FIRE INSPECTION

Clean-Up Gave an Opportunity For Proper Safeguarding of Property.

Citizens generally have fallen in with the idea of a London Clean-Up and Paint-Up Day, suggested by The Advertiser, and the board of health has taken the matter up, with the result that city-wide housecleaning will be done on April 20, Tomorrow, Mayor C. M. R. Graham will issue a proclamation calling upon all good citizens and true to get busy on their

properties on the day named by the board of health, and a universal acceptance of the civic mogul's decree is anticipated. Toronto had a clean-up day last year inder the auspices of the Ontario Fire revention Association, when the city garbage department and the fire department co-operated to make the venture a sucess. The garbage wagons were sent along to pick up the rubbish, and the drivers assisted householders who were unable to secure other help, in making their prem-

ses more presentable. Later, the fire chief and his deputies went over all industrial buildings and theroughly inspected the equipment kept on hand for fighting fires. When hose and other articles were found to be in an inefficient state, the firemen prompting hotified the owners to have the same replaced. After the cleaning was completed, the streets were flushed by the firemen.

St. Paul, Minn., last year, a threeweeks' cleanup campaign was held, and 7.100 loads of rubbish were carred away at a cost to the city of \$5,531. It is proposed to hold such a houseleaning carnival in St. Paul each year and to proposed to hold such a house cleaning carnival in St. Paul each year and to charge the cost on a frontage basis, the same as street watering.

Began Work As a Brakeman and Mastered His Business From Ground Up.

Sir William Whyte, vice-president of the Canadian Pacific Railway Company, one of the pioneers of the road and a former London railwayman for several years, died yesterday at Cor-onado Beach, California, after an illness of several weeks' duration. He

vas 71 years of age.
Sir William was known as one of the most capable railwaymen in Canada and his knowledge of traffichandling on the iron roads was obtained by actual practice and through long association with the work.

While devoting the greater part of his time to railway enterprise, he took a keen interest in military affairs. At the time of the Fenian raid he was captain of a Grand Trunk rifle corps, and he continued in the service until

it was disbanded. While at his home, 603 River avenue. Winnipeg, early in March, he was taken ill and his physicians decided that a trip south to a warmer climate was necessary. Accordingly, with his wife and daughter, he removed to Coronado Beach. While there he was obliged to undergo an operation for gall stones, and the length of his stay was thereby greatly extended. After the operation his condition gradually became worse, and he died at his His death came unexpectedly to his friends in Canada. Thomas Scott, 133 Central avenue,

His first position was in the office of the factor of Lord Elgin's estate in Scotland as junior As a boy he had always entertained an intense liking for railroad Tife and soon he entered the employ of the West Fife Railway. Promotion was rapid and several years later he was

made station agent. When he was 18 years of age tales of the Dominion of Canada poured into his ears by friends who had been across the water imbued in him a desire to seek out the new land to make his fortune. His determination to work on a Canadian road caused him to take passage to Canada in June, 1863. He secured em ployment with the Grand Trunk Railway as brakeman on a freight train. to the petition for the 9,000 temperance Conservatives asking for a plebiscite or a referendum and Mr. Rowell's offer to walk across the floor and stand behind the Government forces in the matter. The Provincial Secretary asked the leader of the Opposition if he recollected that in 1894, not 9,000 supporters of the Con-servative party, but 192,000 electors of the province of Ontario, asked for practically the same thing that the 9,000 asked for the other day. At that time they had in this province a Liberal Govrnment, and nothing was done to meet the request. Again, in the year 1902, here was a referendum of the people of the province, and 199,000 voted in favor of reform and there was not a move on the part of the Government then in

The speaker then passed on to enumerate what the Conservative Government had done, since it came into office, in the way of improvement to advance the cause of temperance in the province. So far as a political party in the province could claim credit for temperance legislation, it was the Conservative party un der Sir James Whitney, and that condition of affairs had been developed, wor'sed out, and stimulated by what they had done session after session. they came into power in 1905 there were for taverns some 2,516 licenses; in 1913-14 there were 1,383 licenses. The shop licenses in 1905 numbered 298; in 1914 they had 217, a reduction in shop licenses of 81. That, he claimed, was a sign of progress. "In the legislation we have evil of the liquor traffic. For the third enacted, in what we have done towards the strict enforcement of the law, I want to say the pledge given by Sir James Whitney has been redeemed in a way ternoon, concluded at 12:45 o'clock this that pledges are seldom redeemed any political party," declared the Provincial Secretary, amid vigorous thumping Pratt (South Norfolk), A. "AN ORGANIZATION OF CROOKS." THE indignation of the British public over the mutiny of the army officers should have an effect upon the whole militarist and armament situation. Recent investigations in Germany have upon state policy of the directors and cerns. Mr. Snowden, the Labor leader, made some remarkable charges in a good government for nations and municispeech in the navy debate last month, taking for his text Lord Welby's phrase that the nations were in the hands of bers of the ministry and of Parliament lions spent on army and navy, the ofdictate to the Government which employs and feed them fat.

dellars have been spent on the navy-in only eight years. This in itself is monstrous. Mr. Snowden suggests the reasons why the awful crime goes on:

(4) The international working of the game to heap up expenditure is the most interesting feature of all. Get the British Government to put three more Dreadnoughts against Italy or Austria upon the Mediterranean, and then Italy will be sure to order three, or two at least, to meet them, while the British firms get their profit out of both nations. At Fiume, in Austro-Hungary, Whitehead torpedoes are made with money wrung from the Austro-Hungarian people. The curious thing is that Italians regard England as their traditional friend, and neither country will ever have any reason to fight the other. More than any other nationality, probably, the British And are welcome as travelers in Italy.

Most surprising chapter in the whole history of this game is the conspiracy n two sides of the Atlantic to get Canada to borrow \$35,000,000 or more for three Dreadnoughts. What's the Mediterranean to Canada or Canada to the Mediterranean? But a few Tory wiseacres at Ottawa wanted to do something for their armament-share-holding and office-holding friends in England.

The recent behavior of British officers should do something to cause a general overhauling of the army and navy situation. Some daylight is wanted on the true needs of Britain and the Empire. If both of the great British parties are found committed to a system of exploitation in criminal waste of the people's money, the Labor party will be ragtime, but when Villa arrives it is strengthened in its fight for the interests of the common man.

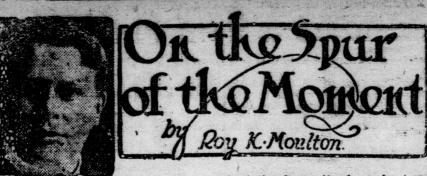

SECTARIAN ALARMISTS. HERE are some unfortunate people

whose religion seems to show itself very largely in distrust and fear, distrust of other sects and fear of what they may do. There are some zealous Protestants who are always worrying about the Catholic Church. They are always detecting the adverse influence of pope and priest, and seem to have so little confidence in pect someone to do it an injury. Then we have some Catholics who are not without their fears, only with them the object generally takes the shape of Freemasonry. Here is a Catholic paper in Quebec, for example, which warns its readers against the Boy Scout movement. which it believes to be an offshoot of this wicked society We are not aware that Freemasons are any more enthusiastic than other people over the Boy Scouts, and we are quite sure they had nothing to do with their origin. And even if they had, the object of this association of boys is so clear and definite that no one should who deserves the praise or the blame for starting the movement. As to Freein Britain, there should be no doubts. It is a fraternal and charitable society, in no way different from other benevolent associations except in some of its methods. The Catholic Church will not suffer from any attacks by Freemasons. And we are just as confident that Protestantism, and can president who has not been maligned all that it stands for, will not be damaged by William Randolph Hearst. Cleveland, by the Pope. There was a wife-reared in a city home—she had made sacrifices enough saved, already. And there was baby Tom, four years old. Mary and I could stand it, but We kept thinking of Tom and his future.

I was tired of the grind myself. And why worry life away in a flat and an office, when there was land within a day's ride waiting to give us a natural

happy living for our work. Mary answered the question first. Across the breakfast table one morning she fired at me. "Let's take the bank account, Frank, and buy a little farm.' I had wanted her to say that for onths. It opened the way for a little plan that had been growing in my mind

for a long time. "Let's rent an acre of land out a Downer's Grove," I amended, "and get a year or two of experience with chickens and vegetables and walking cultivators and such things first. We'll learn a lot of soil tricks, and meanwhile we can add a little to the bank account while we're looking up the best bargain in the little farm.

We found the kind of place we wanted within reach of my work-a fairly modern house, an acres of ground with a dozen apple and cherry trees, all for \$15 a month. We moved out when the March sun was swelling the buds, and the bluebirds had come back to help the mud puddles declare the coming of spring. It was glorious, not alone the relief from the cramped flat and noisy street,

but we had started a great plan. I bought lumber and building paper, and worked early and late at a chicken house. Together we planned the crops for our little farm, feeling that we had already gained a point where we could look out into a golden future. Even baby Tom seemed to catch the enthusiasm, would toddle about in the mud with a hoe twice his length, gleefully transplanting ragweed and dandelions.

Two dozen Rhode Island Red pullets and six motherly old hens to hatch as many settings of eggs cost \$40. The eggs cost \$18 more, and the house about \$25

Twelve Ladies Now on Board of Trustees-Mrs. Garner New Secretary.

The receiving reports from the superintendents of various branches of local W. C. T. U. work occupied a considerable portion of the semi-monthly session of the union held yesterday afternoon in the hall at 432 Park avenue.

Mrs. Thornley gave the report of the trustee board, stating that since the last meeting three additional members had been added to the board which now included twelve ladies: Treasurer, Mrs. Patterson; secretary, Miss Elliott; Mesdames Ashplant, Wallace, Williams, West, Sadler, Wright, Miller, Porteous, and Mrs. Thornley, president, and Miss Hearst.

The report of the trustee board treasary was read by Mrs. Weekes and showed a satisfactory balance in the bank. During the winter a new furnace had been

Mrs. Harrison presented the report of mothers' meetings and evangelistic work. The latter included visiting the sick, giving out garments and other assistance to the needy, visiting the city hospitals, finding employment for women in need, etc. The mothers' meetings which had been held weekly had proved most successful. The average attendance was about twenty, and the mothers learned plain sewing and various helps in household service. It was the work of the Master, Mrs. Harrison stated, and was being blessed abundantly.

Other reports were given as follows: Jail visiting, Mrs. Wallace; flower, fruit and hospital report, Mrs. Webster; law and legislation, Miss Hearst; parlor meetings, Mrs. Larsche; work among sailors, Mrs. Williams; work among colored people, Mrs. West; temperance literature. Mrs. Jones. Mrs. Garner was elected as corre-

When making gravies of either milk or water always have the liquid boiling hot before adding the thickening. Make the thickening, using about one tablespoonful of flour for one pint of gravy, by placing the flour in a cup, adding cold water, a little at a time, and stirring with a fork until smooth and of the consistency of thick cream. Then comes the secret of smooth gravy. When ready to add the thickening to the liquid, dip two or three spoonfuls of the boiling liquid into the thickening, stir together and turn slowly into the hot liquid, stirring constantly un-til it boils up well, when it will be done. By dipping the hot liquid into the thickening it brings the temperature somewhere near that of the liquid, consequently, when stirred in it does not retard the boiling at all. This same method holds good in regard to custards, sauces, salad dressings, or anything cooked in a like

There was a presentation know. of a monster horseshoe of flowers to Man- match for more than two years, and it ager Robinson, who pleased the big crowd of fans by showing them a team apparently far ahead of last season's in aggressiveness and all around work. They out-played the visitors in every inning and every department of the game today, bathard and running bases well. Reul-pitched brilliant ball during the seven innings he occupied the box, being taken out when the game appeared safe. Boston's two runs were the result of a gingle by Whaling scratch hit by Deal, a single by Whaling and Crutcher's double.

Brooklyn's runs were scored while Tyler

was in the box. In the second Smith singled and after the next two men were retired Griffith muffed Miller's long fly, giving the batter three bases, and Dalton singled, two runs counting. Daubert's single and Wheat's double brought in the next run and in the fourth Egan's pass and hits by Miller and Reulbach added another. Four tallies came in the fifth on a double, a pass and three singles. Crutcher relieved Tyler and held Brooklyn

CINCINNATI REDS 10. O'DAY'S CUBS 1

Cincinnati, Ohio, April 14. — Chicago met defeat here today in the opening game of the season, after playing for two hours and eight minutes in a drizzling rain. The score was 10 to 1. The rain, which began shortly before the time advertised for the starting of the game, not only kept falling, but it caused Cheney to lose control. He allowed eight bases on balls, made four wild pitches, and hit two men, besides having four hits registered off him.

Benton, on the other hand, appeared to like the wet going, and held the visitors to two hits. Governor Cox, of Ohio, was the guest of honor at the game. Manager O'Day, of the visitors, who was formerly leader of the Cincinnati team, was remembered by friends, in the form of a huge floral offering, which was presented to him. The game was featureless insofar as spectacular basebali was concerned.

ning after two men were out, that sent Art Butler across the plate with the winning run for the locals. In the first inning, Jack Miller, also with Pittsburg last year, doubled, scoring Butler from second base.

Excellent fielding by the locals held the visitors to one run.

The usual opening day ceremonies started the contest. Heavy clouds and a light rain just before the game held down the attendance.

THERE'S GOING TO BE A FIGHT, BOYS, AND IT WILL BE A REAL ONE, SAYS HUGH FULLERTON

White and Ritchie Have Studied Each Other's Systems Carefully and Either Is Likely to Spring Big Surprise.

By Hugh S. Fullerton.

Boys, there's going to be a fight. This is going to be a real one; one worth going to see. There have been few enough of that kind in recent ring history, but when Charlie White and Willie ment to do battle in May they started something

There is a lot behind this match which White has been seeking this his great opportunity. Ritchie, stalled for it, and manoeuvred in all kinds of ways to get it. Now that he has his opportunity, we will see what he does with it.

In some ways Charlie has had hard luck. He has missed fire when his chaminnings he occupied the box, being pionship chances seemed best, and failed to get several rich matches by slip ups that were unexpected. White believes the champion is modeled for him, although that opinion may be amended, as Ritchie has changed his system and style of battling wonderfully.

It is bound to be a great battle. Ritchie is one of the most underestimated champions the ring ever has had. This is partly his fault. Many fans lost faith in him during his long absence from the ring and thought he was not of championship caliber. He disabused the minds of those who saw him fight against Wolgast if they held this opinion, but many still refuse to believe he is at par with some of his predecessors.

White, too, is an underestimated fight-

New York, April 15 .- Following the example set by "Chick" Evans, his club mate, who went abroad as a helper on a cattle boat, Fraser Hale, of the Edgewater Golf Club of Chicago, today boarded a freight steamer at her pier in Brooklyn as temporary member of the crew. On reaching England, Hale will join the other American golfers in the British amateur championships at Sandwich. He will also play at La Boulie, France, but did not expect to enter in the British open championship at Prestwick, in Scot-

I highly recommend these wills to any Harold Weber, whom Hale tried to interest in his plans for the voyage to England, preferred a faster boat than a freighter, and left on Monday. Weber will enter the British amateur championship games.

BROOKLYN MAGISTRATE **PAROLES JAKE DAUBERT**

Brooklyn Player Will Appear in Court Today to Explain Why He Violated a Sunday Ruling Against Baseball.

New York, April 14.-A Brooklyn magistrate paroled "Jake" Daubert of the Brooklyn National League club in the Coney Island police court today so that his team might not be deprived of the services of its captain and first baseman on the opening day of the championship

Daubert was in court on a summons to Superbas' captain is part owner of a semi-Superbas' captain is part owner of a semi-professional team which last Sunday was defeated by the Brooklyn National second team. Daubert playing with the professionals. No admission was charged, but according to the police a magazine containing a score card and a four-page biography of Daubert was sold at the playing grounds. The magistrate told Daubert he could play with the Brooklyns against Boston today but to be in court again tomorrow.

rosy face.

"A just appreclation of the beautiful cannot affect anyone's life purpose, however serious and nobie," said he reproved the standard and strolled away

across the lawn, through the rose garden and into the house by the long French windows that stood open in the

warm eventide.

After dinner he paced the lawn in front of the house, his head bent, his hands behind his back. Mrs. Todd glanced at him now and then from the windows of

the drawing-room and wondered if she did see a new purpose in his face, or only imagined so. He looked serious and

coolish songs he favored. She sighed and then smiled, and told herself that he

doubts were silly and groundless, that he had indeed turned over a new leaf and given up the old empty life of nothing but sport.

"He is like me," she assured herself,

every day, and still do not increase in weight one ounce, while on the other hand many of the plump, chunky folks eat very lightly and keep gaining all the time. It's all bosh to say that this is the nature of the individual. It isn't Nature's way at all.

Thin folks stay thin because their powers of assimilation are defective. They just absorb enough of the food they eat to maintain life and a semblance of health and strength. Stuffing won't help them. A dozen meals a day there' pound. All the fat-producing elements of their food just stay in the intestines until they pass from the body as the same. testines until they pass from the body as waste. Famous Specialist's Recipe Catarrhal Deafness and Head Noises.

If you know someone who is troubled with head noises, or catarrhal deafness, deafness. Recent experiments have proved conclusively that catarrhal deafness, head noises, etc., were the direct cause of constitutional disease, and that salves, sprays, inhalers, etc., merely temporize, with the complaint. and seldom, if ever, effect a permanent cure. This being so, much time and money has been spent of late by a noted specialist in perfecting a pure, gentle, yet effective tonic that would quickly dispel all traces of the catarrhal poison from the system. The effective prescripwhich was eventually formulated, which has aroused the belief that deafness will soon be extinct, is given below in understandable form, so that anyone can treat themselves in their own home at little expense.

Secure from your druggist 1 oz. Parmint (Double Strength), about 75c worth.

Take this home, and add to it 1/4 pint of hot water and 4 oz. of moist or granulated sugar; stir until dissolved. Take one tablespoonful four times a day.

The first dose promptly ends the most distressing head noises, headache, dullness, cloudy thinking, etc., while the ness, cloudy thinking, etc., while the hearing rapidly returns as the system is invigorated by the tonic action of the treatment. Loss of smell and mucus dropping in the back of the throat are other symptoms that show the presence of catarrhal poison, and which are quickly overcome by this efficacious treatment. Nearly ninety per cent of all ear troubles are directly caused by catarrh, therefore there are but few people whose hearing cannot be restored by this simple home treatment. Every person who is troubled with head noises, catarrhal deafness or catarrh in any form should give this prescription a trial. There is nothing better. therefore there are but few

There is nothing better.

Important.—In ordering Parmint always specify that you want Double Strength; your druggist has it or he can get it for you; if not, send 75c to the International Laboratories, 74 St. Antoine street, Montreal, P. Q., who make a specialty of it.—Advt. April 4-15-25

THE EXCHANGES.

Paris, April 15.—The Mexican situation caused a heavy opening on the bourse today, and the depression continued throughout the session. Three per cent rentes, 86 francs 55 centimes for the account; exchange on London, 25 francs 14½ centimes for checks; private rate of discount, 2% per cent.

London, April 15.—Money was easier, but discount rates were firmer today. Fears of complications in Mexico caused a reaction in Mexican issues on the stock exchange. Mexican rails fell 2½ points and talk of reduced dividends added to their weakness. Consols lost a quarter of a point, owing to new loans and the bardening in discounts, and home rails of a point, owing to new loans and the hardening in discounts, and home ralls and oil shares suffered from profit-taking. American securities were quiet and steady during the early trading. Canadian Pacific advanced over a point and the rest of the list small fractions, but when Wall Street opened prices declined. The market improved on light buying in the early trading, and closed steady.

London Minister Declares Queen City Man Acted Properly in Reviving Old Custom.

"I think we are too inclined to handle ent and added to the entertainment with cases like that with kid gloves; too much inclined to cover up wrong-doing in the church." said Rev. Humphrey A. Graham, of Centennial Methodist Church, in reference to the action of Rev. Peter Bryce, of Earlscourt Methodist Church, Toronto, who publicly exposed before 300 members of the Men's Own Association on Sunday a member of his congregation and of th club, who had effected the downfall of a young girl, who died in a maternity hospital in Toronto a week ago.

The young woman was brought to Can ada a few years ago by the Waifs' and Strays' Society. The man who had led her astray neglected to make any provision for her, and after the birth of her baby, she told her story to Rev. Mr. Bryce and a deaconess of the church. Afterwards she returned to the hospital where she died. She was quite destitute, and Rev. 1 r. Bryce wrote to the man asking him to at least provide decent buria her. He ignored the letter, but his brother over the telephone made an anpointment for him with Mr. Bryce, which he failed to keep. Mr. Bryce had warned him in the letter that unless he saw that the young woman was decently buried, he would expose him in the church, and on Sunday morning Mr. Bryce did so.

"I think if I had been there, I would have supported Mr. Bryce," said Rev. Mr. Graham to The Advertiser. "He is one of the most successful and able ministers in the Methodist Church and I know he cellent efficiency of her work at the would not take an extreme course of action without trying every other way first. did not comply with the American demands, the first step to enforce them would be the seizure of Tampico and Vera Cruz for which he considers there is ample precedent.

Many Causes. Washington, D. C., April 15 .- An official statement, setting forth the view of President Wilson and the Administration, disclosed that the Tampico incident alone was not the cause of the sending of the fleet and the preparations to back up the demand for an apology. It disclosed the hitherto unpublished facts that official dispatches from Washington to Charge Shaughnessy have been intercepted and delivered to a Mexican censor; that a ship's orderly, sent ashore for mail at Vera Cruz, was arrested, although he was in full uniform, and carried the Government's mail pouch on his back, and that the succession of affront to the United States has convinced the Washington Gov-

ernment that its representatives are being singled out for indignities. It pointed out that with other nations naving representatives in Mexico, none of them had found it necessary to ask for

apologies. Will Consult Congress. The congressmen who saw the President said no steps would be taken of serious nature, such as the landing of marines or the shelling of a town, without authorization from Congress.

"Marines have been landed before," said Chairman Flood, "without authorization, and towns have been shelled, but, in as much as Congress is in session, it would be more regular to get authorization from Congress. Congress, I am sure, will stand by the President.'

Senator Shively, likewise described the conference as chiefly informative. Republican Agrees.

Senator Lodge (Republican) said he was in accord with what the President had done, and expressed the view that the fore-mentioned advantages, of the fleet was in accord with precedent. No Quibbling.

President Wilson, according to the conressmen who talked with him, declared he had given a reasonable time to Huerta and that, while the time was without any fixed limit, there would be no quibbling, and that prompt action would follow Huerta's failure to comply.

The exact status of affairs today. Sen ator Shively characterized as unchanged 'except that the United States will insist with all the power of this nation upon reparation for the defiance of the Huerts Government. No Developments.

Washington, April 15 .- This dispatch rom Rear-Admiral Fletcher at Vera Cruz, dated 10 p.m. last night, was received at the navy department today:

"No new development at Tampico. Con stitutionalists have retired from the vicinity. Business resumed and refugees returned. Mexican gunboats Progress and Zaragosa left Tampico.

Hundreds of Wild Geese In Vicinity of Kingsville

Kingsville, April 14. — A novel sight may be seen here any morning between nine and eleven o'clock. Over five hundred wild geese fly from Jack Minors', where they have been over night, out to the lake. They return to Mr. Minors' in the evening, where they are always sure of a good feed of corn.

The geese have been making Mr. Minors' place their headquarters for some years on their way to the northern breeding grounds, and their numbers are becoming larger each year.

A flock of about forty black swans alighted near the harbor here one day recently, possibly attracted here by the hundreds of wild geese, which dot Pigeon Bay every day.
