**FEDERAL VACANCIES**

The unexpected death of Hon. John Morrissy, member for Northumberland county, has created another vacancy in the Federal Parliament. There are

now five vacant federal seats, two of which are in Quebec, one in Ontario, one in British Columbia and one in New Brunswick. The vacancies include St. Antoine, in

the city of Montreal, Rimouski, Quebec, West Hastings, Ont.; Yale, B.C. and Northumberland, N.B. Up to date writs have been issued for by-elections in the two Quebec constituencies.

**Hon. John Morrissy, M.P.  
Passed Away Thursday  
Morning**

Hon. John Morrissy of Newcastle, Liberal M.P. for Northumberland died at the Hotel Dieu Hospital Thursday morning at 3 o'clock. Hon. Mr. Morrissy had been ill only a week, but his health had not been good for some months past.

He was born Aug. 13, 1854 at Newcastle, N.B. a son of Patrick Morrissy and Rose Parrel. He was educated at Newcastle and married on May 5, 1879 to Miss Joanna Dunn, daughter of Peter Dunn, of Chatham. They had three children, Charles J. Morrissy, present M.L.A. for Northumberland; John T. and Mollie at home. He was a merchant and director of the John Morrissy Company. He was Minister of Public Works in the New Brunswick Government from 1908 to 1916.

For a period of nearly forty years Hon. Mr. Morrissy had been a conspicuous figure in politics of Northumberland. He was first elected to the provincial Legislature as a supporter of the Blair government at a by-election in 1888. He appeared for re-election in 1890 in opposition to "The Big Four" of Northumberland and went down to defeat. The late Hon. L. J. Tweedie was a member of the successful ticket and on appealing for re-election after accepting the office of Surveyor General in the Blair administration

was opposed by Mr. Morrissy but proved the winner.

After unsuccessfully contesting several elections both Federal and provincial, Mr. Morrissy was again returned to the Legislature at the general election of 1903 and remained a member of the House continuing until 1916. He opposed the Tweedie Pugsley government in the House and on Hon. J. D. Hazen becoming premier following the election of 1908 Mr. Morrissy joined his administration as Minister of Public Works. He continued to hold his portfolio during the Flemming regime.

When the Federal election was called on in December of 1917, Mr. Morrissy ran as straight Liberal candidate in opposition to Union Government and was defeated by a small majority.

In the election of 1921 he was again the Liberal candidate and won out over the late Mr. E. A. McCurdy.

Although he took little part in the debates in Parliament he was in regular attendance and enjoyed the goodwill of his colleagues on both sides. His death will be deeply regretted by his many friends throughout the country.

**NELSON WINS  
FROM CHATHAM**

Chatham lost to Nelson in a Miramichi League game played at Chatham, Thursday night. The visitors finished on the long end of a 3 to 1 score. Nelson secured four hits in the first inning, netting them two runs. The third was tallied in the sixth and final frame when Briggs came in from third on Wattings' bad throw. Mays and Briggs had nine strikeouts each. The former was touched for seven hits while the visiting twirler allowed but two. Though defeated Chatham retains the league leadership by one game. Should the tied game between Nelson and Loggieville be played over and won by the former, Nelson, would then be tied with Chatham for first place.

Score by innings— K.H.E.  
Chatham.....0 0 0 1-1 2 2  
Nelson.....2 0 0 1-3 7 1  
Batteries—Mays, and Wattling;  
Briggs and Jenkins; Umpires D.A. Jackson and W. Ashford

**Monster Picnic on the Old Convent Grounds Wednesday August 6th**

**GETS OUT OF JAIL  
BY THE SEWER EXIT**

A man named Murphy from Chatham who was arrested by Officer Hill on a charge of being drunk and resisting arrest succeeded in gaining his liberty from the lock-up and it is reported, left by train for Upper Canada. Murphy managed to secure his freedom by pulling up the floor in the cell and crawling out through the sewer entrance.

**DECIDES AGAINST  
BUSINESS COURSE**

Although very favorable consideration was given the project of introducing a business course into the Chatham High School when the Board of School Trustees were in session recently, the board decided that the number of applicants for the course, 18, was not sufficient to justify the expense of inaugurating the course.

It was felt however that in another year there would be greater interest in the project and probably be a sufficiently large number of applicants. W.B. Snowball chair-

**FORMER NEWCASTLE  
MAN APPRECIATES  
"ADVOCATE"**

Winnipeg, July 28th, 1924

MESSRS The Union Advocate,  
Newcastle, N.B.

Dear Triff,

Enclosed please find my cheque for \$10.00 together with apologies for the past, peace of mind for the present and hopefulness for the future.

The old "Advocate" is a welcome visitor to our home each week and while few names are now familiar many references are made to old familiar places that recall fond memories of long ago.

With best personal regards,

Yours truly,

C. C. FALCONER.

**LUMBERMEN MEET  
IN BATHURST**

The New Brunswick Lumbermen's Association held a meeting in the offices of the Bathurst Lumber Co at Bathurst last Wednesday at which more than thirty representatives of the principal lumber firms in the province were in attendance. Although nothing in regard to the business which was discussed at the meeting was given out it is understood that one of the matters given attention was the present depressed condition of the industry. This was agreed to be the result of overproduction and as a result it is likely that the coming winter's operations will be on a much smaller scale than last year's. The attending members of the Association were the guests of Mr. August McLean of the Bathurst Company at a dinner at the Gloucester Hotel.

**GREATLY PLEASED  
WITH N.B. CLIMATE**

Rev. E. J. Craft of Bridgeport, Conn. who is making a short stay in the province, believes New Brunswick has the best summer climate of any place he has yet visited and he has tried all parts of the United States. He also believes that the cost of living, rental of summer cottages, facilities for camping and other tourist advantages in New Brunswick make this section of the country attractive for the summer visitor. Mr. Craft is gathering information for a series of articles which will be published in the Bridgeport paper of the writing staff of which his son is a member. Mr. Craft is rector of Christ's Episcopal church at Bridgeport and came through from Calais by automobile.

**STICK TO FACTS**

When the spell-binder says he will stick to facts he means the ones that are not embarrassing.

**TO REPRESENT CANADA**

According to authoritative source, Senator Belcourt who is at present in London representing the Canadian Government at the inter-allied conference has accepted the post of Canadian Minister at Washington.

man presided. Ralph Manzer of St. Stephen was appointed manual training teacher and the appointment of a domestic science teacher was left with a special committee.

**Too Good To Cut**

Recently a birthday cake was ordered on behalf of a reverend old lady of ninety years. She kept the last one intact because it looked "too good to cut."

A cake was also ordered this month for a centenarian residing in the Province. The number of instances of this

kind seems to show that Nova Scotians are a hardy lot.

Since today seemed to be devoted to the old, it may be of interest to say that a member of Molr's organization called on a nonagenarian lately and that this represented the first time he had seen a motor car close at hand. He was offered but refused firmly—a trip in the car.

### ANTI-UNIONISTS' PLANS FOR FUTURE

(Montreal Gazette)

"We will continue the Presbyterian Church from the 10th of June 1925—the date union comes into effect—regardless of what the legislatures do" declared Rev. Dr. D.J. Fraser, president of the Presbyterian Church Association, who returned to the city yesterday following an executive meeting of the organization in Toronto Monday. He added that an official statement of the plans of the association would be issued immediately parliament final ratified the Church Union Bill.

The amendment to the bill, granting permission for non-concurring congregations to vote against entering the united church instead of their being obliged to enter and then later being permitted to vote themselves out if they so desired as was originally provided for in the bill, represents a great gain for the anti-unionists, particularly so far as moral effect is concerned, Dr. Fraser said. The votes may be taken any time within the six months following December 10th next. Another amendment they were gratified at securing was that any congregation could be compelled to register its vote on the question on the request of small percentage of the communicants. They were pleased also, that the Senate consented to amend the bill so as to permit of votes being taken by ballot and hoped that the House of Commons would acquiesce in this at the final ratification.

That congregational minorities would have to suffer was regrettable but there seemed to be no other solution than the one found, the speaker declared, adding that he believed the unionists had wished to act fairly in this regard.

#### COLLEGE PROBLEM

It is impossible at this time to tell what will be the future of the Presbyterian College here, Dr. Fraser said. The college, he explained is not affected at all by Ottawa's action since its charter is a provincial one and the Quebec Legislature has not yet passed on the Church Union Bill.

"If" he went on "Quebec passes the act, this college will go into the United Church, as will the other seven Presbyterian theological colleges in Canada. Then the commission will be asked to allocate the colleges to the United Church or to the Presbyterian Church. I suppose that if half of the present membership remain Presbyterian, half of the colleges will be allocated to them. Colleges have not the power to vote themselves out of the United Church as have congregations. All of this general property goes in and is divided afterwards."

Lawyers and the law courts will be kept busy for a long time before matters are finally settled, in Dr. Fraser's opinion. Many technical difficulties stand in the way. As one instance he mentioned those churches such as St. Andrew and St. Paul and the First Presbyterian Church, as well as many other churches in the Maritime Provinces which are incorporated by act of provincial legislature.

### FEDERAL POLITICAL PARTIES PREPARE FOR AN ELECTION

If there is not to be a general election this year, then the present activity in all parties is most unusual. The government is planning an extensive speaking and propaganda campaign, the Conservatives are arranging for conventions to nominate candidates in Ontario and the prairie provinces, while the Progressives will soon hold a convention probably in Winnipeg. An explanation of this activity can only be found in the policy of the Government to be ready for a contest if a favorable opportunity occurs, in the Conservatives being determined not to be caught unprepared, and in the Progressives vainly seeking to bring about order and cohesion out of the existing chaos and disintegration in their party.

Premier King will devote his efforts chiefly to Ontario and the prairie provinces. In Ontario the Liberal party is a wreck and unless the Prime Minister can divert his people's policy from his economic policy he faces a hopeless situation in that province. He is seeking a new issue for this purpose and will subordinate "the death-knell of protection" to constitutional issues such as Canada's representation in Imperial affairs and the reform of the Senate. In his apparent antipathy to Britain and the British he sees in every British government proposal, hostility to Canada and Canada's constitutional development. He will declare himself as the leader of the Canadian constitutionalists fighting to preserve our peace and autonomy. Senate reform will also be another topic but there is little evidence that Ontario is worrying over either our place in the Empire or the drastic economies practised during the past session by the Upper Chamber. In the West he will find more encouragement and can add to the constitutional issues another of greater popularity, "the death-knell of protection."

Right Hon. Arthur Meighen will speak at a series of political picnics, throughout Ontario in August and September. He will deal almost entirely with the fiscal problem, being as anxious to make this the issue as Premier King is to avoid doing so. There will be a series of Conservative conventions in the new rural constituencies, and the Ontario organizer is now engaged arranging for these. Hon. Dr. Tolmie will devote the remainder of the year to the West arranging for Conservative candidates on the prairies, for the edict has gone forth there must be a Conservative candidate in every constituency at the next election. It will take time to secure good men to lead the Conservative forlorn hope in many prairie constituencies.

The Progressive party in Eastern Canada is gone and only the members in the Commons remain as the rank and file are dispirited and dispersed. In the prairie provinces it remains strong in numbers and divided in councils. A convention will be held some time during this year in the hope that cohesion may result. Robert Forke the Progressive leader has failed to control his party or guide its councils. Not only has the "ginger" group repudiated his leadership but among those who remain in his party there is rank disloyalty. That he will be deposed appears inevitable and this would have happened before this if agreement could have been reached on his successor. The western convention will choose a new leader and formulate a new platform with free trade as the chief plank, but will also emphasize the desire for more advanced social economic and constitutional develop-

### ALARMING FOREST FIRE PERIL

There is a day of reckoning coming for the politicians who have been toying with forest conservation and who have opposed an embargo on Canada's only safe remaining wood supply—the fee land holdings. A forest fire catastrophe of appalling dimensions is bound to occur in the near future. With the annual destruction of fifteen million acres of forested area through the ravages of fire, fungi, insects and wind and the consequent drying up of the earth's surface—which is now apparent to everyone—the fire hazard is increasing to such an alarming extent that there is bound to be a forest fire or series of fires that will sweep the whole northern portions of Quebec, Ontario, Alberta and British Columbia the first day when weather conditions are right for such a catastrophe. It may happen this summer; it may happen this fall, it may happen next spring, but happen it will just as surely as daylight follows darkness. This is the reason why I stress the importance of conserving the wood on the fee-land holdings, which is now being exported to enrich the people of another nation.

A dry day, a high wind in the right direction, a spark, and this whole country will be laid waste, together with a loss of life heretofore unrecorded in forest fire history. With the present indifference of our political exploiters this is just as sure to occur as that a spark dropped into a powder magazine will cause an explosion, for the woods of northern Canada in a dry time are just as inflammable as gunpowder. This condition has been brought about by the blowing down of two hundred million cords of bird-worm killed trees, millions of acres of dry, tinder like, diseased, insected slash, and the lowering of the water table in the earth's surface, through the denuding of the fifteen million acres of forested area annually. The earth's surface is now so dry that in hot weather forest fires frequently break out and roads become dusty within two days after quite heavy rains, bearing mute testimony to the desec-like conditions that are approaching in this now over-denuded country.

An article which has just appeared in the International Monthly by Julian E. Kothery, Forest Engineer for the International Paper Company calls attention to the well-known fact that forest fires alone last season destroyed one-eighth of the wood-land area of one of the largest watersheds in the Province of Quebec—which simply means that seven years more of equal loss will reduce that great area to a desert wilderness, entirely aside from the depletion that is taking place through cutting, fungi, insects and wind. A grim awakening is in store for the Canadian people.

FRANK J. D. BARNJUM, Montreal, July 28th 1924.

It is apparent the election campaign is on whether the election is this year or next year or delayed until 1926. In the opinion of many it would be better for business to get it over with as soon as possible as economic instability will be greatly aggravated by continuous and prolonged political clash and propaganda. The decision rests with the Prime Minister, and if he sees a favorable opportunity Parliament will be dissolved this year, but if the clouds continue in the political horizon so will the present Parliament continue until they disappear or an election is compulsory.

KINDLY REMIT YOUR SUBSCRIPTION TO THE ADVOCATE

### We Give You 10 comfortable face days

For ten mornings we offer you all-day comfort that comes from having shaved cleanly, easily, quickly, without irritating sensitive skin. It is a test millions of men have made. Making it they discovered for themselves the 5 distinct advantages we produced in PALMOLIVE SHAVING CREAM.

For 18 months we worked—carried out 130 laboratory experiments—perfecting for you:

- Cream that multiplies itself 250 times in richest lather.
- That softens the wickedest beard in one minute—without "rubbing in."
- Lather that lasts, if necessary, 10 full minutes on your face—moist, luxurious.
- Strong bubbles that hold each hair erect—for cleaner, easier cutting.
- Finally, a cool, soothing, after-fee—thanks to our careful blend of palm and olive oils.

Shave this way for 10 days—note the difference in all-day comfort. After that you'll never go back to the old methods.

Post the coupon today. Get your 10-shave tube, free.

### How To Build Up Your Town

Building up a community is every one's job. The home owner, the landlord, the merchant, the housewife, the minister, the doctor, the school principal, the school board, the civic societies, the policemen, the fireman—in fact everyone with a distinct home interest must play his part. The local newspaper is the point of contact through which these various elements must function and express themselves. The home town publication is a mirror of the life of the community, inspiring, suggesting, helping and usually sacrificing a great deal to the general work of upbuilding. It is the concentrated reflection of the home town interests, as opposed to activities in its midst, whose sole aim is to take the home town dollar out of town and attach it to the bank account of some foreign corporation.

The appeal for the home town dollar is usually an appeal to cupidity camouflaged as safe and economical buying. For the most part it is made in secret—direct by mail—the circular, the booklet, the disguised mimeograph letter systematically prepared by expert mail salesmen, with the usual "follow ups" destined to extract and carry away to the distant bank account the money of the unthinking. The very secrecy of the appeal is its own condemnation.

It is amazing to note how slow is the average newspaper reader to appreciate the value of frank and open newspaper advertising. Not only in this way is the housewife enabled to see what the market has to offer, but in the frank open advertisement lies an absolute security from exploitation. Newspaper advertising is the housewife's weekly insurance. The day has passed when the advertiser dare be dishonest. The statements in an advertisement are shouted from the housetops. They are too easily checked up. They become the guarantee of service and honest dealing.

## Smokeless Locomotive

Built of wood at the Angus Shops, this full sized model of one of the latest type locomotives was designed originally as a feature of the dinner decorations at the Chateau Frontenac on the occasion of the Quebec conference of the Canadian Pacific Railway officers. Equipped with bell, whistle and electric lights, not a bolt or bar is lacking to mar the illusion which is that of a perfect engine coming through the wall against which it is placed. The headlight holds a portrait of E. W. Beatty, president of the Canadian Pacific. At the Toronto Exhibition, August 23rd to September 5th, the model will be given a prominent position in the Company's exhibit.

## SCHWAB TO MAKE SIX-WHEEL MOTORS

New York, July 27—Charles M. Schwab, Chairman of the Board of Directors of the Bethlehem Steel Corporation, announced yesterday he had accepted the chairmanship of the Six Wheel Company of Philadelphia which will manufacture a new type of six-wheel motor bus and truck.

This is the steel man's second important venture in the automobile field. Some time ago he became largely interested in the expanded Stutz company, the stock of which had been given a sensational and later disastrous boost by his friend Allan Kyan in 1920.

The six-wheel idea has been supplied before to trucks designed to carry exceptionally heavy loads. Heretofore such trucks usually have been used with a two-wheel trailer, the front end of which rested on the truck's rear. In the new truck the rear four wheels will be assembled in one unit, and power and brakes will be applied to all four wheels.

In a statement explaining the purpose of the company, Mr. Schwab said in part:

I have entered the automotive industry in the field of large capacity coaches and freight trucks, with the idea of providing a solution of the two outstanding problems of efficient and economical use of the highways by heavy motor vehicles.

"The highway is the roadbed of the motor truck and bus. Conservation of that roadbed is the basic principle of truck and bus operation if such operation is to be of great public service. Herein is the greatest difficulty of highway transportation. Loads sufficiently large to permit of economical operation have presented a serious problem of highway maintenance.

"Having this condition in mind a six-wheel motor vehicle has been developed which requires road impact to about one-fourth that experienced by four-wheel vehicles of like capacity in general use. With 2,941,274 miles of highways in the United States as compared with only 251,176 miles of steam railways and 47,159 miles of electric and street railways, the vast opportunity that has awaited the right type of highway vehicle is obvious.

"When railroads first used four wheel trucks under their cars, two wheel trucks became forever obsolete. The new type of six-wheel construction will, in my opinion accomplish the same thing for heavy duty highway motor vehicles."

## Swat The Pessimist

There are certain members of the human family who are having their day now. The pessimistic business men go about titter-tattering:

"Business is already falling off this will be a bad year."

The gloom dispensers are having their inning and every forward-looking business man should nail this talk with sledge hammer arguments.

These gloom dispensers will put off the coming of prosperity.

Well, here is one sure fact that economics establish; the more people believe this talk, the greater the likelihood of industrial depression.

A public state of mind is often as great a factor in bringing on depression as economic conditions.

## "Swat the fly" with GILLETT'S LYE

Costs little but always effective

## Justice Department Prepares Reference

The reference to the Supreme Court of Canada of the question of the powers of the Dominion Parliament and the Provincial Legislatures to pass and administer legislation respecting the eight hour day in the industrial undertakings, is in the course of preparation by the Department of Justice. The reference will come before the Supreme court for advisory judgment, and can if appealed to, be carried to the Judicial Committee of the Privy Council.

At the conference held in Ottawa last September between representatives of the federal and Provincial Governments, doubt was expressed as to the jurisdiction of the Dominion under the British North America Act. The purpose of the reference is to ascertain definitely the powers of the Dominion and provinces, and is the result of a recommendation made to the House of Commons in the last days of the session by the Committee on Industrial and International Relations. The Committee made its recommendations after examination of the draft convention adopted by the International Labor Congress of the League of Nations in 1919, limiting the hours of work in industrial undertakings to eight in the day and forty eight in the week.

Before the Supreme Court reference will be dealt with as an ordinary appeal case. It is uncertain yet as to what stand the Provincial Governments will take or what representations they will make before the Supreme Court.

## 40,000 HARVESTERS WANTED FOR WEST

At least 40,000 harvesters will be required this year to gather in the wheat crop of Canada, according to information given out by the Canadian National Railway offices here today. Of this number, approximately 20,000 will have to be secured from Eastern Canada, it being thought that the remainder can be supplied by the Prairie Provinces and British Columbia. This information is the outcome of a conference held at Winnipeg Friday attended by representatives of the Canadian National Ry., the Provincial and Federal Governments, and the Labor Board. It was also brought out at this meeting that harvesting is expected to commence in Manitoba August 20th and in Saskatchewan and Alberta about August 5th.

A further meeting is to be held on August 2nd in Winnipeg to determine the dates when the special rail fares for harvesters will go into effect. This date will be governed by the time when the farmers are prepared to accept harvesters. The representatives of the Canadian National Railways have assured the Government representatives that they are fully prepared to handle this traffic, the National system have approximately four hundred tons of the very latest type of colonist equipment held in readiness for the handling of excursionists, and in addition there are ready for service on the harvest trains a number of specially designed lunch counter cars, all of them larger and better equipped than any other cars of this type in the country.

## Here and There

Glass tubes filled with water are used as incubators for trout eggs at the Ontario Government Hatcheries.

Designed to prevent mildew, a Californian has invented a device which sprays wet or dry sulphur over grape vines.

More than 36 tons of food are required daily to feed hogs on a California ranch and it is distributed by means of an electric railway using side dump cars.

The light producing apparatus of the glow worm and firefly is said to be the most efficient in the world. The glow worm light is eighty times more efficient than a tungsten lamp.

Construction of a million and a half dollar factory building has commenced in Cornwall, Ont., which, when completed, will give employment to 500 hands. Artificial silk will be manufactured from pulpwood.

Crossing from Cnerbourg to Quebec in 5 days 19 hours, the Canadian Pacific S.S. Empress of France created a new record for the trans-Atlantic voyage. Her average speed on the record run was 20.155 knots.

Montreal officers of the Dominion Express Company state that the strawberry shipments this year have been much heavier than heretofore. The Ontario crop ripened quickly, but was easily disposed of.

Alberta Government wolf-hunters will this season again penetrate the barren land and wage war on the timber-wolves which prey on the caribou herds. Last season the hunters killed off several hundred of the predatory beasts in the country north-east of Great Slave Lake.

Beginning in the Autumn, German express trains will be equipped with combination radio and wireless telephones, enabling the sending of wireless messages, telephoning and the giving of radio concerts while the train is travelling at a high rate of speed.

A world's record for his senior two-year old Holstein Friesian Heifer, Williamsburg Pontiac, is claimed by Dr. M. W. Locke, Williamsburg, Ont., as a result of a 36 day test showing production of 2,788.5 pounds of milk and 113.82 lbs. butter fat, equivalent to 148.8 lbs. of butter.

The official Railway Guide, in commenting on the Air service which connects with the Canadian Pacific Railway at Argllers says:—"so far as we are aware this is the first instance on this continent where interchange of passenger traffic between railways and airplanes has been established.

In his address to the Associated Advertising Clubs of the World, at Wemoley, July 17th, E. W. Beatty, president of the Canadian Pacific Railway stated that the amounts spent on colonization by the Canadian Pacific Railway and the Canadian Government from the year 1881 totaled, respectively \$67,000,000 and \$35,000,000.

During the last four years the Canadian Pacific Railway has handled some 85,000 west-bound harvesters. Last year this company inaugurated the lunch-counter car, which afforded facilities hitherto unknown, and, although perhaps not as a direct result of this innovation, over 26,000 men travelled in special trains over Canadian Pacific lines.

The unveiling of a monument to Tom Wilson, earliest guide in the Canadian Rockies featured the first day's meeting of the two hundred and six members of the Trail Riders of the Canadian Rockies at Yoho Camp. Mr. Wilson, who was present at the ceremony and, now sixty-five years of age, resides at Enderby, B.C., discovered Lake Louise and the Yoho in 1882.

A. D. MacTier, vice-president of the Canadian Pacific eastern lines, who awarded to the McAdam team the First Aid Challenge Cup, which they won in competition with teams from North Bay, Toronto, Windsor Station and Angus, stated that since the Canadian Pacific Council of the St. John Ambulance Association was inaugurated in 1909, over twenty thousand employees of the Company have received instruction in First Aid. The last annual report of the St. John Ambulance Association referred to the Canadian Pacific as the "premier railway centre."

## 40 YEARS AGO

A picture of the delegates from the British Association for the Advancement of Science was taken in 1884 on board the Allan Liner Parisian. This unique photograph is published through the courtesy of Sir George George Green Hill who forwarded it through the Cunard Steam Ship Company. Sir George arrives at Quebec on Friday August 1st on the Cunard Steamer Caronia with Sir Ernest Rutherford, President of the Association and most of the remaining delegates. He is seen at the top of the picture with arms folded on the rail. He is the oldest living member of the British Association to-day.

### Editorial

HON. JOHN MORRISSY

The death of Hon. John Morrissy Liberal M.P. for Northumberland, which occurred last Thursday morning at Hotel Dieu, Chatham, came as a painful shock to his many friends throughout the country. The late Mr. Morrissy's public career extended over a period of nearly forty years and was a most strenuous one. Born at Newcastle seventy years ago of sturdy Irish parentage, he early developed a taste for public life and always displayed an active interest in municipal, provincial and federal politics. He was a born fighter and it is said, contested more elections than any other man in the history of Northumberland. He sat in the Legislature for fifteen years during eight of which he was a minister of the crown for the past 2 years was Northumberland's representative in the Federal Parliament. He was a fluent speaker, a man of engaging personality and there was probably no better known man in the province of New Brunswick. He was a charter member of the C.M.B.A., A.O.H. and Miramichi Council Knights of Columbus. His death is a distinct loss to the public life of New Brunswick and the sympathy of all classes will go out to the widow and family in their bereavement.

**THOUGHTLESSNESS AT FIRES**  
 The public is frequently extremely thoughtless in times of fire. Examples of this may be seen almost at any fire. When the alarm is sounded there is a great rush first to the fire station; then to the scene on foot, in team and by auto. This is only natural. But a jam of vehicles and pedestrians makes it difficult for any fire department to operate at its best. This is recognized in cities where fire lines are established to be crossed on penalty of arrest. The local Fire Department has recently been equipped with a motor truck, with the idea in view of getting to fires more quickly in the future than they have been able to do in the past with the use of horses and horse rickshaws. If automobiles, teams and pedestrians continue to congest the streets when a fire alarm is sounded, the firemen will be hindered in performing their duty as quickly as they wish to and it is not only possible but very probable that some one may be injured. The Fire Department has the right of way when going to a fire. The general public should realize such and endeavor to give them ample

room to perform their important work. It is not infrequently the case for the firemen to find two or more automobiles parked near the hydrants, which they must use, thus hindering the firemen at a most vital point. This is all thoughtlessness. A man who would park his car in such a place might be the very one to rush to the scene of the fire and do his utmost to extinguish the blaze. A fire department should be left unhampered in doing its work, and the public should bear in mind that the first few moments are of the utmost importance in fighting a blaze. In brief, people should give the department every chance in the world, and those who from any motive, good, bad or indifferent are a hindrance, deserve censure and in flagrant instances, punishment.

### Guard Baby's Health In The Summer

The summer months are the most dangerous to children. The complaints of that season, which are cholera infantum, colic, diarrhoea and dysentery, come on so quickly that often a little one is beyond aid before the mother realizes he is ill. The mother must be on her guard to prevent these troubles, or if they do come on suddenly to banish them. No other medicine is of such aid to mothers during hot weather as is Baby's Own Tablets. They regulate the stomach and bowels and are absolutely safe. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### EXPERIMENTS ARE ALREADY UNDERWAY

Experiments to find a method of protection against the death ray, recently discovered by H. Grindell Matthews the British wireless telephone expert now visiting in this country, are already under way, it was learned today, and the inventor of the ray is playing a prominent part in the tests through the impairment of one of his eyes from the secret properties of the ray. Dr. Henry H. Beers has undertaken research work to determine the nature of the ray and its effects on bodily tissue, and discover, if possible, materials which may be used as insulation. Dr. Beers is treating the inventor's eye, which became affected as the result of his experiment with the ray and he hopes he will so improve the sight of the eye that the inventor can continue his experiments. Just how far Mr. Matthews has shared the secret of the ray with Dr. Beers is not known, and the doctor today would not discuss the matter, but it is certain the physician has been made familiar with the properties of the ray so that he can make independent experiments.

### Damage Of Bucket Shops

One crook can destroy the reputation of a community faster than one hundred men can build it, says Jason Westfield, director of publicity of the New York Stock Exchange. He recently toured the country to warn business men against dealing with unreliable stock brokers. "The Wall Street bucket shop scandals aired in the public prints during the last few years show that not one but dozens of financial vultures have nested in Wall Street and done incalculable injury to the community by carrying on their nefarious activities in the name of legitimate business," he says.

### Forest Fires in N. B. This Season

New Brunswick has fortunately passed through another month with comparatively little damage occurring in the province from forest fires. While there were more large fires in July than occurred during the month of June, it is felt that the province has been most fortunate inasmuch as there was almost continuous drought for the first three weeks of the month.

A summary of the returns to August 1st shows the total number of fires in the province was 130, that they burned over approximately 12,000 acres evenly divided between Crown and Granted lands and that the estimated damage to both timber and property is approximately \$40,000. Of the 130 fires this season 11 spread and caused damage to Crown Lands, all the others being on either granted land or railway right of way. Twenty fires on the right of way of railways were discovered and extinguished by the railway patrols and section men; 2 fires along railways got out of control and did considerable damage—one being on the Fredericton and Grand Lake Railway's Line and the other on the Transcontinental Division of the Canadian National Railway at Sunbury.

A number of cases of violation of the fire law are being investigated. In one case where a settler started to burn during a dry and windy period and a large crew had to be employed to subdue the flames, the convicting magistrate imposed the cost of the fire fighting as well as a substantial fine upon the party responsible for creating the dangerous situation. Five campers who were found in the woods without registration certificates which are required from everybody entering the forests, have been prosecuted by the Department of Lands & Mines officials and convicted in the courts.

Just how rapidly a prosecution can be carried out was illustrated recently. During the period when all burning was prohibited a settler started a fire on his plot. A lookout observed the fire, spotted it and notified the ranger. En route to the scene the ranger picked up the local magistrate and the settler was caught in the act of starting the fire. The ranger ordered the fire put out and the settler worked feverishly until this was accomplished. Then he was taken before the Magistrate who held court on the spot; the settler pleaded guilty and a fine of \$50.00 was imposed, the fine being allowed to stand because of his successful efforts in extinguishing the fire and his promise of care in the future. The whole procedure, from the time the fire was observed by the lookout who telephoned to the ranger near the scene, occurred within fifteen minutes—which shows that the mills of justice can grind rapidly at times.

### LATEST USE FOR AUTOS

The latest use for which automobiles are used, is to lead, or rather drag a cow, which was fastened to the rear of the car. At times the pace set by the car was too fast for the cow, which naturally objected to being dragged through the town streets in this manner and held back more or less on the rope. The result was that she was pulled to her knees on the road and before she regained her footing was dragged on and off her knees for some distance. This may be one way of herding cattle, but it did not appeal very much to those who saw the experiment. What next?

### CANADIAN DOLLAR IN NEW YORK CITY

The margin separating the Canadian and United States dollars in the New York Market has narrowed to 13-32 of one per cent. discount against the Canadian currency. This represented the highest value attained by the Canadian dollar in New York Market in over a year.

Cessation of financing of crop movements as said in banking circles to be partly responsible for the strength of Canadian money. Dealers in Canadian exchange report that there have been shifting of balances from cities in the United States to Canada in the past month, part of this being for commercial purposes and part for tourist traffic.

Canadian currency also has benefited, it was said, through the drawing down of New York balances built up here earlier in the year. The popularity of Canadian securities, with investors on the American side of the line was demonstrated when two issues of Canadian National Railway bonds were absorbed within a few hours after they had been placed on the market, despite the fact that the interest rate was lower than that of any Canadian National issue since the war.

An issue of \$20,000,000 three-year gold bonds, put on the market by a syndicate headed by Dillon, Read & Company, was subscribed for by noon. By 2 o'clock the books were

also closed on the second Canadian National issue, an equipment trust issue of \$9,375,000 fifteen year bonds. The three year issue bore 4 per cent coupons and were sold at a price to yield 4.40. The equipment consisted of 4 1/2% bonds yielding approximately 4.90. Heretofore all such issues have been 5% bonds.

### BOURASSA TO HEAD PARTY TO MARITIME PROVINCES

More than one hundred and fifty representative citizens of the Province of Quebec will make a tour of New Brunswick and Nova Scotia including the Land of Evangeline and the Acadian districts in the middle of August. The tour which has been organized by the French Canadian newspaper Le Devoir, will be in charge of the editor, Henri Bourassa, leader of the Nationalist party. The party leaves Montreal on the night of August 17 and their trip over the Canadian National Railway will be made in a de luxe special train. The itinerary includes visits to Moncton, Edmundston, Grand Pre, Annapolis Church Point, Yarmouth, Tusket, Pubnico, Shelburne, Halifax and Memramcook. Arrangements are being completed for the official receptions to the visitors at these various points particularly at Grand Pre where the visit will coincide with the celebration of L'Assomption festival on August 19. White one of the main purposes of the

trip is to permit these citizens of Quebec to see something of two of the Maritime Provinces, the members are also embodying in it the mission of letting the French settlements of New Brunswick and Nova Scotia know that they are not being forgotten by their fellow citizens in the Province of Quebec. Messages from the French Canadian of Quebec will be delivered by Henri Bourassa who is one of the most fluent public speakers in Canada. Every large city in the Province of Quebec as well as Ottawa will be represented in the party.

### A BLOW TO THE BARBER

The barber, who has been reaping a rich harvest bobbing and trimming women's looks, got a blow last week, when delegates at the convention of American Cosmetics Society predicted that by September 1st, nearly every one will be wearing false bobs. It won't make any difference what style bob you want, "shingled" "Dutch, Snakes hips, bottle opener" or otherwise the woman will be able to get them by just calling on her favorite hair goods merchant. And since these bobs merely slip on over the hair as it is now worn there will be no trimming to do.

**WEDDINGS**

**BAISLEY—MULLIN**

The marriage of Miss Letitia Grace Mullin daughter of Mr. and Mrs. Amos Mullin, Trout Brook and Mr. William Alexander Baisley of Trout Brook was quietly solemnized Wednesday afternoon July 23rd at the Methodist church, Millerton the Rev. Robt. N. Brodie officiating. The bride was attended by Miss Minnie Allison of Wayerton and Mr. Karl Baisley ably supported the groom. After the ceremony the happy couple motored to Wayerton where in the evening they received a warm welcome. The many friends of Mr. and Mrs. Baisley extend hearty congratulations.

**OBITUARY**

**MRS. ALEX. REID**

The death of Mrs. Alexander Reid of Holtville took place at the Miramichi Hospital here Wednesday afternoon under sad circumstances. The deceased was taken ill at her home and rushed to the hospital where she underwent an operation in an endeavor to save her life, but without avail. She was formerly Miss Conroy of Taxis River. Besides her husband she is survived by two sons, aged two and five years. The remains were taken to Holtville Thursday morning for interment.

**MRS ELLEN MACKAY**

The death of Mrs. Ellen MacKay widow of George MacKay occurred at her home here last Monday after an illness of several months aged 55 years. The deceased was twice married. By her first husband, Wm. Whalen, she leaves one son Allan and one daughter, Charlotte (Mrs. Edward Roach) of Newcastle. The funeral was held Tuesday afternoon to St. Mary's Church.

**MANY PEOPLE AT  
FUNERAL OF HON.  
JOHN MORRISSY**

From every corner of New Brunswick and from every walk of life citizens gathered at Newcastle Saturday morning to pay their last respects to the Hon. John Morrissey whose funeral took place at 9:30 o'clock and was one of the largest ever seen in this county. The Senate of Canada was represented by Hon. Onesiphore Turgeon of Bathurst and Hon. Edward M. Farrell of Liverpool, N.S.; the House of Commons by R.B. Hanson, K.C. and J.G. Robichaud and the local Government by the Attorney-General, Hon. J.P. Byrne.

Miramichi Council K. of C. attended in a body as did also the Town Council of Newcastle and Chatham and A.O.H. was represented by grand officers Wm. E. Farrell and Hugh O'Neill of Fredericton.

The funeral cortege left the residence in the following order: Miramichi Council No 1219 Knights of Columbus marshalled by Major W. J. Duncan; Mayor Creaghan and Newcastle Town Council and officials; Mayor Hickey and Chatham Town Council and officials; Hon. J.P. Byrne, Attorney-General, representing Prov. Gov.; P.J. Cormier and Amos Legere representing New Brunswick, Dept. Public Works; A. J. Doucette M.P. for Kent; K.B. Hanson M.P. for York; Geo. B. Jones, M.P. Royal; Reid McManus M.P.P. for Westmorland; J.S. Martin M.P.P.; F.A. Fowle M.P.P. for Northumberland; Hon. O. Turgeon, Bathurst; Hon. E.M. Farrell, Liverpool N.S.; Hon. Dr. D.V. Landry, Buctouche; Judge Gaynor, Chatham; Newcastle police; W.E. Farrell, Hugh O'Neill, T.V. Manohan representing Fredericton Council Knights of Columbus; Dr. F.C. McGrath. Pallbearers—Howard McKenby, Daniel Desmond, J.F. Kingston; D.P. Doyle, J. Paulin; P.J. McEvoy. Mourners—J.T. Morrissey, C.J. Morrissey and two sons; W.L. Durick, G.F. McWilliam; G. Martin and John Keating, Wm. Murray, James Whalen, Anthony Adams, Thos. and Richard Gill.

A high mass of requiem was celebrated at St. Mary's K.C. Church by Rev. P.W. Dixon, assisted by Rev. Father McCarthy of St. John as deacon, Rev. J. Keane of St. Thomas College, Chatham as sub-deacon and Rev. P.W. Broudeau as master of ceremonies. There were present in the sanctuary His Lordship Bishop Chaisson and many of the diocesan clergy including Rev. Fr. Michaud, Rt. Rev. Fr. O'Keefe, Very Rev. Fr. Hawkes rector of St. Thomas College, Chatham Rev. Fathers Wheaton of Bathurst; Murdoch of Douglastown; Crumley of Blackville and Trudelle of Jacques River.

Following the mass and the blessing, interment was made in St. Mary's Cemetery. The floral tributes received by the family were numerous and beautiful and included wreaths from the Rt. Hon. W.L. MacKenzie King, Ottawa

**NEW ADMIRAL IN  
BRITISH NAVY**

London, July 31—Admiral Sir Charles E. Madden, a flag officer of the Royal Navy who was commander in chief of the Atlantic fleet from 1919 to 1922 has been appointed an Admiral of the fleet.

Admiral Sir Charles Edward Madden has had a distinguished naval career. He was fourth Sea Lord of the Admiralty 1910-11; Rear Admiral commanding 3rd and 2nd cruiser squadrons in the Home Fleet 1913-14; Vice-Admiral 1916 served in the battle of Jutland Bank 1916 and was mentioned in despatches, Chief of Staff to the Admiral Commanding in Chief 1914-16; second in command of the Grand Fleet 1917 and since 1922 when he retired from the position of Commander in Chief of the Atlantic Fleet he has been first and principal naval A.D.C. to His Majesty the King.

**JUDGE LEBLANC  
IN A VERY BAD  
AUTO ACCIDENT**

Judge Arthur T. LeBlanc of the Supreme Court Bench of New Brunswick had a narrow escape from death Thursday morning a few miles below Charlo when the steering gear of the auto which he was driving broke, with the result that the car wheel hit a boulder and bounded off into a ravine below. Fortunately, after the car had started down the ravine it crashed side-on into a tree, which held it solidly and prevented it from rolling to the bottom. Judge LeBlanc sustained some bad bruises to his face and body, but his 16 year old daughter Miss Aline had the misfortune to receive a broken jaw and is badly cut about the face by the flying glass, while the 13 year old son Tessier was also badly injured about the face, but his younger son Murit escaped without injury.

Immediately following the accident Judge LeBlanc had a farmer drive them back to Dalhousie in his car and from there cars were procured to take them into Campbellton where the injured girl and boy were admitted to the Hotel Dieu Hospital for treatment.

Judge LeBlanc was on his way to Moncton with three of his children when the accident happened, and it is nothing short of miraculous that the whole party escaped death. The car was pretty badly damaged.

**PILES**

Out of the mouths of babes and sucklings come much unconscious wisdom. Witness the following answers given by Moose Jaw school children to questions asked in their recent examination papers: "Define the word infinite."

A.—Infinite means a small baby. "What is the meaning of the word Dissenter?"  
 A.—One who suffers from dysentery "Who is the Governor-General of Canada?"  
 A.—A.G. Hawkes "What is America's national song?"  
 A.—Barney Google. "What could be more illuminating than the last answer"

**WOMAN COULD NOT WORK**

Made Strong and Well by Lydia E. Pinkham's Vegetable Compound

St. Paul, Minn.—"I took Lydia E. Pinkham's Vegetable Compound for a tired, worn-out feeling and painful periods. I used to get up with a pain in my head and pains in my lower parts and back. Often I was not able to do my work. I read in your little book about Lydia E. Pinkham's Vegetable Compound and I have taken it. I feel so well and strong and can do every bit of my work and not a pain in my back now. I recommend your medicine and you can use this letter as a testimonial."—Mrs. PAUL MASER, 801 Winslow St., St. Paul, Minn.

Just another case where a woman found relief by taking Lydia E. Pinkham's Vegetable Compound. Many times these tired, worn-out feelings and pains about the body are from troubles only women have. The Vegetable Compound is especially adapted for just this condition. The good results are noted by the disagreeable symptoms passing away—one after another. Lydia E. Pinkham's Vegetable Compound is a Woman's Medicine for Women's Ailments. Always reliable.

**FOUND VALUABLE BLACK PEARL IN A CLAM**

Mrs. Clifford Moller of Moncton is the possessor of a valuable pearl which she had the good fortune to find in a clam on Monday morning last. Mrs. Moller picked the clams at Point du Chene on Sunday last, and while opening them at her home on the following day she made the rare and valuable find. The pearl, which is a very large one, being three-quarters of an inch over, has been shown to local jewellers and pronounced very rare and valuable. While the pearl is jet black yet in looking at it from various angles it throws off various beautiful shades. Mrs. Moller intends having the pearl submitted to the pearl experts in some of the larger cities to ascertain its true value. Some have placed the value of the gem as high as \$1,000.

**YOU CAN GET RID OF DYSPEPSIA**

By Taking the Fruit Treatment In the Form of "Fruit-a-lives"

You can get rid of the pain; the heavy, uncomfortable feeling; the bilious attacks, headaches and constipation that accompany this trouble. The Fruit Treatment—which is the intensified juices of apples, oranges, figs and prunes combined with tonics—will always relieve Dyspepsia. Mrs. Thomas Evans, Everett, Ont., says: "I have been troubled for years with Dyspepsia, Liver and Kidney Disease from which it was impossible to get relief until I took 'Fruit-a-lives'. Thanks to their wonderful results, I am free of these ailments and am in normal health again." This is the kind of proof that convinces. The Fruit Treatment—"Fruit-a-lives"—is sold by all dealers at 25c. and 50c.—or sent postpaid by Fruit-a-lives Limited, Ottawa, Ont.

**WHITE BREAD IS ALLY OF CANCER**

Eminent Surgeon in Britain Advocates Wholemeal Loaf

London, July 28—The case for wholesome bread is unanswerable and undeniable" says the Weekly Express. "Long ago the Daily Mail marshalled facts and arguments to prove that white bread is made of flour from which some of the nutritious elements have been withdrawn. White bread, like very white and polished rice has been deprived of valuable constituents which are able to nourish and stimulate the human system. Wheat and other cereals are ideal foods when left in their natural condition; they become debilitating and dangerous when all the husks have been extracted.

"The Bulgarian peasant enjoying his rye bread, the Highland crofter with his oat cake, is, or was better nourished than the modern well-to-do Englishman with his elaborately whitened loaf which the miller and the baker have converted from the staff of life into an agent of destruction.

"Attention has again been emphatically directed to this important subject. Mr. Ellis Barker has brought together a mass of evidence which tends to show that cancer is the result of autotoxins generated within the system. For this self-poisoning improper diet is mainly responsible. A person may eat a great deal of food and yet be inadequately nourished if the food is of the wrong kind. There must be a sufficient supply of vitamins to maintain the functional balance and promote resistance to disease. Otherwise the road lies open to various grave maladies, of which cancer is the worst.

"This is a view which has received the endorsement of Sir Archibuthnot Lane, the eminent surgeon who holds that the eating of white bread favors the onset of cancer by lowering the bodily health and general vitality. White bread contains few vitamins. Wholemeal bread holds them in large quantities, for they are stored in the husks and outer integuments of the grain, which the steel rollers and sieves of the mills have crushed out and winnowed away. Other distinguished medical and surgical authorities have expressed the same opinion. They justify the old slogan: "Eat Wholemeal Bread."

"That is the way to ward off cancer and other disease. Science has not yet found out how to cure these; but this simple and sensible regimen may prevent them from developing.

"There is then, a rapidly increasing demand for wholemeal bread. It is not being met as it should be in all parts of the country. Every obstacle seems to be placed in its course by those who are interested in the production and consumption of the deadly white loaf. Flour merchants, millers, bakers are all against the reform so imperatively needed."

**Apple Crop Looks Better Than Last Year**

An official report on the apple crop of New Brunswick states that the drop was very heavy on account of the drought the rains coming too late to stop it. The drop is continuing and the final yields may be seriously reduced even yet.

Early varieties promise much better than last season but 1923 was a remarkably poor year. Yellow Transparent, Crimson Beauty, Duchess Dudley and Wealthy promise a full crop which would be fifty per cent better than 1923.

Later varieties also promise better than last year but not so well as the early varieties. McIntosh, Fameuse, Alexander, Wolf River; Canada Baldwin and Milwaukee promise a fair crop, or twenty-five per cent better than 1923.

Other winter varieties will be light to medium in yield. Pippin, Pippin, Tecumseh, Ben Davis; Golden Russet, Northern Spy and Bethel are in this class.

The tent caterpillar which, in some seasons has caused serious damage has given scarcely any trouble this summer. Scab is showing up badly in some localities however. This is a remarkable fact as weather conditions have not been those which usually favor scab. Unsprayed orchards are suffering the more heavily.

**Leave It Alone**

A young woman recently undertook to have her hair subjected to some process of glorification which, contrary to her wishes turned out to be anything but. Another young woman, reading yards of rejuvenation rubbish, sought to change the face that nature had provided her, the result being that now she is compelled to wear a heavy veil in public.

Both victims of scientific beauty culture were awarded substantial damages. But it is questionable if the money solaced them for the loss of what cannot be replaced. The moral is: Don't tamper with nature unless prepared to accept grave penalties.

The person seeking quick relief for ailments, either physical or legal, is fortunate if he or she doesn't regret the stupid economy that seeks out the quack or the cheap-jack instead of the qualified professional of recognized standing.

**Children Cry for Fletcher's CASTORIA**

MOTHER! Fletcher's Castoria is a harmless Substitute for Castor Oil, Paregoric, Teething Drops and Soothing Syrups, prepared to relieve Infants in arms and Children all ages of

Constipation Wind Colic  
 Flatulency To Sweeten Stomach  
 Diarrhea Regulate Bowels

Aids in the assimilation of Food, promoting Cheerfulness, Rest, and Natural Sleep without Opiates

To avoid imitations, always look for the signature of *Dr. J. C. Fletcher*. Proven directions on each package. Dispensaries everywhere recommend it.

**"Child's Eyelids Inflamed Stuck Together and Bled"**

Mr. E. P. Kimball, Entwhistle, Alta., writes: "Our little girl from birth was troubled with inflamed eyelids and in spite of several remedies, grew worse until at the age of sixteen months her eyes could not be opened after sleep without bleeding, a waxy discharge sticking the lids together and adhering with great tenacity. The child's grandmothers were consulted by mail, and both responded with a little sample box of Dr. Chase's Ointment. These were used as directed, and lasted until we could obtain a further supply from Edmonton. Improvement was very marked from the first application. The waxy discharge was easier removed and did not reappear. Inflammation subsided and has not returned."

**Dr. Chase's Ointment**

60 cts. a box, all dealers or Edmanson, Bates & Co., Ltd., Toronto

**Assuring Your Business**

A policy of advertising is a policy of life assurance, and the protection thus secured is well worth its annual cost.

Old customers die or move away—they must be replaced.

Old customers are subject to the influence of temptation—they may be induced to divide their custom—to do some of their shopping at a competitor's.

New comers to this community will shop with you—become regular customers—if they are invited to do so.

Your competitor's advertising is an influence which must be offset if you are to maintain your trade.

Not to advertise regularly to the readers of the UNION ADVOCATE is to leave your business unprotected.

**A WORD TO THE PUBLIC**

It is no sign of weakness to follow the lead of advertising. You owe it to yourself to get the most for your money, the best goods and the best service. And if you find that your inclination is to shop where you are invited to shop rather than to continue to be a customer of the shop which never solicits your good-will you need have no compunctions of conscience.

**Shop Where You are Invited to Shop**

**Hot Rolls and Butter**

The very thought of such a delicacy makes the mouth water. Whether it's Bread Rolls for breakfast, Rusks or Parker House Rolls for Lunch, Cinnamon or Tea Rolls for Supper, they will be better when baked with Robin Hood Flour, light, flaky, nourishing and rich in the flavor of the golden grain. The most appetizing Rolls are easy to bake with unvarying success if you use this "guaranteed flour" milled from selected western hard spring wheat.

**HAVE A PLAGUE**  
**OF WILD HORSES!**

For many years certain parts of  
New Zealand suffered from a plague  
of wild horses and the situation has  
now become so acute that drastic  
measures are to be adopted. It is  
estimated that there are many  
thousands of wild and semi-wild  
horses along the East Coast lands.  
The majority of the animals are of  
no particular breed and they are  
of little use. A big-round up of  
the horses is to take place in the  
near future and these will be col-  
lected and slaughtered and boiled  
down. The projected use of the  
land for dairying has necessitated  
the removal of the horses.

WITH COATED GUM  
R23  
The flavor lasts

**FIRE ESCAPE NOW**  
**MADE OF SILK**

The latest fire escape is of silk,  
and is made in the shape of a tube.  
It is very light and folds up so  
that it may be carried in the or-  
dinary traveling bag. In case of  
a fire it is lowered from an upper  
window, take hold of the end and  
stretch it so that it slants out and  
the people in the upper room slide  
down the tube one after another.  
As silk is naturally strong, the tube  
can be made fairly thin, and being  
elastic it stretches as required to  
allow a person to pass, but does  
not open quickly enough to let him  
down with a great rush. The  
speed of the descent can also be  
regulated by pulling the tube taut  
or letting it become loose.

**CLERGYMEN REGISTERED**  
Rev. F. E. Boothroyd, Methodist  
having removed to Prince Edward  
Island, his license to solemnize  
marriage in New Brunswick is can-  
celled. Rev. Robert M. Brodie of  
Millerton and Rev. C. E. Armstrong  
of Montague, P.E.I. are registered  
to solemnize marriages, the second  
temporarily.

**Large Increase In The**  
**Output of Copper in 1923**  
The smelter production of copper  
in 1923 according to the Department  
of the Interior as determined by  
the Geological Survey, was 1,477,000

000 pounds compared with 950,000;  
pounds in 1922 an increase of slight-  
ly over 55 per cent. The smelter  
production of copper for December  
as estimated by the producing com-  
panys was 132,000,000 pounds or  
at the rate of about 1,584,000,000  
pounds a year.  
The production of new refined cop-  
per from domestic sources, deter-  
mined similarly, was about 1,435,000  
000 pounds compared with 905,000,  
000 pounds in 1922. In 1923 the  
production of new refined copper  
from domestic and foreign sources  
plus the imports of refined copper  
amounted to about 2,118,000,000  
pounds compared with 1,359,000,000  
pounds in 1922. In addition to  
the output of new refined copper  
about 130,000,000 pounds of second-  
ary copper was produced at the  
refineries, compared with 146,000,  
000 pounds in 1922 so that the  
total output of refined copper was  
about 2,248,000,000 pounds in 1923  
and 1,505,000,000 pounds in 1922.

The imports of copper in manu-  
factured form during the first 11  
months of 1923 according to the  
Bureau of Foreign and Domestic  
Commerce amounted to 623,519,135  
pounds as compared with 514,013,000  
pounds during the entire year 1922  
and 350,472,611 pounds in 1921. The  
exports for the first 11 months of  
1923 amounted to 739,049,275 pounds  
compared with 743,039,858 pounds  
during the entire year of 1922. The  
figures showing the imports and ex-  
ports in December will be avail-  
able about January 20, 1924.  
The stocks of refined copper  
in the hands of domestic refiners on  
December 31, 1923 was estimated by

the refining companies were about  
256,000,000 pounds compared with  
216,000,000 pounds on December 1;  
1922. The stocks of blister copper  
and material in process of refining  
in the hands of the smelters in  
transit to refineries and at refineries  
on December 31, 1923 were estimated  
by smelting and refining companies  
at about 490,000,000 pounds compared  
with 361,000,000 pounds on December  
31, 1922.  
The quantity of primary refined  
copper withdrawn on domestic ac-  
count during the year was about  
1,305,000,000 pounds compared with  
897,000,000 pounds in 1922.

**Maritime Board of**  
**Trade Will Meet At**  
**Kentville This Year**

The annual sessions of the Mari-  
time Board of Trade will be held  
at Kentville, N.S. this year on  
Tuesday and Wednesday, September  
16th and 17th according to the de-  
cision of the executive members of  
the Board.  
The question of speakers at the  
annual session was discussed and  
it was decided to extend invitations  
to Hon. J. B. M. Baxter, M.P.; St  
John and H. J. Logan, K.C.; M.P.,  
Mehra and two other Maritime  
men to address the Board on this  
occasion.  
The executive also decided to ask  
the various Boards of Trade in the  
Provinces to send in what questions  
or subjects they wished to be  
brought up at the annual meeting.

**Palatial Canadian Pacific Liner To Go On Big Cruise**

In the upper left-hand corner is shown the Canadian Pacific palatial  
liner Empress of Canada, which will make the cruise of the world this win-  
ter and early spring. Other scenes depicted are some of the features that  
will be shown as they sail the seven seas.  
The Sphinx is the majesty of the Pyramids of Ghizea.  
Then comes Mount Fujiyama, sacred mountain of Japan.  
Nestling under the spreading branch of the tree is a Gelsia girl, and  
on her left is a willow tea house near Shanghai.  
Junks and sampans are shown on the Canton river, while palms throw  
the coast of Ceylon into shadow.  
Immediately over the Canadian Pacific locomotive is shown the Dal-  
bustina of Kamakura, better known here as Buddha.  
The gates of Benares, with countless minarets in the distance, will  
offer age-old lore for visitors, and the lower right-hand picture is of New-  
Carlo, with the greatest casino in the world.  
**THE famous cruise of the Cana-**  
dian Pacific steamer Empress  
of Canada, posted for this com-  
ing winter, is attracting much at-  
tention not only in Canada but in  
the United States and Mexico. The big  
21,500 ton liner especially adapted  
to world cruising and having won the  
speed record of the Pacific, the com-  
pany has chosen this boat to be the  
flagship of cruisers for the winter  
months.  
The circumnavigators on the Em-  
press of Canada will return laden  
with the rich experience and mental  
treasures gathered from vision of  
eighteen different countries and con-  
tacts with the costumes, crafts and  
civilizations of fifty different races.  
It will be a tour to ports of a thou-  
sand romances, unfolding the page-  
ant of the world from the cultured  
west to the barbaric splendor of the  
east. Shrines, mosques, temples,  
cathedrals, palaces, and the sacred  
treasures of the fabled Orient will be  
revealed to the gaze of these fortun-  
ate voyagers.  
Leaving New York at a time when  
the inclement weather drives those  
who can afford to escape to more  
equable climes, the Empress of Can-  
ada is due to reach nine days later  
the balmy shores of Madeira, an  
island of mountains thrown up as  
high as six thousand feet above the  
sea by volcanic action from the still  
unfathomed ocean bed.  
**TO VISIT WEST.**  
Gibraltar, reached on the morning  
of the twelfth day out, stands on  
guard like a rock-mounted policeman  
on an ocean trail. This famous for-  
tress of the British Empire was ori-  
ginally named after a Moorish in-  
vader of the eighth century, whose  
castle still remains. Known to the  
ancients as one of the pillars of Her-  
cules, it was formerly considered as  
the western extremity of the world.  
Already from the Straits of Gib-  
raltar the ragged purple and green  
and orange and blue of the Atlas  
mountains has cast the spell of  
Africa upon the voyager, and now at  
early morning of the fourteenth day  
the ship casts anchor in the harbor  
of Algiers, facing the Ivory terraces  
and minarets of a still half-Arabian  
city.  
Across the Mediterranean the ship  
now turns to Monaco, the high-step-  
ping principality on the south-eastern  
coast of France, at which all the  
Puritan world shakes its finger.  
Within its tiny area more fortunes  
have been lost and won than lives  
have been squandered on the battle-

fields of Europe. The tables at the  
Monte Carlo casino are forbidden to  
the twenty thousand local inhabitants  
who, however, have the consolation of  
being exempt from taxes.  
Naples is the next port of call, the  
largest, busiest and most populous  
port in Italy. Here opportunity is  
given to see the chief points of inter-  
est in the city and to visit Pompeii.  
Port Said and then Cairo and while  
the boat proceeds to Suez the passen-  
gers will be given four days in the  
land of the Pharaohs.  
**BRITISH OUTPOSTS.**  
From there, the visitors move on  
down the Red Sea, past Aden, another  
British outpost and on across the  
Indian ocean to one of the greatest  
ports in the world, Bombay. A stay  
of a week has been allowed for this  
port, and many trips inland have  
been arranged.  
After leaving Bombay the passen-  
gers will know where they are going  
as several hundred miles out from  
the shores of Ceylon, the heavily  
scented and spicy breezes indicate  
the longitude and latitude of the big  
liner. Three days are booked for  
this port.  
The trip to Rangoon, the greatest  
rice port in the world, and also one  
of the great lumber districts of the

south of Asia, is also one of interest.  
Singapore, the busy capital of the  
Malay states, is the next port of call  
and Britishers on the trip will be  
shown the foundation of the new  
naval base which is to be built there  
soon.  
**OVER EQUATOR.**  
Crossing the equator the Empress  
of Canada will then go to Batavia,  
the capital of the Dutch East Indies.  
With her nose turned north the  
liner will steam for Manila, the capital  
of the Philippine Islands, and one  
of the greatest educational centres in  
the world. Money bylaws for schools  
are always passed in this insular set-  
tlement.  
From Manila the travellers will  
be taken to Hong Kong, Canton,  
Macao and then to Shanghai, and  
special arrangements have been made  
to see China as China is.  
The next port of call will be in  
Japan, where all the leading ports  
will be visited and the Japanese  
Government is making preparations  
to demonstrate to the visitors that  
Japan is a friendly little nation.  
From Japan the liner will go to  
Honolulu and on May 24 will ter-  
minate her cruise at Vancouver, the  
passengers going overland from here  
to their various destinations.

Local and General News.

**Monster Picnic on Old Convent Grounds tomorrow starts at 1 P. M., and continues all afternoon and evening.**

**MILLION DOLLAR COMPANY**  
Fraser Gaspe, Limited, Plaster Rock; N.B. have been incorporated at \$1,000,000.

**BODY RECOVERED**  
The body of the late Miss Mary Hickey, who lost her life while in bathing at Nelson recently was recovered Friday afternoon floating near the scene of the accident. The body was brought to Hogan's undertaking parlors and the funeral was held from her late home on Saturday morning.

**BABE RUTH COMING?**  
It is reported that E.T. Wolfe editor of "Sportlife" Philadelphia who is now in the Miramichi woods has stated that it is practically certain that Babe Ruth, Herb Penlock and other members of the World's Champion Athletics of New York, will hunt big game on the Miramichi this fall.

**BASEBALL**  
The Richibucto Baseball team defeated a local team here last Friday night on the Farrell Field Diamond by a score of 6-3. The visitors were in good form and batted Briggs hard. He was replaced by Crak. A large attendance of fans were present.

**SPIRITUAL RETREAT**  
A spiritual retreat is being held at Bathurst this week for the clergy of the Roman Catholic Diocese of Chatham. The exercises began last evening and terminate Friday evening.

**A BIG CONTRACT**  
What impresses you most is the knowledge displayed by many concerning horses. It is very illuminating to listen to the reasons why this horse lost and the other horse won, coming from a source whose "horse education" was wholly neglected in the past. The man who has the idea that he knows all about the game and can dispense the "real dope" has assumed a very large contract.

**SEWING CIRCLE GOSSIP**  
There was some discussion at the Sewing Circle this week about the Chinese game of Mah Jongg. The wife of the new Bank Manager said that she liked it very much and that she thought it was going to supersede bridge. With the latter view, however, the wife of the Radio Operator did not agree. She said Mah Jongg was a game invented for people who could not learn to play bridge, and-but fortunately at this point the discussion was interrupted by the arrival of a maid carrying a pot of the famous LUXOR COFFEE, and was not renewed. Mah Jongg is a good game, but LUXOR is a better coffee.

**ATTENDED FUNERAL**  
Among those attending the funeral of the late Hon. John Morrissey were Hon. J.P. Byrne, representing the Provincial Government; Edward J. Cormier, representing the Dept. of Public Works; Ambrose Legere of the Dept. of Public Works; Reid McManus, M.P.P. of Westmorland; Mr. Doucett M.P. for Kent; Geo. B. Jones, M.P. for Koyal; R.B. Hanson, M.P. for York; Hon. Dr. Landry, Buctouche; Hon. Senator Turgeon, Bathurst; J.S. Martin, M.P.P.; F.A. Fowlie, M.P.P. Northumberland; T. Monahan, W.E. Farrel, H. O'Neil, Fredericton; Judge Gaylor, Chatham; and J. Grant, Westmorland. The Rev. G. W. Macmillan officiated.

**EXPECT SEASON EXTENDED**  
The fishermen on this river expect that the salmon fishing season this year will be extended to August 30th.

**10 YEARS AGO**  
It was 10 years ago yesterday, Aug. 4th, since Great Britain declared war on Germany.

**SHIPPING QUIET**  
Shipping on the Miramichi is very quiet at the present time, there being only three steamers in port.

**FOREST FIRE**  
A large forest fire was observed last week burning in the direction of Black River Northumberland County.

**EMPRESS THEATRE**  
Not since "The Miracle Man" and "Humoresque" has there been a picture that tugs at your heart like "Big Brother." Its a story of the real underworld as it has never been told.

**Tomorrow's Picnic on Old Convent Grounds include Big Features; House-House, Merry-Go Round, Racing, etc**

**BEAVERBROOK COMING**  
Lord Beaverbrook, formerly of Newcastle, and well-known as a financier and the proprietor of the Daily Express, London sailed for Canada on Saturday, on the Empress of France.

**GOING TO RICHIUCTO**  
A local team of baseball players will go to Richibucto on Thursday to play a friendly game of baseball there. A return match will likely be arranged for, to be played here in the near future.

**WEDNESDAY'S ATTRACTION**  
One of the many attractions for tomorrow's picnic will be a baseball game in the afternoon between the "Night Hawks" and the "Creosotes on the Farrell Field diamond. Game starts at 2 o'clock.

**ALMOST MET DEATH**  
Last Wednesday night while working at the Pulp Mill, Norman Croft, about 20 years old came very near death. He stumbled and fell into the conveyor, but fortunately no bones were broken. He was rushed to the hospital in a state of unconsciousness, where his bruises were attended to.

**FIRE AT UPPER NELSON**  
Mr. Alexander McKinley of Upper Nelson had the misfortune last Sunday morning to have his residence and woodshed destroyed by fire. The fire broke out about 4 o'clock in the morning in the kitchen and gained headway so fast that very little furniture could be saved. Mr. McKinley carried some insurance but his loss will be considerably in excess of the amount carried by him.

**ECLIPSE OF MOON**  
NIGHT OF AUG. 14

Ships of the United States Navy all over the world will make observations of the eclipse of the moon on the night of August 14. Secretary of the navy Wilbur, has so advised the astronomical authorities at Harvard University who plan to make unprecedented efforts to secure complete data on that occasion. According to scientists the eclipse will be visible in South America, waters, along the coast of Europe north of the Arctic circle, thence across Siberia to the coast of Europe, north of the Arctic Circle, thence across Siberia to the coast of China and across the South Pacific to Australia and New Zealand.

**ALL TALKING**  
Everybody is talking about the Big Picnic to be held tomorrow by the congregation of St. Mary's Church on the old Convent grounds.

**GOOD TIME**  
You are assured a good time if you attend the Mammoth Picnic of St. Mary's Congregation on the old Convent grounds tomorrow.

**CLOSED FOR TWO WEEKS**  
My dental office will be closed until about August 15th.  
J. D. MACMILLAN,  
Newcastle, N.B.

**SOCIAL DANCE**  
The usual weekly dance given by the Rainbow Five Orchestra of Moncton was held in the Town Hall last Friday night. Many enjoyed the music and dancing.

**FOUR ACCUSED OF ASSAULTING YOUTH**  
Warrants were sworn out last week for four young men residents of Redbank, on the charge of assault and occasioning actual bodily harm to Elmer Parks of Redbank. Young Parks was brought to the Miramichi Hospital to have his injuries dressed.

**AFTER THE SPEEDERS**  
The local Police Department is after the automobile speeders who exceed the speed limit in the town streets. The King's Highway is a favorite street for the speeders "to step on the gas" but several of them were warned on Sunday evening to be more careful in future.

There is a difference between just good tea and very good tea; it is a difference in the little thing called flavor. MORSE'S SELECTED ORANGE PEKOE is a very good tea, and the very first second, you taste it you are sure to say to yourself: "Yes, it has the flavor that distinguishes it from just ordinary tea."

**TENNIS TOURNAMENT**  
An interesting friendly tennis tournament was played last Saturday afternoon on the local courts between Bathurst and Newcastle, in which the former were winners. The visitors were tendered refreshments on the tennis grounds and a dance in the town hall in the evening.

**90TH BATTERY C.F.A.**  
The officers, non-commissioned officers and men are requested to meet with the O.C., Wednesday evening, August 6th at 8 o'clock, at the Armory for the purpose of making arrangements for local training and receiving applications from those desiring to attend Royal School Artillery at Kingston, Ont.  
H.H. RITCHIE, Major  
O.C. 90th Battery, C.F.A.

**POOR LIGHT IN SQUARE**  
The electric lamp in the square over the fountain appears as if it was almost burned out. The light given by it last evening was very poor and possibly a new lamp would remedy the trouble.

**MONCTON'S CHOICE**  
By a vote that was unanimous E. A. Reilly, K.C. was last Friday night nominated to be the standard bearer of the Provincial opposition party in the City of Moncton by a convention that was as enthusiastic, as it was representative of the business and industrial life of the city. The meeting was held in the City Hall and was participated in by all classes of citizens.

**GENIUS**  
Genius of a high order is required when a politician can tell the truth and be elected.

**BACK SLAPPING**  
Efforts are being made to put an end to handshaking. Guess it's all right but first abolish back slapping.

**NOT TO BE FOUND**  
What ever became of the old fashioned dandy who refused to go out of an evening because she had nothing to wear.

**WISE SPORTSMAN**  
The wise sportsman who has been bitten hard not only will bear the knock philosophically but will act promptly to prevent its recurrence.

**FIRE AT BUCTOUCHE**  
A heavy loss was caused by fire in Buctouche on Sunday morning when the new National Hotel was burned to the ground and part of the A. & R. Loggie warehouse was destroyed.

**HUMILIATION**  
With all their education and consciousness of being darned smart, Leopold and Loeb would be greatly humiliated if they were declared plain crazy.

**Wanted**  
A woman as Cook and General Housekeeper. Apply to
