AN UNFORTUNATE ARRANGEMENT

Commissioners are credited with saying that if the charges are not proven they will resign. That probably is the only course open to them under such circumstances, for they seem to have concluded that they cannot go on properly as long as they are executive. But it does not promise much for the impartiality of a trial when the judges declare that the accused must be convicted of that which they themselves must give up their places.

REQUESTING ENGLAND TO COMMIT SUICIDE

The suggestion has been made in rather open fashion by Canadian protectionists that the Dominion should bring pressure to bear upon the Mother Land to impose a tax against imports from all other parts of the world. This greedy proposal is portrayed by the Montreal Mirror in language graphic because undeniably true.

Imperialism speaking thus could hardly be anything more wrong than the proposal of Sir John Forrest that the dominions should club together to force the mother country into adopting, for their sakes, what would be to her a suicidal trade policy. In saying this we are quite aware that there are many people who are blinded by their own interests, or under the influence and glamor of the cases that are so blinded, who see good and not harm to Britain in the adoption of a protection policy. But it ought to be obvious to all who are in a position to look on the conditions dispassionately that Great Britain depends absolutely on her position as the workshop of the world and banker for the outer world. Out of her own soil she produces far too little for herself to live on.

CROPS AND LIVE STOCK

The Census and Statistics Monthly contains the following report by Mr. Archibald Blair, chief census officer, on the condition of Canadian live stock at the end of March:

The reports of correspondents show that out of a yield of 149,983,000 bushels wheat harvested last year 141,085,000 bushels or 94 per cent were merchantable, and that at the end of March 23,042,000 bushels of the whole were in farmers' hands. The quantity held by farmers in the Maritime provinces at that date was 468,000 bushels, in Quebec 477,000 bushels, in Ontario 5,002,000 bushels, and in Saskatchewan and Alberta 27,995,000 bushels. At the same date last year the quantity in hand was 23,449,000 bushels, or 15.6 per cent, and the quantity in hand at the end of March last year was 141,495,000 bushels, or 10.2 per cent, and there was a total of 321,190,000 bushels or 90.85 per cent, of merchantable oats.

The harvest yield of 1910 was 151,447,000 bushels, and of this quantity there was in hand at the end of March 12,145,000 bushels, or 29 per cent. The merchantable yield was 41,505,000 bushels or 91.83 per cent. The barley crop of 1909 was 52,398,700 bushels and the quantity in hand at the end of March last year was 16,517,000 bushels or 29.81 per cent. The merchantable quantity of that crop was 21,450,000 bushels or 92.87 per cent. Ontario's crop last year was 29,727,000 bushels, and that of the three Northwest provinces 13,777,000 bushels.

CANADA AND THE EMPIRE

Toronto Globe: The timely warning of Mr. Bryce as to the mischief that invariably follows interference by one power in the domestic affairs of another should be pondered over by the British allies who are taking the most silence made the alliance possible.

MONDAY, MAY 22, 1911.

from them. Whatever chance the allies have of defeating the agreement they owe to the most silence made the alliance possible. Once again the Western Opposition members had it in their power to call a halt when their leader declined to prevent the passage of the agreement before the adjournment of Parliament. But again they declined to exercise the power they held.

It took a long time to get the present freedom from hampering restrictions imposed by outsiders, and it was reached only by persistent effort after much unpleasantness by the way. It is absurd to suppose that a franchise which cost so much will ever be bartered away for any consideration.

It has also made quite clear that there is no incompatibility between the preference granted to British manufacturers and the proposed reciprocal agreement with the United States. The agreement provides for the free admission from the United States into Canada of natural products which we do not import from the United Kingdom; the preference will grant the British manufacturer articles as to which there is keen competition between the two countries on the continent of Europe.

THE LONE GRAY WOLF

Montreal Herald: For once in a way, those who do not see eye to eye with Mr. Foster in his present attitude, there can be little doubt that he is rightly interpreted. The independence of his own side of the House who made the fuss they did about paying the expenses that the British number of members who go to London on the invitation of a Parliamentary Committee in Great Britain.

THE WESTERN OPPOSITION OF RECIPROCITY

Most of the Western Opposition members continue to suffer from lack-lustre on the reciprocity agreement. What they think of the measure they have not publicly said. Which way they intend to vote their constituents know not.

This heroic stand under other conditions might be explained by common cowardice, or by unwillingness to add another to the troubles of their already much-troubled leader. But the circumstances rather indicate that the oppositionists have made it up wrong from the standpoint of their constituents and intend to vote accordingly unless they are given to understand that it is a matter of political expediency and certain.

Where Ignorance is Useful, Governor Osborne, of Michigan, is a case in point. It is true that that Canadian grain is inferior to that of the United States, and it is to be hoped he keeps right on thinking that way—and helping along the agreement. His subsequent disillusionment will come too late to deprive the movement of his assistance while it is needed.

WHERE CANADIANS HAVE AN ADVANTAGE

It costs less to manufacture news paper in Canada than in the United States. This on the authority of the United States tariff commission. The Canadian mills are able to do a cheaper supply of pulp wood and are equipped with better machinery.

MONDAY, MAY 22, 1911.

the discussion of the reciprocity agreement has served one good purpose; it has made perfectly clear that an overwhelming majority of Canadians are uncompromisingly in favor of maintaining the commercial freedom of this Dominion.

The people of Canada, while they frankly and loyally regard themselves as citizens of the British Empire, are unalterably opposed to any thing that would hamper their freedom of movement. They believe to be their better price for their pulp wood from the United States manufacturers than the Canadian millers pay them.

WORTHY OF REMEMBRANCE

The annals of fact, and probably the pages of fiction, would be searched in vain for a more thrilling story than that which is concealed rather than revealed in the diary of the late Inspector Fitzgerald. Dressed in the language of romance, the story is one to grip the imagination and stir the admiration of the reading world. But it is typical of the men and the force that it is not told in such language.

RAIN WAS GENERAL OVER THE PROVINCE

Every Section Has Been Favored With the Required Moisture—All Anxiety For a Good Crop Has Been Dispelled—Rain Growing Fast.

From Friday's Daily. More rain is said to have fallen through Alberta during the past thirty-six hours than fell during the whole of earlier part of the growing season last year.

The precipitation of moisture has been general over the entire province, from the international boundary line to Athabasca Landing north.

The moisture has come in sufficient quantity and in such a manner that the ground is completely saturated far below the roots of the growing grain and grass.

As a result of the rain the entire province is green with a green mantle of young grain and grass. The crops are in full leaf and the country presents a very pleasing picture.

PARLIAMENT ADJOURNS ON FRIDAY, FOR FEW WEEKS

Premier Scott Declares Saskatchewan People are Practically Unanimous in Approval of Reciprocity—Hon. George P. Graham Urges East to be Liberal With West in Matter of Railways.

Ottawa, May 17.—Hon. Mr. Fielding announced tonight that the House will adjourn at the week-end and previously determined. The government proposes to advance legislation as much as possible in the meantime.

The minister said he had his eyes opened when in the West last summer he declared that if Canada had the courage to give the country transportation facilities she would secure the carrying trade. He referred to the development plans for the construction of the Hudson Bay railroad.

Speaking at Toronto of the Coronation, Premier Scott, of Saskatchewan, declared the people of his province were practically unanimous in support of reciprocity. "But it is not," said he, "and in ten years the population of Canada will be double."

Largely attended meetings of farmers in Huron, Bruce and Essex counties bespoke the mind of rural Ontario by adopting resolutions commending the government for the reciprocity policy and declaring that it would be the greatest move in the country's history to market would take back eastern products to the western markets.

THE OBITUARY.

London, May 19.—The mystery surrounding the reasons for the Empire's consent of a representation of the battle of Chateaugay has been added to by a so-called explanation from Bertha Wilson, a member of the Canadian committee. Mr. Wilson admits that Whitelaw Reid, the American ambassador, told him that the representation of an historical event which happened before the battle of Waterloo, but says the commissioner got protests from a source he refuses to reveal which caused the abandonment of the project.

KING GEORGE WON FITZWILLIAM STAKE.

Lancaster, England, May 19.—King George won his first victory on the turf today when His Majesty's chestnut colt, Platadam, by Florizel II, and Guinea Hen, won the Fitzwilliam stakes, a sweepstakes for two-year-olds, over five furlongs, from a smart field. Loyal crowds lining the course received the royal victor with great enthusiasm.
