ENGLISHMEN CAN MEET DEATH WITH AS GREAT A FORTITUDE AS EVER IN THE PAST, WROTE BRAVE SCOTT AS HE WAS DYING

"These Rough Notes and Our Dead Bodies Must Tell the Tale," He Wrote in His Diary—Great Misfortune Overtook the Party and the Astonishing Failure of the Man Whom He Least Expected to Fail.

CHRISTCHURCH, New Zealand, Feb. 10.—In Captain Scott's diary Surgeon Atkinson found the following which is quoted verbatim:

"Message to the public: The causes of this disaster are not due to faulty organization, but to misfortune in all risks which had to be undertaken. "1. The loss of pony transport in March 1911, obliged me to start later than I had intended, and obliged the limits of stuff transported to be narrowed."

"2. The weather throughout the outward journey, and especially the long gale in 83 degrees south, stopped us. "3. The soft snow in the lower reaches of the glacier again reduced the pace. We fought these untoward events with a will and conquered, but it was into our provision reserve. Every detail of our food supplies, clothing and depots made on the interior ice sheet, and on that long stretch of 700 miles to the Pole and back worked out to perfection."

"Astonishing Failure. "The advance party would have returned to the glacier in fine form and with surplus of food but for the astonishing failure of the man whom we had least expected to fail. Seaman Edgar Evans was thought the strongest of the party, and Beardmore glacier is not difficult in fine weather. But on our return we did not get a single completely fine day. This, with a sick companion, enormously increased our anxieties."

"I have said elsewhere we got into frightfully rough ice and Edgar Evans received a concussion of the brain. He died a natural death, but left us a shaken party, with the season unduly advanced."

"Severe Weather. "But all the facts above enumerated were as nothing to the surprise which awaited us on the barrier. I maintain that our arrangements for returning were quite adequate, and that no one in the world would have expected the temperature and surfaces

SHOE MACHINERY COMBINE WOULD CONTINUE

Pressure Will Be Brought to Bear on the Dominion Government to Permit the United Shoe Machinery Company to Continue Doing Business Under the Leasing System.

OTTAWA, Feb. 10.—(Special.)—Pressure will be brought upon the Dominion Government to permit the United Shoe Machinery Company of Canada to continue doing business under the leasing system recently investigated by a board of investigation under the Anti-Combines Act. The company is really a New England concern, also incorporated in Canada, and owning many patents granted by the Dominion Government. These patents cover a number of machines used in the manufacture of boots and shoes. These machines are leased to the manufacturers upon a royalty basis. The leases contain a clause which permits the company at any time to terminate the lease and regain possession of the machines in the event of the manufacturer installing machines made by any other company. That is to say that if the manufacturer wishes to use certain machines controlled by the United Shoe Machinery Company he must rent from that company all the machines necessary for his business.

No Secret About It. There is no secret about the form of the lease, which clearly restricts competition and establishes an unmistakable monopoly. Any crown attorney should have been able to determine that and to bring proceedings under the criminal code, but the manufacturer applied for a board of investigation under the Anti-Combines Act. This board held a number of

TEN KILLED AND SCORE WOUNDED IN CLASH WITH W. VIRGINIAN MINERS

CHARLESTON, W. Va., Feb. 10.—(Can. Press).—Ten persons are dead and a score wounded as a result of a battle today between strikers and authorities near Mucklowe, W. Va., in the Kanawha coal strike district. Seven of the dead are strikers and were members of the mine guards and railroad police. Of the injured fifteen are said to be strikers and the others guards.

The guards killed are: William Radcliffe, James Vance and Bernard Crockett. Fred Bobbet, bookkeeper for the Paint Creek Collieries Co., has little chance for recovery. Another of the wounded is Lieut. R. L. Taylor of the national guard, who had been investigating conditions in the strike district. Eight strikers were captured and brought here tonight charged with rioting.

Of the five companies of state militia ordered to the strike district by Gov. Glasscock early tonight, two from this city reached their destination at 9 o'clock. The others are expected before midnight. Tonight a sixth company was ordered to proceed from Fayetteville for Mucklowe.

Only meagre details of the battle today have reached the state authorities here. Exact conditions in the strike country tonight are not known, as communication is crippled as a result of cut telegraph and telephone wires. The strike district is isolated in the mountains and travel to points having communication with Charleston is difficult.

Martial law went into effect with the arrival of the Charleston companies. The territory covers fifteen miles. It will extend over Cabin and Paint Creeks, taking in a section north of the Kanawha River.

HUNDRED THOUSAND DOLLARS CAUSED BY MIDNIGHT FIRE IN STORES AND DWELLINGS

Dominion Waist Company, Moffat Stove Company, Residences and Grocery Store Completely Guttered by Fire Which Was Discovered Shortly After Midnight, and Was Visible From All Portions of Toronto.

One hundred thousand dollars' damage was caused on Dundas St., near Conduit, by a fire which broke out shortly before 12 o'clock last night, and was burning at an early hour this morning. The blaze broke out in the building at 1240 Dundas, owned and occupied by the Bowman Gas Range Company. It spread quickly to the factory next door, which formerly was occupied by the Dominion Waist Company. This concern, however, moved away a year ago, and since then a firm which winds armatures for the Toronto Electric Light and Toronto Railway Company has occupied the building.

SEVERAL EXPLOSIONS. Several explosions occurred in the factories, which caused the flames to spread. Fanned by a strong east wind, the flames leaped across Dundas street and set fire to a row of stores and houses on the west side of the street. The illumination from the fire could be seen in all parts of the city, and a large crowd of spectators soon gathered.

The houses and stores from 1225 to 1237 Dundas street, all were either badly damaged or entirely gutted by the fire. Luckily the occupants of the houses had been awakened by the explosions in the factories across the street and were able to jump into some clothing and get out on to the street before the flames spread to their places.

COMPLETELY DESTROYED. The factory of the Dominion Fire Extinguisher Company next caught fire, and for a time it seemed as if the flames would consume the entire block.

The house at 1233 Dundas, owned and occupied by Detective Cromme, was the first to be destroyed. The detective and his family had narrow escapes. The flames then leaped to a grocery store, occupied by Cluff and Company, and quickly destroyed it. A Chinese laundry at 1241 was the next to be burned, and the home of F. L. Stinson, at 1235 Dundas, was completely gutted.

In all the following premises were completely burned:

No. 1225 Dundas street, house occupied by H. W. Borrett; 1237, house owned and occupied by John W. Phillips; 1231, Wm. H. Church; 1233, house, Robt. W. Cromme; 1235, house, Frank L. Stinson; 1237, house, George Somerville; 1239, store, Cluff & Son; 1241, Chinese Laundry; 1243, confectionery store, Mrs. Lisie Graham; 1245, grocery store, Samuel S. Walker, corner Conduit and Dundas.

As soon as the alarm was run in the firemen realized that they were to have a hard time to fight the fire. All the reels in the western section of the city responded. All wires were cut in order to avoid danger from live wires, and the street cars were stalled. Electric lights were shut off and telephones went out of commission.

The loss will amount to at least \$100,000, and it may reach a larger amount. Many valuable motors were destroyed, as well as the household effects, stocks and buildings of those who lived in the block south of Conduit street on the west side of Dundas street.

The Shopper's Visiting List. Nowadays people do not go out to buy, they go "to shop." If they intend buying dress material, or a hat, they visit several shops and finally return for what best suits their fancy. It is so with furs. Ladies wishing a fur garment visit all the likely furriers and get an idea of the available values before they finally make a purchase. This method of making a selection, after thorough comparison, is understood, and perfectly agreeable to Dineen's. Include Dineen's show rooms in your visiting list and form your own judgment as to fur bargains and values. W. & D. Dineen Company, Limited, corner Yonge and Temperance streets.

COMIC OPERA DECIDEDLY POPULAR.

The enthusiastic reception given Oscar Straus' comic opera, "The Chocolate Soldier," by the big audience at the Princess Theatre last night illustrates the strong demand there is in this city for a first-class musical play. "The Chocolate Soldier" is superior in every particular.

CAPT. SCOTT AND FOUR COMRADES DIED AFTER REACHING SOUTH POLE FOOD AND FUEL SUPPLY EXHAUSTED

Month Behind Amundsen

The date of Captain Scott's attainment of the South Pole Jan. 18, 1912, shows that he reached the goal of his expedition almost exactly one month after Captain Roald Amundsen, the Norwegian explorer, had been there. Capt. Amundsen's report, sent to King Haakon of Norway, read:

"Pole attained 14th-17th December, 1911. All well. The report of Captain Scott was destined not to be received by the waiting world until after his death."

RAILWAY STRIKE MAY BE AVERTED

Conference of Employers and Men Today Will Be Turning Point in Situation.

NEW YORK, Feb. 10.—(Can. Press).—The action of President W. S. Carter of the Brotherhood of Locomotive Firemen and Enginemen in withholding the result of the strike ballot of firemen on 54 railroads until it can be presented at the meeting tomorrow of representatives of the men and the conference committee of railroad managers is taken as indicating that both sides to the controversy hope that an agreement may yet be reached and a strike averted.

It is expected that President Carter will notify the managers tomorrow that the firemen have decided almost unanimously to strike if the railroads refuse to submit their demands to arbitration by a committee of three persons, as provided in the Erdman act. The committee of managers, after hearing the ultimatum of the firemen, are expected to ask for several days' time in which to frame their reply.

Crisis Today.

The committee of managers tonight issued a statement, in which it was said that the crisis in the situation would be reached tomorrow, and reciting at length their offer to apply the award of the recent engineers' arbitration commission to the firemen's rules and working conditions, and to make certain increases in wages. The statement says the demands of the firemen as now constituted after several modifications since July, 1912, when the controversy began, provide for an increase in the firemen's pay-roll on the fifty-four eastern railroads of \$9,600,000, or about 35 per cent. The railroads have taken the position that such increases in wages are neither warranted by conditions nor within their power to pay.

TURKEY ABOUT TO SURRENDER?

Montenegrins Take Position Commanding Scutari—Heavy Losses Sustained on Both Sides.

LONDON, Feb. 10.—(Can. Press).—Severe fighting has occurred in the attempt of the Montenegrins to capture Scutari. The Montenegrins are reported to have taken Bardanjoli Hill, one of the strategical positions, but at a cost of 2500 men killed or wounded. The same despatches place the Turkish loss at 4000 men.

Thousands of fresh troops have been arriving at Constantinople from Anatolia, and in the past few days several troopships have departed, but their destination has not been divulged.

There are signs that the Porte realizes the hopelessness of the situation and is preparing the way to leave the fate of Turkey in the hands of Europe to obtain the best possible settlement. Also it is officially denied that Hakkı Pasha has been sent on a peace mission to London, there is little doubt that that is his object.

Attained Goal on Jan. 18th and Would Have Returned Safely But for Unforeseen Difficulties—Bodies of Capt. Scott, Dr. E.A. Wilson, Chief of Scientific Staff, and Lieut. Bowers Found in Tent by Rescue Party—Records Showed Captain Oates and Seaman Evans Had Succumbed Earlier—With Food and Fuel Gone After Successful Dash to Pole, Scott and Companions Encountered Blizzard Which Raged for Nine Days—Party Clung to Records of Expedition and Geological Specimens—Heroic Attempts to Bring Succor Were Made Futile by Three Severe Storms and Lack of Equipment.

CHRISTCHURCH, N.Z., Feb. 10.—The Terra Nova arrived at Cape Evans on Jan. 18 this year, when the following information was obtained from the shore party there.

Capt. Scott reached the South Pole on Jan. 18, 1912, and found Amundsen's tent and records. On the return journey the whole southern party perished. Scott, Wilson and Bowers died at the last camp from exposure during a blizzard about March 29, 1912, eleven miles south of One Ton Depot, or 155 miles from the hut at Cape Evans. Oates died from exposure on March 17. Seaman Edgar Evans died from concussion of the brain on Feb. 17. The health of the remainder of the expedition is excellent, including Lieut. Campbell's party, who wintered at Terra Nova Bay. The history of the expedition is as follows:

DOG TEAMS TO RESCUE. Before the Terra Nova left for New Zealand last March, Surgeon Atkinson, who had been left in charge of the western party until Scott's return, despatched Garrard and Demetri, dog drivers, with two dog teams to assist the southern party, whose return to Hut Point was expected about March 10, 1912. Atkinson would have accompanied this party, but was kept back in medical charge of Lieut. Evans, second in command, who, it will be remembered, nearly died of scurvy. This relief party reached One Ton Depot on March 3, but was compelled to return on March 10, owing primarily to dog food running short, also to the persistent bad weather and the poor conditions of the dogs after the strain of the hard season's work.

FORCED TO RETURN. The dog teams returned to Hut Point on March 16, the poor animals mostly frost-bitten and incapable of further work. Garrard collapsed thru an overstrained heart. His companion was also sick. It was impossible to communicate with Cape Evans, the ship having left on March 4, and an open sea was lying between Atkinson and Keohane. The only men left sledged out to Corner Camp to render any help that might be wanted by the southern party. They fought their way out to Corner Camp against the unusually severe weather, and, realizing they could be of no assistance, were forced to return to Hut Point after depleting one week's provisions.

In April, when communication with Cape Evans was established, a gallant attempt to relieve Lieut. Campbell was made by Atkinson, Wright, Williamson and Keohane. This party reached Butter Point when they were stopped by the open water. Their return was exciting, and nearly ended in disaster owing to the sea ice breaking up.

SEARCH PARTY LEAVES. A search party left Cape Evans after the winter, on Oct. 30 last. The party, which was organized by Surgeon Atkinson, consisted of two divisions, Atkinson taking the dog teams, with Garrard and Demetri, and Wright in charge of a party which included Nelson, Gran, Lashley, Crean, Williamson, Keohane and Hooper, with seven

GRAND OPERA SEASON OPENED BY WORLD RENOWNED SINGERS

Three Weeks' Engagement of Montreal Grand Opera Company Inaugurated at Alexandra Theatre Under Most Auspicious Circumstances by the Presentation of Massenet's "Thais."

Nothing more auspicious could be imagined than the opening performance of the Montreal Grand Opera Company's three weeks' engagement last night at the Royal Alexandra Theatre. The audience, the company, the orchestra, were all that could be desired, and the conductor, Mons. Hasselmann, must have felt like congratulating himself when the curtain fell at 25 minutes to 12. In some measure a friendly rivalry has been sustained between Montreal and Toronto, the former having, under the generosity of Lt.-Col. Meighen, been able to develop the production of grand opera to a remarkable extent, while Toronto, with a world-wide reputation for the choral singing of the Mendelssohn Choir, has also achieved some distinction in the support of a symphony orchestra.

The artistic excellence and the musical success of the opera last night were assurances that Montreal had made good her claim to be the home in Canada of grand opera. It might be objected that grand opera is an exotic, but it is no more an exotic in Montreal than in Berlin or St. Petersburg, and the European capitals do not enjoy, except on rare occasions, any better performances than Mons. Hasselmann provided last night.

The opera chosen was Massenet's "Thais," a typical example of the new school of what is not so much opera in the old sense as music drama. There are no set solos and when two people come on the stage together they do not necessarily sing a duet. The chorus is not called in to liven things up when the action lags, but is subordinated to the plot, and excites

CLERGUE ADVOCATES HUDSON BAY ROUTE
Will Supply Long Felt Want of Grain Growers, He Declares.

MONTREAL, Feb. 10.—(Can. Press.)—The advantages of a transportation route from the northwest to the Atlantic seaboard by way of Hudson Bay, James Bay, Montreal and the St. Lawrence route were emphasized by P. H. Clergue, one of the moving spirits of the Soo Iron Works, in an address on the Hudson Bay route and into the "Soo" about ten cents per bushel in the rate to Montreal.

"What Canada needs," he said, "is not so much a cheap means of communication as a real means of communication. Western grain growers are to the Atlantic seaboard, but with not being able to get it there at all."

The Hudson Bay route would mean a great saving in time, for it meant six hundred miles of water transportation in place of a thousand miles of railroad. It was shorter than the Fort William route and into the "Soo" about ten cents per bushel in the rate to Montreal.

Turning to the technical possibilities of Hudson and Labrador, Mr. Clergue showed that the fishing industry had a great future, both in the bay and outside.

The Arctic salmon is found on the rivers on the east of the bay, the rivers running into Hudson Strait being the spawning ground of this fish. Walrus and white whales are also caught in great numbers. The latter is a fish much in

Mixed With Sulphur It Makes Hair Soft, Beautiful—Cures Dandruff.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She kept her hair beautifully darkened, glossy and abundant with a brew of Sage Tea and Sulphur. Whenever her hair fell out or took on that dull, faded or streaked appearance this simple mixture was applied with wonderful effect.

HARRISTON HONORS EX-MAYOR'S MEMORY

HARRISTON, Feb. 10.—(Special.)—Ex-Mayor John Lindsay Eedy, who died last Friday after a few days' illness, was buried today with Masonic honors. District Deputy Grand Master Thomas had term of Wellington District, No. 1, took charge of the ceremony. As a mark of respect for the deceased, all business in town was suspended during the funeral hour.

COMMISSION IDEA IS GROWING IN KINGSTON

KINGSTON, Feb. 10.—(Special.)—In order that one commissioner will be sufficient for all public utilities, the Ontario Legislature during this session will, at the request of the city council, amend the Municipal Act, so that the city would require a commissioner for both water and light. The question of government by commission is to be voted on by the ratepayers.

C.P.R. EARNINGS.
MONTREAL, Feb. 10.—(Special.)—C.P.R. earnings for the week ended Feb. 7, 1913, \$2,372,000; same week last year, \$2,168,000.

Below Zero at Kingston.
KINGSTON, Feb. 10.—(Special.)—Kingston had the coldest snap of the season today, the thermometer showing 13 degrees below.

GRANDMOTHER USED SAGE TEA TO DARKEN HER FADED OR GRAY HAIR

Mixed With Sulphur It Makes Hair Soft, Beautiful—Cures Dandruff.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She kept her hair beautifully darkened, glossy and abundant with a brew of Sage Tea and Sulphur. Whenever her hair fell out or took on that dull, faded or streaked appearance this simple mixture was applied with wonderful effect.

Sage and Sulphur Hair Remedy—you will get a large bottle for about 50 cents. Some druggists make their own which is usually too sticky, so insist upon getting Wyeth's, which can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, feverish, itchy scalp and falling hair.

LIBERAL LEADER TO SPEAK TODAY

N. W. Rowell Will Deal With Question of Tax Reform This Afternoon.

PUBLIC ACCOUNTS SOON Will Be Presented to the Legislature in Less Than a Week.

It took only forty minutes to transfer the government business in the legislature yesterday, but the time so accomplished were principally routine. Several bills which have been recon- sidered by the statute revision committee were considered by committee of the whole, and will be given their final readings today. In none of the bills were there any important changes, they being merely brought up to date.

N. W. Rowell, leader of the opposition, made his first appearance in the house. During the past two weeks he was ill with influenza, but he seems to have fully recovered. There is possibility that when he debates on the speech from the throne resumes today the Liberal chief will speak in reply to arguments from Conservative members. Besides the wide range of subjects touched upon in the speech, Mr. Rowell will deal with tax reform.

Immediately after the house convened Mr. Rowell asked and asked two questions of the government. He desired to know when the public accounts would be laid on the table. "In less than a week," replied Hon. I. B. Lucas, acting provincial treasurer.

"Will it contain statements regarding the operation of the hydro-electric system?" he asked.

Mr. Lucas replied in the affirmative. "When will the report regarding an eight hour day for miners be submitted?" asked the Liberal leader of the premier.

"We will receive it very shortly, any day," replied Sir James.

No Mystery at All. Several questions asked by Liberal members were answered, while others were allowed to stand over. J. C. Elliott of Westchester asked the premier that his question regarding the famous Elk Lake telegram would be answered within 24 hours if his notice were put on the order of the day by his hon. friend was not properly put," said the premier, "and do not feel disposed to answer it until it is absolutely no mystery about it, at all."

Mr. Elliott's question was brought up last year by the hon. member whether the prime minister, or any person on his behalf, received a telegram purporting to be from one Rowlandson in Elk Lake prior to the last provincial election with reference to the building of an Elk Lake branch of the T. & N. O. If such a telegram were received, what was its content? Was a telegram sent by the prime minister in reply to the wire from Rowlandson? asked Mr. Elliott.

Questions Answered. Hon. Mr. Hearst made a lengthy reply to questions asked by Z. Magouau of the Liberal party. He stated that the character of the lands sold in Haggart and Kendry Townships, New Ontario, to Willis K. Jackson of Buffalo, Mr. Hearst said, was not a rolling country timbered with spruce, poplar and white birch. There were more than 150 acres of muskeg in the two townships. As to the agricultural character of the country, inter-spersed throughout are swamps covered with spruce and balsam poplar, but none of these swamps are of any great extent. There was no trace of mineral. Mr. Hearst considered from report the cost of materials for the cent of the land was suitable for immediate settlement and by proper drainage of the swamps all could be made suitable for agriculture.

That the provincial secretary's department had no official knowledge of the reasons for which Michael Barr of Goderich lost his liquor license was stated by Sir James Whitney, in the absence of Hon. W. J. Hanna, U.W. trustees of the Methodist church and the ladies' adult Bible class, of which the deceased was a member. The funeral cortege was a very large one.

Eventual Is Busy. Without consulting his party Gustave Evanturel, Liberal member for Prescott, has decided to stir up bilingualism again. It is he who has asked the house for the return of all correspondence between Bishop Fallon and the ministers regarding bilingualism in the bilingual school matter.

From the government's point of view, however, the feature of the evidence was the reputation by W. J. Camp, assistant general manager of the Canadian Pacific Railway, of denials furnished by his own audit office in regard to cost of the C. P. R. Telegraph Co.'s plant. Mr. Pitblado, K.C., counsel for the government, produced a letter signed by Mr. Camp, which

OTTAWA "REPEATERS" FINED.
OTTAWA, Feb. 10.—Five men who pleaded guilty to charges of "repeating" in the civic election in Ottawa were each fined \$50 each by Magistrate O'Keefe.

The trial of Deputy Returning Officer Durocher on the charge of ballot stuffing is being up pending the decision of Justice Hoey as to whether the magistrate has jurisdiction to hear the case.

Toronto Young Men's Christian Association.
Mr. R. Home Smith will speak at the Luncheon Club on Wednesday, Feb. 13, 10 o'clock. His subject will be "The Hummer Valley Project." The club will meet at the Brown Betty, 42 East King street, at one o'clock. Those who are to be served to those who reserve places by phoning Main 7558 before 10 o'clock on Wednesday. Those who fail to do so will still be welcome and will be served at the other tables, a la carte.

POSITIVELY ENDS IN 5 DAYS

Coupons Redeemed Every Day This Week

On account of many of our readers being unable to present Cyclopaedia Coupons Friday and Saturday, The World will redeem coupons any day this FINAL week, as long as the present supply of sets lasts.

TELL YOUR FRIENDS ABOUT IT

Let them know that this is positively the FINAL WEEK of The World's great book bargain; that Everybody's Cyclopaedia is the most useful set of books on earth; that on any day this week they can get with only one Cyclopaedia Coupon clipped from this paper any day.

on the same terms, the set to be sent by express, shipping charges to be paid by the receiver.

PHONE DRIVING OUT TELEGRAPH

Such is Situation in Canadian West, C. T. P. Telegraph Manager.

ENQUIRY AT OTTAWA

Mistake in Estimating Cost of C. P. R. Telegraph System is Admitted.

OTTAWA, Feb. 10.—(Can. Press.)—That the telegraph business was "vanishing" before the onslaught of the telephone companies was the interesting statement made by a witness during this afternoon's session of the government enquiry into telegraph rates, which resumed before the railway commission this morning.

It Builds Up The System

It is not only disagreeable, but positively alarming to be getting thinner and weaker from day to day. This indicates that the digestive system is failing to supply the nourishment required to maintain health and strength.

You must resort to other means of restoring strength, and in this connection there is nothing like Dr. Chase's Nerve Food to form new, rich blood, revitalize the wasted nervous system, and restore to the digestive system its natural functions.

Mr. Fred Carstens, farmer, Laird, Sask., writes: "I was very thin and nervous, and as I was continually growing worse, decided to give Dr. Chase's Nerve Food a trial. I would suffer from headaches and indigestion, was easily worried and excited and felt generally run down. The benefit obtained from this food cure has been very marked, and I recommend it with the greatest confidence to persons who are thin, weak and nervous."

TOKIO UPRISING PROVES SERIOUS

Many Killed and Injured in Political Riots at Capital.

PREMIER IS STONED

Police Station, Cars and Private Buildings Burned by Maddened Mob.

TOKIO, Feb. 10.—(Can. Press.)—Six persons were killed and sixty-five seriously injured in the political rioting here today. The situation tonight is serious. The Premier of Japan, Prince Katsura, was stoned by a mob in the streets. His resignation has been demanded by the people. The mobs attacked the offices of the bureaucratic newspapers and threatened the dwellings of ministers. They burned and wrecked police stations, tram-cars and private buildings.

West Has Advantage

A. B. Smith of Montreal, general manager of telegraphs for the G.T.P., was then called by Mr. Pitblado, and examined with regard to the exhibits of the G. T. P. Telegraph Co. He gave evidence in regard to the conjoint rates, that is, rates for messages in the carriage of which two companies participate, the evidence going to show that whereas 50 cents was charged as a conjoint rate in Ontario, it was only 40 cents in the west.

Phones Get Business.
"There should be a conjoint or thru rate lower than the sum of the two local rates," said Mr. Pitblado. "Do your conjoint rates build up a business?" asked Commissioner McLellan.

"No; the telephone companies in the west are taking away our business," said Mr. Smith.

"What do they charge?"
"And yet you say they are taking away your business," said Chairman Drayton.

"The business is vanishing today," said the witness.

"Not according to the figures Mr. Pitblado has submitted," said the chairman.

Mr. Pitblado took the witness into the details of cost and construction of the G. T. P. telegraph lines and compared the high grade equipment of that company with that of the C.P.R., some of whose wires he said were 30 years old.

IS YOUR HOME WARM?

For information that will lead to the discovery of whereabouts of the person or persons suffering from Nervous Debility, Fits, Skin Disease, Blood Poison, Genito Urinary Troubles, and Chronic or Special Complaints that cannot be cured at The Ontario Medical Institute, 363-365 Yonge Street, Toronto.

\$1,000 REWARD

has resigned the presidency of the constitutional party, out of respect for the throne, it having been the emperor's expressed wish that Premier Katsura be not opposed in his present course. The constitutional party this morning resolved, practically unanimously, to fight the government to a finish.

Many resent Prince Katsura's attempt to break up the opposition to his ministry by the use of an imperial rescript addressed to Marquis Saloni; hence the popular demand for his resignation.

Own a Victrola.

It's a pleasure at any time to visit the beautiful Victrola parlors of the Old Time of Heintzman & Co., Ltd., 182-186-187 Yonge street, and inspect their large assortment of Victrolas. The range is large enough to meet any taste and any price.

TO CURE A COLD IN ONE DAY
Take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box. 25c.

Successes His Father.
HARRISTON, Ont., Feb. 10.—(Special.)—Mr. Chester Eedy has been appointed clerk of the Tenth Division Court in place of his father, John Lindsay Eedy, deceased.

Forty years in use, so years the standard, prescribed and recommended by physicians. For Woman's Ailments, Dr. Martell's Female Pills, at your druggist.

LARGE PART OF WESTERN COAST TO BE MOVED EAST BY C.N.R. OVER THE COMPANY'S OWN LINES

Sir Donald Mann, Who Returned from the Pacific Coast Last Night, Says Construction Will Be Rushed—C. P. R. Embargo on Grain at Port Arthur Will Not Be Lifted Until Spring.

The Canadian Northern grain line up at Port Arthur by the... Sir Donald Mann, vice-president of the Canadian Northern railway, who returned from the Pacific coast last night, says that the construction of the line will be rushed.

The cost of the terminal facilities is to run into millions and include a million dollar station. Within two years these terminals must be ready for operation and within five years must be completed.

With the completion of the Transcontinental Canadian Northern are to be completed great things. The biggest of these will be the establishment of a Pacific coast fleet.

The first hotel to be erected in Canada by this road will be at Vancouver, in connection with their Pacific coast terminals, and which will cost considerable over a million dollars.

The cost of the terminal facilities is to run into millions and include a million dollar station. Within two years these terminals must be ready for operation and within five years must be completed.

CAPTAIN SCOTT AND FOUR COMRADES DIED AFTER REACHING SOUTH POLE

Continued From Page 1. Indian mules. They were provisioned for three months, as they expected an extended search.

One Ton Camp was found in good order and all provisioned. Proceeding along the old southern route, on Nov. 12, Wright's party sighted Scott's tent.

SEAMAN FIRST TO DIE. From their records the following information was gleaned: The first death was that of Seaman Edgar Evans, petty officer of the Royal Navy, official 160,225, who died on Feb. 17, at the foot of the Beardmore Glacier.

Captain L. E. G. Oates, 6th Enniskillen Dragoons, was the next to die.

His feet and hands were badly frost-bitten, and, although he struggled heroically, on March 16 his comrades left him to die.

Prepared For Death. "I do not think human beings ever came thru such a month as we have come thru, and we would have got thru in spite of the weather but for the sickness of a second companion."

MORE MONEY SPENT ON HOGS THAN ON BACKWARD CHILDREN

Toronto Thinks it is Doing a Lot for the Delinquent, Says Commissioner Starr, But it is Only Scratching the Surface—Parole System and Children's Court Explained.

The government spends more money upon the care of hogs than it does upon the care of delinquent children, said Commissioner Starr.

Commissioner Starr spoke on "Juvenile Delinquency and the Parole System," at the fourth of a series of Monday night lectures and discussions on Toronto's social problems.

Commissioner Starr explained the parole system, which prevails in Toronto, and the Children's Court.

THORPE SYMPATHY SEEMS MISPLACED

Indian Must Have Known, in Getting Registration, He Was No Amateur.

NOTORIETY HELP TO HIM

Much Better Salary as Ball Player Than Otherwise He Would Have Got.

Thorpe's sympathy has been raising among the sporting writers ever since the great all-around athlete acknowledged he was a professional. The disease became more acute than ever after the poor Indian signed to play with the Giants, the leader of the two big leagues adding their share of words to the columns of misplaced sympathy that have been printed over the simple fact of the Indian owning up at a late day to glaring professionalism that would have saved the country a great deal of discomfort if it had been blazoned to the world two years before. How Jim Thorpe feels in the matter it is hard to tell. The Indian is as secretive as the writers on sporting topics are verbose on this peculiar case. But the chances are that he is chuckling in his quiet way over the crocodile tears that have been shed so generously on his account. Treatise with a toxin of anti-hysteria, the ailment of Mr. Thorpe appears and leaves the athletic world the richer for his wisdom, instead of his being the injured party.

Before he became eligible to compete in amateur athletics he had the same as other registered athletes, to sign an application for registration. In this blank the question "Have you ever played baseball for money?" is asked specifically. When he signed this blank he must have known that he was assured of an untruth, and the fact that he disguised the truth he had played in the Eastern Carolina League, sufficient evidence that he knew all the time he was competing as an amateur that his baseball career had disqualified him from the competitions in which he was taking part.

All this sympathy thus appears to have been wasted, or at least turned into the wrong channel. He carried off honors at Stockholm which he had not the least right, and the mere fact that he has returned the trophies will by no means set him right with the athletic world or restore to them the defeated figures that he has never had been theirs. So long as the Olympic games are open to amateurs only, the men who are entitled to wear the laurel wreaths are those who have not transgressed the laws recognized all over the world as defining an amateur and a professional.

The plaudits of the crowd and the special commendation of King Gustaf of Sweden for his part in the games, reserved for the Norwegian and the Swede who finished second in the pentathlon and it is too late now to make restitution.

Further than this, the statement of Walter Clancy has been of undoubted benefit to the Indian, who has got a baseball contract at the rate of \$17,000 a year, which has been obtained but for the advertising resulting from the admission of his professional status. That he has been successful in getting hooked up to play professional ball is believed in many quarters, and the \$17,000 a year, with a big league team goes. The formal notification to the league authorities was not made and this left him open to sign for a much larger amount when the notoriety of the charges against him made him an even more desirable investment for the business of baseball.

There have been great professional athletes before Thorpe, and some of them have made a good and honest living out of the exercise of their athletic talents. That he has never been in the period he was masquerading as an amateur and settles down to play ball for all he is worth is the better it will be for amateur sport and the business of baseball, the opinions of Garry Herrmann and of Johnson notwithstanding.—New York Sun.

SIMCOES AGAIN WITH BIG TOTAL

Take Two From Windsor's in Athenaeum A League—Bowling Scores.

The Simcoes applied the wood for another big total again last night, when they counted 281 for their three games against the Windsor's, and taking two out of three games. The Windsor's won the last with 260, the best game of the night. The best score went to Bill Cook, who made his debut with the Simcoes, when he put in a 612 count, while second high fell to Captain Sutherland, with 601. In the B League, C. C. U. won two from National Cash Register.

The Riverdales won three straight from Athenaeum C. in the C League.

In the Dope League, the Drug Trading redeemed themselves by winning three straight from B. B. Shuttleworth, Ltd. Red Allen, with 567, was high man. Following are the scores:

"TIFCO" BOWLING BALL

This ball is the best on the market, because it never slips, never loses its shape, always rolls true, hooks and curves easily, does not become greasy, is absolutely guaranteed, is cheaper than any other reputable patent ball, and complies with the rules and regulations of the A. B. C.

All first-class alleys are putting these balls on. Try one on the alley where you roll and you will never roll any other ball.

Pain Industry, 109 Serviceno, 110
Don Ramon, 103 Comptorp, 110
SIXTH RACE—Purse \$300, 3-year-olds and up, six furlongs:
D. Montgomery, 105 Tim Judge, 110
Blaze B., 110 Gellco, 110
Judge Walton, 110
Apprentice allowance of five pounds claimed.
Weather clear. Track heavy.

At Charleston.
FIRST RACE—Three-year-olds and up, selling, 5/8 furlongs:
1. Theresa Gill, 93 Bat Master, 103
2. Okeke, 104 Jack Kellogg, 105
3. Time 1:10 3/5. Republican, 110
SECOND RACE—Three-year-olds and up, conditions, 5/8 furlongs:
1. Ma Salama, 100 F. Godmother, 109
2. Counterpart, 102 Bagman, 106
3. Time 1:10 3/5. Chilton King, 112
THIRD RACE—Three-year-olds and up, conditions, 5/8 furlongs:
1. Ma Salama, 100 F. Godmother, 109
2. Counterpart, 102 Bagman, 106
3. Time 1:10 3/5. Chilton King, 112
FOURTH RACE—Three-year-olds and up, conditions, 5/8 furlongs:
1. Ma Salama, 100 F. Godmother, 109
2. Counterpart, 102 Bagman, 106
3. Time 1:10 3/5. Chilton King, 112
Fifth Race—Purse \$300, 3-year-olds and up, selling, 5/8 furlongs:
1. Theresa Gill, 93 Bat Master, 103
2. Okeke, 104 Jack Kellogg, 105
3. Time 1:10 3/5. Republican, 110
SIXTH RACE—Four-year-olds and up, selling, 5/8 furlongs:
1. Ma Salama, 100 F. Godmother, 109
2. Counterpart, 102 Bagman, 106
3. Time 1:10 3/5. Chilton King, 112
Apprentice allowance of five pounds claimed.
Weather fine. Track fast.

At Juarez.
FIRST RACE—Purse \$300, selling, 3-year-olds and up, 5 furlongs:
Mazurka, 103 Choclat, 93
Baden, 107 Guid Nuno, 107
Mandadero, 107 Lookout, 110
Faneuil Hall, 110
SECOND RACE—Selling, purse \$300, 3-year-olds and up, 5 furlongs:
Royal Dolly, 108 Rosetta, 108
Bonnie Bard, 110 Phil Corner, 107
Cantem, 110 Ebran, 110
Lescar, 113
FOURTH RACE—Selling, purse \$300, 3-year-olds and up, 1 1/4 miles:
Barney Oldfield, 109 Sleepland, 109
Si Toco, 109 Cockspur, 103
Sam Bernard, 105 Ben Greenleaf, 105
Fifth Race—Purse \$300, selling, 3-year-olds and up, 5 furlongs:
Jim L., 105 L. M. Eckert, 107
Pain Industry, 109 Serviceno, 110
Don Ramon, 103 Comptorp, 110
SIXTH RACE—Purse \$300, 3-year-olds and up, six furlongs:
D. Montgomery, 105 Tim Judge, 110
Blaze B., 110 Gellco, 110
Judge Walton, 110
Apprentice allowance of five pounds claimed.
Weather clear. Track heavy.

At Charleston.

The Toronto World

FOUNDED 1850. A Morning Newspaper Published Every Day in the Year by The World Newspaper Company of Toronto, Limited, H. J. Maclean, Managing Director.

WORLD BUILDING, TORONTO, NO. 40 WEST RICHMOND STREET. Telephone Calls: MAIN 5308—Private Exchange connecting all departments.

will pay for The Daily World for one year, delivered in the City of Toronto, or by mail to any address in Canada, Great Britain or the United States.

will pay for The Sunday World for one year, by mail to any address in Canada or Great Britain. Delivered in Toronto or for sale by all newsdealers and newsboys at five cents per copy.

Postage extra to United States and all other foreign countries. Subscribers are requested to advise us promptly of any irregularity or delay in delivery of The World.

TUESDAY MORNING, FEB. 11, 1913

POLITICAL AGES

The Globe comforts itself with the thought that twenty years hence Liberalism will not lack for leaders because the university Liberal students "seem to outnumber the Conservative students by about two to one."

But, bless the Globe, all young men are Liberals or Radicals. They turn Conservative as they grow older. The Globe itself in its old age is the most Conservative organ in Canada.

Of course there is The Mail and Empire, but it is doddering. OFF ITS TROLLEY. The Buffalo News has just had word from Toronto that hydro-electric is not a commercial success.

Of course it is out of the price of power in two for the consumer, and the private companies see nothing commercially successful about that.

The News has also heard that power is being sold under cost and that the taxpayer is footing the bill. This is where The News is off its trolley.

Nobody foots the power bills but the consumers, and they pay full cost for everything. THE ANTARCTIC TRAGEDY. Captain Scott's tragic death after his successful journey to the South Pole adds another to the long list of explorers who have given their lives to the conquest of the unknown.

Unlike the pioneers who penetrated the interiors of the one-time dark continent, the voyagers into the Arctic and Antarctic oceans were only confronted by physical barriers, yet the toll exacted by the eternal ice and snow has been greater than that paid by the men who penetrated the home of savage and barbarian races.

Futile as such expeditions appear to the many who are content to remain within the domain of civilization, the quest of the unknown has a peculiar fascination to certain temperaments and the greater the difficulties and perils and the more frequent the failures, the stronger and more persistent becomes the call.

About the poles, too, there had accumulated much speculation and romantic fable. Now that they have been found in no wise different from less mysterious regions, further expeditions to the far north and south will be more concerned with practical results.

GOLD HOARDING.

Egypt, under British control, has become a creditor nation, so far as the volume of its foreign trade is concerned, exceeding, proportionally to its population, the position of India.

In 1912 the exports of gold sovereigns to the ancient land of the Pharaohs amounted to upwards of \$40,000,000, or more than double the supply of 1911, and with the further development of agriculture which will follow from the heightening of the great Assuan Dam the influence of Egypt on the gold resources of the world will become even more marked than hitherto.

In Egypt, as in India, much of the gold imported is withdrawn from use. Nor does it reappear in articles of personal adornment or in the decoration of the dwellings of the rich.

The presumption therefore is to a greater extent than even in India the gold extracted from the earth is returned to the earth in the shape of buried treasure. If the process continues and increases, as according to present indications it is likely to do, India and Egypt between them will soon absorb about one-half of the world's annual production of gold.

This adds to the force of Sir Edward Holden's demand for an inquiry into the gold situation. POLITICAL AFFAIRS IN BRITAIN. British members of the house of commons will have only a brief holiday prior to the opening of the new session of parliament.

The government program for the session now drawing to a close was seriously interfered with by the death of the franchise reform bill, following upon the ruling of Mr. Speaker Lowther, to the effect that the passage of a woman suffrage amendment in any form would involve such a fundamental change as to require the withdrawal of the measure and its reintroduction.

Time would not permit of the adoption of this course, nor could Mr. Asquith ignore his pledge that in connection with this bill facilities would be afforded for the discussion and determination of the proposition to extend the franchise to women.

He promised further that his pledge would be redeemed by giving facilities for a private member's bill next session. The new session will open next month and will be devoted to the budget and supply; the re-passage of the home rule and Scottish temperance

Bill in the form in which they left the House of commons, and to the re-passage of the Welsh disestablishment and trades union bills, should either or both be rejected by the house of lords. It is understood that the government will also introduce a measure abolishing plural voting, but leaving franchises reform otherwise alone.

This latter bill, under operation of the Parliament Act, could come into force without the assent of the upper house in April or May, 1915, as parliament can outlast that date. In connection with it a private bill will be introduced extending the franchise to women on one of the three plans previously proposed.

Full adult suffrage; the Dickenson or Norwegian system, enfranchising about six million women, or the conciliation plan, enfranchising about one and a quarter million. Whichever plan is selected, probably the second, is to be prepared by a non-partisan committee, and will have full parliamentary facilities and come under the operation of the Parliament Act.

This outcome is the most favorable for woman suffrage that could have been secured in the unusual circumstances. LAKE SIMCOE WATER. A communication from Mr. Walter Davidson in another column brings out an interesting point in connection with the Mansergh report of 1896. The little Yorkies of that time never could see the inevitable but phenomenal growth of Toronto, and the late Assessment Commissioner Maughan evidently thought he was going some when he intimated an increase of the population of 2 per cent. per annum.

Mr. Mansergh himself regarded this as "a somewhat sanguine" estimate. He adopted it, however, feeling "very confident that I am erring-if erring at all—on the side of excess."

And he remarks of Mr. Maughan's figures: "I sincerely trust that his forecast may be found correct as years go by, for, if it is, then the City of Toronto has indeed a prosperous and brilliant future before it."

These gentlemen figured in 1896 that in 1913 Toronto would have a population of 249,943. They did not expect the city to attain a population of 500,000 until 1948.

Toronto should only be half the size it is at present, according to their calculations, and we have forestalled their half-million mark by 35 years. In other words, we are a generation ahead of time, or they are a generation behind. This is the fatal drag that is over the whole city hall.

Every department is about a generation behind the times. And, unfortunately, the authorities in Queen's Park are not inclined to look on Toronto as a generation ahead of time, or to legislate for the city and the people accordingly.

But the point to be noted about Mr. Mansergh's report is the remarkable one that, had he imagined that Toronto would have had the population that is actually here at the present time, he would have recommended the gravitation scheme for providing water from Lake Simcoe, "because the whole water supply of the city would be obtained at a mere nominal annual sum after the capital was paid off" (page 33).

An increasing population would, of course, require a further capital expenditure, but that in time would also become "a mere nominal annual charge."

What a lot of short-sighted, lunk-headed bunglers our city fathers have been, anyway! THE CROWN LIFE INSURANCE COMPANY. One of the most outstanding features of the annual report of the Crown Life Insurance Company of Toronto which is made public today, is the fact that the company finds itself in a position to pay on its first matured endowments, the full amount of profits originally estimated.

This is a fact which calls for special congratulation both by the managers of the company and the holders of endowment policies in this company. The total amount of payments made to policyholders and their beneficiaries during the year was \$8,951,333. At the last annual meeting the hope was expressed that the new business for the year would amount to \$4,000,000, and the result was realized before the end of December. The books were closed at the end of the year, with \$4,006,026, an increase over the previous year of \$1,233,920.

This increase amounts to 47 per cent. over the 1911 increase, and shows also in the amount of insurance in force, the total now being \$10,015,879, or \$2,822,500 more than the thirty per cent. increase of the total insurance in force at the close of 1911. During 1912 the Crown Life not only made splendid progress in securing a large and profitable volume of new business, but was also successful in retaining an exceptionally large proportion of the old business in force on its books. The total revenue for the year was \$358,531.38.

In order to provide more room for its staff, the company during the year purchased and improved the property in the southeast corner of Yonge and Melinda streets, and the space in this building not occupied by the head office of the company has been leased to desirable tenants and will yield a profit on the investment.

One of the most gratifying features of the year's operations is a very considerable decrease in the expense percentage of the company. As a result of this the dividends to shareholders have been increased to seven per cent. per annum upon the paid up capital stock of the company.

Some idea of the growth of the Crown Life can be gathered from the fact that in 1901 the insurance in force was \$221,500; the assets were \$81,254.34; revenue was \$105,884.44, and payments to policyholders amounted to \$22,000. In 1912 the insurance in force was \$10,015,879; assets \$1,283,967.75; revenue amounted to \$358,531.38 and the payments to policyholders reached the sum of \$8,951,333.

GRAVITATION WATER SUPPLY. Anyone who takes any interest in our city's affairs must often wonder when we are going to get away from

the town way of doing things. To me this is a very welcome connection with our waterworks system. For many years this expensive experimental system has been at work. From day to day it reports the cost of pumping, etc., amounting to a sum equal to the interest on \$10,000,000 each year, and each year this is becoming thousands more, as well as being so wasteful.

E. A. Macdonald saw years ago what was necessary to a great and growing city, viz.: to bring water by gravity from the north. This will have to come sooner or later, but perhaps not till after there has been many more thousands spent in such work as a pumping plant at Scarborough Bluffs, wells at Pickering, and at North Toronto and another intake pipe or two.

Experts have said that Lake Simcoe water is not pure; other specialists say that sewage may be filtered till pure. If this be so, surely Lake Simcoe water could be filtered on the way down, and we could have plenty of pure water in addition to the water now down. Los Angeles, with a population of 350,000, by a gravity system has delivered 258,000,000 gallons net every 24 hours. In adding ahead of such a water the Toronto plants would after the additions have been made be suggested by the committee.

Altho the report of the Los Angeles plant is about three times that of the additions suggested by the committee, should not result and ultimate expense in fact worse than a mortgage.

In the Mansergh report of 1896, he estimated that our population in 1912 would be 245,000. He thought that the cost of a gravitation system would be too heavy a burden for one generation; he also thought that the population would reach 500,000 in 1948—had he thought of nothing but the water between them." His estimate of cost is \$12,000,000 for 53 miles, while the Los Angeles system cost \$23,000,000 for 250 miles. If it is not possible to choose a site, his report in other ways would have been quite the reverse. A great deal has been said about the purity of Lake Simcoe, but the question of quality, nothing more than the water to be treated in a sentence that if the Simcoe water is dealt with as I have just described, and if the Ontario water—driven rather than chosen—is filtered, both of them, as delivered to consumers, will be high-class water of unimpeachable character, with practically nothing to choose between them."

His estimate of cost is \$12,000,000 for 53 miles, while the Los Angeles system cost \$23,000,000 for 250 miles. If it is not possible to choose a site, his report in other ways would have been quite the reverse. O'Keefe's Special Extra Mild Ale

is strong in stimulating food values—rich in nutriment—yet so light and mild that everyone may enjoy it.

The Philosopher of Folly

By Sherwood Hart

FRIENDS IN NEED. The friends and companions forsake us and dark is the path that we tread; the tempest assails us and shake us, yet still we can hold up our head. The Fortune without any warning may thrust us on slippery roads, we'll face all her perils with scorn and whistle with joy 'neath our loads. On two trusty friends we're depending—two old friends, sure, steady and wise; when holes in our path we've been

reading, how oft have they helped us rise. Their honest but homely appearance may tickle the thoughts to mirth—yet often with some of our dear friends we praise these old friends for their worth. A man gets to love his gloomies; he joys in their upstanding ways when homeward he stumbles, or thru snow and blizzard he strays. When upright he's gracefully getting with sureness and strength in his tread, he laughs to see someone go sliding full length on the back of his head. The man with 'em on can go dashing the shortest way over the ground; the man with 'em not must go splashing and skipping and hopping around. The lack of 'em's truly unerving whenever we long for their help; we're sure to go slipping and swerving, to land on our ear with a yelp.

THEY ALWAYS HELP THE OLD FOLKS

Why Mrs. Dionne Praises Dodd's Kidney Pills. Fine Old Quebec Lady Was Wasting Away When She Turned to Dodd's Kidney Pills and Found a New Lease of Life.

ST. MATHIEU, Rimouski Co., Que., Feb. 10.—(Special).—"Publish it to all the world that Dodd's Kidney Pills cured me." Those are the words of Mrs. Dionne, an old and respected resident of this place. And surely that cure was a wonderful one. Mrs. Dionne had reached the advanced age of sixty-nine years when ill-health overtook her. From 184 lbs. she wasted away till she weighed only 120 lbs., and she was a very sick woman, indeed. Speaking of her case, she says: "My back and head ached, my heart troubled me, my sleep was broken and unrefreshing, and I perspired freely at night. I also had a pressure or sharp pain on the top of my head and found it difficult to collect my thoughts."

It was at this stage that Mrs. Dionne concluded that her trouble came from her kidneys, and she turned to Dodd's Kidney Pills. The first box helped her. She took twelve boxes, and is cured. Dodd's Kidney Pills always help old people, because when the human body starts to wear out, the kidneys are the first to go. Dodd's Kidney Pills always cure the kidneys.

At Osgoode Hall ANNOUNCEMENTS.

Feb. 10, 1913. Judges' chambers will be held on Tuesday, 11th inst., at 11 a.m. For a full list of appellate division cases for Tuesday, 11th inst., at 11 a.m.:

- 1. Re Ontario Game and Fisheries Act (to be continued).
2. Sturgeon Falls v. Imperial Land Company.
3. Bozzo v. C.P.Ry. Company.
4. Transcontinental v. G.T.P. Ry. Company.
5. Hadley v. Ryan.
6. Hudson v. Smith's Falls.

Master's Chambers. Before J. S. Cartwright, K.C. Master. Ferguson v. Anderson—J. G. Smith, for defendant, moved to transfer action from county court of Carleton to county court of Stormont, D. and G. J. F. Poland for plaintiff. Judgment: Order made, with costs to defendant in any event.

Lynes v. Boulton—E. W. Wright, for owner, obtained an order amending order of Oct. 25, 1912. Plaintiff to deliver statement of claim in eight days, and set case down and proceed to trial at next sittings at Hamilton or otherwise, as may be arranged. Costs to defendant in any event.

Robertson Hardware Company v. Wescley—F. J. Dunbar, for plaintiffs, obtained an order for substitution of service of statement of claim on wife of defendant.

Meredith v. Sleem—F. Aylesworth, for defendant, moved for an order for security for costs. J. M. Godfrey for plaintiff. Stands a week. Stay granted.

Colvin v. Waters—A. B. Armstrong, for defendant, moved to set aside statement of claim, as not disclosing any cause of action. G. B. Hodgson for plaintiff, E. W. Wherry for other defendants. Motion enlarged before a judge under C.R. 784, on 12th inst.

Reeves Brothers v. Hunt Engineering Company—A. G. Ross, for plaintiff, moved for order allowing issue of judgment writ for service out of jurisdiction. Order made.

Re Canadian Home Circles and Margaret Scott.—N. Somerville, for plaintiff, moved for order allowing payment into court of \$1400. W. R. Webb for Mrs. Hodgson, A. A. Adams for three other claimants. Order made for payment in less costs fixed at \$240 to abide further order.

Macdonald Manufacturing Company v. Espey—Anger (Elliott and H.), for plaintiffs, obtained an order for substitution of service of writ on defendant's wife.

Judge's Chambers. Before Middleton, J. Re Heynes—Hatton (Rowan and Co.), for O. J. Heynes, obtained an order modifying certain building restriction.

Single Court. Before Latchford, J. St. Clair v. Stanley—E. J. K. C. C., for plaintiff, moved for an order committing defendant Rogers to the common jail, and for sequestration against the defendant company. A. H. Hassard for defendants, The Jack Canuck Publishing Co., J. R. Rogers in person. Judgment: The defendants are ordered to pay to the plaintiff, as their counsel, as stated in orders of Dec. 19, that until trial of this action nothing would be published in their newspaper in any way defamatory of the plaintiff, or tending to prejudice the minds of the public against him. The undertaking was given with the knowledge of Rogers and may therefore be enforced against him by process of contempt, and against the publishing company by sequestration. The statements made by counsel for the accused at the trial of Rex v. Starr, as published in the newspaper of defendants, now before me, are grossly defamatory of the plaintiff. I express no opinion as to whether the counsel who made such statements are or are not protected, etc. What is material is that the defendants published the language used by counsel, with other defamatory statements regarding the plaintiff, and at least one reference to the present action, which could not but tend to his prejudice at the trial. There can be no doubt upon the facts, unquestioned before me, that the defendants have acted in breach of their undertaking, and in contempt of court. Mr. Rogers is liable to commit, and the publishing company to a writ or order of sequestration. As Mr. Rogers was a layman I allowed him the widest latitude in opposing the motion, and did not interfere with him when his language exceeded the bounds of propriety, as it frequently did. Had I imagined that he would upon leaving my chambers have published any part of his intemperate argument, I should have restricted him closely to the issue, and not have afforded him any opportunity of opposing a report of the proceedings to repeat with additions and defamatory statements he had published in his newspaper. He has, however, expressed some more his regret and apologized for what he considers his inadvertence. I am a little skeptical as to his good faith; but giving him and the defendant company credit for their professions, I do not at present make any order further than that the defendants Rogers and the publishing company pay forthwith to the plaintiff the costs of and incidental to these motions. It is, perhaps, needless to express the hope that no occasion will be given for a renewal of the present applications.

Before Middleton, J. Re Modern Home Manufacturing Co. v. R. J. Gundy for L. M. Dougherty and R. J. Gundy in appeal from report of master-in-ordinary. H. S. White for defendant. Enlarged until 13th inst. at applicant's request.

Labatt v. White—H. S. White for defendant on motion for order setting aside judgment. W. R. Smyth, K.C., for plaintiff, enlarged at plaintiff's request until 15th inst.

Bank v. Traders' Securities Co.—G. Cooper, for plaintiff, moved to continue injunction restraining the Sterling Bank of Canada from negotiating or otherwise parting with or dealing with certain promissory notes made by plaintiff in favor of defendants. E. W. White for Sterling Bank. On Sterling Bank undertaking not to make any further advances on said notes, and not to part with same, injunction continued, subject to the lien for advances of some \$300 already made by

PROPOSAL TO PUT CURB ON METHODS OF "HIGH FINANCE" STRONGLY BACKED IN HOUSE

Broad Question Raised by W. F. Maclean, M.P. With Regard to R. and O. Stock Issue, Leads to Spirited Debate — Premier Promises Special Investigation With View to Remedy.

OTTAWA, Feb. 10.—(Special.)—Never has the house of commons displayed more interest in progressive proposals for curbing economic evils attendant upon stock watering and "melon cutting" than in committee of the whole, the house considered the bill authorizing the Richelieu and Ontario Navigation Company to increase its capital from ten million to fifteen million dollars.

The debate was opened by W. F. Maclean, M.P., who introduced the proposed new issue of capital stock to be offered for sale at public auction, and in no event to be sold for less than its market value. Mr. Maclean discussed the "melon cuttings" of the past, dwelling at length upon the real estate speculation of the Canadian Pacific Railway company in allotting new stock to its shareholders at \$175 worth for at least \$250. He made the startling charge that the Canadian Pacific had bargained with the Bank of Montreal upwards of sixty million dollars, which is being used to keep up the price of C.P.R. stock on the Wall Street market.

In the debate which followed many members of the house expressed themselves as favoring the principle embodied in Mr. Maclean's contention, but Mr. Bennett of Calgary thought the remedy was to be found in the creation of a commission, which should supervise all stock issues of public utility corporations.

Major Sam Sharpe (N. Ontario) declared his intention of supporting the Maclean amendment, as also did Mr. Carvell, the Liberal member for Carleton Place. Hon. Frank Oliver, Hon. H. B. Mumford, Mr. Turritt and other Liberals sided with Mr. Maclean, and at times the debate developed some party spirit, and even personal animosity between members of the government and members of the opposition.

Borden Considers Remedy. Hon. R. L. Borden announced that the subject introduced by the member for St. John's was under consideration by the minister of agriculture and that the government was disposed to favor progressive legislation.

The bill was finally allowed to go through committee, but it did not get to the third reading tomorrow. Mr. Maclean will probably press the amendment above referred to, but it is not clear how far it will go, in order to meet the views of several members who agreed with him in principle, he would like to prepare an amendment making all stock issues subject to the railway commission.

Big Principle at Stake. Mr. W. F. Maclean, in closing the discussion, said he had no interest in or prejudice against the Richelieu and Ontario Navigation Co. It was not his intention to single out that company, but it was important to the public welfare to establish a public policy to which all public utility corporations should conform. As the representative of South York he was interested, however, in seeing that the R. and O. Co. was not burdened with the same restrictions as the Niagara district, carrying Niagara power not only to Hamilton and Toronto, but to the entire east and western Canada. The fruit growers of Niagara were interested in securing reasonable freight rates.

It was assumed that the rates charged the public bore a direct relation to the capitalization of the carrier. Stock watering, melon cutting, and the like meant an increased burden upon passenger and freight rates. It was, therefore, in the public interest that the capitalization of railway, telegraph, telephone, express and steamship companies should be under governmental regulation and supervision.

New Ottawa Service.

Sir William Mackenzie, president of the Canadian Northern Railway, is responsible for the announcement that the Canadian Northern will commence a train service between here and Ottawa this June. This does not mean that the line between Toronto and Ottawa will not be completed before that date, however, and it is altogether probable that the train service between the two cities will be in operation early this spring.

Hon. Joseph Chamberlain, who was one of the apostles of public ownership.

The Gazette had further stated that if four members of the house stood up with Mr. Maclean to demand a vote upon his proposed amendment, the house of commons would fall in public estimation.

Promises of Support. "Can it be," asked Mr. Maclean, "that there are not four members of the house who will advocate the regulation of stock issues, and who are opposed to watered stock, and stock melons?"

At this point a number of members called out that they were prepared to support the Maclean amendment. The Canadian Pacific Railway Co., Mr. Maclean declared, held \$60,000,000 with the Bank of Montreal, which was being used on Wall Street to keep up the price of C.P.R. stock. If the bill before the house passed without amendment it would mean a free hand for all corporations to issue all the stock they desired for any purpose they saw fit and at any price.

There were two ways to deal with this difficulty, in Mr. Maclean's opinion. One was to put the matter of new stock issues under the railway commission, or a public utilities commission, as in New York. Another was to adopt the amendment which would move on the third reading, requiring the stock to be sold at auction, and in any event for not less than its market value.

Speaks for the West. Mr. Turritt (Assiniboia) said he wished that all the farmers of the west could have been present in the chamber and heard Mr. Maclean's speech. The R. and O. was proposing to issue \$5,000,000 of stock to complete a big merger, which had already contributed to the westward movement of shipping grain from six to eight cents a bushel. The west had a big crop last year, but the net returns had been small.

Mr. Bennett (Calgary) went after Mr. Turritt roughly, denouncing him as a company promoter, more interested in the money than in the law than in obeying it. He (Mr. Bennett) had at one time favored Mr. Maclean's proposal of selling stock by auction, but now he believed that it was impracticable.

Cites Consumers' Gas Case. Mr. W. F. Maclean: "It is the plan successfully followed by the Consumers' Gas Co. of Toronto. The stock sells at a higher price every year and the rates charged to the public are being reduced year by year." (Applause.)

Mr. Bennett made a trifling disclaimer by this example, said that stock could not be listed on the stock exchanges of London, Paris and Berlin if the requirement of an auction sale was insisted upon. He recommended the appointment of a royal commission to enquire into the subject and thought that a "commerce court" should be instituted to regulate capitalization.

Critics of the big corporations he deplored as tending to hurt their credit to the great injury of the farmer and the wage earner on the railways. Mr. Mackenzie (Cape Breton) took exception to the somewhat violent language used by Mr. Bennett. Every saloon, he said, hired a man with loud voice and a strong arm, called the "chucker out," and he thought that Mr. Bennett was occupying a similar position under the government.

Mr. Carvell, the Liberal member for Carleton Place, said that in New Brunswick the telephone companies were only allowed to earn an eight per cent dividend.

Former Government Kind. Mr. Middleboro (North Grey) pointed out that the Companies Act allowed the R. and O. to do this. This act had been passed by the Laurier government. That government had also permitted the Richelieu and Ontario to increase its capital in 1908.

Mr. R. L. Borden: "And again in 1911." (Applause.) Hon. H. B. Mumford pointed out the distinction between private corporations and public utility corporations, and Hon. Frank Oliver said it was quite immaterial what had been done in the past. The question before the house was what was to be done now. Did the company propose to use its increased capital to expand or to restrict shipping facilities? People of the west were angry and tired of mergers, monopolies and melons. It was the farmers and the wage earners who paid the price for the financed finance now rampant in Canada.

Not Party Issue. W. F. Maclean deprecated all personalities and all political partisanship. He was carrying out the wishes of his constituents, irrespective of party. He admired the Richelieu and Ontario Co. and thought it should be encouraged as a competitor to the railways. Mr. Borden said the amendment was a good one, but until such legislation passed, the amendment which he proposed should be inserted in every bill authorizing a public utility corporation to increase its capital.

pointed out during the debate. To this end, a special committee of the house would be appointed to enquire into the subject of over-capitalization of public utility corporations.

NORTHERN MEXICO UNDER ARMISTICE

Rebel Leader Asserts Revolution Has Triumphed and Disorders Have Ended.

EL PASO, Tex., Feb. 10.—(Can. Press.)—An armistice practically exists between federal and rebel forces in northern Mexico pending settlement of the Mexico City trouble. This is admitted by rebel agents here and federal commanders in Chihuahua State.

Assurances that American lives and property would be protected in the districts under his charge came today from Gen. Antonio Rabago, chief of the northern military zone, with headquarters at Chihuahua City. The message was transmitted to Washington by Gen. Consul Thomas Edwards. General Rabago recommends that order be kept by all troops in the zone, with especial emphasis on the safety of foreigners, until some solution is reached in the political situation occasioned by the Mexico City mutiny. The attitude of federal army officers is one of reserve and defence of any government that may be generally recognized through the Republic. Rebel representatives along the border are equally confident that no disorders will occur, declaring the revolution has triumphed through the mutiny at the national capital. Local rebel units today sent messages to all rebel chiefs in the north relating what occurred at Mexico City, and recommending that the rebels remain inactive, only defending their positions against assault by federals. The federals also, it is declared, will remain in their positions in the principal cities.

PROF. JOHNSON DIED SUDDENLY

Educationalist of Montreal Passed Away While on Business at Ottawa.

OTTAWA, Feb. 10.—(Can. Press.)—Prof. Alexander Johnson, B.A., M.A., LL.D., a distinguished educationalist of Montreal, died suddenly here at seven o'clock tonight on the piazza in front of the G. T. R. Station, from which he had just come after alighting from the Montreal train. He was being escorted and fall by P. C. Strutt, who, with the assistance of some bystanders, carried him into a nearby drug store, where life was found to be extinct. In the pockets of the deceased was found a memorandum of a meeting in the senate committee room tomorrow, which he had evidently come to the capital to attend. He was born in Ireland and was in his 75th year.

When Appetite Fails and Digestion is Bad

There is Danger Ahead for the Man That Neglects Nature's Warning. Dyspepsia Tendencies Are Serious and Should Be Treated Accordingly.

There is a strong moral in the statement of James Schrum of Pleasant street, Dartmouth, N.S. Like thousands of people he was falling in health because his stomach and digestive organs were out of repair. His vitality was slipping away; he was losing ground every day. "I could not have held on much longer. I was wasting away simply because he really used good food and strength to my stomach. The vital forces of my system seemed to be running away from me. I was advised to try Dr. Hamlin's Pills. My hidden weakness searched out I don't know, but in a miraculous way they have made a new man of me. My stomach troubles are cured, rich blood runs through my veins—clear skin and unmistakable evidence of health and vigor. I feel strong every day. Dr. Hamlin's Pills have certainly mastered the secret of curing the sickly nervous man and I strongly urge everyone in falling or lost health to use this grand remedy." Dr. Hamilton's Pills of Mandrake and Butternut are purely vegetable and contain no opiates, and are sold by druggists and storekeepers, or postpaid from the Catarhospice Co., Buffalo, N.Y., and Kingston, Ont.

GERMANY'S DESIGNS FEARED IN FRANCE

NEW YORK, Feb. 10.—(Can. Press.)—A cable to The Tribune from London says:

THE declaration by Admiral von Tirpitz that Germany would accept the British claim to a 60 per cent. superiority in naval power has aroused intense interest through Europe, an interest which has risen to excitement in France.

NEW YORK, Feb. 10.—(Special.)—In the police court here today Magistrate Masson gave judgment in the case of Michael Rordian, Patrick Gavin, William Coombs, Hector Boston and Albert Gray, the youthful quintet from Toronto, who pleaded guilty to stealing clothing, tobacco and other articles from a G. T. R. car. His worship stated that owing to the fact that the boys were wanted in Toronto and they were but boys he would deal most leniently with them. He sentenced each to 30 days in jail at hard labor.

Brakeman Crushed to Death. WYOMING, Feb. 10.—(Special.)—A brakeman from Sarnia Tunnel, on way freight No. 72, was instantly killed in the Grand Trunk yards here at noon today. He was preparing a standing car to be coupled to one which the engine was backing down with and failed to notice that the draw bar of the moving car had fallen, and was crushed between the two cars.

hers or potential er duty to pro- iden as well as of women is to sition. Things are too rum- ment, and to single out that company, but it was important to the public welfare to establish a public policy to which all public utility corporations should conform. As the representative of South York he was interested, however, in seeing that the R. and O. Co. was not burdened with the same restrictions as the Niagara district, carrying Niagara power not only to Hamilton and Toronto, but to the entire east and western Canada. The fruit growers of Niagara were interested in securing reasonable freight rates.

It was assumed that the rates charged the public bore a direct relation to the capitalization of the carrier. Stock watering, melon cutting, and the like meant an increased burden upon passenger and freight rates. It was, therefore, in the public interest that the capitalization of railway, telegraph, telephone, express and steamship companies should be under governmental regulation and supervision.

Mr. Maclean proceeded, encouraged by cries of "Hear, hear," from many members, to explain the last stock issue of the Canadian Pacific Railway Co. That company had gone into the market last summer ostensibly to raise \$60,000,000, although it is more than that much money in treasury or on deposit at the bank. Instead of borrowing the money at four per cent, it issued common stock carrying ten per cent interest, which had not been sold at its market price, but had been allotted to shareholders of the company at an enormous discount. The result that the shareholders had divided among themselves a financial "melon," amounting to \$50,000,000, and laid an enormous burden of \$2,000,000 per annum in perpetuity upon the patrons of the road.

"Now," Mr. Maclean continued, "this parliament and the government must today solve this problem of stock watering and melon cutting. Shall the Richelieu and Ontario be allowed to go on a large scale, or shall we say to both companies and to all transportation companies that all issues of new capital must yield their full value and be applied exclusively to improving the service or lowering the rates?"

Handing Out Bonus Stock. Mr. Maclean said that the practice had grown up in Canada of giving bonus stock to the purchasers of bonds and securities, and that this had come to look for this kind of bonus stock, which was sweated out of the public. The English investor had come to look for this kind of bonus stock, which was sweated out of the public. The English investor had come to look for this kind of bonus stock, which was sweated out of the public.

Mr. Borden said the bill before the house did not differ materially from many bills which had been passed by this and preceding parliaments. It was a common thing for corporations to issue securities to parliament for authority to increase capital stock. At the same time the question raised by the member from South York and discussed by many other members during the day was undoubtedly one of great importance. It had been engaging the attention of the government for some time past. It bristled with difficulties, but none the less it would be the effort of the government to bring down legislation which would meet many of the evils which had been

SKYLINE LIMIT PROBABLY WILL BE FIXED AT 200 FEET

Council at First Unable to Make up Its Mind on Skyscraper Question—Sent Two Hundred Foot Recommendation to Property Committee—McConkey Hotel Approval Stands.

It doesn't take long for the city council to change its mind, and no proposition is sure of life unless the proposed legislation is actually printed in the minutes of the last regular meeting and signed by the mayor.

Yesterday the proposed skyline limit for downtown buildings, more particularly in the high pressure district, was alternately fixed at 250 feet and 200 feet, up from the boulevard. Then a compromise of 220 feet was suggested.

city council that Toronto has reached its present size. The dimensions have been forced upon us. That is why I am supporting a wider Teraulay street.

"I am in favor of a skyline 200 feet up from the boulevard," said he. "That will be approximately three feet wider than the street; 250 feet will be just 16 feet short of four times the width, and that is too much."

Teraulay Street Will Be 86 Feet Wide

It is now definitely decided that Teraulay street will be 86 feet wide from Queen to Davenport road.

The general scheme for extending the street from College street to Davenport, 66 feet wide, stood on the order paper awaiting sanction of council.

MILLION DOLLARS PAID ON CORNER

Big Deal is on for Yonge Street Site—Conjecture as to Location.

MAY BE TRADERS BANK

This Building is on Market—Dominion Bond Building is Mentioned.

Yesterday a million dollar cheque was paid by A. E. Donovan, M.L.A., to the local superintendent of the Mutual Life Insurance Co. of New York.

Another guess is made at the Dominion Bank building at the north-west corner of King and Yonge streets in this building have been asked during the past week if they would consider moving, and if new quarters were secured by the Toronto Hydro-Electric system the installation of their system.

ELMWOOD LOTS AS INVESTMENT

More Than a Thousand Feet on Belt Line Sold Yesterday.

Several lots in Elmwood, a desirable subdivision west of Bathurst street, fronting the old belt line, were sold yesterday by Oliver-Reid and Company for prices averaging \$22.50 a foot.

TORONTO'S SLUMS SOLEMN WARNING

Galt Paper Says "Horrible" Conditions Call for Housing Reform Measure.

GALT, Feb. 10.—(Special).—In an editorial article tonight, headed "Horrible Housing Conditions," and discussing the slum situation in Toronto, the Reporter says: "And Toronto is often referred to as a city of home-loving people, and also as a large centre of population that is daily growing more beautiful and more orderly, from centre to circumference."

No More Neuralgia Headache Cured

A Journalist Tells of the Advantages of Keeping Nerviline Handy on the Shelf.

Fifty years ago Nerviline was used from coast to coast, and in thousands of homes this trusty liniment served the entire family, cured all their minor ills and kept the doctor's bill small.

Ward Seven

The Westdale Club held its monthly dinner at the Hotel Windsor last evening. The young people of St. John's Church entertained about 20 members of the sister chapter at St. Mary's, Dovercourt, in the parish house last night.

PALMISTRY. MRS. HOWELL, 512 Church street, Phone Main 5072. ed7

HATTERS. LADIES' and gents' hats remodeled, Richmond St. East. ed7

DISPUTE OVER WHO INTRODUCED BUYER

Case in Judge Winchester's Court to Decide Who Should Get Commission.

The sale last March of a subdivision property situated on the east side of Lakeview road at the corner of Lakeview avenue and owned by John Lovett has resulted in a court tangle which Judge Winchester is trying to unravel.

Mr. Lovett has already paid \$425 commission to Miller and Carter for the sale of the property and the Keers and Mabe, real estate agents of 88 Victoria street, are suing him for commission amounting to the sum he has paid Miller and Carter.

The property consisted of more than six acres of land. Fred B. Shand was the purchaser and the title to the court is called upon to decide whether it was thru Keers and Mabe or Miller and Carter that Shand was found. The property was sold for \$17,000, and the commission was figured at 2 1/2 per cent. Councillor Miller of York Township gave his testimony yesterday. Hall, Payne & MacBeth are acting for the plaintiffs, and Duncan, Grant & Skean for the defendant.

Welland \$210 Return, Via Canadian Pacific Railway, Wednesday, Feb. 12th.

Account of the Canadian Automatic Transportation Company's Excursion. Tickets good leaving Toronto on 9:30 a.m. fast Express. Valid returning all trains Feb. 12 and 13. Special tickets, City Office, 16 King Street East.

D. Molitor, C.E., to Lecture on "Construction of the Panama Canal." The engineers and contractors of the city will have an opportunity of hearing a lecture of paramount interest to them when the University of Toronto Engineering Society will entertain Dr. Molitor, C.E., on "The Construction of the Panama Canal," on Wednesday, Feb. 12, at 7:15 p.m. in the physics hall. The same lecture was delivered by Mr. Molitor before the American Society of Civil Engineers in New York about a month ago. His talk will be illustrated by very instructive and interesting slides, so that it will be exceedingly interesting to the general public as well as to engineers. An invitation is extended to all.

University Glee Club. Following is the program to be given tonight in Convocation Hall by the University of Toronto Glee Club: "The Old Brigade" (Wetherly); "Hymn to Night" (Beethoven); "Vintage Song" (Mendelssohn); "The Gossamer" (Bridge); "The Blue and White" (Bush, composer, conducting); "Kentucky Baba" (Gelbel); "All Thru the Night" (Boulton); "The Long Day Closes" (Sullivan); "Bedouin Song" (Foot); special, Pilgrim's chorus, "Vintage Song" (Mendelssohn); by Toronto String Quartet: "Andante" (Rauhencker); "Moto Perpetuo" (Ries); "Largo and Finale" (Haydn); "Allegro" (Dvorak); special, Saint Saens' "Serenade" for piano, organ, violin and viola, played by Miss Treacy, Dr. Anderson, Mr. Blackford and Mr. Smith. WHEAT IS LOWER ON CROP ADVICES

Rains in India and favorable weather in U.S. influence market.

CHICAGO, Feb. 10.—Wheat prices took a down turn today owing to rain reports from India and because of mild weather in the United States winter crop.

The close was easy at 1-8 to 1-10 off. Oats unchanged to 1-8 lower and provisions dearer by 5 to 22-1/2c.

Wheat gave way grudgingly to a few fractions at a time. The reason was the rainfall the general had been light.

In addition there was fear of renewed rains in coarse grain. However, the market could not withstand the gradual effort of selling due to the external conditions in various ways.

Considerable attention was also given to a big increase of the number of cattle in the passage. Rally Toward Close.

Smallness of grain in the visible supply brought about relative firmness during the last part of the session.

At no time, though, did the market get back to last week's closing. Hogs, however, were heavy.

Huge receipts of hogs in heavy, and no need to Argentina. On the other hand, oats during most of the week showed more activity and strength than had been the case in a long while.

Sellers of July corn bought September oats freely, a fact which led to much spreading between the various months.

Provisions rose on large exports and hogs quickly grabbed offerings when the market experienced a temporary dip.

Northwest Receipts. Receipts from the northwest points, with usual comparisons, follow:

Chicago, Yester. Week Year. Wheat, 1,400,000 1,200,000 1,200,000

European Markets. The Liverpool market closed flat to bid higher when the market was in a corn. Paris wheat closed 3 1/2c lower.

World's Shipments. The weekly shipments, with usual comparisons, follow:

Wheat, 1,400,000 1,200,000 1,200,000. Corn, 1,400,000 1,200,000 1,200,000

United States Visible. Visible grain supplies in the United States today, last week and a year ago compare as follows:

Wheat, 59,816,000 64,859,000 61,230,000. Corn, 10,113,000 9,717,000 12,322,000

Winipeg Markets. Prev. High. Low. Close. Wheat, 85 85 84 85

Chicago Markets. J. P. Block & Co., Standard Bank Building, report the following prices on the Chicago Board of Trade:

Wheat, 94 94 93 94. Corn, 30 30 29 30. Oats, 25 25 24 25

CHICAGO GOSSIP. Nell, Beatty & Co. had the following: The trading furnished no sensation.

CATTLE STEADY IN MONTREAL MARKET

Hogs, However, Were Firm at Another Advance—Quality of Stock Was Improved

MONTREAL, Feb. 10.—At the Montreal Stock Yards west end market, the receipts of live stock for the week ended Feb. 8 were 1400 cattle, 200 sheep and lambs, 2300 hogs and 400 calves.

The movement in the cotton group was contrary to the trend of prices thru the rest of the list. C.P.R. after Canadian Cottons preferred, concurrently rose 1-2 to 78-1/4 and Montreal Cottons 3 points to 83, the latter falling back, however, to 82.

There was no important change in the condition of the market for cattle as compared with the day week, prices being firmly maintained, owing to the fact that the supply was in excess of the requirements, and the percentage of the quality of the stock offered was better than it has been for some time.

LIQUIDATOR'S SALE

Of the Assets of Canadian Gas Power and Launches, Limited, Manufacturer of Stationary and Marine, Gas and Gasoline Engines, and Motor Launches, Dufferin Street, Toronto.

Tenders will be received, addressed to John MacKay, Liquidator, 85 Bay Street, Toronto, marked: "Tender re Canadian Gas Power and Launches, Limited," up to four o'clock p.m., of the 8th day of March, 1913, for the purchase of the following assets of the above-named Company:

PARCEL NO. 1: (1)—The valuable freehold property in the City of Toronto upon which the Part of Lot Number Eighty-one (81), and all of Lots Numbers Eighty-two (82), Eighty-three (83), and Eighty-four (84), and part of Lot Eighty-five (85) on the East side of Dufferin Street, and Lots Seventy-six (76), Seventy-seven (77), Seventy-eight (78), Seventy-nine (79), and part of Lot Eighty (80), on the West side of Mowat Avenue, all according to registered Plan Number 584 (as amended by Plans "1098" and "1108"), which said parcels of land with more particularly described in the deed to the said company, and having a frontage of about 25 feet 11 inches on the East side of Dufferin Street, South King Street, and Mowat Avenue, and a frontage on Mowat Avenue of about 233 feet. The property is convenient to the right of way of the Grand Trunk Railway and the Canadian Pacific Railway, and is well served by street car lines. This land is rapidly appreciating in value. The lot is 241 feet 10 inches x 20 feet. The building is 155 feet x 10 feet x 40 feet, made of mill construction, with concrete walls to a height of five feet and concrete floors and splendidly lighted, which with annexes are valued by the Liquidator at \$27,855.00.

PARCEL NO. 2: (2)—The machinery, plant and general equipment in the said buildings, requisite for the complete manufacture of gas and gasoline engines, with all the tools, fixtures, and accessories, including special machines, and all the patterns, drawings, etc., set forth in Parcel No. 3, valued by the Liquidator at \$38,024.00 and which are more fully described in the inventory herewith attached.

PARCEL NO. 3: (3)—The special machines, tools, jigs, patterns, drawings, etc., necessary to carry on the business of manufacturing and supplying repair parts for the engines manufactured and sold by the Company, valued by the Liquidator at \$15,115.00.

PARCEL NO. 4: (4)—The stock of engine parts, manufactured and partly manufactured and the stock of raw and sundry materials, valued by the Liquidator at \$30,000.00. The manufacturing and repair equipment and the stock-in-trade included in this parcel comprise all that is necessary to enable the purchaser to carry on the profitable business of supplying repair parts for all engines manufactured and sold by the company. A list of the company's customers will be furnished by the Liquidator at the request of the purchaser of the parcel, who by reason of the purchase of the patterns, drawings, special tools and equipment, will acquire a natural monopoly of this profitable branch of the business.

PARCEL NO. 5: (5)—The stock of manufactured engines, valued by the Liquidator at \$18,885.00.

Tenders must be submitted for each parcel described above separately. TERMS OF PAYMENT.

AS TO PARCEL NO. 1: At least one-half of the amount of the purchase price shall be paid in cash by the purchaser on delivery of tender of possession and the balance shall be paid in five equal half-yearly instalments, the first of which shall fall due at the expiration of six months from the date of such delivery or tender of possession. The said balance shall bear interest at the rate of 6 per cent. per annum from the said date until paid, and it shall be secured upon the property and otherwise to the satisfaction of the Liquidator.

AS TO PARCELS 2, 3, 4, and 5:—At least one-half of the amount of the purchase price shall be paid in cash by the purchaser on delivery or tender of possession and the balance shall be paid in equal quarterly instalments, the first of which shall fall due at the expiration of three months from the date of such delivery or tender of possession. The said balance shall also bear interest at the rate of 6 per cent. per annum from the said date until paid, and it shall be secured to the satisfaction of the Liquidator. Printed notices containing further information as to conditions of proposed contract may be seen and blank forms of tender may be obtained at the Post-office of Ottawa, at the office of the Post-office Inspector at Toronto, and at the office of the Superintendent, Post-office Department, Mail Service Branch, Ottawa, 25th January, 1913.

JOHN MACKAY, Liquidator.

SYNOPSIS OF DOMINION LAND REGULATIONS

ANY person who is the sole head of a family, or any male over a year of age, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta.

The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions by father, mother, son, daughter, brother or sister of intending homesteader.

Duties—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within five miles of his homestead on a farm of at least 30 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price \$3.00 per acre.

Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including the time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for purchased homestead in certain districts. Price \$3.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$200.00.

W. W. CORY, Deputy of the Minister of the Interior, N.B.—Unauthorized publication of this statement will not be paid for—26858.

MAIL CONTRACT

Sealed tenders, addressed to the Postmaster General, will be received at Ottawa until noon on Friday, the 14th March, 1913, for the conveyance of His Majesty's Mails on a proposed contract for four years, six times per week each way, between Upland and Victoria.

Printed notices containing further information as to conditions of proposed contract may be seen and blank forms of tender may be obtained at the Post-office of Ottawa, at the office of the Post-office Inspector at Toronto, and at the office of the Superintendent, Post-office Department, Mail Service Branch, Ottawa, 25th January, 1913.

STOCK MARKETS NOT INFLUENCED MATERIALLY BY MEXICAN REVOLT

TORONTO MARKET WAS IRREGULAR

Brazilian and C. P. R. Were Lower, But General List Showed Firm Tone.

THE MONEY SITUATION

Stringency Prevented Speculative Enthusiasm—Huron and Erie Advances.

The continued tightness of money, the apprehensive feeling occasioned by the outbreak in Mexico and the absence of definite news regarding the crisis in the Balkans were the adverse factors confronting the Toronto Stock Exchange yesterday. It was only natural, therefore, that sentiment should have turned somewhat bearish. That several issues should have made definite progress toward higher prices in the face of these three influences was plainly an evidence of the sound position of the market.

Both Brazilian and C.P.R. showed a disposition to work toward lower values, but downward in those two issues was about the only sign of weakness in the whole list. Brazilian was off a couple of points to 98 5/8, and the range of prices for the day was limited to much smaller volume than usual, the quotations holding between 98 and 98 3/4 through the shares were down in London and the reaction followed as a matter of course. C.P.R. was not dealt in here, but in New York was off a couple of points, weakness in the European exchanges being responsible for the setback.

Some Issues Buoyant. The general list held on an even keel and at times showed indications of firmness, which was accepted as an augury of better things to come. Toronto Railway was up nearly a point to 141 3/4, and closed bid there. Canam advanced half a point to 79 1/2, a new high record for the present month. These shares were put at 8 per cent. dividend basis, and are still quoted relatively below other stocks paying a like amount. Steel Company was up a small fraction, and both Inverhale and Toronto Paper held very firm at their recent record levels.

BERLIN SOLD C. P. R. IN LONDON MARKET

Mexican Stocks Were Weak, and General List Irregular—Bank Took African Gold.

LONDON, Feb. 10.—Money and discount rates were steady today. The Bank of England secured most of the \$1,000,000 South African gold offered in the open market. The mining carryover occupied the attention of dealers on the Stock Exchange today, and trading otherwise was small at irregular price changes. Mexican shares were weak on revolutionary news, and telephone stocks were flat, but copper closed firmer. American securities opened steady, and a fraction higher, but realizing depressed values before midday. Later Amalgamated Copper improved on better trade reports, and Canadian Pacific declined a point under Berlin selling. The rest of the list slowly eased off and closed quiet.

C. P. R. WAS ONE OF THE WEAKEST SPOTS

C.P.R. was one of the weakest spots of the stock market yesterday, the shares dropping to 237 1/4 in the New York exchange. With the rights quoted at 18, that was an indicated valuation of 253 1/4 for the stock, with the rights added. This price is only a small fraction above the low record of 255 established during the memorable semi-panic in the Canadian markets on Saturday, October 12, last year.

MANY BIG PROBLEMS CONFRONT WALL ST.

Erickson Perkins and Co. (J. G. Beatty) wired: Stocks receded today, but with light selling pressure. Much of the selling probably represented offerings by traders who were disappointed at the difficulty in putting prices up. Various problems present themselves during February which have bearing on stocks. It is too much to expect more than a trading market unless we get some unexpectedly good news, such as peace in the Balkans or a decision in the Minnesota case favorable to the railroad.

THE TORONTO GENERAL TRUSTS CORPORATION

Notice is hereby given that the Annual General Meeting of the Shareholders of The Toronto General Trusts Corporation will be held at the Head Office of the Corporation, at the corner of Bay and Melinda Streets, in the City of Toronto, on Wednesday, the 5th of February next, at 12 o'clock noon, to receive and consider the annual report and financial statements of the Corporation for the year ended 31st December, 1912, to consider amendments to existing bylaws and to elect Directors for the ensuing year, as well as for the transaction of such other business as may be brought before the Shareholders. By order of the Board of Directors, J. W. LANGMUIR, Vice-President and Managing Director. Toronto, January 28th, 1913.

MANY NEW BANKS ACROSS THE BORDER

In January Sixteen National Institutions Opened Their Doors—Over Seven Thousand Now.

WASHINGTON, Feb. 10.—During January 33 applications to organize national banks were received. Of the applications pending 28 were approved and one rejected. In the same month 16 banks, with total capital of \$1,455,000 were authorized to begin business, of which number eight, with capital of \$205,000, had individual capital of less than \$50,000, and eight with capital of \$1,250,000, individual capital of \$50,000 or over.

On January 31, 1913, the total number of national banks organized was 10,321, of which 2,835 had discontinued business, leaving in existence 7,483 banks, with authorized capital of \$1,055,328,175, and circulation outstanding was \$750,451,769, of which \$20,550,148 was covered by lawfully secured bonds, \$729,901,621. The total amount of national bank circulation outstanding was \$750,451,769, of which \$20,550,148 was covered by lawfully secured bonds, \$729,901,621. The total amount of like amount deposited with the treasurer of the United States on account of liquidating and insolvent national banks and institutions which had reduced their circulation.

MARKET PROMISES TO DRIFT ALONG IDLY

The Minnesota rates case has yet to be decided, and until peace is declared in the Balkans, normal conditions on the exchange cannot prevail. The market will drift for a time, but business has slowed down to a less extent than would be considered probable. The present prosperity of the country of general business in the face of threatened tariff changes and administration turnover is assuring.—J. S. Bache & Co.

PRODUCTION RECORD OF MAYS OIL COMPANY

The report of the Mays Consolidated Oil Co. shows that the company produced and sold from June to November, 1911, inclusive, 68,081 barrels; December, 1911, to May, 1912, 128,879 barrels; June to November, 1912, 217,175 barrels; January, 1913, 51,029 barrels. On Feb. 2 there were 2018 barrels in tanks, 4000 barrels in pumps. Mays Oil was speculated in quite extensively by Canadians a year or so ago, and it is understood that there is a good deal of stock still held by residents in Toronto.

NO FOOLING WITH PUJO COMMITTEE

WASHINGTON, Feb. 10.—George C. Henry, of Salomon and Co., New York, bankers, has been indicted on a misdemeanor charge by the district supreme court today, for refusing to give the house money trust committee names of twenty-four National Bank officers who profited by a syndicate formed to market stock of California Petroleum Oil Company.

EXPORTS OF GOLD LARGEST IN YEARS

NEW YORK, Feb. 10.—A total of \$6,550,000 gold was exported to Argentina and Paris from this city last week. That the largest amount that has been shipped from New York in any week since the closing week of April, 1910, when \$17,000,000 gold went out to England.

PRICES DECLINED ON DULL TRADING

Severe Pressure Not in Evidence, But Tendency Was Downward.

REVOLUTION A FACTOR

Securities of Corporations Operating in Mexico Attacked by Bears.

NEW YORK, Feb. 10.—The undertone of the stock market weakened today and a number of representative issues, such as the Harrimans, Reading, St. Paul, Lehigh Valley and Smelting, dropped back a point or more. Speculation was marked by the lassitude which has prevailed recently, and one of the main subjects of the market was the revolution in Mexico. The market situation was somewhat less favorable. Outbreak of the revolution in Mexico led to some selling by the poor bank statement of Saturday. Another development which favored the bears was the tightening of money rates. Call money climbed to four per cent, the highest rate since the first week of the year. While there was no quotable change in time money rates, the tone was appreciably firmer. Foreign exchange rates were easier. Such a change in the money market was foreshadowed by the poor bank statement of Saturday, which showed that the surplus reserve had been virtually cut in two.

The Steel Orders Fall Off. The Steel corporation reported a decrease of nearly 100,000 tons in unfilled orders at the end of January, the first shrinkage since last March. The showing was in keeping with the general expectations and as the orders on hand are sufficient, it is estimated, that the decline was hardly considered of serious moment. Selling of Southern Pacific forced it still lower, the price touching 192, the bottom figure since 1908. A few specialties showed strength. American can rose over 7 points and Union Bag preferred 7 points.

TORONTO DIDN'T DO SO BAD AFTER ALL

Join Bull's Purse Closed With Snap—Municipalities' Float Short Term Notes.

LONDON, Feb. 10.—The public is unwilling to subscribe to new securities issues. The \$750,000 City of Winnipeg 4 1/2 per cent. bond issue was only one-quarter taken. The Toronto \$1,000,000 City of Toronto 4 1/2 per cent. bond issue was subscribed only 15 per cent. The Buenos Ayres Pacific Railway loan was subscribed 45 per cent., while the underwriters were expected to take 95 per cent. of the Terminal Cities of Canada Company 3-year loan. As a result, municipalities are borrowing on short bills. Montreal City has placed a line of six months' bills and Edmonton City has placed about \$2,200,000 for a similar period. The City of Liverpool got an average rate of a little over 3 1/2 per cent. on its \$250,000 bills.

WILL REOPEN THE BELMONT PROPERTY

Report Has It That Holding in Kerr Lake District Will Be Developed.

It is reported from Cobalt that work has been resumed on the Belmont property which adjoins the Drummond mine. An important vein has been discovered close to the Drummond line. This is 4 to 6 inches wide. The vein will be stripped and tested at different points. A shaft was put down some two years ago on this property to a depth of 100 feet or more. This was on a strong vein 8 inches wide and said to be near the contact. Work will likely be done at this point also, the other veins are a considerable distance apart. The Belmont is in the Kerr Lake district and only a short distance from the Crown Reserve and Kerr Lake Mines. It is known that negotiations have been passing with regard to this property, and with a view to fully examining the mine work will be continued, it is said, by the directors on this representation.

JANUARY RECORD OF THE NIPissing

COBALT, Feb. 10.—During January Nipissing mined ore of estimated net value of \$204,180, and shipped ore estimated at \$170,377 net. The decrease in shipments is due to the annual clean-up at the high-grade mill. At the Meyer vein a slope between 15 and 50 feet of milling ore is being opened up. Shaft 64 has reached a depth of over 550 feet, and in 100 feet station will be cut.

RUMORS AFOAT ON GREAT NORTHERN.

There are all kinds of rumors afloat on Great Northern, but the directors of the company refuse to either confirm or deny them. The stock was the good demand again yesterday, and a new high price of 120 was made. Even at this figure little of the stock could be had, and buyers will have to pay more if they want their orders filled. The continuous steady demand for the shares was difficult to trace, but it was believed on the exchange that the buying was well informed.

MINING MARKET GOT OFF TO GOOD START

Week Began in Blaze of Glory—Pearl Lake Was the Leader.

Mining stocks showed their heels once again in the stock markets yesterday, some half a dozen of the leaders moving up to higher prices. At times some irregularity was shown, and one or two recent favorites developed a weaker undertone, with traders taking profits, and thereby depressing values. On the whole, however, the list was resilient, and gave an excellent account of itself. In point of activity the week got off to a good start, the trading being fully up to the record volume in Pearl Lake, inspired by the cutting of the big vein at the company's property at the 900 foot level, was the most significant feature of the session. The shares moved up a full five points to 55, a new high record in years. During the afternoon the price was carried lower by profit-taking, and a portion of the advance was lost, but at the close no stock was closing under 55. The buying was of an excellent nature and plainly represented accumulation.

The Silver Issues Resilient. Further upturn in some of the Cobalts attracted a good deal of attention as evidencing the fact that the public were willing to pay higher prices, if necessary, for their stock. Great Northern, Hargraves, Beaver and Kerr Lake were all improved. The latter reached 38.45, its highest level since 1911. Great Northern and Hargraves both attained new high records for the movement. The movement in Heaven was viewed as rather significant, as this was the first time that these shares had shown any buoyancy in weeks. The quotation was raised nearly two points to 43, a new high for the month. City of Cobalt was weak at a decline of over a point to keep the mills busy for eight months, the decline was hardly considered of serious moment.

Selling of Southern Pacific forced it still lower, the price touching 192, the bottom figure since 1908. A few specialties showed strength. American can rose over 7 points and Union Bag preferred 7 points. Further upturn in some of the Cobalts attracted a good deal of attention as evidencing the fact that the public were willing to pay higher prices, if necessary, for their stock. Selling of Southern Pacific forced it still lower, the price touching 192, the bottom figure since 1908. A few specialties showed strength. American can rose over 7 points and Union Bag preferred 7 points.

PEARL LAKE IS NOW MINE OF FIRST RANK

President Burr E. Cartwright of the Pearl Lake Gold Mines returned to Toronto from Porcupine yesterday highly elated with the success of the company in striking up the big vein at the 600 foot level. "By Saturday at midnight we had gone 12 feet into the vein," said Mr. Cartwright to the World, "and it looked as if it would continue much further. At the 400 level it was about 23 feet wide, and we expect it will show up about the same at the greater depth. Complete assays will be available within a few days, and if they meet our expectations the property will have been shown up as a mine of the first rank."

COBALT SYNDICATE UNDERWRITING

In an effort to procure for our clients and the investing public an ownership in what is considered the choicest location in the producing area of the famous Cobalt Mining Camp, we are forming a syndicate to take over the patented mining property, comprising about twenty-five acres, adjoining the well-known Crown Reserve and Nipissing Mines and in close proximity to the Kerr Lake, La Rose and Drummond Mines. According to mining experts, this mining property, under judicious development, should bring into eight large bodies of silver ore, and sufficient development work has already been done on this property to convince us of its becoming a shipping mine and one which will, like its neighbors, pay handsome dividends to those who come in on this initial offering.

PROPERTY AND LOCATION Formerly known as the Coleman-Michigan-Cobalt, held under Crown Patent from the Ontario Government, located in the very heart of the producing area of the Cobalt Camp, bounded on the north by the White-Silver and Farah Mines; on the east by the Imperial Crown; on the south and southeast by the Crown Reserve, and on the west by Cobalt's premier property, the "Nipissing." The rock formation, according to government geologists, is identical with that of the major portion of the producing mines which adjoin.

THE PLAN We have underwritten, and offer, for private and public subscription, 600 syndicate memberships at \$100 each, and each membership will receive 1400 shares of the fully paid-up and non-assessable stock after allotment, or, at the rate of about seven cents per share in the company to be incorporated under the Ontario Companies Act, and known as

"CENTRE OF COBALT MINES, LIMITED"

FACTS TAKEN FROM AND BEING COPY OF STATUTORY INFORMATION, DATED FEB. 10th, 1913, FILED WITH THE PROVINCIAL SECRETARY. THE COMPANY to be formed is to have an authorized capital of \$600,000, divided into 2,400,000 shares of a par value of 25c each. By a contract dated Feb. 8th, 1913, C. R. Pope of Toronto, Mine Owner, agreed with McArthur, Wright & Co., Brokers, Toronto, to transfer the southwest part of south half of Lot 3, Con. 5, Coleman, to the Company for all its stock, to be distributed as follows: To Treasury, 65,000 shares; to Directors, when appointed, 25,000 shares; to C. R. Pope, 800,000 shares; and to McArthur, Wright & Co., for sale to syndicate members, 840,000 shares and commission, 11,000 shares. These 840,000 shares are to be sold to net \$400,000 (less 10 per cent. commission), net \$350,000, of which \$100,000 is to be paid to C. R. Pope and \$25,000 to the Coleman Cobalt Mining Co., Limited, of Toronto, being balance due on a contract of sale from it to Pope of the property, dated Dec. 16th, 1912, and \$50,000 to the Company for Treasury. It is provided that unless at least one-half of said 840,000 syndicate shares are sold and paid for at \$100 for 1,400 shares, the contract shall not be effective, and the Company will not go to allotment. All shares will be fully paid-up and non-assessable. Preliminary expenses estimated at under \$1000. Full information is contained in said contracts, which can be inspected at any time at the office of Day, Ferguson & O'Sullivan, 59 Victoria Street, Toronto.

ALGATE'S MAP OF PRODUCING AREA COBALT SILVER CAMP

McARTHUR, WRIGHT & CO. Members Standard Stock Exchange 88 YONGE ST. TORONTO, ONT. TEL. - M. 3272

OUR GUARANTEE

In order to safeguard the interests of all who take advantage of this exceptional opportunity, we guarantee to return all remittances if 50 per cent. of the offering is not subscribed and paid for; reserving the right, however, of returning all over-subscriptions and of making allotments in the order received. This assures success, all concerned, on account of this property's good and favorable location and the figure at which the shares are offered. We believe the subscriptions will be taken rapidly, and would advise you to act at once if you wish to secure shares at this low starting price.

DEVELOPMENT WORK

Two shafts have been sunk, 80 and 90 feet respectively, together with a large amount of stripping, trenching and test-pitting, but, according to expert opinion, the methods used in underground work were not intelligently carried out, therefore, impossible to show results; our motives are to carry on conscientious mining on this property in the interests of the shareholders, and not from a market viewpoint. This company will be listed on the Mining Exchanges in Toronto and Montreal soon after incorporation, and a substantial advancing market is anticipated, as the public is now alive to the great money-making opportunities this camp affords in substantial mining companies. We have a practical mining man to take charge and begin active operations, who knows every inch of this property. He states that, although approximately 30 feet away from a big vein containing silver values, no attempt was made to cross-cut from the No. 1 shaft to reach this vein at a depth of 90 feet.

OUR FIRST MOVE

We will begin to prove up this section as quickly as possible, and should this work open up, as is anticipated by the mine manager (a large body of ore), the stock should advance very rapidly, as did the Crown Reserve stock, which was put on the market originally at 10c per share, and whose record of dividends to their stockholders is unsurpassed by many companies in the world. This property has a larger area than the original Crown Reserve, and one of our shafts is within a stone's throw of their main workings, which have produced over six million dollars, and with cross-cutting and drifting, we expect to pick up their vein matter on our present market value, certainly warrants a higher market value than we ask for same in this first offering.

TREASURY RESOURCES

With the 600 memberships subscribed at the nominal sum of \$100 each, the property, which has residences, bank houses and other mining equipment intact, will be FREE AND CLEAR OF ALL DEBT, and the Company's treasury will contain \$30,000 in cash and 651,000 shares of stock, or a reserve, which, in our opinion, will be more than sufficient to bring the property to a producing basis. This is a flotation on which the public can be assured.

THEY ARE GETTING A FAIR DEAL

A strong directorate will be chosen and only those who hold large interests in this Company will be elected, thus further safeguarding the interests of all concerned. The famous Cobalt Mining Camp is amazing the steady English investor, as well as the Canadian and American public, with its immense returns; considering the location of this property, which is in the very centre of the producing area of dividend-paying mines, we believe we are conservative when we declare "ANOTHER SHIPPER MAY SOON BE ADDED TO COBALT" and unhesitatingly do we believe this to be the best undeveloped property within the producing area of this camp, as quantities of high-grade ore were taken out of the veins while stripping and trenching was in progress, will do the same this year, and possibly for many years to come, than all of the chartered banks of Canada combined, and the producing area covers a radius of less than four (4) square miles, and is only a night's journey from Toronto or Montreal.

\$100 BUYS 1400 SHARES; \$500 BUYS 7000 SHARES

Full information, including Algate's Revised Map of the Producing Area of the Cobalt Camp, which shows a total production of \$96,000,000 worth of ore taken out and dividends paid to the extent of over \$45,000,000, particulars showing the exact location of this property, will be furnished free, on request. Call, write or wire subscriptions immediately to

Mining Issues Soar to New Records --- Pearl Lake at 55

ANTHONY MINE MAKING HISTORY
Sturgeon Lake District is Rapidly Forging to Front—A Remarkable Record.

The Sturgeon Lake mining district is rapidly forging to the front and is making a remarkable record. It is the only district in the world where the ore is being mined at a depth of 800 feet and the body averaging 15 to the ton has been proven up for a distance of over 125 feet. This property has been under rigorous development work for more than two years, and is being operated by the Northern Gold Reef, controlled by George Glen, M. A. Kennedy, and A. T. Sturgeon, all three well-known business men of Toronto.

The St. Anthony mine is being developed on a scale of 100,000 tons of ore a day. It is the largest mine in the world and is being operated by the St. Anthony Mining Co., controlled by George Glen, M. A. Kennedy, and A. T. Sturgeon. The mine is being developed on a scale of 100,000 tons of ore a day and is being operated by the St. Anthony Mining Co., controlled by George Glen, M. A. Kennedy, and A. T. Sturgeon.

The St. Anthony mine is being developed on a scale of 100,000 tons of ore a day. It is the largest mine in the world and is being operated by the St. Anthony Mining Co., controlled by George Glen, M. A. Kennedy, and A. T. Sturgeon. The mine is being developed on a scale of 100,000 tons of ore a day and is being operated by the St. Anthony Mining Co., controlled by George Glen, M. A. Kennedy, and A. T. Sturgeon.

THE DOMINION BANK
SIR EDMUND B. USLER, M.P. W. D. MATTHEWS, Vice-President.
C. A. BOBERT, General Manager.

The Influence of a Savings Account
When you take in a few dollars or a few pounds, deposit it at once in a Dominion Bank Savings Account and draw it out only as you need it. It is far easier to save if you do for money in the Bank does not slip away like money in your pocket or at home. Besides, it is earning interest all the time.

TORONTO BRANCH: (W. K. PEARCE, Manager) (A. M. BETHUNE, Assistant Manager)

NEW MAP OF COBALT

About February 15th we shall begin the distribution of a new (non-promotion) map of the producing area in the Cobalt district, handsomely printed in three colors, mounted on tin, and presenting in addition to properties and their acreage, all available data regarding ore production, earnings, capitalization, dividend payments, price range on stock, etc., of the various companies of the Cobalt district. Requests for free copies of this map, to be mailed when ready, should be filed with us immediately.

The Robert Simpson Company, Limited

Knowing When to Buy

is as important as knowing when to wait for the better values. In the overcoat situation there can be very little doubt that the market has reached about its lowest point in price. Men with a value sense are buying the well made, well cut coats from our ready-to-wear section by the thousands. It rests with you to "let yourself in" on this undoubtedly profitable proposition.

Men's Warm Ulsters, \$7.95

Sturdy Winter Ulsters, made from dependable English tweed, in plain gray with diagonal weaves; cut in the fashionable ulster style, with two-way convertible collar, 50 inches long, good linings and careful tailoring. A big value at 7.95

MEN'S TWEED SUITS.

Fashionable Tweed Suits are in great demand. This one, made from a splendid English tweed, in brown and gray mixed pattern, is single-breasted style, has good linings, and is well made. Just the suit to wear now and into the spring. Price 10.50

(Main Floor)

Boys Appreciate Good Clothes

Did you ever notice that the "little savage" streak rarely comes out in your boy to the damage of his clothes when they are still fresh and "good looking"? Only when they lose their self-respect and begin to give way does the boy treat them carelessly. The well-clothed boy is the manly boy. The Suits described below are self-respecting suits that will please your boy quite as much as they will please you by materials, cut and workman ship.

Winter Suits for 275 Boys, \$4.95

TWO-PIECE NORFOLK AND DOUBLE-BREADED STYLES WITH BLOOMER PANTS.

Odd stock lines, special clearing lines, and travelers' samples from two first grade manufacturers; also broken lines and odd sizes from our regular stock.
