It was one of the worst storms of the season. It is rarely that so heavy a fall occurs at this time of the year.

It will be remembered that on May 12, 1907, a foot of snow fell and remainer on the ground for three or four days. The jingle of the sleigh bells was heard on the streets this

morning, a very unusual thing. Snow began to fall shortly after midnight, and from that time until 8:30 the storm raged, there being fully 8 inches of every reason to believe that their re snow on the level.

RAIN FOLLOWED SNOW.

The London Street Railway was completely tied up. The ear tracks were filled, and the cars could not be run. Some were got out early, but they became stalled, and the motormen and conductors had to shovel them out.

Slow progress was made in this way, but after two hours' work a partial service was given.

Rain started to fall shortly after 9, and the melting snow made the work somewhat easier. Workingmen had to tramp through snow to work, and

they were not pleased. The walking was abominable. Reports from Western Ontario show the storm to have een general over this part of the province.

gineer Graydon explained that it not usual to keep the snowplows in commission all summer. The storm came from the west, and from all parts of Western Ontario come reports of a very heavy snowstorm, rain, but it will take some time for it one of the worst in many years. Traffic everywhere was badly inter-

fered with, and the transportation of goods was made very difficult. Transportation companies in the city were put to great inconvenience. There was much merchandise to handle, and it was impossible to move it with so The D. S. Perrin Company had the

THE GROWING COST OF ARMA-MENTS.

The enormous increase in the cost of armaments of various nations during the last ten years was illustrated by Herr Bernstein, a German journalist and former member of the Reichstag, at a big labor and peace demonstration recently held at Manchester.

\$820,000,000 to \$1,255,000,000. So long as the competition in armaments continues, so long will the burden grows. Herr Bernstein estimates body to blame, that the increase is more than the increase in the wealth of the nations, and more than the increase 107 in the incomes of the working empire was out of debt, but in 1878 it began to borrow, commencing with a loan of \$20,000,000. Ten years later the debt had increased to \$180,000,000. In 1898 it had grown to \$545,000,000; in Daily Delivered by Carrier in City: 1898 to \$1,300,000,000. The report of the Dominion railway commissioners for the year ended March 31, 1908, which has just appeared, gives a good idea of the extent and

nature of the duties of the board. During the year it heard 657 appeals, 292 of which were dealt with at formal sittings, and 365 informally. Many varieties of complaints were covered in these applications, including rates, discriminations and claims First Reader, Part I. 112,552 \$11,255 20 for losses through delay in delivery, 9,029 10 facilities for receiving freight, condi- And facts become strange vagabonds, 16,924 40 tions of roadbed, rolling stock and

ONE OF MR. BORDEN'S PECULIAR-ITIES.

[From a Press Gallery Correspondent] The leader of the Opposition, Mr. R. L. Borden, has a peculiarity all his own. He seems to be the one man on either side of Mr. Speaker, who has an ever-present consciousness that sitting right over Mr. Speaker there is a row of very bright young men who represent the newspapers of Canada. Other speakers, leading men of both sides, make their speeches and sit down, more or less content with woman dressed in the height of fashion their efforts. They look neither to suggests that it is ever the function of the right nor to the left, and if their speeches have been unusually meritorious and compliments are in order, as often is the case, the members bloom and vitality of nature. Monstrous modestly appear oblivious to the impression created. But that is neither the feeling nor the practice of Mr figures on an Egyptian basrelief, like an Borden. Having made a point or uttered a smart thing, and taken his seat a sort of seraphic smile spreads over the usually sombre, although intellectual countenance of the leader of the Opposition, while his evebrows go up as he turns a suggestive look upon the Conservative reporters sitting right over his head. This always happens. Mr. Borden never yet said what he thought to be a good thing, or made a smart retort that he did not give the "cue" to the reporter to make a note of the incident. It is only a harmless and innocent habit, no doubt; it is not preconcerted, but so regular and so frequent is the "upward" look that the signal is now recognized by the loyal reporter as an order to "make a note on't," and down it goes. The habit is indicative, perhaps, of a personal vanity, but a vanity of that kind is not to be too severely censured. It is a great help to the reporter to be told in this way what he should do, because it saves him the trouble of deciding for himself what parts of the leader's speeches he is expected to "feature," and what brilliant thoughts it is his duty to emphasize. But after all it is an innocent trick that Mr. Borden has acquired and one he should not be denied the privilege of resorting to as frequently as he thinks that it is necessary to say in effect, in love, man's sure he's "It"-and then

TO LEVY DUTY ON PULP

U. S. Senate Not Likely to Accept Proposal for Free Entry.

Washington April 28 .- The present prospect is that the proposed amendments by the Senate committee on finance to the tariff bill will be postponed for some days, possibly until the beginning of next week.

The committee has not yet completed its consideration either of the administrative features of the bill or of the various schedules. The committee did not meet today, but Senator Smoot was in conference for a time with the zinc producers.

The committee is understood to have practically decided to place a duty of \$5 per ton on printing paper and of per ton on wood pulp, which is a slight reduction from the Dingley rate in both cases. A canvass of the Senate has, however, almost convinced the committee that it will be very duty through, and as a consequence the committee is in a quandary as how

Parisian Gourmets Setting Out on Their Annual Pilgrimages to Fresnes.

Paris, April 26 .- Now is the time when the Frenchman justifies his nickname of frog eater, for with the be ginning of the fine spring weather the Parisian gourmets are setting out on their annual pilgrimage to the small town of Fresnes, in the Bievre valley, where the freshest and tenderest young frogs' legs are to be had. There are only two restaurants in the little town, and during the three weeks of the early frog season they serve no fewer than 50,000 portions of the delicacy.

The ordinary customer gets his new frogs' legs later and cheaper. Their popularity is indicated by the fact that in the Paris halles more than 4,000 pounds of frogs' legs flat and swampy. Frogs are exported now in large numbers to London clubs to Thompson a check for \$1,000

The Uses of Bile In Digestion

BILE IS QUITE AS IMPORTANT AS ARE THE GASTRIC JUICES IN THE PROCESS OF DIGESTION. Chronic Indigestion Disappears When An Active Liver Supplies Bile in Sufficient Quantities.

You think of bile as something dis agreeable and poisonous, something to be well rid of. In the blood the bile is poisonous and harmful, but the liver takes the bile out of the blood and fulfills a most important mission.

Without bile human life is short; for,

Bile hastens the passage of the food

along the alimentary canal. Bile neutralizes the acid which passes from the stomach to the intestines. Bile prevents the fermentation of food in the intestines, which in turn causes gas, wind, flatulency. Bile, in short, is nature's cathartic and maintains a regular and healthful process of digestion and of elimination of waste matter by way of the bowels But to have a regular flow of bile th

Committee Appointed to Arrange for Tecumseh Park for Wednesday Afternoons.

A meeting of lacrosse fans of this city was held in the Iroquois Hotel last evening, and a committee composed of Messrs. W. Drinkwater, A. Wheatcroft and K. McLeod appointed to arrange for grounds and report at another session to be held

The question of grounds was considered. It would be impossible to obtain Tecumseh Park for Saturdays, owing to the City Baseball League games, and in the evenings it is occupied by the Commercials. Springbank would be satisfactory, but there is no gate.

It was finally decided to arrange for recumseh Park for Wednesday afternoons, and to enter a league composed of Strathroy, Watford, Petrolea or St. Thomas, and London. Marys on Victoria Day.

IS IT "BACK TO THE MINORS" FOR BERGER AND LIEBHARDT?

Something of a bomb was exploded in major league circles when the Cleveland club of the American League asked waivers upon Heinie Berger and Glen Liebhardt, supposed to be fixtures in fast company.

Berger has been a lemon and an expensive one, to the Naps. He cost \$6,-500 when Cleveland secured him from the Columbus American Association club a few years ago, and has never delivered anything worth while. In hot weather his explosion was looked for, and in cool weather he couldn't warm up. Liebhardt broke in from the Southern League, where he earned the name of "iron man" by his work. Like many another who depends upon the festive spitter for effectiveness, he is "awful good when right," but equally bad when not. As he has been bad more often than good, he has not set the big league aflame.

It is probable that if waivers are secured the pair will be sent to some of the minor league clubs with which Cleveland is affiliated. Flat denial is

The budget will be presented in the House of Commons tomorrow. It is pointed out that the increased expenditure is due mainly to old age pensions and appropriations for the navy. Dealing with the past year's finances, the chancellor says that nearly all branches of trade and industry suffered serious depression, the foreign trade returns showing diminution in value to the amount of nearly \$570,000,000, as compared with 1907. The chancellor adds that it is impossible to prophesy any immediate rapid recovery, but he is of the opinion that there are some indication that foreign trade is beginning to im-

MR. TEASDALE

Was Presented After the Weekly Prayer Meeting in Dundas Centre Church.

A very interesting event took place last night at the close of the weekly 54½ prayer meeting in Dungas Centre 115% Church, when the Rev. J. J. Teasdale, presented with a well-filled purse. Mr. Teasdale came to the city about three years ago from New Brunswick, where he was known as one of the leading Methodist ministers of that province. As the result of a protracted illness, he was placed on the supernumerary list, and came to this city. With restored health he became identified with Dundas Centre Church He is a vigorous preacher, and sup-plied the pulpits of many of the churches in the vicinity as occasion offered with great acceptance. The pastor, Rev. E. B. Lanceley, T. B. Escott, H. Ashplant, D. A. McDermid, W. H. Winnett and others spoke of the valuable service rendered the church by Mr. Teasdale, and the general regret felt by the congregation at his depart-ure. Mr. Teasdale, who was taken by surprise, made a feeling reply, thanking them for the gift, and assuring them that if Manitoba did not agree with him he would return to London and Dundas Centre Church. Mr. Teasdale preaches in the First Methodist Church, St. Sunday and leaves for Manitoba on Tuesday, the 4th prox.
