his position as trustee of the Cherry Moore estate which operates extensive mills at Belfast, Ireland, is in a much better position than recently and he believes the mills ought soon to be back to their pre-war basis.

#### House Is Destroyed With All Contents

First Outbreak Early in Morning Thought Extinguished But Broke Out Later.

Florenceville, Feb. 13.—The residence of Mr. George Gray was totally destroyed by fire with most of its contents, including valuable heirlooms of silver, crockeryware and furniture. The fire started in the basement, early in the morning, as the result of the overturning of a lamp, and it was thought it had been entirely extinguished, but some smoldering remnant remained between the woodwork, and early in the afternoon it was found that it was burning and spreading rapidly and could not be controlled. There was an insurance of \$2,500 on the building and \$1,000 on the contents.  
Dr. C. C. Jones, Chancellor, has received advice from Ottawa that the trophies have been shipped and that they are sent in recognition of the part played by the U. N. B. students and under-graduates in the war. He said that the location for these coveted trophies had not yet been selected, but said they would be temporarily housed in a prominent place in the present buildings and as soon as the proposed Memorial Hall is constructed they will naturally be placed there.

BERLIN ALSO SEEKS TRADE WITH THE REDS

Foreign Minister Admits Secret Negotiation for Resumption of Pre-War Relations.

GREAT NEED OF RAW MATERIALS

Communist and Monarchist Dangers to Gov't Are Discussed by High Official.

Berlin, Feb. 13.—Germany is playing the same game as other anti-Bolshevik European countries, according to a statement made in a speech by Foreign Minister Simons in the Reichstag, Friday, answering an Independent Socialist attack on the republic's Russian policy.

The natural economic forces that were responsible for the exchange of Russia's raw materials for Germany's manufactured articles before the war will again assert themselves as soon as the two countries have goods to exchange, in spite of any political restrictions, in the opinion of Dr. Simons. He declared, however, in answer to criticism of the Hitler program being made, that as long as one country was able to pay only in gold and jewels, the trade would not be extensive. He further defended the government's policy by a recital of the difficulties in the way of immediate resumption of trade with Russia, which he classed as economic and diplomatic.

Government Declared Safe

In spite of the fact Berlin is filled with rumors of proposed Bolshevik offensives and monarchist coups, Dr. Weimann, federal commissioner of public safety, declared in an interview today that he does not fear for the safety of the existing German republic. Local riots, as a result of unsettled economic and political conditions, may occur, but no extensive attempt will be launched this winter to overthrow the government by the extremists of the right or left, in the opinion of this official, whose duty it is to protect the state from such dangers.

"It is a well-known fact," stated the commissioner, "that foreign agitators are working here in co-operation with the German communists, and finding it difficult to secure coal, food and employment makes many persons willing listeners who otherwise would not accept Bolshevik doctrine. As a result local disturbances, similar to the one put down in Westphalia the other day, can be expected, but the department has no intention of permitting them to assume menacing proportions. The danger from the right likewise is overestimated, in the opinion of the commissioner, who agrees with previous dispatches to the Public Ledger, that few of the monarchist leaders realize the time is not ripe for such a move. These few now heading these activities are publicly unknown and without political influence, he said."

WAS SUFFERING FROM INDIGESTION

No Fear of Pains Now.

Indigestion is one of the worst forms of stomach trouble, and many people suffer terribly after every meal they eat. The rising and souring of the food, pain in the stomach, heartburn, water brash, belching of wind, vomiting shortly after eating, etc., are some of the symptoms.

There is no need for any person to be troubled with indigestion, dyspepsia or any other stomach trouble if they would only take Burdock Blood Bitters, which contains a combination of nature's roots, herbs, barks and berries; a combination that cannot help but put the stomach right.

Mr. H. H. Collins, Norton, N. B., writes: "I was with the overseas forces for four years and two months, and in October, 1918, I was unfortunately wounded and taken prisoner. I was a prisoner for two and a half years, and the food they gave me was not good, at times, and after a few months I found I was suffering from indigestion. When I came home in July, 1919, I was nearly a wreck. I was told to use Burdock Blood Bitters. I did so and found great relief, and was now eating without fear of pains and sickness. I would recommend it to all who are suffering from indigestion."

Burdock Blood Bitters has been on the market for over forty years, and during that time has made a reputation second to none for relieving all stomach troubles. Manufactured only by The S. B. Mearns Co., Limited, Toronto, Ont.

Nearly Million Men Are Idle in Germany

Workers Refuse to be Fired—Continue on Job Even When Finances Give Out.

Berlin, Feb. 13.—The German army of the unemployed increased 43,000 in the last two weeks of 1920, according to a government report published this week. The present number of unemployed in all Germany totals 400,000, to which a further 454,000 dependents must be added as they likewise receive doles. About one-fifth of the number of unemployed are women, but the recent increase consisted of approximately 90 per cent. of the male workers.

These figures, however, do not convey a true picture of the unemployment situation, as they do not include the large number of part-time workers and of idle men who are not registered. It is estimated that the latter alone total another 400,000. Attempts to remedy the situation have had little effect. Two hundred thousand men are at present employed by municipalities in local relief works, but the lack of coal and raw material and, as the socialists maintain, offensive political reasons, increase the number of plants which are closing, contributing to the general unrest among the working classes.

Battles are constantly being fought between managers and laborers who refuse to be dismissed. A few days ago, when construction work on the new subway in Berlin was to be abandoned because of lack of funds, 4,000 workmen, facing unemployment, declined to lay aside their shovels and returned to work the next morning. Their status is now being debated in a joint council of workmen's representatives and municipal officials.

Presence of Mind Saved Wife's Life

(Copyright, 1921, by Cross-Atlantic.) Bombay, Feb. 13.—The wife of an officer of the Victoria's bodyguard was attacked by an elephant employed in a hunt. The animal apparently went suddenly mad and seized the lady in its trunk, whereupon her husband struck it across the trunk with a stick. An elephant's customary method of destroying a victim is by trampling upon him, but this time, infuriated by the blow, plucked the lady in its mouth. An officer standing close by, armed with a rifle, immediately fired. The bullet entered the elephant's eye and pierced its brain, at once killing it. The officer's timely action saved the woman's life.

The incident gave rise to a rumor that Lady Chelmsford, wife of the retiring Viceroy, had been attacked and seriously injured by an elephant.

disagreement between the Germans and the Allies, Dr. Weimann advanced the argument that these were formed solely as a protection against the threatened Communist activities because of a lack of faith in the strength of the federal government to afford an adequate guarantee of safety. Although these forces have no connection with the monarchists, the commissioner admits that Germany would be better off without them and contends they will disappear of their own accord as soon as the federal police are strong enough to combat any activities from the left. The first step toward restoring the former confidence in the federal government must be, he declares, an increase in both the size and the numbers of the present police force.

SAY, HOW'D YOU LIKE TO TAKE A LITTLE CRUISE WITH ME? YOU CAN BE MY CREW!

Strenuous Efforts Failed To Save Life

London, Feb. 13.—Never has the fate of an ordinary little white terrier caused such commotion as surrounded the "trial" and "execution" of "Onkie," for being a "danger to the public." Onkie had bitten a human being.

Onkie's friends moved heaven and earth to gain a reprieve, and his life hung in the balance for nearly five months. It was on August 19 last year that Onkie received his death warrant in Kingston Police Court. An appeal was made at Surrey Quarter Sessions on October 22 by C. J. Birch, Sarblion, his owner, in conjunction with the National Canine Defence League, but the sentence was confirmed. Mr. Birch then wrote to the Queen, Queen Alexandra, and the Prince of Wales, asking them to intercede on the dog's behalf, and a petition for a "reprieve," bearing nearly 18,000 signatures, was sent to the Home Secretary, who replied about six weeks ago that he had no jurisdiction.

So, one fatal night, in the presence of an officer of the law, the dog was destroyed at the surgery of a veterinary, being poisoned by an injection. The "execution" did not occupy more than five seconds.

Children Cry for Fletcher's CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for babies. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrup. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulence, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. "Over-Plane" Is Latest Thing in Airplanes

French Aviators Discuss Possibility of Machine Capable of Submarine.

(Copyright, 1921, by Public Ledger.) Paris, Feb. 13.—At a meeting of the aero club of France, prominent aeronautic engineers seriously discussed the development of an "over-airplane" which would rise above the atmosphere of earth in the thinnest fluid and glide along at the comet-like speed of 800 kilometers, (500 miles an hour). Such a plane could make a trip from Paris to Buenos Aires in twenty-four hours, it was contended.

Aviators say this will be the future scout of space, just as the submarine lurks in the depths of the ocean, and the hazards are held to be no less than in ordinary flying. It would be necessary to provide its own air for breathing and for the engines which would require the passengers to remain in a compact pulchra compartment with the air supplied by turbine compressors, which could renew the supply readily by "coming down" for air.

Buying Airplanes

He points to recent contracts made by the Chinese Government, which purchased 200 Vickers airplanes, several Handley-Page planes and more than 100 seaplanes of American manufacture, asserting that the contracts show how British and Americans are supplying Japan in supplying materials to China. A naval officer concludes that under present circumstances the violation of the Mitsu contract cannot be ignored without great loss to Japanese prestige and influence.

The Kokumin Shimbun, the bureaucratic organ, in a further article attacks the interpretation of the Anglo-Japanese alliance, which releases Britain from the obligation to fight America. The Kokumin says that "the principle on which the alliance was based does not now exist," and points out that not only is Britain no longer obliged to help Japan against America, but that Article IV of the alliance treaty must now be considered as including all signatories to the League of Nations covenant, since the covenant is as much a treaty for general arbitration as is the peace commission treaty between England and America.

Reviewing Treaty

The Kokumin says that the Tokio Foreign Office is now preparing a revision of the treaty, which, since Eng-

### Amateur Ice Skating Records

Gorman Holds 440 Yards Outdoor Record—McGowan and McLean on Indoor.

For the past couple of weeks there has been considerable talk regarding speed skating records and especially since Charlie Gorman made his 440 yard outdoor world record at Lake Placid on Friday last. The following amateur ice skating records were compiled by John B. Foster for Spalding's and it may be mentioned that the 240 yards record made by Everett McGowan and Robert McLean, which equal that of Gorman, 37 3/5 seconds, were made on indoor tracks. Faster time than this was made by Harley Davidson and J. F. Donahoe, but these were with the wind and flying starts. Gorman certainly holds the world's outdoor record.

## Jewtraw Middle Atlantic Champion

Decision Given at Meeting of Delegates to International Skating Union of America.

Lake Placid, Feb. 12.—When Chas. Jewtraw, of Lake Placid, appeared here today for the final struggle for the international championship he was hailed for the first time as middle Atlantic champion. At the close of deliberations by the delegates to the annual meeting of the International Skating Union of America, Allan I. Blanchard, the newly elected president, announced that the complications arising over the holding of the so-called United States Championships at Newburgh on New Year's Day and re-allocating them again at Saranac Lake recently had been officially adjusted, and that the Newburgh meeting instead of being a national meet as announced at the time was in reality the first middle Atlantic meet, being the first held under the auspices of that organization. He stated that this decision on the part of the International Association automatically makes Jewtraw middle Atlantic champion, which he recently won at Saranac Lake.

## Unable to Locate St. John Skaters

Montreal Men Had Not Arrived Home Last Night—Local Men Reach Here Tuesday.

Frank White and others were trying hard Saturday night and yesterday to locate the Montreal skaters. They had left Lake Placid for St. John, but were unable to locate the local skaters. A wire was sent to Garnett and Gorman by Ernest Stirling, who received word that Garnett had left Lake Placid. It was thought that perhaps the skaters had reached Montreal yesterday morning and would arrive home this afternoon. A wire received by The Standard late last night from Montreal was to the effect that it was unable to trace Gorman's whereabouts because at that time the Montreal skaters have not yet returned from Lake Placid.

He is scheduled to fight Young Joseph in a ten rounder at Saskatoon next week.

It was one of the best games of the season and was much cleaner than the previous ones. The Hamilton team showed more team play and combination than has been their custom, and they kept their feet until the closing minutes of the game when they staged a rally which brought them to within one point of victory, but "Baby" Byrne came through with the goal that broke the hearts of the Tigers, just before the gong sounded.

## Protests Received By Secretary Wade

One Refers to Veno Being on Chatham List; Other Over Brown Acting as Referee.

Special to The Standard. Fredericton, Feb. 13.—Clarence H. Wade, secretary of the New Brunswick Hockey League, has received from Sandy Staples of this city, who was referee of the game, two protests lodged by the Campbellton Hockey Club before the game which the Chatham and Campbellton clubs played at Campbellton on Wednesday, Feb. 10. One protest refers to the presence of Stanley (Shorty) Veno in uniform with the Chatham team, to his having been included in the list of players given by the Chatham team for the game and was evidently filed to protect the Campbellton Club's amateur standing in the event of an ineligible player being used. The other protest, over Frank M. Brown of Moncton acting as a referee in accordance with the Chatham Club's demands that they would not play unless he was on the ice, thus disregarding the appointment by the then president of the N. B. H. L., of Sandy Staples as the sole referee and in spite of the regulations of the league which say that an appointment of a referee by the league president shall not be subject to any appeal. Secretary Wade is communicating with Chas. A. Alexander, secretary of the Campbellton Hockey Club, and will ask him to make a statement of the Campbellton Club's claims and if a sufficiently concise statement of facts is obtainable, copies will be submitted to every club and a mail vote will be taken on the protests in question. If a decision cannot be reached without doing so, a meeting of the executive will be called. Representatives of Bathurst, Campbellton, Marysville and Fredericton Clubs have already unofficially declared that they will demand recognition by the Chatham Hockey Club of the acts of the officers of the league. Several of the clubs are said to be determined to go through with such action, even if it results in the Chatham Club carrying out threats that have already been made to leave the N. B. H. L. and jump to the independents.

Several of the clubs are said to be determined to go through with such action, even if it results in the Chatham Club carrying out threats that have already been made to leave the N. B. H. L. and jump to the independents.

How It Was Done. It was in the critical days of 1918, in the country around Arras that the most hair-raising of Capt. McKean's "thrills" took place. The Boech was attacking, our authorities were on a big raid. In preparation for this Capt. McKean had many an adventure, locating advanced posts, bombing blocks and machine gun posts, but it is what happened on a night of the advance that we are going to recount.

All Was Quiet. A perfect stillness reigned, writes Capt. McKean. It was the time when the activities of opposing armies are at their lowest. But for an occasional flash of light, no one would have guessed that legions of armed men were facing each other across the narrow strip of land known as No-Man's Land.

Crimes And Thrills In New York Plays

Loss of Life Appalling—"In The Night Watch" Was Tragedy Calore.

New York, Feb. 13.—New York's well known crime wave appears to have splashed the drama. The casual list of the week's shows is appalling. In the half-dozen productions which have been presented to the public during the past seven days there are no less than four suicides.

Maestros Saved Ship. The heaviest loss of life occurred in the spectacular melodrama, "In the Night Watch," which the Shuberts are presenting at the Century.

Wonderful Stageract. The big scene, of course, is the sinking of the Alma. In this the Shuberts have demonstrated that the mechanism of the stage can be superior to that of the screen in imparting thrills.

**TO A DEAR ONE.**

Is something sweet about you, dear?

Is it I do not know?

Is it that little something dear, that makes me love you so.

Is there none other like you, dear?

Is it a soul apart?

Is it just that little something dear, which you won my heart.

Is death should part us, dear?

Is it you be first to go?

Is it that little something dear, that makes me miss you so.

## PROFIT-TAKING SENDS QUEBEC RAILWAY DOWN

Big Selling of Cement Breaks Price Two Points to Fifty-Nine.

## PAPERS INACTIVE AND WITHOUT A FEATURE

Toronto Rails Closes With 1 1/2 Point Advance to 73 1/2 and 75 Asked.

Montréal, Feb. 13.—Tractions again took the lead in Saturday's local stock market, with Quebec Railway again the most active issue. There was some profit-taking, and the stock closed the day a fraction lower at 28. The remaining transactions ended at higher levels than on Friday, with Winnipeg Railway adding two points at 57 1/2 and Toronto Railway closing one and a half points up at 73 1/2 and 75 asked at the close and no bids.

A feature of the trading was the selling of cement, presumably on account of the publication of the company's annual statement. There was a total turnover of over 1,000 shares and the issue fell two points to 69.

**Papers Featureless**  
The papers were featureless, very inactive, with only small fractional differences in price levels. The textiles were neglected and in the general list Steamship continued weak, losing a fraction at 28 1/2, and the preferred sold down 1 1/2 to 96. Sugar was quiet, but the price fell 1 1/2 points to 21 1/2. Stocks to make substantial gains were Car preferred, which added 1 1/2 at 72 1/2, and Iron preferred up one at 76. Bonds were quiet and strong. Total sales listed, 7,334; bonds, 379; 700.

**ROSSINI MANUSCRIPT FOUND.**  
(Copyright, 1921, by Cross-Atlantic.)  
Copenhagen, Feb. 13.—The original manuscript of Rossini's famous opera, "The Barber of Seville," has been found in the archives of the Copenhagen Conservatory of Music.  
The find is all the more important because the manuscript contains the original overture which Rossini rejected after the first performance, which was a failure.  
When Mr. Washington D. Vanderlip, the American banker, went to call on one of the Soviet Ministers for a consultation on his concessions in the Far East he hired two taxis, one to convey himself and secretary and the other to carry a load of paper bundles to pay for the first taxi, according to the Hague Post correspondent at Moscow.

## All Wheats Decline In Sympathy With American Markets

Trading in Futures Was the Smallest Volume With Narrow Fluctuations.

Winnipeg, Man., Feb. 12.—The local wheat market was devoid of any feature today, as is usual with the market during a lull in trading was at a very low ebb. Prices were fractional, but quotations were really only nominal throughout the greater part of the session. Cash premiums were a cent lower, but offerings were of the smallest character. Futures closed 1 1/2 to 1 3/4 lower. The coarse grains were exceptionally dull. Trading in futures was the smallest volume with narrow fluctuations. ## Aim At Big Haul; Get Empty Trunk

**Gem Thieves Lose Out in Attempt to Rob Big New York Jewelry Firm.**  
Special To The Standard.  
New York, Feb. 13.—A daring attempt to steal a trunkful of jewelry from the showrooms of the jewelry manufacturing firm of A. Wittnauer & Co., in the centre of the uptown shopping district, at 30 West Thirty-sixth street, became known last night when the trunk was found in the cellar of the tenement at 404 West Forty-fifth street. It was learned that the trunk was empty when the robbers sneaked out of the Wittnauer firm's place with it, and that the attempt to make away with a full trunk, which would have yielded into the tens of thousands of dollars, has merely served as a warning to the company that police protection means nothing to the men who planned the job.  
The trunk was carried into the West Forty-fourth street cellar from a dilapidated express wagon at 5:45 o'clock yesterday afternoon. Two men who brought it there left the house immediately. They were seen by two

## Preferred And Bank Stocks Feature In Listless Market

Unlisted Securities Were Dull All Week—Pulp Deal Going Through.

Special To The Standard.  
Montréal, Feb. 13.—The unlisted market this week was again dull with preferred and bank stocks the features, says Balfour, White & Co.  
Horden common gained half a point, and is now 36 bid none offered with a few sales at 37. The preferred has been selling around last week's level of 80 1/2 to 81. Whalen common is 17 1/2 bid—a gain of half a point, and the preferred closed 43 bid with no stock offered—a gain of 6 points for the week. This stock was 21 p. c. in arrears on January 1, 1921, and is gradually being absorbed—there being a very small floating supply on the market. Dryden was dull—only a few shares changing hands at 24—Metzger common is 20 bid, offered at 24—a small block sold at the latter figure, and the preferred is offered at 73 no bid.  
North American Pulp sold at 5 1/2 and 5 3/4. At the special meeting of the shareholders held on the 24th February, the proposal of the directors to terminate the trust was approved, and this will be carried out. The shareholders asked for a statement of the standing and earnings of the Saguenay Power & Pulp Company, and this is to be furnished within the next few weeks. The shareholders will then have thirty days to decide whether to accept the offer of not less than \$6.00 cash per share or to exchange into Saguenay Power & Pulp at the rate of 10 North American Pulp shares for approximately 1 preferred and 4 common shares of the Saguenay Company having a par value of \$10. President Dubuc of the North American Pulp & Paper Trust made the statement that the earnings of the Saguenay during 1920 amounted to \$1,500,000.

## Federal Restraint On Coal Trade Urged

Minnesota Fuel Chief Says Coal Dealers and Calls on Government to Act.  
St. Paul, Minn., Feb. 13.—Strict government regulation of coal production, distribution and sale is recommended in a new report just issued by Judge John F. McGee, coal commissioner for Minnesota, whose charges against mine owners at a recent hearing in Washington brought a hot reply from J. D. Morrow, vice president of the National Coal Association.  
In his latest report, Judge McGee denounces as falsehoods the statements made by Mr. Morrow. Besides governmental regulation of coal production, distribution and sale, Judge McGee urges—  
"That coal producers be required to sell to individuals and organizations on same basis as to coal dealers. That more than one reconignment of coal be prohibited, and that one be from dealer to consumer. That standard contract for coal sales be prescribed and that producers be prohibited from contracting to deliver greater tonnage than they were actually produced in preceding years, except with government permission. "Plunder," "dazzling profits" and "colossal crimes" are some of the terms used by Judge McGee in referring to the coal industry during the last year.  
Scores Coal Operators.  
The "plunder" of the coal operators, says the report, equaled more than 10 per cent of the amount it cost the United States to carry on war for two years. He charges that the operators deliberately cut down shipments to the Northwest in order that they might reap dazzling profits on the seaboard, where extravagant prices were offered for coal for export.  
The result was the Northwest got 6,000,000 tons less coal than it had the last normal winter, 1918-1919, the McGee report declares. Only because of a short, mild winter has this territory escaped suffering for lack of fuel, he says. McGee also charges that the Northwest was actually out of huge sums by the coal operators.

## Heavy Guards For Germ Collections

London Determined to Protect Specimens of Bacteria at Lister Institute.  
(Copyright, 1921, by Cross-Atlantic.)  
London, Feb. 13.—Heavy guards have been placed about the national collection of microbes at the Lister Institute here, as a result of the recent theft of over a hundred thousand dollars worth of germs and serums from the Laboratory of Dr. Goldschmidt, at Hamburg, Germany.  
It was suggested at the time that the theft was the agent of Soviet Russia, who might use these deadly prizes in their plotted overthrow of all organized governments. The Hamburg collection contained, cholera, typhoid, tuberculosis and other germs in quantities as great that their criminal use would bring a reign of terror throughout the civilized world. The collection at the Lister Institute contains samples of eight hundred different strains of bacteria.  
"We have bacteria here from almost every country in the world and are receiving more every day," said Dr. St. John Brooks, who is in charge of the collection. "It is hoped to make this the most valuable collection of death dealing and industrially useful micro-organisms in the world." "But they must be guarded. In the hands of unscrupulous men they might overthrow civilization."  
Chance For League of Nations.  
"I see civil war is threatened in the 'golf world,'" said a curious citizen. "Wonder what the trouble is?" "Hard to say," said his vis-a-vis, "but I expect half the golfers want to restore the nineteenth hole and the other half don't."

## Wheat Growers Will Eliminate Middleman

Expect to Save Fifty-Five Cents Per Bushel by New Plans.  
Chicago, Feb. 13.—A co-operative plan for the selling of wheat was adopted yesterday by the executive board of the National Association of Wheat Growers. Members of the board said the plan would mean the saving of approximately fifty-five cents a bushel through elimination of the middleman's profit. The growers' plan to establish central receiving stations in each state where the farmers may send their wheat and obtain a receipt for it. From these elevators the wheat will be sold direct to the millers. Stations for receiving wheat also will be established at all large seaports to handle export trade, it was announced.
