

HARD ON LOAN COMPANIES
MANITOBA FARMERS WILL PAY OFF THEIR MORTGAGES.

The Big Crop Will Put Them Nearly All Out of Debt—Suggestion For an Amalgamation—Quebec's Good Financial Showing—Hon. Mr. Chapleau's Party Leave for the Coast.

Montreal, Que., Aug. 28.—"It has been in Manitoba 16 years, and has seen nothing like the present year's crops and the so-called great yield of 1887 is simply not in it compared with that of 1888."

These encouraging words were spoken by your correspondent this morning by Mr. Acton Burrows, an old newspaper man, who arrived in the city to-day from Winnipeg. "In 1887, Manitoba reported 14,000,000 bushels of wheat, and the figures for 1888 are not less than 24,000,000, with a total wheat yield of 30,000,000 and 57,000,000 bushels of all grains."

"What will the value of all this be?" "Well, it is estimated that the total grain products of Manitoba will reach from twenty to twenty-five million dollars."

"What will the standing of the Manitoba farmers this fall be?" "They will at least receive an average of 45 cents for their wheat, and it is safe to say that their store bills and other liabilities will be wiped off."

"Will wipe off their mortgages?" "And what about the mortgages?" "A good deal has been paid, as a Toronto Loan Company informed me not long since that they were having some difficulty in getting their loans renewed. A good many of the Manitoba farmers were indebted to their farms. However, for my part," continued Mr. Burrows, "I think we are having some trouble for our farmers to attempt to make it. It would certainly be better to apply for a loan for the present year's surplus revenue to the improvement of their stock and outbuildings, and I am under the impression that the money that will be done in a good many instances."

"Extending Stocks From Ontario." Speaking of mortgages, and mixed farming, Mr. Burrows referred to the condition of affairs along the line of the Manitoba and Northwestern Railway, where the frosts of a year ago scared off the cattle and horses, and the result? The farmers went at mixed farming and to-day they are better off than the people of any other section of the province. The price of beef having gone up very considerably, great quantities of cattle have been sent out of the province by Gordon & Ironsides and other dealers, and the immense advantage of the present year's important feature was also pointed out. Private parties have purchased no less than 40,000 head of cattle in the district south of Owen Sound, Ont., and are placing them on a ranch at Porcupine Hills, where there is a stay of two years they will be shipped to the English market.

"Is this a new scheme?" "No, it was first tried some years ago by Brandon firm and the success was most marked."

"An Immigration Commission." "What are the Duke and the people of Manitoba as regards a vigorous immigration policy?" "That is the most important question you must remember that the enormity of this year's crop is the work of less immigration should be in the hands of political parties and should be composed of representatives of the Government, transportation and the land companies."

"Quebec's Good Financial Showing." "The Legislature of Quebec will call the Legislature of Ontario in the month of October, and the Treasurer will state of a very favorable state of affairs. The province has about \$100,000,000 of public debt, and the friends of the Government are on the right side. The balance of the year has been heavy in the Attorney-General's Department on account of the wave of crime which has passed over the province of late."

IT WILL LOWER THE LAKES.

GOVERNMENT ENGINEERS REPORT ON CHICAGO DRAINAGE CANAL.

It Will Lower the Level of All Lakes Save Superior and Western Lake Superior—Capacity of All Harbors and Shallows—Only a Question of Two Years at the Most.

Washington, Aug. 28.—The report of the Board of Engineers, detailed to report upon the probable effect and operation of the Chicago Drainage Canal upon the lakes and harbor levels and upon the navigation of the great lakes and their connecting waterways, was made public to-day. There is nothing to show, the report says, that the consent of Congress has been asked for this enterprise, and it is certain that it has not been treated as an important matter of national affairs. With this established fact, it is impossible to think the supervision of the United States will not extend to the canal as soon as it becomes a part of the system of navigation waterways.

If the Chicago Drainage Canal is built, the level of all lakes save Superior and Western Lake Superior will be lowered. The capacity of all harbors and shallows—only a question of two years at the most.

ELOPED WITH HIS NIECE.

Christopher Waterstone, a Former Toronto Man, Describes His Wife in New York.

New York, Aug. 28.—Clapp & Company, bankers and brokers, in the Mills building, in Broad-street, have lost their cashier and a young woman typewriter and stenographer, and with them went a sum of money which may amount to several thousands of dollars.

Incidental to the loss, a wife has been deserted by her husband. The missing cashier is Christopher T. Waterstone. He is about 40 or 45 years of age, of the name of Clapp, the head of the firm, says that Waterstone had come to him well recommended about five or six years ago, and had been engaged as a bookkeeper. As time advanced he was made cashier and was still their most trusted man.

Mr. Clapp discovered that Waterstone had been married for about four or five years. It seems that when he was living in Fourteenth-street he met a young woman named Mabel, who had already been married and had a child. She had fallen in love with her, and they were married. Mrs. Waterstone came from Montreal. At that time the mother had a young daughter, who was now a typewriter and stenographer, studying in New York.

Mrs. Waterstone came from Montreal. At that time the mother had a young daughter, who was now a typewriter and stenographer, studying in New York.

Waterstone took an interest in her, and she was very devoted to him. He had been married for about four or five years. It seems that when he was living in Fourteenth-street he met a young woman named Mabel, who had already been married and had a child. She had fallen in love with her, and they were married. Mrs. Waterstone came from Montreal. At that time the mother

ATHLETICS ARE OUT OF IT

BRAMPTON EXCELSIORS BEAT ST. CATHARINES BY 4 TO 3.

And Seaford Has Practically Won the Canadian Lacrosse Association's Championship. The game was the Championship. The Game was the Championship. The Game was the Championship.

Brampton, Aug. 28.—Although the Brampton Lacrosse Club had no chance of winning the junior championship, the deepest interest was manifested as to the result of the scheduled game here to-day between the Athletics of St. Catharines and the home team.

The game between the same clubs at St. Catharines a few weeks ago resulted disastrously to the Excelsiors by a straight 4 to 3. The Athletics came out way 4 to 3.

By the 2 o'clock train upwards of 200 admirers of the St. Catharines Club arrived in a perfect downpour of rain, which soon cleared. The game was called for 2 o'clock, and long before that hour the grand stand was crowded and the bleachers full, while the fences were lined with spectators. It is estimated fully 1200 persons were present.

The general character of the play was rough in the extreme, some very hard and frequently unnecessary checks being given. The game was a close one, with the Athletics leading 3 to 2 at the end of the first half. In the sixth minute the Athletics were leading 3 to 2, but the Excelsiors scored a goal in the seventh minute, and the Athletics were leading 3 to 2.

IN ADVANCED YEARS

The strength and pure blood necessary to resist the effects of cold seasons are given by Hood's Sarsaparilla.

"I have for the last 25 years of my life been complaining of weakness of the lungs and colds in the head, especially in the winter. Last fall I was again attacked. I can positively say that I have not spent a winter as free from coughs and colds and difficult breathing spells for the last 25 years as was last winter. I can lie down and sleep all night without any annoyance from cough or pain in the lungs. I am now feeling better than I have for many years." E. M. CHAMBERS, J. P., Cornwall, N. B.
