## CONTROL OF THE JAILS

It is Urged in Convention That This be Taken Over by the Government

### MUNICIPAL SUBJECTS

Representatives from a large number of municipalities in Ontario are meeting in annual convention at Toronto. They comprise the Ontario Municipal Association, and as such have an important influence on the municipal laws of the Province.  
In welcoming the delegates and extending the freedom of the city, the Mayor stated that he sometimes thought that municipalities get less attention from certain powers than they should. The time had arrived, he believed, when, in the interests of humanity and also of the prisoners, the Government should take over the carrying of jails, which were beyond their necessities, while other municipalities had jails cluttered with prisoners whom they should not be asked to take care of, and with lunatics and others for whom other provision should be made.  
Among the resolutions handed in for discussion were the following:  
That the act be amended so that a person who is unable to pay taxes may have those charges against property and not removed.  
That legislation be sought enabling municipal councils of cities to open or extend streets upon the local improvement plan, upon such terms as to assessing therefor the property benefited as may seem proper, notwithstanding petition against the same upon a three-fourths vote of members of the council present.  
That this association apply to the Local Legislature asking that power be granted to all municipalities to assess all property within the municipality and collection of all taxes thereon.

### ANNUAL CONFERENCE

The annual conference of the A. M. E. Church was held in the local church of that denomination last evening. A very successful time was spent, and there was a bumper crowd was present.  
Ald. Scullard, Chatham's coming mayor for next year, was present, and in the absence of Mayor Marshall spoke on behalf of the city.  
Bishop Handy, and Rev. Mr. Hackett of Hamilton, were present and delivered addresses, which were eagerly listened to and heartily appreciated. A number of fine solos were rendered by George Cant.  
H. S. Clements, M. P., and A. B. McCog, M. P., were present and gave addresses. Mr. Clements' speech which was heartily received, was on the subject of the prosperity of the colored race in the Dominion. He complimented the pastor, Rev. Mr. Clark, on his excellent church, fitted up as it is with all modern improvements. A program of music added to the success of the occasion.  
Go with the crowd to New York via the Lackawanna Railroad on Aug. 29th; round trip from Buffalo \$10. For full information call or phone A. Leadley, Canadian Agent, 75 Yonge street, Toronto, or F. B. Fox, D. P. A., Buffalo.

## MEMBERS OF SCHOOL BOARD CORRECT ERRONOUS REPORT

London Free Press Correspondent Comes in for Deserved Criticism—Re-arrangement of Teaching Staff—Central School All Ready for Opening Next Tuesday.

In spite of the coolness of the weather outside, there was no need for artificial heating during the meeting of the Public School Board last evening. The Board has been grossly misrepresented lately through the misplaced energy of the local correspondent of the London Free Press, their denunciation of these malicious reports was both heated and lengthy. Chairman Paxton and Trustees Robertson and Brackin were the ones who assumed the roles of accusers, and for a time the local correspondent's actions were the subject of some well-deserved criticism from these three gentlemen, and the balance of the board agreed thoroughly with every word they uttered. The School Board has a perfect right to correct any false impressions regarding their actions which are sent broadcast through the country, and it is now up to the above mentioned correspondent, if he be a gentleman, to send to the London Free Press a denial of the charges made in his previous report. He should do this in justice to the Free Press itself. It is not right that they should suffer through the blunders of their correspondents.

### THE BANNER SORE

A short time ago a meeting of the Board was held in the Central School for the purpose of considering some improvements to the city schools. A Planet reporter was there and took notes throughout the meeting. The Banner reporters did not get next that there was to be a meeting of the board, and of course they were not there. The next day, a full report of the proceedings of the meeting were published in The Planet, and the Banner had nothing. Their reporters did not even hear of the meeting all the next day after the meeting took place. No paper likes to be "scooped," and the Banner is no exception.  
"Instead of 'taking their medicine' they indulge in a waiting fit, and began to make excuses. It is no surprise then to find the London Free Press coming out the next morning with a report dated from Chatham, insinuating that the School Board held a hold and corner meeting. It shows to what a level some correspondents will stoop for the purpose of venting their spleen. This was the opinion of the School Board last evening."

### WANT FAIR TREATMENT

Chairman Paxton brought the matter up under the head of new business. He said:  
"There is a matter relating to a despatch in the London Free Press and their report of our last meeting, that I wish to bring before the full attention of the Board. The Chatham correspondent sent in a report to that paper to the effect that we had held a hold and corner meeting, and that things relative to the business we transacted were kept in the dark. I wish to report to you that there is nothing connected with the business of this Board that is kept dark. The Chatham paper gave us a fair report, and has always given us fair treatment. During the eight years that I have been on this Board, I never remember anything being kept in the dark. I want it plainly understood that the books and proceedings of this Board are open to the public at all times, and they always will be, as long as I hold a seat here."

### "HE IS NO MAN"

Mr. Robertson—I was surprised to see that report in the face of the circumstances. How could we hold a hold and corner meeting. Was there not a reporter there taking notes on all that we did?  
Mr. Paxton—Yes. The Planet reporter was there. Whoever writes that stuff for the London Free Press does not know what he is writing about. He is not worthy of the name of a man. I was sorry that a Banner reporter was not present at the meeting. I am sorry that if they want truthful reports of our meetings, why don't they get a man here. The report complained of was untrue, and I hope the correspondent will have more sense in sending the next report.  
Mr. Brackin, City Secretary for the Liberal Association, added to the criticism against the unfortunate correspondent. He thought that the chief objection to the report, was in that it said, that it was understood that the actions of the Board at this meeting were to be kept in the dark. He thought that the correspondent should be made to show by whom this was understood. "If we wanted to keep our actions in the dark," said he, "why did we allow one reporter to be present? Surely not to help us keep it dark."

With this, the matter was allowed to drop, in the hope that the correspondent would take his cue, but it was plain to see that every member of the Board was righteously indignant over the matter.  
The meeting was an important one from the fact that arrangements were made for the opening of the City schools next Tuesday.  
The Finance Committee recommended the payment of a number of ac-

counts, and their recommendation was accepted.  
MANY RESIGNATIONS.  
Formal resignations were received from Miss Irving, Miss Snell, Miss French and Miss Bullis, Miss Irving regretted leaving her position, and thanked the Board for the many kindnesses which they always extended to her. She would be pleased if her contact had met with the approval of the Board.  
In reference to the resignation of Miss Snell, Mr. Robertson said: "Miss Snell has held a position in the Central school for some time, and she has always been an efficient teacher. I am at the same time sorry and glad at her resignation. She is no longer Miss Snell, as she has entered the ranks of matrimony. She has betted her position by so doing, and we all hope that she will have a happy career during her married life." Applause.  
In reference to the others, the Board were sorry to lose their teachers, but it was their duty to accept the resignations, which have all been acted upon before.  
Miss Shackleton asked permission to attend the Toronto Normal to complete her course in Kindergarten work. She was granted a year's leave of absence.  
Miss M. L. Farquharson applied for a position on the McKeough School teaching staff. Her application has already been accepted. Miss Leak's applications was also read, and hers too, has already been accepted. The same is true in the case of Miss Olive Birch.  
Mr. Robertson, for the managers of the Central School recommended that Mrs. R. S. Dunlop be appointed janitress of the Central School at a salary of \$750 per year, also that Miss Birch's appointment be ratified. —Carried.

### MODEL SCHOOL TERM.

Mr. Somerville, for the Model School Committee recommended that the usual arrangements had been made for the fall term of that school. The fee be \$5.00—\$2.00 of which will be applied towards the school library. —Carried.  
Under the head of Inquiries, Mr. Robertson drew attention to the fact that through installing the steam heating system in the Central school, the fires would be done away with and the Board should get a rebate on their insurance.  
Mr. Macnabb—When all the improvements are finished the Finance Committee can go into that matter, and apply for rebates on the insurance on all of the schools.  
Mr. Robertson—We should get a much better rate through dispensing with the fires in the schools.  
The matter was later referred to the Finance Committee.  
Mr. Robertson moved that the inspector on the work which had been done in the Central School be notified to come next Saturday or Monday, as the work will have to be accepted before the opening of the school. —Carried.

### ONE TEACHER WANTING.

There is still one teacher wanting in the Central. The matter of advertising for a teacher was left with the principal of the school and Mr. Park, the inspector.  
It was reported that Miss Lily Walker, who had obtained a leave of absence to attend the Kindergarten Normal, had returned and was ready for duty with the opening of the school. Miss Mariel Hoig, who was substitute for Miss Walker, will now act as substitute for Miss Shackleton.  
Misses Blackburn, of Dresden, Meacham, of Windsor, and Cummings, of this city, applied for positions on the staff of students in the Kindergarten Committee, and the Inspector, to report at next meeting of the Board.  
Mr. Paxton—I am sorry that the other members of the Kindergarten Committee, besides Mr. Andrews, are not here, or the matter might be dealt with to-night.  
It and Hildreth were granted \$20 on account. The total amount is \$450, and is for work at the McKeough school. The work will be completed within the next few days.  
CENTRAL SCHOOL ALL READY.  
Mr. Robertson asked how the school was getting along and the reply was that the Managers were not sure that the whole school would be ready for the opening. They are now considering the advisability of opening part of the school, and detaining the rest until the work on the building is completed. They may exceed the time for getting ready by a few days, and the Managers are now considering the advisability of opening part of the school, and detaining the rest until the work on the building is completed.  
Mr. Paxton—As far as the Central School is concerned, we are all ready for the opening. We are ready to open on Monday, if necessary. The managers of the Central School have been busy during the last six weeks. We have been working night and day and we have got our work done on time.  
The Board adjourned at nine o'clock to meet again next Wednesday night.

## A. E. JEWETT IS HONORED

Members Of Wellington Lodge Present Departing V. W. Brother

### GAVE HIM P. M. JEWEL

Mr. A. E. Jewett, who left for Toronto this morning to assume his new duties, was presented, last evening with a Past Master's Jewel, by the members of Wellington Lodge, No. 46, G. R. C., A. F. & A. M.  
A number of the brethren gathered in the parlors of the Masonic Temple on the Square block, where a short time was spent in pleasant conversation, after which W. Bro. Jos. Turner was unanimously chosen as chairman. Bro. Turner opened with a few appropriate remarks and called on W. Bro. George B. Crombie to make the presentation.  
V. W. Bro. Jewett, in accepting the token with which his fellow members honored him, in a few well-chosen words expressed the great pleasure and gratification it gave him.  
V. W. Bro. Jewett was appointed to the office of Assistant Grand Director of Ceremonies by the Grand Master, at the last meeting of the G. G. and R. Lodge, in Toronto.

### MATINEE

The Arrival of Kitty Company play two engagements at the Brisco Opera House on Monday next. The afternoon performance will commence at 2:30 o'clock.  
No attraction has been booked for the local season with a more famous reputation and the success of this production having now become familiar to well posted theatre-goers it seems only reasonable to presume that the theatre will be crowded for both performances, when "The Arrival of Kitty" is presented here on Labor Day. Seats are selling now.

AN ERRING SCRIBE.

At last night's meeting of the Public School Board, it was found necessary to hand out a stiff reprimand to a local newspaper correspondent for sending incorrect and damaging reports to the London Free Press, relative to the business conducted by the Board.

Some philosopher has said to beware of the fury of a patient man. This is well applied in the case in hand, for it is not the first time that erroneous reports have been sent to this paper.

Evil reports of wrong doing have never yet built up a city, and it is time that these particular ones were put a stop to. If the correspondent wishes to enter into a campaign of criticism and wholesale knocking, he should at least have some foundation for the stuff he writes, and offers for sale to outside papers.

NO HELP NEEDED.

Sir Henry Campbell-Bannerman's anxiety to settle the "questions" alleged to be outstanding between Canada and the United States is not shared by the people of the Dominion, whatever the attitude of the Ottawa Government on the subject may be.

The market is to have a new front, but the ladies may be interested to know that it will neither be "kangaroo dip" nor yet an "erec-tion."

That 50 cent boost in the price of coal is enough to jolt all the cool weather enthusiasm out of the average man.

If Ted Roosevelt intends to make his spelling reform of any universal benefit, he better hurry up and trot it out, before the Russian terrorists have killed off all the families over there who can now boast of jaw-breaking cognomens.

BOOKBINDING

Orders for Bookbinding should be left at this office.

Canadian sealer can operate in the open ocean, and fixes a close season. The United States has the best end of this bargain, and there is no reason why the matter should be considered, except in the interests of Canada, and the Dominion is not calling for any change.

Sir Henry is laboring under a delusion if he thinks there are outstanding Canadian "questions" demanding solution by his Government. There are no such issues, and so far as can be gathered, the subjects that are open to international discussion are very few and small.

JUST A LITTLE BIT OFF THE TOP

They are going to make great improvements to Tecumseh Park point, and someone has suggested that the cannon should be re-mounted and set up. We cannot see the necessity of this, however, as the old gun looks quite killing as it is.

Wallaceburg is going to pave its main street, build a new library and do several other up-to-date things. Chatham is quite pleased and interested to learn of these enterprises on the part of her busy little neighbor.

John D. Rockefeller is seriously laid up as a result of eating watermelon. While his trusts are gobbling up millions, it must be expected that the oil king will be unable to nibble at a common delicacy without getting the stomach-ache.

The London Free Press correspondent kept fooling with the bandwagon till he got seriously mixed up with the music.

The Eanner mentioned Herb Clements is no less than three articles yesterday. Truly the Conservative member is attracting a lot of attention even from the Grit organ.

The hot spell must have gone somewhere on its summer vacation.

Tecumseh Park will, when it is finished, look pretty well to the point.

SENSIBLE REVIVAL Doctrine That is Being Preached by Best People of Chatham.

There are all kinds of revivals, religious, moral, and temperance, but to-day the chief interest seems to be in a revival for good health, and it seems to be the Mi-o-na doctrine that has the most adherents in Chatham.

Indigestion and stomach weakness causes headache, back ache, nervousness, debility, sleeplessness, pains in the side and limbs, poor appetite and a general unhealthy state.

Pretty Belts and Parasols—Pumps. Cloth Bands on Thin Gowns. Among the pretty belts is one of mauve suede embroidered in ribbon flowers.

Some of the most gorgeous parasols have shell and amber handles matching the amber hatpins.

The new pumps are low, but cut a trifle higher than last year's. They

are more comfortable and have two holes, laced through with broad lacings. The heels are Spanish. Some are stitched at the toe and at the sides.

It is queer, but upon organdie and mousseline gowns are applied bands of cloth. These bands give the material weight and make more apparent their filmy beauty.

Frills and duffs are scattered over all the thin summer frocks. Even of old over materials trimming is lavishly used.

The parasol pictured is of white silk, each gore fitted with a lace motif. The deep border is of lace overlaid with a latticed effect in green velvet ribbon.

WHAT IS WORN. Hatpins Match the Hair Combs—New Ideas in Stocks—Artistic Bangles.

A new idea in regard to hatpins is to have them match the combs worn in the hair. These are of polished tortoise shell or amber, or, at any rate, of much lighter color than has been worn for some time.

A smart stock has a long slot button-hole horizontally across the lower edge in front. Through this is drawn a short strip with kite shaped ends, practically forming the "tabs" which are sewn on most stocks.

Collars with rounded corners embroidered in dots and figures all over the collar are very new. The long four-in-hands worn with them are in strong Scotch plaids or small black

and white checks or in black. Many of these are narrow, though the newest are about two inches wide.

Blue and violet linen turn back collars and cuffs simply stitched are to be worn with linen suits.

The latest variation of the sun plaid skirt is very pretty and graceful. It is circular in shape and falls in ample folds and fullness from a plain yoke.

The embroidered linen hat, with a bow of ribbon for its only trimming, is used with the linen jacket for street wear, but with more elaborate gowns of muslin or organdie a hat of sheer material in shadow work with flowers and ribbons should be donned.

Since the coming of the short sleeves and the return of the bracelet the neck chain and the chatelaine bag have taken a back seat. My lady now spends her money and her time looking for artistic bangle bracelets.

The frock in the cut is of white foulard with pin dots of black. The skirt is cut in two pieces, each ruffle trimmed with a bowknot design effected with German wall lace insertion. The bolero jacket is similarly adorned and tied just above the waist line with a green velvet bow. A line of the same velvet edges the V shaped neck.

At the Brisco Opera House—

The C. S. Williams Company's offering of the comedy surprise "The Arrival of Kitty" which is soon to be presented in this city, is easily classed among the few theatrical attractions that have earned important money the past season, when so many attractions have not prospered. The comedy possesses the attributes that go to make an entertainment popular with all classes of patrons. "The Arrival of Kitty" is bright, snappy and fast, and the fun and music are the kind that make the public sit up and take notice. No production of recent years has attained such immense popularity, and it is the only one among the really few brilliant comedy successes in the field of light entertainment to receive the unanimous approbation of press and public. If genuine novelty of plot, ingenuity of treatment, together with an acting, singing and dancing company of the best known theatrical favorites count for anything in the make-up of a successful comedy production no wonder "The Arrival of Kitty" has been so successful. The production will be seen in this city on Monday for matinee and night, and is exactly the same form that has characterized its great success.

OIL NEWS

IN TILBURY

Some Of The Speculators Run Up Against A Little Hard Luck

MUCH MONEY INVESTED

Tilbury, Aug. 30.—While unusual activity still characterizes the operations in the oil field here, there are evidences that it is extending, and while the number of new rigs coming in bespeaks the interest that continues to be taken in the field by the experienced oil men now on the ground, still there are counter indications that about seven to ten out of the man who thinks that oil can be got in Tilbury for a trifle of expense after the well is down, and that there are no dangers of lack of success. Also there is contained a warning for those farmers who, since the field has been opened up, are alleged to have played a regular hold-up game with the would-be developers of the field.

FIRST DUSTER FOUND

The field continues to make good in the very best kind of way, but that there may not be clear sailing for all who are in the game is shown in the result of the operations of the Roth-Barnard Company, on the Crown farm, six miles northwest of the field. This company have discovered after several weeks of drilling on what was the furthest property from the field, that they are in the sand and that nothing will come of their present efforts there. In brief, the well was found to be a duster, the first of its kind since the field was discovered last November. This has come as quite a shock to those who have during the week been laying in heavily in leases, north and south of the developed territory, in the hope that ultimately their faith in the field as one of the most extended in the world would be justified.

MUCH MONEY INVESTED

There has been much money invested in the Township of Tilbury and Dover during the few weeks that have passed, and as a result there has been quite a run to cover by those who have been bitten. Indeed it is said that some of the leases were so constructed as to meet with this eventuality, as their terms were so vague, or so improperly constructed legally, that they will never hold longer than the purchasers wish them to. This is, of course, merely one of the innumerable features of oil work, and it is being met with by farmers shown a desire to deal leniently with the developers with whom they have come in contact in a financial way, there would have been none of this, but as it is, many of them proved so avaricious that they have served to keep the good and the golden eggs, or have had leases extended them that would not hold water were they to be in court over oil suits.

HEARD AGAINST IT.

Some of the oil operators have been up against it hard. No. 2, on the Fletcher farm, was shot last week, but a hole was made of it, as it went off in the casing and allowed the water to flow in, thereby spoiling the well's hard work. On the Campbell No. 1, a worse job was made. Scaffner Brothers were drilling this when they dropped the casing, and they have been fishing for it ever since.

No. 1, on the Irwin farm, is being cleaned out. This well, in the opinion of many of the best men in the district, was played too hard at first and as a result has not come up to expectations. When the present work is completed, however, it is expected that it will flow much better. Miller & Warners' well, on the Sam Pook farm, M. R., is still producing a regular flow of about 300 barrels. Miller & Warners have erected a rig for Hurdy and Brady, on the David Phillips farm, M. R. W., but delay has been experienced on account of the non-arrival of the tools. Some of them arrived this week, and it is expected that drilling will commence shortly.

ON THE SALES FARM.

A rig has arrived to be put up on the John Sales farm, M. R. N., and will be erected in a few days. The Kelly No. 2 was shot last week and it is reported a pretty good well and entirely satisfactory to those concerned. The H. Marshall No. 5, has been commenced by the company controlling No. 4. The latter is progressing nicely, and is down between 500 and 600 feet.

When the Kaylor oil well, near Fletcher comes in some day this week there will be something doing. If it turns out a good producer all will be well, but should it be a dry or very light hole, there will not be much of a rush northward in the field. All the oil men are anxiously awaiting developments.

Another fine well was shot on the Kerr farm yesterday afternoon. It is good for about 40 barrels of oil a day.

PUT DOWN

THE TRUSTS

Such Is The keynote Of Candidate Bryan's Campaign

THE DEMOURATS' HOPE

New York, Aug. 31.—Mr. Bryan's entry into New York yesterday afternoon was a series of ovations, beginning with his landing at the Battery at 4 o'clock and reaching an early climax when he arrived at the Victoria Hotel, 27th street and Broadway, an hour and fifteen minutes later.

Here the home-coming Nebraskan fairly was mobbed by the thousands who had forced their way into the corridors. Finally an entrance was effected by the police and Bryan reached

WILLIAM JENNINGS BRYAN.

the lobby stairs. He was hailed and called upon for a speech, and then the crowd surged about him, cheering lustily all the while.

To Unite All Factions.

At Madison Square Garden, Mr. Bryan was given a grand ovation. He then delivered a speech which is expected to unite all factions in the Democratic party in the coming Presidential campaign. These are some of the points elaborated in his address, after the cheering of 12,000 persons which began at 8:40 and did not cease till 8:45, had subsided:

"There is a perceptible growth in favor of settlement of international disputes by peaceful means."

"We may not only promote peace but also advance our commercial interests by announcing as a national policy that our navy will not be used up for collection of private debts."

United States Colonialism.

"Our nation has lost prestige rather than gained it by our experiment in colonialism. We have given the monarchist a chance to ridicule our Declaration of Independence. We should lose no time in announcing our purpose to deal with the Philippines as we dealt with Cubans."

"In several of the nations of Europe the Legislature Department of Government is more quickly responsive to public sentiment than is our Congress."

"The income tax which some in our country have denounced as a Socialist attack whom wealth has the endorsement of the most conservative countries in the old world."

"In advocating arbitration of differences between large corporate employers and their employes I believe we are defending the highest interests of the employes, the employes and the public."

"The struggle to secure an eight-hour day is sure to be settled in favor of the workmen's contention."

Money Question. On the money question, which is no longer an issue, Mr. Bryan said: "The unlooked-for and unprecedented increase in the production of gold brought a victory to both the advocates of gold and the advocates of bi-metalism—the former, keeping the gold standard, which they wanted, and the latter securing the larger volume of money, for which they contended. We who favor bi-metalism are satisfied with our victory if the friends of mono-metalism are satisfied with theirs, and we can invite them to a contest of zeal and endurance in the effort to restore to the people the rights which have been gradually taken from them by the trusts. I hope that the Democratic party will set an example by refusing to receive campaign contributions from corporations and by opening the books so that every contributor of any considerable sum may be known to the public before the election. Politics should be honest, and I mistake political conditions in America if they do not presage improvement in the conduct of campaigns."

The Paramount Issue.

"While men differ as to the relative importance of issues, and while the next Congress will largely shape the lines upon which the coming Presidential campaign will be fought, I think it is safe to say that at present the paramount issue in the minds of a large majority of the people is the trust issue. I congratulate President Roosevelt upon the steps which he has taken to enforce the anti-trust law, and my gratification is not lessened by the fact that he has followed the Democratic rather than the Republican platform in every advance he has made."

"We need not quarrel over remedies. We must show ourselves willing to support any remedy which promises substantial advantage to the people in their warfare against monopoly."

Free Trade the Weapon.

"The tariff question is very closely allied to the trust question, and the reduction of the tariff furnishes an easy means of limiting the extortion which the trusts practice. While absolute free trade would not necessarily make a trust impossible, still it is probable that very few manufacturing establishments would dare to enter into a trust if the President were empowered to put upon the free list articles competing with those controlled by a trust."

**OVER 1,000 MILES FOR CRIME.**

Remarkable Record For Bravery of the Northwest Mounted Police.

When the necessity arose of extending British authority into the Great Lone Land, the Royal Northwest Mounted Police were organized. During the thirty-three years of their existence they have covered themselves with honor and have carried "pax Britannica" into the farthest corners of the Dominion—from the international boundary to the Arctic, from Keewatin to the Pacific coast.

The blue book just issued by the Government contains many narratives, told in the usual brief and official style, which have yet to find their Klipping. It furnishes many instances showing that crime within the jurisdiction of the police will be dealt with, no matter how remote the district or how dangerous the journey. The case of Inspector Genesius, of Prince Albert, who traveled 1,750 miles by canoe and dog train to inquire into an alleged murder case; of Corp. Mapley, who left Dawson City by dog sled in winter, traversing an absolutely unknown route across mountain ranges for a distance of over 500 miles; of Inspector McGinnis and Sergt. Egan, who penetrated 200 miles into the wilds of Keewatin, where the Indians say the foot of white man never before trod, arresting a murderer there for a crime committed over a year previously; of Constable Pedley, who traveled from Fort Chipewyan to Fort Saskatchewan in the depth of winter, with a raving lunatic strapped to a dog sled; of Constable Conrad, who galloped to the help of a settler and his family in deadly peril from a tremendous prairie fire, and fought it, singed almost suffocated, until the greater part of his clothing was burned off—of these and many other cases the report tells with dryness and brevity. Behold these bald and brief statements of official facts there looms up the outline of stories of endurance and untentative heroism that any one with knowledge of the country and its conditions can reconstruct.

At the time the report was issued the force consisted of 64 officers, 650 non-commissioned men, 109 interpreters, guides, and artisans, making a total force of 813. During the year the total number of 4,277 offenders before the bar of justice. The cases cover a great variety of crime, from murder to cattle stealing, and the report shows that but few offenders went unpunished.

Arrangements have been made with the new provinces of Alberta and Saskatchewan for continuing the force, each province paying \$75,000 yearly toward its maintenance.

**Whose Say-so is Best?**

With nearly all medicines put up for sale through druggists, one has to take the maker's say-so as to their quality and value. Of course, such testimony is not that of a disinterested party and accordingly is not to be given the same credit as if it were from a disinterested source. Dr. Pierce's medicines, however, form a single and therefore striking exception to this rule. Their claims to be of genuine value do not rest solely upon their makers' say-so or praise. Their ingredients are matters of public knowledge, being printed on each separate bottle wrapper. Thus invalid sufferers are taken into Dr. Pierce's full confidence. Scores of leading medical men have written enough to fill volumes in praise of the curative value of the several ingredients entering into these well-known medicines.

Amongst these writers we find such medical lights as Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago; Prof. H. H. Hays, M. D., of Cleveland, Ohio; Prof. John K. M. D., of Cincinnati, Ohio; Prof. John K. M. D., of New York; Dr. Bartholomew, of Jefferson Medical College of Pa., and scores of others equally eminent.

Dr. Pierce's Favorite Prescription cures the worst cases of female weakness, irregularities, cures painful periods, dries up disagreeable and weakening drains, sometimes known as pelvic catarrh and a multitude of other diseases peculiar to women. Bear in mind, it is not a secret medicine, but the "Favorite Prescription" of a regularly educated physician, of whose experience in the cure of women's peculiar ailments, who frankly and confidently tells his patients into his full confidence by telling them just what his "Prescription" is composed of. Of no other medicine put up for women's special maladies and sold through druggists, can it be said frankly, openly and honorably, by letting every patient using the same know exactly what she is taking.

Sick women are invited to consult Dr. Pierce, by letter, free. All correspondence is guarded as sacredly secret and womanly confidences are protected by professional privacy. Address Dr. R. V. Pierce, Buffalo, N. Y.

How to preserve health and beauty is told in Dr. Pierce's Common Sense Medical Adviser. It is free. For a paper-covered copy send Dr. R. V. Pierce, Buffalo, N. Y. 10-cent stamps to cover mailing only; in cloth binding 50 stamps.

Dr. Pierce's Pile Cure constipation.

**DIZZINESS.**

Various Causes That Bring About an Attack of Vertigo.

Dizziness, or vertigo—scientific writers sometimes try to distinguish in sense between these two words, but practically, in popular usage, they mean the same thing—a disturbance of relation to the outside world, a loss of the sense of equilibrium. The sensation persists even when the eyes are closed. There is more or less inability to walk straight or even to stand still, and often there is nausea, followed by vomiting.

Vertigo is due to a disturbance, either actual or reflex, of the nervous "center of equilibrium" in the back part of the brain or in the semicircular canals in the ear, in which the terminations of the nerves coming from the center of equilibrium are distributed. For the most part, vertigo is a reflex trouble due to some impression which gets shut off of its own route, as it were, through nerve fibers connecting with the equilibrium center and acts upon the semicircular canals of the ear. Thus it is that dizziness is a comparatively trivial affection, as a rule—disagreeable enough, but brief and of no great significance except as a symptom of trouble elsewhere in the body.

Persistently recurring, transient dizziness is often due to eye strain—that is to say, to errors in the formation of the eye not corrected by proper glasses. Wearers of spectacles can frequently tell when a change in the eyes has occurred, necessitating a corresponding change in the glasses, by the coming back of these attacks of giddiness, especially when the gaze is suddenly moved from a near object to a remote one or the reverse.

Vertigo is a common symptom of disorders of digestion seated either in the stomach or the intestine. The treatment for this form is, of course, to treat the indigestion or constipation.

Another more serious variety of dizziness depends upon disease of the heart or of the blood vessels, especially those of the brain.

Any disease of the ear is apt to be associated with more or less vertigo. The same is true of tumor or other disease of the brain, especially of the cerebellum, that part of the brain in which the center of equilibrium is situated.

The dizziness of seasickness, as well as that of swinging or of rapidly turning about, is thought to be caused by an irritation of the nerves in the semicircular canals by the striking against them of the fluid in these canals—Youth's Companion.

**SOME FIRST OCCASIONS.**

The first canal was made in England when Henry I. joined the Trent to the Witham, in 1134.

Quill pens came into use in 563; the first steel ones in 1820, when the first gross of them sold for \$35.

The first pocket handkerchiefs, utilized in the manner they are today, were manufactured at Paisley in 1748.

From the press of the celebrated Wynken de Worde the first book containing musical characters was issued in 1495.

The first coins were struck in brass about 1134 B. C. and in gold and silver by Phaulon, tyrant of Argos, about 882 B. C.

About 70 A. D. the first glass bottle was made by the Romans, although the manufacture was not taken up in England until 1558.

Movable scenery was first used in theaters in 1508. It was invented by Baldassare Peruzzi and displayed in Rome before Leo X.

Pliny's "Natural History" may be regarded as the first encyclopedia, since it contained 30,000 facts compiled from 2,000 books by 100 authors.

Declined Her Own Medicine.

There is always more or less talk current about abolishing poison and dispersing pest. The trouble is to know just where to begin the destructive reconstruction and to find reformers who are willing themselves to be reformed. An English great lady was once entertaining the labor member of parliament, Henry Broadhurst, the Duke of Argyll and others at her country seat. She was a strong Liberal, and one evening inveighed against the house of lords. It would be swept away if it did not reform, she said with fervor.

"Yes," agreed Broadhurst, "and how will you like that, Mrs. P.?"

"Lady P. if you please, sir," instantly corrected Broadhurst's hostess, drawing herself up haughtily.

A River of Death.

Before the English occupation of India it was estimated that the Ganges carried to the sea every year 1,000,000 dead bodies. It was then considered by the Hindoos that the happiest death was one found in its waves, and all pious Hindoos who could do so were carried to its banks and placed in its waters to die. The decaying carcasses along its banks were probably responsible in no small degree for the pestilences which formerly desolated the peninsula.

Hard Work.

Mrs. A.—I'm surprised that your husband earns so little if he works as hard as you say. What does he do?

Mrs. B.—The last thing he did was to calculate how many times a clock ticked in the course of 1,000 years.—London Tit-Bits.

The Hero.

"It must be nice to be a hero," remarked the quiet man.

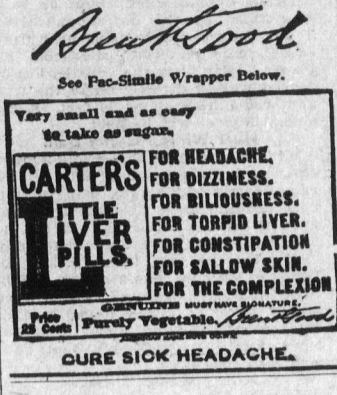

"It is for a minute," replied Senator Badger.

"After that the hero wonders at the world's bad memory."—Milwaukee Sentinel.

Normal May Go Elsewhere.

Peterboro, Aug. 28.—For the second time within three weeks Dr. Seath superintendent, and A. H. U. Colquhoun, Deputy Minister of Education, visited the city yesterday and viewed several sites for the new normal school. The council has not yet settled upon a location, and the visitors intimated unless a decision was reached shortly the school would likely be built elsewhere. The authorities declare that will not wait any longer.

Highest Kite Ascension.

A string of six kites sent up from the German aeronautical observatory at Lindenberg recently attained an elevation of 21,096 feet, or almost exactly four miles, says the New York Sun. This is the highest elevation yet reached by kiteflying, and it illustrates remarkable progress during the last two or three years in this method of investigating the conditions in the upper air.

DOES YOUR HEART FLUTTER?

You know heart fluttering means you're not as well as you should be. It's an evidence of impaired nerve and muscular power. To obtain cure try Ferrozone; it has a special action on the heart as seen in the case of Thos. Grover, of Cole Harbor, N. S., who says: "If I exerted myself it would bring palpitation. To carry any heavy weight or go quickly up stairs completely knocked me out. When bad attacks came on I lived in fear of sudden death. Ferrozone gave my heart the very assistance it needed and now I am quite well." For heart or nerve it's hard to equal. Ferrozone; 50c. per box at all dealers.

How Long Before He Catches Up?

Johnny—When I was two years old and big brother six, was he three times as old as I?

Schoolmaster—Yes.

Johnny—And when I was four and he was eight, was he twice as old as I?

Schoolmaster—Certainly.

Johnny—And now I'm eight and he's twelve, is he only once and a half as old again as I am?

Schoolmaster—Yes. Why?

Johnny—Well, how long will it take he to catch up to him?—Chums.

Suicide at Cobourg.

Cobourg, Aug. 29.—Yesterday morning Peter McCallum found the body of an aged citizen, Levi Taylor, in the sea harbor. Mr. and Mrs. Taylor conducted a boarding-house on Division street. On Friday morning about eight o'clock Taylor left his home, telling his wife that he was going to work in the garden. He did not return, and on Saturday evening she reported the matter to the chief of police, Thomas McGurly, Jr., found a handkerchief tied on the life line at the west pier, in which was a note signed by Mr. Taylor, stating that he intended putting an end to his life. This is a hook to the police. The coroner issued an order for an inquest, which was afterwards withdrawn. He is survived by a widow and one son.

Col. Vale Reports Routing the Enemy at Rodas, Many Dead Being Left in Streets.

Havana, Aug. 29.—Gen. Rodriguez has received the following dispatch from Col. Vale, who commanded the detachment of rural guards and volunteers engaged with insurgents near Cienfuegos on Monday.

"Insurgents parties under Guzman and Portela, having escaped near the Abreus and commenced harassing the rural guards. We proceeded towards Abreus with a force of rural guards and volunteers and encountered the revolutionists, who were entrenched in the Town of Abreus.

"We routed the enemy, killed many revolutionists and captured a quantity of arms and ammunition, and a number of horses yesterday.

"We continued our operations to Rodas, where our advance guard was charged by the revolutionists, who were holding the town and a little fort, called La Piedra fort, where fierce fighting continued.

Left Dead in the Streets.

"The enemy was persistent, but the insurgents were finally dispersed, and ran away in different directions, leaving a large number of men killed in the streets. The full extent of the revolutionists casualties is not yet known.

"Once in possession of the town we got in touch with the detachment of rural guards commanded by Lieut. Torre. Our forces fought valiantly throughout the engagements. Later the enemy returned and rushed the town, but the revolutionists were again scattered by our machine charges."

**MAN ARRESTED FOR MURDER.**

Police Find No One Dead and Release the Man.

Ottawa, Aug. 29.—Otto Kauffman, 18 Redpath avenue, Ottawa, was arrested in Killaloe Monday by Chief of Police McDermott of Renfrew, under suspicion of being guilty of murder.

Killaloe was all excitement over the alleged murder of Minnie Hartwick, a 15-year-old German girl, living about five miles from the village. The story was that she had been choked to death Sunday evening, and Chief McDermott went out to investigate. He found the people all of opinion that a murderer had committed the crime, and Kauffman was the man guilty. He took the accused in charge, and with Magistrate T. Roach drove out to the farm of Herman Hartwick, the father of the supposed dead girl.

To his surprise he found the girl there. No sign of violence was apparent, and the girl denied ever having seen a man at all at the time in question, and refused to answer any of the chief's further questions.

The chief released Kauffman.

**KEEPS CEASELESS VIGIL.**

Lawson, Boston Financier, Sits 20 Days by Wife's Coffin.

Boston, Aug. 29.—The death of his wife has changed Thomas W. Lawson from a "financial whirlwind" into a grief-stricken recluse, who may never again emerge to mingle in the affairs of his fellow-men. He does not even attempt to supervise his most pressing personal affairs.

For twenty days and nights he has sat near the casket of Mrs. Lawson, which, contrary to the orders of the authorities, still rests in the little cottage at Dreamwood. He had a couch placed beside the coffin. There he keeps his ceaseless vigil, leaving only long enough to enter the garden and pick his dead wife's favorite flowers, which he heaps above her body.

Mrs. Lawson's body could be laid in the vault prepared for it, but the physicians fear that if the casket were taken away the husband's mind would give away completely.

The Chippewas and the Strathroy lacrosse teams will pull off a game Labor Day on the Exhibition Grounds this city. The recent game between these two fast teams in Strathroy, resulted in a tie, and the coming contest next Monday promises to be one well worth the money.

The Chippewas are bringing the Strathroy team here at considerable expense, and they should get good support for their enterprise. A full practice of the local team will be held at 6:30 this evening.

The Glencoe bowlers have about completed what will be one of the best bowling greens in the country. They have already expended a large sum of money in levelling and sodding, and they have just got through boring a rock well on their property and have been very fortunate in striking an abundant supply of water. They intend now to put up a windmill and an elevated tank. The whole, when completed, will cost in the neighborhood of \$600.

Principal Plewes, of the Central School reports that there will be a record breaking number of pupils in attendance at the Model School this year. He has already received more applications than he ever received before. One thing noticeable is the large number of young men applying. There will be great difficulty in finding suitable boarding houses for all who will attend the school. Those having rooms suitable for boarders might assist the teachers by handing in their names, and in this way places could be found for all who seek admission to the Model School.

## SIX PASSENGERS DROWN IN LAKE WINNIPEG TRAGEDY

### "Old Princess" Breaks Up During Terrible Lake Storm - Old Vessel Was Transport For Troops In Riel Rebellion

Winnipeg, Aug. 29.—In the worst storm that ever swept over Lake Winnipeg the famous "Old Princess" went to the bottom, 150 miles north of Selkirk.

Six passengers went down with the wreck and sixteen struggled to swampy Island in two boats in imminent peril. They were rescued by the City of Selkirk the next day and arrived home yesterday morning.

Capt. Hawks, Miss Flora MacDonald, Loftus Goodmansson, Joe Adrensen, J. Johansen and Charles Grayeyes perished.

A Rebellion Transport. The Princess was built in 1881 and was used to transport troops in the Riel rebellion.

The great storm struck her Saturday evening, and she literally dropped to pieces in battling with the elements, the crew being forced to abandon the hull with water up to their necks.

As the passengers and crew sought to leave the waterlogged craft, the stovepipe fell, penetrated the hull and the boat broke in the middle, part of it drifting away, while the balance, with the machinery, went to the bottom.

Captain Went Down Standing. Old Capt. Hawks went down standing at the pilot house, his many years in the Hudson Bay service from England to Fort Churchill teaching him to spurn life without his ship.

The boat was southbound from Poplar Point with passengers and a cargo of fish.

There will be an investigation over the loss of such an old and rotten vessel. It was owned by Capt. Wm. Robertson of Selkirk.

Dies From Fall. Brockville, Aug. 29.—As a result of injuries sustained by falling from a cheese factory roof, striking on his abdomen, a man died.

### A LAWN SOCIAL

A most enjoyable and highly successful social was given by the St. Paul's Presbyterian church, on the lawn of Mr. Smith, Bridge street, last evening. There was a good attendance and the entertainment provided was of the very best.

M. Houston, of this city acted as chairman, and among the speakers were H. S. Clements, M. P., Rev. Mr. Addell, and Neil Watson, Galt Musical Society. A program of vocal music was a sorely needed.

The lawn social is one of the finest in the country, and it was very beautifully decorated with the evening breeze very satisfactory.

### POLICE COURT

The case against a young colored boy for assault, which was to have come up this morning was adjourned until next Tuesday.

James Dodson found a lap robe on King street last evening. It is at the police station waiting for the owner.

A complaint has been laid with the police against a number of boys who throw stones at the passing automobiles. Henry Weaver's grocery, and there are so many of them that to ride over the street is to be continuously bumped from one end to the other. Between the tracks and Cherry's grocery, there are some where about fifty holes.

The cobble-stone pavement to the west of the tracks is little better, and is alike dangerous for traffic and wheeling.

### PAVEMENT NEEDED

If ever a pavement was needed on any street, that portion of King St. east of the C. P. R. tracks certainly shows evidence of it. The roadbed is full of treacherous holes, some of them two, three, and four feet deep, and there are so many of them that to ride over the street is to be continuously bumped from one end to the other. Between the tracks and Cherry's grocery, there are some where about fifty holes.

The cobble-stone pavement to the west of the tracks is little better, and is alike dangerous for traffic and wheeling.

## TERRORISM STATISTICS

### Russia Last Week Killed 101 Officials, Police, and Others

### RUSSIAN CONSUL SHOT

St. Petersburg, Aug. 30.—Statistics of the terrorism of the last week show that 101 officials, gendarmes, police, etc., were killed; ninety-two were wounded; 291 private persons were killed or wounded; thirty-four spirit shops were plundered; private and individual institutions were robbed of \$180,815, and state institutions of \$84,981. There were over 150 armed attempts to rob banks, houses, etc.

Liberal Papers' Opinions. The Liberal papers welcome the semi-official statement in behalf of the Government, to the effect that it would be a great mistake to suppose that revolutionary terrorism will be met by terrorism on the part of the Government, and adding that the Cabinet intends to continue to the path of reform. But the papers manifest their distrust of whether the Ministry will be able to master the situation by the publication of the ukase providing for the distribution of land to the peasants. Some of the papers, however, hail the announcement as being a distinct concession from the position which the Government took two months ago, when Premier Goremykin returned a non-possimus to this demand on the part of Parliament.

Killed While Playing Ball. Windermere, Aug. 30.—About a month ago Frank Harris, son of Rev. Dr. Elmore Harris of Toronto, while playing with bowling balls, accidentally struck himself on the forehead. It did not trouble him again until about ten days ago, when he was taken sick. Dr. Bruce of Toronto was sent for, and with Dr. Porter operated on Harris yesterday morning. They found a slight fracture of the skull, and Harris now lies in a critical condition at his summer residence here.

Killed By Blasting. Fort William, Aug. 30.—S. Peterson, foreman for Foley Bros., on the G.T.P. construction, and an Italian, name unknown, were instantly killed Tuesday afternoon at Kaministiquia by the premature explosion of a blast.

Carried Skyward By Balloon. Kingston, N. Y., Aug. 30.—Caught by the anchor of a balloon and whirled 500 feet in the air over the heads of 5,000 spectators, Mrs. Roper of Brooklyn was seriously but not fatally injured yesterday at the Utteridge county fair at Chazyville. The balloonist pulled the safety cord and descended, Mrs. Roper striking the ground heavily.

## IRON AND STEEL OUTPUT

Big Increases Are Shown in the Past Year's Business.

What Dominion Government Has Paid In the Way of Bounties to Promote Production—Total Amount Paid For the Fiscal Year, Ended 30th June Last, Was \$3,068,407, An Increase of \$229,056 Over Year Previous.

Ottawa, Aug. 29.—The iron and steel bounty payments paid by the Dominion Government for the financial year up to July 1 amount to \$2,004,359, as compared with \$1,540,203 in 1905. The payments in 1906 were in large increase in the output of the Canadian iron and steel industries.

Bounty amounting to \$687,631 was paid on a total output of 581,858 tons of pig iron, of this, \$6,223 tons was made from Canadian ore. The bounty on this was at the rate of \$1.65, and totalled \$142,263; 495,835 tons were made from foreign ore. The bounty on this was at the rate of \$1.10, and totalled \$544,868. Last year's output of pig iron was 589,713 tons, of which 58,452 tons were from Canadian ore. The rates of bounty were higher last year, viz., \$1.50 on foreign and \$2.25 on Canadian ore.

Of steel ingots, 569,237 tons were made in the Canadian mills during the past year, as compared with 272,916 tons in 1905. The bounty in 1906 at the rate of \$1.65 per ton, was \$941,000. In 1905, at the rate of \$2.25 per ton, it was \$614,433. Of puddled bars, 2,560 tons were made in 1906, as compared with 3,569 tons the year before. The bounty, at \$1.65 per ton, this year, was \$4,875. The payments last year at \$2.25 per ton were \$7,995.

The Government paid a bounty in 1906 of \$369,832 on 72,875 tons of rolled angles, wire rods, plates, etc. In 1905 the payments were \$293,208, and the output 69,842 tons.

These iron and steel bounties expire next year unless they are renewed by Parliament.

The lead bounty in 1906 totalled \$90,197, as compared with \$330,645 the year before, the rate of bounty being much lower on account of the higher price of lead in the world's markets.

The petroleum bounty, at the rate of 1-2 cents per gallon, showed payments amounting to \$291,157, as compared with \$350,407 in 1905.

There was also paid a bounty amounting to \$15,079 in manilla used in the manufacture of binder twine, as compared with \$12,789. In 1906 the bounty was allowed on 4,423,300 lbs. of manilla used in the manufacture of 8,617,457 lbs. of binder twine.

The total industrial bounties during the fiscal year ending June 30, 1906, was \$3,068,407, an increase of \$229,056 over the year previous.

## COLLISION IGNITED MATCHES.

Caused the C. P. R. a Loss of Between \$3,000 and \$4,000.

Montreal, Aug. 29.—The collision of two freight trains at Berthel Junction yesterday morning caused matches that were contained in the cars to be ignited, with the result that five cars, filled with various kinds of merchandise, were destroyed by fire, the loss on the C. P. R., on whose line the collision took place, being from \$3,000 to \$4,000.

A brakeman, James H. McNeil of Farnham, was on the train that was moving into Berthel Junction, and when he saw a collision was inevitable he jumped, with the result that he suffered a compound fracture of the left leg and a sprain of the right ankle, along with many bruises. He was taken to the Victoria Hospital, Montreal.

## Rescued From Burning Steamer.

Detroit, Mich. Twenty-one persons, including the captain's wife and two little children, were rescued early yesterday from the burning steamer Charles A. Eddy by the Detroit and Cleveland line steamer City of Mackinac, off Port Stanlac in Lake Huron. The fire which broke out early was soon beyond control. Capt. Simpson of the City of Mackinac, crowded to its capacity with passengers, steamed to the windward of the burning freighter and amid great excitement among the hundreds of passengers and in a heavy sea took off her crew over the rail. Capt. Eley of the Eddy was sick in bed and had to be carried to the Mackinac with his wife and two small children.

## Death in the Dive.

Rochester, Aug. 29.—Charles Williams, 19 years old, son of A. C. Williams, a prominent shoe manufacturer, was drowned in Lake Ontario off Sea Creeve yesterday. He was in swimming with several companions, and in diving from the pier struck the water with such force that he was unable to breathe.

## Falls From Train.

Windsor, Aug. 29.—Edward Whalen, aged 40 years, a resident of Braddock, Penn., fell from a Grand Trunk passenger train near Chatham late Monday night and sustained serious injuries. He has not yet been able to explain how the accident occurred.

## "Lowery's Claim" Closed Out.

Ottawa, Aug. 29.—The Postoffice Department explains that "Lowery's Claim" published at Nelson, B. C., has been refused transmission through the mails on account of its alleged blasphemous and ribald character.

**Cooks and Bakes perfectly at the same time**

There is not another range built in which the heat may be regulated so that you can bake in the oven and cook on the top at the same time without spoiling one or the other.

But you can do both equally well at the same time on the Pandora, because its heat is not wasted and is at all times under the simplest, most positive control.

If you do the cooking of your household you can appreciate exactly what this means.

## Cures Rheumatism Too.

Bu-Ju cures Rheumatism, because it cures the Kidneys. Every drop of blood in the body passes through the kidneys, to be filtered. If the kidneys are sick—tired—inflamed—they don't filter out the uric acid. It is this acid, deposited in the joints—on the nerves—that causes Rheumatism.

Bu-Ju cleans, heals, strengthens the kidneys—sets them to working properly—clears the blood—stops the ache—and takes away every trace of Rheumatism and Sciatica.

**HON. MR. BECK MAKES REPLY**

He Gives Some Light On The Power Question Procedure

**NO DIRECT TAXATION**

Toronto, Aug. 30.—The important convention of the Ontario Municipal Association, which opened yesterday in the Toronto City Hall, was featured by an address by Aid. Lyons of Guelph, on the power question, eulogizing the Commission.

Answers to questions from delegates regarding it were made by Hon. Adam Beck, who incidentally remarked that some municipalities were worrying because they might not be included, and that the Town of Ogdensburg, N. Y., had offered the Commission 20,000 horse power.

**Minister's Reply to Queries.**  
 In effect, some of the Minister's replies to queries were:

The municipality must give the Hydro-Electric Commission an estimate of the amount of power it requires.

The Commission then gives an estimate as to the cost, but the municipality must submit the contract to the duly qualified ratemakers for endorsement.

The Commission will fix a minimum rate to be charged, and it will cover interest and sinking fund on contract. The municipality may charge as much higher as it likes if the users will pay it.

The people who don't use the power don't have to pay for it at all.

In the event of a municipality not being able to keep up, owing, say to a big fire, there will be some other place needing more power. The Commission would regulate this and the smaller municipality would not lose.

The Government will see that a large enough minimum fee will be charged to users to pay in full for the power.

**No Direct Taxation.**  
 The bill gives the Commission the power to fix the rate, and it will not mean one cent of direct taxation.

Cheers greeted one delegate, who remarked "The whole text is cheap power and go as far as our present legislation will let us go to get it."

**Ottawa's Salvation.**  
 Mayor Ellis of Ottawa said the Power Commission had, to a large extent, been the salvation of his city, and it meant a saving of from \$100,000 to \$150,000 to the capital. He eulogized Mr. Beck, who deserved the thanks of the Ontario people. He understood no town would be required to pay for what it did not want.

Mayor Sleeman of Guelph told how the Royal City was making a success of municipal ownership of the water-works, street railway, gas, etc.

Then came an explanatory paper from W. C. Mikel on the work and power of the Ontario Railway Commission, and Assessment Commissioner Forman dealt with the present Assessment Act at some length.

**Officers Elected.**  
 The officers for the ensuing year were elected as follows:

President, Mayor J. A. Ellis, Ottawa; 1st vice, D. M. McIntyre, city solicitor, Kingston; 2nd vice, Aid. M. Cooper London; 3rd vice, Forest H. Bean, Windsor; 4th vice, Mayor Sleeman, Guelph; secretary-treasurer, K. M. McKay, St. Thomas; executive, Mayor Coatsworth, Toronto; mayors of London, Ingersoll, Brockville and Peterboro, J. H. Freyer, Galt; City Solicitor W. C. Chisholm, Toronto; Controller W. P. Hubbard, Belleville; S. H. Kent, city clerk, Hamilton; and Charles Collins, Wentworth.

**The Resolutions.**  
 The following resolutions were referred to the resolutions committee:

That the Ontario Municipal Association express its willingness to enter into a confederation with the other provinces and the Canadian Manufacturers upon the following terms, viz: That persons unable to pay taxes may have these charges against the property and not remitted.

That legislation be sought enabling municipal councils of cities to open and extend streets upon the local improvement plan upon such terms as to assessing therefor the property benefited as may seem proper, notwithstanding petitions against the same.

That this association apply to the local Legislature asking that power be granted to all municipalities to assess all property within the municipalities and collect taxes thereon.

That the Ontario Legislature be petitioned to pass the coming session such legislation as will enable municipalities to assess railways at the rate of \$5,000 per mile.

That legislation be passed compelling bakers in all municipalities to adopt a uniform loaf of bread.

**The Hamilton Carmen.**  
 Hamilton, Aug. 30.—The conference yesterday afternoon between the representatives of the street railway employees' union and the Cataract Power Co. was not so much of the matter of fact variety as was expected. When the meeting dissolved last evening, the union representatives admitted that the vital question of wage increase had not been settled, and that the chances for a settlement were not any too rosy.

**Strike at Hamilton.**  
 Hamilton, Aug. 30.—About 43 moulders and coremakers employed by the Canadian Iron & Foundry Co. went out on strike last night, owing to the refusal of the company to grant an increase of ten cents a day in the moulders' wages and a minimum rate of \$2.25 a day to the coremakers.

**Manager Hurriedly Departs.**  
 Goderich, Aug. 30.—A. Barton, assistant manager of the Hotel Goderich, has left town, and an investigation is being made into the state of the hotel's finances. Barton left a note, saying he had taken only what was due him.

**Grain Commission Meets.**  
 Winnipeg, Aug. 30.—The commission opened yesterday, enrolling the Winnipeg grain men as witnesses. Their testimony related wholly to the traffic as it passed through this city.

**DIVORCES AND BEAUTY**

Newport R. I., Aug. 27.—The greatest shock the millionaire colony has received this summer came when society heard that Herbert N. Harriman, cousin of E. H. Harriman, and brother of Mrs. William K. Vanderbilt, had divorced his wife, who was Isabel Hunnewell, the prettiest and richest New-England bride of the last decade.

The first hint of a separation came last winter when Mrs. Harriman went south and Harriman began to dismantle his famous country place near Wheatley Hills, Long Island. He afterward offered it for sale. Mrs. Harriman is now in Europe.

Isabel Hunnewell was courted by some of the richest society men in the east, and there was considerable speculation as to whom she would wed. William K. Vanderbilt was among her suitors, and there was something of a sensation when Harriman won her, and Vanderbilt married Harriman's sister.

**OF IMPORTANTS TO FARMERS**

The Dominion Bank, Chatham branch, have just completed the purchase of City of Chatham Market Debentures, etc., whereby they advanced over \$30,000.00 to the City to pay for the very handsome and commodious new market building recently erected. The farmers who deal in Chatham may pride themselves upon having a market building second to none in the Dominion for their convenience, and the location of a bank as widely known, and generously patronized as the Dominion Bank, to transact their business with.

We understand the Dominion Bank makes a specialty of farmer's business in every particular, as well as transacting a general banking business.
