AN OPEN LETTER

From W. J. Gage, Esq., Toronto

A Problem of National Importance

A bright young lawyer at the Muskoka Sanatorium for Consumptives some weeks ago, speaking of the burden placed upon him by having consumption, said: "One has to lead a life of concealment. If I go away from this place people are afraid of me." This is the sad lot of those who suffer from this dread disease.

On behalf of the thousands who are sick and will not be received by other hospitals, I make this appeal for the Muskoka Free Hospital for Nearly 10,000 people from every part of Canada aided in this good

work last year, sending us \$26,000. The Trustees have faith that a still larger number will help. The Physician's offices, throat rooms, etc., up to the present have occupied rooms in the hospital that rightly belong to patients. To make better provision for the work, and furnish more acco

dation, a new administration building is now under way. A cottage for the Physician and his young wife had also to be built. To provide for this outlay, and to care for patients for the coming year, we must secure at least \$50,000. The Muskoka Free Hospital for Consumptives never refused a

patient because of his or her inability to pay. It cares for those whom other hospitals refuse. It cares for those whom other people are afraid of. "I was sick and ye visited me," was Christ's commendation

Should not a richer benediction be yours if from a loving heart your dollar makes a golden visit to this hospital, bringing health and joy to those whom other people fear, and whom, in many cases, nobody wants. Will you have the luxury of giving?
