"Climax Furnace" for Wood.

Is Admitted by All to be the Best Furnace in Every Way that
can be Purchased in the Market.The above Furnace with Radiator is made wholly of heavy cast iron and

leak no gas, which is the great objection to every other Wood Furnace in use. The feed
door is large and will admit of burning all kinds of rough wood, which, with the
check dampers, controlling the fire, makes the Climax Furnace also the most
economical. There being no fire pipes or sheet iron used in its construction it
will easily

Point de Bute.

Haying operations are still being
carried on here, and two fine days come
together. The verdict of the threshing
machine does not improve on the first
estimates of the crop. Oats are not
so good as last year, but potatoes are
in little better. Potatoes are better
than last year, but scarcely more than
half a year; turnips small; other roots
fair. There is not much change in the
hay market; a few cars are being sent
aboard, but there is not much for sale.Speaking of markets, a gentleman
who listened to the speeches at the St.
John rink during the exhibition, wrote
to a friend in Norfolk, England, who
lives in the centre of a fine agricultural
market, asking him the prices in the
market there of butter, beef, mutton and
eggs. Last week he got the following
quotations put in cents: beef, 18 cents
per pound; mutton, 20 cents; butter,
26 cents; eggs, 3 cents each. These figures
look as if the English market ought to
be a good substitute for the American.Mr. R. Harrington is making ar-
rangements to remove to Cape Breton

the vestry of the Methodist church, last
Thursday, was well attended and was
a very interesting meeting; notwithstanding,

be surprised that such an appointment
was made and asked, thinking I suppose,

Sam Small in Amherst.

The celebrated, brilliant American
evangelist, Rev. Samuel Small, M.
A., president of the Methodist Univer-
sity at Utah, U. S., or as he is more
commonly known, Sam Small, delivered
his famous lecture, "From Bar-room to
Pulpit" in the Methodist church, Am-
herst last evening. Despite the un-
favourableness of the weather the ca-
pacity of the church was filled and the
attention with which the lecturer was
listened, spoke of the great interest his
coming had aroused in the people of Am-
herst and vicinity. Rev. Mr. Strath-
aird occupied the chair and after the
singing of a hymn and prayer by the Rev.
Mr. McGregor, introduced the speaker.Mr. Small, opening his lecture by a
very pleasing comparison of his position
with that of a song bird, that having
been trapped and taken from its sunny
mountain home to the city, suffers cap-
tivity for a time, but finally liberated
and sings a glad song of thankfulness
in freedom. He lectured on the moral
He has suffered all the terrible
persecutions of a drunkard in whose
breast burned the insatiable taste for the
stimulant. His until he reached that
period when he was supposed to act
for himself, was marked by "nothing of
importance. He had been nurtured in
a Christian home, and his early thoughts
were different from his. As years rolled
on, he thought his mother's teachings
were wrong, and soon fell into an abyss
of sin which he took the hardest struggle
of his life to escape.From the commencement to the end
of the lecture, Mr. Small held his
audience by the force of his own
life, and at times took brilliant flights of
eloquence which were loudly applauded.
He closed by asking all to vote for pro-
hibition. Enroll at once. Do not wait
for moral suasion. It has been at work
for hundreds of years and still liquor is
sold.Upwards of 60 persons went from
Sackville. A special train brought the
party back at the close of the lecture.

Shediac.

—Mr. C. L. Butler and wife of Penn.
arrived in town yesterday from Boston
where for some time they have been vi-
siting the former. While here they will
be the guests of Sheriff Sweeney.—The friends of Mr. Clayton Dickie,
architect, who died some time ago at
his business, almost entirely recovered
from his recent attack of typhoid fever.
—A Arlington Cooke entertained an
enthusiastic audience of Templars at
Tate Hall last evening.—James Irving is reported seriously
ill with inflammation of the lungs.—There was a charitable variety
of personages presented the trial of Le-
gore vs. Bidouan held at the office of P. J.
Sweeney, yesterday, Justice Boudreau
presiding, jury composed of N. S. Car-
riage merchant and manufacturer and a
grocery merchant of the village. Senator
Forier and W. A. Russell appeared for
the contending parties respectively.—Temperance people are jubilant over
the effect of the last raid on the vendors
but think another now would not be amiss.—Miss Jennie Cryps arrived home
yesterday from St. John much pleased
with her visit.

Dorchester.

—Judge Landry has recently put a
steel-jump in front of his house. His
example is worthy of being followed by
others, for at this season of the year,
and especially as most of our sidewalks
are in a dangerous condition, it is pos-
sibly necessary to go about after nightfall.—Mr. E. C. Palmer, has recently
added to his tailoring establishment a
dress-making department, under the
management of Miss S. R. Wood. This
department will doubtless prove a benefit
to the ladies of Dorchester, as well as to
Mr. Palmer.—Rev. J. R. Campbell and Warden
Foster, were in Windsor last week,
attending a meeting of the Directors of
the Girls' Church School.—The sidewalk has been extended
from the residence of Mr. H. W. Palmer
to the railway crossing, at the Cape
Bridge and proves a great convenience
to people living in that part of the town.—Mr. A. N. Charters, of Monkton,
was in town to-day on business.—Your correspondent is glad to learn
that Captain Silas Cole, who has been
very seriously ill with typhoid fever, is
now so far recovered that he is able to
go about as before.—Amos Ogden Esq., County Warden
was in town yesterday on municipal
business.The sale of the old goal building, ad-
vertised for yesterday, was postponed
until first of December, owing to the
non-attendance of persons whose pre-
sence was necessary for the completion
of the sale.—W. A. Russell Esq., barrister of
Shediac and County councillor, was in
town yesterday on business connected
with the new goal.—The American committee for the
relief of famine in Ireland has issued a
circular with-drawing requests for
American money and clothing, on ac-
count of the Government of Great Brit-
ain having promised to see that the
famine sufferers are provided for.

Southampton.

—The election is over. It was run
on party principle chiefly, Mr. Baker
having on several occasions during
his term of office proved recreant to
Liberal interests. Mr. Smith was
elected by a majority of nine. Ex-
Councillor Baker, though in the
minority, sustained an honorable de-
feat, none but legitimate effort having
been made by himself or his party to
secure support.We have been shown a fine specimen
of iron ore, from a deposit recently dis-
covered at Advocate Harbor by Messrs
Patrick and Captain Lewis. Their at-
tention was called to it by Mr. Eaton,
and they at once began a search, with
such favorable results that a claim was
secured from government by Messrs
Patrick and Loney, of Halifax. The
ore found yields an average of 60 to 75
per cent. of pure metal. The formation
is stratified and there is considerable
specular iron; the location is admirably
adapted to the easy operation of the
works, and cheap shipment of mineral
product. It is probable that the favor-
able circumstances will readily induce
capitalists to speculate.—Dr. A. H. Chandler, of New Brun-
swick, the Canadian poet, is in town on a
brief visit, and stopping at the Parker
House. He is well known as a frequent
contributor to the Boston press, and his
poems are stamped with a sweet fresh-
ness and a pure love of and familiarity
with nature that are rarely surpassed.
His beautiful lyrics and his poem on
"Immortality" are well known among
readers of taste and lovers of the beau-
tiful.—Boston Herald.
