Technical and Bibliographic Notes/Notes techniques et bibliographiques

The institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

The copy filmed here has been reproduced thanks to the generosity of:

Library of Congress  
Photoduplication Service

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol  $\rightarrow$  (meaning "CONTINUED"), or the symbol  $\nabla$  (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Library of Congress  
Photoduplication Service

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole  $\rightarrow$  signifie "A SUIVRE", le symbole  $\nabla$  signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

## == PREFACE ==

A work of this character requires but little introduction. Each page tells its own story, as it is a history of the best performances made by trotters and pacers to harness from the earliest time up to the close of 1894. In it will be found all of the 2:30 trotters, all of the 2:30 pacers and all stallions that have sired 2:30 performers, together with their performers under them. In the 2:30 list of trotters and pacers the color, age, sex, sire and dam, as well as sire of dam is given where known. In placing this work before the public my aim has been to condense matters so that the price of the book would not be exorbitant. Of late years many have avoided a publication of this character from the fact that the composition bill was so high and because there is such a limited field, as is the case with all class publications. Should this book, however, meet with the approval of the public, it will be followed at the close of 1895 with one that will be much more complete and also contain more statistical matter.

That there are errors in this 2:30 Book is not denied. Absolute correctness is impossible in a work of this magnitude. Those who have handled statistical matter know that the trip from the copy book to the press is a very hazardous one, and that even the most careful proof reading will not detect all errors. Individual knowledge of horses will bring such faults to light and information of their existence will be thankfully received. By referring to the book it will also be found that there are a great many horses whose ages are not given, from the fact that they are not registered. Many of their pedigrees are also incomplete. Information on either of these points will be very acceptable. In other words, I want the assistance of every one on the turf papers, and every one who has occasion to consult these pages, to help in making this book more complete than it is at present. Turf writers, of all others, have occasion to refer to such a work frequently, and the more accurate it is the more acceptable it will be to them.

The basis of records used are those accepted by the National Trotting Association and the American Trotting Association. In other words, the records that appear here are the ones that each horse would be expected to start under should his owner decide to campaign him. This has made a number of changes in the performers credited to a few stallions, and has also made several changes in the table of champions.

In making the announcement of this book through the press I stated that it would be a work of about three hundred pages. Now that it is completed, I find that it contains three hundred and thirty-four pages. This includes the illustrations, which have not been folioed. There are, however, two hundred and ninety-six pages of printed matter.

JOHN E. TURNER, AMBLER, PA.  
 (THE GENERAL.)

"Give me races and few records, as I want the money and  
 have no craving for honors." has been the motto  
 of John E. Turner through life.

C. THOMPSON, INDEPENDENCE, IOWA.  
One of the cleverest of Western drivers. He brought out  
Manager 2:06½, and Keno F. 2:17.

A. McDOWELL, SAN FRANCISCO, CAL.

In 1891 McDowell placed the world's record for trotters at 2:03 3/4 with Alix and the world's record for two-year-old pacers at 2:07 3/4 with Directly.

MILLARD SANDEKS, PLEASANTON, CAL.  
 Millard Sanders drove the following yearlings to world's records:  
 Fron Fro: 2:23 $\frac{1}{4}$ , Fausta (p) 2:22 $\frac{1}{4}$ , Rosedala (p) 2:22.  
 He also marked the pacer W. Wood 2:07  
 and drove the trotter Guy in 2:40 $\frac{1}{4}$ .

GEORGE FULLER, NASHVILLE, TENN.  
 (UNCLE GEORGE.)

An Ohio boy of the old Buckeye stock. Years touch him as lightly as hummingbirds' wings. While at Glenview he gave Patrou a three-year-old world's record of 2:19½ and Elvira a four-year-old world's record of 2:18¼.

GEORGE STARR, TERRE HAUTE, IND.  
Starr placed the world's race record for teams at 2:15 $\frac{1}{4}$  with Rose Leaf and Sallie Simmons at Columbus, Ohio, in 1894.
