- 32.** Order establishing certain rules in respect of matters therein mentioned, in the Exchequer Court of Canada. Presented 20th March, 1894, by Hon. J. Costigan. *Not printed.*
- 33.** Copy of an order in council of the 17th January, 1894, continuing for the current year the issue of licenses to United States fishing vessels to enter any ports on the Atlantic coast for the purchase of bait, etc. Presented 21st March, 1894, by Sir Charles Hibbert Tupper. *Not printed.*
- 33a.** Return to an address of the House of Commons to his excellency the Governor General, dated 16th April, 1894, for: 1. Copy of order in council appointing Théophile Sabourin fishery overseer for the division of the Lake of Two Mountains and Isle Perrot. 2. Of the order in council appointing Julien Montpetit fishery overseer for the same division. 3. Of all instructions and orders issued by the fisheries department to the said overseers. 4. Of the reports of the two said overseers for the years 1891, 1892. Presented 5th June, 1894.—*Mr. Harwood*. *Not printed.*
- 33b.** Return to an address of the House of Commons to his excellency the Governor General, dated 26th April, 1894, for copies of all telegrams, letters, petitions, orders in council, and all correspondence relating to the dismissal of Timothy McQueen as fishery overseer in the county of Kent, Ontario. Presented 8th May, 1894.—*Mr. Campbell*. *Not printed.*
- 33c.** Return to an address of the House of Commons to his excellency the Governor General, dated 25th April, 1894, for copies of all papers, letters, petitions and reports sent to the minister of marine and fisheries, from 1st October, 1893, to this date, respecting the dismissal of I. B. Chevalier, of Iberville, from the post of fishery overseer; and of any communication sent from the government to the said I. B. Chevalier. Presented 11th May, 1894.—*Mr. Béchard*. *Not printed.*
- 33d.** Return to an address of the House of Commons to his excellency the Governor General, dated 30th March, 1894, for a return of all papers, correspondence, telegrams, reports to and orders in council, together with all departmental orders relating to the discharge from office as superintendent of St. Paul's island and keeper of Ingonish island, of Mr. Samuel Campbell, or relating to his superannuation allowance. Presented 23rd May, 1894.—*Mr. Davies*. *Not printed.*
- 33e.** Return to an order of the House of Commons, dated 14th May, 1894, for copies of all correspondence since 1st January, 1892, to the present time, from fishery officers and others from the western counties of Nova Scotia and the county of Charlotte in New Brunswick, as regards the taking of lobsters and of the limitation of size, and of all recommendations in regard to the same. Also a copy of all correspondence between the minister of marine and fisheries and his officials and all other persons as regards the close season for the herring fishing at Two Island harbour, Grand Manan, and of the weirs at that place. Presented 11th June, 1894.—*Mr. Bowers*. *Not printed.*
- 33f.** Return to an address of the House of Commons to his excellency the Governor General, dated 26th April, 1894, for copies of all orders in council and departmental orders now in force in the province of Ontario, concerning fisheries therein, and of all petitions received by the department with regard to the same. Presented 21st June, 1894.—*Mr. McGregor*. *Not printed.*
- 34.** List of all lands sold by the Canadian Pacific Railway Company from the 1st October, 1892, to the 1st October, 1893. Presented 21st March, 1894, by Hon. T. M. Daly. *Not printed.*
- 34a.** Return under resolution of the 20th February, 1882, in so far as the same is furnished by the department of the interior, respecting the Canadian Pacific Railway Company. Presented 28th March, 1894, by Hon. T. M. Daly. *Not printed.*
- 34b.** Return to an order of the House of Commons, dated 15th March, 1893, for copies of all documents, memorials and correspondence between the government and the Sorel board of trade and others, in relation to the granting of a subsidy to the Canadian Pacific Railway Company, for the rebuilding of a bridge at St. Michel d'Yamaska. Presented 10th April, 1894.—*Mr. Bruneau*. *Not printed.*

VOLUME 17—*Continued.*

- 34c.** Return to an address of the Senate to his excellency the Governor General, dated 5th April, 1894, for a schedule of the passenger and freight rates of the Canadian Pacific Railway Company, including the rates from St. Paul and Minneapolis to the seaboard, now in force. Presented 30th April, 1894.—*Hon. Mr. Boulton* *Not printed.*
- 34d.** Return to an address of the Senate to his excellency the Governor General, dated 17th May, 1894, for a schedule of the passenger and freight rates of the Intercolonial Railway; and the revenue derived by the Canadian Pacific Railway Company on its western division, between Port Arthur and Calgary, for the financial years ending 1892 and 1893. Presented 6th June, 1894.—*Hon. Mr. Boulton.*
Not printed.
- 35.** Return of orders in council, in accordance with subsection (*d.*) of section 38 of the regulations for the survey, administration, disposal and management of Dominion lands within the 40-mile railway belt in the province of British Columbia. Presented 27th March, 1894, by Hon. T. M. Daly.
Not printed.
- 35a.** Return of orders in council of 1893 relating to the department of the interior, in accordance with clause 91 of the Dominion Lands Act, chapter 54, Revised Statutes of Canada. Presented 27th March, 1894, by Hon. T. M. Daly *Not printed.*
- 35b.** Statement in reference to fishing bounty payments for 1892-93, required by chapter 96 of the Revised Statutes of Canada. Presented 28th March, 1894, by Sir Charles Hibbert Tupper.... *Not printed.*
- 36.** Return to an order of the House of Commons, dated 1st March, 1893, for copies of all reports, documents, maps, manuscripts and correspondence in relation to exploring expeditions heretofore made to James Bay and Hudson Bay. Presented 27th March, 1894.—*Mr. Jones* .. *Not printed.*
- 37.** Return to an address of the House of Commons to his excellency the Governor General, dated 20th March, 1894, for a return showing copies of all petitions or communications to the government or to any member thereof, or to his excellency, asking for any interference with the sentence passed by his lordship the Hon. Mr. Justice Rose on Messrs. McGreevy and Connolly, of all replies thereto and all correspondence between any member of the government and any other person on the subject of commutation of such sentence; of all medical reports made in regard to either said McGreevy or Connolly, whilst undergoing such sentence; of all reports or recommendations on the said subject, by any member of the government to his excellency, and of all replies thereto and of all orders in council in anywise bearing upon the subject of the commutation of said sentences. Presented 29th March, 1894.—*Mr. Mulock*..... *Not printed.*
- 38.** Detailed statement of all bonds and securities registered in the department of the secretary of state of Canada, since last return, 1893, submitted to the parliament of Canada under section 23, chapter 19, of the Revised Statutes of Canada. Presented 29th March, 1894, by Hon. J. Costigan.
Not printed.
- 39.** Return to an order of the House of Commons, dated 20th March, 1894, for a return showing the dates in each year since May 5th, 1887, when the Public Accounts, the Appropriation Accounts, and the Trade and Navigation Returns of Canada, for the next preceding fiscal year, have been published and ready for distribution; and when the said accounts and returns have been issued to the senators and members of the House of Commons of Canada in each of the years aforesaid. Presented 30th March, 1894.—*Mr. Charlton*..... *Not printed.*
- 40.** Return to an order of the House of Commons, dated 13th March, 1893, for a return showing the number of school teachers engaged in teaching in the North-west Territories, and the length of time each was engaged during the past year, with the salary received; also the number of pupils attending each school, and all sources of revenue for the maintenance of schools. Presented 2nd April, 1894.—*Mr. Semple*..... *Not printed.*
- 40a.** Supplementary return to an address of the Senate to his excellency the Governor General, dated 3rd February, 1893, for: 1. A copy of the deliberations, resolutions and ordinances of the former council of Assiniboia, relating to educational matters within its jurisdiction as it existed on the banks of the Red river before the creation of the province of Manitoba. 2. A statement of the amounts paid by the said council of Assiniboia for the maintenance of schools, showing the persons to whom such payments were made, the schools for which such amounts were paid, and the religious denomination to which such schools belonged. 3. A statement of the amounts paid by

VOLUME 17—*Continued.*

- the Hudson Bay Company, or by its agents, to the schools then existing in the territories forming to-day the province of Manitoba. 4. A copy of all memoranda and instructions serving as basis for the negotiations as a result of which Manitoba became one of the provinces of the confederation; together with a copy of the minutes of the deliberation of the persons charged on both parts to settle the conditions of the creation of the province of Manitoba and of its entrance into the confederation; and also a copy of all memoranda, returns and orders in council, establishing such conditions of entrance, or serving as a basis for the preparation of "The Manitoba Act."
5. A copy of the despatches and instructions from the imperial government to the government of Canada on the subject of the entrance of the province of Manitoba into the confederation, comprising therein the recommendations of the imperial government concerning the rights and privileges of the population of the Territories, and the guarantees of protection to be accorded to the acquired rights, to the property, to the customs and to the institutions of that population by the government of Canada, in the settlement of the difficulties which marked that period of the history of the Canadian West. 6. A copy of the acts passed by the legislature of Manitoba relating to education in that province and especially of the first act passed on this subject after the entrance of the said province of Manitoba into the confederation, and of the laws existing upon the same subject in the said province immediately before the passing of the acts of 1890, relating to the public schools and relating to the department of education. 7. A copy of all regulations with respect to schools passed by the government of Manitoba or by the advisory board, in virtue of the laws passed in 1890 by the legislature of Manitoba relating to public schools and the department of education. 8. A copy of all correspondence, petitions, memoranda, resolutions, briefs, factums, judgments (as well of first instance as in all stages of appeal), relating to the school laws of the said province of Manitoba, since the 1st June, 1890, or to the claims of catholics on this subject; and also a copy of all reports to the privy council and of all orders in council relating to the same subject since the same date. Presented 21st March, 1894.—*Hon. Mr. Bernier*. *Printed for both distribution and sessional papers.*
- 40b.** Return to an address of the House of Commons to his excellency the Governor General, dated 30th March, 1894, for copies of all papers, petitions, letters, reports, minutes and orders in council respecting the school law of Prince Edward Island, intitled "The Public Schools Act, 1877." Presented 23rd April, 1894.—*Mr. Leclair*. *Printed for both distribution and sessional papers.*
- 40c.** Return to an address of the Senate to his excellency the Governor General, dated 9th April, 1894, for copies of all school ordinances, school regulations and amendments thereto, adopted by the legislative assembly, the executive, and any board or council of education, in reference to the establishment, maintenance and administration of schools in the North-west Territories since 1885. Also for copies of all petitions, memorials and correspondence in reference thereto. Also for copies of all orders in council, reports to the governor general in council, and all communications and representations to the authorities in the North-west Territories. Presented 30th April, 1894.—*Hon. Mr. Bernier*. *Printed for both distribution and sessional papers.*
- 40d.** Return to an address of the House of Commons to his excellency the Governor General, dated 21st March, 1894, for copies of all petitions, memorials and correspondence, in reference to the appeal made in the name of the Roman catholic minority of the province of Manitoba, in reference to the school laws of that province; also copies of reports to and orders in council in reference to the same; also copies of the case submitted to the supreme court of Canada respecting aforesaid appeal, and including factums and all materials in connection therewith, and copies of all judgments rendered and answers given by said court on or to the questions referred to them. Presented 27th June, 1894.—*Mr. LaRivière*. *Printed for sessional papers only.*
- 41.** Return to an address of the Senate to his excellency the Governor General, dated 20th March, 1893, for a copy of all documents in relation to the demand of Michel Gosselin, Half-breed, living at Roseberry, Manitoba, and claiming indemnity for losses sustained during the troubles in the North-west in 1869 and 1870. Also a copy of all correspondence exchanged between the Dominion government and the said Michel Gosselin in relation to the said claim. Presented 21st March, 1894.—*Hon. Mr. Bellerose*. *Not printed.*
- 42.** Return to an address of the Senate to his excellency the Governor General, dated 21st February, 1893, for a copy of all the changes that have been made in the tariff since the national policy became law in 1879, giving the name of each article, showing the original duty imposed thereon, the amount of increase or reduction subsequently made, or placed upon the free list, together with the date of all such alterations in the tariff. Presented 2nd April, 1894.—*Hon. Mr. McMillan*. *Not printed.*

VOLUME 17—*Continued.*

- 43.** Return to an order of the House of Commons, dated 30th March, 1894, for a complete list of the revising officers under the Franchise Act, giving their names, their electoral divisions, and when appointed. Presented 5th April, 1894.—*Sir Hector Langevin*. *Not printed.*
- 44.** Return to an order of the House of Commons, dated 20th March, 1894, for return of all rates, general or special, charged on the Intercolonial Railway on through freight from Lévis to Halifax; with the dates when such existing general or special rates came into force, and in cases where such rates have been altered, specifying the alteration. Presented 6th April, 1894.—*Mr. Davies*.
Not printed.
- 44a.** Return to an address of the House of Commons to his excellency the Governor General, dated 30th March, 1894, for all papers, correspondence, telegrams, reports to, or orders in council, or departmental orders not already brought down to parliament, relative to the purchase of the Harris property in St. John for the Intercolonial Railway, or the payment of the purchase moneys therefor or relative to the uses or purposes to which that property has since been applied. Also for a list of all the claimants to the title of said property or any interest therein, together with the amounts paid to them respectively, and a summary or abstract of all deeds or agreements taken from the claimants respectively. Also for a statement of all moneys since laid out upon such property, and its total cost up to date. Presented 19th June, 1894.—*Mr. Davies*. *Not printed.*
- 45.** Return to an address of the House of Commons to his excellency the Governor General, dated 20th March, 1893, for copies of all correspondence between the government of British Columbia and the minister of the interior, relating to the boundary of the railway belt in the province of British Columbia. Presented 9th April, 1894.—*Mr. Mara*. *Not printed.*
- 46.** Return to an order of the House of Commons, dated 30th March, 1894, for a statement showing the various amounts paid by way of bounty on pig iron produced in Canada, the quantities produced, and the parties to whom the bounty was paid, and the province in which their works are situated, since the date of the last return. Presented 10th April, 1894.—*Mr. Edgar*.
Printed for sessional papers only.
- 47.** Return to an order of the House of Commons, dated 30th March, 1894, for a return showing (by provinces) the value of mining machinery admitted free of duty since the year 1890. Presented 10th April, 1894.—*Mr. Mara*. *Not printed.*
- 48.** Return to an order of the House of Commons, dated 29th March, 1894, for a return of: 1. The number of students who have graduated from the royal military college since its establishment. 2. Number of these graduates who are now in the public service of Canada and number in the service of the imperial government. 3. Amount expended on capital account and on income since the college was established. 4. Number of students graduated in 1893. 5. Number of students now in attendance. 6. Total amount of salaries paid each year, to the different persons employed in connection with the college. 7. Name of the commandant of the college: his salary, perquisites, if any, in the way of free residence, maintenance thereof, supplies, servants, &c. 8. The cost of the residence for use of commandant, if purchased, and the amount expended thereon by the government since the purchase. Presented 12th April, 1894.—*Mr. Mulock*.
Printed for sessional papers only.
- 48a.** Supplementary return to no. 48. Presented 11th May, 1894.—*Mr. Mulock*.
Printed for sessional papers only.
- 49.** Return to an order of the House of Commons, dated 30th March, 1894, for a return of the sentence imposed by the supreme court of the province of New Brunswick upon John V. Ellis, editor of the *St. John Globe*, in the past year, for an alleged contempt of court; together with the names of the judges composing the court at the time the sentence was imposed. Presented 12th April, 1894.—*Mr. Davies*. *Not printed.*
- 50.** Return to an address of the House of Commons to his excellency the Governor General, dated 20th March, 1894, for the production of all correspondence and other papers relating to the copyright question which have not already been brought down. Presented 13th April, 1894.—*Mr. Edgar*.
Printed for sessional papers only.

VOLUME 17—*Continued.*

- 51.** Return to an order of the House of Commons, dated 30th March, 1894, for a statement showing the working of the civil service insurance, how many civil servants have insured their lives in such insurance, and for what amounts respectively, without giving their names. Presented 13th April, 1894.—*Sir Hector Langevin*. *Not printed.*
- 52.** Return to an order of the House of Commons, dated 16th April, 1894, for a return of the receipts and expenditures to dates of 10th April, 1894, and 10th April, 1893. Presented 16th April, 1894. *Sir Richard Cartwright*. *Not printed.*
- 52a.** Return to an order of the House of Commons, dated 7th May, 1894, for a return showing the total amount of receipts and expenditures chargeable to consolidated fund from 1st July, 1893, to 1st May, 1894, and also for same period from 1st July, 1892, to 1st May, 1893. Presented 11th May, 1894.—*Sir Richard Cartwright*. *Not printed.*
- 53.** Return to an address of the House of Commons to his excellency the Governor General, dated 10th April, 1894, for copies of all correspondence between Mr. L. Vankoughnet and the government, or any member, or department, relating to his superannuation, and of all communications or reports to council or the treasury board or any member of the government, relating to such superannuation, and of any orders in council dealing with the same. Presented 17th April, 1894.—*Mr. Mulock*. *Not printed.*
- 54.** Return to an order of the House of Commons, dated 1st March, 1893, for a return of any correspondence which may have taken place between the government and any of the railway companies which have received public lands in aid of railway construction, in reference to the prices at which these lands are held and as to the steps taken by these companies to fulfil their trust by securing the early settlement of the lands so granted. Presented 18th April, 1894.—*Mr. Mills, Bothwell*. *Not printed.*
- 55.** Return to an order of the House of Commons, dated 10th April, 1894, for a return showing the names of officials employed in connection with the Canadian exhibit at the Columbian exposition from the province of Nova Scotia, showing their official position, amount of salaries paid and dates at which such employment ceased. Presented 20th April, 1894.—*Mr. Patterson, Colchester*. *Not printed.*
- 56.** Return to an order of the House of Commons, dated 10th April, 1894, for a statement in the form of Table C in the blue-book already published on the French treaty, for the years ending 30th June, 1892 and 1893. Presented 20th April, 1894.—*Mr. Laurier*. *Printed for sessional papers only.*
- 56a.** Supplementary return to an order of the House of Commons, dated 10th April, 1894, containing correspondence and other matter relating to the French treaty. Presented 3rd July, 1894.—*Mr. Laurier*. *Printed for sessional papers only.*
- 57.** Return to an address of the House of Commons to his excellency the Governor General, dated 30th March, 1894, for copies of all correspondence between the government and George Goodwin in connection with the transfer of his contracts or any of his contracts on the Soulanges canal. Presented 23rd April, 1894.—*Mr. Charlton*. *Not printed.*
- 57a.** Return to an address of the House of Commons to his excellency the Governor General, dated 25th April, 1894, for copies of all communications in the form of letters, petitions and reports, from 1st April, 1887, to 1st March, 1894, between the government and Mr. J. B. Many, or the municipal council of St. Luc, in the county of St. Jean, in relation to the construction of a swing bridge on the Chambly canal, opposite the south-east end of Ste. Thérèse island, in the Richelieu river. Presented 4th June, 1894.—*Mr. Béchard*. *Not printed.*
- 57b.** Return to an address of the House of Commons to his excellency the Governor General, dated 28th May, 1894, for : 1. Copies of all the reports of the engineers recommending that certain changes be made in the original contract, both in the materials and the nature of the works entering into the construction of the locks and other masonry on sections 1 and 2 of the Soulanges canal, giving the reasons why such changes should be made and the names of the engineers who recommended such changes. 2. Copies of all the correspondence exchanged between the engineers, the department of railways and canals, the contractor and other persons in connection with those changes, and copies of all orders in council in relation thereto. Presented 6th June, 1894.—*Mr. Tarte*. *Not printed.*

VOLUME 17—*Continued.*

- 57c.** Return to an order of the House of Commons, dated 16th April, 1894, for copies of all advertisements inviting tenders for the construction of sections 1 and 2 of the Soulanges canal; also copies of specifications connected with said work, copies of extensions of said specifications and tenders with estimated quantities and work to be done according to engineer's estimate; also copies of all tenders, copies of contracts let, of correspondence which took place between the contractors tendering for this work and the contractor to whom the contracts were awarded and the department of railways and canals in this matter, copies of all reports of engineers since the letting of the contract. Presented 14th June, 1894.—*Mr. Tarte* *Not printed.*
- 57d.** Return to an order of the House of Commons, dated 14th May, 1894, for: 1. Copies of all correspondence between the department of railways, the minister of public works and any other persons in relation to sections 12 and 13 of the Soulanges canal. 2. Copies of the call for tenders and of all tenders received. 3. Copies of contracts awarded. Presented 14th July, 1894.—*Mr. Tarte* *Not printed.*
- 58.** Return to an order of the House of Commons, dated 27th July, 1891, for copies of all correspondence relating to application for increase of salary of Judge Johnstone, county court judge for Halifax county, Nova Scotia. Presented 25th April, 1894.—*Mr. Fraser* *Not printed.*
- 59.** Return to an order of the House of Commons, dated 30th March, 1894, for a return showing the names of all prisoners who have died in penitentiaries in Canada during the last ten years, with the cause of death and the length of their last sickness in each case. Presented 25th April, 1894.—*Mr. Martin* *Not printed.*
- 59a.** Return to an address of the House of Commons to his excellency the Governor General of the 10th April, 1894, for a statement showing amount of receipts each month for gate money at Kingston penitentiary between 1st January, 1887, and 1st January, 1894. Statement showing disposition of these moneys, including statement showing the amount of those moneys deposited in any banks, with the names of such banks and particulars as to whose credit such deposits were made. Presented 26th April, 1894.—*Mr. Mulock* *Not printed.*
- 59b.** Return to an address of the House of Commons to his excellency the Governor General, dated 13th March, 1893, for a statement showing: (a.) Amount of money received as visitors' entrance fees at the Kingston penitentiary during each year from 31st January, 1885, to 1st February, 1893. (b.) Payments out of said moneys to the receiver general, and disposition of such funds. (c.) Particulars of goods manufactured and work done at said institution for any of its officers, showing who supplied the material for such goods, what sums were charged to said officers for said goods, and what sums have been actually paid during each of said years for said goods. (d.) Quantities of coal oil and gas supplied such officers, amount paid therefor, and when. (e.) Amount of laundry work done at said institution during said dates, for whom done, amount charged and paid therefor, with dates of such payments and names of persons making such payments. Presented 26th April, 1894.—*Mr. Mulock* *Not printed.*
- 59c.** Return (in part) to an address of the House of Commons to his excellency the Governor General, dated 30th March, 1894, for copies of all charges brought to the attention of the government or any department since 1891 in regard to any matters connected with the Kingston penitentiary, and the British Columbia penitentiary; of all appointment of persons to make investigations into any such charges, including their instructions; of all correspondence between any of such persons and any member of the government or department; of all evidence taken on any such inquiries; of all reports thereon, including any schedules in connection with such reports; and of all other documents and papers relating to any alleged irregularities in connection with the management of said institutions since 1891. Presented 1st May, 1894.—*Mr. Mulock* *Not printed.*
- 59d.** Supplementary return to no. 59c. Presented 15th May, 1894.—*Mr. Mulock* *Not printed.*
- 59e.** Further supplementary return to no. 59c. Presented 15th May, 1894.—*Mr. Mulock* *Not printed.*
- 60.** Return to an order of the House of Commons, dated 1st March, 1893, for a return of the report or reports of plans and surveys of the Galops Rapids channel, made by Mr. Kennedy. Presented 26th April, 1894.—*Mr. Reid* *Not printed.*

VOLUME 17—*Continued.*

- 61.** Return to an address of the House of Commons to his excellency the Governor General, dated 30th March, 1894, for copies of all reports made to the department of the interior or to the superintendent general of Indian affairs as to the value of the Thousand Islands and any offers received for the purchase of the same. Presented 26th April, 1894.—*Mr. Mills (Bothwell)*.
Printed for distribution only.
- 62.** Return to an order of the House of Commons, dated 16th April, 1894, for copies of report of engineer who inspected river Aux-Roseaux, river Aux-Rats and river La-Seine, in the electoral district of Provencher. Presented 1st May, 1894. *Mr. LaRivière*.....*Not printed.*
- 63.** Return to an order of the House of Commons, dated 30th March, 1894, for a return of all papers and correspondence relative to a claim for compensation for railway damages made by one Charles Coffin, of Midgell, Prince Edward Island, in the railway department of the government. Presented 1st May, 1894.—*Mr. Davies*.....*Not printed.*
- 64.** Return to an order of the House of Commons, dated 23rd April, 1894, for the report of the commission appointed to inquire into all matters concerning the Trent Valley canal. Presented 1st May, 1894.—*Mr. Hughes*.....*Not printed.*
- 65.** Return to an order of the House of Commons, dated 25th April, 1894, for a return giving the amount paid out of the Six Nation Indians' fund (by way of gift or loan) to individual members from the year 1886 to date, stating in each case: The name of the person, the fact of whether gift or loan, the date when paid, the amount, the reason for the gift or loan, the authority for such gift or loan, the conditions on which such loan was made, the provision for repayment, the amount repaid.—Presented 2nd May, 1894.—*Mr. Paterson (Brant)*.....*Not printed.*
- 65a.** Return to an order of the House of Commons, dated 16th April, 1894, for a return showing the amount of money that has been paid out of the funds of the Six Nation Indians for the payment of debts incurred by individual members thereof since the year 1886, and giving: 1. The names of the several persons who incurred the debts, with the separate amounts, the date or dates when incurred, and the proportion thereof that has been paid. 2. The names of the creditors to whom the payments were made, the dates when paid, with the total sum paid to each of such creditors; and stating in each case the authority given for incurring the debt, the authority for payment of the same, and whether such amounts have been repaid to the fund in whole or in part out of the annuities of the individuals on whose account the payments were made, and whether such was the condition on which such payments were authorized. Presented 14th May, 1894.—*Mr. Paterson, (Brant)*.....*Not printed.*
- 65b.** Return to an address of the House of Commons to his excellency the Governor General, dated 25th April, 1894, for copies of all petitions from the Indians of the Saugeen reserve claiming the exclusive right of fishing in French bay, lake Huron, of all answers to the same, and of all departmental orders in reference to that subject. Presented 16th May, 1894.—*Mr. Laurier*.....*Not printed.*
- 65c.** Supplementary return to no. 65b. Presented 23rd July, 1894.—*Mr. Laurier*.....*Not printed.*
- 65d.** Return to an address of the Senate to his excellency the Governor General, dated 10th April, 1894, for copies of all petitions or communications to the governor general, or the government, or any member thereof, asking for interference with the death sentence passed by Mr. Justice Harrison upon the two Chehalis Indians, Peter and Jack, in November, 1893, for the murder of the late Albert Edward Pittendrigh, in New Westminster, British Columbia, on the 27th October, 1892; of all replies thereto, and all correspondence between any member of the government and any other person on the subject of commutation of such sentence; of all reports or recommendations on the said subject by any member of the government to his excellency, and of all replies thereto, and of all orders in council in anywise bearing upon the subject of the commutation of said death sentence to imprisonment for life. Presented 14th May, 1894.—*Hon. Mr. MacInnes*.....*Not printed.*
- 66.** Return to an order of the House of Commons, dated 30th March, 1894, for all papers and correspondence in connection with the establishment of a government cattle ranche near Fort Macleod, North-west Territories, including the purchase of cattle for said ranche; the disposal of said cattle, and the management and disposition made of said ranche. Also a statement showing the amount of moneys paid for cattle placed upon said ranche, and for all other expenses incurred in connection with the same, also the total amount of moneys received for the sale of cattle from said ranche, and all other sources in connection with the same; which statement shall show the balance

VOLUME 17—*Continued.*

- to the credit or debit of said ranche on the first day of January last, and shall further give the names of all parties indebted to said ranche account for cattle purchased or for any other property or material, with the amount due from each of said parties, if any. Presented 2nd May, 1894.—*Mr. Charlton*..... *Not printed.*
67. Return to an order of the House of Commons, dated 10th April, 1894, for a return showing the amount paid to railways or steamship companies, as a bonus for bringing settlers to Manitoba or the Territories, in 1891, 1892 and 1893, and a list of settlers so brought, showing their names and locations. Presented 11th May, 1894.—*Mr. Martin*.....*Not printed.*
68. Return to an order of the House of Commons, dated 30th April, 1894, for copies of all communications received by the minister of agriculture in relation to the establishment of the bureau of labour statistics for the Dominion. Presented 14th May, 1894.—*Mr. Lépine*.....*Not printed.*
69. Return to an order of the House of Commons, dated 30th March, 1894, for a return showing the quantity of butter manufactured at the experimental creameries, established at Elgin and Woodstock, in the province of Ontario, from the time they were established up to the 1st of January, 1894; the number of sales made; where sold, and the amounts realized. Copies of all letters, reports, or other correspondence, especially the report of Clement & Son, of Glasgow, relating to the prices realized, and the condition of the goods when put upon the market. The amounts of money spent, and the different purposes for which the money was used. Presented 14th May, 1894.—*Mr. McMillan*.....*Not printed.*
70. Return to an order of the House of Commons, dated 30th March, 1894, for a return showing the number of homesteads taken up in Manitoba during the years 1892 and 1893, and the number of homesteads cancelled in Manitoba during said years, in each case showing the municipalities in which the homesteads were located. Presented 18th May, 1894.—*Mr. Martin*.... *Not printed.*
71. Return to an order of the House of Commons, dated 25th April, 1894, for a return showing: 1. The total number of depositors in the Dominion and post office savings banks. 2. The number of said depositors having deposits of \$1,000 or upwards and the total amount held by them. 3. The number having deposits of \$500 and over, not exceeding \$1,000, and the total amount held by them. 4. The number of depositors having deposits of less than \$500 and the total amount held by them. 5. The number of depositors not residing in Canada and the total amount held by them. Presented 18th May, 1894.—*Sir Richard Cartwright*..... *Not printed.*
72. Return to an address of the House of Commons to his excellency the Governor General, dated 7th May, 1894, for a copy of the order in council authorizing the sale of lot 16, concession 12, township of Luther, in the county of Wellington, for \$800 to John McNab and John Gallagher. Presented 22nd May, 1894.—*Mr. McMullen*.....*Not printed.*
- 72a. Supplementary return to no. 72. Presented 14th June, 1894.—*Mr. McMullen*.....*Not printed.*
73. Return to an order of the House of Commons, dated 30th March, 1894, for a return showing the sums of money paid to Mr. A. F. Wood, government valuator, for services, maintenance and transport during the years 1891-1892-1893, and the particular pieces of land or other property valued during those years. Presented 23rd May, 1894.—*Mr. McMullen*..... *Not printed.*
74. Return to an address of the House of Commons to his excellency the Governor General, dated 16th April, 1894, for copies of all orders in council in force in Canada (provinces of Lower Canada and Upper Canada) in 1858, concerning any drawback or bounty with respect to the building of Canadian ships, barques and other vessels; and also all orders in council amending the same, or concerning the same from 1858 up to the beginning of the confederation. Presented 23rd May, 1894.—*Mr. Amyot*..... *Not printed.*
- 74a. Return to an address of the House of Commons to his excellency the Governor General, dated 10th April, 1894, for copies of all orders in council from the origin of confederation up to the year 1879, inclusive, respecting any drawback or bounty with respect to the building of Canadian ships, barques or other vessels. Presented 30th May, 1894.—*Mr. Amyot*..... *Not printed.*
75. Return to an order of the House of Commons, dated 7th May, 1894, for copies of all calls for tenders, tenders received, contracts made, correspondence, telegrams, letters and papers relative to the public work (wharf or breakwater) at Grand Etang, Cape Breton; together with a statement of all moneys advanced or paid on such contract, with dates of payment. Presented 29th May, 1894.—*Mr. Davies*..... *Not printed.*

VOLUME 17—*Continued.*

- 75a.** Return to an order of the House of Commons, dated 6th February, 1893, for copies of all letters, petitions, surveys and reports in the possession of the government, relating to the threatened destruction of, and claims for, repairs on the breakwater at Sandford, in the county of Yarmouth, N.S. Presented 29th May, 1894.—*Mr. Flint* *Not printed.*
- 75b.** Return to an order of the House of Commons, dated 6th February, 1893, for copy of the report of government surveys on Wood island breakwater, P.E.I. Presented 29th May, 1894.—*Mr. Welsh* *Not printed.*
- 75c.** Return to an order of the House of Commons, dated 15th March, 1893, for copies of all reports, correspondence or other documents, not already brought down, relating to the state of repair of the breakwater at Rustico, P.E.I. Presented 29th May, 1894.—*Mr. Davics* *Not printed.*
- 75d.** Return to an order of the House of Commons, dated 1st March, 1893, for a statement showing : 1. What is the total sum spent by the government since confederation in each province of the Dominion on the public works classified as (1) harbours, piers and breakwaters, (2) improvements of rivers, and (3) dredging and dredges. 2. How much of the sum so spent in the province of Quebec was expended on works within the harbour of Montreal. 3. (1) How much money the government has loaned to the harbour commissioners of Quebec towards the construction of the new harbour works in that city ; and (2) what amount of interest, derived from the revenues of the said works, have the harbour commissioners paid to the government in respect of the interest due on the said loans ; and (3) how many years' interest, if any, are in arrears. 4. (1) How much money the government has lent to the harbour commissioners of Montreal towards the construction of harbour works in that city ; and (2) how much interest is due thereon. Presented 12th July, 1894.—*Mr. Lépine* *Not printed.*
- 75e.** Return (in part) to an order of the House of Commons, dated 30th March, 1894, for a return giving the total cost of the Cockburn island wharf and dock (lake Huron) ; the name of the contractor or contractors ; the date of its completion ; the number of sailing vessels that have called ; the quantity of freight imported and exported since its completion ; the number of steamers that made during the season regular calls at the wharf since its completion. Presented 12th July, 1894.—*Mr. McMullen* *Not printed.*
- 76.** Return to an order of the House of Commons, dated 14th May, 1894, for copies of all letters, reports of engineers or other papers in the hands of the government relating to the condition of the Pickets pier and the non-expenditure thereon of the sum voted last year for the purpose of repairing said pier. Presented 29th May, 1894.—*Mr. Borden* *Not printed.*
- 77.** Return to an order of the House of Commons, dated 18th April, 1894, for a statement of all sums paid by the government for the construction of the river Yamaska dam, under the first contract and subsequently thereto up to this date. Presented 29th May, 1894.—*Mr. Laurier* *Not printed.*
- 77a.** Return to an order of the House of Commons, dated 2nd May 1892, for copies of report of any inquiry held under the authority of the department of public works with a view to estimate the losses inflicted on proprietors of the commune of Yamaska, by the erection of a dam in the Yamaska river. Presented 4th June, 1894.—*Mr. Laurier* *Not printed.*
- 77b.** Return to an address of the House of Commons to his excellency the Governor General, dated 30th March, 1894, for copies of all letters, papers and statements in connection with awarding contract to William H. Davis & Sons for constructing a dam at Sheik's island, in connection with the Cornwall canal. Presented 5th June, 1894.—*Mr. Charlton* *Not printed.*
- 77c.** Supplementary return to no. 77b. Presented 15th June, 1894.—*Mr. Charlton* *Not printed.*
- 78.** Return to an address of the House of Commons to his excellency the Governor General, dated 10th April, 1894, for copies of all petitions, letters, plans, deeds and other documents respecting the claim of the Hurons of Lorette in relation to the seigniori of Sillery. Presented 29th May, 1894.—*Mr. Frémont* *Not printed.*
- 79.** Return to an order of the House of Commons, dated 10th April, 1894, for a return showing the amount of timber dues collected at Quebec for each year for the last ten years. The quantity of timber culled each year, and the wages paid to cullers and staff. Presented 30th May, 1894.—*Mr. McMullen* *Not printed.*

VOLUME 17—*Continued.*

- 79a.** Return to an order of the House of Commons, dated 10th April, 1894, for a return showing the quantity of timber that passed through the cullers' hands and was culled each year at Montreal, for the last ten years. The amount of fees collected for each year during the same period, and the amount of wages paid to the cullers and staff at Montreal for the same time. Presented 30th May, 1894.—*Mr. McMullen* *Not printed.*
- 79b.** Return to an order of the House of Commons, dated 7th May, 1894, for a return showing: 1. How much timber has been disposed of in townships 1, 2, 3 and 4, in ranges 14, 15, 16 and 17, east of the 1st principal meridian, and also on the Whitemouth river. 2. To whom said timber has been disposed of. 3. In what way said timber has been disposed of. 4. Prices realized for same. 5. Copies of all advertisements in connection with same, with names of newspapers in which same appeared and dates of insertion. 6. How much timber still remains undisposed of in said townships. Presented 29th June, 1894.—*Mr. Martin* *Not printed.*
- 79c.** Return to an order of the House of Commons, dated 25th April, 1894, for a statement of all timber licenses granted since January 1st, 1887, showing the date of each grant, the location, the area of the same, the name of the grantee, the bonus, if any, paid upon the same, whether disposed of: (a) At public auction duly advertised, where the public were invited to compete. (b) At auction where only applicants for the berth or limit were invited to bid. (c) By private application. (d) If in neither of the ways above mentioned, then stating in what way disposal and grant was made. (e) Length of public notice in each case when limits were sold either at public auction or by other form of public competition. Also a summary statement giving total area granted and total amount of bonuses received. Presented 12th July, 1894.—*Mr. Charlton* *Not printed.*
- 80.** Return to an order of the House of Commons, dated 28th May, 1894, for copies of all correspondence between D. J. Hughes, Esq., county judge of Elgin, Ont., and the officials of the government printing office, in regard to the printing of the last revised voters' list for Elgin. Presented 4th June, 1894.—*Mr. Casey* *Not printed.*
- 81.** Return to an order of House of the Commons, dated 14th May, 1894, for a return showing the amount and value of crucible steel imported into Canada free of duty in each year since 1885, under the provisions of order in council of 6th November, 1885. Also amount and value of lastings and mohair cloth imported into Canada free of duty in each year since 1885, under the provisions of order in council of 6th November, 1885. Presented 4th June, 1894.—*Mr. Charlton*.
Not printed.
- 81a.** Return to an order of the House of Commons, dated 14th May, 1894, for a return showing the amount and value of hatters' bands, bindings, tips, and sides and linings, both tips and sides, imported into Canada in each year since 1885, under provisions of order in council of 5th July, 1886. Also amount and value of steel strip for buckthorns and plain strip fencing imported into Canada free of duty since 1885, under provisions of order in council of 17th July, 1886. Also amount and value of wire rope imported into Canada free of duty since 1885, under provisions of order in council of 17th July, 1886. Also amount and value of twisted brass and copper wire imported into Canada free of duty since 1885, under provisions of order in council of 20th July, 1886. Also amount and value of yarn spun from the hair of the alpaca or angora goat, imported into Canada free of duty since 1885, under provisions of order in council of 18th November, 1886. Presented 4th June, 1894.—*Mr. Charlton* *Not printed.*
- 81b.** Return to an order of the House of Commons, dated 14th May, 1894, for a return showing the quantity and value of felloes of hickory wood imported into Canada in each year free of duty since 1887, under provisions of order in council of 16th November, 1888. Also quantity and value of homo spring steel wire, smaller than no. 9 and not smaller than no. 15, imported into Canada free of duty in each year since 1837, for the use of manufacturers of mattresses, under provisions of order in council of 6th December, 1888. Presented 4th June, 1894.—*Mr. Charlton* *Not printed.*
- 81c.** Return to an order of the House of Commons, dated 14th May, 1894, for a return showing the value of sweat leathers imported into Canada free of duty in each year since 1886, under provisions of order in council of 1st July, 1887. Also the value of square reeds, rawhide centres, textile leather or rubber heads, thumbs and tips, and steel, iron or nickel caps for whip ends imported into Canada free of duty in each year since 1886, under provisions of order in council of July 2nd, 1887. Also value of copper rollers for use in calico printing imported into Canada free of duty in each year since 1886, under provisions of order in council of 22nd November, 1887. Also quantity and

VOLUME 17—*Continued.*

- value of steel of no. 12 gauge and down to no. 30 gauge imported into Canada free of duty in each year since 1887, under provisions of order in council of 11th July, 1888. Also quantity and value of yarns, of wool and worsted, imported into Canada free of duty for use of manufacturers in each year since 1887, under provisions of order in council of 11th July, 1888. Also quantity and value of jute yarn, cotton yarn finer than no. 40; and wire of iron or steel, galvanized or tinned, or coppered, or not, of no. 16 gauge or smaller, imported into Canada free of duty in each year since 1887, under provisions of order in council of 11th July, 1888. Presented 4th June, 1894.—*Mr. Charlton*.....*Not printed.*
- 82.** Return to an order of the House of Commons, dated 25th April, 1894, for copies of all complaints made by one Etienne Tremblay, since 1st November, 1893, against Joseph Placide Rocheleau, postmaster of Pauline, in the county of Rouville, P.Q.; and of the report of the post office inspector who inquired into said complaint, or of any other official charged with such inquiry. Presented 5th June, 1894.—*Mr. Fréchette*.....*Not printed.*
- 83.** Return to an order of the House of Commons, dated 2nd May, 1894, for a return giving the names of the junior judges in the province of Ontario and dates when appointed, the name and population of the county to which appointed, also the salary and allowance of each of such judges. Presented 5th June, 1894.—*Mr. Lister*.....*Not printed.*
- 84.** Return to an address of the House of Commons to his excellency the Governor General, dated 7th May, 1894, for copies of all letters, proposals, cablegrams and correspondence since the 1st of January, 1890, between the government and any member thereof and any person, firm or company in relation to establishing a fast Atlantic steamship line between Canada and Great Britain, and also a line between Canada and France, and in relation to the subsidies for such services asked for or proposed to be given by the government, and any draft or completed contracts for such steamship service. Presented 6th June, 1894.—*Mr. Mulock*.....*Printed for distribution only.*
- 84a.** Supplementary return to no. 84. Presented 29th June, 1894.—*Mr. Mulock*.....*Printed for distribution only.*
- 84b.** Further supplementary return to no. 84. Presented 5th July, 1894.—*Mr. Mulock*.....*Printed for distribution only.*
- 85.** Return to an address of the House of Commons to his excellency the Governor General, dated 6th February, 1893, for copies of all correspondence, papers and documents, not already laid before the house, in reference to negotiations and communications between the government and the United States, in reference to reciprocity, canal tolls and wrecking and towing. Presented 11th June, 1894.—*Mr. Tisdale*.....*Not printed.*
- 86.** Return to an address of the House of Commons to his excellency the Governor General, dated 30th March, 1894, for copies of all correspondence, instructions, orders in council and reports about the boundary line between Alaska and British Columbia not already laid before this house. Presented 11th June, 1894.—*Sir Hector Langevin*.....*Not printed.*
- 87.** Return to an order of the House of Commons, dated 7th May, 1894, for a return showing in detail all sums of money in the hands of the government held as security for the performance of contracts completed, the name of each contractor who deposited the money, date of each such deposit, and amount of interest accrued on each deposit. Presented 11th June, 1894.—*Mr. Lister*.....*Not printed.*
- 88.** Return to an address of the House of Commons to his excellency the Governor General, dated 30th March, 1894, for a return of all correspondence, telegrams, reports to council, orders in council, or departmental orders or instructions relative to the employment of certified captains or mates on steamers plying in the waters or ferries of the Dominion, or to the running of such steamers or ferries without such captains or mates. Presented 19th June, 1894.—*Mr. Davies*.....*Not printed.*
- 89.** Return to an address of the House of Commons to his excellency the Governor General, dated 14th May, 1894, for copies of all correspondence between the minister of railways and the Rev. A. E. Burke and others having reference to the moving of the flag station from Mill river, on the Prince Edward Island Railway, to Howlan road, and all telegrams and documents having reference to the same, as well as all petitions, etc., against the removal of said flag station. Presented 19th June, 1894.—*Mr. Perry*.....*Not printed.*

VOLUME 17—*Continued.*

90. Return to an address of the House of Commons to his excellency the Governor General, dated May, 1894, for copies of all correspondence between J. B. Wright, M.D., V.S., and the government, or any member, department or officer of the government, and of all correspondence between the Grand Trunk Railway and the government, or any member, department or officer of the government, and of all correspondence between Mr. A. Brush and the government, or any member, department or officer of the government, and of all correspondence between the imperial authorities, or any one on their behalf, and the government of Canada, or any member, department or officer thereof, from, and including, the year 1882 until, and including, the year 1891, regarding the inspection of cattle passing through Canada from the United States. Presented 21st June, 1894.—*Mr. Mulock* *Printed for sessional papers only.*
91. Return to an order of the House of Commons, dated 16th April, 1894, for a return showing all lands allotted to Half-breeds in Manitoba for which patents have not been issued, giving along with a description of the land, the name of the allottee and the reasons why the patent has not been issued. Presented 21st June, 1894.—*Mr. Martin* *Not printed.*
92. Return to an order of the House of Commons, dated 21st May, 1894, for a return of the order, minute or direction authorizing the collector of customs at Woodstock, Ont., to admit free of duty certain goods consisting of vestments or other church articles for the use of the Roman catholic church at Woodstock, consigned to the Reverend Father Brady, of Woodstock, in the month of February, 1894. 1. The decision upon which the collector acted in admitting such goods free of duty. 2. All correspondence between the controller of customs or other person in the department of customs relating thereto. 3. Copies of the letters and correspondence which passed between the Rev. J. C. Farthing, of Woodstock, and the controller of customs, with reference to the admission of such goods and the alleged unfairness with which Mr. Farthing had been treated on the importation by him of a similar class of goods for the use of the Anglican church at Woodstock, of which he is rector. 4. And if duty has since been exacted upon the said articles, or any of them, a copy of the entry or minute in respect thereto and the amount of duty paid thereon. Presented 29th June, 1894.—*Mr. McCarthy* *Not printed.*
93. Return to an order of the House of Commons, dated 7th May, 1894, for a return showing the names of all persons appointed to act as what are known as return-men, in connection with immigration work, the period during which each worked, the amount of money paid to each, the names of the settlers brought to Canada by each return-man, and the places in which such settlers were located. Also statement showing what arrangements are made with these return-men. Presented 29th June, 1894.—*Mr. Martin*..... *Not printed.*
94. Return to an order of the House of Commons, dated 28th May, 1894, for a return showing the date on which the steamer "Stanley" commenced running between Charlottetown, P.E.I. and Pictou, N.S.; the date said steamer commenced running between Georgetown, P.E.I. and Pictou; how many trips were made; the date of each trip; how many mail bags were carried each trip; the date at which said steamer stopped carrying mails; the number of passengers and the amount of freight carried to and from Prince Edward Island; the amount of expenses and revenue for the winter 1893-94, in connection with said service. Presented 29th June, 1894.—*Mr. Perry*.
Not printed.
- 94a. Return to an address of the Senate to his excellency the Governor General, dated the 14th June, 1894, for a statement giving in detail the days, during the month of January, February, March and April last, on which the steamer "Stanley" crossed between Prince Edward Island and the mainland, such statement to show separately the days on which the said steamer made single and return trips, and also the ports of departure from either side. Also for a statement covering the same period, giving in detail the days on which the government ice-boats crossed between Cape Traverse and Cape Tormentine, such statement to show separately the days on which single and return trips were made. Also for a statement giving in detail the days during the same period on which no mails were conveyed from the mainland to Prince Edward Island, and from Prince Edward Island to the mainland. Presented 6th July, 1894.—*Hon. Mr. Ferguson (Queen's, P.E.I.)*
Not printed.
95. Return to an address of the Senate to his excellency the Governor General, dated 19th June, 1894, for a copy of the report made on the 5th May, 1891, by Sir Douglas Fox, regarding the proposed tunnel under the Straits of Northumberland, without the plans. Also copies of reports on the same subject by Mr. Francis Bain, dated the 9th and 18th of December, 1890, and the 14th March, 1891. Presented 5th July, 1894.—*Hon. Mr. Ferguson (Queen's, P.E.I.)*
Printed for sessional papers only.

VOLUME 17—*Continued.*

- 96.** Return to an address of the House of Commons to his excellency the Governor General, dated 27th April, 1892, for copies of all correspondence, memorials, departmental orders and orders in council, respecting or in any way relating to the removal of the export duty from saw-logs and other un-manufactured lumber exported from Canada to the United States. Presented 9th July, 1894.—*Mr. Rider*..... *Not printed.*
- 97.** Return to an order of the House of Commons, dated 9th May, 1892, for a copy of the report of the inspector of customs, Nova Scotia, in reference to the establishment of a port of entry at Whyco-comagh, in the county of Inverness. Presented 9th July, 1894.—*Mr. Cameron*..... *Not printed.*
- 97a.** Return to an order of the House of Commons, dated 9th May, 1892, for a copy of the report of the inspector of customs, Nova Scotia, in reference to the establishment of a port of entry at West Bay, in the county of Inverness. Presented 14th July, 1894.—*Mr. Cameron*..... *Not printed.*
- 98.** Return to an address of the House of Commons to his excellency the Governor General, dated 18th June, 1894, for a return of all charges, complaints, letters, telegrams, correspondence, reports or orders relative to the dismissal or removal of John McLeod as inspector of the repairs of the Broad Cove Marsh pier, Cape Breton. Presented 12th July, 1894.—*Mr. Davies*..... *Not printed.*
- 99.** Return to an address of the House of Commons to his excellency the Governor General, dated 25th April, 1894, for the production of all orders in council, correspondence, instructions to officers of the department of public works, and reports of such officers respecting the improvement of St. Andrew's rapids in the Red river of the North. Presented 12th July, 1894.—*Mr. Martin*..... *Not printed.*
- 100.** Return to an address of the House of Commons to his excellency the Governor General, dated 6th February, 1893, for copies of all orders in council now in force regulating the slaughtering of swine for exportation in bond, passed under authority of an act respecting customs, cap. 32, Revised Statutes, sec. 93; and for a copy of the quarantine regulations governing the importation of such swine into Canada for the purpose of slaughtering in bond. Presented 14th July, 1894.—*Mr. Smith (Ontario)*..... *Not printed.*
- 101.** Return to an order of the House of Commons, dated 28th May, 1894, for a detailed report showing the prizes awarded by the judges or jury at the Chicago Columbian exposition for the work of pupils of primary and special schools of every kind and degree, and also to pupils of secondary educational institutions of each of the provinces of Canada. Presented 14th July, 1894.—*Mr. Lachapelle*..... *Printed for sessional papers only.*
- 102.** Return to an order of the House of Commons, dated 21st May, 1894, for list of persons in Manitoba who have not as yet repaid the loans made to them, in or about the year 1876, for seed-grain, etc., with statement of the amount owing by each person and the interest claimed, up to 1st January, 1894, on each such amount. Also a list, showing the amounts of mortgages received as collateral security for each loan, with description of land mortgaged, with name of proprietor and name of borrower if he be another person. Presented 18th July, 1894.—*Mr. LaRivière*..... *Not printed.*
- 103.** Return to an order of the House of Commons, dated 28th May, 1894, for: 1. A statement showing the quantities of distilled and fermented liquors, under the different names as given in the trade returns, imported into and taken for consumption in Canada, from 1883 to 1893, both years included, computed in imperial gallons; the value of the same, and the duty paid thereon. 2. The quantity of distilled and fermented liquors, under the different names given in the inland revenue returns, manufactured in Canada and taken for consumption therein; the value of the same, and the duty paid thereon for the same years. 3. The amount of materials used in brewing and distilling alcoholic liquors in the several provinces of Canada during the same years. Presented 19th July, 1894.—*Mr. Flint*..... *Not printed.*
- 104.** Return to an order of the House of Commons, dated 28th May, 1894, for a statement showing the number of breweries, distilleries and maltsters' establishments in Canada in the year 1891; the amount of capital invested therein; the value of the output; the amount of wages paid; number of employees, and the revenue derived therefrom. Presented 19th July, 1894.—*Mr. Flint*..... *Not printed.*
- 105.** General statements and returns of baptisms, marriages and burials in the districts of Bellechasse, Chicoutimi, Gaspé, Kamouraska, L'Islet, Montmagny, Ottawa, and Saguenay. Presented 20th July, 1894, by Hon. Mr. Speaker..... *Not printed.*
- 106.** Return to an address of the House of Commons to his excellency the Governor General, dated 4th June, 1894, for copies of all correspondence, petitions and memorials in relation to the reduction or abolition of the duties on Canadian tobacco, or in relation to any possible changes in the inland revenue laws in that behalf. Presented 23rd July, 1894.—*Mr. Brodeur*..... *Not printed.*

North-west Mounted Police.

ANNUAL REPORT OF COMMISSIONER L. W. HERCHMER NORTH-WEST MOUNTED POLICE, 1893.

NORTH-WEST MOUNTED POLICE,
OFFICE OF THE COMMISSIONER,
REGINA, 28th December, 1893.

The Honourable
The President of the Privy Council, Ottawa.

SIR,—I have the honour to submit my annual report for the year ended 30th November, 1893, together with the annual reports of the following officers, for the same period:—

Superintendent Gagnon,
do Steele,
do Perry, with reports of Supt. Norman, and Inspectors McGibbon, Wilson, Constantine and Routledge.
do Deane,
do Griesbach,
do Jarvis, with report of Inspector Harper,
do Moffatt,
do Howe,
do Cotton,

The Assistant Surgeons, and Acting Assistant Surgeons, &c.

The Veterinary Surgeon, with the reports of the Assistant Veterinary Surgeon and veterinary non-commissioned officers attached.

PATROLS.

In March last, I was notified that the quarantine against cattle coming in from the United States was placed under the immediate supervision of the Mounted Police, and it was consequently found necessary to slightly increase our outposts in Manitoba, and all along the frontier our patrols were obliged to exercise great vigilance, in order to carry out the stringent quarantine regulations.

In the territories, considerable repairs were made at many of the patrol outposts, and several were almost rebuilt by our own men.

The same constant patrols have been kept up, and while on the other side of the line, train robberies, horse stealing, &c., &c., have been very prevalent, marauders have so far avoided our country. The very marked contrast has attracted the notice of business men in the United States, and inquiries have been made *re* our organization &c., with a view of endeavouring to establish a somewhat similar force there. I supplied the necessary information and forwarded it through your department.

In the interior the usual patrols have kept the Superintendents commanding the various districts thoroughly posted on events transpiring; and flying patrols, under officers, at irregular times, have found that the men were doing their duty to the satisfaction of the best class of settlers. The results of these patrols have from time to time, when found interesting, been submitted to you.

We have still, in many places throughout the territory, and altogether in Manitoba, to board our men at farmers' houses and taverns, both of which are detrimental to dis-

cipline and smartness ; the rather untidy surroundings at the former, and the necessity, in small taverns, of the men being frequently round the bars, necessarily throwing them in the company of the worst element in the community, is particularly trying to young men, and the great distance, in most cases, from headquarters, and attendant expense, prevents their being brought in for drill and discipline, as often as would be desirable, but, on the whole, I am pleased to report that the detachments have kept up the reputation of the Force for steadiness.

INDIANS.

We have had very little trouble with Indians during the last year, and, in nearly every case the culprits were at once arrested and punished. Great assistance has been given us by the agents at the South Blackfoot Reserve in United States' territory, as they have refused to harbour refugees from Canada, making the capture of Indians guilty of any crime very much more easy.

In March last, there was a row at the Piegan Reserve, resulting in the wounding of the farm instructor, but no further trouble ensued owing to the determination of the instructor, and the prompt action of the police.

The Indians confined in our guard-room give no trouble, and are, without exception, the most willing workers we have.

A few complaints have been made by settlers of their houses being entered during their temporary absence, and, in one or two cases, their wives were compelled to feed Indians. Most of these complaints came from the vicinity of the Blood Reserve. I have always considered, and still consider, that too much liberty is given to these Indians. There is no game in their country left to shoot, and the practice of armed bands wandering around over a settled country at will, is certain, sooner or later, to end in trouble. Superintendent Steele reports that the Indians visiting their timber reserve in the mountains are guilty of some of these maraudings, and I agree with him that some employee of the Indian Department should be in charge of these parties. Even the Bloods have supplied the police with some hay this year, and they have also hauled a considerable quantity of coal for us. If remunerative labour could be found for these Indians at all seasons, all trouble would cease. The lazy, loafing life they are compelled to lead, even the exercise and excitement of the chase having been swept away, is the greatest incentive to crime and outrage possible.

In other districts we have bought a good deal of Indian hay, and the completion of their contracts has been in every case marked with success. Their hay is better made than that of the settlers, and they give no trouble when delivering. I propose, next season, if permitted, to get a great deal more hay from them in consequence. It is to be regretted that some of their crops were so poor this year, as they have generally been very industrious and deserved better results.

We are still employing Indian scouts, but they are not very satisfactory, as their constant desire to visit their families causes frequent changes.

There has been a good deal of drunkenness among Indians in the vicinity of the towns, but not as much as usual, and, as the parties supplying the liquor have on several occasions been convicted and heavily fined, it is to be hoped that the practice will still further diminish.

Considerable destitution would have resulted in the north among the Indians, who depend on fishing in the early winter, owing to the enforcement of the fishing laws. These, in some cases, were relaxed with advantage to the immediate welfare of those concerned, but if fish are allowed to be killed in spawning time, the result will be that Indians will have to be fed all the year round, and I would suggest that some provision be made for a few years, during the close season, for those Indians who subsist by fishing.

In a previous report this year, I have drawn attention to the immediate necessity of protecting the beaver in the north, by making it unlawful for any one to be in possession of very young beaver skins. If the traders are punished for buying them, the Indians will not be so keen to kill. I have also reported on the very small number of wood buffalo still existing in Athabasca, and have represented to you the desirability of prompt legislation, with a view to their survival. As already reported, two more winters indiscriminate slaughter will kill every buffalo now wild in Canada.

North-west Mounted Police.

LIQUOR.

During the season of navigation, a strong patrol was kept on the Athabasca River, and very little liquor in consequence was admitted. The patrol will be kept up in future, and I think with very beneficial results. I still think that there are too many licensed houses in some districts, and that some of the licensed inspectors do not exercise sufficient vigilance in closing bars at the proper time.

HORSES.

We continue to buy horses as in former years, and while we have not advertised fixed days for purchase in parts of the country where they are not bred, all officers have instructions to look out for likely horses, and wherever one has been reported, an opportunity has been given the owner of showing it, with a view to sale. I regret to say that the supply suitable for troopers is decreasing, and it is only with great difficulty that I am able to mount the force.

We are paying good prices for horses, but, as a rule, with two or three exceptions, the ranchers apparently have no animals suitable for our work, and this season I have been obliged to buy several against my own judgment, as we are short of horses. During the coming season we will require about seventy-five remounts, even with the greatest care; and with your permission I propose to commence buying in April. I would again strongly recommend that I be authorized to offer prizes for the best police horses shown during the year.

There has been some glanders in the country this summer, and drastic measures are required to thoroughly eradicate the disease, otherwise it will certainly seriously affect the horse interest later on.

Our veterinary staff have paid great attention to the horses, and a number of old animals have in consequence been kept at work, that only constant attention saved from "casting."

RETURN of Horses purchased from 1st December, 1892, to 30th November, 1893.

FORAGE.

The price of hay will be a little below the average this year, but oats will be considerably higher than for some years. It is apparently difficult to get good clean oats, and wheat being low in price, I notice that there is a tendency of that grain to get into the oat bins.

As mentioned before, the Indians supply the best hay in the country, it is also the cheapest.

SADDLERY AND HARNESS

Has been kept in a good state of repair, a few new sets of harness have been purchased locally, and a few saddles as samples. While the appearance of the force would be greatly improved if a number of old saddles were condemned, I hesitate to recommend the expenditure. We are now trying a saddle of about the same pattern as our double cinch saddles, which is five pounds lighter, and if a success I shall apply for permission to purchase a few as required. The single cinch is of very little use in hilly country, and under every condition the double cinch is preferable, as tight cinching is not required.

We have purchased one saddle made in Calgary, and in the near future I expect just as good saddles, and as cheap, can be purchased in the territories as elsewhere.

THE TRANSPORT.

Our transport is gradually getting worn out, particularly the heavy wagons, and before next summer we must replace 20. We require also 10 buckboards, 3 spring and 8 $\frac{1}{2}$ -spring wagons. I regret to report that I have been unable to find lumber

wagons satisfactory for our work ; poor material and faulty construction are apparent, and I would recommend that a contract be let to some good firm. A poor wagon may do considerable work on a smooth road free from hills, when it can be taken to a blacksmith, but in our service, when it breaks down on the prairie, 100 miles from a shop, it is perfectly useless, and dangerous to life at certain seasons of the year. Your early attention is respectfully drawn to these requirements, and, however purchased, this transport should be inspected before being painted.

I regret to report that buckboards ordered locally this year have been refused, as being inferior to those supplied last year.

ARMS.

The Winchester carbines are in about the same condition as last year ; we are replacing the worn out barrels as required, but the sighting is bad, and it requires too much practice with each individual rifle to make efficient shooting ; when new, these carbines shoot fairly well at short and medium ranges, but, as they wear out, it requires great judgment to shoot well with them.

Owing to the decreased strength and the increase in our duties, together with the impossibility at several posts of getting suitable ranges, it has been found very difficult to put all the men through target practice, without great expense in transferring men for that purpose from one post to another, and there can be no doubt that the force generally, from the above causes, do not shoot as well as they should. I propose, with your consent, next year paying closer attention to shooting, and shall recommend that some of our other duties be curtailed for a season to allow the necessary practice.

Our Enfield revolvers are in good order, but the ammunition is a little too heavily loaded, and the weapon is heavier than we require.

BARRACKS.

The barracks at Regina are in urgent need of painting, the roofs on the larger buildings must be re-shingled, or they will be past repair.

The old portable houses are gradually settling, and require so much coal to heat them, that an enormous saving would ensue in a short time if they were condemned and new buildings put up.

I would again strongly recommend that a really competent clerk of works be appointed solely for police work.

At Calgary the barracks are in good order, but a new stable is a necessity, and officers' quarters are urgently required ; at present the inspectors have to live in town, which throws a great deal of responsibility and extra work upon the superintendent.

At Edmonton the buildings are very poor, but with repairs will last some time. A hospital, stabling for forty horses, and an inspector's quarters are urgently required at once. The stable at present in use is positively dangerous from rot, and is liable to collapse in a gale.

At Prince Albert the post requires painting and a few shingles, otherwise it is in good repair.

At Battleford a small outlay will be required for repairs, and then the buildings will do for some time, with a possible small addition required to the inspector's quarters, already reported.

At Macleod the barracks require painting all over. The officers' quarters require to be sided, and hot air furnaces, at a cost of \$200 each, put under each house ; this will save enough coal to pay for improvement in two years. And an addition already applied for to the guard-room is urgently required.

At Lethbridge the usual small repairs are required, and the whole post requires painting, and some of the buildings re-siding in places, as the lumber used in construction was poor.

At Maple Creek the whole post requires painting, and many of the buildings require new sills and re-shingling under the immediate supervision of a competent clerk of works.

North-west Mounted Police.

A fire pump has been placed in the tank-house at Regina, and works tolerably well, but the tank cannot be used in winter, and is practically useless, as only in winter is there much danger from fire. This erection is a striking instance of the necessity of a qualified man as clerk of works for police buildings only.

We are looking forward to the arrival of iron cots, as approved by you on your late inspection, when we will be able to keep the barrack rooms much smarter than at present.

PHYSIQUE.

Our physique is about the same as last year, and as our strength decreases, it is imperative more than ever to keep it up to standard.

DISCIPLINE.

On the whole the behaviour of the force has been excellent. Drunkards have been promptly punished, and in some cases dismissed. In future I propose to dismiss all men who persist in getting drunk, as they are too difficult to watch, and invariably get us into disrepute.

Many of these drunkards are good soldiers, and very smart, but are quite useless as policemen.

DRILL.

As much time as possible has been devoted to drill, and during your late inspection you were pleased to express your satisfaction on several occasions.

The large number of men at all times on patrol and outpost duty necessarily causes some to be a little slow at first, when brought in for drill purposes, but if the whole force could be drilled together for a short time, I think that the drill would compare favourably with that of most regular corps, as the intelligence and physique is so very much above the average.

KITS.

The articles issued as kit have been, generally, excellent. The improvement in the legs of the boots, approved at your inspection, will not only be a great saving to the men, but give them much smarter appearance, on and off parade.

I find that the fur coats do not stand as well as expected, and on my late inspection I found a great many of them out of repair, caused, it is said, by the dye. A fur coat will certainly not last five years. I think competition has reduced the price below the cost of a really good article.

The stable jackets and trousers are not as well made as formerly, particularly in arm holes, and, in some cases, are indifferently sewn. This conduces to untidiness, otherwise the issues are good.

PAY.

I still think that the question of pay requires some consideration.

Promotion in the commissioned ranks is very slow indeed, and while in nearly all Government services an increase is made in salaries, in the police an officer may remain for years at exactly the same pay, and an inspector on joining, draws the same pay as the inspector of ten years' service commanding a division, or doing duty as paymaster and supply officer combined, as the adjutant, and as my secretary. There is no comparison in the duties performed, and in every other service, these staff officers get extra pay. In contrast to this, the constables during the first six years of their service get a rise, if well behaved, every year.

The sergeant major only receives \$1.50 per diem, the same as other staff-sergeants; these able non-commissioned officers are much underpaid, and they are always on duty. It is not generally known that a division sergeant-major in this force requires to know

more than a regimental sergeant major in any other force, as transport, artisans work, police duties, etc., etc., have to be thoroughly understood, as well as discipline, routine, and the other usual accomplishments of a competent sergeant-major.

RATIONS.

The quality of the rations issued has been very good indeed, except tea, we buy too cheap a tea, when we buy loose tea. I would strongly recommend that only the very best grade of compressed tea be supplied.

On the prairie we have to do without milk, and under such conditions tea must be good.

FUEL AND LIGHT.

Owing to our old quarters the consumption of fuel is very large, and will constantly increase unless we get new quarters. The price of coal is much too high, but it is not likely to decrease, as its production is in few hands.

The coal oil supplied is said to be the best Canadian. It is very indifferent oil, and the danger from fire owing to its use is greatly increased.

I would recommend that every inducement be given to electric light companies to light the various barracks.

At Regina, with the power we now have, if we had a competent clerk of works, we could produce our own electric light with advantage.

CANTEENS.

The canteens at Macleod, Calgary, Maple Creek and Regina are a great success, and we hope to have canteens at the other posts in the near future; absence of suitable buildings prevent our starting them at present.

They add greatly to the comfort of the men, and as all the profits go to their amusement, they are popular institutions in the force.

PRISONS.

Our guard-rooms have, I regret to say, been very full this year of civilian prisoners, and I have had to recommend an increase in the number of cells at Macleod.

We have plenty of work for all the prisoners we can get, as we make them coal, and do many fatigues, which enable our men to do more drill, etc.

ROADS AND BRIDGES.

The roads are about in the same state as last year, but a good many new bridges have been built, which at high water will enable travel to continue; although bridges are built, it appears difficult to get the approaches made, and numerous bridges are in existence, that it is impossible to use without considerable grading.

In Maple Creek and Macleod districts especially, unless the old trails are protected by legislation, it will soon be almost impossible to travel. These old trails invariably follow the easiest natural descents to the fords of the rivers, and with these fenced up, in some places it will be impossible to approach the fords.

From the earliest settlement of the country I have always observed that it has been the great ambition of the new comers to plough up and fence the regular trails, until at last, in many parts of the country, in a wet year it is impossible to get from place to place without travelling miles out of the way.

FIRE PROTECTION.

At Regina a new fire pump has been placed in the tank-house, but as the tank is useless in winter, we cannot expect a particularly good service, although it is a great improvement on our hand fire engine which still works fairly well.

We have hand engines at Macleod, Maple Creek, Battleford and Prince Albert.

North-west Mounted Police.

One is required at Edmonton where we have a new well and tank.

Our Babcocks are all in good order, and fire pails, axes and ladders are handy at all posts.

With our balloon frame buildings, constant watchfulness and prompt action are our best security, as with the high winds, and intense cold in winter, fire engines are of little use.

EQUIPMENT.

Our equipment is generally good ; we are rather short of tents, they are hard to keep in good order owing to the wind and storms, but if urgently required, we can always obtain them.

TELEGRAPHS AND TELEPHONES.

The construction of more lines would greatly facilitate our duties and save horseflesh. The completion of a telephone line from Lethbridge to the Mormon settlement, for which a grant has already been made, I believe, will be a great convenience. A line from Macleod to Stand Off, would be of great value to us, and if this line could be extended to St. Mary's and on to the quarantine ground connecting with the Lethbridge line, it would greatly facilitate our work, and save a great amount of horseflesh. The latter would cost but little, as we could get out the necessary poles, and lay them along the proposed line ourselves. Telephone communication between Edmonton and Fort Saskatchewan is much needed, and I have already forwarded you correspondence, with a view to arranging this. I have also suggested improvement in the telephone line between Edmonton and St. Albert.

PRAIRIE FIRES.

Great attention has been paid to the suppression of these devastating fires, and fire patrols were stationed out early in the season, but, in spite of every precaution, numerous and destructive fires have occurred, and while in most cases the delinquents have been traced and information laid, the results have not been satisfactory. Although the North-west Fire Ordinance has fixed the lowest penalty at \$10, the justices of the peace coolly stick to the old scale of fines, and while a fire may entail \$20,000 loss on the community, the selfish starter may get off with a \$2 fine. In one case the justice of the peace concerned fined a man \$100 and costs ; a few deterrent sentences of this sort would stop the increase of fires.

The Fire Ordinance is very faulty however, and while in former years, a person not extinguishing his camp fire could be proceeded against whether it ran or not, under the new rules, unless we can prove that it ran, we cannot obtain a conviction. This causes travellers to be careless. The railways have generally done their best to prevent fires, but there is no doubt that owing to the extreme dry weather, their engines are responsible for many fires.

ASSISTANCE TO RAILROADS.

Every assistance required has been rendered to railroads, but in that connection we have had little to do, except on the "Soo" branch of the Canadian Pacific Railway, and on the "Old Galt" line lately handed over to the Canadian Pacific Railway ; a rather rough crowd were employed widening the gauge on the latter road, and they gave considerable trouble at Lethbridge when the work was finished.

RANCHES.

The ranchers are generally well satisfied with their results during the last year. There was a quick sale for steers at \$40. The brand generally has been large, and unless the winter turns out very unfavourable, the prospects of the cattle men are good.

Horse ranches are in worse shape than ever, but it is in a great measure the fault of the owners, as very few of them are successful in raising good horses of any class.

The sheepmen have had a bad set back, owing to the prevalence of scab which was introduced from the United States. The system of inspection is not thorough, in my opinion, and control of the quarantine should be under a local man who can be present at all times.

Timber wolves are very numerous and destructive and a bounty of \$5 has been offered by the Territorial Government for their extermination.

The Indians have killed very few cattle this year.

GAME.

Feathered game is on the increase, and deer of the smaller sorts are fairly numerous, during last winter antelope in thousands swarmed along the Canadian Pacific Railway north of Cypress Hills, and numbers were killed. Elk and moose are decreasing, particularly the former, which will soon be extinct unless protected. Rabbits and Jack rabbits are very plentiful this winter, and will greatly help the Indians, who, if they could be induced to hunt the numerous timber wolves in the west, would make good wages, under the bounty of \$5 offered for heads by the Local Government.

TREES.

Our tree planting at Regina has been very successful, and we have prepared ground for a number of trees, ready for next spring.

Native maples as usual are the most successful.

SETTLERS.

The Edmonton District has had the most settlers, chiefly from Nebraska, Idaho, and Washington. All have come fairly provided with good horses and considerable cattle, the latter, however, generally a very poor class of animals, and not nearly as good as our own cattle. They were as a rule in very low condition when entered at the Quarantine, and it was only with the very greatest care that they were pulled through in many cases. In spite of all our efforts, in some instances they died, and I regret to report that some owners showed considerable assurance in demanding compensation. One thing is certain, if they had taken their cattle to their destinations in April, which was an awful month, they would certainly have lost most of them for want of forage, which they had not thought of providing.

The Mormons, numbering about 650, are doing well, improving their places and attending to business; they have dug a flume to provide water for the power in their mill, and are getting out an irrigation ditch. They are a well-behaved people, give no trouble in any way, and have greatly reduced the cost of living in the district.

GENERAL.

Although very much under strength during the year, by the cordial support of Assistant Commissioner McIllree, and all ranks generally, I have been enabled to direct the various duties entrusted to us, so as to meet the requirements of the country.

RECRUITS.

During the year, 136 recruits joined the Force, most of them were engaged in Winnipeg, a few were taken on at Ottawa, paying their own expenses to Winnipeg, and a few applied from various points in the Territories. It is very difficult to obtain recruits fit, mentally and physically, for our Force, and great care should be taken by examining surgeons to strip the candidates and thoroughly examine them before signing their papers, as when rejected here, after being passed at other places, the expense of returning them is great.

North-west Mounted Police.

QUARANTINE.

In March I was instructed to proceed to Gretna and start a quarantine against cattle coming from the United States; although the time was short, by leasing the local well fenced race track, I was enabled to make the necessary arrangements in time to receive cattle on April 1st. This quarantine was also established all along the Manitoba and Territorial frontier.

At first I understood that the police were to have sole charge of the quarantine, this I found was a mistake later on, and that the officers of several other departments considered they had authority in the matter, and, on one occasion, very serious results might have followed such interference. I would recommend that if this force is to take charge of quarantine next season, all instructions issue through the Commissioner, as it is impossible to keep up an efficient quarantine if my orders are to be directly ignored.

While a strict and efficient quarantine can be enforced between the eastern boundary of Manitoba and Wood Mountain, as I have previously reported, it is quite impossible under existing regulations, to keep up a quarantine west of that point, for the following reasons:—Cattle range right up to the boundary line on both sides, and at various points, being miles away from water on their own side, must cross the line to get it, and in the face of a storm it is useless attempting to stop cattle drifting before it. We have done our best in the face of such difficulties to keep the quarantine, and have used up many horses in doing so. To make it efficient, it will be necessary to make a strip all along the Canadian line from Wood Mountain west, quarantine ground, and compel ranchers to keep their cattle north of this line, or take the consequences. This can be done if the Stock Associations employ competent line riders, as there are immense tracts of country well north of the proposed quarantine strip furnishing splendid grass and water. The trouble is the expense, but if properly managed, with an experienced cattleman as captain, after a little time there would be no difficulty between April and November. During the winter months a few cattle would be certain to drift south, and here the chief drawback occurs. To make the quarantine efficient, all American cattle would have to be kept south of the line, and away from our cattle; while the quarantine strip would give us a chance to assist the owners to drive them back before they met our cattle. Some would insist in remaining on our side if allowed to range up close to the line, and would certainly stray into our cattle. The only remedy for this is to notify the United States that all cattle crossing the line without customs entry would be subject to quarantine penalties; the owners would then keep their cattle off ranges where the cattle must water on our side, but the United States would certainly retaliate on the few Canadian cattle drifting on to their Territory; however, if properly looked after, and cattle kept off the dangerous ranges, such as that along the White Mud River, west of Wood Mountain, for which no rent is paid by any one, I believe very few Canadian cattle would drift across the line. As previously reported, owners having ranges on both sides of the line should be made to at once change their brand on one side or the other.

If these arrangements are carried out, the cattlemen will at once complain that their industry is killed, and that they are ruined; I think that with hearty support from all concerned, the cattle industry would survive the enforcement of a strict quarantine. The difficulty is to get hearty support, as I consider it is against the interests of the ranchers to raise the embargo against Canadian cattle in England.

Practically there is no use in keeping up a quarantine against range cattle from Wood Mountain west, as there has never been any disease known in Montana or the North-west among cattle, except the usual anthrax. I base this opinion on a 21 years' residence in the North-west, during the greater portion of which I have constantly travelled over the country.

The cattle received in quarantine at the various stations this year, have all been clear of disease, but many of them so weak from the long journey, and indifferent feeding before starting, that we experienced great difficulty in saving some of them, and no matter how poor and miserable an animal is on arrival in quarantine, the owners expect to receive it fit for beef. Every attention was given the cattle by our men, who received extra pay for the work, and to save settlers time and expense, our men actually took the cattle to their destinations and delivered them to their owners.

The following were the quarantine stations during the season :—

Emerson.—Under immediate control of Department of Agriculture.

Gretna.—Managed by Police, under supervision of Inspector of Quarantine, situated in race course; this will only be used in future as receiving quarantine for Emerson and Estevan. Sixty tons of hay was made at Gretna for quarantine use.

Estevan.—Under Police control; has good corrals and stables for unloading and loading, and, at Wood End, eight miles south on the quarantine range, we have ample corrals and warm sheds, each well supplied with water, and about 200 tons of hay stacked ready for the opening of the quarantine in April. The range is well watered and is generally well grassed, but in a very dry summer is not so good.

Wood Mountain.—No cattle can enter at this quarantine, as it is out of the travelled district.

Maple Creek.—No cattle have, so far, entered here, and none are likely to, except some range cattle returning from the United States, and these will be driven back unless the owners take charge of them, under Police supervision.

Lethbridge.—Only one small lot entered here, and only because their owner lost his road; we have corrals ready as others may come from the same cause. A few milch cows belonging to the Canadian Pacific Railway agent at Coutts, were also quarantined at his expense, as they had been across the line.

Macleod.—A large number of cattle were received at the quarantine south of Macleod, and good corrals have been erected; most of the cattle from Washington, Idaho and other North-western states, were quarantined there, and escorted by police to Macleod railway station, at expiration of their time, where they were loaded for their destinations.

DEATHS.

I regret to report that during the year we lost three officers and four men, the heaviest death rate for many years.

Assistant Surgeon Dodd, an officer of great medical experience, died very suddenly on 1st January, while in medical charge of Maple Creek. He was buried in the police cemetery, at Regina.

Inspector Piercy, an officer who served in the Force for many years, both in the ranks, and afterwards as a commissioned officer, died at Edmonton on the 13th of March, and was buried there.

Inspector Huot, who had been in command at Duck Lake for several years, and who had been suffering for some time, died at Duck Lake on the 23rd of March. He was a great favourite with his comrades and very popular in his district, having always displayed great tact in dealing with the natives. He was buried at Prince Albert.

Reg: No. 2,089, Corporal Lee died at Whitewood of typhoid fever, and was buried there.

Reg: No. 2,348, Constable McLean was attacked with pneumonia while on detachment at Athabasca Landing and was attended by the police surgeon from Saskatchewan until his convalescence, a relapse set in, however, and he died, and was interred at the landing, as it was impossible to bring his remains to the settlement at the time.

Reg: No. 948, Constable Lea died at Prince Albert of a complication of diseases, and was buried there.

Reg: No. 2,337, Constable Prior was taken ill with inflammation of the bowels, at Muskeg Lake, and, although he received every possible attentions he succumbed on the 6th November, and was, at his own request, buried there.

North-west Mounted Police.

The following are the alterations in the strength of the force by General Orders, from 30th November, 1892, to 1st December, 1893 :—

MEN.

Engaged	136
Re-engaged without actually leaving	125
do after having actually left	22
Rejoined from desertion	3
Discharged by purchase	37
do as invalids	8
do time expired	66
Deserted	16
Dismissed	26
Died	4

HORSES.

Remounts	61
Cast and sold	80
Died	21
Destroyed	9

I have the honour to be, sir,
Your obedient servant,

L. W. HERCHMER,
Commissioner.

APPENDIX A.

ANNUAL REPORT OF SUPERINTENDENT SÈVÈRE GAGNON,
COMMANDING DEPOT DIVISION, 1893.

REGINA, 20th December, 1893.

SIR,—I have the honour to forward my annual report for the year ended 30th November last.

As in former years no police duties have been performed under the supervision of the officer commanding Depot division. When required for fire patrols, execution of warrants, special patrols, &c., &c., officers, constables and horses were detailed from this division and performed such duties under the supervision of the officer commanding "B" division, who is in charge of the Regina District. Quite a number of constables and horses of Depot division were occupied during the whole year in performing these duties.

Recruits drill under the acting adjutant, Inspector Belcher, and a staff of instructors have been kept up daily during the year. Lectures on police duties and management of horses have been given once a week.

The discipline in the post has been kept rigidly and the conduct of the men has been generally very good.

The health of the men has been fairly good, no casualty has occurred during the year.

As in former years a rifle club was formed with good results; the exercises of the club were concluded by a general match when valuable prizes were competed for.

In October last a party of three officers and 62 non-com. officers and constables with 65 horses went for 15 days into camp at Fort Qu'Appelle, for drill and practice of duties in the field. This outing was not as successful as former ones on account of stormy weather and close proximity to a town. I would respectfully beg leave to recommend that in future the camp be held earlier in the season and located some distance from large villages.

The saddlery and harness in use are in good repair and the transport in fair order. The remounts purchased during the year have been found well adapted for the service.

The strength of the division on the 30th November last was as follows:—

Officers	11
Non-commissioned officers and constables.....	181
Special constables.....	9
Interpreter and guide.....	1
Horses.....	95

The alterations in the division during the year have been as follows:—

Gain.

	Officers.	N.C.O. and Constables.	Specials.
Engaged or joined.....	1	133	11
Re-engaged.....	..	13	..
By transfer.....	4	35	..
From desertion.....	..	3	..

Thirteen non-commissioned officers and constables re-engaged without actually leaving the force.

North-west Mounted Police.

Loss.

	Officers.	N.C.O. and Constables.	Specials.
Transferred	6	111	1
Discharged—			
By expiration of term.....		4	7
By purchase.....		10	..
By invaliding.....		6	..
Dismissed.....		7	1
Deserted.....		2	.
Superannuated.....	1

HORSES.

Gain.

By purchase.....		11
By transfer.....		19

Loss.

By transfer.....		24
Cast and sold.....		13
Dead.....		1

I beg leave to attach a statement of cases tried during the year.

I have the honour to be, sir,

Your obedient servant,

SEV. GAGNON,

Superintendent Commanding Depot Division.

The Commissioner,
North-west Mounted Police,
Regina.

APPENDIX B.

ANNUAL REPORT OF SUPERINTENDENT S. B. STEELE, COMMANDING
MACLEOD DISTRICT, 1893.

DISTRICT OFFICE, NORTH-WEST MOUNTED POLICE,
FORT MACLEOD, N.W.T., 30th November, 1893.

SIR,—I have the honour to submit this, my report, for the year ended 30th November, 1893.

I also enclose the reports of Assistant Surgeon Ayles, and Assistant Veterinary Surgeon Wroughton.

During the past season everything has gone on with almost monotonous regularity. There has been a slight increase in crime, as will be noticed from the enclosed classification, which shows a total of 190, against 135 of 1892.

A number of settlers have come in and located during the past year, especially in the southern section of the district.

The Mormon settlement at "Cardston" on Lees Creek, has increased greatly both in numbers and prosperity.

I am glad to be in a position to report favourably on the behaviour of both Bloods and Peigan Indians.

This year the Bloods held a sun dance as usual, but the Peigans did not do so.

From personal observation, and careful inquiry, I am convinced that the festival has almost entirely ceased to have any significance, except perhaps to the old people, last year very little interest was taken in the event, no braves were made, and many of the Indians themselves, did not even take the trouble to attend.

It gives me pleasure to add that a perfect accord exists between the Indian Department, as represented by their agents, and the police.

The United States Indian Department, through Captain Cooke, their agent on the Blackfeet reservation, and his predecessor, Major Steell, have rendered us great service, in assisting in the apprehension of criminals, recovery of stolen stock, etc., and I am only too glad to perform any service for them.

Indians.

Reports from the various patrols and outposts are to the effect that the Indians as a general rule, are quiet and well behaved.

The chief complaints that have been made against them are for entering houses situated on the route between the reservations and the timber.

Parties of Indians go out to cut timber, without any white person being in charge of them, and a few bad cases, who hang around the camp but will not work, often enter houses, during the temporary absence of the owner, and help themselves to clothing, provisions, etc. The same individuals work well during the haying season, when they are under the orders and supervision of their farm instructor, and I think that clearly shows that all that is required to prevent crime of the nature I have mentioned, is that Indians be prevented from roaming at will throughout the country, and that all parties who visit their timber limit, be accompanied by, and under the charge of a responsible head, a white man if possible.

On the 31st of May last, three Blood Indians were proceeding from their reservation to the Foot Hills for the purpose of cutting timber. They entered the ranch of one Cox and demanded food from Mrs. Cox, who as it happened was alone in the house at the time. Mrs. Cox gave them bread, and they asked for butter also; this Mrs. Cox

North-west Mounted Police.

declined to give them, and the Indians then proceeded to search the house for some. They then proceeded to the next ranche, which was only a short distance further on, and finding that the owner was absent, entered the house and stole a quantity of provisions therefrom.

If Indians will act in such a manner, when they know that they are not permitted to roam about, the result, should they think that the police have not the power to order them to return to their respective reservations, and to insist upon their doing so, may be better imagined than described.

In addition to this I would point out that the Indians are not ill-treated nor interfered with unnecessarily by the police, but they are not permitted to loiter about town, nor to wander aimlessly about.

As you are of course aware, many of the ranchers in this country are obliged to leave home for days and often weeks at a time, for the purpose of cutting hay, looking for lost stock, etc. Upon such occasions they leave their families unprotected, and the Indians are only too quick to take advantage of the absence of the male portion of the population to steal and commit other acts in violation of the laws.

During the past season several small bands of Blackfeet have been found by our patrols travelling through the Porcupine Hills, without passes, and have been sent back to their reservations. In order to prevent theft by similar parties I ordered out two flying patrols and kept them constantly moving, one in the vicinity of the timber and through the Foot Hills, the other through the Porcupine Hills.

In the month of April last a report was spread throughout the southern portion of the district to the effect that there was danger of an Indian outbreak, the settlers were very much alarmed, and many of them applied to the non-commissioned officers in charge of the detachments for arms and ammunition. It seems that the rumour originated in the vicinity of Boundary Creek, and was added to as it spread. As soon as I heard it, I ordered our men to inform the settlers that it was without foundation, and also if possible to trace the origin of the same.

In June last I received a letter from the United States Indian Agent at Fort Belknap, requesting permission for a party of nine Indians, under one of their Indian scouts, to visit the Bloods. The commissioner of Indian Affairs was then visiting the "Blood" agency and I referred the matter to him.

During the same month a settler named Moir was interfered with by Indians, who prevented him from hauling logs from the left bank of the Belly River. Upon his reporting the fact to our men stationed at Big Bend the non-commissioned officer in charge proceeded to the timber camp, called the Indians together and explained to them that Moir had a right to take the logs in question. He also told them that they would be arrested should they interfere again.

Trouble of that description could be avoided if a responsible person were sent to the timber camp to see that only *bona fide* workers remained there, and that the camp was not made a rendezvous for some of the worst Indians.

During the summer a complaint was made by the manager of the Cochrane Ranch, that "Bloods" had been cutting wood and destroying the timber in the river "botoms," I notified the authorities at the "Blood" agency and gave orders to our patrols to proceed against any Indian they might find doing so, I also sent out a special patrol from Kootenai, for the purpose of ascertaining whether Indians had been cutting wood as reported, they, however, stated on their return, that they had not seen any Indians or trace of them.

The Indian Treaty money was sent as usual to the agents under police escort, Inspector Olivier had charge of that for the "Bloods" and Corporal Neary of "D" division, had charge of the escort going to the "Piegiens." The escorts remained on the reservations until all payments had been made, there was no trouble or bother of any kind.

The Indian "Medicine White Horse," who was on the 13th May, 1891, sentenced by the Hon. Mr. Justice Macleod, to two years' penitentiary for cattle killing, and who escaped from our guard room (on the 3rd June, 1891) where he had been confined,

pending his removal to Stony Mountain, surrendered himself, on the first of November instant, he has since been sentenced to four months' additional imprisonment, and has been removed to the penitentiary.

The Indians employed as scouts and herders in "D" and "H" divisions, have performed their duties satisfactorily.

Under this heading, I may add that the United States Indian agent on the Black-foot reservation has ordered all Indians from this side to return north, unless protected by passes—by doing so he had rendered us great assistance. Three who were fugitives from justice and were in hiding on that reservation have since been brought to justice, their names are "Medicine White Horse," "Crop Eared Wolf" and "Black Rabbit."

CRIME.

There has been a slight increase in magisterial cases during the past season, the annexed classification will give an idea of the number of cases disposed of.

In January last a Blood Indian named "Little Bear" was charged with horse stealing, and was on the 18th of that month sentenced to two years penitentiary by the Hon. Mr. Justice Macleod.

I may also mention an altercation which took place in January, in the Macleod hotel, between C. E. Denny and James Grant, which ended in the parties concerned coming to blows, and the result was that the former was severely cut about the head and face, so much so, as to necessitate his being admitted to Police Hospital, there being no suitable place besides that, to which he could be taken.

A warrant was issued for the apprehension of Grant, but he succeeded in getting out of the country, before it could be executed, subsequently Grant returned and gave himself up, he was taken before the Supreme Court and the charge against him was dismissed.

In the month of February three "Piegons" named "Old Tooth," "Painted Back" and "Night Chief," broke into the store-house on the Piegan Indian reservation, and stole therefrom about 300 lbs. of beef and offal.

The acting agent, Mr. H. H. Nash, called upon the several chiefs to deliver the guilty parties to justice, but as they failed to do so, he stopped the issue of rations, and the result of that move was that the three Indians mentioned above surrendered themselves. They were sentenced to twelve months imprisonment with hard labour.

The sequel to this was that Mr. Nash was attacked by two Indians who attempted to murder him, on the night on 5th March, at about ten o'clock, he heard a noise outside of his house near the stable, he went out to ascertain the cause, and was set upon by two Indians, who had been hiding behind the fence of the corral. One of them who was armed with a revolver, fired at close quarters, fortunately for Mr. Nash, he managed to strike the weapon with his hand, throwing the muzzle up, but the bullet cut away a portion of one of his fingers. The other Indian who was armed with a large knife, stabbed Mr. Nash in the face, inflicting a large wound.

As soon as particulars of the case reached me, I sent Inspector Sanders, with ten men to the reservation, but I regret to say that they did not succeed in finding the culprits.

The chiefs have promised us their assistance in the matter, several Indians have been arrested on suspicion, but there was not sufficient evidence against any of them to warrant a commitment.

On the 21st of March, two Blood Indians, named "Red Paint" and "Crazy Crow" were committed for trial, on a charge of cattle killing. They were subsequently sentenced to two years in the penitentiary. The former has since been released on account of illness. Some years ago the same Indian was sentenced to one year's imprisonment for a similar offence, and was afterwards released on account of illness. He now enjoys excellent health. The inference is that he counterfeited sickness, in order to escape serving out his sentence.

In May last a party consisting of Reg. No. 1564, Constable Harper, Interpreter DesRoche, and Indian scout "Big Otter" were sent out from Stand Off Detach-

North-west Mounted Police.

ment to arrest an Indian named "Black Rabbit," who was suspected of having broken into a house situated on the Saint Mary's River, and of having stolen clothing, &c., therefrom.

Constable Harper, who was riding ahead of the others, noticed two mounted Indians coming towards him, who, as soon as they saw the constable, turned and rode away at a gallop, our men gave chase.

The chase continued for about a mile and a half, when the river bank was reached, the Indians being some distance ahead succeeded in crossing, and on reaching the opposite shore went into the brush, dismounted, and one of them who afterwards turned out to be "Black Rabbit," drew his rifle and took deliberate aim at Constable Harper, who had in the meantime reached the centre of the ford.

Constable Harper halted where he was, to await the arrival of his comrades, and the Indians remounted and rode off before the arrival of the interpreter and scout.

"Black Rabbit" succeeded in reaching the boundary line, and later on was ordered off the United States Blackfeet reservation by the Indian agent, he then returned to Canada and was arrested.

During the past summer many cases of horse stealing have been reported, and I may say that upon inquiry, in nine cases out of ten, it was found that stock had only strayed, and had not been "run off."

As a matter of fact, during the month of July, I received from different settlers, descriptions of thirty-three head of horses, which the owners, at the time they were missed, insisted upon saying had been stolen. Twenty-nine head were recovered by our patrols during the following ten days, and the remainder were recovered later on, proving conclusively that instead of taking a little trouble and looking for their stock, when it is first missed, owners are too apt to jump at conclusions and circulate reports that horse thieves are on the move throughout the district.

A charge of cattle killing was brought against Reg. No. 2458, Constable Glave of "D" Division, during the past summer, the evidence went to show that the constable who had been on patrol from Stand Off to Kipp, on the day in question was riding a "remount," the animal took fright and "bolted" with him, running into a bunch of range cattle. Glave being alarmed lest the cattle should attack him, fired a few shots from his revolver to drive them away, with the unfortunate result of killing a steer, the property of Thomas Holt a rancher of that vicinity. The killing was without doubt accidental, therefore the charge was dismissed.

During the month of August last, a Blood Indian named "The Dog," who was at that time employed as a scout in "D" Division, was committed for trial, and afterwards sentenced to two years imprisonment, in the penitentiary, for doing grievous bodily harm to Reg. No. 2338, Constable Currie, under the following circumstances: On the night in question the Indian, who was stationed at St. Mary's, entered the detachment quarters, at that place, and was told to leave the building by Constable Currie, who was in temporary charge, owing to the absence of Sergeant Cotter, the Indian refused to leave, and Currie attempted to forcibly eject him, whereupon the Indian drew his knife and inflicted several wounds on Currie's head, neck and face.

On the night of the 11th August, some person, as yet unknown, fired a shot into the house on the Walrond Ranche, which at that time was occupied by Lady Adele Cochrane, Lady G. Rouse and Dr. McEachran. The shot was fired through one of the windows, and the bullet, which has been found, and is now in our possession, is very much flattened, having gone through the partition of one room, and hit the wall of the building in several places, so much so, as to render it quite impossible to tell positively to what particular arm it belonged. It is thought, however, that a Winchester carbine was used. Fortunately no person was hurt, but up to the present all efforts to discover the perpetrator have been unavailing.

On the 10th November about eight o'clock, a lad employed by Mr. D. J. Campbell, the postmaster at this point, informed our town patrol that the post office had been broken into and the mail ransacked. The post office is in the front portion of a building on the main street, the back half of which is occupied by the Hudson Bay Company; a partition separates the two portions. It was found that the building had been entered

through the front window, a box containing the registered mail matter had been broken and the letters abstracted, those containing cheques or post office orders, being thrown to one side, while the thieves appropriated to their own use any letters that contained cash. Up to the present no clue has been obtained, one arrest was made on suspicion, but the prisoner was released as there was no evidence against him.

The above are the most important cases that have been brought to my notice during the year.

SCHEDULE of Cases tried at Macleod, 1893.

Offence.	Whites.	Indians.	Total.
Fighting in the streets.....	10		10
Swearing do.....	3		3
Insane.....	1		1
Cruelty to animals.....	3		3

North-west Mounted Police.

PATROLS AND OUTPOSTS.

The undermentioned detachments were supplied from this post during the past season:—

Name.	Officers.	Staff Sergeants.	Sergeants.	Corporals.	Constables.	Scouts (Indian).	Horses.	Ponies.
Stand Off.....	1	1				6		1
St. Mary's.....			1		5		6	2
Boundary Creek.....				1	2		3	1
Lee's Creek.....				1	1		2	
Milk River.....				1	2		3	1
Big Bend.....				1	2		3	
Kootenai.....				1	2		3	1
Pincher Creek.....	1		1		6		10	
Porcupine Hills.....			1		2		3	1
Quarantine Ground.....	1					6	2	
Leavings.....				1	2		3	1
Mosquito Creek.....				1	2		3	
Piegan Agency.....				1	1		1	
Kipp.....				1	2		3	
Herd.....			1		2			
Town of Macleod.....				1	2			
Flying Patrol, South Foot Hills.....				1	1	1	2	1
do North Porcupine Hills.....			1		2		4	1
	3	1	5	10	40	13	58	10

The settlers generally have given our men unanimous praise for the strict, yet courteous, manner in which they have performed this duty.

The regular summer system of patrolling was renewed early in the spring, and kept up until November, when winter arrangements were made.

The patrols during the past season were so arranged that the whole district was patrolled thoroughly each week, and the Indian reservations and small settlements, and isolated ranches visited.

The following arrangements have been made, with your approval, for patrolling and inspecting the district during the winter, viz.:—

Inspector Hopkins will be stationed at St. Mary's, and will have charge of and inspect that detachment, together with those at Lee's Creek, Boundary Creek, and the quarantine ground.

Inspector Jarvis to be stationed at Stand Off, and also to inspect "Kipp."

Inspector Cuthbert to be stationed at Pincher Creek and to have charge of Porcupine Hills, Piegan, Big Bend and Kootenai detachments.

The Leavings and Mosquito Creek outposts will be inspected by an officer sent from district headquarters for that purpose when required.

The Flying Patrol that has been patrolling through the Porcupine Hills has been stationed at the Piegan Agency for the winter, and will continue to patrol through the hills as much as possible during the same.

"Stand Off" Detachment will connect each week with Kipp, and also with "K" Division outpost, on the St. Mary's River.

The St. Mary's Detachment of "D" Division will connect with "K" Division in Milk River Ridge as often as practicable. This patrol will go *via* the "quarantine" ground, and will see that Bennett's stock remain in quarantine the full period required by law, and that the Custom's Regulations are being carried out.

The detachment at Kipp will connect each week with "K" Division, at Lethbridge, and a weekly patrol will be sent from St. Mary's to Stand Off, *via* Lee's Creek.

All the other patrols will be performed the same as during the summer, except that in the winter all patrols will consist of at least two men, unless it is a case of the greatest possible emergency, or when there is no possible chance of a man being caught in a blizzard.

This rule has always applied, and I would prefer keeping a patrol in rather than send one man out alone.

ASSISTANCE TO THE INDIAN DEPARTMENT.

The treaty money for both Bloods and Piegans was as usual sent to the respective agents under police escort. Inspector Olivier being in charge of the former, and Corporal Neary, in charge of the latter.

The escorts remained on the reservations during the payments, to preserve order. Everything passed off quietly.

Transport was also placed at the disposal of the Commissioner of Indian Affairs, during his recent visit of inspection.

ASSISTANCE TO DEPARTMENT OF CUSTOMS.

The members of the force stationed along the international boundary line, have taken a description of all stock brought in from the United States. Transport has been frequently placed at the disposal of Captain Young, inspector of customs, upon the occasions of his visits to this district.

ASSISTANCE TO DEPARTMENT OF INTERIOR.

Upon two occasions transport has been placed at the disposal of agricultural delegates who visited this section of the territory.

The first of these were a party of Germans, who arrived in April, and who, I was informed, represented some several hundred families, and had been commissioned to examine and report upon the North-west, with a view to settlement therein. These gentlemen visited Kootenai, Big Bend, Pincher Creek, and Stand Off.

They expressed themselves well pleased with the richness of the soil, and its adaptability for agricultural purposes, particularly in the vicinity of Big Bend.

In September a party of British delegates visited this district for the same purpose. This party, ten in number, visited Stand Off, Lee's Creek, and other points.

They returned to Calgary by trail, in order to be in a position to form an opinion of the country between Macleod and that point.

VISIT OF THE MINISTER OF RAILWAYS AND CANALS.

In May last, I received information to the effect that the Hon. the Minister of Railways, would shortly visit this district, and that he desired to visit the Crow's Nest Pass. I sent Inspector White-Fraser to inspect the fords. He reported that he had crossed at "Armstrongs" by boat. Swimming his horse, he then went to "Beaver Dam," crossing on the Middle Fork, which he found could not be forded. He next inspected "Lees," "Clarks" and the Falls crossings, all of which were too high to ford.

Indians who had just returned from the pass, reported that the snow on the summit was twelve feet deep. The Minister of Railways was therefore compelled to abandon his proposed trip, but he visited Pincher Creek and other points in the vicinity.

VISIT OF THE PRESIDENT OF THE PRIVY COUNCIL.

The Hon. W. B. Ives and party, accompanied by the Comptroller and yourself, arrived here on the 16th September from Calgary. He inspected the barracks at 10.30 a.m. on the 19th September, and was present at a foot parade, in review order, at 3 p.m., and also at a mounted parade at 4.30 p.m. on that day.

North-west Mounted Police.

DISCIPLINE AND CONDUCT.

The conduct of the majority of the command had been satisfactory.

In a few cases the facility for obtaining strong drink has caused some men to get into trouble, and it is with regret that I have to add, that for some unknown cause, drunkenness has increased within the last two months.

Four constables are now in the guard-room undergoing sentences of imprisonment with hard labour, who have also been sentenced to dismissal from the force, at the expiration of their term of imprisonment.

This I trust will have a salutary effect upon the command generally, and by recommending for dismissal from the force all those whom I believe to be chronic drunkards, I hope to be able to eliminate the obnoxious element.

“LATTER DAY SAINTS,” OR MORMONS.

I have very little to add to my report of last year on this subject, I may say, however, that a number of new buildings have been erected in the village of Cardston, and quite a number of settlers have come in during the season.

Last year was bad for farmers, the settlers generally have only been able to raise what is sufficient for their own needs.

Their cheese factory has been very successful, and so have their saw and grist-mill.

During the year twenty-one new settlers, with families, have arrived from Idaho and Washington, many of them did not bring in any stock.

I am given to understand that the increase in stock owned by the Latter Day Saints, notwithstanding the severity of the weather, was 40 per cent.

Three hundred acres of land was broken this season, in addition to what had already been cultivated, making a total of 1,800 acres now under cultivation.

These settlers appear to be devoting more of their attention to stock raising than to farming, as they find the seasons too dry to repay them for the trouble of raising grain.

They report their grain yield as follows :—

Wheat, twenty, and oats twenty-five bushels to the acre.

The quantity of grain threshed was

Wheat and rye.....	4,229 bushels.
Oats	10,334 do

Hay has been very scarce, but I am told that each settler will average twenty tons. They report their root crop as fair. Their potatoes were rather light, owing to the dry weather in July and August, but sufficient have been raised for their own needs.

The grist-mill, which was formerly run by steam, is now worked by water power, the mill-race put in this summer cost two thousand dollars, its capacity is one hundred and eighty bushels per diem.

The cheese factory has been running all summer, and has turned out 35,000 pounds of cheese. The chief shipments of this article are made to Victoria, B.C., but much is disposed of locally.

Since my last report twenty buildings have been erected, including a large “Tithing” House and a general store.

The output of the saw-mill has been 216,000 feet of lumber, and 100,000 shingles, both of which are in good demand by settlers residing on the St. Mary’s River, Snake Creek, and in Cardston.

The average attendance at the day school is sixty and at Sunday school one hundred and fourteen.

The total population of Cardston at present is six hundred and fifty-six.

I may add that the opinion I have formed of these people, is certainly favourable, and I willingly give them credit for being enterprising, thrifty, industrious and orderly.

They do not obtrude their opinions, are anxious to obey the law, and put themselves in harmony with their surroundings.

They are not rich, many of them, when they enter the country have little besides the usual settlers' effects, but notwithstanding this they have succeeded in improving their farms to a great extent and become in a very short time comfortably off.

SADDLERY AND HARNESS.

The saddlery and harness of "D" and "H" Divisions is in good order, and complete with the exception of a few straps required for the artillery harness.

The brass mountings which have gradually replaced the iron mountings improve the appearance of the harness considerably.

DRILL AND TARGET PRACTICE.

During the past summer all men at district headquarters were thoroughly drilled, both mounted and dismounted, owing to scarcity of men I was unable to bring those on outpost duty into the post for drill, as formerly, but on the 18th of May orders were issued to the non-commissioned officers in charge of detachments to put their men through at least twice each week.

The non-commissioned officers were put through a course of sword exercise, and I am sorry to say that the constables were not put through a similar course, as in addition to its being excellent physical training it is, in my opinion, a drill in which all ranks should be proficient.

Target practice, both mounted and dismounted has taken place this autumn. As I have already mentioned the new range has four targets and there is no trouble in putting a squad of sixteen men through both carbine and revolver practice in one day.

The command was put through this year under Inspector Jarvis as musketry instructor, assisted by Sergeant Major Barker of "H" Division.

With regard to target practice, I may say that it cannot be expected in any case, that the annual course, of a limited number of rounds per man, will make a marksman; possibly if a free issue of ammunition were made it would encourage men to give more attention to this important matter.

Inspector Jarvis has not made any complaint about the ammunition used this year.

On this subject I may say that I think if a recruit were obliged to fire five hundred rounds during the first year of his service, and the remaining years fire the quantity now permitted, the public would be well repaid by his efficiency as a marksman.

Experience has proved that to become a marksman one must fire a great many rounds at the outset, so that all that is learnt may be firmly fixed on the mind, and the handling of the rifle become second nature.

An annual practice in which but a small number of rounds is fired has very little effect.

PROVISIONS AND GENERAL STORES.

The provisions have been supplied by the Hudson's Bay Company, under contract, they have been of good quality and have given satisfaction.

The quality of beef supplied has been uniformly good.

During the fall and winter the potatoes were purchased locally: in the spring a supply was received from Calgary.

The supply for the present winter has been received from Edmonton.

As a rule the stores received have compared favourably with the sealed patterns, and in the few cases where there was any deviation from the standards suitable articles were at once substituted by the contractors.

The supply of stationery received from Regina has been sufficient for the use of the post.

HAY AND FORAGE.

Owing to the destructive prairie fire by which the greater portion of the hay was destroyed in this district, several individuals who had police contracts have been unable

North-west Mounted Police.

to fulfil them, several have in fact forfeited their deposits, and in order to secure sufficient hay to carry us through the winter I have been obliged, with your approval, to purchase baled hay, charging the difference in price to the contractor.

The difficulty in procuring good hay at a reasonable figure is increasing, many settlers are coming in, and their herds are increasing so fast that it will be well nigh impossible in a few years to obtain what we require, unless the farmers and ranchers enclose land, and irrigate, for the purpose of raising hay.

If good baled hay can be procured along the C. and E. Railway, at a favourable price, I would suggest that the whole quantity required for use at this post be purchased there.

The detachments can, of course, be supplied in their own neighbourhood, the quantity being small.

The oats during the past season, which have been supplied by local contractors, have been of fair quality.

ARMS AND ACCOUTREMENTS.

The arms and accoutrements of both "D" and "H" divisions are in good order, they are thoroughly inspected frequently, and all that require the services of an armorer are sent to Regina for that purpose.

Both divisions are complete in cartridge belts, holsters, bandoliers and carbine buckets.

I have nothing to add to my remarks of preceding years on the subject of the Winchester carbine, it is, as I have said before, an inferior weapon, and the sighting is incorrect.

Any body of men armed with the Martini, or even the Snider, would be more formidable than a similar party relying on the Winchester.

Our artillery branch consists of two 9-pr. M. L. R. guns and two bronze mortars which are in a serviceable condition.

The carriages and limbers have been repainted during the past summer.

The ammunition will be thoroughly inspected before being moved into the new magazine, which is to be built next spring; I may say, however, that it is in good condition.

Permanent detachments have been detailed under Inspector Sanders, who is well qualified in the artillery branch, which consists of one non-commissioned officer, eight gunners and three drivers from each division. In order to avoid constant change in the gun detachments I have detailed the two mentioned from the "staff."

The general equipment is good.

SAVINGS BANK DEPOSITS.

The rules governing the Savings Bank deposits having been changed, and the men taking advantage of the new system, are not depositing with the department as formerly.

The old system was a great convenience in the early days of the force, and we are certainly under a great obligation to the gentlemen of the department who undertook that work, in addition to their other duties. The new system is that:—

"A depositor in any Savings Bank Post Office may now continue his deposits, at any other such office, without notice or change of pass-book, and can withdraw money from any savings bank office which is most convenient to him."

The deposits during the past year have amounted to:—

"D" division.....	\$ 1,213 00
"H" division.....	1,124 80
	<hr/>
	\$2,337 80

PHYSIQUE.

The average of the command is:—

Age	26 years 6 months.
Height	5 feet 9·5 inches.
Chest measurement	over 36 inches.

They are in prime of life, strong, active and healthy, fit for any duty that they may be called upon to perform.

HEALTH.

The health of the command has been satisfactory during the past year; I beg to refer you to the inclosed report from Assistant Surgeon Ayles for further and more full information on the subject.

BARRACK FURNITURE.

The barrack furniture at district headquarters and outposts, and which has been made by the carpenters of the force, is in serviceable condition.

The iron bedcots, which I understand are to be supplied, will add very much to the comfort of the men, and the appearance of the barrack rooms.

GARDEN.

The police garden at this post, like all others in the district, suffered very much from the drought. We succeeded, however, in saving 4,786 lbs. of potatoes, 2,898 lbs. of turnips, 630 lbs. of beets, 360 lbs. of carrots, 63 lbs. of celery, 60 lbs. of parsnips, 58 lbs. of citron, 180 lbs. of cabbage, 214 lbs. of tomatoes. I will irrigate a part of it next spring, if possible. During the past summer we broke up more land which is better for irrigating, fenced it in, using the same wire that had formerly been on the small garden, and was not required.

DESERTIONS.

There were four desertions from "D" and three from "H" division during the year, viz. :—

Reg. No. 2675	Constable Clarke.
do do 2815	do Moore.
do do 2786	do Clarke.
do do 2519	do O'Connor.
of "D" division, and	
Reg. No. 1800	Constable Bainbridge.
do do 2834	do Truebig.
do do 2869	do Oke.
of "H" division—	

The first three mentioned deserted from district headquarters on the night of the 19th of April, and proceeded to the "herd" camp, about five miles from here, where they broke into the stable and stole horses and saddles therefrom, they succeeded in making their escape.

The horses were recovered some days later from a rancher residing south of the line, to whom they had been handed over by the deserters.

Constable Clarke, J.A., has since surrendered himself to two justices of the peace, in and for the united counties of Stormont, Dundas and Glengarry, by whom he was fined \$100. This constable was quite unfitted for the force, being what is commonly known as a "sport."

Constable Clarke, W.H., was a slovenly and useless character.

North-west Mounted Police.

Constable Moore was very likely a deserter from the Imperial army.

Constable Bainbridge appeared to be a very good man, and his desertion caused much surprise. I believe that he was induced to go by a man named Sergeant, who was at one time in the force, and was at that time residing in Washington State, managing a minstrel show, and who knew that Bainbridge was a good musician.

Truebig was naturally a rolling stone, he did well here, but I believe induced Oke to desert.

O'Connor deserted from Lee's Creek on the 15th June, taking a horse and saddle with him. He was arrested on the Blackfeet Reservation, U.S. I sent Inspector Davidson to accompany the crown prosecutor, and to take the necessary steps to have him extradited, but as the prisoner offered to come back and surrender himself as a deserter, proceedings for his extradition on the charge of horse stealing were not carried on.

INSPECTIONS.

During the past year the district headquarters have been visited and inspected by the Hon. the President of the Privy Council, the Comptroller, yourself, and the assistant commissioner.

The detachments have recently been inspected by me, viz., in October, and prior to that date, I visited them as often as I could spare the time. They have been regularly inspected by the officers in charge, and by the officers commanding the divisions, from which they are detailed.

Assistant Surgeon Aylen inspects the post, with a view to its sanitary condition, each week.

The orderly officer inspects the barrack-rooms, messes, stables, hospital, artisans' shops and canteen, daily, and I personally inspect the same premises each week.

All parties and wagons are inspected on their arrival at and departure from the post, by both the orderly officer and assistant veterinary surgeon.

The saddlery and harness is inspected at least once a week by the officers commanding divisions.

The herd is visited and inspected by the orderly officer and the assistant veterinary surgeon on alternate days.

HORSES.

During the past year the assistant veterinary surgeon has been in veterinary charge of this station as well as that of Lethbridge. He has been unremitting in his attention to the onerous duties of his profession. I may add that no contagious or infectious disease of any kind exists amongst the horses of either "D" or "H" Divisions. During the season there were several cases of glanders amongst stock owned by civilians, but there has only been one case as far as police horses are concerned, viz., Reg. No. 694, which was destroyed in June last, that, and the death of horse Reg. No. 1441, which occurred while the animal was being driven from Lethbridge to Macleod, have been the only two casualties in "H" Division.

In "D" Division two accidents occurred which resulted in the death of both animals, viz., Reg. No. 1685, which had been turned out to graze, with a head collar on, at the St. Mary's detachment, and in some manner got its foot caught in it, thereby causing its death by strangulation; and the case of horse Reg. No. 1078 which had to be destroyed in consequence of having had one of its legs broken. Horse Reg. No. 1270, of "D" Division, died very suddenly on the 12th December from hemorrhage.

Fifteen remounts were purchased in June last for the use of the command, being posted to "D" Division, and to "H" Division.

The total mileage for the past year, as per inclosed returns, is as follows:—

	Miles.
"D" Division.....	182,992
"H" do	214,371
Total.....	<u>397,363</u>

Owing to the difficulty in obtaining hay, I have been obliged to send to the herd, thirty more horses than usual, thus leaving the distribution as follows:—

50 on detachment.
2 lost.
50 on herd.
56 at the post.
1 lost, not struck off.

Of the eleven ponies belonging to "D" Division' 1 is lost, 7 on detachment, 3 on herd.

FIRE PROTECTION.

Our fire protection is the same as last year, but as we have not sufficient hose to reach all parts of the barracks, I would request that 300 feet more be supplied. I would also suggest that screens of metal, such as are used in most encampments, be provided, so that in the event of a fire, the building in which it breaks out can be isolated by those means. I have fire drill once a week, we were not able to do much of it during the summer, I, however, satisfied myself that the men knew their duties and places.

The fire orders are hung up in the barrack-rooms, where the men can refer to them at any time.

TRANSPORT.

Our transport consists of: 7 platform spring wagons, 4, $\frac{1}{2}$ -spring or "Minchin," 17 heavy wagons, 7 double buckboards, 5 single buckboards, 1 cylinder water wagon, capacity 600 gallons, 2 heavy freight wagons with trails (for string teams), 4 bob sleighs, 1 jumper. Two platform spring wagons have been rebuilt during the past season, being furnished with new wheels, boxes and seats, all have been thoroughly repaired.

All the transport is in serviceable condition but owing to the large amount of work performed during the past season, it has required the constant attention of several mechanics to keep it in repair.

All repairs are made by our own artisans.

PRAIRIE FIRES.

There is no doubt that settlers, freighters and travellers on the prairie generally are growing more careful, the consequence is that fires are decreasing yearly.

During the month of August a prairie fire was discovered, about three miles east of the St. Mary's detachment, and had burnt four miles of country before it was extinguished. We have no clue as to who started it.

During the same month another fire was discovered between Mosquito Creek and the Leavings, it was extinguished by our men, and is supposed to have been accidentally started by some men employed by the railway company to burn fire breaks.

On the 30th August a report was made at barracks to the effect that a large fire was raging within a short distance of the town; all available men, and the civilians were turned out. It was then discovered that the fire was some fifteen miles away. It extinguished itself at the Kootenai Trail.

Early in the month of September a large fire was started at the Halifax Lakes by a party of Indians, who were camped there cutting hay. They had lighted a fire in order to cook their dinner, which through carelessness, escaped. This was by far the most disastrous that has occurred for some time past, by it one stack containing upwards of one hundred and fifteen tons, was destroyed, besides a number of small stacks that had been built in the vicinity by settlers. The whole of the grass in that section of the district was burnt. The men who had been granted contracts for the supply at district headquarters, had depended upon those stacks for their hay, and in consequence have been greatly delayed, in fact some have been compelled to forfeit their deposits.

The four Indians who started this fire were promptly arrested and were sentenced to a fine of \$100, or in default three months' imprisonment with hard labour. Their names are "Big Otter," "Indian Corral," "Dog Child's Son" and "Scabby Hungry."

North-west Mounted Police.

The former has paid his fine ; another fire took place in September in the Blood Indian Reserve, near Kipp, it was started by freighters, who were afterwards arrested at Lethbridge.

GAME.

Small game, such as prairie chicken, ducks, and geese, have been abundant during the past year. Big game is, however, getting scarce, and will, I fear, soon become totally extinct, if some measures are not taken to prevent the wholesale slaughter of sheep, goats, and deer, by the Stony Indians.

PRISON ACCOMMODATION.

With regard to this subject I may say that unless some other place is provided for female prisoners, I would suggest that five or six cells be added to the guard-room, so that males and females may be kept entirely separate. At present when females are placed in the guard-room, they have to be put in the same corridor with the men.

A bath-room with a farmer's boiler is also very much needed, because the prisoners are now obliged to wash themselves, and their clothing in their cells, and as we have no proper means of heating water in the guard-room, when warm water is required, it has to be procured from the division mess kitchen.

I have already sent you a plan and the estimate cost, for the proposed improvements, which will amount to \$683.00, *i.e.* \$525.00 for building eight more cells, and \$158.00 for a store-room and bath-room. I would also point out that with the proposed addition, I would be able to keep members of the force undergoing sentences of imprisonment separated from civilian prisoners, as you are well aware it is occasionally necessary to sentence refractory characters to various periods of imprisonment, but though this is necessary to maintain discipline, it is not a part of the punishment that the offender should have to be confined, live and eat, with felons and dissolute characters, or with murderers. For these reasons I would strongly urge that a separate building be provided to be used exclusively for prisoners who are also members of the force. I manage as much as possible to keep them apart, giving them separate tables for their meals, but would much prefer, having an entirely separate building.

THE CANTEEN.

On this subject I may say that the canteen has been a perfect success, profiting by experience, the management add to the stock every article for which there is a demand, and at present the members of the command can purchase any article of domestic use at a very small advance on cost.

At stated hours during the day and in the evening, the canteen is open for the sale of beer to members of the force. In the evening a little more latitude is allowed, and the members of the force often pass their time in singing. This privilege to a very great extent tends to keep men from going to town for amusement, and they thereby avoid the temptations apt to be met with, as in town the bar-room is the only place available for the purpose of spending a leisure hour.

The privilege of using the canteen for purposes of recreation is fully appreciated by the men, and it has not been abused in a single instance. This, of course, is due in a great extent to the tact used, and the discipline maintained by the sergeant in charge.

A bowling alley has been built, a piano purchased, and several sums have been expended for the benefit of the command.

A grant is made annually to the messes for their Christmas dinner.

It has been proposed to erect a larger and more convenient building, to be used as a canteen, the plan and estimate of which has already been submitted to you.

LIQUOR.

On this question I may say that there is much less liquor sold now than there was during the first year of the license ordinance ; and there is much less drunkenness amongst the public than when the permit system was in force.

HALF-BREEDS.

No complaints have been made during the past season against half-breeds.

As has already been reported to you, a number of families were camped along the line of C. & E. Railway during its construction. They were employed collecting buffalo bones, and piling them to one side, ready for shipment, having collected all the bones that could be found, they have left this neighbourhood.

PROPOSED TELEPHONE LINE BETWEEN LETHBRIDGE AND CARDSTON.

As it has been proposed to construct a telephone line between Lethbridge and the settlement at Cardston, I would suggest that our detachment at Stand Off be taken into the circuit. It would make very little difference in the cost of construction, and unless that outpost is included, the proposed line would not be of any use to us.

The line could be carried on from Stand Off to Cardston, and from there to the quarantine ground *via* our Saint Mary's detachment. If by any possibility a line could be made between Saint Mary's and Boundary Creek, it would be of the greatest convenience and service.

I might also point out that if a line were constructed between this post and Stand Off, it would save time, trouble and horseflesh, in connection with despatches.

TELEGRAPH LINES BETWEEN OLD AND NEW TOWNS.

It had been intended to connect the orderly-room, at barracks, by telephone, with the Canadian Pacific Railway station and telegraph office, in the "New Town," but as the company have constructed a telegraph line between the old and new towns that project has been abandoned.

OFFICERS.

During the past year I have received the hearty support of the officers. Superintendent Macdonell and Inspector Sanders have been in command of "H" and "D" divisions respectively. Inspector White-Fraser was until the 14th October in charge of Pincher Creek, Kootenai, Big Bend and Porcupine Hills, and Piegan detachments; on that date he was relieved and transferred to "E" division, being replaced by Inspector Cuthbert.

Until October last Inspector Morris was in charge of the quarantine ground, when he was transferred to "K" division, and was relieved by Inspector Hopkins.

Inspector Davidson was until September in charge of Stand Off, St. Mary's, Boundary Creek and Lees Creek detachments. During that month he was taken ill, and had to be brought into hospital. He has now sufficiently recovered to be able to perform all duties required of him in the post.

Since my last report Inspectors Casey, Olivier and Jarvis have joined this command, the former replacing Inspector Baker, as acting quartermaster.

Assistant Surgeon Ayles and Assistant Surgeon Wroughton are still in medical and veterinary charge respectively.

NON-COMMISSIONED OFFICERS.

The non-commissioned officers are a smart and intelligent body of men, and with few exceptions I cannot speak of them too highly.

The duties of sergeant major of this district have been well performed by Sergeant Major Spicer.

CLOTHING AND KIT.

The clothing and kit received this year has been of good quality, but the supply has not always been up to the demand. With regard to a suitable coat for winter wear, I may say that the buffalo coats now in use will not last much longer, and the calfskin coats used as a substitute are not in my opinion satisfactory as to quality. I would

North-west Mounted Police.

therefore suggest that a heavy cloth coat, of Canadian manufacture, well lined, and with a "capuchon" be given a trial. The coat would of course be cut to fit the figure according to regulation.

I may add that in my opinion a fur coat is not at all necessary, and during the number of years I have been in the country I have never used one on the plains. Neither the Hudson Bay Company employees or early settlers ever had such an article, but invariably used a cloth coat as described above, which if well made and properly lined, will give the wearer greater comfort and be much more convenient in every way than the calfskin coat now in use, besides being far less expensive and very durable.

QUARANTINE.

Early last spring a quarantine ground was established at the international boundary line between the north and south branches of Milk River, all stock brought in by intending settlers from "the States" being compelled to undergo ninety days' quarantine. Indians are engaged as herders under police supervision.

During the summer Inspector Morris was stationed at the quarantine ground, until he was transferred to "K" Division and replaced by Inspector Hopkins.

The first band of cattle arrived on the 1st June, and during the season twenty-eight heads of families came in, bringing 474 head of stock. The last herd arrived on the 27th of October and are being herded by the owner under police supervision.

One constable of the force will remain on the quarantine ground until the stock in question has been released according to law. I have also arranged to have the patrol between St. Mary's and "K" Division, on Milk River Ridge go *via* the quarantine, to see that the customs regulations are being carried out.

During the summer six head of cattle died while in quarantine from natural causes.

The herders during the summer built three substantial corrals and a branding chute.

The corrals are situated about a mile apart on the north branch of Milk River, the first being a mile north of the international boundary line. They are well and strongly built, and will last for years, the sides are five and a half feet high, and each corral will hold 200 head of stock without crowding. The material for a fourth is on the ground. The material for building them was purchased from Mr. C. O. Card, of Cardston, with the exception of that for the first, which was sent out from Porcupine Hills. That purchased from Mr. Card was cut in the mountains sixty-five miles from the quarantine ground. The logs were delivered by him at the St. Mary's River, rafted over, and hauled the remaining fifteen miles by our own men.

The distance from Macleod to the Quarantine Ground is sixty-five miles.

If it is intended to keep a detachment on the ground permanently I would strongly suggest building at this point, I have already submitted estimates to you as follows:—

Quarters similar to those at St. Mary's	\$642 00
Stables do do	237 00
Officers' quarters, separate	500 00

The expense incurred by the department in connection with the quarantine this year was \$1,371.20. Three hundred of which was for the material purchased to build the corrals—consisting of : 306 posts, 553 rails, 969 lbs. wire, 210 lbs. nails, 40 lbs. staples, and the remainder for wages and rations of the herders.

Next year the expense will not be nearly so great, as there will not be any corrals to build.

The quarantine is now practically closed the open season, as you are aware, being from the 1st April to 30th September.

Below is a schedule of the stock brought in last summer.

SCHEDULE of Stock entered at Quarantine Ground during 1893.

Date.	Owner.	From.	Bulls.	Cows.	Calves.	Heifers.	Steers.	Total.

SETTLERS.

In quoting the number of stock the large ranches are not included, this merely applies to homesteaders. Most of the settlers who have arrived during the past season have come in from Idaho, Washington and Utah.

Boundary Creek Section.

The only *bona fide* settlers who have taken up land in that section during the past year :—

Captain Hockin lately retired from the British army who has taken up land and built a house and stable, he intends to devote his attention to stock. Messrs. Jackson and Boledore have also taken up land and built houses.

With the exception of 63 head of stock imported last January by Mr. Olson, no stock has been brought in, and possibly the severity of last winter may have had the effect of deterring some families who had intended to come.

As has already been mentioned to you, two families, viz., Christie and Cook, returned to the States last August, in consequence of the cold last winter, and that fact may have given the country a bad name amongst their own people.

Milk River Section.

There are at present only a few settlers in that section, which applies to the North Fork of Milk River. Messrs. Howe and Aldrige are the largest stock owners, the former has 400 cattle and 30 horses, and the latter 25 cattle and 65 horses. These gentlemen do not farm, in fact, frost is too prevalent throughout Milk River Ridge to make farming at all profitable.

North-west Mounted Police.

Mr. Aldrige also works a local mine in the ridge, but on a small scale, the product is said to be good, and no doubt if the mine were more extensively worked a good market could be obtained for it.

This section is a good stock range, but frosts prevail during the summer, rendering it unfit for agricultural purposes.

Kipp Section.

There are nine families residing in this section who own 250 head of stock, and have 290 acres of land under cultivation.

Mosquito Creek Section.

In this section there are twelve families who are engaged chiefly in stock raising. They have only 157 acres of land under cultivation.

No settlers have come in during the year ; 1,376 head of beef were exported to England.

Saint Mary's Section.

Only two families have arrived in this section since my last report, they have built houses and broken twenty acres of land.

The majority of the settlers there are employed in stock raising, and do not devote much time to farming, except to the extent of planting small gardens. Some of them have used a water-wheel for the purpose of raising water from the river to water their gardens, with great success.

The "Brown Ranch" is the only large one in that section, it is situated on the Saint Mary's River, twelve miles from the detachment.

Kootenai Section.

The number of families in Kootenai Section number fifteen ; they own seven hundred and fifty-six head of stock exclusive of horses, of which there are four hundred and fifty-five head.

The average increase last year, in cattle, was 40 per cent, and in horses 35 per cent.

Big Bend.

In this section the population has increased more than any other in the district. Thirty settlers have arrived and located, some from Eastern Canada and some from the United States.

The manufacture of cheese and butter is largely carried on, and the settlers dispose of their commodities at Macleod, Lethbridge, and Pincher Creek.

A town site has been laid out on Fish Creek, about six miles from the police detachment, and a petition has been forwarded to the authorities, praying that a post office be established there.

There are now forty-six families in that section.

Pincher Creek.

The village of Pincher Creek now has a population of four hundred and forty, and the cattle in the section number 8,960.

During the year, 1,115 head have been exported for the English market.

The average increase has been 24 per cent. There are twenty-five hundred head of horses in that section.

Five families have located there since my last report, and several dwelling houses implement sheds and storehouses have been built.

Stand Off Section.

No settlers have located there since my last report. Those residing on "Slide out" bottom, have started an irrigation ditch, which, when finished, will water a large portion of it.

Porcupine Hills.

Only three settlers have located in that section during the past season. They have taken up land on the middle fork of the Old Man's River.

The Leavings.

There has not been any increase in the population of this section. Messrs. Leeds and Elliott contemplate running an irrigation ditch from Ghost Pound Creek through their land, and the Glengarry Rancho Co. have already started one from Trout Creek. Two post offices have been opened in this section during the past season, one at Leeds and Elliott's rancho, about six miles south of the detachment, and one in the Porcupine's, kept by C. A. Lyndon.

CROPS.

The crops generally, in this district, have been very poor, owing to the dry season.

Boundary Creek Section.

Mr. Firman, of Boundary Creek, was the only settler who put in a crop this year; his crop yielded fifty bushels of oats and seventy-five of barley to the acre.

That section of the district is good stock land, but owing to the proximity of the mountains the altitude is too great, causing summer frosts.

Kipp Section.

Crops in this section are spoken of as being good, especially oats and potatoes. Hay has been very scarce, many of the settlers having to go upwards of thirty miles for it.

Mosquito Creek Section.

Crop reports from this section are discouraging, with the single exception of oats, which are spoken of as being good.

Kootenai Section.

The crops in this section did not suffer from frost as much as in other sections. The quantity raised is:—604 bushels wheat, 7,615 bushels oats, 355 bushels barley, 755 bushels potatoes, 795 bushels garden roots.

Stand Off Section.

The crops in this section have not been up to the average, owing to the drought.

Leavings Section.

The yield in this section was:—15 bushels wheat, 12 bushels barley, and 125 bushels of potatoes to the acre.

Porcupine Hills Section.

The success of raising crops in the Porcupine Hills varies greatly, according to the locality. On Beaver Creek and in Olson's Coulee, grain has been comparatively light, due in all probability to the cold weather at the beginning of the season.

North-west Mounted Police.

When the warm weather set in growth was very rapid, the result being an abundance of straw but very little grain.

On the north fork of the Old Man's River the result was much more favourable, fair crops of all kinds having been harvested.

The unfavourable weather, and the fact of so much hay having been destroyed by prairie fire prevented settlers from securing more than was barely sufficient for their own use.

Big Bend Section.

Mr. Allan, who located in this section last summer, ran an irrigation ditch through his land, and has been repaid by the good crops resulting therefrom.

It is reported, however, that owing to the summer frosts the settlers do not intend to sow next season, but will devote their whole attention to stock.

Pincher Creek Section.

The crops in this section were very light, there was 1,422 acres of oats sown, which yielded 22 bushels to the acre, 175 acres of wheat averaged 12 bushels, and five acres of fall wheat sown by C. Kettles averaged 43 bushels, 169 acres of barley averaged 16 bushels.

Lee's Creek Section.

See latter day saints.

CATTLE.

Reports from the various detachments and outposts are to the effect that the cattle did not suffer, as much, last winter, as was at first thought. The "Chinooks" of January last enabled the stock to recover from the effect of the severe December weather. The stock suffered a good deal during the month of February, notwithstanding the fact that they sheltered as much as possible in the brush on the Creek and River bottoms.

Patrols during the summer informed me that hundreds of head of range cattle were grazing on the Indian reservations, and I may repeat, what has already been said, viz. if the owners could be induced to keep their stock upon their own leases, it would lessen the temptation for Indians to kill.

TRAILS, ROADS AND BRIDGES.

I would again urge that some action be taken with regard to the preservation of the main trails, throughout this district, which in many cases are being obstructed by fences, erected by ranchers. As you are aware the original trails were made by the early settlers, and are the most direct and convenient routes to certain important points, deep coulees, rivers and cut banks rendering road allowances out of the question in this country. During the past season an iron bridge has been built over the St. Mary's River near the mouth of Lee's Creek. The Government provided the material and the settlers subscribed five hundred and fifty dollars to defray the expenses in connection with freighting the iron from Lethbridge, and I am informed expended five hundred dollars more to complete the approach to it.

The bridge was completed this autumn, but I have just heard that it has given way, the eastern span broke in two and is now in the river, it is thought the accident was owing to the frost, and through the engineer not having allowed enough for contraction.

Two bridges have been erected over Pincher Creek, the sum of sixty dollars having been spent to put one over the creek near the village, and forty-five dollars, on one which crosses Indian Farm Creek, on the main trail between Macleod and the village of Pincher Creek.

The trails in Pincher Creek section have been very much improved during the year, over \$1,000 has been spent in the following manner :—

Trail from village to the Alberta Ranche and coal mine.....	\$350
Trail from village to German Settlement.....	150
do do Mountain Mill.....	250
do do French Flats.....	150
do do School House.....	150

Porcupine Hills Section.

The trails generally in that section are in good condition during the summer, but in winter there is not sufficient traffic to keep them well beaten, consequently where they lead through coulees they are impassable, on account of the snow drifts.

On the trail between Beaver Creek and Macleod repairs have been made where needed, and it is now in very good condition.

A good trail follows Beaver Creek in the hills to the Old Man's River, and another branching off leads direct to Pincher Creek.

The trails in Olsons Coulees are in very good condition.

Stand Off Section.

The trails in this section are in good condition. Last year a man named Mills fenced in a portion of the main trail leading from Stand Off to Macleod which at first caused a great deal of inconvenience to the public. Mills has since had gates placed so as to enable travellers to pass through.

The trails in the vicinity of the Pegan Indian Reservation are all in excellent condition.

St. Mary's Section.

The main trails in this section are the Sun River trail, upon which all traffic to and from Montana is done, and those to Lethbridge and Fort Macleod, all are in good condition.

Boundary Creek Section.

I cannot speak as favourably of the trails in this, as in other portions of the district, the soil, being very soft, is badly cut up in wet weather, the settlers have repaired and improved their trails as much as they could.

BUILDINGS, ETC.

During the past season the undermentioned work has been performed.

At District Headquarters.

Superintendent Steele's quarters.—New roof on kitchen, approach to back kitchen sided, two storm windows.

Officers Mess.—Dining-room floor painted, wood-work varnished, and ceiling kalsomined, wood-work in both ante-room and hall varnished.

Inspector Sander's quarters.—Cellar dug and lined, ceilings kalsomined, and wood-work painted, fence of yard painted.

Inspector Casey's quarters.—Cellar dug and lined, yard extended and fenced.

Sergeants mess, fence painted.

"D" Division Block.

Outside of whole block repainted, Nos. 1 and 2 rooms and mess-room wainscoted, oiled and varnished, wood-work painted, ceilings painted in the passages, in the wash and bath-rooms the wood-work has been painted, ceilings kalsomined, and two doors made for the passages.

North-west Mounted Police.

"H" Division Block.

Outside and roof repainted, No. 2 room and the mess-room wainscoted, oiled and varnished. Woodwork painted, ceilings kalsomined, two new doors were made for the passages.

Bowling Alley.

Completed. Bed laid, entire building painted outside.

Quartermaster Store.

New shelving and drawers for articles shown on Form 30, and portion of store partitioned off for painter material.

Saddle Room "D" Division.

Brick chimney built.

Log Stable.

That portion used for sick horses was whitewashed, and ceiled.

Transport Shed.

An extension of forty-five feet has been made at the east end.

Bake Shop.

A new oven and brick chimney has been built, it is giving great satisfaction.

Coal Shed.

Boarded on both sides, door hung, and fastenings fitted to make it secure, new approach to south end, and whitewashed outside.

Latrines.

Pits behind them boarded over, fences painted, inside of all whitewashed.

Miscellaneous Work.

"Squeezer" built at south side of blacksmith shop for branding horses.

Coal boxes with lids have been supplied for the several quarters, manure and clay boxes made for each stable.

A pasture field has been fenced in containing 368 acres of ground, 1,623 posts, and the same number of rails, were cut and hauled from the Porcupine Hills by our own men.

The fence on the south side of the garden has been moved, increasing the area almost one half.

The fence around barracks has been overhauled and fifty new posts put in.

The brick for the new magazine is all on the ground, and the work of building will be started next spring.

I would have done the magazine this autumn, but could not manage it owing to the demands upon me elsewhere which kept me busy until the winter set in.

At the detachments the undermentioned work was performed:—The roof of the stable at Stand Off was painted, and a new roof, floor, and two doors have been made at Kootenai, also a new roof put on the kitchen, the porch sheeted and shingled, and the roof of the stable painted. At Pincher Creek a new roof was put on the stable, the roofs of all buildings were painted, and doors put on the saddle-room, a new floor was laid in the kitchen, the stable and porch shingled and coal sheds sheeted. Two doors were made for the detachment at the Porcupine Hills.

At Boundary Creek the inside of the building was papered, an oat box made, and new lids for the well.

At St. Mary's a new door was made and the kitchen repainted.

During the summer flag poles were cut in the Porcupines by our men and one placed at each detachment, with the exception of Milk River, at which point we have not any building, the detachment being under canvas in summer, is recalled in winter.

I would again suggest having the quarters occupied by the commanding officer, Superintendent Macdonell, and officers' mess, and also those at present occupied by Inspectors Sanders and Casey, sheeted outside and painted. The work can be performed for \$450. A great saving in fuel will be effected by so doing. I will forward an estimate for hot air furnaces for the officers' mess, Superintendent Macdonell's and commanding officer's quarters, by next mail.

I have the honour to be, sir,

Your obedient servant,

S. B. STEELE,

Supt. Commanding Macleod District.

North-west Mounted Police.

APPENDIX C.

ANNUAL REPORT OF SUPERINTENDENT A. B. PERRY, TOGETHER WITH THOSE OF SUPT. F. NORMAN AND INSPECTORS J. A. MCGIBBON, J. O. WILSON, C. CONSTANTINE AND W. H. ROUTLEDGE.

NORTH-WEST MOUNTED POLICE, "B" DIVISION,
REGINA, 15th December, 1893.

SIR,—I have the honour to submit my annual report for the current year ending 30th November, together with reports from the following officers commanding sub-districts :—

Superintendent F. Norman, Wood Mountain.
Inspector J. A. McGibbon, Saltcoats.
" J. O. Wilson, Estevan.
" C. Constantine, Moosomin.
" W. H. Routledge, Manitoba.

These reports enter minutely into the work which has been performed during the past year, and show how varied and multifarious are the duties which have been demanded of us.

At Wood Mountain our men are found acting as cowboys, rounding up and driving back across the boundary vast herds of wild American ranche cattle, which again and again wander northwards in search of better feed and more water. At Estevan and Gretna they are seen in charge of large herds of quarantined cattle, attending sick animals, milch cows, and at the expiration of their term in quarantine, driving them long distances by trail, loading on trains and conveying them to their different destinations; in Manitoba they are engaged in enforcing the customs laws, aiding the regular customs officials, whose duties they at times perform, and executing the Crown Timber and Dominion Lands regulations; and in addition to this work of a special nature, everywhere carrying out their regular duties of detecting crime, aiding the administration of justice, acting as prairie fire and game guardians, and maintaining a patrol system which covers weekly some 1,200 miles.

Such extended duties test the capacities of the force and their successful performance, illustrates the diversity of attainments in the personnel of the North-west Mounted Police.

The past year has not been a prosperous one.

The very severe weather last winter, and the scarcity of hay caused a heavy loss of cattle. Wood Mountain and Saltcoats districts suffered most, and a large number of animals also died along the Qu'Appelle valley. It was thought at one time that the deaths were due to disease, but it became a certainty that extreme cold and no hay accounted for the loss.

The crops were good along the Manitoba and North-western Railway, fair along the main line, except at Moose Jaw, where they were a partial failure, and in south-east Assiniboia they were a total failure.

The immigration has been small, and in the Saltcoats districts there has been much dissatisfaction with the non-extension of the Manitoba and North-western Railway. The settlers from Dakota, who were brought in a couple of years ago, were located 50 miles north-east of Yorkton, the present terminus of the railway. They had good crops this year.

Mr. McGibbon states that some fifteen families of Crofters have left of the original families settled near Saltcoats ; he mentions one case of extreme poverty amongst them which came under his personal notice.

There are causes for the loss of population in that district other than railway extension and poor crops. A considerable proportion of the settlers were assisted in taking up land by the Canada Settlers Loan and Mortgage Company. Chattel mortgages were taken as security for the advances made. Many have been unable to meet their engagements. Burdened with mortgages, without reserve capital, they could not tide over the difficulties caused by loss of cattle, failure of crops last year, and the low price of wheat this year, so they have gone under. A few foolishly disposed of their mortgaged property, which led to criminal proceedings, others abandoned everything and left.

At Hirsch, the Jewish colony near Estevan, we find the same difficulties produced by the same causes, assisted immigration, and emphasized by the class of people.

The troubles between the Society and the Jewish colonists in the early spring reached an acute stage. The complete failure in the crops have left these unfortunate people in an unhappy condition, and will entail renewed outlay by the Young Men's Hebrew Society.

The Pasqua branch of the Canadian Pacific Railway was completed and opened for traffic on the 25th September, 1893, giving a direct communication with St. Paul, and shortening the distance to eastern Canada. The construction of this road was carried on without any disturbance, except that the men employed were given to drinking a great deal at the nearest town they reached after quitting work. There were many cases where they spent the proceeds of their summer's work in a few days.

No disorder was permitted and the contrast as reported by Inspector Wilson at north and south Portal on the boundary, where the junction of the rails was made between the American and Canadian lines, is striking, and demonstrates the advantages of a strong constabulary force in a new country.

CRIME.

This district is free from lawlessness as distinguished from crime.

The law is enforced with a strong hand, and though crimes are committed which can only be ferreted out by trained detectives, the percentage of offenders going unpunished is very small.

We have not detachments in every small town or settlement, but every case reported to us, no matter how trivial, receives investigation, and I believe it is to this energy and perseverance, that the fortunate state of affairs in this district is due. Inspector Constantine whose duties lie in the most thickly settled parts, and who has in consequence more cases to deal with, has with the assistance of Staff Sergeant Fyffe and Sergeant Brown, most successfully executed the laws. With his long experience, energetic nature, a character of great determination and knowledge of criminal law he is invaluable to the force.

Comparing this year's record of crime with that of last year there is a perceptible increase especially in cases of theft. Hard times may account for this increase.

There has been one case of murder, and two of manslaughter.

The murdered man, an Italian, a knife-grinder, was tramping through the Territories eastward along the Canadian Pacific Railway, accompanied by two compatriots, itinerant musicians, named D'Egidio and Lucanio. They were last seen together near Grenfell, and some 12 days after the body of the murdered man was found concealed in the railway ditch, one and a half miles east of Grenfell. It was not immediately identified, so that for a little time no clue of the murderers was obtained, but when it was recognized as that of the knife-grinder, prompt steps were taken to locate his companions the musicians. They were arrested in Winnipeg by the city police, 2 days after the discovery of the crime, brought back to the Territories, and committed to stand their trial, which is fixed for the 22nd January, 1894.

The case for the Crown rests on circumstantial evidence alone and 50 witnesses have been summoned.

North-west Mounted Police.

One case of manslaughter was tried at Regina, before Mr. Justice Richardson, and a jury on the 12th instant. The defendant McDonald was convicted, and sentenced to five years, penitentiary. Wiedman, a German, was struck by McDonald on the side of the head with a shovel which fractured the skull; death ensued about four hours after. They were quarrelling with each other over a trivial matter, and some insulting words, used by Wiedman, caused McDonald in the heat of passion to strike him. McDonald is a young man of 20 years of age and of a respectable family.

The other case was Queen *vs.* Brown, tried before Mr. Justice Wetmore, without a jury, at Grenfell on 31st March. The prisoner was convicted, but sentence was reserved for the decision of the full court as to whether the following facts constituted manslaughter :—

White, the deceased, a youth, was employed by the defendant, a farmer near Grenfell, and compelled to sleep in a stable. During the severe weather of February last he was severely frost-bitten, and it was not until he was unable to move or attend to his personal wants that he was given a bed in the house. No medical attendance was secured, or particular attention given, and in a few days the unfortunate boy died.

The full court held that in a cold climate like the North-west Territories such negligence was criminal, and that Brown was rightly convicted of manslaughter. He was subsequently sentenced to 1 month's imprisonment.

I report this case as it has a practical and important bearing.

Several cases of neglect and cruelty to boys have occurred during the past years, and it is proper that it should be known that such cruelties will be dealt with as criminal offences. The wisdom and justice of the ruling of the Supreme Court in this case is not open to question.

The twenty-seven cases of theft have been of a petty nature and none have been accompanied with violence. The thieves are not confined to any particular nationality or class.

There are two cases of wounding with intent to do grievous bodily harm, both the result of feuds. In one case the offence was committed while under the influence of liquor, and rage caused by the taunts of foolish, and indiscreet persons.

Offences against property are the most common.

There were 254 cases entered during the year and 161 convictions obtained.

Below is a summary of the offences during the year classified as in the new Criminal Code.

CLASSIFIED summary of Crime in Headquarters District, 1892-93.

Nature of Offence.	Total Number of Cases Entered.	Total Number of Convictions.	Remarks.
Misleading justice, &c.--			
Perjury	2		
Obstructing a peace officer	2	2	
Offences against religion and morals, &c.--			
Neglecting to support family	1	1	
Gaming houses	2		Not tried.
Seduction of a girl under 16	1	1	
Vagrancy	13	12	7 last year.
Drunk and disorderly and creating a disturbance	39	37	
Offences against the person--			
Murders	1		Not tried.
Manslaughter	2	2	
Wounding with intent	2		
Assault	37	30	20 last year.
Offences against property--			
Horse-stealing	3	1	1 do
Theft	61	27	
Fraud	2	1	
Forgery	2		
Embezzlement	3		
False pretense	6		
House-breaking	2	1	
Arson	2		
Injuries to trees	1		
do cattle	2		
Cruelty to animals	2	1	
Offences against the Indian Act--			
Selling intoxicants to Indians	2	2	
Giving do	1	1	
Drunken Indian	1	1	
Offences under the North-west Ordinances--			
Prairie fire	20	14	
Refusing to turn out to fire	5	5	
Masters and servants	11	4	
Liquor ordinance	7	1	
Peddling without license	3	3	
Noxious weeds	4	4	
Infectious and contagious diseases	1		
Driving off horses from grazing grounds	1	1	
Insanity	10	9	6 last year.
Totals	254	161	

INDIANS.

The Indian population of the district has maintained its reputation for good behaviour, and obedience to the laws. There has been less wandering from the reserves than usual, and more work accomplished.

Only three Indians have been punished during the year, one a young lad for cattle killing (mentioned in last year's report), one for assault, and one for having intoxicating liquor in his possession.

There have been three convictions for selling or supplying liquor to Indians in the Territories, and three came under our notice in Turtle Mountain reserve, Manitoba.

There was some petty quarrelling amongst the Sioux Indians at Moose Jaw last winter. The majority of the camp moved last October to Willow Bunch, where they will winter. They live in their cotton tents summer and winter, and during the extreme weather of January and February, they must suffer a great deal. No attempt has been made, as yet, to locate them on a reserve, or return them to their own country. For their own sakes some action should be taken. I dealt more fully with this subject in my last year's report to which I beg to refer you.

North-west Mounted Police.

DISTRIBUTION

To properly meet the requirements of the district the division is scattered over it in nineteen detachments at such advantageous points enabling us to reach every portion of the country the isolated and lonely parts as well as the thickly settled localities.

The distribution is necessarily controlled by the strength which is available, the necessity of an efficient frontier patrol, the position of the Indian reserves, the prevalence of crime at certain points, and the general need.

The towns of Moosomin, Whitewood, Regina, and Moose Jaw, have their own constables, and in these towns we do not exercise jurisdiction, except in serious cases, or to aid the local authorities when required.

No conflict of authority has arisen under this arrangement. It is desirable that the local authorities administer the law, as much as possible, with a view to a gradual withdrawal of the force from the towns and thickly settled portions.

It will be a long time before we can retire altogether, as settlements, even in the most thickly populated portions, are very scattered and the distances so great that only a mounted force can exercise the law. At the towns above mentioned, detachments are still kept, as they are distributing points for large tracts of surrounding country, and are the most convenient for our purposes.

There is some dissatisfaction felt in certain towns in which there are no detachments. During the past year requests have been received from Oxbow, Grenfell, Pheasant Forks, Wapella and Craven, for men. They have based their petitions on the importance of their towns, the possibility of crime, and in one or two instances have openly avowed their desire of patronage. It was not possible to accede to any of these, for the reasons which I have already stated as governing the distribution. These small towns may believe that they are not equitably treated, but without greatly increasing the strength, and materially augmenting the cost, it is not possible to furnish detachments to all the small towns and villages in this extensive district. All are visited frequently by the patrols, and in case of any apprehended disturbance, or local excitement, a constable remains at the place temporarily until the cause disappears.

PATROLS.

I have already referred to the extended patrol system of this district, and for the details I would refer you to the accompanying reports.

The boundary patrol, from Rosseau River to Snake Creek, 630 miles, is most important to the quietness of the frontier, and is perhaps equally valuable to the interior settlements.

I do not pretend that our strength of one man to every 6 miles, over that long distance, could prevent ingress or egress without our knowledge, but I do assert that the patrols have a restraining effect and that practically there is no great infringement of the Customs laws, no infraction of the Quarantine regulations, and no crime attributable to the proximity of the border.

Estevan and Wood Mountain are connected by telegraph with headquarters, and, these points are furnished with sufficient men, horses and transport, to send parties in every direction. This is an undeniable advantage, as it enables us to take prompt steps to arrest criminals who commit crimes in the interior, and attempt to flee across the line.

SPECIAL DUTY FOR OTHER DEPARTMENTS.

Customs.

The strength in Manitoba was somewhat increased in the spring, and now stands one officer, sixteen non-commissioned officers and men divided into ten detachments.

Some one thousand five hundred "let" and verbal passes were issued, which shows that the detachments are a great convenience to settlers on both sides of the line, who

would be put to much inconvenience if the men were withdrawn. Probably they would cross freely without reporting. The only regular Customs points are Emerson, Gretna, Killarney and Deloraine.

In the Territories our outposts are still performing the duties for the Customs, except at North Portal, where a regular outpost was established in September, on the opening of the "Soo" Railway. In Manitoba duty is being done for the Crown Timber Department. The strict enforcement of the laws has caused dissatisfaction amongst the settlers, and called down on our heads a lot of undeserved abuse. There is no doubt but that the withdrawal of the force from Southern Manitoba would meet with the approval of the people for this very reason. It is curious that in the Territories, we do not perform this duty, and it seems that there is more cause for complaint that in only a small portion of Manitoba we enforce the timber laws with exactness.

Indian Department.

We have aided the industrial schools in recovering runaway Indian boys in a few cases.

The money of the treaty payments at the different reserves was taken to the agencies, and escorts attended at the payments.

Our patrols visit all the Indian Reserves with great regularity, and are instructed to assist the agents or farm instructors if desired.

QUARANTINE.

By Order in Council dated 27th of March, 1893, a strict 90 days quarantine was instituted against all American cattle coming into Manitoba or the North-west Territories, and the duty of enforcing the quarantine, was placed on this force.

Two new stations in this district, Gretna and Estevan, were established. All cattle of intending settlers were to be received, cared for, and delivered at destination without any additional expense by reason of the quarantine to the owners, but at their risk as regards loss while in quarantine, or during transport by train, unless directly due to negligence on the part of the servants of the Government.

The station at Gretna was personally established by you at the end of March, and its early operations carried on under your direct supervision. In Inspector Routledge's report will be found a detailed account of the work of Staff Sergeant Joyce who was in charge of the station.

No cattle were received at Estevan until late in June, when those at Gretna were transferred there by train and placed on herd. Staff Sergeant Mitchell, in a report to Inspector Wilson, recounts the work of the year at that station.

In order to enforce the regulations of the quarantine in this behalf, the following orders were issued to all boundary detachments:—

ORDERS FOR QUARANTINE.

A strict quarantine has been ordered for all cattle coming into Canada from the United States.

The quarantine points are Gretna, Estevan, Wood Mountain, Maple Creek, Milk River and Macleod.

Cattle are not allowed in at any other points.

Settlers or others desiring to enter Manitoba or the Territories with cattle must be directed to one of these points.

If patrols should find American cattle on this side of the line pasturing, they are to be driven out at once if possible, if not patrol is to remain in charge of them and notify the officer commanding.

If Canadian cattle come in contact with American cattle along the line they are to be isolated, and the officer commanding asked for further instructions.

American cattle are not allowed to pasture on Canadian territory.

North-west Mounted Police.

All settlers contiguous to the boundary should be notified of the quarantine and informed that it is in the interest of the cattle industry of the country, that the quarantine be strictly enforced.

The above orders were carried out as strictly as possible, but along such a stretch of frontier, which is settled up on both sides for long distances, an absolute enforcement cannot be assured.

Not a single case of disease was discovered among the cattle taken into quarantine. The total number with increase and decrease is shown in the following statement :—

Station.	Owners.	Cattle Entered.	Increase.	Loss of Increase.	Loss of Entered Cattle.
Gretna.....	36	490	38	7	10
Estevan.....	9	142	5	2	2
Total.....	45	632	43	9	12

The loss among the entered cattle was due to the following causes :—

Debility (death occurred shortly after entry).....	2
Old age and debility.....	2
Internal hemorrhage after calving.....	1
Gored in corral.....	1
Crushed in cars (yearlings).....	3
Destroyed on account of injury to hip.....	1
Effect of castration (performed by owner).....	1
Choked by cord.....	1
Total.....	12

Loss amongst the calves was as follows :—

Lost on prairie (cached by mother and not found).....	2
Died on trail (from excessive heat).....	1
Crushed on cars.....	2
Natural causes.....	4
Total.....	9

The percentage of loss is by no means excessive, when it is remembered that all classes of animals are accepted in quarantine, no matter what their age or condition may be ; when received they are tired out either by a long railway journey, or by being driven by trail.

The quarantine regulations require strict isolation from all Canadian animals, and from other classes in quarantine, to effect which each class must be either corralled or close herded.

All cattle were delivered by us at the nearest railway station to settlers' homes. Two hundred and seven head were driven by trail from Estevan to Moose Jaw during the hottest weather in July, and then railed to destination on the Calgary and Edmonton Branch of the Canadian Pacific Railway. They were twenty-seven hours reaching Calgary from Moose Jaw on the hottest days in the year, the thermometer registering over 100° in the shade. Of course they reached their owners after such a journey gaunt and reduced in flesh. Some complaints were made but the causes were beyond our control. Another lot of 187 head were received late in June, after a journey by trail of over 250 miles, and railed to Estevan 290 miles. After close herding for three months, the pasturage not being nutritious on account of the very dry weather, they were sent by rail to Dunmore, 300 miles. The owner grumbled that his cattle were poor, and made an

extravagant claim for damages. I had, before shipment from Estevan, inspected the lot and found that the healthy, strong animals were in good condition, but the old and weak were not fat, though in good condition. I mention this as a statement was made in the press that they were in a wretched state.

Another lot of 142 head were taken into quarantine foot sore and weary, after a long journey by trail from Nebraska. These received every attention, and for a month prior to the release were fed hay. On delivery the owners professed themselves satisfied.

Some errors of judgment have possibly been made in a business quite new to us, but I assert without fear of contradiction, that every possible care was taken of animals placed in our charge, and that the owners themselves could not have given them more. It would have been marvellous had no losses resulted in the handling of 650 head of all ages, size, class, and condition, with the long journeys by rail, and by trail; and it would have been more marvellous still had no complaints been received from forty-five different people, inclined naturally to hold the Government more strictly responsible than private individuals, and entertaining the feeling that where such strenuous endeavours had been made to bring them into the country, probably even unjust and extravagant claims would be entertained.

I cannot leave this subject without reminding you that much extra work, and increased responsibility has been thrown on some officers, and the clerical staff, without any extra compensation. Inspector Wilson's work has been doubled. He has energetically and ably performed the very troublesome duty demanded of him, and should receive some acknowledgment. The Non-commissioned Officers and Constables directly employed with the cattle received 50 cents and 25 cents per diem extra pay. Both Staff Sergeant Joyce and Staff Sergeant Mitchell, the former in charge at Gretna, and the latter at Wood End, are deserving of credit for the intelligent and painstaking way in which they have done their work. Staff Sergeant Mitchell being a qualified veterinary surgeon, and an almost too willing worker could not well have been replaced.

PRAIRIE FIRES.

In the spring fires were running in every direction but no damage was done other than loss of pasturage.

Prairie fires this fall have been more frequent, and destructive than for many years.

Owing to the extreme dry weather they started as early as July in S. E. Assiniboia and in August they burned furiously south of Moose Jaw, and around Estevan. East of Long Lake an extensive tract of country was burned over, and many people lost considerable property.

In October a tremendous fire swept over that tract of country south of the C. P. R. extending from a point on the Pasqua branch of the C. P. Ry. near the Yellow Grass Marsh, north-east for 100 miles, and about 50 to 60 miles in width.

A large quantity of hay, and many buildings were destroyed.

It is thought that this fire was caused by the sparks from a C. P. R. engine on the Pasqua Railway.

Another severe fire came from a point on the Prince Albert Branch 60 miles north-west of Qu'Appelle. It swept over a wide range of country, and plunged into the Qu'Appelle valley east of Buffalo Lake, where in spite of the most strenuous efforts of the settlers, called out by the fire patrols, great damage resulted.

The valley is principally occupied by ranchers and some will likely feel the effect of the loss of hay. The origin of the fire is doubtful. Although it started near the railway it is claimed that it was caused by some half-breeds. The railway people assert that no train passed over the road until some hours after the fire was seen. There may be doubt in this particular instance as to whether the C. P. R. Co. were responsible or not, but there is no doubt whatever as to their responsibility for dozens of other fires during the year. There was scarcely a day during the latter end of August, that the fast passenger trains did not set a fire. By prompt attention on the part of the settlers many of these were put out before damage was done, but in most cases they were the most destructive fires we had during the year.

North-west Mounted Police.

The General Superintendent of the C. P. R. early in August instructed that the right of way be burnt. This was done as fast as possible but the fires commenced burning earlier than usual, and the work of burning was not half accomplished before fires were running their destructive course.

The remedy for this great evil is, either a graded road on each side parallel to the track and 100 yds. distant from it, or proper fire guards. It is only a matter of expense to put a stop to the evil. I have been assured by the Asst. Superintendent of the Moose Jaw division, that all locomotives are fitted with the standard netting, and that the drivers have positive orders to guard in every way from the chance of fire. That these precautions are useless this season shows.

For the prevention of fires the following stations were established at the end of September in addition to our permanent detachments, viz.:—Caron, Buffalo Lake, Carsdale, Kermel, Hednesford, Brock Lake, Grenfell, Esterhaz, Rocanville, Sunndymeade, Fairmeade, Pheasant Forks, Crescent Lake, Churchbridge, Wallace, Sheho and Percy.

Fifteen men and fifteen horses were attached to the division for this duty. There were thus thirty-six detachments in the district attempting to enforce the law.

Twenty prosecutions were brought during the year, and fourteen convictions had for setting out fires; five prosecutions were entered for refusing to turn out to fires, and convictions obtained in all.

DRILL AND TARGET PRACTICE.

With the exception of a little drill done at Wood Mountain there has been none in the division. Target practice with carbine and revolver was completed at Wood Mountain. An average of 50 per cent was made with the carbine but the revolver practice was poor.

Superintendent Norman took every available opportunity for carrying out this practice.

CONDUCT AND DISCIPLINE.

The following is the summary of punishments for the year:—

Admonished	10
Confined to barracks	8
Fined	21
Fined and imprisoned	3
Imprisoned	5
do and dismissed	1
Non-commissioned officers reduced to a lower grade	0
Total	<u>48</u>

The total amount of the fines inflicted was \$171.10. The most common offence was drunkenness and every serious breach of discipline was brought about by intoxication.

The total punishments last year were 51 and this year 48, the strength of the division remaining the same.

DESERTIONS.

Two constables deserted during the year, one from Winlaw detachment and the other while on leave from this post.

DISCHARGES.

Four men purchased their discharges during the year.

HEALTH.

I regret to have to report the death of Reg. No. 2089, Corporal J. Lee, which occurred at Whitewood on May 12th, from typhoid fever. He was an excellent non-commissioned officer.

The general health has been good.

RATIONS.

The detachments at Wood Mountain, Estevan, Moosomin and Kutawa draw rations, all others are boarded at hotels or private homes.

The supplies for Wood Mountain are shipped from this post, those for the other points mentioned are purchased locally under contract.

BARRACKS, &C.

Some light improvements were made at Wood Mountain. The sergeant's room was ceiled, a new latrine built, and the whole post mudded and whitewashed.

At Kutawa the buildings were whitewashed, roofs repaired, and double windows put on.

At Estevan a one storey frame building, 18 ft. x 30 ft., was built by contract. This building is divided into two rooms, one for use as an office, and the other as a guard-room. A steel cage has been put up in it. This supplies a long felt want.

At North Portal a small building, 22 ft. x 22 ft., for the men, and a stable, 16 ft. by 24 ft., were built, also under contract.

At Moosomin a stable, 28 ft. x 28 ft. with ten stalls, was erected.

HORSES.

The horses have stood the work well during the past year. Two deaths occurred, one was due to falling in a well, and the other to stumbling and breaking a leg.

There has been no disease amongst them.

MILEAGE.

The horses travelled 286,100 miles during the year.

FORAGE.

The forage has been of good quality. Oats were dear; the fall hay was purchased at the average price.

SADDLERY.

All the saddles were brought to headquarters last winter and thoroughly overhauled. No new saddlery will be required next year. The harness is in a serviceable condition.

TRANSPORT.

Owing to the dry weather of last summer a lot of repairs were required. The transport is old and worn. Two lumber wagons, one half spring, two double buckboards, and two single, will be required next year.

SAVINGS BANK DEPOSITS.

The amount deposited in the savings bank was only \$1,423.05.

INSPECTIONS.

All detachments have been inspected monthly by the officers in charge of them. I inspected Wood Mountain twice, and Estevan twice, I also inspected a number of the small detachments.

North-west Mounted Police.

The sub-districts of Manitoba, Estevan and Saltcoats were visited by you.

The winter detachments at Willow Bunch and Wood Mountain were inspected by Inspector Macdonell last February.

This officer, accompanied by Sergeant Major Pennefather and a guide, travelled from here to Wood Mountain—140 miles—in flat sleds during the very coldest weather. The snow was very deep, and not a trail; to any one who knows this open, bleak, treeless country lying between here and Wood Mountain, the dangers and difficulties of Mr. Macdonell's trip are quite apparent.

GENERAL.

Inspector P. C. H. Primrose was transferred last August from this division, in which he had served for upwards of three years. I regretted much the loss to the division of this able and energetic officer.

The officers of the division, without exception, have done their duty with singular efficiency and energy.

Staff Sergeant Flindt has performed his work in my office in a most satisfactory manner, and Constables Lee and Leigh, the clerks, have done their work very thoroughly.

I have the honour to be, sir,

Your obedient servant,

A. BOWEN PERRY,
Superintendent, Commanding "B" Division.

SUPERINTENDENT F. NORMAN.

NORTH-WEST MOUNTED POLICE.

REGINA, 6th December, 1893.

To the Officer Commanding "B" Division.

SIR,—I have the honour to make the following report on the work performed by the detachments of "B" Division, stationed in the Wood Mountain District, during the past summer.

On the 18th of June last, according to orders received I proceeded from Prince Albert by train to Regina, and from there by trail to Wood Mountain Post to take over the command of the district.

I arrived at Wood Mountain Post on the 28th June. My command consisted of thirty-three non-commissioned officers and constables with one special constable and thirty-three horses. Of these one non-commissioned officer and eight constables with nine horses were stationed at the Willow Bunch Station, and the remainder twenty-four non-commissioned officers and constables and twenty-four horses were stationed at Wood Mountain Post, each detachment was fully found in patrol transport equipment.

PATROLS.

The main work to be done during the summer consisted in keeping a strict quarantine on all animals coming into the district from the United States. To see that no smuggling or illicit traffic of any kind took place along the border, and to have a good look out for all criminals either coming into our country or endeavouring to evade capture by "clearing out" to the other side.

Taking Wood Mountain Post as a centre, our western patrol extended to a distance of sixty-five miles due west to a point on the Snake Creek where we made connection on every Wednesday with a similar patrol from "A" Division. This patrol then proceeded south along the White Mud River to the Boundary Line, and returned along the border by Rock Creek, Cart Coulée and the Hinsdale Trail to the Post, having covered a distance of about one hundred and sixty miles. As this patrol covered the most important part of the district for our work, I found it necessary to station a permanent camp during the latter part of the summer at a point where the Hinsdale Trail crosses the Boundary Line. The presence of large herds of United States cattle made this absolutely essential. After a few days absence of our patrol these cattle would drift many miles north of the boundary, and have to be driven south on the return of the next patrol. The stationing of a permanent camp had the desired effect of keeping these cattle within bounds, but owing to the very broken up nature of this portion of the district this was no easy work, and it will be seen from the various reports I sent in during the season how very satisfactorily the work was carried out by our men.

The patrol to the south went out from the post once a week and covered a distance of one hundred miles passing along the boundary and crossing the country lying between the "Cart Coulée" and where the trail to Fort Buford cuts the boundary. This patrol had also supervision over the Glasgow, Wolf Point and Poplar River Trails leading from the United States into our country. Very few American cattle were seen in this district, most of it being unfit for grazing purposes and bad lands.

A weekly patrol was kept up to the east between the post and Willow Bunch Station, covering a distance of about one hundred miles. Its chief work was to keep in touch with the settlers located to the north of the mountain—to learn if they had any complaints to make, and to keep a sharp look-out for any individuals starting prairie fires.

North-west Mounted Police.

Two patrols were carried on from the Willow Bunch Station. An easterly one proceeding by the Moose Pond, Alkali Springs, Big Butte and Long Creek, as far as the Buffalo Head, and there made connection with our patrol from Estevan (fortnightly), the distance covered being about one hundred and fifty miles. Nothing of importance occurred on this line of patrol during the summer. The patrol south from Willow Bunch went along the Big Muddy Creek as far as the border, returning to the station by different routes having traversed about one hundred miles. Very few American cattle were seen in this district, and the country is very broken up and difficult to travel over.

The fortnightly mail from Regina was carried to Wood Mountain post by a Willow Bunch patrol.

The Half-breed settlement at Willow Bunch, containing over three hundred souls, was constantly patrolled by our men.

CRIME.

There was no crime of any kind committed during the summer, and with the exception of some absconding debtors from the north, who were on their way to the United States, I had no legal business to attend to.

PRAIRIE FIRES.

The district was very free from this plague during the summer. Only in one instance had we to turn out to fight a fire, which was no doubt started by some Indians hunting, and which at one time threatened to consume our hay crop, and had it not been for the very prompt action of our men, this certainly would have been the case.

DRILL, ETC.

Whenever an opportunity offered, the men were put through a course of drill and the annual rifle and revolver practice duly performed.

HEALTH.

The health of the detachments during the summer was excellent, with the exception of a few colds from exposure.

HORSES.

I am glad to say, that, notwithstanding the large mileage our horses had to perform, I was fortunate enough not to lose an animal, this was chiefly attributable to the great care and attention given to them by Veterinary Corporal Macdonald and the teamsters under his instructions.

CONDUCT.

The conduct of the men has been good, I cannot speak too highly of the manner in which Sergeant Major Pennefather and the other non-commissioned officers carried out the discipline.

BUILDINGS.

I had all the log buildings thoroughly remudded and whitewashed and put in a habitable condition for the winter. I also found it necessary to put up a new latrine for our men. Instructions have been given to build a new ice-house during the winter, the old one having become quite useless.

SETTLERS.

Chiefly owing to the quarantine preserved this summer, no settlers came in from the United States into my district, and the Customs collections amounted only to the sum of \$26.

In conclusion, I wish to bring to your notice the fact that our men were ably supported by the cattlemen along the border in keeping their large herds within bounds. It must be remembered that a large number of Canadian cattle were mixed up with the American herds, and our men had to keep these cattle south until the quarantine had been raised.

I have fully reported to you during the summer on all matters connected with the Wood Mountain district, and I trust that the work performed by my detachments may meet with general approval.

I have the honour to be, sir,

Your obedient servant,

E. NORMAN,

Superintendent.

North-west Mounted Police.

INSPECTOR J. A. MCGIBBON.

NORTH-WEST MOUNTED POLICE, "B" DIVISION DETACHMENT,
SALTCOATS, 30th November, 1893.

SIR,—I have the honour to submit the following report of the work performed during the year ending 30th November, 1893.

The detachment was handed over to me on the 2nd May last, by Inspector J. O. Wilson.

The headquarters of the district is at Saltcoats, with detachments at Yorkton, Kamsack and Fishing Lake.

CRIME.

There has been very little crime of a serious nature during the year.

On the 7th July Claus Ehlen was sentenced to two years' imprisonment, with hard labour, by the Hon. Mr. Justice Wetmore, for breaking into a house at Langenburg and stealing clothes.

On the 8th October Sidney W. Hill, aged 13, was tried and convicted for horse stealing, to appear when called upon for sentence, gave bail for \$500.

On the 26th September Baptiste Bourassa, of Côté, was sentenced to six months hard labour by W. E. Jones, J.P., for having criminal intercourse with an Indian girl.

On the 14th February the License Inspector laid an information against J. S. Crerar, Yorkton, for selling liquor after hours. The case was adjourned to enable the Magistrate to refer to the Crown Prosecutor for advice, the Crown Prosecutor held that meridian time was the legal time and the case was dismissed.

On the 17th May J. Milligan, of Quill Plains, was fined \$100 and costs or two months' imprisonment for selling liquor to Indians of the Fishing Lake Reserve.

The following is a list of all complaints of offences which occurred in the district during the year:—

Cause.	No.	Conviction.	Dismissed.
Cruelty to animals	1	..	1
Contravention of License Act	3	..	3
Assault	4	2	2
Obtaining goods under false pretenses	1	..	1
Offence against the School Act	4	..	1
Setting out prairie fire	3	2	1
Larceny	7	2	5
Cattle stealing	6	..	6
Horse do	1	1	..
Deserting wife	1	1	..
Criminal intercourse with Indian girl	1	1	..
Profaning Sabbath	2	2	..
Felonious disposing of cattle	2	..	2
Keeping a disorderly house	1	..	1
Drunk	1	1	..
Non-payment of wages	3	..	3
Trespassing on Indian Reserve	1	..	1
Selling liquor to Indians	1	1	..
House breaking	1	1	..
Miscellaneous	3	..	3

OUTPOSTS AND PATROLS.

The following are the outposts in the sub-districts and the patrols made therefrom :

Saltcoats.

One officer, one non-commissioned officer and three constables, and four horses are stationed at this detachment.

The patrols take a different direction each day and visit the settlers to ascertain if they have any complaints.

The detachment patrols regularly north to Wallace, south to Cut Arm, east to Manitoba boundary, west to Crescent, taking in the following places: Rothburg, Langenburg, Churchbridge, Bredenburg, Perley, Crescent Lake, Meadowville, Armstrong Lake, Crofter Settlement, Castleton and Wallace. Three trips were made to Sumner and three to Pheasant Forks.

Yorkton

Is a village at the end of the Manitoba and North-western Railway, twenty miles north-west of Saltcoats, one non-commissioned officer and one horse stationed there.

This detachment patrols east to Armstrong Lake, north-west to New Denmark: north-east to Wallace, and south to Leach Lake, and visits the German settlement at Ebenezer, and the N.C.O. proceeds twice per month to Kamsack to inspect that detachment.

Fishing Lake.

Is ninety miles north-west of Saltcoats; two constables and two horses are stationed there.

This detachment patrols north to Nut Lake, forty miles; west to Quill Plains; south-east to New Denmark, calling at the Sheho (Dakota) settlement, and east to Birch Creek.

Kamsack

Is forty-two miles north-east of Saltcoats; two constables and two horses are stationed there. This detachment patrols north to Fort Pelly, through the Indian Reserve, east to the Manitoba boundary line, and west to the White Sand River.

ASSISTANCE TO INDIAN DEPARTMENT.

On the 25th August, and again on the 4th October, an escort conveyed the annuity money from Yorkton to Côté's Reserve and handed it over to the Indian agent.

An escort was furnished the agent during the payments.

The men of the Kamsack detachment also kept trespassers off the reserve.

MAIL SERVICE.

The settlers are not satisfied with the mail service. There is only one mail a week by Manitoba and North-western Railway, and that on Sunday.

HEALTH.

The health of the members of the detachments has been good.

RATIONS.

The detachments in the district are all boarding: there have been no complaints.

North-west Mounted Police.

ARMS AND AMMUNITION

Are in good order, with the exception of carbine number 45079, stock broken by horse 1472, stepping in a badger hole, I am sending it in for repair.

INSPECTION OF DETACHMENTS.

The detachments at Yorktown and Saltcoats were inspected by the Commissioner in March last.

I inspected the detachments monthly, and made four inspections at Kutawa (Touchwood Hill).

I also inspected the Prairie Fire Stations at Wallace, Churchbridge, Crescent and Pheasant Forks.

DRILL.

At all inspections of detachments I put the men through the manual and firing exercise. When present at Saltcoats I drilled the detachment twice a week in the same exercise.

HORSES.

During the month of May, the horses in the district were reduced from twelve to nine. Horses 1422, 1633 and 1680 were sent to Regina.

On the 14th May horse 1593 was kicked and with the exception of a few days was off duty until August 11th.

On the 22nd July horse 1184 ran away and broke a piece off the hoof, exposing the quick, returned to duty August 8th.

On the 27th June horse 1533 cast a shoe, outer crust of hoof broke off, and no place to attach shoe; returned to duty August 9th.

On October 28th again off duty, sent to Regina on the 21st November.

Horse 1186 contracted feet, very lame, off duty from 22nd August to 27th; off duty on September 1st; sent to Regina 21st November.

Horses 1288 and 841 generally used up, they require a summer's rest.

With so many horses off duty at times during the summer, it was hard to keep the patrols going.

On the 1st October two horses were received here to replace horses 1136 and 1533.

In November three extra horses were received, two to replace horses 1288 and 841.

SADDLERY AND HARNESS.

There have been no repairs with the exception of a few to one set of single harness, and one saddle. The saddles and harness are in good condition.

FORAGE.

The forage is very good.

STABLES.

The stables at Saltcoats and Yorkton are good, at Kamsack rather small and dark, and at Fishing Lake fairly good.

BARRACKS.

The barracks at Saltcoats are very good. At other detachments the men board and have a room to themselves.

ROADS AND BRIDGES.

The roads in the district are merely trails over the prairie.

Saltcoats.

A few new bridges and a little grading was done this past summer.

Yorkton.

The trails and bridges are in fairly good order.

Kamsack.

A bridge was built over Dead Horse Creek, and also a ferry on the Assiniboine river.

Fishing Lake.

The trail from Sheho to Fishing Lake is very rough and rocky. Two bridges were built in the Sheho District ; one across Deer Creek and one across Ebale Creek, but were washed away by the freshet last spring.

SETTLERS.

Saltcoats.

The settlers are in fairly good circumstances.

The settlers in the districts of Crescent, Riversdale and Kimbrae which have been settled for a number of years are the most prosperous.

Yorkton.

Very few settlers came to the district during the year.

Kamsack.

The settlers in the district are few and far between, all are in comfortable circumstances. There has been only one new settler in the last year.

Fishing Lake.

The settlers are in good circumstances this year, they have plenty of hay for their cattle and horses, and plenty of vegetables in their cellars, a few Icelanders moved from Churchbridge to Fishing Lake, and a number of the Dakota settlers left the Sheho Lake district. Most of them were disappointed as the railroad was not extended north-west from Yorkton.

SELLING LIQUOR TO INDIANS.

Constable McCuaig, of Kamsack, reports as follows :—

“The Indians on the Côté Reserve are addicted to drinking and will do anything to obtain liquor. They get some once in a while, particularly when they go to Yorkton, but where they get it is a question I have not yet solved. They are very cunning and know how to remain sober when constables are near at hand.”

Constable McCuaig has searched their first camp after they leave Yorkton but found none.

RANCHES.

A very large number of cattle died in the district during the past winter, the winter being exceptionally long and hay got scarce.

Four cars of cattle were shipped from Churchbridge this season.

Ten cars of cattle and one of hogs from Saltcoats.

Twenty-seven cars of cattle from Yorkton.

The district north-west of Yorkton is well adapted for small cattle ranches, there is plenty of hay in the Fishing Lake district.

North-west Mounted Police.

CROPS.

Saltcoats.

The crops in the district have been very good.

Yorkton.

The crops in this district have been very good; there have been four threshers at work all season, they have threshed about 34,000 bushels each, there were about 5,000 acres in crop.

Mr. Seeman, of Theodore, had 500 acres in crop.

Kamsack.

There is very little crop raised in this district as it generally gets frozen, but this year what little was put in, turned out very good.

Fishing Lake.

There was no crop put in at Fishing Lake.

The crops in the Sheho district this year are very good, wheat averages twenty-two bushels per acre, oats average forty bushels. The potato crop was above the average.

GAME.

In the neighbourhood of Saltcoats prairie chickens are plentiful.

Yorkton.

Game is plentiful, especially chickens.

Kamsack.

There is a large quantity of all kinds of game in the northern part of the district.

There are all kinds of fur bearing animals, also feather game, such as geese, ducks and chickens.

Fishing Lake.

Game has been very plentiful in the district this year. Chickens and ducks are very numerous, wild geese were not so very plentiful this year as heretofore, there have been several jumping deer and a few elk seen in the district lately.

INDIANS.

There is only one Indian Reserve in the neighbourhood of Saltcoats or Yorkton, at Leach Lake.

Fishing Lake.

There is a small reserve here, No. 89, and one at Nut Lake, No. 90. The Indians are very quiet and at the present time are out hunting and trapping, there has been no trouble with them.

Kamsack.

There are three reserves in this district, the Indians live in log houses, and are in very good circumstances, they have a large number of horses and about 500 head of cattle. They raise very little crop, the reserves are situated on the side of the Duck Mountain, and I believe they have frost frequently during the summer.

HALF-BREEDS.

There are a few Half-breeds at Fort Pelly, who work for the traders.
There are a few families on the White Sand River engaged in farming.

DISCIPLINE AND CONDUCT.

Very good.

PRAIRIE FIRES.

There were very few fires in the district this fall as the country was well patrolled.
The orders issued by you, were given to the men, they are as follows:—

“ Proceed at once to any prairie fire which may appear within reasonable distance, and take every measure in your power, using the authority given you as a fire guardian under the North-west Ordinance respecting prairie and forest fires and amendments thereto, to extinguish the same, make every endeavour to discover the party or parties guilty of setting out the fire and bring them before a Justice of the Peace to be dealt with according to law, etc., etc.”

I think that most of the fires that occur in the spring are started by parties burning out the old grass in the hay bottoms, and in the fall by burning guards around hay stacks.

On the 7th May a fire was seen in the Crescent District south of Saltcoats, I sent out two men who turned out all the settlers to fight the fire and get it under control, the settlers stated that it came from the south, about the Qu'Appelle River.

On the 12th May a fire was noticed west of Saltcoats, I sent out a constable who turned out the settlers who got the fire extinguished, could not find who started it.

On the 29th May constable McCuaig laid an information before T. McNutt, J. P., that John Knott, of Bradenburg, started a prairie fire. Tried before T. McNutt, J. P., on the 3rd June, dismissed with costs.

On the 31st August, Corporal Keays saw a fire out at Meadowville and went out there to investigate, laid an information against Robt. Miles who was brought before me on the 8th September, and fined \$20 and costs.

On the 31st August, Corporal Keays saw a fire in the neighbourhood of Rathburn, he went to investigate and laid an information against Max Smith, who was brought before me on the 15th September, and fined \$15 and costs.

On September 12th, S. Partridge, of Crescent, complained that on the 10th September his stacks were discovered to be on fire, had this investigated but could not make anything out of it.

On the 13th November a fire broke out on Section 18, Township 22, Range 32, about four miles south of Churchbridge. Constable Smith, of the fire patrol, turned out the settlers but could not get the fire out, could not find out who started it, three days after a snow-storm put it out.

Yorkton.

The country has been very free from fires the past year.

Kamsack.

This district has been free from fires with the exception of a small one on the Côté Indian Reserve, which was started by an Indian; this fire burnt about two square miles, but it was so early in the season that it was easily extinguished, sufficient evidence could not be got to make a case.

Fishing Lake.

There has been no fire in the district the past year.

On the 1st October the Prairie Fire Patrol arrived from Regina and a constable and horse were stationed at Wallace, Churchbridge and Crescent, they patrolled the country well which made the settlers careful.

I stationed one of the Fishing Lake men at Sheho.

North-west Mounted Police.

TRANSPORT.

The single buckboard at Fishing Lake, requires to be replaced.
The remainder of the transport is in serviceable condition.

NEW POST OFFICE.

Theodore, 24 miles north-west of Yorkton on sec. 1-28-7.

SETTLEMENTS.

No new settlement.

DISCHARGE.

Reg. No. 2282, Corporal J. E. Parrott purchased his discharge on the 31st July last.

DESERTION.

Nil.

CHANGES IN DETACHMENT.

During the month of June the men were moved from Sheho Lake, 25 miles north-west to Fishing Lake.

The Yorkton detachment was reduced from two men and two horses to one man and horse.

The Saltcoats detachment was reduced from six members to five, nine horses being left in the district in place of twelve as formerly.

CROFTER SETTLEMENT.

On 12th January, the police were notified that a Crofter family named Young were in a destitute condition and nothing to eat in the house. Constable McCuaig investigated, reported that the family consisting of a woman and six children had nothing in the house to eat except a few pounds of bran and some of the children were very poorly clothed. The man of the house, Alex. Young, is supposed to be in Manitoba and out of employment. The Ladies Guild of Saltcoats sent some provisions and clothes.

The Crofter agent at Winnipeg was notified.

There are about twenty families left in the settlement, they are doing fairly and some of them have about fifteen head of cattle. Fifteen families of the poorer class have left and have gone to Killarney and Selkirk.

The horses in the district have travelled 47,851 miles.

I have the honour to be, sir,

Your obedient servant,

J. A. MCGIBBON,

Inspector.

To the Officer Commanding "B" Division,
North-west Mounted Police,
Regina.

INSPECTOR JAMES O. WILSON.

NORTH-WEST MOUNTED POLICE,
ESTEVAN, 30th November, 1893.

The Officer Commanding
"B" Division, N.-W.M.P., Regina.

SIR,—I have the honour, in accordance with your instructions, to submit this my annual report for the year ending 30th November, 1893.

GENERAL STATE OF THE DISTRICT.

Estevan and the surrounding country has made but little progress during the past year. This may be accounted for by the failure of crops, and also from the fact of the mines in the district being only worked in winter. The mines are now running full blast and turning out a very large quantity of coal, for which a ready market has been found in Manitoba. There are now about 200 men employed in the four principal mines, viz., the Dominion Coal Company, at Estevan and Roche Percée, and the Hazzard and Gow mines, at Coalfields. Besides these, several smaller mines are operated by persons who supply the local demand. The demand for this cheap fuel will undoubtedly increase as the settlers become accustomed to using it. I find it throws as much heat as Galt coal, but, of course, burns away more quickly. I should say that it would take about three tons of this coal to equal two tons of Galt coal. At Oxbow a large grist-mill has been built, and at Carnduff an elevator, neither of which have been a financial success, owing to the poor crops.

CRIME.

The following is a complete list of all crimes in the district during the past year :—

Assaults	5
Perjury	1
Forgery	1
Bigamy	1
Maliciously killing an ox	3
do shooting a horse	1
Deserting employment	5
Indecent exposure	1
Peddling without license	2
Theft	10
Drunk and disorderly	11
Breaches of prairie fire ordinance	7
do health regulations	3
Horse stealing	2
Keeping glandered horses	1

The list of crimes being somewhat large and varied, is to a considerable extent owing to the construction of the Soo railway having brought in a large number of labourers of different nationalities, and almost every time they received their pay some arrests followed. During a few days after pay day it was necessary to look after them all the time, or they would soon render the place unfit to live in. I speak of Estevan more particularly, it being the headquarters of the sub-district and the only place where liquor was obtainable by the labourers north of the boundary. When the construction of the Soo railway reached the boundary from the south, at what is now North Portal,

North-west Mounted Police.

Staff Sergeant McGinnis and four constables were dispatched to meet it. The iron was connected 26th August. A large number of camp followers also arrived with the construction camps, several selling liquor and keeping gaming houses; some had prostitutes with them. These the detachment confined to the Dakota side of the line. Any inmate of a "Blind Pig," as those establishments are called here, understood that he (or she) would be arrested the moment they attempted to do any business in Canada. As a sample of what was occurring almost daily on the Dakota side, I quote from a report of Staff Sergeant McGinnis: "A few days before the rails arrived at Portal, two men quarrelled, and one gave the other a severe beating. The defeated man secured a sharp rifle and a box of cartridges, and posted himself on a butte in rear of the large railway camp and fired every bullet he had through the tents, which were full of people at the time. Every one ran away and left the camp, and by the merest chance no one was hit. The man who did this stayed around for three or four days, not the slightest attempt being made to get him arrested."

Had it not been for the presence of the detachment, an influx of tramps and prostitutes would have occurred; as it was, no one crossed except those who had means of paying their way.

In the cases under the head of "assault," five were brought before the courts, in all of which convictions were made.

Under the head of "perjury," one case was brought before the Supreme Court and dismissed; it was the result of bad blood between neighbours.

Under the head of "forgery" one case was brought before the justice of the peace and dismissed.

Under the head of "bigamy" one case was brought by a Jew of the Hirsch Colony. He charged his wife with bigamy committed by marrying him while she had a husband in Russia. She showed a divorce from her husband in Russia and was dismissed.

The three cases of "maliciously killing an ox," the parties were dismissed by a bench of justices of the peace at Oxbow, but were brought up again by Mr. White, C.P., and parties convicted. This case was reserved for the Court *en banc*, who decided that there was no malicious intent, and ordered the defendants to be discharged.

"Maliciously shooting a horse."—This case was sent up for trial and tried before the Supreme Court, and in spite of the most conclusive evidence the prisoner was found "not guilty" by a jury, which justifies what has been often said, that it is no use taking up a man to go before a jury of farmers for shooting animals which he found in his crop.

In the five cases under the "Masters and Servant's Ordinance," three convictions were made; and two dismissed, the Canadian Pacific Railway Company, who was the prosecutor, failed to show bargain. The defendants were all men from outside the Territories who hired in order "to get west," and then refused to work.

"Indecent exposure."—One case was brought and convicted.

"Peddling without license."—Two cases were brought and convicted.

"Theft."—Ten cases were brought, seven convictions were made and three dismissed. Two of the latter should not have been brought, as it seems to have been an attempt to make the Criminal Law collect a civil debt.

"Drunk and disorderly."—Eleven cases were brought, ten convicted and one dismissed. The cases mostly occurred along the railway construction.

"Breach of prairie fire Ordinance."—Seven cases were brought up, six convictions made and one dismissed.

These are the cases which call for the most work, as it is very hard to get direct evidence after the fire has burnt over a large section of country. In one case, occurring near Carlyle, the defendant was charged currently by his neighbours with having burnt their hay every year, and then living on the proceeds of sale of hay which he had previously fire-guarded. There was no evidence of this, but this year the same thing occurred and was investigated by Const. Thornton, who was on fire duty in the vicinity, and after a great deal of work the case was brought home to him, and he was convicted and fined \$100 and costs. He appealed, and then paid the fine. His conviction was considered very important in the vicinity.

“Breaches of health regulations,” three were brought by the health officer, one was convicted and two dismissed. They occurred during an epidemic of scarlet fever.

Horse-stealing. The two charges were against the same man. He has gathered horses belonging to different parties off the prairie, and one of them laid information against him for stealing, and being found when arrested with horses belonging to another party he was charged with stealing them also. He had told lies as to the reason of their being in his possession and was acquitted on the doubt as to whether he had lied for the purpose of fraudulently appropriating them, or to avoid a civil prosecution for having worked another man's horses.

Keeping glandered horses, in this case the veterinary surgeon called could not say whether it was glanders or not and dismissal followed. The case was reported to the Lieutenant-Governor with a view to a further examination. In another case where a man named Paschal Bonneau was charged with stealing cattle in Manitoba, he was arrested by us and turned over to the Manitoba authorities.

VIOLATION OF CUSTOMS LAW.

No violation of the customs law has been brought to notice, the vigilant watch and patrol along the boundary preventing it to any great extent.

OUTPOSTS AND PATROLS.

The non-commissioned officers and men on outpost duty during the past year were as follows:—

	N. C. O.	Men.	Horses.
Winlaw.....		2	2
Souris Valley.....		1	1
North Portal.....	1	2	3
Moose Mountain (fire station).....		1	1
Quarantine (Wood End).....	1	6	6

Besides these three special constables were hired during the summer for quarantine work. The following patrols were carried on during the past summer.

A fortnightly patrol to Buffalo Head meeting the patrol from Willow Bunch at that point. To the east the detachments already named connected twice a week with each other and with Manitoba sub-district, meeting at Sourisford. Besides the regular patrols all villages and settlements in the district were visited frequently. As Estevan is the headquarters of the sub-district, I have not had the same number of men or horses for any length of time, and consequently have not stated a number. It supplied the outposts and quarantine with men and horses as required.

The detachments excepting at Wood End and Estevan were boarded at farmers houses, at an average cost of 60 cents per diem per man, and 40 cents per diem per horse. At Wood End and Estevan rations and forage were purchased, and the men lived in tents, which on account of the continual high winds were the most uncomfortable and most undesirable residences. I would recommend that where detachments such as Estevan was this past summer, are kept, small, temporary buildings be erected.

PRAIRIE FIRES.

About the latter part of July, owing to continued drought, fire made its appearance (from the north-west at first) and the detachment had great difficulty in saving the premises of one Sanstrum, near Estevan. From this time on fires were of almost daily and nightly occurrence, and were for the most part traceable to the Canadian Pacific Railway engines. The detachment and all the civilians that could be had were frequently at work, the latter expressing considerable dissatisfaction at the frequency of the calls upon them. Although part of the district has been burnt over, no serious losses have occurred. Much credit is due to Staff Sergeant Mitchell, and the men at quarantine camp who succeeded in saving a sufficient area of pasturage for the

North-west Mounted Police.

cattle on quarantine. With reference to the fires started by the Canadian Pacific Railway engines, I am of opinion that they are in many cases due to the engineers, who it is said remove the spark arrester after leaving headquarters. It is rather hard to believe that ordinary precautions were taken to guard against the engines starting fires, when I personally saw six started by an engine within a distance of five miles, and in some cases fire had started 100 yards from the track. In one case I saw a piece of live coal as large as a walnut thrown on the grass.

If there are no means (and there seems to be none), of holding railway companies and their agents responsible for fires started by their engines, they should be compelled to burn a fire-guard far enough away from the track to prevent it spreading. The few fires started by individuals are nothing compared to those started by the railways.

Section 5 of the Ordinance has been changed so as to curtail the power of the fire guardian by substituting "refusing to do so" for "does not proceed at once." Non-attendance at a fire might not be held to be a refusal.

ASSISTANCE TO INDIAN DEPARTMENT.

I have not been called upon to render any special assistance to this department. A few Indians have come into the district, but they had passes from the agent for the purpose of trading. The Reserve at the west end of Moose Mountain has been frequently visited by patrols.

INSPECTIONS.

The Commissioner visited and inspected on April 24th, and the detachment was again inspected by yourself on June 23rd and September 22nd. All detachments in the sub-district have been inspected by me monthly. At Estevan I have had a weekly inspection, and twice a week inspected quarantine camps.

HORSES.

The horses were generally serviceable. Three were ordered in to Regina by yourself in September, they being unfit for service. One Reg. No. 1800 was on the 12th of July accidentally killed, by falling into a well. The mileage has been forwarded weekly to Regina.

HARNESS AND SADDLERY.

The harness and saddlery have been generally good and serviceable.

FORAGE.

The forage supplied has been high-priced owing to failure in crops, but of good quality.

SETTLERS.

Very few settlers came into this district during the past season, the majority going to Moose Mountain district north of this place. The Jewish Colony started in 1891, by the Young Men's Hebrew Benevolent Society, of which Baron Hirsch is the head, is eighteen miles from Estevan. It has not been a success. Besides the very dry summer just past, there has been trouble between the colonists and the management. In one instance it led to violence, and the manager called on us, with the result that two of the colonists were sentenced to hard labour at Regina for assault. Another was sent to Regina for stealing the property of the society. They are a mixture of Russian and German Jews, and regard everything they meet with as schemes to get the best of them. Latterly a somewhat better condition of things seems to have been brought about, but the colony as a means of settling the country cannot be called a success.

RANCHES.

There are no ranches in this district.

CROPS.

Owing to the drought, the crops have been a failure.

GAME.

Small game has been plentiful, while herds of antelope have been seen by the western patrol.

HALF-BREEDS.

A large number of Half-breeds have been in the vicinity during the summer. They came from Qu'Appelle and Willow Bunch for the purpose of gathering bones along the newly constructed Soo Railway. They have given no trouble, most of them leaving for their homes on the approach of winter. A few, however, remain here.

DISCIPLINE AND CONDUCT.

The general conduct of the men of the different detachments has been good. There have been four cases of drunkenness, in two cases imprisonment was awarded, and in two fines. Three of the delinquents were sent to Regina. I consider that when a member of the force is convicted of being under the influence of liquor at an outpost, his usefulness at that particular post is gone, and he should in consequence be transferred to another district.

DESERTIONS.

I regret to have to record the desertion of Reg. No. 2747 Const. Money, who deserted from Winlaw in September. The cause of his desertion was on account of some trouble with a woman.

TRANSPORT.

The transport has been all that could be desired.

CLOTHING AND KIT.

The clothing and kit have been of good quality, with the exception of the fur coats which are very poorly adapted for the work. A suit of prairie uniform of some neutral colour would be a good change. It is too difficult to keep the regular uniform clean when used on the prairie, besides which, it is too conspicuous for police work.

BUILDINGS.

At Estevan Camp two temporary huts 14 x 16 ft. were erected, and used for kitchen and storeroom. A police office and lock-up 18 x 30 ft. is now being completed. At North Portal permanent quarters 22 x 22 ft. have been erected, also a stable 16 x 20 ft. Quarters for an officer are badly required at this post, there being no building obtainable suitable for the purpose.

QUARANTINE.

The quarantine station at Estevan has been under my charge, and has added greatly to the work of myself and detachment. I attach the report of Vet. Staff. Sergt. Mitchell, who has been in charge of this branch during the past summer, and who has, with the men under him, performed his work faithfully and well.

I have the honour to be, sir,
Your obedient servant,

JAS. O. WILSON,
Inspector.

North-west Mounted Police.

STAFF SERGEANT MITCHELL.

Wood End, 27th November, 1893.

SIR,—I have the honour to forward the following annual report for the Estevan Quarantine Station for the season just closed.

This reserve embracing townships one and two, range eight west, is situated on the west bank of Long Creek and extending from the international boundary line northward to the Souris a distance of nine miles, and from its central situation, its proximity to the "Soo" Railway, its extensive pasture range, and excellent watering facilities afforded by Long Creek, is admirably adapted to the purpose for which it has been set apart.

Why then, the question may be asked, has dissatisfaction been manifested by the owners with reference to the condition of their stock? The answer appears to be this. These people during the absence of their cattle have become familiarized with the surrounding Canadian herds—a vastly better class of stock to begin with—that, during the long summer, had nothing to do but leisurely graze round and grow fat; and apparently forgetting that their stock during this period were making long and wearisome journeys by trail and railroad, to say nothing of the ninety days close herding to which, under the most favourable circumstances, and when the utmost liberty and opportunity for grazing compatible with safety has been allowed, is but a poor substitute for unrestrained freedom imagine that, because this stock is inferior in size and condition to the former, they have been maltreated in the quarantine. We do not claim for this station during this its first season's operations absolute perfection, but we do claim that within the sphere of our knowledge and opportunities, no efforts have been spared by the staff to promote the welfare of the stock, regardless of quality, entrusted to our care.

The quarantine duties proper commenced on the 19th June, when three hundred and thirty-seven head of United States cattle were shipped from Gretna, followed by an additional shipment of one hundred and nine head on the 5th July, which with one hundred and forty-four head shipped from Deloraine on the 15th August made a total of five hundred and ninety head of United States cattle quarantined at this place for the whole or part of their ninety days term. It might be here stated that these cattle represented the herds of thirty-five individual owners, and, with one exception (Mr. Good of Dunmore, who entered one hundred and eighty-seven head) varied from one to forty-four head per owner. And, as will be seen by the appended tabulated statement, Nebraska and the two Dakotas were the chief sources of supply.

With reference to the quality of these cattle it must be recorded that in the matter of size and shape, as compared with Canadian cattle, they were decidedly inferior. And this fact, while doubtless more the misfortune than fault of their owners, was nevertheless the occasion of a good deal of unpleasantness. The fact was again and again demonstrated throughout the season, and pressed on the attention of their owners, that where animals were at all shapely, the result of better breeding, they invariably left the quarantine in good condition. Neither can much improvement in this respect, even on this side the line, be looked for, while the class of scrub bulls, with one possible exception, that were allowed to accompany the herds are retained therein.

In the matter of health, however, a remarkable immunity from disease, or sickness of any kind, was manifested. No stronger proof of this need be cited than the fact that, during the season's operations, no animals died from causes other than accidental, with the exception of two cows, that succumbed to the infirmities of old age. Altogether the percentage of loss was small considering the casualties to which the animals were exposed incident to nightly corraling, and, but for three losses due directly to railroad agencies, only six deaths, of which three were calves, would have been recorded.

To guard against the possibility of the different herds intermixing, summer corrals are situated on the creek bank at intervals of three miles extending from Wood End northward. In the vicinity of these the cattle are herded by two mounted men, usually a member of the Force, and a special herder. The time allotted for grazing embraces from 5 a.m. till sunset, when the cattle are carefully returned to their respective corrals till the following morning. Provision is made for daily veterinary inspection, lame or indisposed animals carefully looked after, and a degree of careful attention exercised towards the animals generally, equal, if not superior, to what would have been vouchsafed to them by their owners.

During the season two visits were paid the reserve by Superintendent Perry, in addition to which Inspector Wilson visited it at least twice each week.

On the occasion of Superintendent Perry's last visit, sites were selected in shelterly nooks in the brush along the creek bank, and in the vicinity of deep water, for winter corrals. These corrals (recently completed) are four in number, and 80 x 120 feet, in two of which are 20 feet wide shingled roofed sheds running lengthwise of the corrals. New and comfortable quarters for the men 24 x 30 feet $1\frac{1}{2}$ story high, under the superintendence of Sergeant Davis, has also recently been completed.

Finally, in anticipation of the early arrival of cattle during the ensuing season, upwards of 200 tons of hay have been provided.

I have the honour to be, sir,
Your obedient servant,

W. MITCHELL, V.S.,
Veterinary Staff-Sergeant.

The Officer Commanding
North-west Mounted Police,
Estevan.

North-west Mounted Police.

STATEMENT of Cattle herded at Estevan Quarantine during the summer of 1893.

INSPECTOR C. CONSTANTINE.

NORTH-WEST MOUNTED POLICE,
MOOSOMIN, 8th December, 1893.

SIR,—I have the honour to forward this my report for the year ended 30th November, 1893.

The limits of the sub-district are the same as last year.

CRIME.

Crimes of a serious nature show an increase on last year. Two men, Italians, are charged with the murder of a fellow countryman at Grenfell on or about the 10th June last. Their trial was originally fixed for 14th December, 1893, but on application of prisoners counsel, was postponed (after the subpoenas had been served) until 22nd January, 1894, for the purpose of procuring evidence as to character, to be taken, under a commission, from New York and Portland, Oregon.

A case of manslaughter, south of Grenfell, and a case of stabbing at Wolseley. These two latter were convicted.

A woman living in Wolseley was charged with arson, and after a preliminary hearing before two of the local justices, was put on bail to appear for trial. A case of robbing the mails occurred and the party was arrested at Moose Jaw, and on trial was convicted. Another case of obtaining money under false pretences, forgery and embezzlement, all by the same person, was committed at Whitewood. The party fled to the United States and up to the present time has not been located. Efforts are still being made to find his place of hiding, with hopes of ultimate success.

A case of embezzlement at Indian Head in November, 1892. The party was followed to British Columbia, and brought back, and on his trial in February, 1893, was acquitted.

PATROLS AND OUTPOSTS.

The number of outposts in this district are one less than last year. Efforts are being made to satisfy the smaller villages by men being sent there once or twice a week on uncertain days, but this does not satisfy them, each considering that they have as good a right to have a policeman stationed permanently as those more favoured in this respect.

Patrols have been done regularly throughout the district and the men stationed for any length of time at the different posts are well acquainted with the settlers and country. A return of mileage is sent weekly to headquarters.

ASSISTANCE TO INDIAN DEPARTMENT.

Money for the different treaty payments has been delivered to the agent at the different agencies in this district and escort furnished during the payments. The Indian Home at Elkhorn has been visited, and assistance given in bringing back runaway boys. This also applies to the Industrial School at Fort Qu'Appelle.

ASSISTANCE TO RAILWAYS.

Nothing has occurred to warrant the interference of the police, except that a few tramps have been taken off passenger and freight trains

PHYSIQUE.

The physique of men composing the different detachments is good. In fact some of the men are too heavy for the size of the horses.

North-west Mounted Police.

RECRUITS.

Several recruits have been sent into headquarters after passing a preliminary medical examination before the Acting Assistant Surgeon, here.

HEALTH.

The health of the men of the different detachments, has been good, with the exception of colds incident to exposure in all kinds of weather.

One case of typhoid fever at Whitewood (Corporal Lee) terminated fatally.

RATIONS AND LIGHT.

At all the outposts except Moosomin, the men are boarded. Here they have a mess. The rations supplied are of excellent quality.

KIT AND CLOTHING.

The articles supplied are good. An improvement could be made in the quality of long boots by having the legs lined to where the tongue enters as at present the legs fall down owing to a want of stiffness. The men on this detachment have gone to the expense of having this done.

The breeches at present issued are heavy for summer wear, if one of the three pairs issued annually were of serge, it would add much to the comfort of the men without detracting from their appearance.

ARMS AND AMMUNITION.

The same old pattern of carbine is still in use, the sighting is bad and many of the barrels are honeycombed. Some of the old barrels have been replaced by new ones.

The revolvers are in good order and are a good strong shooting weapon.

INSPECTION OF DETACHMENTS.

The detachments in this district are inspected once a month as a rule. Inspections are also made when necessary at shorter intervals. A report is sent to Division Headquarters or included in the weekly report.

HORSES.

Many of the horses in this sub-district have been changed during the past season. It is to be hoped the changes will be for the better.

SADDLERY AND TRANSPORT.

Saddlery and harness are in fair order. The transport so far as provided is in good condition.

FORAGE.

At all outposts the horses are boarded except Moosomin, where a new and comfortable stable was erected during the past summer with a good wagon shed attached. The stable yard is neatly fenced.

The contract price for hay this year is rather higher than last, the contractor failed to carry out the condition named in contract and forfeited his deposit in January, from that time up to the making of the present contract, hay was bought at market price.

On tenders being called for oats none were put in, oats being very scarce. Not more than what were required by the farmers for feed and seed. I succeeded in purchasing 100 bushel at 35 cents per bushel and 300 at 40 cents. These were old oats and of good quality. This quantity will last us about seven months.

BARRACKS AND FURNITURE.

Part of the emigration building at Qu'Appelle Station is used as quarters by the Non-Commissioned Officer stationed there. This building is cold and requires several repairs. In order to make it comfortable, a double floor is needed. The doors require thoroughly overhauling, having shrunk and the panels split. At Moosomin the men are quartered in the Court-house, this building, although new, is cold.

WATER SUPPLY.

At this post there is no water in connection with the stables or quarters. It is rather humiliating to be obliged to beg, from different parties having water to spare, to be allowed to water the horses at their wells. Last winter snow had to be melted for this purpose and will probably this, when there is a sufficient quantity. Most wells go dry at the beginning of the year, except those put down by livery-stable keepers for their own use. A good supply of water can be obtained at a depth of from 160 to 200 feet, but the expense is more than the average citizen can afford. A large tank was put in the cellar of the court-house last month, but will be of no use until after the spring and summer rains. In the spring of 1891, boring for water was commenced at the court-house, on going down to a depth of about 80 feet, a large boulder was struck, the machinery used for boring would not bore through it, the work was then given up.

ROADS AND BRIDGES.

The prairie trails are good. Some road making by grading the low places has been done, but as a rule in wet weather it serves only to mire the wagons and horses, at least for the first season.

New bridges have been built at different points, were mostly required, over the different streams in the district.

Considerable wire fencing has been done during the past season. The repeal of the ordinance requiring a top rail, was in my opinion, undesirable, and it would have been better had the original ordinance remained in force, in a country where much driving is done at night.

LIQUOR LAW.

The License ordinance of 1891 is fairly carried out, and drunkenness does not appear to be on the increase, on the contrary, the cases coming before the justices for the year ended November 30th, 1893, were 20, as against 29 for the year ended 30th November, 1892.

Of course no one will pretend that in either year those were all the cases.

SETTLERS.

A considerable number of settlers have come into the district during the past season, and the foreign colonies have been increased by fresh arrivals.

RANCHES.

There are no cattle ranches in this district, but there are three sheep ranches at the west end of the Moose Mountains.

CROPS.

The crops this year, with the exception of the Indian Head district, have been light in quantity but the quality has been good.

Oats were a very light crop and of poor quality. The prices of wheat ranging from 38c. to 50c. per bushel, for the best.

North-west Mounted Police.

GAME.

Small game has been abundant during the past season. The passing of the ordinance prohibiting the exportation and sale, has been attended with excellent results.

INDIANS.

There has been no trouble with the Indians in this district.

HALF-BREEDS.

Are chiefly centered in the valley of the Qu'Appelle.

PRAIRIE FIRES.

Owing to the open fall, prairie fires, especially in the south part of the district, have been very destructive. The majority of these fires have been started by the C. P. R. engines. Those started by settlers are very few in number; these fires, in most instances have been brought home to the settlers starting them, and in several cases convictions have been obtained.

Fire patrols were stationed at different points in the district.

DISCIPLINE AND CONDUCT.

The conduct of the men has been good. Three cases of drunkenness only, in this sub-district. The non-commissioned officers and men have done their duties well.

GENERAL REMARKS.

I referred in my report for 1892 to the necessity of a constables' manual of police duties and to the class of men who should be employed on detachment duty. I beg to again draw your attention to those important points.

Men having such a guide, using it as intended, would at all times be in a position to carry out any duty devolving on a peace officer besides having the confidence inspired by a knowledge that they were right and not being in a agony of indecision, caused by being advised by parties having different interests. I am still of the same opinion.

It has occurred to me that much information could be obtained by officers, N.C. Officers and men wearing civilian clothes, when travelling alone either by train or trail, regarding cases of more than ordinary interest or consequence. Persons in uniform naturally close the mouths of people so long as near.

I personally have gained much information when travelling by train in plain clothes, information which I would not have learned had I been in uniform.

I beg to repeat my remarks in report of 1892, as regards dress for the prairie work.

A map of the district, from McLean to Fleming is forwarded with this report, showing the post offices, trails, bridges, some of the school-houses and lines followed by the patrols of the past season.

I have the honour to be, sir,

Your obedient servant,

C. CONSTANTINE,

Inspector.

The Officer Commanding "B" Division,
Regina.

INSPECTOR W. H. ROUTLEDGE.

NORTH-WEST MOUNTED POLICE, "B" DIVISION.

BOISSEVAIN, MANITOBA, 2nd December, 1893.

SIR,—In accordance with the instructions contained in your circular memorandum of the 14th ultimo, I have the honour to submit the following report of the duties performed by the detachments in the sub-district under my charge, during the twelve months ended the 30th November, 1893.

I relieved Inspector Wilson of the command of the outposts on the 10th June last, and for the period prior to that date, included in this report, I shall have to be guided by the diary and other official records on file in this office.

The sub-district consists of that portion of Southern Manitoba lying south of the Deloraine branch of the Canadian Pacific Railway and bordering on the States of North Dakota and Minnesota, and extending as far east as the Rosseau River, a distance of some two hundred miles, the headquarters being at Boissevain, a most convenient place for the purpose.

The duties of the force in Southern Manitoba consist principally in the protection of the revenue, collecting duties, making the necessary entries for settlers from the United States, patrolling the frontier, issuing "Let Passes," &c., &c., in the interest of the Customs Department, the officer in charge being an acting collector of Customs and the men preventive officers. Looking after the Crown timber and hay lands, to prevent theft of wood and hay, receiving applications for permits to cut the same and collecting the dues in connection therewith in the interest of the Department of the Interior.

In addition to the above the outpost at Gretna has had the charge and management of the quarantine station established at that place in the early part of the year, and special instructions were issued to all detachments on the line in connection with the quarantine service.

On taking charge of the sub-district in June, the detachments were located at the following points, viz.:—Lennox, Boissevain, Cartwright, Crystal City, Mowbray, Gretna, Emerson and Ridgeville. Subsequently, for the better protection of the revenue and the quarantine service, the outpost at Cartwright was moved eight miles south of that place to S. 4, T. 1, R. 15, nearer the line, and a detachment placed at Wakopa on S. 3, T. 1, R. 18, within a short distance of the boundary and the main trail leading to St. John and other points in North Dakota, and another on the east side of the Pembina, Hills, south of Morden, on S. 2, T. 1, R. 5, and near the trail leading to Wallhalla, N.D.

Later on the detachment at Crystal City was changed to Clearwater, and will be moved nearer the boundary as soon as a suitable place can be found.

CUSTOMS.

During the year ninety Customs entries were made at the police detachments, and the duty collected in connection therewith was forwarded weekly to the Collector at Winnipeg from this office. Twenty-two of these entries were made by settlers from the United States, the value of whose effects amounted to \$5,407.60, and eighteen were export entries.

Three Customs seizures were made during the year, the property having been smuggled from across the line.

From the 1st September until the 17th ultimo, Corporal Knight was in charge of the Customs Office at Deloraine, and I have reason to know that his management of the office was satisfactory in every way to the Inspector of Customs.

Some 1,500 "Let" and verbal passes were granted at the several outposts to persons crossing the boundary.

North-west Mounted Police.

Animals brought in by settlers are invariably examined by the Veterinary Inspector before being allowed to proceed to their destination. One instance occurred during the season in which a horse, not passed by the Veterinary Officer, was returned to the United States.

Information gathered in connection with the Customs has been forwarded to the Inspector at Winnipeg.

DUTIES IN CONNECTION WITH CROWN TIMBER.

During the year, 965 requisitions for timber permits and 149 returned permits were received by the detachments, dues collected, and forwarded through this office to the Crown Timber Agent at Winnipeg.

A number of requisitions to cut hay on Dominion lands were also received and forwarded to the proper quarter.

Suitable regulations or "Standing Orders" for the men employed on Crown timber business, were compiled in this office and received the approval of the Crown Timber Agent. They have been found of great assistance.

Twenty-eight timber seizures were made by our men during the year.

A very great amount of patrol work is done in all sorts of weather in connection with the timber business, and a large number of the requisitions are written out on the trail.

QUARANTINE.

The quarantine station at Gretna was established on the 27th March last, the enclosed race track being leased for the purpose, and the work of erecting sheds, stables, loose boxes and fences, also the making of hay racks, water-troughs, &c., was at once commenced.

The following remarks, quoted from Staff-Sergeant Joyce's report, will fully explain the arrangement and working of the station:—

"On 1st April, the stables and shedding of No. 1 yard were ready for the reception of stock, forty-one head of cattle entering quarantine on that date.

"On account of the lack of space a fifteen-day limit was decided on, whereby all cattle entering quarantine during the period of fifteen days were yarded together, so that under this system four yards were all that were required for the season.

"From 1st to 15th April, one hundred and thirty-one head of cattle entered quarantine.

"The shedding and fences for No. 2 yard were commenced on 13th and completed on 15th April, the first fifteen days, all first-class cattle being removed to that yard on 17th April.

"During the next fifteen days, fifty-one head of cattle entered quarantine. No. 3 yard was commenced on the 27th and completed on the 29th of April, and on the 5th of May, the second class cattle, fifty-one in all, were removed from No. 1 to No. 3 yard.

"On 20th April, the Commissioner and Dr. McFadden, the Veterinary Inspector, inspected the quarantine, giving instruction to alter No. 3 yard and to erect fences, boxes and hay mow for No. 4 yard. The alterations in No. 3 yard were completed on 22nd May, and No. 4 yard was finished on the 23rd, and occupied by the third-class cattle (16) on the 29th May, the fourth-class cattle (30) occupying No. 1 yard.

"On 10th April, the unloading yard was started connecting the Canadian Pacific Railway side track with the quarantine station, and was completed on the following day.

"A portable chute for the unloading yard was supplied by the Canadian Pacific Railway Company and placed in position by them.

"The nuisance ground was fenced in, and all manure, refuse, &c., from the quarantine was taken thereto.

"At intervals the stables, fences and boxes received a coat of lime wash, which added considerably to the health of the cattle, besides giving a clean and tidy appearance to the premises.

“Particular attention was paid to the cleansing and disinfecting of the railway cars, the manure, &c., being thrown into the unloading yard, from whence it was hauled to the nuisance ground. A strong solution of carbolic acid was used for disinfecting the cars, the floor, sides and ceiling being thoroughly washed.”

“The branding of the cattle was done by means of a hot iron, the numerals from 1 to 10 being in use. The brand, where branded, name of owner, late and future residence, date, description and condition being entered in a register kept for the purpose.

“Hay is the principal fodder used, bran and chop are given to animals in a poor and debilitated condition : a warm mash is always given to cows after calving. The cattle were fed twice a day, at 6.30 a.m., and 4.30 p.m. In severe weather (such as we frequently experienced last April), a noon ration was allowed. The small cattle such as yearlings and calves, I found necessary to feed by themselves, the stronger animals driving them from the feeding racks.

“A few pieces of rock salt was distributed in each yard, being essential for the maintenance of health, the cattle exhibiting much greater relish for their food, consuming it in a shorter time, and drinking larger quantities of water.

“The water used in the quarantine is obtained from the Canadian Pacific Railway tank. It is hauled by a civilian, and during the very warm weather large quantities were used. A suitable hose and coupling was purchased by the department and attached to the Canadian Pacific Railway tank, for use in filling the quarantine tank.

“Four members of the force and one civilian were employed during the ‘rush’ of cattle coming in ; their work consisted of unloading, branding, disinfecting cars, feeding, repairing fences, &c. A constable was detailed each night for duty in the quarantine, to visit every part thereof, &c., every two hours. The milking, cleaning stables, sheds and yards being done principally by the civilian employed.”

Total number of cattle received into Gretna quarantine	490
Increase	37
Deaths of increase in quarantine	4
Deaths of cattle received	3
Destroyed in consequence of injury to hip joint	1
Lost on prairie (calves dropped on trail)	2
Died on prairie	1

North-west Mounted Police.

A few days after my arrival here in June last it came to my knowledge that a man with a yoke of oxen had evaded the quarantine, and was supposed to have proceeded to Lake Dauphin *via* Morden, having crossed the line east of the Pembina Hills on the Walhalla trail. At the time there was no police outpost or patrol south of Morden, or customs official at that place.

Corporal Knight was detailed to trace the case, and, after a lot of trouble and travel, located the oxen about sixteen miles northeast of the Lake Dauphin post-office, at the end of June, when they were placed under quarantine.

On the 30th July last, while patrolling the boundary south of Lennox, the detachment at that place came across a man with 130 head of cattle from the United States en route for Deloraine, his intention being to ship them by rail from there to the quarantine station at Estevan. In accordance with the quarantine orders in the possession of the detachments, these cattle were immediately sent back over the line and the owner informed that they could only enter at a quarantine station. He remained south of the line and gave the non-commissioned officer to understand he would take his cattle by trail to Estevan.

For some (to me) unaccountable reason the customs officer at Deloraine, who must have been aware of the quarantine orders in force, subsequently permitted the man to enter at that place and ship his cattle by rail to Estevan.

Two cases of quarantine occurred at Wakopa. Shortly after the outpost at that place had been established, the constable in charge discovered that an ox had been smuggled over from Dakota some time previous, and was in the possession of a man at Wakopa. The ox was placed under customs seizure and the matter reported to the quarantine inspector, who quarantined the ox and the cattle with which it had come in contact for the authorized period.

The other case came about through the action of a settler in tying up a bull on his place which had strayed across the line, and on the matter being reported to the quarantine inspector, he placed the bull and the man's cattle under quarantine. Descriptions of the cattle were taken, and they were inspected and checked at regular intervals by the men of the detachment.

At Cartwright a man who had lost some calves found them across the boundary and brought them back. A report of the case was made to the quarantine inspector, who placed the animals under the usual quarantine.

INDIANS.

A small number of Sioux Indians occupy a reserve in the Turtle Mountains, and are generally well behaved, and are self supporting, raising small crops, and in some instances they work out for farmers during harvest.

There is also a small reserve on the Rosseau River.

During the year there has been one case of selling, one of giving and one of offering intoxicating liquor to Indians living on the Turtle Mountain reserve. In each case the guilty parties have been brought to justice and fines varying from \$50 to \$100 and costs inflicted.

Two of these cases were brought about through some straggling Indians, who, although living on the reserve, did not belong to it, and as there were other stragglers with whom the Indians belonging to the reserve were not on friendly terms, they have been sent off the agency by the Lennox detachment, under instructions from the Indian Department. The police in the vicinity frequently visit the reserves.

PATROLS.

An effective patrol system has been maintained along the international boundary during the year, and in addition frequent night patrols have been sent out along the trails in the vicinity of the stations on the boundary to prevent smuggling, &c. With

the exception of Ridgeville and Emerson each outpost consists of two men, one of whom remains at the quarters to attend to persons who have business to transact, the other being on patrol duty. Halfway houses, when necessary, have been established between stations.

The patrol distances are as follows :

	Miles.
Ridgeville to Rosseau River, east.....	19
do to Emerson.....	12
Emerson to Gretna.....	18
Gretna to Section 2, Township 1, Range 5.....	25
Section 2, Township 1, Range 5, to Mowbray.....	30
Mowbray to Clearwater.....	35
Clearwater to Cartwright.....	25
Cartwright to Wakopa.....	18
Wakopa to Boissevain.....	25
Boissevain to Lennox.....	32
Lennox to Sourisford.....	25

For greater advantage I have endeavoured, as far as possible, to have the patrols on the frontier carried out at irregular intervals.

ARMS AND ACCOUTREMENTS.

Several of the carbines (Winchester), as already reported to you, are badly "honey-combed" and require new barrels. The revolvers are in serviceable condition.

Revolver A3581 in the possession of Reg. No. 2454, Constable Bailey of the "Mountain" outpost, was accidentally lost by him in July last while returning from Morden, the circumstances connected with this loss were reported to you at the time, and although every effort has been made by Constable Bailey he has not, so far, succeeded in recovering the weapon.

The ammunition belts, revolver holsters and carbine covers are in serviceable condition, several of them having been repaired during the summer.

KITS.

With a few trivial exceptions the kits of the non-commissioned officers and men are complete, the deficiencies set forth in my inspection reports having received prompt attention at division headquarters.

If permitted, I would suggest that in future issues of fur coats, a square collar buttoning well up the throat be substituted for the present rolling collar which affords little protection.

SADDLERY AND HARNESS

In good order. During the year I have had the horse-blankets thoroughly overhauled and repaired and they will do for the present winter. Three additional blankets, already requisitioned for, are necessary to complete the equipment under this heading.

HORSES

Are generally in good condition. Two or three of them, however, I do not consider suited for heavy patrol work, and I have your authority to send one of the number west, but cannot do so just now, as the animal is "off duty." Horse Reg. No. 842 off duty at Gretna for a considerable time during the summer with quarter cracks, has nearly recovered, and when I last saw him was doing well.

Horse Reg. No. 755 was cast and sold at Killarney on the 4th March last.

Horse No. 1725 was off duty for several months in the early part of the year with a severe cut on his off hind leg, and was sent to Estevan on the 31st of May last.

Total mileage for the year was 51,405 miles.

North-west Mounted Police.

TRANSPORT.

At this place there is a buckboard, a jumper and a double sleigh, all in good order. The detachments with the exception of Wakopa, Mountain and Emerson, are provided with jumpers, all in serviceable order when I last inspected them. I have asked for authority to provide the above named outposts with jumpers which are necessary, particularly as far as Wakopa and Mountain are concerned, at both of which places there is a lot of travelling to be done in the winter in connection with timber matters.

BILLETS.

• Except at Boissevain, Gretna and Emerson where the men live at hotels, the detachments are boarded at farm houses near the boundary line, and as a rule have fair quarters. A room, in some cases very small, with a separate entrance being provided for our men. As far as practicable the beds, kits, &c., are arranged in the same manner as at division headquarters, and I have at all times found the rooms neat and clean.

DISCHARGES AND RE-ENGAGEMENTS.

On the 18th October, Reg. No 2653, constable J. L. Salmon was permitted to purchase his discharge.

Reg. No. 1677 Corporal Patrick Doyle re-engaged for further service from the 29th October.

HEALTH.

The health of the men has been good, only one Reg. No. 2619, constable Rae, having been on the sick list for any considerable time, and he was removed to headquarters.

CONDUCT AND DISCIPLINE.

Has generally been good. The men discharge their duties in an intelligent manner, and seem to take an interest in their work. Three men were sent to headquarters on account of serious offences against discipline.

INSPECTIONS.

Shortly after my arrival here you inspected the detachments at this place and Crystal City, and arranged for the placing of the men at Wakopa, and the removal of the Cartwright outpost to its present location.

I have frequently inspected all the outposts and found them generally satisfactory; special reports on such inspections were furnished to you.

The crops have been light, especially in the western portion of the district, and the price of wheat low. In the early part of the year the prospects were all that could be desired, but the subsequent absence of sufficient rain fall, together with hot high winds did great harm and accounts in a great measure for the light yield.

Messrs. Gordon and Ironsides have, as usual, done a large cattle business and the districts in which they operate have naturally benefited thereby.

I have the honour to be, sir,

Your most obedient servant,

W. H. ROUTLEDGE,

Inspector.

The Officer Commanding "B" Division,
North-west Mounted Police,
Regina.

APPENDIX D.

ANNUAL REPORT OF SUPERINTENDENT R. B. DEANE, COMMANDING
"K" DIVISION, 1893.

LETHBRIDGE, 1st December, 1893.

SIR,—I have the honour to render the annual report of "K" Division for the year ended the 30th November, 1893.

GENERAL STATE OF THE DISTRICT.

The outlook is probably brighter now than it has been at any time since Lethbridge came into existence. The mines are doing a steady business, the daily output being on an average 1,100 tons, the Lethbridge and Dunmore line is being operated by the Canadian Pacific, the extension of that road to Macleod next year seems to be a certainty and there is a feeling of hopefulness with regard to the future prospect of the town, begotten possibly of the monthly sum of \$50,000 which is paid out here in wages to miners and railway employees.

Electric lights have been introduced and the municipal fire protection is undeniably good.

A building which will, when completed, be used as a court-house and furnish accommodation for Custom House, Inland Revenue and Post Office officials, is steadily progressing and will be finished next year.

On the 17th January the Alberta Railway and Coal Company's stable, in the river bottom, was burnt to the ground and nine horses perished. Our afternoon fatigue party was just falling in, and a team was hitched up, so that some of our men were on the spot very soon after the alarm was given, but the roof had fallen in before they arrived, and all they could do was to prevent the fire from spreading.

About 11.30 p.m., on the 13th April, an alarming fire broke out in a livery stable, in town, and eight horses were destroyed. Fortunately there was no wind, and the steam fire engine did excellent service, so that the flames were confined to the stable and one small house adjoining. The origin of the fire is a mystery.

La grippe was very prevalent here in the spring, and the condition of the river water was such as to cause some anxiety. In and about the streams throughout the country were numerous carcasses of cattle which had died during the winter under stress of weather. These carcasses were found in coulees where the animals had been for the most part snowed in, and when the snow melted, and the bodies began to putrify, the rivulets that trickled down "to join the brimming river" were anything but wholesome. Until late in the summer all the drinking water used in barracks was boiled. I submit that in a place like this where we are solely dependent on river water a filter should be supplied for the use of the barracks. There is an excellent filter, known as Crease's, which was in use on the Gold Coast, and one large iron filter would suffice for the whole barracks.

A mail service has been established between here and Coutts, leaving Lethbridge on Mondays and Wednesdays, and returning on Wednesdays and Fridays. So far as police business is concerned we were better off before the mail was established, for then our mail bags could travel by any train.

It is interesting to learn that \$1,000 plus *x* representing costs, would seem to be the face value of human life in Great Falls, judging from the following incident. A certain citizen of the Great Republic had a nephew to whom he was said to be much attached, and who was engaged in the process of sowing his wild oats with a persistency worthy of a better cause. One fine morning in July the nephew embarked in the train at Great Falls for Canada, with a *chère amie* and her sister. The uncle, who disapproved of the liason, boarded the train and ordered his nephew to leave it, which he declined to do. The uncle then retired and began revolver practice at the car. The

North-west Mounted Police.

inmates thereof, as soon as they saw him "pull his gun" (as the expression is), incontinently threw themselves upon the floor, but one unlucky bullet found its billet in the back of the unoffending sister's head. The party continued their journey, notwithstanding, and came to Lethbridge, and while the errant couple went on to British Columbia, the girl in question went into hospital, where she died on the 21st July from the effects of the said bullet wound—so said the Coroner's jury. The representatives of the State, together with legal and medical experts, in the interests of the accused, came over and identified the body, and the uncle was admitted to bail on a charge of manslaughter. The end of it all is that he has been fined \$1,000.

From the 21st February to the 12th April I was on the sick list, suffering from appendicitis and peritonitis, and it is safe to say that I owe my life, under Providence, to Dr. Newburn's skill and attention, and to the good nursing I received.

We have had a great influx of undesirable citizens from the south this year. When the smelters were closed during the depression in the States, large numbers of men were thrown out of employment, and a proportion of them came over to work on the Lethbridge and Dunmore Railway. Taking them all in all, they were the "hardest looking crowd" that has been seen in this neighbourhood. They kept us very busy while they were here, and we rejoiced to see them depart, that is those of them who did depart, for we have some of them yet with us.

CRIME.

The following list comprises all complaints of offences which have arisen within the district during the year :—

Offence.	Convictions.	Dismissals.	Refusals to prosecute.	Warrants not executed.	Unaccounted for.	Awaiting trial.	Total.
Offences against the person	18	5					23
Malicious injury to property	2	3			1		6
Larceny	10	5	2	2	2	1	22
Offences against Indian Act	8	3					11
Escape from lawful custody	1						1
Bigamy				1			1
Setting out prairie fire	1						1
Vagrancy	1						1
Bringing stolen property into Canada				1		1	2
Miscellaneous	70	1					71

	Horses.	Total.	Recovered.	At large.
Horses reported stolen		2	2	
Horses reported strayed or lost		34	14	20
Stolen from Gros Ventres at Fort Belknap		5	2	3

The first item includes an assault upon a peace officer which called forth a month's imprisonment from the judge, before whom the prisoner elected to be tried.

The malicious injuries to property were petty cases, calling for no special comment.

The complaints of larceny are rather more numerous than usual, attributable in great measure to our visitors from abroad. In two instances the prosecutor declined to press the charge, and in two cases we failed to trace the offenders. One of these last was the theft of a parcel of groceries from the A. R. and C. Co.'s freight shed, of which we received no notice until the 2nd April, the articles having been stolen on the night

of the 31st March, and the other case was the stealing of haberdashery from a store, of which the police were not informed until at least a fortnight after the articles were alleged to have been stolen.

John Chizar, a Hungarian miner, was sent to Regina jail for one year for having defrauded sundry merchants in town. He was arrested at Coutts on his way into Montana.

George Rothe, having been previously convicted, was sent to the penitentiary for stealing a gold watch and chain.

On the 1st August Frank Elliott ripped up a portmanteau belonging to a guest in the Lethbridge House, took out an assortment of clothing and decamped. He was eventually arrested in one of the construction camps on the Dunmore railway and was sent to Regina for one year.

On the 9th August Thomas Miles stole some clothing from a tailor's shop and was sentenced to three months' imprisonment with hard labour.

On the 6th August a boat was stolen by three men from the United States who started down the river towards the Saskatchewan. We headed them off at a point about twenty-five miles distant, and two of them were awarded one month and the other fourteen days' imprisonment with hard labour.

For stealing an overcoat in the Lethbridge house on the 2nd October, Charles Doyle was sentenced to two months' imprisonment with hard labour.

On the 15th October J. Stackhouse was arrested in a Round-up camp about twelve miles from town with a suit of clothes in his possession that he had stolen from a livery stable here, and is now undergoing the penalty. Six months' imprisonment with hard labour.

A warrant was issued on the 16th October for one Hislop, charged with stealing \$30 from the person of Frank Ingram. Hislop was sleeping with Ingram who had been supporting him for some days while he was out of employment, and repaid his kindness by picking his pockets and leaving town by a work train in the middle of the night. We traced him after a few days to the track layer's camp where he had had supper on the night before the constable arrived, and where from he had levanted during the night. We could never hear of him after that; and if he took to the open prairie, as I imagine, it is not unlikely that his bones are there now.

Another warrant that we were unable to execute was that issued here in June upon an information laid of a theft that had been committed in Calgary in March. The offender had left this district before the complaint was made here.

A man is awaiting trial here for being concerned in a very impudent piece of thieving. On the 4th November, about 11 p.m., two racks containing baled hay were standing at the entrance to the railway and coal company's stable yard. Constable Condon who was on duty on the premises was attracted towards this spot by the sound of a wagon, and saw a hay-rack with eight or nine bales of hay in it. There were three men with the rack who were the company's employees for aught the constable knew or suspected. He was following the rack as it moved off, when one of the men shouted "jump," and the driver whipped up his horses. A little further on one of the men appeared in the road from the wagon and said to the constable, who was still following, "If you don't stand back I'll kill you dead." With an increasing interest in the wagon the constable tried, by a short cut, to head it off near one of the shafts, but it was travelling too fast and he, therefore, returned to town and reported the circumstances to Sergt. Hare. He thought he recognized the voice of the man who spoke to him and, on that assumption, he and the sergeant rode out a few miles to where they expected the wagon would be brought about daylight. After a while it began to rain and then to snow, so that the ground was well covered in the morning, and as their expectations were not realized they returned to barracks about 1 p.m. next day, having searched all the coulées and river-bottoms within a given radius and found not that they sought.

Meanwhile I had sent the Indian scouts to search other coulées and river bottoms and about 9 p.m. they reported that they had found eight bales of hay in the river below the bridge, and a hay rack stuck in the middle of the river about a mile further up stream. The scouts were set to watch both rack and hay and report if any one should attempt to remove either.

North-west Mounted Police.

On the morning of the 6th, Sergeant Major Macdonell and an Indian picked up the trail of the wagon where it had entered the river on the other side, and tracked it up the hill of the old Macleod road and along the beach until it struck into the present Macleod road, whence it descended that hill, crossed the bridge, and led up the coulee towards the company's stable yard, where the Indian subsequently found unmistakable traces of the self same wagon. On the afternoon of the 6th the prisoner and another man attempted to haul the wagon out of the river, and when asked how and when it had got there the former said that he had got stuck when crossing at 5 p.m. on the 4th instant.

On the following day the prisoner was arrested. I should have said that the wagon in its flight stopped on the bridge for a few minutes while the hay was being thrown into the river, and there was abundant evidence of where it had stood, apart from other evidence that will be adduced. The case has been partly tried, but is still *sub judice*, as there are several more witnesses to be tried.

The eight Indians mentioned were convicted of drunkenness. They are very cunning in their methods of obtaining liquor in a roundabout way and, when asked about it, invariably say they found it in the bush.

There was one charge of supplying liquor to Indians which was dismissed.

One convicted prisoner undergoing sentence here made an unsuccessful break for liberty a short time ago, and fourteen days were added to his original term on account thereof.

The bigamist, who married a second wife here, must, I think, have had an inkling of the journey hitherward of wife No. 1, for he sought the seclusion of the United States a short time before her arrival.

The miscellaneous offences were mainly those of drunk and disorderly conduct and the like.

Two men crossed the boundary on the 21st September, with a light wagon and team of horses which they had hired at Dillon, Montana, and which they sold here. It was some weeks before we got notice from the livery stable keepers in Dillon, and the principal in the affair had by that time made good his escape, so that there seems little prospect of the warrant in his case being executed. His companion is however awaiting trial here.

The two horses reported to have been stolen were subsequently found in possession of Indians and were recovered and returned to their owners.

Of the thirty-four horses reported lost, twenty are still at large so far as our information goes. It is very rarely that an owner who recovers lost horses notifies us, so that we are obliged to hunt him up in order to get the information, and this year we have been too busy to do this. For instance a bone picker ranging all over the prairie, lost all his horses, thirteen in number. We recovered eight of them for him and have never seen or heard of him since. Again a man who came here from Montana with five horses lost them all on the night of his arrival. We circulated their descriptions and he started off to look for them but I have not heard of him since. One police horse which strayed from Milk River Ridge, and one which strayed from here owing to the neglect of the herder, are among the number of missing. We shall doubtless recover them in course of time, but the conditions have been against us hitherto because prairie fires have burnt so much of the country that it is impossible to judge of a stray horse's probable movements.

I received notice on the 21st November of 5 horses having been stolen from the Gros Ventres near Fort Belknap in the United States and our Pendant d'Oreille detachment recovered two of them at Many Berries Creek. We could have recovered them all if we had known sooner. They were missed from Belknap on about the 9th August. I have notified the Indian agent there to send to Pendant d'Oreille for them.

INDIANS.

There have been no complaints this year about Indians, who have behaved very well. The morals of the squaws are not perhaps all that could be desired, but whenever they come here for an improper purpose we tell them to go, and they go without any

further trouble. It subsequently transpired that during last winter there had been some killing of range cattle, especially on the reserve, but the ranchers concerned were satisfied that Indians were not the culprits.

OUTPOSTS AND PATROLS.

The number of non-commissioned officers and men on outpost duty during the summer was as follows :—

	Officers.	N.C.O.	Constables.	Horses.
Milk River Ridge.....		1	4	6
Coutts.....	1	1	5	9
Writing-on-Stone.....		1	4	7
Pendant d'Oreille.....		1	4	6
St. Mary's.....		1	4	5
Little Bow.....		1	3	4
Hay Camp.....		1	4	16
Quarantine Camp.....		1	1	2

At Milk River Ridge the buildings are in excellent condition but require a coat of paint which they have never yet received although they have been built upwards of five years.

At Writing-on-Stone and Pendant d'Oreille the buildings are much improved by having been lined with paper and ceiled lumber.

At Pendant d'Oreille a small additional building is much required for the use of the non-commissioned officer in charge of the detachment and of the officer on outpost duty. Logs can be obtained within about twelve miles of the post and can be hauled up the river on the ice during the present winter. The sum of \$150 will then cover the cost of completion.

We have had a hay party working along the frontier from July till November, they experienced great drawbacks from the variable season, and the early snowfall compelled them to finish operations before they had adequately supplied Coutts and Milk River Ridge posts. They put up 42 tons at Pendant d'Oreille, 52 at Writing-on-Stone, 16 at Coutts and 22 at Milk River Ridge, the quantity being computed by measurement after 30 days. The distances are long, the roads intersected by coulées make the hauling very heavy, and the hay is withal scarce, so that a mower cuts over a great many acres, a little here and a little there, in order to furnish material for a forty-ton stack.

Contracts were let for the supply of fifteen tons at \$9.75 for St. Mary's and twenty tons at \$15 for the Little Bow detachments.

ASSISTANCE TO CUSTOMS DEPARTMENT.

A weekly patrol carrying despatches for the customs officers between this and St. Mary's was maintained from June till October inclusive, and we have furnished such transport as was possible to officers of that department when required. We also provided stable room and hay for a number of mules which were detained here by the collector of customs for the space of six weeks.

ASSISTANCE TO DEPARTMENT OF AGRICULTURE.

Quarantine requirements have kept us very busy all the season. Not so much on account of the cattle actually in quarantine, but on account of the difficulty of keeping American cattle on their own side of the line. We have always had a certain amount of trouble in this respect, but since last winter our difficulties have been intensified. Under the influence of a succession of northern storms a large number of Canadian cattle drifted southward and crossed the boundary into Montana. A number estimated by a capable man to be from 2,500 to 3,000 head were first observed near the west butte of the Sweet Grass Hills, during February. These had crossed the Milk River below

North-west Mounted Police.

Writing-on-Stone, and had gone into Montana, and the majority of them were branded with a circle and other hieroglyphics, denoting them to be the property of the circle ranche, which is practically owned by the Conrad Bros.

Another bunch of about 300 head, branded S.T.V., with a dewlap, the property of the Cochrane ranche, was observed to cross the line near John Joe's springs, not far from Milk River Ridge, while others crossed the river higher up, all driven by storms which they were unable to withstand, and all going into Montana.

It thus happened that when spring opened there was a large number of Canadian cattle on American soil, intermingling with American cattle. In course of time these animals, frequently accompanied by their American cousins, desired to recross the line into Canada, but here the newly issued quarantine regulations stepped in in the personality of the Mounted Police, and said, "No, if you want to come into Canada you must submit to quarantine restrictions for three months." Obviously then, it was the duty of the police to prevent any of such cattle, Canadian or American, from crossing the boundary except in conformity with the regulations, and they did so to the best of their ability.

I may repeat here what I have previously reported at great length, namely, that it is absolutely impossible to control storm driven range cattle. There is a stretch of about thirty-five miles of country between Writing-on-Stone and Pendant d'Oreille which is always swarming with cattle, and as a matter of course, a large proportion of them come to the Milk River for water, which they will not be denied. Nothing short of a substantial and continuous stone wall would prevent those cattle from slacking their thirst there, and if it should happen that they turn their noses northward during the winter with a southern storm behind them, an army of cowboys could not keep them back, for it must be borne in mind that neither man nor horse can face a storm which drives range cattle from their accustomed shelter.

Returning, however, *à nos moutons*, it may readily be supposed that the quarantine regulations were anything but welcome news to owners of the expatriated cattle upon whom a three months' quarantine would entail a good deal of expense, seeing that range cattle must be herded night and day by herders provided by the owners under the supervision of the police.

After a while a formal complaint, in the shape of a statutory declaration was made by the manager of the Canadian "circle" ranche to the effect that the police had prevented certain men from rounding up certain cattle, the number of which was not stated, and that the police were driving Canadian cattle into Montana, to the great prejudice of the Canadian stockmen. It is only fair to say that some of the neighbouring stockmen have since gone out of their way to assure me that they declined to associate themselves with this complaint, because they were satisfied that the police were doing no more than their duty.

The sole ground for the allegation that the police had prevented a round-up party from taking certain cattle to which they were entitled, consists in the following incident as reported by Corporal Dickson, at Writing-on-Stone:—

"In reference to cattle which the round-up was stopped from taking, there were two head which were on the quarantine ground, and came over the line with other cattle. I sent constables Lackie and Loggin to stop them from taking them off quarantine and to inform them that to get these cattle they must report at Coutts with them. (N.B.—The officer was at Coutts and Corp. Dickson referred the question for his decision.) They replied that they would not take them at all, so I drove them back across the line with American cattle. This was the third time those cattle were driven south; the first time I drove them back myself and saw them come back across the line, and was justified in holding them or putting them back over the line."

It would then appear that this proceeding excited the curiosity of the foreman of the Round-up, and on making inquiry he learned from the police that, in accordance with orders, they were driving back all cattle coming from Montana which were not avowedly brought into quarantine.

Upon that, Mr. Harris founded his second complaint and implied that the police had wantonly driven 500 or 600 head of Canadian cattle into Montana, which was absurd.

Owing to the agitation which was started in order to obtain, if possible, a repeal of the restrictions, no range cattle were brought into quarantine during the year, although many of the smaller owners told me afterwards that they regretted they had allowed themselves to be talked out of it. The idea was to round-up all the Canadian cattle in Montana and bring them into quarantine, the expense of herding them to be divided *pro rata* among the several owners concerned. The restrictions mattered little to the circle cattle for there is an American branch of the same concern, and cattle were fetching a higher price on the south than on the north side of the international boundary.

I have previously reported that to certain western stock owners the establishment of quarantine regulations is intensely repugnant. They deny that there is any disease in the west or in Montana, and believe the precaution to be uncalled for. They claim that any disease that reaches England is carried thither by eastern cattle only, and does not originate in the west.

They say that it is absolutely impossible to prevent Canadian and American cattle from intermingling, at all events in the winter.

They contend that it has been proved that it does not pay to ship western cattle to England and to feed them there, and they have, therefore, no objection whatever to their cattle being slaughtered at the point of debarkation.

In conclusion, they say that rather than be subjected to the expense entailed by quarantine regulations they are willing to see Canadian cattle scheduled in England for all time.

Nineteen head of cattle the property of Mr. W. W. Gates, an immigrant from the United States bound to Wetaskiwin, were taken into quarantine on the 23rd May and after 90 days probation were handed over to the owner at Macleod together with two additional calves.

A wild cow joined this band one day and, calving shortly after, remained with them until they were driven away, when she went south.

For the accommodation of these cattle we constructed a strong corral forty feet square into which they were driven at night, and by day they were herded in the neighbourhood by two Indians under Police supervision.

Two other Indians were also engaged in assisting the Police to keep the quarantine ground clear of trespassing cattle from the south.

On the 18th August another small band, 14 in number consisting chiefly of milch cows, the property of a Mr. Smith whose eventual destination is Morleyville, were brought into quarantine also at Coutts.

Three cows and calves quarantined at the Writing-on-Stone End of the quarantine ground complete the number of cattle which we have handled during the year.

PRAIRIE FIRES.

The whole country has been literally burnt up by fires started in most cases by trains—in some cases by carelessness, and in some, there is reason to believe, designedly by bone-pickers. On the burnt ground it is easy to see the bones from a distance. Fortunately the buffalo bones have been pretty well gathered up by this time, so that this incentive to mischief will not exist much longer. The trains are absolutely reckless as to the damage they cause. We have systematically examined the engines to see if they were fitted with spark arresters, and experience goes to show that they are no protection whatever.

At the end of July the greater part of the quarantine ground was swept by a fire started by the Southern railway to the south of the boundary. This was probably due to sheer neglect in not having a proper fire break. Acting Corporal Richardson, who was in command of the detachment at Writing-on-Stone in a report dated 1st August thus describes this fire :—

“I saw smoke which appeared to come from the southern part of the quarantine reserve and sent out Constable Moran to see where it was coming from. He came back and reported that there was a large fire burning on the quarantine reserve and that it appeared to have come from the American side. Constables Pratt, Moran and myself

North-west Mounted Police.

immediately started out to see what we could do in the way of fighting the fire, but there was such a strong wind blowing that it was impossible for us to cope with it. I therefore sent a despatch to Corporal Candle, he sent me a team, water and four men and we fought it on the north side of the mouth of Red River, then, crossing the burnt ground to the other side we were putting it out there but a strong gale got up and we were too small a party to master it. I then rode round and saw that it was burning so close to Milk River that it could do no damage in that locality so I told the men to go home, it being 3 or 4 o'clock in the morning as far as I could judge. Constable Pratt and I then rode round the outskirts of the fire and saw that the wind on the east side was so strong that it was gradually blowing it out."

On the 20th August a large prairie fire coming from the railway was seen raging to the south of us about twenty-five miles distant. As it happened I had not a single team available and was thus obliged to let it burn itself out. Rain put it out on the night of the 21st of August.

On the 24th August a large fire which had been devastating the unsettled plains between the Dunmore Railway and the Milk River swept down upon our hay camp, about ten miles to the north of Writing-on-Stone detachment, and the men under Sergeant Davis had great difficulty in saving the camp. As it was the fire burnt about three tons of hay which had been cut.

On the 31st August Staff-Sergt. Fraser and six men went out about eight miles, and between 10 p.m. and 2 a.m. put out about twelve miles of fire which extended from the Dunmore Railway to the Eight Mile Lake

On the 15th September about 2.30 p.m. a column of smoke was observed to arise in the direction of Kipp and Sergeant Major Macdonell went out. A man named McEwen was prosecuted for starting this fire, convicted and fined \$30.

DISCIPLINE, CONDUCT, &C.

The discipline of the Division has been excellent and the present non-commissioned officers, headed by Sergeant Major Macdonell, are all very capable men. Having got rid of some of the useless personnel of which I wrote last year, three dismissals having taken effect within the past twelve months, the conduct of the men has been satisfactory. A great deal of work has been done and done well. The detachments in particular are deserving of a word of praise, as is Sergeant Hare, whose time night and day has been fully occupied by duty in town. Staff Sergeant Belcher is the best Quarter Master Sergeant that it has been my fortune to meet.

DRILL, TARGET PRACTICE, &C.

The customary spring drills were carried out, but since then we have had until quite lately, no men and but little time for drill. The detachments have been drilled by their own non-commissioned officers and inspected periodically by the officer on out-post duty. They have also undergone some rifle and revolver practice as time and opportunity have allowed. We shall do the same here as soon as the weather will permit, but it is awkward in that we have no range and shall be obliged to seek some river bottom where we can fix a cotton target against a cut bank and practice at any range that may be possible

PHYSIQUE AND HEALTH.

The physique of the Division is good as usual, and the men's health has been excellent.

RECRUITS.

One recruit was engaged here on the 5th December, 1892, and sent to Regina. Twelve non-commissioned officers and men have re-engaged.

DISMISSALS.

One constable has been dismissed on conviction of larceny, one for habitual drunkenness and one for over-holding a complaint against the non-commissioned officer of his detachment.

RATIONS.

The rations are ample and good.

KIT, CLOTHING, &c.

The issue of kit, clothing, &c., is generally satisfactory.

HORSES.

We have received seven remounts during the year and Inspector Morris's trooper transferred from "H" Division. Per contra one horse, lost from Pendant d'Oreille in 1887, and three horses stolen from the camp at Red River in 1890, have been struck off our strength, together with eight others which have been cast and sold. One of the remounts died of blood poisoning after a long illness, during which we hoped to save him but the condition of his body after death showed that this was out of the question.

Eighty-one horses have travelled 202,378 miles.

SADDLERY AND HARNESS.

Several of our saddles, as reported last year, require to be re-lined. We have all the harness that we require for present purposes.

FORAGE.

The current contract price for oats is 51c. per bushel, this being by 14c. the lowest tender. The Mormons will apparently supply the bulk of the 9,000 bushels that we require. Hay is not so plentiful as last year. I thought 150 tons would suffice for this post, but bad weather caused a shortage in the supply at Milk River Ridge and Coutts, and, if it can be purchased at a reasonable figure in the spring, as I anticipate, I think it will be well to lay in about 25 tons more. There was a "ring" formed here to raise the price of hay from \$16 to \$18 per ton, and the amounts of the original tenders varied between those figure. Those tenders, however, having been all declined. I received another at \$14.50, which was a fair price, and I accepted it.

Hay has been selling in town for some time at \$15 per ton weight.

TRANSPORT.

Our buckboards are completely worn out, and we are in urgent need of one single and two double buckboards. We purchased one Schuttler wagon last spring, and shall require another next year.

ARMS.

Our Winchester carbines are all very old, and accurate shooting with them is out of the question.

GENERAL EQUIPMENT.

I am sending in a requisition for a few suits of prison clothing which will be very useful here.

DESERTIONS.

Four constables have deserted and gone into the United States during the year. Constable Ashford, within a few days of his arrival from Regina was sent to Coutts for

North-west Mounted Police.

duty, and there took the south bound train. Constable Spurway, who had just re-engaged for a further term of service, was induced to desert also from Coutts, owing, it is said, to the blandishments of a half-breed woman. Constable Blondin deserted from Milk River Ridge detachment to escape being recalled to divisional headquarters in consequence of a dereliction of duty, and Constable Lackie, who has since surrendered, had been doing farrier's duty at Writing-on-Stone for the previous two years, and must, I think, have desired to visit the World's Fair. At all events he drew \$300 out of the bank here.

INSPECTIONS.

This post was inspected by the assistant commissioner on the 10th March: by yourself on the 4th of May; and by the Hon. the President of the Privy Council on the 20th September. The assistant commissioner visited Coutts and Milk Ridge on the 20th May, on quarantine service.

BARRACKS.

The barrack buildings require to be clapboarded and painted. They are becoming very cold and more difficult to keep warm year by year. The two quarters occupied by the inspectors have been renovated lately.

The barrack fence has been extended to inclose the two blocks of land acquired last year and we have now a very convenient and useful paddock. More store-room is very much required and it would seem to be necessary that the formerly contemplated extension of the guard-room and cell accommodation should be once more taken into consideration. For sometime past we have had a daily average of eight prisoners with only six cells, and occasionally as many as twelve prisoners have been compressed into the limited space.

FIRE PROTECTION.

I reported last year upon the municipal fire protection here and of the desirability of the barracks being included in the system at a total cost of \$1,260. The local authorities now agree to fill and empty our two tanks, when constructed, twice a year without charge, besides refilling them if emptied at any time on account of a fire.

ROADS AND BRIDGES.

The bridge over the Belly River here is in a dangerous condition and will remain so until cross planking is laid upon the present floor. Only the other day a freighter's horse had a leg broken by putting his foot into a wide seam.

Part of the new road constructed down the brickyard coulée was destroyed on the 11th July. We had an extraordinary, violent storm of wind and rain. The road ran across the mouth of this coulée on an embankment about twenty feet high, which had been recently constructed and in which was a fairly sized culvert. Debris, which was washed down the coulée, must have choked the culvert for the rain filled the coulée with a raging torrent of water which for a few seconds actually washed over the top of the embankment until unable any longer to withstand the pressure, the whole structure gave way and was carried out bodily into the river, leaving a clear cutting 15 or 16 feet wide.

This damage, I may remark parenthetically, has not been repaired, so that the road in question is impassable for wheeled traffic.

CANTEEN.

The canteen is, as heretofore, a great boon to the division generally.

RANCHING.

After the experiences of last winter it is impossible to estimate the losses that the various cattle interests in the district have sustained, at best they can but be a matter of conjecture. As an example of how the cattle generally became mixed up I may mention a band of 450 head which crossed the line near Writing-on-Stone, of which 29 head only bore Canadian brands, no two cattle belonging to the same owner, and the rest were all Montana cattle.

I beg here to acknowledge the courtesy of the Montana Stock Growers' Association whose secretary was kind enough to present me with three complete copies of their brand book for the use of the Police. We retained one copy in this division and sent one to Maple Creek and one to Macleod in accordance with your instructions.

The following statement shows the estimated number of cattle and horses now owned by ranchers in this district :—

	Cattle.	Horses.
W. G. Conrad.....	6,000	100
Conrad Bros.....	5,500	100
Cypress Cattle Co.....	1,900	75
James Pearce.....	1,100	100
Walter Huckvale.....	650	40
Albert Whitney.....	400	100
Walter and David Whitney.....	300	200
W. D. Whitney.....	150	25
E. Hasson.....	150	75
O. S. Main.....	150	12
John Ross.....	100	25
N. Walwork.....	80	150
J. Perry.....	70	..
Wm. Fixley.....	..	75
John Davis.....	50	60
Geo. Rowe.....	50	..
— Russell.....	50	..
D. McNabb.....	35	..
Geo. Hauk.....	35	..
Josiah Davis.....	40	14
Ed. Holmes.....	35	10
John Duff.....	50	9
— Arnold.....	250	200
Browning & Maunsell.....	2,000	25

The following list comprises the approximate number of cattle and horses owned by persons who do not call themselves ranchers :—

	Cattle.	Horses.
T. W. McCaugherty.....	..	80
Ben. Whitney.....	35	12
Jas. Vare.....	60	10
W. Stafford, sen.....	80	..
W. Stafford, jun.....	35	..
Ed. McKenzie.....	50	12
A. Dodd.....	22	..
Geo. Johnson.....	35	..
Richard Reed.....	25	..
Owen Delay.....	26	..
Job Reed.....	30	..
Wm. Robinson.....	35	..
Hugh Scott.....	18	..
Henry Howard.....	..	12
W. R. Barker.....	22	4
Andrew Anderson.....	14	..

North-west Mounted Police.

I have not included owners of less than 12 head.

I beg to inclose a return of criminal cases tried in this district, together with a return of the distances travelled by the horses of this division, and a distribution state of the division during the summer months.

The reports of the medical and veterinary officers are also forwarded.

I have the honour to be, sir,
Your obedient servant,

R. BURTON DEANE,
Superintendent, Commanding "K" Division.

APPENDIX E.

ANNUAL REPORT OF SUPERINTENDENT A. H. GRIESBACH, COMMANDING "G" DIVISION, 1893.

FORT SASKATCHEWAN, 1st December, 1893.

SIR,—I have the honour to submit for your information, my annual report for the year ended 30th November, 1893.

GENERAL STATE OF THE DISTRICT.

I am pleased to be able to inform you that the district is in a most prosperous and flourishing condition.

There has been a larger emigration than during the previous year, and the prospects for a still larger increase are, from all indications, and the information I have received, most hopeful.

The harvest has been excellent and was safely gathered in without injury from frost.

As in previous years gold mining in the usual way has been carried out on the sand bars along the Saskatchewan River, and owing to the unusually low state of the water, a larger amount than usual has been taken out this year, the amount may be estimated at about \$8,000.

OUTPOSTS.

The division furnishes the following outposts, which, with the exception of Sturgeon River, Beaver Lake, Egg Lake, Lac la Biche and the Athabasca detachments, are all of a permanent nature.

As all members of the force are now ex-officio fire guardians, the whole of the men on outpost duty, in addition to their police and other work, also perform the duties of fire guardians.

Edmonton.

One officer, one non-commissioned officer, four constables, one interpreter and one special constable are stationed at this post.

On the 1st November this detachment was moved from its old quarters in the east end of the town to a more comfortable and commodious house, more centrally situated.

South Edmonton.

One constable is stationed at this post, his duties are to meet all trains arriving on the C. & E. Railway, also to patrol the town and surrounding country.

St. Albert.

One non-commissioned officer and one constable are stationed at this point.

They patrol to the several Indian reserves in the vicinity and to other points, and also connect with the outpost at Lac Ste. Anne.

Lac Ste. Anne.

One constable is stationed at this post. He is a fishery guardian and in addition to his other duties looks after this business.

North-west Mounted Police.

Sturgeon River.

During the fall one constable was stationed at this place.

Beaver Lake.

Two constables were stationed at this point during the patrol season.

Egg Lake.

One constable was stationed at this point during the fall.

Westaskiwin.

One constable is stationed at this place, which has become an important point.

It is situated on the line of the C. & E. Railway and is a flourishing little town.

This man is a fishery guardian, and in addition to his other work looks after the fishing in Pigeon Lake.

Lewisville.

One constable is stationed at this point, which is situated on the Battle River ridge.

Red Deer.

One non-commissioned officer and three constables are stationed at this point.

This detachment was moved in July last from the Old Red Deer crossing to the present town of Red Deer. The non-commissioned officer in charge here is also a fishery guardian.

Iunisfail.

One constable is stationed at this place, which is growing to be a lively little town.

Athabasca Landing.

One officer, one non-commissioned officer, eight constables and two interpreters were stationed at this point from May to September and out of this strength, also supplied the outposts, Lesser Slave River and Grand Rapids.

Lac la Biche.

One constable and one interpreter are stationed at this point, until the termination of the fisheries close season.

With the exception of the Athabasca Landing detachments which were under canvas the whole of the men and horses on outpost duty are comfortably quartered, and are so situated as to have complete supervision over the whole district; some changes in the outposts however will require to be made during the coming season.

PATROLS.

The patrol reports have been most satisfactory, and the new settlers appear to be satisfied and contented.

No complaints of any note have been made, and very few crimes have been reported from the outlying posts.

Regular patrols have been made from St. Albert to the following points, viz.: Lac Ste. Anne, White Whale Lake, River Qui Barre, Egg Lake, Morinville, Cut Bank Lake and the Stony Plain Reserves, and also other points in the district.

Patrols from Red Deer have visited Swan Lake, Little Red Deer, and Lone Pine to the south; Quill Lakes, Buffalo Lake, Tail Creek and Spotted Creek to the east;

Blindman, Lacombe, Wolf Creek and Battle River to the north; all of which points have been more or less settled up.

Patrols from head quarters have visited Lac La Biche, Whitefish Lake, Saddle Lake, Victoria, Egg Lake, Beaver Lake, Vermillion River, Beaver Hills, Leduc, Battle River, Peace Hills and various other points.

ASSISTANCE TO INDIAN DEPARTMENT.

Assistance was rendered to the Indian Department in escorting treaty moneys and furnishing escorts at all treaty payments, where asked for, in my district.

The payments passed off in every instance without any hitch and in a quiet and orderly manner.

At the request of Indian Agent Clink of the Battle River Reserve I despatched an officer and party of men to put a stop to a "sun dance" which was about to be held on that reserve.

Some little opposition was encountered, but owing to the tact displayed by Inspector Macdonell, and after the arrest of three of the ring leaders the Indians dispersed, promising not to hold any of these dances in future.

DISCIPLINE AND CONDUCT.

The discipline and conduct of the division during the past year, I am sorry to say, has not been as good as in previous years, it having been found necessary to dismiss six men for drunkenness and other offences.

CRIMES.

As I predicted last year, the crimes list is very much increased, but this however must be looked for with an increased population of such a varied character.

Recapitulation of Crimes.

Miscellaneous	8
Assault with attempt to commit rape	1
Selling or giving liquor to Indians	12
Creating a disturbance	7
Contravention of ordinances	3
Assault	12
Starting prairie fires	7
Vagrancy	2
Larceny	8
Horse stealing	8
Manslaughter	1
Selling liquor to minors	1
Bartering liquor for goods	1
Malicious injury to property	2
Threatening to kill	2
Perjury	1
Insanity	3
Deserting employment	1
Maiming cattle	3
Contravention of liquor license law	8
Carrying concealed weapons	2
Harbouring prisoners	1
House breaking	1
Non payment of wages	1
Obtaining goods under false pretenses	1
Drunk and disorderly	23
Total	120

North-west Mounted Police.

DRILL AND TARGET PRACTICE.

The division, prior to the patrolling season, was put through the usual spring drill, but owing to the outbreak of typhoid fever, and the small number of men available, very little drill was carried on during the summer months.

From the same causes the annual target practice was not commenced until late in November, and owing to the severity of the weather is not yet completed.

PHYSIQUE.

The physique of the division is very good, as will be seen by the following figures :—

Average height	5 feet 9 inches.
Average chest measurement	37 inches.

RECRUITS.

There were no recruits engaged at this post during the past year. Ten non-commissioned officers and constables re-engaged.

Four men took their discharge at the expiration of their term of service.

HEALTH.

The health of the division has not, during the past year, been so good as in previous years, there having been an increase of over fifty in the number of cases treated.

During the months of June, July, August, September and October, the post was visited by an epidemic of typhoid fever, which prostrated ten men, all of whom, I am pleased to be able to say, are fully recovered, thanks in a great measure to the unremitting care and attention of Staff-Sergt. Watson, who is deserving of much credit.

Diarrhoea has also been very prevalent, so much so that the medical returns show forty-seven cases to have been treated during the year.

With regard to both the above diseases, I am at a loss to understand the origin, as I can assign no cause for their outbreak.

HORSES.

The horses of the division are now, with one or two exceptions, in good and serviceable condition, several of the old ones having been cast and replaced by remounts.

The distance covered by the horses of this division during the year was 165,144 miles, being an increase of 11,409 miles over last year. Horse Reg. No. 1653 escaped from the corral at Egg Lake on the night of the 25th June last, and whilst running at large so injured himself that his hoof dropped off and it became necessary to shoot him, which was done on the 1st August. This was the only horse we lost during the year.

Eight cast horses were disposed off during the year by auction sale, and very small prices were realized.

One horse (Reg. No. 1192) was disposed of by private contract.

One cast horse (Reg. No. 774) still remains unsold.

ARMS, AMMUNITION AND ARTILLERY.

The carbines of the division are in fair order, but many of them are becoming very much worn, through long and hard service, and in my opinion the issue of a new and more serviceable arm is a matter deserving of immediate attention.

The revolvers are mostly in serviceable order and condition.

I have no artillery in my charge.

The ammunition is, in my opinion, of an inferior quality, and not reliable. During the annual practice quite a number of bullets failed to reach the target.

DESERTIONS.

There have been no desertions during the year.

SAVINGS BANK DEPOSITS.

The amount deposited in the Dominion savings bank during the year by members of the division amounts to \$1,328.91.

INSPECTION OF DIVISION.

The division was inspected by the Hon. the Minister controlling the force, on the 12th September, 1893.

The headquarters, and also the outposts were inspected by yourself on the 24th and 25th January, and 17th, 18th and 19th July.

Outposts are regularly inspected by myself and my inspectors.

HARNESS AND SADDLERY.

The harness in the division is in good order and repair, but two old sets will likely have to be condemned by the next half yearly board.

The saddlery is in fair condition, and with some repairs will be sufficient for the coming season's work.

TRANSPORT.

The transport is in good order and repair, but two light wagons and a single buck-board will be required to replace the old ones condemned and sold.

Having now a good wagon shed, the transport will receive greater care, and will in consequence last much longer.

FORAGE.

The oats supplied are of excellent quality, and are grown in the district, and the contract prices are as follows:—

Headquarters	29½c. per bushel.
Edmonton	31c. do
Red Deer	38c. do

The hay this year is also of excellent quality, and costs as follows:—

Fort Saskatchewan	\$ 8 50 per ton.
Edmonton	6 25 do
Red Deer	5 75 do
St. Albert	4 90 do

FUEL.

Wood is still burnt at Fort Saskatchewan, but is becoming more scarce, and has to be hauled a longer distance than formerly, though the price this year is less than it was last year owing to the contract having been awarded to a man who is clearing the wood from off his own farm. The price being \$1.48 per cord, with 30 cents additional for sawing it into stove lengths.

Coal is used at Edmonton and costs \$2.15 per ton.

Wood at St. Albert and Red Deer costing respectively per cord \$1.75 and \$1.90.

I am of the opinion that in view of the rapid settlement of the country, it will shortly be both advisable and cheaper to burn coal at all our posts.

TELEGRAPH LINES.

There are two telegraph lines in the district, one from Edmonton East *via* Battleford to Qu'Appelle, having offices at Edmonton, Fort Saskatchewan, Victoria, Saddle Lake and Fort Pitt; the other from Edmonton South along the C. & E. Railway having offices at South Edmonton, Wetaskiwin, Red Deer and Innisfail.

North-west Mounted Police.

TELEPHONES.

Edmonton has a complete telephone system and the police at that place have a wire to the barracks, from the central office.

There is telephone communication between Edmonton and St. Albert, and also between North and South Edmonton.

Telephone communication between Edmonton and Fort Saskatchewan would be of much benefit to the country and of considerable service to ourselves.

FIRE PROTECTION.

During the past year the following preparations have been made for a fire engine viz.: A well has been sunk in the centre of the barrack square, and a tank with a capacity of 3,200 gallons has been constructed close to the pump, and an engine house has been erected, which covers both the well and the tank.

I have not yet been supplied with a fire engine.

In the meantime our security against fire is as follows:—

I have a fire picquet detailed, Babcocks distributed throughout the barrack-rooms and quarters, as also barrels and fire buckets always kept full of water.

The buildings have all brick chimneys, and no stovepipes pass through wooden ceilings or partitions, which always were a source of great danger.

Parties arriving after dark, going to the stables with lanterns are attended by the division orderly or the non-commissioned officer in charge of the picquet.

Every precaution against fire is taken and one could only occur through some unforeseen accident.

WATER SUPPLY.

The water supply of the outposts and barracks is identical with that of last year, namely, river water is used at Fort Saskatchewan, there are also two wells, but the water is not used for drinking.

River water is used for all purposes at Edmonton.

Red Deer and St. Albert have both good wells, the water in which is used for all purposes.

ROADS.

On the whole the roads in this district are in fair order.

Owing to the influx of settlement, new trails along the road allowances are being continually opened up, and of course when new are very rough, but as they become more travelled will get into better shape.

There are no graded roads in this section of the country.

BRIDGES.

Since last year two bridges have been constructed on the south side of the river, on the trail leading from Fort Saskatchewan to Victoria, one over the "Two Creeks" and one over the "Beaver Creek."

These were the bridges recommended by me to be built in my report of last year. The bridges on the Lac St. Anne trail are reported to be in good order.

On the Athabasca Trail the bridges are reported to be in good order with one exception, viz., that over the "To-wat-e-now Creek. This bridge though being continually repaired is also generally out of repair, owing to some fault of construction. Generally speaking all these structures in my district are in a fair state of repair, but as the country opens up, more bridges will be required which will, I suppose, be duly supplied by the North-west Government.

FERRIES.

There are six ferries in the district, four of which are run on the tariff supplied by the North-west Ordinances.

The two at Edmonton under municipal licences have a much cheaper tariff of charges.

The four others are at the following points viz. :—Clover Bar, Fort Saskatchewan, Victoria and one at Red Deer, which this year I understand was not much used, owing to the low water in the river.

LIQUOR LAWS.

The license system having now been in vogue, for nearly two years, things have settled down to much the same state of affairs as exist in other places where the system is in force.

With regard to the obtaining of liquor by Indians, I have to report that several offenders against the law in this matter have been promptly arrested and punished, and as eight convictions were secured out of the twelve prosecutions brought for this offence I think the traffic has received a very wholesome check.

On the 2nd of May I sent to the Athabasca Landing, the detachments previously mentioned who were to prevent liquor from being taken into the prohibited districts. These detachments during the season cancelled permits for 130 gallons of liquor, and report 545 tons of freight shipped from the Athabasca Landing for the Mackenzie, Peace River and Slave Lake Districts.

SETTLEMENT AND AGRICULTURE.

During the past year a steady influx of settlers has arrived, of which the principal numbers came from the United States, and the indications are that during the coming year many more will come, owing to the favourable reports sent out by those already here, and also by the emigration agents.

The settlement has been gradually extending itself to the east, towards the Egg Lake district, and some few settlers have gone as far as the Vermillion, about 60 miles from Fort Saskatchewan.

From what I can learn the land in the vicinity of the railway is nearly taken up, and to get good suitable lands the settlers must now go a long distance from the track, and in consequence the Canadian Pacific Railway land sales in this vicinity have not been so large as they were last year, and I am disposed to think, from information I have received, that the districts lying beyond Egg Lake, Beaver Lake, and the Vermillion Valley, will not receive any large accession of settlers until the country is opened up by a railway coming from the east.

This, in my opinion, is a vital matter and in the interests of the emigration policy of the Government, should receive immediate attention.

The increase in settlement in the Lacombe and Buffalo Lake districts has been very marked this year, but the Red Deer, Innisfail and Blindman districts have not gone ahead in the same proportion owing to the reasons which I have before stated.

AGRICULTURE.

The farming principally carried on is of a mixed nature, and the grain crops have been heavy and of a good quality; potatoes also have been a very good crop.

The usual agricultural exhibitions were held at Edmonton, Red Deer, Innisfail and St. Albert, and the exhibits of horses, horned stock, sheep, swine, poultry, etc., also of grains of all kinds; roots and garden produce were of an unexceptional quality and a credit to the districts.

To show the progress of the country in agricultural pursuits, I give below a list of farm machinery, etc., which has been sold, and from which you will see that the sales far exceeded those of last year.

With regard to binding twine I might mention that, in addition to the quantity shown below, a carload was brought in by the "patrons of industry."

North-west Mounted Police.

Farm machinery, &c., sold—

	1893.	1892.
Binders	52	26
Mowers	89	46
Rakes	88	40
Drills	13	8
Ploughs	220	196
Harrows	193	73
Vehicles (light single)	123	95
do (do double)	24	15
Wagons	113	52
Grain crushers	6	2
Mills (fanning)	6	3
Sleighs	89
Binding twine	19,481	15,037

These figures are exclusive of much that has been brought in from other sources, and also of Red Deer, Wetaskiwin, Lacombe and Innisfail.

RANCHING PROSPECTS.

The ranching prospects are good, as owing to there not having been any bad prairie fires in the district, the hay crop thereby not having been injured; the winter having been steady, with no heavy crusts on the snow which cattle could not break through, and a good spring with no bad snow-storms after the calf crop had commenced to arrive, all taken together, gave the ranchmen a very favourable year.

The approximate quantity of horses and cattle in the district is as under :—

Cattle	15,000
Horses	5,400

GAME.

Small game such as prairie chicken and partridge have been very plentiful during the past year.

Owing to the lakes and sloughs being frozen up at a much earlier date this fall than last year, ducks, geese, &c., went south much sooner, and consequently not so many were secured as in previous years.

Deer and small fur-bearing animals are about as usual.

There have been no infractions of the game laws reported during the year.

Our not being able to order Indians, who are off their reserves without passes, back to their reserves, when they are out on hunting expeditions, will in my opinion very much reduce the quantity of all kinds of game.

GENERAL EQUIPMENT.

The general equipment is equal to our present requirements.

BARRACK FURNITURE.

The barrack furniture is in good order, and sufficient for present use, but I have again to point out that iron cots are greatly required in place of the present obsolete boards and trestles.

Were these cots supplied a great saving of lumber would be effected, and they would add to the comfort of the men and the appearance of the rooms.

IMPROVEMENTS TO BARRACKS.

With our own labour a wagon shed 86 x 26 ft. was constructed during the past summer, having a portion 13 x 26 ft. partitioned off the west end to be used as a harness and saddle-room, which will answer the purpose very well for the present.

In accordance with your idea, and in order to give greater stability to the building a lean-to for a sleigh shed was attached to the full length of the south side of the building.

The upstairs portion of the building has been divided into a carpenter shop 26 x 28 ft., paint shop 26 x 26 ft. and a small store-room 26 x 12 ft., which latter has relieved the congested state of the troop store.

A small log building 19 ft. 6 in. x 19 ft. 6 in. sided outside and with board and shingle roof has been constructed in the centre of the square for an engine house, covering also the tank and well.

The engine not having arrived, and the barrack-rooms being crowded, I am at present using it as a barrack-room.

Owing to the large number of prisoners, it was found necessary to give up the space occupied by the old saddle and harness-room for guard-room purposes, which gave us an addition of three cells, one cupboard and a day-room.

All buildings requiring it were replastered and thoroughly whitewashed, besides having any other repairs attended to which were found to be necessary.

All chimneys in the barracks were repaired, and those that needed it, pointed. The following buildings had new chimneys erected upon them: wagon shed, 2; engine house, 1; and sergeants mess, 1.

The roof of the quartermaster's store was strengthened from the inside to counteract a certain amount of sagging, and one-half of the officers' quarters was reboarded and shingled; further, several of the roofs requiring it, were repainted.

Two new stables each capable of holding twenty horses are urgently required at this post, owing to the unsafe condition of the present stable, which, as I reported to you before, is very liable to collapse and consequently might destroy thousands of dollars worth of horse flesh.

One new twenty-horse stable would not be of sufficient use, as we would still require to keep a large number of the horses in the old stable and subject them to the same dangers as before mentioned.

A new hospital is much needed as the building at present used for that purpose is totally unfitted for the accommodation of sick men, and I would draw your attention to the medical officer's report of this year on this subject, further to the large rental, viz., \$14 per month for which so little is received.

A new barrack building 60 x 22 ft. is required, this will allow of the old recreation-room being used as a mess-room and the present mess-room as a kitchen.

I would then suggest that the building at present used as a cook-house, with certain necessary alterations and repairs be turned into a canteen.

With regard to the old building used as officers quarters, I would recommend that it be pulled down and a new building erected in a line with the present orderly-room and sergeant major's quarters, those logs which are found to be good being utilized for a kitchen.

I hope that you may be able to secure a sufficient appropriation to allow of the whole of this work being proceeded with this summer, as these continued building operations year after year keep the post constantly in a certain state of uproar so to speak; if the post is once completed I shall then be able to arrange things permanently and have a place for everything and everything in its place.

INDIANS.

The conduct of the Indians on the whole has been very good, and with the exception of "Moos-E-Wah" of Lac St. Anne, who was fined \$10 for assault, "Wabiscow" of St. Albert, fined \$100 and costs or four months, for supplying liquor to Indians, and "Little Bear" who was arrested on a charge of theft, and not convicted, there are no other crimes recorded.

PRAIRIE FIRES.

Owing to the constant watchfulness of those of our men who were acting as fire guardians at Edmonton, South Edmonton, St. Albert, Lac St. Anne, Red Deer, Innis-

North-west Mounted Police.

fail, Wetaskiwin, Sturgeon River, Battle River Ridge, Beaver Lake and Egg Lake, I am pleased to be able to state that no fires of any note took place.

One point I would like to bring to your notice and that is that some of the magistrates in the district, rule that under the "Consolidated Prairie Fire" Ordinance, a fire which is left in charge of Providence, though it has not gone any distance, nor had time to do any damage, but is simply burning, is not "running at large."

In consequence of this, several cases in which people were charged with having let fires run at large, (they having gone away and left their camp fires burning) which, though they did no damage as they were extinguished by our men, were thrown out of court, on the ground that they were not running "at large."

Five convictions were secured out of the eight prosecutions which were commenced under the prairie fire ordinance during the past year.

RELIEF TO HALF-BREEDS.

No relief has been rendered to Half-breeds during the year, nor have any of them applied to me for any.

RAILWAYS.

The only railway in the district is the Calgary and Edmonton Railway.

OCCURRENCES AND INCIDENTS.

I regret to have to record the death of two members of the division during the past year, viz. : that of Inspector Piercy who died at South Edmonton on the 13th March last ; also that of Reg. No. 2348 Constable H. B. McLean, who died whilst on duty at the Athabasca Landing, on the 16th May last from typho-pneumonia.

The village of Fort Saskatchewan has received a very considerable addition since my last report in the shape of six buildings for business purposes, besides several dwelling houses, and I have no doubt that as the surrounding country gets settled up it will become a flourishing little place.

In addition to the foregoing there has also been a considerable increase to the village on the north side of the Saskatchewan River.

During the past fall an outbreak of "anthrax" occurred amongst the cattle in the vicinity of St. Albert and Clover Bar, but it was very soon dispelled on the arrival of the cold weather. Scarlet fever has been rather prevalent in some portions of the district during the past year, but it was never sufficiently bad to require the health ordinance being put in force.

The following new post offices have been opened in the district during the past year, viz. :—"Lenisville" on the Battle River ridge, section 1 tp. 45, range 23 ; "Duhamel" at the "Laboucan" settlement on Battle River, sec. 10, tp. 46, range 21 ; "Morinville," north-east of St. Albert, and fourteen miles from there, sec. 6, tp. 56, range 25 ; "New Lunnon," sec. 32, tp. 55, range 23 ; "Lamerton" at Buffalo Lake, sec. 33, tp. 40, range 22, and "Lac la Biche," sec. 16, tp. 67, range 14.

During the past year the town of Edmonton has supplied itself with a very fine fire engine and has also had a number of large tanks, of large capacity, constructed at suitable points, which will very much minimize the danger of fire.

I forward herewith the annual reports of hospital and veterinary staff-sergeants, also the corrected map and return of criminal and other cases disposed of during the past year.

In conclusion, I have much pleasure in testifying to the hearty co-operation which I have received from all ranks in the performance of the many and various duties required of us.

I have the honour to be, sir,

Your obedient servant,

A. H. GRIESBACH,

Superintendent, Commanding "G" Division.

The Commissioner,
North-west Mounted Police,
Regina.

APPENDIX F.

ANNUAL REPORT OF SUPERINTENDENT E. W. JARVIS, COMMANDING
"E" DIVISION, N.W.M.P., 1893, TOGETHER WITH THE REPORT OF
INSPECTOR HARPER.NORTH-WEST MOUNTED POLICE, "E" DIVISION,
CALGARY, 1st December, 1893.

SIR,—I have the honour to forward the annual report of this division for the year ended yesterday. As I was present with the division for only eight months of the year, much of the report is gleaned from official data, and not from my own knowledge of the facts.

GENERAL STATE OF THE DISTRICT AND CRIME.

The state of the district has been quiet and law-abiding and serious crime almost unknown. As will be seen from the return of cases tried, forwarded herewith, they consisted principally of vagrancy and petty theft. A large number of vagrants arrived in the district, during the year, from all directions. Nearly all these tramps said they were looking for work, but found it very difficult to get the exact kind they wanted. Several of them in consequence spent some time in the guard-room, at great expense to the country without any corresponding benefit being derived. The tramp, after serving his term of imprisonment, is turned out as he went in—or rather, I should say, a little worse off—his few shreds of clothing being by that time quite worn out. His prospects of obtaining honest employment—supposing for arguments sake that he really wants it—are far from improved by his sojourn in jail; while, as he is invariably penniless, his only way of leaving this part of the country is by begging from house to house, or by stealing a ride on an outgoing train. I would suggest the adoption of the penitentiary system, by which a small sum of money is daily credited to the prisoner (accordingly to the work actually performed) and either expended for his benefit or handed to him on his release. Of course this system—particularly among the tramp element—is liable to abuse, as in many cases the money would be at once spent in drink; but on the other hand, in some instances it would help an honest and deserving recipient to a fresh start.

With regard to the cases of a more serious nature, committed for trial by local justices of the peace, they have been with only three or four exceptions dismissed by the Supreme Court.

The progress of Calgary—now promoted to the rank of a city—has been marked during the past year. Large numbers of new buildings, both business and residential, have been put up in a most substantial manner; and great improvements are going on in the grading, paving and draining of the streets. The matter of street lighting, though frequently before the Council, is not yet satisfactorily arranged. This is particularly to be regretted especially in the neighbourhood of the railway station, as, during the winter months, the passenger trains, both east and west on the main line, arrive in the middle of the night.

The progress made in the rural districts is noted under the head of "settlers."

PATROLS AND OUTPOSTS.

The district has been regularly patrolled throughout its length and breadth, settlers and Indian reserves visited and everything worthy of note reported to headquarters. Numerous parties, by way of flying patrols, have gone out from time to time, and a regular daily patrol was sent out in different directions, for a radius of fifteen miles round Calgary all the summer.

North-west Mounted Police.

The permanent outposts—eleven in number—are located as follows:—Banff, Anthracite, Canmore, Morley, High River, Millarville, Pekisko, Dewdney, Gleichen, Dunbow and Olds. With the exception of Banff and Canmore, where we own the barracks, all these are either boarding or living in rented houses. In view of the permanency of several of these outposts, more particularly at Gleichen and High River, I am of opinion that a great saving of expense would be effected by acquiring land and putting up some suitable buildings; the rents paid at those two places alone amounting to \$500 per annum.

Where, as in most other cases, there are only one or two men stationed, the present system of boarding is preferable.

PATROL MAP.

With regard to the police map, I have nothing to add to my remarks of last year; but must again urge that the large scale township maps be provided for use at divisional headquarters.

ASSISTANCE TO INDIAN DEPARTMENT.

The Department of Indian Affairs has called on the police for active assistance on the following occasions: The treaty payments on the reserves in this district, viz., the Stonies at Morley, the Sarcees at Fish Creek, and the Blackfeet at Gleichen.

On the 8th March, at the request of the Agent there a party was sent out to the Sarcee Reserve, in consequence of the Indians having refused to work, and having threatened violence on the reserve. After a few days, the Indians having quieted down, this party was withdrawn. On another occasion, in August, the whole of the Sarcees left their reserve and started towards the Blackfoot Reserve at Gleichen, with the expressed intention of holding a pow-wow with the Blackfeet, and by combined action to induce the authorities to increase the issue of rations to both reserves. The outpost at Gleichen was at once strengthened by the addition of a dozen men under Inspector Cuthbert, who remained there until satisfied that the Sarcees would return peaceably to their reserve. At the same time, as you are aware, a large portion of the police work of the district consists in constantly keeping a watchful eye on the Indians, in frequently visiting them on their reserves and in inducing them to return thither when they stray off. If we had authority to compel them to return when not provided with passes it would greatly simplify matters.

ASSISTANCE TO CUSTOMS.

The presence of a collector and staff in this district does away with the necessity for police assistance.

ASSISTANCE TO RAILROADS.

None has been required this year.

DISCIPLINE AND CONDUCT.

The general behaviour of the members of this division has been very good, as the following detail of punishments inflicted will show:—

Fined	37
Imprisoned	1
Dismissed	2

Only two complaints against any of our men reached me; the first was of such a trivial nature (relating merely to a small matter in dispute between a master and his servant in which the constable sided with the servant) that it was settled after a few minute's explanation. The second complaint was that a constable, on leaving the detachment at High River to go to Calgary, had stolen a settler's dog; but no proof

was offered, and as the dog was found at his owner's house next day, I don't think there was much in it. I merely quote these instances to show with what avidity many people seize upon any chance to find fault with members of the Force; while if there is talk of removing the alleged culprit altogether, the complainant is the first to call for protection.

DRILL AND TARGET PRACTICE.

Drill indoors during the winter months, and outside in the spring, was carefully gone through by all available members of the division. Parades, mounted and dismounted, were held weekly until the summer patrols removed so many men from headquarters that drill was given up. The members of this division are as nearly as may be perfect in arm drill and in field movements. I regret that for want of an available rifle range, target practice was omitted this year; but I am in hopes of being able to remedy this defect before next season.

PHYSIQUE.

The physique of the division is excellent, most of the men being above the average height and measurements, and in such good condition that they are prepared to do the hardest work at a moment's notice.

RECRUITS.

No record has been kept of the actual number of applications to join the Force, several of the applicants being rejected on sight, and many more because they had not the proper recommendations. Of the number who actually were examined by the Asst. Surgeon, the majority of the rejections were on account of being under standard height; but ten were accepted, and taken on the strength of the Force. These recruits were all sent to Regina for their preliminary training.

Twenty former members of the Force, who had been out for periods ranging from one week to several months, applied for re-engagement, and were, with one exception, taken on again.

HEALTH.

I do not find the general state of health here so good as in other divisions of which I have had command. I find a great tendency to coughs and colds. This I attribute in a large degree to the Calgary barracks being heated by hot air. The natural consequence is that the rooms are generally overheated, hence the liability to take cold on going out.

There have been also some slight cases of fever, which I understand is prevalent in this city.

The division has been very free from accidents, a dislocated shoulder and a sprained ankle being the sum total of our casualties.

RATIONS.

The rations supplied are of excellent quality, with the exception of the potatoes. Although we buy the very best in the market the tubers almost always "go wrong"—the native potato apparently will not keep for any length of time.

CANTEEN.

The canteen, managed by a sergeant under the supervision of a committee elected by members of the division, has been successful. By purchasing at wholesale rates, the canteen is enabled to furnish canned goods, groceries, &c., to the various messes and to individuals at less than retail prices in the city. Good ale, of local manufacture, is kept on tap, and is a successful counter attraction to the saloons in the town.

North-west Mounted Police.

KIT AND CLOTHING.

There is nothing to report on this head, except that all issues are much in arrears, owing to supplies not having been received. I beg to repeat my former recommendation about making the issues annual to the whole division.

ARMS AND ARTILLERY.

The carbines and revolvers in use in the division are in fairly good order ; but many of the former are old and honeycombed, and the sights very defective.

There is no artillery on charge in this division.

TRANSFERS, DISCHARGES AND DESERTIONS.

Three officers and seventeen non-commissioned officers and constables have been transferred to this division, and three officers and sixteen non-commissioned officers and constables from it to other divisions. The discharges have been as follows :—

Time expired	7
Purchased	4
Dismissed	2
Invalided	0

There have been no desertions.

STRENGTH OF DIVISION.

During the summer months, when most of the patrol work was going on, the following table shows the strength and general distribution of the division :—

—	Superintendent.	Inspector.	Assistant Surgeon.	Staff Sergeants.	Sergeants.	Corporals.	Constables.	Horses.
Calgary	1	2	1	4	4	4	45	46
Banff		1		1			8	9
Anthracite							1	1
Canmore						1	1	2
Morley							1	1
Millarville							2	2
Pekisko							1	1
Dewdney							1	1
Dunbow(Ind'l School)							1	1
High River					1		2	5
Olds							1	1
Gleichen						1	4	7
On herd (resting)								8
Totals	1	3	1	5	5	6	68	85

In addition to the above, an interpreter is employed at Calgary, and Indian scouts at Morley, Millarville and at Gleichen.

SAVINGS BANK.

Situated as Calgary barracks are, so near a city where ample opportunities are offered for disposing of one's pay, it is little wonder that the Dominion Savings Bank is not better patronised. Several members of the division have accounts with the Post Office Savings Bank, finding it more convenient to be able to withdraw at a short notice which is not possible in the former case.

The amount banked by eight depositors in the Government Savings Bank was \$336.

WINTER DETACHMENTS.

The detachments remaining out for the winter are at the same places as during the summer, with the exception that at Banff and at Gleichen the strength is slightly reduced. The Dunbow detachment has been withdrawn for the winter, as there is little or no work at that season for the constable formerly stationed there.

INSPECTIONS OF DIVISION.

The headquarters and several outposts of the division have been regularly inspected by myself or the officers of the division each month. Several inspections have been made by you, as well as by the Asst.-Commissioner.

In September this post and several of the outposts were visited and inspected by the Hon. the President of the Privy Council, accompanied by the Comptroller and by yourself.

HORSES AND MILEAGE.

The horses of this division are in good order and have been free from disease or serious accident, except in three cases: Horse Reg. No. 839 while being led along the trail, fell and broke his back; Reg. No. 1480 died in June at Calgary, of colic; and Reg. No. 1845 died from hemorrhage at High River in August. There have been the usual cases of temporary lameness (which is attributable to the stony nature of the roads in this district) and a few saddle and girth galls. The latter, I think, might be in a large measure avoided by the more general use of the double cincha saddle (instead of the single cincha), more particularly in the hilly regions.

Of the remounts purchased by you last summer, eight were posted in this division, and have all turned out well; and four horses were transferred to us from other divisions. Five of our oldest horses were cast and sold, and thirteen transferred to other divisions.

The number of miles travelled by the eighty horses has been 153,278.

SADDLERY AND HARNESS.

The saddles in this division are in fairly good order, and the few repairs needed can be made this winter by the saddler. More double cincha saddles are required. The harness is in good shape, a new single set alone being wanted to complete.

TRANSPORT.

The wheeled vehicles are in a satisfactory condition, with the exception of a shortage in heavy wagons, of which one is required at Banff and two here. The sleighs want some small repairs, but they can be fixed by police labour.

FORAGE.

The quality of the oats supplied by the contractors, the Canadian Agricultural, Coal and Colonization Co., has been good. Most of these oats were grown on the Company's farms.

The hay has kept up its usual standard of excellence. The crop this year is abundant and prices lower in consequence.

STABLES.

The original stable buildings are still in use at Calgary. Owing to their age they are in constant need of repairs, and should be pulled down and rebuilt. One of the buildings, known as the team stable, is so far out of and beyond repair that I have abandoned it altogether.

GENERAL EQUIPMENT.

The general equipment is in a fairly satisfactory condition. Certain articles have been supplied of rather poor quality (such as stable brooms, horse brushes, iron rakes, &c.), but as they are in accordance with sealed patterns, they have to be accepted.

North-west Mounted Police.

BARRACKS AND BARRACK FURNITURE.

The barracks at Calgary are in good order, and are very comfortable. Repairs (which are made by the Department of Public Works) are not always as promptly executed as might be desired, and consequently cost more in the long run. The wash-room and baths are in good order, and are fully appreciated, both hot and cold water being laid on. The water supply might with advantage be extended to other parts of the barrack building, notably to the sergeants mess kitchen, which is upstairs. I am arranging to have water pipes laid in the officers present quarters, as well as to the new quarters about to be built. Preparations have been made, and the material procured for a 6-inch pipe drain in rear of the officers' quarters, but the work has not yet been done.

That great desideratum, the electric light, is not yet supplied to the barracks, though the wires come to our very door.

No change has been made in the old-fashioned style of barrack furniture.

FUEL.

The fuel consists of Galt and anthracite coal, except at Canmore, where the coal is mined locally, and at Gleichen, where it is supplied by Indians from a mine on the Blackfoot Reserve.

TELEGRAPHS AND TELEPHONES.

Both systems are in working order, and no change, except some extension of the latter, has been made this year. The telephone at Calgary is admirably managed.

FIRE PROTECTION AND WATER SUPPLY.

The water supply in the barracks at Calgary, furnished by four hydrants for fire purposes, and four small hydrants for domestic use, has been satisfactory. During the very severe weather of last February the mains froze in the city and the barrack supply was cut off for a few weeks. The pipes have been relaid, and are now better protected against frost.

The fire protection consists of hose, long enough to reach every part of the barracks, attachable to the hydrants above named; and a few Babcocks and water pails. I am of opinion that every large post should be provided with a chemical engine, an appliance so well known in western towns as a successful check on incipient fires.

ROADS, BRIDGES AND FERRIES.

The roads in this district, though very stony in places, are kept in fairly good order. Good bridges have been built on most of the main trails, and ferries are also maintained, so that travel may be carried on without inconvenience or danger.

LIQUOR LAWS.

Under this heading, there used to be a good deal to say in the old permit days; but under the license ordinance the selling of liquor has been brought to the position of an exact science, which, being carefully looked after by a board of commissioners and several inspectors, is found to work satisfactorily. Very few infractions of the law have come under my notice this year.

SETTLERS.

The country north of Calgary is rapidly filling up with an excellent class of settlers. The whole district has been inspected by various parties of farm delegates, for whom police transport was provided; and judging from the satisfactory reports made by these gentlemen, it is more than probable that the influx of settlers will largely increase next year.

CROPS, RANCHING AND IRRIGATION.

Owing to drought in the spring and early summer, the acreage of crop which was successfully harvested was only small. The farmers are beginning to appreciate the great benefits to be derived from irrigation, and several schemes are now under way for the more general distribution of water over the face of the country. Where irrigation is adopted, I confidently expect that very fine crops will be raised.

In spite of the dry weather already mentioned, the grass has been plentiful and good, and stock have done proportionately well. Take it all round, the ranchers have had a pretty good year, several large sales of horses and cattle having been made.

Loud complaints are constantly heard about the damage done to young stock by timber wolves, particularly in the foot-hills; but it is hoped that the high bounty now offered will be the means of reducing their numbers.

GAME AND FISH.

These have kept up to their usual standard, both as regards quality and quantity. There is very little big game in the district, and what little there is can only be found in the mountains. This, however, will soon disappear, as that part of the country is regularly hunted all the year round by the Stony Indians from the Morley Reserve.

MINES.

Interesting particulars about the coal mines at Canmore and at Anthracite will be found in the accompanying report by Inspector Harper. The mines on the Blackfoot Reserve, mentioned above, are worked by the Indians in a casual way; more could be done by them if there were any market for the coal.

On High River and on the Knee Hill Creek, mines have been opened up on a small scale, the former finding a local demand, and the latter being hauled to Calgary, a distance of fifty miles. A railway, known as the Red Deer Valley Railway, is now in course of construction from Calgary north-easterly to the Knee Hill mines, and a profitable business will no doubt be built up, on the completion of the road.

PRAIRIE FIRES.

Though fires have not been either so numerous nor so extensive as in former years, still a good deal of damage has been done. Our patrols have taken part several times in fighting fires, but in no instance has any other origin been discovered than a spark from a passing locomotive. The prairie fires west of Morley spread into the woods at Kananaskis, and ran through part of Major Walker's timber limit there. In this case it was not possible to fight the fire, which was only extinguished by the first fall of snow.

PRISON ACCOMMODATION.

The guard-room at this post has been found quite inadequate to the reception of the numerous tramps and other prisoners thrown on our hands. During the heat of the summer, with thirty-five prisoners getting only 250 cubic feet of air each, the stench was abominable, in spite of deodorization and particular attention to cleanliness. The requirements of this rapidly-growing section of the country demand a good jail, where proper distinction can be ensured between the sexes, and where lunatics can also, for a time, be taken care of.

CONSTABLES' MANUAL.

I strongly recommend the adoption of a manual for the guidance of constables when acting on their own responsibility and away from any superior authority.

With regard to the duties of justices of the peace the time has certainly come when a stipendiary magistrate should be appointed to attend to the police work in this city and its environs.

North-west Mounted Police.

INCREASED PAY.

As there is little or no provision made for officers on retiring from the force (except the superannuation allowance, which is hardly worth mentioning), I beg to suggest that some inducement be held out to officers, similar to that offered the constables, that length of service should carry with it an increase of pay. As it is now, an officer receives the same pay after twenty years service as the first day he joined (supposing that promotions, which are few and far between, have not in the meantime occurred). It is customary everywhere to reward long service with an increased honorarium, and I do not think the officers of this force should be exempt from such a beneficent rule.

GENERAL WORK.

Having given details, under their respective headings, of the various occurrences of importance during the past year, very little remains to be said under the above title. I was most fortunate, on relieving Inspector Cuthbert from the command of this division, to find it in a high state of efficiency, thanks largely to that officer's careful attention to his duties in the smallest particulars, and also in a very large degree to the excellent character of the members of the division and to the harmonious way in which all worked together for the general good. I am glad to say that this state of affairs has continued, and that I have received most cordial support from all ranks during the year.

I forward herewith the reports of Inspector Harper, of the Assistant Surgeon, of the Veterinary Sergeant, and a statement of cases tried in the district.

I have the honour to be, sir, your obedient servant,

E. W. JARVIS,

Supt., Commanding "E" Division.

The Commissioner, Regina.

NORTH-WEST MOUNTED POLICE,
BANFF, ROCKY MOUNTAINS PARK OF CANADA,

1st December, 1893.

SIR,—In accordance with your instructions received 27th November, I beg to submit this my annual report for year ended 30th November, 1893.

GENERAL STATE OF DISTRICT.

Banff has not been very prosperous during the past year. The Canadian Pacific Railway Hotel opened for the season on the 1st of May and closed on the 1st of October, the shortest season since the hotel has been opened, and the number of visitors much less. The Sanitarium and other hotels in the Park keep open all the year round, and during the summer months did a fair amount of business, but complain of everything being very quiet just now, doing almost nothing. The standing population of Banff is decreasing every year, at the present time it being very small.

Anthracite has been more prosperous, as the mines were kept working all summer and the coal stored, not shut up during the summer as in previous years, and the manager has informed me that he has found the experiment answer. At Canmore, the Cochrane Mines were closed down in the early part of the year and have not been working since. The McNeil Mines at Canmore have been working all the year, taking out all the coal they could, for which they find a ready market. At the present time the output from the H. W. McNeil Co.'s mines at Anthracite and Canmore is about 6,000 tons per month, and they have between 350 and 400 men on their pay-roll.

There are no crops raised in this district. There are a few small bands of cattle, principally kept for dairy purposes.

This district extends from the boundary line between the North-west Territories and British Columbia on the west, to Canmore on the east.

CRIME.

There has been no very serious crime in the district during the past year. Four cases have been sent down for trial at Calgary, two of which were tried by a jury, viz.: "attempted suicide" and "perjury." The other cases were: "Assault inflicting grievous bodily harm" and "theft"; there was a conviction in each case. I beg to attach a list of cases that have been disposed of during the year, which comprises—

Breach of Park Regulations	17
Under Vagrancy Act	16
Gambling	13
Assaults	6
Theft	6
Sureties of the peace	1
Attempted suicide	1
Carrying firearms	1
Obtaining under false pretenses	1
Perjury	1
Insane	1

POSTS AND PATROLS.

Banff: 1 officer, 1 non-commissioned officer, 7 constables, 6 horses in the winter, 8 in the summer months. Canmore: 1 non-commissioned officer, 1 constable, 1 horse; this detachment is 16 miles from Banff. Anthracite: 1 constable; this detachment is

North-west Mounted Police.

5 miles from Banff. In the summer, regular patrols are kept up on all the roads in the Park, and patrols are sent east as far as Canmore. Patrols are sent out from Canmore east and west.

INSPECTION.

The detachments in the district have been inspected during the year by the Honourable the President of the Privy Council, the Comptroller, the Commissioner and by yourself. I visit the Anthracite and Canmore detachments weekly.

HORSES.

The horses are all in very good condition, a few have been exchanged with headquarters of the division during the year, and some have been taken in for the winter. No serious cases of illness amongst them during the year.

HARNESS AND SADDLERY.

The harness is in very fair condition and there is sufficient of it; it will be required to be overhauled by the saddler in the spring. I reported in my last year's report that some of the saddles should be replaced. Five new double cinch saddles have just been received. We now require a few new head collars complete, and numnahs, when the saddlery will be in first-class condition.

TRANSPORT.

The transport is in very fair condition and there is quite sufficient. It requires to be kept in good condition on account of the dangerous roads within the Park.

ARMS AND AMMUNITION.

The arms are all in good condition, and the ammunition is good. There has been no target practice during the year.

DESERTIONS.

None.

HEALTH.

The health of the detachment has been very good, no serious cases of illness. A few men have been sent here from other divisions suffering from rheumatism, to get the benefit of the hot baths; in all cases the men have received speedy benefit and have soon been able to return to their divisions again.

RATIONS.

The rations for Banff are obtained from local storekeepers, and at Canmore in the same way, and the articles supplied are satisfactory. At Anthracite the constable boards out with a private family.

FORAGE.

This district is supplied with oats from headquarters of division. The hay purchased at Banff, is marsh grass and cut within the Park limits; it is of very fair quality.

FUEL.

In all the cookstoves wood is burned and partly for heating purposes, which we cut and haul from the bush ourselves. Anthracite coal is used for the remainder of heating purposes.

RECRUITS.

A few applications have been received during the year and two or three taken on and sent to headquarters.

QUARTERS AND BARRACKS.

The men's quarters at Banff are in fair condition ; the stable is getting rather dilapidated. The officers' quarters are now being fixed up and will be in very fair condition when completed for this winter. But as I believe new barracks are to be built here shortly on a new site, it is of no use making any suggestions regarding the present buildings. At Canmore during the year the logs I mentioned in my last report have been utilized—a very nice barrack building and stable erected by our own men at very small cost. At Anthracite we are still using the company's building I mentioned last year, which suits very well.

DISCIPLINE.

The general discipline of the detachment has been good.

FIRES.

During the summer the bush fires in this vicinity were very bad, but though there were some within the limits of the Park and a good deal of timber was burnt, it did not burn any wood or bush in the most frequented parts.

On the 14th May a small house was burnt down at Banff and two children, aged 6 and 2 years, burnt to death.

Early in June the Canadian Pacific Hotel at Lake Louise, near Laggan, was burnt to the ground but was rebuilt during the year.

Small fires also occurred at Anthracite and Canmore.

SMALL-POX.

On the 8th May Dr. Brett reported to me that a case of small-pox had broken out at the section house at Cascade Siding, about seven miles west of Banff. A small-pox and quarantine camp was established at this place, and I put a constable in charge of same, (*i.e.* guard over them to allow no one to go near.) On the 23rd May one of the men in quarantine was taken, this was a brother of the first case, the disease did not spread any further, and both cases recovered ; the camp was broken up and the guard called in on the 21st of June. Both the men who had the disease had arrived from New Brunswick a short time before.

GAME.

I do not think there is a great deal of game in this district, and though no game whatever is allowed at any time to be killed by the white population, I am afraid that what little there is, is pretty well kept down by the Stony Indians.

INDIANS.

The Stony Indians pass through this district a good deal during the summer months on hunting expeditions, and sometimes remain in the district quite a long time, working round the different villages. Some of them were employed during the summer loading coal at the mines. A small band of Blackfeet come up to their timber limit at Castle Mountain once or twice a year, but do not remain after they have got out what rails and logs they require. On the 22nd September, while some of these Blackfeet were camped at Castle Mountain a Blackfoot squaw was killed by being struck by the Canadian Pacific Railway express ; the body was placed on the train and taken to Gleichen, and all the Indians left for their reservation the next day. The Indians give no trouble in this district.

North-west Mounted Police.

GENERAL REMARKS.

On the 22nd February a man named George Saunderson was killed in the mines at Anthracite. I held an inquest, and the jury brought in a verdict of accidental death. On May 29th a man named Jacob Louskin was drowned at Canmore; his body was recovered on the 22nd June; an inquest was not considered necessary. On the 15th of August a man was drowned at the Gap, just east of Canmore, while swimming a horse across the river; his body was recovered at once, but an inquest was not considered necessary.

Winter in this district has commenced very early this year, there having been good sleighing for the past month.

I have the honour to be, sir,

Your obedient servant,

FRANK HARPER,

Inspector, Commanding Banff Sub-District.

The Officer Commanding "E" Division,
North-west Mounted Police,
Calgary.

APPENDIX G.

ANNUAL REPORT OF SUPERINTENDENT G. B. MOFFATT, COMMANDING "A" DIVISION, 1893.

NORTH-WEST MOUNTED POLICE,
MAPLE CREEK, 11th December, 1893.

SIR,—I have the honour to submit this my first annual report since taking over the command of "A" Division and the Maple Creek police district.

On the 1st January last I was transferred to this division from Regina ("B" Division), and on the 13th of that month having handed over my duties as acting paymaster to Inspector Baker, I left for Maple Creek, where I immediately took over the command from Superintendent Jarvis, who left for Calgary on the 18th of the same month.

GENERAL STATE OF THE DISTRICT.

Serious apprehensions were felt by owners generally at the opening of the season for the safety of their stock, on account of the unusually long and severe winter which had just passed and which has made the season of 1892-93 one which will long be remembered, but except in a few cases the estimate of loss was considerably in excess of what were ultimately found to be the actual figures. Cattle are now in good condition.

The outbreak of scab among the sheep throughout this section of the country, has been the cause of a fruitful source of complaint on account of the quarantining of the district and the consequent restrictions which have been placed upon the sale of animals from uninfected flocks. Strenuous efforts have been put forth by the different owners under veterinary direction, to eradicate the trouble, with varying success. Some of the bands which were infected are now clean, but the disease still lingers in others. In consequence of this trouble the importation of sheep from Montana during the summer was practically "nil," only one lot of about 1,000 having been brought in. The price paid for these in Montana was \$1.25 per head.

CRIME.

There has been no crime of a serious nature, as will be seen from the statement of cases tried which accompanies this report.

PATROLS AND OUTPOSTS.

The fortnightly patrols which had been carried on throughout the winter, were discontinued and the regular summer duties commenced on the 17th May and carried out on the same lines as formerly, viz., a weekly patrol from one end of the district to the other, making connection at Snake Creek with the "B" Division patrol from Wood Mountain to the east, and with the patrol of "K" Division from Pendant d'Oreille at Bull Head to the west. This latter connection was carried on until the first week in July, when an outpost from here having been established at Kennedy's Crossing of Milk River, a point about 25 miles from Pendant d'Oreille, it was changed.

On the 27th June I left here for the purpose of making an inspection of the land lying along the boundary line from a point south of Stonepile detachment westward. I travelled down to Stonepile *via* Bear Creek and East End. The party consisted of myself, Scout Cobell, teamster and off-man and four-horse team. We left Stonepile at 4 a.m. on the 29th and travelled south to where I thought the "line" ought to be, thence west to the police camp at Willow Creek crossing. We crossed the head of

North-west Mounted Police.

Cottonwood coulée, which was dry. With the exception of two small lakes which are shown on the police map and in which the water was very bad, I did not come across any water in Canadian territory until we reached Battle Creek. At noon on the 29th we camped on Woody Island Creek across the "line," and again at night on the same water higher up, still across the "line."

There is no wood on either side anywhere on or near the boundary. The country is well grassed and rolling until the boundary plateau is reached, from there it is very rough and broken up to about range 23, after which it is more level, with hard clay soil covered with cactus. I found it a difficult matter to locate the boundary line, for the mounds being five miles apart are not easily found. I reached Willow Creek crossing at noon on the 31st and Battle Creek detachment same night.

The following building has been done at the various detachments by police labour with the exception of Medicine Hat where the work was done by the Public Works Department, under the direction of Mr. Smith, the clerk of works in Winnipeg:—

Battle Creek.—Here a commodious and substantial stable, 26 x 30 ft., has been put up, affording stabling for 12 horses. It is built of logs, with board and shingle roof. The intention was to have roofed it with patent manilla roofing paper instead of the shingles, but as this material proved useless at Farwell, the latter mode of covering was adopted. A store-house 16 x 24 ft. has also been built, it is likewise of logs, with board and shingle roof. For this building I utilized the roof which was on the old quarters. There remains the officers quarters to be put up in the spring; the logs and all the material for this are on the ground.

Willow Creek.—No building has been done here, but a new store-house is very much needed and should be built next summer.

Farwell.—At this detachment a store-house 16 x 24 ft. has been put up, also a "lean-to" kitchen to the quarters—these are both of logs, the former with pole and mud roof, and the latter with board and shingle. I have had to shingle the roof of the quarters here: the building which was put up last year was roofed with boards, and covered with patent manilla roofing, painted—this was water-tight for a time, but when spring came on it let the water in in all directions.

East End.—The rebuilding of this outpost should be carried out next summer as the buildings, especially the stables, are in very bad order.

Bull Head.—There has been no expenditure in connection with this detachment, but next summer it will be necessary to pull down and rebuild the stable. This outpost should be removed to another site as it is a miserable location at present, the ground being low, is, in wet weather, little better than a swamp.

Medicine Hat.—The detachment at Medicine Hat which during the winter had been occupying the officers' quarters at the old barracks, was moved into a rented house in the town on the 25th March, just prior to the breaking up of the river, and on the 25th June following took possession of the new quarters in the immigrant shed which had just been completed by the Department of Public Works. Part of the work in connection with this detachment was the removal from the barracks of one of the stables and its re-erection in rear of the present quarters. In putting up this building the joists which crossed the building above the stalls were lowered and a floor laid on them thus making a good loft; in accommodation for horses there are six single stalls, two double stalls and one loose box at one end, the building being divided in half by a wall, and the other end used for transport, and storing coal.

A fence should be put up about the property, and if additional lots could be secured to the rear and the stable moved back it would be a great improvement.

PATROL MAP.

I beg to draw attention to the remarks of Supt. Jarvis in his report for 1892, with respect to the furnishing of large scale township maps such as are in use in the Land Department.

There are no post offices in this district off the line of railway.

ASSISTANCE TO INDIAN DEPARTMENT.

At the request of the Indian Commissioner an attempt was made, both here and at Medicine Hat, to induce the Indian stragglers who hang about these places to go on to one or other of the reserves, but without much success, only one or two availing themselves of the opportunity. Several were willing to go if "Front Man," who seems to have a great deal of influence among them, would go, but that individual preferred to continue in his present state.

CUSTOMS.

The work in connection with the Customs Department has been carried on as usual, and reports and returns sent in to the Collector at Lethbridge, of which port this is an outpost.

RAILROADS.

No assistance has been either required or asked for in this connection during the past year.

DISCIPLINE AND CONDUCT.

The conduct of the men of the division has on the whole been good, and though there are no obstacles in the way of obtaining liquor, there has been very little drunkenness. One old offender in this way has been dismissed. On the night of the 9th November, Reg. No. 2849, Constable Grout made an attempt to desert: he hired a horse in town and started about 9 p.m.; a heavy-snow storm came on about midnight and he lost his way, and the following evening he found himself at Oxararts. Not liking the outlook he decided to return and give himself up, which he did. I tried and sentenced him to six months' imprisonment at hard labour.

DRILL AND TARGET PRACTICE.

Drill was commenced as soon as the weather permitted in the spring and was continued twice daily until the detachments were made up to their summer strength.

All members of the division who were available were put through a regular course of target practice.

RECRUITS.

No recruits have been enlisted here.

HEALTH.

The health of the division has been good, nothing in the shape of an epidemic has visited the place.

Reg. No. 1896, Constable Dawson, who had his hands frozen while going out to McKay Creek on duty last winter was unfortunate enough to lose a portion of each of his fingers and thumbs. He was afterwards transferred to Regina and invalided.

Reg. No. 2262, Constable Ambrose was kicked by a horse which kept him in hospital for some time.

RATIONS.

The rations supplied have been uniformly good.

CANTEEN.

The canteen has been running successfully and profitably. The building at present used for this purpose and recreation and reading-room combined, is altogether too small. This drawback will, however, be overcome in the near future by moving into the old hospital, which now that the new building has been occupied by the medical department, is being fitted up for the purpose.

North-west Mounted Police.

A proportion of the canteen funds have been expended in the purchase of a piano and in augmenting the supply of papers and magazines which are received through the department. A new billiard table is to be purchased, towards which a grant of one hundred dollars has been received from the Fine Fund.

KIT AND CLOTHING.

The supplies in this respect appear to be as usual, complaints being made only against the quality and cut of the stable trousers.

ARMS.

The arms of the division are in very fair order. Some of the carbine barrels are more or less honeycombed.

TRANSFERS AND DISCHARGES.

In the strength of the division since the date of the last annual report the gain has been thirty, made up as follows:—

Transferred—one superintendent, one assistant surgeon and twenty-five non-commissioned officers and constables.

With a loss of twenty-eight:—

Transferred—one superintendent, one inspector and six non-commissioned officers and constables.

Time expired—nine non-commissioned officers and constables.

Purchase—six non-commissioned officers and constables.

Dismissed—three constables.

Deserted—one constable.

Died—one assistant surgeon.

PROMOTION.

Sergt.-Major Jarvis was on the 16th May last promoted to the rank of inspector, and for a time continued to do duty in this division, later he was sent to Calgary for temporary duty and has since been transferred to Macleod.

STRENGTH OF DIVISION.

The following table shows the strength and distribution of the division on the 31st October last:—

Stations.	Superintendent.	Inspector.	Asst. Surgeons.	Sergeant-Major.	Staff-Sergeants.	Sergeants.	Corporals.	Constables.	Special do	Total.	Horses.	Mules.
Maple Creek	1	1	1	1	2	1	2	32	4	45	31	
Medicine Hat			*1				1	2		4	3	*Acting.
Swift Current						1				1	1	
Bull Head						1		3		4	4

Town Station								1		1	1	
Herd											4	
Totals	1	1	2	1	2	6	5	60	7	85	75	2

DEPOSITS IN SAVINGS AND OTHER BANKS.

The amount deposited in the Government Savings and other banks throughout the year amounts to \$2,095.49.

INSPECTIONS.

This post has been visited by yourself on the 22nd December, 1892, and on the 22nd June last upon which occasion you were accompanied by Veterinary Surgeon Burnett; and by the Assistant Commissioner on the 18th June, 27th October and 7th December. The detachments have been visited by myself or Inspector Wood frequently.

HORSES.

During the year the loss in horses was as follows :—

Transferred	4
Died	2
Cast and sold	10
	<hr/>
	16

Gain :—

Transferred	4
Remounts	7
Stray from "C" Div	1
	<hr/>
	12

A few horses will require to be cast in the spring and new ones supplied in their places.

The total mileage of the horses of the division was 150,600 miles.

SADDLERY AND HARNESS.

The saddles of the division are in good order and sufficient in number for all requirements.

Two sets of heavy wheel harness were received from Messrs. Horner & Hutchinson, Lethbridge, which makes up the complement necessary for heavy work. A set of light four-in-hand harness is very much needed.

TRANSPORT.

There are only four wagons, heavy, out of the ten which are on charge, that are fit for service, the remainder though capable of being used are not safe with anything like a load. Two have already been condemned by the Board of 30th June, 1893, and now there is a third which is not worth repairing. Of the four first mentioned, two were received last summer new, they are the Chatham wagon. They did not prove satisfactory, being faulty both in manufacture and material.

The light transport is all in good order.

I beg to request that a dump-cart be supplied. With this, refuse and rubbish generally which now requires the services of a team and teamster for its removal could be taken away by one horse.

FORAGE.

The hay supplied this season is of excellent quality and has been well stacked. Oats are supplied by the C. A. C. & C. Co., who had the contract last year. There has been an advance in price of both of these commodities.

North-west Mounted Police.

BARRACKS.

The new hospital has after long delay been finished and occupied. Apart from the finishing of this building which was in the hands of the Department of Public Works, the only other work done was the reflooring of the stables, the relining of the cellar underneath the division kitchen and reflooring of said kitchen, the erection of a division store-house, an addition to the pump-house, and the reflooring of the kitchens in two officers' quarters. All this work was performed by police labour.

Several of the buildings are in a very bad state of repair and steps should be taken without delay to restore them. Minor repairs are being made constantly by the division artisans, but what is now needed is beyond our means to execute. New sills are required, the rotting of the old ones has caused the settling of several of the buildings. All the quarters are very cold; they require to be papered and sided. This would effect a saving in fuel. A new guard-room is necessary, that in use at present is very insecure and inconvenient.

The barrack fence will have to have new posts and top-rail next year, the wire netting will serve again.

FUEL

The fuel used is supplied from Lethbridge as in the past. One carload of anthracite coal has been received.

TELEPHONE.

The line between the barracks and the police station in the town is the only line in use.

TELEGRAPHS.

The only telegraph line in operation is that of the Canadian Pacific Railway. The Rocky Mountain Telegraph Company's line from Fort Assiniboine, Montana, to Walsh is still unused. The owners of this line should be compelled, either to put it in order, or remove it, as on account of the poles rotting and falling the wire is down in many places, in fact there is very nearly as much on or close to the ground as on the poles, it is not easily seen and is a source of danger both to stock and to persons riding or driving in its vicinity.

FIRE PROTECTION.

Thorough effectiveness in this line is only to be obtained by frequent practice, not at drill but in the reality. The arrangements here are as efficient as can be expected. There is an ample supply of Babcocks and water pails, and the fire engine which was secured last summer from Calgary stands ready over the tank in the pump-house with hose attached for any emergency.

WATER SUPPLY.

Water is obtained from two sources: that for drinking and cooking is brought from a well on the bank of the creek, about a quarter of a mile from the barracks, while that for the horses and fire purposes is obtained from a well in the barracks, over which the pump-house above referred to stands. The water in this well which is some 38 feet in depth, is strongly alkaline and the supply very scanty, especially in dry weather. If this well were deepened by boring, it is possible that a sufficient supply of good water could be obtained.

ROADS AND BRIDGES.

I think it would be well if, in order to avoid future difficulties, some of the more important of the old-established trails, which are to a great extent trunk roads, were surveyed and declared public roads. On account of the broken and hilly nature of the country it is next to an impossibility to make use of the regular road allowances, and

the present trails follow the natural and easiest grades. It is only recently that the trail which was known as the Qu'Appelle trail, which used to run from Fort Walsh to Fort Qu'Appelle, and part of which now forms the road from Fort Assiniboine *via* the Ten Mile Crossing to Maple Creek, was fenced off where it passes through the Fish Creek bottom. In this case but a small detour is necessitated, but the trouble is liable to occur where the difficulties of finding another trail will be greater. A road has been surveyed between here and the McKay Creek settlement.

FERRIES.

The police ferry at Medicine Hat was put in order in the spring and has been running all summer: the boat had to be taken out before the river closed, on account of leaks.

SETTLERS.

A few settlers have come into this district, but their selections of land having been in widely separated localities, there is no appreciable increase in the population.

CROPS.

Very little in the way of crops was put in this season, and from such as were put in the yield was not good, the summer having been a dry one.

RANCHING.

In this respect matters are much the same as last year. A number of cattle have been shipped this fall, but no great quantity, buyers wanting to pick from bunches of fat cattle the best only, instead of taking the lot. A few carloads of horses have been shipped east for sale, but the speculation did not meet with much success, the demand for horses being small. The presence of "scab" among the sheep has had a detrimental effect on that industry. A few carloads have been disposed of to a Winnipeg buyer from clean bands, but the restrictions imposed by the quarantining of the district prevented anything like the trade that there would have been under favourable circumstances.

Glanders made its appearance last spring among the horses on one of the large ranches on the south side of the hills, which necessitated the quarantining of the whole band throughout the summer. Several infected animals were shot. An examination of the entire lot of horses late in the fall by the Government Veterinarian failed to discover any signs of the disease, and the quarantine was removed.

GAME.

Game both large and feathered is very plentiful; there do not appear to be at present so many antelope as there were last winter, but deer are more numerous.

INDIANS AND HALF-BREEDS.

There are very few Indians and fewer Half-breeds about here at present. During the summer there was quite a movement of the former, several lodges having come from the north and passed through to Montana, others who came from the same direction went on to Swift Current, they all went back to their own section of the country again. With the exception of a party of Blackfoot Indians who came to Medicine Hat from the Blackfoot Crossing in June last and drove off some horses belonging to the C. A. C. & C. Co.'s farm at Stair, there has been no trouble. Of this party eight were arrested and, after a preliminary examination, committed for trial: they came up before Judge Macleod at Medicine Hat for trial, and were acquitted.

North-west Mounted Police.

PRAIRIE FIRES.

There has been the usual visitation of prairie fires but no damage or casualties have been reported. Parties were sent out to all fires which were within reach, but in only one case were the offenders detected. Their trial resulted in their being let off with a caution.

CATTLE QUARANTINE.

Considerable difficulty has been experienced with American cattle, on account of the requirements of the quarantine. Large numbers drifted north during the winter and ranged the country south of the Hills. Strenuous efforts were made by the patrols to drive any bands, which they found, across the "line" but with varying success, besides the distance of the outposts from the "line" and the fact that the detachments are provided with but one horse per man (quite sufficient for patrolling) rendered a sustained effort in this direction impossible.

The detachments which were afterwards posted at Willow Creek Crossing and Kennedy's Crossing patrolled along the boundary from their camps and prevented large numbers of cattle from entering. "Round up" parties from Montana, representing the various stock owners and companies over there, were at work throughout the summer collecting and driving out their stock, which for a time made quite a diminution in the number of foreign cattle, but heavy prairie fires which raged through the northern part of Montana contiguous to this district have caused large numbers to range this way again.

GENERAL.

A death occurred at Medicine Hat on the 23rd May. A man named Chas. With got off the train there and went to the American Hotel, he was found in his bed next morning in an unconscious condition and removed to the hospital where he died, as was found from the effects of an overdose of morphia. He had purchased a quantity upon his arrival, from one of the druggists in the place. An inquest was held and a verdict of suicide brought in.

On 1st June the new time card came into force on the Canadian Pacific Railway, which brought both expresses through here during the night. The change was not regarded with approval by the inhabitants of either this place or Medicine Hat, at the latter place it had quite an appreciable effect upon the trade of the town, for being a divisional point the trains used to make a considerable stop there, of which many of the passengers, (those who did not patronize the "diner") availed themselves to lay in a stock of provisions, while besides quite a trade was done by the Indians in selling polished buffalo bones, thus leaving quite a little ready cash each day.

An accident with fatal results occurred on the Canadian Pacific Railway at Forres, just west of here, where a collision took place between the Atlantic and Pacific expresses—a man who was stealing a ride on one of the car platforms was killed. The accident happened on the 27th June.

The work of widening the gauge of the Alberta Railway and Coal Company's railway was commenced during the summer, preparatory to the road being taken over by the Canadian Pacific Railway. The work was done by the former company and was lately completed. The line has been taken over and is now being operated as the Lethbridge section of the Canadian Pacific Railway.

No trouble was experienced during the progress of the work nor was police assistance required.

The affairs of the saw-mill on Elkwater Lake near the head of the mountain, and which was owned by one Louis Sands, were closed up this summer and the whole of their stock of lumber, buildings, &c., disposed of at very low prices. I secured 5,000 feet of plank at \$8, with your authority. The buildings were in process of demolition when I passed there last September; the lumber had been all removed; there are quite a number of saw-logs afloat in the lake still.

About half a dozen deserters from the United States troops at Fort Assiniboine came across during the year: three who attempted the trip in the winter arrived here rather the worse for wear, two being frost-bitten (one severely), and the third snow-blind. They were cared for until their recovery, one having been sent to the Medicine Hat hospital. They came over on foot and arrived at Battle Creek only in time to miss a storm.

Reverting for a moment to the question of cattle quarantine, I wish to point out the necessity of the change which has been recommended in the location of the quarantine ground being made before spring opens. The present ground on Milk River is too remote and out of the way, and too close to the line. The locality suggested is, in my opinion, much more suitable, it is nearer the centre of the district, more accessible, better feed and water, and with a police post at each extremity of its northern boundary will be under better supervision.

Before closing I should mention the very sudden death of Assistant Surgeon Dodd, which took place early on New Year's morning.

I beg to forward herewith the reports of Assistant Surgeon Fraser, and Veterinary Staff-Sergeant Poett, also a return of criminal and other cases tried in the district.

I have the honour to be, sir,

Your obedient servant,

GEO. B. MOFFATT,

Superintendent, Commanding "A" Division.

North-west Mounted Police.

APPENDIX H.

ANNUAL REPORT OF SUPERINTENDENT JOSEPH HOWE, COMMANDING "C" DIVISION, 1893.

NORTH-WEST MOUNTED POLICE,
BATTLEFORD, 30th November, 1893.

SIR,— I have the honour to submit for your information my annual report for the year ending 30th November, 1893.

CRIME.

The district has been free from crime of a serious nature as you will see from the enclosed return of cases which may be classified as follows:—

Offences against the person	6
Giving intoxicants to Indians	3
Larceny	5
Drunk	5
Creating a disturbance	4
Deserting employment	1
Unlawful possession of horse	1
Having liquor in possession	2

The greater part of the above were Indian cases, some for being drunk and assault and for having liquor in their possession. Fines and imprisonment were awarded in these cases according to the nature of the offence.

GENERAL STATE OF DISTRICT.

The general state of the district has been very satisfactory indeed.

There has been plenty of work for tradesmen, and Half-breeds have been busy freighting nearly all summer and during last winter, with the exception of a short time when the roads were impassable, owing to the great amount of snow which had fallen and drifted into them.

Only three cases for relief were brought to my notice: one a family from Egg Lake, a family from Red Pheasant's Reserve, and one on the south side of Battle River; the husbands of both the above were sick and unable to work, and they were afforded temporary relief.

The population of the district has not materially increased.

OUTPOSTS.

There is only one regular detachment from this division which is stationed at Onion Lake and consists of one non-commissioned officer and four constables.

During the spring and fall months temporary detachments were kept up for the purpose of suppressing prairie fire.

There has been but one prairie fire in the district this fall.

ASSISTANCE TO INDIAN DEPARTMENT.

Assistance has been rendered by the police to the Indian Department for the preservation of order on various reserves, and also in making arrests of Indians for various offences.

Escorts were furnished for the annual treaty payments.

A party was sent to Saskatoon to receive the money for this district and also for Onion Lake district, which was sent from here under a sufficient escort who accompanied the Indian Agent in making the payments at Cold Lake, the detachment at Onion Lake furnishing the escort for the other reserves.

The treaty payments passed off very quietly.

ASSISTANCE TO CUSTOMS.

None required in this district.

DISCIPLINE AND CONDUCT.

The discipline of the division has been well maintained and the conduct of the men all that could be desired.

Most of the cases that were brought to my notice were of a trifling nature. Eight men were punished by imprisonment, and I found it necessary to recommend that one man be dismissed from the force.

Thirty-one entries were made in the defaulters book and the total amount of fines inflicted was \$118.

LIQUOR LAWS.

A great change was effected in the liquor laws through the introduction of licenses : on the whole the license system has given satisfaction.

The liquor license in this district has worked fairly well and, in my opinion, it is preferable to the old system.

In the early part of the year a few Indians were arrested from time to time for being under the influence of liquor (see report of cases), and in all these cases when satisfactorily proven imprisonment was awarded under the Indian Act, and in nearly every case the persons who either gave or sold the liquor to these Indians were arrested and punished under the Indian Act.

The prompt arrest and sure punishment meted out to these offenders has had a most beneficial effect upon the Indian population of this district, and for months past there have been no cases of drunkenness reported amongst the Indians, and even during the month of October, when they had just received their treaty money and the town was filled with them, not one single case of drunkenness amongst them was brought to my notice.

I do not consider now that there is much drunkenness amongst the Half-breeds about Battleford. It is true that for a time when the system was a new one Half-breeds who hitherto had been unable to obtain permits consumed much more spirituous liquor than was good either for their pockets or their constitutions, but when it dawned upon them that spirituous liquor could be obtained whenever they felt they required it drunkenness rapidly decreased amongst them.

I would, however, call your attention to former reports wherein I recommended that the North Saskatchewan should be the northern boundary of the license district, for the reason that the population north of this river is almost entirely composed of Half-breeds and Indians who know little and have but small intercourse with civilization.

PATROLS.

Patrols were regularly kept up and a thorough supervision was made of every portion of the district.

The reserves were regularly patrolled from the division headquarters, and the Onion Lake detachment has regularly patrolled the northern portion of district, going as far north as Saddle Lake.

Early in the summer a patrol was sent to Meadow Lake, an entirely new district, situated about 125 miles north-east of Battleford (not shown on map). It cannot be reached with wagons, there being only a pack trail for sixty miles, and fifty miles being

North-west Mounted Police.

through heavy timber and muskegs. The following are a few extracts from Inspector Scarth's (the officer in charge of the patrol) report:—

“Meadow Lake is about sixty miles in circumference, it is entered by one and drained by two rivers. The lake country contains about 100,000 acres of good land. The plain is twenty odd miles long and about ten miles across from north to south. This area, including lake, is surrounded by heavy brush, which extends for miles in all directions, so that a settler would be able to get all the timber he required and not in any case be compelled to haul it further than six miles. There is a large quantity of silver pine in the district. The timber ranges from two inches to two feet in diameter, although there are many trees which overstep this mark and run as far as 120 feet in height or over.

“Hay swamps abound and can be cut at the doors of the settlers almost, the hay reaches a horse's back so high is it. The soil is a rich black loam averaging two feet in depth although in places it is deeper, underneath this is a hard clay of a pitch-like nature which would be most suitable for the making of bricks. The growth is abundant, wild flowers of every variety abounding and the grass and other matter so thick and high that good hay could be cut in the uplands. The country is very similar to the best farming parts of Manitoba. There are no stones in the soil, but near the east end of the lake there is a quantity of sandstone and others. Water is plentiful as, besides the lake, there are Beaver Dam and Meadow Lake Rivers running through the plains; the latter river is about 60 feet wide and is navigable with flat-bottomed boats up to within seven or eight miles of the lake. This river flows into Beaver River, from which Green Lake can be entered. A very good substitute for lime is found in the white mud on the banks of the river—this substance shows just as white on a wall as lime, and by adding a little milk to it, it does not rub off.

“Pike and suckers are the principal fish in the rivers and there are whitefish in the lake. Wild fowl are very plentiful.

“There are five settlers with their families here—French half-breeds. The houses are of the half-breed type with one room, with one exception, that of Mr. Morin, who is a carpenter and has a good house, stable and outbuildings, about 80 head of cattle, 12 horses and several acres of barley and potatoes—the barley stands about 4½ feet high. He having the necessary tools, he dresses his own lumber, making window frames, etc.; he also supplies the lumber required to the other settlers. This year he is bringing a mowing machine into the country, the first one ever there; threshing is done with flails.

“There is room for over a hundred families in this district, and a better farming or grazing country could not be found in the North-west, not to mention the other advantages; the only drawback being the want of a good road and the distance to a market. A good road could be made from Turtle Lake for about \$1,300, in two or three months time at the most.”

There being a steam ferry crossing the Saskatchewan here, patrols have been sent to Jackfish Lake and Round Hill regularly,

In September last a patrol was made from this post to the Saddle and Cold Lake reserves and also to Lac La Biche. At the latter place there are about 300 Indians and Half-breeds who are fairly well off. Most of them raise good crops and nearly all have gardens. There is a Roman Catholic Mission there (church, convent, schools, etc.), grist and saw-mill run by water power, and large well built stables for horses and cattle.

DRILL AND TARGET PRACTICE.

Drill has been regularly carried out. Every member of the division was put through a course of setting-up drill in the spring. Mounted and dismounted parades were held during the summer.

All the non-commissioned officers were put through a course of instruction in sword exercise, and a squad was also instructed in gun drill.

Every member of the division, with a few exceptions, went through the regular target practice, mounted, dismounted, and revolver.

A number of our men competed at the annual meeting of the Battleford Rifle Association and secured several prizes.

PHYSIQUE AND HEALTH.

The physique of the members of this division is very good indeed. Very few of the men are under 5 feet 9 inches in height, and the average chest measurement is 39 inches. They are well able to perform all the duties required of them.

The health of the division has been exceedingly good and sickness of a serious nature has been rare.

RECRUITS.

No recruits were engaged at this post. Twelve non-commissioned officers and constables whose term of service expired were re-engaged, seven for three, and five for one year's service. One constable who had left the force for a short time applied for re-engagement for three years and was accepted.

RATIONS.

The rations supplied by the contractors are of excellent quality, and no complaints have been made.

The detachment at Onion Lake is supplied with beef during the summer months by the Indian Department at that place. The remainder of the supplies are freighted from the headquarters of the division.

KIT AND CLOTHING.

The kit and clothing are of excellent quality, and with one or two exceptions the supply has been very well kept up.

DESERTIONS.

There have been none during the year.

ARMS AND ARTILLERY.

The Winchester carbines at this post are very old and a good many of the barrels badly honeycombed, but are in good working order and fit for service.

The revolvers are all in good working order.

The artillery at this post consists of two 9-pr. M. L. guns, and two 7-pr. brass guns. The latter are not fit for service, as the carriages are rotten and would not stand any travelling. The 9-pr. guns are in good order.

SAVINGS BANK DEPOSITS.

The amount deposited in the Government savings bank during the year amounted to \$313.75.

The reason of the falling off in the amount deposited in the Government savings bank I attribute to the fact that a number of the regular depositors took their discharge last year, and also to General Order No. 8525, which stated that the Department of Finance would not receive deposits any more and that they would have to be made direct with the Deputy Receiver General, and as this would cause some delay in withdrawing their money the depositors availed themselves of the Post Office Savings Bank and the Hudson's Bay Company.

STRENGTH OF THE DIVISION.

The strength of the division has not been as full as I would wish during the past year, we have been very short-handed.

Owing to the great amount of work to be done in a post of this size, buildings scattered as they are, it requires a considerable number of men to keep it in order, and

North-west Mounted Police.

I would request that at least ten men be transferred to this division as soon as practicable, there being a great deal of work to be done here at present.

The following table shows the present distribution of my command :—

—	Officers.	Non-com. Officers.	Constables.
Battleford	4	12	35
Onion Lake		1	4
On leave		1	
Totals	4	14	39

INSPECTION OF DIVISION.

The division was inspected by Assistant Commissioner McIlree in August. The Onion Lake detachment is inspected monthly by an officer. Barracks, saddlery, transport and harness are inspected weekly.

HORSES.

The horses of the division were inspected by Inspector Burnett, V.S., in August last. The most of them are in good condition and hardened to their work.

Horse Reg. No. 1528 died in February last, and Reg. No. 942 in August last after being sick a few days.

Nine horses were cast during the year. Five were sold and realized valuation prices. There still remain to be disposed of, four.

Three remounts were received from headquarters during the summer, and have so far turned out well, they being used for saddle horses.

The following is the present distribution of horses in "C" Division :—

—	Saddle.	Teams.
Battleford	40	12
Onion Lake	4	2
Totals	44	14

MILEAGE.

The total number of miles travelled during the past twelve months is 37,059.

SADDLERY AND HARNESS.

The saddles now in use by the division are all in excellent order.

A few more numnahs are required, which have been requisitioned for to Regina.

The Whitman bits are all in order.

The harness is all in good order and repair.

The saddler at this post is an excellent workman and gives entire satisfaction.

IMPROVEMENTS TO BARRACKS.

Considerable improvements have been made in the barracks and the comfort and appearance of the barrack-rooms, division mess-room and kitchen, and sergeants quarters during the past year.

The old wagon shed which for many years past has been an eyesore and utterly useless as a protection for transport, has been torn down ; a new and commodious shed having been erected at the exceedingly small cost of \$250, the material out of the old wagon shed and other old buildings which I had torn down being used. The entire work of construction was performed by our own men.

Two new tanks have been constructed, one in the paint shop, and one in the barrack square, with tank-house.

The barrack-rooms have been ceiled with matched lumber and likewise wainscoted.

I am having the division kitchen, mess-rooms and sergeants quarters neatly painted, and when the painting is thoroughly completed the barrack accommodation at this post will be all that can be desired.

The assistant surgeon's quarters have been overhauled and painted and at present make a very comfortable and compact dwelling.

FIRE PROTECTION.

I consider that now this post has a most thorough system of fire protection. We have an excellent fire engine, with a sufficient quantity of hose to reach any building in the barracks.

We have three tanks each holding 130 barrels of water, and a tank house over two of them, the third being constructed in the paint shop so that small fires can be kept during the winter months to prevent any possibility of the water freezing.

We also have the men of the division formed into a fire brigade, previously detailed as to their places if a fire should occur, in which case I feel satisfied we should be competent to cope with it.

TRANSPORT.

The light transport in use is in good repair. The heavy wagons are very old and two will have to be condemned during the ensuing year. The running gear of most of them is about worn out. Two more will be required to replace the two old ones. A new platform spring wagon and a half spring iron axle patrol, and two double buckboards are badly needed in this division.

Jumpers and flat sleighs can be purchased here at very reasonable prices.

FORAGE.

The forage received on contract is of first-rate quality.

Owing to the poor yield of oats in this district some have to be imported to fill our contract. The hay is of a splendid quality and was promptly delivered and properly stacked by contractors.

STABLES.

As reported by me in last year's annual report, a comfortable sick stable is urgently needed at this post, isolated from the division stables and in close proximity to the surgery. If this were done it would be the means of making the work of the veterinary surgeon much easier as he has no assistant now, and more attention could be paid to our invalid horses. I would also suggest that the boiler house be closer to the surgery.

Nos. 1 and 2 stables have had the front of stalls filled in several times with clay, which is of great benefit to our horses and also has the effect of stopping drafts from the outside.

I would also urgently request that a lean-to be built at the end of each stable, close to door, for the purpose of protecting the bedding from rain and snow, and also the high

North-west Mounted Police.

winds which we have here during the summer months, which scatter the bedding all over the square. These could be built at a small expense.

EQUIPMENT.

The general equipment of the division is in good order, all articles required having been requisitioned for and shipped from Regina.

BARRACK FURNITURE.

Our barrack furniture still consists of the old wooden bed boards, trestles and benches, and a table in each room.

It is impossible to make the barrack-rooms present a neat and uniform appearance until iron cots are issued.

FUEL.

Wood is the only fuel used here. We are now cutting up sufficient to carry us through a part of the winter, with a horse-power hired for the purpose. I would strongly recommend that a windmill be purchased for this post that could be used for cutting wood as well as pumping the water required.

TELEPHONES.

No change has been made in our telephone system. The line from the barracks to the town is in good repair.

TELEGRAPH LINES.

No change has been made in the above during the year, there being but one line passing through here, viz., the Government telegraph line.

WATER SUPPLY.

The water used at this post we are compelled to draw from the Battle and Saskatchewan Rivers. In the spring and summer months this water requires to be filtered before it is fit to drink.

A new well is being dug in the square which we hope will supply the post with what water is required.

ROADS AND BRIDGES.

The roads and bridges in this district are in good order, with the exception of some few of the bridges on the Saskatoon trail which are in need of repair.

FERRIES.

The steam ferry on the Saskatchewan at this place is not only a great success, but also a great convenience, enabling the settlers of Jackfish Lake and Round Hill to dispose of quantities of produce, hay, etc., in the summer months.

The cable ferry put up at Fort Pitt last year was repaired in the spring of this year and is in good working order.

SETTLERS.

I cannot report any great increase in the number of settlers that have taken up homesteads in the district during the past twelve months. The want of railway communication seems to be the great drawback.

The prospects of the settlers seem to be as good as former seasons, if not a little better; although the crops have not been all that could be desired or expected as regards quantity there have been no cases of complete failure, where the ground has been properly cultivated.

GAME.

Ducks and waxies have been as plentiful this as in former years. Geese and brants have been very plentiful and large numbers have been killed by the sportsmen.

Very few swans were killed this season.

Prairie chicken were more numerous this year than last and quite a number of partridges have been bagged. Rabbits are, as last year, very plentiful and large numbers are being killed daily.

FISH.

The Battle River furnishes good sport for the angler, pike, gold-eyes and pickerel being caught in quantities during the summer.

HALF-BREEDS.

I have not heard of any cases of distress amongst this class in the neighbourhood of Battleford. Most of them obtained sufficient work at freighting to support them, and others made a little by hunting and other work. Very few cases of crime occurred amongst them, and any that were brought to my notice were not of a serious nature.

Three families received temporary provisional relief for a short time last winter and this spring.

INDIANS.

The Indian reserves in this district are as follows:—Poundmaker's, Little Pine's, Sweet Grass, Stony, Thunder Child's, Moosomin's, Onion Lake (103 miles from Battleford). This last agency also has Cold Lake reserve under its control, which is about sixty miles north of Onion Lake.

I am pleased to be able to report that the Indians in this district are making gigantic strides towards civilization and in a few years should be self-supporting.

The days of the skin lodges have gone from amongst them for ever, and now on the several reserves one sees in their stead neatly constructed log houses, whitewashed and clean, many of which would do credit to white settlers.

The Indians at the Onion Lake agency have made great improvement on their reserve since I visited them last. The agent has a most commodious and pretty dwelling-house, which he informed me was built entirely by the Indians, the timber, shingles and all the material used in its construction having been sawn and planed by the Indians with their own mill on the reserve.

There are schools on all the reserves, and I am informed that the Indian children take a great interest and are willing and very quick to learn.

The industrial school at Battleford is in a flourishing condition and is filled with pupils, all of whom are well contented and many of the older boys are now most excellent mechanics.

PRAIRIE FIRES.

Every precaution was taken to prevent the spread of prairie fires and I am most happy to say that our efforts were attended with success. Very few fires have occurred in this district during the past year. Fire guardians were sent out and remained until the danger from fire was over.

We have turned out on several occasions to extinguish fires which started in the vicinity. During the present month our men remained out three days, and on other occasions have been out for a whole day and have succeeded in putting out the fires after hard work.

The settlers and Indians are beginning to realize the dangers and losses resulting from this source and are more careful when making fires for camp purposes.

No cases under the ordinance respecting fires were brought to my notice.

North-west Mounted Police.

RANCHING.

As I before stated in my former reports, this district is noted for the superior advantages it possesses for stock-raising, viz., abundance of water, variety of grasses and good climate. Horses range the whole year, and cattle for eight or nine months of the year, and for the other months are fed hay only, and although not stabled they do remarkably well.

The settlers are taking more interest every year in the class of stock they raise and now have some fine imported thorough-breds. Several new ones have been purchased and brought in the district during the last year, and I can safely say that in a very few years time Battleford will possess some of the finest stock in the North-west.

The following list shows the principal stock-owners in my district :—

Name.	Residence.	Horses.	Cattle.	Sheep.
S. Ballendine	Battleford	16		
C. M. Daunais	do	31	140	
Beliveau & Robson	do		75	
Richard Bros	do	24	75

H. Row	do		150	
D. Macfarlane	Baljeannie	100		
Prince Bros	Battleford	100		
D. G. Latta	Forty Mile Lake			250

Besides the above there are about 100 horses and 400 cattle in the Bresaylor settlement, the property of several settlers, who own small bands of from 10 to 20 head, and about the same number in Battleford, and the Indian Department have about 1,200 head.

I have the honour to be, sir,

Your obedient servant,

JOSEPH HOWE,

Supt. Commanding Battleford District.

The Commissioner,
North-west Mounted Police,
Regina.

North-west Mounted Police.

APPENDIX J.

ANNUAL REPORT OF SUPERINTENDENT JOHN COTTON, COMMANDING "F" DIVISION, PRINCE ALBERT, 1893.

NORTH-WEST MOUNTED POLICE,
PRINCE ALBERT, SASK., 30th November, 1893.

SIR,—I have the honour to submit for your information this my report for the year ended the 30th November, 1893.

CRIME.

As you will see from the criminal return which accompanies this report the district has been free from crime of a serious nature. The following is a summary of the cases which occurred during the year:—

Assault.....	10
Leaving employment without due notice.....	2
Larceny.....	7
Selling liquor to Indians.....	1
Inciting Indians against department.....	1
Breach of Fishery Act.....	1
Conspiring to defraud.....	2
Allowing prairie fire to escape.....	2
Drunk and disorderly.....	2

I think I am safe in saying that as regards order this district will compare favourably with any other portion of the Territories.

On the 7th June I received a report that Mrs. Anne Morton had committed suicide by hanging herself. As coroner I held an inquest and the jury returned a verdict of "temporary insanity." Mrs. Morton was the widow of the late Captain John Morton who was killed in the Duck Lake engagement (North-west Rebellion, 1885). There was no doubt but that her husband's sad death had preyed on her mind.

PROSPECTS OF THE DISTRICT.

I am informed that last season's crop was about one of the best that has been harvested for years. The yield was small but the quality excellent. Very little grain was frozen, and this only in low-lying land.

Last winter stock-owners suffered severely owing to the scarcity of feed and the depth of the snow which prevented the cattle from "rustling." The winter was very long, and it was next to impossible to purchase either hay or straw. I am inclined to think that the lesson, although dearly bought, will have a very good effect on the settlers. Hay is more or less plentiful in the district and with a little labour, sufficient hay can always be procured to last a winter of any length. I think that farmers cannot be too careful in computing the quantity of hay which would be necessary to tide them over the winter, and I know that after last threshing quite a lot of straw was burned which would, in case of a forage famine such as last spring, prove very useful.

HALF-BREEDS.

During the year the relief issued to destitute Half-breeds amounted to the sum of \$200, a slight decrease on last year, and I do not anticipate that we will be called on for much relief during the coming winter. It may be that the extremely cold weather experienced will cause suffering among the poorer class of Half-breeds, and that a few

cases of absolute destitution will present themselves. In any cases where able-bodied men require relief, work will be demanded in return for rations issued.

I believe I am correct in stating that a very marked improvement is apparent in the condition of the Half-breeds generally. They realize that it is only by their own exertion and hard work that they can hope to get on. They seem to take a deeper interest in farming and stay more at home.

INDIANS.

The Indian reserves were visited frequently by our patrols, and no complaints were made. The Indians this year are putting in a hay contract for us of 75 tons at Prince Albert and 10 tons at Batoche. Escorts were furnished to the Indian agents paying treaty, and no disorder of any kind took place. Both Indian agents (Messrs. McKenzie and Keith) were satisfied with the manner in which the escorts performed their duty.

Indian agent McKenzie wrote me as follows:—

“I have much pleasure in informing you that the escort which accompanied me from Prince Albert to the agency conducted themselves in a manner which could not be more satisfactory. I considered the escort which you sent with me from Prince Albert to LaCorne and John Smith’s could not be equalled, but I found Constables Smyth and Barry as useful and obliging. I took the liberty of taking these men as far as Batoche, and finding that Sergeant Bird was unable to provide men, on account of sickness, to go with me to One Arrow’s, I took Smyth and Barry with me, and should you have been expecting them back in barracks sooner, the blame rests on my shoulders and not on theirs.

“I am pleased to say that no payments ever passed off more pleasantly and quietly than the present, and this in a great measure is due to the efficiency and attention of your men.

“I must inform you that as I was without my clerk at One Arrow’s reserve, Constable Smyth rendered me a great service in filling in my pay sheets and checking my money, which he did most satisfactorily.

“I have to thank you for all your kindness and attention, and before concluding allow me to congratulate you on the efficiency of the members of the force you were kind enough to give me as escorts.”

The Indian reserves in this district are as follows, and are situated as stated:—

John Smith’s reserve on south branch of Saskatchewan.

Edward Smith’s reserve on south branch of Saskatchewan.

One Arrow’s reserve, Batoche.

Beardy’s reserve, Duck Lake.

Muskeg Lake reserve, north of Prince Albert.

Sandy Lake reserve, north of Prince Albert.

Sturgeon Lake reserve, north of Prince Albert.

Fort à la Corne reserve, east of Prince Albert.

Moose Woods (Sioux) reserve, south of Saskatoon.

Snake Plains reserve, west of Prince Albert.

There are in addition to the above Indian reserves and Half-breed settlements extending from Cumberland House to the Pas and on to Cedar Lake and Moose Lake, as well as those on the eastern portion of Carrot River and its tributaries.

PATROLS, WORK, ETC.

The regular patrolling was kept up and all parts of the district visited.

During the season every assistance was given to the Immigration Department by furnishing teams, whenever practicable, for conveying delegates to the different parts of the district. In every instance the delegates were satisfied with the general outlook of the country, and with the facilities afforded them for thoroughly investigating and finding out the true state of the country and its adaptability for farming and stock-raising.

North-west Mounted Police.

From the following report of Corporal Connor, you will have an idea of the patrolling performed by our men at Cumberland:—

“In accordance with your instructions I purchased a dog train, harness and carriage on the 27th February from the Hudson's Bay Company, not being able to find a suitable train before this, good dogs being very scarce in this vicinity; the cost of the dogs, carriage and harness being \$100. They are good sized, young, dark grey and well trained, and have a good deal of 'huskey' in them. They are fed entirely on fish during the winter months, their rations are two fish daily for each dog at a cost of 5 cents for each fish.

“During the summer I had them kept at the Barrier River at a cost of \$1 per month for each dog, which is the usual charge for keeping them during the summer.

“At first I found dog driving rather tiresome work, but after I had made a few trips I got accustomed to it.

“After driving the dogs around for a few days getting used to them (Constable Harley and myself never having any previous experience of this work) I commenced to patrol. On the 6th March, I left with dogs on patrol to Pine Bluff and arrived there at 4.45 p.m. of same day. Pine Bluff is the winter quarters of some of the Cumberland Indians—nine families reside here—and during the winter the Hudson's Bay Company keep a small trading post open.

“7th March.—Left Pine Bluff 8 a.m., arriving at Cumberland 3 p.m.; distance travelled to Pine Bluff and return, 60 miles.

“11th March.—Constable Harley with dog train left on patrol to Birch River settlement.

“12th March.—Constable Harley returned from Birch River and reported all correct; distance to and return, 36 miles.

“Hearing reports that the Shoal Lake Indians were in destitute circumstances and as they had killed one of the Government cattle last winter, I considered it advisable to visit that place. I left here on 17th March with our dogs and taking a guide with me, I arrived at Shoal Lake at 7.30 p.m. The night being extremely cold and not having a proper outfit for camping out we were obliged to camp in one of the Indian huts, not a very desirable place. The Indians with the exception of the women and children and a few old men, were away hunting, but were expected back the next day.

“Went on this morning to 'Red Mud' and arrived there at 9.30. I camped at the Hudson's Bay Company's post and visited all the houses on the reserve. The Indians at this place are very comfortable and had their houses neat and clean and appear to be contented. They have between 60 and 70 head of cattle of their own and last year had a very good crop of potatoes.

“In September last Captain Dunlop built a school-house at 'Red Mud' and is now teaching the scholars. He pays all expenses himself and has about 17 pupils.

“19th March.—I returned to Shoal Lake and visited all the houses. Some of the Indians are very destitute and if it was not for the little assistance which they receive from the Indian Department I think they would find it hard to exist, more especially the old people who get barely enough to sustain life as they catch very few fish and rabbits are scarce. The Indian Department notified the Indian that killed the Government ox last year, that he must replace it or pay for it out of his treaty money.

“Since I was here last July a school has been opened by the Indian Department and has an attendance of 19 pupils.

“20th March.—Left Shoal Lake at 6.15 a.m. and arrived at Cumberland at 6.30 p.m., the distance travelled on the patrol being 120 miles. The trail is not much used and although I have been over it I would not care to attempt it without a guide as it is a difficult one to learn.

“25th March.—I left on patrol to the Pas and camped for dinner at Birch River settlement, and reached the Pas at 7 p.m.

“26th.—Sunday.

“27th.—Visited the agency at Oonikup returning to the Pas at 4 p.m. Everything satisfactory and no complaints.

" 28th.—Left the Pas at 5.30 a.m. for Cumberland ; arrived at Birch River settlement at 1 p.m. ; camped here for dinner and reached Cumberland at 6.30 p.m. Distance travelled while away, 130 miles.

" 5th April.—Constable Harley left on patrol to Pine Bluff with dogs, and returned on the afternoon of the 6th inst.—distance, 60 miles—and reports all correct.

" 20th.—Constable Harley, with dogs, left for Birch River and returned on the 21st. All correct ; distance, 36 miles.

" Owing to the warm weather having set in, I was obliged to discontinue patrolling with dogs, as in the warm weather they are useless. The Saskatchewan broke up on the 6th May, and the lakes were clear of ice on 20th May.

" 23rd May.—As the Hudson's Bay Company were sending a flat boat to the Pas, and Mr. MacFarlane was kind enough to allow me to send our dogs in this boat to the Barrier, Constable Harley and myself going in our canoe. The lake being very rough we were obliged to go by the Big Stone River, and arrived at Pemican Portage where we waited for the flat boat, which had taken the other route *via* the lakes. After loading some freight and having a cup of tea we left at 7 p.m. As the flat boat was to drift all night, Const. Harley and myself went aboard, towing the canoe. We arrived at the Barrier at 7.30 a.m. of the 24th, where I left our dogs for the summer season. From the Barrier Constable Harley and myself went on in the canoe to the Pas and arrived there at 7 p.m. I found everything quiet at the Pas ; a number of the Indians were still away at their hunting grounds, those that had returned were busy gardening.

" 26th.—Left the Pas for Cumberland, and took with me the two men who had brought the flat boat down. I left the Saskatchewan at the Big Eddy, taking the lake route to the Cut Off. Owing to the water not being as high as when I passed here last summer, I was obliged to make a portage of about 200 yards to Potato Lake. I met several parties of hunters returning to the Pas from their winter quarters. I camped for the night. Left camp at 5.30 a.m. of the 27th inst., and arrived at Barrier at 8.30 a.m. Here we camped for breakfast. I found our dogs all correct. I left the Barrier at 9.30 a.m. ; good tracking in places ; camped near the Tearing River for lunch at 1.30 p.m. Left camp at 2.30 p.m. and after some hard work going up the rapids, I arrived at Cumberland House at 9 p.m., having returned from the Pas in two days, a distance of 169 miles since we left Cumberland. From the Pas to Cumberland is up against the stream and a very strong current.

" Geese are very numerous this spring ; one man killed sixty on one day, and on a former occasion he shot forty.

" 6th June.—Mr. Reader, Indian Agent, arrived here this day on his tour of inspection. He reports the finding of the body of the man Cook, who was drowned near the Pas last fall.

" 8th.—Constable Harley patrolled to Birch River and returned on the 9th. He reports all correct. Distance travelled, 36 miles.

" 30th.—Mr. George Deschambault (officer in charge of the Hudson's Bay Company post at Lac-du-Brochet) arrived here this afternoon with two York boats, having been fifteen days on the trip. He says that the lake was clear of ice on the 5th June.

" 1st July.—Steamer 'North West' arrived here this morning from Prince Albert. Constable Carter arrived by steamer and reported for duty as relief for Constable Harley whose term of service expired. Mr. Gilchrist, Inspector of Fisheries, also arrived by the steamer on a tour of inspection.

" 3rd July.—His Lordship Bishop Pinkham and Archdeacon J. A. McKay arrived here this evening from the North with the Stanley and Pelican Narrows York boats.

" 10th July.—Constable Carter and myself, with one man as steersman, left Cumberland at 4 a.m. for Cedar Lakes to meet the Indian agent and to accompany him on the annual treaty payments for the Pas Agency, taking the same canoe and outfit as last year. I met the steamer 'North West' at 3 p.m. returning from Grand Rapids. Mr. MacFarlane who was on board was kind enough to have the steamer stopped, and informed me that the Indian agent was ahead of time and that I would not be likely to catch him at Cedar Lake. Not wishing to miss him I went straight to Moose Lake. We arrived at the Pas at 9.30 p.m., after a hard and long day's work of 18 hours. We

North-west Mounted Police.

had a strong head wind and rain up till noon. Last year I made this same trip in 12 hours, a distance of 84½ miles.

"11th.—Left the Pas at 8 a.m., going down the Saskatchewan to the Forks and taking the Moose Lake River, going into night camp at 7 p.m. The mosquitoes were very bad. Distance travelled, 50 miles.

"12th.—Left camp at 3.45 a.m. Had to put ashore for half an hour owing to a severe thunder storm. It rained hard all day. We arrived at Moose Lake at 10 a.m. Distance 30 miles.

"The Indians have left the reserve and are camped near the Hudson Bay post, the new reserve not being located yet.

"Owing to some delay the agent did not arrive here until the 15th.

"16th (Sunday).—The agent had service this afternoon. He preached in Cree to the Indians, and in the evening he preached in English at the Hudson Bay Co.'s post.

"17th.—The agent paid treaty this morning, addressed the Indians, and branded some cattle.

"Left Moose Lake at 7.30 p.m., making a portage to Portage Lake, which with the present stage of the water cuts off a distance of at least 20 miles. This lake connects with the branch of the Saskatchewan called the Moose Lake River. We finished our portage at 9.35 p.m. and camped for the night. The mosquitoes were very troublesome.

"18th.—Left camp at 5.30 a.m. After crossing two small lakes we reached Moose Lake River and camped for breakfast at 8.10 a.m., broke camp at 9.30 a.m., fair wind. We used sail nearly all day and camped for night near the Little River.

"19th.—Thunder storm threatening, did not leave camp till 6.20 a.m. We paddled up the Little River to the Saskatchewan and had a good fair wind. We then sailed to the Pas, where we arrived at 10.30. a.m.

"Distance from Moose Lake to the Pas, 80 miles.

The agent paid treaty up to 6 p.m.

"20th.—The agent finished paying treaty this evening. The gardens and potatoes are looking well.

"21st.—Left the Pas 9 a.m. for Shoal Lake and Red Mud. As we came around a bend in the river, the agent's boat leading, we saw three moose in the water. The agent got three shots at them with his revolver and I believe wounded one. My steersman became so excited that he turned my boat for shore instead of steering out into the river, which prevented my getting a shot at them.

"22nd.—Left camp 6.30 a.m., camping for night at 8.50 p.m. past the Sepannock Creek. Judging from the number of moose-tracks seen along the river, these animals must be very plentiful in this place.

"23rd (Sunday).—Left camp 7.30 a.m. and arrived at Shoal Lake at 11.15 a.m., camped and had dinner. After making a portage of 200 yards into Shoal Lake, we left at 1.20 p.m., we crossed the lake, taking the Man River into Man's Lake. This lake was very shallow, so we had to get out and drag the canoe through mud and water for nearly half a mile to a small creek which runs into the Carrot River. We arrived at Red Mud at 6.30 p.m. The agent remaining at Shoal Lake to hold services.

"24th.—The agent arrived and paid treaty in the afternoon.

"25th.—After the agent got through his inspection we left for Shoal Lake, arriving there in the evening. The agent paid treaty and finished payments at 7 p.m.

"26th.—The Agent inspected the school and addressed the Indians this morning. The gardens here and at Red Mud, which are mostly all potato patches, are looking well.

"We left Shoal Lake at 12.45 p.m., going into night camp at 7.50 p.m., the agent went on, intending to travel all night as he was in a hurry to get to the Pas.

"27th.—Left camp at 5 a.m. arriving at the Pas at 4.30 p.m.

Distance travelled from the Pas to Shoal Lake and Red Mud and return, 240 miles.

"28th.—The agent having some important business with the Indians at the Pas, he intends to wait there till Monday, the 31st inst. Our presence not being required we left the Pas 11.45 a.m. and arrived at Cumberland at 3.30 p.m. on Sunday the 30th, having been away just 21 days. Last year I was 31 days on the same journey. Distance travelled from the Pas to Cumberland, 84½ miles.

" August 1st.—The agent arrived at Cumberland at 5.45 p.m.

" 2nd.—The agent paid treaty this day.

" 3rd.—A meeting of the Cumberland tribe of Indians was held this day to decide on the question of surrendering a part of the reserve. After a lot of talk a vote was taken, there being a total of 31 votes with 21 present. Fourteen voted in favour of the surrender.

" 4th.—The agent left this morning for Oonikup.

" Everything passed off quietly at the treaty payments this year. With the exception of the Hudson Bay Company's officials, no traders attended the payments.

" 19th.—Dr. Orton arrived here this morning on tour of medical inspection of the different Indian reserves. He vaccinated a large number of people here to-day.

" 21st.—Mr. McColl, Inspector of Indian Agencies, arrived here this morning on his annual tour of inspection. He expressed himself pleased to see the police still here.

" 26th.—A Half-breed woman who lives at the Barrier River and who has suffered for several years from an ulcerated leg had the limb amputated by Dr. Orton. The doctor left instructions, bandages and medicines for dressing, &c. A report reached here that the people would not touch the woman, so Mr. MacFarlane asked me to visit the Barrier, and if the report was true, to dress the wound. Mr. MacFarlane was kind enough to send a man with me to interpret and to assist me generally. After receiving instructions from Mr. McCrum what to do and how to do it, I left on the 27th taking Constable Carter and interpreter with me. We arrived at the Barrier at 3.30 p.m. and found the woman in a small hut about 10 x 12 ft with only one small window and door, both of which were closed. The day being very warm the place was almost unbearable. I at once had the house ventilated. The woman was very sick, suffering apparently from the effects of chloroform. Some of her relatives had summoned courage enough to bandage the wound the evening before I arrived. They told me what they had done and as I considered this sufficient and as the woman appeared to be ill I thought it best not to disturb her. I advised the woman's relations to carry out the doctor's instructions. This they promised to do.

" I left the Barrier for the Pas at 5 p.m., camping for the night at 7.15 p.m.

" 28th.—Left camp at 6.15 a.m., passing through the "Cut Off" into Potato Lake, intending to visit the agency but found the water too shallow for our boat. Meeting one of the agent's men duck shooting, I gave him the agent's mail and started for the Pas, portaged about 200 yards into a small lake. There is a creek running from the lake into the Saskatchewan at the Big Eddy. This creek was nearly dry and for a long distance we had to pull our boat through the best way we could, the walking being so bad we could not carry it; however, after a lot of hard work we got into the Saskatchewan River and arrived at the Pas at 3.30 p.m.

" I saw Mrs. Hynes, who is medicine dispenser for the Pas Reserve, and spoke to her about the sick woman at the Barrier. She seemed sorry that the invalid was not at the Pas to receive proper treatment, and she gave me some medicine to be given her.

" Everything was quiet at the Pas and no complaints.

" 29th.—Left the Pas at 9.30 a.m. and camped for night near the "Big Bend" at 8.15 p.m.

" 30th.—Left camp at 6.30 a.m., arriving at the Barrier at 2.25 p.m. I found the sick woman much better and doing as well as could be expected under the circumstances. The woman was afterwards removed to the Pas and I believe entirely recovered.

" I left the Barrier at 3 p.m. and met Mr. MacFarlane (in York boat) en route for Winnipeg *via* Grand Rapids.

" 31st.—Left camp 7 a.m., strong head wind all day and arrived at Cumberland at 8 p.m.

" Distance travelled to the Pas and return, 169 miles.

" 25th September.—Constable Carter and myself left Cumberland at 1.45 p.m., on patrol to the Pas; camped for night at 7 p.m.

" 26th.—Left camp at 5.10 a.m. and arrived at the Pas at 5.50 p.m.

" 27th.—Found everything very quiet at the Pas: heard of no complaints.

North-west Mounted Police.

"The Rev. J. Hines returned from the Pas Mountain district this morning and reports everything quiet in that vicinity. He also reports about fourteen inches of snow in that locality.

"I did not intend to leave the Pas until the 28th instant, but having a good fair wind I thought it better to take advantage of it as it is a long way to Cumberland and all up stream. Left the Pas at 12.30 p.m. and sailed all the afternoon and camped for the night at the Cut Off at 7.30 p.m.

"28th.—Left camp at 6.15 a.m., fair wind up till noon when we had to use the paddle, arriving at Cumberland at 6.30 p.m. of the 29th instant, having returned from the Pas in two and one-half days which is good time for two men considering the size of our boat and travelling up the river all the way. By making two portages at the Big Bend the distance is considerably reduced, but our boat is too heavy for two men to carry far. Distance travelled, 169 miles.

"12th October.—Constable Carter left on patrol to Pine Bluff and returned on the 15th, reporting all correct. Distance travelled, 60 miles.

"20th October.—Constable Carter left on patrol to Pine Bluff and Sturgeon River with Mr. H. Belanger of the Hudson's Bay Company. They got as far as Angling Lake where they were frozen in and had to leave their canoe and come in on foot a distance of 30 miles. They reached here on the 23rd.

"26th.—Received my appointment as special fishery guardian of this district. This appointment entails a lot of additional work.

"29th.—A Half-breed returned from the Pas this evening and reports that his partner met with a very serious accident through the accidental discharge of a gun. It appears the two were on their way to the Pas in a canoe. Owing to the ice drifting and the river being frozen in places they were obliged to leave the canoe and walk. The wounded man was carrying his gun on his shoulder—muzzle to the front, and in crossing a small lake he slipped and fell. In falling he pulled the gun over and the contents passed through the upper portion of his thigh. Reports received say that he is doing well and is likely to recover. It is wonderful how few accidents occur in this vicinity considering the number of men travelling around in canoes and carrying firearms.

"11th November.—Got our dogs in from summer quarters. They appear to be in healthy condition but are very thin, fish being scarce this fall. Every one reports this fall as being very poor for fishing.

"20th.—Constable Carter, with dog train, left on patrol to Pine Bluff and Sturgeon River and returned on the evening of the 25th, everything correct. Distance travelled, 120 miles.

"6th December.—I left Cumberland at 8.45 a.m., with dogs on patrol to Pine Bluff (thermometer 26° below zero) and arrived at that place at 4.30 p.m.

"I visited the fishery and found the nets in accordance with the regulations. The principal varieties caught are whitefish, pike, sucker, pickerel and a few sturgeon.

"8th.—Left Pine Bluff at 7 a.m. and reached Cumberland at 3.30 p.m. Distance travelled, 60 miles.

"I learn that the total number of fish caught in this vicinity during the season was 200 sturgeon, and 9,500 of other kinds. It is impossible to obtain a classification of the varieties.

"The population of this district, including treaty and non-treaty Indians, is 383.

"In addition to the above duties the reserve has been visited weekly and frequently twice a week. Budd Settlement, six miles from Cumberland, has been visited twice a month. This place is on the other side of the lake.

"All Government property in charge of the detachment is in good condition. The canoe may require painting and some little repairs in the spring. I would also say that our canoe is far too large for two men. With a smaller boat we could do our work much more efficiently and quicker. The Rice Lake canoe is the best and most suitable boat I know of for our work. It is light to portage and at the same time strong and substantial. For our work a 16-foot boat is the size required, whereas the one we have is 19 feet 6 inches."

The number of miles travelled during the year was :—By canoe 1,232 and with dogs 656.

Moose and deer were fairly plentiful last winter, but this winter, owing to a crust having formed on the snow rather early, there have been very few of these animals killed yet. Geese and ducks were plentiful last fall and prairie chicken were never seen so thick. For about ten days there were over 100 killed daily around here and Indians report them numerous all over the district.

There were only two bush fires this summer. These fires do considerable damage in burning up the timber and in driving off and destroying game of all kinds. They are always started through the carelessness of hunters and travellers. So far I have been unable to obtain sufficient evidence to obtain a conviction.

OUTPOSTS.

The outposts during the summer months from the post were as follows :—

Locality.	Officers.	Non-Com. Officers.	Constables.	Horses.
Batoche.....		1	3	4
Saskatoon.....		1	3	4
Duck Lake.....	1	1	3	4
Cumberland.....		1	1	
Muskeg Lake.....			1	1
Fort à la Corne.....			1	1

Cumberland detachment is provided with dogs for winter travelling, and canoe for summer work. They board with the Hudson's Bay Company at Cumberland House, and patrol the settlements generally. They also accompany the Indian agent on his trips around the reserves. The Hudson's Bay Company's officers are more than satisfied with the manner in which our men perform their duties at this place.

Last summer an application was made for a detachment to be stationed at Grand Rapids. I certainly think that some of our men might with advantage be stationed there. They could meet our Cumberland patrols half-way and prevent any whisky smuggling into the district, as the liquor license does not extend to that section. There are also fisheries at this place which give employment to a number of people.

The outposts at Muskeg Lake and Fort à la Corne are now closed up for the winter, but with your permission I would station a man at each place next summer. Both outposts are on the Indian reserves, and certainly are a great deterrent to the Indians committing depredations.

FERRIES, ROADS AND BRIDGES.

The ferries, roads and bridges in the district are kept in a good state of repair.

BARRACKS AND BUILDINGS.

The only improvements made during the past year were a small store-house built on the police lots at Duck Lake; a root-house built at this post; and the buildings at this post kalsomined and painted inside.

I have your authority to expend \$300 on renovating this post. This appropriation was granted too late in the season to be utilized, but I intend to commence work on the arrival of spring. I need hardly say how much this was needed, as after your visit here in September last you could not fail to notice the necessity for painting and patching

North-west Mounted Police.

the outside and roofs of the buildings. As you are aware nothing has been done to the outside of the buildings since the summer of 1888.

HOSPITAL.

You are aware that we are still without proper hospital accommodation at this post. The improvised one in use consists of a barrack-room which has to do service as ward, surgery and store-room. I trust that it will be possible to build a small hospital during the coming year.

FIRE PROTECTION.

On this head I have only to call attention to the report made by me last year. I would again recommend that a really good well be sunk near the eastern portion of the reserve.

FOREST AND PRAIRIE FIRES.

I am pleased to be able to state that there has been very few prairie fires this year. In the case of dry weather in the spring and autumn there is always danger of incalculable damage being done by forest fires. This year temporary police outposts were established northward, and I believe this was the means of reducing the number of forest fires. The presence of the police made settlers, half-breeds and Indians more careful.

BARRACK FURNITURE.

I take the following from my report of last year :—

“ A supply of suitable and serviceable barrack furniture is required. The articles needed are iron folding beds, tables and benches. I know of no better pattern than that adopted for use in the Imperial service. Bed trestles and boards present somewhat a sorry appearance in the barrack-room, notwithstanding every effort made to maintain a system of uniformity.”

SADDLERY.

The saddlery and harness in possession of the division is in good order. Some few small articles will be required during the year. A supply of numnahs will also be required.

TRANSPORT.

The equipment of the division in this respect is good.

With the exception of jumpers, which can be procured at a small cost, I do not anticipate anything required in this line.

DISCHARGES AND ENGAGEMENTS.

During the year four constables purchased their discharge, eight left owing to expiration of term of service ; three men were dismissed for misconduct, and one is to be dismissed on the termination of his sentence of imprisonment.

Twelve non-commissioned officers and men re-engaged, and one constable applied for re-engagement, after being away for a year, and was accepted.

One recruit was accepted and sent to Regina. I also had application for enlistment from three men, but we were obliged to refuse them as they did not come up to the standard.

DESERTION.

There has been no desertion from this division for years.

SAVINGS BANK.

The men have left off depositing money through the pay-lists, so I have no idea of their savings. I am aware that some of them take advantage of the savings branch of the Imperial Bank at this place.

CONDUCT.

The conduct of the division has been fair. Four constables were recommended for dismissal, and in all cases the recommendation was approved. Two of these dismissed men had only just arrived here on transfer, and were quite young hands in the force; one of them had been previously recommended for dismissal by Supt. McIlree at Calgary, but the recommendation was not acted upon. There is no doubt but that dismissing men has a very good effect and acts as a deterrent to many breaches of discipline.

FORAGE.

The forage supplied this year is of excellent quality and the prices very moderate.

The forage before being received was carefully inspected by the veterinary non-commissioned officer and a board of officers.

All contract hay was carefully inspected before being unloaded, and care was taken to see that the contractors stacked their hay in a thorough manner.

DRILL AND TRAINING.

The division was thoroughly instructed in drill and every member went through a course.

The detachments are also drilled by the non-commissioned officers in charge.

The annual target practice was completed by the division as you will see by the attached return. The scores made were very small, owing to the inferior quality of the ammunition.

FISHERIES.

In my report of last year under the head of fisheries, I wrote as follows:—

“The value of the northern fisheries is not yet thoroughly known. Fish of the following varieties are found in all the great rivers and lakes: whitefish, lake or salmon-trout, sturgeon, pickerel, pike and gold-eye. These fish make a most valuable article of diet for the Half-breed and Indian population; and during the winter months are sold in large quantities throughout the various settlements. I am aware that the protection of fish is receiving attention at the hands of the Dominion Government. It might be well to note, therefore, that the fishery regulations are not generally known and understood in the Territories. To the average Half-breed and Indian mind a close season for fish is considered unaccountable. I believe I am right in saying that the fishery authorities have only been able to establish a close season in more or less settled portions of the Territories. Doubtless this has been unavoidable but it has nevertheless given rise to general dissatisfaction, particularly among the Indians. It is obvious that an Indian living near a large settlement cannot understand why he, at stated periods, is not allowed to set out his nets, knowing as he does that his relations in more remote and out-of-the-way places kill fish all the year round. I believe that, in so far as they relate to Indians, the fishery regulations will require some elastic provisions, and that it will not be found advisable or practicable to enforce such regulations on any cast-iron rule. I notice too that few people agree on the habits of fish, and the diversity of opinions expressed as to the true spawning season is wonderful. On this point, I believe it would be advisable for the department controlling the fisheries to obtain the opinion of reliable and experienced northern fishermen.”

This year the Fishery Department has, as far as possible, enforced the fishery laws and there is no doubt but that the average Half-breed and Indian have begun to realize what the close season means.

North-west Mounted Police.

FUR-BEARING ANIMALS.

The fur-bearing animals found in this northern district are as follows:—Bears, wolves, beavers, lynx, mink, otter, marten, foxes, badgers, skunk, fisher, wolverine, ermine and muskrats.

Fur traders expect to do a good business this year: with the exception of muskrat, furs are reported to be plentiful.

GAME.

Feathered game were very plentiful last season, deer are reported to be in average numbers.

MARRIED MEN.

I think I may with advantage make the following quotation from my report of last year:—

“Since the establishment of the force no rule has been laid down as to the proportion of married non-commissioned officers and men to be allowed in each division. It is now imperative that some steps should be taken in this respect. Men marry in spite of the warning that they cannot expect any unusual privileges. The consequence is, in the majority of cases, a subsequent appeal for special consideration. These appeals must always receive more or less consideration, notwithstanding the recognized fact that by so doing extra work is thrown on the unmarried members of the division. Some married men perform their duties with praiseworthy and exemplary promptitude, never asking for any unreasonable privilege; others do not do so. I should be sorry to see any new rule enforced which might tend to cause privation or suffering among those already married, particularly those who have, by custom, been recognized as married men for years past. I see no means of remedy other than that an order be promulgated throughout the force, by which any non-commissioned officer or constable marrying, without first having obtained the Commissioner's permission to do so, be liable to be discharged at once.”

“I think too, that when the surgeon puts a married man on the sick list he should, in all cases, be taken into hospital. I trust this subject may be dealt with in the surgeon's annual report.”

The latter portion of this I have strictly adhered to, and on a married man being taken sick, I have had him brought to the hospital for treatment.

UNIFORM AND KIT.

I have again to report that the articles of kit and uniform supplied have been good. I would call attention to the large proportion of small overshirts supplied. It appears to me that the flannel from which these overshirts are made is not shrunk as thoroughly as it should be.

RATIONS.

The quality of the rations supplied still continues uniformly good.

Last year I pointed out that the tea for issue should be of a superior quality. I again repeat this remark, believing that it is absolutely necessary to be good when it forms such an important article of diet for men on the prairie. I must say that I notice an improvement in the quality of that furnished, but I trust that a better article may be furnished in the future.

HORSES.

The report of Veterinary Sergeant Perry, which accompanies this report, leaves me very little to touch on. The horses are in good condition, the total strength at present is 52 and is made up as follows:—

Prince Albert	27
Batoche	4
Saskatoon	4
Duck Lake	5
Herd	12
	—
	52

Seven horses were sold during the year and brought a fairly good price, viz., an average of \$50.

Three horses died during the year and two were destroyed owing to fractures.

DEATHS.

It is with feelings of regret that I record the following deaths in my division during the past year :—

Inspector Huot, which occurred at Duck Lake, of heart failure on 23rd March, 1893.

Reg. No. 948 Constable Frederick Percy Lea, who died at this post on 27th August, 1893, from spinal hemorrhage and softening.

Reg. No. 2337, Constable Joseph William Prior, who died while on outpost duty at Muskeg Lake, on the 6th November, 1893, from gastro-enteritis.

Full particulars in all cases were furnished you.

In concluding this report I would bring to your favourable notice the names of Reg. No. 995, Sergeant-Major Hynes, J., and Reg. No. 28, Staff-Sergt. Parker, W. These N. C. officers have taken a deep interest in their work and performed their duties to my entire satisfaction.

I have the honour to be sir,

Your obedient servant,

J. COTTON,

Superintendent, Commanding "F" Division.

North-west Mounted Police.

APPENDIX M.

ANNUAL REPORT OF ASSISTANT SURGEON P. AYLEN.

NORTH-WEST MOUNTED POLICE HOSPITAL,
MACLEOD, 5th December, 1893.

SIR,—I have the honour to submit for your information my annual report for the year ended 30th November, 1893.

In reviewing the monthly sick reports, I find that very little of importance has occurred during the past year, with the exception of an unusually large number of fractures.

I am happy to state that there has not been a single death amongst the men in this district.

On the evening of 24th February, Reg. No. 2650, Corporal McDonald of "D" Division, attempted suicide by taking a large quantity of tincture of opium, and when found was in a comatose state. After four hours' hard work he rallied and recovered.

Reg. No. 2727, Constable Dinnis, of "H" Division, was admitted to hospital on 9th May with a fractured humerus of the left arm, the result of falling off his wagon, and the hind wheel passing over him. He made a good recovery and was returned to duty on 12th August.

Reg. No. 2395, Constable Mayo, of "D" Division, suffering from varicocele, was operated upon in Winnipeg some time ago, but unfortunately with no good results. He was incapacitated from riding and other duties, consequently I recommended him, on 26th August, to be sent to Regina to be invalided. I would have operated on this case myself only that the testicle had become atrophied, and I was afraid the operation would have been unsuccessful under these circumstances.

Inspector Davidson was taken ill at Stand Off on 18th September with pneumonia. Unfortunately when I first saw him he was too ill to be moved into hospital, but on 26th September he was brought in, where he remained until 20th October, and was returned to duty on 28th November completely recovered.

Reg. No. 2364, Constable Dillon, of "H" Division, was transferred from Lethbridge to undergo treatment, and was admitted to hospital on 10th October. I found him suffering from scrofula. I put him under treatment, and he has improved since that time. I am of opinion that he will make a good recovery, but will necessarily take a long time.

Reg. No. 1073, Constable Helmer, of "D" Division, is still suffering with inguinal hernia. I gave particulars of his case in my report last year. He is doing all duties except riding.

During the past year three civilians were treated in this hospital. One, Edward Birrup, died of cerebral hemorrhage two hours after his admission. He was found on the prairie, near the barracks, in a comatose state.

Civilian J. Powell was admitted to hospital on 5th January. He was sent here from Pincher Creek where he had both feet badly frozen, necessitating the amputation of one. He recovered and was discharged on 7th March.

Civilian Edward Landon was admitted to this hospital on 15th March, suffering from a fractured femur of the left leg. He recovered and was discharged on 21st April.

During the past year I presided at two Medical Boards, one in Lethbridge on Constable Gargantina, the other in Calgary on ex-Constable Jules Julest.

The sanitary condition of the post and detachments is excellent. Weekly inspections of the post are made and reports sent to the officer commanding.

The supply of drugs on hand at present is small, but as a contract has been entered into with Messrs. Bleasdel & Co., of Macleod, it is not necessary to keep on hand the large supplies we found necessary prior to present arrangements.

What hospital furniture we have is in good condition, and the instruments and appliances are in good order. We have received during the past year, one tonsillitor and one aspirator, both of which are first-class instruments.

The kindness displayed towards sick patients by both of my assistants deserves special comment.

I inclose you herewith an appendix of diseases treated in this hospital during the past year.

I have the honour to be, sir, your obedient servant,

P. AYLEN,

Assistant Surgeon.

The Commissioner,
North-west Mounted Police, Regina.

ANNUAL Sick Report of "D" and "H" Divisions stationed at Fort Macleod for the Year ended 30th November, 1893.

Diseases.	No. of Cases.	Average Duration.	Remarks.
<i>Constitutional Diseases.</i>			
Rheumatism, muscular	4	6½	Recovered; returned to duty.

Hernia, inguinal.....	1	41	Doing all duty except riding.
Minor surgery.....	117	44½	Recovered; returned to duty.
Special—			
Opium poisoning.....	1	2	do do transferred to Regina.

P. AYLEN,

Assistant Surgeon.

FORT MACLEOD, 5th December, 1893.

North-west Mounted Police.

APPENDIX N.

ANNUAL REPORT OF ASSISTANT SURGEON L. A. PARÉ.

BATTLEFORD, 1st December, 1893.

SIR,—I have the honour to submit to you this my report for the year ended 30th November, 1893.

The health of this post has been very good ; we have not, I am happy to state, any death to record ; and what is also a cause for congratulation, we have had no case of fever.

It is now two years since we have had any fever here, which, I have no doubt, may be attributed, in a great measure, to the improved sanitary condition of the post, and also to the sanitary measures adopted and carefully carried out—for instance, the weekly, and at times, bi-weekly, distribution of disinfectants wherever necessary, especially in the privy pits.

The improvements completed, and now being carried on in the different barrack-rooms and buildings, are of a nature to add greatly to the comfort of the men, though with the present system of heating (*i.e.*, radiating), it is almost impossible to obtain thorough ventilation, and at the same time to keep up the warmth necessary for comfort.

Thorough ventilation and warming, in these regions, during the winter months, present a problem of no small magnitude, but one which modern engineering has, I believe, almost solved. It would be well to keep this in mind in the erection of the new barrack-rooms now talked of.

I must express my regret that it was considered impossible to carry out the suggestions I have made at different times, and in my annual report of last year, about the window casings in the hospital. They constitute a great source of danger, patients in hospital have contracted very serious colds from them ; snow, rain and dust, when driven by a strong wind, penetrating freely to the wards.

I will not return to the subject of pit closets, of which I have said so much in my annual and other reports, but I would beg to suggest that for the hospital at least, a patent air closet should be purchased. It would answer all requirements for the hospital, and would do away entirely with this pit closet, and with much nuisance and discomfort to the patients. It could be fitted without the least inconvenience in the very ward. With the present system, on very cold winter days, a patient quite able to walk about, has to use the objectionable and obnoxious commode, much to his discomfort and disgust, and to the disgust of others in the ward, or he has to go out to a fearfully cold and draughty place, where he runs the risk of catching inflammation of the lungs, of the pleura, inflammatory rheumatism, &c. The arrangement I allude to would cost \$12 to purchase, and fitting it in the ward by our troop carpenter would entail another \$2 or \$3, an outlay which would certainly not exceed the amount annually expended for cleaning and disinfecting the present one.

Two cases of fracture have been treated in the hospital this year. The first, that of Reg. No. 766, Constable Sullivan, which occurred a few days before the close of our official year, and which I mentioned in my annual report, was a fracture of the olecranon process of the right ulna. The broken portion was drawn up the arm fully an inch. The union is perfect and none of the motions of the arm are the least impaired ; it is a cause for congratulation, as in the majority of cases of this kind, there is but a ligamentous union.

In the other case, that of Reg. No. 1017, Constable MacDermot, J., the result is less satisfactory. The case was from the first an obscure one, and is one which still puzzles me. At no time could there be any crepitus detected, and some of the most

usual and conclusive signs of a fracture were missing. There was no shortening of the limb, the age of the patient was not quite the age at which these fractures occur, for if there was a fracture it must have been at the hip joint, about the capsule, or through the trochanter. There was no local tenderness, no swelling about the joint, no ecchymosis or discoloration of any kind. The only symptoms on which to base the diagnosis of fracture were, the eversion of the foot, inability to raise the heel from the bed, and the almost complete helplessness of the limb. I have in special reports given the full particulars of the case.

The difficulty of diagnosis in a great many of these fractures is mentioned by all the authorities. Holmes in his "System of Surgery," vol. II., quotes many cases where these fractures could not be established at all during life. He says on page 607, speaking of fractures partly within, and partly without, the capsular ligament: "I am not aware of any sign by which such an injury may be certainly diagnosed, so that its real nature is only discoverable after death." Speaking of another variety of fractures of the head of the femur, he says: "There are no signs by which such an injury could be recognized during life."

As to the result, I said before it was not satisfactory, but that is only when compared with our other case, in which the usefulness of the limb, its motions, etc., are exactly as they were before the accident occurred. In this case the results are as favourable as they generally are, admitting the existence of a fracture (the only rational conclusion in this case, though we have no positive proof). All authorities agree that most cases of fracture about this joint are very unsatisfactory as to result. There is almost always lameness, and shortening of the limb, hardly ever is there bony union, in most cases only a ligamentous union, or no union at all, and Holmes also says of these fractures: "The prognosis must always be guarded, lameness in a greater or lesser degree is inevitable in both varieties."

In our case there is some lameness and eversion of the foot. The patient has been returned to "light duty" since October 23rd, and has since done light duty, complaining of no pain: and there is not even yet, after over forty days of pretty active use of the limb, any shortening; he has all the motions of the limb, the only thing he finds any difficulty in doing, is, to bend over when his foot is raised from the ground, for instance, when pulling on his boots.

Our stock of drugs is sufficient at present, and will need but very little addition to carry us over next year. I inclose estimates of the drugs which I think will be wanted. The amount required to cover the medicinal needs of the post, is, I understand, what is particularly wanted in the estimate. The amount requisite to purchase the drugs, etc., on the inclosed list, would certainly be sufficient, though the remedial agents and quantities may slightly differ. But it matters little, as we are now authorized to purchase locally, which, I believe, is much better.

On September 9th last, Staff Sergeant West, our hospital steward, who has always performed his duties in a competent and satisfactory manner, left on furlough for England and has not yet returned. During his absence Reg. No. 2406, Constable Reed has been doing the duties of both steward and orderly very satisfactorily, and I have great pleasure in recommending that his services should be suitably recognized.

I have the honour to be, sir,

Your obedient servant,

L. A. PARÉ,

Assistant Surgeon.

North-west Mounted Police.

L. A. PARÉ,

Assistant Surgeon.

APPENDIX O.

ANNUAL REPORT OF ASSISTANT SURGEON S. M. FRASER.

MAPLE CREEK, 1st December, 1893.

SIR,—I have the honour to submit to you my fifth annual report.

On the 3rd of January last, I arrived at Maple Creek to take over the duties of the late Dr. Dodd, whose sudden death I deeply regret.

The cases of importance during the past year have been principally surgical.

On the 25th January I proceeded to the McCoy Creek detachment to see Reg. No. 1896, ex-Constable Dawson, who was reported to have had his hands frozen the previous evening. I found on my arrival that the injury had reached half way up both fore-arms, and, although the thermometer ranged from 20° to 30° below zero the next day, I brought him in to the post, considering that he would require the most careful attention in order to save his hands. The case progressed favourably and only parts of the fingers and thumbs required to be amputated, except one forefinger, which I left intact, as the bone and tendon appeared to be healthy, expecting that the greater circulation in that finger would be sufficient in the healing process to cover them, which was eventually done, although he had very slight sensation and motion of that part up to the time of his departure, the nail not reforming. Still, I advised him to give it at least a year's trial, and if at the end of that time it continued to be useless he could have the last phalanx removed. The other stumps healed rapidly considering that in each case I had left the fingers as long as possible, and not making regular amputations with flaps higher up. Ex-Constable Dawson was transferred to Regina on the 1st May, leaving later on to be invalided. This is a case I think where something might be done for him, owing to the comparatively helpless condition he will be in for life.

Reg. No. 2262, Constable Ambrose, received a severe kick from a remount, at the knee, synovitis of the joint setting in. He progressed to complete recovery.

Reg. No. 1959, Constable Donelly, suffered from the same cause and disease, and also made a complete recovery.

The cases of fever at this post were of a remittent type. The large number of bronchial colds were due to a great extent to the insufficient ventilation and overheating of the barrack-rooms during the severe weather of last winter.

The sanitary condition of this post is good, also of those detachments which I have visited, viz. : Farwell, McCoy Creek and Bull's Head.

I would call to your notice the necessity for changes in the following :—

The men's wash and bath-rooms are too small, the bath in the latter being too old for use. I would recommend that two good baths be purchased for the use of the men.

The guard-room. On account of its arrangement it is impossible to keep the cells warm in severe weather without leaving their doors open, which, I suppose, would at times be inadvisable.

The new hospital, when the fitting up inside is finished, will be very comfortable. A number of articles are urgently required such as crockery, cutlery, &c. I would recommend that an amount be given from the fine or canteen fund for this purpose.

During the year, in my capacity as coroner, I have held two inquests and one investigation, one of the former resulting in my prosecuting and obtaining a verdict at Medicine Hat for a breach of the Ordinance relating to chemists and druggists.

I append a list of cases treated during the past year.

I have the honour to be, sir,

Your obedient servant,

S. M. FRASER, M.D.,

Assistant Surgeon.

The Commissioner,
North-west Mounted Police,
Regina.

North-west Mounted Police.

ANNUAL Sick Report for "A" Division, Maple Creek, 1st December, 1893.

Disease.	No. of cases.	No. of days.	Average duration.	Surgeon's Remarks.

APPENDIX P.

ANNUAL REPORT OF ASSISTANT SURGEON C. S. HAULTAIN.

REGINA, 5th December, 1893.

SIR,—I have the honour to submit to you the annual sick report for the headquarters post, Regina, for the year ended 30th November, 1893, together with a return of the deaths in the force during the year, a return of those invalided, and my report upon matters connected with the two branches of the medical department here at Regina, viz., the hospital, and what remains of the "medical supply."

This last, including the checking of returns, requisitions and vouchers, &c., the recording of the purchase of drugs, &c., for the force, having latterly been under my supervision, and such work as formerly passed through the senior surgeon's office having of late been referred to me, I therefore deem it expedient to report and comment upon matters heretofore beyond the immediate province of the assistant surgeon at headquarters.

GENERAL HEALTH.

The average daily attendance at sick parade has been high, about double that of the two next largest posts combined; showing an average of 12.40 on the sick report daily. This must necessarily always be out of proportion to other posts, at headquarters, where numbers of unseasoned recruits are continually being taken on. There has, however, been but little "ill-health" among the men, the causes mainly contributing to the number on the daily sick-list being dependent on the varied nature of the duties of the depôt. Chafes and blisters, sprains and contusions, though minor ailments, require attendance at the outset, and men have to be exempt from certain duties and certain dress for days at a time. In such cases I have endeavoured to avoid a waste of the men's time, in the daily march to the hospital, where they have to await their turn, by seeing them every few days as is thought needful, their names in the meantime being carried on the sick report with the date affixed at which they are next to present themselves.

One point which is noticeable in summing up the cases for the year might perhaps be improved upon: I think that men should largely be responsible for the serviceable condition of their feet, and that they should be instructed to understand this. A few days neglect in this matter often unfits a man for his guards and drills, or even from wearing boots, for a week or more. The foot-gear supplied, socks, stockings, boots and moccasins, should enable all to keep their feet in order, as experienced men always do, no matter what the extremes of heat and cold.

Frost-bites, during the severity of last winter, were few, twenty-two cases for the year, and the majority of these of slight degree, mostly of hands and face. The number of cases of heat prostration also was remarkably small during the periods of extreme heat, the temperature registering from 100° to 105° F. in the shade, intensified by the hot winds. In only eight cases did men appear upon the sick report, and fortunately none of those proved serious. The dryness of the atmosphere is probably accountable for this, allowing evaporation from the skin surface, as the forage cap and helmet are both unsuitable to a summer sun under these conditions.

The state of health of the men when under canvas at the camp of instruction at Fort Qu'Appelle was reported by Staff-Sergeant Hayne, who had medical charge of the party, to be excellent during the period that they were out, from the 8th to the 25th of September.

There were, in the month of August, a number of cases of simple fever (febricula), but none of a malarial type. With ordinary care they rarely lasted more than a week.

North-west Mounted Police.

My own experience in this locality points to the complete absence of malaria, and I have heard of no case of intermittent, which is so prevalent in malarious districts. I notice that in the annual sick report of the force for last year, no case of malarial fever of any type is reported from any of the police posts. It is noticeable that in former reports some of our assistant surgeons have modestly expressed their belief that many of the cases of continued fever are not of malarial origin, *e.g.* Dr. Paré's report for 1887. It is probable that independent observations would elicit the opinion from the majority of them, as from myself, that it is difficult to detect a malarial influence in any of the cases that we have to deal with, at any rate upon the plains, in spite of its Protean manifestations in proved malarious districts; and that true ague is almost, if not quite, unknown in the North-west Territories. If a comment upon this matter were made yearly by members of our medical staff we might, in the near future, see the country relieved of an incubus which has long lain upon it in the mind of the public, if not in that of the majority of the medical fraternity.

The attempt recently made to keep the barrack-rooms at a lower and more even temperature during the night will, I hope, prevent many colds and sore throats during the winter.

I beg to refer to the remarks of the senior surgeon upon general order 384 of 1882, in his annual report of 1890, in which he has pointed out the effects of enforcing this order.

SPECIAL CASES.

On May 13th word was received from Whitewood that Reg. No. 2089, Corporal J. Lee, who had been ill for some time with typhoid fever, was very low, and by your instructions I took the train that night. I found him very weak and saw that there was no hope of his recovery. He had been carefully attended throughout by Dr. Reid of Whitewood, a hospital bed and appliances forwarded from Regina, and everything done that was possible to add to his comfort. When I arrived, I found Staff-Sergeant Hayne acting as nurse. He had scarcely left him for five days and nights, and was assisted by Constable Conway. I returned to Regina on the following day, and on the evening of the 15th, word was received that he had died that day.

Two cases of enteric fever have occurred at the post, 51 and 58 days respectively on the sick report, with good recovery; one case of lobar pneumonia, in hospital 18 days.

Amongst the few serious accidents was that of Reg. No. 2237, Constable Asprey who, when driving a team, was thrown forward between his horses and dragged for some distance, receiving numerous injuries, including a comminuted fracture of bone of forearm. A report upon this case with his rapid and complete recovery was forwarded to you after he was returned to duty.

There was one other fracture (of fibula) with good recovery, and one dislocation (at shoulder).

I would draw attention to the number of "special" sick reports at this post, cases where the men are brought before the surgeon at odd times of the day, and not at the regular morning hour. There have been 214 of these during the year, which is an extra tax on both surgeon and hospital sergeant, as well as on the division orderly who has to march them down, as it interferes with other work. This seems to be on the increase, there having been 139 in the last six months as against 75 for the first half of the year. By coming to hospital during the day, "stables" or some other duty is often avoided, and I think the practice should be discouraged, except in cases of reasonable necessity.

The attendances of prisoners at sick parade for the year has numbered 144. Seven men have been invalided at this post.

HOSPITAL.

Very little improvement has been added to the hospital.

Two easy chairs for convalescents, a set of new blinds, and matting for the corridor, being the sum of additions in furnishing. The cook and the orderly have re-

remained the same throughout the year and have been attentive to their duty. The usual economy in messing, washing, &c., has been maintained. The hospital enclosure might, with a little attention, be made more attractive, by the addition of more trees next year. The vegetable garden, of which the hospital orderly, Const. De Longchamps, made quite a success this year, to the benefit of the patients, deserves to be encouraged in future. There is now no waste of the rain-water, since eaves—troughs and barrels have been procured.

The "Physiological Manikin," of which I forwarded a report some time ago, would be a valuable addition to the hospitals of the larger posts.

There has been some difficulty in procuring the needful stationery for hospital use. I purpose putting in a requisition for such as is needed.

The liberal supply of medical journals now forwarded to the hospital is much appreciated.

SANITATION AND IMPROVEMENTS.

Extra precautions were taken before the winter broke up to arrange for an ample supply of disinfectants throughout the force, to guard against epidemic and contagious disease, as it was predicted by many that this would be a bad year in that respect. Their judicious use has no doubt been a great preventive. Thorough cleansing of the post was commenced when the thaw set in, and was continued throughout the summer, a weekly sanitary inspection being held to report details.

The latrines were lime-washed weekly.

The scattered refuse on the old dumping-ground west of the post was concentrated and burnt, and defined limits set for its disposal in future.

With regard to the latrine system in use at this headquarters post, I cannot speak too strongly against it, and do now but refer to my report of 10th April, 1893, in which some of its bad results were pointed out.

RECRUITS.

Since all recruits have been referred to me for re-examination for some time past with instructions to make corrections and amendments on the original forms, and as ninety of these have passed through my hands during the last six months, and many previously, I beg to make a few remarks on this subject. In a large number of cases of men sent from the east, it has been my unpleasant duty to note considerable difference in height, weight and chest measurements, the men being in reality in nearly all these cases under, rather than over, the weight and measurements given. In some instances the applicants have been considerably under the minimum measurement allowed for height and chest.

Deficiency in general intelligence, such as is required for the responsibility devolving upon constables in this force, has been noticeable in several instances.

Varicocele has been by no means absent in many recruits arriving in Regina. Other palpable defects have also been apparent.

On the other hand there have been a number of recruits of exceptional physique, in addition to other qualities eminently fitting them for usefulness in the North-west Mounted Police. But, as there should be no difficulty in securing a sufficiency of well-selected men, I would respectfully bring to your notice a few of the observations that have forced themselves upon me, and suggest that more stringency in the examinations and more accuracy in the details be encouraged.

LUNATICS.

There have been six lunatic prisoners confined in the guard-room during the year. I believe their detention in the cells should in most cases be as short as possible, insomnia and excitability being increased thereby and tending to aggravate the mental condition. In maniacal cases they disturb the needful rest at night of those prisoners in adjacent cells who have been doing "hard labour" during the day.

North-west Mounted Police.

MEDICAL SUPPLY STORE.

On 18th May Staff-Sergeant Hayne took over the duties of hospital sergeant from Staff-Sergeant Bates, and the following day I received orders to attend to matters connected with the medical department, which might be referred to me.

Staff-Sergeant Bates was from this time enabled to properly attend to the work of the drug supply, which he has performed as creditably and zealously as he had previously the hospital duties. The stock of drugs in the supply store, in general use by our surgeons, is now very small, but, when these are all used up, there will continue the need for such an office at headquarters for the checking and recording of all medical and drug returns and vouchers from each post, the arranging for local purchase by comparing the fluctuating quotations from the druggists throughout the country, &c.

In conclusion, I wish to put on record that, during the seven months that Staff-Sergeant Hayne has been working under me, I have proved him to be thoroughly competent and reliable, with a high sense of duty. Such qualities will always be needed in a hospital-sergeant for this post, where the calls on hospital work of one kind and another are practically unceasing, and the sergeant is always on duty.

I have the honour to be, sir,

Your obedient servant,

C. S. HAULTAIN,

Assistant Surgeon.

The Commissioner,
North-west Mounted Police,
Regina.

APPENDIX Q.

ANNUAL REPORT OF ASSISTANT SURGEON A. E. WILLS.

CALGARY, 30th November, 1893.

SIR.—I have the honour to submit to you my report for the period during which I have had medical charge of "E" Division.

I arrived at this post on the 14th of March last and took over the hospital equipments from Hospital Corporal Row. I found the drugs and instruments in good order.

HEALTH.

Although there has been a great amount of sickness throughout the town, the health of the division generally has been extremely good. I have no doubt that this was due to the general cleanliness observed in the barracks.

The only serious cases of illness that have occurred since my arrival here were those of Inspector Snyder and Reg. No. 2737, Constable Wood, A. The former suffered from severe complications following one of the continued fevers. His condition was extremely critical for some time, but he finally recovered sufficiently to proceed on sick leave to Ontario, from whence he returned greatly improved in health.

The latter case, that of Constable Wood, was one of ordinary typhoid. At the outset it was complicated by follicular tonsilitis, which, however, soon disappeared. The fever then ran its usual course and the patient made an excellent recovery in thirty-eight days.

Last April, acting under instructions, I made a sanitary inspection of the part of the town in the vicinity of the barracks in order to ascertain, if possible, a cause for the typhoid fever then prevalent. I found the neighbourhood extremely filthy from the accumulation of last winter's refuse. This I reported to the officer commanding who immediately notified the town authorities, and after a short delay the garbage was removed. During my inspection I noticed that a number of privy pits were situated very close to wells. The soil of the bottom upon which Calgary is built being composed of extremely coarse gravel, allows a free percolation, and thus the drinking water becomes easily contaminated. I have no doubt that most of the cases could be attributed to this cause.

There was an epidemic of diphtheria in the town this fall, but I am happy to state that no cases of it occurred in barracks.

Owing to the overcrowding in the guard-room during the autumn months it was extremely difficult to preserve proper cleanliness and procure proper ventilation, and there was considerable danger of jail-fever breaking out. Happily this did not occur.

Two prisoners died during the year—one, a Belgian woman, of acute mania; the other, William Park, vagrant, of tertiary syphilis—both of which deaths have been previously reported.

The hospital at this post is a very good one and with the addition of waterworks would be complete.

The drugs are mostly in good condition and by replenishing a few of the most important ones there will be plenty for the ensuing year.

In conclusion, I beg to suggest that proper water-closets be placed in the barrack building and the present latrines be done away with. Dr. Fraser in his report for 1891 drew attention to this, and I most strongly urge its being done.

I have the honour to be, sir,

Your obedient servant,

A. E. WILLS,

Assistant Surgeon.

The Commissioner,
North-west Mounted Police,
Regina.

APPENDIX R.

ANNUAL REPORT OF ACTING ASSISTANT SURGEON H. M. BAIN.

NORTH-WEST MOUNTED POLICE, "F" DIVISION,
PRINCE ALBERT, 30th November, 1893.

SIR,—I have the honour to submit the annual sick report of this post for 1893.

The total number of cases treated during the year was 208, as shown by inclosed detailed statement. The average number on daily sick report was 2.16; the average number "off duty" was 1.09. There were fourteen cases treated in hospital, the average duration of these cases being 8.7 days.

I regret having to report three deaths amongst members of this division during the year, viz.: Inspector Huot, who died suddenly at Duck Lake on the 23rd March last, of heart failure; Constable Percy Lea, who died after a very short illness at Prince Albert, on the 27th August, of spinal hemorrhage, and Constable Prior, who died at Muskeg Lake, on the 6th of November, of enteritis.

I have already reported on the death of Constable Lea, the only one occurring under my actual care, and, doubtless, Dr. Stewart, the attending physician in the other two cases, has already submitted reports in reference to them.

In this connection, I would respectfully suggest, that, as the detachments of this division are so scattered, some of them being considerably over one hundred miles apart, it being therefore a physical impossibility for any one surgeon to attend all the detachments in case of sudden illness or accident, some equitable arrangement be entered into with the physician nearest the detachment, for attendance, at a per capita rate, and thus much expense would be saved.

Owing to many apparently conflicting orders, there has been considerable correspondence with reference to the purchase of drugs here. At times we have been ordered to purchase locally, and again have been required to requisition on Regina. Until some system is fixed and adhered to, it will be impossible for the surgeon in charge to know what course to take; and, as a rule, greater expense is incurred by frequent changes in the system of drug supply.

The cost of the drug supply for the year has been under \$170, surely not a large expenditure for a whole division, especially when it is taken into consideration that the veterinary department has been allowed to draw freely from the hospital stock.

In the past, we were able to purchase drugs locally at a considerable saving of money, but at present, the only drug firm here, probably owing to a lack of competition, refused to fill any further orders at schedule prices, so that it may be cheaper to obtain further supplies required from Regina. At present our stock is fairly complete, and few things will be required for some time.

The want of a small hospital is still much felt here, and this matter was fully laid before the Minister at his visit with you last autumn.

I have continued to receive every possible assistance from Superintendent Cotton, who is indefatigable in looking after the interests of his men.

I have the honour to be, sir,

Your obedient servant,

HUGH M. BAIN,

Acting Assistant Surgeon.

The Commissioner,
North-west Mounted Police,
Regina.

North-west Mounted Police.

ANNUAL Sick Report "F" Division, Prince Albert, for the Year ended 30th November, 1893.

Disease.	No. of Cases.	No. of Days.	Average duration.	Surgeon's Remarks.

HUGH M. BAIN,
Acting Asst. Surgeon.

APPENDIX S.

ANNUAL REPORT OF ACTING ASSISTANT SURGEON F. H. MEWBURN.

LETHBRIDGE, 18th December, 1893.

SIR,—I have the honour to submit the annual medical report of "K" Division, North-west Mounted Police, for the year ended 30th November, 1893.

During the year seventy cases have been under treatment, of this number thirty-two have been in hospital, with an average residence of a little over nineteen days per case.

No deaths have occurred.

One man has been invalided.

Fourteen men have been examined for re-engagement.

The medical supplies have been satisfactory in every respect.

An estimate for next years' drug supply accompanies this report.

I have the honour to be, sir,

Your obedient servant,

F. H. MEWBURN,

Acting Asst. Surgeon.

The Commissioner,
North-west Mounted Police,
Regina.

F. H. MEWBURN,

Acting Assistant Surgeon.

North-west Mounted Police.

APPENDIX T.

ANNUAL REPORT OF HOSPITAL SERGEANT C. J. McNAMARA, M.B.

WOOD MOUNTAIN, 30th November, 1893.

SIR,—I have the honour to inclose herewith annual sick report of "B" Division for the year ending 30th November, 1893.

The barracks at this post are in a very healthy location. The water supply is the best I have seen, the drinking water being exceptionally good.

There have been very few cases of any severity, the only ones being dislocated ankle and fractured fibula, orchitis, lumbago, and traumatic bubo, all of which are now completely cured.

The hospital here is very small, but owing to the remarkably good health of the post it is very seldom necessary to place any one in it.

I have the honour to be, sir,

Your obedient servant,

C. J. McNAMARA, M.B., M.D.,

Hospital Sergeant.

The Officer Commanding
North-west Mounted Police,
Wood Mountain.

ANNUAL Sick Report of "B" Division for the Year ended 30th November, 1893.

C. J. McNAMARA, M.B., M.D.,

Hospital Sergeant.

APPENDIX U.

ANNUAL REPORT OF HOSPITAL SERGEANT L. WATSON.

FORT SASKATCHEWAN, 30th November, 1893.

SIR,—I have the honour to inclose herewith annual medical report of this division for the year ending 30th November, 1893.

During the year 235 cases have been treated, 49 of which have been surgical and 186 medical cases; 32 cases were admitted into hospital and averaged 22 days each. During the past autumn an epidemic of typhoid fever occurred, also one of diarrhœa much resembling the cholera of French writers. Special attention has been paid to sanitary matters, and to this I attribute the fact of our having had no fatalities in these cases. I wish to impress upon you, and through you the department, the great necessity of a new hospital, as the present building is totally unfit for the purpose, and severely taxes the patience of the surgeon employed, as well as the endurance of the patients therein.

I have the honour to be, sir,

Your most obedient servant,

L. WATSON, M.D.C.M.,

Hospital Sergeant.

The Officer Commanding "G" Division,
North-west Mounted Police.

North-west Mounted Police.

ANNUAL Sick Report, "G" Division, Fort Saskatchewan, for Year ending 30th
November, 1893.

L. WATSON, M.D.C.M.,
Hospital Sergeant.

APPENDIX V.

ANNUAL REPORT OF VETERINARY SURGEON JOHN BURNETT.

REGINA, 1st December, 1893.

SIR,—I have the honour to submit to you my annual report for the year ended 30th November, 1893.

During the year I have visited and made an inspection of all the horses at the different division headquarters; I have also made an inspection of the horses at a great many of the detachments, including those in Southern Manitoba.

Notwithstanding the fact that the work of the horses has been greatly increased, especially those in the southern districts, during the past year, owing to the new quarantine regulations, the health and condition has been better than in former years, fewer deaths have occurred, and there have not been so many horses shown on the sick reports.

At each point visited I found the hay and oats of the best quality obtainable in the district.

Stabling at the different division headquarters, with the exception of Fort Saskatchewan, is good. I believe new stables are to be erected there the coming year. Where men and horses are billeted out among farmers, as is the case throughout a great portion of Southern Manitoba, the accommodation for the horses is, as a rule, not first class, the stables being very warm and ill ventilated.

New infirmary stables are urgently required at Fort Macleod, Battleford and Fort Saskatchewan.

Sixty-one remounts have been purchased this year, nearly all of which have turned out good, useful animals. Owing to the increased amount of work required of the horses, it became necessary to put some of the remounts at work they were scarcely fitted for on account of their age. There is no disputing the fact that the average broncho is tough and wiry, and a well furnished horse at four years of age, but he is not fully developed until he is six, and cases are not rare where they do not show their true form until they reach the age of ten. My experience teaches me that the horse that is kept at easy regular work the first two or three years he is in the force is the horse that lasts the longest and gives the greatest satisfaction.

There are at present a number of horses in Depôt Division which when first attached, were considered perfectly useless; if sent on a trip complaints were made that they tired very easily, or stumbled so badly that they were unsafe to ride; they were closely watched, given light work, with an occasional run on herd, and the consequence is that now these horses, once deemed useless, are the best and toughest in the division.

I would recommend that if any remounts are purchased in the coming year, twenty of them be brought to Regina for special preparation for outpost duty. They could be looked after, and ridden by ten picked men, to be in charge of one non-commissioned officer, he to be responsible to the riding instructor. This is, I believe, the principle upon which most continental armies prepare their horses for active duty, and if it is necessary for army horses to be put through a special course of preparation, a great many of which may never do a real hard day's work from the time they enter the service until they leave, it is much more necessary that horses to be used in this force should have a chance to become developed, where the patrols average from thirty to forty miles a day, kept up for an indefinite number of days, and where anything short of eighty miles a day is not considered much of a trip.

Shoeing.—This is a branch of the service that is at present fairly satisfactory, but one which I would like to see improved, it being in my opinion one of the most important. We have first-class horse shoers in the force, but not enough for the work there is to be done, as they have the transport also to attend to.

North-west Mounted Police.

The shoeing of an ordinary farm horse requires no special ability, but to turn a shoe of some particular pattern and so fit it that the horse upon which it is placed is improved in his action, or to shoe a horse so that the natural strength and elasticity is unimpaired, is ability that some blacksmiths seem never able to acquire. First-class shoers always command big wages, and to induce them to enter the force the pay would have to be increased. By employing one or two first-class shoers, they could be sent from one division to another, and give instructions to those requiring it.

The machine-made shoe is still used in the force and answers our purpose very well. With your permission I would like to test the new steel-clad aluminium shoe. This shoe is largely used upon fine driving and saddle horses in the United States, and as far as I can learn gives every satisfaction; its cost at present precludes the possibility of it being taken into general use, even should the test prove satisfactory, and I think it will only answer where a very light shoe is necessary, or in cases of faulty action where more weight is required at some particular part of the shoe.

This year forty-six horses of Depôt and "B" Divisions have been sent on herd to Last Mountain, a point about sixty miles north of Regina, and quite close to a German settlement. I inspected these horses quite recently, and found them doing well. As there is still a great deal of vacant land in the Last Mountain district I would recommend that a section be purchased for the purpose of forming a police herd camp; grass, hay, and water being in abundance, and there being a good supply of wood, a better spot could not be selected.

On the 21st June I visited Mr. Oxarart's ranch at Maple Creek for the purpose of examining and reporting upon the health of horses belonging to him, report having gained currency that some animals in his band were affected with glanders. (As the police had advertised to buy horses at Maple Creek on a certain date, it was deemed unsafe to do so if this report was true, as Mr. Oxarart's horses range over a large portion of the Maple Creek district.) After a careful examination I found twelve or fourteen horses affected with glanders. Not having authority to destroy or quarantine any affected animals, I advised Mr. Oxarart to close herd his band until the Lieutenant-Governor could be communicated with and the necessary steps taken to prevent the spread of the disease.

Although but few horses in the force have contracted the above disease, quite a number of cases have been reported from different parts of the country, but with the new Contagious Disease in Animals Act passed by the North-west Legislative Assembly, I hope to see this disease abate in the Territories.

A few cases of anthrax were reported from different parts of the country. This disease, however, was not so prevalent as during the previous year.

It was reported that tuberculosis existed in a bunch of cattle brought from the east, but whether the report proved true or not, I have been unable to learn. In the seven years I have spent in the North-west I have only seen one case of this disease, that being in a cow brought from New Brunswick. I am satisfied pleuro-pneumonia never existed in this country.

While at Fort Saskatchewan inspecting horses of "G" Division, I received a telegram from Dr. McEachran, requesting me to inspect a flock of sheep, the property of a Belgian settler living near St. Albert; this I did, and found them free from disease.

Although having no authority to make any inspection, as regards disease in animals, outside the force, I have considered it my duty, as a police veterinary officer, to report any such case as came under my notice.

Appended you will find lists of veterinary cases treated throughout the force, of horses died and those which have been destroyed, of horses cast and sold, and of horses purchased during the year 1893.

I have the honour to be, sir,

Your obedient servant,

JNO. F. BURNETT, *Inspector,*

Veterinary Surgeon.

The Commissioner,
North-west Mounted Police,
Regina.

APPENDIX W.

ANNUAL REPORT OF ASSISTANT VETERINARY SURGEON
WROUGHTON.

NORTH-WEST MOUNTED POLICE,
BARRACKS, FORT MACLEOD, 30th November, 1893.

SIR, —I have the honour to request that you will forward for the information of the Commissioner this my report for the year ending this day.

During the past year I have been in veterinary charge of the three south-western divisions of the Mounted Police, viz., "D," "H" and "K" and have constantly visited the horses both at the several divisional headquarters and at the various detachments.

I am glad to report that no infectious or contagious disease of any kind exists amongst police horses in the district at the present time, although I regret to state that several cases of "glanders" amongst civilian horses have come under my notice from time to time during the year.

There has been only one case of this disease amongst police horses—an old mare, Reg. No. 694, which was destroyed on the 5th June last; this and Reg. No. 1441, which died from acute "enteritis" while being driven from Lethbridge to Macleod, were the only casualties in "H" Division.

In "D" Division two serious accidents occurred. One animal, Reg. No. 1685, being strangled by its head collar when on detachment at St. Mary's, the horse having in some unaccountable manner caught his shoe in the buckle of the head stall.

Another animal, horse Reg. No. 1078, sustained a comminuted fracture of the tibia at its lower third, the result of a kick; it was of such a nature that the animal had to be destroyed immediately.

The only other death in the division being that of horse Reg. No. 1270, which died very suddenly from hemorrhage of the lungs on the night of the 12th December, 1892. This being the animal's second attack.

The remounts posted to this district in June last were distributed as follows:—Eight to "D" Division, seven to "H" Division, and seven to "K" Division. All these animals were purchased at Fort Macleod, Willow Creek, and High River.

They have all done fairly well with the exception of Reg. No. 1997 and Reg. No. 2002 of "K" Division. The former was injured at exercise by badly straining the psoas muscles which rendered him useless for a long time; he has, however, made a good recovery and will, I think, turn out a serviceable and useful horse.

The other horse, Reg. No. 2002, was attacked by a form of "distemper" commonly known as "irregular strangles," resulting in the formation of numerous abscesses in different parts of the body. The animal in spite of all that could be done for him, finally succumbed through heart failure, the result of exhaustion.

On the 9th June a sale of the cast horses of the district was held in the town of Macleod, when ten troop horses, four aged pack ponies and one pack mule were put up at public auction. The prices realized, considering all things, were as good as could be expected.

Owing to increased work this summer in hauling material for the quarantine camp, corrals, &c., the team horses have been kept fully employed, but have stood the work remarkably well.

I would again earnestly draw your attention to the urgent need at this post, of an infirmary stable. The old log building at present in use for this purpose, is totally unfit for winter use on account of the impossibility of keeping it up to the proper temperature, there is no means of procuring hot water at all times, so necessary for fomentation, &c., and poultices become entirely inoperative through freezing, frequent instances of which could be cited.

North-west Mounted Police.

With the exception of a few cases of "glanders" referred to above, and one slight outbreak of "black-leg," the general health of animals throughout the country has been very good indeed.

In April last a report reached the officer commanding this district from Stand Off, that bade fair to become another of those regrettable and unfortunate rumours regarding pleuro-pneumonia, which are so apt to cause undue apprehension in the minds of stockmen.

On its being referred to me I made a careful examination, and found the case one of "acute bronchitis," the result of exposure, and a disease entirely non-contagious.

We have had no cases of typhoid fever this season, and I am also very glad to report that the animal which was attacked in August, 1892, and recovered, still continues to do well, and what is still more uncommon, shows no sign of constitutional weakness, so common in this disease.

I visited all the "K" Division detachments during the year, and found the horses in good order, a few cases of temporary ailments, but nothing of a serious nature.

The horses not required for use in the post or on detachment, are kept in herd about six miles away and are visited by myself twice a week at least, and are herded by a detachment of men detailed for that duty. This I find to be of great assistance, as it enables us to keep our horses from becoming totally worn out for want of a little timely rest, and thus prolonging their usefulness in the force.

A large number of horses are now on detachment duty, and are frequently seen by myself, and although hard worked are in good condition.

I inclose an appendix of diseases from the 30th November, 1892, to 30th November, 1893.

I have the honour to be, sir,

Your obedient servant,

T. A. WROUGHTON. D.V.S.,

Assistant Veterinary Surgeon.

The Officer Commanding the Macleod District.

APPENDIX X.

ANNUAL REPORT OF VETERINARY STAFF SERGEANT J. L. POETT.

MAPLE CREEK, 27th November, 1893.

SIR,—I have the honour to state for your information that the general health and condition of the horses in the division under your command during the last year has been good.

As usual, the cases coming under veterinary treatment have been almost wholly of a surgical nature. Owing to the fact of this particular district being an unusually healthy one for horses, whether from different varieties of feed, which are at all times obtainable amongst the foot-hills of the Cypress Mountains, or from climatic influences, I am not prepared to say, but nevertheless I find after three years close observation that cases of a medical nature or those of an epizootic type are singularly few and far between. The team and remount horses supplied to this division last spring are good serviceable animals and well adapted for the work they have to perform, with one exception, viz., horse Reg. No. 1512, which was transferred from "E" Division. This animal owing to extreme nervous irritability, which in my opinion is the result of some obscure disease of the brain and nervous system, is positively unsafe either as a team or saddle horse.

An outbreak of glanders having occurred amongst the horses of the Oxarart Ranch Company last summer, was promptly met by destroying all animals affected with the slightest symptoms of the above named disease. The whole herd of some 1,600 or 1,700 head of horses was then quarantined and only allowed to range over a certain section of the country, the radius of the range being ten miles south, ten miles east, ten miles west, and six miles north, and the ordinance relating to contagious and infectious diseases in the North-west Territories was rigorously adhered to. I am inclined to believe that no danger need be apprehended in the future from these horses, as most careful examinations of the herd were made during the last two months of their detention in quarantine, when no new cases were revealed. I would also respectfully add that the whole herd of horses are ordered up for inspection during the first week of June, 1894.

The casualties occurring to horses in this division during the year are few. The leg of a remount horse was accidentally broken, the fracture being of a compound comminuted nature, *i. e.*, of the radius about two inches above where that bone articulates with the knee joint. One other death occurred in an aged animal from cerebral apoplexy, last January. All orders relating to the veterinary department of this force have been complied with.

In conclusion, I would most urgently request that I be supplied with a post mortem case, and also a pocket case of veterinary instruments.

I have the honour to be, sir,

Your obedient servant,

J. L. POETT, V.S.,

Veterinary Staff-Sergeant.

Superintendent G. B. MOFFATT,
Commanding "A" Division, N.W.M.P.

North-west Mounted Police.

APPENDIX Y.

ANNUAL REPORT OF VETERINARY STAFF-SERGEANT PRINGLE.

BATTLEFORD, 1st December, 1893.

SIR,—I have the honour to submit my annual report for the year ended 30th November, 1893.

Taking into consideration the unusual amount of duty performed by our horses, we have had a year of exceptional immunity from accidents or disease.

Two deaths have occurred during the year—horses Reg. Nos. 1528 and 942—the first mentioned on the 18th February, the latter dropped dead at herd on the morning of the 26th August from internal hemorrhage. Reg. No. 1528 died from gangrene of the lungs and congestion of the liver.

A suitable surgery with kitchen in connection, also an infirmary stable, is an absolute necessity at this post.

The forage supplied by contractors has been up to the standard.

I have destroyed a number of horses during the year with glanders and farcy. In the great majority of cases the disease has been generated by animals being kept in low, ill ventilated stables; manure being allowed to accumulate and remain during the spring months. I am pleased to state that our horses have been, through careful fumigation and disinfectants, kept free from the diseases mentioned.

I have at present one horse on sick list—mare Reg. No. 316, cast a short time ago. With that exception, our horses are in good health and condition.

I have the honour to be, sir,

Your obedient servant,

J. PRINGLE, V.S.,

Veterinary Staff-Sergeant.

The Officer Commanding "C" Division.

APPENDIX Z.

ANNUAL REPORT OF VETERINARY-STAFF SERGEANT SWEETAPPLE.

NORTH-WEST MOUNTED POLICE,
FORT SASKATCHEWAN, 4th December, 1893.

SIR,—I have the honour to forward the following annual veterinary report for the year ended 30th November, 1893.

I was transferred to "G" Division and relieved Sergeant Barry of his duties here on the 20th October, 1893. Having only been in this post for six weeks, I cannot do justice in a report of what has occurred during the ten months previous.

When I relieved Sergeant Barry I found everything in good order, and the four horses that were off duty were progressing favourably, the general condition of the other horses being good.

On my arrival I was much surprised to find the stable accommodation so poor, but as I understand that new buildings are to be erected in the spring further comment on this subject is unnecessary.

After carefully looking over the number of cases treated by Sergeant Barry, I can safely say that the general health of the horses in this division has been good.

The forage I have examined since my arrival has been of an exceptionally fine quality.

I inclose herewith a list of the cases treated by Sergeant Barry during the year.

I have the honour to be, sir,

Your obedient servant,

C. H. H. SWEETAPPLE, V.S.,

Vet. Staff-Sergt.

The Officer Commanding "G" Division.

ANNUAL Veterinary Report of "G" Division for Year ended 30th November, 1893.

Lameness.....	10	do
Quitter.....	1	Still under treatment.

North-west Mounted Police.

APPENDIX AA.

ANNUAL REPORT OF VETERINARY STAFF-SERGEANT P. K. SIDEBOTTOM.

CALGARY, 30th November, 1893.

SIR,—I have the honour to submit the annual veterinary report for the year ending 30th November, 1893.

Having taken charge of the veterinary department at this post on 11th October, 1893, I am only able to report on what has occurred since that date.

Prior to that date my report is taken from the weekly reports of Staff-Sergeant Sweetapple, my predecessor.

Since taking charge here, the health of the horses has been good.

At present there are 32 horses all told in the post, all of which, with the exception of three at present in the sick stable, are in good condition and fit for duty.

There are 24 horses turned out on herd, nine of which were lame from slight causes, the rest are mostly horses that have worked hard all summer and require recruiting for next year.

I find many of the horses in this division have corns: this, I think, can be prevented by close attention to the shoeing, which I am giving.

The team stable here is very cold and draughty, not warm enough for horses in the winter.

The hay taken in since 11th October is very fair and well cured.

Appended, I forward a list of cases treated during the last year.

I have the honour to be, sir,

Your obedient servant,

P. K. SIDEBOTTOM, V.S.,

Veterinary Sergeant.

The Commissioner,
North-west Mounted Police,
Regina.

ANNUAL Sick Report of "E" Division for the Year ended 30th November, 1893.

Reg. No. 1845 died from natural causes on 7th August, 1893.

North-west Mounted Police.

APPENDIX BB.

ANNUAL REPORT OF VETERINARY STAFF-SERGEANT F. PERRY.

NORTH-WEST MOUNTED POLICE,
PRINCE ALBERT, 6th December, 1893.

SIR,—I have the honour to forward you my annual report for year ended 30th November, 1893.

Since my arrival here, in April last, the general health of the horses has been very satisfactory.

No epizootic or contagious diseases have appeared amongst our horses, nor has there been a single case of typhoid fever, although amongst the settlers in the district the loss from this disease has been very heavy.

We lost three head during the year, two of which had to be destroyed. The first horse Reg. No. 1806, for fracture of the pedal bone, and horse Reg. No. 1675 for fracture of the suffraginis bone.

Horse Reg. No. 1001 was admitted to sick stable on 28th August, suffering from vertigo caused by faulty heart action; he died on the morning of 12th September from hypertrophy of the heart. This was one of twelve that we received from headquarters in June last.

The oats and hay being delivered are of good quality.

I have examined a number of cases of suspected glanders in the district, but in every case found the animals suffering from nasal gleet, and I believe this disease is entirely stamped out.

Messrs. McArthur and Fraser, two sheep ranchers in the district, lost a large percentage of their flocks from the larvæ of the *Aestrus ovis* or sheep gadfly. They were advised to change their pasture, which they did.

I saw Mr. Fraser later and asked him if the fly had appeared amongst his flock after they were moved, and received the reply that though closely watched he had failed to discover any, and I believe next spring that there will be no further sign of the trouble.

Twelve of our saddle horses have been turned out to herd for the winter, and are visited by myself twice a week. They will derive great benefit to their feet, from this run out.

All parties leaving barracks have been supplied with medicine.

Detachments have had regular supplies of medicine.

I attach a list of horses treated, and an estimate of drugs required for the ensuing year.

I have the honour to be, sir,

Your obedient servant,

F. PERRY,
Veterinary Sergeant.

The Officer Commanding "F" Division.

ANNUAL Sick Report of Horses of "F" Division, from 1st May to 30th Nov., 1893.

APPENDIX CC.

ANNUAL REPORT OF VETERINARY CORPORAL F. S. MACDONALD.

NORTH-WEST MOUNTED POLICE,
WOOD MOUNTAIN, 30th November, 1893.

SIR,—I have the honour to submit the annual veterinary report for the year ending 30th November, 1893.

I took over the veterinary department of "B" Division, Wood Mountain, in April last, and found the horses stationed here and at Willow Bunch detachment, in good condition. On the whole the horses of your district have performed their work very creditably. Those that arrived here this spring were in poor condition, and although the work this summer has been exceptionally hard, they have picked up and are now in first-class working form. I am sorry to say that horse Reg. No. 1680 has not done so well: he had a bad cough when he came here this spring and a severe attack of bronchitis this summer, and although he performed his work in a way, was a constant source of annoyance; he is not fit for prairie work.

The saddle horses were shod on the front feet only this summer, and the hind feet were in very good shape this fall.

I would strongly recommend that the horses be turned on day herd during the summer months. I find it of inestimable use as in this way they can be kept in better health and condition.

I would also beg to recommend that windows be placed in front of the stalls in the large stable.

I inclose a list of cases treated during the year.

I have the honour to be sir,

Your obedient servant,

FRED. S. MACDONALD, V.S.,
Corporal.

To the Officer Commanding "B" Division, Regina.

ANNUAL Sick Report of Horses of "B" Division stationed at Wood Mountain and Willow Bunch.

REPORT

OF THE

SECRETARY OF STATE

OF

CANADA

FOR THE

YEAR ENDED 31st DECEMBER

1893

PRINTED BY ORDER OF PARLIAMENT

OTTAWA

PRINTED BY S. E. DAWSON, PRINTER TO THE QUEEN'S MOST
EXCELLENT MAJESTY

1894

[No. 16—1894] *Price 5 cents*

Secretary of State.

To His Excellency the Right Honourable Sir John Campbell Hamilton-Gordon, Earl of Aberdeen, Governor General of Canada, &c., &c., &c.

MAY IT PLEASE YOUR EXCELLENCY :—

The undersigned has the honour to present to Your Excellency the Annual Report of the Department of the Secretary of State of Canada, for the year ended 31st December, 1893.

Respectfully submitted,

JOHN COSTIGAN,
Secretary of State.

OTTAWA, January 2nd, 1894.

Secretary of State.

REPORT

OF THE

DEPARTMENT OF THE SECRETARY OF STATE

OF CANADA

FOR THE

YEAR ENDED 31ST DECEMBER, 1893.

To the Honourable

JOHN COSTIGAN,

Secretary of State of Canada, &c., &c.

SIR,—I have the honour to submit the report of the Department of the Secretary of State of Canada for the year 1893, covering the following appendices, viz. :—

A. Report of the Deputy Registrar General of Canada, comprising a summary of the work done in the Registry branch of the department, a list of commissions issued to public officers, and a statement showing the companies incorporated by letters patent under "The Companies Act" with the powers, capital stock, &c., of each company, during the year.

B. A list of Consular appointments in the Dominion, recorded in the department during the year.

C. Schedules of returns to addresses and orders passed by the Senate and House of Commons of Canada during the session of 1893, received and prepared by the department and presented through the Secretary of State, with indices.

D. A statement showing the elections under "The Canada Temperance Act," during the year.

E. A complete list of the Revising Officers appointed under the Electoral Franchise Act, with their Electoral Districts and addresses.

F. A synopsis of the new regulations adopted under authority of His Excellency the Governor General in Council, respecting the issue of Passports.

G. A list of the officers, clerks and servants of the department with the date of appointment, rank and salary in each case.

In the Records Branch satisfactory progress has been made in the work of classifying the large quantity of old and interesting papers which this branch contains. These papers date back to the French regime and are for the most part of great historical value. As stated in the report of last year, they have been divided into three periods, the first closing with the union of Upper and Lower Canada in 1840, and the

second with confederation in 1867, whilst the third division comprises documents from that date, and is, of course, steadily increasing in numbers. So far the work of classification has been confined to papers of the first period and of these 37,306 documents were examined and indexed and made ready of access for reference during the year. Also, 1,874 files were completed and their contents carefully indexed and recorded. In addition to this work, the modern papers sent to the branch during the twelve months have been indexed and filed as they were received.

The library of reference is growing in interest and importance, and valuable additions have been made to it since my last report.

The report of the Board of Civil Service Examiners for the year 1893, required by section 58 of the Civil Service Act, has been prepared, and will be submitted as a separate report.

REVENUE AND EXPENDITURE.

The statement of revenue and expenditure for the fiscal year ended June 30th, 1893, is subjoined. As will be observed there is again an increase in the revenue which is derived principally from fees upon Letters Patent issued under the Companies Act, and Commissions to public officers, the amount received being \$2,788.03 in excess of that in 1892. The expenditure also again shows a decrease, having been \$1,261.52 less than in the year immediately preceding.

The total revenue was made up as follows:—

Fees on charters and supplementary charters of incorporation.....	\$ 7,380 00
Exemplifications of patents, &c.....	30 00
Copies of documents and searches.....	110 45
Commissions.....	1,724 00
Passports.....	236 00
Letters patent of annuity.....	30 00
Certificates of legalization, &c.....	120 00
Sundries.....	14 08
	<hr/>
	\$ 9,644 53
Less refunds.....	80 55
	<hr/>
	\$ 9,563 98

The total expenditure was as follows:—

Salaries.....	\$ 39,930 78
Contingencies.....	4,596 99
	<hr/>
	\$ 44,527 77

I have the honour to be, sir,

Your obedient servant,

L. A. CATELLIER,

Under Secretary of State of Canada.

DEPARTMENT OF THE SECRETARY OF STATE OF CANADA,

OTTAWA, 2nd January, 1894.

Secretary of State.

APPENDIX A.

DEPARTMENT OF THE SECRETARY OF STATE OF CANADA,
REGISTRAR'S BRANCH, OTTAWA, January, 1894.

The Honourable
JOHN COSTIGAN,
Secretary of State of Canada,
&c., &c.

SIR,—I have the honour to submit herewith, for your information, the following statement of work performed under my supervision in this branch of your department during the past year, viz., from 1st January to 31st December, 1893.

CONDENSED STATEMENT showing the work done in the Registrar's Branch of the Department of the Secretary of State, from 1st January to 31st December, 1893.

Orders in Council		1	1
Pardons	1	1	2
Proclamations	14	20	34
Quit claims	2	2	4
Releases, deeds of surrenders, &c.		193	193
† Trade union		1	1
Warrants	42	45	87
Writs of assistance	7		7
do election		6	6
<i>Land Patents.</i>			
‡ Ordnance land sales	50	50	100
Special grants	10	10	20
Total	348	685	1,033

* An annual statutory return of bonds is submitted to Parliament under chap. 19, section 23, of "The Revised Statutes of Canada," giving full particulars of the bonds registered in the branch since last return.

† Under section 14, of chapter 131 (R. S. C.), a return of all "Trade unions," registered during the year is also submitted to Parliament.

‡ A quarterly return of these lands was sent to the registrar of each city and county in the province of Ontario, and to the secretary treasurer of each city and county in the province of Quebec in which patents were issued, and a copy of the several returns in Ontario was also sent to the Provincial Secretary of Ontario.

In addition to the foregoing statement of work done, there have been copied during the year 715 pages of records, manuscripts, &c.

I also submit the annexed synopsis with accompanying index, of Letters Patent, issued during the year to all companies incorporated under chapter 119 of "The Revised Statutes of Canada," embodying the name of the company, the date of incorporation, the amount of capital stock, with the number of shares and the amount of each share, the names of the corporate members with place of residence, the first or provisional directors of the company, the chief place of business of the company, and the objects or purposes for which incorporation was sought; also of all companies which have had Supplementary Letters Patent granted them during the same period under the said Act, and the purposes for which such Supplementary Letters Patent were issued.

I also append hereto a list as submitted to Parliament under section 2, of chapter 19 of "The Revised Statutes of Canada," of all public officers to whom commissions have been issued during the year under the provisions of the said Act.

All which is most respectfully submitted.

L. A. CATELLIER,
Deputy Registrar General of Canada.

Secretary of State.

SYNOPSIS OF LETTERS PATENT

ISSUED TO

COMPANIES INCORPORATED

UNDER

CHAPTER 119 OF "THE REVISED STATUTES OF CANADA"

KNOWN AS

"THE COMPANIES ACT"

From 1st January, 1893, to 31st December, 1893.

"THE DOMINION ROLLED PLATE COMPANY" (LIMITED).

Incorporated 16th December, 1892. - - Amount of capital stock, \$75,000.

Number of shares, 750.—Amount of each share, \$100.

Corporate Members :—Louis Davis, merchant ; Henry Joshua Joseph, merchant ; Henry Nutter, merchant ; Charles Bolt, merchant ; and Scott Joseph, clerk, all of the city of Montreal, Que.

First or Provisional Directors :—Louis Davis, Henry Joshua Joseph, Henry Nutter and Charles Bolt.

Chief Place of Business :—City of Montreal, P. Q.

Objects of the Company :—To carry on the manufacture of rolled plate stock of all descriptions, and for the manufacture of jewellery, and all other articles which are manufactured from such rolled plate, and to sell, handle and deal generally in jewellery and goods manufactured from rolled plate ; the operations of the said company to be carried on throughout the Dominion of Canada.

"THE DAVID MOORE LUMBER COMPANY" (LIMITED).

Incorporated 16th December, 1892. - - Amount of capital stock, \$300,000.

Number of shares, 3,000.—Amount of each share, \$100.

Corporate Members :—Edward Davis Moore, lumberer ; Charles Augustus Moore, lumberer ; William Hamilton Cockburn Moore, lumberer ; Frederick David Moore, lumberer ; Annie Louisa Augusta Skead, married woman ; Thomas Halder Kirby, gentleman ; Charles Henry Carrière, gentleman ; and Peter Larmonth, gentleman, all of the city of Ottawa, Ont.

First or Provisional Directors :—Edward Davis Moore, Thomas Halder Kirby, Charles Henry Carrière and Peter Larmonth.

Chief Place of Business :—City of Ottawa, Ont.

Objects of the Company :—(a.) To manufacture, purchase and sell saw-logs, timber and lumber, and carry on the lumber business and the manufacture of sawn lumber generally in all its branches, and transact all matters or business ordinarily incidental thereto or connected therewith; (b.) For the purposes of the company to acquire and hold by purchase, lease, license or otherwise, lumber, lands, limits, licenses, berths, or rights to cut and remove logs, lumber and trees of every description, and to acquire or hold other real or personal estate in fee or otherwise, and to purchase or erect saw-mills, plant and all machinery for the proper carrying on of said works; (c.) To sell, lease or otherwise dispose of the said limits, real or personal estate of the company or any part thereof, and to accept and hold mortgages or other securities for the payment thereof or for the payment of obligations due to this company; the operations of the said company to be carried on throughout the Dominion of Canada.

“ THE LANG TANNING COMPANY ” (LIMITED).

Incorporated 26th December, 1892. — Amount of capital stock, \$150,000.

Number of shares, 3,000.—Amount of each share, \$50.

Corporate Members :—George Charles Henry Lang, John Adolf Lang, August Reinhold Lang, all of the town of Berlin, Ont., tanners; Mary Ann Kaiser, of the city of Detroit, Mich., U.S.A., married woman; and William Hermann Lang, of the City of Chicago, Ill., U.S.A., hide broker.

First or Provisional Directors :—George Charles Henry Lang, John Adolf Lang, August Reinhold Lang, Mary Ann Kaiser and William Hermann Lang.

Chief Place of Business :—Town of Berlin, Ont.

Objects of the Company :—To purchase, acquire and take over as a going concern the good-will, rights, credits and assets of the firm of R. Lang & Son, of the town of Berlin, in the county of Waterloo, in the province of Ontario, tanners, and to carry on the said business in all its branches and to extend the same throughout the Dominion of Canada, and to import into and export from the said Dominion and elsewhere, and to manufacture and deal generally in hides, skins, leather and all other tannery products and supplies.

“ THE DOMINION BLANKET AND FIBRE COMPANY ” (LIMITED).

Incorporated 31st December, 1892. — Amount of capital stock, \$250,000.

Number of shares, 2,500.—Amount of each share, \$100.

Corporate Members :—Frederick Fairman, merchant; Dugald Graham, gentleman; Samuel Carsley, merchant; Robert Murdoch Liddell, merchant; Edward Alfred Small, merchant; John Cameron McLaughlin, manufacturer; Edmond Arthur Robert, manufacturer; Simon S. Silverman, merchant; James McBride, merchant; Robert MacKay, merchant; George Bishop, engraver; and Charles Morton, manager, all of the city of Montreal, Que.

Secretary of State.

First or Provisional Directors :—Frederick Fairman, Dugald Graham, Samuel Carsley, Robert Murdoch Liddell, Edward Alfred Small, John Cameron McLaughlin, Edmond Arthur Robert, Simon S. Silverman, James McBride, Robert MacKay, George Bishop and Charles Morton.

Chief Place of Business :—City of Montreal, Que.

Objects of the Company :—(a.) To manufacture blankets, woollens, cotton and jute cloths and garments, and other textile fabrics, and also fibre-chamois and fibre-chamois garments, and to trade in the same; (b.) To build residences for employees and others connected with the said business and stores or other buildings necessary for the supply of the company's said employees; (c.) To build such tramways as may be necessary to communicate between the works of the company and the water front, and there to construct all necessary wharfs and other structures for facilitating loading and unloading of vessels; (d.) To construct and operate such steamboats and other vessels as may be necessary for the conveyance of the materials and goods handled by the company; (e.) To construct a system of waterworks for the supply of the employees of the company and others connected with said business; the operations of the said company to be carried on throughout Canada.

“THE JAMES ROBERTSON COMPANY” (LIMITED).

Incorporated 31st December, 1892 — — — Amount of capital stock, \$750,000.

Number of shares, 7,500.—Amount of each share, \$100.

Corporate Members :—James Robertson, of the city of Montreal, Que., manufacturer; Alexander A. Robertson, of the same place, manufacturer; James Robertson, jun., of the city of Winnipeg, Man., gentleman; Alexander A. McMichael, of the city of Toronto, Ont., manufacturer; and John Robertson, of the city of St. John, N.B. manufacturer.

Supplementary Letters Patent, issued 9th May, 1893, to

“THE TORONTO RUBBER COMPANY OF CANADA” (LIMITED)

Changing the name of the company to that of

“THE TORONTO RUBBER SHOE MANUFACTURING COMPANY”
(LIMITED).

“THE STRATHYRE MINING COMPANY” (LIMITED).

Incorporated 10th May, 1893. — — Amount of capital stock, \$125,000.

Number of shares, 1,250.—Amount of each share, \$100.

Corporate Members.—Duncan McIntyre, merchant; Richard B. Angus, gentleman; William C. Van Horne, railway manager; Thomas G. Shaughnessy, railway manager; Charles R. Hosmer, telegraph manager; Louis J. Forget, stock-broker; and Donald MacMaster, one of Her Majesty's counsel, all of the city of Montreal, P.Q., and Herbert C. Hammond, stock-broker, of the city of Toronto, Ont.

First or Provisional Directors.—Duncan McIntyre, Richard B. Angus, Herbert C. Hammond, William C. Van Horne, Charles R. Hosmer, Louis J. Forget, and Thomas G. Shaughnessy.

Chief Place of Business.—Town of Vernon, B.C.

Objects of the Company.—(a.) To acquire by purchase, location or otherwise, a tract or tracts of mineral lands in the province of British Columbia and elsewhere in the Dominion of Canada, and to work and develop the resources of the same. (b.) To carry on the business of exploring for mining and gathering gold, silver, copper, nickel, lead, iron and other precious metals, minerals and ores in such form as the same may be found throughout the Dominion of Canada. (c.) To crush, smelt, reduce and manufacture such metals, minerals and ores, and forward, ship or sell the same either in crude or other form throughout the Dominion of Canada and elsewhere, and for such purposes to establish works, factories and warehouses and operate the same. (d.) To build, acquire, own, charter or lease, navigate and use steam and other vessels so far as may be necessary or expedient for the conveyance of the products of the company's mines or other like purposes of the company. (e.) To aid by way of bonus or otherwise in the construction and maintenance of a line or lines of steam tugs, steamboats, barge and other boats, running from or to or connecting with the lands and properties of the company. (f.) To build, construct and maintain all necessary wharfs and warehouses, and to make, build, provide and carry on, use and work tramways to be operated by steam, electric or other power, telegraph and telephone lines, reservoirs, aqueducts, canals, dams, water power, roads, streets and other works which may be deemed necessary or convenient for the objects of the company. (g.) To purchase and sell gold, silver, copper, nickel, lead, iron and other valuable ores anywhere in the Dominion of Canada and elsewhere.

Provided that nothing herein contained shall be construed to interfere with any private rights or to confer on the said company the right of building bridges, piers or works over any navigable river in Canada without the consent of the Governor in Council, or of erecting posts or placing their lines of telegraph or telephone upon the line of any railway without the consent of the company or parties to whom such railway belongs.

Provided also that any message in relation to the administration of justice, the arrest of criminals, the discovery or prosecution of crime and government messages or despatches shall always be transmitted in preference to any other message or despatch, if required by any person connected with the administration of justice, or any person thereunto authorized by any Minister of Canada.

Secretary of State.

“THE GEORGIAN BAY LUMBER COMPANY” (LIMITED).

Incorporated 13th May, 1893. -- -- Amount of capital stock, \$200,000.

Number of shares, 2,000.—Amount of each share, \$100.

Corporate Members :—Arthur Murray Dodge, lumberman, city of New York, U.S. ; William Joseph Sheppard, lumberman, and Henry Lauxon Lovering, lumberman ; both of the village of Coldwater, Ont. ; William Henry Francis Russell, village of Waubaushene, Ont., merchant ; Thomas Henry Sheppard, lumberman, town of Orillia, Ont. ; and James Scott, lumberman ; Joseph Warren Hartman, lumberman ; and Charles Peckham Stocking, accountant ; all of the city of Toronto, Ont.

First or Provisional Directors :—Arthur Murray Dodge, James Scott, William Joseph Sheppard, William Henry Francis Russell and Charles Peckham Stocking.

Chief Place of Business :—Village of Waubaushene, Ont.

Objects of the Company :—(a.) The acquisition by purchase or otherwise of the saw-mills, lath-mills, shingle-mills and other mills situate in the town of Collingwood, village of Waubaushene, village of Port Severn, in the county of Simcoe and province of Ontario, or elsewhere, lately owned by the Georgian Bay Consolidated Lumber Company, together with the premises, wharfs, docks, rights and privileges belonging or appertaining, or appurtenant to the said mills or which are or were generally used, or engaged therewith, and the lands, leases, licenses, timber limits and the lying, standing or growing timber, belonging or lately belonging to the said company. (b.) The acquisition by purchase generally of trees, timber and wood of every description, as well standing and growing as severed from the soil and the manufacturing of the same into timber, saw-logs, lumber, laths and shingles, and the other products of wood for planing and working up the same for all or any purpose or purposes that the same may be used or required for, and the doing of all things necessary for the purpose of such manufacture. (c.) The construction, purchasing, chartering and navigation of steam vessels and other water craft on any lake, river, or stream within the province of Ontario, to the extent necessary for the purpose of carrying, towing or conveying saw-logs, timber, laths, shingles or other manufactured or unmanufactured stuff in connection with the said mills or any mill or mills hereafter to be erected or acquired by the said company. (d.) To acquire by purchase or otherwise the present mercantile business of the Dominion Mercantile Company, and to carry on the same, provided, however, that the operations of the company under this clause shall be confined and restricted to the districts within Canada, wherein the mills of the company are or may be for the time being situated.

APPENDIX D.

THE CANADA TEMPERANCE ACT.

The only election under the above Act during the year took place in the County of Brome, in the province of Quebec, on the 16th of June, upon a petition for the revocation of the Order in Council which declared the Act in force in that county. The result sustained the Act, the vote being : for the Act, 1,207 ; against the Act, 1,073.

Secretary of State.

APPENDIX F.

REGULATIONS RESPECTING PASSPORTS.

The following is a synopsis of the regulations respecting the issue of passports, adopted by order of His Excellency the Governor General in Council :—

1. Applications for passports must be made in writing and inclosed in a cover addressed to “The Honourable the Secretary of State, Ottawa, Ontario.”

2. The charge for a passport, whatever number of persons may be named in it, is \$4.00. The fee payable must accompany the application. Postage stamps will not be received in payment.

3. Passports are granted only to British-born subjects, or to persons naturalized in the Dominion of Canada ; they are not limited in point of time but are available for any time or for any number of journeys to foreign countries. When the party is a “naturalized British subject” he will be so designated in his passport.

4. Passports are granted to all persons either known to the Secretary of State or recommended to him by some person who is known to him ; or upon the application of any chartered bank in the Dominion of Canada ; or upon the production of a certificate of identity, which may be obtained at the department, signed by any mayor, magistrate justice of the peace, minister of religion, physician, surgeon, solicitor or notary resident in the Dominion of Canada. In certain cases, the applicant’s certificate of birth must be produced, in addition to the certificate of identity.

5. If the applicant for a passport be a naturalized British subject, his certificate of naturalization, with his signature subscribed to the oath printed on it, must be forwarded to the Department of the Secretary of State, with the certificate of identity granted in his behalf ; and his certificate of naturalization will be returned with the passport to the person who may have granted the certificate of identity, in order that he may cause such naturalized British subject to sign the passport in his presence.

6. A passport cannot be issued by the Department of the Secretary of State on behalf of a person already abroad, such person should apply for one to the nearest British Mission or Consulate : a passport cannot be issued abroad to a colonial naturalized British subject, except for a direct journey to the United Kingdom or to the colony where he has been naturalized.

7. The bearer of every passport issued by the Department of the Secretary of State should sign his passport as soon as he receives it ; without such signature either the *visa* may be refused, or the validity of the passport questioned abroad. Travellers who may have any intention of visiting the Russian Empire, the Turkish Dominions, or the Kingdom of Roumania at any time in the course of their travels, should first have their passports *visé* at the nearest Russian, Turkish or Roumanian consulate as the case may be. The addresses in London of these consulates are respectively as follows :—The Russian Consulate, 17 Great Winchester Street, E.C. ; the Consulate General of the Sublime Porte, 7, Union Court, Old Broad Street ; the Roumanian Consulate-General, 37, Old Jewry, E.C. Persons proposing to enter Germany by way of France should also have their passports *visés* at the German Embassy in London or Paris. Travellers about to proceed to any other country need not obtain the *visa* of the diplomatic or consular agents of such country, except as an additional precaution, which is recommended in the case of passports of an old date.

N.B.—Although British subjects are now free to enter Belgium, France, Holland, Italy, Denmark, Sweden and Norway without passports, and the rules about passports have been virtually relaxed in other countries, nevertheless colonial British subjects about to visit foreign countries are recommended not to omit to provide themselves with passports, for even in those countries where they are no longer obligatory, they are

found to be convenient as offering a ready means of identification, and more particularly when letters have to be claimed at a *poste restante*. For residence in certain districts of Germany or Switzerland a passport is indispensable.

FORM OF CERTIFICATE OF IDENTITY.

(a.)

The undersigned, (b.)
residing at
hereby certifies that (c.)
whose signature is written in the margin, is a (d.)

and requires a passport to enable to (e.)

Signed,

-
- (a.) Insert name of place and day of the month.
(b.) State whether mayor, magistrate, justice of the peace, minister of religion, physician, surgeon, solicitor or notary (as the case may be.)
(c.) Christian name and surname of the applicants to be given at length.
(d.) State whether a British subject or a naturalized British subject.
(e.) Insert whether "him" or "her;" also state place where proceeding to, or whether it is intended to travel generally, also whether to be accompanied by relatives or servants, or both, as the case may be, giving full Christian and surname of each individual, with statement as to whether a born or naturalized British subject.

Secretary of State.

APPENDIX No. I.

CHAPTER 17.

(Revised Statutes of Canada.)

An Act respecting the Civil Service of Canada. A. D. 1886.
 (As amended by 51 V., c. 12; 52 V., c. 12, and 55-56 V., c. 14.)

HER Majesty, by and with the advice and consent of the Senate and House of Commons of Canada, enacts as follows:—

SHORT TITLE.

1. This Act may be cited as "*The Civil Service Act.*" Short title. 48-49 V., c. 46, s. 1.

INTERPRETATION.

2. In this Act unless the context otherwise requires,—

(a.) The expression "Head of a Department" means the Minister of the Crown for the time being presiding over such department; Interpretation.
"Head of a Department."

(b.) The expression "Deputy," "Deputy Head," or "Deputy Head of the Department," means the Deputy of the Minister of the Crown presiding over such department, and also includes the "Auditor-General," in all cases in which such meaning is not inconsistent with his powers and duties under "*The Consolidated Revenue and Audit Act.*" 48-49 V., c. 46, s. 2. "Deputy Head."

CONSTITUTION OF THE CIVIL SERVICE.

3. The Civil Service, for the purposes of this Act, includes and consists of all classes of employees, elsewhere than in the North-west Territories, in or under the several departments of the executive government of Canada and in the office of the Auditor-General, included in the schedules A and B to this Act, appointed by the Governor in Council or other competent authority before the first day of July, one thousand eight hundred and eighty-two, or thereafter appointed in the manner provided by the Civil Service Act for the time being in force, and such officers and employees in the North-west Territories holding positions, which, if held in other parts of Canada, would bring them under the provisions of this Act, as the Governor in Council brings under the provisions hereof. 48-49 V., c. 46, s. 3. As to North-west Territories.
Of whom the Civil Service shall consist.

Two
divisions.

Inside
division

Outside
division.

Regulations
to be made by
Order in
Council.

Governor in
Council to
determine
number of
employees.

If the actual
number
exceeds that
allowed.

4. The service shall be divided into two divisions :—

The first or inside departmental division shall comprise employees of those classes mentioned in schedule A, employed on the several departmental staffs at Ottawa, and in the office of the Auditor-General:

The second or outside departmental division shall comprise employees of those classes mentioned in schedule B, and who are employed otherwise than on the departmental staffs at Ottawa. 48-49 V., c. 46, s. 4.

5. The Governor in Council may, from time to time, make general rules and regulations, not inconsistent with the provisions of this Act, respecting the appointments and promotions of the officers in the Civil Service and all other matters pertaining thereto. 48-49 V., c. 46, s. 5.

6. The Governor in Council shall, from time to time, determine the number of officers, chief clerks, clerks, messengers and other employees that are required for the working of the several departments in each division of the Civil Service, but the collective amount of the salaries of each department shall, in no case, exceed that provided for by vote of Parliament for that purpose:

2. If the number of employees then attached to any department in either division thereof is greater than the number allowed to the department, as herein provided, the Governor in Council shall name the persons to fill the several offices; and the remainder shall be supernumerary clerks, without being eligible for increase of salary, of that class respectively in which they rank, and shall so remain until promoted in the manner herein provided or until severed from the service 48-49 V., c. 46, s. 6.

7. *Repealed by 51 V., c. 12, s. 1.*

BOARD OF EXAMINERS.

Board of ex-
aminers of
candidates for
the service:
their appoint-
ment and
duties.

Salary of
clerk.

And of mem-
bers of board.

8. A board of examiners shall, from time to time, be appointed by the Governor in Council, who, for the purposes of this Act, shall be known and are hereinafter referred to as "The Board," consisting of three members; and they shall examine all candidates for admission to the Civil Service, and give certificates of qualification to such persons as are found qualified, according to such regulations as are authorized by the Governor in Council for the guidance of the board: 48-49 V., c. 46, s. 8.

2. The Governor in Council may appoint a person who shall be clerk to the board, at a salary not exceeding seven hundred dollars per annum:

3. Each member of the board shall receive such salary, not exceeding four hundred dollars per annum, as is fixed by the Governor in Council. 52 V., c. 12, s. 1.

4. The members of the board, while engaged in their work, shall be paid such travelling expenses as are determined by the Governor in Council: Travelling expenses.

5. Such persons as are selected by the board to assist them in the conduct of examinations shall receive such sum, not exceeding five dollars a day, as is fixed by the Governor in Council: Assistants.

6. The meetings of the board shall be held at such times, and the proceedings thereof shall be governed by such rules and regulations as the Governor in Council, from time to time, determines: Meetings.

7. The board shall be supervised by the Secretary of State 48-49 V., c. 46, s. 8. Supervision of board.

9. The board may obtain the assistance of persons who have had experience in the education of the youth of Canada, and with such assistance shall hold, or cause to be held, periodical examinations for admission to the Civil Service, in the cities of Halifax, St. John, N.B., Charlottetown, Quebec, Montreal, Ottawa, Toronto, Hamilton, London, Winnipeg, Victoria and such other places as are determined by the Governor in Council; it shall not be necessary to hold such examinations in all the said places, but the times and places at which the examinations shall be held shall be determined, from time to time, by the Governor in Council; examinations shall, as far as possible, be in writing, and the cost thereof shall be defrayed out of moneys previously voted by Parliament for that purpose. 48-49 V., c. 46, s. 9. Who may be appointed as assistants.
Places and times of examinations
Expenses, how paid.

2. Whenever the Board are satisfied that any irregularity or fraudulent practice has obtained at any examination held by them or by any person deputed by them to hold the same, they may summon before them by an instrument signed by the chairman or acting chairman of the Board, and may examine under oath or affirmation, any person who, in their opinion, is in a position to give evidence in relation to any such irregularity or fraudulent practice; and if the person so summoned neglects or refuses to appear, or having appeared, refuses to be examined upon oath or affirmation concerning the premises, or refuses to take an oath or affirmation, or having taken the oath or affirmation, refuses to answer such questions concerning the premises as are then put to him, without offering any just and lawful excuse for his refusal, the chairman or acting chairman of the Board shall be vested with all the powers conferred, in like cases, upon a justice of the peace by section thirty-two of "*The Summary Convictions Act*": Inquiry as to irregularities at examinations.
Penalty for refusing to appear, &c.

3. Every oath or affirmation required for the purposes of such examination may be administered by any member of the Board: Administration of oath.

Name of person implicated to be removed from list.

4. If any person is proved by such inquiry to have been concerned in any fraudulent practice or to have been guilty of any breach of the regulations made in virtue of section thirty-one of this Act, the Board shall report the same to the Secretary of State, who may thereupon cause such person's name to be removed from the list of persons who are found qualified :

Penalty for personation.

5. Every person who, at any examination held under this Act, personates any candidate or employs, induces or allows any person to personate him, is guilty of an offence against this Act, and is liable, on summary conviction, to imprisonment for a term not exceeding six months, or to a fine not exceeding two hundred dollars, and, if he is employed in the Civil Service, to be dismissed therefrom :

Penalty for wrongfully receiving or furnishing examination papers.

6. Every person who surreptitiously procures from any printer or other person, and every person who, without authority, furnishes to any other person any examination question paper or any other paper relating to any such examination as aforesaid, is guilty of an offence against this Act, and liable, on summary conviction, to imprisonment, with or without hard labour, for a term not exceeding six months, or to a fine not exceeding two hundred dollars, and if he is employed in the Civil Service, to be dismissed therefrom ; and no such person shall be allowed to present himself at any subsequent examination. 51 V., c. 12, s. 2.

APPOINTMENTS AND SALARIES IN THE SERVICE.

Conditions of appointment. During pleasure and after examination.

10. Except as herein otherwise provided,—

(a.) All appointments to the Civil Service shall be during pleasure, and no person shall be appointed or promoted to any place below that of a Deputy Head, unless he has passed the requisite examination and served the probationary term hereinafter mentioned ;

Limits as to age.

(b.) No person shall be appointed to any place in the first or inside departmental division of the Civil Service other than that of a Deputy Head, on probation or otherwise, whose age exceeds thirty-five years, or who has not attained, in case the appointment is to a lower grade than that of a third class clerk, the full age of fifteen years, or in other cases, the full age of eighteen years. 48-49 V., c. 46, s. 10

Appointment of Deputy Heads to be during pleasure.

11. The Deputy Heads of departments shall be appointed by the Governor in Council, and shall hold office during pleasure ; but whenever such pleasure is exercised in the direction of removing a Deputy Head from his office, a statement of the reasons for so doing shall be laid on the table of both Houses of Parliament within the first fifteen days of the next following session. 48-49 V., c. 46, s. 11.

Deputy Heads.

2. There shall be a Deputy Head for each department ; and no officer shall hereafter be raised to the rank of Deputy

Head except in the case of a vacancy occurring, or when a new department is created by Act of Parliament; but nothing herein shall affect persons who have been heretofore promoted to the rank of Deputy Head. 51 V., c. 12, s. 3

12. The salaries of the Deputy Heads shall be determined by the Governor in Council, according to the duties and responsibilities of their respective departments. The minimum salary of a Deputy Head shall be three thousand two hundred dollars, and the maximum salary shall be four thousand dollars. 48-49 V., c. 46, s. 12.

Salaries.

Minimum.

Maximum.

13. The Deputy Head of each department shall, subject to the directions of the Head of the department, oversee and direct the officers, clerks and employees in the department, and shall have general control of the business thereof, and shall perform such other duties as are assigned to him by the Governor in Council. 48-49 V., c. 46, s. 13.

Duties and powers of a Deputy Head.

14. In the absence of any Deputy Head, a chief clerk named by the Head of the department shall perform the duties of such Deputy Head, unless the performance of such duties is otherwise provided for by the Governor in Council; and there shall be in the office of the Auditor-General a chief clerk who shall, at all times, act for the Auditor-General in his absence. 48-49 V., c. 46, s. 14.

By whom performed in his absence.

15. A Chief clerkship in any department shall only be created by Order in Council, passed after—

Chief clerkships.

(a.) The Deputy Head has reported that such an officer is necessary for the proper performance of the public business in the department, stating the reasons on which he has arrived at that conclusion;

Condition of creation of office.

(b.) The concurrence of the Head of the department in such report; and—

Concurrence of Head, &c.

(c.) The salary has been voted by Parliament. 48-49 V., c. 46, s. 15.

16. The minimum salary paid to a chief clerk shall be one thousand eight hundred dollars, with an annual increase of fifty dollars up to a maximum of two thousand four hundred dollars. 48-49 V., c. 46, s. 16.

Salary.

17. A first-class clerkship shall only be created by Order in Council, passed on the report of the Deputy Head, concurred in by the Head of the department, setting forth the reasons for creating the office, and after the salary has been voted by Parliament. 48-49 V., c. 46, s. 17

First-class clerkship; condition of creation.

18. The minimum salary of a first-class clerk shall be one thousand four hundred dollars per annum, with an annual increase of fifty dollars up to a maximum of one thousand eight hundred dollars. 48-49 V., c. 46, s. 18.

Salary.

- 19.** A second-class clerkship shall only be created by Order in Council passed on the report of the Deputy Head, concurred in by the Head of the department, setting forth the reasons for creating the office, and after the salary has been voted by Parliament. 48-49 V., c. 46, s. 19.
- 20.** The minimum salary of a second-class clerk shall be one thousand one hundred dollars per annum, with an annual increase of fifty dollars up to a maximum of one thousand four hundred dollars 48-49 V., c. 46, s. 20.
- 21.** A third-class clerkship, or the office of a messenger, a packer or a sorter, shall only be created by Order in Council passed on the report of the Deputy Head, concurred in by the Head of the department, setting forth the reasons for creating the office, and after the salary has been voted by Parliament. 48-49 V., c. 46, s. 21.
- 22.** The minimum salary of a third-class clerk shall be four hundred dollars per annum, with an annual increase of fifty dollars up to a maximum of one thousand dollars. 48-49 V., c. 46, s. 22.
- 23.** The minimum salary of a messenger, packer or sorter shall be three hundred dollars per annum, with an annual increase of thirty dollars up to a maximum of five hundred dollars. 48-49 V., c. 46, s. 23.
- 24.** The salary of a clerk on appointment or promotion to any class shall begin at the minimum of such class, except in the case of third-class clerks, who may receive, in addition, fifty dollars for each optional subject (not to exceed four) in which they have passed before their appointment, and except in the case of lower grade permanent employees who, upon passing the qualifying examination, may be appointed third-class clerks, at the salary they were receiving at the time of such appointment, when such salary exceeds four hundred dollars :
2. The optional subjects in the next preceding subsection mentioned shall be book-keeping, short-hand, translation and type-writing, composition in French by English candidates, composition in English by French candidates, and précis-writing. 51 V., c. 12, s. 4.
- 25.** The officers, clerks and employees mentioned in schedule B to this Act shall be paid according to the scale thereby established, and the salaries of officers, clerks and employees in the second or outside division of departments other than the Customs, Inland Revenue and Post Office Departments

shall, subject to the provisions of any Act relating thereto, be fixed in each case by the Governor in Council. 48-49 V., c. 46, s. 25.

26. No officer, clerk or employee shall receive any increase of salary except by Order in Council passed on the report of the Deputy Head, concurred in by the Head of the department, stating that such officer, clerk or employee is deserving of such increase : Conditions of increase.

2. The increase of salary of any officer, clerk or employee authorized under this Act for the then current year may be suspended by the Head of the department for neglect of duty or misconduct, and may be subsequently restored by such Head, but without arrears. 48-49 V., c. 46, s. 26. May be suspended for neglect.

27. The increase of salary shall be payable from the first day of the official quarter next succeeding the date on which, from his length of service, any clerk or employee for whom such increase is recommended is eligible for such increase : From what time payable.

2. In case of promotion, the increase of salary shall become payable from the day on which such promotion takes place. 48-49 V., c. 46, s. 27. In case of promotion.

28. No salary shall be paid to any member of the Civil Service whose appointment or promotion, or whose increase of salary after the first day of July, one thousand eight hundred and eighty-two, has not been made in the manner provided by the Civil Service Act in force at the time of such appointment, promotion or increase. 48-49 V., c. 46, s. 28. Appointment must have been according to law.

EXAMINATIONS.

29. Except as herein otherwise provided, no appointment shall be made to either division of the Civil Service unless the person appointed has passed an examination, which shall be of two kinds— No appointment without examination.

The first or "preliminary" examination to qualify for the following appointments :— Preliminary, for what appointments.

Messengers in either division.

Porters,

Sorters,

Packers,

Letter carriers,

Mail transfer agents,

Box collectors,

Tide waiters,

Assistant inspectors of weights and measures,

Temporary copyists, and—

For such other officers in the lower grades as are determined by the Governor in Council :

Qualifying examination. The second or "qualifying" examination to qualify for the following appointments:—

Third-class clerkships in the first division ;

Third-class clerkships and the offices of landing-waiters and lockers, in the second division for Customs service ;

Third-class clerkships and the office of exciseman, in the second division for Inland Revenue service ;

Third-class clerkships, railway and marine mail clerkships, and the offices in the second division for Post Office service :

Candidates may pass both examinations voluntarily. But nothing in this section shall be construed to prevent candidates passing both examinations, at their option. 48-49 V., c. 46, s. 29.

Conditions for preliminary or qualifying examination. **30.** No person shall be admitted either to the preliminary or qualifying examination until he has satisfied the board—

(a.) That at the time appointed for such examination he will, if the examination is for a place below that of a third-class clerk, be of the full age of fifteen years, and in other cases be of the full age of eighteen years, and if for the inside departmental division, that his age will not then be more than thirty-five years ;

(b.) That he is free from any physical defect or disease which would be likely to interfere with the proper discharge of his duties ;

(c.) That his character is such as to qualify him for employment in the service. 48-49 V., c. 46, s. 30.

Holding of examination **31.** The preliminary and qualifying examinations shall be held only once a year and during the month of November, under such regulations, not inconsistent with this Act, as are, from time to time, made by the Governor in Council and published in the English and French languages in the *Canada Gazette* :

Exemption. 2. Graduates of the Royal Military College, and of any University in Canada, shall be exempt from the qualifying examination. 51 V., c. 12, s. 5.

To whom examinations shall be open. **32.** The examinations shall be open to all persons who comply with the requirements of this Act as to proof of age, health and character, and conform to the regulations made

Fees. as herein provided, upon payment of such fees as are determined by the Governor in Council ; and all examinations under this Act shall be held in the English or French language, at the option of the candidate. 48-49 V., c. 46, s. 32. *Amended* by 51 V., c. 12, s. 6.

Notice of time and place of holding. **33.** Notice of every examination to be held under this Act for admission into the Civil Service shall be published in the English and French languages in the *Canada Gazette* at least one month before the date fixed for the examination. 48-49 V., c. 46, s. 23. *Amended* by 51 V., c. 12, s. 7.

34. Immediately after each examination a list of the persons who are found qualified shall be made out, and published in the *Canada Gazette*. 48-49 V., c. 46, s. 34.

Lists of persons found qualified to be made.

NEW APPOINTMENTS.

35. Whenever it becomes necessary to make any appointment to any of the classes to which it is herein provided that first appointments shall only be made after qualifying examination, such necessity shall be reported to the Head of the department by his Deputy; and upon such report being approved by the Head of the department, and after the salary to be paid has been voted by Parliament, the Head of the department shall select and submit to the Governor in Council for probation, from the lists of qualified candidates made by the board, a person fitted for the vacant place:

Proceedings when new appointments are required.

Selection of candidates.

2. The person so selected shall not receive a permanent appointment until he has served a probationary term of at least six months:

Probation

3. The Head of the department or the Deputy Head may, at any time during the period of probation, reject any clerk or employee appointed to his department. 48-49 V., c. 46, s. 35.

Rejection during probation.

36. No probationary clerk shall remain in any department more than one year, unless, at or before the end of that time the Deputy Head signifies to the Head of the department in writing that the clerk is considered by him competent for the duties of the department:

Report of Deputy Head as to competency.

2. If he is rejected, the Head of the Department shall report to the Governor in Council the reasons for rejecting him, and another clerk shall thereupon be selected in like manner in his stead; and the Head of the department shall decide whether the name of the person rejected shall be struck off the list as unfit for the service generally, or whether he shall be allowed another trial. 48-49 V., c. 46, s. 36.

Provision in case of rejection.

37. When the Deputy Head of a department in which a vacancy occurs reports, for reasons set forth in such report, —

As to offices requiring special qualifications.

(a.) That the qualifications requisite for such office or employment are wholly or in part professional or technical;

(b.) That the requisite qualifications are not possessed by any person then in the service of that department; and—

(c.) That it would be for the public interest that the examination herein provided for should, as regards such vacancy, be wholly or partially dispensed with;

The Governor in Council may, without reference to the age of the person, if the Head of the department concurs in

Selection and appointment.

From the service if available. such report, select and appoint such person as is deemed best fitted to fill the vacancy, subject to such examination as is suggested in the report; and such appointment shall be made from the Civil Service, if any person employed therein is found available: 48-49 V., c. 46, s. 37.

Appointment without examination in certain cases. 2. City postmasters and Post Office inspectors; inspectors, collectors and preventive officers in the Customs Department; inspectors of weights and measures; and deputy collectors and preventive officers in the Inland Revenue Department, may be appointed without examination and without reference to the rules for promotion herein prescribed: 52 V., c. 12, s. 2

In what cases qualifying examination may be dispensed with. 3. The qualifying examination may be dispensed with in the case of any person actually and continuously employed on and since the first day of July, one thousand eight hundred and eighty-two, if the Deputy Head of the department, with the concurrence of the Head of the department, reports that the said employee has the requisite qualifications for the place to be filled by him; and such person may receive an appointment in the Civil Service for which he is otherwise eligible, if at the date of such temporary employment his age did not exceed thirty-five years. 48-49 V., c. 46, s. 37

Vacancy in Auditor-General's office. 38. If a vacancy occurs in the office of the Auditor-General, the report required as to such vacancy shall be made to the Minister of Finance and Receiver-General. 48-49 V., c. 46, s. 38.

PROMOTIONS.

Promotion to be by examination under regulations. 39. No promotion in either division of the Civil Service shall take place without special examination, under regulations made by the Governor in Council: 48-49 V., c. 46, s. 39.

Subjects for examination. 2. Except as herein otherwise provided, such examination shall be held only once a year in the month of May, and in such subjects as are determined from time to time for each department by the Governor in Council, and in such subjects as, by report of the Deputy Head of the department in which the promotion is to be made, concurred in by the Head of the department, are submitted to the board as best adapted to test the fitness of the candidates for the vacant office. 51 V., c. 12, s. 8.

In inside division. 3. When the vacancy to be filled by promotion exists in the inside division, the examination shall not be open to persons employed in the outside division who, at the date of their first appointment, were of a greater age than thirty-five years: 48-49 V., c. 46, s. 39.

Examination may be dispensed with in certain cases. 4. In the case of barristers, attorneys, military or civil engineers, officers of the artillery in the Militia Department, and architects, draughtsmen and land surveyors, when employed or when seeking promotion in the line of their pro-

fession, and in the case of special class excisemen seeking promotion in the Department of Inland Revenue, the examination may be dispensed with on a report from the Deputy Head, concurred in by the Head of the department, that such examination is not necessary. 51 V., c. 12, s. 8.

5. No such examination shall be required for the re-employment or promotion of excisemen who passed the departmental examinations for the special class in the excise service before the first day of July, one thousand eight hundred and eighty-two. 48-49 V., c. 46, s. 39.

Special case
of excisemen.

40. Once in each year, and not later than the fifteenth day of March, the Deputy Head of each department shall make and lay before the Board, through the Department of the Secretary of State, an estimate of the number of vacancies likely to occur therein during the ensuing year, in the first division, in the classes of—

Estimates to
be prepared.

- (a.) Chief clerks;
- (b.) First-class clerks;
- (c.) Second-class clerks. 51 V., c. 12, s. 9.

2. To the number so estimated shall be added such further number as the Deputy Head of the department deems necessary to compensate for any death, failure of health, or other contingency: Additions.

3. A similar estimate shall be made at the same time of the number of vacancies likely to occur in the second division, to which promotions can be made: In second division.

4. The numbers so estimated shall be those with reference to which the examinations for promotion shall be held, as herein provided. 48-49 V., c. 46, s. 40. Use of estimate.

41. Notice of each examination for promotion in the service shall be published in the English and French languages in the *Canada Gazette* at least one month before the examination is to be held; and such notice shall state the number of promotions expected in each class in each division. 48-49 V., c. 46, s. 41. Notices of examinations.

42. Except as herein otherwise provided, when any vacancy occurs in one of the higher classes, in either division, the Head of the department shall select from the list of successful candidates for promotion, the person whom he considers best fitted for the office, having due reference to any special duties incident to such office, to the qualification and fitness shown by the candidates respectively, during their examination, and to the record of their previous conduct in the service. 48-49 V., c. 46, s. 42. Selection for vacancies in higher classes.
Amended by 51 V., c. 12, s. 10.

43. Every promotion so made shall be subject to a probation of not less than six months; but at any time during the first year the Head of the department may reject the Promotion subject to probation.

person promoted, or he may be definitely accepted at any time during the second period of six months after his promotion :

If rejected.

2. If the person so selected is rejected he shall then return to the performance of the duties in which he was previously engaged. 48-49 V., c. 46, s. 43.

Further selection.

44. When any clerk who is promoted on probation is rejected, the Head of the department shall select another in his stead from the candidates whose names still remain on the lists of qualified persons, made by the board. 48-49 V., c. 46, s. 44.

His former duties, by whom performed.

45. During the period for which a clerk is promoted on probation the duties of the office previously held by him shall if necessary, be performed by a person selected for that purpose by the Head of the department. 48-49 V., c. 46, s. 45.

Exchange of positions by officers without examination.

46. An exchange of positions between two officers serving in different departments, or in different divisions of the same department, and the filling of a vacancy in one department by a transfer from another division of the same department or from another department, may be authorized by the Governor in Council, to be made without examination of either officer ; but such exchange or transfer shall be made without increase of salary of either of the persons exchanging or transferred ; and no person shall be transferred from an outside to an inside division, whose age at the date of his first appointment exceeded thirty-five years. 48-49 V., c. 46, s. 46.

Condition.

SUPERNUMERARY AND TEMPORARY CLERKS.

Employment of assistance in cases of temporary pressure.

47. When, from a temporary pressure of work or from any other cause, the assistance of temporary clerks becomes necessary in any branch of the first or second division, the Head of the department may—if he is satisfied that such necessity exists—on the requisition of the Deputy Head of the department, select from the lists of qualified candidates, for whom no vacancies have, up to that time, been found, such number of temporary clerks as are required, or, if the list does not furnish such a person, may employ any other person qualified for the service in question ; but such other person shall not be continued in such temporary employment after the period in which a preliminary or qualifying examination is held, unless he presents himself for examination and obtains a certificate of having passed the necessary examination. 48-49 V., c. 46, s. 48.

Term of employment limited, &c.

Rate of remuneration.

2. The rate of remuneration to be paid for temporary service shall not exceed the minimum salary of a third-class clerk, unless the service to be performed is technical and

requires special qualifications; and such temporary employment shall not be considered as giving any claim to permanent appointment. 51 V., c. 12, s. 11.

3. The temporary and supernumerary clerks so employed shall be paid only out of money voted by Parliament for payment of the contingencies of the department, division or office of the service in which such clerks are employed, or out of money voted by Parliament for the construction of works upon which they are employed. 48-49 V., c. 46, s. 47.

Out of what funds payable.

4. Temporary clerks employed continuously since the first day of July, one thousand eight hundred and eighty-two, may be appointed permanently, if otherwise qualified, at a salary equal to their average pay during the two years previous to such permanent appointment, but in no case exceeding the maximum salary of a third-class clerk. 51 V., c. 12, s. 11.

Permanent appointment of temporary clerks.

PRIVATE SECRETARIES.

48. Any member of the Civil Service may be appointed private secretary to the Head of a department, and may be paid an additional salary not exceeding six hundred dollars a year whilst so acting:

Private secretaries of Ministers.

2. No salary shall be payable to any private secretary unless the amount has been voted by Parliament. 48-49 V., c. 46, s. 48.

Salary must have been voted.

GENERAL PROVISIONS.

49. The Head of a department, and in his absence the Deputy Head of such department, may grant to each officer, chief clerk, clerk or other employee, leave of absence for purposes of recreation for a period not exceeding three weeks in each year; and every such officer, clerk or employee, whether in the first or second division, shall take the leave so granted at such time during each year as the Head or Deputy Head of the department determines:

As to leave of absence.

2. In case of illness, or for any other reason which to him seems sufficient, the Governor in Council may grant to any officer, chief clerk, clerk or other employee, leave of absence for a period not exceeding twelve months. 48-49 V., c. 46, s. 49.

In case of illness, &c.

50. The Head of a department, and in his absence the Deputy Head of such department, may,—

Suspension of officers for cause.

(a.) Suspend from the performance of his duty or from the receipt of his salary any officer or employee guilty of misconduct or negligence in the performance of his duties;

In what cases.

(b.) Remove such suspension; but no person shall receive any salary or pay for the time during which he was under suspension:

Removal of suspension.

Report in such cases.

2. All cases of suspension by the Deputy Head of the department shall be reported by him to the Head of the department. 48-49 V., c. 46, s. 50.

No extra remuneration.

51. No extra salary or additional remuneration of any kind whatsoever shall be paid to any Deputy Head, officer or employee in the Civil Service of Canada, or to any other person permanently employed in the public service. 51 V., c. 12, s. 12.

Deduction from pay for unauthorized absence.

2. *Repealed by 51 V., c. 12, s. 13.*
3. When the absence of any officer is not occasioned by his employment on other duties by the Government, by leave of absence, or on account of illness certified by an authorized medical practitioner, appointed by the Governor in Council for that purpose, his salary for each day of such absence, shall be deducted from his monthly salary. 48-49 V., c. 46, s. 51.

Certain payments to be made only under Order in Council.

52. All payments of money to permanent employees, other than salaries, to be made under the provisions of this Act, and specifically stated in the estimates submitted to Parliament, shall be made only under the authority of the Governor in Council. 48-49 V., c. 46, s. 52.

As to officers having resigned and wishing to re-enter service.

53. Any officer, clerk or employee who has resigned, shall be eligible, without examination, under the authority of an Order in Council, to re-enter the service, at the same salary in the class in which he was serving at the time of such resignation, provided that funds are available for the payment of his salary. 48-49 V., c. 46, s. 53.

Act not to prejudice certain officers.

54. Nothing contained in this Act shall prejudicially affect the salary or emoluments of any Deputy Head, officer, clerk or employee in the Civil Service of Canada, appointed on or before the first day of July, one thousand eight hundred and eighty-two, so long as he is continued in office, nor shall anything herein contained affect any salary or emolument granted and fixed by any Act in force on the day in this section before mentioned. 48-49 V., c. 46, s. 54.

Powers of Governor in Council not impaired.

Proviso.

55. No provision herein contained shall impair the power of the Governor in Council to remove or dismiss any Deputy Head, officer, clerk or employee, but no such Deputy Head, officer, clerk or employee, whose appointment is of a permanent nature, shall be removed from office except by authority of the Governor in Council. 48-49 V., c. 46, s. 55.

Attendance books to be kept; their use.

56. There shall be kept in each department, and in the office of the Auditor General, at the seat of Government, and in each office of the second division, a book or books to be called the attendance book, which shall be in such form as

is determined by the Governor in Council, in which each officer, clerk and employee of such office or department shall sign his name, at such times as are determined by the Governor in Council. 48-49 V., c. 46, s. 56.

57. The Deputy Heads of departments and all officers, chief clerks, clerks, messengers, sorters and packers of the Civil Service who have not already done so, and every Deputy Head, officer, chief clerk, clerk, messenger, sorter or packer hereafter appointed, before any salary is paid him, shall take and subscribe the oath of allegiance and also the oath contained in schedule C to this Act, or such other oath as is provided by some other Act, in that behalf:

Oath of allegiance by officers and employees.

2. In the case of the Clerk of the Privy Council, and all officers, clerks and employees under him, and in the case of any officer, clerk or employee of whom the Governor in Council requires the same, there shall be added to the oath at the asterisks, in the form of the oath in the said schedule C, the words contained in schedule D to this Act:

Addition to oath in certain cases.

3 The Clerk of the Queen's Privy Council for Canada shall take and subscribe the said oaths before the Governor General or some one appointed by him to administer the same:

Clerk of P.C. for Canada.

4. In the case of persons residing or coming to reside at the city of Ottawa, the oaths shall be taken and subscribed before the Clerk of the Privy Council:

Before whom in Ottawa.

5. In other cases the oaths may be taken and subscribed before a justice of the peace or other proper authority, who shall forward the same to the Clerk of the Privy Council:

And elsewhere.

6. The Clerk of the Privy Council shall keep a register of all such oaths. 48-49 V., c. 46, s. 57.

Register.

58. The Secretary of State shall lay before Parliament, within fifteen days after the commencement of each session, a report of the proceedings of the board of examiners under this Act during the preceding year, which report shall include a copy of the examination papers, a statement of all examinations held and of the number of candidates at each, and the names of the successful candidates, and also the rules and regulations made during the year under the provisions of section five of this Act. 48-49 V., c. 46, s. 58.

Annual report by Secretary of State, and what it must show.

2. The Secretary of State shall lay before Parliament in like manner a return of the names and salaries of all persons appointed to or promoted in the Civil Service during the said year, specifying the office to which each has been appointed or promoted. 48-49 V., c. 46, s. 58.

Further particulars.

59. The Secretary of State shall cause to be printed each year a list, to be called the Civil Service List of Canada, of all persons employed in the several departments of the Civil Service, together with those employed in the two Houses of

Yearly Civil Service list to be printed and laid before Parliament.

Parliament, upon the first day of July next preceding, showing the dates of their several appointments and promotions, their age, rank in the service, and salary; and shall lay the same before Parliament within the first fifteen days of each session. 48-49 V., c. 46, s. 59.

Who may be appointed or promoted without examination.

R.S.C., c. 17.

Retroaction.

Time limited.

60. Any person who, on the first day of July, one thousand eight hundred and eighty-two, was in the service or employment of the Government of Canada, or of any department thereof, and who has since been continuously engaged therein, may, notwithstanding anything in *The Civil Service Act*, be appointed to any position in the public service, without regard to age and without being required to pass the preliminary or qualifying examination provided for by the said Act, subject however to such regulations as are made by the Governor in Council, or by the head of a department, prescribing examinations for appointment or promotion in the Civil Service; and any such person may also, notwithstanding anything in the said Act, be temporarily continued in the public service:

2. All appointments of such persons, and all payments of salaries to them, heretefore made, are hereby legalized and confirmed:

3. No appointment or promotion shall be made under the provisions of this section after the first day of July, one thousand eight hundred and ninety-four. 55-56 V., c. 14, s. 1.

SCHEDULE A.

- (a.) Deputy Heads of departments;
- (b.) Officers who have special professional or technical qualifications;
- (c.) Chief clerks;
- (d.) First-class clerks;
- (e.) Second-class clerks;
- (f.) Third-class clerks;
- (g.) Messengers, packers and sorters. 48-49 V., c. 46, sch. A.

SCHEDULE B.

APPENDIX No. 2.

CHAPTER 18.

(Revised Statutes.)

(As amended by 56 V., c. 12.)

An Act respecting the Superannuation of persons employed in the Civil Service of Canada. em- A.D. 1886

HER Majesty, by and with the advice and consent of the Senate and House of Commons of Canada, enacts as follows:—

SHORT TITLE.

1. This Act may be cited as "*The Civil Service Superannuation Act.*" 46 V., c. 8, s. 18. Short title.

APPLICATION OF ACT.

2. The Civil Service, for the purposes of this Act includes and consists of—
- (a.) All officers, clerks and employees in or under the several departments of the Executive Government who are paid a yearly salary, and to whom "*The Civil Service Act*" applies; Who shall be deemed civil servants.
Persons under Civil Service Act.
- (b.) All such officers, clerks and employees of the second or outside division of the Civil Service, as the Governor in Council, from time to time, designates, and to whom "*The Civil Service Act*" does not apply, and who are paid a yearly salary and employed in an established capacity; Certain persons in the outside service.
- (c.) The permanent officers and servants of the Senate and House of Commons, and the permanent officers and servants employed in the Library of Parliament, who, for the purposes of this Act, shall be deemed to be in the Civil Service, saving all rights and privileges of either House in respect to the appointment or removal of its officers and servants; Officers and servants of Senate and Commons
- (d.) All persons now contributing to the superannuation fund; Present contributors to the fund.
Certain others.
- (e.) All persons to whom this Act is by some other Act declared to apply. 46 V., c. 8, s. 1.
- (f.) Notwithstanding anything therein or in any other Act contained, the provisions of *The Civil Service Superannuation Act*, chapter eighteen of the Revised Statutes, shall not apply to any person who is appointed to any branch of the Civil Service of Canada after the passing of this Act, and whose age at the time of such appointment exceeds forty-five years. 56 V., c. 12, s. 2. R.S.C., c. 18, not to apply to future appointees over forty-five years of age.

SUPERANNUATION.

3. The Governor in Council may grant to any person who has served in an established capacity in the Civil Service for ten years or upwards, and who has attained the age of sixty years, or is incapacitated by bodily infirmity from properly performing his duties, a superannuation allowance calculated on his average yearly salary during the then last three years, and not exceeding the following rates, that is to say:—

Rates of allowance. (a.) If he has served for ten years, but less than eleven years, an annual allowance of ten fiftieths of such average salary, and if for eleven years and under twelve years, an annual allowance of eleven fiftieths thereof, and in like manner a further addition of one fiftieth of such average salary for each additional year of service up to thirty-five years, when an annual allowance of thirty-five fiftieths may be granted; but no addition shall be made for any service beyond thirty-five years;

Maximum rate for 35 years. (b.) If the service has not been continuous, the period or periods during which such service has been interrupted shall not be counted, and the Order in Council made in any such case shall be laid before Parliament at its then current or next ensuing session. 46 V., c. 8, s. 2.

Breaks in service not to be counted.

4. The Governor in Council may, in the case of any person who entered the Civil Service after the age of thirty years, as being possessed of some peculiar professional or other qualifications or attainments required for the office to which he was appointed, and not ordinarily to be acquired in the public service, add to the actual number of years' service of such person, such further number of years not exceeding ten, as is considered equitable, for reasons stated in the Order in Council made in the case; and such additional number of years shall be taken as part of the term of service on which the superannuation allowance of such person shall be computed; and the Order in Council in any such case shall be laid before Parliament at its then current or next ensuing session. 46 V., c. 8, s. 3.

Governor in Council may add to service of persons appointed on account of special qualifications.

5. The superannuation of every civil servant shall be preceded by an inquiry by the Treasury Board—

Preliminary inquiry by Treasury Board. (a.) Whether the person it is proposed to superannuate is eligible within the meaning of this Act; and—

(b.) Whether his superannuation will result in benefit to the service, and is therefore in the public interest; or—

(c.) Whether it has become necessary in consequence of his mental or physical infirmity:

Report of Board. 2. No civil servant shall be superannuated unless the Treasury Board reports that he is eligible within the meaning of this Act and that such superannuation will be in the public interest. 46 V., c. 8, s. 4.

6. A deduction towards making good the superannuation allowances hereinbefore mentioned, shall be made from the salary of every person in the Civil Service to whom this Act applies, at the rate of three and one-half per cent per annum on such salary, if it is six hundred dollars or upwards, and of three per cent per annum thereon, if it is less than six hundred dollars, such deduction to be carried to the credit of a fund called the Civil Service Superannuation Fund, No. 2, to which shall be added by the Government annually such a sum as may be sufficient to make the amount thereof equal to the value of the prospective annuities payable therefrom, as hereinafter mentioned, to the several contributors thereto, upon an estimate or valuation thereof based upon the H. M. Mortality Table of the Institute of Actuaries of Great Britain and a rate of interest of six per cent per annum; but such deduction shall be made only during the first thirty-five years of service. 46 V., c. 8, s. 5 and 56 V., c. 12, s. 3.

Deductions from salaries.

Special fund.

Proviso.

7. The full superannuation allowance shall only be granted to persons who have been subject to the said deduction during ten years or upwards,—the superannuation allowance of any person who has not paid it, or has paid it for a less period, being subject to a diminution of one per centum for every year less than ten during which he has not paid it; except that the superannuation allowance of any person hereafter retiring, shall not be subject to any such diminution by reason of his not having paid the abatement hereinbefore mentioned, during any year or years after his first thirty-five years of service. 46 V., c. 8, s. 6.

Ten years' contribution requisite for full allowance.

Diminution for less period of contribution.

Exception.

8. Retirement shall be compulsory on every person to whom the superannuation allowance hereinbefore mentioned is offered, and such offer shall not be considered as implying any censure upon the person to whom it is made; nor shall any person be considered as having any absolute right to such allowance, but it shall be granted only in consideration of good and faithful service during the time upon which it is calculated:

Compulsory retirement.

Allowance conditional on good service.

2. Nothing herein contained shall be understood as impairing or affecting the right of the Governor in Council to dismiss or remove any person from the Civil Service. 46 V., c. 8, s. 7.

Right of dismissal not impaired.

9. If the Head of a department reports with respect to any person employed in his department, and about to be superannuated, from any cause other than that of ill-health or age, that the service of such person has not been satisfactory, the Governor in Council may, as to him seems fit, grant such person a superannuation allowance less than that to which he would have otherwise been entitled. 46 V., c. 8, s. 8.

Diminution when Head of Department reports unsatisfactory service.

Gratuity when yearly allowance not earned.

10. If any person to whom this Act applies, is constrained, from any infirmity of mind or body, to quit the Civil Service before the period at which a superannuation allowance might be granted him, the Governor in Council may allow him a gratuity not exceeding one month's pay for each year of his service; and if any such person is so constrained to quit the service before such period, by reason of severe bodily injury, received without his own fault, in the discharge of his public duty, the Governor in Council may allow him a gratuity not exceeding three month's pay for every two years' service, or a superannuation allowance not exceeding one-fifth of his average salary during the then last three years. 46 V., c. 8, s. 9.

Gratuity in case of bodily injury on duty.

Provision for abolition of office, reduction of staff, &c.

11. If any person to whom this Act applies is removed from office in consequence of the abolition of his office for the purpose of improving the organization of the department to which he belongs, or is removed, or retired from office to promote efficiency or economy in the Civil Service, the Governor in Council may grant him such gratuity or superannuation allowance as will fairly compensate him for his loss of office, not exceeding such as he would have been entitled to if he had retired in consequence of permanent infirmity of body or mind, after adding ten years to his actual term of service. 46 V., c. 8, s. 10.

Pensioners under sixty liable to serve if required, under penalty of loss of allowance.

12. Every person who receives a superannuation allowance, and is under the age of sixty years, and is not disabled by bodily or mental infirmity, may be called upon to fill, in any part of Canada, any public office or situation for which his previous services render him eligible, and which is not lower in rank or emolument than that from which he retired; and, if he refuses or neglects so to do, he shall forfeit his said allowance. 46 V., c. 8, s. 11.

Service before Confederation to be counted.

13. Service in an established capacity in any of the departments of the Executive Government or offices of the Legislature of any of the Provinces now included in the Dominion of Canada, before such Province became a portion thereof, by any person who has thereafter entered the Civil Service, shall be reckoned in computing his period of service for the purposes of this Act. 46 V., c. 8, s. 12.

Discretionary power of Governor in Council.

14. In any case of doubt the Governor in Council may, by general or special regulations, determine to what persons the provisions of this Act do or do not apply, and the conditions on which, and the manner in which, they shall apply in any case or class of cases. 46 V., c. 8, s. 13.

15. The superannuation allowance to which all persons to whom this Act is applicable become entitled shall be chargeable upon and payable out of the said fund. 56 V., c. 12, s. 4. Payment of allowances.

REPORT OF SUPERANNUATIONS.

16. The Minister of Finance and Receiver General shall lay before Parliament, within fifteen days after the commencement of each session thereof, a statement of all superannuations and retiring allowances in the Civil Service within the year, giving the name and rank of each person superannuated or retired, his salary, age and length of service, the allowance granted to him on retirement, the cause of his superannuation and whether the vacancy has been subsequently filled, and if so, whether by promotion or by a new appointment, and the salary of the new appointee, and also a statement showing the condition of the said fund, at the thirtieth day of June previous. 46 V., c. 8, s. 15 and 56 V., c. 12, s. 5. Annual return to be made to Parliament.

56 VICTORIA.

CHAP. 13.

An Act respecting Government Civil Service Insurance.

[Assented to 1st April, 1893.]

HER Majesty, by and with the advice and consent of the Senate and House of Commons of Canada, enacts as follows :—

1. This Act may be cited as *The Civil Service Insurance Act*. Short title.
2. In this Act, unless the context otherwise requires, the expression "Minister" means the Minister of Finance and Receiver-General. defined.
3. The Minister may contract with any person to whom *The Civil Service Superannuation Act* applies, or who may be hereafter appointed to a permanent position in any branch of the Public Service of Canada, for the payment of a certain sum of money to be made upon the death of such person. Insurance contracts authorized.
2. Any such contract is hereinafter called the "insurance contract"; the person so contracting with the Minister is hereinafter called the "insured"; and the amount so contracted to be paid is hereinafter called "insurance money." Interpretation.
4. When the insured is a married man or a widower with children, the insurance contract shall be for the benefit of his wife, or of his wife and children, or of his wife and some one or more of his children, or of his children only, or of some one or more of them; and when the insurance contract is effected for the benefit of more than one, the insured may apportion the insurance money among them as he deems proper. Apportioning of insurance in case of married man or widower with children.

Apportionment in case of unmarried man.

5. When the insured is an unmarried man, the insurance contract shall be for the benefit of his future wife, or of his future wife and children, and the insured may apportion the insurance money among them in such manner as he sees fit; but if, at the maturity of the contract, he is still unmarried, or is a widower without children, the insurance money shall fall into and become part of his estate.

Form of apportionment.

6. Any apportionment under the next two preceding sections may be made in the insurance contract, or by a declaration endorsed thereon or annexed thereto and signed by the insured.

“Children” defined.

7. When it is stated in the insurance contract, or in a declaration endorsed thereon or attached thereto, that the insurance contract is for the benefit of the wife and children generally, or of the children generally, of the insured, without specifying their names, then the word “children” shall mean all the children of the insured living at the time of his death whether by the same wife or by different wives.

Share of person dying before the insured.

8. Where an apportionment has been made as hereinbefore provided and one or more of the persons in whose favour the apportionment has been made die in the lifetime of the insured, the insured may, by an instrument in writing endorsed on or attached to the insurance contract, declare that the shares formerly apportioned to the persons so dying shall be for the benefit of the wife and children of the insured, or of one or more of them, as he sees fit; and in default of such declaration, the shares of the persons so dying shall be for the benefit of the survivor, or of the survivors of such persons in equal shares if more than one; and if all the persons so entitled die in the lifetime of the insured, the insurance money shall fall into and become part of the estate of the insured.

If there is no apportionment.

9. When no apportionment is made of the insurance money as hereinbefore provided, all persons interested shall be held to share equally therein.

Minister may decline to contract.

10. The Minister may decline to enter into an insurance contract in any case where there are, in his opinion, sufficient grounds for his declining to do so.

Tables to be prepared.

11. The Minister shall cause tables to be constructed fixing the premiums to be paid by the insured to the Minister as the consideration for such insurance contracts, and also all other tables necessary for the carrying out of the provisions of this Act.

Basis of tables.

2. All such tables shall be based on the H. M. Mortality Table of the Institute of Actuaries of Great Britain, and on

a rate of interest of six per cent per annum, no allowance being made for expenses.

3. Such tables shall be framed so that the premium to obtain an insurance contract may be paid in one sum, or in annual, semi-annual, quarterly, or monthly instalments, and either during the life of the insured or during a limited period. Premium, how payable.

12. The minimum and maximum amounts payable at death which may be contracted for under this Act shall be one thousand dollars and two thousand dollars respectively. Amount of insurance limited.

13. Every applicant for insurance shall furnish with his application a medical certificate in such form as is prescribed by the Minister. Medical certificate.

14. The Governor in Council may from time to time make regulations for the following purposes under this Act : Regulations by Governor in Council.

(a.) For regulating the mode and form of making contracts ;

(b.) For prescribing the mode of proving the age and identity and the existence or death of persons ;

(c.) For prescribing the mode of paying sums of money in connection with insurance contracts ;

(d.) For dispensing with the production of probate of a will or letters of administration, either generally or in any particular class of cases ;

(e.) For prescribing the accounts to be kept and their management ;

(f.) For determining beforehand the cases or classes of cases in which insurance contracts may be surrendered and a cash surrender value paid therefor, or a free or paid-up insurance contract issued instead thereof, and for prescribing the manner in which such cash surrender value or amount of paid-up insurance shall be determined ;

(g.) For any other purpose for which it is deemed expedient to make regulations in order to carry this Act into effect.

15. In the event of any person to whom *The Civil Service Superannuation Act* now applies taking advantage of the provisions of this Act, a deduction at the rate of three per cent per annum shall be made from the salary of such person towards making good the superannuation allowance provided for by the said Act, such deduction to be instead of the deduction now payable under section six of the said Act. Additional payment if insured now comes under R.S.C., c. 18.

16. The provisions of this Act shall be carried out by the staff of the Finance Department, under the direction and supervision of the Superintendent of Insurance. Superintendent of insurance.

Annual
report.

17. The said superintendent shall, within three months after the thirtieth day of June in each year, prepare for the Minister a statement showing the amount received for premiums during the twelve months ending on the said thirtieth day of June for all insurance contracts entered into previous to the said date, and the amount of all sums paid in connection therewith during the said period, the number of new contracts entered into since the previous statement and the gross amount thereof, with such further details and particulars as are deemed advisable.

To be laid
before Parlia-
ment.

2. The Minister shall lay the said statement before Parliament within thirty days after the commencement of the session thereof next after the date of the said statement.

BOARD OF CIVIL SERVICE EXAMINERS,

OTTAWA, 15th February, 1894.

SIR,—I have the honour of addressing you herewith, the Report of the proceedings and operations of the Board of Civil Service Examiners for the year ended 31st December, 1893, embracing, viz. :—

1. Statement of the Promotion and Entrance Examinations held during the year, with the number of Candidates at each, and the number who passed successfully.
2. Copies of the Question Papers used at the said examinations.
3. Lists giving the names of the Candidates who were successful at the Entrance Examinations.

I have the honour to be, sir,

Your obedient servant,

P. LESUEUR,

Secretary.

The Honourable
JOHN COSTIGAN,
Secretary of State.

Board of Civil Service Examiners.

REPORT

OF THE

BOARD OF CIVIL SERVICE EXAMINERS

FOR THE

YEAR ENDED 31st DECEMBER, 1893.

The undersigned, constituting the Board of Civil Service Examiners for the Dominion of Canada, have the honour to report, that in obedience to the requirements of the Civil Service Act, they held, personally, during the month of May, 1893, at Ottawa and Toronto, and through sub-examiners at Halifax, N.S., St. John, N.B., Charlottetown, P.E.I., Quebec, Montreal, Kingston, Hamilton, London, Winnipeg, Manitoba, and Victoria, B.C., the regular annual Promotion Examinations for the employees of the Civil Service, those of the Excise Branch of the Department of Inland Revenue excepted, there being no vacancies therein, rendering such an examination necessary.

The theory of the system is that where there are no vacancies to be filled, or any proximately anticipated, no Promotion Examinations will be held.

But, inasmuch as there had been circumstances strongly suggestive of collusion among the Excise candidates at the Promotion Examination held at St. John, N.B., in August, 1892, it was deemed advisable to require the seven persons who had attended that examination to come up with the candidates from the other branches of the Civil Service in that city at the general Promotion Examination of May last, in order to be tested in the subjects prescribed by their department, viz., book-keeping, Inland Revenue law, arithmetic, mensuration, malt gauging, use of hydrometer, malting, manufacture of tobacco and cigars, stamping, inspection of petroleum, distillation and bonded manufactures. The result was that five out of the seven obtained a sufficient number of marks to render them eligible for advancement.

This re-examination was suggested by the Department of Inland Revenue and was concurred in by the Board, and it served the useful purpose of admonishing the candidates of all classes, that irregularities could not be practiced without involving unpleasant consequences and some expense to the offenders.

ENTRANCE EXAMINATIONS.

The regular annual and general Entrance Examinations for the whole Dominion which embrace, 1st, the subjects suited to the preliminary or lower grade candidates, 2nd, the subjects assigned to the candidates seeking to qualify for clerkships, and 3rd, the optional subjects, which, when successfully treated, entitle the competitors

to extra salary when appointed, were held at the several places named in the Act, as well as at Regina, N.W.T., in conformity with an Order in Council, during the second week of November last.

The results of these examinations will be found in tabulated form in later pages.

It is proper to add here, that pursuant to Orders in Council, Mr. H. P. Buck, a 3rd class clerk employed in the Privy Council Office, who had passed the qualifying examination of November, 1832, without trying options, was permitted to present himself on the last occasion for the purpose of treating several of those subjects, and succeeded in passing four of them; and, also, that Mr. John Graham, a second class clerk in the Auditor General's Office, was examined for promotion in "duties," with a view of being transferred, as a 1st class clerk, to the Post Office Department.

As noted in former reports, the Entrance Examinations, at first, and for six years, were held twice in the year, viz., in May and November, and they seem to have been regarded by the youth of the country as indicative of a constant and pressing need of help throughout the Civil Service generally. The opening up of the North-west, which necessarily drew from the centres a considerable number of the older and most experienced hands, no doubt tended to create and foster this idea as it created vacancies which had to be filled up. Hence the rush of candidates at the first examination (in 1882) and the continuous increase thereafter year by year. But the number of aspirants who passed the examinations successfully, was, in reality largely in excess of the requirements; and in order to check the influx, it was deemed advisable to abolish one of these examinations, and to restrict the exercises to once in the year, viz., the second week in November. This limitation would have the effect, it was thought, of reducing the number of candidates by probably one-half, as by the month of November most persons needing employment, have usually got settled until the next spring. It was also argued that the limitation would necessarily relieve the Board of a large part of their work and measurably reduce the expense for stationery, printing, etc. But, to the surprise of all concerned, the abolition of one of the examinations did not sensibly affect the eagerness to seek employment in the Civil Service. There was a small decrease of candidates the first year, but after that (1887) the number who presented themselves at the one examination went on increasing until it exceeded the aggregate in attendance at the two examinations in preceding years, and in November last, it was over 100 in excess of the previous year, and of any antecedent year.

Now the crowding at *one* examination of larger numbers than used to attend at *two*, held six months apart, necessarily imposes upon the Board a double amount of work within a very limited period, but not knowing this, or not taking it into account, it invariably happens that the candidates and their friends, usually prominent and influential persons—shortly after the termination of the examinations, begin to clamour for the results. Much of this importunity is by letter, and in that way an extensive correspondence is demanded of the office, which seriously obstructs the inspection and valuation of the papers sent in, and in the same proportion protracts the process. Each local batch of candidates apparently overlooks the fact that there may have been an aggregate of 1,000 persons present at the examination; that their papers comprised 100,000 answers, covering 15,000 pages of

Board of Civil Service Examiners.

manuscript all of which have to be read and appraised. In their minds the examination means the work-papers sent in by the candidates for their own locality only, it may be 30, 50 or 80, which of course, could be inspected and valued in a few days. Hence the impatience to obtain the results.

IRREGULARITIES.

The Board regret being under the necessity of stating that the disposition on the part of some of the candidates to use improper means of insuring success at the examinations was again markedly exhibited at that of last November. At two places attempts at personation were discovered and frustrated, but in another case the fraud was accomplished—though afterwards detected, and in some measure punished. The matter is not, however, fully disposed of, but is in the hands of the Department of Justice for further action. It is now evident that in order to check the evil the penalties provided by the Civil Service Act should be inflicted.

EXAMINATION FEES.

The fees imposed by Order in Council at the several examinations are as under :—

At the promotion.....	\$2
At the preliminary (entrance).....	2
At the qualifying do	4
do do for one subject only.....	2
For options (one or more, or all)	1

During the year 1893 the fees received and deposited to the credit of the Receiver General were as under, and as will be seen amount to three-fourths of the vote for the requirements of the Board, the salaries included :—

Fees received from the candidates passed at the promotion examination in May	\$ 222
From candidates at the entrance examinations of November	2,737
Fee from one promotion candidate specially examined in December.....	2
	\$2,961

J. THORBURN, LL.D., <i>Chairman</i> ,	}	<i>Civil Service Examiners.</i>
A. D. DECELLES, F.R.S.C.		
P. LESUEUR, <i>Secretary</i> .		

APPENDIX.

Appended to this report there will be found, viz.:

1. Copies of the question papers submitted for treatment to the candidates at the general promotion examination of May last.
2. Copy of the paper on duties treated by Mr. John Graham at his special promotion examination (by Order in Council) in December.
3. Copies of the papers used at the preliminary or lower grade entrance examination in November.
4. Copies of the papers used at the qualifying examination of same date.
5. Copies of the option papers.
6. A list of the candidates who passed successfully the preliminary examination, specifying also the places and which they presented themselves.
7. A similar list of the successful candidates at the qualifying examination.
8. A list of the candidates who succeeded in options, naming the subjects they treated.

ATTENDANCE AT THE EXAMINATIONS.

Candidates present at the general promotion examination held during the month of May, 1893.

Places.	Present.	Passed.	Failed.	Remarks.
Halifax, N.S.	5	4	1	
St. John, N.B.	14	11	3	
Charlottetown, P.E.I.	3	3		
Quebec	15	13	2*	* Ruled out for copying.

Toronto	12	8	4	
Hamilton	1	1		
London	10	9	1	
Winnipeg	5	3	2	
Victoria, B.C.	4	4		
	112	86	26	

As at the Entrance Qualifying Examination, the candidates who fail in one subject only but obtain the average required of their class, may come up for that one subject at the next ensuing examination.

Board of Civil Service Examiners.

ENTRANCE EXAMINATION.

PRELIMINARY OR LOWER GRADE.

Places.	Present.	Passed.	Failed.	Remarks.
Halifax, N.S.	9	4	5	The candidates at this examination, being of the full age of 18 years, may also enter for the qualifying but cannot take options except in connection with the latter.
St. John, N.B.	24	16	8	
Charlottetown, P.E.I.	1	1	1	
Quebec	30	17	13	
Montreal	105	59	46	
Ottawa	118	99	19	
Kingston	10	9	1	
Toronto	89	56	33	
Hamilton	34	19	15	
London	16	14	2	
Winnipeg	9	7	2	
Victoria, B.C.	17	16	1	
	462	317	145	

The above examination qualifies the successful candidates for employment as messengers, letter-carriers, tide-waters, lockers, packers, porters, temporary copyists, and other lower grade officers. Candidates 15 years old are admissable.

QUALIFYING OR HIGHER GRADE.

Places.	Present.	Passed.	Failed.	Remarks.
Halifax, N.S.	20	6	14	Of the 266 failures, 74 were in one subject only, and these according to rule are entitled to re-examination next November in the one subject in which they failed.
St. John, N.B.	25	12	13	
Charlottetown, P.E.I.	2	2	1	
Quebec	26	2	24	
Montreal	84	36	48	
Ottawa	106	54	52	
Kingston	30	12	18	
Toronto	63	23	40	
Hamilton	21	9	12	
London	25	13	12	
Winnipeg	29	12	17	
Regina, N.W.T.	4	2	2	
Victoria, B.C.	19	5	14	
	454	188	266	

Of the candidates who at the qualifying examinations of 1892 had failed in one subject only, 39 presented themselves for re-examination, as they were entitled to do, when 30 of them succeeded and 9 failed.

EXAMINATIONS IN OPTIONS.

PROMOTION EXAMINATIONS.

No. 1

WRITING.

Tuesday, 16th May, 1893, from 10 a.m. to 11 a.m.

Note.—The goodness of writing consists largely in its plainness and easy legibility. It should not be large nor yet small; it should be compact, and not sprawling, and as good at the end as at the beginning. Blots, blurs, erasures, interlineations and any other disfigurement will reduce the value.

Copy the subjoined article.

MONEY BORROWING

Value.

100

As a rule men tell the truth about other matters, but on this subject of borrowing, never. It is certainly not because it would not be putting the truth where it would do the most good. And the man who is—will Mr. Howells permit me to say “touched?”—for a small loan by a man who he has perhaps met but once and whose name he doesn't quite remember would appear to have a solid solution for the truth. Yet even under these not unusual circumstances a man will lie. Instead of telling the would-be borrower that the request is an impudent one—that it is preposterous to presume that money would be loaned under such circumstances, the “touched” man will wiggle around in a dirty puddle of lies that will make record of social fibbing seem angelic.

Instead of saying “I will not you anything. You would never pay it back. You are a dead beat—you are living a life of false pretences—you are a living lie—you are an imposter—a rascal”—instead of saying the truth, in short, the response is: “I'm sorry, old man; but I can't do it. I've got a note to meet to-morrow and I'm just wondering where I'll be able to raise the money. I'd like to help you, don't you know, but the fact is I'm devilish hard up myself. You strike me on a cold day. I am really sorry, my dear sir: but it is impossible; money market tighter 'n a drum. Now if it had been last week,” etc.

The more civilized we get the more polite we are—and the biggest liars, male and female.

No. 2.

Orthography.

Tuesday, 16th May, 1893, from 11 a.m. to noon.

NOTE.—The subjoined article is purposely mis-spelled, and the test consists in correcting the errors. The value of the paper is 100, and for every word improperly spelled 8 marks will be deducted. Deductions will also be made for words omitted, and also for capitals improperly introduced, or not used where needed. The copies should be neat and clean.

EUREKA.

Eureka is from a Greak wurd meening "I have fownd it." Archemedes was cunsolted bye Hiero, King of Syracuse, in regard to a goald croun susspekted of being alloied with silver. Howe waz the frawd, if any, to be detectked. The mat-
 mathematician pondered oaver the mattar, and waz stil pondering, well nye hoapless of
 a solushion wen hee got into his bath. The bath waz ful and overfloed. Then the
 thout occurred to him, that egsackly az mutch wawter must overflo az wuz equall in
 vollume to the sise of hiz boddy. Quic az litening caim anothur thout: If he plased
 the croun intoo a vesel of wawter and wayed the overflo, then put in the wawter a
 peece of pewre goald waying egackly az mutch az the croun the overflo shoold way
 az mutch in the won kase az in the othur, provyded the croun wuz peure. Elektri-
 fyed by the thout he leeped from the bath and ran thrue the streats cryeing "Ureka!
 Urica!" This tesst proved that in fakt the goald-smyth had cheeted the King.
 The erie is now fammilliarly used az an eeksclamation of triumf as a discovery. It
 is the mottoe of the State of Callifornia, in alussion to the dissccovery of goald there.

	_____	_____	_____	_____	_____
	_____	_____	_____	_____	_____
12	2. Three different kinds of tea were mixed together in such a way that for every 3 lbs. of one kind there were 4 of another and 7 of a third. What quantity was there of each kind in a mixture of 292 lbs.?				
14	3. What income will be realized from investing \$4,196.25 in 5% stock pur- chased at 93, allowing $\frac{1}{4}\%$ for brokerage?				
12	4. Divide $\frac{3}{14}$ of $3\frac{2}{3}$ of 6 by $\frac{7}{9}$ of 6 times $1\frac{2}{3}$.				

Board of Civil Service Examiners.

- 14 | 5. What is the interest on \$784.25 from August 7, 1892, to July 18, 1893,
at 8%?
- 10 | 6. A and B can do a piece of work in 12 days; assuming that A can do $\frac{3}{4}$
as much as B, how long will it take each to do it?
- 8 | 7. Multiply £217 15s. 8 $\frac{1}{2}$ d. by 17 $\frac{1}{2}$.
- 10 | 8. Divide 75.347 by .03829.

100

AUDITOR GENERAL'S OFFICE.

Arithmetic.

1. Reduce $\frac{1\frac{7}{9} \text{ of } \frac{5}{6}\frac{7}{8}}{1\frac{1}{2} \text{ of } 9\frac{9}{11}} \div \frac{4\frac{4}{7} \text{ of } \frac{2}{1}\frac{1}{6}\frac{6}{6}}{2\frac{5}{8} \text{ of } \frac{1}{3}\frac{5}{4}}$
2. What decimal of £1-13-3 is 15.0 $\frac{1}{2}$.
3. Show by a diagram that if the unit of solid measure were a rectangular solid of edges 2, 3 and 4 ins., a cubic foot would be represented by 72. Find approximately in inches the units of lineal and superficial measure supposing them to be an edge and face respectively of a cube of the same contents as this solid unit.
4. Explain exchange, bills of exchange, par of exchange.
5. A person has a certain amount of stock in 3's at 95, sells it, buys in 4's at 111 and changes his income by 47 dollars. What amount of stock had he? Is his income increased or decreased?
6. The area of each of the longer walls of a room is 455 ft., the other walls 247 ft. and the floor 665 ft. How many lineal yards of paper 18 ins. wide will be required to paper the walls if 5 per cent is saved by doors and windows.
7. Find the time between r and $r + 1$ o'clock when the hands of a watch are exactly t minute spaces apart.
8. If the interest for a certain time and rate is $\frac{a}{b}$ of the principal, find what fraction the true discount is of the amount for the same time and rate.
9. The difference between the compound interest for the 1st and 4th year, is 12.61, find the difference between that for the 3rd and 7th years, the rate being 5 per cent.
10. How many gallons are contained in a vessel in the form of a right cone, the diameter of whose base is 10 ft. the slant side being 14 ft.
11. How much will a person save in a year if instead of renting a house at \$25 per month he borrows \$2,400 at 5 per cent interest and buys a house which he insures for $\frac{3}{4}$ of its value at 1 $\frac{1}{2}$ per cent, property being assessed at $\frac{7}{8}$ of its value and being subject to a tax of 17 mills in the dollar? At the end of the year the house is sold at a loss of 3 per cent on the cost.
12. A British merchant ships goods for which he pays £735 to a Canadian agent for sale. The goods are subject to an ad valorem duty of 23 per cent and the agent gets 5 per cent for selling. The goods realize \$6,000. Find the profit per cent, sterling sight exchange being at 91 $\frac{5}{8}$.
13. A grocer sells half of his stock by pound weights $\frac{1}{2}$ oz too light and the other half by others $\frac{1}{2}$ oz. too heavy. What is the percentage of gain or loss to him on this account.

14. A rectangular block of dimensions 4, 5 and 6 ft. is beaten out so that the 4 ft. edge becomes 3 ft. 9 ins. What are the lengths of the other edges, they retaining the same proportion to one another, and the block continuing to be rectangular.
15. If A and B can together do a piece of work in $\frac{1}{p}$ th of a day, A and C $\frac{1}{q}$ th of a day and B and C in $\frac{1}{r}$ th of a day, in what time can they do it, all working together.

No. 4.

Composition.

Tuesday, May 16th, 1893, from 3 p.m. to 4.30 p.m

Values.	
12	Candidates are required to observe the Regulations strictly.
6	1. Substitute other and appropriate words in the following sentences for those printed in italics. Some <i>incidents happened</i> which <i>revived</i> her <i>tenderness</i> for the Earl of Essex, and <i>filled</i> her with the <i>deepest sorrow</i> for the <i>consent</i> she had <i>unwarily</i> given to his <i>execution</i> Essex, after his return from the <i>fortunate expedition</i> against Cadiz, <i>observing</i> the <i>increase</i> in the Queen's <i>attachment</i> to him <i>took occasion</i> to <i>regret</i> that the <i>necessity</i> of her services <i>required</i> him <i>often</i> to be <i>absent from her person</i> , and <i>exposed</i> him to all those <i>ill offices</i> which his <i>enemies</i> could <i>employ</i> against him.
20	2. Change the following into good prose, substituting only such words as are necessary to make the sense complete:— Beneath those rugged elms, that yew trees' shade, Where heaves the turf in many a mouldering heap, Each in his narrow bed forever laid, The rude forefathers of the hamlet sleep.
16	3. Distinguish between a simple, compound and complex sentence: also resolve the following into simple sentences: (a) When the evening closed in, the difficulty and danger of walking about London became serious indeed. (b) The streams that bubble out their mirth— In humble nooks, or calmly flow; The crystal life-blood of our earth, Are now the dearest sight I know.
46	4. Write sentences containing the following words in their correct sense:— <i>Fell, fall, lie, lay, raise, rise, sit set.</i>
100	5. Write a letter of not less than 250 words to a friend, giving an account of how you spent last Christmas.

No. 5.

DUTIES OF INSIDE SERVICE—POST OFFICE DEPARTMENT.

General Paper.

Values.	
10	Wednesday, 17th May, 1893, from 9.30 a.m. to 11.30 a.m.
5	1. Define first-class matter, and give the rates of postage applicable thereto. 2. After a letter has been deposited in the post office for the purpose of being sent by post, whose property does it become?

Board of Civil Service Examiners.

- | | | |
|----|--|-------------------------------------------------------------------------------------------------------------------------------------------------|
| 5 | | 3. Are vehicles carrying mails exempt from tolls or dues on roads and bridges? |
| 10 | | 4. What is the penalty incurred by a Postmaster for delay in the rendering of his accounts? |
| 5 | | 5. What is the longest term for which a mail contract may be entered into? |
| 5 | | 6. Can an expiring contract be continued; if so, for what term, and on what conditions? |
| 10 | | 7. Is there any special stipulation in the Post Office Act with respect to contracts with railways or steam-boat companies? |
| 5 | | 8. What is the penalty for counterfeiting, forging or imitating a postage stamp? |
| 10 | | 9. Under what restrictions are postage stamps sold to the public? |
| 5 | | 10. What is the penalty for cleaning postage stamps, that is, for removing therefrom any mark which has been made thereon at any post office? |
| 5 | | 11. What is the charge for returning dead letters? |
| 5 | | 12. If money be contained in a letter, the writer or sender of which cannot be found, what should be done with it? |
| 5 | | 13. What is a circular, and what is the rate of postage thereon? |
| 15 | | 14. Write a letter, not exceeding in length one page of foolscap, upon any subject in connection with post office service which you may select. |

5. For what vessels may warehoused goods be delivered as ship's stores?
6. How are unentered goods dealt with?
7. What fees are payable for reporting and clearing vessels?
8. What duty is payable on parts of any manufactured article imported into Canada?
9. In what currency are invoices to be made out?
10. What duty is to be collected on goods the value of which as finally determined, exceeds by 15 per cent or more the value for duty as appears by bill of entry?
11. Give a practical illustration of the above.
12. What duty is to be charged on articles manufactured from two or more materials?
13. Within what time must a claim for abatement in duty be made for goods landed in a damaged state?
14. What information should the Report outwards of a vessel contain?
15. Should there have been a change in the tariff between the time of the warehousing and the ex-warehousing of goods, to what duty would they be subjected and on what quantity and value would such duty be payable?
16. What persons are deemed to be duly employed for the enforcement of the Customs Act?
17. Under the Customs Act, what constitutes a port and what a frontier port?
18. How may animals and perishable goods which have been seized be dealt with?
19. How many packages in every invoice should be sent for examination?

20. What is the first duty, in connexion with the Customs, of the master of a vessel arriving at any port in Canada from any place outside of Canada?
21. May the master depute such duty to any other officer of his vessel?
22. What is the penalty for unloading goods before report is made?
23. Name the Customs Officers in the outside service by whom ex-officio an oath may be administered.
24. If goods on which duty has been paid are found not to be the same as ordered, what steps should be taken by the Importer with a view to a refund of duty on re-exportation?
25. State how often are the duties collected at your port to be forwarded to Ottawa.

No. 8.

DEPARTMENT OF THE AUDITOR GENERAL.

Bookkeeping.

FACTS.

By order of the Government Sir Charles Tupper the High Commissioner in London, is assumed to have bought silver in bars and Mexican dollars sufficient to produce, when minted into 50, 25, 10 and 5 cent pieces, a sum of \$140,000 in Canadian currency.

The cost of the silver was, say, £17,341 0s. 6d. sterling, and the amount payable for minting, assay and packing, to the Royal mint, £863 0s. 3d. sterling. The brokerage to Goldsmid & Co. will come to £21 13s. 6d. sterling, and the charges for freight and insurance to the Dominion Express Company £465 8s. 5d. sterling. The above sums are to be paid in London by the High Commissioner.

The Receiver General purchases from the Bank of Montreal at Montreal a bill of exchange on London to meet the requirements, remits the same to Sir Charles Tupper.

The coin when received in Canada is deposited by the Receiver General to his credit in the following banks:—

In the Colonial at Victoria, B.C.....	\$ 40,000
In the Montreal Bank at Montreal.....	50,000
In the Banque du Peuple at Montreal.....	25,000
In the Bank of Nova Scotia at Halifax.....	25,000
	\$140,000

Produce in proper book-keeping form the entries in sterling which would be required in the books of the High Commissioner at London, and in similar form those that would have to be made (in Canadian currency) in the books of the Receiver General, at Ottawa. Then show what profit, if any, there would be on the transaction.

The sterling amounts and the bill of exchange are to be calculated at $9\frac{1}{2}$ per cent premium over old par, which is equivalent to $\$4.86\frac{7}{10}$ in the £ sterling, but to simplify the matter the conversion will be accepted at \$4.87 in the £.

Board of Civil Service Examiners.

BOARD OF CIVIL SERVICE EXAMINERS.
OTTAWA, 16th December, 1893.

SPECIAL EXAMINATION FOR PROMOTION

Of Mr. John Graham, held this day in virtue of an Order-in-Council to that effect.
Questions at a special examination for promotion in the Revenue Division of
the Accountant's Branch, Post Office Department.

Value.	
5	1. Name the different sources from which the revenue of the Post Office Department is derived.
15	2. Describe the form of cash account which postmasters of accounting, or Money Order Offices are obliged to render to the accountant, giving each item entered on the debit as well as the credit side, and stating at what periods these cash accounts are furnished.
10	3. What items are checked in other branches of the department before the cash accounts reach the Accountant's Branch, and what items are checked in the Accountant's Branch?
5	4. Give full particulars of the system by which the postmasters of non-accounting offices are supplied with postage stamps.
10	5. How does the department arrive as the revenue from the sale of postage stamps both at accounting and non-accounting offices?
10	6. State what instructions are given to postmasters of accounting offices with regard to remittance of post office funds, distinguishing between those who deposit at a bank in the same place and those who remit to a bank at a distance.
10	7. How can it be ascertained by the department whether the postmaster of an accounting office has fully accounted for all the postage stamps sold by him?
10	8. Describe the manner in which the cash collected at non-accounting offices on unpaid matter is paid over to the department.
10	9. What action should a postmaster take in order to obtain money to pay money orders, savings bank cheques, and salary warrants when he has not sufficient post office funds on hand for the purpose?
10	10. Give the headings of the statements which are supplied by the accountant's branch (revenue) for the Postmaster General's annual report.

CIVIL SERVICE OF CANADA.

PRELIMINARY EXAMINATION.

No. 1.

Penmanship.

Tuesday, 14th Nov., 1893, from 10.15 a.m. to 11 a.m.

Copy the following extract in a clear, clean and legible manner.

CREAMERIES.

Value

60

There are many points in the Territories where a creamery would become at once a paying institution. There is a good opening for one at Medicine Hat. Besides commanding the local market, a creamery situated there would be in a favourable condition to compete in the ever increasing markets of the mining regions of the adjoining Rockies. The mines along the Canadian Pacific Railway could be reached by that line, and connection will soon be had with the rich mines of the Kootenay country by means of the road from Lethbridge to Dunmore, which is to be extended to that region this summer. The natural advantages of this district for butter-making are also good. The climate is mild, permitting of milch cows grazing during the greatest part of the year, so that the cost of feeding is not so great as in some less favoured districts of the North-west. But though the annual average temperature is high, the nights even during the hottest summers are always cool. The grasses are luxuriant, and both summer and winter grazing is excellent, the dried grass which is perfectly cured by the dry autumn making splendid winter feed. The water supply is abundant and sure, a very essential point in the production of butter. Building material and fuel are probably cheaper here than in any other section of the west. Taking into consideration then the large local demand for creamery products and the proximity of the district to the large markets of British Columbia, besides the advantages of the climate, grazing, water, etc., we know of no section of this country where a better opening exists for the establishment of a good business in this line.

YOUNG COLONISTS.

The Earl and Countess of Aberdeen have long taken an interest in emigration movements, and many times they have encouraged by friendly advice those setting out from Britain to the New World. They have now consented to become presidents of the Young Colonists Association—a philanthropic association established for sending out girls and boys of

Board of Civil Service Examiners.

character between the ages of 12 and 16 to Manitoba and the North-West, there to be apprenticed to farmers and rural handy-craftsmen. Although philanthropic the Yong Colonists Act is not in any way, the Secretary points out, charitable as the money necessary for establishing these young people as colonist apprentices is advanced under control and repaid out of their earnings, thus teaching them a spirit of self-reliance. It is now generally acknowledged, he says, that child emigration is the most satisfactory, as the young people being little troubled with preconceived ideas and prejudices assimilate rapidly with their surroundings.

QUALIFYING EXAMINATION.

Penmanship.

Wednesday, 15th Nov. 1893, from 10.15 a.m. to 11 a.m.

Copy this extract in a clear, clean and legible hand. Blots, blurs, erasures and omissions will be accounted defects, and will necessarily reduce the number of merit marks.

Value.

ETIQUETTE OF DINING.

100

Having accepted an invitation to dine, lunch or visit at a friend's house, to quote a well known society leader, "nothing less than your own funeral should prevent your keeping your engagement." Punctuality is said to be a "royal virtue," and the heads of the nations set the example of the most minute exactitude in that respect, I am told, as a matter of pure courtesy. Nothing is more trying to the tempers of the hostess and cook than a belated guest, and no one has the right to sacrifice others to his convenience.

At a large dinner one's paramount duty is, of course, to make one's self agreeable to the persons next whom one is seated, and this may often be done more effectually by being a "good listener" than by the most brilliant conversational gifts on our own part: were selfish enjoyment our only motive we could not better ensure it than by trying to give pleasure. Every virtue may become a vice, it is said, if carried beyond proper limits, and a good talker is often tempted to monopolize the conversation, and is then universally considered a nuisance.

LADIES HOME JOURNAL.

Board of Civil Service Examiners.

No. 6.

ENGLISH COMPOSITION.

Value.	Wednesday, 15th November, 1893, from 10.45 a.m., to 12.15 p.m.
	Candidates are required to observe the regulations strictly.
6	(1.) Change the following poetical extract into prose:— Now came still evening on, and twilight gray Had in her sober livery all things clad; Silence accompanied; for beast and bird, They to their grassy couch, these to their nests, Have slunk, all but the wakeful nightingale.
8	(2.) Write a complex sentence containing one principal and two subordinate clauses.
8	(3.) Combine the following simple sentences into one compound sentence:— (a.) <i>All the diversities of the world were brought together.</i> (b.) <i>The blessings of nature were collected.</i> (c.) <i>The evils of nature were extracted.</i> (d.) <i>The evils of nature were excluded.</i>
16	(4.) Distinguish between the meaning of the following words, giving an example of each:— <i>Opportunity</i> and <i>occasion</i> ; <i>weight</i> and <i>heaviness</i> ; <i>lucid</i> and <i>luminous</i> ; <i>only</i> and <i>alone</i> .
8	(5.) A periodic sentence is one so constructed as not to give a complete meaning until the very close—give an example.
6	(6.) Show how the following sentence may be improved:— <i>Gathering up lately a portion of what I had written, for publication, I have given it as careful a revision as my leisure would allow, have indeed in many parts re-written it, seeking to profit by the results of the latest criticism, as far as I have been able to acquaint myself with them.</i>
48	(7.) Write a letter of not less than 250 words on the motto— “ <i>Honesty is the best policy.</i> ”

ENGLISH GRAMMAR.

Value.

Thursday, Nov. 16th, 1893, from 11 a.m. to Noon.

Candidates are required to observe the regulations strictly.

- 14 1. Distinguish between proper, common and abstract nouns. State to which class the following words belong *sleep, ice victor, accident, bushel, wheat, Green Park.*
- 12 2. Give the plural of the following: *loss, copy, loaf, wharf, wharf, grief ox, half, potatoe, deer, Governor General, Caesar.*
- 11 3. Write out the comparative and superlative forms of *good, ill, little, nigh, late, fore, many, far, extreme, naked, profuse.*
- 16 4. In the following sentences expand the adjectives into adjective phrases, and the adverbs into adverbial phrases:—
(a) Virtuous men are honoured. (b) Gnats are winged insects.
Discoveries are often made accidentally. (d). He is eating now.
- 12 5. Write out two sentences, each one containing an adjective clause, and show what noun each qualifies.
- 6 6. Make two sentences of each of the following words; in the first of which it is used as a noun, in the second as a verb: *excuse, fare nurse.*
- 17 7. In how many ways may a predicate be completed? Give an example of each.
- 14 8. Parse the following:—
The towers of heaven are filled
With armed watch, that renders all access
Impregnable; oft on the bordering deep
Encamp their legions, or, with obscure wing,
Scout far and wide into the realms of night.

Translation (English into French.)

Friday, 17th Nov., 1893, from 9.30 a.m. to 10.30 a.m.

NOTE.—This paper is to be treated by the candidate who have taken the examination in English.

UNSEASONABLE PRESS COMMENTS.

The Boston newspapers received the other day an order from the judge of the Massachusetts Supreme Court directing them not to print any accounts of a trial then proceeding before him until after its conclusion. The object of this order probably was to prevent the papers from prejudicing the public mind unduly to the detriment of justice. No doubt great wrong is committed in many cases where coloured statements are published, and it becomes almost impossible for judge or jury to take an unbiased view of the evidence. There are many cases also in which the testimony is of such an indecent kind or the publication of which tends to some extent to instruct evil-doers in the uses of poisons and in other criminal operations that it would be well if its publication were prevented.

FINANCES IMPROVING IN THE UNITED STATES.

Further uncertainty as to the financial policy of the United States has been caused by the continued resistance of the Senate. American exchange has hardened a point, warranting further gold shipments to Europe. It is hoped the feeling of distrust will be allayed by the firm tone of President Cleveland's letter.

Précis.

Friday, 17th November, 1893, from 10.30 a.m. to 12.30 p.m.

NOTE—Condense the subjoined Imperial Act and Order in Council to about one half (not more) of the printed matter, but giving the true sense of the documents.

CHAPTER 29.

An Act to provide for prohibiting the catching of Seals at certain periods in Behring's Sea and other parts of the Pacific Ocean adjacent to Behring's Sea.

(29th June, 1893).

Whereas it is expedient to extend the Seal Fishery (Behring's Sea) Act, 1891, to other waters of the North Pacific Ocean adjacent to Behring's Sea, and for that purpose to repeal and re-enact that Act;

Be it therefore enacted by the Queen's Most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this Present Parliament assembled, and by the authority of the same, as follows:

1.—(1.) Her Majesty the Queen may, by Order in Council, prohibit during the period specified by the Order, the catching of seals by British ships in such parts of the seas to which this Act applies as are specified by the Order.

(2.) While an Order in Council under this Act is in force—

(a.) A person belonging to a British ship shall not kill, take or hunt, or attempt to kill or take, any seal during the period and within the seas specified by the Order; and

(b.) A British ship shall not, nor shall any of the equipment or crew thereof, be used or employed in such killing, taking, hunting, or attempt.

(3.) If there is any contravention of this Act, any person committing, procuring aiding, or abetting such contravention shall be guilty of a misdemeanour within the meaning of the Merchant Shipping Act, 1854, and the ship and her equipment, and everything on board thereof, shall be liable to be forfeited to Her Majesty as if an offence had been committed under section one hundred and three of the said Act, and the provisions of sections one hundred and three and one hundred and four and Part ten of the said Act, and of section thirty-four of the Merchant Shipping Act, 1876 (which are set out in the schedule of this Act) shall apply as if they were herein re-enacted, and in terms made applicable to an offence and forfeiture under this Act, and any commissioned officer on full pay in the naval service of Her Majesty the Queen may seize the ship's certificate of registry.

(4.) Any commissioned officer on full pay in the naval service of Her Majesty the Queen shall have power, during the period and in the seas specified by the Order, to stop and examine any British ship, and to detain her, and any portion of her equipment or any of her crew, if in his judgment the ship is being or is preparing to be used or employed in contravention of this Act.

(5.) For carrying into effect an arrangement with any foreign State, an Order in Council under this Act may provide that such officers of that State as are specified in the Order may exercise the like powers under this Act as may be exercised by such commissioned officer as aforesaid in relation to a British ship, and the equipment and crew and certificate thereof, and that such British officers as are specified in the Order may exercise, with the necessary modifications, the powers conferred by this Act in relation to a ship of the said foreign State, and the equipment and crew and papers thereof.

(6.) If during the period and within the seas specified by the Order a British ship is found having on board thereof fishing or shooting implements or seal skins or bodies of seals, it shall lie on the owner or master of such ship to prove that the ship was not used or employed in contravention of this Act.

Board of Civil Service Examiners.

2.—(1.) Where an officer has power under this Act to seize a ship's certificate or registry, he may either retain the certificate and give a provisional certificate in lieu thereof, or return the certificate with an endorsement of the ground on which it was seized, and in either case may direct the ship, by an addition to the provisional certificate or to the endorsement, to proceed forthwith to a specified port, being a port where there is a British court having authority to adjudicate in the matter, and if this direction is not complied with, the owner and master of the ship shall, without prejudice to any other liability, each be liable to a fine not exceeding one hundred pounds.

(2.) Where in pursuance of this section a provisional certificate is given to a ship, or the ship's certificate is endorsed, any officer of customs in Her Majesty's dominions, or British consular officer may detain the ship until the satisfactory security is given for her appearance in any legal proceeding which may be taken against her in pursuance of this Act.

3.—(1.) A statement in writing, purporting to be signed by an officer having power in pursuance of this Act to stop and examine a ship, as to the circumstances under which or grounds on which he stopped and examined the ship, shall be admissible in any proceedings, civil or criminal, as evidence of the facts or matters therein stated.

(2.) If evidence contained in any such statement was taken on oath in the presence of the person charged in the evidence and that person had an opportunity of cross-examining the person giving the evidence and of making his reply to the evidence, the officer making the statement may certify that the evidence was so taken and that there was such opportunity as aforesaid.

ORDER IN COUNCIL.

Whereas by "The Seal Fishery (North Pacific) Act, 1893," it is enacted that Her Majesty the Queen may by Order in Council prohibit during the period specified by the Order the catching of seals by British ships in such parts of the seas to which that Act applies as are specified by the Order; and that for carrying into effect an arrangement with any foreign State an Order in Council may provide that such officers of that State as are specified in the Order may exercise the like powers under the Act as may be exercised by a Commissioned Officer on full pay in the naval service of Her Majesty in relation to a British ship and the equipment and crew and certificate thereof; and that any such Order may contain any limitations, conditions, qualifications, and exceptions which appear to Her Majesty in Council expedient for carrying into effect the object of the said Act:

And whereas the said Act applies to the seas within that part of the Pacific Ocean known as Behring's Sea, and within such other parts of the North Pacific Ocean as are north of the forty-second parallel of north latitude:

And whereas an arrangement has been made between Her Majesty the Queen and His Imperial Majesty the Emperor of Russia, whereby British ships engaged in hunting seals within such parts of the said seas as are hereinafter specified may be seized by Russian cruisers:

Now, therefore, Her Majesty, in virtue of the powers vested in Her by the said recited Act, and of all other powers enabling Her in that behalf, is hereby pleased, by and with the advice of Her Privy Council, to order and it is hereby ordered as follows:—

1. From and after the fourth day of July, one thousand eight hundred and ninety-three, until the first day of January, one thousand eight hundred and ninety-four, the catching of seals by British ships is hereby prohibited within such parts of the seas to which the recited Act applies as are comprised within the following zones (i) a zone of ten marine miles on all the Russian coasts of Behring Sea and the North Pacific Ocean, and (ii) a zone of thirty marine miles round the Komandorsky Islands and Tulénew (Robben Island).

2. The powers which under the recited Act may be exercised by any Commissioned Officer on full pay in the naval service of Her Majesty may be exercised by

the Captain or other officer in command of any war vessel of His Imperial Majesty the Emperor of Russia in relation to a British ship, and the equipment and crew and certificate thereof.

3. This Order may be cited as "The Seal Fishery (North Pacific) Order in Council, 1893."

C. L. PEEL.

No. 16.

Book-keeping (by Double Entry.)

On Friday, 17th Nov., 1893, from 1.30 p.m. to 4.30 p.m.

Assumed facts :—

The schooner "Star," bound to Quebec, with a cargo of West India produce, ran upon the rocks at Metis during a thick fog, and being in a critical position the underwriters deemed it best to sell both vessel and landing by auction at once.

John, James and Peter Sharp, three brothers,—the latter residing at Metis, where he had carefully examined the wreck,—agreed together to make the purchase. The first, John, furnished \$8,000, James put in \$6,000, and Peter \$4,000, the agreement being that each would share in the profit or loss in the proportion of his contribution.

John, who acted as manager, bought the vessel and cargo for \$11,750, paying \$5,000 in cash, and giving his note (endorsed by his brothers), at 3 months, for \$6,750, dated 1st June, 1890.

Being unable to charter, on what he deemed satisfactory terms, a steamer suited to his purpose, John purchased a large tug (the "Swan") then in the market, for \$4,100, and provisioned her at an expense of \$493 cash.

Ninety dollars a day was to be charged to the wreck for the services of the "Swan," commencing 1st June.

The manager then hired 15 men, viz.: a foreman at \$3.50 per day, and 14 others at \$1.75, and hastened with them, and the necessary apparatus, to Metis.

The weather during the ensuing fortnight was remarkably fine, and the following goods were secured mostly undamaged :—

- 47 hogsheads of sugar ;
- 87 puncheons of rum ;
- 110 puncheons of molasses ;
- 317 bags of coffee ;
- 110 cases of preserved ginger ;
- 39 bags of pimento ;
- 23 bags of whole pepper ;
- 17 logs of mahogany ;

Mr. Sharp then hired (by telegraph) from Thomas Crowe, of Quebec, two barges with their crews at \$30 per day each, which were sent down to receive and bring up the goods, and they accomplished the voyage and landed their freight in 11 days.

It being found impossible to float the schooner, and the weather becoming rough she was dismantled, and her sails, rigging, anchors, chains, cables, water tanks, spars, cabin furniture, and all other movables were transferred to the "Swan," which, on the 17th day returned with the hired men to Quebec June 18th. Mr. Sharp paid and discharged these men and settled (in cash of course) with Mr. Crowe for the use of his barges.

The goods were appraised by the Customs officers, and duties amounting to \$9,330, were paid by the manager.

He then proceeded to dispose of the hull of the "Star," the materials, and the merchandise recovered, as under,—

1. The hull, being coppered, was of some value, if the metal could be obtained, and was sold by auction to Pierre Chamard for \$325, he giving a well endorsed note for the amount at one month from the 1st July.

Board of Civil Service Examiners.

2. By the same means, the manager sold the materials and gear saved, in three lots, viz. :—

- Lot 1. To Charles Spinks for \$282 cash.
- Lot 2. To Peter Jenner for \$195 cash.
- Lot 3. To Jean Bte. Poirier for \$305 cash.

The merchandise was sold in the same way on the 10th July, the terms being for lots of less than \$100 in value cash, over \$100, and less than \$500, 2 months ; over 500 and under \$1,000, 3 months ; while for lots of over \$1,000, 4 months were allowed. The notes were to be endorsed to the satisfaction of the sellers, and the auctioneer was to receive, and did receive, in cash from his principals one and one-half per cent on all sales—the proceeds of the hull and materials included.

1. Robert Stewart bought to the amount of.....	\$	715
2. William Douglas do		1,023
3. Peter Simple do		95
4. Walter Playter do		105
5. Jacques Chevalier do		82
6. Cyrille Latour do		1,166
7. Jean Boyer do		350
8. Lawrence, Lane & Co. do		7,033
9. John Torrance do		8,550
10. Charles Caron do		3,666
11. Theophile Trepannier do		2,217
12. Jones, Smith & Brown do		5,444
13. Empey, Till & Co. do		2,219
		\$32,665

The Sharps having no further use for the tug "Swan," she was sold with the provisions which remained on board, to the Sillery Tug-boat Company for \$3,500, and her account was credited with this sum and the earnings of 17 days at \$90, as above stated.

Journalize and post : then show the results to each of the contributors.

NOTE.—The Examiner will read the subjoined article to the candidates once *before* the trial, then when all are ready he will read it *for* the trial in exactly five (5) minutes. Those who cannot follow (if there are any such) will necessarily drop out.

30 minutes are allowed for the extension of the notes.

The manuscript transcription must, of course, accompany the shorthand notes.

RAPID MATURING OF CROPS IN MANITOBA.

Some crops have matured very rapidly in Manitoba this season. Mr. William Clougher, of Winnipeg, has a large farm at St. Jean Baptiste. The high water in the Red River last spring flooded all that vicinity, and not till after the middle of June was the land in a fit state for seeding. Mr. Clougher proceeded at once to seeding, putting down among other crops about 225 acres of wheat and 100 acres of flax. The results have been more than satisfactory. The wheat was sown on June 19, and reaped on September 10—82 days. The straw is as clean as possible, and what is still better, the grain is simply a perfect sample, pronounced by the president of the Winnipeg grain exchange "extra No. 1 hard," as shown by a hand threshed

sample. The calculation shows the yield per acre not excessively large, about 18 to 20 bushels, the quality more than atones, being as already represented and weighing by actual test $63\frac{1}{2}$ lbs per bushel. The flax is a sample of sowing of June 20. The yield of seed will be at least 20 bushels per acre. What country in the world can beat, or even equal, such a record? It is simply astounding.

D. D. McColl, of Fairview Farm, near Harkey, sowed wheat on May 24 and cut it on August 18, total of 86 days inclusive. Oats sown on May 12 were cut on August 8, a period of 88 days, and barley sown on May 10 was cut on August 8, a total of 90 days. The wheat was Red Fyfe and the crop in every case was fully ripe and ready to cut.

Type-writing.

Saturday, 18th Nov., 1893, at 11 a.m.

NOTE.—Exactly to the minute, the Examiner, who will have previously handed a copy of this paper to the candidates, will start them, and at the expiration of seven (7) minutes will call time and gather in the writings finished or unfinished.

WINNIPEG'S SOLID GROWTH.

At a recent meeting of the Winnipeg City Council, in discussing an offer of 105 for debentures issued to purchase public parks, Alderman Carruthers said he thought the occasion a suitable one for calling the attention of capitalists to the fact that no city on the continent of America afforded a better field for investment than Winnipeg. It was on a solid and prosperous basis and everything was going on satisfactorily; on all sides the city was growing though with no boom growth, but one healthy, steady, and in accordance with the requirements. The figures indicated in the most satisfactory way the steady growth of the city during the last seven years. In 1886 the assessment was about \$19,000,000; this year it was \$21,692,300, the total increase being about \$2,500,000. This was a fair, solid, substantial increase. The population has increased in much larger proportion. The population of the current year according to the last assessment was 32,119, an increase of 13,000 in round numbers since 1887. Within the last two or three years the increase has been most marked and the chances for investment were better than ever before, property being held at low and reasonable figures. The tax rate was moderate. The method of assessment now adopted was calculated to encourage the wholesale and manufacturing interests; while it did not unduly impose burdens on other rate-payers, it called upon all, as far as possible, to contribute pro rata shares.

A. 1894

DEPARTMENT

OF

PUBLIC PRINTING AND STATIONERY

ANNUAL REPORT

FOR THE YEAR ENDED 30th JUNE, 1893

WITH A PARTIAL REPORT

FOR SERVICES DURING SIX MONTHS ENDING 31st DEC., 1893

PRINTED BY ORDER OF PARLIAMENT

OTTAWA

PRINTED BY S. E. DAWSON, PRINTER TO THE QUEEN'S MOST
EXCELLENT MAJESTY

1894

[No. 16c—1894.] *Price 5 cents.*

Public Printing and Stationery.

*To His Excellency the Right Honourable Sir John Campbell Hamilton-Gordon, P.C.,
LL.D., Earl of Aberdeen, Governor General of Canada, &c., &c., &c.*

MAY IT PLEASE YOUR EXCELLENCY :

The undersigned has the honour to present to Your Excellency the Annual Report of the Department of Public Printing and Stationery for the fiscal year ended 30th June, 1893, with a partial report for services during the six months ending 31st December, 1893.

All of which is respectfully submitted.

JOHN COSTIGAN,
Secretary of State.

OTTAWA, 10th May, 1894.

Public Printing and Stationery.

DEPARTMENT OF PUBLIC PRINTING AND STATIONERY,
OFFICE OF THE QUEEN'S PRINTER AND CONTROLLER OF STATIONERY,
OTTAWA, 9th May, 1894.

The Honourable JOHN COSTIGAN,
Secretary of State, &c., &c.

SIR,—I have the honour to submit herewith a report upon the Department of Printing and Stationery for the fiscal year ending 30th June, 1893. In some departments it has been possible to bring it down to the close of the calendar year. The separate reports of the heads of the three branches of the department will afford full details of the work carried on by each branch.

It will be seen by the statement of the Accountant, page 2, that the *Official Gazette* again shows a profit. A statement at page 3 shows the gain or loss upon the *Gazette* for a series of years. The gain would be more, and the loss would have been less, if the matter for publication were sent in daily. As it is the *Gazette* is burdened with unnecessary expense for night work, in consequence of a prevailing custom of gathering up on Friday afternoon the week's matter and sending it for publication. The *Gazette*, in order to catch the mails, invariably goes to press at 7 a.m. on Saturdays, and owing to the late delivery of copy a number of men are kept at work at extra pay through the night preceding on matter which might as well have been set up in regular working hours.

The volume of work turned out during the year has been larger than ever before. The increased quantity does not appear in its full proportions because of the reduced prices of paper and other materials. The Government has had the full advantage of this general fall in prices, and the money value has not therefore increased in proportion to the quantity turned over.

The distribution of the Criminal Code, 1892, was completed during the year. It was considered advisable in view of the excessive waste in the distribution of former years to ask for receipts from justices on delivery of the volumes before sending additional supplies to clerks of the peace. The type is kept standing so that editions may be printed as required. The former plan of printing an exceedingly large number at first not only crowded the department with stock, but led to great waste in surplus copies, which had eventually to be sold as waste paper. The volume is sold to the general public at 50 cents, so that no one can complain of its being beyond his means.

The operations of the Printing Branch are fully reported upon by the Superintendent at page 10. The early rising of Parliament caused the sessional work to be completed very early, and, as there was no work in arrears and very little came in during the summer, a heavy suspension had to take place. This was unavoidable and will always be unavoidable when work falls off. There is no possibility of carrying on the department if idle hands have to be retained upon the staff. All the management can do is to try and equalize the work by holding over, when possible, something for the summer months. The unevenness of pressure of work is one of those necessary conditions which must be taken into account by all concerned.

A system of daily reports to the Debates Committee has prevented much misunderstanding since it was commenced. Any member of the Committee has only to ask to see the file of reports to satisfy himself whether there is any unnecessary delay and, if so, where it has occurred. The reports give a history, day by day, of all that goes on in relation to "Hansard."

The publications of a periodical nature issued at the Bureau are all well up to date. The Supreme Court decisions in No. 3 Volume 22 (issued March 10, 1894) have reached the date of November 20, 1893, and are now ready to issue as far as February, 1894; and in the Exchequer Court the published decisions have reached April 2, 1894. The Patent Record has attained a most satisfactory regularity and promptitude. The specifications are set up day by day, as the patents are granted, and the whole for each month are published before the close of the next. Thus all patents granted up to the 31st of March inclusive were published by the 30th of April. The illustrations are placed in the body of the text and reproduced by photo-zincography. The economy effected during the last two years in the publication has been over \$4,000 a year, and a greatly improved and enlarged publication has moreover been issued.

Parliament has this present year (1894) been called at a later date than usual and, owing to that cause alone, the departmental reports have been all in time for the estimates. If it had again met as early as the end of January serious embarrassment would have resulted; for the reports would not have been ready in time to assist in discussing the estimates. The resources of the Bureau are limited by the extent of the building, and if so many reports are held back until Parliament is summoned for the despatch of business, disappointment must ensue. Proofs are often held for a longer time than it has taken to set up the matter and delay occurs most frequently in that way. As the opening of Parliament approached ten presses were kept running upon the Auditor General's report alone; but the last sheet was not off until March 2. If Parliament had assembled early that report would have been late. As time pressed it was suggested to some of the departments to send one of their clerks down to the Bureau to read the proof as it became ready and thus avoid the delays in the departments. This was done in some instances with great advantage. Every convenience was placed at their disposal. A great deal of unnecessary time is lost in sending out proofs. There seems to be no reason why the rule in the public service should be different from that which obtains outside. A first proof should be sent in galley with the manuscript so that the department may be sure that the matter is all there and is right and in its proper order, and then, if an author's proof be sent in page to be examined and finally signed for press by the officer properly responsible, all other details might safely be left to the printer as is done in other large publishing offices.

THE VOTERS' LISTS.

As the time approaches for the revision of the voters' lists it seems appropriate to give a short account of the operation of the Electoral Franchise Act as regarded solely from a technical point of view. In this way the method and cost of producing the lists at the Government Printing Bureau may be explained without entering upon questions which are outside the domain of the department either for comment or allusion.

Such an account seems desirable, moreover, because it has sometimes been supposed that the cost of printing the lists is, not only excessive, but greater than the cost of

Public Printing and Stationery.

doing the work outside in local printing offices. It happens that both systems have been tried thoroughly, and that therefore the results can be compared side by side, as clear and distinct experiments, without any admixture to confuse the conclusions.

The Department of Public Printing and Stationery, as it now exists, dates from 2nd June, 1886, when the statute of organization received the royal assent. For many years before, however, the Queen's Printer had a statutory existence; not as a quasi-contractor, but as a public officer; and he, with a staff of experts under him, had been examining and certifying all the accounts for Government departmental printing; not only the accounts of the contractors but for all printing for the Government excepting the printing for the House of Commons which was then under the jurisdiction of an officer of the House.

While matters stood in this position the first revision took place. It was in 1886, and it was decided to intrust the arrangements for printing to officers representing the House of Commons. The details were decided on, the prices fixed, and the accounts certified and paid by the Auditor General and his assistants. The entire work was done by local printers throughout the Dominion, and necessarily the type was distributed when the copies ordered were printed off. The first revision is therefore a recorded experiment of the local printing system clear of the intervention of the Queen's Printer, or the Department of Public Printing, or the Department of the Secretary of State.

FIRST REVISION, 1886.

The printing was all done outside by local offices.

Total cost of printing as given by the Auditor General, \$180,960·43.

This revision being done in local offices the type could not of course remain standing. Many of the smaller offices had not enough type of one size to set the whole list, and therefore sublet the work to larger offices; but none of them would allow the type to stand without charging its whole cost to the Government; and indeed, if the type could have stood, there was no responsible guardian of the integrity of the lists. When the number ordered was printed off the type was necessarily distributed.

SECOND REVISION, 1889.

The whole of the details of this revision was under the direction of the Queen's Printer. After careful inquiry it was found more economical, and in every way more advantageous, to purchase the type and material and set up the lists at Ottawa. The lists could then remain standing in type and be available for printing additional copies at any moment when elections might occur; at the cost only of paper and press-work.

It was found that the lists of 1886 were not available as a basis for the impending revision and they differed moreover widely in style of setting. It was therefore decided to reprint all the lists. The Bureau building was not ready, and a building was leased and a staff set to work which reprinted all the lists of 1886 as a basis for the revisors to work upon.

The cost of setting these preliminary lists was	\$23,517·37
And the number of names they contained was	974,879

Upon these re-printed lists as a basis, the revision was carried on. The revising officers (at a tariff rate fixed by the Queen's Printer) proceeded to get the supplementary lists (names to be added and names to be omitted) done wherever they wished.

Many were sent to the Bureau to be done. The result was the following cost of the final lists :—

Paid to outside printers.....	\$11,534·71
Paid in the Bureau.....	37,020·77
	<hr/>
	\$48,555·48

How many names were in the lists as then finally revised is not on record. It is on record however that they contained 1,192 pages more. This increase in the pages was not altogether due to the increase in names—it was due also to the multiplication of polling places resulting from a closer following of the law. Many are short pages and hence the number of names cannot be calculated. In all these calculations of names it must be borne in mind that the North-west Territories do not come under this system but under a separate law of their own.

After the second revision was completed and before the third was commenced the expense of the office amounted to \$5,540.65.

THIRD REVISION, 1891.

The revising officers had, in this instance, all the requisite number of copies of the old lists in uniform style to base their revision upon. They procured the printing of the supplemental lists (names to be added and names to be omitted) at local offices almost without exception. The tariff was fixed by the Queen's Printer at the same rate as before and all the bills were paid by him. The number of changes was very great and, in the cities, the removals from district to district were very numerous. In some instances it was cheaper to re-set the whole lists. The same process of dividing the large polling places went on in conformity with the law, and the number of pages was again increased largely. The number of names in the finally revised lists is however known to be 1,211,450, a very large increase over the number in 1886. The cost of this revision was :—

Paid to outside printers (supplementary lists).....	\$28,702·73
Paid inside the Bureau (final lists).....	36,977·86
	<hr/>
	\$65,680·59

FUTURE REVISIONS.

These must be based on the figures of the third revision and will increase or diminish as the revising officers make changes in the polling places and as the names on the rolls increase. It is not likely to vary much, so long as the workmen at the Bureau keep up to their standard of speed. There will always be more or less difference in the conditions of each revision and within a certain limit there must be variations as to cost. The above figures include the reprinting of any lists which were needed in consequence of by-elections.

PLANT.

The previous figures deal with the setting up and printing alone, and all questions of plant have been reserved. It has been found very difficult to separate out the payments for plant for the voters' lists from the general disbursements on account of plant. Neither the books of the department nor the Auditor General's reports sufficiently distinguished them. Many efforts were made but no figures were got which seemed absol-

Public Printing and Stationery.

utely certain. It was clear upon reflection, however, that the plant was just the amount of material locked up in the lists, and could be no more or no less. Therefore stock was taken of this material, including type, galleys, chases, side sticks, frames, stones, and everything else of whatever nature, locked up in the lists or standing in the voters' list room, down to the present day, even if it were sometimes used for other purposes, and the total was found to amount to \$90,642·95.

The data being now found the comparison is as follows :

1st revision—all printed outside	\$180,960·43
<u>=====</u>	
2nd revision—supplementary lists printed outside ; final	
lists printed in Bureau—	
Preliminary lists	\$23,517·37
Supplementary and final lists	48,555·48
<u>=====</u>	
3rd revision	\$72,072·85
<u>=====</u>	
United cost of 2nd and 3rd revisions, (\$43,197 less than the first revision alone)	\$137,763·44
<u>=====</u>	
Cost of plant	\$ 90,642·95

Comparing these figures it is evident that the cost of the plant has been earned more than twice over. It more than paid for itself on the second revision alone.

STANDING LISTS.

If any system of registration of voters is to be retained, the plan of keeping the names standing in type is by far the most economical. In South Australia, in Victoria, and in Queensland, the same system is adopted and the lists are kept, as in Canada, standing in type in the office of the Government Printer. Information from New South Wales and New Zealand is not yet to hand, but in the three colonies above mentioned, there is no hesitation as to which plan is to be preferred. In all the important colonies there are Government printing offices which turn out excellent work and no question of their usefulness seems to exist.

Much has been said also about the security and integrity of the lists. The original lists compiled by the revising officers are sent first to the Clerk of the Crown in Chancery. That officer sends them to the Queen's Printer to be set up. The proofs are sent to the revising officers to be verified and they verify them and return them to the Queen's Printer. The lists are then printed off and the galleys of standing type are put away. The original lists are then returned to the Clerk of the Crown in Chancery, where anybody who likes may refer to them and compare them with the lists as printed. The proofs, as finally revised by the revising officers, are kept at the Printing Bureau until the succeeding revision, as vouchers for the Queen's Printer. The lists as printed are sold at 5½ cents for each polling place and may be had in any quantity, and at any time, or by any person on payment of the price.

I have the honour to be

Your very obedient servant,

S. E. DAWSON,

Queen's Printer and Controller of Stationery.

Public Printing and Stationery.

ACCOUNTANT'S BRANCH.

OTTAWA, March, 1894.

S. E. DAWSON, Esq., L.D.,

Queen's Printer and Controller of Stationery.

SIR,—I have the honour to submit the following report of the transactions of this branch of the department for the fiscal year ending 30th June, 1893, with a partial statement up to the 31st December last.

The following general statement of receipts and expenditure for the fiscal year shows the financial operations of the department as a whole. The usual detailed statements are also appended.

Public Printing and Stationery.

THE STATUTES.

The details of expenditure on account of the Statutes, including the volume of Criminal Law, are as follows :—

Paper	\$ 2,557 73
Printing	1,860 04
Translation	95 37
Binding	2,979 48
Distribution	107 38
	<hr/>
	\$ 7,600 00

The particulars of distribution, number of copies issued, &c., will be found in tables annexed, page 36.

PRINTING AND BINDING.

For the charges against the several departments, the House of Commons and Senate, for printing, binding, lithographing, stamping, &c., I have the honour to refer you to the subjoined tabular statements, A, B and C.

A comparative statement for the past five years, from 1888-89 to 1892-93, for both printing and stationery, is subjoined. Tables D and E.

ADVERTISING.

The total amount certified by this department for Government advertising during the year ending 31st December, 1893, was \$26,704.27, the details of which are set forth in statement F. These accounts being paid by the several departments for which the advertising is done, the amount is not included in the statement of receipts and expenditure of this department.

The number of advertising accounts audited was 2,681 ; circulars issued, 1,955. There was, moreover, a considerable amount of correspondence in connection therewith.

I also subjoin a statement of the total amount of advertising accounts audited by this office for the years 1876 to 1893, both inclusive :—

1876	\$12,529 27	1885	\$33,782 53
1877	12,751 56	1886	25,102 83
1878	20,583 77	1887	48,596 03
1879	39,676 60	1888	44,520 30
1880	63,092 50	1889	35,939 47
1881	30,015 44	1890	26,102 48
1882	50,605 71	1891	27,519 59
1883	30,149 31	1892	24,819 54
1884	39,401 48	1893	26,704 27

VOTERS' LISTS.

In my last report I included the expenditure of this year in connection with the completion of the Lists for the revision of 1891, amounting to \$14,907.10. The total expenditure for the year amounted to \$18,019.16, leaving \$3,112.06 as the miscellaneous expenditure. This covers office expenses, reprinting odd lists, &c.

QUEEN'S PRINTER'S ADVANCE ACCOUNT.

The following statement shows the state of this account on the 30th June last :—

Balance brought from 1891-92.....	\$	37,317	07
Expenditure for the year.....		338,500	13
		<hr/>	
Total.....	\$	375,817	20
Deposited to credit of Receiver General..	\$349,829.64		
Transferred to plant.....	\$	4.20	
do Stationery stock....	23.11		
		27.31	
		<hr/>	
		349,856	95
		<hr/>	
Balance to carry over to 1893-94.....	\$	25,960	25
		<hr/> <hr/>	

This balance is covered as follows :—

Binding stock on hand, as per inventory.....	\$	8,676	73
Ink, roller composition, &c.....		623	22
Lithographic work paid for but not charged out.....		5,138	73
Expenditure on work in progress, as per statement from Superintendent of Printing.....		17,636	89
Paper for same charged in Stationery account.....		14,026	39
		<hr/>	
		\$46,101	96
		<hr/> <hr/>	

The whole respectfully submitted,

W. GLIDDON,
Accountant.

Public Printing and Stationery.

W. GLIDDON,
Accountant.

PRINTING BRANCH.

To S. E. DAWSON, Esq., L.D.
Queen's Printer, &c., &c.

SIR,—I have the honour to submit a report of the work executed in this branch of the department, for the fiscal year ending 30th June, 1893, as contained in the following tabulated statements :—

- Table No. 1—Annual Report or Blue Book work.
2—The Routine work of the Session.
3—Hansard work.
4—Statute work.
5—Gazette work.
6—Departmental Pamphlet work.
7—Departmental work.
8—Bindery work.

PARLIAMENTARY REPORTS.

In the month of October, 1892, four months after the close of the fiscal year, the first copy, forming portions of the tabulated statements of eight of the annual reports, was received here. In the month of November, similar portions of six of the reports came in. During the month of December two more were added.

In the latter part of January, just prior to the opening of Parliament, the manuscript of eight reports was received, thereby completing the reports in English required for the information of members. Thus "printers' copy" of ten of the annual reports was sent to the Bureau during the four weeks previous to the date when Parliament assembled for the "despatch of business."

Reports are oftentimes completed with the exception of the prefatory matter which is held back until a most inconvenient pressure of work occurs; as an instance, there is a report here at present, that was completed with the exception of a few pages of introductory matter on 21st November, over two months ago. On the first day of the session, 26th of January, 1893, the estimates were tabled. So exceptional and unlooked for was this, that reports which could have been ready months before by the departments having them in charge, were at once rapidly rushed on to completion, over-crowding the presses and taxing the bindery to its fullest capacity; to such an extent was this carried that 350 copies of each report, or the quantity required for the immediate use of the House had to be covered and delivered without waiting for the completion of the 1,800 copies ordered for public distribution.

During the session the passing of the Estimates was often delayed, or special items were postponed until the report of the department under discussion was tabled, and meanwhile the delay was attributed to the Printing Bureau, instead of to the fact that copy had been withheld.

Public Printing and Stationery.

If Parliament were always to meet as early as last year it would be impossible to have the chief reports prepared in time for discussion during the passing of the Estimates, and yet sufficient copy could not be obtained during the months of October and November last, to keep the hands employed ; in fact a suspension was more than once imminent. A rush of work at one time and a perfect lull at others, causes a hurried call for compositors, succeeded by the hardships incident to their sudden and unexpected suspension.

It is inevitable, therefore, that the operatives of the Bureau will have to suffer unnecessarily, until the issue of the work by the several departments to this office is more fully systematized ; efforts in this direction would tend to produce at least an approach to regularity of employment, a feature much desired by the management, but so far unobtainable.

The drawbacks above referred to are augmented in the case of the French edition of the reports. It is the rule to send to the translators, the first copy off press, of each forme, or sixteen pages of the English, in order that they may be enabled to keep pace as closely as possible with the English work, but to very little purpose, for as many as eight and ten formes of the English have been held and returned at one time. To the Bureau this means the printing of 32,000 sheets before the regularity of the work can be caught up again, while the translators are embarrassed by an accumulation of matter, consequently the French edition of the reports is delayed an unreasonable time after the issue of the English.

CANADA GAZETTE.

The copy for the *Gazette* is for the most part kept back and sent in late on Friday evening necessitating needless night work in order to bring the *Gazette* out on a Saturday in time for the mails.

Knowing that the Privy Council sit on a Friday, and that emergent matter will be sent in after Council adjourns, three compositors are detailed for the *Gazette* and, as a rule, work from 7 o'clock till about 11 o'clock on Friday night ; but this provision, it appears is taken advantage of for sending in copy that from its nature could be sent to the printer at the beginning of the week. These irregularities have increased to such an extent, as to demand the employment of at times as many as fifteen compositors who work until 2 and 3 o'clock of a Saturday morning, for which they are paid overtime, or an advance of one-third on the regular rates. Notwithstanding this fact, the compositors would much prefer not working overtime, as they are to some extent unfitted for work the following day. The *Gazette* contains some very important public announcements and yet the late, or rather early hours of the morning in which we are compelled to do this work, make reference impossible in cases of doubt arising as to the correctness of the copy. The long experience of those in charge has prevented error so far, but such a want of system is not in the public interest.

From the above statements, it is obvious that if economy be desired, together with correctness of publication, it will be necessary to send down all matter to the Bureau earlier in the week and to keep the *Gazette* open only for matter emanating from the Council sitting on a Friday.

HOUSE OF COMMONS DEBATES (English).

The first copy of the Hansard Index was received on the 17th of April, and the final forme was signed for press on 8th May. Five hundred and fifty copies, the number ordered to be bound, were delivered 29th of June

The first copy of the Index to the French Edition of the Debates came in on 22nd of May, and the final forme was signed for press 6th of June. One hundred and fifty copies were bound and delivered 7th of July.

As the House prorogued on 1st of April, it will be seen by the above statement that the Indexes were prepared much more expeditiously than formerly and in less time than is allowed for this work by the rules of the Debates Committee.

THE SENATE DEBATES.

Although the Session opened 26th of January, the copy of the first day's proceedings for the daily edition, did not reach here till 30th January.

The House closed on 1st of April, yet orders were not received for the printing of the last sheet till 17th April.

Copy for the Index began to come in 8th of May and continued to come at intervals till 13th of June, when it was completed. Five hundred bound copies were delivered 10th of July.

In order to keep the issue of the Commons and Senate Hansard at an even and regular speed it was thought expedient to adopt a system of daily reports, setting forth in detail, the time as to receipt of "printer's copy," the delivery of Debates to the Houses, and the several other operations in connection with this work. These reports are sent to the chairmen of the respective Hansard committees, in order that they may be fully informed day by day of the progress of the work.

Appended is a list of the hands at present employed in the different departments of this branch:—

Parliamentary—Compositors employed on Parliamentary Reports.....	116
Departmental, or job compositors.....	32
Press Room.....	39
Bindery.....	139
Proof-readers.....	11
Employed generally.....	14
Total.....	351

REQUISITIONS OR ORDERS FOR WORK.

An idea of the clerical work of this department can be formed when it is stated that 10,974 requisitions, or at the rate of 35 per day, were received and executed during the year.

Respectfully submitted,

W. McMAHON,
Superintendent of Printing.

Public Printing and Stationery.

THOS. ROXBOROUGH,
Supt. of Stationery.

REPORT OF THE JOINT LIBRARIANS OF PARLIAMENT

SESSION 1894.

(17)

To the Honourable the Speaker of the Senate :

To the Honourable the Speaker of the House of Commons :

The joint librarians of parliament have the honour to make the following report for the year 1893.

During the long recess a further attempt was made to extend our exchange relations with the newer states of the American union.

The latest revisions of the Statutes of the various states were procured at considerable expense.

The reports of the boards of trade of the United States and Canada were procured, as far as they were obtainable, and all statistical publications have been placed at the service of members.

The removal of the Patent Reports and specifications placed some space at the disposal of the librarians, and they have utilized it to relieve the shelves of the main library, and render access to the books more convenient.

The catalogue volumes have been rearranged and rebound, but in view of the fact that these volumes will not last, and are fast filling up, the librarians propose to extend the card catalogue system already in partial operation in the library.

The Canadian section has received several important additions during the year. This section is now so far complete that the librarians can submit it for the inspection of experts with some satisfaction. There are, however, some books still beyond our reach. Among other things, the earliest newspapers published in Upper and Lower Canada and the Maritime provinces, are not easily obtainable.

Among the additions to the library, the attention of members is directed to the new edition of May's "Parliamentary Practice," edited by Sir Reginald Palgrave, K.C.B., the Clerk of the House of Commons, of England. The new edition of Todd's "Parliamentary Government in the Colonies," for which a sum was placed in last year's estimates, will be ready for delivery early in the session.

The annual catalogue of additions to the library will be issued at an early day.

A list of the copyrights deposited during the year is appended hereto.

All of which is respectfully submitted.

A. D. DECELLES, G.L.

MARTIN J. GRIFFIN, P.L.

LIBRARY OF PARLIAMENT, OTTAWA, 15th March, 1894.

LIST OF DONATIONS TO THE LIBRARY OF PARLIAMENT.

1893

OTTAWA

PRINTED BY S. E. DAWSON, PRINTER TO THE QUEEN'S MOST
EXCELLENT MAJESTY

1893

[No. 18—1894.] *Price 10 cents.*

Department of Justice.

To His Excellency the Governor General of Canada.

MAY IT PLEASE YOUR EXCELLENCY :

I have the honour to submit, for the information of Your Excellency, the accompanying Annual Report of the Inspector of Penitentiaries of the Dominion, together with the Reports and the financial and statistical statements and tables prescribed to be made, according to law, by the Wardens and other officers of the Penitentiaries, the same being for the year ended 30th June, 1893.

I have the honour to be,

Your Excellency's most obedient servant,

JOHN S. D. THOMPSON,
Minister of Justice.

DEPARTMENT OF JUSTICE,
OTTAWA, 12th October, 1893.

Department of Justice.

EIGHTEENTH ANNUAL REPORT

OF THE

INSPECTOR OF PENITENTIARIES

OF THE

DOMINION OF CANADA

FOR THE YEAR ENDED 30TH JUNE, 1893.

Honourable Sir JOHN THOMPSON,
Minister of Justice.

SIR,—I have the honour to place in your hands, according to enactment, my annual report, on the Penitentiaries of Canada, for the fiscal year ended 30th June, 1893; also the reports of the wardens and other officers of the penitentiaries to the Inspector, along with the returns, statistics, &c., &c., from each institution, as enjoined by the rules and regulations sanctioned by the Privy Council.

The movements of convicts in the penitentiaries of the Dominion, during the last fiscal year, is summarized as follows:—

Kingston Penitentiary.

	Males.	Females.	Total.
Remaining 30th June, 1892.....	506	26	532
Received since do	107	11	118
	—	—	—
	613	37	650
Discharged since 30th June, 1892	165	4	169
	—	—	—
Remaining 30th June, 1893.....	448	33	481

The daily average number of convicts was $513\frac{23}{365}$; 7 male convicts died and 1 criminal lunatic committed suicide.

The decrease in the number of convicts on 30th June, 1893, as compared with the number registered on the same date the year before, was 51.

In the female prison an increase of 7 took place.

No escape occurred.

Of the 107 male convicts received last year, 19 were recidivists, a larger percentage than desirable, but less than that at St. Vincent de Paul.

St. Vincent de Paul Penitentiary.

	Males.	Females.	Total.
Remaining 30th June, 1892.....	374	0	374
Received since do	99	6	105
	<hr/>	<hr/>	<hr/>
	473	6	479
Discharged since 30th June, 1892.....	99	6	105
	<hr/>	<hr/>	<hr/>
Remaining on 30th June, 1893.....	374	0	374

Daily average 380. Number of deaths 3. No escape.

Dorchester Penitentiary.

	Males.	Females.	Total.
Remaining 30th June, 1892.....	172	0	172
Received since do	66	4	70
	<hr/>	<hr/>	<hr/>
	238	4	242
Discharged since 30th June, 1892.....	61	3	64
	<hr/>	<hr/>	<hr/>
Remaining on 30th June, 1893.....	177	1	178

Daily average 175. Increase 6. No death. No escape.

Manitoba Penitentiary.

	Males.	Females.	Total.
Remaining 30th June, 1892.....	75	0	75
Received since do	20	0	20
	<hr/>	<hr/>	<hr/>
	95	0	95
Discharged since 30th June, 1892.....	24	0	24
	<hr/>	<hr/>	<hr/>
Remaining on 30th June, 1893	71	0	71

Daily average $73\frac{59}{365}$. Decrease 4. No death. One escape.

British Columbia Penitentiary.

	Males.	Females.	Total.
Remaining 30th June, 1892.....	75	0	75
Received since do	38	1	39
	<hr/>	<hr/>	<hr/>
	113	1	114
Discharged since 30th June, 1892.....	23	1	24
	<hr/>	<hr/>	<hr/>
Remaining on 30th June, 1893.....	90	0	90

Increase 15. One death. No escape.

The total number of deaths, in all the penitentiaries, was 12, or about 1 per cent, a very low average, and affording proof of the sanitary condition of the institutions and of the care taken to preserve the health of the convicts.

Department of Justice.

Recapitulation.

Kingston Penitentiary.....	481
St. Vincent de Paul Penitentiary.....	374
Dorchester do	178
Manitoba do	71
British Columbia do	90
Total number of convicts on 30th June, 1893.....	1,194
do do 1892.....	1,228
Total decrease on 30th June, 1893.....	34

In the year ended 30th June, 1893, the number of convicts received in all the penitentiaries was 352 as against 387, the previous year, or a decrease of 35; while the number discharged was 382 compared with 408, in 1891-92, a decrease of 26.

The number of prisoners in Kingston Penitentiary is still less than in 1891-92, although, at the end of that fiscal year, there was a decrease of 54. On 30th of June last, a still further diminution of 51 was shown by the register.

As a coincidence the figures 374 represent the number of convicts confined, at St. Vincent de Paul, on 30th June, 1892 and 1893.

Dorchester gives an increase of 6, British Columbia of 15 and Manitoba has a decrease of 4.

This falling off, for some years past, in penitentiary population, is a subject for rejoicing. It is a fair indication that the country is prospering, since the increase of crime is a noticeable feature in times of depression and stagnation in business enterprise and in the labour market; and it also goes to prove that the people of the Dominion are, on the whole, law-abiding and mindful of their duties and obligations as Christians. Let us hope the apprehension shared by many is groundless—who are close observers of evil-doers and their movements—that, upon the close of the World's Fair, Canada will be overrun by a large contingent of the criminals now congregated, at Chicago, from all parts. The prospect, there, of richer spoils and more successful operations has, doubtless, induced the bulk of habitual offenders, such as burglars, thieves and pickpockets, especially, to cross the line and turn their backs upon the less productive field for their enterprise afforded by the Dominion.

In 1891-92 the number of convicts committed to St. Vincent de Paul Penitentiary, exceeded that received at Kingston by 29. This last year the province of Quebec has contributed 13 less than Ontario, a gain of 42.

I venture, again, to recommend an increase to the small allowance of \$50 a year paid to the organists, for their services at the instruments and for training and practising the choirs which contribute so much to the solemnity, the efficacy and subduing influence of the religious exercises. An additional sum of \$400 would suffice.

I have nothing to add, here, to the recommendations and suggestions contained in my annual report for 1890-91, and summarized in that for 1891-92—of which you were pleased to approve—further than refer to the advantage and need of appointing a chief engineer, who would, besides his duties, at the penitentiary where em-

ployed, be responsible for and periodically inspect the extensive and valuable steam and electric plant, used for heating, lighting and in connection with the water works and machinery in the several penitentiaries. In consequence of the inspection heretofore made by the Boiler Insurance Co. having been discontinued, there is all the greater necessity for having an officer, connected with the department, held accountable for the proper working, safety and good condition of the steam and electric appliances. It should be, also, part of his duty to superintend all work connected with heating, water supply and artificial lighting in each penitentiary. As the papers relating to this important matter will be laid before you, at an early day, it is unnecessary to say more in this report.

Kingston Penitentiary.

The warden, in his report, speaks of the conduct and industry of the convicts in favourable terms. He says there have been "fewer reports and punishments than any previous year," and that "the grading in uniform has had a beneficial effect on discipline." When recommending a change and gradation in the uniform, from the degrading bi-colours—brown and yellow—some years ago, I anticipated the good result noted by the warden.

The advantage to the convicts that would accrue from increasing the number of remunerative industries and employments has been frequently dwelt upon in these reports. This can be more readily and economically undertaken when additional workshops become available upon the completion of the new criminal lunatic asylum and the reconstruction of the prison wings.

The warden gives an interesting summary of the work done, in the course of the year, among which are the laundry and baths, now in successful operation. These are manifest and most important improvements.

The water tower is so far advanced as to be ready for the tank, which is being made.

A most desirable and necessary change is that of the bakery from the low lying and badly ventilated cellar, under the refectory, to the lower floor of the building until recently used as a mill. This place affords better light, ventilation, storage and facilities for work and cleanliness.

An apartment, over the boiler house, suitable and commodious, for the manufacture of binder twine—should that industry be introduced—is in course of preparation.

The old south wing is being dismantled with the view to its reconstruction for larger cells. A quantity of stone and brick has been taken down which can be used in the new building. The work will be continued, during the approaching winter.

The site selected for the criminal insane asylum is on the ground immediately north of the warden's residence. It is well adapted for the building, having a higher elevation than the penitentiary and easily drained. The fact that a large portion of the inclosing wall required having been built, many years ago, for a proposed penal prison, will save a considerable expenditure of money and labour. The work on the continuation of the wall is in progress.

It is hoped the building of the female prison to the east of the penitentiary, will be also commenced next spring.

Department of Justice.

In order to finish these two buildings, viz., the asylum and female prison, the reconstruction of the prison wings and the erection of quarters for the staff—all of which have received your sanction—within any measurable time, in the near or even distant future, the penitentiary record, of exclusive convict labour, will have to be broken. If a large share of these works be not done by contract, the full and indispensable equipment of this penitentiary must be indefinitely delayed.

Potatoes excepted, the farm is reported as supplying its quota of products towards the maintenance of the prison. Under its new management, which is said to be efficient, and with the means of improved cultivation and handling so abundant, corresponding favourable results should follow.

The warden adds that the school and library are producing good fruits and that the chaplains have discharged their duties with regularity, attention and zeal.

The Protestant chaplain notices a marked falling off in the number of convicts. He makes the following suggestions which are worthy of consideration:—

I. That “pretty stained windows” be placed in the chapel, to conceal the unsightliness of the iron bars, to produce a soothing effect on the men’s minds and so dispose them the better for receiving good impressions from the religious exercises. This might be done in both chapels.

II. That “a half hour’s sharp drill, at extension movements” should be given the men who work in the shops, every fine day. As the chaplain says, “it would have a bracing effect, physically and morally,” and of this there can be no doubt.

III. The admission of unobjectionable newspapers. For the reasons given by the chaplain, I see no objection to this privilege being granted and I recommend it, proper safeguards being adopted to prevent abuse.

IV. In the matter of the “artificial leg” referred to by the chaplain, I venture to say that, were this or any similar instance of the kind reported upon by the warden or surgeon, it would meet with your considerate attention. The furnishing of a new artificial leg, by the Government, to a convict on his discharge, to replace a worn out one, would be wholly an act of grace and, if allowed by Parliament, would mainly depend upon the character and conduct of the applicant, while in the penitentiary. For additional surgical attendance in cases of accident, and for such requirements as the chaplain mentions, it might be advisable to ask for a small annual appropriation.

The Catholic chaplain refers to the satisfactory result of his labours among those who were almost totally ignorant of the teachings of their religion, and of the difficulties he has had to contend with from the better instructed but more hardened convicts. He emphathizes his former approval of the amalgamation of the libraries which has given general satisfaction. Of the reading matter selected by the prisoners during the year, more than half, he says, was “of a kind that tended to instruct and elevate the mind.” Father Neville also recommends that stained glass windows bearing religious images and emblems be substituted for the plain glass. This has been done, at St. Vincent de Paul and Dorchester with salutary effect.

The surgeon remarks that the health of the convicts during 1892-93, “has not been as good as in some former years.”

The admissions into hospital (342) exceeded those of any year of his experience as surgeon. Withal the mortality does not show a higher percentage as there were

only seven deaths, three of the deceased having reached the ages of 70, 74 and 76. It is possible that the water of the exposed well in the yard, referred to by the surgeon, may have been the cause of the numerous cases of typhoid, recorded in other years. The great abatement of the disease noted, since the well has been covered, affords presumptive proof that the drinking of the water from the open well had some part in generating the malady. The outbreak of typhoid, periodically, has been unaccountable and mysterious. It were to be hoped that the surgeon has hit upon the solution of the dark problem.

The number of patients in the insane ward, on 30th June, was 34, and on 30th June, 1892, 27, giving an increase of 7. The total number under treatment last year, was 54. Of these 5 have been cured, 11 sufficiently recovered to resume work, and 3 were sent to the provincial asylum on completion of their sentence. Only one death (suicide) occurred among the lunatics during the year, the particulars of which are given by the surgeon. The surgeon credits the matron and her deputy with having "faithfully discharged their duties to the sick," as also the hospital overseer, Mr. Gunn, for the satisfactory manner in which he has filled his position. The surgeon's report is, as usual, full and interesting.

The matron reports that the conduct of the female convicts "has been quite satisfactory." Work to the value of \$1,824.40 was done in the female prison.

The school shows an average daily attendance of 72 out of a total of 80 on the register. The acting schoolmaster reports the progress and conduct to have been good.

Out of the total male prison population of 448, sad to relate, more than one-half are under 30 years, viz., 35 under 20 and 216 from 20 to 30.

The only instance of corporal punishment having been inflicted was in the case of a convict, whose sentence by the court included flogging.

The accountant, Mr. S. W. Scobell, resigned and has been succeeded by Mr. R. R. Creighton, formerly warden's clerk.

St. Vincent de Paul Penitentiary.

The warden states, in his report, that the conduct of the convicts "has in a marked manner improved."

He anticipates good results from the separation of bad and troublesome characters from the others, by means of the Prison of Isolation.

The recommitments (30) though five less than last year, are, he considers too numerous. This is but too true, as they are more than 25 per cent of the total number of commitments for the year.

Good progress in the building of the boundary wall continues to be made. A tower and 500 feet have been erected since July, 1892.

The warden reports favourably of his staff.

The Catholic chaplain had 300 convicts under his care on 30th June. He indicates the various nationalities which make up this number, and expresses his satisfaction with the conduct of the prisoners in the chapel, and their attention and respect during religious exercises. The choir is excellent and the organist contributes greatly to its success. The chaplain still considers that the organist is deserv-

Department of Justice.

ing of a more liberal remuneration. The number of pupils in the school and of those who avail themselves of the library, he regards as a convincing proof of the advantage of the one and the other.

The Protestant chaplain had 74 on his register when the year expired. He makes favourable mention of the school and library and says,—“Everything, in the last year, has gone on in the usually orderly manner.”

The surgeon represents the hygienic state of the prison as having been very good. There were no cases of epidemic or contagious diseases during the year. Many accidents occurred, but none serious.

At my last visit I found some little friction existing between a few of the members of the staff. It was caused by the over-officiousness and overbearing conduct of one of the officers. I inquired sufficiently into the matter to find out that no interest would suffer by an amicable settlement of the difficulty, and I advised that course which has been followed to the satisfaction alike of the warden and the parties concerned.

The favourable endorsement of the administration of this penitentiary which appeared in the report of last year, is equally merited in this present one.

Dorchester Penitentiary.

The conduct of the prisoners has been good, with few exceptions.

The staff is efficient and good feeling obtains among its members.

There are several matters of interest noted in the warden's report.

The Protestant chaplain reports that he had 123 prisoners under his charge on 30th June. He mentions the gratifying fact that among these there was only one boy under 15. This is in pleasing contrast to the number of youths of tender age that were committed to this penitentiary in recent years. With the chaplain let us hope that the establishment of the “Boys' Industrial Home,” at St. John, N.B., will “eliminate the boy element” for the future from this penitentiary.

The chaplain testifies to the “faultless conduct on the part of the prisoners during Divine service,” a very gratifying fact, indeed. He adverts to the successful working of the Bible class, to the improvement and efficiency of the choir, to the excellent management of the school, to the progress made there, and to the working of the general library which is satisfactory alike to himself and his brother chaplain.

The Catholic chaplain had 54 convicts on his register at the end of the last fiscal year. He expresses satisfaction at the progress of his work since his previous report, and his appreciation of “the favourable conditions which obtain for religious work in the Maritime Penitentiary.” The prisoners under his charge, are, he says, “as a rule amenable to religious influences, and, as a congregation, are devout, docile and attentive.”

The surgeon reports favourably upon the sanitary condition of the prison. The drainage, ventilation and cleanliness are carefully attended to. He speaks well of the accommodation and comfort of the several workshops and the benefit to health which follows from out-door employment. There have been no deaths, no serious accidents, no contagious or epidemic disease, and the general health of the convicts has been better than the year before. The surgeon mentions that a convict 82 years of age was received 6 months ago, for a term of 3 years, that, when tried and

sentenced "he was suffering from senile dementia, as shown by the certificate of the jail surgeon." The surgeon adds,—“He continues to grow worse since his confinement and, should he live a few months, will probably become a helpless imbecile.” It may fairly be asked, was it right to send this very old man to the penitentiary, in such a condition of mind?

The number sent to hospital (12) during the year, was small, while that seeking advice and treatment for minor complaints (2,104) was considerable. No better proof of the healthfulness of the prison and its surroundings could be adduced than the fact of no case of typhoid or continued fever ever having occurred since the opening, 13 years ago, as stated by the surgeon.

The report of the schoolmaster is modest and encouraging.

Manitoba Penitentiary.

The administration of this penitentiary was temporarily entrusted to the Accountant of Penitentiaries some time previous to the death of the former warden, Mr. S. L. Bedson. It continued in his hands about twenty months, until the present warden, Colonel A. G. Irvine, took charge, on the 1st November, 1892.

Judging from the reports and correspondence of the new warden, and the practical, well considered and business-like way in which he presents matters for the consideration of the department, there is reason to conclude that he has gone far in effecting the reforms and improvements, so much needed, and that his future administration will be a success.

The warden refers to the recapture of convicts Gillette and Shoults, who escaped before his appointment at a cost of \$1,177.88, the largest expenditure in any penitentiary in twelve months, for such purpose, during the last 21 years. Neglect of taking the most ordinary precaution, by the responsible officer, led to Gillette's escape. In fact, the doors were left open and unguarded for him to walk out upon the prairie, after locking-up time.

The insane patients from Keewatin and the North-west Territories, who had been quartered here, were removed to the lunatic asylum, at Brandon, last March.

A commencement has been made in building a boundary wall. The area to be inclosed is about nine acres. The plan of the wall is similar to that at St. Vincent de Paul. The number of convicts being small, the progress of the work will be slow. The warden suggests that a few convict masons be transferred from Kingston to assist. This might be done if they could be spared; but, the works on hand and projected, there, will require all the masons now available or that can be trained, for the next ten years.

Farming operations have been carried on more extensively, than before, by Warden Irvine, 124 acres having been put under crop, while 30 acres of new land were broken. In special reports to the department, the warden recommends the purchase of a section of land adjoining the penitentiary property. It would be well to secure this land before the price runs higher; as, from its situation, so near Winnipeg, its value must increase. As agricultural pursuits are the best and most profitable in which the convicts of this prison can be employed, the additional land is indispensable. I recommend that an item be placed in the estimates to buy the section. On this point the warden remarks:—"I think it well to mention here, that, to my mind, this penitentiary can be made in a greater measure, self-supporting by

Department of Justice.

more extensive farm operations. All our own flour, beef and pork could be raised if the reserve were enlarged by purchase of adjacent and suitable lands. All the available land, with exception of about 15 acres, fit for farm purposes of the present reserve, has been broken up."

The warden has provided for the greater security of the prison, so much required, by having iron barriers and bars fitted to the unprotected places.

Since the warden's appointment, he states, "the conduct of the convicts has been very good." With few exceptions, all have worked cheerfully and well."

The Protestant chaplain reports that he had in charge 49 convicts on 30th June, and that "their conduct during Divine service has been all that could be desired." The warden notes that the new schoolmaster does all in his power for those attending the school. He regrets a falling off in the number of pupils.

The Catholic chaplain had under his spiritual care at the end of the year, 22 convicts, three less than on 30th June, 1892. He states that their behaviour, wherever he has occasion to meet them, "is most commendable," and "their attention and general demeanour during mass, vespers, and public instructions are very good."

The surgeon reports the prevalence of scarlet fever and measles, on the Mountain, but from which the prison and officers' quarters escaped by the adoption of preventive measures. He calls attention to the condition of the swamp, at the foot of the hill, near the cess-pit, which he considers dangerous in generating and propagating the germs of disease. This swamp is at a considerable distance from the prison and officers' quarters. It is not extensive. Can it be possible that, it is not sufficiently disinfected, by the salubrious breezes of the surrounding prairie, to prevent its being a standing menace to the health of the institution? There is no means of draining it. What can "a sanitary engineer" advise except to fill it in or use a few thousand bushels of lime or some other disinfecting means to overcome the danger—if any?

The report of the schoolmaster shows an attendance of 16. He states that good progress has been made, and that "all seem to take every opportunity to improve themselves, by careful attention at school, and diligent study and practice in their cells." The libraries he states "have been considerably improved by the addition of very good books and the repairing of the old ones."

British Columbia.

Owing to the increase in the number of convicts, the warden asks for more accommodation, but few cells being unoccupied. This must be provided for, sooner or later, and the sooner the better. In a penal institution want of cell room is a great drawback and interferes materially with good order and discipline. The distance is too great and the expense too heavy to warrant the transfer of prisoners to Kingston. I, therefore, recommend the extension of the prison wing 65 feet, which can be done at much less expense than the building of a new one, as originally projected.

It will be necessary also, to erect new chapels. Timber can now be had for this purpose, and the plan of those at Manitoba Penitentiary be followed. This matter has been already treated in former reports.

The new system of heating and waterworks, for which I made arrangements, during my last visit, have been satisfactorily carried to completion, under the direction and supervision of the Engineer of Kingston Penitentiary, Mr. James Devlin,

who also overhauled and renovated successfully the heating appliances in the workshops, which were so defective. The water supply is of the best quality, abundant and having powerful pressure for fire purposes. It is a great boon, compared with the scanty and precarious contributions from the polluted streamlets flowing into the muddy and ill-constructed reservoir.

The Corporation in widening the road, made a deep cutting in front of the married officers' quarters, and agreed to build a retaining wall to protect the embankment. This has not been done and the terrace upon which the houses stand is becoming gradually undermined, and there is danger of the buildings and their occupants being carried into the Fraser River by a landslide, as strata of quicksand form part of the slope cut away by the Corporation. The warden says, "A stone wall must be built there, at once, as the bank is crumbling away." In my special report on this matter I recommended that, if the Corporation fulfilled their obligation of grading the road, as agreed upon, in front of the warden's residence, and building retaining walls there and at the officers' quarters, some aid might be given by the Government, in that the penitentiary property would derive advantage from these improvements. As the pact and bargain made between the Corporation and the warden as to the grading of the road, between the wooden bridge and penitentiary gate, in lieu of the portion of the reserve granted for widening that road, and as to the building of the retaining wall have not been kept, I recommend that measures be taken to enforce the fulfilment of the compact by the Corporation. A large measure of assistance in the way of convict labour and *matériel* was given by the penitentiary to the Corporation, in connection with the work, thus far, imperfectly done.

I recommend that provision be made in the estimates to build the number of houses required to accommodate the married officers of the staff.

There have been no complaints of any serious misconduct or breaches of rules by the convicts.

The warden states that "the conduct of the officers has been good."

The insane Chinaman, Lee Sam (or Ah-Sam) undergoing life sentence, gives much trouble, there being no suitable place for treating him. He should be removed to the provincial lunatic asylum. There is no objection to this being done by the Local Government, or by the medical superintendent as there is a Chinese ward in the asylum. I recommend the removal.

I have to mention with regret the death of Rev. Robert Jamieson, Protestant chaplain, who was appointed in January, 1879. He was faithful and earnest in discharging his duties. Owing to his demise, no report has been made regarding the convicts who had been under his spiritual charge.

The Catholic chaplain had 23 men and one woman attending his administrations at the end of the year. He reports that "with one exception they have conducted themselves in the most exemplary manner, paying great attention to all instructions and appearing very grateful for all that is done for them. The Spaniards and Italians are "exceedingly thankful," for the books in their respective languages, supplied at the request of the chaplain.

The surgeon reports favourably of the sanitary state of the prison; there was no serious disease and but a small number had hospital treatment. He recommends that a suitable hospital be built. The present building supplies all the hospital accommodation required, if properly utilized. The officers occupying rooms, which

Department of Justice.

may be required for the sick, can be sent to the single men's quarters. The heating of the hospital presents no difficulty. It should have been asked for, specially, when the work was in progress. An application for the necessary coils will receive attention. The alternation in the diet recommended, viz: oatmeal porridge at night, can be arranged between the warden and surgeon. It is a matter wholly within their control and does not require mention in the Annual Report. The porridge is in order. The time allowed for officers and convicts to take dinner and for school and choir practice is, from 11.50 a.m. until 1.15 p.m. It is for the warden and deputy warden to regulate the distribution of this time to suit the reasonable requirement of the dinner table of the officers and the duties to be performed in the interval. Instructions have been given to allow the officers a full half hour for dinner. It was unnecessary for the surgeon to give himself any trouble on this point, as it had been under consideration by the department. Besides, it is the duty of the warden and not of the surgeon to look after the details of the administration of the prison, and should any change or remedy be required to make application in the proper way and to the proper authority to have this done. The surgeon, with the permission of the warden, can read the portion of the minutes of my last inspection, which refer to himself. What he will see may suggest to him the prudence and wisdom of attending strictly to his own duties and not meddling with what he has no concern. Mr. Carroll is hospital overseer and the other duties performed by him as mentioned by the surgeon, should not interfere with those which belong to him in the position to which the Minister appointed him. His time, as overseer, not having been fully occupied, I gave authority to his being employed, in the several capacities stated by the surgeon, when his services were needed or could be made available, without detriment to or interference with his primary duties. Should these have been neglected, the surgeon had his remedy by making a report of the fact to the warden, to be dealt with, as occasion might require. This not having been done, it is fair to conclude that, there has been no ground for complaint and consequently the implied censure in the surgeon's last sentence of his report is unwarranted.

With reference to the schoolmaster's regret that "the time allowed for teaching is so short," being only "twenty minutes," I have to express my surprise. The convicts finish dinner by 12.15. They go to work at 1.15. What is to prevent the school being in operation from, say 12.30 until 1.15? This would allow the men on the stands sufficient time for dinner and give the other officers more than an hour. The warden should see that a better arrangement be made. There should be no difficulty about extending the time for school, without curtailing that of the guards for their dinner.

Regina Jail.

The following is the return of prisoners received and discharged during the fiscal year 1892-93:—

	Males.	Females.	Total.
Remaining 30th June, 1892.....	17	0	17
Received since do	46	6	52
	63	6	69
Discharged since 30th June, 1892.....	49	4	53
	14	2	16
Remaining 30th June, 1893.....			

Daily average $15\frac{1}{3}\frac{6}{6}\frac{7}{5}$.

One death occurred.

The jailer reports that all his officers "have performed their duties in a satisfactory manner."

He mentions the various employments upon which the prisoners were occupied, throughout the year. A good share of useful work was done, not the least important is the providing for a continuance of the soft water supply, the failure of which was imminent a year ago.

The jailer expresses "regret and disappointment" that the Accountant of Penitentiaries, when *en route* to and from British Columbia, some months ago, did not visit the jail, in order to examine his books and give any instructions which might be necessary for their being properly kept.

I recommend that, in future, prisoners sentenced to two years and for longer periods, from the North-west Territories, be committed to Manitoba Penitentiary and that those serving long sentences, in this jail, be removed to Stony Mountain. I make this recommendation because the jail is not sufficiently secure for prisoners committed for serious offences, and because constant suitable employment cannot be provided for them.

I further recommend that prisoners sentenced to six months and upwards, be sent to this jail, instead of to the barracks of the Mounted Police, so long as there is accommodation for them, in view of their labour being turned to advantage for the jail.

I have the honour to be, sir,

Your obedient servant,

J. G. MOYLAN,

Inspector of Penitentiaries for the Dominion of Canada.

DEPARTMENT OF JUSTICE,

PENITENTIARY BRANCH,

OTTAWA, 9th October, 1893.

Department of Justice.

KINGSTON PENITENTIARY

No. 1.

REPORT OF THE WARDEN FOR THE FISCAL YEAR ENDED 30TH JUNE, 1893.

KINGSTON PENITENTIARY, 30th June, 1893.

SIR,—I have the honour to submit the annual report of this penitentiary for the year ended 30th June, 1893.

The number of convicts remaining on 30th June, 1892, was.....	532
Received since from jails.....	102
do do other penitentiaries.....	16
	— 118
	<u>650</u>
Discharged by expiration of sentence.....	140
do , pardon.....	18
do death	7
do suicide	1
Sent to provincial lunatic asylum.....	3
	— 169
	<u>481</u>
Remaining at midnight on 30th June, 1893	481

Of this number 33 are females, being 7 in excess of previous year.

Two hundred and twenty-four convicts are 30 years of age and under, and of this number 39 are under 20 years of age.

There are 19 recommitments.

The conduct and industry of the convicts have been good; fewer reports and less number of punishments than any previous year.

There have been no escapes, while several attempts were made.

The men classified as to clothing, are: 328 in first grade; 31 in second grade, and 55 in third grade, excluding hospital and asylum.

The classification as to clothing has had an influence for good in securing conformity to discipline. The convicts, occupied with mechanical trades, are as a rule interested in their work, and manifest a desire to make the best use of opportunities afforded them. These mechanical industries are among the best reformatory methods, and in proportion to their adoption will benefits accrue to the public and the individual convict.

The increased and increasing number of female convicts will require consideration as to their future employment. At present I find it difficult to keep them occupied.

The improvements and changes approved of are being carried out. The mason work on water tower and its reception for water tank are completed.

The new laundry and bath house are completed and successfully operated. This change from its former location, as well as completeness, is a marked benefit in every sense.

The bakery in its new location, transferred from dining hall cellar to the lower story formerly used by the mill, is also in operation, complete and satisfactory.

The mechanical stores room, transferred from its former location over boiler room to the room over the new bakery, has proved every way suitable. Its former place is being prepared for binder twine plant.

The elevation of the kitchen building for library and mess room purposes, is being proceeded with. Efforts will be made to have it closed in, this fall.

The removal of brick and stone from the old south wing was commenced during last winter, and large quantities of these materials will be utilized in the erection of proposed buildings. This work will be continued the coming winter, giving inside employment to a number of men, of a useful character. The basement of dining hall, formerly used as bakery, has been rejuvenated and fitted for the reception of such stores as it may be found fitted for. The wall to inclose proposed lunatic asylum has been commenced and progressing favourably. A large quantity of stone has been quarried and dressed for various purposes of which you are cognizant.

Buildings have been repaired, and other works of similar character have been attended to. The old laundry has been utilized for cracking stone by outside gangs on stormy days, so as to keep them employed. The prison of isolation is about ready for occupation; the heavy work is completed, and the interior furnishings placed. This building, in its structure and equipment, all by convict labour, cannot be surpassed for workmanship. In all its appointments it will be found well adapted for the purpose designed.

The above summary of varied work, employing quarrymen, stonecutters, masons, carpenters, blacksmiths, &c., with attendant labourers, will give some conception of what is being done. The other trades, tinsmithing, tailoring and shoe-making, meet other wants of the penitentiary, as regard clothing and repairing of roofs and making tin utensils for prison use. The cleaning, cooking and other domestic work require a large number of men who are efficient in the work assigned them.

The farm is an important department, and contributes its quota towards the sustenance of the prison. With the exception of potatoes, everything needful from that source is supplied. It is poor land at best, and requires a great deal of nourishment and cultivation. It has been fairly productive this year.

The female convicts are kept at laundry work, sewing and cleaning. The increasing number warrant their being placed at remunerative labour. They are not, I am sorry to state, of the most hopeful class.

The hospital and insane ward are well looked after and merit commendation.

The school is doing a good work. The men apply themselves to learning what they can and many become in a short time proficient in elementary knowledge.

Never in the history of the prison has the library been more appreciated, and while a great variety of reading is contained therein, a very large proportion of the prisoners engage in solid reading and seek for scientific works. This demand, I am glad to state, is met by the liberal appropriation made to this department.

The chaplains continue indefatigably performing their duties. Should there be but a moderate response, in proportion to the labour they expend, much good might be expected. The services in both chapels are aided by good choirs, led by instrumental music, engaged in solely by convicts.

The many improvements, involving thought and labour, being nearly completed, an opportunity will be afforded for concentrating work on the proposed asylum and female prison. These will take every available man not needed for the routine work of the institution. Our temporary reduced population has to some extent retarded the proposed buildings, nevertheless there has been no important delay. I have no expectation of a continued decreased number.

The heads of departments are zealous, and evince an interest in their work, aiming at efficiency and completeness. The staff are vigilant in their duties, and considerate to the convicts, exercising, as they are instructed to do, a humanizing influence over them. The executive staff are careful and efficient, and in supervising the details of prison duty strive to meet their individual responsibility.

The varied duties of my position, involving, as they do, responsibility, care and much anxiety, are performed with a consciousness of their importance. The im-

Department of Justice.

provements, material and disciplinary, invite fair criticism, and in carrying them out I have spared neither labour or thought. Duties are exacting, and the ever present unexpected possibilities which may happen, keep up a constant tension, only appreciated by those who have a full knowledge of all that is required to be kept in view.

Permit me to thank the Minister and yourself for the generous consideration and prompt attention given to all matters submitted for such action as was deemed necessary.

I have the honour to be, sir,
Your obedient servant,

M. LAVELL, M. D.,
Warden.

J. G. MOYLAN, Esq.,
Inspector of Penitentiaries,
Ottawa.

No. 3.

REPORT OF THE PROTESTANT CHAPLAIN.

KINGSTON PENITENTIARY, 30th June, 1893.

SIR,—I have the honour to report the duties duly performed.

There has been a marked falling off in the number of convicts. It is hard to account for as usually dull times are accompanied by an increase in our number, but it is not the less gratifying on that account.

It has struck me that the more by their surroundings the men could be led to forget that they were in prison, while attending divine service, the less active hostility to the truth would have to be overcome. I would suggest that pretty stained windows could be secured for the chapel at a trifling cost. These by concealing the bars and by accentuating the difference from ordinary prison surroundings would have a soothing effect on the men's minds and dispose them to listen with less antagonism.

Another matter that has occurred to me is, that if a half-hour's good sharp drill at extension movements could be given the men who work within the walls, it would have a bracing effect both physically and morally.

I also think the rule forbidding the entrance of newspapers might advantageously be repealed. If a few of the dailies or weeklies such as *Empire*, *Globe*, *Mail*, *Star*, &c., were allowed to be sent by friends from the office of publication, nothing contraband could be smuggled in. The discipline would be improved by removing a strong temptation to breach of rules, and the men being kept to some degree abreast of the times would have better ideas of where to go and what to do when discharged from the prison. I believe the papers are admitted into most American state prisons.

Lastly, a matter has been forced on my attention. A man just about to be discharged has so worn out his artificial leg as to be unable to stand on it without the aid of a stick, thereby lessening his capacity for self-support. If under such circumstances the Warden or Surgeon were allowed to provide a man with an efficient limb, the appropriation would not exceed \$150 per annum and such men would be sent out efficiently equipped to earn an honest livelihood; but to have to face an immediate expense of \$75 or \$100 is a terrible handicap to a newly discharged prisoner.

Yours respectfully,

C. E. CARTWRIGHT,
Chaplain.

J. G. MOYLAN, Esq.,
Inspector of Penitentiaries.

No. 4.

REPORT OF THE CATHOLIC CHAPLAIN.

KINGSTON PENITENTIARY, 30th June, 1893.

SIR,—I beg to forward you my report for the year ended 30th June, 1893.

During the year that has passed I have done my utmost to bring under the influence of religion both those who, although professing Catholicism, know nothing of its teachings and those who knowing what their faith demands of them, obstinately refuse to follow its dictates. The result, amongst the first named, has been very consoling. I always find them ready, and even anxious, to atone to God and to society, for the crimes they had committed. The light of truth penetrating their minds for the first time, creates in them a great change. With those mentioned in the second place, I find it more difficult to deal. They have been accustomed to resist and reject the grace of reform. Their thoughts seem to be, "I have sinned

and what evil hath befallen me," and it is only when stricken with sickness and brought face to face with death that they begin to fear the judgment and punishment of the God they had offended. For this reason I have been careful to visit frequently the sick in hospital, to direct that fear, to prevent it from going to extremes, and at the same time to make it an abiding influence in their lives, that so it may be for them the beginning of wisdom. Time has given its approval to the changes made in our chapel. In my last report I stated that "the amalgamation of the libraries had admirably succeeded in the purpose for which it was effected." Throughout the prison generally, it seems to give the greatest satisfaction. Books can be more easily obtained, and in a manner more orderly than heretofore. A printed catalogue of those contained in the common library hangs in the cell of each convict, so that all may become acquainted with both the number and the quality of the books from which they are to make selection. In looking over the yearly record of books thus selected, I was glad to notice that more than one-half were of a kind that tended to instruct and elevate the mind.

But it is in our chapel that we especially feel the benefit of the change. The habit the men contracted of talking and of acting there as in any other place, influenced their bearing and deportment during mass and vespers. And even the sermons and instructions suffered in their effects through want of a due reverence towards the place in which they were addressed to them. I am then greatly pleased with the change. It always seemed to me not meet that the place which the Son of God, so often condescends to honour with His sacramental presence, should at the same time be a receptacle for works of fiction and books written for the sole purpose of gratifying for the moment, and without any reference to Him or to the claims that He possesses to the gratitude and reverence of mankind. I would like to see our chapel filled with emblems of His Life and Passion, and in all things bearing the unmistakable character of His house and a house of prayer.

I would then respectfully suggest that if possible, the plain glass in our windows be replaced by glass stained with the images of Christ, His Blessed Mother and His Saints.

In conclusion, I beg to express my gratitude to the warden and officers of the prison for their kindness and assistance on all occasions.

I have the honour to be, sir,
Your obedient servant,

JAMES VINCENT NEVILLE,
Acting Chaplain.

J. G. MOYLAN, Esq.,
Inspector of Penitentiaries,
Ottawa.

No. 5.

REPORT OF THE SURGEON.

KINGSTON PENITENTIARY, 1st July, 1893.

SIR,—I have the honour to submit my report for the year just ended.

The health of the convicts during the past twelve months has not been as good as in some former years, the admissions into the hospital having far exceeded those of any year since I became surgeon of this prison (*viz.*, 342), yet the mortality has not been great, only seven of the ordinary population having died. Among those who died, three were far advanced in years, one being 70, another 74, a third 75 years of age.

Only one accident of a serious nature occurred since my last report, *vide* statement of accidents.

Department of Justice.

In order to ascertain if possible the cause of so many cases of typhoid fever occurring among the convicts, and failing to discover it either in the water supplied them from the lake, or from any defect in the drains, closets, &c., I, with the sanction of the warden, had the well in the yard, from which the majority of those confined have obtained their supply of drinking water, during the day, covered over. Instead of twenty cases of typhoid, the number which occurred in 1891-92 we have had but four since the well was closed. Was this due to the closing up of the well? Time will tell.

Insane Ward.

There are in this ward, at the present date, 34 patients. There have been discharged as cured, 5; improved sufficiently to resume work, 11; transferred to provincial asylum on expiration of sentence, 3. One man who was placed here for safety, on account of suffering from epilepsy, is still in this ward. An unfortunate lunatic committed suicide on 8th February last, in this way: The orderly was using the knife with which he was in the habit of cutting the bread and meat, when he, the lunatic, seized the knife from the orderly, and before it could be taken from him succeeded in inflicting a deep wound in his throat causing death in a short time. This is the first case of self-murder which has occurred among the criminal insane convicts within the last eight years.

There are a number of weak-minded men in this prison, but so long as they are harmless, that is not likely to injure themselves, their fellow convicts, or the guards, they are kept at various employments in the yard, &c.

Female Department.

Miss Fahey and Miss Smith, matron and deputy matron, have discharged their duties to the sick faithfully.

Since my last report one child has been born here.

I am exceedingly glad that the insane woman who was causing so much disturbance and whose removal to an insane asylum has more than once been recommended by me, has at length been transferred to Rockwood.

A number of the guards have been confined to their homes from sickness.

The prescriptions dispensed for the officers of this institution were 918.

The number of daily prescriptions, exclusive of hospital and asylum, amounted to 3,167, viz., 2,817 for the male and 350 for the female convicts.

I beg to tender you my sincere thanks for the assistance you rendered me, in obtaining leave of absence during my late illness, and also to the Minister of Justice for his kindness in granting me that leave upon your recommendation.

The usual tables are annexed giving the hospital details, viz., the number treated in hospital and the diseases for which they were treated.

Mr. Gunn, the hospital overseer, has discharged his duties in a most satisfactory manner.

I have the honour to be, sir,
Your obedient servant,

O. S. STRANGE, M.D.,
Surgeon, Kingston Penitentiary.

J. G. MOYLAN, Esq.,
Inspector of Penitentiaries.

REPORT OF THE SCHOOLMASTER.

KINGSTON PENITENTIARY, 29th July, 1893.

SIR,—I have the honour to submit my first annual report of the school in this penitentiary for the fiscal year ended 30th June, 1893.

The daily attendance is slightly below that of last year, no doubt attributable to the slight decrease in the prison population.

Total number on the school register, 80; average daily attendance, 72. The progress made in the branches taught is highly satisfactory, and all who attended showed great appreciation of the privilege extended to them. It has not been necessary to report any of the scholars during the year, either for misconduct or inattention while attending school.

Many thanks are due the warden and the chaplains for the interest they have taken in this department.

The assistant teachers are also to be commended for the zealous manner in which they have discharged their duties.

I have the honour to be,
Your obedient servant,

THOMAS THOMPSON,
Acting Schoolmaster.

J. G. MOYLAN, Esq.,
Inspector of Penitentiaries.

ST. VINCENT DE PAUL PENITENTIARY.

No. 1.

ANNUAL REPORT OF THE WARDEN FOR THE YEAR ENDED
30TH JUNE, 1893.

ST. VINCENT DE PAUL PENITENTIARY, 1st July, 1893.

SIR,—I have the honour to submit my annual report upon this penitentiary for the fiscal year 1892-93, together with statistical returns.

The number of convicts remaining on 30th June, 1892, was...	374
Received since from common jails.....	105
	479
Discharged by expiration of sentence.....	84
do pardon.....	10
do death.....	3
Transferred to Kingston Penitentiary.....	8
	105
Remaining on the 30th June, 1893.....	374

CLASSIFIED AS TO NATIONALITY.

Quebec, French Canadians.....	224
do British Canadians.....	54
United States.....	34
England.....	27
Ireland.....	11
France.....	7
Ontario.....	7
Italy.....	2
Sweden.....	1
Scotland.....	3
Poland.....	1
Germany.....	1
Nova Scotia.....	1
Russia.....	1
	374

In the distribution of the convicts, variety of work is secured, and the requirements of the penitentiary met in all its departments.

The conduct of the convicts has in a marked manner improved. Fewer reports, and most of these not serious, are presented; a more ready disposition to obedience and a better appreciation of privileges are manifest.

I am satisfied that much more good will be accomplished, when the classification intended by the Prison of Isolation, at Kingston, is made by the separation of the troublesome class from the others.

Department of Justice.

The importance of this course cannot be too strongly emphasized, when apart from disciplinary advantages, the deterrent effect of isolation upon *rescivists* cannot be but beneficial.

The recommitments, thirty in number, I am glad to state, are five less than last year, but are still too numerous.

One successful escape was made during the year, but the runaway was brought back to prison a few days after, and is now serving an additional sentence.

The sanitary condition of the prison is always very good.

Work on the new boundary wall has been pushed on vigorously, and since July last another section of over 500 feet, and a tower, have been built.

The several other works carried on here have also made good progress during the year.

The agricultural works were performed at the proper time. The hay crop is good and the other crops promise well.

The total revenue for the year ended 30th June, 1893, amounts to \$1,168.16, and the earnings of convicts for the past year amount to \$61,120; being an increase of \$6,088.50, over the previous year.

The total expenditure for the year, including the material on hand on the 30th June, 1892, is \$86,780.47; by deducting from this amount the revenue deposited to the credit of the Receiver General, and the sums paid for items which should not be charged to the account of ordinary expenditure, the real expenditure for maintenance of convicts would be \$79,873.86.

The average number of convicts for the year was 380.

The average cost per convict for maintenance proper is \$210.19 $\frac{1}{4}$.

The yearly cost of each convict after deducting the value of labour is \$49.35, or per diem 13 $\frac{1}{2}$ cents.

I beg to call for a revision of the salaries' schedule of Penitentiary Act of 1887, as it has become almost impossible to find competent men to fill some of the positions at the minimum salary set down.

On the 14th August last, the Hon. the Minister of Justice visited this institution, in company with the Hon. C. H. Tupper and Hon. E. Dewdney, and I have every reason to believe that they were well pleased with their visit.

I have to thank the officers, who, as a whole, have discharged their various duties in a painstaking manner. And I beg you will accept the expression of my gratitude for your good offices towards me.

I have the honour to be, sir,
Your obedient servant,

TÉLESPHORE OUIMET,
Warden.

JAS. G. MOYLAN, Esq.,
Inspector of Penitentiaries.

No. 3.

REPORT OF THE PROTESTANT CHAPLAIN.

ST. VINCENT DE PAUL PENITENTIARY, 4th July, 1893.

SIR,—I have the honour to submit my report for the year ended the 30th June last.

Convicts remaining 30th June, 1892	86
do received during the year.....	12
	98
Discharged	19
Pardoned	1
Transferred to Kingston.....	2
Died.....	1
Transferred to Roman Catholic chapel	1
	24
Remaining, 30th June, 1893	74

Being a decrease of 12 during the year.

Classified as to nationality:—

English... ..	22
American	16
Irish	7
Scotch.....	1
Swede.....	1
Polander.....	1
German.....	1
Province of Quebec	21
Ontario	4
	74

I wish to call your attention to the fact that the English outnumber by one the whole Province of Quebec. Last year the Americans headed the list.

School.

Nineteen have attended the school during the year and have made fair progress in both languages.

Library.

The library is doing good service, and 129 volumes have been added during the year from the appropriation and 19 from friends.

The man that died was a Swede, old, infirm and destitute when received, and expressed himself grateful for the attention he received.

The two transferred to Kingston, one is a passionate lunatic, the other a weakling.

Everything in the last year has gone on in the usual orderly manner and I have nothing to suggest. I would only add a quotation from the report of the Chaplain of the Massachusetts Reformatory for the last year, which expresses and confirms what I still hold, that idleness, lack of any mental interest in manual industries, temperamental shirking of manual labour, has most surprised me in the extent to which it appears to be a factor in crime. The need of teaching men industries, and especially of quickening an intelligent interest in work, has been as it were, a revelation to me in these five years, and has been deeply impressed upon me. Mental interest and heart interest in work would save multitudes of men from coming to prison.

I take this opportunity of again expressing my grateful thanks to the warden and deputy warden for their assistance and support whenever required in the discharge of my duty.

I have the honour to be, sir,
Your obedient servant,

JAMES FULTON, M. A.,
Chaplain.

J. G. MOYLAN, Esq.,
Inspector of Penitentiaries.

(*Translation.*)

REPORT OF THE ROMAN CATHOLIC CHAPLAIN.

ST. VINCENT DE PAUL PENITENTIARY, 1st July, 1893.

SIR,—I have the honour to submit the annual report concerning the Roman Catholic chapel, school and library of the St. Vincent de Paul Penitentiary for the fiscal year ended 30th June, 1893.

During the year there was amongst the Catholics 88 admissions, 64 discharges, 10 pardons and 2 deaths.

At the present date there are 300 convicts attending the chapel, 223 of whom were born in the Province of Quebec and are French Canadians, 34 born in the Province of Quebec and who are Irish, 3 born in the Province of Ontario, 5 born in England, 4 born in Ireland, 7 born in France, 18 born in the United States, 1 born in Russia, 2 born in Italy and 1 born in the Province of Nova Scotia.

Of the French Canadians born in the Province of Quebec, 18 lived for a long time in the United States, so that of the 374 convicts, the Catholic population of the province only numbers in reality 205 French Canadians and 34 Irish.

These figures give an accurate proportion of the nationalities which are represented here, and also the accurate proportion of criminality assigned to each of them.

We are pleased with the conduct of the convicts at the chapel, and the tendency towards the practice of religious duties increases steadily.

The singing is very good and our organist contributes to it to such an extent that I will not desist from asking the Government an official recognition of his services. The Ministers are all Christians who can remember and give weight to the word of the Lord:—"Propter improbitatem tamen ejus surget et dabit illi." (Luc xi., v. 8.) "On account of his importunity he will rise and give to him."

The number of pupils at the school and of the readers at the library is increasing. It is a proof of the excellent state of both school and library.

The officers without any exception have shown themselves zealous to make my ministrations a success, and I am happy to express to them here my gratitude.

Thanking you for your devotedness towards myself and my work at the Penitentiary of St. Vincent de Paul,

I respectfully remain,
Your humble servant,

L. O. HAREL, Priest,
Roman Catholic Chaplain.

J. G. MOYLAN, Esq.,
Inspector of Penitentiaries.

Department of Justice.

REPORT OF THE SURGEON.

ST. VINCENT DE PAUL PENITENTIARY, 30th July, 1893.

SIR,—I have the honour to submit you my report for the year ended 30th June last. The hygienic state of this penitentiary is very good.

I am very happy to inform you that the institution was not visited by any epidemic or contagious disease during the year.

There were a good many accidents among the convicts, but none of grave nature.

Three convicts died during the year. One died suddenly, the second of general debility, and the third of phthisis pulmonary.

Two convicts were transferred to the insane asylum at Kingston.

On the 30th June there were two patients in hospital under treatment.

The annual list will show you the number of patients treated in hospital and cell and the name of diseases.

Mr. O'Shea, the hospital overseer, fulfils his duties to my entire satisfaction. I am thankful to the warden and also the other officers for the assistance they render me in the discharge of my duties.

I have the honour to be, sir,

Your obedient servant,

M. H. E. GAUDET, M. D.,
Surgeon.

J. G. MOYLAN, Esq.,
Inspector of Penitentiaries.

REPORT OF THE SCHOOLMASTER.

ST. VINCENT DE PAUL PENITENTIARY, 1st July, 1893.

SIR,—I have the honour to present to you my eleventh annual report on the school and the Roman Catholic library for the term ended 30th June, of the present year.

The two departments are in excellent working order. The school has had an average regular attendance of about fifty men, all well disposed to profit by the opportunity which is thus given them to ameliorate their moral and intellectual condition.

I do not include a few individuals who, after a few days' attendance, drop away, either not having courage to continue, or appreciating their own lack of capacity for acquiring knowledge.

The library is well supplied with books assorted to suit all tastes.

The bookbindery also, is in good condition, and works satisfactorily.

In closing, I desire to offer my hearty thanks to the warden and the chaplains for the assistance they have rendered me in the fulfilment of my duties.

I remain, dear sir,

Your obedient servant,

J. T. DORAIS,

Schoolmaster.

J. G. MOYLAN, Esq.,
Inspector of Penitentiaries.

DORCHESTER PENITENTIARY.

No. 1.

ANNUAL REPORT OF THE WARDEN FOR THE YEAR ENDED
30TH JUNE, 1893.

DORCHESTER PENITENTIARY, 1st July, 1893.

SIR,—I have the honour to submit my annual report, with the usual returns, for the fiscal year ended 30th June, 1893.

On the 30th June, 1892, there remained 172 convicts; received since 66 males and 4 females, total 70. Discharged during the year 60 males, and transferred to the Kingston Penitentiary, 1 male and 3 females; total 64; which left remaining at midnight on 30th June, 1893, 178 prisoners, being an increase of 6 over the previous year.

The average number of prisoners on hand for every day of the year was 175, an increase of 5 over last year.

The total expenditure for the year just closed was \$44,876.21. There is included in this amount, an item of \$1,050, which was expended by authority in the purchase of 150 acres of valuable and much needed woodland. Deducting this amount, not properly chargeable to current expenses, and also the sum received as revenue for the year, \$3,902.77, the net *per capita* cost is \$226.32, a decrease from the previous year of \$21.18.

The flooding of the marsh by the tide last year has proved a grand success. We cut this year a much larger quantity and a better quality of hay on the marsh than had been cut for years.

We have this year erected for the staff four working kitchens, two semi-detached wood-sheds and cow stables and have two others under way.

The Eddy Co. has taken all the pails we had in store at the end of last year.

With the approval and authority of the Minister of Justice, I purchased 150 acres of woodland. This land will supply, besides fuel, a considerable quantity of spruce and hardwood lumber, such as is constantly required here.

We have about 50 prisoners more than we can find employment for in the shops and on the farm. These we keep employed breaking stone, sawing wood, &c., in the yard.

We received this past year quite a number of professional burglars who are very bad prisoners, and require careful watching. I am glad to say that they do not belong to this part of the country.

We were forced to shoot two of our horses: one got useless from old age, the other was kicked by another horse, disabling him.

By the authority of the Minister of Justice, I visited several of the large penitentiaries in the United States, including Concord Reformatory, in April last, with a view of introducing some new industries into this prison, if there were any that would not come into competition with outside labour. I was very glad of the opportunity to visit and see how other penitentiaries were conducted. The industries in those prisons are confined to a limited number, and are such as would be more in competition with outside labour than those we already have here. I was shown every courtesy by the wardens and other officials in charge of those institutions.

The conduct of the prisoners has been, with a few exceptions, good.

I have very much pleasure in being able to report the same good feeling as formerly, existing among all the members of the staff.

The Minister of Justice, the Hon. Mr. Bowell, Minister of Militia, and the Hon. Mr. Chapleau, Minister of Customs, paid us a visit on the 4th of November, 1891. They expressed themselves as being very much pleased with everything they saw. The Minister of Justice was pleased to make a note to that effect in your minute book, a copy of which appeared in your report last year. This honourable mention was very gratifying to myself and the other members of the staff.

There were the following changes in the staff during the past year:—

Mr. Gillespie, teamster, was made guard in the place of Mr. McLaughlin, who resigned. Mr. Burden was appointed teamster, and afterwards advanced to guard in place of Mr. Hutchinson, resigned. Guard Palmer was appointed baker instructor. Angus A. McDonald was appointed guard in place of Palmer, promoted, and Mr. L. S. Hutchinson was appointed teamster.

I would like to mention here the loss sustained by the institution in the death of Guard Willard Hutchinson. He was a man of superior qualifications for his position. In view of his valuable services in the erection of the stockade, the Minister of Justice was pleased, on my recommendation, to allow him on his resignation, in January last, a bonus of \$200, in addition to the usual retiring gratuity. Mr. Hutchinson died in May last, deeply lamented by a very large circle of friends.

I have much pleasure in tendering to you my very sincere thanks for the many courtesies received at your hands.

I have the honour to be, sir,

Your obedient servant,

JOHN B. FORSTER,

Warden.

Department of Justice.

REPORT OF THE PROTESTANT CHAPLAIN.

DORCHESTER PENITENTIARY, 1st July, 1893.

SIR,—I have the honour to submit my report as Protestant chaplain of the Dorchester Penitentiary for the year ended 30th June, 1893. On that day there were 123 convicts under my charge, as against 126 on the corresponding day of 1892, and as against 117 on the 30th June, 1891.

Of the whole number of 123, I am glad to say that there is only one under 15; a very great improvement on one year, 1889, when I reported no fewer than nine boy convicts under 15. By the efforts of Lady Tilley, the old penitentiary buildings and grounds in the parish of Simonds, have been secured from the Dominion Government for the establishment of a reformatory for boys, to be known as the "Boys Industrial Home"; and it is hoped by this means, so far as the penitentiary is concerned, the boy element will henceforth be eliminated from the prison population.

I am again bound to register faultless conduct on the part of the prisoners during Divine service. There is, I confess, a certain degree of sameness in this report, but we must not think any the less of an institution, any more than of a complicated piece of machinery, because it works without fault or friction. Were it not that I have frequent proofs that every part of the service is carefully observed, noted and commented upon—sometimes very shrewdly and keenly—one would be almost tempted to think that this faultless conduct was, after all, only apathy and indifference. It is very far otherwise.

I have no duty that is more hopeful or cheering than the weekly Bible class. It is, of course, a voluntary affair; but when I say that an average of over forty per cent attend—the average being about fifty-five out of a total of 125—I think, sir, that after a liberal allowance is made for every possible inferior and unworthy ulterior motive that must exist in such a class, there must still be a hopeful residuum. I find a free use of maps is stimulating. I also permit and indeed encourage the asking of pertinent questions; and I find that by doing so I get a clearer insight into the working of individual men's minds; and from what they let fall, I can often take occasion, out of their own mouths, to accomplish much good.

Since making my last report, I am able to say that the choir has improved; and you would be surprised at the volume of the congregational singing, not raucous or noisy, but hearty, reverent and with much taste.

The day school continues, under Mr. Gray's excellent management, to do very good work. This year's report will be no exception to the uniform showing since Mr. Gray took charge five years ago, the rate per cent of daily attendance reaching 54·8. Many convicts come in altogether illiterate for short terms, such as two years, who go out able to read, write and figure well, and in such cases, it is as hopeful as it is pleasant to observe when they are about to gain their liberty, how proud they are of their last acquirement.

The condition and working of the general library is entirely satisfactory, both to my brother chaplain and to myself.

I have no deaths to report from the ranks of the convicts; but by the death of Guard Willard Hutchinson, the Government lost a valuable officer and the staff a comrade who was not more loved by them than he was respected by the prisoners.

I think it fitting to conclude this report by observing that nothing can exceed the courteous readiness to co-operate on the part of the staff from the warden to the youngest officer, whenever the chaplain requires their assistance.

I have the honour to be, sir,
Your obedient servant,

J. ROY CAMPBELL,
Protestant Chaplain.

JAS. G. MOYLAN, Esq.,
Inspector of Penitentiaries.

Department of Justice.

No. 4.

REPORT OF THE ROMAN CATHOLIC CHAPLAIN.

DORCHESTER PENITENTIARY, 1st September, 1893.

SIR,—I have the honour to submit to you my annual report for the year ended 30th June, 1893, on which date I had 54 inscribed on my register, as against 52 last year. No elaborate report is necessary to express my satisfaction with the conditions under which my work has progressed during the past year. Much of the success which I feel religion has made among the prisoners committed to my charge, is due under the grace of God to the favourable conditions which obtain for religious work in the Maritime Penitentiary. Every opportunity is given me to meet the prisoners and instruct them, and from the warden down no official is lacking in courtesy or willingness to forward my work. The prisoners themselves are, as a rule, all amenable to religious influences and as a congregation are devout, docile and attentive.

I have the honour to be, sir,
Your obedient servant,

A. D. CORMIER, Priest,
Roman Catholic Chaplain.

No. 5.

REPORT OF THE SURGEON.

DORCHESTER PENITENTIARY, 22nd August, 1893.

SIR,—I have the honour to present my report for the year ended 30th June, 1893.

During the past year little has occurred either in the medical department or the sanitary state of the institution worthy of note. The ordinary daily routine of duties has been performed, I think, satisfactorily.

The condition of the prison, as regards cleanliness, ventilation and drainage continues good, and no pains or labour is spared to keep it so.

The workshops are comfortable and seem to suit our present working population quite well enough. Our tailor, shoemaker, carpenter and machine-shop operatives are as well—if not better—accommodated in our shops during working hours, than a large proportion of the same class of mechanics that are employed outside.

The warden continues to employ as many men as he can in farming and other outside work, which, no doubt, tends to lessen the amount of both real and feigned illness; I find that most of the men who complain of not being well, are those that are employed in the shops.

The general health of the convicts this year has been better than last; fewer cases of serious illness and not so many trifling complaints. There have been no deaths, no serious accidents, neither have we been visited by any contagious or epidemic disease. We have reason to be thankful that since the opening of this prison, 13 years ago, there has never been a case of typhoid, or any other continued fever, inside its walls.

I cannot allow this opportunity to pass without expressing my regret at the death of one of the best men on our staff. I refer to the late Mr. Hutchinson. He was taken ill in December, 1892, resigned his position in January, 1893, and died on May 8th last from cancer. He was a good officer, an excellent mechanic, and a man capable of making himself useful in any position he was called on to fill.

The number of prisoners admitted this year was 66 males and 4 females. There were only two lads under 16, eight men over 40, and one 82 years of age. This old man came here six months ago for a term of three years,—and at the time of

his trial and sentence, he was suffering from senile dementia, as shown by the certificate of the jail surgeon, which accompanied his committal. He continues to grow worse since his confinement, and should he live a few months, will probably become a helpless imbecile.

There were two convicts who became insane this year. One recovered and was discharged, the other was sent to Kingston.

The number of men sent to hospital was 12. The number of applications for advice and treatment of minor complaints was 2,104.

Annexed are the tables showing the cases treated in the cells and those sent to hospital.

I have the honour to be, sir,
Your obedient servant,

ROBERT MITCHELL,
Surgeon.

JAS. G. MOYLAN, Esq.,
Inspector of Penitentiaries.

REPORT OF THE SCHOOLMASTER.

DORCHESTER PENITENTIARY, 10th August, 1893.

SIR,—I beg leave to submit my annual report as schoolmaster for the year ended 30th June, 1893.

While I cannot claim that all of those who attended the school during the past year showed very marked improvement, still a sufficiently large proportion of them gave such good evidence of progress as to make me feel quite encouraged, and to believe that the time devoted to their instruction was not wasted. To those who are really desirous of gaining instruction, even the short time given each day to their teaching, is rewarded with very encouraging proofs of advance.

The daily average attendance during the year was 54·8 as compared with 52·9 for the year preceding, being an increase for the last year of 1·9.

The department of the prisoners while in attendance at school is, as a rule, excellent and I have but rarely to dismiss a pupil for misconduct.

I have the honour to be, sir,
Your obedient servant,

JOHN A. GRAY,
Schoolmaster.

J. G. MOYLAN, Esq.,
Inspector of Penitentiaries.

MANITOBA PENITENTIARY.

No. 1.

REPORT OF THE WARDEN FOR THE YEAR ENDED 30th JUNE, 1893.

MANITOBA PENITENTIARY,
STONY MOUNTAIN, 31st August, 1893.

SIR,—I have the honour to submit the annual report for this penitentiary for the fiscal year ended 30th June, 1893.

The movements of convicts have been as follows:—

Remaining 30th June, 1892.....	75
Received since do	20
	—
	95
Discharged since 30th June, 1892.....	24
	—
Remaining 30th June, 1893.....	71

Having been by Order in Council dated 13th October, 1892, appointed Warden of Manitoba Penitentiary, I proceeded here and took over charge of the institution on 1st November, 1892.

Connected with some of my earliest duties were the recapture and extradition in November and December of Gillette and Shoults—convicts who had escaped prior to my arrival; the former in October, 1891, and the latter in September, 1892. Shoults was returned here to complete his term, and Gillette was sent to Kingston to serve the balance of his term of ten years.

There has been no escape from my arrival up to the present date.

The federal insane patients who had been confined in Manitoba Penitentiary since October, 1888, were removed in March last to Brandon.

In obedience to your direction the prison wall has been commenced. In March quarrying and stonecutting was begun, and on 22nd August, 1893, the first stone of the wall was laid. The wall is to be constructed on the plans of the wall at St. Vincent de Paul Penitentiary, with area of inclosure reduced to about $8\frac{3}{4}$ acres. The work is under the able direction of Mr. Farquhar, who has been engaged in the dual capacity of mason and quarryman.

Our convict strength is small and the wall can progress but slowly, if we are left to our own convict resources. I would respectfully suggest, as a means of giving us assistance, that a few stonemasons—long term men—from Kingston Penitentiary be transferred here.

When I arrived I found the prison buildings in a very dirty and dilapidated condition, and on examining the quarters I found them still worse. It was evident that no cleaning and repairing had been done to them for at least two or three years. A thorough cleaning and overhauling had to be gone into. The work in this direction of repainting and kalsomining were done during the spring months.

On 27th July, at about 7 p.m., a very high wind storm passed over the mountain. In its course it lifted off the roof of the storehouse at rear of warden's quarters. I will have the roof repaired as soon as I have time.

Our farming operations have been more extensive this year than formerly and the yield is most encouraging. One hundred and twenty-four acres are under crop, as follows:—Wheat 43, oats 40, barley 25, potatoes 13, turnips $2\frac{1}{2}$. Thirty acres of new land have been broken.

The enlarged farm called for increased power to work it, and to this end four Clyde horses were purchased by your permission. Two new wagons and a new self-binder have been provided.

I think it well to mention here that, to my mind this penitentiary can be made in a greater measure self-supporting by more extensive farming operations.

All our own flour, beef and pork could be raised if the reserve were enlarged by the purchase of adjacent and suitable lands. All the available land (with the exception of about 15 acres) fit for farm purposes of the present reserve has been broken up.

The Minister has authorized the following improvements to buildings:—A new shed for shelter to the stonecutters; necessary alterations for converting the old coal shed into a granary; (both of these items at the time of writing have been completed, and entirely by convict labour); enlargement of the piggery, and some improvements to certain officers' quarters to make them more convenient. Some headway has been made in this work.

The security of the prison has been further strengthened during the year by the erection of additional iron gates at points, as follows:—Across entrance from warden's office to the conservatory; a second gate across chapel corridor, and others in attics of buildings to prevent any possible escape by the roof. Iron bars have also been placed over windows of warden's office, previously unprotected.

The upper flat of hospital building, lately vacated by the insane, has been utilized as tailor and shoe shops; an improvement upon the limited space afforded by the old shops. The lower flat of this building gives abundant accommodation for the convict sick.

One convict, Edward Fletcher, undergoing a term of 20 years for manslaughter, became insane during the year and was removed to Kingston Penitentiary insane ward in June last.

The conduct of the convicts has been very good during the time I have been here. With few exceptions, all have worked cheerfully and well.

From the accountant's financial statements it is shown that the net cost is \$30,864.48—a *per capita* cost of \$1.15½ as against \$1.08 last year. The increase is readily accounted for as follows:—

(1.) Expenses of escapes were unusual in connection with convicts Gillette and Shoultz, previously referred to as having escaped prior to my arrival. That of the former rightly belonged to the previous year when he escaped. The cash expenditure in connection with escapes and recapture of these two men was \$1,177.88, of which \$847.30 was paid from this year's appropriation.

(2.) More than ordinary amount of material and labour had to be expended on buildings—their dirty and dilapidated state has already been noted—in order to put them in their proper normal condition.

(3.) Employment of a stonemason and quarryman, tools and material for his work and an extra guard have called for further outlay.

(4.) Farm requirements also increased the expenditure.

(5.) Again may be noted the loss (in a pecuniary sense) of the insane for one-third of the year. From examining the statements of former years I notice a considerable reduction has been made in the net expenditure on account of profit from the insane—so much therefore has been lost in that direction.

(6.) The accountant, in submitting his statements to me, writes, "You will observe that the cost *per capita* exceeds the former year slightly owing largely to the fact that various items, properly chargeable to the past year, have been included in this year's accounts:

Notably for drain near chaplain's quarters	\$ 467 68
Portion of costs <i>re</i> Gillette paid this year.....	367 00
Officers' uniforms due previous year, issued this.....	250 00

\$1,084 68''

Department of Justice.

In view of the foregoing facts I am safe in stating, that had it been practicable to have run on the lines of expenditure of the foregoing year, a very fair margin in this year's favour would have resulted.

When I took charge, I must say, I found very little discipline either amongst officers or convicts. On one occasion, shortly after my arrival, when going my morning rounds, I discovered one of the night guards asleep. I promptly dismissed the man. I have pleasure in reporting some improvement and that every assistance and support have been given me by the deputy warden and other members of the staff.

I have the honour to be, sir,

Your obedient servant,

A. G. IRVINE,

Warden.

J. G. MOYLAN, Esq.,
Inspector of Penitentiaries.

No. 3.

REPORT OF THE PROTESTANT CHAPLAIN.

MANITOBA PENITENTIARY,

STONY MOUNTAIN, 31st July, 1893.

SIR,—I have the honour to submit my annual report of Protestant prisoners in this penitentiary for the year ended 30th June, 1893.

Number on books, 30th June, 1892.	46	
do received during the year	15	
	—	61
do discharged by expiration of sentence.....	9	
do transferred to R. C. chaplain.....	1	
do insane transferred to Kingston.....	1	
do pardoned.....	1	
	—	12
	—	—
do remaining on register, 30th June, 1893.....	49	

I beg to state that all the duties belonging to my office have been duly performed. The conduct of the prisoners during Divine service has been all that could be desired. On Sunday, 14th May, His Lordship the Bishop of Rupert's Land paid an official visit and expressed himself as delighted with the heartiness of the services and the marked attention of the convicts present.

A change has occurred in the school consequent to the appointment of Mr. Bourke as deputy warden; Mr. J. O. Beupré receiving the appointment vacated by Mr. Bourke. Mr. Beupré is most anxious to do all in his power for those attending the school. I regret to say, however, that the number attending has fallen off somewhat.

The library is in a good and prosperous condition, and greatly appreciated.

There are three Indians under my care, one of whom has been confined to hospital since his coming here. His ailment is that so prevalent to his race—phthisis. He receives the utmost care and consideration from the surgeon and warden.

In closing this report, I beg to tender my grateful thanks to the warden and other officers for their kindly assistance at all times in the discharge of my duties.

I have the honour to be, sir,

Your obedient servant,

ARTHUR W. GOULDING,

Protestant Chaplain.

J. G. MOYLAN, Esq.,
Inspector of Penitentiaries.

No. 4.

REPORT OF THE ROMAN CATHOLIC CHAPLAIN.

MANITOBA PENITENTIARY,

STONY MOUNTAIN, 18th July, 1893.

SIR,—I have the honour to send you my annual report for the year ended the 30th of June, 1893. At that time there were some twenty-two convicts on my register. This is a decrease on the number I had the previous year.

In the chapel or in whatever occasion or place I have to meet the convicts, I must say that their behaviour is most commendable. Their attention and general demeanour during mass, vespers and public instructions, are very good.

Most respectfully yours,

G. CLOUTIER,

Roman Catholic Chaplain.

J. G. MOYLAN, Esq.,
Inspector of Penitentiaries.

No. 5.

REPORT OF THE SURGEON.

MANITOBA PENITENTIARY,

STONY MOUNTAIN, 1st July, 1893.

SIR,—I have the honour to submit my annual report for the year ending 30th June last.

It has been a year of an exceptional amount of illness amongst all classes of the community. This can be largely accounted for by the extremes of heat and cold during the summer months, producing all the disorders incident to rapid changes of temperature, also to the length and severity of last winter. We had added to all other ailments an epidemic of scarlet fever and measles. This was prevented from reaching the prison and quarters by a strict quarantine, thorough disinfection and a complete scavenging of the whole reserve. From the fact that epidemics of this class reach us in our comparatively isolated situation, I deem it wise to again draw attention to the condition of the swamp at the foot of the hill, below the cess-pit. It is a foul quagmire, a more fruitful soil for the propagation of the germe of disease cannot be imagined. That something remedial should be undertaken is obvious. In my opinion, the advice of a good sanitary engineer should be secured as early as possible, so that whatever is required to be done, could be commenced without unnecessary delay.

You are already aware of the removal of the insane patients from here to the Brandon asylum. It is a relief to all concerned here to feel that we have no longer the burdensome care of these poor unfortunate people.

The hospital expenditure for the year will show that in the face of so much illness and that of a serious character, I have managed to keep down expenses to a reasonable level, without in any way having impaired the efficiency of the service.

Mr. Beaupré who has succeeded Mr. Bourke, now deputy warden, as hospital overseer, is painstaking, anxious to learn, and is rapidly picking up the work.

It is a source of pleasure to me to see daily evidence of the warden's interest in the sick whether in or out of hospital. For this I beg him to accept my sincere thanks.

In conclusion, I beg to express to you my personal sense of gratitude for your kind counsel and consideration extended to me during the year.

The following figures speak for themselves:—

No. of days in hospital	1,079
No. of prescriptions	3,252

The usual returns are appended.

I have the honour to be, sir,

Your most obedient servant,

W. R. D. SUTHERLAND, M.D.,

Surgeon.

No. 6.

REPORT OF THE SCHOOLMASTER.

MANITOBA PENITENTIARY, 1st July, 1893.

SIR,—I have the honour to present you my report on the school and libraries of this institution.

Mr. Bourke having been promoted to the deputy wardenship, I succeeded him as schoolmaster and reopened the school on the 26th of November.

The attendance since has been sixteen.

The majority of convicts attending school have made good progress; and all seem to take every opportunity to improve themselves, by careful attention at school, diligent study and practice in their cells.

Owing to the warden allowing only men of good conduct the privilege of attending school, I have not had to complain of any of them.

The libraries have been considerably improved by the addition of very good books and the repairing of the old ones.

My best thanks are due to my superiors and all the staff for the help given me in the discharge of my duties.

I have the honour to be, sir,
Your obedient servant,

J. O. BEAUPRÉ,
Schoolmaster.

J. G. MOYLAN, Esq.,

BRITISH COLUMBIA PENITENTIARY.

No. 1.

REPORT OF THE WARDEN FOR THE YEAR ENDED 30TH JUNE, 1893.

BRITISH COLUMBIA PENITENTIARY,
NEW WESTMINSTER, 1st July, 1893.

SIR,—I have the honour to submit to you the annual returns on the management of this penitentiary for the year ended 30th June, 1893.

On 30th June, 1892, there remained here 75 convicts; received since, 38 males and 1 female; total 39. Discharged by expiration of sentence, 21 males; by pardon, 1; by death, 1; transferred to Kingston Penitentiary, 1 female, which left remaining on 30th June, 1893, 90 convicts.

Although the number of convicts has increased during the past year, I am pleased to say that their general health has been good, no doubt owing to the perfect drainage of the institution.

We are now using the water from the city reservoir, which is very pure. It comes from Lake Coquitlam, about 14 miles from the city. The pressure for fire purposes is about 117 pounds, with a never-failing supply.

The hot-water heating apparatus has also been put in the dormitory and halls, which will prove a great improvement on the stoves formerly used.

The heating apparatus in the workshops which was so unsatisfactory, especially during our last severe winter, has also been thoroughly renovated under the supervision of Mr. J. Devlin, engineer, from Kingston Penitentiary.

Mr. Devlin while here had other plumbing done very necessary for sanitary purposes.

A stone wall has been built in front of the warden's quarters by the city, assisted by convict labour.

A deep cutting has been made on Columbia Street by the city authorities in front of the married men's quarters; a stone wall must be built there at once as the bank is crumbling away.

The school, as has always been the case, continues to make good progress under the supervision of Mr. Keary, who takes great interest in it.

The conduct of the officers has been good.

Provision should be made for the married guards, where the Government has not provided houses for them, to allow them at least an equivalent for the amount they pay for house rent.

Provision must be made to increase the accommodation for convicts. At present there are very few cells unoccupied.

Before closing this report, I must remind you of the benefit derived from the inspector's visits. It matters not how clearly the warden's report may go into details, it fails to impress upon the department the wants that exist, which the inspector can only see, and in nearly every case find a remedy for. Certainly no one can fill his place here, and his visits should be made frequent.

With sincere thanks for the many favours received during the year now closed.

I have the honour to be, sir,
Your obedient servant,

ARTHUR H. McBRIDE,
Warden.

JAS. G. MOYLAN, Esq.,
Inspector of Penitentiaries.

No. 3.

REPORT OF THE ROMAN CATHOLIC CHAPLAIN.

BRITISH COLUMBIA PENITENTIARY,
NEW WESTMINSTER, 1st July, 1893.

SIR,—I have the honour to submit my annual report for the year ended 30th June, 1893.

The convicts, with one exception, have conducted themselves in a most exemplary manner, paying great attention to all instructions, and appearing very grateful for all that is done for them.

My sincere thanks are due for the promptitude with which my request for a supply of Italian and Spanish books was met. The men, on whose behalf I wrote, are exceedingly thankful, and it appears to me that such an act must go far to convince prisoners that it is really the desire of the department to do all that can be done in the matter of aiding them to reform.

There are at present under my charge 24 convicts, being 23 men and 1 woman, as against 23 last year.

My sincere thanks are due to the warden and other officers for much kindness shown.

I have the honour to be, sir,
Your obedient servant,

W. M. J. MORGAN, O.M.I.,
Acting Chaplain.

J. G. MOYLAN, Esq.,
Inspector of Penitentiaries.

No. 4.

REPORT OF THE SURGEON.

BRITISH COLUMBIA PENITENTIARY,
NEW WESTMINSTER, 1st July, 1893.

SIR,—I have the honour to present my annual report for the year ended 30th June, 1893.

It is with satisfaction that I again record the fact that during the year no serious disease has invaded the prison, and the number of men treated in hospital has been small.

I am glad to be able to report that at last part of the prison has been heated with hot water. This will add greatly to the comfort of the prisoners in those parts of the building which have been so favoured, but the place now used as a hospital should have been included in the arrangement. As I pointed out in my report last year, there is only a small grate to heat a large room, the consequence of which is that the heat is very unequally distributed, and unless the door is kept closed, the room will not heat. When the door is closed, the place soon develops a close, nasty smell. I would again recommend that a suitable hospital be constructed at an early day.

It is also satisfactory to notice the fact that the prison is now supplied with water from the city waterworks. This water is as pure as can be obtained anywhere, whereas the source of the old supply, besides being inadequate, was yearly becoming more polluted, from the growth of the town, and from the character of the establishments which are springing up in the neighbourhood.

I beg to recommend that the dietary of the prisoners be altered, so that they be allowed a ration of oatmeal porridge at night. The additional cost would not be much, and I believe it would improve the health of the men, and tend to diminish the consumption of drugs.

While on the subject of food, I might mention the fact that since the 1st of February, 1893, the officers have been supplied with an excellent dinner every day at the expense of the department. The generosity of this act on the part of the Government, has, however, been rather spoiled by curtailing the time allowed them to eat a hearty dinner to the ridiculously short space of twelve minutes.

Already the officers are feeling the effects of having to bolt their food in this hurried manner, and I beg to recommend that the dinner hour be made a dinner hour in fact and not only in name.

We have still two lunatics in the prison—one of them is a short term man, and his sentence will soon expire, when in the natural course of events, we will be relieved of his presence; the other is a life man, and I would recommend that he be removed to Kingston, as we have neither proper accommodation for such cases, nor suitable attendants. I regret to say that, through no fault of the prison officials, this class of convicts cannot receive necessary attention in this penitentiary. As will be seen by the accompanying table, we have had one death during the year. This man was extremely ill when admitted into the prison, and only lived a few weeks after his admission.

I have again to thank the warden and other officers for much kindness and assistance during the year. When Mr. Carroll can be spared from his duties as messenger, armoury keeper and guard, he discharges those of hospital overseer in a satisfactory manner.

I have the honour to be, sir,
Your obedient servant,

W. A. DEWOLF SMITH, M.D.,
Surgeon.

J. G. MOYLAN, Esq.,
Inspector of Penitentiaries.

No. 5.

REPORT OF THE SCHOOLMASTER.

BRITISH COLUMBIA PENITENTIARY, 1st July, 1893.

SIR,—I have the honour to submit my report on the school at this penitentiary for the year ended 30th June, 1893.

The average attendance, 32. Subjects of instruction: reading, writing, spelling, composition, grammar and arithmetic. Nationalities of those attending: whites, 8; negroes, 3; Indians, 11; Chinese, 10.

Considerable progress has been made by those attending school, and it is most encouraging to find many who on first coming could not speak a word of English, after a few months attendance, read, write and figure with a good deal of proficiency.

It is to be regretted the time allowed for teaching is so short, twenty minutes; besides which; the choir practices, as now arranged, seriously interfere with the attendance at school, on Fridays and Saturdays.

I must express my gratitude to the warden, Mr. McBride, for the warm interest he has always taken in my work.

I have the honour to be, sir,
Your obedient servant,

W. H. KEARY,
Schoolmaster.

JAS. G. MOYLAN, Esq.,
Inspector of Penitentiaries.

REGINA JAIL.

REPORT OF THE JAILER FOR YEAR ENDED 30TH JUNE, 1893.

REGINA, N.W.T., 29th Sept., 1893.

SIR,—I have the honour to inclose herewith a return showing the number of prisoners admitted and discharged during the last fiscal year, also the daily average for the same period.

During the year one death occurred in the prison, namely, that of prisoner Joshua Milligan, aged 61, from heart failure and inflammation of the stomach of a cancerous form. He was sentenced to two months for selling intoxicating liquor to Indians, and died three days after he was placed in custody here.

I have pleasure in stating that all the officers have performed their duties in a satisfactory manner since your visit here.

In addition to the ordinary prison work the following has been done on the premises during the last fiscal year:—Repairing and moving of sheds at jail cottages. Boring of well at jail cottages. Building of temporary dam on creek to supply prison with soft water. Whitewashing and painting of prison, also whitewashing of fence around prison grounds. Repairing prisoners' uniforms and brogans. Making sheets, pillow cases, towels, handkerchiefs, mittens and slippers for prison use. Cutting wood. Cutting and packing ice. Making lamp-brackets and tables for cells. Digging of drains in rear of prison. Excavating for root-house for prison. Alteration of prison water-closets as suggested by you. Repairing of yard walls. Grading around prison and outbuildings. Making mosquito screens for windows of officers' cottages. Making and placing in position a flag-pole on prison. Repairing bath-room. Considerable work has also been done in the way of blacksmithing.

Considering the number of short term prisoners confined in this prison, a large amount of good work has been done during the past fiscal year.

I have the honour to be, sir,

Your obedient servant,

A. L. LUNAN,

Jailer.

J. G. MOYLAN, Esq.,
Inspector of Penitentiaries,

Regina Jail.

Militia and Defence.

REPORT

OF THE

DEPUTY MINISTER.

DEPARTMENT OF MILITIA AND DEFENCE,

OTTAWA, 14th December, 1893.

To the Honourable

J. C. PATTERSON,

Minister of Militia and Defence.

SIR,—I have the honour to submit to you the Annual Report of the Officers of the Staff of the Department of Militia and Defence, with the Appendices pertaining to each Report, showing the state of the Force, and the operations which have taken place in the year ending 30th June, 1893.

In 1892, the system was adopted of bringing down the Report to the end of the fiscal year, in uniformity with the course pursued in almost every other Department of the public service, as well as to obviate the delay entailed by keeping tabular returns open until the end of the calendar year, and the consequent printing of the whole Report after that date. The last Report submitted to Parliament dealt, therefore, with the broken period between the 1st January and 30th June, 1892. The tabular statements in the present Report cover the whole of the fiscal year 1892-93. This explanation is necessary for reference to the present and preceding Reports of this Department.

With your sanction, a number of changes have been effected in the Permanent and in the rest of the Active Militia. The Major General commanding the Militia explains in his report some of the changes which have taken place, and expresses his appreciation of their effect on the Force. It is gratifying to learn from that report, as well as from the comments of the press in England, and the accounts given by the Officers themselves, on their return to Canada, that the detachment of Officers and non-commissioned Officers of our Permanent Force, sent to England to be attached for instructional purposes to Imperial Regiments, were so well received; and it is to be hoped that next year the experiment will be renewed. There can be no doubt that the experience and military instruction acquired by any of our Officers who have been thus put in touch with the Imperial Troops will largely repay any expenditure incurred under this head of service.

The Halifax force is much in want of a drill shed. The expenditure this year for drill and armoury accommodation, rooms for bands, etc., etc., has been considerable. Steps for providing a new building are in progress.

Apart from the ordinary expenditure for repairs to public property in charge of the Department, a considerable amount has been spent at Quebec, Toronto and Kingston, where quarters had to be provided in consequence of changes made in the stations of part of the the Cavalry and Artillery, and to provide the necessary accommodation for officers and men.

In this connection I beg to call attention to the numerous reports of the present dilapidated and dangerous state of some of the walls and fortifications of the old City of Quebec, and also to my report thereon, recommending either an increase in the present Battery strength at the Citadel, to include a small body of Artificers, or a small Engineer Company under the control of a competent Officer, by which means a systematic and intelligent management in this particular at a minimum cost would be always available.

New barracks have also been built at Winnipeg by the Department of Public Works, and handed over to the Royal Canadian Dragoons.

The sanitary condition of the barracks at Kingston has not improved, and their position is such that a proper drainage of the buildings is deemed impossible, thus rendering them unhealthy. It is to be hoped that in the near future this valuable property, known as the Tête-de-Pont barracks, will become the means of providing better accommodation for our troops elsewhere, as the proceeds of its sale would more than compensate for the cost of erecting proper buildings on a new and suitable site.

The issues from District and Headquarter Stores, irrespective of other articles of military equipment, during the year ended 30th June last were as follows :—

Tunics, cloth and serge.....	9,719
Trousers and riding breeches.....	10,816
Forage caps.....	6,404
Great coats.....	3,315

The control and issue of so large an amount of clothing and other stores are matters requiring considerable care and supervision. All issues are conducted from Headquarters, and are made on approved requisitions. Every article issued from the various District Stores is accounted for to the Department. Monthly returns are rendered from the District Stores and checked at Ottawa. Thus, by the system in force, a complete inventory is made up monthly in the Store Branch of this Department.

The ammunition for the Militia has been furnished as usual by the Government Cartridge Factory ; and the small arm ammunition and the 64 pr. and 9 pr. common and shrapnel shell that were issued to the Force have been proved to be of very good quality. The purchase recently made by the Department, from the Imperial Government, of a number of Martini-Metford rifles, for a change in the armament of the Force, will necessitate a corresponding change in the ammunition. I have ascertained that the apparatus which is now in use at the Factory can, with slight alterations, and with the addition of a few new machines, be made quite available for the manufacture of the Martini-Metford ammunition ; and I have no doubt that the new cartridge which will then be produced at the Canadian Factory will prove in all respects as good as the present ammunition.

Militia and Defence.

The following are the financial statements of the Department of Militia and Defence, for the fiscal year ended 30th June, 1893 :—

MILITIA EXPENDITURE, 1892-93.		\$	cts.

I have the honour to be, sir,

Your obedient servant,

C. EUG. PANET, Colonel,
Deputy Minister of Militia and Defence.

AMMUNITION.

The issue of practice ammunition to Militia Corps for the year was as follows :— Snider ball, 684,250 rounds and blank 134,760 rounds. (*Vide* Appendix A.)

Repayment issues of ammunition for the same period were : Snider ball, 554,060 rounds, blank 250 rounds ; Martini-Henry ball, 134,140 rounds ; Colt's Revolver, 3,100 rounds ; new Magazine Rifle ammunition, 100 rounds, and Aiming tubes, 2,000, making a total of 693,650 rounds to Militia Corps and Rifle Associations for target practice and prize competitions.

The value of the ammunition issued on repayment including price of friction tubes, supplied for fog signal service of the Marine Department and powder for the Noon Gun at Ottawa, amounted to \$10,734.08, which was duly placed to credit of the Receiver General by deposit receipts in the usual manner. (*Vide* Appendix B.)

The Field and Garrison Batteries were supplied with the regular issues of powder, shot and shell for annual practice and salutes. (*Vide* Appendix C.)

The Cartridge Factory at Quebec supplied all demands for small arm ammunition ball and blank, during the year, and has added largely to the reserve in magazine charge. Martini-Henry cartridges are now being manufactured at the Government factory ; this new ammunition was used almost entirely in the Dominion Rifle Association competition this year, as well as at the several Provincial Rifle Associations, with the most satisfactory results ; the shooting with the Martini Rifle was of a high order, the riflemen generally throughout the Dominion preferring the Canadian ammunition of recent manufacture to any other issued in the past.

In addition to the small arm ammunition, a supply of 9-pr. common and 64-pr. shrapnel shell, has been received from the Cartridge Factory.

A contract has been entered into with the Hamilton Powder Company for the annual supply of R.L.G.² and R.L.G.⁴ powder, required by the Store Branch for making up cartridges for the Artillery.

ORDNANCE.

Return of guns in charge at the various stations, will be found in the Appendix "D."

No action has yet been taken as to the disposal of the old and obsolete guns, embraced in the return.

ARMS.

The reports of the Superintendents of Stores show that the Armourers are fully employed in attending to the arms sent in for repair in the several Districts.

The necessity still exists for the appointment of an Armourer at each of the following stations, viz. : London, Ont., and St. John, N.B. ; it would also be an advantage to have Assistant Armourers at each of the following stations, viz. : Kingston, Montreal, Quebec, and Winnipeg, owing to the large number of rifles in charge requiring repairs.

BOARDS OF SURVEY.

The usual Boards of Survey on Militia stores, in the respective Military Districts have been held as required by Regulations and Orders ; the reports show that the stores in charge of the Superintendents were carefully inspected.

Sales by public auction of condemned stores were duly authorized at several stations, and the proceeds of such sales placed to the credit of the Receiver General in the usual manner.

Further sales of condemned articles of old and obsolete accoutrements with various other stores which have become unserviceable from wear and tear have recently been ordered and these condemned stores are now being disposed of.

Militia and Defence.

Condemned clothing consisting of part worn great coats, tunics, trousers, &c., are being sold to the Indian Department for use of the Indians in the North-west, this manner of disposing of such military clothing would seem more desirable than selling by auction to the general public, apart from the fact also of the trifling amounts usually realized from auction sales.

HARNESS AND SADDLERY.

It is hoped that in a short time workshops will be established, at two of the principal stations, for the purpose of repairing harness, saddlery and accoutrements, returned into store from field batteries and cavalry corps; by this arrangement a very considerable saving of money would be effected.

CAMP LOSSES AND DEFICIENCIES.

Compared with previous years the damage and loss of articles of camp equipment during the annual training in camp, are very small, and when the value of the deficiencies has been assessed, there is less delay than heretofore, in recovering the amounts from the corps responsible, of course there will still remain a certain percentage of loss from ordinary wear and tear.

MILITARY PROPERTIES.

Reports from the officers in charge of military properties in the several districts are on the whole satisfactory, although in some cases considerable repairs are necessary to buildings and works: this service is receiving attention under direction of the Architect of the Department.

In this connection attention is drawn to the pressing necessity of providing a proper building for military stores at London, Ont., also one at Halifax and one at Victoria, B.C., with suitable magazines at each place for the storage of ammunition. Much inconvenience is experienced for want of these buildings.

The undermentioned statement furnishes the number of tenants and the amounts received on account of rentals for military properties held under lease for the fiscal year ending the 30th June, 1893.

TENANTS and Rental from 1st July, 1892, to 30th June, 1893.

Number of Tenants.	Station.	Rents received.	Remarks.
		s cts.	
1	Chatham	2 00	
3	Niagara	117 00

99	Total number of tenants		
	Total amount of rents received	4,517 24	

DEPOSIT RECEIPTS.

The following statement shows the amount received by the Store Branch on account of ammunition and stores issued on repayment, and for rents of military properties during the fiscal year ending 30th June, 1893 :

Ammunition.	Military Stores.	Clothing.	Rents.	Total Amount.
\$ cts.	\$ cts.	\$ cts.	\$ cts.	\$ cts.
10,734 08	1,636 41	1,187 34	4,517 24	18,075 07

MILITARY MUSEUM.

A number of articles of a military character have been added to the collection already contained in the museum; these contributions are of much value as bearing on the early history of military events in Canada. Further contributions from all who take an interest in the museum will be gladly received.

GENERAL REMARKS.

The following changes in the Store Staff of districts have taken place since the date of my last report :—

In Military District No. 3, Kingston, Captain Frank Strange, appointed as Superintendent of Stores, *vice* W. King retired.

In Military District No. 5, Montreal, Lt.-Colonel John Gray, appointed Superintendent of Stores.

In Military District No. 6, Montreal, Captain Louis E. Frenette, appointed as Superintendent of Stores.

In Military District No. 9, Halifax, Lt.-Colonel James R. MacShane appointed Superintendent of Stores, *vice* Lt.-Colonel John R. Murray retired.

In Military District No. 10, Winnipeg, Major John Fraser, appointed Superintendent of Stores, *vice* Lt.-Colonel A. J. L. Peebles retired.

In Military District No. 8, Charlottetown, P.E.I., Major G. L. Dogherty retired.

From the Superintendents of Stores and the other employees of the Branch under my charge, I have received as heretofore, ever ready and willing assistance in the discharge of the onerous and responsible duties of my office, and it affords me satisfaction to be enabled to bring this under your special notice.

I have the honour to be, sir,

Your obedient servant,

J. MACPHERSON, Lt.-Colonel,

Director of Stores and Keeper of Militia Properties.

The Deputy of the Minister of
Militia and Defence,
Ottawa.

Militia and Defence.

APPENDIX No. 2

TO

REPORT OF THE DEPUTY MINISTER

OF

MILITIA AND DEFENCE.

REPORT OF THE ARCHITECT—ENGINEER BRANCH.

DEPARTMENT MILITIA AND DEFENCE,
OTTAWA, 30th June, 1893.

SIR,—I have the honour to transmit herewith the report upon the works and repairs made to the military buildings and fortifications under control of this department from the 30th June, 1892, to 30th June, 1893.

LONDON.

The usual general repairs to the barracks of the Royal School of Infantry were carried out by the men of the company and the usual amount of lumber for the necessary repairs has been supplied.

The main sewer from barrack was opened up and repaired.

DRESDEN.

Small repairs to the Drill Shed were carried out.

GUELPH.

An addition to the Drill Shed was built, and some small repairs were made to the shed.

TORONTO.

New Fort Barracks.—The flag-staff was repaired. The plumbing of the Barracks overhauled and repaired, the sea wall pointed and the latrines were converted into dry earth closets.

One nine-foot steel cooking range was placed in the cook-house of the Dragoon barrack and also one for No. 2 Company for the Royal Regt. Canadian Infantry. Nails, paints, glass, hardware, lumber, &c., for general repairs were supplied.

The furnace in the Captains quarters was moved.

Old Fort.—Ordinary general repairs were made to the foreman's house and the store buildings.

The ablution room of No. 2. Company R.R. Canadian Infantry, was refitted and marble tops placed on the wash basins which were hung on brackets, and I would respectfully suggest that the ablution rooms in all barracks be treated in the same way as it will get over the difficulty of having the wooden casings always wet and rotting.

The plastering in the hospital and tap-room was all repaired.

The storekeeper's house was overhauled and a new foundation built under it.

BEAVERTON.

General repairs to the Drill Shed have been made.

BRANTFORD.

General repairs to the old shed have been made, the plans and specification for the new shed prepared and the shed itself started.

CAYUGA.

General repairs to the Drill Shed were carried out.

CLARKSBURG.

General repairs to the Drill Shed, and a new roof covering put on same.

GEORGETOWN.

The Drill Shed at this place was put in proper repair.

ORILLIA.

The armoury was fitted up and some repairs were made to the Drill Shed.

OSHAWA.

The roof of the Drill Shed has been renewed and the armouries have been repaired.

ST. CATHARINES.

A new privy and fence was erected and alterations to the Drill Shed have been made.

STEWARTOWN.

Minor repairs have been made to the Drill Shed.

KINGSTON.

Tête-de-Point Barracks.—Several general and necessary repairs to floors, doors, windows, &c., were carried out.

A new 3-inch floor was laid in the gun shed.

The Blue Block was reshingled and the damage caused by fire remedied.

I do not consider it advisable to expend much money on these barracks as owing to the unsanitary conditions there are no longer habitable.

The Rifle Range at Barriefield was reconstructed and is now in excellent condition.

Royal Military College.—The usual general repairs have been made to the several buildings on the monthly barrack inspection report, and electric light introduced in the north and east buildings and the gymnasium. I really consider that it would be of great benefit to the college and of economy to the public service if electric light was introduced in all the buildings on the college grounds.

The commandant's house has had the usual attention in the way of ordinary repairs and the water supply was extended.

Fort Henry.—Repairs were made to the sea wall and the bridge over the west ditch was floored, besides several minor repairs to the masonry, doors, windows, &c.

The work of converting Fort Henry into a store depot had to be discontinued owing to lack of funds.

Militia and Defence.

ODESSA.

Slight repairs have been made to the Drill Shed.

OMEMEE.

General repairs to the Drill Shed.

PETERBOROUGH.

Several general repairs were carried out in the Drill Shed and the shed at Ashburnham was made habitable and the cavalry moved into it.

PORT HOPE.

The Drill Shed at this point was straightened and braced at one end and the whole roof and frame strengthened.

OTTAWA.

Militia Stores.—An electric hoist was put in the stores in place of the old hand hoist, and has proved a great convenience and greatly facilitates the work in the stores. Several small general repairs were carried out and all the sanitary arrangements were altered and made as nearly perfect as possible. Several small repairs such as new pipe rings, chimney caps and repairing plastering were also carried out.

Drill Shed.—The roof having gone beyond repair a new zinc covering was laid and has proved very beneficial. Eave troughs, however, are required, especially on the east side of the shed as the drip is invariably blown against the brick work and the damp penetrates through to the armouries, injuring the walls of the shed.

The two lean-to rooms on the north end were raised to run with the pitch of the main roof, giving two extra rooms in the shed which were very much needed.

Cartier Square and the plot at the Militia Stores were kept in good order during the summer.

PRESCOTT.

Part of the parapet on the west face of Fort Wellington slid down and was replaced.

MONTREAL.

Drill Shed.—Repairs were made to the plumbing and also the heating apparatus and skylight repaired, the doors of the Garrison Artillery Shed were altered and a new Quarter-Master Store fitted up for them. Alterations and improvements were carried out in the armoury of the 5th Royal Scots and the 6th Fusiliers.

Rifle Range at Côte St. Luc.—The ditches were cleaned, fences repaired and some slight repairs were made to the targets and parapet.

ST. HELEN'S ISLAND.

The eave gutters and fall pipes and windows of the wooden store building were repaired. The boundary wall was pointed up and repaired. The roof and wood-work of the men's cottage was painted. The large brick sewer running under the store building was opened up and repaired, several minor repairs were made throughout the several store buildings.

ST. JOHNS, QUE.

At the Infantry School Barracks a large number of general and necessary repairs have been made.

All the sanitary arrangements throughout the Barracks were over-hauled and renewed, and the plumbing work was all made as perfect as possible.

The bridge on the Old Military road leading to Isle-aux-Noix was repaired and some slight repairs made to the buildings there.

QUEBEC.

Citadel.—The stables were overhauled and repaired. Several rooms in the officers' quarters were painted, papered and cleaned up generally. The Richmond Bastion wash house was repaired and new floors put in many of the casemates.

The old cook house was repaired and the casemate adjoining converted into a mess room for the men.

The hospital kitchen brick floor was renewed. Considerable repairs were made to the buildings generally to prevent decay and the walls were pointed in the most necessary places.

Cavalry Barracks.—Several repairs were made to the buildings generally and at the officers' quarters the stone steps were taken down and rebuilt and the masonry of the fence pointed and iron railing painted. The stall floors in the stable were renewed.

F. magazine.—The gable walls were clapboarded to keep out the damp.

Old Military Hospital.—The two ends of this building were converted into married quarters. Eight quarters were made which are all roomy and comfortable.

Militia Store Buildings.—Several repairs to floors, doors, windows, etc., were carried out and a new galvanized iron roof placed over part of the store buildings. The gable and wall of the main store was rebuilt.

Town Lines.—The half-moon battery was rebuilt in wood which answered all the requirements and retained the formation.

The revetment wall inside of John Gate was taken down and rebuilt as it had become dangerous.

All the walls around the town lines and in the Citadel are going to decay for the want of pointing and rebuilding and I respectfully submit that if these walls are to be kept up it will be necessary to get a grant of about fifty thousand dollars to put them in repair after which a very small outlay yearly will keep these works in very good condition.

LEVIS.

R. E. Camp.—Several small repairs have been made to the different buildings; new sills and foundations were placed under the Drill Shed. The pond for watering the horses, etc., was dummed and cleaned out.

Camp Ground.—Portable latrines were built for the camp and the fence around the ground was repaired.

Nos. 1, 2 and 3 Fort.—Several small repairs of minor importance have been made to these forts, which are in a very fair state of repair excepting a few of the floors.

ST. JOHN, N.B.

At the store buildings many repairs to the doors, floors, windows, etc., have been carried out and a good deal of painting done. The fences around Dorchester and Dufferin Batteries were repaired and in part renewed.

At Fort Howe.—The Magazine has been repaired, the doors and windows of the house on top of the hill repaired.

Some repairs were made to the rifle range also.

FREDERICTON.

At the Barracks considerable repairs have been made to the water supply and plumbing work in the several buildings.

Militia and Defence.

The ordinary repairs to doors, floors, windows, kalsomining, etc., at the men's Barracks were carried out, and a great deal of the work was done by the men of the school, the department only furnishing the materials.

The magazine at the Park Barracks was repaired and also the boundary fence completed.

The men's barrack building is in great need of underpinning as the walls are sinking and bulging. These very heavy walls were built on eight inches of oak laid under the foundation instead of footing stones and it is on account of this oak plank having rotted that the trouble arises.

HALIFAX, N.S.

Repairs and improvements have been made to Bedford Rifle Range.

PICTOU, N.S.

The gun shed at Battery Hill has been repaired and put in good order.

WINNIPEG.

Very little work was done here by this department, and that only of a very minor character as the buildings were not considered worth spending money on. The Department of Public Works have however erected a new barrack building and a cook-house with dining room, canteen and recreation room attached which should be comfortable.

New quarters for married officers and men and also new stabling is urgently required here to complete the barracks together with a Hospital building.

VICTORIA, B.C.

The usual lumber and hardware was supplied for the ordinary repairs carried out by the men of the Battery.

Back doors and inside doors were put in the new married quarters for the greater convenience of the occupants.

I have made the usual inspections of the works and buildings during the year and find that in order to put all our works and buildings in a fit and proper state of repair the present vote for maintenance and repairs will have to be largely increased for a few years until the buildings are made right when it will cost less to keep them up if any signs of decay be taken at the start off.

In conclusion I wish to thank Mr. L. J. Mathieu, Inspector of works at Quebec, and Messrs. Power and Son of Kingston, and Sergt.-Major Birtles of the Royal Military College for the assistance they have rendered me in the carrying out of the year's work.

I have the honour to be, sir,
Your obedient servant,

FRED. W. WHITE, Lieutenant,
Acting Architect.

The Deputy Minister
of Militia and Defence,
Ottawa.

Militia and Defence.

APPENDIX No. 3

TO

REPORT OF THE DEPUTY MINISTER

OF

MILITIA AND DEFENCE.

GOVERNMENT CARTRIDGE FACTORY.

QUEBEC, 18th October, 1893.

SIR,—Our manufacturing operations, since 30th June, 1892, have been kept on Snider B.L. ball ammunition, up to the 2nd February, 1893. During this period 1,474,000 rounds were manufactured.

The total production of small arm ammunition for the financial year ending 30th June, 1893, stands thus :—

Martini-Henry service ball	425,000
Snider B.L. service ball	1,628,840

The shell factory, in connection with the Cartridge Factory, has been kept in operation during the year, turning out both common and shrapnel shell for 9-pr. and 64-pr. R.M.L. guns. The staff of workmen in the shell factory was reduced to a very low point during the year, viz., from December, 1892, to June, 1893, and a consequent reduction in output followed.

The production of finished work for the financial year 1892-93 stands thus :—

64-pr. common	560
64-pr. shrapnel (300 partly finished)	127
9-pr. common	1,515
9-pr. shrapnel	982

Most of the work done was on 9-pr. projectiles, as these were in greater demand.

The R.F.G.² powder for the current year 1893-94 was received from England several weeks later than expected, and, as a result, work was delayed. This powder was submitted to different tests before being put into use, and was found satisfactory.

In connection with raw material, much delay has occurred in obtaining our supplies in England this year. Though the order was sent to secure this material before the end of the fiscal year 1892-93, so as to allow us to go on at the beginning of 1893-94, only part of the material has been received to this date, and the balance may arrive at an uncertain date this month.

I beg to represent that it is quite impossible to properly manage a factory under such conditions, and I strongly urge a change to ensure material forthcoming within a reasonable delay—a delay of seven months cannot be considered reasonable. I do not think private manufacturing establishments could stand such delays without serious injury to their interests.

I would, therefore, propose to purchase these materials henceforth through responsible private agents in England, under control of the High Commissioner's office, London. The percentage to be paid in this case would not exceed that we are charged with by the War Department. I am positive the results, in so far as prompt delivery is concerned, would be eminently more satisfactory. This is a very important matter with us, as we are not now carrying any stock; such delays mean stoppages, unprofitable work and are contrary to most ordinary business principles.

Towards October last, it became my duty to get certain information on a new rifle of reduced calibre, which it was proposed to obtain by converting Martini-Henry rifles, substituting a small bore barrel for the 45 calibre Martini-Henry barrel, still using in this conversion the Martini breech action, stock, &c. I caused to be prepared, here, a converted rifle of this description and submitted it to the Department. The conversion was made as economically as possible and rather roughly, to save time and expense, but sufficiently perfect to allow testing the efficiency of the conversion of Martini-Henry rifles now in Canada, which might have to be performed here. That was the point and it was secured.

I had also to obtain data as to the probable cost of transforming the present factory plant, which is intended to manufacture only service built up ammunition, into a set of machinery to make solid drawn brass cartridges with nicked lead core bullets such as are now used in the Imperial service.

These data, and estimates, also, for such new machinery as might be required for the above purpose, were obtained from a leading firm in England. The changes will not be expensive and if carried out at this factory, could be done in a very short time. This would continue into use our present machinery to a value of fully \$25,000 which otherwise becomes obsolete with a new armament. The new machinery required will involve but a very moderate outlay to put us in position to turn out, in Canada, the newest ammunition of the British service, in sufficient quantities to meet present wants and, in future, with slight expansion, give a much greater output if required.

Moreover it would allow re-filling cartridges fired off at practice, &c., the number of which now exceeds one million a year, with probabilities of increasing if a new and more perfect weapon comes into use. This is a very important matter in connection with any proposed re-armament of the Militia force, for small bore ammunition, of the present type, will be found expensive when compared, as to price, with Snider or Martini-Henry ball cartridges of service pattern. The extra cost of the new small bore ammunition is attributable to the more expensive material used in its production and the complicated nature of some of its parts, more especially the bullet which requires a greater number of operations, in its manufacture, than the ordinary lead or lead and tin bullet of the present service ammunition. The rapid twist of the rifling, the high pressure exerted, the increased velocities required to obtain a flat trajectory and long range, combine to make the new cartridge a costly one, and, to obtain high ballistic results, heavy cost has to be incurred.

This would make a solid drawn cartridge of this description, which could be fired only once and then become useless, so expensive as to put it quite out of reach of rifle shots generally, but it has been the practice, elsewhere, to utilize in a measure, solid drawn cartridges, several times, by reloading them. This is a great economy and tends to reduce considerably the original cost of such ammunition, especially for practice, for which reloaded cartridges may be exclusively used.

There appears to be really no mechanical difficulty to this reloading. The cartridge can easily be reformed. I have submitted to the Department cartridges, so reformed at this factory, and the percentage of loss in the reforming process has been nil. When loaded, at first, with a smokeless explosive, the cartridge would, after firing off, be left comparatively clean for reloading, being free from oxide and residue, which is not the case with cartridges fired off with ordinary powder; the latter, to keep them fit for reloading, require certain precautions which would not, in most cases, be taken by rifle shots on range.

Militia and Defence.

In view of the possibility of reloading the small bore ammunition, it would be a great advantage and economy to have the means of doing so in Canada, and it can not be done, in paying quantities, elsewhere than in a factory and by power machinery.

The high primary cost of this new ammunition and the possibility of its being reloaded economically, makes it, therefore, all the more desirable that in view of a proposed armament of the force with small calibre rifles, our present plant should be transformed and such special machinery added as will permit this work to be performed. The reloading alone would, in a short time, pay back the cost of transforming the present machinery and putting in such new additions as would be required to manufacture ".303" ammunition.

Exporting fired off cartridges and re-importing them, refilled, would do away with all the economy of reloading.

There can be no difficulty in turning out this new ammunition at the Government Cartridge Factory—such of the present plant as can be utilized, with slight alterations, in this connection (and the value of this plant, I repeat, represents a considerable amount), is in perfect order, in fact, equal to new machinery. The motive power is ample, the buildings well adapted to the work, and the staff has now several years' experience in a class of work which does not differ much from this new manufacture which, in some respects, requires less control, being mostly carried on with automatic machinery, and simpler in construction, as regards the cartridge case, at least, than those patterns of ammunition we are producing at present.

Judging from the successful results obtained at this factory in manufacturing Martini-Henry ammunition, results which have been further and fully confirmed at recent Dominion Rifle Association competitions, in Ottawa, where the highest scores were made, all through, with our Canadian Martini-Henry cartridges,—confirming also our factory tests of the last two years,—judging from those results, there is no doubt this new manufacturing venture would be carried out equally successfully at this factory.

I fail to see any obstacle to prevent ".303" ammunition, now extensively manufactured, under State control, by private firms in England, subject however, to Government manufacturing establishment competition, being manufactured equally well in this factory where just as skilful specialists are employed.

Our Martini-Henry ammunition of 1892 and 1893, used concurrently with English made Martini-Henry cartridges, has proved itself at the matches last August, in Ottawa, to be thoroughly reliable and accurate. Quoting from an official report of the Secretary Dominion Rifle Association, dated 2nd October, 1893, I find "that every first prize was taken by competitors using Canadian ammunition," and going into details:—

In the "Nursery" match the two highest scores were made with Martini-Henry ammunition of Canadian manufacture.

In the "Hamilton Powder Company" match the six highest scores shot Canadian Martini-Henry ammunition.

In the "MacDougall" match the nine top scores; in the "Dominion of Canada" the six top scores; in the "Minister of Militia" match the seventeen top scores; in the "Kirkpatrick" match the eight top scores; in the "Henshaw" match the seven top scores—shot Canadian ammunition.

All competitors had a right to choose between English and Canadian ammunition, 80 per cent used Canadian cartridges, and some shots who began with English dropped it during the matches for Canadian.

These details and others, contained in the official report above mentioned, go to show that the unprecedented high scoring obtained during these matches directly is attributable, in so far as the ammunition is concerned, to the general excellence of Martini-Henry ammunition of Canadian manufacture.

The results of this year's artillery practice have also been favourable to our manufacture of artillery projectiles, they were found just as good, if not superior, to any that were imported and, I may add, the cost of them compares well with prices paid to English private firms from whom it had been, since a few years, necessary to purchase our shells for both 9 and 64-pr. guns. With some improvements in machinery, now being

carried out, it is hoped shells will be made much cheaper than can be imported under present conditions.

Several hundred of our shells have been fired at practice this year, and also in previous years, without a mishap attributable to the shells. This is a result of the great attention paid during the manufacture of our projectiles, none but the best materials and workmanship being used in this connection, and it may be confidently asserted that the artillery projectiles turned out at this factory are up to specification in every respect.

The limited appropriation for this branch prevents its expansion in order to meet not only the yearly consumption but also provide a sufficient reserve for the number of guns in the service.

I have the honour to be, sir,
Your obedient servant,

OSC. PRÉVOST,
Superintendent, G.C.F.

Militia and Defence.

PART 2.

REPORT

OF THE

MAJOR GENERAL COMMANDING.

To the Honourable

The Minister of Militia and Defence.

SIR,—I have the honour to submit the following Report of the Forces under my command.

In order to facilitate reference to the Reports made by me in former years, and to mark the nature and effect of recent changes, I have endeavoured, as far as possible, to deal with the various parts of my subject in the same order as on previous occasions.

THE PERMANENT FORCE.

The regimental organization of the Permanent Force, initiated last year, has received a further impulse by the act of Her Majesty the Queen, who has been graciously pleased to confer upon the three Regiments composing it, the title of "Royal Regiments," together with the privilege of wearing on their equipments Her Majesty's Imperial Crown and Cipher. Her Majesty was further graciously pleased to inspect personally, a detachment of five Officers and four non-commissioned Officers, who were selected from these Regiments to proceed to England for instruction, and to order that they, with similar detachments of Indian and Australian troops, should form Her Majesty's personal escort, on the occasion of the opening of the Imperial Institute on the 10th of May. These distinctions have had the effect of developing in all ranks a feeling of pride in the service to which they belong, and I have noticed with pleasure, in my recent inspections, the stimulating effect of this sentiment.

Since the withdrawal of the Imperial troops, there has existed in Canada nothing, that could serve as a model or standard of military organization and efficiency, for the guidance of the Militia, or from which a supply of trained Instructors could be drawn. I have endeavoured therefore, by means of improved organization, and distribution, of the small Permanent Force at my disposal, to remedy to a certain extent this deficiency. With this object several changes have been made during the past year.

1st. The Royal Canadian Artillery has been re-organized on the lines of the Royal Artillery, the Garrison Companies, which require special training, being wholly separated from the Field Batteries, with whose duties they have nothing in common.

2nd. The Units of the Royal Canadian Artillery have been re-distributed. The detachments of Garrison Artillery, formerly quartered at Kingston and Victoria, have been incorporated with that at Quebec, thus forming at the latter station two complete

Garrison Companies. Two separate Field Batteries have been formed. Of these the first at Kingston is supplied with its full number of six guns and complete gun detachments. All its guns are already horsed, and it will eventually receive the full complement of horses for its wagons, which will be increased from three to six. The second at Quebec will, for the present, have only two guns horsed, but will be in possession of its full equipment of guns, wagons, and harness, and I propose to make arrangements whereby it can be promptly completed for active service, with men and horses. By these means, both the Garrison and Field Artillery of the Active Militia will be enabled to form a correct idea of the requirements, and duties of their respective services, instead of receiving the false impression, which has hitherto been presented to them.

3rd. The Troop of Royal Canadian Dragoons hitherto quartered at Quebec, has been removed to Toronto, where it is more easily accessible to the bulk of the Cavalry of the Militia. The organization of this Troop and of that of the same Regiment at Winnipeg has been assimilated as far as possible, and it is desirable that this assimilation be carried still further.

No changes have been made in the Royal Regiment of Canadian Infantry, but there has been a gradual assimilation of the system of interior economy, pursued in its scattered Companies, with a view to providing a uniform system of instruction, at the various schools of Infantry.

Both the Cavalry and Infantry of the Permanent Force are far below the standard of efficiency which has been attained by the Artillery. This is due entirely to the fact that the Officers appointed to raise, and organize those forces, unlike the Imperial Officers who laid the foundations of the Royal Canadian Artillery, had not the accurate knowledge, and practical experience of military administration, which is indispensable to those intrusted with command, but is only acquired by a thorough military training, received early in life. Neither had they the assistance of carefully trained and selected non-commissioned officers. They have therefore been obliged to feel their way, where they should have seen it clearly, and to learn bit by bit, that with which they should have been familiar by constant habit. They deserve however, none the less credit for the measure of success which has attended their efforts, and for their endeavours to make good their deficiency of early training.

I have, in previous reports, drawn attention to the lack of professional attainments in the Officers of the Canadian Permanent Force. This defect can only be remedied by setting before their eyes a correct standard of excellence, and by affording them the means for professional study. The correctness of this view has been proved, by the effect of instruction on the detachment already referred to. The Officers and non-commissioned Officers composing it were attached to Units of their respective arms at Aldershot, they underwent various courses of instruction calculated to give them an insight into the organization of those Units, and into the nature of the training for war, required in the present day, and finally, they were subjected to a thorough examination in the subjects of their instruction. The visible result has amply justified the expenditure incurred by the experiment. I trust it will be annually repeated, and that the grants I have asked for in previous years, in aid of military study and military physical exercises, may likewise be accorded.

Appendices A, B, C, deal with the personnel of the Permanent Force in the same manner as in the last two years. From the first of these it will be observed, that the

Militia and Defence.

number of men enlisted has been insufficient to make good the waste occurring from various causes. At the same time it must be observed that :

1st. No special measures have been taken, to make known to the public the advantages which are offered by the permanent service, and

2nd. I have found it necessary to check the uncontrolled re-admission of men into the ranks, from which they have already been discharged.

The loss by desertion during the past year shows a considerable decrease, and is balanced by a considerable number of men returned from desertion.

The number of convictions by Courts Martial (Appendix B) is larger than in the year 1891-92, but it shows a decrease in the more serious forms of military crime.

It is to be regretted, that the offer made by the Imperial Government, of medals, for long service and good conduct, has been allowed to remain in abeyance. The Committee, consisting of the High Commissioner for Canada, and Agents General of other Colonies, to which this question was referred, decided to await an expected decree of the Imperial Government relative to a decoration for long service in the British Volunteer force. This decision is an unfortunate one for the Canadian force, since the terms of service laid down by the Canadian Militia Act effectually preclude men serving under that Act, from participation in any advantage, which may be granted to those serving in England under the Volunteer Act.

THE ACTIVE MILITIA.

On the 20th of January, 1893, an Order in Council was published, which marks a distinct step towards the amendment of certain abuses, which have grown up to the detriment of the Militia Force.

It was therein ordered :

1st. That the Regimental Establishment Lists of the Militia shall be fixed annually and submitted in detail to Parliament: and,

2nd. That no further "Provisional" appointments shall be made except to the rank of 2nd Lieutenant.

The effect of publishing an annual Establishment List is twofold :

1st. It presents in a form which all may understand, the potential strength aimed at by the annual expenditure on the military personnel.

2nd. It gives a ready means of detecting inherent faults of organization, and of amending them year by year in pursuance of a fixed policy.

It will be my duty in this report to show :

1. The serious defects existing in the present establishments.

2. How far the real "state"* of the Militia falls short of its ideal "establishment" ** and,

3. To point out the steps which have been taken during the past year, to amend these defects.

In proceeding to examine the Establishments in detail, I will pass over the figures dealing with Cavalry and Artillery, to which special measures of re-organization have

* The following technical definitions may be useful to non-military readers :

1. By an "Establishment" is understood the numerical strength *authorized by law* to exist as a military organization.

2. A "State" or "Return" furnishes the actual *existing* strength of a military body at a given time.

been applied this year, and will turn to the Infantry. It will be seen that provision is made for 28,710 Infantry of all ranks divided as follows :

Officers	2,564
N. C. Officers	3,728
Bandsmen and buglers	2,562
Privates	19,856
<hr/>	
Total	28,710

Thus the number of rifles which, under the most favourable circumstances, could be placed in line, amounts to only 69 per cent of the general total, or in other words, the numbers of officers, non-commissioned officers, and non-combatants absorb an excessive proportion of that general total.

For the sake of comparison, I give in parallel columns the relative proportions of the different ranks in the Canadian and English Militia.

Proportion of	Canadian.	English.
Officers to Privates (combatant).....	as 1 to 8	1 to 32.
N.-C. Officers to Privates (combatant)	as 1 to 5·3	1 to 10·5

Such is the condition provided by the authorized establishments, which have this year been retained, generally, at the figures fixed by the old regulation.

That, however, which is exhibited by the "States" and "Returns" of the Militia is far worse. In my evidence before the Royal Commission on the organization of the Government Departments, I stated on the 13th of February, 1892, that the proportions of Officers and non-commissioned Officers to Privates in the Canadian Militia were respectively :—

Officers to Privates	as 1 to 7
N. C. Officers to Privates	as 1 to 2·7

These proportions were drawn from notes, carefully made at my inspections throughout 1891, and they have been confirmed by every subsequent Return that has passed through my hands. These Returns all show that a deduction of 25 per cent can be made from the numbers authorized for Rural Battalions of Militia, and that this deficit exists entirely in the rank of Private, since Commanding Officers always permit the non-commissioned ranks to be filled up, regardless of considerations as to fitness or qualification. A further deduction of 25 per cent can be made for men withdrawn from the ranks for various reasons, and who, while they draw pay, do not undergo any training as Infantry soldiers. These, in city Battalions include Bandsmen, Buglers and Non-Commissioned Officers above the numbers allowed by the Establishment, besides Signallers and Ambulance, while in Rural Battalions, the ranks are depleted to furnish Officers' servants, grooms, mess waiters, cooks and others, who not only perform no drill, but are frequently physically unfit for service.

Thus the possible 19,856 Privates allowed by the Establishment is quickly reduced below 10,000, which represents the maximum total strength of Infantry that would receive elementary instruction in drill, if the whole Force were called out.

Militia and Defence.

This condition can only be remedied—

1st. By a firm refusal to authorize the formation of new Units.

2nd. By raising the establishment of existing efficient Units, to a strength consistent with military requirements.

3rd. By the disbanding of inefficient Units.

By these means a consolidation of the Force will be effected. There will be fewer persons occupying commissioned and non-commissioned appointments, but there will be a larger defensive Force, and as there will be a greater number of men in the ranks, there will be a more extensive field, for the selection of suitable and qualified men for the superior grades. It will moreover enable a check to be put upon the issue of those allowances, for which at present the country receives no real value. (See Annual Report, 1891, p. 6, Allowances.)

During the past year the following steps have been taken to amend the establishments of the Cavalry and Artillery :

1st. With a view to reducing the number of dismounted and, consequently, untrained men in the Cavalry, 424 horses have been added to this arm. Formerly there were in every troop 15 dismounted men, or, in other words, 35 per cent of the numbers returned as Cavalry were without horses. The dismounted men have now been reduced to 6 per Troop, and as each Troop has been allowed a wagon and team of horses, every Regiment possesses the means of transporting the whole of its men, as well as the picketing gear and cooking utensils, which form a necessary part of its service equipment. This equipment, however, is very incomplete, a great deal of the saddlery is perished from age and rough usage, and the Store Branch has been unable to furnish as yet the full number of saddles rendered necessary by the increased mounted establishments.

2nd. The Halifax and British Columbia Battalions of Garrison Artillery have undergone a complete reorganization, whereby their established strength has been increased by 115 and 300 rank and file respectively. The strength of these Battalions has been fixed with reference to the duties they would be required to perform, in the event of emergency, in the fortifications of Halifax and Esquimalt.

I have submitted for the coming year details of similar changes, based upon the same principle, of fixing the establishment of each Unit, with reference to the position it is to occupy in the general scheme of defence, and consequently with regard to military requirements. Some of the more efficient Infantry Battalions will be the Units chiefly affected.

I have likewise submitted estimates of the initial, or capital, expenditure, and of the subsequent annual charge involved by these proposed changes.

PROVISIONAL APPOINTMENTS.

The Order in Council affecting provisional appointments, is supplementary to that which I have described as dealing with defective establishments.

In the future, if an Officer is desirous of rising to the higher ranks of the Militia, he must do so by showing that he is possessed of knowledge, and capacity for instructing those whom he is commissioned to command.

QUALIFICATIONS OF OFFICERS.

Appendix C shows the number of Officers now serving in the Militia without any qualification, and the number of those whose qualifying certificates bear a date anterior to that which may be regarded as the starting point of modern tactics.

Appendix D shows the number of those, who have obtained certificates at the Schools of military instruction, during the year ending 30th June, 1893. This number shows an increase of 53 over the Return of 1892, and of 61 over that of the preceding year. I am confident, however, that with proper organization, the activity and usefulness of these establishments can be still further developed.

In connection with this subject it is worthy of remark, that under the existing system, Officers and men of the Militia Artillery are sent for instruction from Halifax, where every modern artillery appliance exists for that purpose, to Quebec, 700 miles away, where none of these advantages are to be found. In like manner, those of the Infantry are sent from Halifax and other parts of Nova Scotia to Fredericton, N.B., when, by taking advantage of the presence at Halifax of an Imperial Infantry Battalion, in the manner formerly done throughout Canada, better instruction could be obtained at considerably less cost to the country. It certainly seems time that this strange and inexplicable anomaly should cease, and that the Militia in Nova Scotia should be permitted to obtain instruction from the most efficient and accessible sources. The Imperial Military authorities have shown every desire to assist in rendering the Militia efficient.

TRAINING OF THE ACTIVE MILITIA.

The organization of the District Camps of instruction has been improved, the work to be done in them has been systematized, and as a consequence more definite results are obtained from the training of the Rural Militia. In each District a site has been selected, which will be the permanent point of concentration for the Militia of the District. By this measure there will be a saving of expense, the Camps will gradually be improved by annual expenditure, and they will be adapted for use in the event of mobilization.

The medical service in these Camps has this year been organized on a military basis. A hospital camp equipment, and medical and surgical appliances, have been provided in each Military District. An appropriation has been introduced into the Estimates for the coming year, with a view to the further development of these hospitals.

In some cases the work done in Camp has been of exceptionally good quality, notably that of the Brighton Engineer Company, details of which are given in the report of the Inspector of Engineers (Appendix K.)

The Canadian Militia system has hitherto failed to recognize, that the most valuable elements of a national defensive force are those in which the everyday avocations of the citizen are applied, by military organization, to a given task in connection with the scheme of defence. The Company I have quoted furnishes an instance of one of the many ways in which this may be done.

The spirit of emulation, aroused by the competitions in military efficiency, established in connection with the inspection of the Active Militia, has had a good effect on the training both of the rural and city Battalions. At the same time the benefit of competition is only secured when the Inspecting Officer is energetic, and thoroughly capable of giving instruction in every detail connected with the drill, duties and organization of

Militia and Defence.

the Unit under inspection. Unfortunately this condition is, in certain cases, not fulfilled, and in spite of reiterated instructions many inspections are conducted in a very perfunctory manner.

The city Militia cannot be said to receive an efficient military training. They acquire a certain knowledge of "drill," but they are unacquainted with the application of it. I have dealt with this subject in detail in a previous report (Annual Report, 1891, pp. 5 and 19). I have likewise pointed out the changes in organization, which I consider necessary for the efficiency of the city Militia (Annual Report, 1891, pp. 4, 5; 1892, "Organization," "Clothing," p. 3).

The charge for the construction and maintenance of drill sheds, and of elaborate establishments in connection with them, is a very heavy item of the annual military expenditure, and raises the cost, to the country, of each individual city Militiaman to a figure which, as compared with the military value received, must be considered excessive.

Appendices E, F, G, H, I, deal with the drill and training of the Active Militia in 1892-93.

SMALL ARMS.

Arrangements have been made with the Imperial Government for the provision of 9,000 stand of Martini-Metford rifles. This weapon is eminently well suited for use by the Canadian Forces, and as the Martini-Henry rifles, in possession of the Dominion, are convertible to this system, it will be possible, by means of a moderate annual expenditure, to provide for the re-arming of all the Infantry of the Dominion in the course of a few years.

In connection with the policy of re-armament, there are three points, to which I have drawn attention in previous reports, viz. :

- 1st. The care of arms. (See Report 1891, "Allowance" and "Arms.")
- 2nd. The provision of ammunition for new arms. (See Report 1892, "Arms.")
- 3rd. The provision of rifle ranges. (See Report 1892, "Arms.")

At present the care bestowed upon arms, even in Armouries where paid Government Caretakers exist, is quite insufficient for their proper preservation in good condition. In private Armouries it is practically non-existent.

BARRACKS AND WORKS.

It is satisfactory to be able to report, that without any increase of expenditure, a greater amount, and a better quality of work, has been done on military buildings during the past year, than in any similar period in the past.

In addition to the ordinary annual repairs, the following important works have been carried out:—

1. At Quebec, the accommodation for troops has been more than doubled, the old Cavalry Barracks have been remodelled to suit the requirements of a Field Battery of Artillery, and the married non-commissioned officers and men have been provided with quarters for their families, superior to those found at most Imperial stations.

2. At Toronto, quarters and stabling for a Troop of the Royal Canadian Dragoons have been added to the Stanley Barracks, (formerly known as the New Fort).

3. At Kingston, the casemates at Fort Henry have been put into thorough repair, provided with heating apparatus, and made available for use by the Store branch, being thus saved from gradual destruction. Increased accommodation for horses has been also provided at this station.

This increased activity has been made possible, by the more accurate system of drafting the annual Estimates, which was introduced by you this year. Expenditure is now classed under separate heads according to its nature.

The greater part of the works I have mentioned have been carried out under my personal direction, and I have to express my appreciation of the alacrity and intelligence with which the employes of the Architect's branch, notably Mr. F. W. White and Mr. Mathieu, have responded to the calls I have made upon them, though they were not officially under my control. They have in every particular shown that they had the welfare of the service at heart.

In this country building operations become impossible during a part of the year, and the extremes of heat and cold have an exceptionally destructive effect on buildings. It is important, therefore, to ensure by good organization the employment of the best season for carrying out these operations. I have submitted to you proposals, which I am confident would, by diminishing departmental friction, save much valuable time and money that is now annually wasted.

Apart from the work performed by the Architect's branch of the Militia Department, the Department of Public Works has completed, and handed over for occupation a block of buildings at Fort Osborne Barracks, Winnipeg. The rank and file, of the Troop quartered there, are at length suitably housed, but no provision has yet been made of quarters for married Officers, non-commissioned officers and men, or of offices, hospital or riding school, all of which are much needed. The building erected as a hospital was wholly unsuited for that purpose, and has been allotted as an Officer's quarter.

The barracks at Kingston and Fredericton are in a very unsatisfactory condition. They are old and badly situated, and their removal to more healthy sites seems deserving of consideration.

CLOTHING AND EQUIPMENT.

I desire to draw your attention to my former reports (Annual Reports 1891, p. 8 : 1892, pp. 3, 4), and to the suggestions therein contained, with reference to the issue of clothing and equipment to the Militia, which I commend to your favourable consideration.

MILITARY STORES.

The success of any scheme, for the defence of this country, must depend mainly upon the existence within the country, at a given moment, of certain military stores distributed in such manner as to be readily available, at the points where they are wanted ; together with a sound system, established in time of peace for their custody and issue. While fully appreciating the efforts of the Director of Stores to meet the requirements of the Militia, as set forth by me, I am of opinion that such system can only be attained by the adoption of the principles referred to in my report of 1892 (Annual Report, 1892, p. 4), which I have applied in detail in my scheme for the reorganization of the Staff at Headquarters.

Militia and Defence.

ARTILLERY MATERIEL AND AMMUNITION.

The condition of the Artillery matériel owned by the Dominion Government, has not undergone change since my last report.

The Imperial Government has made a loan to the Dominion of two modern heavy guns, pending the completion of the works at Esquimalt, to which they are allotted. They will be mounted at Quebec for drill purposes only, as they are not provided with ammunition. I am in communication with the Imperial military authorities, with a view to obtaining a further loan of the same kind. Though these arrangements are advantageous to the Dominion, by enabling us, without heavy expenditure, to instruct a certain number of men in the handling of modern ordnance, the absence of ammunition deprives the guns themselves of any importance, in relation to the defence of this country.

No sufficient reserve of ammunition exists for the guns belonging to the Dominion Government, nor is any being formed; consequently these guns, also, possess only a very limited importance for the purpose of defence.

DEFENCE.

I have had the satisfaction of negotiating, during the past year, the details of an agreement between the Imperial and Dominion Governments, which, I have reason to believe, will prove a satisfactory solution of an important portion of the problem, of Imperial as well as Local defence. Under the terms of this agreement, the contributions respectively of Canada and Great Britain, towards the establishment of a strongly fortified naval station on the Pacific coast of Canada, have been fixed, and arrangements made for manning the defences of that station by an Imperial garrison supplemented by the Dominion forces. In accordance with it, the Barracks at Victoria, B.C., have been handed over to the Imperial authorities, as part of the Canadian contribution, and the preliminary work towards the erection of the fortifications has been begun.

STAFF.

I have pointed out in previous reports (Annual Report, 1891, p. 8; 1892, p. 5), the necessity for a re-organization of the Staff, measures for which I have submitted to you in detail. The necessary system and organization can only be attained, by means of an able and energetic Staff, thoroughly trained in its duties, and by the thorough definition of those duties, as well as of the responsibilities, attaching to every grade of the Military Executive.

Parts of my recommendations have been carried out. A most able and efficient Officer has been secured from the Imperial Army in Colonel Lake, as Quarter Master General, the Headquarter Staff has been further strengthened by the selection of an excellent Militia Officer, Lieut. Colonel The Honourable M. Aylmer as Assistant Adjutant General, while certain superfluous appointments on the District Staff have been abolished.

I cannot close this Report, without expressing my appreciation of the excellent material, that exists in this country, for the formation of a military Force. There are men of all ranks in the Militia whose earnestness and zeal are beyond all praise, who are actuated by a high sense of duty, and whom any Officer must feel proud to command.

The application of such a Force to the defence of Canadian territory can, however, only be successful, by the introduction of system and organization into every department.

I have the honour to be, Sir,

Your obedient servant,

IVOR HERBERT, Major General,

Commanding Canadian Militia.

OTTAWA, 30th November, 1893.

Militia and Defence.

APPENDICES

TO THE

REPORT OF THE MAJOR GENERAL COMMANDING

- Appendix A. Annual Return of Permanent Regiments.
- do B. Return of convictions by Courts-Martial.
- do C. No. 1. Return showing the number of Officers now serving in the Militia without qualification.
No. 2. Return of the number of Officers serving with certificates obtained in 1870, or previous thereto.
- do D. Return of Officers, Non-Commissioned Officers and Men who have qualified in the Royal Schools of Cavalry, Artillery, and Infantry in 1892-93.
- do E. Return showing numbers of Officers and Men of the Active Militia trained in the year 1892-93 in District Camps.
- do F. Return showing numbers of Officers and Men trained in the year 1892-93 at local Head Quarters.
- do G. Return by Districts, showing numbers present at Inspection, 1892-93.

Militia and Defence.

(APPENDIX J.)

From the Inspector of Artillery.

OTTAWA, 31st December, 1893.

To the Major General
Commanding Canadian Militia.

SIR,—I have the honour to submit herewith the inspection and general efficiency reports of the Batteries, Battalions and Companies of Artillery which have performed their annual drill for 1892-93 and 1893-94, either in camp or at local headquarters, and to report as follows:

Field Artillery.

The following Batteries assembled for training in camp at the places and on the dates specified:

Military District.	Battery.	1892.		1893.

No. 9.	Sydney.....	Aldershot.....	Sept. 6.....	Sydney.....	July 18.
No. 10.	Winnipeg.....	Winnipeg.....	June 21.....	Winnipeg.....	June 19.

Range Finding.

All the batteries except the London and Sydney carried out this practice in 1892. In 1893, the 1st Brigade was unable to find a suitable range at or near their local headquarters. This practice is being assimilated as far as possible with the most recent Imperial regulations, but owing to the insufficient number of horses allowed, it is not possible to give any practical instruction in the method of supplying ammunition from the wagons when in action, now generally adopted.

Gun Practice.

Competitive gun practice was arranged for all Field Batteries, Sydney excepted, in 1892, at the ranges at Quebec (Isle of Orleans), and at Kingston, the Winnipeg Battery practising at local headquarters. At Kingston, a water range only was available, but owing to the continued stormy weather it could not be used and the Ontario Batteries were obliged to relinquish their practice.

In 1893, the Quebec and Port Hope ranges were used, and all the Batteries, Sydney excepted, were enabled to complete their practice satisfactorily.

Material.

Guns.—The guns of the London, Guelph, Toronto, Ottawa, Hamilton, Welland Canal, Durham and Gananoque Batteries, have been inspected and re-vented as required, by the armourer-sergeant, R.C.A.

All the tangent scales have been altered to take the new pattern sliding leaf with peep hole, and a proportion of new pattern foresights have been manufactured by Messrs. J. Bertram & Sons, Dundas, Ont.

Stores and equipment.—Regulations have been issued with a view to ensuring a more accurate system of accounting for the Artillery stores, &c., in battery charge, and arrangements have been made for a more thorough periodical inspection of these stores.

Harness. New sets of harness for gun teams were issued in 1892 to the Toronto, Sydney and Welland Canal Batteries.

The present system for the care and maintenance of harness and saddlery, and its supply from store, is defective. With the exception of such small repairs as can be made by the battery or local artificers, no provision is made for such general repairs as can only be effected in store, nor for the special supply of such articles as are likely to become unserviceable.

In consequence whole sets of part-worn harness have been from time to time returned to store as unserviceable, to be replaced by complete new issues.

Several complete sets of such part-worn harness are now in store, and should, under proper arrangements, be made available for re-issue.

Carriages.—All the old pattern guard irons for gun axle tree seats have been altered to new pattern by the artificers of the R.C.A. at Kingston and Quebec. Alterations to adapt the boxes of old pattern wagons and limbers to carry 9-pr. R. M. L. ammunition, are being made at Toronto, Kingston and Quebec, when all the wagons and limbers in store have been adapted, 26 more wagons and limbers will be required to complete the Field Artillery with the requisite number.

Morris tubes.—Twelve tubes for attachment to 9-pr. R. M. L. guns were received from England in 1892, and nine were issued to the following Batteries, viz. : A and B (Kingston and Quebec), Montreal, Quebec, Guelph, Durham, Hamilton, Toronto and Newcastle.

These tubes have been reported on favourably by the Commandants of the Royal Schools of Artillery, but their use by Field Batteries has not been as satisfactory as anticipated. Their adjustment requires a good deal of care, and it has been found very difficult to obtain satisfactory results at evening drills, with artificial illumination, in the limited space available.

Militia and Defence.

They have been used by the Hamilton, Toronto, Guelph and Newcastle Batteries, and the officers commanding agree in their opinion that when used under suitable conditions they are of great value as a means of instructing gun layers.

Ammunition.—With the exception of the Sydney Battery, each battery has in its possession, or in magazine at local headquarters, 30 rounds of made up ammunition per gun. There is at present a reserve in store amounting to 170 rounds per gun.

The minimum reserve per gun should be 500 rounds, divided in the following proportion, viz., 375 shrapnel, 100 common shell and 25 case shot.

Garrison Artillery.

Annual drill at local headquarters was duly performed by all companies and battalions authorized for drill. The rural companies of the Prince Edward Island Battalion performing their drill in camp at Charlottetown.

The Halifax and British Columbia Battalions drilled in 1893 under their new organization; the former have completed their establishment, and the latter have at this date made satisfactory progress therein.

Gun Practice, &c.

Competitive gun practice was carried out at Halifax in 1892 and 1893: detachments from all the companies authorized to drill, except Mahone Bay and Pictou, being present in the former year, and from all companies in 1893. 43 officers and 31 detachments being present. In 1892, 64-pr. R. M. L. and 20-pr. R. B. L. guns were used for practice. In 1893, only the former guns were used, and the detachments received instruction, under instructors loaned by the Royal Artillery, in the drill and working of the 9-in. R. M. L. guns mounted in Fort Cambridge, and were subsequently examined by Captain Lowe, R. A. Gunnery Instructor.

The usual shifting ordnance competitions were participated in by detachments from the Halifax, Montreal and Prince Edward Island Battalions.

Through the kindness of the General Commanding H. M. Troops, and of the Colonel Commanding the Royal Artillery, numerous facilities for visiting the forts in the vicinity, and for examining the working of the various natures of ordnances mounted therein, were afforded to the officers and men of the detachments, and were taken advantage of as far as time would permit.

The only range available for practice at Halifax is down the entrance to the harbour, and the gun site is so low as to render the correct observation of fire very difficult. The range is also liable to be very frequently obstructed by passing vessels, or by fog, and is not so well adapted for competitive practice as that at the Island of Orleans, Quebec. Its advantages consist in its comparative proximity to the majority of the companies of the corps, and the opportunities afforded of obtaining an insight into the use and working of modern ordnance.

I have the honour to be, sir,
Your obedient servant,

D. T. IRWIN, Lieut.-Col.,
Inspector of Artillery.

(APPENDIX K.)

From the Inspector of Engineers.

KINGSTON, ONT., 20th February, 1893.

To the Major General
Commanding Canadian Militia.

SIR,—I have the honour to inclose Captain A. H. Van Straubenzie's report on his inspection of the Brighton Engineers in August, 1892, for your favourable consideration.

I regret to say that it has been entirely my own fault that it has not been sent to you before. For this delay I must offer my apologies.

I have the honour to be, sir,
Your most obedient servant,

CHAS. B. MAYNE,
Major R. E.

INSPECTION OF BRIGHTON ENGINEERS, 1892.

From Captain A. H. Van Straubenzie, R.E., to Major C. B. Mayne, R.E., Inspector of Engineers.

KINGSTON, 18th August, 1892.

SIR,—I have the honour to submit the following report of my recent inspection of the Brighton Company of Engineers.

1. I arrived in camp at Sussex, N.B., on the 30th June, and remained there with the Engineers until they left on the 8th July. The company was present in camp at its full strength with the exception of Lieut. Tompkins, who was absent with leave: there is also a vacancy for a subaltern, which has not yet been filled. Gentleman Cadet E. J. Maunsell subsequently acted as Lieutenant.

2. On the 1st July the company completed its musketry course, except the volley firing, which was done on the afternoon of the 9th July. Corp. Lovely had the honour of being the best shot in the brigade, and the company I believe stood third.

3. The next few days were spent in steady work, the mornings being devoted chiefly to infantry drill, and the afternoons to engineer work: the latter consisted of tool drill, use of brushwood, cover for infantry, shorting line of various forms, cover for guns, &c.

4. On Wednesday the 6th July, the company constructed a trestle bridge, 144 feet long, to carry infantry in fours across Trout Creek. The bridge consisted of eleven 2-legged trestles, average height $7\frac{1}{2}$ ft., with a corduroy roadway, treenails being used throughout as fastenings. For this work 450 trees of sizes were cut down by a working party on the two previous days, trimmed and drawn to the site, ($\frac{3}{4}$ mile distant) on the day of construction.

Major Vince organized the working parties admirably, and the N. C. O's. superintended their squads very well, so that not a single serious hitch occurred during the work. Work commenced at 2 p.m., (the section of the gap having been previously taken) and by 6.30 p.m. the bridge was quite complete. The actual working party consisted of 2 officers, 30 N. C. O's and men, with 1 N. C. O. and ten men in the woods preparing and loading timber, so that the whole company was most fully employed. The only tools available were 5 augers, 7 axes, 1 handsaw, 1 cross-cut saw.

Militia and Defence.

Considering that there were 26 recruits in the company, the amount of work done in the time was very large, all ranks worked with a will. The presence of 6 N. C. O's. who had been through a course of instruction at Kingston was invaluable.

The photograph attached was taken by Private Geddes, 73rd Bn., at 5.15 p.m., or 3¼ hours after commencing work.

5. On Thursday the 7th July, the infantry inspection took place. The G. O. C. himself inspected the company in marching order and remarked that the turn out was very creditable. See inspection report attached.

6. This company is in a very satisfactory condition, an excellent spirit pervades all ranks, and considering their opportunities, Major Vince and his men deserve great credit for what they have done.

I have the honour to be, sir,

Your most obedient servant,

A. H. VAN STRAUBENZIE, Capt. R.E.,
Inspecting Officer.

Militia and Defence.

the Annual Drill for 1892-93—Continued.

Cost of rations per head per diem at Encampment.	General Conduct of Corps.	If any, and what casualties.	Whether in possession of Band, Number of Musicians, and proficiency.	General State of Clothing, Arms and Accoutrements.	Complaints of N.-C.O. and Men, if any.	Target Practice.			
					Number of Non-exercised Men, if any.	Ranges.	Figure of Merit.	Date of Inspection.	Date when Drill was completed.
						Battalion.	Company.		Remarks.
Nil.	Very good.	None.	Yes; 24; good.	Good.	None.	No returns.	No returns.	No returns.	No returns.
					No returns.	No returns.	No returns.	18th and 22nd July. Mustering on 22nd July.	22nd July, 1892.
									<p>This Regiment is not in a satisfactory state. The proportion of unqualified officers is very large, though no Corps in the Dominion has greater facilities for acquiring the requisite knowledge. The non-commissioned officers are fairly good, a few of them very good. The Regiment turned out weak for inspection, and for muster also.</p> <p style="text-align: center;"><i>Remarks by the G. O. C.</i></p> <p>It is a question whether this Battalion is worth retaining. As a military organization it is of no value.</p> <p style="text-align: right;">IVOR HERBERT, Maj.-Gen.</p>

	The organization of this Battalion was very imperfect. It has been put on a new footing and its equipment completed. I trust it will show an improvement. IVOR HERBERT, <i>Maj.-Gen.</i>	The organization of this Battalion is not military. The practice of having men like signallers who do not belong to any Company is forbidden. As a result there are no men in the ranks. IVOR HERBERT, <i>Maj.-Gen.</i>	78 horses.			
	Not attached to any Company.

REPORT ON THE ROYAL MILITARY COLLEGE OF CANADA.

FROM THE COMMANDANT ROYAL MILITARY COLLEGE.

KINGSTON, 9th November, 1893.

To the General Officer Commanding the Militia,
President "*ex officio*" Royal Military College
of Canada.

SIR,—In submitting my report on the Royal Military College of Canada, for the year ending 30th June, 1893, I have the honour to state that the progress made in studies has been satisfactory.

Estimating class progress by the average of marks gained,—the 1st, 2nd, and 3rd classes have shown marked improvement over the 1st, 2nd, and 3rd classes of the year 1891-92.

In the 4th Class, composed of recruits, there was a serious falling off, attributable to deficiency of average attainments on joining the College.

Subject to the remark that in consequence of the absence of one cadet of the 2nd Class, from the June, 1893, examination, the figures for that class and year have still to be increased—the return of average marks is as follows :

YEARS.	1st Class.	2nd Class.	3rd Class.	4th Class.
1892-93.....	15·203	10·833	9·260	3·693
1891-92.....	15·042	9·955	7·593	4·510
Difference.....	+161	+878	+1·667	—817

Again, if the work of the whole four years' course of the graduating class of 1893 be compared with that of the graduating class of 1892 a similar satisfactory result is arrived at.

The class of 1892 was quite exceptional, inasmuch as amongst its fourteen members the marks of Mr. Dumble who stood third, had only twice been exceeded since the College was established ; the marks of Mr. Fraser who stood second had only once been exceeded ; while the marks of Mr. Vercoe exceeded, by 1,802, the highest score that has hitherto been obtained : yet the average of the whole class of 1893 is only 2½ per cent less than that of 1892.

If the three exceptional graduates of 1892 be cast out of the account and two similarly exceptional graduates be struck off the 1893 list—the result will show that for the eleven remaining graduates in each class, the average score of those of 1893 exceed by 3·93 per cent the average score of those of 1892.

The bodily development of the members of the graduating class of 1893 affords renewed evidence of the beneficial physical effect of the food, clothing, housing, training and other influences affecting health during their residence here.

Militia and Defence.

Exclusive of one graduate who on joining already weighed 180 lbs., the average increase of weight just prior to preparing for the final examination, was 18½ lbs., and even in the exceptional case 4 lbs. were added to weight and 3¼ inches to chest measurement.

The average increase of chest measurement was all but 4 inches.

One gentleman added a fifth to his chest girth, over a quarter to his weight, and 4¼ inches to his stature.

In no case was there an absence of bodily improvement.

Appended to this report will be found a summary of the Professor's remarks upon the progress made in each class, and their mention of individual cadets meriting special notice.

Battn. Sergt.-Major B. Armstrong,
Co. Sergt.-Major C. B. de Boucherville,
Corporal G. Osborne,
Cadet Beer, and
Cadet Evans

are exceptionally distinguished by having won marked praise, from every one of their Professors, in every subject of study.

Corporal Osborne has excelled all previous records in physics and chemistry, gaining 95 and 93 per cent of full marks in these subjects respectively.

I cannot omit from these remarks my warm recognition of the service rendered to the College by the brilliant achievements of Company Sergeant-Major de Boucherville, and expressing the obligation I feel personally to him for his admirable deportment in every respect during his cadetship.

I desire specially to note the indebtedness of the College to Battalion Sergt.-Major Armstrong who, as senior non-commissioned officer, has had exceptional and by no means always agreeable responsibility on his shoulders. He has acquitted himself in the most satisfactory manner.

The general prize list, the graduates pass and honour lists, and the names of graduates who have received commissions in Her Majesty's regular forces will be found following the summary of the Professor's remarks.

In June the Earl of Derby, who during His Excellency's term of office as Governor General of Canada, took a direct personal and warm interest in the Royal Military College, very graciously paid a farewell visit to the institution, and in congratulating the staff and cadets upon their connection with a school which had deservedly won a high reputation, was pleased to record his opinion that this College affords opportunities for preparation for civil and for military life not excelled by those of any British or Continental school.

The Honourable the Minister of Militia and Defence honoured the College by inspecting it at the close of the term, and expressed his satisfaction with the experience of the condition of the establishment he had gathered from the proceedings on the closing day.

Recently as the College has been established, and limited as is the accommodation it affords—turning out from ten to fifteen graduates a year—its students are to be found in the Church, practising law, medicine, agriculture and civil engineering, engaged in commerce, railway management, and in private and public companies, employed in postal departments, in ordnance factories, in the Dominion Customs Department, the Geological Department, the Marine and Fisheries Department, and serving in the North-west Mounted Police force, in British Colonial employment, in the Canadian permanent militia, and in Her Majesty's regular forces.

A hurried analysis of the details has convinced me—as well as my personal experience here—that the Royal Military College of Canada is not being dealt with patriotically as a national institution.

I find that the Provincial Governments do almost absolutely nothing to foster their Military College.

I urge that this is neither patriotic nor prudent.

Canada is in quite an exceptional position from a military point of view, and it seems unreasonable in her case that not merely should the Federal Government of the day have often to defend the maintenance of the College, but that no assistance is rendered by the Provincial Governments in making it more attractive, as would be the case were they to deal with it as a national institution of which the graduates have as great a claim to their consideration by the Provincial Governments as they undoubtedly have on the Federal Government.

I think I may venture without risk of exaggeration to say of those who have passed through this school and have been fortunate in being taken by Government and other employers, that no class of young men has proved so reliable or contained so large a proportion of those who have rapidly risen to positions of responsibility and who have gained distinction.

The question that their educational attainments and character fit them for consideration does not admit of doubt.

That a duty rests on the Provincial Governments as well as on the Federal Government to do what is in their power to render the National Military College attractive appears equally unquestionable.

It has to be remembered that the military condition of Canada is such that it can give military employment to only a few of those qualifying at the College, consequently civil and military education has to be combined, in order to secure a reserve of trained officers; and if graduates, failing to obtain Federal Government employment, are looked at askance by other employers because the school is styled *military*, it is evident that it must suffer also as a military school, from lack of candidates—a defect which can be met effectively only by general dissemination of the knowledge that its education for civil life is of a high order, and by the Governments—Federal and Provincial—co-operating in recognition of its essentially national character and claims.

Canada, as all countries, even those with the merest shadow of national pride and prudence, if there be such, requires to provide itself with military instruction to guard against both internal and external dangers. The slightest study of human nature must convince one of the folly of entertaining an opposite view.

In the absence of military organization involving, in the Canadian system, a reserve of trained officers—any marked success on the part of the Fenian raiders would have been followed within a few hours by such a rush of supporters, as would have seriously imperilled our national independence, and in any event the consequences would have been appalling.

Had the serious strain which was experienced in the more recent North-west rebellion, been too great for the military organization of the country to withstand—its blasting effect on Canadian nationality would have been incalculable.

But neither of these trials to Canada was of the immeasurably more serious kind, against which she has to be prepared.

Neither of them exceeded in violence the effort of a large band of discontented men.

In these considerations are surely to be found, not merely an excuse for maintaining a national military school, specially adapted to the requirements of Canada, but a justification, amounting to an individual and national duty to extend to it most liberal patriotic support and encouragement.

Nor would efficient support from the Provincial Governments entail appreciable inconvenience to them; for, were each of them to offer one appointment annually to qualified graduates of the College, the desired result would be amply attained.

I beg earnestly to recommend that the Provincial Governments may be moved to give the subject their favourable consideration.

At the close of the year, two members of the staff, Major Mayne and Captain Van Straubenzie, R.E., left to rejoin their corps. They had done much to maintain the satisfactory condition of the College in all its aspects.

Major Mayne, a man whose versatility and ever active unselfish zeal, has deservedly won for him very many warm and valuable friendships in Canada, outside the College, will be much missed by his old pupils and fellows on the staff, who have had so happy an opportunity of associating with him for the last seven years.

Militia and Defence.

Captain Van Straubenzie's influence on the cadets was of a kind which cannot fail to have lasting beneficial effects. Ready at all times to take part in their amusements, by unobtrusive example and gentle precept, he ever kept before them the pattern of a Christian gentleman, enjoying life, yet mindful of the reasonable limits within which those enjoyments should have play.

They are entitled to marked recognition of the efficiency with which they discharged their official duties on the College staff.

I have to express my indebtedness to the members of the College staff generally for the efficiency with which they have discharged their duties during the past year, and their zealous activity in promoting the interests of the school; and I have to acknowledge the praiseworthy appreciation by the cadets of the opportunities afforded to them for acquiring a solid foundation for future pursuits in life.

I have the honour to be, sir,

Your most obedient servant,

D. R. CAMERON,
Commandant,
Royal Military College.

LIST of gentlemen cadets deserving mention for special aptitude and application in various subjects.

Mathematics.

- 4th Class.—Gentleman Cadet A. S. Evans.
“ “ G. H. Kirkpatrick.
- 3rd Class.—Gentleman Cadet G. S. Wilkes.
“ “ G. R. Frith.
“ “ G. N. Cory.
“ “ E. P. Brown.
“ “ G. A. Inksetter.
“ “ R. J. F. Hayter.
“ “ N. S. Ridout.
“ “ J. W. Osborne.
- 2nd Class.—Corporal H. B. Muckleston.
“ G. F. F. Osborne.
“ V. L. Beer.
“ H. D. L. Gordon.
Sergeant F. N. Gibbs.
Gentleman Cadet F. B. Osler.
Corporal J. E. Beatty.
Sergeant R. W. Brigstocke.
Corporal J. D. Doull.
- 1st Class.—Gentleman Cadet A. W. Burnham.
Company Sergeant, Major C. F. J. B. de Boucherville.
Sergeant H. N. B. Hollinshead.
Company Sergeant, Major R. H. Strickland.
Battalion Sergeant, Major B. H. O. Armstrong.

Military Engineering.

- 4th Class.—Gentleman Cadet C. M. Stephen.
“ “ F. E. Leach.
“ “ A. S. Evans.
“ “ F. D. Lafferty.
“ “ F. M. L. Gordon.
“ “ W. H. N. Cantlie.
“ “ J. C. Holden.

- 3rd Class.—Gentleman Cadet G. R. Frith.
 “ “ R. J. F. Hayter.
 “ “ J. W. Osborne.
 “ “ G. S. Wilkes.
- 2nd Class.—Gentleman Cadet V. L. Beer.
 “ “ F. B. Osler.
 Corporal G. F. F. Osborne.
- 1st Class.—Battn. Sergeant-Major B. H. O. Armstrong.
 Co. “ “ C. F. J. B. deBoucherville.
 “ “ “ J. J. B. Farley.
 “ “ “ C. J. Armstrong.

Surveying.

- 3rd Class.—Gentleman Cadet G. R. Frith.
 “ “ G. S. Wilkes.
- 2nd Class.—Gentleman Cadet V. L. Beer.
 Corporal, G. F. F. Osborne.
 Sergeant R. E. Tyrwhitt.
- 1st Class.—Co. Sergeant, Major C. F. J. B. deBoucherville.
 Gentleman Cadet, A. W. Burnham.

Reconnaissance.

- 2nd Class.—Gentleman Cadet V. L. Beer.
 Corporal G. F. F. Osborne.
 Sergeant R. E. Tyrwhitt.
- 1st Class.—Co. Sergeant-Major C. J. Armstrong.
 Battn. Sergeant-Major B. H. O. Armstrong.
 Co. Sergeant-Major C. F. J. B. deBoucherville.

Theoretical Artillery.

- 3rd Class.—Gentleman Cadet R. J. F. Hayter.
- 2nd Class.—Corporal G. F. F. Osborne.
 Gentleman Cadet V. L. Beer.
 Sergeant R. E. Tyrwhitt.
 Gentleman Cadet F. B. Osler.
 Corporal H. D. L. Gordon.

Practical Artillery.

- 3rd Class.—Gentleman Cadet E. P. Brown.
 “ “ G. N. Cory.
 “ “ G. R. Frith.
 “ “ N. S. Ridout.
 “ “ G. A. Inksetter.
- 2nd Class.—Corporal G. F. F. Osborne.
 Gentleman Cadet F. B. Osler
 “ “ V. L. Beer.
 Sergeant R. W. Brigstocke.
 Corporal H. B. Muckleston.

Militia and Defence.

French.

- 4th Class.—Gentleman Cadet A. S. Evans.
“ “ F. M. L. Gordon.
“ “ G. H. Kirkpatrick.
“ “ H. P. M. J. A. LaRocque.
3rd Class.—Gentleman Cadet E. P. Brown.
“ “ G. N. Cory.
“ “ G. E. Francklyn.
“ “ N. S. Ridout.
“ “ G. S. Wilkes.
2nd Class.—Gentleman Cadet V. L. Beer.
Corporal J. D. Doull.
Sergeant F. C. Heneker.
Corporal A. G. T. Lefevre.
“ G. F. F. Osborne.
1st Class.—Co. Sergeant Major C. F. J. B. deBoucherville.
Battn. Sergeant-Major B. H. O. Armstrong.
Co. Sergeant-Major C. J. Armstrong.
“ “ J. J. B. Farley.
Sergeant J. E. Leckie.
“ H. N. B. Hollinshead.

English Literature.

- 4th Class.—Gentleman Cadet A. S. Evans.

GENERAL PRIZE LIST.

ROYAL MILITARY COLLEGE, JUNE, 1893.

Annual Class Prizes.

- 4th Class.—Highest Proficiency—Cadet A. S. Evans, Collegiate Institute, Toronto.
 3rd Class “ Cadet G. R. Frith, Upper Canada College.
 2nd Class “ Corporal G. F. F. Osborne, Collegiate Institute,
 Kingston.
 1st Class “ Co. Sergt.-Major C. F. J. B. deBoucherville, St. Mary's
 College, Montreal.

Entire Course.—Subject Prizes.

- Mathematics and Mechanics.....Sergt. H. N. B. Hollinshead, Trinity College, Port
 Hope.
 Practical Geometry and Engineering
 Drawing Bn. Sergt.-Major B. H. O. Armstrong, High School,
 Montreal.

Military Engineering.....	Bn. Sergt.-Major B. H. O. Armstrong, High School, Montreal.
Surveying and Military Topography	Co. Sergt.-Major C. F. J. B. deBoucherville, St. Mary's College, Montreal.
Artillery (Theory and Construction of)	Sergeant H. N. B. Hollinshead, Trinity College, Port Hope.
Reconnaissance.....	Co. Sergt.-Major C. F. J. B. deBoucherville, St. Mary's College, Montreal.
Military History, Strategy, Tactics, Mil. Administration and Law...	Co. Sergt.-Major C. F. J. B. deBoucherville, St. Mary's College, Montreal.
French.....	Co. Sergt.-Major C. F. J. B. deBoucherville, St. Mary's College, Montreal.
English	Bn. Sergt.-Major B. H. O. Armstrong, High School, Montreal.
Chemistry	Co. Sergt.-Major C. F. J. B. deBoucherville, St. Mary's College, Montreal.
Physics.....	Co. Sergt.-Major C. F. J. B. deBoucherville, St. Mary's College, Montreal.
Geology and Mineralogy.....	Co. Sergt.-Major C. F. J. B. deBoucherville, St. Mary's College, Montreal.
Freehand Drawing and Painting..	Bn. Sergt.-Major B. H. O. Armstrong, High School, Montreal.
Civil Engineering	Co. Sergt.-Major C. F. J. B. deBoucherville, St. Mary's College, Montreal.
Drills and Exercises and N. C. O. Drill Instruction.....	Co. Sergt.-Major J. J. B. Farley, High School, Quebec.
Conduct and N. C. O. Discipline, combined.....	Co. Sergt.-Major J. J. B. Farley, High School, Quebec.

"The Stanley Medals."

(For the highest aggregate of marks for the whole course.)

Gold Medal—Co. Sergt.-Major C. F. J. B. deBoucherville, St. Mary's College, Montreal.

Silver Medal—Battn. Sergt. Major B. H. O. Armstrong, High School, Montreal.

Bronze Medal—Sergeant H. N. B. Hollinshead, Trinity College School, Port Hope.

Sword of Honour for Good Conduct and Discipline.

Co. Sergeant-Major J. J. B. Farley, High School, Quebec.

The "Lord Stanley" Prize.

(To the qualified graduate intending to pursue a military profession either in the Imperial Forces or the Dominion Militia, for the highest proficiency in Military Engineering, Military Administration and Law, Strategy and Tactics, Military Surveying, Topography, and Reconnaissance.)

Battn. Sergt.-Major B. H. O. Armstrong, High School, Montreal.

Militia and Defence.

PASS AND HONOUR LIST.

ROYAL MILITARY COLLEGE, JUNE, 1893.
