During Change of Life, says Mrs. Chas. Barclay Graniteville, Vt.—"I was passing brough the Change of Life and suffered

from nervousness and other annoying symptoms, and I can truly say that LydiaE.Pinkham's Vegetable Compound has proved worth mountains of gold to me, as it restored my health and strength. I never forget to tell my friends what LydiaE. Pinkham's

Vegetable Compound has done for me during this trying period. Complete restoration to health means so much ing women I am willing to make my trouble public so you may publish this letter."—Mrs. Chas. Barclay, R.F.D., Graniteville, Vt. No other medicine for woman's ills has received such wide-spread and un-qualified endorsement. No other med-icine we know of has such a record

of cures of female ills as has Lydia E. Pinkham's Vegetable Compound. For more than 30 years it has been curing female complaints such as inflammation, ulceration, local weaknesses, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration, and it is inequalled for carrying women safely through the period of change of life. It costs but little to try Lydia E. Pinkham's Vegetable Compound, and, as Mrs. Barclay says, it is "worth mountains of gold" to suffering women.

The Trinity Railway.

Editor Evening Telegram. Sir,-In your issue of Nov. 10th appeared a letter expressing indigna-tion on the part of a disappointed Trinitarian, because there seems some possibility of the Branch Line Bonavista passing within one and nalf miles of the village of Trinity, without entering it. There are certain facts in connecion with this matter which need ven-

It is quite true that the line does not actually enter Trinity.

The station, however, for Trinity as at present contemplated would ituated one and a half miles from the illage, and the latter is thoroughly accessible by a thoroughly good driv ng road. In order to run the train to be built, for which another con

ract with the Reid Co. would have to e formulated. Before such a contract is made the lectorate should be shewn good reaons for the tremendous extra exense entailed in building such a subranch as the one your correspondent

writes of. The cost of the sub-branch would half of line). Besides this there would be very large compensation to be paid for the land not yet acquired

I'rinity? The population is somewhere about 00, and your correspondent does well ot to "trespass on your space" in at

railway almost two miles away from the centre of population."

The centre of what population? In passing through Trinity East and Port Rexton the line passes immediately through about 1,100 people with another 1,100 within three or

miles of it. The last number might more rea ably clamor for a sub-branch, than inity of the 400. So far as the railis concerned its object seems to e to pass through and among the reatest number of people, hence it

roids the village of Trinity. Should, however, such a sub-branch built, what is the result to the pubhey would have to pay ten cents ex tra fare for the privilege of being side tracked as it were and delayed at least an hour in Trinity. Freight from St. John's for Bonavista, Catalina and East Trinity would also be proportionately charged extra.

A very large expenditure for the Colony, and quite unnecessary delay with increase in fare for passengers and freight for points North of Triny would be the direct result of such sub-branch. The disappointment of a few is not ufficient reason for the electorate to anction such a proposal.

"Trinitarian" produce reason

able evidence for the extension of a

spur line into Trinity; let him show the exact whys and wherefores of such a proceeding, and then when the general public thoroughly understand the proposition, let those who pay the ELECTOR.

Indigestion & Dyspepsia

In all its Forms can be Cured. It is quite a dally occurrence to hear persons say: Oh, what a feeling of distress I have after meals, fullness of the stomach, heaviness and head-ache, I feel too tired to do anything. I have no heart to exert myself and at times I care for nothing. I often have a pain in the pit of my stomach, no appetite, my heart beats rapidly on the slightest exertion. I feel just as tired when rising in the morning as when retiring to bed. My sleep is often disturbed, and I often awake with a sense of suffocation and a difficulty of again going to sleep. I have to be careful of what I eat, and my life seems a veritable burden.

Now, it seems a shame and a pity for persons to be suffering like that when it is in their power to get cured by taking a Bottle of Dr. Stafford's Prescription A. A sure cure for persons afflicted with stomach troubles.

The concert held at the Methodist College Hall last night in aid of the Regulus-Golden Arrow Fund was fairly well attended. Owing to the condition of the weather many were obliged to remain home. Mr. Allen played Chopin's Funeral March as an opening piece. Mr. McD. Martin sang "Tom Bowling," Miss Anderson played a piano solo, and Miss Strang sang a solo, 'Oh Lovely Night," Mr. Frank Seymour "The Bay of Biscay, Oh. Miss Elsie Herder's solo was Three Fishers," followed by Miss Johnston's violin solos. Miss J. Strang sang "Winds in the Trees" and Mr. L. Woods "Forever." Mr. Alfred Hall gave a plano solo, and Mrs. Job rendered very sweetly "Serenata" with violin obligato by Miss Johnson. The accompaniments were played by Mr. Allen and Mr. Hutton. The event was very successful and all the ladies and gentlemen who so gave their services free we warmly applauded. The action of the warm-hearted young ladies who undertook to organize the concert such a worthy object should rightly appreciated by the public.

In the opening article, Mr. Bonnycastle Dale tells how boys make clever hunters, trappers and fishermen and with what skill hey decimate the inhabitants of the forest. Exploration in the country, fishing and mountaineering topics, with many other papers and fine verses, fill a number which should find its way into all hunting camps. Boyril-from 21/2 to 71/2 grammes-was then added to the food, with the result that the weight of the animals went up as much as 50 to 100 grammes, or, in round numbers, 10 to 20 times the weight of the Boyril given. Afterwards Bovril was discontinued. and the animals fell back to the original weight. would have to be enclosed in a her-metically sealed coffin, and relatives would not be able to see it." Similar statements were made by officials of the Cunard and White

House of Lords And Self-Reform.

London, Nov. 16.—Pending Premier Asquith's official statement before Parliament on Friday small hope i entertained of clearing up the involved situation which has resulted from the sudden change caused by Lord Lansdowne's call for the Veto Bill.

The feature which stands out in the present position of the parties is that the House of Lords finally has awakened to the absolute necessity of undertaking self-reform. The Radical leaders, in connection with this late repentance look upon it with the utmost suspicion, and it remains to be seen whether it will eventuate into an agreement which the abortive veto conference failed to achieve.
